BOARD OF REGENTS
SPECIAL COMMITTEE
MINUTES

November 20, 1939

A meeting of the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota was held on Monday, November 20, 1939 in the Regents' Room in the Administration Building at the University of Minnesota, Minneapolis, Minnesota at two o'clock.

Present: Regent Wood, presiding; Regents Bell, Lawson, and Snyder, and Mr. Ford.

After discussion and upon motion by Regent George W. Lawson, and duly seconded by Regent Fred B. Snyder, to file application for an amendatory grant having as its purpose, without increase of the original project grant, the allocation to the purchase of furnishings and equipment funds saved by the owners in building construction costs of the Coffman Memorial Union project, Docket No. Minnesota 1358-F, University of Minnesota, Minneapolis, Minnesota, the following resolution was submitted to the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota for its approval:

A resolution requesting an amendatory grant having as its purpose, without increase of the original project grant, the allocation to the purchase of furnishings and equipment funds saved by the owners in building construction costs of the Coffman Memorial Union project, Docket No. Minnesota 1358-F.

Be it resolved by the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota:

PART I

WHEREAS, on June 15, 1938 an application was filed with the Federal Emergency Administration of Public Works, on behalf of the Regents of the University of Minnesota, for a forty-five per

cent grant in aid for the construction of a students union building estimated to cost \$1,975,028.60. The application included, as indicated on PWA Form No. 175 which formed a part of the application, the sum of \$147,669.60 for the purchase of "Interior Equipment." On October 24, 1938 the United States Government tendered to the Regents of the University of Minnesota an offer of grant in the amount of forty-five per cent of the cost of the Project (designated as Docket Minnesota 1358-F) but not to exceed the sum of \$891,900. This offer was accepted on October 31, 1938 by action of the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota, which Special Committee action was confirmed by the Board of Regents on November 5, 1938, and

WHEREAS, in the application for grant above referred to the University authorities proposed a Project that should not exceed a cost of \$1,975,028.60 as the basis for grant, this limitation having been predicated on an understanding, now known to have been erroneous, that certain Public Works Administration regulations existed that precluded the possibility of aid in excess of forty-five per cent of two million dollars. Accordingly, by including for aid only \$147,669.60 to cover "Interior Equipment," the proposed Project was held within the supposed limit of two million dollars, and

WHEREAS, by including only \$147,669.60 in the grant application for the purchase of "Interior Equipment" the Regents of the University of Minnesota elected to purchase, without benefit of grant, the balance of the furnishings and equipment required to properly operate the building as a revenue producing property, the total sum required for furnishings and equipment having been previously estimated at \$380,000, and

WHEREAS, it was determined that a subscription campaign should be conducted to finance the cost of equipment to be purchased without benefit of grant and to otherwise finance the cost of the Project, and

WHEREAS, after the subscription campaign had advanced through its most productive stages it became evident that the proceeds would be far from sufficient for the purchase of approximately \$233,000 worth of furnishings and equipment and otherwise partially finance the Project due to drouth and other economic conditions existing in this area, and

WHEREAS, because of the limited success that attended the campaign for funds, the Architects and Engineers were instructed to curtail plans for the use of many desirable but nonessential quality materials and mechanical devices such as granite, plate glass, rare woods, bronze, air conditioning apparatus, et cetera, in an effort to reduce the cost of the building in sufficient amount to provide a balance within the limits of the grant base to fully cover the purchase of all furnishings and equipment to the extent of \$380,000 with benefit of grant, and

WHEREAS, by effecting economies in the construction of the building sufficient savings were made to provide for the purchase of all furnishings and equipment to the extent of \$380,000, plus addi-

tional savings that created a contingent fund in excess of \$100,000, and

WHEREAS, in accordance with the owner's understanding that the procedure was permissible under the regulations in view of the grant which provides for the inclusion of "necessary equipment," a revised PWA Form PE-13 was prepared by the owners under date of August 2, 1939 reducing the item of "general construction" and increasing the item of "equipment" from \$147,669.60 to \$380,000. This revised Form PE-13 dated August 2, 1939 was submitted to the Regional Director and was acknowledged and approved by him through the issuance of PWA Form No. 194, Project Change 6-Project-2 dated August 11, 1939.

PART II

WHEREAS, on November 14, 1939 the first preliminary documents covering furnishings and equipment for the Coffman Memorial Union Building were presented to the Regional Director at Omaha, Nebraska by representatives of the University of Minnesota, and

WHEREAS, the Regional Director did approve these preliminary documents, but with the reservation that such approval covered the purchase of furnishings and equipment determined to be eligible at the time of final audit only to the extent of \$147,669.60 plus a reasonable overrun for errors in preliminary estimation. In explaining this reservation the Regional Director stated that it is not within his authority to approve the purchase of furnishings and equipment in excess of the amount set forth in the estimate of equipment costs accompanying the grant application even though such excess is derived from savings elsewhere in the Project and does not increase the total Project grant. The Regional Director further stated that in no event is it within his power to approve the purchase of furnishings and equipment in excess of fifteen per cent of the total cost of a given project, and

WHEREAS, the University of Minnesota had not been previously advised of the regulations quoted by the Regional Director, but had, to the contrary, been sustained in its understanding that the transfer of savings from "general construction" to "equipment" was permitted under the regulations through the Regional Director's approval of Revised PWA Form PE-13 dated August 2, 1939 by the issuance of Project Change 6-Project-2 dated August 11, 1939, which Project Change also failed to reveal the existence of regulations fixing a limit of fifteen per cent of the total cost of the Project for the purchase of furnishings and equipment, inasmuch as the document did approve a "furnishings and equipment" budget which is 19.17 (plus) per cent of the total cost of the Project.

PART III

WHEREAS, the Public Works Administration ruling with reference to the use of project savings for the purchase of necessary furnishings and equipment and limiting furnishings and equipment

costs to a maximum of fifteen per cent of the total cost of the Project very seriously affects the owners' plans for financing this Project in the following several ways:

(a) Application of this ruling to Docket Minnesota 1358-F is depriving the owners of savings which are the result of economies voluntarily imposed by the owners.

(b) If the savings which were created by economies imposed by the owners upon other departments of the Project are denied for use in connection with the purchase of furnishings and equipment, it will be necessary for the owners to borrow additional funds in excess of \$100,000.

(c) If it becomes necessary for the owners to issue certificates of indebtedness to the extent of \$100,000 more than has been anticipated for financing this Project, the maturities of these certificates must perforce be extended. The issue now contemplated could, it is believed, be retired within a ten-year period. The addition of \$100,000 to the issue, however, would increase the size of the loan to the extent that it could not be retired in less than fifteen years if adequate coverage of principal and interest requirements is maintained. It is obvious that an adequate margin of protection must be shown if a favorable rate of interest is to be secured.

(d) It was the intention of the owners to proceed with the sale of certificates of indebtedness to otherwise finance the Project within the next thirty days. This decision was based on the opinion that a money market more favorable than the present one cannot be expected. If borrowing is delayed pending final determination of the availability of Project funds for the purchase of all necessary furnishings and equipment, the University may be forced into a less favorable money market at a later date.

(e) The owners cannot now proceed with their borrowing to take advantage of the present favorable money market, making provision at this time for an additional \$100,000 against the possibility that Project savings will not be made available for the purchase of furnishings and equipment, for the reason that if the savings should be made available after loan contracts are entered into the owners would be obligated for interest payments on the surplus \$100,000 for one year. These certificates obviously cannot be called prior to one year after issuance under terms that bidders would undoubtedly insist upon.

PART IV

WHEREAS, in consideration of the previously stated facts, it is the judgment of the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota that:

(a) The grant savings proposed for use in the purchase of all necessary furnishings and equipment for the Project were made possible by economies voluntarily imposed upon other

departments of the Project by the owners, and should, therefore, be available for the use of the owners at their discretion up to the limit of the grant.

(b) If the right to use these savings for the purchase of all necessary furnishings and equipment for the Project is not permitted, such disallowance would constitute a self-defeating revocation of the commitment of the United States Government to provide funds for the project to the extent of \$891,900.

(c) Disapproval of the right to use the savings previously mentioned for the purchase of furnishings and equipment would seem to contradict that statement in the offer of grant which provides for the inclusion of "necessary equipment."

(d) Disapproval of the right to use the savings now irrevocably made in construction to provide for the purchase of furnishings and equipment would seem to be a retroactive application in so far as this project is concerned.

(e) The imposition of a limit of fifteen per cent of the total cost of the Project as being the maximum extent to which grant money could be applied for the purchase of furnishings and equipment would appear to constitute a contradiction of that statement in the offer of grant which provided for the purchase of "necessary equipment," which statement was unqualified.

Now, Therefore, be it resolved by the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota:

(a) That W. T. Middlebrook, Comptroller and Secretary of the Regents of the University of Minnesota be, and he hereby is, empowered and directed to make application to the Public Works Administration for an Amendatory Grant in connection with the Coffman Memorial Union Project, Docket Minnesota 1358-F, which Amendatory Grant, if approved by the Public Works Administration, shall have the effect of changing the scope of the Project by increasing the amount of money available for the purchase of furnishings and equipment under the grant to \$380,000, the monies required being now available from corresponding decreases that have been made in other divisions of the Project costs. The requested reallocation of Project funds is now set forth in PWA Form PE-13 dated August 2, 1939 as approved by the Regional Director through the issuance of Project Change 6-Project-2 dated August 11, 1939. No increase in the total cost of the Project is involved, and therefore no increase in the already approved grant.

(b) That the furnishings and equipment proposed for purchase under the Amendatory Grant to the extent of \$380,000 shall include all furnishings required for the proper operation of the Coffman Memorial Union Building as a revenue producing unit. This equipment shall include all dishes, glassware, silver, linens, kitchen equipment, pool and billiard tables, bowling alleys, et cetera, required, and without which the financing of the Project by borrowing against income cannot be accomplished.

The following members voted in favor of the adoption of the above said resolution :

James F. Bell	Fred B. Snyder
George W. Lawson	Sheldon V. Wood
Guy Stanton Ford	

and the following members voted against the adoption of the said resolution :

None

Whereupon, the Chairman of the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota declared the resolution to be passed.

Voted to adjourn.

Merrill Scoville Hospital Attendant Psychopathic Unit University of Minnesota Hospitals leave without salary November 2-9, 1939 on account of illness

Regent Fred B. Snyder moved that the Board of Regents pay tribute to the late Associate Justice of the Supreme Court, the Honorable Pierce Butler, a former Regent of the University, by silent standing vote. The Regents unanimously approved Regent Snyder's motion by silent standing vote.

Voted on recommendation of the President to approve the following proposed plan for the establishment of Regents' tuition scholarships for employees in the non-academic service:

The "Rules and Regulations Relating to Personnel" as revised by the Board of Regents effective January 1, 1938, contain the following statement concerning registration in University classes by full-time employees in the non-academic classified service:

Full-time employees in the non-academic classified service may enroll in University courses that do not conflict with their regularly prescribed hours of employment.

Full-time employees in the non-academic classified service, working in departments that operate on the customary University work schedule (8:30 a.m. to 5:00 p.m. with adjustments on the Farm Campus, at the outlying stations, and during the summer months) may not enroll in University classes during the hours the department offices are expected to be open except as indicated below.

Full-time employees in the non-academic service, working on fixed time schedules and in departments that operate on other than the customary work schedule of the University, may enroll in University classes that do not conflict with their regularly prescribed hours of employment.

Full-time employees in the non-academic service who do not have regularly prescribed working hours may not enroll in University classes without the written approval of the department head, the dean or administrative officer, and the comptroller.

Full-time employees in the non-academic service who desire to enroll in University classes which do not conflict with their regularly prescribed working hours may do so upon approval of the department head and dean or administrative officer, provided that their compensation is proportionately adjusted in the regularly prescribed manner.

It is obvious that some restraint must be exercised upon registration in classes by full-time University employees in order that the work in the departments may not be disrupted and to insure that necessary and expected contacts with all University departments and with the outside public may be maintained during the working hours when the University is open.

Granting this necessity for restricting the possibility of non-academic staff members registering for academic work, it is also evident that it would be to the advantage of some of the employees to register in University courses in order that they may supplement their backgrounds and perform their University functions with greater efficiency. From the standpoint of the University also, there are gains whenever through further and special training a member of the non-academic staff increases his efficiency or his skills by additional training or education. Thus, for example, a member of the cataloguing department of the University Library would presumably be a better cataloguer as her language, equipment was extended, and there would be a gain to the University through more efficient service by permitting some employees of this division to take additional courses in a foreign language. Or again, additional statistical or mathematical training could be assumed to improve the quality of work of certain employees in the office of the comptroller.

From the point of view of staff morale any plan for self-improvement of staff members makes a contribution since through further training—which in itself brings satisfactions—there is also made possible the personal development that will open the way to promotions within the University classified service.

All of this the University recognizes on the side of the academic employees, and up through the rank of instructor these employees are encouraged to enroll in University classes, to progress toward a degree, and exemption from tuition is provided (under conditions established by the Board of Regents). Thus while the member of the academic staff is encouraged to self-improvement through registration in University courses, the member of the non-academic staff is actually penalized through a salary reduction for doing so.

It would not appear expedient to rescind the present regulation concerning registration of non-academic employees in University classes. At the same time it is suggested that some provision should be made, at least in selected cases, for members of the non-academic staff to avail themselves of the opportunities for self-development that would come through further study in fields directly related to their present University positions or the positions that might be expected to develop from them through normal promotion. To this end it is therefore proposed that the Regents create a tuition scholarship plan whereby a limited number of non-academic employees each academic year may be awarded the privilege of registering in a University course (carrying not more than six credits in any one quarter) without salary reduction. These Regents' tuition scholarships are to be regarded as rewards

for faithful service to the University, and at the same time as opportunities for in-service training of younger men and women who, presumably, will with passing years be advanced to greater responsibilities within the University organization.

IT IS THEREFORE PROPOSED that the Board of Regents authorize the creation of tuition scholarships for employees in the non-academic classified service, to be administered by the Committee on Classification of the Non-academic Personnel under the following conditions:

1. No more than ten such scholarships are to be available in any one quarter during 1939-40, nor more than 15 during 1940-41 and 1941-42, with the further provision that the entire program shall be reviewed at the close of the year 1941-42.

2. Any member of the non-academic classified service may file application for a Regents' tuition scholarship at such times and upon such forms as may later be determined.

3. Holders of the Regents' tuition scholarships may not in any quarter register for more than six credits of academic work. During the period of the scholarship they shall not be subject to reduction in salary.

4. The tuition scholarships shall be awarded for one academic quarter. The holders of such scholarships may not be appointed for more than three consecutive quarters.

5. Selection of the holders of Regents' tuition scholarships shall be made by the Committee on Non-academic Personnel which shall view the proposed study program of each applicant in the light of his present duties and the lines of promotion normally flowing from the present position.

6. The committee in making its selections shall also give consideration to the needs of a department for maintaining its work and other things equal shall favor applications that can most readily be adjusted to department requirements.

7. The selecting committee shall also take into consideration in making its awards the previous service record of applicants at the University.

8. There is no requirement that the maximum number of Regents' tuition scholarships shall be appointed at any time if in the judgment of the selecting committee this is not fully warranted by the quality of the applications on file.

9. Authority to appoint the first scholars under the proposed plan is requested for the winter quarter, 1939-40.

10. Present regulations governing registration in University classes shall continue in effect for all non-academic employees in the classified service except the holders of the Regents' tuition scholarships.

Voted to approve the following increases of fees in the Summer Session:

	From	To
4 credits or less	\$11.80	\$15.80
For more than 4 credits.....	21.80	25.80
Incidental fee, per term.....	2.80	3.80

Voted to approve a preliminary deposit of \$10 to accompany each application for admission to the University High School, with the understanding that:

1. If the application is rejected the \$10 will be returned
2. If the application is accepted, the \$10 will be retained and if the applicant fails to enter, the deposit will be forfeited
3. If the application is accepted and the applicant enters, the \$10 will be applied on the first quarter's tuition

The President appointed Regent Albert J. Lobb a member of the Budget Committee.

Regent Fred B. Snyder and Comptroller Middlebrook, the special committee appointed with power on the leasing of the gravel pit at the corner of Como and Cleveland Avenues, St. Paul, reported for the information of the Board that they had secured from Boyd and McDonough a complete release relating to the original contract and their bid, and that the J. L. Shiely Company had executed a contract and had provided an acceptable surety bond and that the \$1,500 deposit of Boyd and McDonough had been returned to them.

Voted to grant permission to Miss Lucile Petry, Associate Professor in the School of Nursing, to assist in the study of Nursing Education to be conducted by the North Central Association of Colleges and Secondary Schools, without loss of salary, with the understanding that the proposed study will require approximately two weeks of time broken into intervals and with the further understanding that this will not materially interfere with Miss Petry's University assigned duties.

A form of Trust Agreement, filed supplement to the minutes, page 1612, between the Regents of the University of Minnesota and the Northwestern National Bank and Trust Company of Minneapolis, as Trustee, was presented to the meeting. Said Trust Agreement provided for the issuance by the Regents and authentication by the Trustee of \$400,000 principal amount Coffman Memorial Union Building Revenue Certificates of Indebtedness, Series of 1940, prescribed their form and details, manner of execution and delivery, specified their source of payment and the security to be given therefor, and the terms of the trusteeship, and specified the purpose of their issuance as being

to aid in the construction and equipment of the building known as Coffman Memorial Union, now under construction on the campus of the University.

After due consideration thereof by the Regents, Regent George W. Lawson introduced the following resolution and moved its adoption:

Be it resolved by the Regents of the University of Minnesota:

1. That the form of Trust Agreement between this corporation and the Northwestern National Bank and Trust Company of Minneapolis, as Trustee, presented to and considered by the Regents of the University of Minnesota at this meeting, is hereby in all things approved.

2. The President or Vice President and Secretary or Assistant Secretary of this corporation are hereby authorized and directed to sign, seal, and acknowledge said agreement in behalf of this corporation and to cause the same to be executed by the Trustee, and to deliver a copy thereof to the Trustee upon receipt of a duplicate original executed by it, which duplicate original shall be preserved in the files and records of this corporation.

3. Said certificates of indebtedness shall be sold upon competitive sealed bids, at not less than par and accrued interest, to the bidder who offers to purchase the same on the terms most favorable to the corporation, considering both the interest rate and the price bid; that sealed bids for the purchase of said certificates shall be opened by the President or Vice President and Secretary or Assistant Secretary of this Board at the office of the Secretary on the 15th day of December, 1939, at eleven o'clock A.M., and said President or Vice President and Secretary or Assistant Secretary are hereby authorized and directed to accept the best bid received or, in their discretion, to reject all bids.

4. The Secretary shall cause a call for bids to be published once each week for two successive weeks in The Daily Bond Buyer, a financial newspaper published at New York, New York, the first publication to be at least fourteen days before said date for opening bids, which call shall be in substantially the following forms:

CALL FOR BIDS ON

\$400,000 Coffman Memorial Union Building Revenue
Certificates of Indebtedness, Series of 1940, of
the Regents of the University of Minnesota

Notice is hereby given that sealed bids will be received up to eleven o'clock A.M., on the 15th day of December, 1939, at the office of the undersigned at the University of Minnesota, Minneapolis, Minnesota, for the purchase of \$400,000 principal amount of Coffman Memorial Union Building Revenue Certificates of Indebtedness of the Regents of the University of Minnesota, dated January 1, 1940, in denominations of \$1,000

each, maturing serially on January 1 in the years and amounts as follows: \$30,000 in each of the years 1941 and 1942; \$40,000 in each of the years 1943 to 1946; and \$45,000 in each of the years 1947 to 1950; all years inclusive; to bear interest at a rate specified by the successful bidder, payable for the first year at the expiration thereof and semiannually thereafter, both principal and interest to be payable at the Northwestern National Bank and Trust Company of Minneapolis, Minnesota. Said certificates will each be subject to redemption and prepayment at the option of the Regents on any interest date at par and accrued interest, in inverse order of serial numbers, after 30 days notice. No bid of less than par and accrued interest will be considered. The certificates will be issued for the purpose of providing funds to aid in the construction and equipment of a student union building now under construction on the campus at Minneapolis. Both principal and interest will be payable solely out of the net earnings of said building, including a union building fee to be collected from students now registered or hereafter registering at the University.

Further information as to the nature and terms of said certificates of indebtedness and the security therefor may be obtained by addressing the undersigned. The Regents will furnish the printed and executed certificates of indebtedness and the approving legal opinion of Messrs. Fletcher, Dorsey, Barker, Colman & Barber, of Minneapolis, Minnesota, both without cost to the purchaser. All bids shall be sealed, marked "Bid for \$400,000 Certificates of Indebtedness," and delivered to the undersigned prior to the above specified date and hour, accompanied by a certified check, cashier's check, or bank draft, payable to the order of the undersigned in the amount of \$8,000, to be forfeited as liquidated damages in case the bid be accepted and the bidder shall fail to comply therewith. No other bids will be considered. The right is reserved to reject all bids, but if not so rejected the bid offering to purchase said certificates on the terms most favorable to the Regents, considering both the interest rate and the price bid, will be accepted.

Dated at Minneapolis, Minnesota, this 25th day of November, 1939.

W. T. MIDDLEBROOK, Secretary
Regents of the University of Minnesota
Minneapolis, Minnesota

5. Immediately after the acceptance of a bid for the purchase thereof, the President or Vice President and Secretary or Assistant Secretary shall cause the printed certificates of indebtedness to be prepared for execution, and sign and seal the same in the manner specified in said Trust Agreement, and upon receipt of the purchase price thereof they shall cause the Trustee to authenticate and deliver such certificates of indebtedness to the purchaser.

6. The President or Vice President and Secretary or Assistant Secretary, and any other officer of this corporation or of the University, are authorized and directed to furnish to said attorneys such copies of proceedings, affidavits, and certificates as may be needed to evidence the legality of said certificates of indebtedness and the security therefor, and each such copy, affidavit, or certificate shall constitute representations of this Board as to the facts thereby shown.

The motion for the adoption of the foregoing resolution was duly seconded by Regent Sheldon V. Wood, and upon vote being taken thereon the following voted AYE: Regents Bell, Gainey, Griggs, Lawson, Lobb, Novak, Olson, Pfaender, Quinlivan, Rogstad, Snyder, and Wood, and Mr. Ford.

and the following voted NAY: None
whereupon said resolution was declared duly adopted.

STATE OF MINNESOTA SS
COUNTY OF HENNEPIN

I, W. T. MIDDLEBROOK, the duly elected, qualified, and acting Secretary of the Regents of the University of Minnesota, hereby certify that the attached and foregoing is a full, true, and correct copy of all the minutes of a regular meeting of the Regents of the University of Minnesota held November 25, 1939, in so far as the same relate to the authorization, issuance, and sale of \$400,000 Coffman Memorial Union Building Revenue Certificates of Indebtedness, Series of 1940, of said Regents.

Witness my hand and the seal of said Regents of the University of Minnesota this 27th day of November, 1939.

UNIVERSITY OF MINNESOTA
BOARD OF REGENTS
SPECIAL COMMITTEE
MINUTES

December 15, 1939

A meeting of the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota was held on Friday, December 15, 1939 in the Regents' Room in the Administration Building at the University of Minnesota, Minneapolis, Minnesota at two o'clock.

Present: Regents Wood, presiding; Regents Bell, Lawson, and Snyder, and Mr. Ford.

After discussion and upon motion by Regent George W. Lawson, and duly seconded by Regent Fred B. Snyder, the following resolution was submitted to the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota:

WHEREAS, the Dormitory for Women, Docket No. Minnesota 1415-F, is being constructed, exclusive of furnishings, equipment, landscaping, walks, drives, ground lighting, and ground drainage on a present budget of \$621,625 as set forth in Public Works Administration Form No. 194, Project Change No. 28-project-4, dated June 23, 1939, and

WHEREAS, the furnishings, equipment, landscaping, walks, drives, ground lighting, and ground drainage, together with fees and other costs, remain to be contracted for at an estimated cost of \$132,689, and

WHEREAS, the University of Minnesota has sold Certificates of Indebtedness to the extent of \$91,042 to complete the project, which amount is \$41,647 less than the sum required on the basis of present estimates, and

WHEREAS, no other funds are available to make up the shortage of \$41,647 and no additional Certificates of Indebtedness can be issued to produce this money for the reason that the original issue of Certificates is a closed issue which will permit no further liens against the income from the property, and

WHEREAS, the total sum that can be furnished by the University of Minnesota is in the amount of \$434,859, which sum repre-

sents 57.6495 per cent of the total revised estimated cost of the project on the basis of \$754,314.

Now, therefore, be it resolved by the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota:

1. That W. T. Middlebrook, Secretary, be, and he hereby is, authorized to execute and file an amendatory application in behalf of the Regents of the University of Minnesota to the Public Works Administration requesting Federal Aid to the extent of 42.3505 per cent of the proposed revised estimated total cost of the project identified as Docket No. Minnesota 1415-F, said revised cost estimate including all necessary furnishings and equipment being in the amount of \$754,314, the amendatory application to include in addition a request for a sufficient extension of time.

2. That W. T. Middlebrook, Secretary, be, and he hereby is, authorized and directed to furnish such information as the United States of America through the Federal Emergency Administration of Public Works may require in connection with the application which is herein authorized to be filed.

The following members voted in favor of the adoption of the above resolution:

James F. Bell	Fred B. Snyder
George W. Lawson	Sheldon V. Wood
Guy Stanton Ford	

and the following members voted against the adoption of the said resolution:

None

Whereupon, the Chairman of the Special Committee on Public Works Administration Projects of the Regents of the University of Minnesota declared the resolution to be passed.

Voted to adjourn.

W. T. MIDDLEBROOK, Secretary
