## BIBLIOGRAPHY OF THE UNITED STATES DEPARTMENT OF AGRICULTURE YEARBOOK 1926

Copyright by V. E. Nylin

The Yearbook of Agriculture 1926, published by the United States Department of Agriculture, is somewhat different from the other yearbooks in that it discusses briefly over three hundred problems on what is new in agriculture and in the work of the Department of Agriculture.

The table of contents lists the various articles by authors contributing them. This makes it necessary for the teacher of agriculture to go through the entire table of contents to find whether articles on a given problem are contributed.

The following bibliography for 1926 furnishes a supplement to the Bibliography of the United States Department of Agriculture Yearbook 1901-1925, published in *The VISITOR*, Vol. XIV, Nov., Dec., 1926, Jan., 1927, and lists the articles by topics as found in the latter bibliography.

The two should be kept together to form the complete bibliography for the twenty-six years.

### ANIMAL HUSBANDRY

#### General—

- Camera in Livestock Research. W. A. Stenhouse. 1926, p. 198.  
Crates for Livestock Built to Fit the Animals. T. A. Carlson. 1926, p. 283.  
Grading Animals and Meat to Show Quality. L. B. Burk. 1926, p. 401.  
Livestock Estimating Work Much Enlarged. C. L. Harlan. 1926, p. 489.  
Livestock Judging Aided by Use of Camera. M. H. Fohrman. 1926, p. 491.  
Livestock Market News Distribution. E. W. Baker. 1926, p. 494.  
Livestock Problems That Have Been Solved. John R. Mohler. 1926, p. 497.  
Meat Investigations That Help Stockmen. K. F. Warner. 1926, p. 513.  
Proteins in Feedstuffs Vary Much. D. Breese Jones. 1926, p. 612.  
Purebred Livestock Markets. L. B. Burk. 1926, p. 618.  
Sausage—The Real and the Imitation Kinds. Robert H. Kerr. 1926, p. 642.  
Shoe Soles from "Bend" of Hides Most Durable. F. P. Veitch, R. W. Frey. 1926, p. 657.

#### Beef Cattle—

- Calf Crop in Beef Industry. W. H. Black. 1926, p. 196.  
Cattle Feeding for Profit. George W. Collier. 1926, p. 201.  
Meat Standards and the Livestock Producer. C. E. Gibbons. 1926, p. 519.

#### Dairying—

- Cow-Testing Tales Prove Breeding and Feeding Pay. J. C. McDowell. 1926, p. 277.  
Cow-Testing Associations a Factor in Low-Cost Dairying. J. B. Parker. 1926, p. 280.  
Dairy By-Products and Methods of Utilizing Them. L. A. Rogers. 1926, p. 296.  
Dairy Industry in Process of Change. T. R. Pirtle. 1926, p. 300.  
Milk Flavors and Odors Ascribed to Four Main Causes. C. J. Babcock. 1926, p. 522.

- Milk Production Indexes. Joseph A. Becker. 1926, p. 525.  
Proving Dairy Sires Through Daughters' Records Worth While. J. C. McDowell. 1926, p. 617.  
Skim Milk in Dry Form Has Various Uses. George E. Holm. 1926, p. 663.  
Udder of Dairy Cow: Its Structure and Capacity. W. W. Swett. 1926, p. 741.

#### Horses—

- Horse Production Falling Fast in United States. C. F. Sarle. 1926, p. 437.  
Morgan Horse Record. John O. Williams. 1926, p. 526.

#### Poultry—

- Egg Standardization is Put Into Effect. R. R. Slocum. 1926, p. 324.  
Egg Supplies in Winter. E. R. Johnson. 1926, p. 325.  
Poultry Accreditation a Stabilizing Market Influence. M. A. Jull. 1926, p. 601.  
Poultry and Egg Production Estimates Now Made. S. A. Jones. 1926, p. 605.  
Poultry Industry Expansion. R. R. Slocum. 1926, p. 606.

#### Sheep and Goats—

- Sheep Acres Test Pastures at Beltsville. C. G. Potts. 1926, p. 652.  
Sheep Experiment Station at Dubois, Idaho, is Unique. D. A. Spencer. 1926, p. 654.  
Wool Shrinkage Tests Important to Sheep Raisers. J. I. Hardy. 1926, p. 782.

#### Swine—

- Hog Cycles and Possibilities of Regulating Them. Mordecai Ezekiel. 1926, p. 419.  
Hog Price Changes Studied. Mordecai Ezekiel. 1926, p. 422.  
Hog Raising by Low-Cost Operations. Oscar Steanson. 1926, p. 425.  
Ton-Litter Aim Improves Hog Raising Methods. S. S. Buckley. 1926, p. 731.  
Pig Surveys and Market Stabilization. C. L. Harlan. 1926, p. 580.

## THE VISITOR

Published monthly by the Division of Agricultural Education, University of Minnesota, University Farm, St. Paul, Minn.

Entered as second class matter at the post-office at St. Paul, Minn., under the act of August 24, 1912.

Acceptance for mailing at special rate of postage provided for in section 1103, Act of October 3, 1917, authorized August 2, 1918.
