## GENERAL

The 1944-45 budget has been prepared along the same general lines that have been followed at the institution for the past thirty-one years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of service enterprises, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1944, and ending June 30, 1945.

All allotments and estimates of income as shown in this budget carry the numbers of the accounts to which these entries are made. All account numbers consist of two numbers, the first of which is known as the "Department Number" and identifies the department concerned; and the second of which is known as the "Budget Number" and indicates which of the department's budgets is affected. The "Department Number" is always a four-digit number and is assigned to the departments in order as shown in the Budget Index on page Index 49. The "Budget Number" is also a four-digit number, the first digit of which designates the purpose of the budget, and the last three digits of which indicate the "Fund" to which the budget belongs. For Balance Sheet Accounts the first digit of the "Budget Number" is a "0." For "Payroll Budgets" of Administration, Instruction, Physical Plant, and Trust Fund departments, the first digit is always a "1." The first digit of "Income and Expense" accounts is a "2," "4," etc., except in cases where special "Income" budgets are provided as shown in the "Budget Index" where the "2," "4," etc. indicate a "Supply, Expense, and Equipment" budget and the "3," "5," etc., designate the "Income" budget.

For Service Enterprises Departments, the first digit of the "Budget Number" is always an even number, and all transactions pertaining to a given budget, whether payroll, supplies, expense, equipment, or income are entered against the same operating budget, except where special budgets are provided as shown in the Budget Index.

The last three digits of the "Budget Number" indicate the "Fund" to which the budget belongs. A complete list of all funds will be found in Fund Index on page Index 45.

The various account numbers are obtained from a combination of the "Department Numbers" and "Budget Numbers." For example, the Department of Physics payroll account on Support Fund is number 2020-1100 and the Income and Expense account on Support Fund is number 2020-2100. As previously stated, for Service Enterprise Departments all transactions for payroll, supplies, expense, equipment, and income are entered to the same budget. For example, the account for Pioneer Hall for payroll, expense, or income on the Service Enterprise Fund is number 7014-2500.

Payroll accounts are divided into sub-accounts, each identified by a payroll item number. The payroll item number precedes the name of the individual or position shown in this budget. Payroll sub-accounts are designated by the payroll item number and the payroll account number as 3-2020-1100 (Item No. 3, Department 2020, payroll budget on Support Fund).

## NON-ACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the non-academic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the non-academic positions established by this budget are in accordance with the "Class Specifications for Positions in the Classified Service" which were revised July 1, 1944, printed and distributed to all departments of the University. All appointments and adjustments made during the year must conform to these specifications.

**REVENUE****From State Funds**

The year 1944-45 is the second year of the 1943-45 biennium. The amount of state funds for general support for this year is \$18,000 more than for 1943-44.

The special appropriations for operation made by the Legislature for 1944-45 total the same as for the year 1943-44.

**From Federal Funds**

The 1944-45 Federal Government appropriation totals \$759,688, an increase of \$504 over the 1943-44 appropriation. The change in the appropriation is shown in the schedule below.

**From University Income**

The University income from student fees and miscellaneous sources is estimated at \$22,804 less than for 1943-44. This includes a decrease of \$222,798 in the estimated tuition fees for the Regular and Summer Session, and the General Extension Division as shown in the following schedule. Of this amount \$119,424 was used for personnel and salary adjustments to academic and non-academic personnel, \$1,381 represented a reduction to various supply, expense, and equipment budgets, and a special reserve for 1944-45 Operating Adjustments of \$93,000 was eliminated.

Of the total increase in allotments of \$25,043 state funds provided \$18,000, federal funds \$504, trusts and services \$29,343, while University fees and other income decreased a net of \$22,804.
