AERIAL SEARCH  
FOR NEW IRON  
DEPOSITS RESUMED

Minneapolis, Sept. Aerial exploration for new iron formations which may lie beneath the glacial drift in the northern half of Minnesota, started in the spring of 1947, was resumed this week by an airborne crew of the United States Geological Survey and will continue through September.

Headed by John Henderson, geophysicist, the USGS explorers are working out of the Duluth airport covering an area of some 1,800<sup>square</sup>/miles, all in St. Louis county with their airborne magnetometer. After completing the flights over the St. Louis county area, the crew will move to International Falls and later to Bemidji to cover an additional 8,000-square-mile sector including parts of Roseau, Lake of the Woods, Koochiching, Beltrami, Marshall, Pennington and Red Lake counties.

This area extends from the east line of Koochiching county almost to Thief River Falls and from a line south of Red lake to the Canadian border.

The magnetometer or "doodlebug" is an instrument based on a device developed during World War II to detect submerged enemy submarines. In the "treasure hunt" for iron formations, it is flown suspended from a specially equipped airplane over the survey area at an altitude of 1,000 feet at one-mile intervals to detect and record variations in the earth's magnetic field.

Data obtained on these flights are compiled in Washington by USGS staff experts to indicate areas which may be favorable for additional exploration for possible iron deposits. First results of the Minnesota aeromagnetometer survey were released last January in the form of aeromagnetic maps and magnetic profiles (cross sections) which covered portions of Hubbard and Cass counties.

g A A P

- 2 -

The aerial search for iron, a joint project of the USGS and the Minnesota Geological Survey headed by Dr. G. M. Schwartz, professor of geology at the University of Minnesota, already has been extended over some 22,000 square miles of northern Minnesota including all or portions of 23 counties.

"The work of compiling information obtained in the 1947 and 1948 flights is progressing very satisfactorily in Washington," Dr. Schwartz reported Thursday (Sept. 1), "and it is expected that a set of six aeromagnetic maps and profiles covering portions of Hubbard, Cass, Crow Wing and Morrison counties will be published before the end of this year."

In addition to Henderson, the USGS crew now working in Minnesota consists of a pilot, co-pilot and two other geophysicists.

FOR IMMEDIATE RELEASE

Emma M. Birkmaier, chairman of the modern language department at the University of Minnesota high school, is attending the convention of the Modern Language association this week at Stanford university in California.

Miss Birkmaier also will attend the meetings of the American Association of Teachers of German also being held at Stanford. She is secretary of this organization. Saturday (Sept. 10) she will address the convention, also at Stanford, of the American Association of Teachers of Slavic and Eastern European Languages speaking on "Effective Teaching of Russian at the Ninth Grade Level".

University high school is one of four public high schools in the United States which teach Russian. The school, a teaching laboratory for the University's college of education, started its Russian program in 1943 as the first public high school in the country to add this language to its curriculum.

GUIDANCE GROUP  
DESIGNATES WRENN  
PRESIDENT-ELECT

Minneapolis, Sept. - Dr. C. Gilbert Wrenn, professor of educational psychology at the University of Minnesota, was named president-elect of the division of counseling and guidance of the American Psychological association at a meeting of the organization this week in Boulder, Colo. He will assume the presidency next year.

This is the third presidency of national personnel organizations to which Dr. Wrenn has been named since 1946. He served as president of the National Vocational Guidance association in 1946-47, and as president of the American College Personnel association 1947-49.

Now heading the division of counseling and guidance is Dr. John G. Darley, assistant dean of the University of Minnesota graduate school and a professor of psychology. Dr. E. G. Williamson, dean of students at the University and also a professor of psychology, headed the division three years ago. Thus, over a five-year period, 1946-51, three of the five presidents of this national organization of psychologists in the counseling and guidance field will have been University of Minnesota faculty men.

MORE THAN 5,000  
STUDENTS 'ATTEND'  
UNIVERSITY BY MAIL

Minneapolis, Sept. - In addition to providing for the educational needs of its more than 25,000 resident students during the school year 1948-49, the University of Minnesota, through its correspondence study department, served 5,084 students who "attended" classes by mail.

Although most of the more than 5,000 students enrolled in University correspondence courses during the year were Minnesotans, registrations were received from 45 other states and 12 foreign countries, according to F. Lloyd Hansen, director of the correspondence study department.

Approximately 23 per cent of the "mail order" students during 1948-49 were World War II veterans enrolled under the provisions of the G.I. Bill of Rights or the Vocational Rehabilitation bill, Hansen reported. Of the 5,084 students served during the year, 2,644 were newcomers enrolled for the first time.

Correspondence students are limited to two courses at any one time. Course registrations during the last school year totaled 6,030, a six per cent increase over registrations for 1947-48.

The department offers 287 different correspondence courses including 241 college level subjects, 28 high school courses and 18 adult education non-credit courses. The courses are taught by 120 instructors most of whom are members of the University faculty. Some of the teachers are Twin Cities professional and business men chosen because of special knowledge or experience.

Most popular fields of correspondence study, Hansen reported, are, in order of preference: business-economics, English, engineering-mathematics, history, education, art education, sociology, child welfare, psychology and personal health.

Students may start their correspondence courses at any time, Hansen said. Anyone interested in "learning by mail" may write to the correspondence study department, Room 251, Nicholson Hall, University of Minnesota, Minneapolis 14.

The correspondence study department is a part of the University's general extension division which also operates the Center for Continuation Study, the community service bureau, extension classes, the municipal reference bureau and the University radio station, KUOM.

RECRUITS SOUGHT  
FOR 'U' BAND; DRUM  
MAJOR NEEDED

Minneapolis, Sept. - Gerald R. Prescott, University of Minnesota bandmaster, is busy recruiting musicians for the University's colorful, 120-piece, all-male student marching band which will perform at all the Gophers' football games in Memorial Stadium this fall.

The student bandsmen also will accompany the Minnesota gridgers to Ann Arbor to perform between halves of the annual Minnesota-Michigan game October 22, Prescott reported.

Auditions for students trying out for band positions will be held on the Minneapolis campus during the week Sept. 19-23. The band has acquired a number of new instruments this fall, Prescott said, including four new sousaphones.

The most difficult spot in the band to fill, according to Prescott, is the position of drum major. He said he will welcome with open arms any and all high-stepping male applicants for the job of leading the huge band through its intricate maneuvers.

Also sorely needed, according to the bandmaster, is a vigorous student to pound the "world's largest drum" which is pulled about with the band on a specially designed cart.

RAIL TRANSPORT  
INSTITUTE AT U OF M  
TO OPEN SEPT. 26

Minneapolis, Sept. 12 - Field trips to Duluth, Minn., Superior, Wis., and the Mesabi iron range will be included on the program of the Second Midwestern Institute in Rail Transportation at the University of Minnesota Sept. 26 to Oct. 8.

The institute is being planned by the center for continuation study in cooperation with the Association of American Railroads, the Association of Rail Transportation Institutes and the Association of Western Railways.

Courses will cover the general fields of basic principles of transportation, current railroad problems and current problems of other modes of transportation.

Field trips will include materials handling at Twin Cities warehouses and terminals; the Great Northern Railway company accounting department, St. Paul; the Duluth, Missabe and Iron Range Railway company Duluth and Proctor shops, yards and docks; the Duluth harbor, including coal docks and terminal elevators; the Great Northern Railway company Allouez docks at Superior, and the Oliver Iron Mining company Mesabi range mining operations.

Among administration heads and faculty of the institute will be Carl R. Gray, Jr., administrator of veterans affairs, Veterans Administration, Washington, D. C.; R. T. Elstad, president, Oliver Iron Mining company, Duluth; Daniel P. Loomis, chairman, Association of Western Railways, Chicago; Paul H. Van Hoven, president, Duluth, Missabe and Iron Range Railway company, Duluth; and Richard L. Kozelka, dean of the school of business administration, University of Minnesota.

(more)

The institute will be conducted to give rail transportation executives a knowledge of the nation's rail and general transportation systems and their current problems, with emphasis on the competitive position of each type of carrier, and to give students working in individual departments an over-all view of the industry.

Edmund A. Nightingale, associate professor of economics and transportation at the University, is in charge of general direction of the institute.

HIGH SCHOOL PRESS  
CONVENTION TO OPEN  
FRIDAY AT UNIVERSITY

Minneapolis, Sept. 13—More than 750 high school students and school newspaper and magazine advisers will assemble on the University of Minnesota campus Friday and Saturday Sept. 16-17 for the 1949 Minnesota High School Press association convention.

Host to the two-day convention will be the University's school of journalism.

Speakers from the school of journalism staff, Twin City newspapers and radio stations and the graphic arts industry will address the delegates. Val Bjornson, Associate editor of the St. Paul Pioneer Press and Dispatch, will give the opening convocation address Friday morning.

Carroll Binder, editorial editor of the Minneapolis Star and Tribune and vice chairman of the United Nations sub-commission on freedom of information and the press, will speak at a banquet Friday evening, and Ralph Keller, executive secretary of the Minnesota Editorial association, will speak at an advisers' luncheon at noon.

Speakers from the Twin Cities and schools throughout the state will address sectional meetings that have been planned for students interested in various fields of journalism.

Friday afternoon, delegates will tour the new plant of the Minneapolis Star and Tribune.

'U' NAVAL RESERVE  
CORPS TEN YEARS  
OLD THIS MONTH

Minneapolis, Sept. 13 - The University of Minnesota Naval Reserve Officers' Training corps will observe its tenth anniversary Saturday, Sept. 24 with the swearing in of more than 35 new "regular" students at the University armory.

Regular NROTC students, who become officers in the regular navy or marine corps and must serve for two years after graduation, are selected on the basis of an annual nation-wide competitive examination and receive scholarships of \$600 a year plus tuition, books and uniforms.

In addition to providing officers for the regular navy and marine corps, the NROTC program also provides a large group of reserve officers, according to Capt. C. M. Sullivan, U. S. Navy, professor of naval science at the University. Capt. Sullivan said that entering freshmen might apply for admission to the NROTC unit as "contract" students with the opportunity to transfer later to a regular student status and to compete for an appointment to the U. S. Naval academy at Annapolis, Md.

He explained that contract students are chosen by him and by his staff from among qualified entering freshmen. Those enrolling in the program pursue a University course of their own choice and have a deferred draft status. These students take a course in naval science each year and upon completion of that curriculum and attainment of a University degree are eligible for commissions as navy reserve ensigns or marine corps reserve second lieutenants. During their last two years at the University they receive subsistence pay.

The NROTC was established at the University ten years ago this month with a class of 76 students. The present unit numbers more than 200.

Information about the program may be obtained at Room 203 Armory, University of Minnesota

PHYSICAL EDUCATION  
SESSION PLANNED  
AT MINNESOTA 'U'

Minneapolis, Sept. --Representatives from colleges and universities in Minnesota, North and South Dakota and Iowa will attend a two-day regional conference on professional training in physical education, health education and recreation beginning Oct. 1 at the University of Minnesota Center for Continuation Study.

Attending the conference as a consultant will be Frank Stafford, specialist for health education, physical education and athletics in the United States Office of Education.

The purpose of the conference will be to implement the findings of the national conference on undergraduate professional preparation in physical education, health education and recreation. Specific emphasis will be given at the University meeting to development of minimum standards for undergraduate professional preparation; recommended standards for colleges and universities training teachers in health and physical education and recreation relative to staff facilities, equipment and program content; selection and recruitment of prospective teachers and recreational leaders, and the nature of student teaching and leadership.

(more)

Cooperating to present the course will be the University department of physical education and athletics, the Minnesota Association for Health, Physical Education and Recreation, the Minnesota Recreation association, the Minnesota State Department of Education, the Minnesota Advisory Committee on Teacher Education; and the Minnesota Teacher Education Committee on Health Education, Physical Education and Recreation.

The Center for Continuation Study is a part of the University's general extension division and was established in 1936 to extend University facilities to persons in specialized fields.

"WELCOME WEEK"  
TO OPEN MONDAY  
AT 'U' OF MINNESOTA

Minneapolis, Sept.--New University of Minnesota students will view scrimmage of the entire Gopher football team as one of the first activities of the six-day "Welcome Week" program beginning Monday Sept. 19 at the University.

The students, meeting at 2:30 p.m. in front of Northrop auditorium will first participate in cheers led by Minnesota's cheer leaders and then will move to the practice field to meet the coaches and the team and see some of the team's plays. Movies on the 1948 football season will follow in Northrop auditorium.

The week's heavy schedule of activities, with both a social and academic emphasis, will begin with convocation addresses at 9 a.m. by Dr. Edmund G. Williamson, dean of students, and Dr. Theodore C. Blegen, dean of the graduate school.

Beginning Monday, and continuing during the week will be a series of discussions on how to be successful on the University campus, including such topics as "successful study" and "passing a university examination". Also beginning Monday will be another series, presented by members of the University student counseling bureau and various college staffs, on choosing an occupation.

The day's activities will end with a "Welcome Whirl" dance at Coffman union main ballroom on the campus.

The University theater and the Minnesota Masquers will dramatize the counseling services of the University in a play, "Two Innocents come to College," at a convocation at 9 a.m. Tuesday in Northrop auditorium.

(more)

Other convocations during the week will acquaint the new students with foreign students and foreign aid programs, with individual colleges and specialized organizations and with American folk lore.

A tour of University facilities has been planned for Wednesday, and a bus tour of the Twin Cities has been scheduled for Thursday.

A dance and coronation Saturday night of the "Welcome Week" queen, to be chosen by applause at the dance, will climax the week's activities.

SYMPHONY LEADER  
OFFERS SCHOLARSHIP  
FOR VIOLIN STUDY

Minneapolis, Sept. --A one year's scholarship for violin study will be offered this fall by Rafael Druian, new concertmaster of the Minneapolis Symphony orchestra, in cooperation with the University of Minnesota department of music.

Dr. Paul M. Oberg, chairman of the department of music, reports that the scholarship is being offered primarily for pre-college students and that in selection of the winner, Druian will give priority to persons under 18 years of age.

The lessons will be given by Druian through the University general extension division.

Auditions will be held before Druian and Dr. Oberg at 11 a.m. Saturday (Sept. 24) at Scott hall on the Minneapolis campus.

The purpose of the scholarship Druian said, "is to stimulate interest in strings in general, especially among young people, due to the fact that there is a shortage of good string players in the United States".

For appointments, applicants may call Main 8177, extension 342.

RAIL TRANSPORT  
MEETINGS TO OPEN  
MONDAY AT U OF M.

Carl. R. Gray, Jr., administrator of veterans affairs, Washington, D. C., will address the Second Midwestern Institute in Rail Transportation to be held Sept. 26 to Oct. 8 at the Center for Continuation Study, University of Minnesota.

Gray, who headed Allied railway transportation in the European Theater during World War II, will speak on "The Summary of Military Railway Transportation" at a dinner scheduled for 6:30 p.m. Thursday, Sept. 29, in the junior ballroom, Coffman Memorial union.

The institute, directed by Edmund A. Nightingale, associate professor of economics and transportation at the University, is being planned by the University in cooperation with the Association of American Railroads, the Association of Rail Transportation Institutes and the Association of Western Railways.

Opening the institute at 9 a.m. Monday (Sept. 26) will be introductory speeches by Fred E. Berger, program director for the Center for Continuation Study; Thomas E. Burke, mechanical supervisor, Rock Island Lines and president, Association of Rail Transportation Institutes, St. Paul; Norman Johnson, director of the Center for Continuation Study; and Julius M. Nolte, dean of University extension. Following the introduction Professor Nightingale will begin a series of coordinating lectures which will continue at intervals throughout the institute.

Institute courses have been designed to give rail transportation executives a knowledge of the nation's rail and general transportation systems and their current problems and to give persons working in individual departments an over-all view of the industry. Emphasis will be given to the  
(more)

competetive position of each type of carrier.

Completing Monday's schedule will be talks by G. Murray Campbell, vice president and executive representative, Baltimore and Ohio Railroad company, Chicago, and John M. Budd, operating vice president, Great Northern Railway, St. Paul.

Tuesday's speakers will be Frederick E. Sperry, assistant to the operating vice president, Burlington Lines, Chicago, and Eugene W. Coughlin, manager, railroad relations section, car service division, Association of American Railroads, Washington, D. C.

A field trip to Twin Cities warehouses and terminals for the observation of materials handling has been planned for Wednesday afternoon. Speaking to the group Wednesday will be Lewis Filcher, executive vice chairman, freight claim division, Association of American Railroads; C. R. Opsahl, supervisor of station service, Northern Pacific Railway company, St. Paul; and Earl G. Roberts, stores manager, Rock Island Lines, Chicago.

Thursday's program, which has been designed to be of particular interest to traffic men, includes the following topics and speakers: "Selling Freight and Passenger Services," by William T. Burns, traffic vice president, Union Pacific Railroad company, Omaha; "Traffic Training Activities," by William R. Cox, western region freight traffic manager, Pennsylvania Railroad company, Chicago; "Traffic Management from the Viewpoint of the User of the Service," by E. G. Plowman, traffic vice president, United States Steel corporation, Pittsburgh; "Practice and Procedure before the Interstate Commerce commission," by Earl B. Smith, vice president and director of traffic, General Mills, Inc., Minneapolis; and "Journalism in the Transportation Field", by Robert J. Bayer, editor of "Traffic World", Chicago.

A field trip to view machine installations at the Great Northern Railway accounting department will follow Friday's talks by Johathan C. Gibson, vice president and general counsel, Atchinson, Topeka and Santa Fe Railway

(more)

company, Chicago; L. J. Kiernan, manager, special services, public relations department, Association of American Railroads, Washington, D. C.; Charles M. Kimball, assistant to the vice president, Southern Railway System, Washington; and W. G. Read, special accountant, Great Northern Railway company, St. Paul.

Safety and other films will be shown at 7:45 p.m. Friday in the center library.

Speakers for the second week of the conference will be Harvey C. Marmaduke, executive department representative, Illinois Central system, Chicago; Daniel P. Loomis, chairman, Association of Western Railways, Chicago; Lawrence W. Horning, vice president, personnel and public relations, New York Central system, New York; Rex R. Manion, maintenance of way engineer, Great Northern Railway company, St. Paul; John E. Goodwin, vice president and executive assistant to the president, Chicago and North Western system, Chicago; B. B. Brownell, chief electrical engineer, electro-motive division, General Motors corporation, La Grange, Illinois; Frank L. Steinbright, superintendent of telegraph, Northern Pacific Railway, St. Paul; Frank L. Murphy, chief engineer, Pullman-Standard Car Manufacturing company, Chicago; K. C. Ingram, assistant to the president, Southern Pacific company, San Francisco; Lou Hosking, general manager, Minnesota Motor Transport association, St. Paul; and K. R. Ferguson, vice president, operations and engineering, Northwest Airlines, Inc., St. Paul.

Robert S. Henry, vice president, public relations, Association of American Railroads, will address the group at the institute's graduation dinner at 6:30 p.m. Wednesday, Oct. 5, at the Campus club, Coffman Memorial union.

The group will arrive at Duluth Thursday, Oct. 6, for an all-day field trip that will include visits to the Duluth Missabe and Iron Range Railway Duluth ore docks and Proctor yard and shop, Duluth harbor facilities, and the Great Northern Railway company Allouez yard and docks, Superior, Wis. A field trip to the Mesabi range to view operations of the Oliver Iron Mining company and handling of ore between the range and lake ports has been planned for Friday.

'UNION NOW' AUTHOR  
WILL LEAD OFF 'U'  
LECTURE PROGRAM

Clarence Streit, author of "Union Now" and former foreign correspondent, will speak on "Reporting of International Affairs" at 1:30 p.m. Tuesday (Sept. 27) at Murphy hall auditorium on the University of Minnesota's Minneapolis campus.

Streit's talk will open the University's fall special lecture series which also will bring to the campus Arthur M. Schlesinger, Jr., associate professor of history at Harvard university, and Margaret Cole, author of several books in the fields of economics and human relations.

Streit covered such assignments as the Riff war and the League of Nations for the New York Times. In his book, "Union Now", published in 1939, he suggested the much-discussed proposal for a federal union of the North Atlantic democracies as the nucleus of a free world government.

Schlesinger, who will speak at 3 p.m. Friday, Oct. 14 in Murphy hall auditorium, received an American Academy of Arts and Letters grant and a Guggenheim fellowship in 1946. His book, "The Age of Jackson", won the 1945 New York Newspaper Guild award for the best book of the year and the Pulitzer prize for history. He is now working on a book, "The Age of F. D. Roosevelt".

Mrs. Cole, honorary secretary of the Fabian society, has collaborated with her husband G. D. H. Cole, in problems of British labor and economics and has lectured to tutorial classes of the Universities of London and Cambridge. She will speak at 3 p.m. Friday, Nov. 4 in the Museum of Natural History auditorium.

MORRILL TO OPEN  
U. OF M. CONVOCATION  
SERIES THURSDAY

Minneapolis, Sept. --President J. L. Morrill of the University of Minnesota will open the University's fall quarter series of weekly convocations with an address at 11 a.m. Thursday (Sept. 29) in Northrop Memorial auditorium.

The fall series of nine convocations, held each Thursday morning in Northrop auditorium, will include a report by University students who visited foreign countries during the summer under the Student Project for Amity Among Nations.

The program, "SPAN Reports on World Affairs", to be presented Nov. 3, will include both discussions and pictures of the students' experiences during their study of social and cultural conditions in England, France, Italy, Austria, Sweden and Columbia.

Henry L. Scott, pianist and humorist who bases his programs on the idea that "a concert should be fun", will appear Oct. 6.

Martin Hall, expatriated by Hitler for his work in the German anti-Nazi underground movement, will speak on "Democratic Goals for Europe" Oct. 13. Hall, an American citizen by naturalization, was educated at the Universities of Marburg, Munich and Berlin, and has been on the faculties of many institutes for international relations since he came to the United States in 1938.

Hodding Carter, well-known publisher of the Delta Democrat-Times, Greenville, Miss., has entitled his Oct. 20 lecture "Is the South That Bad?" During the war, Carter edited the Middle East editions of "Stars and Stripes" and "Yank".

On the campus to keynote a conference on religion in American state universities, Ordway Tead, editor of economic books for Harper and Bros., will

(more)

address the Oct. 27 convocation on "Education and Religion: Their Dynamic Relation". Tead is a lecturer in personnel administration at Columbia university and chairman of the New York City board of higher education.

Addressing the Nov. 10 convocation will be Andrew C. Ritchie, director of the department of painting and sculpture, Museum of Modern Art, New York City.

U. S. Senator Estes Kefauver of Tennessee, author of "20th Century Congress", will speak Nov. 17. Kefauver, a member of the House of Representatives for 10 years, who was elected to the Senate in 1948, worked on the legislative reorganization act of 1946.

Spanish and Latin-American music and dancing will be presented by Teresita and Emilio Osta at the Dec. 3 convocation.

Most of the convocations will be preceded by a half-hour of organ music played by Arthur B. Jennings.

A preview of each convocation will be broadcast at 2:10 p.m. each Wednesday over KUOM, the University radio station, which will also broadcast the actual convocations.

'U' ARCHEOLOGISTS EXPLORE ANCIENT  
INDIAN VILLAGE SITE NEAR SLAYTON

Minneapolis, Sept. --Excavations made by University of Minnesota archeologists on the site of an early Indian village near Slayton this summer, yielded so much information that Dr. Lloyd A. Wilford, associate professor of anthropology at the University, who headed the group, plans to go back again for more extensive digging.

The site, once an island in a big lake, now a slough, southeast of the town, is believed by Wilford to have been the village of Indians belonging to the first wave of the Mississippi group to come to Minnesota.

Dr. Wilford, who guided the field trip to various historical spots in Minnesota, said that these Mississippi Indians were preceded in Minnesota by the Woodland Indians. The Indians who lived on the Slayton site, he said, might have been Omahas from northwestern Iowa or eastern Nebraska.

Wilford said that one of the reasons for believing that these were early Mississippi Indians was that pottery found on this site was of a later date than that made by the Woodland group. A curious twist was given to the pottery discoveries here, however, when pieces of various kinds of pottery were found, which would suggest that these Indians had been extensive traders and that the pottery had been left there by their visitors.

"The inhabitants of this island," Wilford said, "were probably more interested in fishing than in hunting and were probably a farming culture." He explained that many fish bones had been found in the two-foot deep excavations, as well as a number of scrapers and knives that he believed were primarily used for scraping hides for clothing.

Wilford and two University graduate students, Roger R. Thompson of Hopkins and Hubert Smith of Minneapolis, left Minneapolis in June for the archeological

(more)

expedition that took them to several spots in the Lake Mille Laes area, Frazee near Detroit Lakes, and Calhoun lake northeast of Willmar. The group traveled by truck and camped at the sites of their excavations, cooking their own meals. The expedition is an annual University course in archaeology.

The two and one-half months' trip, however, did not bring the exact results that Wilford had hoped for--the discovery of pottery remains in horizontal layers in the earth so that the dates of various kinds of pottery could be established.

But, while he was looking for pottery at Mille Laes lake and nearby Lake Onamia, Wilford found many arrowheads, both the older common stemmed arrowhead and the small triangular point of the Mississippi culture. At one site, 26 arrowheads were found in a 10 by 20-foot area.

Although two kinds of pottery were found in that vicinity, they were found on different sites, thus the dates could not be definitely ascertained.

The Mille Laes area yielded another discovery, Wilford said, when the bones of a Sioux Indian, probably fallen during a battle between the Chippewa and Sioux some 150 to 200 years ago, was found near an old schoolhouse at Kathio. Wilford said that the man was undoubtedly a Sioux because the later Chippewa wore white clothing, and no evidence of white clothing was found among the remains. He explained that the man must have died in battle because the Sioux did not bury their dead in the flesh and these bones were found in correct anatomical order. The Sioux usually waited for the bodies to decompose and buried the bones in a bundle.

Wilford said that two mounds were opened at Frazee, near Detroit Lakes. One contained four unerupted six-year molars of a child and a flattened piece of pottery. The other, nearby, produced three burials, apparently from different periods because the remains were discovered in layers. While the group was at Frazee, they were assisted by Otto Zeck, Detroit Lakes, of the Becker County Historical society.

At Calhoun lake, northeast of Willmar, late Sioux stone scrapers and knives were found on a village site.

Wilford said that most of the sites explored were dug to a depth of about two feet.

'U' FILM SOCIETY  
TO OFFER SERIES  
OF SIX PICTURES

A program of six foreign films, plus a special experimental film that won the Venice film award, will be presented this fall by the University of Minnesota Film society.

"Storm in a Teacup", an English film with Vivien Leigh and Rex Harrison taking the principal parts, will open the series Wednesday, Oct. 5.

Two performances of each of the seven films, at 4 and 8 p.m., will be held in Northrop auditorium on the University Minneapolis campus.

The experimental film, "Dreams That Money Can Buy", directed and produced by the moviemaker and abstract painter Hans Richter, will be presented Wednesday, Nov. 9. It is based on a series of subconscious reveries, with some of the suggestions for these reveries coming from a group of artists including Fernand Leger, Man Ray, Marcel Duchamp, and Alexander Calder. The film, which deals with visualizations in color of mental images, won the Venice film award for the best original contribution to the progress of cinematography.

A French film, "The Eternal Return", directed by Jean Cocteau, will be shown Wednesday, Oct. 19. The story is a modernized version of the old Anglo-Saxon Tristan and Isolde legend.

"Day of Wrath", produced in Denmark during the German occupation, is set in 17th century Scandinavia, during a period in which the burning of witches was a prevalent custom. The film is scheduled for Wednesday, Nov. 2.

An English and Italian comedy romance, "A Yank in Rome", will be shown Wednesday, Nov. 16.

A semi-historical film produced by Sacha Guitry, French playwright and actor, has been scheduled for Wednesday, Nov. 30. The film, "Pearls of the

(more)

Crown", traces the history of seven great pearls, four of which now adorn the crown of Britain's king.

Last of the series will be "Professor, My Son", an Italian film, with Aldo Fabrizi, star of "Open City", playing the leading role. It will be shown Wednesday, Dec. 7.

Tickets for the performances, with the exception of "Dreams that Money Can Buy", may be bought singly at 60 cents or in blocks of six at \$3.25 at the Downtown ticket office, Minneapolis; Field-Schlick, St. Paul; Wesbrook hall, University Minneapolis campus in advance of the performances. Faculty members may purchase tickets at the University Campus club.

Block tickets may be used for any one regular show or may be used singly, and may be purchased only in advance. Single tickets may be bought at the Northrop box-office at showtime.

Admission to "Dreams that Money Can Buy" will be by special tickets that can be purchased for 60 cents at the regular places. Box or single tickets to the regular series will not be good for this film.

SEPT. 23, 1949  
FOR IMMEDIATE RELEASE

Registration for the nearly 350 University of Minnesota general extension division evening courses, including instruction in a number of new subjects, will close at 5 p.m. Saturday. (Sept. 24)

Because of interest in the state created by the Minnesota Territorial Centennial this year, evening courses have been added on "Minnesota and the Northwest", "Government of Minnesota", "The American Indian" and "American English".

The engineering program includes new courses in the pressworking of metals, product engineering, basic engineering statistics and automotive engines.

A general introduction to the physical sciences is offered in a new course, "Introduction to Physical Sciences", for persons who do not plan to specialize in physics.

New among the general culture courses are "Foundations of National Power", which surveys the present and potential strength of major world powers, and "History of Architecture Survey".

Registration may be made at 500 Robert street, St. Paul, 57 Nicholson hall, University Minneapolis campus, and 690 Northwestern Bank building, Minneapolis.

All of the offices will be open from 12 noon to 8:15 p.m. Friday. The downtown offices will be open from 8:30 a.m. to 5 p.m. Saturday, and the campus offices will be open from 8 a.m. to 5 p.m. Saturday.

Classes will begin Monday. (Sept. 26)

SURGEON TO KING  
GEORGE OF ENGLAND  
WILL VISIT U. OF M.

Minneapolis, Sept. --Sir James R. Learmonth, surgeon to the King of England, who performed the recent leg operation on King George VI, will visit the University of Minnesota's medical school next Thursday (Sept. 29).

Sir James, who is regius professor of surgery at the University of Edinburgh, Scotland, will present a surgical clinic in the medical sciences amphitheater at the University at 3 p.m. Thursday. He will be entertained by the University's medical faculty at a luncheon in Coffman Memorial union Thursday noon.

No stranger to Minnesota, the noted surgeon was a fellow in the Mayo Foundation of the University of Minnesota at Rochester in 1924 and 1925, and served as associate neurological surgeon in the Mayo Clinic and assistant professor of surgery in the Mayo Foundation from 1928 to 1932.

He will visit Rochester before coming to the University of Minnesota.

'U' 2-YEAR DRAFTING  
COURSE ATTRACTS  
CAPACITY CLASS

Minneapolis, Sept. --With the maximum limit of 60 students already signed up for the program, the two-year technical aid course in engineering drafting being offered for the first time this fall by the University of Minnesota's institute of technology has been closed to further registration, Athelstan F. Spilhaus, dean of the institute, reported Friday (Sept. 23).

The new course is being presented by the University for men and women who do not wish to spend the time to prepare themselves as professional engineers. High school graduation and two years of high school mathematics are admission requirements.

Students completing the six-quarter program will be trained primarily for positions as engineering draftsmen but also will be qualified for other jobs such as assistants to production supervisors, inspectors and aids in engineering and contractors' offices.

A certificate of technical aid will be awarded students upon completion of the 96-credit course in engineering drafting, practical mathematics, shop operations and English.

Registration for the course on a limited basis may be reopened after the fall quarter, Dean Spilhaus indicated Friday. He also hinted that the institute of technology may offer two-year technical aid courses in other fields in the near future.

Minneapolis, --Winners of five Minnesota Medical foundation \$500 scholarships were announced Tuesday (Sept. 27) by Dr. Wesley W. Spink, professor of medicine at the University of Minnesota, chairman of the foundation's scholarship committee.

The five recipients, all students in the University's school of medicine, are: Mildred L. Schaffer, Clayton, Wis., junior; John W. Anderson, Litchfield, junior; Edward G. Huppler, 3642 Park ave., Minneapolis, sophomore; Norman A. Nelson, 3022 Longfellow ave., S., Minneamolis, senior; and Alan R. Hopeman, Moorhead, senior.

Granted for the 1949-50 school year for the first time, the awards are based on both scholarship and need.

The Minnesota Medical foundation is an organization of alumni and friends of the University school of medicine. Dr. Owen H. Wangensteen, chief of the school's surgery division, is president of the foundation which is affiliated with the Greater University fund.

Purposes of the foundation are to improve the undergraduate, graduate and research functions of the University's medical school and to establish scholarships, lectureships and research and student loan funds.

The University of Minnesota general extension division has extended to Saturday (Oct. 1) registration for several of its new evening courses offered this fall. Registration for other evening courses closed Saturday, Sept. 24.

All evening courses begin this week.

Courses for which registration has been extended are:

"Product engineering", designed for persons engaged in machine design and development and product design and manufacturing. The course will meet from 7 to 10 p.m. every Tuesday in room C207, Mechanical-Aeronautical engineering building on the Minneapolis campus.

"Integral calculus", meeting at 7 p.m. Mondays in 227 Main engineering building, Minneapolis campus.

"Ceramic sculpture", which will meet from 7 to 9:30 p.m. Tuesdays in 10 Jones hall, Minneapolis campus.

"Efficient reading", at 6:20 p.m. Wednesdays in 101 Nicholson hall, Minneapolis campus.

"German for graduate students", with courses for both students who have studied German before and students who have had no previous work in the language. Both classes will meet at 6:20 p.m. Mondays in Folwell hall on the Minneapolis campus.

"French for graduate students", also with beginning and advanced classes, at 6:20 p.m. Mondays in Folwell hall.

"Current problems in bankruptcy, receivership and reorganization", dealing with the collection, administration and distribution of insolvent estates, which will meet from 4:20 to 6 p.m. Wednesdays in 620 Northwestern bank building, Minneapolis.

"World organization", meeting at 6:20 p.m. Thursdays at the St. Paul

(more)

extension center, 500 Robert street.

"Beginning German", meeting at 8:05 p.m. Tuesdays in the St. Paul extension center.

"Seminar in writing", which will meet from 6:20 to 8 p.m. Wednesdays in 203 Folwell hall. The class will be taught by Morgan Blum, who was formerly on the staff of the University of Indiana.

Registration may be made at 57 Nicholson hall on the Minnesota campus; the St. Paul extension center; and 690 Northwestern bank building, Minneapolis.

UNIVERSITY OF MINNESOTA  
NEWS SERVICE  
SEPT. 28, 1949  
FOR IMMEDIATE RELEASE

Minneapolis, Sept. --Articles by Lionel Trilling, professor of English at Columbia university, and Max Lerner, recently appointed to the faculty of Brandeis university, appear in the fall issue of the "American Quarterly", published by the University of Minnesota Press.

Lerner's article, "History and American Greatness", deals with the background of America's sense of its own greatness and vitality. Trilling discusses "Contemporary American Literature in Its Relation to Ideas", in which he expresses the opinion that the ideas of liberal democracy have not "infused with force and cogency the literature that uses them."

Minnesotans whose work appears in the article are Lowry Nelson, professor of rural sociology at the University of Minnesota, and Tremaine McDowell, professor of English at the University. Nelson wrote on "The American Heritage", and McDowell reviewed Robert E. Spiller's "Changing Patterns in American Civilization".

Among other contributors to the fall issue are the historian Peter Viereck; Oliver Larkin, professor of art at Smith college; and Harry Levin, professor of comparative literature at Harvard university.

McDowell and Theodore C. Blegen, dean of the University of Minnesota graduate school, are among the members of the new board of advisers announced in this issue. Blegen is the adviser for history and McDowell for American studies.

Albury Castell, formerly of the University of Minnesota and now of the University of Oregon is the adviser for philosophy; and Ralston Crawford, New York, guest artist at the University of Minnesota last year, is the adviser for painting.

Other advisers are Lerner; Stuart Chase, Georgetown, Conn.; Aaron Copland,

(more)

Palisades, N. Y.; A. Whitney Griswold, Yale university; Earl J. McGrath, Washington, U. S. commissioner of education; Perry Miller, Harvard university; Richard H. Shryock, Johns Hopkins university; Wallace Stegner, Stanford university; and W. Lloyd Warner, University of Chicago.

The "American Quarterly", which began publication in March, 1949, for the University's program in American studies, was conceived by Professor McDowell, chairman of the program.

UNIVERSITY OF MINNESOTA  
NEWS SERVICE  
SEPT. 28, 1949  
FOR IMMEDIATE RELEASE

Minneapolis, Sept. --University of Minnesota officials have been informed by the Veterans Administration that they may continue their usual procedure in regard to tuition and fees of veterans.

Under the new 1-A general instructions, which were to have gone into effect Sept. 12, all veterans applying for college work or planning to change their courses would have had to get new certificates of eligibility from the Veterans Administration. The new regulation required that the veteran prove his course was essential to his employment. Courses of a hobby or recreational nature were specifically restricted.

Francis P. Coughlin, director of the University's bureau of veterans affairs, said he had received a copy of a telegram from the Veterans Administration in Washington postponing until Nov. 1 the date the new instructions will go into effect.

He said the University had been in constant touch with Veterans Administration officials since the new ruling, affecting primarily veterans beginning or re-entering school, was received. Many college and university students, he said, were unintentionally handicapped by delay in processing their records and difficulty in interpreting the ruling.

He said the extension of the date that the new ruling will go into effect means that the University can register as previously veterans with acceptable educational objectives.

Coughlin suggested that students whose requests for amended certificates enabling them to continue their studies had been held up, re-apply to the regional office of the Veterans Administration, Fort Snelling. He said that this follow-up request must come from the veteran, himself, because requests made before the extension of the effective date are not identifiable by the Veterans Administration now and that the University has no way of knowing which persons have been temporarily affected by the Sept. 12 ruling.

CONFERENCE ON RELIGION IN STATE  
UNIVERSITIES WILL OPEN OCT. 27

Minneapolis, Sept. --Dr. Ordway Tead, editor of social and economic books for Harper and Bros., will open the Conference on Religion in State Universities, when he addresses a general University of Minnesota convocation audience at 11 a.m. Thursday, Oct. 27 in Northrop Memorial auditorium.

Dr. Tead will speak on "Education and Religion: Their Dynamic Relation."

The conference, with educational leaders of major church groups and representatives from several state supported institutions of higher education attending, will be held from Oct. 27 through 29 at the University Center for Continuation Study. It will be the first such conference to be held under the auspices of a state university.

A \$2,500 grant from the Edward W. Hazen Foundation of New Haven, Conn., made the conference possible.

Included on the program will be workshop sessions as well as lectures and panel discussions.

Addressing the group will be Professor Clarence P. Shedd of Yale university, who will speak on "Religion and Public Higher Education: History of their Relationships" at 1:30 p.m. Thursday, Oct. 27 and George M. Shuster, president of Hunter college, who will discuss "Religion and Training the Student for Citizenship" at 9:30 a.m. Saturday, Oct. 29. Both lectures will be given in the Center for Continuation Study chapel.

"Religion in Public Higher Education" will be the topic of a panel discussion at 7:30 p.m. Thursday, Oct. 27 in the Museum of Natural History. On the panel will be Dr. Samuel McCrea Cavert, general secretary of the Federal Council of Churches of Christ in America; Professor James Luther Adams, Meadville Theological school, Chicago; the Rev. Edward Duncan, National

(more)

Catholic Welfare conference; and Rabbi Albert G. Minda, of Temple Israel, Minneapolis.

Chaplain R. J. Sherry of the U. S. Army Chaplain school and Professor Carroll A. Wise of the Garrett Biblical institute will discuss "Religion as a Constructive Influence in Counseling" at 1:30 p.m. Friday, Oct. 28 in the center chapel.

Participating in a panel discussion on "Spheres of Church and State in Higher Education" will be the Hon. Edward F. Waite, retired Minneapolis district court judge; Leo Pfeffer, assistant director of the American Jewish congress; and J. Hillis Miller, president of the University of Florida. The panel will be held at 7:30 p.m., Friday, Oct. 28, in the Museum of Natural History.

The concluding panel discussion at 10:30 a.m. Saturday, Oct. 29, in the center chapel will be given by speakers from previous discussions.

Workshop sessions, scheduled for the first two days of the conference, will deal with religion in the curriculum, religious activities and religious counseling.

SEPT. 29, 1949  
FOR IMMEDIATE RELEASE

Minneapolis, Sept. --Dr. Louis Weinstein, chief of the department of infectious diseases at Massachusetts Memorial hospital, Boston, will be on the faculty of the continuation course in infectious diseases Oct. 3-5 at the University of Minnesota's Center for Continuation Study.

Dr. Weinstein will discuss the pneumonias and the current concepts of the common cold and influenza.

The remainder of the faculty for the course will be made up of clinical and full-time staff members of the University medical school and the Mayo foundation, Rochester, a branch of the University graduate school.

Among the subjects to be taken up in the course are laboratory facilities needed by and available to the practicing physician for the diagnosis of infectious diseases, immunization procedures, chemotherapy, and antibiotics, rheumatic fever, virus diseases and poliomyelitis.

Enrollment in the course, intended for general physicians, will be limited.

The Center for Continuation study, a part of the University's general extension division, was established in 1936 to extend University facilities to persons in specialized fields. It has enrolled 40,252 registrants in more than 800 continuation courses.

ENGLISH COMEDY  
WILL BE SHOWN  
AT 'U' WEDNESDAY

The English comedy film, "Storm in a Teacup", will open the fall program of the University of Minnesota Film society, with showings of the film at 4 and 8 p.m. Wednesday (Oct. 5) at Northrop Memorial auditorium.

This will be the University's second showing of the film because it proved so popular when it was presented to a summer session audience.

The comedy with Vivien Leigh and Rex Harrison taking the principal parts, is about the storm that arose over Patsy, a dog whose owner couldn't afford to pay for his license. The tempest, beginning in a small Scottish town, eventually becomes a national issue.

Other films to be shown during the fall season are "The Eternal Return", Oct. 19; "Day of Wrath", Nov. 2; "A Yank in Rome", Nov. 16; "Pearls of the Crown", Nov. 30; and "Professor, My Son", Dec. 7. All will be on Wednesdays.

An experimental film, "Dreams that Money Can Buy", will be shown at 4 and 8 p.m. Wednesday, Nov. 9. The film is based on a series of subconscious reveries suggested by prominent contemporary artists.

ORGANIST TO PLAY  
RECITAL IN NORTHROP  
FRIDAY EVENING

Edward Berryman, instructor in organ in the University of Minnesota music department, will be heard in a recital of organ music by masters of the 16th, 17th and 18th centuries at 8:30 p.m. Friday (Oct. 7) in Northrop Memorial auditorium.

The recital will be the first in a series of four, in which Berryman will play organ music from 1550 to the present. One of the programs will be devoted entirely to the works of Bach.

Among composers whose works Berryman will play Friday are Andrea Gabrieli, Jan Pieterzon Sweelinck, Louis Marchand, Domenico Zipoli and William Croft.

Dates of the other recitals are Friday, Feb. 3, Thursday, Feb. 23, and Friday, April 21, 1950.

There will be no admission charge for any of the concerts.

PIANIST TO PLAY  
AT 'U' CONVOCATION  
THURSDAY AT 11

A combination of both humorous and serious music will be presented by pianist Henry L. Scott at the University of Minnesota's second fall convocation at 11 a.m. Thursday (Oct. 6) in Northrop Memorial auditorium.

Scott, who received his musical training at the college of fine arts, Syracuse university, plays seriously music by Chopin and Liszt as well as entertaining his audiences with such antics as playing the piano while wearing mittens.

Scott produced and played a leading role in "Concerto for Fun", a recent Broadway review.

Convocation speakers scheduled for the balance of the University's fall quarter are Martin Hall, expatriated by Hitler for his work in the German anti-Nazi underground movement, Oct. 13; Hodding Carter, well-known publisher of the Delta Democrat-Times, Greenville, Miss., Oct. 20; Dr. Ordway Tead, editor of social and economic books for Harper and Bros., Oct. 27; Andrew C. Ritchie, director of the department of painting and sculpture, Museum of Modern Art, New York City, Nov. 10; and U. S. Senator Estes Kefauver of Tennessee, Nov. 17.

University students who visited foreign countries during the summer under the Student Project for Amity Among Nations will report on their studies at the Nov. 3 convocation.

The fall series will end with a program of Spanish and Latin-American music and dancing by Teresita and Emilio Osta Dec. 3.

KJOM, the University of Minnesota radio station, will broadcast a preview of each convocation at 2:10 p.m. Wednesdays. The actual convocations will also be broadcast.

LANGUAGE, CLASSICS  
TEACHERS TO HOLD  
CONFERENCE AT 'U'

Minneapolis, Oct. - Five-hundred college teachers of English, foreign languages and the classics will attend the fall Conference for College Teachers of Languages and Literature Friday and Saturday, Oct. 21 and 22, at Coffman Memorial union on the University of Minnesota Minneapolis campus.

The group, made up of teachers from Minnesota, southern Manitoba, western Wisconsin, northern Iowa and the eastern Dakotas, will discuss the aims, methods and values of the college teaching of languages and literature.

One of the chief speakers will be Robert Penn Warren, professor of English at the University and author of the Pulitzer prize novel, "All the King's Men". Warren will speak at a luncheon session at 12:30 p.m. Saturday, Oct. 22.

The conference will open at 1 p.m. Friday, Oct. 21, with a talk, "Logic in the Humanities", by Norman J. DeWitt, chairman of the department of classics at the University and editor of "The Classical Journal". Also speaking at the opening session will be Frank H. Wood, chairman of the department of German at the University and Whitney J. Oates, Ewing professor of Greek, chairman of the department of classics and chairman of the special program in the humanities at Princeton university. Wood will speak on "The 'New Criticism' and the Teaching of Foreign Poetry", and Oates will discuss "The Value of Classical Study".

Among those who will participate in panel discussions are Charles L. Stevenson, professor of philosophy at the University of Michigan; Arthur Mizener, chairman of the department of English at Carleton college; Ray B. West, Jr., professor of English at the State University of Iowa; and Magne Skodvin, University of Oslo, visiting lecturer in the Scandinavian area studies at the University of Minnesota.

Minneapolis, Oct. - The University of Minnesota college of education will be host to the Philosophy of Education society's regional conference Friday and Saturday, Oct. 21 and 22.

Theme of the conference will be "Democracy in Education", selected in recognition of educational philosopher John Dewey's contribution to education and his 90th birthday, Oct. 20. Dewey taught at the University as a professor of philosophy in 1888-9.

George E. Axtelle, president of the society and chairman of the department of history and philosophy of education at New York University, will open the conference at a special education convocation at 9 a.m. Friday, Oct. 21, in Burton auditorium. Axtelle will speak on "Experimentalism: The Democratic Way out of Educational Confusion."

Axtelle will speak again on "John Dewey's Chief Contribution to American Education" at a noon luncheon Friday, Oct. 21 in room 307 Coffman Memorial union.

Speaking to the group at a noon luncheon Saturday, Oct. 22 in room 307 Coffman Memorial union will be Wesley E. Peik, dean of the University college of education. Dr. Peik will summarize the reports from sectional meetings held Friday afternoon and Saturday morning.

Among the subjects to be discussed at the sectional meetings will be democracy and conflicting philosophies of education, discipline and freedom in the classroom, democratic values and education and experience and education.

U. OF M. BUILDING EXPERT OFFERS  
"WARM TIPS" TO HOMEOWNERS

Minneapolis, Oct. - While many Minnesotans are thinking chiefly about football and hunting at this time of the year, homeowners are thinking about the cold winter ahead. And they are wondering how to keep warm in their homes and at the same time conserve fuel.

If you are one of those homeowners with cold worries on your shoulders, why not take some "warm tips" from Dr. Frank B. Rowley, director of experimental engineering and head of the mechanical engineering department at the University of Minnesota.

Dr. Rowley offers as one of the easiest and most inexpensive ways to conserve fuel, the reduction of inside air temperatures of houses to lower than 70 degrees. This can be done either continuously or by maintaining these lower temperatures during the night hours and periods of physical activity.

The amount of saving achieved by reduced temperatures is dependent both upon the inside temperature and the number of hours per day the lower temperature is maintained, as well as the average outside temperature during the heating season, according to Dr. Rowley.

"But if you want to keep your inside temperature 70 degrees or higher, there are other ways to conserve fuel," Dr. Rowley said.

One of these methods is the use of reflective shields between the radiators and outside walls. Instead of the radiators overheating the adjacent wall surfaces by radiant heating and thereby increasing the heat losses through such wall sections, the shield will throw the heat back into the room before it can be absorbed by the wall.

Contrary to popular opinion, the use of fireplaces in cold weather does not always add enough heat to make it worthwhile. Dr. Rowley explained that while fireplaces add heat, they also take heat out of the rooms and cause cold drafts. Large volumes of heated air must be drawn from the heated rooms in order to maintain proper chimney draft and to supply the necessary oxygen for the combustion of the fuel burning in the fireplace.

(More)

Dr. Rowley warned that when the fireplace is not in use, the damper should always be kept closed so that warm air from the room does not go up the flue.

From 20 to 30 per cent heat loss can be saved by insulation. Insulating the attic floor is the cheapest way, but further heat loss can be prevented by also insulating the side walls.

"Homeowners can reduce heat loss as much as 60 per cent in the areas insulated," Dr. Rowley said.

A very easy, but seldom used, way to reduce heat loss, according to Dr. Rowley, is by pulling the curtains or blinds over glass windows.

"The amount of heat lost through glass windows is approximately 20 to 30 per cent of the total in the average residence," Dr. Rowley said. He pointed out, however, that because of the disadvantage of the darkness caused by the blinds or curtains being pulled, they should be kept down during the night hours and perhaps only half pulled during the daytime hours. In the rooms not used during the daytime, blinds and curtains should be fully pulled at all times, he further added.

Other ways to reduce heat loss are by weather stripping and storm windows.

Dr. Rowley also added a word about the moisture problem. "The reason for dry air in the winter," he explained, "is because when outside air is very cold, it has little moisture. "However," he added, "you can also get too much humidity in the house by artificial means."

Trouble results when there is too much moisture. Condensation forms on the windows, runs down, and causes the paint on the window sills to peel. The extra moisture also gets in between the walls and freezes. When warm weather comes again, the water between the walls melts and comes through on the wall decorations.

An interesting comment by Dr. Rowley regarding the moisture problem, was that the pans of water on radiators seen in many homes, have practically no effect on adding humidity to the room. Since the pans are placed on top of the radiators, they do not receive very much heat, and consequently, very little evaporation results.

U. OF M. ATTENDANCE  
REPORTED 25,084;  
10,639 VETERANS

Minneapolis, Oct. - University of Minnesota attendance for fall quarter totals 25,084 including 10,639 veterans of World War II enrolled under government benefits, True E. Pettengill, University recorder, announced Monday (Oct. 10).

The attendance figure represents a decrease of 2,159 from last year's fall quarter total of 27,243 and is 3,228 below the University's peak enrollment of 28,312 recorded fall quarter of 1947. All figures are for the close of the second week of the term.

Pettengill pointed out that the actual attendance figure stands only slightly lower than the University's official estimate which predicted a total of 25,500, including 23,500 students on the St. Paul and Minneapolis campuses combined, and 2,000 at the Duluth Branch. Actual total this quarter for the Twin Cities campuses is 23,168, including 9,941 veterans while the Duluth Branch rang up a total of 1,916 of whom 698 are veterans.

Veteran attendance, which reached a high of 16,736 in 1947, dropped off sharply last year to 14,810 and again this fall, and more than accounted for this year's decrease in total attendance, according to the recorder. However, approximately one-half the 4,171 slump in veteran attendance from a year ago was offset by an increase this fall of 2,012 in non-veteran students.

Fewer new students entered the University this fall than a year ago, 6,122 as compared with 7,252. This year's crop of newcomers is made up of fewer advanced standing and special students and about the same number of entering freshmen as in 1948, Pettengill stated.

(more)

As has been true since the war, men still outnumber women by more than three to one among University of Minnesota students. Of the 25,084 attendance total, 19,135 are men and 5,949 are women. Among the 10,639 veterans on the campuses this fall, 10,286 are men, while 353 are women.

Significant trends in University enrollment seen by Pettengill include the increasing number of juniors and seniors in proportion to freshmen and sophomores and the mounting enrollment in some of the professional schools despite the over-all decline in enrollment.

This fall, 62 per cent of the student body is above the sophomore level compared with 59 per cent last year and 48 per cent in the pre-war year 1939-40, Pettengill pointed out.

University divisions showing attendance increases over a year ago despite the total enrollment drop, he reported, are: the college of agriculture, forestry and home economics, the college of education, veterinary medicine, the medical school, the school of dentistry, the graduate school, the Duluth Branch, medical technology, physical and occupational therapy, the school of public health and the college of pharmacy.

Heaviest attendance, Pettengill announced, is in the college of science, literature and the arts which has 6,831 students on its rolls, the institute of technology with 3,735 students and the graduate school with 3,451.

(more)

Attendance by colleges and divisions for 1948 and 1949 was reported by the recorder as follows:

<u>College</u>	1948		1949

'ETERNAL RETURN',  
FRENCH MOVIE,  
AT 'U' NEXT WEEK

A film based on the Tristan and Isolde love-triangle legend will be presented by the University of Minnesota Film society at 4 and 8 p.m. Wednesday, Oct. 19, at Northrop Memorial auditorium.

The film, "The Eternal Return", is a modernization of the Anglo-Saxon legend and was directed by the French director and poet, Jean Cocteau whose "Beauty and the Beast" was shown at the University last year.

The story deals with the tragedy that results from the love of the wife of a middle aged man and the man's nephew. Playing the leading roles are Jean Marais, who also starred in "Beauty and the Beast", and Madeleine Sologne.

The movie is in French with English subtitles. It is the second in the society's series of six regular films. A special experimental film, "Dreams that Money Can Buy" will be shown Wednesday, Nov. 9.

MANY ACCIDENTS  
DUE TO ATTITUDES,  
EXPERT CONTENDS

Minneapolis, Oct. - When a farmer is injured while driving a tractor, his attitude is more apt to be at fault than a lack of skill in handling his machine.

That is the opinion of Dr. A. R. Lauer, professor of psychology at Iowa State college, Ames, Iowa, who visited the University of Minnesota recently to address the University's short course for motor vehicle fleet supervisors.

Dr. Lauer is driving laboratory director at the industrial science research laboratory at Iowa State and is a pioneer in the field of driver testing.

To illustrate his point that attitudes, or set ways of thinking about something, are the primary causes of accidents, Dr. Lauer cited the hypothetical case of Leonard, typical of the 98 persons involved in farm tractor accidents in Minnesota last year.

"Leonard's new tractor was delivered with all the guards necessary for hitching it to the combine, the picker or other machinery," Dr. Lauer said, "but Leonard considered the guards unnecessary. He had a bad attitude toward guards of any kind. They were troublesome and he didn't care to bother with them.

"Psychologists would say," Dr. Lauer explained, "that Leonard had become conditioned against the guards since their use hampered his freedom by requiring special attention and effort.

(more)

"This feeling of not wanting to be bothered might as well have been directed towards work in general," Dr. Lauer said. "Then Leonard might have followed such inclinations and become a hobo. Instead he lost his leg below the knee when he inadvertently caught the leg of his overalls in the power take-off of a tractor. He traded his leg for an attitude."

The situation is similar in accidents involving all types of vehicles. Dr. Lauer said that large companies have found sixty per cent of their vehicle accidents are the result of poor attitudes.

"Automobile accidents," he said, "happen most frequently to those who are potentially the most capable of keeping out of trouble--youngsters of 18 to 22 years who are most adept at physical skills."

Attitudes that result in accidents, however, are not only those directly related to driving, according to Dr. Lauer. "Attitudes may take a variety of forms relating to politics, religion, races, nationalities, morals, safety and the activity in which the man is engaged," he said.

"Attitudes that make a man indifferent are the most dangerous," Dr. Lauer asserted. "A flagrant violator is often apprehended and placed behind bars, but a mild person who kills people at random is exonerated from blame on the grounds that the deed was unintentional.

"One case came to our attention," he said, "in which a driver had 119 accidents, but still retained his driver's license. Several people were killed or injured by his driving, but it was never his fault."

U. OF M. HOSPITALS  
REPORT BUSIEST  
YEAR IN HISTORY

Minneapolis, Oct. - University of Minnesota Hospitals cared for more patients during the year ending last June 30 than in any previous year, according to the annual report of Ray M. Amberg, hospitals director.

During the year, 10,686 patients were admitted to the hospitals for treatment as compared with 9,721 for the year 1947-48, the previous record year, an increase of 965. The average length of stay per patient was 13.2 days, while the average for the previous year was 14.1 days.

Daily average census for the hospitals for the 12-month period ending June 30, was 386 patients, according to Amberg, an increase of six over the daily average census for 1947-48. Days of hospital care provided during the year covered by the report totaled 141,217 as compared with 136,774 days during the year before, an increase of 4,443 days.

Surgical operations performed in University Hospitals numbered 7,127, an increase of 496 over the 7,603 operations recorded during the previous 12 months.

Visits to the hospitals' out-patient department during the year showed an increase of 5,230 over 1947-48. Total patient visits for 1947-48 were 90,556, while 95,786 patients visited the department for diagnosis and treatment in 1948-49.

The psychopathic department of University Hospitals admitted 332 patients during the last year as against 309 patients the year before, Amberg said. Patients in the psychopathic division used 8,544 days of care in 1948-49 and 10,093 days during 1947-48.

(more)

Although a slight decrease in cost per patient visit was recorded in the out-patient department during 1948-49, the cost of operating the in-patient division showed another decided increase, Amberg reported.

The cost per out-patient visit last year was \$3.43, a decrease of 29 cents from the \$3.72 average for 1947-48. An increase of \$1.25 per patient day, however, was noted in the in-patient department, a rise from \$16.31 in 1947-48 to \$17.56 in 1948-49. In-patient costs were \$9.49 per patient day in 1945-46, and \$12.02 in 1946-47.

"Adjustments in salaries and wages of all hospitals personnel and the increased cost of supplies account for the increase in per hospital day costs," Amberg explained.

"Shortage of personnel continued to handicap the University Hospitals," Amberg stated in his report. "All departments have had a severe struggle to keep the hospitals operating at efficiency. At this time, the chief lack of personnel is apparent in the nursing and housekeeping departments."

University of Minnesota Hospitals were established primarily to furnish a means for the University to train medical students in clinical medicine. This training is given in the hospitals and the out-patient department under the direct supervision and guidance of a staff of full-time and part-time physicians.

The staff is responsible to the state, through the University for both the instruction of students and the care of patients.

"This arrangement," Amberg asserted in his report, "has proved satisfactory, not only in the training of medical students but also as an economical means for the state to care for many of its indigent sick."

Rules of the hospital require that each patient be referred for admission to the out-patient department or the hospitals by his family physician or by a physician in his local community.

Amberg reported that the Variety Club Heart Hospital, now under construction and expected to be open about July 1, 1950, will provide for an additional 80 University Hospitals patients. The Mayo Memorial Medical Center, which will be started in 1950, will contain an additional 175 hospital beds. The addition of these units, he pointed out, will give University Hospitals a total of 705 beds.

'U' PUBLISHES BOOK  
ON LIFE CAREER OF  
GOVERNOR JOHNSON

Minneapolis, Oct. - Both the early life and the political career of Minnesota's first native-born governor are disclosed in a new University of Minnesota Press publication by Winifred G. Helmes.

The book, "John A. Johnson, The People's Governor", traces the governor's history from the Sioux massacre in 1862, which coincided with his second year, to the 1908 Democratic National convention at which Johnson's name was suggested for the presidential nomination.

Johnson, who went to work at the age of 13 to help support his mother, two brothers and a sister, was editor of the St. Peter Herald and was elected governor of Minnesota three times.

In the book, Miss Helmes suggests that had it not been for Johnson's death in 1909, he may have become president of the United States in 1912. She has devoted a substantial portion of the biography to the politics of the early 1900's.

Miss Helmes, who teaches history at Bradford Junior college, Bradford, Mass., received a doctor of philosophy degree from the University of Minnesota.

The book was published Friday (Oct. 14).

COUNTY WELFARE  
WORKERS TO VISIT  
STATE INSTITUTIONS

Minneapolis, Oct. - County welfare workers will visit various state institutions in Minnesota during the University of Minnesota's institute on mental deficiency Monday through Wednesday (Oct. 17-19).

The purpose of the institute, to be held at the University's Center for Continuation Study, will be to give county social workers a better understanding of how to meet the needs of the mentally deficient. The Minnesota Division of Public Institutions is cooperating in presentation of the course.

Tours for those attending will begin at 8 a.m. Monday to the Minnesota school and colony, Faribault, the Owatonna state school, the Cambridge school and hospital and the St. Cloud reformatory annex for defective delinquents.

Tuesday's and Wednesday's programs will include both talks and discussion groups. A panel discussion, "What can we do to help the mentally deficient adjust to the community?" will be held at 9 a.m. Wednesday.

Speaking to the group will be members of the University faculty and personnel from the various state institutions.

The Center for Continuation Study was established in 1936 as a part of the University's general extension division. Since then more than 40,000 persons have attended the Center's courses.

NEW BOOK TELLS  
TALES OF EARLY  
DAYS IN MIDWEST

Minneapolis, Oct. - Vivid tales of adventurous exploration and settlement of the Upper Mississippi Valley have been woven into a narrative history of the region by Theodore C. Blegen in his newest book, "The Land Lies Open", which will be published Friday (Oct. 21) by the University of Minnesota Press.

Noted historian and dean of the University's graduate school, Dr. Blegen is also the author of such volumes as: "Grass Roots History", "Minnesota: Its History and Its People" and "Building Minnesota".

Stories related in "The Land Lies Open" vary from an exciting buffalo and elk hunt to the saga of immigrant farmers who came to the great Midwest and, through hardship, perseverance and toil, became the "people on the land".

Some of the men about whom Dean Blegen writes have famous names---Hennepin, LeSueur, DeSoto, La Verendrye, Carver, Jolliet, men who opened the "channels to the land"---while others were just plain people, unknown to present-day Americans, but makers of history nevertheless.

Published in the year of Minnesota's Territorial Centennial, the book contains a chapter on the origin and early development of the University of Minnesota which will observe its centennial in 1951.

PRINCETON GREEK  
TEACHER TO TALK  
AT 'U' THURSDAY

Whitney J. Oates, Ewing professor of Greek and chairman of the department of classics at Princeton university, will present a special lecture on "The Humanism of Sophocles" at 3 p.m. Thursday (Oct. 20) in the University of Minnesota Museum of Natural History.

Dr. Oates' talk will precede the fall Conference for College Teachers of Languages and Literature Friday and Saturday (Oct. 21 and 22) in Coffman Memorial union on the campus.

Dr. Oates, who is also chairman of the special program in humanities at Princeton, will speak again at the conference's opening session at 1 p.m. Friday. His subject will be "The Value of Classical Study. Others addressing the opening meeting will be Norman J. DeWitt, chairman of the department of classics at the University, who will speak on "Logic in the Humanities"; and Frank H. Wood, chairman of the University's department of German, whose subject will be "The 'New Criticism' and the Teaching of Foreign Poetry."

Robert Penn Warren, professor of English at the University and author of the Pulitzer prize novel, "All the King's Men", will speak on "The Place of Modern Literature in the Curriculum" at a luncheon meeting at 12:30 p.m. Saturday in the Union main ballroom.

Panel discussions on problems relating to specific language and literature fields will be held on both days of the conference.

Attending the conference will be approximately 500 college teachers of English, foreign languages and the classics from Minnesota, southern Manitoba, western Wisconsin, northern Iowa and the eastern Dakotas.

The conference is being sponsored by the language departments of the University.

SOUTHERN LIBERAL  
EDITOR TO SPEAK  
AT 'U' THURSDAY

Minneapolis, Oct. - Hodding Carter, liberal editor of the Delta Democrat-Times in Greenville, Miss., will speak on "Is the South That Bad?" at the University of Minnesota convocation at 11 a.m. Thursday (Oct. 20) in Northrop Memorial auditorium.

Carter, author of two books on the South, "The Winds of Fear" and "Flood Crest", will discuss the good and bad qualities of the South in relation to the world, its own past and its present and future.

Winner of the Pulitzer prize for editorial writing in 1946, Carter also won the Neiman Fellowship for newspapermen in 1939-40, the Guggenheim Fellowship in creative writing in 1945 and the Southern Literary award the same year.

Born in Louisiana, Carter attended Bowdoin college, Maine, and has received an honorary master of arts degree from Harvard and an honorary doctor of letters degree from Bowdoin.

He began his newspaper career and his crusade for a liberal approach to the South's Negro problem on a series of small Southern newspapers. During the war he worked on the Middle East editions of both Yank and Stars and Stripes.

He has recently returned from a two-month tour of South Africa.

Carter's talk is the fourth in the University's fall convocation series. Dr. Ordway Tead, editor of social and economic books for Harper and Bros., will speak on "Education and Religion: Their Dynamic Relations" at the Oct. 27 convocation.

'U' TO OPEN BIDS  
ON ADDITIONS TO  
DULUTH BUILDING

Minneapolis, Oct. - Bids on the construction of two additions to the new science building at the University of Minnesota's Duluth Branch will be opened on the Minneapolis campus Tuesday (Oct. 25), according to Roy V. Lund, the University's assistant supervising engineer.

The two additions will complete the building as it was originally designed. The first phase of the structure, started in September 1948, has been completed and is in use this quarter. It houses laboratories, offices and classrooms and was erected at a cost of \$600,000 derived from an appropriation by the 1947 State Legislature.

Available for the two new additions and their equipment is a \$330,000 appropriation made by the 1949 Legislature. The new construction will provide an auditorium and additional classrooms, office and laboratories.

The science building is the first structure to be built on the new campus site of the Duluth Branch. Architect for the project is A. Reinhold Melander of Duluth.

Bids on a new \$1,250,000 classroom building on the Minneapolis campus will be opened November 9, Lund reported. This structure will be built facing the Mall opposite the administration building and north of the library. Funds for the building were appropriated by the 1947 and 1949 Legislatures. The C. H. Johnston architectural firm of St. Paul is preparing plans and specifications for the project.

RELIGION IN STATE  
UNIVERSITIES TOPIC  
OF 'U' CONFERENCE

Minneapolis, Oct. - Delegates from 25 educational institutions throughout the nation and 15 major religious denominational boards will assemble at the University of Minnesota Thursday through Saturday (Oct. 27-29) for a Conference on Religion in State Universities.

The conference, the first of its kind to be initiated by a state university, will begin with the University's regular convocation at 11 a.m. Thursday (Oct. 27) in Northrop Memorial auditorium. Dr. Ordway Tead, editor of social and economic books for Harper and Bros., New York, will speak.

Dr. Tead, who will speak on "Education and Religion: Their Dynamic Relation", is chairman of the board of higher education of New York city and chairman of the board of Briarcliff Junior college. He is the author of a number of books in the field of economics.

The conference was made possible by a \$2,500 grant from the Edward W. Hazen Foundation of New Haven, Conn.

Professor Clarence P. Shedd of Yale university will discuss "Religion and Public Higher Education: History of their Relationships" at a meeting at 1:30 p.m. Thursday in the chapel of the Center for Continuation study.

Workshop sessions will be held at 2:30 p.m. Thursday and at 9:30 a.m. and 2:30 p.m. Friday in the Center for Continuation Study. Subjects to be discussed will be religion in the curriculum, religious activities and religion and counseling.

(more)

The Thursday evening meeting of the conference will be devoted to a panel discussion on "Religion in Public Higher Education", beginning at 7:30 p.m. in the Museum of Natural History auditorium. On the panel will be Dr. Samuel McCrea Cavert, general secretary of the Federal Council of Churches of Christ in America; Professor James Luther Adams, Meadville Theological school, Chicago; the Rev. Edward Duncan, National Catholic Welfare conference; and Rabbi Albert G. Minda, of Temple Israel, Minneapolis.

"Religion as a Constructive Influence in Counseling", will be discussed by Chaplain R. J. Sherry, U. S. army chaplain school, and Professor Carroll A. Wise, Garrett Biblical institute, at 1:30 p.m. Friday in the Center for Continuation Study chapel.

Friday evening's panel discussion, beginning at 7:30 p.m. in the Museum of Natural history auditorium, will be on "Spheres of Church and State in Higher Education". Those speaking will be the Hon. Edward F. Waite, retired judge of the Minneapolis district court; Leo Pfeffer, assistant director of the American Jewish congress; and President J. Hillis Miller of the University of Florida.

President George N. Shuster of Hunter college, New York, will discuss "Religion and Training the Student for Citizenship" at 9 a.m. Saturday at the Center for Continuation Study.

The concluding panel discussion at 10 a.m. Saturday will be led by speakers of the previous sessions.

STORY OF JEWS IN  
MINNEAPOLIS TOLD  
IN RABBI'S BOOK

Minneapolis, Oct. - The story of the Jews in one American community, Minneapolis, is related by a former Mill City rabbi, Albert I. Gordon, in a book to be published Wednesday (Oct. 26) by the University of Minnesota Press.

Rabbi Gordon's book, "Jews in Transition", is a study of the changes which have occurred in the beliefs, practices and institutions of the European Jews who began settling in Minneapolis in 1866. It points out and explains the alterations in the original culture patterns of the Jews which have resulted from contact with the cultures of other peoples.

"Since the year 586 B.C.E., when the kingdom of Judah was conquered by the Babylonians," Rabbi Gordon states in the preface to his new book, "Jews have lived in all lands other than their own. As a people they have held steadfastly to certain ways of thinking concerning God and man. These ways have set them apart from other peoples and religions. As a minority, however, they have been obliged to adapt some phases of their life and thought to the culture of the people in whose lands they have lived. They would otherwise have long ago ceased to exist as a people."

Rabbi Gordon spent 16 years gathering material for his book. From 1930 to 1946, he served as the rabbi of Adath Jeshurun synagogue in Minneapolis. He does not assume that the Jewish community in Minneapolis is typical of all American-Jewish communities, but he does believe that certain trends in thought and action which characterize the Minneapolis Jewish group will be found in other American-Jewish communities as well, in varying degree.

At present, Rabbi Gordon is executive director of the United Synagogue of America.

'U' BAND TO MAKE  
FIRST AIR TRIP  
FOR MICHIGAN GAME

Minneapolis, Oct. - The University of Minnesota band will make its first air trip Saturday (Oct. 22) when 115 band members travel by plane to Ann Arbor, Mich., for the Gopher-Wolverine football game.

Two planes, leaving Minneapolis at 7:30 a.m., will carry the band members and their instruments.

With the band will be its conductor, Gerald R. Prescott, bandmaster and associate professor of music; George Freeman and Robert Auperle, assistant conductors; and Paul M. Oberg, chairman of the music department.

At the Michigan game, the band will put on a "Big Ten Revue".

The band members, who will be the guests of the Michigan band at a party Saturday night, will return to Minneapolis by plane Sunday (Oct. 23).

'U' LIBRARY INSTALLS  
NEW LIGHTS, BOOK  
CONVEYOR SYSTEM

Minneapolis, Oct. Students using the more than one and one-half million books in the University of Minnesota library discovered this fall that it took them less time to get their books than it would have last spring. They also found that a new lighting system made the library's reading rooms as efficient as any modern business office.

During the summer new lights were installed in three of the library's large reading rooms. Also installed were conveyors, both to send messages to the 12 stack floors, where the books are stored, and to send books from the stack floors to the library's main desk.

The student who asks for a book at the library's main desk no longer has to wait for a page to climb numerous steps to the proper stack floor to get the book for him. Instead, the pages are stationed on the stack floors, and requests for books are sent to them through a pneumatic tube. The page sends the book to the main desk by way of a conveyor belt, equipped with metal baskets, which runs the entire height of the 12 stack floors. To return the books to the stack floors, the librarians at the main desk merely set the conveyor belt for a certain level and the books are automatically dropped off there.

The library's new lighting system has given the reading rooms a more than 400 per cent improvement in general lighting. In the reserve room on the main floor, three rows of fluorescent lights, extending the entire length of the room, have increased the lighting from five or six foot candles to more than 20 foot candles. In the reference room and the periodical room on second floor, where the ceilings are more than two stories high, two flood lights have been installed in each ceiling lighting fixture, increasing the lighting five or six times to approximately 20 foot candles.

TRENDS IN FRENCH  
MOVIES SUBJECT OF  
'U' LECTURE NOV. 3

A lecture on "Present-Day Trends in French Movies", illustrated by excerpts from current French films, will be presented at 3 p.m. Thursday, Nov. 3, in the Museum of Natural History auditorium on the University of Minnesota campus.

Speaking will be J. R. Debrix, assistant director of the Institute of Higher Cinematographic Studies in France, Europe's first institution of higher learning devoted to the study of the film.

Debrix will show excerpts from such films as "Monsieur Vincent", "Le Diable au Corps", "La Symphonie Pastorale" and "Le Petit Soldat", preceding each film with a commentary.

He will speak again at a meeting of the Alliance Francaise at 8:15 p.m. Thursday, Nov. 3, in the men's lounge of Coffman Memorial union. This lecture will be in French.

Debrix, who has promoted the inclusion of courses on cinematography in French universities, taught a university-level course on cinematography at his prison camp while he was a prisoner in Silesia during the war. He has been active in organizing several international film congresses.

His appearances in this country are sponsored by the Federation de L'Alliance Francaise, New York.

'U' FILM SOCIETY  
TO SHOW DANISH  
PICTURE NOV. 2

Minneapolis, Oct. - A film made in Denmark during the German occupation will be shown by the University of Minnesota Film society at 4 and 8 p.m. Wednesday, Nov. 2, in Northrop Memorial auditorium.

The picture, "Day of Wrath", was made by the French director Carl Dreyer, who also directed "The Passion of Joan of Arc", which was shown at the University in 1947.

In "Day of Wrath", as in the earlier film, Dreyer has given particular attention to the art possibilities of the photographic medium.

The story, which deals with witchcraft in 17th century Scandinavia, is built around the marriage of a pastor to the daughter of a woman he has saved from being burned as a witch. The girl, 30 years younger than the pastor, falls in love with the pastor's son by a former marriage.

"Day of Wrath" is in Danish, with English subtitles.

The film is the third in the society's regular fall series. A special experimental film, "Dreams that Money Can Buy", will be presented Wednesday, Nov. 9.

Minneapolis, Oct. - The Aeolian trio will present the first in a series of three concerts sponsored by the University of Minnesota department of music at 8:30 p.m. Sunday, Nov. 6, in Scott hall auditorium.

The trio is made up of Harry Nordstrom, violinist, Sally Lee, cellist, and Patricia Hayes, pianist.

At the opening concert, the trio will play Beethoven's "Trio in E Flat Major, Opus 1, No. 1", Piston's "Trio for Violin, Violoncello and Piano" and Schubert's "Trio in B Flat Major, Opus 99". Composers whose works will be heard in the remaining concerts will include Brahms, Buxtehude, Mendelssohn and Mozart.

Nordstrom, a member of the first violin section of the Minneapolis Symphony orchestra and of the Repertory quartet and the Denecke Sinfonietta, is a former student of Louis Krasner and of Joseph Roismann, a member of the Budapest String quartet.

Miss Lee, a member of the New Orleans Symphony orchestra from 1944 to 1948, studied with Frank Miller, Nickolai Graudan, and also with Mischa Schneider of the Budapest String quartet.

Miss Hayes studied at Macalester conservatory and St. Catherine's college and with Donald Ferguson at the University of Minnesota. She is now a teaching assistant at the University where she is doing graduate work in musicology.

The concerts are open to the public without charge.

MINNESOTA'S COLLEGE POPULATION,  
DOWN 4 PER CENT FROM YEAR AGO,  
STILL FAR ABOVE PRE-WAR PEAK

Minneapolis, Oct. - Although college enrollment in the State of Minnesota is down 4 per cent this year from last, the 46,995 student total in Minnesota institutions of higher learning this fall is still 50 per cent above the state's pre-war peak load of 31,232 college students registered in 1940.

A survey conducted by the Upper Midwest Regional Association of Collegiate Registrars showed that despite a drop of 5,878 or 27 per cent in college veteran enrollment in the state this fall from a year ago, a heavy influx of new non-veteran students, particularly in the teachers colleges, held the state's college population loss to only 1,954. As a group, the five teachers colleges actually showed an enrollment increase of 16.1 per cent.

True E. Pettengill, University of Minnesota recorder and chairman of the association's committee on special projects, pointed out that the neighboring states of Iowa, North and South Dakota, included in the survey, experienced similar decreases in college enrollment this fall.

Iowa's college population slid from 44,051 to 41,748, a loss of 5 per cent, Pettengill reported, while North Dakota lost 3 per cent, from 8,956 to 8,665, and South Dakota's college enrollment fell from 8,594 to 8,212, a 4 per cent decline.

These three neighboring states also experienced heavy decreases in veteran collegiate enrollment---Iowa, 27 per cent; North Dakota, 24 per cent; and South Dakota, 21 per cent---and an upswing in the number of non-veteran students.

Considerable variation was noted in the four states in figures on the admission of new freshmen this fall. In Minnesota, Pettengill disclosed, 11,396 new freshmen were admitted to colleges this fall, a decrease of 1 per cent from the 1948 figure. New freshmen admissions in Iowa totalled 10,056, a decrease of 12 per cent; in North Dakota, 2,780, an increase of 5 per cent; and South Dakota, 2,426, a drop of 6 per cent.

(more)

The survey also showed that the University of Minnesota with its 25,084 students carries 53 per cent of the state's college student load. In Iowa, the state university's 10,300 students constitute 24 per cent of the state's college population, while the 2,701 students at the University of North Dakota make up 31 per cent of the total college enrollment in the state. Of South Dakota's 8,212 college students, 1,762 or 21 per cent are registered at the University of South Dakota.

Enrollment this fall in Minnesota's institutions of higher learning and comparisons with enrollment a year ago were reported as follows:

OCT. 26, 1949  
FOR IMMEDIATE RELEASE

Minneapolis, Oct. - Minnesota parents, teachers, librarians and others who work with young people will assemble at the University of Minnesota Monday, Nov. 7, for the University college of education pre-Book Week celebration.

Chief speaker at the meetings will be Margueritte Harmon Bro of Mount Carroll, Ill., author of books for and about children. Mrs. Bro will speak at a dinner meeting at 6:15 p.m. in the main ballroom of Coffman Memorial union.

Mrs. Bro, a former teacher, is the author of "Sarah", a novel of adolescence, "When Children Ask", a handbook for parents of young children, "Lets Talk About You", "More Than We Are" and "A Handbook of Drama".

Minnesota writers of books for young people will be guests at the dinner meeting. Among those attending will be Carol Ryrrie Brink, author of "Caddie Woodlawn"; Emma L. Brock, author of "Kristi and the Colt"; William Wilwerding, author of "Jungle Stories for Boys"; Helen Acker Anderson, author of "Four Boys from Poland"; Niels Thorpe, assistant professor of physical education and athletics at the University, whose book, "Peter Nielsen's Story" soon will be published by the University Press; and Alma Scott, author of "Wanda Gag", which will be released by the University press the day of the meeting.

(more)

The celebration will open at 4:30 p.m. with two meetings. Luverne E. Eckstrom, elementary school librarian for the Minneapolis Public schools, will speak on "Recent Books for Kindergarten and Elementary School Children" in the Minnesota Museum of Natural History auditorium. Borghild Lee, librarian of the Skinner Memorial room for young people at the St. Paul Public library, will speak on "Recent Books for Junior and Senior High School Young People" in Murphy hall auditorium.

In connection with the celebration, an exhibition of books for children and young people will be held from 3 to 10 p.m. in the ballroom of Coffman Memorial union. The exhibition will include new books and a portion of the Kerlan collection of children's books, which includes first editions, autographed copies and original illustrations for books, most of which were published during the 20th century. A catalog of the Kerlan collection, which was recently given to the University of Minnesota library, will be published by the University Press in time for the book week celebration.

Chairman of the committee planning the celebration is Dora V. Smith, professor of general education at the University.

Reservations for the dinner may be made through Friday, Nov. 4.

LONDON ENGINEER  
TO GIVE CONCRETE  
COURSE AT U. OF M.

A short course on reinforced concrete consisting of three lectures by a European authority on concrete construction will be conducted by the University of Minnesota general extension division Monday through Wednesday (Oct. 31-Nov. 2).

The lecturer will be Kurt Billig, London consulting engineer, who is visiting in the United States. He is an outstanding authority on economy designs and types of construction in concrete and has been a leader in drafting codes of practice for pre-stressed concrete in England. He attended the German Concrete institute in April as the official representative from Great Britain.

Billig will lecture from 7:30 to 9:30 p.m. Monday, Tuesday and Wednesday in Room 211 Nicholson hall on the Minneapolis campus. He will explain European practice in reinforced concrete, and his lectures will be illustrated by slides and motion pictures.

Registrations for the course are now being accepted at the general extension division offices: 57 Nicholson hall on the Minneapolis campus; 690 Northwestern Bank building, Minneapolis; and 500 Robert street, St. Paul. The fee for the course is \$3.

GEOLOGY PLAQUE  
DEDICATION SUNDAY  
AT TAYLORS FALLS

Minneapolis, Oct. - Beginning a long-range project to explain the geology of the state to residents and visiting tourists, the Geological Society of Minnesota and the state highway department have installed a bronze descriptive marker on Highway 95 overlooking the St. Croix valley one-half mile south of Taylors Falls.

This marker will be dedicated at special ceremonies on the site at 11 a.m. Sunday (Oct. 30). Dedicated to the memory of the late Edward P. Burch, founder of the society, the tablet is the first of many planned for various points of geological interest in the state.

Describing briefly the geological formations and events which are responsible for the scenery of the area, these tablets are expected to develop a greater appreciation of Minnesota's natural features.

Erection of the plaques has been made a part of the state highway department's roadside development program. The University of Minnesota's geology department and the Minnesota Geological Survey are cooperating in preparation of the descriptive texts.

Following the dedication ceremony Sunday morning, members of the Geological society and their guests will take a field trip through Interstate park at Taylors Falls.

Also a part of the program to popularize geology in the state, a series of free public lectures on geological subjects are being given each Monday evening at 7:45 o'clock in the auditorium of the Minnesota Museum of Natural History on the University's Minneapolis campus. The museum is located at the intersection of University and Seventeenth avenues, southeast.

Margaret Cole, British author and lecturer, will speak at 3 p.m. Friday (Nov. 4) in the Minnesota Museum of Natural History on the University of Minnesota campus.

Mrs. Cole, who is honorary secretary of the British Fabian society, will lecture on "The British Crisis: Its Cause and Cure".

She is the author of "Beatrice Webb: A Memoir", "The New Economic Revolution", "Education for Democracy" and "The First Year of the British Labor Government". With her husband, the economist G. D. H. Cole, she wrote "The Intelligent Man's Review of Modern Europe" and a "Guide to Modern Politics", and she has also edited studies on Sweden, Russia and many other subjects.

Mrs. Cole has lectured in the tutorial classes of London and Cambridge universities and has been connected with the researches of the Fabian society since World War I.

'SPAN' STUDENTS  
TO REPORT AT  
U. OF M. CONVOCATION

Minneapolis, Oct. - Five students who studied in Europe last summer will speak at the University of Minnesota convocation program, "SPAN Reports on World Affairs", at 11 a.m. Thursday (Nov. 3) in Northrop Memorial auditorium.

The students, four of them from the University and one from Gustavus Adolphus college, St. Peter, were among those who participated in the Student Project for Amity Among Nations. Each student worked on an individual project, learning the way of life of the people in the country visited.

University students speaking will be Paul Shaw, law school senior, on "What a Spanner Did in England"; Janet Hohmann, graduate student in international relations, on "The Present Political Situation in Colombia"; Marianne Cook, graduate student in international relations, on "Economic Conditions in Belgium"; and Ann Hadley, graduate student, on "Impressions of the Italian People of Americans". Lloyd Bergman, arts senior from Gustavus Adolphus college, will speak on "Sweden's Advanced Social Welfare Program".

The talks will be illustrated by colored slides taken by students who visited the various countries.

Opening the program with a talk on SPAN's aims will be Dr. George Forell of the Gustavus Adolphus department of philosophy. Dr. Forell, who was previously on the University staff, acted as adviser to the SPAN group that studied in Austria last summer. At the close of the program he will tell students how they may apply for SPAN projects for the coming summer.

The convocation will be broadcast over the University radio station, KUOM.

Dr. Ancel Keys, director of the University of Minnesota's laboratory of physiological hygiene, will deliver a Sigma Xi lecture at the University of Wisconsin, Madison, Tuesday evening (Nov. 1). His topic will be "Cholesterol and the Process of Aging in Man".

From Madison, Dr. Keys will go to Washington, D. C., where, Wednesday and Thursday, he will check with United Nations representatives on the work of the United Nations committee on calories of which he is chairman. The committee's report on calory requirements in man is expected to be published about January 1, 1950.

While in Washington, Dr. Keys will attend a meeting Friday and Saturday of the food and nutrition board of the National Research council. He is a member of the board and chairman of the board's committee on physical standards.

SPECIAL TO THE

(The following mailed to:

58 Minnesota newspapers, concerning 57 individuals)

among the 99 Minnesotans who attended the University of Minnesota continuation course in tuberculosis control for lay persons Oct. 24 through 26 at the University's Center for Continuation Study.

In addition to attending lectures given by staff members of the University and various sanitoriums in Minnesota, the group made a tour of Glen Lake sanitorium, Glen Lake, Minn., and attended a special Christmas seal program at the Minnesota Public Health association building in St. Paul.

Among those speaking to the group were Dr. Peter M. Mattill, superintendent and medical director at Glen Lake sanitorium; Dr. Hilbert Mark, director of the division of tuberculosis section of preventive diseases, Minnesota Department of Health; and Dr. J. Arthur Myers, professor of public health at the University of Minnesota.

More than 40,000 men and women have attended courses at the Center for Continuation Study since it was established in 1936 to extend University facilities to persons in specialized fields.
