GENERAL

The 1936-37 budget has been prepared along the same general lines that have been followed at the institution for the past twenty-three years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1936, and ending June 30, 1937.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four digit number and is assigned to the departments in order as shown in the Budget Index on page Index 64. The "Budget Number" is also a four digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, and Physical Plant departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For Service Enterprises and Trust Fund Departments, the first digit is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The differentiation between "Income" and "Expenditures" previously accomplished by separate "Income" and "Expense" budgets is now shown on the Budget Statement of the combined "Income and Expense" budgets by separate columns for "Expenditures to-date" and "Income to-date."

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in the Fund Index on page Index 62.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2020-1100 and the Income and Expense account on Support Fund is number 2020-2100. As previously stated, for Service Enterprise and Trust Fund Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer Hall for payroll, expense, or income on the Service Enterprise Fund is number 7014-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2020-1100 (Item No. 3, Department 2020, payroll budget on Support Fund).

At the meeting of the Board of Regents on June 2, 1928, the following salary schedule and classification of persons in the secretarial, clerical, and stenographic service of the University were approved:

I. For those just entering university service:

NOTE 1.—The above salaries are maximum. It is allowable for officials to engage persons at a lower salary than above stated in case a person is engaged who is not well prepared for the work and must be expected to grow into the position.

NOTE 2.—The above salaries are not guaranteed except upon recommendation of the head of the department concerned. The object of the schedule is to guarantee to department heads the approval of the higher salary if they recommend it but it is understood that it will not be recommended unless the work of appointee is satisfactory.

II. For those promoted from a position in one salary classification to a higher classification.

When a position is filled by the promotion of a person from a position of lower classification, the salary will be that indicated for the first year in the table above except where that figure is the same or less than the person is receiving in the lower classification. In such case, the person will be granted an increase of \$60 per year in salary when accepting the new position.

III. The year of service in the above schedules means the fiscal year from July 1 to June 30.

Provided a person employed from as early as November 1 will be regarded as having rendered a year of service by the following July 1st. Those employed after November 1st will not be qualified for advance in salary until the second succeeding July 1st unless special exception is made for them at the time of their employment.

REVENUE

From State Funds

The year 1936-37 is the second year of the 1935-37 biennium. The amount of state funds for general support is \$10,000 more than for 1935-36. The legislative appropriation of \$3,100,000 is the same as for 1935-36. The estimate of income from the 23/100 Mill Tax is \$300,000, the same amount as for 1935-36. The increase in state funds occurs in the estimate of income from Swamp Land interest. In 1935-36 the estimated amount was \$60,000 and the estimate for 1936-37 is \$70,000.

The appropriation made by the Legislature for special purposes is \$74,000 less in 1936-37 than in 1935-36. The appropriation for the Institute of Child Welfare is increased to \$20,000 in 1936-37 from \$5,000 in 1935-36. The special appropriation for Plant Extension is reduced \$89,000 in 1936-37 as compared with 1935-36.

From Federal Funds

The 1936-37 Federal Government appropriation is \$669,355. The increase of \$307,331 over the 1935-36 appropriation is divided as follows:

The Smith-Hughes appropriation for promotion of vocational education is estimated \$420 over 1935-36.

The Supplementary Smith-Lever appropriation is decreased by \$9,550, the Co-operative Extension appropriation is decreased by \$12,000 and the Bankhead-Jones Extension Division appropriation of \$254,612 is added, resulting in a net increase for the Agricultural Extension Division of \$233,062. This additional appropriation is largely for the payment of salaries and expenses previously paid directly by the Federal Government agencies.

The Bankhead-Jones appropriation for Research in Agriculture of \$28,398 has been added.

The Bankhead-Jones appropriation for Instruction amounting to \$30,451 has been added and allotted to the various divisions of the University for instructional salaries as follows:

College of Science, Literature, and the Arts	\$ 7,500
Institute of Technology	7,500
Department of Agriculture	15,451

The appropriation of \$15,000 allotted to the States of Minnesota, Wisconsin, Iowa, North Dakota, and South Dakota for a Public Health Service Training Center at the University of Minnesota is included.

From University Income

The University income from student fees, miscellaneous sales, hospital receipts, etc., is estimated at \$136,266 more than estimated for 1935-36. This includes an increase of \$73,691 in estimated tuition fees for the Regular and Summer Sessions and the General Extension Division, an increase of \$50,000 in the estimated income from the Permanent University Fund, and an increase of \$7,000 in the estimated income for the Hospital.

The changes in each of these sources of income is shown in detail in the following schedule.
