LIBRARY

INTRODUCTION

This publication contains population data from the 1980 Census of Population and Housing as released in Summary Tape File 3A (STF3A) for Minnesota. This data is also available for geographic areas not represented in this publication such as cities, townships, and census tracts.

Information is arranged in the following sequence:

- Table Layouts
- Table Outlines
- Footnotes/Note on Suppression
- Reports (General Population followed by
Income followed by Employment)
- State Summary
- Development Regions (by number)
- Counties (alphabetical order)

Additional copies of this report may be ordered from MAPS. A companion volume which includes information on Housing is also available.

Issued in furtherance of cooperative extension work in agriculture and home economics, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Norman A. Brown, Director of Agricultural Extension Service, University of Minnesota, St. Paul, Minnesota 55108. The University of Minnesota, including the Agricultural Extension Service, is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, creed, color, sex, national origin, or handicap.

FOOTNOTE SECTION

- 1/ Vacant seasonal/migratory units are excluded from all matrices except as noted specifically in the documentation.
- 2/ The farm population is defined as persons living in rural territory on places from which \$1,000 or more of farm products were sold in 1979. In 1970, the definition included all rural places with sales of \$250 or more, plus rural places of 10 or more acres with sales of \$50 to \$249.
- 3/ The count of households in sample tabulations may differ from the number of occupied housing units. This is a result of the weighting process used to minimize differences between complete counts and sample estimates. An indication of the type of weight (population or housing) for each matrix is listed in footnote 50.
- 4/ "Asian and Pacific Islander," in the 100-percent tabulations, includes "Japanese," "Chinese," "Filipino," "Korean," "Asian and Pacific Islander," "Vietnamese," "Hawaiian," "Guamanian," and "Samoan." "Asian and Pacific Islander," in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "Other" category.
- 5/ NOT USED
- 6/ NOT USED
- 7/ Tabulations of "Persons in household" based on 100-percent data by definition are the same as tabulations of "Persons in unit." The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the phrase "Persons in unit" is used. Tabulations of "Persons in household" and "Persons in unit" based on sample data are not necessarily the same because of differences in the procedures used to inflate sample population and housing data.
- 8/ Relatives include householder, spouse, and the questionnaire categories: "Son/daughter," "Brother/sister," "Father/mother," and "Other relative." Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- 9/ "Nonrelatives" include the questionnaire categories: "Roomer, boarder," "Partner, roommate," "Paid employee," and "Other nonrelative." Tabulations of "Nonrelatives" include all categories not shown separately in the matrix.
- 10/ A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.
- In subfamilies an "own child" is a never-married child under 18 years of age who is a son, daughter, step-

child, or adopted child of a mother in a mother-child subfamily, a father in a father-child subfamily, or either spouse in a married-couple subfamily.

11/ Tabulations for households and families are classified by the race and Spanish origin of the householder.

12/ This aggregate, along with relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units, and the aggregate rooms for occupied and vacant year-round units divided by the count of occupied and vacant year-round units yields mean rooms. (See footnote 35 prior to computing mean value.)

13/ Includes responses indicating religious groups and unclassifiable responses.

14/ Persons may be counted more than once in this tabulation.

15/ "Ever married" includes the questionnaire categories: "Now married," "Separated," "Widowed," and "Divorced."

16/ "Not reported" means place of work was not reported at all or was not reported at least to the county level. One exception to this is in the treatment of New York City, where a response of "New York City" without reporting county (borough) is treated as reported. In tabulations, "reported" cases that are not reported to the area required for a

specific tabulation are treated as reported but as working outside of that area. For example, for place of work tabulations at the place level, in a case where the place of work was reported only to the State and county levels, the response is tallied as working outside of the place.

17/ An identified place is a place, with a population of 2,500 or more (1,000 or more in Alaska and Hawaii) generally based on 1977 population estimates, that was recognized in precensus geography. In mail enumeration areas, identified places were those recognized as of January 1, 1978; in conventional enumeration areas, identified places were those recognized as of January 1, 1979. Population estimates for identified places which incorporated after 1977 are based on the best available information.

18/ "Public transportation" includes "Bus or streetcar," "Railroad," "Subway or elevated," and "Taxicab."

19/ "Means of transportation to work" include "Car," "Truck," "Van," "Bus or streetcar," "Railroad," "Subway or elevated," "Taxicab," "Motorcycle," "Bicycle," "Walked only," "Worked at home," and "Other." Tabulations of "Other means" include all categories not shown separately in the matrix or not specified as "Public transportation." (See footnote 18.)

20/ Veterans are classified by the most recent period of service, excluding peace time service.

21/ Households may be counted more than once in this tabulation.

- 22/ In this matrix, the aggregate income figures refer to the amount of income for each specific type separately (e.g., the first aggregate shows the total amount of wage or salary income received by households in 1979.)
- 23/ Tabulations of poverty status exclude inmates of institutions, members of the Armed Forces living in barracks or on military ships, college students living in dormitories, and unrelated individuals under 15 years. (See footnote 54.)
- 24/ NOT USED
- 25/ "Units of structure: include "A mobile home or trailer," "A one-family house detached from any other house," "A one-family house attached to one or more houses," "A building for 2 families," "A building for 3 or 4 families," "A building for 5 to 9 families," "A building for 10 to 19 families," "A building for 20 to 49 families," "A building for 50 or more families," "A boat, tent, van, etc." Tabulations of "Mobile home or trailer, etc." include "A mobile home or trailer," and "A boat, tent, van, etc."
- 26/ "Utility gas" includes "Gas: From underground pipes serving the neighborhood."
- 27/ Fuels include "Utility gas" (see footnote 26), "Bottled, tank or LP gas," "Electricity," "Fuel oil, kerosene, etc.," "Coal or coke," "Wood," "Other fuel," and "No fuel used." Tabulations of "Other" include all categories not shown separately in the matrix.
- 28/ Vehicles include automobiles, trucks, and vans.
- 29/ Gross rent and contract rent are tabulated for all "renter-occupied" units except one-family homes on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category also exclude one-family homes on 10 or more acres. A unit classified as "No Cash Rent" in contract rent will remain no cash rent in the gross rent distribution even if the unit's occupants pay for utilities themselves. Gross rent is the sum of contract rent and utility costs. Rent asked is tabulated for "vacant-for-rent" units except one-family homes on 10 or more acres.
- 30/ "Utilities" include "Electricity," "Gas," "Water," and "Oil, coal, kerosene, wood, etc."
- 31/ Includes households with zero or negative income and units tabulated in the "No Cash Rent" category.
- 32/ "Selected Monthly Owner Costs" is the sum of payments for real estate taxes, property insurance, utilities (see footnote 30), and regular mortgage payments.
- 33/ The noncondominium value and selected monthly owner costs distributions are restricted to certain kinds of "owner-occupied" units. The following are excluded from the tabulations on value for noncondominium units:
- a. Units at an address with two or more units.
 - b. Units on 10 or more acres.
 - c. Units with a commercial establishment or medical office on the property.
 - d. Mobile homes or trailers.

- 34/ Includes households with zero or negative income.
- 35/ NOT USED
- 36/ NOT USED
- 37/ NOT USED
- 38/ NOT USED
- 39/ NOT USED
- 40/ NOT USED
- 41/ NOT USED
- 42/ NOT USED
- 43/ NOT USED
- 44/ Per capita income is calculated by dividing the aggregate income for persons 15 years and over by the total number of persons in the group.
- 45/ NOT USED
- 46/ Period of service includes "May 1975 or later," "Vietnam era," "February 1955 to July 1964," "Korean conflict," "World War II," "World War I," and "Other service." Tabulations of "Other" include all categories not shown separately in the matrix.
- 47/ NOT USED
- 48/ Includes cases classified as "reported" and as "not reported" for place of work.
- 49/ NOT USED
- 50/ Each sample person and housing unit was assigned a weight as the result of

a complex ratio estimation procedure. Sample housing units were assigned one weight each and sample persons were assigned two types of weights. The first weight for persons applies to sample data except Place of Work, Travel Time to Work, and Migration (i.e., Residence in 1975) tabulations; this weight was assigned to all sample persons. The second weight for persons, which applies to Place of Work, Travel Time to Work, and Migration data, was assigned to those sample persons who were included in the Place of Work and Migration coding operation. These weights vary from person to person and from housing unit to housing unit, but on the average they are approximately equal to the inverse of each records sample selection probability. The tabulations in this file are based on summing the weights of the appropriate persons or housing units relating to the tabulation. For specified aggregates, indicated below, the characteristic data are multiplied by the weight; for example, in aggregate income for persons the amount of income is multiplied by the weight. In medians, the weights are brought to bear indirectly through the distribution used to calculate the measure. For family and household tabulations (population type), only the weights of the householder are used. For subfamily tabulations, the weights used are those assigned to the subfamily reference person (i.e., the person who is the equivalent of a householder for the subfamily). The following is a listing of the weights used in producing each tabulation:

Persons weights - tabulations
 1, 7, 8, 12-17, 19, 22,
 24-67, 81-85, and 90-95.

Note: Tabulations 31, 60
64, 83, and 84
are aggregates.
Tabulations 34-39,
41, and 42 use
the Place of Work,
Travel Time to
Work, and Migration
weight exclusively.
Tabulation 42 is
an aggregate.
Tabulations 82 and 85
are derived measures.

Householder (person) weights -
tabulations 9, 10, 18, 20,
21, 68-80, and 86-89.

Note: Tabulations 70, 72,
77, 78, and 80
are aggregates.
Tabulations 69 and
74 are derived
measures.

Subfamily reference person
weight - tabulation 23.

Housing Unit Weights - 4,
11, and 96-150.

Note: Tabulations 100,
101, 104, 128,
129, 137, 140,
and 141 are
aggregates.
Tabulations 127
and 134 are
derived measures.

Unweighted Counts - Tabulations
2, 3, 5, and 6.

Note: Tabulations 2 and 5
are actual (unit)
counts of persons
and housing units
in the sample.
Tabulations 3 and 6
are 100-percent
counts of persons
and housing units.

51/ Includes females who are a
householder, a spouse of
householder, a mother in a
mother-child subfamily, or a
female spouse in a married-
couple subfamily.

52/ NOT USED

53/ NOT USED

54/ "Unrelated Individuals" in-
clude nonrelatives in family
households, persons in non-
family households, and non-
inmates in group quarters.

NOTE ON SUPPRESSION

Suppressed data may be a problem
in small areas or when several
areas are aggregated to produce a
user-defined areal unit. Suppres-
sion occurs in two cases:

- 1) Primary Suppression
There are fewer than 30 per-
sons or 10 households in the
geographic area under exami-
nation.
- 2) Complementary Suppression
A suppressed item could be
obtained through subtraction
if another category were not
also suppressed.

In reports from Summary Tape File
3 (STF3) the letter 'x' is appended
to those items which have been sub-
jected to suppression. If 2 or
more geographic areas have been ag-
gregated to produce a report, items
suppressed in any one of them con-
tain an indication of suppression
in the total.

INTRODUCTION

This publication contains housing data from the 1980 Census of Population and Housing as released in Summary Tape File 3A (STF3A) for Minnesota. This data is also available for areas not represented in this publication such as cities, townships, and census tracts.

Information is arranged in the following sequence:

- Table Layouts
- Table Outlines
- Footnotes/Note on Suppression
- Reports
 - State Summary
 - Development Regions (by number)
 - Counties (alphabetical order)

Additional copies of this publication may be ordered from MAPS. A companion volume which includes population information is also available.

Issued in furtherance of cooperative extension work in agriculture and home economics, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Norman A. Brown, Director of Agricultural Extension Service, University of Minnesota, St. Paul, Minnesota 55108. The University of Minnesota, including the Agricultural Extension Service, is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, creed, color, sex, national origin, or handicap.
