May 5, 2006

Congratulations to all the members of the University of Minnesota Medical School class of 2006. Today you will be receiving your doctoral hoods and entering the second phase of your education as a physician. Soon you will be starting your residencies, whether here in Minnesota or across the country. You have all worked very hard to get to this point in your academic careers, aided in no small part by the dedication and devotion of your families, partners, and friends.

You will be heading into many different careers in medicine, from specialty practice to primary care and from practice in small rural communities to large academic medical centers. However, wherever you go and whatever your specialty, you will be connected by the mission of the medical profession that connects us all. You will be engaged in some way in improving the lives of patients through diagnosing, treating, and preventing disease. You will see many changes in the way medicine is practiced and in what we know about human health and disease during the years of your practice. So, the commitment to learning you possessed long before you started medical school must continue to guide your practice throughout your careers.

You also will be guided by the traits that have characterized medicine from its inception; namely to insure the welfare of your patients, to exhibit compassion, and to remember that the communication between doctor and patient is the highest form of the art of medicine. The Hippocratic Oath (Modern Version), which you will recite today, should be your guide as you meet the health-care needs of an increasingly diverse society.

Today you will receive your doctoral hoods. The colors of the hoods that you will receive today, maroon and gold, represent the University of Minnesota Medical School and the proud traditions of medicine here that we pass on to our graduates. The green velvet symbolizes the medical profession.

On behalf of all of the faculty and staff of the University of Minnesota Medical School, I would like to say that we wish you well and congratulate you on your very significant achievements. We are extremely proud of you and of all that you have accomplished. Wherever you go in your medical careers, you will always be part of Minnesota medicine. We will welcome you back at any time to visit with us. You represent the future of medicine. We know that, because of you, the future of medicine in this country is very bright indeed.

Sincerely yours,

Deborah E. Powell, M.D.  
Dean of the Medical School  
Assistant Vice President for Clinical Sciences

## THE HIPPOCRATIC OATH (MODERN VERSION)

I swear to fulfill, to the best of my ability and judgment, this covenant:

I will respect the hard-won scientific gains of those physicians in whose steps I walk, and gladly share such knowledge as is mine with those who are to follow.

I will apply, for the benefit of the sick, all measures which are required, avoiding those twin traps of over treatment and therapeutic nihilism.

I will remember that there is art to medicine as well as science, and that warmth, sympathy, and understanding may outweigh the surgeon's knife or the chemist's drug.

I will not be ashamed to say, "I know not," nor will I fail to call in my colleagues when the skills of another are needed for a patient's recovery.

I will respect the privacy of my patients, for their problems are not disclosed to me that the world may know. Most especially must I tread with care in matters of life and death. If it is given me to save a life, all thanks. But it may also be within my power to take a life; this awesome responsibility must be faced with great humbleness and awareness of my own frailty. Above all, I must not play at God.

I will remember that I do not treat a fever chart, a cancerous growth, but a sick human being, whose illness may affect the person's family and economic stability. My responsibility includes these related problems, if I am to care adequately for the sick.

I will prevent disease whenever I can, for prevention is preferable to cure.

I will remember that I remain a member of society, with special obligations to all my fellow human beings, those sound of mind and body as well as the infirm.

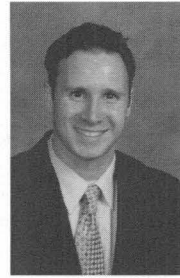

If I do not violate this oath, may I enjoy life and art, respected while I live and remembered with affection thereafter. May I always act so as to preserve the finest traditions of my calling and may I long experience the joy of healing those who seek my help.
