GENERAL

The 1940-41 budget has been prepared along the same general lines that have been followed at the institution for the past twenty-seven years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1940, and ending June 30, 1941.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second of which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four digit number and is assigned to the departments in order as shown in the Budget index on page Index 42. The "Budget Number" is also a four digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, Physical Plant, and Trust Fund departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For Service Enterprises Departments, the first digit is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in the Fund Index on page Index 40.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2020-1100 and the Income and Expense account on Support Fund is number 2020-2100. As previously stated, for Service Enterprise Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer Hall for payroll, expense, or income on the Service Enterprise Fund is number 7014-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2020-1100 (Item No. 3, Department 2020, payroll budget on Support Fund).

NON-ACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the non-academic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the non-academic positions established by this budget are in accordance with the "Class Specifications for Positions in the Classified Service" which were revised May 1, 1939, printed and distributed to all departments of the University. All appointments and adjustments made during the year must conform to these specifications.

REVENUE

From State Funds

The year 1940-41 is the second year of the 1939-41 biennium. The amount of state funds for general support for this year is the same as for 1939-40. The legislature appropriation of \$3,540,000 is the same for both years of the biennium. The estimate of income from the 23/100 Mill Tax of \$250,000 and the estimate of income from Swamp Land interest of \$75,000 are the same as for 1939-40.

The special appropriations for operation made by the legislature for 1940-41 total \$1,750 more than for the year 1939-40. The change in each appropriation is shown in the schedule below.

No special appropriation for Plant Extension was made by the legislature for 1940-41. The appropriation for this purpose is therefore \$429,500 less than for 1939-40.

From Federal Funds

The 1940-41 Federal Government appropriations total \$754,345, an increase of \$2,430 over the 1939-40 appropriations. This increase is in the Smith-Hughes and George-Deen appropriations for promotion of vocational education.

From University Income

The University income from student fees and miscellaneous sources is estimated at \$66,780 more than for 1939-40. This includes an increase of \$47,562 in the estimated tuition fees for the Regular and Summer Session and the General Extension Division as shown in the following schedule. Other changes in estimates of University income are also included in the following schedule:
