Minnesota

**Medical School  
1989 Commencement**

the 1990s, the number of people in the UK who are employed in the public sector has increased from 10.5 million to 12.5 million, and the number of people in the public sector who are employed in health care has increased from 2.5 million to 3.5 million (Department of Health 2000).

There are a number of reasons for this increase. One of the main reasons is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

Another reason for the increase in the number of people employed in the public sector is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

A third reason for the increase in the number of people employed in the public sector is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

A fourth reason for the increase in the number of people employed in the public sector is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

A fifth reason for the increase in the number of people employed in the public sector is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

A sixth reason for the increase in the number of people employed in the public sector is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

A seventh reason for the increase in the number of people employed in the public sector is the increasing demand for health care services. The population of the UK is ageing, and there is a growing number of people with chronic conditions such as heart disease, diabetes, and asthma. This has led to an increase in the number of people who are hospitalised and the length of their stays. In addition, there has been a growing emphasis on preventive care, which has led to an increase in the number of people who are screened for cancer and other diseases.

## The Class of 1939

The Class of 1939, University of Minnesota Medical School, is observing the 50th anniversary of its graduation this week. These senior alumni of the Medical School have returned to Minnesota for this joyous occasion and are assembled with us today as honored guests.

The Class of 1939 extends its congratulations to the class of 1989, and welcomes these new physicians into the medical alumni family of the University of Minnesota with its proud traditions and record of high achievement.

## Acknowledgements

A special thank you to Andra Ibrahim for providing piano music during the ceremony.

A special thank you to the members of the University of Minnesota Brass Ensemble.

FAX (612) 626-5657

This is a special graduation ceremony in that it is the fitting culmination of this Medical School's centennial year celebration. Over the past 100 years we have created a tradition of excellence in the education of physicians. Minnesota has been at the forefront of modern medicine every year for the past century, and we will continue to be. With the graduation of the Class of 1989 we again make a major contribution to the world of medicine. These graduates have accomplished what few people can. They have successfully completed one of the toughest curriculums of any profession. These ceremonies honor them and their accomplishments.

The ceremony to create a doctor has many traditions. The most important is the "Oath for New Physicians". Through the ages, physicians were brought into the profession by reciting the Hippocratic Oath, a tradition dating back to the 4th century B.C. In recent years, this oath has been modified to reflect scientific advances and philosophical changes that affect the practice of modern medicine.

The second tradition you will witness today is the donning of the hoods. This is an academic tradition. The student will be given a hood made with the school colors. Surrounding the hood is a border of velvet, the color of which is specific for the profession into which the student is graduating. In our case, the hood will be maroon and gold, the colors of the University of Minnesota; the border will be green, the color of medicine.

Part of our ceremony is to honor the alumni from fifty years ago who have come back to help us pay tribute to our graduating physicians. We honor the graduates of the past, acknowledging the age-long tradition of medicine, and we honor those who will carry the tradition forward into the future. Participation of the faculty, administration and alumni from fifty years ago signifies the continuing involvement of teachers, practitioners and academicians with their students and the profession of medicine.

These traditions come together to make a unique ceremony which only a few people are ever privileged to witness. The graduation of these students signifies continuation of our commitment to the provision of outstanding health care for individual patients and our ongoing dedication to the health and welfare of humanity.

Welcome.

David M. Brown, M.D.

Dean

Professor, Laboratory Medicine  
and Pathology and Pediatrics

OATH FOR NEW PHYSICIANS

Cassius M.C. Ellis, M.D., Assistant to the Dean

RECESSIONAL

4:30 p.m.

Dean's Reception for Graduates, Families and Friends

NORTHROP MALL

Sponsored by the Minnesota Medical Foundation

**PLEASE REMAIN SEATED DURING THE RECESSIONAL**

## *OATH FOR NEW PHYSICIANS*

In the tradition of Hippocrates and the men and women through the ages who have dedicated their lives to the art and science of medicine I make the following pledge:

The respect, dignity of patients and the confidential nature of our relationship is foremost in my service to them. I will value their lives as I value my own.

I acknowledge my limitations and need for continued education. I will seek the knowledge and inspiration of my colleagues, friends and patients.

My work shall be dedicated to improving the quality of life for those who seek my assistance. I will honor the wishes and needs of the patient, recognizing that death is not always an enemy. I will do no harm.

I will strive always to improve the practice of medicine, to provide a level of care that is ethical, moral and just. I expect the same standards from my colleagues and will not tolerate their indifference, greed or unethical behavior.

My profession is an honored one. I will not violate the trust society has placed in me by allowing religion, race or creed to affect my judgment or ability to take care of patients. I will be humble.

I will consider the tools of my profession to be knowledge, compassion and patience. I will share these tools freely with my colleagues and patients alike.

The aged, the poor and the mentally ill are vulnerable members of society. I shall do my utmost to provide them the care and attention they need to assure their health, dignity, and protection. I see all life as sacred.

In the presence of my teachers, my family and my friends I make these promises solemnly and freely. With this oath I willingly assume the rewards and responsibilities of a physician.

Administered to the Graduating Class  
University of Minnesota Medical School  
June 2, 1989

---

(Written by Timothy Schacker, M.D., Class of 1987)

## HONORS

### MINNESOTA MEDICAL FOUNDATION UNDERGRADUATE RESEARCH AWARD

Award to a member of the senior class for the most  
meritorious paper on a research topic

Roger J. Day

### MINNESOTA MEDICAL FOUNDATION MEDICAL STUDENT ACHIEVEMENT AWARD

Awards are given for any or all of the following: academic excellence,  
research, student leadership or community service

Julie K. Drier  
Gregory A. Plotnikoff

Roberto Pineda  
J. Pablo Villablanca

### NICOLLET CLINIC FOUNDERS SCHOLARSHIP

Award given for academic excellence

L. Dean Jansen  
Chris R. Longbella

### AMERICAN CANCER SOCIETY SCHOLARSHIP

Award given for interest in cancer research

Paul J. Sovell

### RICHARD C. HORNS MEMORIAL AWARD

Awarded for outstanding clinical performance  
for a graduating student

Roger J. Day

### GEORGE E. WILLIAMS SCHOLARSHIP

Awarded in Year Two to the student deemed outstanding clinician

Chris R. Longbella

### DANIEL A. COYLE MEMORIAL AWARD

Awarded to the outstanding woman student by the  
Department of Obstetrics and Gynecology

Lisa M. Bucholz

## HONORS

RUTH BOYNTON MEMORIAL SCHOLARSHIP  
Award given for academic excellence

Julie K. Drier      Jessica M. Nelson  
Tereasa M. Simonson

NICOLLET NORTON MEMORIAL SCHOLARSHIP  
Award given for academic excellence and interest in pediatrics

Stephanie A. Hedstrom

SOUTHERN MINNESOTA MEDICAL ASSOCIATION  
OUTSTANDING SENIOR AWARD  
Awarded to an outstanding member of the graduating class

Randal L. Pilgrim

MAXINE NELSON - AEI FOUNDATION AWARD  
The AEI Foundation, established by women physicians of Minnesota,  
presents this award to the senior woman medical student who  
best exemplifies excellence in clinical performance,  
community service, scholarship and leadership

Margaret A. Kirkegaard

J. THOMAS LIVERMORE AWARD  
Given by the Minnesota Medical Foundation in honor of  
outstanding research in the field of hematology

Jeffrey A. Balke

DELIA TENILLE HOBBS SCHOLARSHIP  
Award given for demonstrated superior academic  
achievement as well as financial need

E. Renee Petty

### STUDENT MEMBERS OF MEDICAL SCHOOL ADMINISTRATIVE COMMITTEES

\* Elected to AOA in their third year

## *Presentation of Honorary Degree*

*Doctor of Science*

*Robert Alan Good*

Native of Minnesota; graduate of the University of Minnesota with a B.A. in 1944, an M.B. in 1946, and a Ph.D. and M. D. in 1947; Markle Foundation Scholar in Medical Science, 1950-55; American Legion Memorial Professor of Pediatrics, University of Minnesota, 1954-73; professor of microbiology, 1962-72; regents' professor, 1969-73; professor and head, Department of Pathology, 1970-72; president, Sloan-Kettering Institute for Cancer Research, 1973-80; head, Cancer Research Program, Oklahoma Medical Research Foundation, 1982-85; University professor and chair, Department of Pediatrics, University of South Florida-St. Petersburg, 1985 to the present; pioneer in immunobiological research; recipient of numerous awards, including the Albert Lasker Clinical Medical Research Award and the Borden Award, 1970; member, National Academy of Sciences, and numerous other professional associations.

Because of your recognized contributions to understanding biological systems and mechanisms in immunobiology and cancer; because you are an accomplished physician in both pathology and pediatrics; because you are a gifted teacher and beloved mentor; because you endow every undertaking with a fund of excitement and natural curiosity; because your creative scientific inquiry and dedication to practical solutions has brought health and hope to many, especially to children--

The regents of the University of Minnesota, upon recommendation of the faculties, confer upon you, Robert A. Good, the degree of doctor of science, *honoris causa*.

Conferred on June 2, 1989.

## *Presentation of Honorary Degree*

### *Doctor of Humane Letters*

#### *Harold G. Scheie*

Resident of Pennsylvania; graduate of the University of Minnesota with a B.S. in 1931 and an M.B. and M.D. in 1935, and of the University of Pennsylvania with a D.Sc. in 1940; chief of Ophthalmology, 20th General Hospital in the China-Burma-India theater, 1944-45; promoted to Brigadier General in 1954; faculty member of the University of Pennsylvania School of Medicine, 1946-75, and chair of the Department of Ophthalmology, 1960-75; vice president of the American College of Surgeons, 1961-62, and regent, 1964-72; founder of the Scheie Eye Institute and director, 1972-75; founding director, 1978 to the present; consultant to hospitals around the nation, and distinguished lecturer at universities worldwide; recipient of numerous military honors and scholarly accolades.

Because of your devotion to your country during the trials of war, and your energy and compassion in the practice of medicine; because of your storied skill in the operating room; because of your equally celebrated success in building an outstanding academic department of ophthalmology, while raising public awareness and support for eye research and teaching; because of your own pioneering work in the field of ophthalmology; because you brought together the resources to create and sustain a world-renowned research and teaching institute; because your reputation extends beyond admiring colleagues to your students, your patients, fellow administrators, and friends the world over--

The regents of the University of Minnesota, upon recommendation of the faculties, confer upon you, Harold G. Scheie, the degree of Doctor of Humane Letters, *honoris causa*.

Conferred on June 2, 1989.

## *Presentation of Honorary Degree*

### *Doctor of Science*

#### *Lewis Thomas*

Native and resident of New York; graduate of Princeton University with a B.S. in 1933, and of Harvard University with an M.D. in 1937; professor of medicine, Tulane University, 1950; professor of pediatrics and medicine, first American Legion Heart Research Professor, and director of pediatric research laboratories, Variety Club Heart Hospital, University of Minnesota, 1950-54; dean, New York University School of Medicine, 1966-69; dean, Yale University School of Medicine, 1972-73; president and chief executive officer, Memorial Sloan-Kettering Cancer Center, 1973-80; chancellor, 1980-83; and president emeritus, 1984 to the present; author of several best-selling books, including The Lives of a Cell: Notes of a Biology Watcher 1974; recipient of the National Book Award, the American Book Award, and numerous other literary accolades.

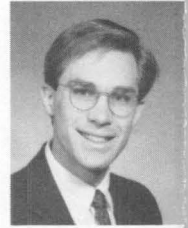

Because of your outstanding scholarship in pathology, immunology, pediatrics, and internal medicine; because of your accomplishments as a clinician and medical administrator; because of your ability to inspire colleagues with fresh ideas and original approaches to biological and medical problems; because, through energetic resolve and calm reflection, you have found meaning in the bewildering complexity of life; because as author, philosopher, apologist and medical statesman you have revealed to the world the human face of your profession--

The regents of the University of Minnesota, upon recommendation of the faculties, confer upon you, Lewis Thomas, the degree of doctor of science, *honoris causa*.

Conferred on June 2, 1989.

Students who transferred into the third year class:

- (D) University of Minnesota-Duluth, School of Medicine
- (I) University of Iowa, College of Medicine
- (M) Mayo Graduate School of Medicine
- (N) University of North Dakota, School of Medicine
- (T) Tufts University, School of Medicine

The University of Minnesota is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, religion, color, sex, national origin, handicap, age or veteran status.

This book is not an official record of graduation from Medical School. The degree of Doctor of Medicine is officially granted by the Board of Regents on the date ending the academic quarter in which degree requirements are completed, which this year will be June 10, 1989.

*Daniel H. Gall*

*November 21, 1961 to April 25, 1989*

*M.D. degree granted, posthumously, June 10, 1989*

Classmate and Friend

Those who meet as strangers  
And part as friends  
Hold between them something special  
It is simply each other

The gift of a friend  
Shall not be forgotten  
But held close and deeply cherished

E.M. Salewski  
Class of 1989

## Academic Costume

Academic costume - cap, gown, and sometimes hood - may be worn by anyone with a college degree, or by a candidate whose degree is soon to be awarded. Characteristics of costumes show their wearers' highest degrees and, often, the fields of major interest and the institutions by which the degrees are granted.

All bachelors' and masters' gowns are black and untrimmed. The bachelor's gown has a long pointed sleeve, the master's a closed sleeve with an arm slit. Doctors' gowns in the United States are usually black, with velvet front facings and sleeve crossbars. Some universities, especially those abroad, prescribe colorful crimson, bright red, or other colors, set off by black or colored facings.

At commencements, degree candidates wear the gowns for the degrees they are about to receive. Hoods are worn only by those who already possess degrees. Anyone who has a University of Minnesota degree may wear the Minnesota hood - black with a maroon chevron on gold. The length and shape of a hood identify the most advanced degree its wearer has earned, and the hood's velvet edging shows the degree's field: dark blue for philosophy, light blue for education, green for medicine, lilac for dentistry, orange for engineering, russet for forestry, drab for business, olive green for pharmacy, purple for law, gray for veterinary medicine, golden yellow for science, white for liberal arts.

Caps - usually tasseled mortarboards - show by tassel color the nature of degrees awarded at University of Minnesota commencements. Doctors' tassels may be black or gold; masters' are black. Bachelor's degree candidates at Minnesota, however, indicate their fields of study by their tassel colors:

College of Agriculture.....	maize
College of Biological Sciences.....	golden yellow
Continuing Education and Extension.....	orange and drab
School of Dentistry.....	lilac
College of Education.....	light blue
College of Forestry.....	maize
General College.....	crimson and white
College of Home Economics.....	maize
Law School.....	purple
College of Liberal Arts.....	white
School of Management.....	drab
Medical School.....	green
School of Nursing.....	green
College of Pharmacy.....	olive
School of Public Health.....	green
Institute of Technology.....	orange
University College.....	old gold and white
College of Veterinary Medicine.....	gray

Gold shoulder epaulets are worn by candidates who are honor students.

After receiving their degrees, holders may wear the academic costume on any appropriate occasion, but they always wear the black tassel and omit the shoulder insignia. Appropriate academic costumes can be obtained anywhere that academic ceremonies are conducted.
