## GENERAL

The 1955-56 budget has been prepared along the same general lines that have been followed at the institution for the past forty-one years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of University Services, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1955, and ending June 30, 1956.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second of which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four-digit number and is assigned to the departments in order as shown in the Budget Index on page Index 83. The "Budget Number" is also a four-digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, Physical Plant, and Trust Fund departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For University Services Departments, the first digit of the "Budget Number" is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in Fund Index on page Index 77.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2020-1100 and the Income and Expense account on Support Fund is number 2020-2100. As previously stated, for University Services Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer and Centennial Halls for payroll, expense, or income on the University Services Fund is number 7015-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2020-1100 (Item No. 3, Department 2020, payroll budget on Support Fund).

## NONACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the nonacademic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the nonacademic positions established by this budget are in accordance with the "Class Specifications for Positions in the Classified Service" which were revised July 1, 1945, together with subsequent amendments printed and distributed to all departments of the University. All appointments and adjustments made during the year must conform to these specifications.

**REVENUE**

These general considerations as approved by the Regents have been made the basis for the 1955-56 budget:

1. University enrollment in the fall quarter is estimated to be 22,400 students compared to 19,650 estimated in the 1954-55 budget.
2. Plans were made for converting civil service pay ranges and classes to a new pay range plan approved by the Legislature for all state employees. Since the plan did not take effect on July 1, 1955, a reserve was established in the printed budget to provide funds for such a change at a later date.
3. A one step merit increase was given as usual to all eligible civil service staff members.
4. Allotments were made to each college and administrative unit for new positions, and academic salary increases. There were no across the board salary increases, however, new floors were established for assistant professors, instructors, teaching assistants and other equivalent academic ranks.
5. No general allotment increases were made for supplies, expense, and equipment or miscellaneous help budgets. Such changes could be made from funds allotted for new positions or from funds released by internal adjustments.

**For General Purposes—Unrestricted**

The funds for general purposes—unrestricted—increased \$1,830,410 over 1954-55. This is composed of the following: Increase in Maintenance appropriation, \$949,500; increase in the Permanent University Fund interest, \$56,000; increase in Swamp Land interest, \$6,403; increase in student fees for the regular session, \$712,008; increase in income from miscellaneous sales and discounts, \$12,619; increased income from overhead on contracts, \$195,000; increase in income from course and incidental fees, \$21,181; decrease in the estimated income from the 23/100 Mill Tax, \$17,250; and the elimination from the budget of the estimated income deficiency for the 1954-55 budget, \$105,051.

**For Special Purposes—Restricted**

The University appropriations for special purposes include the University Hospitals and various appropriations for research and public service.

The 1955-56 Federal Government appropriation totals \$1,910,279, an increase of \$596,462 over the 1954-55 appropriation.

University-dedicated income from all funds for instructional purposes increased \$674,193 in the 1955-56 budget. This includes a decrease in instructional Trust Funds totaling \$10,471.

The net increase in general funds from all sources for Administration, Teaching and Research, Extension and Maintenance totals \$3,034,718.

**For Special Purposes—Noneducational**

Funds budgeted for noneducational purposes include University Services funds, Revolving funds, and Trust funds. These are mainly revolving and self-balancing funds which because of their nature are not adaptable to a printed budget. These funds increased \$716,912 in the 1955-56 budget.

Changes in University Income from all sources are included in the following schedule:

|  | 2500 Charged with cost of postage, printing, uniforms, nurses' pins, entertainment and other miscellaneous expense. Credited with nursing services at Glen Lake Sanatorium, and reimbursements from other hospitals for their share in cost of maintaining the nurses based on the number assigned at the close of the quarter. A credit for \$125.00 is allowed the hospitals for each nurse housed and a debit is made for each nurse assigned, thus accounting for nurses assigned to a different hospital than that in which they were housed. The \$125.00 debit on registrations cancelled is prorated among the hospitals on the basis of assignments. |             |                                   |             |
