Kerr Refund

The Kerr Glass Manufacturing Corporation says it will make refunds to consumers for home canning lids that failed to seal.

The firm also says it will reimburse home canners for food losses. The refunds will be on lids sold between November 1973 and August 1974 in 10 states, including Minnesota.

A program has been set up by Kerr to handle reimbursements for losses. Consumers who wish to participate in this program must request a refund form from Kerr. These requests must be postmarked by December 14th. Write: Kerr Glass, Post Office Box 21, Oklahoma City, Oklahoma 73101.

Food Supply

(0:15)

If Santa is delivering foods that are in abundant supply this year, his bag will be filled with turkey, beef, dry peas and dry beans. According to the U. S. Department of Agriculture, all four foods will remain in unusually large supply through the end of the year.

Buying Tips From UM

(0:12)

Beef should be a bright cherry red. Select beef that has a smooth, fine velvet-like texture. Fresh pork chops should be bright pink. The pale and watery ones will have a tendency to be less juicy when cooked.
