KEY PUNCH WORKLOADS

A gain we have reached that time of the year when key punching demands are low. Generally speaking, demands are at their peak in the months: September through February.

At the present time, we could use additional work in this section. If you have data ready for key punching, we request that you submit it now, thus avoiding any unnecessary delays later on, when our key punching demands are high.

ACCOUNT NUMBERS FOR THE NEW FISCAL YEAR

All customers who currently have one or more of our '8000' or '9000' account numbers which no longer reference the proper budget number should contact our secretary, Mrs. Eva Klein and 1) request that the corresponding account number be cancelled or 2) have the necessary changes made to the corresponding account number record or 3) request that a new account number be issued.

All existing free-time account numbers (the '2000' series) are being discontinued June 30, 1972. Those wishing to use our computer facilities for class purposes in the new fiscal year must apply for new free-time account numbers.

ANNOUNCEMENTS

1. The June billing will be processed as soon as possible after June 30th. All journal vouchers will be designated as 71-72 fiscal year business.
2. In a few weeks, the Center plans to implement "Release 26" of the Disk Operating System. This new system will require no changes to the existing job control cards and accordingly, the specifications for the programming languages will remain the same.

COMPUTING CENTER FACILITIES QUESTIONNAIRE

We are interested in providing the best service possible to all facility users within the limitations of the resources at our disposal. To properly evaluate the various types of services we provide, it is necessary to obtain the user's point of view. We request your cooperation in completing the following questionnaire and return it to 26 North Hall, or drop it in the SPCCC Suggestion Box. Although we may not be able to respond to all of your suggestions or be able to make immediate changes, we will be aware of the user needs and will take these into account in any future planning.

SPCCC QUESTIONNAIRE IV

6-19-72

- 1. Are you currently using our Computing Center facilities? yes no
- 2. Do you anticipate using our Computing Center facilities within the next year? yes no
- 3. Do you use other computing facilities off this campus? yes no
