Voted on recommendation of the Tenure Advisory Committee and the President to approve the following interpretation of the University Tenure Code with respect to physical examinations required of staff members:

The Board of Regents, by an action taken December 13, 1940, and reaffirmed November 22, 1947, required a physical examination as a condition of initial appointment to the faculty of the University and also required another examination for probationary faculty members as a condition to the acquisition of indefinite tenure. In view of these requirements, deans and department heads should have before them the results of the prescribed physical examination, taken within the preceding six months, in reaching a decision on recommending a faculty member for an appointment which would grant him indefinite tenure. Where the results of the physical examination

establish an adverse health condition, this condition is only one of several factors to be considered in the total appraisal necessary in reaching a final decision.
