BOARD OF REGENTS BUILDINGS AND GROUNDS COMMITTEE

MINUTES

January 12, 1925

A meeting of the Buildings and Grounds Committee of the Board of Regents was held in the President's office on Monday, January 12, 1925, at two o'clock.

Present: Regent Partridge, chairman; Regents Boeckmann, Coffman, Snyder, and Warren.

The City Planning Commission was represented by a special committee consisting of J. T. Elwell, president, Alderman John Peterson, F. M. Mann, and A. C. Godward, engineer.

A. E. Zonne, president of the Minneapolis Civic and Commerce Association, was present.

This meeting was called to consider the question of the zoning ordinance of Minneapolis with special reference to its application to the property near or adjacent to the Chicago, Milwaukee and St. Paul Railway Company's tracks between University Avenue and the easterly limits of the city.

Mr. Elwell and Mr. Godward presented the suggestions of the City Planning Commission for the development of the area in question for residential purposes only. The plan as outlined provided for the acquisition of approximately \$75,000 of property available for industrial purposes and restricting it for residential uses. Two plans to accomplish this purpose were suggested: One to form a corporation, the stock of which would be purchased by parties interested in the proposed change; the other plan being to proceed under the police powers of the city in accordance with a proposed amendment to the 1915 statute establishing restricted residence districts in cities of the first class. Under either plan it is proposed that the University of Minnesota purchase the property

now owned by the Midwest Oil Company at a cost not to exceed \$16,000, this property being located near the intersection of Fulton and Superior streets southeast and available as a possible site for a number of the old houses now located on the University campus.

Voted to approve the recommendation of the Department of Physical Education and Athletics that a part or all of the \$150,000 provided for a new gymnasium in the budget for 1924-25 (budget 633) be used for the purpose of improving the available space in the stadium for the needs of the Department of Physical Education and Athletics.

Voted to adjourn.

the health officers of the cities of St. Paul and Minneapolis require evidence of immunizing vaccination from all students and employees of the public schools in these two cities.

The President of the Board reported the gift from W. H. Eustis of additional funds for the Minnesota Hospital and Home for Crippled Children as stated in the following letter and in accord with the additional provisions as to the management of the property as contained in the letter of W. H. Eustis and consented to by Gardner T. Eustis, filed supplement to the minutes, page 402.

December 22, 1924.

Hon. Fred B. Snyder,
President of the Board of Regents,
University of Minnesota,
Minneapolis, Minnesota.

Dear Sir:

I have this day deeded to the University of Minnesota an undivided four-fifths interest in the Flour and Corn Exchange properties, being all my holdings therein, which, with the properties real and personal previously transferred to it, is in full of my pledge of June 14th, 1923, of \$1,000,000 for the well-being of needy crippled children. All of said property, except the site of 44 acres, being income bearing, the value of which, including the net income thereon to July 1st, 1927, as provided by the terms of said pledge, should amount to, at least, the sum of \$1,500,000. I will continue to manage the property, as now, so long as my health permits, without financial consideration. In my judgment it would seem wise to let all the income be added to the principal of the trust until, at least, July 1st, 1927.

In the meantime a careful study should be made of the Convalescent Home. This is a modern, humane thought, and if rightly planned, and carried out, it will be endowed with great possibilities of good to its patrons. It should be made the main and striking feature of the trust. Advantage should be taken of all that experience has taught others, rather than to learn these lessons by failures. As a rule a few weeks at the hospital will suffice, while at the Home months and years will be needed for the correction of physical defects, supplemented by both a general education and special learning, in useful trades, or arts, that will best fit them for self-supporting and happy lives. Here is where the major part of the funds should be used. Make haste slowly, and no mistakes, would seem to be the correct policy.

I have recently learned that the General Education Board of New York City has offered the University \$1,250,000 on a \$3,600,000 program for the development of its medical laboratories and

hospitals. To secure the General Education Board gift, \$2,350,000 must be raised from local sources. The development of this program, for medical education and hospital care, is a matter of vast importance to the welfare and happiness of the people of the State. In the long run it will touch every home. It will affect not only those whose course is nearly finished, but also those in the more active years of life, and it will minister to the needs of children, including crippled children. It is my wish and desire that such part of this additional gift, in excess of the original \$1,000,000 pledge of June 14, 1923, which shall be in the possession of the University on July 1, 1927, may, in accordance with the terms of the gift, and in the discretion of the Board of Regents, be considered as a part of the allotment the University is required to raise in matching the \$1,250,000 offered by the General Education Board, and may be used for that purpose.

My original pledge and the supplementary gift made at this time have been on the assumption that they will be used perpetually for the purposes for which they were made, namely, for the well-being of needy crippled children. It is, however, clearly recognized that no human being can fathom the future or prophesy events that may happen years or generations hence. No one knows what progress science may make in curing or alleviating certain kinds of human ailments and diseases. No one knows what generous gifts may be given at some future date by persons, foundations, associations or organizations for the care of needy crippled children. I, indeed, hope, as expressed in my original pledge, that others might feel like lending a helping hand for the crippled children and provide additional funds for the Minnesota Hospital and Home for Crippled Children.

It is, therefore, conceivable that the time may come when the University will actually have in its possession more funds than are actually needed to provide the best care possible for all needy crippled children who may be entrusted to its charge. Should such a fortunate day arrive, the Board of Regents of the University of Minnesota by unanimous vote shall have the authority in its discretion to use such part of the funds provided by my original pledge and the supplementary gift as it may deem necessary and proper, to investigate the diseases of childhood and their alleviation and cure, or in any way that will promote the functions and the purposes of the University, which is dedicated to the service and enlightenment of mankind.

Very truly yours,
WM. H. EUSTIS.

Voted to refer the request of the Ways and Means Committee of the City Council of Minneapolis, that the Board of Regents of the University ask the legislature for an appropriation to permit the Board of Regents to pay \$1,153.38 for sidewalk assessments on property located

on 46th Avenue South between 38th and 44th Streets, formerly owned by W. H. Eustis and now the property of the University of Minnesota, to the legislature for action.

Voted to refer to the legislature the claim of Marion Nippert for the loss of a fur coat, valued at \$305, from a locker in the Chemistry building.

The Comptroller reported the purchase by the University of 240 acres of land in section 32, township 49 N, range 17 W, for the Cloquet Forestry Station, for the sum of \$3,300.
