GENERAL

The 1937-38 budget has been prepared along the same general lines that have been followed at the institution for the past twenty-four years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1937, and ending June 30, 1938.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second of which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four digit number and is assigned to the departments in order as shown in the Budget Index on page Index 64. The "Budget Number" is also a four digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, and Physical Plant departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For Service Enterprises and Trust Fund Departments, the first digit is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in the Fund Index on page Index 50.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2020-1100 and the Income and Expense account on Support Fund is number 2020-2100. As previously stated, for Service Enterprise and Trust Fund Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer Hall for payroll, expense, or income on the Service Enterprise Fund is number 7014-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2020-1100 (Item No. 3, Department 2020, payroll budget on Support Fund).

NON-ACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved the revised rules and regulations relating particularly to the employment, leaves, and vacation of the non-academic personnel and the class specifications for positions in this non-academic classified service, with the understanding that the revised salary schedules would be placed in effect on July 1, 1937 provided funds were available. These funds were made available and the plan was placed in effect on July 1, 1937 and is effective in this budget for 1937-38. The following is an extract from a memorandum addressed to the deans and administrative officers and followed in the preparation of the budget:

Re salaries of non-academic personnel

"In the classification of the non-academic personnel are provided four kinds of salary designations. These four are listed below together with a statement indicating the methods of recommendation and approval to be followed in salary adjustments.

1. Normal salary only

In those cases where only a normal salary is stated recommendation must be made by the department head and dean or administrative officer and approved by the president and the Board of Regents. There is nothing in the scheme calling for any automatic adjustment.

2. Normal salary and maximum stated

In those cases where a position carries a normal and maximum salary any change of existing salaries must be on the basis of specific recommendation by the department head and dean or administrative officer and the approval of the president and the Board of Regents, and in no case may a recommendation to exceed the maximum stated be entertained.

3. No salary stated

In such cases adjustment of salary may be made only on specific recommendation of the department head and dean or administrative officer and specific approval by the president and the Board of Regents.

4. Salary ranges and increments

In the case of positions with salaries stated in the form of salary ranges with annual increments, the incumbent may expect, provided service is satisfactory to the department head and dean or administrative officer, an increase of one increment of salary upon the completion of a satisfactory fiscal year's service. If an employee is receiving less than the lowest salary stated in the range a minimum of one salary increment should be granted. It is expected that such employees will receive annual salary increments until the maximum amount in the salary range is received. In those classes where a number of people are involved departments should exercise discretion so that in the employment of additional people in the class such additional people do not receive an amount in excess of the lowest rate being paid in the class. Employees in the service receiving a present salary falling within a salary range should receive the equivalent of one salary increment but not, of course, to exceed the maximum stated in the salary range."

General provisions

The application of the classification of the non-academic personnel is not intended to reduce the salary of any employee. If employees are receiving beyond the maximum stated the salary will be continued but successors in the position will conform to the salary schedule stated.

In determining salaries the "estimated perquisites values" for room, board, and meals, etc., appearing on page Index 94 of the current budget govern.

Employees in the non-academic personnel whose salaries are stated in the form of salary ranges and increments who have been in continuous service of the University for ten or more years as of June 30, 1937, whose present annual salaries on an A basis are \$1,200 or less, may upon recommendation of the department head and dean or administrative officer concerned be granted two increments of salary, but not, of course, to exceed the maximum stated in the salary range.

REVENUE

From State Funds

The year 1937-38 is the first year of the 1937-39 biennium. The amount of state funds for general support for this year is \$375,000 more than for 1936-37. The legislative appropriation of \$3,500,000 is \$400,000 more than for 1936-37. The estimate of income from the 23/100 Mill Tax of \$275,000 is \$25,000 less than the estimate for 1936-37. The estimate of income from Swamp Land interest of \$70,000 is the same as for 1936-37.

The special appropriations for operation made by the legislature are \$80,500 more than for 1936-37. The legislature appropriated \$20,000 for Minnesota Dairy Industry promotion and \$62,500 for Maintenance of the Psychopathic Hospital. The combined appropriation for Soils Survey, Investigation and Field Experiments of \$10,000 is \$2,000 less than the separate appropriation for these purposes for 1936-37.

The legislature appropriated \$775,000 for Plant Extension as detailed in the following schedule. This is an increase of \$721,000 over the 1936-37 appropriation of \$54,000 for the 1929 Building Fund.

From Federal Funds

The 1937-38 Federal Government appropriation is \$677,469. The increase of \$8,114 over the 1936-37 appropriation is divided as follows:

The Smith-Hughes appropriation for promotion of vocational education is decreased \$4,790 over 1936-37. The allotment of \$5,800 to the agricultural schools is eliminated and an increase of \$1,010 made to the allotment for the Department of Education.

The Supplementary Smith-Lever appropriation is decreased by \$9,550, the Co-operative Extension appropriation is decreased by \$11,000, and the Bankhead-Jones Extension Division appropriation is increased by \$29,254, resulting in a net increase for the Agricultural Extension Division of \$8,704.

The Bankhead-Jones appropriation for Research in Agriculture is \$42,598, an increase of \$14,200 over the 1936-37 appropriation.

The Bankhead-Jones appropriation for Instruction is \$35,451, an increase of \$5,000 over the 1936-37 appropriation.

The appropriation made to the States of Minnesota, Wisconsin, Iowa, North Dakota, and South Dakota for a Public Health Service Training Center at the University of Minnesota is not included in the 1937-38 budget. The estimate from this source for 1936-37 was \$15,000.

From University Income

The University income from student fees, miscellaneous sources, and hospital receipts is estimated at \$118,757 more than for 1936-37. This includes an increase of \$101,159 in estimated tuition fees for the Regular and Summer Session, and the General Extension Division, a decrease of \$30,000 in the estimated income from the Permanent University Fund, and an increase of \$13,000 in the estimated income for the University of Minnesota Hospitals.

The change in each source of income is shown in the following schedule:

EXPENDITURES

A summary of allotments made in the 1937-38 budget is shown on page Index 83.

The allotments for Administration, Instruction and Departmental Research, and Maintenance of Physical Plant are increased \$574,467 over the 1936-37 Budget. This increase consists of \$210 from Federal Funds, \$455,500 from State Funds, and \$118,757 from University Income. The allotments are divided as follows: \$410,045 for salary restoration, salary adjustments, and additional personal, and \$164,422 for increases to supply, expense, and equipment budgets and to reserves. The allotments for special purposes are the same as the corresponding estimates of income.

0210 General and Military Deposits				
Budget 0500—When enrolling in the University the student is required to make a cash deposit to cover use, loss or breakage of equipment owned by the University or Military Department, which is credited to this budget. The General Deposit is five dollars for all schools except the Medical School, the School of Dentistry, and the College of Pharmacy, where the deposit is ten dollars. If the student is enrolled in the Military Department an additional deposit of ten dollars must be made. At the close of the school year the deposit less all charges will be refunded to the student. The charges are made by Journal Voucher in July of the following fiscal year and credited to the departments sustaining the loss.				
0211 Chemistry Deposits				
Budget 0500—Students doing laboratory work in chemistry must purchase Chemistry cards for which they pay five dollars. The credits for these sales are made to this budget. On this card is indicated the amount of the charges for chemicals and equipment used by the student. At the close of the school year the balance as shown by the Chemistry card will be refunded. The balance in this budget after all refunds are made is credited to the Chemistry Budget 2500.				
0212 Biochemistry Deposits				
Budget 0500—Students doing laboratory work in biochemistry on the farm campus must purchase Biochemistry cards for which they pay five dollars. The credits for these sales are made to this budget. On this card is indicated the amount of the charges for chemicals and equipment used by the student. At the close of the school year the balance as shown by the Biochemistry card will be refunded. The balance after all refunds are made in this budget is credited to the Biochemistry Budget 2215.				
0213 Agricultural Deposits				
Budget 0500—The General Deposits for students in the College of Agriculture, Forestry, and Home Economics and the Central School of Agriculture are credited to this budget instead of the department budgets. The charges are made by Journal Voucher in July of the following fiscal year and credited to the departments sustaining the loss.				
0214 Crookston Deposits				
Budget 0500—The deposits for students in the Northwest School of Agriculture are credited to this budget. These deposits are held until the close of the school and when the student has settled all his accounts the full deposit is refunded.
