Preparing Leaders in Education and Human Development

The mission of the College of Education and Human Development

is to generate knowledge about teaching, learning, and human development and to apply that knowledge to improve education for all individuals. Consistently ranked as one of the most productive professional schools of education in the country — public or private — the college is a state, national, and international leader in teaching, research, and outreach. ■

The college is organized into six academic units and more than 20 research and service centers, with an

emphasis on interdisciplinary, collaborative approaches to addressing critical issues in preschool through postsecondary education, lifelong learning, and human development. In April 1995, the University's Board of Regents approved a name change to *The College of Education and Human Development*, a vitally important change reflecting the broad scope and impact of the college's teaching, research, and outreach mission and our deep commitment to improving the well-being of children, youth, families, and communities.
