On recommendation of the President and a committee chaired by Vice President Willey, voted to approve the student housing statement, filed supplement to the minutes, page 11,505, as modification of interpretation and practice of the Board of Regents' policy statement on housing as adopted on November 5, 1932. A summary follows:

The Regents' policy has not been applied to students living with parents or relatives, to married students living in their single family dwellings, rented or owned, or to students residing beyond the Twin Cities' limits. Furthermore, where apartment buildings of multiple units are involved, the evaluation covering health and safety factors, is of the whole structure in which the dwelling units exist, and not of the individual units occupied by the students.

Inspection will be continued of all properties in which unmarried students who are minors (under 21 years of age) are living and the present practices will be continued when such

students are found in quarters designated as unacceptable by the responsible University agency.

Unmarried students, 21 years of age or over, and in the case of quarters occupied by married students, regardless of age, evaluation will continue as at present. If the property is classified as unacceptable, on health and safety grounds, notification will be sent to the students of this fact, indicating the general basis for the disapproval and urging, as a first step, that they discuss the matter with the landlord, looking toward the possibility that satisfactory corrections can be introduced. The recommendation should be made to the students that they move unless the conditions leading to disapproval are promptly corrected. If changes cannot be or are not made, the students will have been informed of the hazard they face and the Student Housing Bureau will have offered assistance in seeking other quarters. The University will notify the landlord similarly and offer to confer, looking toward whatever assistance may be given for possible correction of conditions that resulted in the disapproval of the property. The University's responsibility would thus consist of the notifications and the offers of assistance; the decision with regard to moving or remaining in the property would then rest with the married couple itself, or with students 21 years of age or over.

Until conditions resulting in disapproval were corrected, the University would refuse to refer the property to other students seeking living quarters.

In the event that the owners or renters refuse inspection of property occupied by students, of whatever age or marital status, two steps would follow: first, unmarried students who are minors would be told they must find other quarters; unmarried students 21 years of age and over, and all married students, would be notified of the owner's refusal to permit inspection and would be urged to exert such pressure as they could upon him to permit it, and failing this it would be recommended that they move; and the University would refuse to refer other students to the quarters as a possible residence.

It must be clear that the intentions of the University are not punitive but are designed on the one hand to protect the health, safety, and well-being of students, and on the other hand, to work cooperatively with property owners to the end that a maximum number of acceptable places may be available for student occupancy.

The modification in administration of the Regents' housing policy in no way is to be interpreted as changing the delegated responsibility of the Dean of Students to take appropriate action, even to the prohibition of occupancy of any given property by students of any age or marital status, in the event that it is established that a particular housing situation is of itself a directly contributing factor to problems of student behavior, including, for example, moral conditions, racial discrimination, etc. Such responsibility is exercised within the framework of the established

procedures of the University for reviewing decisions involving student behavior.

A review of the application of these changes in administrative interpretation of policy will be made annually for the next three years at the February or March meetings.

Associate Dean Theodore H. Fenske presented for the Board a study of administrative, teaching, and building needs for development of college branches at the Northwest and West Central Schools of Agriculture, filed supplement to the minutes, page 11,506. This report was prepared by the University staff committee by direction of the Regents in response to a request by the Legislative Interim Commission on Agricultural Schools. On recommendation of the President, voted to approve the study as the basis of legislative discussion and testimony by the University.

The Business Vice President having reported for the information of the Board that Regent Quinlivan and he had received telegrams and letters from the National Association for the Advancement of Colored People in connection with the sale of the Eustis tract requesting the inclusion in the sale instrument and/or the deed of conveyance of a "Covenant preventing discrimination in resale or use because of race, color, creed, or national origin of prospective users," voted to affirm the position that such inclusion would be prejudicial to the trust responsibilities of the Regents, correspondence filed supplement to the minutes, page 11,507.

#### RESOLUTION

WHEREAS, On the 6th day of June 1957, the Board of Regents of the University of Minnesota contracted with Thomas Abate, doing business as T A B Construction Company, hiring said T A B Construction Company as general contractor to furnish all labor, materials and equipment necessary to complete the general contract work on the alterations to the Kitchen of Comstock Hall, University of Minnesota, Minneapolis, Minnesota, in accordance to plans and specifications and for an agreed price.

WHEREAS, Harry L. Wilson, University Assistant Supervising Engineer and Roy V. Lund, University Supervising Engineer, have advised the Board of Regents that the contract work has been completed by T A B Construction Company, except that certain subcontractors and materialmen have not been paid by said general contractor, and said University engineers have recommended that said remodeled building be accepted by the Board of Regents as completed, even though subcontractors and materialmen have not been paid, since said materialmen and subcontractors are protected by a contractor's performance bond covering said contract.

*Now, Therefore, Be It Resolved* By the Board of Regents of the University of Minnesota, that the remodeling on the Kitchen of Comstock Hall, done by T A B Construction Company, pursuant to the contract dated June 6, 1957, is hereby accepted by the Regents of the University of Minnesota; that this acceptance is made reluctantly due to the fact that subcontractors and

It has been reported to the University that the general contractor is involved in bankruptcy.

*Be It Further Resolved* That the Secretary is hereby directed to forward copies of this resolution to all interested parties.
