Spraying Fruit

(0:24)

Get an early start on spring by getting the new "Home Fruit Spray Guide" from your local county extension office.

This handy publication has spraying information for apples, pears, apricots, cherries, plums, strawberries, currants, gooseberries and grapes. The pamphlet also is available from the Bulletin Room, University of Minnesota, St. Paul, Minnesota 55101. Ask for Extension Pamphlet 184.

Feeding Baby

(0:25)

Introduction of solid foods into a baby's diet will be discussed this coming Thursday (March 28) on the "Food Sense" program at 9:30 p.m. over Minnesota educational television stations.

Former Ramsey County extension home economist Rosanne Power will talk about problems and concerns in feeding her newborn daughter. Hennepin County extension program assistant Mercedes Kirk also will appear.
