GENERAL

The 1957-58 budget has been prepared along the same general lines that have been followed at the institution for the part forty-three years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of University Services, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1957, and ending June 30, 1958.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second of which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four-digit number and is assigned to the departments in order as shown in the Budget Index on page Index 85. The "Budget Number" is also a four-digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, Physical Plant, and Trust Fund departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For University Services Departments, the first digit of the "Budget Number" is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in the Fund Index.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2140-1100 and the Income and Expense account on Support Fund is number 2140-2100. As previously stated, for University Services Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer and Centennial Halls for payroll, expense, or income on the University Services Fund is number 7015-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2140-1100 (Item No. 3, Department 2140, payroll budget on Support Fund).

NONACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the nonacademic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the nonacademic positions established by this budget are in accordance with the "Class Specifications for Positions in the Classified Service" which were revised July 1, 1945, together with subsequent amendments printed and distributed to all departments of the University. All appointments and adjustments made during the year must conform to these specifications.

REVENUE

These general considerations as approved by the Regents have been made the basis for the 1957-58 budget:

1. University enrollment in the fall quarter is estimated to be 27,200 students compared to 26,175 estimated in the 1956-57 budget.
2. Civil Service pay ranges and classes were converted to a new pay range plan on July 1, 1957. This plan was approved by the 1957 Legislature for all state employees.
3. A one step merit increase was given as usual to all eligible civil service staff members.
4. Allotments were made to each college and administrative unit for new positions, supplies, expense and equipment, and academic salary increases.
5. The allotment for academic salary increases consisted of two parts. The first part consisted of an allotment to equalize academic salaries at the University of Minnesota with nine comparable Universities. The second part consisted of an allotment for additional merit increases over the amount for equalization.
6. A 7½% across the board increase for all academic staff members was made within the salary increase allotments.
7. New floor for salaries were established for assistant professors, instructors, teaching assistants and other equivalent academic ranks.
8. All Civil Service miscellaneous help budgets were increased 7½%.

For General Purposes—Unrestricted

The funds for general purposes—unrestricted—increased \$4,754,333 over 1956-57. This is composed of the following: Increase in the maintenance appropriation, \$3,653,526; increase in the 23/100 Mill Tax, \$34,184; increase in Swamp Land interest, \$2,491; increase in the Permanent University Fund interest, \$58,870; increase in student fees for the regular session, \$834,006; increased income from overhead on contracts, \$161,696; increased income from miscellaneous discounts, \$481; increased income from temporary investments, \$60,000; and a decrease in income from course fees, \$50,921.

For Special Purposes—Restricted

The University appropriations for special purposes include the University Hospitals and various appropriations for research and public service.

The 1957-58 Federal Government appropriation totals \$2,136,056, an increase of \$223,264 over the 1956-57 appropriation.

University-dedicated income from all funds for instructional purposes increased \$827,365 in the 1957-58 budget. This includes an increase in instructional Trust Funds totaling \$52,068.

The net increase in general funds from all sources for Administration, Teaching and Research, Extension and Maintenance totals \$6,676,690.

For Special Purposes—Noneducational

Funds budgeted for noneducational purposes include University Services funds, Revolving funds, and Trust funds. These are mainly revolving and self-balancing funds which because of their nature are not adaptable to a printed budget. These funds increased \$975,985 in the 1957-58 budget.

Changes in University Income from all sources are included in the following schedule:
