This Is Your University

CHARTERED in February, 1851, by the Legislative Assembly of the Territory of Minnesota, the University of Minnesota this year celebrated its one hundred and eleventh birthday. In the coming year, it will join with Land-Grant colleges and state universities throughout the nation in observing the centennial of the Land-Grant Act which created educational opportunities for all citizens and which embodied the concept that the welfare of the nation is dependent on the advancement of learning.

As one of the great Land-Grant universities in the nation, the University of Minnesota is dedicated to training the youth of today, the citizens of tomorrow. Each year, physicians, lawyers, engineers, social workers, educators, journalists, dentists, veterinarians, farmers, businessmen—community and civic leaders in all fields—go from its several campuses to participate actively in the upgrading of the welfare of the citizens of our state. During the period of its existence the University has awarded more than 157,000 degrees to its students who have completed the rigorous training demanded by the complexities of modern society.

In addition to giving collegiate instruction to more than 30,000 students on its Minneapolis, St. Paul, Duluth, and Morris Campuses, the University offers, through its Schools of Agriculture and its General Extension Division, specialized training designed to assist those who wish to study on a part-time basis. Still in addition, its staff members who are county agents, home agents, 4-H Club agents, and recreation and health consultants give effective assistance to citizens of the state in their very homes.

In the diverse research laboratories on the University's four campuses, at the several agricultural experiment stations scattered throughout the state, at the Rosemount Research Center, the Cloquet Forest Research Center, the Cedar Creek Natural History Area near Bethel, the Fruit Breeding Farm and the Arboretum at Excelsior, the Lake Itasca Forestry and Biological Station, the Mayo Foundation at Rochester, the Hormel Institute at Austin, and at University Hospitals, University scientists are working on countless research experiments of vital importance to the future health and welfare of us all. These projects deal with cancer, heart surgery, taconite, gamma irradiation, cheese-making, teacher training, municipal government, school surveys, and new varieties of grains, fruits, and flowers to mention only a few.

THE UNIVERSITY is recognized as the cultural hub of the Northwest; it is the home of the University Artists Course, Radio Station KUOM, the University Theater, the Minneapolis Symphony Orchestra, and the local performances of the Metropolitan Opera Company. Through the University of Minnesota Program Service, the University brings to more than a million and a half people in the area it serves, artists and lecturers of quality and talent.

The people of Minnesota are proud of their University, not only because it is one of the leading state universities in the nation, but also because of the extent and quality of its services from which they, their families, communities, and organizations benefit. Their interest in the University is a dynamic, living thing and expresses itself in many ways. Contributions from them have made it possible for the Variety Club Heart Hospital and the great Mayo Memorial

Building to be constructed. Through the American Legion and its auxiliary posts all over the state, thousands of friends have made generous donations to provide an endowed research professorship in heart disease. Contributions have made it possible to build the Masonic Memorial Hospital, the Veterans of Foreign Wars Cancer Research Center, and Diehl Hall (which houses the biological-medical library and additional medical research facilities).

Equally generous have been the contributions made by corporations, associations, foundations, trade unions, clubs, and individuals, whose thoughtful cooperation has made hundreds of scholarships and fellowships available each year to students of promise. Chiefly because of financial difficulties, only one-half of the Minnesota high school graduates of high ability enter any college or university. Because of this, the friends and supporters of the University are constantly trying to increase the number of scholarships and the amount of money available for such assistance.

Over recent years, much of the University's energy has gone into the necessary planning for the anticipated increases in future enrollments. At present about half of the students in Minnesota colleges and universities attend the University of Minnesota. If the other institutions continue to take this same percentage of these students, not less than 47,000 full-time, fully matriculated students will be attending the University in 1970. This means more teachers, more civil service staff members, more land, and more buildings.

THE 1961 LEGISLATURE granted the University \$49,068,181 for general maintenance during the 1961-63 biennium. In addition, the University received \$6,938,423 for University Hospitals; \$4,432,496 for special appropriations, including special extension and research activities; and \$7,789,351 (\$288,451 now available) for new buildings, land, and for the rehabilitation of existing buildings.

Each year the University publishes and widely circulates a summary financial statement, which is available to anyone upon request as is a much more comprehensive and complete statement for those who wish to make a special study of the University's income and expenditures.

The summary financial statement of 1960-61 showed that the University received \$99,915,127.70 and spent \$99,915,799.55 including \$7,071,288.38 paid for the construction and remodeling of buildings and the purchase of land. Of the total received, \$17,296,674.64 came from student tuition and fees, hospital and other department receipts; \$1,642,152.76 from intercollegiate athletics, \$16,187,501.59 from such services as dormitories and dining halls, printing, the laundry, the University of Minnesota Press, the Department of Concerts and Lectures, the University Theater, and the Health Service, and from revolving funds; and \$22,781,979.60 from trust funds, including gifts, grants, donations, and income from endowments and research contracts for instruction, research, prizes, scholarships, and the care of the sick. Also \$4,301,271.13 came from federal appropriations for instruction, research, Agricultural Extension, and plant expansion. The state provided \$30,468,443.07, or 35.0% for the University's total operating costs.

All students at the University, their families and friends are invited to continue their enthusiasm and interest in the University of Minnesota. Graduates are especially urged to identify themselves with the Minnesota Alumni Association and the Greater University Fund and to return as frequently as possible to visit us here at the University.

LAND-GRANT CENTENNIAL PROCLAMATION ISSUED BY THE PRESIDENT OF THE UNITED STATES

August 25, 1961

“WHEREAS July 2, 1962, marks the centennial of the first Morrill Act, approved by President Abraham Lincoln, granting public lands to States and territories in support of colleges to promote ‘liberal and practical education . . . in the several pursuits and professions in life’; and

“WHEREAS the Act opened the doors of colleges and universities to all with the ability and will to learn, irrespective of heredity, occupation, or economic status; and

“WHEREAS the land-grant institutions in the fifty States and the Commonwealth of Puerto Rico carry research and teaching to the citizens of these States and the Commonwealth and to people of other nations, particularly the emerging nations, seeking solutions to economic, social, and physical ills, and enriching the cultural life of the people; and

“WHEREAS the land-grant system of higher education is the Nation’s largest single source of trained and educated manpower and now contributes more than one-half of the Nation’s trained scientists and nearly one-half of all Regular and Reserve officers entering the armed forces through the military programs conducted at civilian institutions; and

“WHEREAS these institutions have historically maintained and currently maintain close cooperative relationships with the United States Department of Agriculture, which marks the centennial of its establishment on May 15, 1962, and also maintain close working relationships with other departments and agencies of the Government, including the Departments of Defense, the Interior, Commerce, Labor, and Health, Education, and Welfare, the United States Information Agency, and the International Cooperation Administration; and

“WHEREAS the Congress, by a joint resolution approved August 25, 1961, has requested the President to issue a proclamation recognizing the centennial of the establishment of the land-grant system of universities and colleges;

“NOW, THEREFORE, I, John F. Kennedy, President of the United States of America, do hereby proclaim that it is fitting and proper to commemorate the centennial of this historic Act of Congress; and I request that the agencies of the Government cooperate with the land-grant universities and colleges throughout the academic year 1961-1962 in recognizing the historical and present close cooperative relationship of such institutions with the departments and establishments of the Government.

“I also request that such centennial be otherwise appropriately celebrated to the end that the occasion may serve to commemorate the unparalleled opportunities for higher education provided by these publicly supported institu-

tions and their efforts through teaching, research, and service to improve the economic, social, and cultural lives of the people of this Nation and of other nations.

“IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.”

THE LEGISLATURE OF THE STATE OF MINNESOTA passed a Land-Grant resolution in April, 1961, stating that the Centennial of the Land-Grant Act, providing grants of land to be set aside by each state for the support of public state colleges and universities devoted to the education of the common man, be observed and commemorated and that recognition be given by the people of the state to the Land-Grant Act as a cornerstone of American higher education.

Order of Events

PROCESSION: Before the procession starts, the Frances Miller Brown Memorial Bells, played by Mr. Lowell Lindgren, SLA '64, University Carillonneur, will be heard from Northrop Memorial Auditorium. During the procession, the University Concert and Symphony Bands, conducted by Assistant Professor in Music and Bandmaster Frank Beneriscutto, D.M.A., will play from the steps of the Auditorium. The procession will move from the front of Coffman Memorial Union, across the footbridges, up the Mall, and into the Auditorium. Leading the procession will be the Mace Bearer, Associate Professor J. Merle Harris, B.A., General College, Faculty Marshal. Next in the line of march will be the Color Guard, made up of University Army, Navy, and Air Force ROTC cadets and midshipmen. Following will be the graduating students, marching by colleges, with the faculty and the President marching last. The University combined Army, Navy, and Air Force ROTC Bands will join the line of march on the Mall. Conductors of the Bands are: Army ROTC, Cadet Ralph E. Skoc; Navy Midshipman, Arthur W. Smith; Air Force Cadet, Lance W. Berglund.

IN THE AUDITORIUM: The audience is requested to remain seated so that all can see the procession. As the Mace Bearer enters the Auditorium, heralding the arrival of the academic procession, Associate Professor of Music and University Organist Heinrich Fleischer, Ph.D., will play the University Organ. The Mace Bearer will present the Mace at the center of the stage. Graduating students will take their places on either side of the middle aisle. When the faculty members have taken their places on the stage, the Mace Bearer will put the Mace on the table to signal the beginning of the ceremony.

PRESENTATION OF COLORS: As the Color Guard enters the Auditorium, the audience will rise and remain standing for the Presentation of Colors and for the National Anthem and the Invocation.

NATIONAL ANTHEM: The entire audience and Mr. Johannes Dahle, B.S., Graduate Student, soloist.

Oh, say can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming,
Whose broad stripes and bright stars, thro' the perilous fight,
O'er the ramparts we watched, were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof thro' the night that our flag was still there.
Oh, say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

INVOCATION: The Reverend Edwin Johnson, Adviser to United Campus Christian Fellowship students and staff members on the St. Paul Campus of the University.

Order of Events

PRESIDING: Dean of Students Edmund G. Williamson, Ph.D.

SPEAKING FOR THE CLASS OF 1962: Mr. Thomas F. Olson, SLA '62, outgoing President of the Minnesota Student Association.

SPEAKING FOR THE UNIVERSITY: President O. Meredith Wilson, Ph.D.

ADDRESS: Professor and Head of the Division of Analytical Chemistry, Izaak M. Kolthoff, Ph.D.

PRESENTATION OF STUDENTS: Dean Bryce L. Crawford, Ph.D., Graduate School, will present to the faculty and to the audience the members of honor societies, the recipients of scholarships, fellowships and awards, the honor students, and the members of the graduating class.

HAIL! MINNESOTA, The University's Alma Mater song, sung by the audience and Mr. Dahle.

Minnesota, hail to thee!	Like the stream that bends to sea,
Hail to thee, our college dear!	Like the pine that seeks the blue,
Thy light shall ever be	Minnesota, still for thee
A beacon bright and clear;	Thy sons are strong and true;
Thy sons and daughters true	From thy woods and waters fair,
Will proclaim thee near and far;	From thy prairies waving far,
They will guard thy fame	At thy call they throng
And adore thy name;	With their shout and song,
Thou shalt be their Northern Star.	Hailing thee their Northern Star.

RECESSIONAL: Associate Professor Fleischer.

Faculty marshals, wearing maroon caps and gowns, are: Associate Professor Harris; Associate Professor Robert M. Jordan, Ph.D., Institute of Agriculture; Professor Ralph F. Berdie, Ph.D., Psychology; Professor Ole Gisvold, Ph.D., Pharmacy.

STUDENTS WITH AVERAGES OF "B" OR HIGHER

The following students have completed at least two quarters (26 credits) of work at the University of Minnesota with a scholarship average of "B" or higher through winter quarter 1961.

Grade averages for the School of Dentistry, Law School, College of Pharmacy, and the College of Veterinary Medicine are based solely on the professional school record. Medical students are not listed because the Medical School grading system does not provide a basis for determining "B" averages. Grade averages for the other schools and colleges are based on the entire record including preprofessional work with the exception that freshman and sophomore physical education courses are not included.

Students whose names are preceded by a star (*) have maintained an "A" average.

Academic Costume

On appropriate occasions, anyone with a college or university degree may wear academic costume consisting of a gown, a hood, and a cap. By observing the kind of academic costume a person wears, it is possible to know the name of the university from which he graduated, as well as the degree which he holds, and, in some cases, the field of his major interest as well.

The long, pointed sleeve of the gown indicates a Bachelor's degree; the long, closed sleeve with a slit near the upper part of the arm indicates a Master's degree; and the open sleeve marks a Doctor's degree. Bachelors' and Masters' gowns are black in color and are without any trimming. Generally, the Doctor's gown is black also, but some universities, particularly those abroad, prescribe such festive colors as red, crimson, or green. All Doctors' gowns have velvet trimming on the front facings and crossbars on the sleeves. This trimming may be black, or it may match the color of the edging of the hood and thus identify the profession or field of major interest of the wearer.

Only those students and faculty members who have already received college or university degrees wear hoods. Anyone who has a degree from the University of Minnesota may wear a hood decorated with a maroon chevron on gold background. The length and shape of the hood indicates whether the wearer has earned a Bachelor's, a Master's, or a Doctor's degree. The velvet edging on the hood indicates the field in which the degree was granted. For example, dark blue signifies Philosophy; light blue, Education; green, Medicine; lilac, Dentistry; orange, Engineering; russet, Forestry; drab, Business; olive green, Pharmacy; purple, Law; gray, Veterinary Medicine; golden yellow, Science; and white, Arts and Letters.

Shoulder insignia on the gowns of candidates for degrees indicate that the candidates are honor students.

Caps, generally mortarboards with tassels, have significance, too. The Doctor's tassel may be black or gold. Masters' and Bachelors' tassels are black; but at University of Minnesota commencement functions—upon the authority of the University Senate Committee on Functions—candidates for the Bachelors' and Associates' degrees wear tassels which indicate their schools or colleges by color as follows:

General Extension Division	orange and drab
General College	crimson and white
College of Science, Literature, and the Arts	white
University College	old gold and white
Institute of Technology	orange
College of Agriculture, Forestry, and Home Economics	maize

College of Education	light blue
School of Business Administration	drab
College of Pharmacy	olive
Law School	purple
College of Veterinary Medicine	gray
School of Dentistry	lilac
College of Medical Sciences	green
Graduate School	black

Once the Bachelor's degree has been received and the commencement is over, the graduate, should he wear academic costume again, will wear only the black tassel as does the holder of the Master's degree. Similarly, he will not in the future wear the shoulder insignia as a part of his academic dress even if he is an honor graduate. All graduates of the University should remember that the academic dress at this University conforms to the rules of the Intercollegiate Bureau of Academic Costume. This means that Minnesota academic insignia may be easily secured anywhere in the world. And it is always worn proudly and with distinction—for ours is a great University.
