Budget Summary Statement

GENERAL

The 1962-63 budget has been prepared along the same general lines that have been followed at the institution for the past forty-seven years. Obligations and free balances in the general University funds of the preceding year are not known at the time of the preparation of the budget and for this reason are not included. Likewise balances of University Services, revolving funds, and trust funds are omitted. The budget consists, therefore, of a distribution among the various activities of the institution of anticipated receipts during the fiscal year beginning July 1, 1962, and ending June 30, 1963.

All allotments and estimates of income as shown in this budget carry the account numbers to which these entries are made. All accounting codes of the University of Minnesota were revised on July 1, 1961. The new codes represent expansion and revision in accordance with the recommendations of Volume I of "College and University Business Administration" compiled by the National Committee on the Preparation of a Manual on College and University Business Administration, and published by the American Council on Education in 1952.

The accounting code revised on July 1, 1961 contains twelve digits as follows:

Fund	Department	Budget	Class
XXXX	XXXX	X	XXX

The fund number identifies the fund group, e.g., Current, Endowment, Plant, etc., and also identifies the source of funds within the current fund group, e.g., 0100—General University Fund, 0200-0299—Federal Funds, etc.

The department number represents the further breakdown of the fund, and is not necessarily a unique number, but must be used in conjunction with the fund number and budget number as an accounting code.

The budget number represents an objective breakdown of allotments and expenditures within a given fund and department. Payroll budgets are identified by "1." Supply, expense and equipment budgets are designated by even numbers, "2," "4," "6" and "8." Income budgets are identified by odd numbers, "3," "5," "7" and "9." Asset accounts are designated by "0" for the budget number.

The income and expense classifications are indicated in the last three digits of the accounting codes.

Other sections of this index list the codes of accounts in fund and functional order.

NONACADEMIC CLASSIFIED SERVICE

On January 29, 1937 the Board of Regents approved rules and regulations relating to the employment, leaves, and vacations of the nonacademic personnel and established the "Class Specifications for Positions in the Classified Service," effective July 1, 1937.

The class titles, vacation, and salary of the nonacademic positions established by this budget are in accordance with University of Minnesota Civil Service Class Specifications. All appointments and adjustments made during the year must conform to these specifications. Copies are available in the Office of Civil Service Personnel.

REVENUE

These general considerations as approved by the Regents have been made the basis of the 1962-63 budget:

1. University enrollment in the fall quarter is estimated to be 31,400 students, compared to 28,800 students estimated in the 1961-62 budget.
2. The Legislature appropriated \$778,255 for academic salary increases, promotions and fringe benefits. The sum of \$100,000 was applied to funding of retirement annuities in the accelerated program of annuity purchases.
3. The sum of \$895,849 was budgeted from an increase in tuition. Resident rates were increased by \$9.00 to \$15.00 per quarter, while nonresident rates were increased by \$20.00 to \$25.00 per quarter.
4. Merit increases for civil service staff were granted on July 1, 1962. In order to finance these increases, all departments were asked to delay filling open positions for at least one month, and also to recommend merit increases on the basis of satisfactory service.
5. The following floors and fixed rates will prevail in 1961-62:

Floors

Assistant Professors and Research Associates	\$628.00 per month
Instructors and Research Fellows	518.00 per month

Fixed Rates

Teaching and Research Assistants and Administrative Fellows	\$480.00 per month
Medical and Dental Fellows	285.22 per month

6. Recognizing the University-wide inadequacies of supply, expense, and equipment budgets, the sum of \$100,932 was made available for allotment in a manner that reflected price increases, volume and increases in teaching loads.
7. No general increases in allotments were made in the miscellaneous help budgets.
