Voted on recommendation of the Civil Service Committee and the President to approve the establishment of the following new classes and rates of pay:

1. **Class 8323, Community Program Adviser**, salary range \$270-\$320, adjusted.

Public Administration Service had recommended the establishment of this class, but were unable to include it at the time they presented the formal classification and pay plan.

2. **Class 8490, Translator**, salary range, Rate by special arrangement as approved.

We have always had a class of Translator, but there were no incumbents in such a position at the time of the establishment of the classification and pay plan.

3. **Class 3552, Health Service Assistant Nursing Supervisor**, salary range \$184-\$224, adjusted.

The establishment of this class provides the department with a more accurate distinction as between other positions in the Health Service.

4. **Class 3905, Student Housing Inspector**, salary range \$154-\$184, adjusted.

This new class is necessary for these positions, as previously Administrative Fellows were assigned to this work, and it was recommended by Public Administration Service that they be classified in the Civil Service.

Purpose: To establish a general scholarship fund to aid deserving and needy students both graduate and undergraduate in any college and department of the University. Miscellaneous contributions from anonymous and other donors will be deposited to this fund.

Nature of Expenditure: For scholarships in accordance with the terms of establishment. The terms of the gift specify that students both graduate and undergraduate in any college or department of the University shall be eligible for scholarship aid from this fund

without restriction due to race, creed, or sex. Grants shall be made to students on the basis of academic achievement, financial need, character, leadership, and evidence of potential success in the student's chosen profession or field of endeavor.

Provisions of the gift also state that the principal together with any interest earned shall be expended by the Regents as outright grants without any obligation of repayment on the part of the recipients.

This fund will be administered by the Bureau of Student Loans and Scholarships in accordance with established procedures. The donors may request the privilege of nominating candidates for consideration of scholarship aid from this fund. Such nominations are to be considered relative to other applicants on the basis of the above-stated criteria.

Other comments: In case the time ever arrives in the history of the University of Minnesota when the principal and income from this fund are not needed for the purposes set forth in the terms of establishment, the Regents may at their discretion use both principal and income in any other way which will promote the general purposes the donors had in mind when these gifts were made.

Into this fund can be placed the various gifts that come from time to time for the same general purpose. It thus becomes a depository for miscellaneous contributions to be held in trust for general scholarship aid.
