

SECOND SUPPLEMENT TO
URBAN FORESTRY: A BIBLIOGRAPHY

J. Albrecht
P.J. Weicherding

Miscellaneous Publication 53-1988
Agricultural Experiment Station
University of Minnesota

**Second Supplement to
URBAN FORESTRY: A BIBLIOGRAPHY**

**Compiled by
Jean Albrecht and Patrick J. Weicherding**

University of Minnesota

**Agricultural Experiment Station
Miscellaneous Publication 53-1988**

St. Paul, Minnesota

As a Miscellaneous Publication of the Minnesota Agricultural Experiment Station, this publication is intended for a very limited and specialized audience. Initial distribution was made by the University of Minnesota Forestry Library, and copies will be available only until the initial printing is exhausted. For copies write: University of Minnesota Forestry Library, 203 Green Hall, 1530 Cleveland Avenue, St. Paul, Minnesota 55108.

Jean Albrecht is Assistant Professor and librarian of the University of Minnesota Forestry Library. Patrick J. Weicherding, a former Graduate Research Assistant in the College of Forestry, is Area Extension Advisor-Forestry, University of Illinois.

PREFACE

This publication is the second supplement to "Urban Forestry: A Bibliography" which was published in 1980 as Miscellaneous Publication no. 1 of the University of Minnesota Agricultural Experiment Station. The first supplement was published in 1982 as Miscellaneous Publication no. 16. The scope and subject arrangement of this bibliography remain the same as in the two previous publications.

Most of the publications referenced here are in the collection of the University of Minnesota Forestry Library. Photocopies or loans of these publications are available through the Interlibrary Loan Division, St. Paul Campus Central Library, 1984 Buford Ave., St. Paul, MN 55108. Copies of this and the two previous bibliographies are available from the University of Minnesota Forestry Library, 203 Green Hall, 1530 Cleveland Ave., St. Paul, MN 55108.

I want to thank the following for their able assistance in producing this bibliography: Theresa Surprenant, Laura Brinkmeier, Heidi Peissig, and Christine Ellertson, data entry operators, and Marian Eriksson, programmer.

Jean Albrecht
