

STANDARDS -- Your standards are how much you care about something.

Fix It Day

What did you bring to "fix it day"? \_\_\_\_\_

What new things did you learn? \_\_\_\_\_

A high standard = when you really care and try hard.

A low standard = when you don't care and don't try.

Go Around Your Neighborhood. . .

What houses have a high standard for how they keep their yard?

\_\_\_\_\_  
\_\_\_\_\_

What people in your family have a high standard for brushing their teeth?

\_\_\_\_\_  
\_\_\_\_\_

This archival publication may not reflect current scientific knowledge or recommendations.  
Current information available from University of Minnesota Extension: <http://www.extension.umn.edu>.

Who has a low standard for caring for their animals.

---

---

What things do you have a high standard for?

---

---

A person who can't decide on his standards is a procrastinator.

Put a \$\$\$ or 🕒 if you would spend your money or time on caring for these:

- |                              |                       |
|------------------------------|-----------------------|
| _____ your pet               | _____ your bicycle    |
| _____ your clothes           | _____ your room       |
| _____ your food              | _____ your schoolwork |
| _____ your sister or brother | _____ your relatives  |

Now you are showing what you have a high standard for. Everyone's standards are different. There is no right or wrong standard.

There are four kinds of standards:

- 1) Quality = A chef will serve food and care about the final product.

2) Quantity = A librarian wants a higher number of books checked out.

3) Achievement = A tailor wants an award for his work.

4) Performance = A custodian wants his work done with the highest efficiency.

A quantity standard is decided by a number.

Who has this standard of quantity?

5 coats/week	farmer
50 laps/hour	tailor
100 bales/day	swimmer

A quality standard means you care about the final condition.

Who has this high standard of quality?

food	cook
health	mechanic
motor	athlete

An achievement standard means that you want to have an award for what you do.

What awards have you ever tried for?

What award would you like to have?

- |  |  |
|--|--|
| <input type="checkbox"/> biggest smile   | <input type="checkbox"/> best sense of smell     |
| <input type="checkbox"/> healthiest pet  | <input type="checkbox"/> bicycle mechanic        |
| <input type="checkbox"/> loudest whistle | <input type="checkbox"/> best sense of direction |

A performance standard is how you do something. What is your performance standard for . . .

. . . cooking?

- |   |   |
|---|---|
| <input type="checkbox"/> high standard<br>neat cook | <input type="checkbox"/> low standard<br>relaxed cook |
|---|---|

. . . painting?

- |   |   |
|---|---|
| <input type="checkbox"/> high standard<br>neat, careful painter | <input type="checkbox"/> low standard<br>fast, carefree painter |
|---|---|

Authors: Mary Frances Lamison, extension specialist, home management; Sherie Mentzer, curriculum coordinator, 4-H and Youth Development; and Juanita Reed, extension specialist, 4-H and Youth Development.

Issued in furtherance of cooperative extension work in agriculture and home economics, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Roland H. Abraham, Director of Agricultural Extension Service, University of Minnesota, St. Paul, Minnesota 55108. We offer our programs and facilities to all people without regard to race, creed, color, sex, or national origin.
