

Aurora Sporealis

1924 - 2006

Personal Name and Subject Index

Compiled by:
Susan M. Tertell

Carol B. Van Why

October 7, 2008

Foreword

The emphasis in this index is individuals who have a significant connection to the Department of Plant Pathology. Students, staff and faculty, as well as their families, are included. Visitors are only included when the stay was lengthy.

Since there are variant spellings of many names, every effort has been made to verify the correct spelling. Cross references are made as necessary to make individuals easy to find. The index is not exhaustive. Passing mentions are usually not indexed; only when some significant information is conveyed about the person's activities or location is an entry made in the index.

During the time he was department head, Elvin Charles Stakman is mentioned many times in each issue, so only major events are indexed, not each occurrence of his name.

The subject index is primarily for information on the Plant Pathology Department and the activities, buildings, and social events of the department. Scientific topics or topics of the University as a whole are indexed only when the connection to the department is significant.

In conjunction with the digitized version of Aurora Sporealis, this index will make the rich history of the department more accessible.
