**GENERAL**

The 1934-35 budget has been prepared along the same general lines that have been followed at the institution for the past twenty-one years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1934, and ending June 30, 1935.

All financial transactions carry two account numbers, the first of which is known as the "Department Number"<sup>1</sup> and identifies the department concerned. The second is known as the "Budget Number"<sup>1</sup> and indicates which of the department's budgets is affected. This "Budget Number" is always a four-digit number. For Balance Sheet accounts the first digit is a "0." For Administration, Instruction, and Physical Plant departments, the first digit indicates whether the budget covers payroll budgets, supplies, expense, and equipment budgets, or income budgets as follows:

- |  |  |
|--|--|
| 1. Payroll budget                          | 6. Special Supplies, Expense and Equipment |
| 2. Supplies, Expense and Equipment         | 7. Income creditable to 6                  |
| 3. Income creditable to 2                  | 8. Special Supplies, Expense and Equipment |
| 4. Special Supplies, Expense and Equipment | 9. Income creditable to 8                  |
| 5. Income creditable to 4                  |  |

For Service Enterprise and Trust Fund Departments, the first digit is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income, are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund"<sup>2</sup> to which the budget belong, such as:

100 Support Fund	404 Soils Investigations
200 Adams Fund	500 Service Enterprises
201 Hatch Fund	501 Intercollegiate Athletics
400 Agricultural Extension	

For example, an instructional department payroll budget on Support Fund is "Budget Number" 1100 and a supply budget on Support Fund is "Budget Number" 2100. Similarly, an instructional department payroll budget on the Hatch Fund is "Budget Number" 1201 and a supply budget on the Hatch Fund is "Budget Number" 2201. A Service Enterprise department operating budget, for both payroll and expense, is 2500, or 4500, etc. It is obvious from the above that there are similar budgets in many departments and therefore the "Budget Numbers" are not by themselves sufficient identification of an account. **Both "Department Number" and "Budget Number" must be used, the "Department Number" being stated first and the "Budget Number" second, as 2250-2201.**

In connection with payroll transactions, the following information is required: Payroll Item Number, Department Number, and Budget Number, as 7 - 2250 - 1201, or 7 - 7207 - 2500. The Payroll Item Number is given at the top of each payroll and each page in the printed budget.

At the meeting of the Board of Regents on June 2, 1928, the following salary schedule and classification of persons in the secretarial, clerical, and stenographic service of the University were approved:

I. For those just entering university service:

	1st Yr.	2nd Yr.	3rd Yr.	4th Yr.	5th Yr. and After
Class 1.....	\$ 780	\$ 840	\$ 900		
Class 2.....	840	900	960		
Class 3.....	960	1,020	1,080		
Class 4.....	960	1,020	1,080	\$1,140	\$1,200

Class 8.....	1,500	1,600	1,700	1,800	

NOTE 1.—The above salaries are maximum. It is allowable for officials to engage persons at a lower salary than above stated in case a person is engaged who is not well prepared for the work and must be expected to grow into the position.

NOTE 2.—The above salaries are not guaranteed except upon recommendation of the head of the department concerned. The object of the schedule is to guarantee to department heads the approval of the higher salary if they recommend it but it is understood that it will not be recommended unless the work of appointee is satisfactory.

II. For those promoted from a position in one salary classification to a higher classification.

When a position is filled by the promotion of a person from a position of lower classification, the salary will be that indicated for the first year in the table above except where that figure is the same or less than the person is receiving in the lower classification. In such case, the person will be granted an increase of \$60 per year in salary when accepting the new position.

III. The year of service in the above schedules means the fiscal year from July 1 to July 1.

Provided a person employed from as early as November 1 will be regarded as having rendered a year of service by the following July 1st. Those employed after November 1st will not be qualified for advance in salary until the second succeeding July 1st, unless special exception is made for them at the time of their employment.

**REVENUE**

**From State Funds**

The year 1934-35 is the second year of the 1933-35 biennium. For general support from state funds, there is available a total of \$3,160,000, or \$35,000 less than 1933-34 and \$598,000 less than 1932-33. The legislature appropriated for 1934-35 \$2,800,000 or \$475,000 less than each of the two years of the 1931-33 biennium, and the 23/100 Mill Tax and Swamp Land Interest was estimated at \$35,000 less than 1933-34 and \$123,000 less than 1932-33.

For special purposes, the legislature decreased the appropriation for 1934-35 by \$159,470 over 1933-34 and by \$335,750 over 1932-33. This includes a decrease in the Building fund of \$83,780 for 1933-34 and an additional decrease of \$158,220 for 1934-35.

The total reduction from all state appropriations is \$194,470 as compared to the 1933-34 appropriations.

**From Federal Funds**

The 1934-35 Federal Government appropriation is \$360,638. This is an increase over the estimate shown in the 1933-34 budget, but is equal to the amount received during 1933-34, due to a partial reinstatement of the reduction over the previous year.

**From University Income**

The total University income from student fees, miscellaneous sales, hospital receipts, etc., is estimated at \$53,009 more than estimated for 1933-34. Approximately \$14,000 of this increase is due to a net increase in estimated tuition fees for the Regular and Summer Sessions, and the General Extension Division. The changes in each of all these miscellaneous sources of income is shown in detail in the following schedule.

**EXPENDITURES**

The expenditure budget for 1934-35 is practically the same as the budget for 1933-34. The general salary reduction which was effective July 1, 1933 approved by the Board of Regents on May 9, 1933 has been continued. This plan of reduction exempted the first \$1200 of each salary, reduced the second \$1200 or portion thereof by 10%, reduced the third \$1200 or portion thereof by 15% and reduced the portion above \$3600 by 20%. The automatic salary increases for the clerical staff discontinued since the 1931-32 Budget, were granted, subject to the general salary reduction.

The reduced appropriations for supplies, expense and equipment items and other miscellaneous items remain practically the same as in the 1933-34 budget.
