Graduation. It is the commencement of your career as a physician, a day you will never forget.

The future holds many opportunities, but the essence of our profession is caring for patients and preventing disease. Although scientific discoveries in the 21st century will change much of what you do as physicians, the core of compassion, commitment, trust and communication—traits that characterize the art of medicine throughout the centuries—will be your touchstone and foundation.

The Hippocratic Oath will guide you as you strive to meet the demands of a diverse society, provide care to the sick, and grapple with complex ethical issues. The Oath will keep you true to the highest professional standards.

You have worked hard to don the hood you will wear in today's important ceremony. The colors of maroon and gold represent the University of Minnesota Medical School, and the green velvet is universally recognized as the color of the medical profession. I know you will wear these colors with pride.

Commend you on your hard work and perseverance.

Congratulations, members of the University of Minnesota Medical School Class of 1998.

Sincerely yours,

Alfred F. Michael, M.D.

OATH FOR NEW PHYSICIANS

In the tradition of Hippocrates and the men and women through the ages who have dedicated their lives to the art and science of medicine I make the following pledge:

The respect and dignity of patients and the confidential nature of our relationship are foremost in my service to them. I will value their lives as I value my own.

I acknowledge my limitations and need for continued education. I will seek the knowledge and inspiration of my colleagues, friends, and patients.

My work shall be dedicated to improving the quality of life for those who seek my assistance. I will honor the wishes and needs of the patient, recognizing that death is not always an enemy. I will do no harm.

I will strive always to improve the practice of medicine, to provide a level of care that is ethical, moral, and just. I expect the same standards from my colleagues and will not tolerate their indifference, greed, or unethical behavior.

My profession is an honored one. I will not violate the trust society has placed in me by allowing religion, race, or creed to affect my judgment or ability to take care of patients. I will be humble.

I will consider the tools of my profession to be knowledge, compassion, and patience. I will share these tools freely with my colleagues and patients alike.

I shall do my utmost to provide the vulnerable members of society the care and attention they need to assure their health, dignity, and protection. I see all life as sacred.

In the presence of my teachers, my family, and my friends I make these promises solemnly and freely. With this oath I willingly assume the rewards and responsibilities of a physician.
