FEATURE: Imagine encountering a dozen people in the woods improvising on the spot as they're inspired by what they hear from the forest, or from the savanna, as the wind combs through tall native grasses and whispers inspiration. *Sounds and Visions of Cedar Creek* is just such an experience. The performance, which will take place Feb. 27 in St. Paul, evolved from the experience of a dozen students and faculty who spent two days talking with research scientists and otherwise exploring the Cedar Creek Ecosystem Science Reserve. For more information, read "[A musical environment](#)."

FEATURE: A bleeding heart is a metaphor. A leaking one is a common, and often deadly, reality. In conditions from Duchenne muscular dystrophy to heart attack and heart failure, leaky heart cells lose proteins vital to long-term survival. For University of Minnesota heart researcher Joseph Metzger, fixing these leaks is a prime concern. For more information, read "[A molecular band-aid](#)."

THE 2014 STATE OF THE U ADDRESS will be delivered by President Eric Kaler on March 6, 3:30 p.m., Coffman Union Theater. The address will be live-streaming the day of the event. For more information, see [State of the U](#).

Features

FEATURE: For those of us who have spent our lives in the United States, it's difficult to imagine the reality of citizens living in countries that have been torn apart by leaders ruling with intimidation and repression--and without regard for human rights. According to U research led by Kathryn Sikkink, countries that use human rights trials over time wind up seeing improvements in their overall human rights. For more information, read "[Trials help alleviate tribulations](#)."FEATURE: If you needed a diagnostic test for colon cancer and had a choice between a colonoscopy and giving a urine sample, which would you pick? You've got plenty of company. A team of researchers, including David Wood of the Masonic Cancer Center, University of Minnesota, has reported success with a fresh approach to diagnostic testing for noncommunicable diseases like cancer and cardiovascular disease. For more information, read "[A simple test for tumors](#)."FEATURE: More than 100 people expressed interest in heading the University of Minnesota Medical School and health sciences. Jay Brooks Jackson was chosen because he has proven himself as someone who can implement the strategic vision that faculty have crafted--and who can grapple with the funding challenges that every healthcare institution faces today. Jackson began as the U of M's new Medical School dean and vice president for health sciences on Feb. 17. For more information, read "[Driven to lead](#)."

TOP NEWS:

AT THE 2014 STATE OF THE UNIVERSITY ADDRESS, U of M President Eric Kaler detailed this year's academic and legislative successes and outlined his vision for the future. Kaler's priorities for the next year include recruiting and retaining field-shaping faculty and researchers, supporting excellence and rejecting complacency, advancing equity and diversity efforts, continuing to invest in graduate education by extending funding for doctoral dissertation fellowships, and more. For more information, see the [news release](#) or read the full text at [SOTU 2014](#).

STATE RELATIONS UPDATE: The University recently presented its capital request to both the Minnesota House and Senate higher education committees. President Kaler and Vice President for University Services Pamela Wheelock outlined the six proposed projects and emphasized the value of state investment in University facilities. For more information, see [State Relations](#).

TOP NEWS:

THE BOARD OF REGENTS WILL MEET MARCH 28. Regents will explore the University's expertise in food and agriculture, coinciding with the week's celebration of Norman Borlaug. In addition, Senior VP for Academic Affairs and Provost Karen Hanson will outline and invite discussion on preliminary goals emerging from the Twin Cities campus strategic planning process. A draft of the full strategic plan is expected this fall. For more information, see [Board of Regents](#).

STATE RELATIONS UPDATE: Minnesota House Capital Investment Chair Alice Hausman released her bonding bill proposal, which provides the University with \$224.2 million for requested projects, including full funding for five projects. On March 25, the Senate Higher Education and Workforce Development Committee heard a bill that would establish an adoption program for research animals, and the Senate Higher Education Committee heard a bill that would provide the University with a \$5 million appropriation to invest in regenerative medicine research. For more information, see [State Relations](#).

Features

FEATURE: On the 100th birthday of U alum and father of the Green Revolution Norman Borlaug, the University continues to help secure the world's food supply through innovative research—and through the determination and brilliance of students like Margaret Krause and Tessa Ries. For more information, read "[A legacy of feeding the world](#)."

FEATURE: Academic achievement expert Ernest Davenport helps students overcome barriers to using math and statistics. Last year in Chicago, Davenport won the Best Paper Award at the International Conference on Education. The paper recommended that closing the achievement gap in math must begin before high school, due to significant ethnic achievement differences that are already in place before students begin their coursework. For more information, read "[Walking the math path](#)."

FEATURE: Immigrant students are one of the nation's fastest growing demographic groups. Faculty member Mike Stebleton is one of several Postsecondary Teaching & Learning faculty who teach in CEHD's First Year Experience program, designed to engage students in topics from multiple perspectives. Stebleton creates experiences that foster a sense of belonging on campus. For more information, read "[Finding Direction](#)."

CAMPUS ANNOUNCEMENTS AND EVENTS

UNIVERSITY-WIDE:

Administrative information

REGENTS SCHOLARSHIP: Gov. Dayton has signed into law a [federal tax conformity bill](#) that provides three postsecondary-related tax benefits for tax year 2013. The tax changes will affect employees participating in the Regents Scholarship Program who use the benefit for graduate-level studies. The bill reinstates the exclusion of up to \$5,250 of employer-provided education assistance for graduate-level studies, increases the income limits for student loan interest deductions, and provides a tuition expense deduction. Affected taxpayers who have not filed are asked to wait until Apr. 3 to file. The Department of Revenue will contact those who have already filed and are eligible for refunds, although that process may take some time. U Payroll Services will contact employees affected by this change directly.

ENTERPRISE SYSTEMS UPGRADE PROGRAM (ESUP) TRAINING began this month with a series of sessions. The [HRMS process and functions training](#) is designed to guide HR and finance staff through high-level flowcharts mapping all HRMS business processes and highlighting new functions and capabilities that may change the way units approach HR work. Initial feedback was positive, and included insights into what units are most excited (and nervous) about with the new system.

UTHINK WILL BE RETIRED by University Libraries and University IT. Sites within the UThink domain will no longer be available after Dec. 31. Existing blogs will be accessible throughout the 2014 spring and fall semesters. For more information, see [UThink decommissioning](#).

Couples from northwest Minnesota will be honored as Red River Valley Farmers and Homemakers and Northwest Minnesota Youth Leadership Awards will be presented.

TRAINING for all Northwest Research and Outreach Center employees will be held March 26-27. Topics include safe practices in lockout/tagout, grain storage, respiratory protection, field and farmstead equipment, forklift, employee right-to-know, electrical safety, hazardous waste, lab, and greenhouse safety. Anne Burke and Tom Feiro work with Paul Serafini to hold the annual safety meetings.

DULUTH:

NRRI RESEARCHER MATT ARO and his team are using thermal modification to improve the performance of under-performing wood species. This can make historically undervalued and underutilized wood species perform similarly to high-performing and often overexploited species. Thermally modified wood was used at the new Sax-Zim Bog visitor's center in northern Minnesota. For more information, see [Thermal Modification](#).

THE CENTER FOR ECONOMIC DEVELOPMENT (CED) will host the Labovitz School of Business and Economics (LSBE) [Student Projects Showcase](#) Mar. 26, 5-7 p.m., Duluth Technology Village Atrium, 11 East Superior St. The event will highlight many of LSBE's specialized business programs. A ribbon-cutting ceremony for CED's newly remodeled offices will take place at 4 p.m.

[NORTHLAND COMMUNITY WELLNESS DAY](#) will be held March 29, 10 a.m.-2 p.m., UMD Romano Gym. In addition to providing information about health and wellness, public safety, environmental awareness, and financial literacy, this free family-friendly event features rock-climbing, the Zoo Mobile (10 a.m.-noon), and kids' activities with UMD athletes and Champ.

OVATION GUEST ARTIST SERIES CONCERT: "[A Night in the Tropics](#)" with the Chuck Lazarus Quartet will feature music from Brazil, Cuba, and Hawaii. Apr. 3, 7:30 p.m., Weber Music Hall.

MORRIS:

STEPHEN BURKS, associate professor of economics and management, has received the UMM Faculty Distinguished Research Award. The award recognizes sustained research/artistic productivity of a UMM faculty member over the course of a career. Burks has made many contributions to the fields of experimental and behavioral economics and the economics of the U.S. trucking industry. For more information, see [Burks](#).

TOP NEWS:

AT THE MARCH BOARD OF REGENTS MEETING, Senior VP for Academic Affairs and Provost Karen Hanson led a discussion on goals emerging from the Twin Cities campus strategic planning process. The next step in the process includes establishing implementation groups to focus on goals that will guide the Twin Cities campus plan. The board will review a draft of the full strategic plan this fall. The board also heard about the U's work in global food security. For more information, see the [news release](#).

Features

FEATURE: On April 4, after having undergone a transformation both seismic and delicate, the University of Minnesota will unveil the new Northrop. [Join the celebration](#) with the Northrop Inside Out Grand Reopening Gala performance, reception, and Inside Out After Dark dance party. Grand Reopening events continue through June.

FEATURE: Insights gained from treating canine cancer are being translated to humans. The work, carried out through the Masonic Cancer Center, is still new but promising, and brings together researchers and clinicians in veterinary and human medicine. For more information, read "[Dogs teach medical science new tricks](#)."

FEATURE: Whether you fancy yourself a cheese connoisseur, a Sherlockian, or a "mole person" who prefers the subterranean world, take this [video tour of Twin Cities campus treasures](#).

CAMPUS ANNOUNCEMENTS AND EVENTS**UNIVERSITY-WIDE:****Administrative information**

THE UNIVERSITY SENATE AND FACULTY SENATE will meet Apr. 3, 2:30 p.m., 25 Mondale Hall. Topics include discussion of the Graduate Education Committee Report and the University budget model, and a resolution on Condoleezza Rice's coming visit. For more information, see the [full agenda at University Senate](#).

THE P&A SENATE will meet Apr. 4, 9:30 a.m., 3-100 Mayo. Topics include elections and discussion with Vice President Wheelock. For more information, see the full agenda at [P&A Senate](#).

RIGHTSIZING FACULTY EDUCATIONAL REQUIREMENTS: A recent risk recalibration study conducted by the U's Research Education and Oversight office revealed that the additional continuing education requirement of its RCR curriculum is no longer needed, given the broad range of educational opportunities and requirements that have been implemented at the U. Eliminating the continuing education requirement removes 3,900 total hours annually from the collective administrative burden of 2,400 U of M faculty.

ENTERPRISE SYSTEMS UPGRADE PROGRAM (ESUP) Reporting and Data Management work stream recently released a "sneak peek" video introducing the new reporting center that will be part of the upgrade. [The two-minute video](#) highlights key features and explains how faculty and staff will use this location in the new myU portal to access reports from UM Reports, UM Analytics, and PeopleSoft. To stay informed, subscribe to the [Upgrade newsletter](#).

THE RESILIENT COMMUNITIES PROJECT has selected the city of Rosemount as its partner for the 2014-15 academic year. The partnership will bring the expertise of hundreds of U graduate students to 40 sustainability projects identified by the city of Rosemount and community partners. For more information, see the [news release](#).

[COMPLETE AN INFORMATION TECHNOLOGY SURVEY](#) and provide feedback to help shape the future of IT at the U of M.

Award and funding opportunities

A NEW OPPORTUNITY TO RECOGNIZE FACULTY, P&A, AND CIVIL SERVICE employees who have made a significant commitment to and impact on University Senate governance is available. Nominations are due Apr. 14. For criteria and more information, see [Outstanding Service to U Senate Governance](#).

APPLY FOR A [MONDALE RESEARCH FELLOWSHIP](#) through the Center for the Study of Politics and Governance. The fellowship will encourage research in the archives of the Minnesota Historical Society on elected government officials whose service in office improved Minnesota and the opportunities of its citizens. Applications are welcome from faculty and non-academic researchers, as well as students in high school, college, and graduate school. Apply by May 30.

THE HUMPHREY SCHOOL IS ACCEPTING APPLICATIONS for its [2014-15 Policy Fellows program](#). The program brings together 35 mid-career Minnesota leaders from business, nonprofit, and government sectors for a unique nine-month professional development experience. Applications are due May 30; the program begins in September.

DULUTH:

DEAN OF THE SWENSON COLLEGE OF SCIENCE AND ENGINEERING [James P. Riehl](#) will step down June 30 to return to teaching in the Department of Chemistry and to finish writing two books. As dean, Riehl worked to build world-class programs and facilities, including two buildings: the Swenson Science Building, which opened in 2005, and the Swenson Civil Engineering Building, which opened in 2010.

THE SUPPORTIVE SERVICES PROGRAM TUTORING CENTER has been named the 2014 [Most Outstanding Tutoring Program in the nation](#). During this school year, more than 200 tutors provided tutoring primarily to undergraduate students for 112 courses. Tutoring services are open and available to all of UMD's 8,500 undergraduate students on a free, walk-in basis, 54 hours per week.

THE ONLINE PUBLICATION [LAKE VOICE NEWS](#) is the product of a three-credit class, offered by the journalism department, designed to teach students how to work in a real newsroom. Students focus on community journalism, telling the stories of the people of Duluth. Now in its fifth year, [Lake Voice News](#) also includes videos that complement articles.

UMD WILL IMPLEMENT A NEW PROGRAM TO INCREASE RECYCLING AND REDUCE WASTE. This summer, departments will begin using centrally located garbage and recycling bins. Based on data from an initial test, this change could reduce landfill waste by 20 percent or more. For more information, see [Sustainability](#).

MORRIS:

UMM'S [GREEN PRAIRIE COMMUNITY](#) has been awarded Leadership in Energy and Environmental Design (LEED) Gold certification. Established by the U.S. Green Building Council and verified by the Green Building Certification Institute, LEED is the nation's preeminent program for the design, construction, and operation of high-performance green buildings. It is UMM's second LEED-certified building.

UMM HAS BEEN ACCEPTED INTO THE [MADE IN MINNESOTA](#) SOLAR INCENTIVE PROGRAM. The program gives incentives to commercial, nonprofit, and residential participants that install solar systems manufactured in Minnesota. UMM's affiliation with the Made in Minnesota program is made possible in part by the Cedar Creek Energy.

[BRADLEY DEANE](#), associate professor of English, is a 2014 recipient of the Horace T. [THE UMM CLASS OF 1964](#) and friends returned for the campus's inaugural 50th reunion. The first of its kind, the reunion marks an important milestone for UMM. In addition to providing alumni the chance to reconnect and reminisce, it offers them the opportunity to establish a new campus tradition and to relish a moment in time.

[MORRIS HEALTHY EATING](#) has emphasized environmental changes and policy approaches to improve Stevens County's food environment over the last five years. By doing so, it has not only increased access to and availability of healthy foods, but also reduced overweight and obesity rates. University of Minnesota student health researchers note that there is clearly something unique happening in Morris.

ROCHESTER:

SCOTT SIMPKINS has been [awarded a prestigious National Science Foundation Graduate Research Fellowship](#). The award will support Simpkins for three years, beginning in summer 2014. UMM IS FEATURED IN THE [FISKE GUIDE TO COLLEGES 2015](#). The guidebook delivers an insider's look at the academic climates and the social and extracurricular scenes at the "best and most interesting" schools in the United States, Canada, and Great Britain. This is the fourth consecutive year in which UMM has been included in the guide.

UMM'S [CITIZENS' CLIMATE LOBBY](#) (CCL) chapter is celebrating its first year on campus. One of the first in rural Minnesota, UMM's group was formed by National Wildlife Federation Campus Ecology Fellow Tim Sheehan '16, Minneapolis. As part of the larger organization, this CCL chapter focuses primarily on environmental issues affecting Minnesota's farming regions.

[UMM HAS INSTALLED A NEW SCULPTURE](#) in the Welcome Center's Legacy Courtyard. Created by Chicago-based artist Plamen Yordanov, the piece commemorates two distinct eras of campus history and is part of a larger initiative to revitalize the courtyard space. A dedication of the sculpture is planned for July 19.

ROCHESTER:

A GROUP OF UMR STUDENTS, led by faculty members Yuko Taniguchi (writing) and James Ford (humanities), took its education overseas for a course titled [Philosophies of Wellness: Holistic Healing in Japan](#). For three weeks, the group toured Japan, from Tokyo to Otsuchi--where the 2011 tsunami hit--with an objective to understand the concept of "wellness" and the different aspects of Japanese culture that promote wellness.

TOP NEWS:

THE [BOARD OF REGENTS](#) heard an annual update from the U of M Alumni Association and, separately, from Gopher Athletics during its July meeting. In addition, the board discussed the current environment and future of college athletics, acted on a resolution related to the U's new approach to engagement efforts for the neighborhoods surrounding the Minneapolis campus, approved the purchase of two vacant lots north of UMTC's Intercampus Transitway and Metro Transit Green Line, and approved an amendment to U President Eric Kaler's current contract, which ends in June 2015, as well as a five-year extension.

Features

FEATURE: The evidence of air pollution in China is jarring at best. At worst, it's toxic. Worldwide, air pollution is to blame for about 7 million deaths every year. Professor David Pui and fellow faculty members are working with colleagues at the Institute of Earth Environment of the Chinese Academy of Sciences to address the health effects of air pollution. For more information, read "[Lifting the Smog](#)."

FEATURE: Jian-Ping Wang has developed a tool for fast, accurate early disease detection through a simple blood test. The technology moved closer to becoming a reality in March, when the U helped form a startup company called Zepto Life Technology to make Wang's invention portable, inexpensive, and available across the world. Wang is responsible for 39 invention disclosures at the U of M and 28 patents. For more information, read "[Fast, accurate early disease detection](#)."

FEATURE: UMD Pharmacy student Julie Corradi is dedicated to halting the misuse and abuse of prescription drugs. For more information, read "[Popping the myths of prescription pills](#)."

FEATURE: Five College of Design students can lay claim to something typically reserved for astronauts--they've floated freely, in zero gravity, miles above earth. The students are the first non-engineering all-female team to participate in NASA's "Microgravity U." For more information, read "[Upward and Onward](#)."

TOP NEWS:

AT THIS YEAR'S MINNESOTA STATE FAIR, THE U OF M will have exhibitions highlighting the U's most exciting research, discoveries, and athletic accomplishments. In addition to the U's main exhibit in the Crossroads Building on Dan Patch Ave., the Ag Hort Building will have an entire wing dedicated to the work of CFANS, and the Eco Experience Building will showcase how the U contributes to sustainability. Also new this year is the Driven to Discover Building, a place where the public can participate in research in a fun, innovative, and convenient way. For a complete schedule and map of U events, see [U at the State Fair](#).

IF YOU ARE A RECIPIENT OF BRIEF BUT ARE NOT CURRENT FACULTY OR STAFF (e.g., retirees, alumni, community members) YOU MUST RESUBSCRIBE TO CONTINUE RECEIVING THE NEWSLETTER. If you do not resubscribe, this is the last issue of Brief you will receive. [Resubscribe now](#). Current faculty and staff need not take any action. A new email delivery system requires (see announcement below) the change.

A NEW EMAIL MARKETING TOOL, ExactTarget, will become part of the U's email marketing solutions. A cross-departmental project team is working to define the rollout schedule for units systemwide, and Lyris will be retired once the rollout is complete. The Sept. 10 issue of Brief will include design and format changes in light of the capabilities of the new tool. For more information, see [email solutions](#).

Features

FEATURE: Months ago, Google publicly announced a big project—one with implications not yet fully realized, or even imagined. It's a 3D smartphone effort dubbed Project Tango, an effort to create the kind of phone that sees the world as you do. It is based on theory and technology that professor Stergios Roumeliotis began working on with NASA years ago to create a technology that allowed spacecraft to land on Mars. For more information, read "[Google taps U talent](#)" and watch the [related video](#).

FEATURE: An [Institute on the Environment study](#) has found that limiting agricultural expansion to several key global regions could meet the predicted need to double food production by 2050 while preserving nearly six billion metric tons more carbon than would be safeguarded with unguided expansion.

Awards, appointments, and other announcements

PEOPLE: The U of M launched a record 15 startup companies based on discoveries and inventions by U researchers during the past year; the MnDRIVE initiative has awarded nine fellowships in the Discoveries and Treatments for Brain Conditions research area; Professors Art Erdman and Jian-Ping Wang have each won a Titans of Technology award from the *Minneapolis/St. Paul Business Journal*; three U research projects have received grants to develop pediatric medical devices; Professor Myles Shaver has been awarded the Irwin Outstanding Educator Award; Professor Vladas Griskevicius is the 2014 recipient of the Early Career Award for Distinguished Scientific Contribution; Professor Richard Frase has been recognized by the National Association of Sentencing Commissions; U in the news includes highlights of [Today's News](#), which features U faculty and staff cited in the media daily. Read about these topics and more in [People](#).

MORRIS:

UMM IS ONE OF [SIERRA MAGAZINE'S TOP 40 "COOL SCHOOLS"](#). The Sierra Club's official publication ranks universities that lead sustainability initiatives and strive to protect and preserve the environment. The campus has climbed 38 spots on Sierra's list over the last four years, from 69th in 2011 to 31st in 2014--its highest ranking to date.

UMM IS AGAIN ONE OF [FORBES MAGAZINE'S "AMERICA'S TOP COLLEGES"](#). Among non-military institutions for which figures were reported, UMM was the fourth-least expensive college in the Midwest and seventh-least expensive in the nation. It was also the least expensive of the 18 Minnesota colleges on the list. Overall, UMM was ranked 93rd in the Midwest and 396th in the nation.

THE [NATIONAL SCIENCE FOUNDATION](#) has awarded Michael Ceballos, assistant professor of biology, a student training grant for a new UMM Research Experience for Undergraduates program. The program is titled "Indigenous American to Indigenous Borneo--Adventures in Biology and Biodiversity." Its goal is to provide cohorts of students at all levels with interdisciplinary international research experience.

[JAMES BARBOUR](#), biomass energy scientist and lecturer in chemistry, has been awarded a grant from the Minnesota Corn Research and Promotion Council for research on hydrogen chloride gas emissions and mitigation agents. This project will help improve UMM's biomass gasification plant and contribute to research on alternative fuels.

ROCHESTER:

UMR HAS [LAUNCHED A REDESIGNED WEBSITE](#) that is responsive and user-friendly. Along with a cleaner, more contemporary design, changes have been made to the landing pages and navigation to help users find the information they need faster. The redesign effort was led by Karna Fronden, UMR's digital social media coordinator.
