INTRODUCTION

This publication contains data from the 1980 Census of Population and Housing as released in Summary Tape File 1A (STF 1A) for Minnesota. This data is also available for geographic areas not represented in this publication such as census tracts, townships, and enumeration districts.

Information is arranged in the following sequence:

- Universe Finder
- Table Layouts
- Table Outlines
- Footnotes
- Maps
- Reports
 - State Summary
 - Development Regions (by number)
 - Counties (alphabetical order)
 - Cities of 10,000+ (alphabetical order)

Partial costs of compiling and publishing this information have been shared by MAPS, the State Demography Unit of the Minnesota Department of Energy, Planning, and Development, and the Center for Urban and Regional Affairs at the University of Minnesota.

Additional copies of this publication may be ordered from MAPS at \$9.00 each prepaid or \$10.00 each if billed, including sales tax.

Issued in furtherance of cooperative extension work in agriculture and home economics, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Norman A. Brown, Director of Agricultural Extension Service, University of Minnesota, St. Paul, Minnesota 55108. The University of Minnesota, including the Agricultural Extension Service, is committed to the policy that all persons shall have equal access to its programs, facilities, and employment without regard to race, creed, color, sex, national origin, or handicap.

STF 1 UNIVERSE FINDER

Universes in STF 1 are defined on the basis of one of the following four characteristics: persons, housing units, households, and families. The universe is indicated on this finder by an X. Universe restrictors are identified by an r. Therefore, a user interested in counts of households can quickly identify which tables should be consulted.

FOOTNOTE SECTION

- ¹ The count of households in the complete-count tabulations by definition equals the number of occupied housing units. For this documentation, the term "Household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the term "Occupied housing unit" is used.
- ² Vacant seasonal/migratory units are excluded from all other tabulation matrices.
- ³ For data tabulated on a 100-percent basis, includes all persons in the category "Other." For data tabulated from the sample, excludes those persons who have a write-in entry of an Asian and Pacific Islander group in the "Other" category.
- ⁴ "Asian and Pacific Islander," in the 100-percent tabulations, includes "Japanese," "Chinese," "Filipino," "Korean," "Asian Indian," "Vietnamese," "Hawaiian," "Guamanian," and "Samoaan," "Asian and Pacific Islander," in sample tabulations, includes the groups listed above and those persons who have a write-in entry of an Asian or Pacific Islander group in the "Other" category.
- ⁵ Relatives include householder, spouse, and the questionnaire categories: "Son/daughter," "Brother/sister," "Father/mother," and "Other relative." Tabulations of "Other relatives" include all categories not shown separately in the matrix.
- ⁶ "Nonrelatives" include the questionnaire categories: "Roomer, boarder," "Partner, roommate," "Paid employee," and "Other nonrelative." Tabulations of "Nonrelatives" include all categories not shown separately in the matrix.
- ⁷ Tabulations of "Persons in household" based on 100-percent data by definition, are the same as tabulations of "Persons in unit." The phrase "Persons in household" is used unless the matrix is stratified by a housing item such as tenure, plumbing facilities, etc., in which case, the phrase "Persons in unit" is used. Tabulations of "Persons in unit," based on sample data, are not necessarily the same because of differences in the procedures used to inflate sample population and housing data.
- ⁸ A "Child of householder" includes any son, daughter, stepchild, or adopted child of the householder. An "Own child of householder" is a never-married child under 18 years of age who is a son, daughter, stepchild, or adopted child of the householder. "Related children" include not only own children, but also all other family members, regardless of marital status, who are under 18 years old, except the householder or spouse. Foster children are included in the "Nonrelative" category.
- ⁹ Vacant housing units include the questionnaire categories: "For rent," "For sale only," "Rented or sold, not occupied," "Held for occasional use," and "Other vacant." Tabulations of "other vacants" include all categories not shown separately in the matrix.
- ¹⁰ This aggregate, along with the relevant count, will permit the computation of a mean. For example, the aggregate value for specified owner-occupied noncondominium units will yield the mean value when divided by the count of specified owner-occupied noncondominium units. The aggregate rooms for occupied and vacant year-round units, divided by the count of occupied and vacant year-round units will yield mean rooms. (See footnote 14 prior to computing mean value or price asked).
- ¹¹ Value and price asked are tabulated separately for noncondominium and condominium units.
The noncondominium value distribution is restricted to certain kinds of "owner-occupied" units; the noncondominium price asked distribution is restricted to certain kinds of "vacant-for-sale only" units. The following are *excluded* from the tabulations on value and price asked for noncondominium units:

 - a. Units at an address with two or more units
 - b. Units on 10 or more acres
 - c. Units with a commercial establishment or medical office on the property
 - d. Mobile homes or trailers

The condominium value distribution is tabulated for all "owner-occupied" condominium units; the condominium price asked distribution is tabulated for all "vacant-for-sale only" condominium units.
- ¹² Contract rent is tabulated for all "renter-occupied" units except one-family houses on a property of 10 or more acres. Rent asked is tabulated for all "vacant-for-rent" units except one-family houses on a property of 10 or more acres. Units tabulated in the "No Cash Rent" category are all occupied housing units reported as "No Cash Rent" except one-family houses on 10 or more acres.
- ¹³ Lacking complete plumbing (facilities) for exclusive use includes: Complete plumbing (facilities) but also used by another household, some but not all plumbing facilities, or no plumbing facilities.
- ¹⁴ Multiply the aggregate value and price asked by \$250 to obtain the true value or price asked. The tabulation was scaled by a factor of \$250 for tally purposes.
- ¹⁵ Allocations of marital status for persons under 15 years old are not allocated in "Persons with one or more items allocated."
- ¹⁶ "Year-round housing units with one or more housing items allocated" includes allocations of "Units at address," "Access," "Plumbing facilities," "Rooms," "Tenure," "Condominium Status," "Acreage of property," "Commercial establishment or medical office," "Value" or "Price asked," "Contract rent" or "Rent asked," "Vacancy indicator," "Vacancy status," "Boarded up status," and "Duration of vacancy."
