Convenience Foods (0:12)

University of Minnesota Extension nutritionist Mary Darling says some convenience foods cost about the same as homemade items. She says don't be fooled into making everything from scratch to save money.

Sweet Onions (0:15)

Here's a gardening tip from University of Minnesota Extension Horticulturist Orrin Turnquist:

Try growing sweet Spanish rather than Bermuda onions if you want mild onions this summer. Sweet Spanish onions do better in Minnesota because of the long summer days. To be sure you are growing sweet Spanish, plant them from seed indoors in mid-February.

Sugar Price (0:10)

Extension Nutritionist Mary Darling says granulated sugar even at current prices is still the consumer's cheapest sweetener. She compared sugar with honey, molasses and corn syrup.

UM FIRE Center Says: (0:12)

One of the best methods to prevent chimney fires, particularly if problems have been experienced in the past, is to annually clean the chimney. Cover all openings in the chimney within the house to prevent messy soot infiltrating the house.
