UNIVERSITY OF MINNESOTA

Medical School 1996 Commencement

Friday, June 7, 1996
Northrop Memorial Auditorium

The Class of 1946

The class of 1946, University of Minnesota Medical School, is observing the 50th anniversary of its graduation this week. These senior alumni of the Medical School have returned to Minnesota for this joyous occasion and are assembled with us today as honored guests.

The class of 1946 extends its congratulations to the class of 1996, and welcomes these new physicians into the medical alumni family of the University of Minnesota with its proud traditions and record of high achievement.

Acknowledgements

A special thank you to the 1996 Graduation Committee, for all their hard work on graduation and planning all the festivities for the final year.

A special thank you to Mark Bloom for providing piano music during the ceremony.

A special thank you to the members of the Summit Hill Brass Quintet:

First, let me congratulate each and every student of the University of Minnesota Medical School Class of 1996 and those who have supported and encouraged you throughout your student career. For some of you, those four years may have gone relatively smoothly. For others, they may have been full of challenges and hard work. However it may have been, today is the day we say to you: You are medical doctors, health care professionals, caregivers and healers. The Medical School continues its tradition, as in the past century, of educating and encouraging physicians as compassionate care givers. This tradition will continue.

Today, you will all make a pledge, the "Oath for New Physicians." The age-old oath, known as the "Hippocratic Oath," began almost 2,400 years ago. In contemporary terms, it is an oath to care, to help, and above all, to do no harm. As the practice of medicine becomes more complex, it is not too difficult to lose focus of what our profession truly represents. One can easily be disillusioned and think that this is just a business or a profit-making entity rather than a care-giving profession. Certainly, as all of our resources gradually become scarce, we as physicians should be good citizens in terms of fiscal responsibilities. We must insist that the best caring and healing do not necessarily require high technology and its inherent high cost. More often, the best caring and healing take the form of good communication, mutual understanding and compassion. There is no price tag on trust and compassion. We should believe that the "Oath of New Physicians" means exactly that.

The ceremony of donning the hoods is an academic tradition. The hood has the colors that forever represent your school. In our case it is maroon and gold, the colors of the University of Minnesota. Bordering the hood is green velvet that is universally recognized as the color of the medical profession. You have earned the hood with its specific color combination. You can wear the gown and this specific hood on any academic occasion throughout your life. This color combination gives you recognition worldwide as a doctor of medicine from the University of Minnesota.

We are also to honor our former graduates of the Medical School. Traditionally, we honor at each graduation ceremony our alumni who experienced the same recognition half a century ago. This tradition has a vitalizing effect on our alumni and our new generation of physicians—we have a tradition, we have a purpose, we are physicians and healers together. The present faculty and administration serve as a link between the more experienced and the new. We are proud to have that privilege.

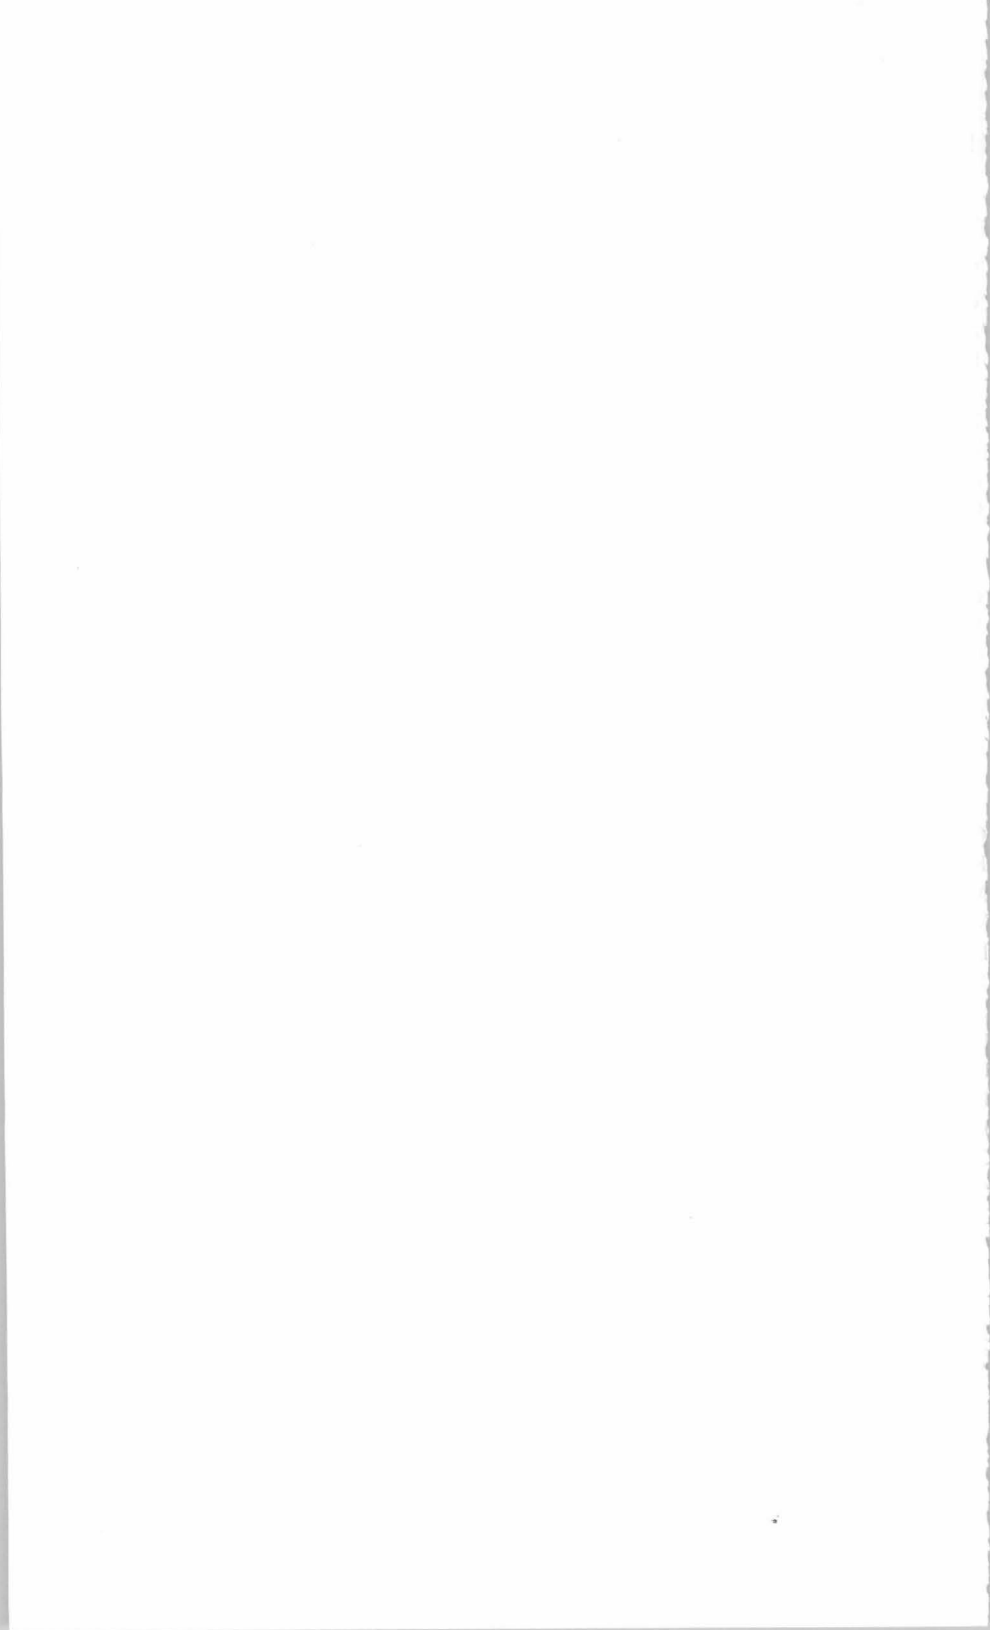

Finally, a personal note. My tenure as your Dean for the past year will soon be over. The past year witnessed a great deal of turmoil and significant changes in the Medical School. It has not been an easy period but I am glad that I have been able to play a leadership role in those troubled times. I leave with mixed feelings; I wish I could have done more. With my new role in the Academic Health Center and the Medical School, I am very optimistic about our future. I know, though, there is still a lot to be done.

Thank you and my best wishes.

Sincerely,

OATH FOR NEW PHYSICIANS

In the tradition of Hippocrates and the men and women through the ages who have dedicated their lives to the art and science of medicine I make the following pledge:

The respect and dignity of patients and the confidential nature of our relationship are foremost in my service to them. I will value their lives as I value my own.

I acknowledge my limitations and need for continued education. I will seek the knowledge and inspiration of my colleagues, friends, and patients.

My work shall be dedicated to improving the quality of life for those who seek my assistance. I will honor the wishes and needs of the patient, recognizing that death is not always an enemy. I will do no harm.

I will strive always to improve the practice of medicine, to provide a level of care that is ethical, moral, and just. I expect the same standards from my colleagues and will not tolerate their indifference, greed, or unethical behavior.

My profession is an honored one. I will not violate the trust society has placed in me by allowing religion, race, or creed to affect my judgment or ability to take care of patients. I will be humble.

I will consider the tools of my profession to be knowledge, compassion, and patience. I will share these tools freely with my colleagues and patients alike.

I shall do my utmost to provide the vulnerable members of society the care and attention they need to assure their health, dignity, and protection. I see all life as sacred.

In the presence of my teachers, my family, and my friends I make these promises solemnly and freely. With this oath I willingly assume the rewards and responsibilities of a physician.

Students who transferred into the third-year class:

- (D) University of Minnesota-Duluth, School of Medicine
- (W) Wayne State University, School of Medicine

- (M) Signifies students that have completed a combined M.D./Ph.D. program.

The University of Minnesota is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, religion, color, sex, national origin, disability, age, veteran status, sexual orientation, creed, marital status, or public assistance status.

This book is not an official record of graduation from the Medical School. The degree of Doctor of Medicine is officially granted by the Board of Regents on the date ending the academic quarter in which degree requirements are completed, which for Spring Quarter of this year will be June 8, 1996.
