**GENERAL**

The 1935-36 budget has been prepared along the same general lines that have been followed at the institution for the past twenty-two years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1935, and ending June 30, 1936.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four digit number and is assigned to the departments in order as shown in the Budget Index on page Index 64. The "Budget Number" is also a four digit number, the first digit of which designates whether the budget is for payroll, supplies, expense, and equipment, or income as follows:

- |   |   |
|---|---|
| 1. Payroll Budget                           | 6. Special Supplies, Expense, and Equipment |
| 2. Supplies, Expense, and Equipment         | 7. Income creditable to 6                   |
| 3. Income creditable to 2                   | 8. Special Supplies, Expense, and Equipment |
| 4. Special Supplies, Expense, and Equipment | 9. Income creditable to 8                   |
| 5. Income creditable to 4                   |   |

For Service Enterprises and Trust Fund Departments, the first digit is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index. For Balance Sheet accounts the first digit is a "0".

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs, such as:

- |                            |                               |
|----------------------------|-------------------------------|
| 100 Support Fund           | 404 Soils Investigations      |
| 200 Adams Fund             | 500 Service Enterprises       |
| 201 Hatch Fund             | 501 Intercollegiate Athletics |
| 400 Agricultural Extension | 601 Wm. J. Murphy Endowment   |

A complete list of all funds will be found in the Fund Index on page Index 62.

From a combination of these numbers the various account numbers are obtained. For example the Department of Journalism payroll account on Support Fund is number 2014-1100 and the supply account on Support Fund is number 2014-2100. Similarly the Department of Journalism payroll account on the Wm. J. Murphy Endowment Fund is number 2014-1601 and the supply account on the same fund is number 2014-2601. The income from the securities of the Wm. J. Murphy Endowment is credited to account number 1561-3601. As previously stated, for Service Enterprise and Trust Fund Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer Hall for payroll, expense, or income on the Service Enterprise Fund is number 7014-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2014-1100 (Item No. 3, Department 2014, payroll budget on Support Fund).

At the meeting of the Board of Regents on June 2, 1928, the following salary schedule and classification of persons in the secretarial, clerical, and stenographic service of the University were approved:

NOTE 2.—The above salaries are not guaranteed except upon recommendation of the head of the department concerned. The object of the schedule is to guarantee to department heads the approval of the higher salary if they recommend it but it is understood that it will not be recommended unless the work of appointee is satisfactory.

II. For those promoted from a position in one salary classification to a higher classification.

When a position is filled by the promotion of a person from a position of lower classification, the salary will be that indicated for the first year in the table above except where that figure is the same or less than the person is receiving in the lower classification. In such case, the person will be granted an increase of \$60 per year in salary when accepting the new position.

III. The year of service in the above schedules means the fiscal year from July 1 to June 30.

Provided a person employed from as early as November 1 will be regarded as having rendered a year of service by the following July 1st. Those employed after November 1st will not be qualified for advance in salary until the second succeeding July 1st unless special exception is made for them at the time of their employment.

**REVENUE**

**From State Funds**

The year 1935-36 is the first year of the 1935-37 biennium. For general support from state funds there is available a total of \$3,460,000 or \$300,000 more than 1934-35, or \$265,000 more than 1933-34. The legislature appropriated for 1935-36 \$3,100,000, or \$300,000 more than for each year of the 1933-35 biennium, and the 23/100 Mill Tax and Swamp Land Interest is estimated at \$360,000 which is the same amount as estimated in the 1934-35 budget and \$35,000 less than the 1933-34 budget.

For special purposes, the legislature increased the appropriation for 1935-36 by \$176,250 over 1934-35, and \$16,780 over 1933-34. This increase consists of additions to existing appropriations, including a \$20,000 increase in the appropriation for hospital maintenance, as shown in the following detail schedule, and additional appropriations for special purposes for Research in Cast Iron Pavement and the Institute of Child Welfare. The legislature also appropriated \$87,000 for a Psychopathic Hospital Roof House Addition to the University of Minnesota Hospitals.

**From Federal Funds**

The 1935-36 Federal Government appropriation is \$362,024. The increase of \$1,386 over 1934-35 is in the Smith-Hughes appropriation. All other federal appropriations remain the same as for 1934-35.

**From University Income**

The University income from student fees, miscellaneous sales, hospital receipts, etc. is estimated at \$89,831 more than estimated for 1934-35. This includes an increase of \$45,604 in estimated tuition fees for the Regular and Summer Sessions, and the General Extension Division, and an increase of \$23,189 in estimated income for the Hospital, \$20,000 of which is an increase in the county reimbursements to the Hospital.

The changes in each of these sources of income is shown in detail in the following schedule.
