ICE CREAM!

Come meet Honors students from across the campus and, while you're at it, play some volleyball, softball, basketball, frisbee, and board games!

(And remember, there will be ICE CREAM too!)

(Co-sponsored by HSA and CLA Honors Division)

A Message from the Director of the CLA Honors Division...

I have great news for everyone: winter quarter has been abolished! Now, under semesters, we'll head straight for spring term once fall semester is over.

More seriously, welcome to our new freshmen and welcome back to all our returning students, faculty, staff, and friends. We're very pleased that we were able to make the transition to semesters and register our new students successfully using a whole new registration and records system.

Our super team of Honors peer and professional advisers is ready to work with students as they continue to negotiate the transition to semesters. If you have any questions about where you stand on the route to graduation, stop by this fall and make an appointment to see an adviser.

As usual, we have some great kick-off events scheduled for fall, including the Honors Student Association (HSA) All-Honors Welcome Gala scheduled September 11. HSA has already begun meeting to plan events, and they very much invite your participation and ideas.

In this fall newsletter you'll discover a list of national scholarship competitions. Don't be shy, don't be bashful, step right up and apply. U of M students often do well in these competitions, challenging as they are, and many students benefit enormously from the experience of participating.

The College of Liberal Arts also awards nearly \$400,000 annually in scholarships to its continuing students. Applications for the 2000-2001 scholarship awards will be available from CLA Honors later this fall and must be submitted by January 31, 2000. We'll send an e-mail out on the honors list-serv when these applications are available.

Again, we're glad to see you all back on campus. Stop by the Honors office when you have a chance, and have a great year!

Gordon Hirsch

Class Notes...

- Seniors—If you have 75 completed semester credits or so, it's time to make a Senior Balance Sheet appointment. This appointment will clarify your progress on graduation requirements and help you plan for that final push towards life after CLA. Ideally, this appointment should be scheduled at least a couple of terms prior to graduation.
- Juniors—If you have completed at least 60 semester credits and have maintained a 3.5 GPA (or 50% A's overall for students who began under quarters), it is time for you to apply for the Junior/Senior Honors Program. The reapplication is necessary so that your major department may examine your past work and determine your eligibility to pursue an Honors degree in the major. Still undecided with respect to a major? Meet with an academic advisor to help you with the process of major selection. Visit the Honors Office to begin the process or to set up an appointment.
- Sophomores—The Freshman-Sophomore Honors Certificates for the 1998-1999 school year were awarded during our annual file review this summer. Those who successfully completed the Freshman-Sophomore Honors Program should have received a letter in the mail congratulating them on their achievement. Eligibility is based on the completion of four Honors opportunities within the first 90 (quarter) credits and grades of A in at least 50% of the credits completed. *If you think you are eligible for the award but have not received a letter, check with the Honors Office.*

Congratulations to all recipients! Keep up the good work!

Application for Graduation Deadlines:

Fall 1999: September 17

Spring 2000: January 28

- Applications for degree are due in the Registrar's office (200 Fraser).
- "Graduation with Honors" forms for completed projects are due in 115 Johnston. (If your honors project is not completed, submit the "Honors Requirements in Progress" form.)

Minority Scholars Development Program

The Minority Scholars Development Program (MSDP) provides Sophomores, Juniors and Seniors from various disciplines an opportunity to develop and explore a topic of their choice with a faculty mentor. This year, 23 students participated in MSDP, three of whom are CLA Honors students. Through the mentoring process, scholars are introduced to the culture of their chosen discipline by involving them in research, seminars, a conference, and other scholarly activities. Honors student and Honors peer advisor Letisha Morgan (senior, CSCL) was one of the select presenters at the annual MSDP Research Presentation and Recognition Dinner. She presented her paper on, "The Mechanics of Space in the Literature of Assia Djebar." Tu-Anh Bui (sophomore, Architecture, "Playing with Icons: A Study of Chinese and Japanese and their Interpretations in Our Popular Culture"), and Jennifer Nordin (Junior, English, "Poetry by Adopted Koreans and their Expression of Issues of Family, History, Culture, and Race in Identity), also participated in the program this year. Congratulations, Letisha, Tu-Anh, and Jennifer!

Thesis Grants

Honors Thesis/Project Grants

Seniors, before you begin work on your Honors Thesis or Project, consider making application for an Honors Thesis/Project Research Grant. The maximum award for such grants is \$500. Applications should be submitted well in advance of beginning the research. An application for a grant submitted after work has begun and expenditures have been made will be given lower priority than applications which are made for research planned completely but not yet undertaken. Applications for Fall semester are due by **September 17**.

Red Carpet Days Update

Red Carpet Days 1999 was a stunning success! This is an event put on by the CLA/CBS Honors Student Association (HSA) for incoming freshmen to the honors program. Over 60 students from Minnesota and Wisconsin attended the event. Red Carpet Days gives students a chance to really see what the Honors program (and college life at the U) is like: they meet other honors students who host them for the night in their dorm room, take them to class to experience college, or just help out in general by answering students' questions. Students were also able to meet several faculty and staff, including the Honors Director, Gordon Hirsch. Students had a wonderful time overall, and HSA is looking forward to Red Carpet Days 2000! There are plenty of opportunities to help with this event, so keep your eyes peeled for information in spring semester.

Class Notes...

- Seniors—If you have 75 completed semester credits or so, it's time to make a Senior Balance Sheet appointment. This appointment will clarify your progress on graduation requirements and help you plan for that final push towards life after CLA. Ideally, this appointment should be scheduled at least a couple of terms prior to graduation.
- Juniors—If you have completed at least 60 semester credits and have maintained a 3.5 GPA, it is time for you to apply for the Junior/Senior Honors Program. The reapplication is necessary so that your major department may examine your past work and determine your eligibility to pursue an Honors degree in the major.
- Sophomores—Now is the time to start thinking seriously about your major. Remember, under semesters you must declare your major by the time you've completed 60 credits. Begin conversations with faculty during their office hours or via e-mail. Attend a workshop on majors that interest you or visit with an honors advisor to help you sort through some of your choices. Now is also a good time to start thinking about professors who might be willing to write letters of recommendation in the future.
- Freshmen—We have started calling you to schedule an appointment with your Honors Peer Advisor. In this appointment, we'll check up on current classes and discuss your Spring semester schedule. Remember, you *must* schedule an appointment prior to registration. You will not be able to register without it. Call 612-624-5522 if you have any questions about your schedule or appointment time.

HSA is off to a great start this year! We have about 25 members in the group this year, and are excited about the possibilities for a group this size.

Brown Bag Lunch

Our first Brown Bag Lunch was held on October 20, with Honors Director Gordon Hirsch as the speaker. Brown Bag Lunches offer students a chance to meet professors, staff, etc. and ask the questions that matter to them. Be sure to watch for these Brown Bag Lunch topics: pre-med, pre-law, study abroad. We are open to your suggestions for topics!

Homecoming

HSA participated in the homecoming festivities by making masquerade masks, which were handed out at the homecoming parade. Several of the HSA masks were seen at the game—go Gophers!

Volunteer Activities

Every year, HSA tries to get involved in the community by volunteering for various projects. Some of these projects are still in the works, and if you would like to volunteer with HSA, let us know! Opportunities include: visiting patients at the Fairview-University Hospital and Hope For Kids, where we plan parties for children in the Shriner's hospital. Any other suggestions???

Grad School Workshop

The decision to attend graduate school is an enormously important one. There are many factors to consider and many misconceptions about the process. Kit Gordon, Senior Advisor in CLA Honors will hold a Graduate School Workshop to provide students with an overview of the decision-making and application processes, discuss potential pitfalls, and share strategies for presenting successful applications.

Wednesday, February 9, 3:00 - 4:00, 101 Johnston

Please RSVP to the Honors Office (624-5522) by Monday, February 7.

Thesis Workshops

CLA Honors Thesis Information Sessions provide an opportunity for students planning to write an Honors Thesis to discuss the project with Senior Advisor Kit Gordon. We'll review what is involved in this capstone of your undergraduate career and discuss departmental requirements, thesis grants, how to organize your time, and more. The meeting will also introduce you to other prospective thesis writers and give you a chance to exchange information, tips, and support.

Although the session can be most useful to those with two or more semesters remaining until graduation, all are welcome to attend. Information sessions for Spring semester will be:

Wednesday, February 2, 1-2 p.m., 101 Johnston

Class Notes...

- Seniors—If you have 75 completed semester credits or so, it's time to make a Senior Balance Sheet appointment. This appointment will clarify your progress on graduation requirements and help you plan for that final push towards life after CLA. Ideally, this appointment should be scheduled at least a couple of terms prior to graduation.
- Juniors—If you have completed at least 60 semester credits and have maintained a 3.5 GPA, it is time for you to apply for the Junior/Senior Honors Program. The reapplication is necessary so that your major department may examine your past work and determine your eligibility to pursue an Honors degree in the major.
- Sophomores—Now is the time to start thinking seriously about your major. Remember, under semesters you must declare your major by the time you've completed 60 credits. Begin conversations with faculty during their office hours or via e-mail. Attend a workshop on majors that interest you or visit with an honors advisor to help you sort through some of your choices. Now is also a good time to start thinking about professors who might be willing to write letters of recommendation in the future.
- Freshmen—April 13 is the first day of queued registration for Fall Semester 2000. It isn't too early to start thinking about plans for next semester! Plan to make an appointment with a peer advisor in early April. Have questions about majors, minors, career directions, or Life in General? Call and make an appointment with a professional advisor in the Honors office - 612-624-5522.

Thesis Grants

Honors Thesis/Project Grants

Seniors, before you begin work on your Honors Thesis or Project, consider applying for an Honors Thesis/Project Research Grant. The maximum award for such grants is \$500. Applications should be submitted well in advance of beginning the research. An application for a grant submitted after work has begun and expenditures have been made will be given lower priority than applications which are made for research planned completely but not yet undertaken. **Applications for Spring semester are due by January 28, 2000.**

Coro Fellows Program in Public Affairs

Seniors! Do you consider yourself a leader? Coro is looking for outstanding leaders for its 2000-2001 Coro Fellows Program in Public Affairs.

The Coro Fellows program is a nine-month, graduate-level, full-time experience-based leadership training program in public affairs. Fellows are provided with a unique opportunity to develop an understanding of public policy and decision-making by working closely with individuals and institutions that influence life in the public, private, and non-profit sectors. Coro seeks bright, self-motivated risk-takers as candidates for the Fellows Program. The strongest applicants demonstrate leadership ability, integrity, and a commitment to public service. A bachelor's degree is required, and post-grad academic or work experiences are desirable. Successful candidates have been active in civic or campus activities. Sixty fellows are chosen annually to participate in this program in St. Louis, New York, Los Angeles, Pittsburgh, or San Francisco. As part of the national selection process, applicants must apply to the Coro Center located nearest them.

Tuition for the program is \$3,500. As the demanding schedule of the Fellows Program precludes outside employment, stipends based on demonstrated need are available to help cover living expenses. Student loans are generally deferrable, and deferred tuition payment plans are available.

The application deadline for the September 2000 program is **February 11, 2000**. For more information, go to the Coro website at: www.coro.org.

National Honors Semester in Spain, 2000

Spain 'Conquistador': Cultures that Clash and Cleave

The history of Spain is replete with defining moments and powerful changes brought on by peoples, cultures and ideas that have shaped today's Spain. From Greeks, Romans and Carthaginians, from Huns, Visigoths, and Moors, to Jews, Jesuits, and Gypsies - cultures and ideas have clashed repeatedly. Spain's duality, as both conquered and conqueror, provides the rich tapestry of its current culture.

This program is an inquiry into the symmetry and dissonance that are still reflected in Spain. The forces of change during this past century are manifest in history, art, cinema, and politics as Spain enters the new millennium within an evolving European Union.

During this semester (from September 6 - December 17), students will complete 16 semester hours of advanced honors credit. The semester is divided into two modules. This is an active-learning, multi-disciplinary program. Knowledge of Spanish language is not required to participate in the program, however, some proficiency is desirable.

Application deadline is March 1, 2000.

Honors Colloquium in the News!

The January, 2000, issue of *KIOSK, the Newspaper by and for University of Minnesota Faculty and Staff*, featured the fall semester colloquium "Evidence for Design in Nature" taught by Chemical Engineering Professor Chris Macosko.

"Four members of the Kansas Board of Education, portrayed by University of Minnesota honors students, are explaining the board's controversial recent decision to drop questions about evolution and the big bang from statewide tests... . The (class of) 17 students have in common the qualities you would expect in honors students. They are all bright and articulate and engaged. Some believe in God as creator, some do not. Some buy the theory of evolution, some have doubts. Discussions are sometimes impassioned but always respectful. The way the class is structured, students are sometimes called on to represent points of view other than their own."

"Evidence for Design in Nature" was just one of eight Honors Colloquia offered last fall. Colloquia, intended for freshmen and sophomores, are offered each semester through the Honors department. Juniors and seniors can get into the act with an Honors Seminar. Colloquia and Seminar classes are small in size (generally no larger than 19 students per class), but big in ideas. Courses are generally once-in-a-lifetime offerings, with instructors who come from departments all across the University, and include Professors like James Curtsinger (Department of Animal Science), Chris Macosko (Chemical Engineering), and Charles Sugnet (English), and administrators, such as the Assistant Dean of CLA, Jean Cameron. For more information on Honors Colloquia or Seminars, contact the Honors office at 624-5522.

Fun, Friends and Memories

These are some of the benefits you'll receive by becoming a New Student Weekend Counselor! New Student Weekend is a University tradition that involves a retreat for incoming new students each fall prior to starting school. We need peer leaders to lead our new incoming students through the weekend. What are the requirements? You must want to have fun and be involved! You'll meet with other students during Spring Semester on Tuesday nights from 6:00 - 9:00 PM for opportunities in teambuilding and participating in group training sessions in areas of communication, leadership, conflict management and more. And most of all, you'll learn how to "Make A Difference" in the lives of incoming new students for Fall Semester 2000. Here's what a past New Student Weekend Counselor said about the experience: "Of the several great experiences I have been fortunate enough to encounter at this university, New Student Weekend has honestly been the most phenomenal. ...I feel like I have been welcomed into a family."

If you want to "Make A Difference" at the University, make friends and be one of 154 New Student Weekend Counselors selected for the year 2000, stop by our office at 720 Washington Ave. S.E., Suite 12 for an application. We are located underneath Brueggers Bagels in Stadium Village. Call 624-0666 for directions or more information or visit our web site to down-load the application at www.nspo.umn.edu.

Did You Know...

- ▶ Graduation from the College of Liberal Arts requires that you complete at least 120 semester credits. 48 of these credits must be upper-division, and 18 of the 48 must be outside your major. (This is a great way to explore a minor! Many minors require at least 18 upper-division credits to complete.)
- ▶ Declaring your major means you have *two* advising offices, one in your major department and one in Honors.
- ▶ Any time you withdraw from a class after the second week of classes, you will receive a "W" on your record. (If you are having difficulty with a class and are thinking of dropping it, you should make an appointment with an advisor in the honors office to discuss the situation and possible options that may exist.)
- ▶ To receive your Freshman-Sophomore Honors Certificate, you need to complete at least 3 honors opportunities and maintain a 3.5 GPA before your 60th credit. Each summer we review records and if you've met these criteria, you receive a Certificate (signed by the Director of Honors, Gordon Hirsch), and a notation on your transcript.

Career and Major Exploration

Trying to decide on a major? Ready to declare but you don't know where to start? We have a solution to your dilemma! Call and make an appointment with a professional advisor in the Honors office to brainstorm ideas or devise a plan of action for finding a major that is right for you. The best time to discuss these matters is often early in the semester, before registration for the following semester, and early enough to participate in the many programs offered each semester for students thinking about college majors. You can, for example, learn about the process of researching and choosing majors by attending a **Choosing Your Major** workshop, offered by pre-major advising. Explore the range of degree options offered across the University. Find out about nursing, occupational therapy, physical therapy and other health science careers at a **First Step Meeting**. For more information on these offerings, or to make an appointment with a professional advisor, stop by the Honors office or call us at 612-624-5522.

Honorifics...

CLA Honors Students Wins Marshall Scholarship

Peer Advisor and Honors student Letisha Morgan was recently awarded the prestigious Marshall Scholarship, an award that permits the winner to study for up to two years

at any British university, leading to a graduate or second undergraduate degree. Competition for this award is keen, with only 40 winners nationwide.

Morgan, a senior majoring in Cultural Studies and Comparative Literature, began the application process for the scholarship in mid-summer, to meet the scholarship application deadline of September 13. Her application preparation included meetings with Honors advisor Sally Lieberman, and a mock interview with Sally and Honors Director Gordon Hirsch. Nomination by a committee was the second hurdle Morgan successfully completed, then came her interview in Chicago. Next came waiting...and waiting...and waiting! Morgan finally received the good news late in fall semester. She plans to study at the University of Warwick, in post-colonial studies with a concentration in Caribbean literature and political movements. In an interview with the U of M News Service, Morgan said that “England is a great place to (study her topic) because it colonized the Caribbean. There is a large Caribbean community in the country, with a lot of arts and performances by people from Jamaica and Trinidad. I will be able to get out of just looking at books and actually talk to people writing the literature, plays, and poetry.”

Congratulations, Letisha!

Grad School Workshop

The decision to attend graduate school is an enormously important one. There are many factors to consider and many misconceptions about the process. Kit Gordon, Senior Advisor in CLA Honors will hold a Graduate School Workshop to provide students with an overview of the decision-making and application processes, discuss potential pitfalls, and share strategies for presenting successful applications.

Tuesday, April 18, 9:30 a.m., 101 Johnston

Please RSVP to the Honors Office (624-5522) by Friday, April 14.

Thesis Workshops

CLA Honors Thesis Information Sessions provide an opportunity for students planning to write an Honors Thesis to discuss the project with Senior Advisor Kit Gordon. We'll review what is involved in this capstone of your undergraduate career and discuss departmental requirements, thesis grants, how to organize your time, and more. The meeting will also introduce you to other prospective thesis writers and give you a chance to exchange information, tips, and support.

Although the session can be most useful to those with two or more semesters remaining until graduation, all are welcome to attend. Information sessions for Spring semester will be:

Thursday, April 13, 9:30 a.m., 101 Johnston

Friday, April 21, Noon, 101 Johnston

RSVP by phone, 624-5522 by Monday, April 10.

Application for Graduation Deadlines:

May Intersession 2000: March 24, 2000

Summer Session 2000: June 23, 2000

- Applications for degree are due in the Registrar's office (200 Fraser).
- "Graduation with Honors" forms for completed projects are due in 115 Johnston. (If your honors project is not completed, submit the "Honors Requirements in Progress" form.)

Class Notes...

- Seniors—If you have 75 completed semester credits or so, it's time to make a Senior Balance Sheet appointment. This appointment will clarify your progress on graduation requirements and help you plan for that final push towards life after CLA. Ideally, this appointment should be scheduled at least a couple of terms prior to graduation.
- Juniors—If you have completed between 45- 60 semester credits and have maintained a 3.5 GPA, it is time for you to apply for the Junior/Senior Honors Program. The reapplication is necessary so that your major department may examine your past work and determine your eligibility to pursue an Honors degree in the major.
- Sophomores—Students with more than 60 semester credits who have not declared a CLA major will have a registration hold put on their records prior to registration for Spring Semester 2000. If you have not chosen a major, consider making an appointment with an honors advisor to help you sort through some of your choices.
- Freshmen—We will be calling you soon to set up an appointment for your Fall semester registration. Peer advisors will be calling you to set up an appointment that is convenient for you. Remember, you must schedule an appointment prior to registration. *You will not be able to register without it.*

CLA Internship Grant Award Recipients

The CLA Undergraduate Internship Grant Program was established to enable students to enhance their academic experience with meaningful internships in the community. More than two thirds of the internships listed with the Office for Special Learning Opportunities (OSLO) are unpaid internships, in both the private and public sectors. Since recent findings indicate that increasing numbers of students must work to support themselves while attending the university, many students are unable to take advantage of the valuable opportunities and experiences internships offer. This grant is intended to assist these students in accepting unpaid internships. The winners for Spring semester 2000 are:

Matthew K. Carr - Winner of the CLA Internship Grant for an internship with the Sierra Club.

Martin Lloyd - Winner of the CLA Internship Grant for a Research Internship with WATCH, a non-profit organization.

Philomena McCullough - Winner of the Eldon Johnson Award for an Archeological or American Indian Studies internship. Philomena will be recording and archiving the oral history of the Ojibwa and Dakota Nations.

(co-sponsored by HSA and CLA Honors Division)

A Message from the Director of the CLA Honors Division...

Welcome new honors students, and welcome back continuing students. Hope you had a great summer!

CLA Honors had a splendid year last year. We awarded more Selmer Birkelo and Eva Benson Buck scholarships than ever before—19 and 10, respectively. There were 168 Waller Scholars too. In a university-wide competition, two of the three Katherine Sullivan Scholars to win study-abroad scholarships for this academic year were CLA Honors students, and the third was an I.T. Honors student who is also a French major. A record fourteen departments nominated students for the John Turner Award for the best honors thesis of 1999; the winner was Brenda Ross, whose topic was Brazilian linguistics.

In national scholarship competitions, we had our best year ever. One of our students was selected as a British Marshall Scholar; she will spend her next two years pursuing a Cultural Studies graduate program in England. We had a Rhodes Scholarship finalist, who subsequently won a Rotary International Scholarship to study law and music at Cambridge University for two years. (Previous U of M Rhodes Scholar, Clay Jenkinson, has appeared on PBS television documentaries in the last couple of years related to the period of the American Revolution.) We had (another record!) three Harry S. Truman Scholarship finalists, one of whom did indeed win a Truman Scholarship, becoming our second Truman Scholar in two years. The Truman Scholarship Foundation has declared the U of M a Truman Foundation Honor Institution because of its (1) "active encouragement of outstanding young people to pursue careers in public service" and (2) "sustained success in helping its students win Truman Scholarships." The executive secretary of the Truman Foundation will fly in from Washington to present the award to President Yudof at a reception for freshman honors and scholarship students on September 18.

Bright students from across the country are choosing to come to CLA Honors and CBS Honors, whose students participate in many of our programs. Middlebrook Hall Honors Housing has grown exponentially; starting with two floors of IT and CLA Honors students five years ago and scheduled to grow to five floors of freshman honors students in IT, CLA, CSOM, and CBS in fall 2001. Last year we invited faculty to Middlebrook Honors Housing for an evening hour of "Cookies and Conversation with a Prof." This popular and successful program continues this fall, with Alan Fine (CSOM) scheduled for Sept. 27 and James Druckman (Poli Sci) coming to talk about the election campaign on Oct. 25.

Let's make this another great year! Get involved in the CLA Honors Student Association (beginning with their gala on Sept. 9) and help HSA plan some great events. Look over the list of national scholarships elsewhere in the newsletter and think about entering those competitions. Applications for CLA scholarships for the 2001-02 academic year will be available in the CLA Honors office later in the fall term.

Stop by the Honors office, and share your questions and your news with us. And have a great year.

Class Notes...

- Seniors—If you have 75 completed semester credits or so, it's time to make a Senior Balance Sheet appointment. This appointment will clarify your progress on graduation requirements and help you plan for that final push towards life after CLA. Ideally, this appointment should be scheduled at least a couple of terms prior to graduation. Call the Honors office at 612-624-5522 to schedule a Senior Balance Sheet appointment with a professional advisor.
- Juniors—If you have completed between 45-60 semester credits and have maintained a 3.5 GPA, it is time for you to apply for the Junior/Senior Honors Program. The reapplication is necessary so that your major department may examine your past work and determine your eligibility to pursue an Honors degree in the major. Application forms are available at the Honors website (www.umn.edu/honors) or in the Honors office (115 Johnston Hall).
Still undecided about a major? Remember that the University requires you to declare a major by the time you've completed 60 credits. Contact the Honors Office to set up an appointment with a professional advisor to help you with the process of major selection.
- Sophomores—The Freshman-Sophomore Honors Certificates for the 1999-2000 school year were awarded during our annual file review this summer. Those who successfully completed the Freshman-Sophomore Honors Program should have received a letter in the mail congratulating them on their achievement. Eligibility is based upon the completion of three Honors opportunities within the first 60 (semester) credits and a minimum 3.5 GPA. *If you think you are eligible for the award but have not received a letter, check with the Honors Office.*
- Freshmen—Remember to check your University e-mail! You will be receiving an e-mail from your professional advisor soon reminding you to schedule a Fall check-back appointment the week of September 11.

Thesis Grants

Honors Thesis/Project Grants

Seniors, before you begin work on your Honors Thesis or Project, consider applying for an Honors Thesis/Project Research Grant. The maximum award for such grants is \$500. Applications should be submitted well in advance of beginning the research. An application for a grant submitted after work has begun and expenditures have been made will be given lower priority than applications which are made for research planned completely but not yet undertaken.

Applications for Fall semester are due by **September 15.**

What Our Grads are Doing...

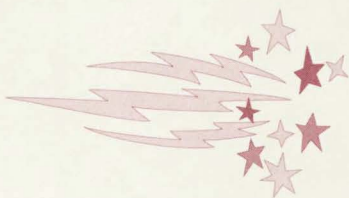

Anne Bodley (BA Magna, International Relations, Spring '92), graduated from NYU Law School last May with her J.D., and started work in September with a big international firm in New York, named Mayer, Brown & Platt. Anne worked with USAID in Moscow for two years after completing her BA. She has recently been admitted to the New York bar.

Giovanna Dell'Orto (BA, Art History/Journalism, Spring '98), successfully defended her Master's Thesis in Mass Communication in June 2000. Her post-graduation plans include 3 months with The Associated Press (where she's been working for a year) in the Rome, Italy bureau.

Michael Schleeter (BA Summa, CSCL/Biology/Philosophy, Summer '99), will be attending Penn State University in the fall to pursue a doctorate in Philosophy. His studies will be fully funded for five years by the Weiss Fellowship, an award for which he had to compete with graduate candidates across departments in both the humanities and the sciences. Once he's completed his doctorate, he hopes to teach philosophy at the University level.

Wonder what they're doing now?

Check out the Honors website at www.cla.umn.edu/honors, and click on the link to *Current News and Honorifics*, then *Honors to our Graduates* to see what the class of 2000 is up to.
