GENERAL

The 1929-30 budget has been prepared along the same general lines that have been followed at the institution for the past seventeen years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1929 and ending June 30, 1930.

There are four changes to which attention should be called. The following notice was published in the official bulletin during the fiscal year 1928-29:

"On vote of the Administrative Committee of the Senate, and with approval of the Board of Regents, effective July 1, 1928, the four quarters of the year are divided for pay purposes as follows:

July 1 to September 30—Summer Quarter
 October 1 to December 31—Fall Quarter
 January 1 to March 31—Winter Quarter
 April 1 to June—Spring Quarter

"Under this plan the members of the staff teaching the first term of the Summer Session or Quarter will receive their compensation in three equal salary checks on July 16, August 1 and August 16. Likewise, salary checks for the second term of the Summer Session or Quarter will be delivered on September 1, September 16, and October 1.

"The members of the staff teaching the Fall, Winter, and Spring quarters will receive the first salary check for service in the Fall Quarter on October 16 and the last check for service in the Spring Quarter on July 1."

For three years the various departments, offices, and activities of the University have been designated by a code number in the printed budget. This change became desirable in connection with placing the accounting, both budget and general, of the institution on a tabulating machine basis. The budgets of the University have also been divided into sections and each department, office, and activity has been designated by a letter. The 1929-30 budget eliminates the Roman numeral section number and the distinguishing departmental letter, leaving only the departmental number. This number, assigned to each department, indicates the place of the department in the University organization. The first digit of the number indicates whether or not the department belongs in administration, general University, instruction and research, physical plant, etc. Departments of the University belonging to Administration have a first digit number of 0, General University 1, Instruction and Research 2 and 3, etc. The second digit number of the departments of instruction and research indicates the college or major unit of which they are a part. For example: The Department of Journalism has the number 2013. The first digit number 2 indicates instruction and research, 0 indicates the College of Science, Literature, and the Arts, and 13 is the number which identifies Journalism in the college. The important result of this change will be to bring the printed budget more into conformity with the annual financial report of actual receipts and expenditures.

The following standard terminology code is used in this budget. The distinguishing number is placed after the salary amount of the member of the staff and the reference is noted at the foot of the page:

- | | |
|-------------------------|------------------------|
| 1. Sabbatical leave | 6. Board and room |
| 2. Leave without salary | 7. Board only |
| 3. Leave of absence | 8. Lunches only |
| 4. Special appointment | 9. Residence furnished |
| 5. Full maintenance | 10. Board and laundry |

The 1928-29 printed budget listed the code numbers used on the tabulating machine cards to identify funds, departments, and budgets. Since the printed budget furnishes a permanent index to the accounting records of the year it has been deemed advisable to add to these, the code numbers indicating the type of entries made. These code numbers are designed to indicate such types of original entry as invoices, payrolls, requisitions for outside purchase, authorizations for work by the Department of Buildings and Grounds, journal voucher charges between departments, Chemical or General Storehouse issues, trust fund receipts, and the like.

The salary schedule and the classification of persons in the secretarial, clerical, and stenographic service of the University were printed in the budget summary statement of the 1928-29 budget and are not reprinted in this budget. Likewise the description of the change of status of Class "A" faculty members to a "BC" basis appearing in the 1928-29 budget is not reprinted in this one.

REVENUE

The following statement shows the estimated increased amount available for the various activities of the University in 1929-30. An examination of the statement indicates that \$165,000.00 is the additional amount available for the operation of the University Hospital, divided as follows:

Minnesota Hospital and Home for Crippled Children Fund	\$ 40,000.00
State and county share of the cost of indigent patients	100,000.00
Other receipts which include amount to be paid by the Student Health Service unit	25,000.00

\$48,532.00 is the additional amount available from Federal Funds, \$17,225.00 from the state for special purposes, and \$52,006.00 from student fees and other income of the institution.

The maintenance appropriation for the general support of the institution in 1928-29 was \$3,325,000.00. This amount included \$100,000.00 for the support of the University Hospital but did not include any amount for the support of the North Central School and Experiment Station, Grand Rapids, for which a special appropriation of \$25,000.00 was provided. The 1929-30 appropriation of \$3,225,000.00 for general support of the institution does not include the \$100,000.00 previously in the appropriation for the support of the Hospital, but it does include \$30,000.00 for the support of the North Central School and Experiment Station, Grand Rapids. The state therefore is providing for general support exclusive of special projects and the Hospital \$30,000.00 less than was provided in 1928-29.

EXPENDITURES

With the exception of appropriations and income available for the Hospital and special research projects the allotments in this budget represent a redistribution of the allotments made in the 1928-29 budget. The state provided for general support of the institution \$30,000.00 less. This decrease of \$30,000.00 has reduced the Regents' Reserve from \$100,000.00 to \$70,000.00. The following budgets have been eliminated

Development of Faculty Homesite.....	\$18,000.00
Special Book Fund	20,000.00
Special Equipment Fund	30,000.00

The following budgets have been reduced:

Unfilled Positions	15,000.00
Campus Improvements	16,000.00

The elimination and reduction of these budgets have made available approximately \$100,000.00. This amount has been allotted in the budget for salary adjustments and new positions, particularly in the instructional and research staff. The increased income from the Land Grant Fund and student fees together with the elimination of the heating plant stack budget has made available the \$40,000.00 needed for a new boiler in the heating plant to care for the increased heating load.

In the following pages are indicated the distribution of the estimated expenditures in detail among the several major divisions of the institution according to salaries and wages and supplies, expense, and equipment.

General and Military Deposits 7500					
Budget 3900—When enrolling in the University the student is required to make a cash deposit to cover use, loss or breakage of equipment owned by the University or Military Department, which is credited to this budget. The General Deposit is five dollars for all schools except the Medical School, the College of Denistry, and the College of Pharmacy, where the deposit is ten dollars. If the student is enrolled in the Military Department an additional deposit of ten dollars must be made. At the close of the school year the deposit less all charges will be refunded to the student. The charges are made by Journal Voucher in July of the following fiscal year and credited to the departments sustaining the loss.					
Chemistry Deposits 7501					
Budget 3901—Students doing laboratory work in chemistry must purchase Chemistry cards for which they pay five dollars. The credits for these sales are made to this budget. On this card is indicated the amount of the charges for chemicals and equipment used by the student. At the close of the school year the balance as shown by the Chemistry card will be refunded. The balance in this budget after all refunds are made is credited to the Chemistry Budget 2350.					
Biochemistry Deposits 7502
