GEOPHYSICIST FROM
CALIFORNIA TO SPEAK
AT "U" THURSDAY

Dr. Joseph Kaplan, acting director of the institute of geophysics at the University of California, will talk on "The Upper Atmosphere of the Earth" at the University of Minnesota Thursday (Nov. 4) at 3 p.m. in the Minnesota Museum of Natural History auditorium.

In the special lecture, Dr. Kaplan will give examples of a great variety of techniques which have been employed to yield direct and indirect knowledge of the atmosphere of the earth. He will then give a brief statement of the principal results obtained from each of these techniques.

The last portion of the lecture will be devoted to expressing ways in which upper atmosphere research has provided fundamental problems for the physicist, chemist, astronomer and mathematician. The role of modern astrophysical research in the development of fundamental physics will be compared with the role of research of the upper atmosphere.

Dr. Kaplan, who was born in Tapolcza, Hungary, and came to the United States in 1910, received his bachelor of science degree from Johns Hopkins university in 1924, and his master's and doctor's degrees from the same university in 1924 and 1926. His discoveries include laboratory productions of auroral spectrum and light of night sky and atomic nitrogen in the earth's upper atmosphere.

The special lecture, open to the public without charge, will be sponsored by the Minnesota chapter of Sigma Xi, honorary science society, and the University department of concerts and lectures.

"U" FILM SOCIETY
TO SHOW ITALIAN
PICTURE WEDNESDAY

Aldo Fabrizi is both the author and lead actor in the Italian film "To Live In Peace" which will be presented by the University of Minnesota Film society Wednesday (Nov. 3) at 4 and 8 p.m. in Northrop Memorial auditorium.

Fabrizi, who will be remembered by movie-goers as the priest in the Italian picture "Open City", plays the part of a peasant whose fairly placid life, even in the midst of World War II, is interrupted when he shelters a pair of American soldiers who have escaped from the Germans.

With the brotherhood of man as its general theme, the film has many serious parts, but also moments of comedy. English subtitles explain the action of the film.

Tickets may be purchased in Room 3, Wesbrook hall on the Minneapolis campus, at the Downtown ticket office in Minneapolis or the Field-Schlick ticket office in St. Paul. Tickets also will be sold in Northrop auditorium before the showings.

U. OF M. SIXTH IN
SCIENCE DOCTORS'
DEGREES GRANTED

Minneapolis, Nov. - The University of Minnesota granted 682 doctors' degrees in the sciences during the decade 1936 to 1945 to rank sixth among the nation's colleges and universities, according to a report recently compiled by the Office of Scientific Personnel of the National Research council.

Topping the University of Minnesota in the number of science doctorates produced during the period were: Cornell, 851; Wisconsin, 828; Illinois, 770; Chicago, 735; and Columbia, 694.

Of the 682 scientists who completed their doctorates at the University of Minnesota, 229 or 33.6 per cent, also received their bachelor or baccalaureate degrees from the University.

Minnesota ranked third with a total of 362, according to the compilation, in the number of baccalaureate degrees awarded to persons who went on to earn their science doctorates during the decade either at Minnesota or some other institution.

Ranking of the University in the number of baccalaureate degrees granted to persons earning science doctorates during the period in various scientific fields was reported as follows:

Agriculture and horticulture, first place with 35 baccalaureate degrees; anatomy, bacteriology and microbiology, botany, entomology, genetics, medicine and surgery, physiology and zoology, second, 107; biochemistry, chemistry, metallurgy, mineralogy and pharmacology, tie for third with the University of California, 148.

(More)

Geology, geography, geophysics, paleontology and seismology, tie for eleventh place with Kansas, Missouri, Oklahoma and Rochester universities, 8; mathematics, tie for twelfth with Johns Hopkins, Texas and Wisconsin universities and Reed college, 7; physics, tie for tenth place with Oberlin college and the University of Michigan, 16; and psychology, second with 25, topped only by Columbia university with 26.

Degrees included in the compilation are earned doctorates such as doctor of philosophy, doctor of science, doctor of engineering and doctor of public health. Excluded from the report was the degree of doctor of education and the professional degrees such as doctor of medicine and doctor of dental surgery.

The study was conducted under a grant from the Carnegie Corporation of New York. All tabulations were made according to the major fields of the doctorates rather than the major fields of the bachelor degrees.

The lecture, open to the public without charge, is sponsored by the University theater and the department of concerts and lectures.

#

An exhibition of original sculptures supplemented by large size photographs, is currently being shown at the University of Minnesota gallery in Northrop Memorial auditorium. Title of the exhibit which will be shown through December 24, is "Open and Closed Form in Modern Sculpture".

The exhibition, assembled and circulated by the Museum of Modern Art, New York, shows original works by the leading contemporary sculptors, Calder, Laurens, Arp, Brancusi, Lipchitz and Moore. Works by several other artists are shown in reproductions.

Some of the works in the current exhibition outline a form rather than present the piece as a solid, and others indicate a shape as though seen from within just as in modern architecture in which the inside and the exterior of a building can be seen at the same time.

The present exhibition will form a part of a larger exhibition, "Space in Sculpture", which will open at the University gallery November 15.

University gallery hours are from 10 a.m. to 4 p.m., Monday through Friday.

STATE PROBATION,
PAROLE WORKERS
WILL MEET AT "U"

Minneapolis, Nov. - Minnesota probation and parole workers will gather at the University of Minnesota Monday, Tuesday and Wednesday (Nov. 8, 9, 10) to attend an institute at the Center for Continuation Study on the Minneapolis campus.

First day of the institute, presented by the University with the cooperation of the Minnesota probation and parole association, will be devoted to the study of the pre-delinquent. Consideration will also be made of conditions leading to delinquent behavior, counseling as a tool in the prevention process and the use of local resources as supplementary aids in prevention of delinquent behavior.

The second day will be given over to diagnosis, with presentations on various diagnostic tests that are used and presentations on aptitude, interest and trade tests.

A roundtable discussion of problems and practice in the field of probation and parole will conclude the institute.

Faculty for the three-day course will include University of Minnesota staff members and personnel from agencies and services working in the field of probation and parole.

All sessions will be held in the Center for Continuation Study.

CONFERENCE ON POPULATIONS

WILL OPEN MONDAY AT U. OF M.

Minneapolis, Nov. - Some of the leading authorities in the United States on population problems will gather at the University of Minnesota Monday (Nov. 8) through Saturday (Nov. 13) to participate in a conference on populations and relationships between groups.

Warren S. Thompson, well-known sociologist and director of the Scripps Foundation for Research in Population Problems at Miami university, Oxford, Ohio, will be one of the principal speakers for the course. He will talk on "World Populations Today and Tomorrow". Thompson is the author of several books including "Plenty of People" and "Population and Peace in the Pacific".

A professor of biology at Stanford university, L. L. Burlingame, will lecture on "The Possible Effects of Genetic Control of Population".

Other subjects which will be discussed include: "Population Trends in the United States, and Presumed Qualitative Changes"; "Social Effects of Population Change"; "Relation of Population to National and International Policies"; and "Population Problems in Eastern Europe and the U. S. S. R.".

In addition to the population experts from throughout the country, University staff members will also serve as faculty for the course which is sponsored by the University with the cooperation of the Carnegie corporation, the Minnesota chapter of the Human Genetics league and the University's Dight institute.

All sessions will be held in the Center for Continuation Study on the Minneapolis campus.

DADS TO BECOME
STUDENTS FOR DAY
AT "U" SATURDAY

Minneapolis, Nov. - University of Minnesota dads will become students for a day Saturday (Nov. 6). They will visit classes with their sons and daughters in the morning, attend luncheons at noon, and be guests of honor in Memorial stadium for the football game with the Purdue Boilermakers beginning at 2 p.m.

Each year, tribute is paid to the fathers of University students at the annual Dads Day. This year, fathers who have sons playing football, will sit on the bench with the players and will wear the same numbers on their back as their sons.

During the half-time period of the football game, the University band in full dress uniform will pay tribute to the guests of honor with special music and formation.

Immediately after the game, a meeting of the Dads' association will be held in the main ballroom of Coffman Memorial Union. At the coffee hour, following the meeting, University administrative officials and faculty members will welcome the fathers to the campus.

MORE THAN HALF
OF COLLEGE STUDENTS
IN STATE GO TO "U"

Minneapolis, Nov. - The University of Minnesota, with 27,243 students enrolled, is carrying 56 per cent of the college student load in Minnesota, according to a compilation of college registrations released Thursday (Nov. 4) by the Upper Midwest Association of College Registrars.

Attendance figures reported at the close of the second week of the first semester or quarter of the current school year show a total of 49,017 students registered in the state's 34 colleges and universities, True E. Pettengill, chairman of the association's committee on special projects and University of Minnesota recorder, reported.

Included in the total college level enrollment in the state are 21,706 veterans attending school under government benefits, the compilation indicates. Of this group of ex-servicemen and women, the 14,810 attending classes at the University constitute 68 per cent.

New students registered in Minnesota colleges and universities this fall total 16,201, of whom 7,252 or 45 per cent are enrolled at the University. The new student total includes 11,607 freshmen and 4,594 other new students. A breakdown of newcomers at the University shows 3,867 freshmen and 3,385 with advanced standing.

College and university attendance in the state, as compiled by the association, was reported by Pettengill as follows:

PRE-BOOK WEEK
MEETINGS MONDAY

Minneapolis, Nov. - The University of Minnesota's college of education, will observe a pre-Book Week celebration Monday (Nov. 8) in the main ballroom of Coffman Memorial Union where a group of recent books for children and young people will be on display from 3 to 10 p.m.

At 4:30 p.m. in Murphy hall auditorium, Marion Fudro, readers' adviser to young people in the Minneapolis public library, will discuss recent books for junior and senior high school young people. At the same hour in the Minnesota Museum of Natural History auditorium, Dr. Dora V. Smith, professor of education, will present a preview of new books for children which will come out this year.

Maud Hart Lovelace, well-known author of the Betsy-Tacy books for children and of novels based on Minnesota life, will be guest speaker at a dinner meeting at 6:15 p.m. in the main ballroom. She will talk on "Notebook of a Writer from Minnesota".

Presiding at the dinner will be Dr. Anna Cowley Boardman, well-known book reviewer. Other speakers will include Martha Ostenso, author of "Wild Geese" and other Minnesota books, Mabel Seecley, author of mystery stories including "A Woman of Property", Darragh Aldrich, Carol Brink, Emma Brock, Maxine Shore and Helen Acker Anderson.

Activities for the special day are under the direction of Dr. Smith, and the public is invited to attend all sessions.

U. OF M. WILL PRESENT FILMS
ON PERSONNEL MANAGEMENT

Minneapolis, Nov. - Problems in everyday relations between a typical worker and his boss will be illustrated in two one-hour film programs on personnel management to be presented at the University of Minnesota Tuesday (Nov. 9) and on November 17.

Both showings, scheduled for 4 p.m. in Murphy hall auditorium on the Minneapolis campus, will be open to the public. Personnel workers in industries and government agencies and students of business and personnel administration, psychology and industrial relations are particularly invited to attend.

Next Tuesday's program will emphasize orientation and training of new employees and will dramatize good and bad methods of supervision. At the second presentation on November 17, the problems of staff morale and the role of personnel management in promoting friendly customer relations will be illustrated by films showing a series of typical working situations.

ZOOLOGIST TO SPEAK
AT "U" ON GENETIC
RADIATION DAMAGE

Some of the physical characteristics and biological changes induced by radiation exposure will be explained by Dr. H. J. Muller, professor of zoology at Indiana university, in a talk in the Physics auditorium at the University of Minnesota Tuesday (Nov. 9) at 8 p.m.

Title of Dr. Muller's talk will be "Radiation Damage of Genetic Origin". His lecture is sponsored by the Minnesota chapter of the society of Sigma Xi and the University department of concerts and lectures.

Dr. Muller will point out the ways in which changes produced by exposure to radiation appear in later generations. He will give particular reference to the effects to be expected in populations which have been subjected to an incautious use of X-rays or radioactive material, or to atomic bombing.

Works written by Dr. Muller include: "The Mechanism of Mendelian Heredity" (with others); "Out of the Night"; "Genetics, Medicine and Man" (with others); and papers on biological and genetic subjects. He has been conducting research in genetics since 1911, and at one time was senior geneticist at the Institute of Genetics in Moscow. He also has lectured in several other American and European universities and colleges.

The lecture is open to the public without charge.

RECREATION CENTER
FOR "U" VETERANS
TO OPEN FRIDAY

Minneapolis, Nov. - Approximately 900 married World War II veterans and their families living in the University of Minnesota's veteran housing projects will participate in a grand opening of their new recreational center or "union" at University Village Friday (Nov. 12).

A place where parents can relax and their children can play, the new union is part of a temporary building which formerly was located south of the main engineering building on the Minneapolis campus. A large section of the war surplus navy barracks which was no longer in use was moved to the University Village last June. Work on the building is now in its final stages.

Instead of hiring a "baby-sitter", parents can take their kids with them when they go to the union. While mother does her mending in the sewing room and daddy does his school work in the study room, Junior can get acquainted with his neighbors in the children's playroom.

The main lounge, where neighbors can get together to play bridge, read or just listen to music, will be furnished with upholstered chairs and sectional pieces. Two pianos, study tables and a 500-volume library donated by the University library will be available to patrons of the center.

Johns Hopkins, University consultant designer and noted interior decorator, has been in charge of all decorating.

The grand opening will include a children's program in the afternoon and two evening performances featuring Huddie Ledbetter, well-known American folk singer.

FOR IMMEDIATE RELEASE

Carlos Fallon, Latin-American authority on South America, will deliver a special lecture in the Minnesota Museum of Natural History auditorium at the University of Minnesota Tuesday (Nov. 9) at 3 p.m. He will talk on "Let's Watch Our Own Backyard".

Fallon, born in Bogota, Republic of Colombia, in 1909, is descended from the legendary Don Tomas Fallon, an Irishman who came to Colombia in the early eighteen hundreds to mine silver and emeralds.

After completing his studies at the Colombian military academy and serving on United States and Canadian merchant ships, Fallon was commissioned in the Colombian navy.

In 1932, he converted an American Yacht into a Colombian warship and sailed her to the Amazon where, for two years, he participated in the undeclared war with Peru. The needless slaughter of that jungle war convinced him that the answer to inter-American conflict lay in making available accurate, objective knowledge of the fact of a dispute to the peoples of the countries concerned. With this view, he carried out an extensive lecture tour of the United States from 1941 to 1943.

In May of 1943, Fallon was accepted for voluntary induction as a private in the U. S. Army Air Force. When he was discharged in 1946, he had attained the rank of captain.

The lecture is open to the public without charge.

FOR RELEASE SUNDAY, NOV. 14

*John W. Sherman
John Harvey
with Pix*

Haddie Ledbetter, better known as Lead Belly, famous American folk singer, will present a program of songs at University of Minnesota convocation Thursday, Nov. 18, at 11 a.m. in Northrop Memorial auditorium.

Lead Belly has had a wide variety of experiences in his life time. He grew up in the rural South where he made a living by cotton picking. From there he went to Texas, where he became a cowboy, and his cowboy experiences were followed by work in southern oil fields.

After trouble caught up with Lead Belly, he found himself singing with the work gang^s in the state penitentiaries of Louisiana and Texas. But Lead Belly won his pardons from the governors of both states through a record of hard work, leadership and obvious musical talent.

Upon gaining his freedom, Lead Belly toured the South with John A. Lomax, curator of the American Folk Song for the Library of Congress, searching out the regional music of many obscure sections. As a result of this tour, a vast collection of his recordings are now in federal archives.

Convocation, open to the public without charge, will be broadcast over KUOM, University radio station.

###

WEEK-END BUS
SERVICE BETWEEN
"U" CAMPUSES SET

Beginning Saturday (Nov. 13), week- end bus service between the St. Paul and Minneapolis campuses will be offered to University of Minnesota students.

Operated on a trial run for the first month, the schedule will include three round trips on Saturday and four on Sunday, with the following time table in effect:

Saturdays

lv. Mpls. campus	7:10 p.m.
lv. St. Paul campus	7:30 p.m.
lv. Mpls. campus	10:30 p.m.
lv. St. Paul campus	11:00 p.m.
lv. Mpls. campus	12:30 a.m.
lv. St. Paul campus	1:00 a.m.

Sundays

lv. Mpls. campus	9:40 a.m.
lv. St. Paul campus	10:00 a.m.
lv. Mpls. campus	1:00 p.m.
lv. St. Paul campus	1:30 p.m.
lv. Mpls. campus	5:00 p.m.
lv. St. Paul campus	5:20 p.m.
lv. Mpls. campus	11:00 p.m.
lv. St. Paul campus	11:20 p.m.

Busses will load on the Minneapolis campus at the regular inter-campus street car stop, but on the St. Paul campus, the busses will load in front of the Union building. From the Union building, the busses will travel down Cleveland avenue, enter University Grove East where they will make one stop on Folwell avenue in front of barrack 2129A, and one stop in University Grove at the intersection of Folwell and Vincent avenues.

Cash fare for the bus service will be 11 cents.

ARMY AUTHORIZES RESERVE

INTELLIGENCE UNITS AT U. OF M.

Organization of a number of reserve intelligence units at the University of Minnesota on an affiliation basis has been authorized by the Department of the Army, it was announced Tuesday (Nov. 9) by Dr. Malcolm M. Willey, University vice president for academic administration.

Personnel to man these intelligence units will be drawn from the student body and from the University staff, according to Dr. Willey. As many units as can be manned will be organized on the campus with the University serving as sponsor.

Types of organizations which will be set up include: prisoner of war interrogation teams, translator teams, order of battle units and counter intelligence units.

Required for these organizations are reserve officers and enlisted reservists. However, commissions and/or enlistments in the army reserve components will be available to previous service men and non-previous service men who meet the qualifications. All applications for assignment to these units should be made to Major L. B. Redd at the University Armory.

Immediate requirements for personnel call for officers and enlisted men able to read, write and speak fluently one of the Scandinavian or Slavic languages. Also needed are officers and men with the specified language qualification plus the ability to evaluate information about an enemy from an order of battle viewpoint.

Needed to fill the counter intelligence units are students and staff members with investigative experience.

Openings are now available for three captains, five lieutenants, three sergeants first class, seven sergeants, four corporals, one private first class (clerk typist) and one private (truck driver).

FRENCH PICTURE
NEXT IN FOREIGN
FILM SERIES AT "U"

The French film, "Children of Paradise", which depicts life in Paris during the reign of Louis-Philippe, will be shown at the University of Minnesota Tuesday (Nov. 16) at 4 and 8 p.m. in Northrop Memorial auditorium on the Minneapolis campus. The picture will be presented by the University Film society.

"Children of Paradise" begins and ends on the Boulevard of Crime, which is not a sinister thoroughfare but a place where inexpensive theaters were clustered and gory posters announced bloody melodramas which appealed to the popular imagination of Parisians of the last century.

The story, centered around the life and loves of Baptiste Deburau, a celebrated clown of the last century, is called by the New York Times, the French reply to America's "Gone With the Wind".

Directed by Marcel Carne, the film has English subtitles to explain the action.

Tickets may be purchased in Room 3, Wesbrook hall on the Minneapolis campus, at the Downtown ticket office in Minneapolis or the Field-Schlick ticket office in St. Paul. Tickets also will be sold in Northrop auditorium before the showings.

ALUMNI TO HONOR
NEW U. OF M. DEAN
AT BANQUET NOV. 22

Minneapolis, Nov. - Athelstan F. Spilhaus, dean-elect of the University of Minnesota's institute of technology, will be the guest speaker at the annual banquet of the Alumni Association of the Institute of Technology Nov. 22 at 6 p.m., in the ballroom of Coffman Memorial Union.

All engineers, architects and chemists in Minnesota and the Northwest are invited to attend the banquet and to meet and welcome Professor Spilhaus, Harry E. Gerrish of Minneapolis, president of the institute's alumni association, stated today.

Professor Spilhaus, world-famous meteorologist and oceanographer, who at present is director of research at New York university, will assume his new duties as dean of the institute early in 1949. He will succeed the first dean of the institute, Dr. Samuel C. Lind, who retired July 1, 1947. Dean T.A. H. Tector of the University's summer session has been serving as executive officer of the institute since Dean Lind's retirement.

Preceding the banquet, a reception for the dean-elect will be held at 5:30 p.m. on the balcony of the Union ballroom. Alumni and dinner guests will have an opportunity to meet Professor Spilhaus at the reception.

Dr. J. L. Morrill, president of the University, will introduce the new dean at the banquet after presenting a report on the institute of technology.

Movie highlights of this season's Minnesota football games will be shown by William S. Gibson, field secretary of the Minnesota Alumni association, as the concluding event on the banquet program.

Because an overflow attendance at the welcoming banquet is anticipated, Gerrish today urged all who plan to attend to make their reservations with the Minnesota Alumni association office in Coffman Union by Wednesday (Nov.17).

CHURCH-STATE SEPARATION TOPIC

OF NEW U. OF M. PRESS PUBLICATION

Minneapolis, Nov. - Problems of church-state relationships as they have developed in the United States and as they have been defined by federal and state courts are set forth and discussed in a fully documented volume, "Separation of Church and State in the United States", to be published Monday (Nov. 15) by the University of Minnesota Press.

Authors of the book are Dr. Alvin W. Johnson, president of Emmanuel Missionary college, Berrien Springs, Mich., and Frank H. Yost, associate secretary of the Religious Liberty association.

More than a revised and enlarged edition of Dr. Johnson's earlier volume, "Legal Status of Church-State Relationships in the United States", published in 1934, the book has been entirely rewritten and much of the original material has been brought up to date.

The authors have added chapters dealing with subjects which have become particularly controversial in recent years: citizenship and the bearing of arms, saluting the flag, distribution of religious literature and freedom of speech for communists.

"The separation of church and state," contend the authors in the opening chapter, "has become one of the fundamental principles of government in the United States. By many it is considered to be the greatest contribution to civilization the people of the United States have made."

Huddie Ledbetter, better known as Lead Belly, famous American folk singer, will present a program of songs at University of Minnesota convocation Thursday, Nov. 18, at 11 a.m. in Northrop Memorial auditorium.

Lead Belly has had a wide variety of experiences in his life time. He grew up in the rural South where he made a living by cotton picking. From there he went to Texas, where he became a cowboy, and his cowboy experiences were followed by work in southern oil fields.

After trouble caught up with Lead Belly, he found himself singing with the work gangs in the state penitentiaries of Louisiana and Texas. But Lead Belly won his pardons from the governors of both states through a record of hard work, leadership and obvious musical talent.

Upon gaining his freedom, Lead Belly toured the South with John A. Lomax, curator of the American Folk Song for the Library of Congress, searching out the regional music of many obscure sections. As a result of this tour, a vast collection of his recordings are now in federal archives.

Convocation, open to the public without charge, will be broadcast over KUOM, University radio station.

#

Minneapolis, Nov. - The inside story of Afghanistan, remote mountain kingdom in Central Asia, between the years 1911 and 1919, is told through letters written by an American engineer in the book "An American Engineer in Afghanistan", to be published Monday, Nov. 22, by the University of Minnesota Press.

Editor of the book is Marjorie Jewett Bell of Austin, Minn., niece of A. C. Jewett who wrote the letters, who at the time he entered Afghanistan in 1911, was the first American permitted to live there since 1880.

The legend of Afghanistan as the "forbidden country" grew chiefly from a warning of the British government of India which once guarded the Afghan frontier north of the Khyber and is reported to have issued the order: "It is absolutely forbidden to cross this border into Afghanistan".

But the American engineer, Jewett, was employed by the Habibullah Khan, the Amir of Afghanistan, to take charge of installing a hydroelectric plant, and as such, was allowed to enter the "forbidden country".

Although Jewett planned to spend only a year in the country, it was eight years before his work was completed. Electrical apparatus had to be hauled over rough mountain passes and the work elephants' harnesses had to be made by hand.

Jewett's letters and journal notes included in this book, tell the story of the isolated country which was the land of ancient caravan trails, mud-walled caravansaries and villages little touched by Western ideas.

Little details and human interest angles help the reader to not only learn how Jewett carried on his difficult job, but also help the reader to understand these isolated people and their country. Even more important, it is a basis for understanding future events in Afghanistan, which no longer can escape Western influences and forces, both good and evil.

PROGRAM AND EXHIBIT
PLANNED AT UNIVERSITY

Minneapolis, Nov. - Saturday evening (Nov. 20) will be "Norwegian Evening" at the University of Minnesota with a special concert and program presented at 8 p.m. in the Minnesota Museum of Natural History auditorium.

Robert Andersen, violinist, and his wife, Eva Knardahl, pianist, both Norwegian guest musicians on the campus who will play the concert, will include in their program Grieg's "Sonata in G minor, Opus 13". In addition, Miss Knardahl will play "Akvarrell" and "Fantasy in Halling" by Klaus Egge. She will also perform on the piano Harald Saeverud's "Rondo Amoroso" and "Kjempeviseslaatten".

Speakers during the program will include Professor Einar Haugen, head of the Scandinavian department, University of Wisconsin, who will talk on "Peer Gynt, a Living Masterpiece of Norwegian Literature", and Elsa Brita Marcussen, a reporter for 10 years on the Morgon-Tidningen, Stockholm daily paper. Mrs. Marcussen, a daughter of the later Per Albin Hansson, former premier of Sweden, is the wife of John Marcussen, students attache of the Norwegian Embassy in Washington, D. C. Mrs. Marcussen is the author of a book on the role of the movies in modern society which was published last spring by Falken, Norwegian publishing company.

Master of ceremonies for the program will be Bjorn Ringstad, Norwegian student studying aeronautical engineering. The welcome will be given by Thorgeir Siqveland, Norwegian Consul General.

Remarks by Egil H. Ljosland, president of the campus Norwegian academic club, will conclude the program.

From Friday through Sunday, a Norwegian exhibit of photographs portraying life in Norway will be on display in the Museum auditorium.

The program and exhibit is sponsored by the University Norwegian academic club and the department of concerts and lectures.

Printed programs will be used as admission tickets and can be obtained in Room 105 Northrop Memorial auditorium.

COUNTY SOCIAL
WORKERS TO ATTEND
INSTITUTE AT U. OF M.

Minneapolis, Nov. - Minnesota county social workers will attend an institute on mental deficiency at the University of Minnesota Monday (Nov. 22) through Wednesday (Nov. 24).

Presented by the University with the cooperation of the Minnesota division of public institutions and the Minnesota department of health, the purpose of the institute is to give county welfare workers a better understanding of the mentally deficient and their needs.

Monday morning, a forum will be presented on the subject "What Is Mental Deficiency?", and in the afternoon, a forum on "What the Community Owes to the Mentally Deficient" is scheduled.

Participants in the course will visit the school for Feeble-minded at Faribault and the state school at Owatonna Tuesday.

The final day will be devoted to a presentation of the colony for epileptics and the annex for defective delinquents with a consideration of legislation and additional facilities needed for care of the mentally deficient.

University staff members and personnel from agencies and services working in the field will serve as faculty for the course. All lecture sessions will be held in the Center for Continuation Study on the Minneapolis campus.

UNIVERSITY BAND
WILL PERFORM AT
WISCONSIN GAME

Minneapolis, Nov. - When the University of Minnesota Gophers meet the Wisconsin Badgers in the University of Wisconsin's stadium Saturday (Nov. 20) they'll be urged on to victory with music ringing in their ears.

Helping to provide the music will be the University of Minnesota marching band which will appear on the field in full dress uniform before the game and during half-time. During the pre-game show, the 140 bandmen will present three formations - one to spell out the letters "Hello", a large "M" and the formation of a star, according to Gerald R. Prescott, bandmaster. When the star is formed, the band will play "Hail Minnesota".

Just before the kick-off, the Minnesota band will combine with the Wisconsin band to play "The Star Spangled Banner".

A special salute to four of the main colleges on the Wisconsin campus will be played by the Minnesota band during half-time. Formations will include that of a lamp of knowledge for the liberal arts college, an anvil for the college of engineering, a tractor for the college of agriculture and a cross for the school of medicine. During all these formations, appropriate songs will be played such as the "Wiffenpoof Song", "Anvil Chorus", "Old MacDonald Had a Farm", "The Old Grey Mare Ain't What She Used to Be", and "Body and Soul".

The band performance will be concluded by a presentation of the locomotive cheer led by Victor Bitu of Winona, Minnesota rooter king.

Clifford Schroeder of Detroit Lakes, drum major, Robert C. Thompson, exhibition twirler who lives in Minneapolis, and the University cheer leaders also will perform at the game.

Gale Sperry of Rochester, assistant to Prescott, also will make the trip. President of the band is Ernest Villas of Minneapolis, and property manager is Raymond Ploetz of Mott, N. D.

*30 to Herbert Graf
20 to Music publication
List furnished by Graf
15 more to N. MacDonald*

Minneapolis, . . . - One of the world's foremost authorities on

opera production, Dr. Herbert Graf, stage director of the Metropolitan Opera house, New York City, since 1936, has been awarded a University of Minnesota fellowship to write a book about opera.

Announcement of the fellowship award was made by Dr. Theodore C. Blegen, dean of the University's graduate school. The fellowship was made possible in part by the assignment of funds derived from the presentation of the Metropolitan Opera on the University of Minnesota campus in recent years.

Tentative title of the volume, which will be published by the University of Minnesota Press, is "Opera for the People". Numerous illustrations will be included.

Development of a real American opera for the American people will be urged by Dr. Graf in his book, according to Dean Blegen, and much of the volume will be devoted to concrete, practical suggestions, drawn from the writer's experience, for the staging and production of opera in the smaller playhouses and theaters throughout the country, on films and in television.

"Graf can see no reason," reported Dean Blegen, "why opera in America should be limited to productions in the European tradition such as those staged by the Metropolitan Opera company. He has come to have almost a sense of mission about the need for encouraging the development of a native opera throughout the United States. He has given generously of his time and advice and moral support to those in charge of the opera festivals and workshops which are springing up here and there across the country.

Born in Vienna in 1903, Dr. Graf received the degrees of doctor of music and doctor of philosophy at the University of Vienna. In 1925, he became an operatic stage director, singer and actor at Munster, Germany. He later held similar positions at Breslau, Frankfort-am-Main, Basel and Prague.

Dr. Graf established his residence in the United States in 1934, when he staged 10 productions for the Philadelphia Orchestra association. He was engaged as stage director of the Metropolitan Opera association in 1936, and still holds that position. He also serves as director of operatic productions of NBC Television and director of the opera workshop at Columbia university.

UNIVERSITY WILL BREAK GROUND

WEDNESDAY FOR HEART HOSPITAL

Minneapolis, Nov. -Ground breaking ceremonies and opening of bids for the new Variety Club Heart hospital at the University of Minnesota will take place at the University Wednesday (Nov. 24).

Following a luncheon at noon in Coffman Memorial Union, Dr. J. L. Morrill, president of the University, will turn the first shovelful of earth at the site of the new hospital on River Road East at Church street at 1:15 p.m.

Bids on the three-story, 80-bed hospital will be opened at 2 p.m. in Room 320 Coffman Union.

Funds on hand for construction of the new unit of the University's medical school now total \$309,000 which has been raised by members of the Variety Club of the Northwest, an organization of theater and entertainment men. Starting next Thursday, Thanksgiving Day, the club will launch a campaign in Northwest theaters to raise more than \$100,000 additional for the Heart hospital fund.

Practically assured for the Heart hospital fund is an additional \$243,731 which the University expects to obtain in the form of a federal grant under the provisions of the Hill-Burton hospital construction act.

"Due to increasing building costs," L. R. Lunden, University comptroller explained Saturday, "estimates on the cost of the hospital have been constantly revised upward.

"If final cost figures, as indicated by the bids to be opened Wednesday run above current estimates," Lunden added, "it is hoped that at least part of the necessary additional funds can be obtained through an upward revision of the anticipated grant under the Hill-Burton act which is limited to one-third of the total cost and through an additional grant from the National Heart institute of the United States Public Health service."

The Regents of the University last month authorized University officials to enter into negotiations with the National Heart institute for grants to be used in research in heart diseases and for facilities for such work.

FOURTH OF U. OF M.

STUDENTS MARRIED

Minneapolis, Nov. - Almost one-fourth of the 25,343 students enrolled on the University of Minnesota's Twin Cities campuses this year are married, Lynn H. Draper, director of the University's student housing bureau, reported Friday (Nov. 19).

Pointing out the great increase in the proportion of married students since World War II, Draper reported that in the school year 1945-46, only 955 students or 8.6 per cent of the 10,980 attending the University were married. Of the 955 married students 230 were women and 725 were men.

No figures on married students were compiled during 1946-47, but during the last school year, 1947-48, the proportion of married students on the Twin Cities campuses had jumped to 22 per cent.

Out of a student body of 26,880 on the St. Paul and Minneapolis campuses last year, 6,072 students were married. Included in this figure were 405 women and 5,667 men.

This year, according to Draper, 6,280 students or 24.78 per cent of the 25,343 attending classes on the two campuses are married. The married student total is made up of 427 women and 5,853 men.

MORRILL TO HEAD
SOCIAL WORK STUDY
ADVISORY GROUP

Minneapolis, Nov. - Dr. James L. Morrill, president of the University of Minnesota, has been named chairman of the national advisory committee for the Study of Social Work Education, according to Dr. Ernest V. Hollis, chief of college administration in the United States Office of Education and director of the study.

The study is sponsored by the National Council on Social Work Education and is supported by a \$31,000 grant from the Carnegie corporation. Purpose of the project is to provide a framework on which schools and agencies of social work can base programs of social work education to meet the needs of the present and future.

A critical study of selected programs of social work education will constitute a major part of the project. Parallel studies will be made in selected public and private social work agencies. An important part of the project will be the preparation of a report on the findings and recommendations of the committee. These findings and recommendations will then be brought to the attention of college administrators, employers of social workers and representatives of the public generally.

Serving on the committee with Dr. Morrill, will be 18 other well-known educators, social service workers and administrators.

U. OF M. HISTORIAN WRITES
BOOK ON MAGNA CARTA

Minneapolis, Nov. - Relating the story of the Magna Carta from the end of the reign of Edward I to the dissolution of Parliament, 1300 to 1629, a book written by a University of Minnesota historian after 25 years of research, much of which was done in England, will be published Monday (Nov. 22) by the University of Minnesota Press.

In her book, "Magna Carta---its Role in the Making of the English Constitution, 1300-1629", Dr. Faith Thompson, associate professor of history at the University, surveys the various ways, both practical and theoretical, in which the Great Charter was used by groups and individuals in English society.

Dr. Thompson points out in the preface to her book that the Magna Carta is the oldest of "liberty documents" and has come to serve as the prototype of all bills of rights. It has been termed the "forefather" of the British and American bills of rights, the American Habeas Corpus Act and the Declaration of Independence. Its influence is evident in the preamble to the Charter of the United Nations.

The Minnesota historian is the author of "The First Century of the Magna Carta: Why It Persisted as a Document", and her present book is a continuation of her earlier publication.

ANNUAL FOOTBALL
CONVOCATION SET
WEDNESDAY AT "U"

Minneapolis, Nov. - Highlight of the University of Minnesota's annual football convocation Wednesday (Nov. 24) at 4 p.m. in Northrop Memorial auditorium, will be the naming of the newly-elected 1949 football captain.

Captain Warren Beson will present the "torch of leadership" during the traditional "Passing of the Torch" ceremony to the player chosen as his successor.

Other events at the special convocation will include a "Review of the Past Season" by Coach Bernie Bierman, and the presentation of football awards by President J. L. Morrill.

Frank G. McCormick, director of athletics, will speak on "The Relation of Football to College Life".

Music will be played by the University band under the direction of Gerald R. Prescott, bandmaster, with the audience joining in on a medley of Minnesota songs and "Hail Minnesota". The audience will also participate in the "Locomotive Yell" led by the 1949 rooster king.

At 3:15 p.m., preceding the convocation, the first campus showing of Phil Brain's "Football Highlights of 1948" will be presented in Northrop auditorium, with a second showing immediately following the convocation.

The convocation is open to the public without charge.

Two exhibitions on sculpture, "Space in Sculpture" and "Open and Closed Forms: Modern Sculpture", are currently on display at the University of Minnesota gallery in Northrop Memorial auditorium.

The exhibitions, which will run through December 24, are arranged chronologically, and the sculpture is supplemented by photo enlargements indicating the environment and architectural background of various civilizations. Although the chronology follows the history of Western civilization, one room contains a number of Chinese pieces which show the parallel conceptions of space in all cultures.

Medieval and late Renaissance sculpture is followed by three European pieces and the exhibition terminates with a group of contemporary works by American and European artists.

Included in the section entitled "Open and Closed Forms: Modern Sculpture", are a few works borrowed from local collectors. Both groups in the exhibition are selected from many historical periods and from several museums and individuals.

The gallery is open to the public from 10 a.m. to 4 p.m. Monday through Friday.

Minneapolis, November - Monday evening (Nov. 29) will be one time when University of Minnesota band members will attend a campus gathering without having to "blow their horns". Instead, they will be guests of honor at a 7 p.m. dinner in the main ballroom of Coffman Memorial Union.

At the first annual football marching band recognition banquet, silver medals will be awarded to members who have played in the marching band for two years, and gold medals will be presented to those who have participated for four years. The medals will be presented by Gerald R. Prescott, bandmaster.

"Through these banquets, we want to express our appreciation to the men in the marching band for their hours of drill and rehearsing required to perform at football games," Ernest A. Villas, president of University bands, said.

Speakers at the dinner will include: President J. L. Morrill; William L. Nunn, director of University relations; Chester Roan, assistant to the director of athletics; and Charlie Johnson, Minneapolis sports writer.

Movies of the entire 1948 football season will be shown at the dinner, and Villas will act as master of ceremonies.

Movie list - 8

A new color process which has aroused considerable controversy will be presented in a German film, "Die Flehmen", at the University of Minnesota Wednesday (Dec. 1) . The picture will be shown at 4 and 8 p.m. in Hartrop Memorial auditorium by the University Film society.

The color process, Agfa, was developed by the Germans. The movie has been highly praised, but it has also been charged that the color appears "faded out" because it does not have the sharp contrast of Technicolor.

Another controversy has also arisen over a Russian claim that the film was made under Soviet auspices in Berlin since the war. However, the star of the picture, Hans Krunmutter, died of war wounds in April, 1945, indicating the film was made by the Germans during the war.

The picture carries English subtitles and has a background of music by Johann Strauss on whose opera the film is based.

The director of a multi-million dollar archaeological project, the excavation of the marketplace of ancient Athens, will speak at the University of Minnesota Friday (Dec. 3) at 8:30 p.m. in the auditorium of the Museum of Natural History.

The speaker, Professor Homer A. Thompson of the Institute for Advanced Study at Princeton, N. J., and the American School of Classical Studies at Athens, will use slides to illustrate his talk on "The Agora of Ancient Athens: Europe's First Civic Center."

Excavation of the agora was begun under American auspices in 1931, and many important discoveries were made before the war, enabling reconstruction of the main civic buildings as they were in the fifth century B.C. Work was resumed again in 1945, and Professor Thompson became director of the project that same year.

The lecture is under the joint sponsorship of the history and classics departments at the University and the Minnesota society of the Archaeological Institute of America. It is open to the public free of charge.

WHILE "U" STUDENTS
CRAM FOR EXAMS

While students are home studying and worrying over final examinations, faculty members of the University of Minnesota will have an evening of fun and entertainment at the Faculty Dancing club's first formal dinner dance of the season Saturday (Dec. 11).

Buffet-style dinner will be served in the Campus club dining room in Coffman Memorial Union from 6:30 to 7:30 p.m., with a social hour following in the Campus club lounge. Dancing in the grand ballroom of the union will be from 9 to midnight.

Many off-campus guests will be entertained by club members at the dance, according to Professor Edward S. Loye, secretary-treasurer, who is in charge of reservations.

Membership in the dancing club has reached a new record this year, President Tracy F. Tyler reports, with more still coming in.

Executive committee members, in addition to Dr. and Mrs. Tyler and Professor and Mrs. Loye, are Messrs. and Meses. Millard H. La Joy, hospitality; Ralph A. Piper, music; Richard C. Jordan, arrangements; John R. Wolff, refreshments; Clayton O. Rost, dinners; John O. Roning; Bryce L. Crawford, Jr.; Colonel Richard A. Ericson and Robert A. Phillips.

WATER RESEARCH
AT "U" FEATURED IN
MAGAZINE ARTICLE

Minneapolis, Dec. - Research carried on in the University of Minnesota's St. Anthony Falls Hydraulic laboratory is described in an article, "Running Water Is Their Problem", in the December issue of Popular Mechanics magazine.

Author of the article is Clifford B. Hicks, associate editor of the magazine, who makes the introductory comment: "Puzzles of liquid behavior flow into this Minneapolis hydraulic laboratory. Answers flow out in the form of better street drains or million-dollar dams".

The St. Anthony Falls Hydraulic laboratory is on Hennepin island in the Mississippi river, just downstream from the Third avenue bridge. Director of the laboratory is Dr. Lorenz G. Straub who also heads the University's department of civil engineering.

Minneapolis, Dec. - More than 1,000 students will receive degrees from the University of Minnesota at fall quarter commencement ceremonies Thursday, Dec. 16, in Northrop Memorial Auditorium.

The commencement speaker will be a Minnesota alumnus, Dr. Raymond B. Allen, president of the University of Washington at Seattle. His topic will be "Assumptions, Attitudes and Apathy".

Dr. Allen has received three degrees from the University of Minnesota, including a doctor of medicine degree, and was at one time a fellow of the University's Mayo Foundation at Rochester.

He left Minnesota to join the medical faculty at Columbia university in 1934, and since then attained national prominence as an administrator at Columbia, Wayne university in Detroit and as executive dean of the Chicago colleges of the University of Illinois. He took over the University of Washington post in 1946.

Minneapolis, Dec. - University of Minnesota scientists will contribute a major portion of the program at a gastric cancer conference in San Francisco Dec. 13 and 14. The meeting is sponsored by the National Cancer institute.

Dr. Leo G. Rigler, professor and chief of radiology and physical therapy, will be a dinner speaker Dec. 13, discussing X-ray diagnosis of gastric cancer.

Delivering papers at the opening session Dec. 13 in the Stanford university medical school will be Dr. George E. Moore, clinical instructor in surgery and a fellow of the National Institute of Public Health; Dr. David Glick, associate professor of physiological chemistry; Dr. Charles F. Code, professor of physiology at the University of Minnesota's Mayo Foundation, Rochester; and Dr. David State, assistant professor of surgery and director of the University's Cancer Detection center.

On the Dec. 14 program will be Dr. Robert Hebbel, associate professor of pathology, and Dr. Stanley R. Friesen, instructor in surgery.

Reading of papers will be followed by general discussion from the floor. Purpose of the conference is to deal with the present status of the gastric cancer problem.

Motion pictures of the prominences on the edge of the sun will be shown Sunday as part of a public lecture by Dr. S. R. B. Cooke, professor of metallurgy at the University of Minnesota, at 3 p.m. in the auditorium of the Minnesota Museum of Natural History.

The movie, a sound film, shows time-lapse photographs of the prominences, some of which are half a million miles high and move as fast as 100 miles a second.

Dr. Cooke's lecture will open with a description of the importance of the sun to the life of man on earth. He will present slides illustrating what the telescope will show on the sun, and he will discuss the use of modern instruments in determining use of the sun.

A color movie taken by Dr. Cooke of a total eclipse of the sun in Butte, Mont., will also be shown.

The museum is at University and Seventeenth avenues, southeast, on the University campus. Visitors may park their cars on the University parking lot at Seventeenth avenue and Fourth street, southeast.

CRAMMING GETS
OK OF UNIVERSITY
STUDENT ADVISER

Minneapolis, Dec. -- "Go right ahead and cram, students!"--

at least that's what one expert on studying will tell University of Minnesota students before they start taking fall quarter final examinations Friday (Dec. 10).

Despite claims that cramming isn't a good way to learn, Julia Klare of the University's student counseling bureau says buring the midnight oil will help pass those all-important tests. That is, if it isn't the first time the book has ever been opened.

Miss Klare, who will talk three times this week on "How to Study", also puts her okay on studying while the radio is on. "It seems to help some students concentrate," she says.

Concentration is the chief problem students have asked her about in the past, Miss Klare reports, but she hasn't yet found any sure cure for wandering minds.

"I just tell them to follow practices they have found to work out best for them in the past," she says. "There is no general rule. Different conditions suit different people."

Miss Klare will speak at 11 a.m. Tuesday, 1 p.m. Wednesday and 2 p.m. Thursday (Dec. 7, 8 and 9) in the Minnesota Museum of Natural History auditorium. Finals begin Friday (Dec. 10) and continue through the next week.

MINNESOTA AUTHORS
EXAMINE HOGARTH,
AMERICAN STUDIES

Minneapolis, Dec. - Books by two University of Minnesota English department faculty members were published by the University of Minnesota Press this week (Dec. 8).

A contemporary movement in education, the trend away from extreme academic specialization toward general education, is examined by Professor Tremaine McDowell in "American Studies".

Although the immediate subject of this book is American studies, its ultimate concern is with the broad pattern of higher education in the United States. The author reviews programs and courses in American civilization in colleges throughout the country, more than 30 of which he visited on a recent leave of absence from the University.

Professor McDowell is chairman of the University of Minnesota's program in American studies and is a member of the committee on American studies of the American Council of Learned Societies.

"Hogarth's Literary Relationships" by Robert Etheridge Moore, assistant professor of English at the University, analyzes in detail the close relationships between the artist and eighteenth century writers, particularly Fielding and Smollett.

Professor Moore points out that Hogarth was "a fountain of literary inspiration" and that appreciation of the artist as a satirist is essential to an understanding of eighteenth century literature. Many of Hogarth's drawings are reproduced in the book.

SCIENTIFIC SNAKE
CHARMER TO TALK
AT U. OF M. SUNDAY

A scientific snake charmer and his friends—live snakes, lizards and tarantulas—will attempt to convince an audience at the University of Minnesota Sunday afternoon (Dec. 12) that the reptiles are as interesting and safe as birds and warm-blooded animals.

The man with a way with snakes, Lew Johnson, naturalist from Ashland, Wis., will speak and demonstrate his ideas in a free public lecture at 3 p.m. in the auditorium of the Minnesota Museum of Natural History.

Johnson, speaking on the subject "Your Friends - the Snakes", will tell of his adventures in studying the life histories and habits of the creatures in their own habitat in North and South America.

The largest exhibit of its kind used in extension work will be on the stage during the program. The live specimens ride from place to place on foam rubber mattresses. Special precautions are taken to prevent the snakes from catching colds.

The Museum of Natural History is located at University and Seventeenth avenues, southeast, on the University campus. Visitors may park their cars one block north on the University parking lot at Seventeenth avenue and Fourth street, southeast. The museum is open to the public every Sunday from 2 to 5 p.m. and from 9 a.m. to 5 p.m. on weekdays.

COUNTY HIGHWAY
ENGINEERS TO HOLD
INSTITUTE AT U. OF M.

Minneapolis, Dec. - Minnesota county highway engineers will attend their fourth annual institute presented by the University of Minnesota Monday through Thursday (Dec. 13-16) in the Center for Continuation Study on the University campus.

Three leaders in the highway field will address the group at dinner gatherings. M. J. Hoffmann, Minnesota state highway commissioner, will speak Monday evening (Dec. 13), and on Tuesday evening (Dec. 14) the engineers will hear A. C. Leonard of the public roads administration, Washington, D. C., and Ben F. Ostergren, manager of the county highway officials division of the American Road Builders' association, Washington, D. C.

Subjects which will be discussed in regular sessions of the institute include county road planning patterns, application of soil mechanics to road design, the possibility of developing low cost pavements, recodification of county highway laws, traffic safety programs and constitutional revision.

The group will make a trip to the University's school of mines Tuesday afternoon (Dec. 14).

Arvel B. Klessig of Fairmont, Martin county highway engineer, is chairman of the institute which will be held in cooperation with the Minnesota Association of County Engineers and the Minnesota highway department. George W. Deibler of Duluth, St. Louis county road engineer, is president of the association.

U. OF M. SECOND IN
DEGREES GRANTED
LAST SCHOOL YEAR

Minneapolis, Dec. -- A survey by the United States Office of Education of earned degrees granted by universities and colleges in the country during the school year 1947-48 shows that the University of Minnesota ranked second with 6,359 degrees.

Granting the largest number of degrees during the period, 7,590, was New York university. The University of California was in third place with 6,307 degrees, 52 under the Minnesota figure, while the University of Michigan was fourth with 5,801. Fifth was the University of Illinois which granted 5,797 degrees, and the University of Wisconsin, which awarded 4,731 diplomas, took sixth place.

Approximately 314,000 earned degrees were conferred by colleges and universities in the country during the year, a new record exceeding the previous mark, set in 1939-40, by almost 100,000.

ADVISORY COUNCIL OF
GREATER UNIVERSITY
FUND APPOINTED

Minneapolis, Dec. - Members of the advisory council for next two years and plans for the 1949 program of the Greater University Fund sponsored by the University of Minnesota Alumni association were announced today (Dec. 9) by Stanley J. Wenberg, director of the fund.

Opening date for the 1949 fund program will be April 28. The 1948 campaign will close with an appeal which will be mailed to University alumni Friday (Dec. 10). A list of 1948 contributors to the fund will be published in February, according to Wenberg.

Forty members have been named for the fund's advisory council for the period 1949-1950. This will be a continuing body, with new appointments for a third of the group to be made every two years, Wenberg said. The council serves in both an advisory and "sounding board" capacity.

Members named to the council are:

From Minneapolis--Allen Burns, William Anderson, George Belden, Mrs. Fanny Brin, Sam W. Campbell, Dr. Harold S. Diehl, Arthur Fruen, Rewey Belle Inglis, Ward H. Olmsted, Thomas F. Wallace, Mrs. Frank Warren and Edgar Zelle.

From St. Paul--Theodore C. Blegen, Victor Christgau, Edward F. Flynn, Frank T. Gallagher, William Hamm, Jr., Horace C. Klein, Arthur O. Lampland, Herbert L. Lewis, E. B. Pierce, Charles L. Sommers, E. C. Stakman and Harold E. Wood.

From Minnesota--Dr. William Braasch, Rochester; Rudolph Elstad, Duluth; Edward Freeman, Virginia; Ivan O. Hansen, Luverne; Harley Langran, Fairmont; John F. McGovern, LeSueur; James J. Quigley, Sr., St. Cloud; Charles T. Wangensteen, Chisholm, and Dr. W. W. Will, Bertha.

From outside the state--Walter C. Beckjord, Cincinnati, Ohio; Charles J. Brand, Washington, D.C.; Cassius E. Gates, Seattle, Wash.; Thomas W. Phelps, New York, N. Y.; Arthur B. Poole, San Francisco, Calif.; Henry A. Scandrett, Evanston, Ill.; and H. W. Wilson, New York, N. Y.

FIFTH OF U. OF M.
STUDENTS LIVE IN
ROOMING HOUSES

Minneapolis, Dec. -- One out of every five University of Minnesota students attending classes on the St. Paul and Minneapolis campuses lives in a rooming house somewhere in the Twin Cities, reports Lynn H. Draper, director of the University's student housing bureau.

A survey conducted by the bureau showed that of the 25,343 students on the Twin Cities campuses, 4,891 are living in rented rooms in more than 4,000 homes scattered throughout the two communities.

The number of student rooming house tenants this year is 795 larger than a year ago, according to Draper. This increase can be accounted for in part, he explains, by the cut in University dormitory accommodations from 3,032 to 2,644, a decrease of 388, resulting from removal of the cottages from the site of the new men's dormitory, now under construction, and from the closing of the Stadium dormitory.

More students are living in apartments this year, the survey indicates, 2,749 as compared with 2,445 last year, and there has been a substantial increase, from 1,386 to 1,683, in the number owning or renting houses.

Draper points out the decrease this year in the number of students living in employers' homes, 182 as compared with 287, continuation of a long-range trend which he sees as evidence that students are finding it easier to get better positions than housework and furnace tending jobs in which use of a room is given as partial or complete payment.

(More)

A substantial decrease in the number of students living in their parents' homes, from 11,712 last year to 9,936 this fall, was shown by the survey as were decreases in the number commuting from suburbs, 1,120 to 891, those living in relatives' homes, 886 to 773, and those living in friends' homes, 495 to 210.

Results of the survey, prepared by the student housing bureau for the University's dean of students office, are summarized in the following table:

<u>Type of Residence</u>	<u>1947-48</u>		<u>1948-49</u>	
	<u>Number</u>	<u>Per Cent of Students</u>	<u>Number</u>	<u>Per Cent of Students</u>
Parents' Homes	11,712	43.57	9,936	39.02
Commuting from Suburbs	1,120	4.17	891	3.51
Relatives' Homes	886	3.29	773	3.05
Friends' Homes	495	1.84	210	.82
Dormitories	3,032	11.28	2,644	10.43
Fraternities or Sororities	1,249	4.65	1,249	4.92
Cooperative Houses	142	.53	135	.53
Apartments	2,445	9.09	2,749	10.84
Rooming Houses	4,126	15.35	4,891	19.29
Own or Rent Own Home	1,386	5.16	1,683	6.64
Employers' Homes	287	1.07	182	.73

U. OF M. SCHOLARSHIP

AWARDS ANNOUNCED

Minneapolis, Dec. - Winners of 11 scholarship awards totalling \$1,920 for this school year at the University of Minnesota have been announced by George B. Risty, director of the University's bureau of student loans and scholarships.

The mother of four children, whom she supports, has received the George T. Slade scholarship of \$120. The mother, Mrs. Emelie Myron Magdanz, 3019 Eighteenth avenue, south, Minneapolis, is now studying for a bachelor of science degree in nursing education.

She attended Milaca high school and St. Cloud Teachers college and received her registered nurse certificate at the Kahler hospital school of nursing at Rochester where she was named outstanding nurse of her graduating class.

The first scholarship to be granted from gifts to the University through the Greater University Fund was given to Jerome Benedict Malerick, 3408 Columbus avenue, south, Minneapolis, metallurgical engineering student. The award is the John Mars McDonald Memorial scholarship of \$200 and is the gift of Mrs. Guy F. McDonald, 2770 Fremont avenue, south, Minneapolis.

The \$600 Radio Corporation of America award, went to Lowell E. Peterson, 5512 Fifteenth avenue, south, Minneapolis, married navy veteran. He is an honor student in physical chemistry.

(More)

Pearl Daniels, 647 Marshall avenue, St. Paul, received the \$100 Louis Melamed scholarship. She is a senior studying social work. A second George T. Slade scholarship of \$100 went to Lois Annette Berger, 1239 Carroll avenue, St. Paul, senior in psychology.

Three grants were made from the Campus Chest funds. Leona Marcella Milashius, 684 Virginia street, St. Paul, won \$150; Doris Dorothy Wheelock of Minneapolis General hospital nursing home and Birchdale, Minn., \$125, and Barbara Jean O'Neill, 4328 Forty-fourth avenue, south, Minneapolis, \$100.

Louis H. Stahn, medical student from Morris, Minn., got the Frank Jacobson scholarship of \$175. He held the Women's Faculty club scholarship in 1947.

The Minnesota Athletes' Memorial Emergency Aid award of \$150 went to a dentistry student, Robert L. Brockway, 818 Twenty-eighth avenue, south, Minneapolis, and Big Timber, Mont.

Bertram H. Rutan, 1417 Sixth Street, southeast, and Hempstead, N. Y., was granted the \$100 Frank H. Jacobson scholarship.

Minneapolis, Dec. - Income tax problems reflecting the agricultural nature of the state dominated discussions among lawyers attending the annual short course on taxation at the University of Minnesota last week (Dec. 6-10),

Typical down-to-earth problems thrown before a panel of tax experts by lawyers from all over Minnesota included:

"Suppose a farmer gives his daughter 300 head of sheep; must she pay income tax on those sheep?"

"Is fertilizer bought in quantities deductible all in one year or may it be reported over several years?"

Many questions were involved. Answers were technical, and sometimes even the experts disagreed.

Purpose of the short course, which is conducted annually by the University in cooperation with the Minnesota State Bar association, is to keep lawyers up to date on new and complex rulings in federal and state tax law. Considerable attention was given this year to the tax reduction act of 1948.

One important new ruling was announced by George O. Lethert of the income tax division of the United States bureau of internal revenue in St. Paul. He reported that the government has rescinded an earlier requirement that joint income tax returns to secure the benefits of income splitting between husband and wife could be filed only if the couple had filed a joint estimate.

The course was held in the University Center for Continuation Study. Professor Henry Rottschaefer of the Minnesota law school was chairman.

UNIVERSITY OF MINNESOTA
NEWS SERVICE
DECEMBER 10, 1948
FOR IMMEDIATE RELEASE

Failure of most school curriculum today to meet the needs of the individual and of society was criticized by Minneapolis Superintendent of Schools H. G. Bruner Thursday evening (Dec. 9) at a dinner meeting of Phi Delta Kappa, honorary education fraternity, at the University of Minnesota.

Curriculum is not well enough planned to provide learning experiences which will enable a person to realize his needs for creativeness, alertness, understanding, honesty, integrity, responsibility and efficiency, Dr. Bruner said. These longings must be realized, he continued, so that the individual would be better able to see the world today and work towards what it should be.

In his direction of the Minneapolis schools, Dr. Bruner told the fraternity he intends to call his school people in to consult about decisions. Decisions will not be dictated from the top, he said.

William Nilsen, superintendent of schools at Excelsior, Minn., and Archie Gray, administrative fellow in the University office of admissions and records, were honored by the fraternity. They were presented with keys for at least seven years' service to Phi Delta Kappa and to education.

GRANDMOTHER TO GET DEGREE
FROM UNIVERSITY THURSDAY

Minneapolis, Dec. - A grandmother who went back to college during the war to help keep her mind off worry over her sons in service will receive her bachelor of arts degree Thursday (Dec. 16) at University of Minnesota commencement exercises in Northrop Memorial auditorium.

Mrs. Dana Stone (Elizabeth Rand) of Wayzata is "very thrilled" about completing her college education started in 1912 at Bryn Mawr where she was studying classics.

During this last war Mrs. Stone decided she had some unfinished business to complete, and after finishing Red Cross work began attending classes at the University. She is getting her degree in psychology, with minors in English and political science.

Mrs. Stone is the mother of four and has two grandchildren, a girl, daughter of Mr. and Mrs. Leavitt Anderson of Wayzata, and a boy, son of Mr. and Mrs. Alexander L. Anderson of New York.

ALUMNUS TO SPEAK
AT "U" GRADUATION
RITES THURSDAY

Minneapolis, Dec. -- Fall quarter commencement exercises will be held at the University of Minnesota Thursday (Dec. 16) at 7:30 p.m. in Northrop Memorial auditorium. More than 1,000 students will receive degrees.

The speaker will be Dr. Raymond B. Allen, president of the University of Washington at Seattle and an alumnus of the University of Minnesota, who will talk on "Assumptions, Attitudes and Apathy". He will be introduced by President J. L. Morrill.

The program will open with selections on the Flonish carillon chimes by Edward Berryman, organ instructor, and an organ recital by Arthur B. Jennings, University organist and assistant professor of music.

The Rev. John Saunders Bone, member of the Minnesota Council of Religions and adviser to Baptist students at the University, will deliver the invocation.

FOLK DANCE FEST
WILL BE HELD AT "U"
SUNDAY AFTERNOON

Minneapolis, Dec. - The University of Minnesota folk dance group will be host to a statewide folk dance festival Sunday (Dec. 19) in Coffman Memorial Union on the University campus.

Over 500 dancers are expected at the festival which is sponsored by the Folk Dance Federation of Minnesota. Dance groups will come from Hibbing, Duluth, Two Harbors, Rochester and Virginia as well as from the Twin Cities. Dancing will be from 2 to 6 p.m. in the main ballroom of the union.

The North Star Folk Dancers of Minneapolis, under the direction of Morry Golman, will demonstrate in costume the Sicilian tarantella. Other dances on the program will be the korobuschka, corrido, rye waltz, kalvolis, eide ratas, hambo, patty cake polka, blackhawk waltz, Mexican waltz, gypsy wine, Herr Schmidt and square dances.

The festival will be the second annual in Minnesota, last year's also being held at the University. Lloyd Meese, University student from Faribault, is chairman.

ANTARCTIC WHALING
FILM TO BE SHOWN
SUNDAY AT U. OF M.

A sound motion picture, "Whaling in Antarctic Waters", will be shown Sunday (Dec. 19) in the Minnesota Museum of Natural History at the University of Minnesota. The program, open to the public without charge, will begin at 3 p.m. in the museum auditorium at University and Seventeenth avenues, southeast.

The whaling film will show modern methods of catching and processing whales aboard ship, and pictures much of the habitat environment of the Antarctic. It was produced by Dr. Robert C. Murphy of the American Museum of Natural History.

This will be the museum's last Sunday program of the year. The museum will be open Sunday, Dec. 26, from 2 to 5 p.m., but no special program is planned. The series will be resumed on Jan. 2.

"Western Guard"

When Kenneth L. Krovik receives his bachelor of agricultural engineering degree from President J. L. Merrill at the University of Minnesota fall quarter commencement Thursday evening (Dec. 16), he will be the third son of Mr. and Mrs. Ole Krovik of Madison to be graduated from the University's institute of technology.

Grand Krovik was graduated from the institute in 1939 with the degree of bachelor of mechanical engineering and is now working as an engineering designer for a St. Paul firm.

Another of Kenneth's older brothers, Rudolf, is now on the staff of the institute and is working for an advanced degree in electrical engineering. He was awarded a bachelor of electrical engineering degree in 1940.

Kenneth, a veteran of five years' service in the infantry and air force during World War II, plans to work for the United States Bureau of Reclamation in Colorado following his graduation.

With his wife and one child Kenneth has been living in the University's veterans' housing project while enrolled at the University.

UNIVERSITY RADIO
STATION PREPARES
TWO NEW SERIES

Minneapolis, Dec. - Two 13-week series of radio programs, one planned especially for the Minnesota territorial centennial celebration, are being prepared by University of Minnesota station KUOM for presentation by 20 radio stations in the state beginning in January.

The first series, a report on current developments in science, education and agriculture throughout Minnesota, is entitled "The University Reports to the People" and will start the week of Jan. 1.

"Tailor-Made Hogs", "500 Human Guinea Pigs" and "Education for Living" are a few of the programs which will dramatize important developments made in recent years in agriculture, medicine and education.

On the program "That They May Live" listeners will actually hear the amplified beat of the human heart. The heart sounds will be transmitted directly through special amplifying equipment in a demonstration of the University's current research studies in children's rheumatic and congenital heart disorders.

Last May the 1948 presentation of "The University Reports to the People" won the Billboard Magazine special award for public service broadcasting.

The second series now being planned for 1949 is "Tales of Minnesota", a presentation of the state's colorful history based on actual grass-roots accounts by Minnesota pioneers. This series will begin in March.

Such tales as "The Star Man", "The Gold Rush", "Lumberjack" and "The Holocaust" will depict Minnesota from the days of Indians and fur traders up to this centennial year.

Portions of some of the "Tales of Minnesota" programs will originate directly from towns in which the stories center.

Northrop Dawson, Jr., KUOM production director, and William Connell, script supervisor, have travelled for three months throughout the state gathering material for both series, recording interviews, songs and authentic on-the-spot sound effects to be heard on the programs.

UNIVERSITY PRESS
PUBLISHES HAMLIN
PROFESSOR'S BOOK

Minneapolis, Dec. - "The Integrated Life", a volume of essays and poems by Dr. Thomas P. Beyer, a professor of English at Hamline university in St. Paul, was published Wednesday (Dec. 15) by the University of Minnesota Press.

When Dr. Beyer was honored in 1947 for his long association with Hamline university, a publication fund was established, and it was agreed that a collection of Dr. Beyer's works should be the first publishing venture. "The Integrated Life" is that first volume.

Dr. Beyer, for many years chairman of Hamline's English department, has dedicated his book to "the Hamline friends who have been my students and teachers since 1906".

Minneapolis, Dec. - Educators from ten states will meet Friday (Dec. 17) at the University of Minnesota for the nineteenth annual conference on higher education with special reference to teacher education. About 125 are expected for the course which will open at 9:30 a.m. in the Center for Continuation Study.

Highlights of the day-long sessions will be luncheon and dinner addresses.

T. M. Stinnett, associate director of the committee on teacher education and professional standards of the National Education association, will speak at lunch. He will discuss the current crisis in supplying elementary school teachers for the nation.

At the dinner meeting, Dean T. R. McConnell of the college of science, literature and the arts at Minnesota will speak on "Higher Education in Europe". Dean McConnell has just returned from a five month's visit in Europe to study British colleges.

Special attention will be given to discussions of state, professional and institution association plans and policies for improving teacher education; selection, recruitment and certification of teachers, and improvement of professional curriculum.

Dr. G. L. Anderson, professor of education at Minnesota, will preside over morning and late afternoon meetings and Dr. C. P. Archer, director of the University bureau of recommendations, is in charge of the early afternoon session.

Educators attending the conference will represent the region including Minnesota, Wisconsin, North and South Dakota, Iowa, Nebraska, Kansas, Missouri, Illinois and Montana.

CONTRACTS LET FOR
VARIETY CLUB HEART
HOSPITAL AT U. OF M.

Minneapolis, Dec. - Contracts totaling \$849,554 for the construction of the Variety Club Heart hospital at the University of Minnesota were awarded Friday (Dec. 17) to three Twin Cities contractors, and work on the project is expected to begin shortly after Christmas.

Bids for the new 80-bed hospital to be erected on the Mississippi river bank adjacent to University Hospitals were opened November 24, and held open pending action on a University application for \$325,334 of federal funds under the Hill-Burton hospital construction act.

Upon notification from the United States Public Health service of approval of a grant of \$310,271 for construction of the hospital building and an additional grant of \$15,063 for the purchase of equipment, University officials awarded contracts Friday to the low bidders.

Successful bidder for the general contract is the firm of Naugle-Leck, Inc., of Minneapolis with a net figure of \$573,575. The plumbing, heating and ventilating work was awarded to Reuben L. Anderson, Inc., St. Paul, on a bid of \$214,920, while the Batzli Electric company of Minneapolis took the electrical contract with a low bid of \$61,059.

The contracts call for completion of the project within a period of 548 days.

Completed, the new hospital, with equipment, is expected to cost \$987,285. Funds which will pay the structure will come from the following sources: Variety Club of the Northwest, \$464,000 (\$304,000 of which has been raised and an additional \$160,000 pledged); grant of federal funds under the Hill-Burton act, \$325,334; University funds now on hand from several sources, \$97,951; and a bank loan of \$100,000 to be repaid over a 10-year period.

#

UNIVERSITY OF MINNESOTA LEGISLATIVE

REQUEST FOR 1949-1951

UNIVERSITY OF MINNESOTA
NEWS SERVICE
DEC. 17, 1948
FOR IMMEDIATE RELEASE

Minneapolis, Dec. - The Regents of the University of Minnesota have submitted the following appropriation request to the State Legislature for the 1949-51 biennium, President J. L. Morrill reported Friday (Dec. 17):

1. For general maintenance and operation, \$12,182,255 per year, an increase of \$4,095,007 annually over the present appropriation which, if granted, will provide for an over-all 17.6 per cent increase for the general operation of the University.

2. For the Duluth Branch, \$442,222 annually for operation, an increase of \$178,261 per year, plus a special appropriation of \$79,575 the first year and \$64,075 for the second year for building repairs and purchase of land.

3. For the University of Minnesota Hospitals, including operation of the general, psychopathic and heart hospitals, \$933,415 for the year 1949-50, an increase of \$357,915, and \$1,036,965 for the second year of the biennium. Involved in the 1950-51 appropriation is an additional increase of \$103,550 as the state's share of caring for county patients in the new heart hospital.

4. For special extension and research projects such as medical and cancer research, crop breeding and testing, county agents and the Rosemount Research Center, \$908,000 per year, an annual increase of \$301,500.

5. For buildings and building improvements for the two-year period, \$10,643,450, an increase of \$3,122,704 over the amount appropriated for buildings for the current biennium.

(MORE)

2 - University Legislative Request

The Regents' request for operating funds calls for a total annual increase of \$5,108,058. This increase is necessitated in large measure, according to President Morrill, by four factors:

1. Loss of University income through some loss of enrollment, particularly a decline in the number of veterans for whom the federal government pays non-resident tuition, which is higher than the tuition paid by Minnesota civilian students.

2. Continuing high costs--well above the level on which requests for the current biennium were based--involving among other things, substantial staff salary increases and larger outlays for supplies, equipment and plant operation.

3. The University's increasing teaching load at the advanced level--juniors, seniors and graduate students. The percentage of advanced level students has mounted rapidly since the war (now 57.3 per cent). It is estimated that it costs twice as much or more to teach these advanced students as it does freshmen and sophomores.

4. Increased demands for research and service involving problems which affect the economy, the social and political life, the general well-being of the state and its citizens.

In asking the Legislature to appropriate for the biennium \$10,643,450 for buildings and building improvements, the Regents have apportioned this sum tentatively as follows: Minneapolis campus, \$4,200,000; St. Paul campus, \$1,600,000; Duluth Branch campus, \$2,124,250; the projected new school of agriculture at Waseca, \$2,489,200; other branch schools and stations, \$230,000.

(MORE)

3 - University Legislative Request

Last summer, the Regents outlined, at the request of the Legislative Research Committee, a physical expansion program necessary for the adequate accommodation of a student body of 24,000. Cost of this program was estimated at that time as in excess of \$31,000,000, and the Regents expressed the hope that the program could be completed in a four-biennium period.

Estimated costs of buildings in this expansion program then totaled \$24,569,300, but re-estimated on current price levels, the costs of these buildings now add up to \$30,533,330.

The 1949-51 buildings request is aimed at accomplishment of approximately one quarter of the eight-year program except for the Duluth and Waseca projects. The Regents hope to carry out the Duluth building program in four years instead of eight and to complete the buildings for the proposed new school at Waseca within the next two-year period, President Morrill explained.

The 1947 Legislature provided for an appropriation of \$750,000 (to become available July 1, 1949) for establishment at Waseca of a new school of agriculture to accommodate 350 students. There are no facilities available at Waseca for school of agriculture purposes, and so a complete plant must be built. The Regents therefore are asking that the entire Waseca building program be provided for in a single appropriation.

The full eight-year expansion plan, according to the president, is designed to prepare the University to meet more readily the large increase in enrollment which is expected about 1960, when children born in the war-time birthrate acceleration will be ready for college. Although a downward trend in enrollment is now being experienced, he explained, this trend is expected to level off at about 24,000 to be followed by another upswing in enrollments in the early 1950s.

(MORE)

4 - University Legislative Request

The requested general maintenance appropriation of \$12,182,255 annually, an increase of \$4,095,007 yearly over the 1947-49 appropriation, was recommended by the Regents, President Morrill said, after a detailed analysis of income loss from tuition and services and consideration of price increases.

University income for maintenance and operation during each year of the coming biennium is estimated at \$1,023,352 less than in 1948-49, the president stated. This decline is chiefly in tuition income.

For veterans attending the University under the G. I. and Rehabilitation bills, President Morrill explained, the Veterans Administration has paid non-resident tuition rates which in general are more than twice the resident rates. In this way the federal government, since the war, has helped the state to carry its abnormally large load of students.

"Had these students been 'on their own', paying regular fees themselves," commented President Morrill, "the state for the last three years would have had to provide larger educational appropriations. The G. I. bill, in fact, has been a federal subsidy to the state; the federal government has shared the costs of carrying the load imposed by the veterans."

Although the G. I. bill is still in effect, the number of veterans enrolled is beginning to decline as some exhaust their rights and drop out of school and others graduate.

At the peak of the "veterans' bulge" in 1946-47, 16,428 veterans were attending the University. This year there are 14,810. University officials estimate that veteran enrollment will average 9,225 during the next two years.

(More)

5 - University Legislative Request

"There is still a vast and impressive body of veterans to be taught," President Morrill asserted Friday. "The point, however, is that they are declining in numbers at a faster rate than the student body as a whole. The resulting income loss must be counterbalanced to provide for the instructional, research and service job that remains."

Included in the \$4,095,007 requested increase in the annual general maintenance appropriation along with the \$1,023,352 to offset the anticipated income drop, is \$965,071 to provide a 12½ per cent increase in faculty salaries and \$570,240 for cost-of-living and merit increases for civil service staff members. Proposed advances in faculty and staff salaries, the president pointed out, will bring these salaries into closer relationship with the Bureau of Labor Statistics cost-of-living index which now exceeds 173.

Also included in the increased maintenance appropriation request for each year of the biennium is \$215,898, 2.8 per cent of the 1948-49 academic payroll, to provide for new academic positions.

New civil service positions included in the maintenance requests carry salaries totaling \$151,163, or 2.7 per cent of the 1948-49 civil service payroll. Of this amount, \$33,800 is to provide for custodial positions in new buildings under construction or already planned and for which the Legislature has made appropriations at previous sessions.

Largest item in the \$4,095,007 annual general maintenance increase requested is a \$1,169,283 boost in the yearly allotment for supplies, expense and equipment and plant maintenance and operation bringing this allocation to \$5,029,984 for each year of the new biennium.

(More)

During the year 1947-48, because of larger income from veterans' tuition and inability in the face of competition to fill certain academic positions, President Morrill explained, it was possible to allocate for supplies, expense and equipment, including plant maintenance and operation, \$5,343,827.

But in 1948-49, because of shrinking income, he continued, and the inescapable use of funds already designated for academic positions, the allocation for these purposes will amount to an estimated \$3,860,701. This he contended is far below the minimum required, particularly for adequate maintenance and repair of buildings or for acquisition of essential laboratory and research equipment to keep pace with changing scientific advances.

Enrollment at the Duluth Branch, formerly the Duluth State Teachers college, which was transferred to the University July 1, 1947, has jumped from 915 in the fall of 1946, the last year of its operation as a teachers college, to 1,900 this fall. Estimates indicate a student body averaging 2,050 for each year of 1949-51 biennium, according to President Morrill, and Legislative requests for the branch are based on this figure.

During the current school year, the Duluth Branch is operating on an appropriation of \$263,961 made by the 1947 Legislature to the institution as a teachers college, the president explained. Some additional revenue was derived from applying the same tuition and fee schedule in effect on the Twin Cities campuses.

"To carry the expanded load of students registered for the general liberal arts and teacher-training undergraduate program that is offered at Duluth," stated President Morrill, "increase in the staff is essential."

Requested by the Regents for this purpose is \$56,771 for each year, \$38,843 for enlargement of the faculty and \$17,928 for additions to the civil service staff. To follow the general University plan for salary adjustments, the Regents are asking an annual increase of \$58,185, \$47,231 for the academic staff and \$10,954 for civil service employees.

(MORE)

7 - University Legislative Request

Another annual increase of \$51,544 is sought by the Regents for supply, expense and equipment needs including plant operation and maintenance, bringing the Duluth Branch annual maintenance appropriation request to \$442,222, an increase of \$178,261.

Physical plant deficiencies at the Duluth Branch aggravated by the overflow student body require improvements which will cost an estimated \$128,150, and the Regents are asking that half of this amount be made available each year of the biennium to accomplish this work.

An additional \$15,500 is asked of the Legislature for the purchase of land to complete the area on which the new Duluth Branch campus is to be erected. Most of this campus site was presented to the University as a gift.

"A university does more than teach," President Morrill asserted in explaining the requested \$301,500 annual increase in special appropriations. "It carries on research and offers service in many ways. Demands for research and service have never been as many nor as insistent as now.

"World War II demonstrated beyond question the value and necessity of research," he added. "It put a high premium on scientific 'know how'. Government turned to universities to find the scientists needed in all fields--technology, agriculture, medicine and health and the social sciences.

"As a nation, as a state, people are now keyed to the significance of research. As individuals, as organized groups, they are pressing in upon the University. The University is a great laboratory with a staff that is besought constantly to push back the frontiers of knowledge, to find answers to fundamental questions through pure research."

To meet these obligations, the University head stated, the staff must be strengthened constantly through the recruiting of young scientists and scholars and through resistance to attempts to lure away its older, outstanding scientists and scholars.

(MORE)

"The University must be able to adjust loads of its staff members," President Morrill asserted, "so that teaching assignments will still leave time for research and for public service. When the veterans returned, their instruction was a first consideration. The staff in some measure had to turn from research responsibilities to carry the classroom load. The balance now needs to be restored. What was an emergency situation in 1946-48, cannot be retained as the normal."

Annual special appropriations requested for extension and research with the increase, if any, over the annual appropriations for 1947-49, shown in parenthesis, were reported by President Morrill as follows:

Agricultural extension work, \$87,500 (\$35,500); county agents, \$136,500 (\$21,500); beneficiation of manganiferous ores, \$75,000 (\$15,000); soils survey, \$25,000 (\$13,000); dairy manufacturing, \$20,000 (\$8,000); medical and cancer research, \$60,000 (\$10,000); livestock sanitary board, \$40,000 (\$10,000); crop breeding and testing, \$45,000 (\$10,000); Institute of Child Welfare, \$28,000 (\$5,500); potato and vegetable research, \$16,000 (\$4,000); mastitis control, \$15,000 (\$3,000).

General research, \$100,000 (\$25,000); Minnesota Institute of Research, \$50,000 (\$25,000); home demonstration and 4-H club work, \$40,000 (\$10,000); game and fish, \$6,000 (\$1,000); agricultural research at the Rosemount Research Center, \$100,000 (\$50,000); hybrid corn maturity tests, \$9,000; animal and human brucellosis research, \$30,000 (new project); Division of Business and Economic Research, \$25,000 (new project).

Increases for the University Hospitals, the psychopathic hospital and the new heart hospital for the two-year period aggregating \$819,380 are asked by the Regents, according to President Morrill. This sum includes an annual increase of \$300,869 for University Hospitals to obtain additional staff and to meet increased costs and an annual \$57,046 increase for the psychopathic hospital to provide for 100 per cent occupancy and to pay increased operating costs.

(MORE)

9 - University Legislative Request

With these increases the requested annual appropriation for University Hospitals for the biennium is \$754,869, and for the psychopathic hospital, \$178,546. An appropriation of \$103,550 for the year 1950-51 is asked for the new heart hospital and is included in the \$819,380 aggregate increase asked for the hospitals for the two-year period.

Included in the building requests for the coming biennium are 45 projects---16 on the Minneapolis campus, eight on the St. Paul campus, eight on the Duluth Branch campus, seven at Waseca and six at other branch schools and stations.

Buildings on the Minneapolis campus for which funds are asked in the amounts listed are as follows: Chemical Engineering building (additional for completion) and equipment, \$250,000; Social Science building (additional for completion) \$482,000; classroom building (additional for completion), \$528,000; addition to heating plant, \$450,000; two steam generators for heating plant, \$650,000.

College of Education building, \$1,560,000; Physics building addition, \$672,000; Military and Naval Science building, \$800,000; Main Engineering, addition, wing, \$720,000; Library roof house (additional for completion) \$175,000; Comstock hall addition, \$400,000; chemical storehouse, \$480,000; Law building library stacks, \$104,000; Law School addition, \$380,000; Wulling hall addition (pharmacy), \$442,000; and Scott hall, north wing (music), \$156,000.

Appropriations requested for buildings on the St. Paul campus are as follows: Library, \$600,000; heating plant, boiler replacement, \$140,000; Soils building, \$500,000; School of Veterinary Medicine building (basic science unit), \$624,000; home management house, \$30,000; classroom building, \$416,000; Entomology and Economic Zoology building, \$500,000; and college men's dormitory (50 per cent of total cost), \$400,000.

(MORE)

10 - University Legislative Request

Requested by the Regents for the buildings on the Duluth Branch campus are the following appropriations: Science building (additional for completion) and equipment, \$330,000; Physical Education building, \$1,400,000; heating plant and shops building, \$620,000; heating tunnels and utilities, \$150,000; Library, \$572,000; classroom building, \$416,000; dormitory for women (50 per cent of total cost), \$380,250; and dormitory for men, (50 per cent of total cost), \$380,250.

Funds asked for construction of buildings for a new school of agriculture at Waseca are apportioned as follows: classroom, laboratory, Library, Administration and Health Service buildings (in addition to \$750,000 appropriated by 1947 Legislature), \$338,000; men's dormitory for 200 students, \$884,000; women's dormitory for 100 students, \$350,200; heating plant and equipment, \$370,000; heating tunnels and utilities, \$110,000; additional farm buildings, \$125,000; Physical Education building, \$312,000.

Included in the building requests for the biennium were the following amounts for plant improvement and expansion at various outlying schools and stations: Crookston, replacement of heating plant boilers, \$260,000; Grand Rapids, classroom building completion, \$25,000, and sewage disposal plant, \$50,000; Duluth experimental station, dairy barn completion, \$20,000; Rosemount Research Center, buildings for agricultural purposes, \$60,000; and Morris, addition to Agricultural hall, \$135,000.

A full hour program of Christmas music will be presented over the University's Northrop Memorial auditorium loudspeakers Saturday (Dec. 18) evening in conjunction with a reception being held by President and Mrs. James L. Morrill in Coffman Memorial Union. The president's reception will be from 8 to 11 p.m.

The Christmas music, consisting of organ, vocal and carillonic chimes selections will be from 7:45 p.m. to 8:45 p.m. Edward Berryman, University music instructor, will play both the chimes and organ.

The program will open with two organ numbers, "Adeste Fideles" and "Vom Himmel Hoch" by Bach, followed by the "Westminster Carol", "Indulci júbilo" with variations and "Hark, the Herald Angels Sing" played on the bells. Next, the first movement of Bizet's "L'Arisienne Suite", the allegretto from Franck's "Violin Sonata" and "Rigaudon" by Campra will be heard on the organ.

Three carols will be sung over the loud speaker by Roy Schuessler, assistant professor of music at the University. They are "First Noel", "Cantique de Noel" and "God Rest Ye Merry Gentlemen".

The program will close with "O Little Town of Bethlehem" and "Silent Night" played on the University's bell system.

Two new art exhibitions will be shown during January in the University Gallery in Northrop Memorial auditorium at the University of Minnesota, according to Minnunity Mrs. J. G. Lawrence, director.

The first to appear will be a group of watercolors and gouaches from the Martha Schnaffer gallery in New York. This exhibit will open Jan. 3 and will continue through Feb. 2.

The second show, opening January 7, will consist of paintings by Paul Durin who has been appointed visiting instructor in painting for the winter quarter at the University. He has been teaching recently at Woodstock, N. Y.

Most of the Durin paintings, which are not abstract, are being loaned to the University Gallery by private owners. They are all fairly recent works.

Durin won first prize of \$2,500 in the Pepsi-Cola art competition in 1945 and he has paintings in several museums, including those at Chicago and New York and the Carnegie Museum.

The painting exhibition will be shown through January 28.

UNION ACCOUNTING
INSTITUTE PLANNED
AT "U" JANUARY 8

Minneapolis, Dec. - An institute on union accounting will open activities of the new year for the University of Minnesota's industrial relations center. The one-day program will begin January 8 at 9:30 a.m. in Vincent hall on the Minneapolis campus.

Purpose of the institute is to provide union men with the opportunity to discuss problems connected with keeping a set of union books, including the filing of government reports. It will be open to the public without charge.

The morning program will include short speeches by Ernest A. Heilman, University professor of accounting, and A. E. Larsen, Minneapolis certified public accountant. Also scheduled is a general discussion of "Practical Union Accounting Practices" led by Harry Leonard, business representative of the International Brotherhood of Electrical Workers, Minneapolis, and Edward J. Murnane of the United Automobile Workers, St. Paul.

In the afternoon a workshop and practice session in posting a set of union books will be held under the direction of Herbert G. Heneman, Jr., assistant director of the industrial relations center, and Clarence W. Nelson, research assistant at the center.

Dr. George P. Conger, chairman of the University of Minnesota's philosophy department, will go to Honolulu next summer to attend the second East-West philosophers' conference at the University of Hawaii from June 20 to August 5.

Dr. Conger will be one of about eight leaders in the field of Western philosophy who will meet and study with eight top authorities on Oriental philosophy. Some 50 other philosophy teachers will be invited to sit in as associate members.

Purpose of the conference will be to bring about an understanding between Eastern and Western philosophies by study of fundamental problems uncovered by a smaller gathering in 1939.

Chief differences between the philosophers, Dr. Conger says, are a matter of emphasis and the fact that bringing the fields of thought together has never been closely approached before.

The program will consist of courses in Indian, Chinese and Buddhist philosophies and seminars in comparative philosophy. Teachers will come to the conference from China, Japan, India, Hawaii and the mainland United States.

U. OF M. WORK ON
UNDULANT FEVER

Minneapolis, Dec. - The success of University of Minnesota medical scientists in working out an effective treatment for human brucellosis (undulant fever) is reported by Paul de Kruif, author of "Microbe Hunters", in the January issue of The Readers' Digest.

In the article, "Undulant Fever---Cause and Promising Cure", de Kruif tells how the Minnesota scientists, headed by Dr. Wesley W. Spink, professor of medicine, learned that the combined use of streptomycin and sulfa-diazine would cure undulant fever sufferers.

The writer also relates Dr. Spink's success with a new drug, aureomycin, in treating brucellosis patients in Mexico last summer when he served as a consultant in Mexico's undulant fever control program.

MUSEUM TO OFFER
STATE CENTENNIAL
LECTURE SERIES

Minneapolis, Dec. - A series of five programs carrying out the theme of the Minnesota Territorial Centennial will be presented during January at the Minnesota Museum of Natural History at the University of Minnesota.

The programs, which will cover much of the history of the state and its resources, will be given at 3 p.m. each Sunday during the month as part of the museum's regular free public lecture series.

"Minnesota Indians--Past and Present" will be the subject of the first lecture Jan. 2. Harold Searls, pageant director for the centennial celebration, will give the talk and will show a colored movie on the Red Lake Indians of northern Minnesota.

Searls has served with the state conservation department, including work with Indians, and his talk will deal with the Indians' present day problems as well as their history and the early uprisings.

The author of several books, Dr. Grace Lee Nute, writer for the Minnesota Historical society, will describe the canoe country in the second lecture Jan. 9. She will tell of the first explorers and the history of the Canadian border area and will show slides.

On Jan. 16, "The Story of Minnesota Forestry" will be told by Dr. Frank Kaufert, chairman of the division of forestry at the University. He will review the old lumberjack days and will discuss the prospects for the future of Minnesota forests.

(More)

"Minnesota's Iron--The World's Most Important Deposits" will be the topic of Dr. George M. Schwartz, director of the Minnesota Geological survey and professor of geology and mineralogy at the University, Jan. 23. Included in his lecture will be a look at the future of iron mining in this state.

The series will be concluded Jan. 30 with Dr. W. J. Breckenridge, director of the Minnesota Museum of Natural History, speaking on "Our Wildlife Through a Century of Settlement". He will review the effect civilization has had on the abundance of wildlife and game in Minnesota.

The lectures will be open to the public without charge, and all will be presented in the Museum auditorium at University and Seventeenth avenues, southeast.

UNIVERSITY FILM
SOCIETY ANNOUNCES
WINTER PROGRAM

A group of seven foreign films, two French, two British, one Swedish, one Russian and one Spanish, will be shown during the winter quarter at the University of Minnesota by the University Film society.

Opening the series in Northrop Memorial auditorium Jan. 19 will be a Russian musical comedy, "Spring". "Portrait of Innocence", a French film on children will be shown Jan. 26.

A British picture, "Halfway House", will be presented Feb. 9. This is a psychological thriller which takes place at an inn in Wales from which the picture gets its title. The Spanish film, "The Wave", will be shown Feb. 14.

Sir Laurence Olivier's well known production of "Henry V" will be run Feb. 22 and 23, with two showings each day.

A Swedish film, "Torment", will be shown March 2. Starring Mai Zetterling and Alf Kjellin, it is a psychological picture which portrays how an adult's thwarted attitude causes suffering in an adolescent.

Last presentation for the quarter will be "The End of a Day", a French movie about retired actors and actresses and how they still find an audience. It will be shown March 9.

The films will be shown at 4 and 8 p.m. in Northrop Memorial auditorium on the University's Minneapolis campus. Tickets will be on sale at the Downtown ticket office, Minneapolis; Field-Schlick ticket office, St. Paul, and in Room 3 Westbrook hall at the University.

WINTER QUARTER
"U" CONVOCATION
PROGRAMS LISTED

Two musical programs, a travel film and six speakers are scheduled for University of Minnesota convocations during the University's winter quarter, according to James S. Lombard, director of concerts and lectures.

The convocations will be held each Thursday at 11 a.m. in Northrop Memorial auditorium. They will be open to the public, and most of the programs will be broadcast over the University radio station, KUOM.

Leading off the winter quarter series Jan. 6, will be an English duo--Viola Morris, soprano, and Victoria Anderson, contralto--singing five groups of classical and light songs. The second musical program will be a male vocal octet, "The Ambassadors of Song", on Feb. 10.

On Feb. 3, Alfred Wolff, traveller and lecturer, will show colored movies he has taken in France since the war.

During Brotherhood Week, Feb. 20 to 26, Ted Shawn, modern dancer, will appear twice. He will speak at the regular morning convocation Feb. 24 on "Dance Steps Toward Unity", a talk he has delivered before the world federalists on the role of dancing in creating better relations among peoples.

Also on Feb. 24, Shawn will present a program of dances at a special evening convocation at 8:30 p.m. in Northrop auditorium. Some seats will be reserved for \$1, and general admission will be 50 cents, tax included, for this one program.

(More)

Speaker on the University's Charter Day, Feb. 17, will be Dr. Walter H. Judd, representative in congress from Minnesota's fifth district. His topic will be "Education for America's New Role in World Affairs".

Other speakers and the dates they will talk are: Dr. J. O. Christianson, superintendent of the University's school of agriculture and director of agricultural short courses, Jan. 13; T. R. McConnell, dean of the college of science, literature and the arts who just returned from a trip to Europe, Jan. 20; Dr. Hans Kohn, professor of history at Smith college, Jan. 27; and Dan Cooper, New York interior decorator, March 3.

JAN. 3, 1949

EARLIER DEFENSE
AGAINST WHOOPING
COUGH ADVISED

Minneapolis, Jan. - Poorest showing in the fight against communicable diseases in Minnesota has been against whooping cough as a killer of children, according to Dr. C. B. Nelson, director of the division of epidemiology of the state board of health.

Earlier immunization against the disease is recommended by Dr. Nelson, who will detail trends in the control of common contagious diseases at a two-day course on the health of the school-age child at the University of Minnesota Center for Continuation Study Tuesday and Wednesday (Jan. 4-5).

The death rate from whooping cough in Minnesota has been reduced only 83 per cent since 1900 as compared to a 99 per cent reduction in diphtheria against which the greatest success has been attained, Dr. Nelson says. Diphtheria, in fact, has become more of an adult problem with increasing deaths among older adult ages, he points out.

While most cases of whooping cough occur in children three, four and five years old, 85 per cent of the deaths are among children under two years of age, Dr. Nelson says, and of the 122 deaths in Minnesota in the last five years, 57 per cent were in children under six months old.

This is the reason for failure to cut whooping cough deaths further, he explains, as these youngest infants have not in the past been immunized in Minnesota.

Dr. Nelson recommends that babies in Minnesota be immunized at from two to three months of age. The reaction is not too severe in such young children, he adds, since the shots are given in three small doses.

(More)

Scarlet fever is another disease which still presents a problem in this state, according to Dr. Nelson.

Difficulty of control is the reason he gives for the continuance of the scarlet fever threat. Persons who have had the rash are still susceptible to the throat infection, and these are the cases that cannot be controlled, he explains

Immunization against scarlet fever has not been used because of the violent reaction injections cause and the large number of injections required.

Dr. Nelson warns against complacency over smallpox since only 10 cases have been reported in the state since 1943 with no deaths.

There is always the danger smallpox can be brought in from elsewhere, he advises, citing comparatively high death rates from that disease in other states recently.

To guard against such an occurrence here Dr. Nelson urges immunization in children by the time they are one year old.

The course at which Dr. Nelson will speak is being held at the University with the cooperation of the state organization for public health nursing and the Minnesota department of health.

Other topics which will be discussed include emotional problems in children, common health problems, skin diseases, rheumatic fever and heart disease and environmental health factors.

School and public health authorities from throughout Minnesota will attend the course.

McGOVERN TO HEAD
GREATER "U" FUND
CAMPAIGN IN 1949

Minneapolis, Dec. - Appointment of John F. McGovern of LeSueur as general chairman of the national committee for the 1949 Greater University Fund campaign, was announced Thursday (Dec. 30) by Stanley J. Wenberg, director of the fund.

McGovern will head the drive which will be an annual event sponsored by the University of Minnesota Alumni association. The national campaign chairman said Thursday that he will announce the names of his executive committee members as soon as their appointments have been completed.

The coming year will be the second year of the Greater University Fund's operation, and the first year in which a national campaign organization will be set up. The 1948 fund campaign will close next week, one week beyond the previously announced deadline, Wenberg said Thursday, to permit the enrolling of late donors on the 1948 roster.

McGovern, industrial relations director for the Minnesota Valley Canning company of LeSueur, was the first University of Minnesota football player to be named an All-American, an honor which he won in 1909. Formerly sports editor of the Minneapolis Journal, he is a past president of the Washington (D.C.) Touchdown club.

In 1945 and 1946, McGovern was Minnesota chairman of the national Sister Kenny fund drive, and during the last Kenny campaign he served as area chairman directing the drive in Minnesota, the Dakotas and a part of Wisconsin.

He is a past president of the Minnesota Employers' association, past chairman of the Minnesota County Welfare Merit system, a former member of the Northern Great Lakes Area council. At the present time, he is vice president of the National Cannery association.

MODEL OF INDIAN
RIVER BUILT IN
U. OF M. LABORATORY

Minneapolis, Jan. - A "working" model of a stretch of one of India's largest rivers, the Godavari, has recently been constructed in the University of Minnesota's St. Anthony Falls Hydraulic laboratory on Hennepin island in the Mississippi river.

The model was built to enable Dr. L. G. Straub, director of the laboratory, and his assistants to work out the best method of controlling the Godavari during the construction of a huge concrete dam which will be one of the world's largest hydraulic structures.

This so-called Ramapadasagar project in the Province of Madras in southeastern India involves the construction of a dam which will impound a reservoir more than 100 miles long. Resulting from the project, according to Dr. Straub, will be a huge power development and the irrigation of two million acres of farm land in the province.

Approximately 20 million cubic yards of earth will be excavated for the dam foundation operations, Dr. Straub reported. The dam itself will be 428 feet high, one and one-half miles long and will contain some eight million cubic yards of concrete.

Cost of the project is estimated at \$257,000,000, the University hydraulics expert stated, but the value of the increased production of food resulting from the irrigation project is estimated at about \$100,000,000 annually. The project is being financed by the Provincial Government of Madras.

During its flood flows the Godavari discharges as much as two million cubic feet of water per second, or quantities as great as those of the lower Mississippi river at its highest stages, according to Dr. Straub. This tremendous flow is due, he explained, to the extremely high rainfall in southern India, which in some localities reaches an accumulative depth of 500 inches in one season as compared with an average of about 25 inches annually in the Minneapolis and St. Paul area.

(More)

One of the most serious problems with which engineers are concerned in the construction of the dam, Dr. Straub said, is the unwatering of the site during the first two or three years of construction operations. It will be necessary to divert the river to one side of the channel during the first stage of construction and to the other side after the dam has been built to a level above the low water stage of the river.

"The unprecedented problems become especially acute," said Dr. Straub, "because of the great depth of 200 feet below the bed of the river which the excavation must extend in order to reach adequate foundation strata for the dam."

In 1947, Dr. Straub inspected the site of the project as an engineering consultant for the Indian government to make recommendations and to obtain the necessary field information for experimental studies at the University.

The experiments now underway in the St. Anthony Falls laboratory, Dr. Straub reported, are directed at determining the best layout of the cofferdams or temporary barricades which will be used to encircle the construction site to keep the river under control while the excavation and early construction work is in progress.

Construction of the project, even with the use of the most modern American methods, will take from 10 to 12 years, Dr. Straub estimated.

Assisting Dr. Straub in the experiments on the Ramapadasagar project is Alvin G. Anderson of the St. Anthony Falls laboratory staff.

HISTORICAL DETECTIVE EXPOSES
LINCOLN HOAX IN "WHODUNIT"

Minneapolis, - A riddle which has puzzled American historians since 1879 and which involves the authenticity of many anecdotes about Abraham Lincoln is solved in a new book, "The Mystery of 'A Public Man'", just published by the University of Minnesota Press.

Solved by the author, Dr. Frank Maloy Anderson, former University of Minnesota and Dartmouth history professor, is the identify of the writer of an anonymous diary supposedly kept in Washington during the winter of 1860-61.

In 1879, the North American Review, then a widely read American magazine, published "The Diary of a Public Man" in four installments. This "diary" became the source of many stories about Abraham Lincoln which have been considered authoritative by many Lincoln scholars, biographers and historians.

After 35 years of investigation, Dr. Anderson has determined the identity of "a Public Man" and presents proof in his book which he calls "a historical detective story".

The historian's answer to the mystery is expected to surprise many of the top Lincoln scholars in the country who have guessed several other men as authors of the diary but never the man named by Dr. Anderson.

Much of the material in the diary, according to the historical detective, particularly the parts about Lincoln himself, is "pure invention", while a portion of it is genuine.

The diary, as it appeared in the North American Review under the subheading "Unpublished Passages of the Secret History of the American Civil War", is reprinted in Dr. Anderson's book.

DECEMBER 31, 1948
FOR RELEASE 9 P.M. JAN.1,1949

Minneapolis, Jan. - Leading authorities on the Near East will gather at the University of Minnesota Center for Continuation Study January 17 through 19, to take part in an institute to promote better understanding of current economic and social questions in that area.

Heading the faculty for the course will be Dr. John Stolhoff Badeau, president of the American university at Cairo, Egypt, and for many years a scholar of the Near East. He is the author of "East and West of Suez", written in 1943 at the request of the Foreign Policy association.

Dr. Badeau is known as an authority on Arabic and Arabic literature and the history of Islam. In Cairo he edits the "Journal of Modern Education". During World War II, Dr. Badeau served as chief regional specialist of the Middle East division of war information in Washington, D.C.

Other members of the faculty for the institute will be: T. Cuyler Young, professor of Oriental languages at Princeton university; Edwin M. Wright, special assistant to the director of the Near East-Africa office of the United States State department; John A. Wilson of the Oriental institute at the University of Chicago; Franz Rosenthal, professor of Oriental studies at the University of Pennsylvania; Yahya Armajani, professor of history at Macalester college, and Dr. Gaylord W. Anderson, director of the school of public health at the University of Minnesota.

The institute will consist of informal talks and discussions on the Near East, its history, ethnographic composition, resources, economic status, culture and national development.

Enrollment is open to anyone who wishes to attend within the limitation of the Center's facilities.

MINNESOTAN HEADS
BUSINESS TEACHERS

Minneapolis, Jan. - Dr. Ray G. Price, professor of education at the University of Minnesota, was elected president of the National Business Teachers' association Thursday (Dec. 30) in Detroit, Mich., at the organization's fifty-first annual convention.

Other officers elected are: Lloyd Douglas, Iowa State Teachers college, Cedar Falls, Ia., first vice president; E. O. Fenton, American Institute of Business, Des Moines, Ia., second vice president; Robert Finche, Cincinnati, O., secretary; and Paul Muse, Indiana State Teachers college, Terre Haute, Ind., treasurer.

FOR IMMEDIATE RELEASE

WINTER QUARTER
TO OPEN MONDAY
AT MINNESOTA "U"

Minneapolis, Jan. - The Christmas holiday at the University of Minnesota will end Monday (Jan. 3) when new students will begin their campus life with registration and testing and old students will return for the opening of winter quarter classes which start at 8 a.m. Tuesday (Jan. 4).

A week-long orientation program for new students has been planned. Registration for all new students not yet registered will be held Monday and entrance tests will be given at 1 p.m. for registered students who have not taken them.

At 3:30 p.m. Monday the All-University Congress will sponsor an "Introduction to Campus Life" and coke hour for new students in the men's lounge of Coffman Memorial Union. On Wednesday (Jan. 5) an introductory tour of the library will be conducted at 4 p.m.

A seminar on "Keys to Successful Studying" will be held in Coffman Memorial Union Thursday at 3 p.m. with Mrs. Julia Klare of the student counseling bureau giving out the advice. A coffee hour at 4 p.m. in the men's lounge of the Union will follow, sponsored by the union board of governors.

The week will be climaxed with a dinner in the union at 6 p.m. Friday, followed by a tour of union offices and an open house, and a dance at 9 p.m. Saturday (Jan. 8) in the main ballroom of the union.
