GENERAL

The 1932-33 budget has been prepared along the same general lines that have been followed at the institution for the past twenty years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1932, and ending June 30, 1933.

In order to prepare the reports required for proper administration of the University, it has been found necessary to change the method of numbering accounts. Beginning July 1, 1931, all financial transactions have carried two account numbers, the first of which is known as the "Department Number" and identifies the department concerned. The second is known as the "Budget Number" and indicates which of the department's budgets is affected. This identification is uniformly used whether the transaction affects payroll items, supply, expense and equipment budgets, or income budgets. The "Fund Number" formerly used in connection with payroll is discontinued, being replaced by the payroll "Budget Number." The "Department Number" is, in most cases, the same as that which has been used in connection with payroll for several years. The "Budget Number" is entirely changed. It is always a four-digit figure, the first digit of which indicates whether the budget covers payroll, income, or supplies, expense and equipment budgets as follows:

- | | |
|--|--|
| 1. Payroll budget | 6. Special Supplies, Expense and Equipment |
| 2. Supplies, Expense and Equipment | 7. Income creditable to 6 |
| 3. Income creditable to 2 | 8. Special Supplies, Expense and Equipment |
| 4. Special Supplies, Expense and Equipment | 9. Income creditable to 8 |
| 5. Income creditable to 4 | |

Numbers 4 to 9 are provided for departments having one or more special budgets.

The last three digits of the "Budget Number" indicate the fund to which the budget belongs, such as:

100 Support Fund	404 Soils Investigations
200 Adams Fund	500 Service Enterprises
201 Hatch Fund	501 Intercollegiate Athletics
400 Agricultural Extension	

(A complete list of funds is contained in 1932-33 Printed Budget.)

For example a payroll budget on Support Fund is "Budget Number" 1100 and a supply budget on Support Fund is "Budget Number" 2100, while a supply budget on the Hatch Fund is "Budget Number" 2201. It is obvious from the above statement that such budgets as 1100 and 2100 may be found in nearly every department and therefore are not by themselves sufficient identification of an account. Both "Department Number" and "Budget Number" must be used, the "Department Number" being stated first and "Budget Number" second. Forms for requisitions, authorizations, invoices, cash receipt vouchers, journal vouchers, and transfers of funds have been changed to conform to this arrangement and are available at the General Storehouse. In the meantime the old forms can be used, by entering both the "Department" and "Budget" numbers in the space formerly used for Budget. For example, Department 2216 Budget 2100 may be written in the budget space as 2216-2100, the Department number always being written first. In connection with payroll transactions it has been customary to require the following information: payroll item number, department number *and fund number*. From July 1, 1931, it has been changed to payroll item number, department number *and payroll budget number*. The payroll budget number is given at the top of each payroll and each page in the printed budget.

Summer Session

The summer quarter budget, divided between the first and second terms, is included in the printed budget this year in the same manner as other departments and colleges of the University. Any changes in the printed budget will require the usual President's forms for appointments, resignations, transfers, or salary adjustments. The payroll covering each term should be prepared in sufficient time so that the checks may be ready for delivery on the last day of each session.

At the meeting of the Board of Regents on June 2, 1928, the following salary schedule and classification of persons in the secretarial, clerical, and stenographic service of the University were approved:

I. For those just entering university service:

	1st Yr.	2nd Yr.	3rd Yr.	4th Yr.	5th Yr. and After
Class 1.....	\$ 780	\$ 840	\$ 900		
Class 2.....	840	900	960		
Class 3.....	960	1,020	1,080		
Class 4.....	960	1,020	1,080	\$1,140	\$1,200
Class 5.....	1,020	1,080	1,140	1,200	
Class 6.....	1,200	1,260	1,320	1,380	
Class 7.....	1,380	1,440	1,500	1,560	
Class 8.....	1,500	1,600	1,700	1,800	

NOTE 1.—The above salaries are maximum. It is allowable for officials to engage persons at a lower salary than above stated in case a person is engaged who is not well prepared for the work and must be expected to grow into the position.

NOTE 2.—The above salaries are not guaranteed except upon recommendation of the head of the department concerned. The object of the schedule is to guarantee to department heads the approval of the higher salary if they recommend it but it is understood that it will not be recommended unless the work of appointee is satisfactory.

II. For those promoted from a position in one salary classification to a higher classification.

When a position is filled by the promotion of a person from a position of lower classification, the salary will be that indicated for the first year in the table above except where that figure is the same or less than the person is receiving in the lower classification. In such case, the person will be granted an increase of \$60 per year in salary when accepting the new position.

III. The year of service in the above schedules means the fiscal year from July 1 to July 1.

Provided a person employed from as early as November 1 will be regarded as having rendered a year of service by the following July 1st. Those employed after November 1st will not be qualified for advance in salary until the second succeeding July 1st, unless special exception is made for them at the time of their employment.

REVENUE

From State Funds

The year 1932-33 is the second year of the 1931-33 Biennium. The legislature provided an appropriation of \$3,275,000 for each year of this biennium.

The Millage tax estimate has been decreased \$10,000 over last year.

Other special appropriations of the legislature for the year 1931-32 only, as shown below, make a net decrease of \$96,500 from State Funds.

From Federal Funds

In the absence of specific information the budget has been prepared on the assumption that the revenue from Federal Funds will be the same as it was in 1931-32.

From University Income

The total decrease in income from the University itself amounts to \$35,205. Included in this is a decrease in the estimate of Student Fees of \$28,000, and a decrease in the estimate of Extension Division Fees of \$9,912. The estimate of the Permanent University Fund interest has been increased \$5,000. These and other miscellaneous increases and decreases are shown in the following statement.

EXPENDITURES

The 1932-33 budget contains no automatic or special salary increases. The clerical and stenographic automatic increases have been abandoned for the year. The salary, supply, expense, equipment, and improvement budgets of the administration, instructional and research departments from support, special state funds, and University income have been decreased \$131,705.

Of these savings there has been allocated for the University College \$545, and for the new Junior College \$11,900.

The service enterprise estimated income has been reduced \$122,560 and the allotments for salaries, supplies, expense, and equipment have been correspondingly reduced.
