1. All data in the report are based on the number of students registered as of the end of the second week of classes.
2. Ethnic background information of students comes either from application forms for admission or request for update of student ethnic data during fall registration. In both cases the supplying of ethnic data is optional.
3. Data for the years other than 1985 are taken from the 1984 Fall Quarter Minority Enrollment Report of the University of Minnesota.
4. The descriptions of the ethnic categories in the report are the latest version used by the United States Department of Education.
