

The University of Minnesota**EXECUTIVE COMMITTEE****MINUTES**

March 5, 1918

A special meeting of the Executive Committee of the Board of Regents was held in the President's office on Tuesday, March 5, 1918, at ten thirty o'clock, to consider charges preferred by representatives of the Nonpartisan League and representatives of organized labor against Professor E. Dana Durand.

Present: Regent Snyder, chairman pro tem; Regents Burton, Partridge, Glotfelter, and Schulz; Professor E. Dana Durand and several members of the faculty; Mr. Carl Beck and several representatives of the Nonpartisan League and of organized labor and special court reporter, George Schnepfer.

The original petition presented to the Executive Committee on February 18, 1918, also a supplementary statement by Mr. Beck in response to a request for more specific charges, were read and both were directed filed supplement to the minutes, page 132.

Professor E. Dana Durand made a full and complete statement in connection with his employment by the Swift Packing Company and there was considerable discussion, questions propounded and answers thereto, all of which is included in the testimony as taken by the reporter, filed supplement to the minutes, page 133.

It appeared that the charges were the outgrowth of rumors and suspicions and that the conference and testimony submitted resulted in a better understanding; in fact, at the close of the meeting the President of the University questioned representatives of the Nonpartisan League and organized labor as to their conclusion regarding the desirability of Professor Durand's resignation from the University and when put to a vote eight

of the ten representatives voted against demanding his resignation and there were no votes calling for his resignation.

The above report, together with the petitions and testimony, are hereby submitted to the Board for consideration.

Voted to adjourn.

Voted to approve the following trips outside the State:

Professor A. J. Todd to attend the National Conference of Social Work in Kansas City from March 15 to 21, 1918, expense of \$65 to be appropriated from Reserve.

Professor W. H. Emmons to attend a meeting of officers of the Federal and State Surveys for investigation of deposits of minerals used in the war, at Washington in March or April. Expense of \$135 to be charged to Budget 73.

Professor R. R. Shumway to attend the annual meeting of the North Central Association of Colleges and Secondary Schools in Chicago, March 21-23, 1918, expense of \$35 to be charged to Budget 25.

Professor A. S. Cutler, to go as representative of the University to a conference of National Workmen's Compensation Service Bureau in Chicago on March 20, 1918. Expense of \$40 to be charged to Budget 25.

Voted to approve proposed new items for the 1918-19 budget; items one to four, inclusive, and nine to twelve, inclusive, with the understanding that the maintenance increase over the 1917-18 budget is limited to \$25,000. List filed supplement to the minutes, page 135.

Voted to continue the School of Chemistry as a separate unit.

Voted, inasmuch as the testimony in the matter of charges by the Nonpartisan League and representatives of organized labor against E. Dana Durand was available only one day previous to the meeting, to make the subject a special order of business at a meeting of the Board to be held the 23d instant.

At the invitation of the President, Dr. Leo M. Crafts and Mr. E. B. Johnson appeared before the Board in connection with a letter by Dr. Crafts to the Alumni Committee which was published in the Alumni Weekly. Dr. Crafts read a statement bearing on the charges made which was filed supplement to the minutes, page 136. After considerable discussion Dr. Crafts advised the Board that his statement that there "had been too many dissolute and dissipated members of the staff in the past" did not apply to present staff members and that he was sorry the statement had been published.

A request having been received from the War Department to train five hundred men in aviation mechanics and the Deans of the Department of Agriculture and the College of Engineering having been assigned to confer with Government officials regarding a contract, after consideration it was

Voted to authorize the officers of the University to execute a contract with the Government in accordance

with the standard form submitted and filed supplement to the minutes, page 137, at \$1.65 per day.

Voted to approve the following report of the Committee of Deans on conditions of appointments, services and salaries:

"Your committee appointed to consider the conditions of appointments, services, and salaries, recommends that beginning with the year 1918-19 (August 1, 1918), appointments be made in accordance with the following terms:

Terms of appointment of University employees shall be

A. For the fiscal year; salaries to be paid in twelve monthly installments; a vacation of one month being allowed.

B. For the academic year, consisting of forty consecutive weeks beginning one week before the date for the official opening of the college year; salaries to be paid in ten installments as provided in the minutes of the Regents of January 18, 1918, with the substitution of the words "the academic year" for "the session." In cases of absence for a part of the academic year salary adjustments shall be on the basis of the number of weeks of service rendered.

C. Term employment. Salary on the basis of months, weeks, days, or hours of employment.

D. Persons employed for the academic year or on any part time arrangement may be engaged for other service during any time not covered by the original contract.

In general it is to be considered that administrative officers, experiment station and extension workers, and secretaries, clerks and service men in departments whose work requires their services are appointed for the fiscal year."

Voted to approve the following regulations recommended by the Deans' Committee:

"Voted, that since the primary purpose of the original rule concerning free tuition is to encourage advanced work, the exemption from fees be restricted to those registering in the Graduate School, in other words, that the present rule be modified to read as follows: 'All fellows, scholars, assistants, instructors, and all members of the teaching staff and scientific bureaus or experiment stations, when regularly enrolled as students in the Graduate School shall not be required to pay University fees or tuition.' Voted also that where necessary in individual cases the salaries of teachers may be increased to cover the amount of free tuition withdrawn in their cases."

Voted to approve the regulations governing secretarial, clerical, and stenographic service as recommended by the Deans and amendment with reference to Saturday employment suggested by Regent Sommers as follows:

1. Classification. Distinction shall be made between the work required in various offices as follows:

A. Administrative offices. The distinguishing characteristic of the service is that the employee must represent the administrative officer in the application of general regulations and in the decision of minor questions in accordance with the practice of the office. Employees carrying this responsibility may be entitled *secretaries*. Salaries from \$840 in proportion to responsibilities of the position filled and the experience and ability of the employee.

B. Departmental and Divisional offices. In these the element of independent responsibility is not great but there may be a considerable amount of clerical work which the employee must be able to do without minute direction. Employees may be entitled *clerks* or *stenographers*. Salaries from \$720 for the full year; in case of departments requiring less than the full year's service, \$50 to \$75 per month.

C. Stenographic work requiring little clerical responsibility. In smaller departments or as assistants in the larger offices. Salaries from \$540 to \$720 a year; or \$40 to \$60 a month; or 25 to 40 cents per hour of service.

2. Promotions:

Advance in rank and salary shall recognize primarily ability and expertness, rather than length of service. Appointments to vacant positions shall be made when practicable within the existing staff by transfer and advance, rather than from outside the University.

3. Tenure:

Original appointments which contemplate service for the calendar or the academic year shall be probational and terminable at the end of any month, if service proves unsatisfactory. Successive appointments should be for one year, terminable within that year only for adequate causes.

Employment for shorter periods should be terminable at will.

4. Working Day and Vacations:

Each office should have a definitely established practice. Two alternatives are suggested:

A. A working day of eight hours (usually 8-12 and 1-5) with a vacation period of four weeks with pay.

B. A working day of seven and one half hours (usually 8:30-12 and 1-5) with a vacation period of three weeks with pay.

Employees will be allowed a half holiday on Saturday afternoon whenever the work in their department is completed and there is no other necessary work to be done. Overtime without pay shall be required whenever necessary, but the same may be compensated for in a reasonable manner by hours of leave at times when the work of the office will allow it.

The vacation period with pay shall be granted only to persons on twelve months' employment and shall be taken at a time acceptable to and convenient for the department concerned; provided, however, no leave is permissible until six months' service has been rendered.

5. Sick Leave:

In addition to the vacation period defined in paragraph 4, leave with pay not exceeding four weeks may be allowed in

cases of actual disabling illness as certified by physicians' certificates.

6. Recesses:

Student recesses or vacations in addition to legal holidays do not apply to secretarial, clerical, or stenographic employees.

Vacations are not permissible for short term employees, secretaries, clerks, and stenographic employees.

7. Central stenographic service:

The establishment of facilities for stenographic or clerical service for the intermittent or occasional uses of various members of the instructional staff should be left to each College.

Inter-departmental service already exists in Arts, Engineering, and Agriculture. The Dean's office appears to be the logical station for calls for stenographic assistance, and the assignment of service.

8. Range of Legitimate Work:

Departments should encourage members of staff to use stenographers or clerks to assist in preparing reports of investigations or otherwise in furthering research work.

Manuscript for publication for which compensation is expected, and manuscript for paid lectures should not be prepared at the expense of the University.

Voted to approve the immediate establishment of a University Public Health Department, as follows:

1. That a University Health Department be created.

2. That all related agencies be correlated in support of this department and be represented by a health committee to be appointed by the President, which will serve in an advisory capacity to the Health Officer.

3. That a health fee of \$3.00 per semester be charged to each student of collegiate rank and that a fee pro rated to the period of study be charged to students of less than collegiate rank, beginning with the University session of 1918-19, and that such fees be used as a fund for the establishment of free health service for the students of the University.

4. That under the health fee system a force of physicians and nurses be selected by the Health Officer and appointed by the Board of Regents in the service of the department.

In connection with the policy of continuing members of the staff engaged in war work in part payment of salaries on the University pay-roll, the President submitted correspondence with the Federal Government which expresses appreciation of the encouragement held out to members of the faculty under the existing regulations, "but unfortunately for the program, as far as the Funds derived by the University are concerned, the Congress in providing these appropriations has imposed very definite limitations on their use which this department has no authority to waive or modify." The Board deems it

unwise "to use the funds of the State of Minnesota in any way which does not apply to Federal Funds. It becomes necessary, therefore, to bring definitely to the attention of every member of the staff, the strong possibility, if not probability, that after July 31, 1918, the partial payment of salaries to members of the staff engaged in Government or public service will be discontinued. In accordance with the action of the Regents on July 13, 1917, exceptions, of course, will be made in cases where services are performed for the University."

Voted to approve the usual trips of staff members in the School of Mines in conducting the junior class in regular field work at a total estimated expense of \$800.

Voted to refer to the President of the Board the question of making overhead charges to Shevlin Hall.

Voted to increase the resident fee in Sanford Hall beginning with the year 1918-19 from \$225 to \$250.

Voted to approve the loan of a relief model of Minneapolis by the Department of Geology to the Dunwoody Institute and the loan of Northrup Synchronizing Set Tuning Fork to the Army Proving Grounds at Aberdeen, Maryland.

Voted to approve the procuring of a patent on a chemical compound discovered by Professor William Moore of the Division of Entomology and Economic Zoology, Department of Agriculture, at the expense of the University, if arrangements can be made.

Voted, owing to the present war situation and the general feeling that this is scarcely an appropriate time for holding celebrations, indefinitely to postpone the Fiftieth Anniversary Celebration of the University of Minnesota with the understanding that at the proper time some action might be taken and that at Commencement some recognition of the half century life of the University might be taken.

Voted to approve the recommendation of the Dean of the Medical School that beds to the number of ten be made available in the University Hospital for use of the Aviation Corps at the Overland building with the understanding that all cases of throat disease be cultured and bacterial reports upon such culture be received before patients are admitted to the Hospital.

Voted to grant a degree of Doctor of Medicine *post obitum* to H. T. Kennedy.

Voted to appoint a committee, with the President of the University, ex-officio, as chairman, the other members of the committee to be selected from the faculty, for the purpose of passing upon all gifts of art objects presented to the University.

Voted to refer to the President and faculty of the College of Science, Literature, and the Arts, a petition from the Federation of Minneapolis Ministers regarding credit for work in religious subjects in schools and colleges of approved standing.

Voted to approve the renting of Northrop Cottage at 112 Church Street southeast, at an expense of \$35 per month for additional housing which will be required for the summer school of nurses, the rent to be provided from the Hospital budget.

Voted to authorize an appropriation of approximately \$33 for an electrical connection to the theatrical dome in Folwell Hall.

Voted to correct the minutes of the Executive Committee of the Board of Regents of February 18, 1918, wherein the Board voted to accept from the Faculty Women's Club the furniture, linen, and belongings in Northrop, Folwell, Loring, and Winchell cottages, eliminating Winchell Cottage, the furniture and furnishings of which were accepted by resolution of the Board of Regents November 16, 1915, as a gift from the Minnesota Alumnae Club.

Voted to refer to the President of the University the advertising matter of the University of Southern Minnesota with the recommendation that he submit the same to the Blue Sky Law Commission.

Voted to approve the expenditure of approximately \$300 for advertising the Summer Session

Voted to grant a degree of Doctor of Medicine to Ray L. Schutt.

Voted to approve the petition of the Northern States Power Company for an easement for a pole line for supplying current to the State Fair Grounds and to direct the Comptroller to request the Attorney General to draw up the necessary papers.
