DOCTORS TO ATTEND
SPECIAL 'U' COURSE
IN HEART DISEASE

Minneapolis, Jan. - Dr. Tinsley Harrison, professor of medicine at Southwestern Medical college, Dallas, will be among the principal lecturers at a University of Minnesota continuation course in cardiovascular disease Thursday through Saturday (Jan. 5 through 7).

The course, to be held at the University's Center for Continuation Study, will deal with heart conditions that are of particular concern to the practicing physician. It is intended for doctors of medicine who are engaged in general practice.

Dr. Harrison will speak on "The Evaluation of Cardiac Murmurs" and "The Cardiac Arrhythmias" and will also conduct a diagnostic conference and participate in medical rounds concerning heart disease.

Included in the course will be the actual examination of patients with cardiovascular diseases. Small groups of physicians attending the course will examine patients at the various hospitals of the University of Minnesota medical school and will be given an opportunity to review, with consultants, various types of cardiac murmurs and other important physical findings.

Members of the clinical and full-time faculty of the University and the Mayo Foundation, a branch of the University's graduate school, will complete the staff for the course.

Cooperating in presenting the course are the Minnesota Department of Health, the Minnesota Heart association, and the Minnesota State Medical association.

NATURALIST TO OPEN
WINTER LECTURE
SERIES AT U. OF M.

Minneapolis, Jan. - A Sigma Xi lecture by Dr. George Gaylord Simpson of the American Museum of Natural History, New York, will open the University of Minnesota winter quarter series of special lectures and concerts.

Dr. Simpson will speak on the "History of the Latin-American Fauna" at 8 p.m. Thursday, Jan. 12, in the Minnesota Museum of Natural History auditorium on the University campus.

Wing-Tsit Chan, professor of Chinese culture at Dartmouth college, will give a special lecture at 3 p.m. Thursday, Jan. 26, in the Museum auditorium.

The famous American organist, Alexander Schreiner, will present an organ recital at 8:30 p.m. Saturday, Jan. 28, in Northrop Memorial auditorium.

Schreiner, organist at the Salt Lake Mormon Tabernacle, Salt Lake City, Utah, has held that post since 1924 after beginning his career as a church organist at the age of eight. From the Tabernacle in 1929, he played the first of the national radio programs which is now one of the oldest continuous broadcasts in existence.

A special archaeology lecture will be given by George K. Neumann of Indiana university at 8:30 p.m., Thursday, Feb. 16, in the Museum auditorium. He will speak on "The Peopling of Aboriginal America".

SATURDAY BALLET
MUSIC PROGRAMS
PLANNED ON KUOM

Minneapolis, Jan. - "Saturday at the Ballet" is the name of a new series of KUOM musical programs which will start this month. The new series will be made up of hour-long broadcasts each Saturday at 2 p.m., beginning January 7.

Written and produced by Arnold Rosenberg, recently appointed musical director for KUOM, "Saturday at the Ballet" will be devoted to the music and stories of world famous ballet productions.

Ballet music recordings will be presented along with a running commentary or narration unfolding the stories and plots of the various ballets as the music progresses.

Tschaikovsky's "Nutcracker" will launch the series next Saturday, to be followed in succeeding weeks by "Capriccio Espagnole" and "Graduation Ball," January 14; "El Amor Brujo" and "Sebastian," January 21; "La Valse" and "Gaité Parisienne," January 28; "Spectre de la Rose" and "Petrouchka," February 4; "Symphonie Fantastique," February 11; "Daphnis and Chloe" and "The Incredible Flutist," February 18; "Giselle" and "La Boutique Fantasque," February 25; "Pillar of Fire" and "Prince Igor," March 4; "Afternoon of a Faun" and "Scheherazade," March 11; "Thamar" and "The Fire Bird," March 18; "Good Humored Ladies" and "L'Histoire du Soldat," March 25.

Members of KUOM's Radio Guild will do the narrating.

SOUTH AFRICAN
EDUCATOR TO TALK
AT U. OF M. FRIDAY

Minneapolis, Jan. - Professor John Y. T. Greig, head of the department of English at the University of Johannesburg, Union of South Africa, will speak at 4 p.m. Friday (Jan. 6) in Murphy auditorium on the University of Minnesota campus.

Greig will speak on "English Studies at the Undergraduate Level" in a lecture sponsored by the University of Minnesota department of English.

He is the author of "Breaking Priscian's Head" and the editor of the letters of the eighteenth century philosopher-historian, David Hume.

Greig, who is visiting colleges and universities in this country and Canada on a Carnegie traveling grant, will study the various University of Minnesota courses in communication and composition. From here he will go to Columbia university, the University of Washington, the University of California and Stanford university before returning late in January to England and then to South Africa.

HUDSON WALKER
ART COLLECTION
LOANED TO U. OF M.

Minneapolis, Jan. - A group of more than 700 American and European paintings, prints and works of sculpture have been loaned to the University of Minnesota Gallery for an indefinite period, Mrs. Ruth E. Lawrence, director of the gallery, has announced.

The works, primarily American from the first half of the 20th century, are from the collection of Hudson Walker, New York, grandson of the pioneer Minnesota lumberman, the late T. B. Walker.

Walker, executive director of Artists Equity and a trustee of the American Federation of Arts, has loaned to the University Gallery all of his art collection but the works he keeps in his own home. He was the first director of the Gallery, serving as its head in the summer of 1932.

Selected works from the collection will be first shown at the University Gallery Thursday, Jan. 12, through Friday, Feb. 17.

The collection includes a large number of paintings by two well-known American painters, Marsden Hartley and Alfred Maurer, both of whom died recently.

Among the contemporary Americans whose works are included are such painters as Max Weber, Yasuo Kuniyoshi and Philip Evergood.

Rare prints by the 19th century French artist, Honore Daumier, are among the collection's European works.

H. H. Arnason, chairman of the University department of art, said that the collection would probably be used both for research by students and, through the Minnesota State Art society, for exhibitions to travel throughout Minnesota.

An English comedy film that centers around an entire village's concern over a family of birds will open the University of Minnesota Film society's winter quarter series of six motion pictures.

The film, "The Tawny Pipit", will be shown at 4 and 8 p.m. Tuesday, Jan. 24, in Northrop Memorial auditorium on the University campus.

A Jean Cocteau picture, "The Eagle With Two Heads", will be presented Wednesday, Feb. 1. The film, in French with English subtitles, includes Jean Marais and Edwige Feuillere in its cast.

"Flight Into France", a study of a Fascist war criminal, in Italian with English subtitles, will be presented Wednesday, Feb. 8.

An American documentary film, "The Quiet One", which deals with a delinquent Harlem youngster, will be shown Wednesday, Feb. 15.

"Marriage in the Shadows", the story of a Jewish actress who is confronted with the fact that, under Hitler, race is more important than talent, is scheduled for Monday, Feb. 27.

In "Woman Trouble", the last in the winter quarter series, Anna Magnani plays the part of the shrewish wife of a penniless husband. The film, dealing with the problem of unemployment in post-war Rome, will be shown Thursday, March 9.

The first showing of a film on the swampland north of the Red Lake, Minnesota, area will open the winter quarter program of the Minnesota Museum of Natural History 1949-50 Sunday lecture series.

The film, "Minnesota's Big Bog Country", will be shown at 3 p.m. Sunday (Jan. 8) in the Museum auditorium on the University of Minnesota campus.

Dr. W. J. Breckenridge, director of the museum, will give the commentary on the film, which was produced by the museum staff.

The film deals with the wildlife of the large wilderness between Red Lake and Lake of the Woods, which was made into a game refuge after it was found unsuitable for agriculture.

Dr. Dwain W. Warner, curator of birds for the museum and assistant professor of zoology at the University, will give the second lecture of the winter quarter Jan. 15. His subject will be "G. I. Naturalist in New Caledonia".

Minneapolis, Jan. - Appointment of a committee to advise him in the selection of a successor to Frank G. McCormick as director of physical education and athletics was announced Thursday (Jan. 5) by President J. L. Morrill of the University of Minnesota.

Heading the faculty-alumni committee as chairman is Dr. Willard L. Boyd, chief of veterinary medicine and chairman of the University senate committee on intercollegiate athletics.

Also appointed by President Morrill Thursday to assist him in making a recommendation to the Board of Regents as to McCormick's successor are: Robert E. Shay of Minneapolis, alumni representative on the senate athletic committee; Henry Rottschaefer, professor of law and University representative in the Western Conference; Dean W. E. Peik of the college of education; Professor L. F. Keller, assistant director of physical education and athletics; Associate Professor Niels Thorpe, swimming coach; and William T. Middlebrook, vice president for business administration.

McCormick submitted his resignation to President Morrill Sept. 1, 1949, with the understanding that it would become effective June 30, 1950.

"I have received Mr. McCormick's resignation with the most genuine regret," President Morrill asserted in his letter appointing the advisory committee, "and my efforts to persuade him to reconsider and withdraw the resignation have been unavailing.

"We face a difficult task, indeed, to find a worthy successor to Mr. McCormick whose service to the University, to the Western Conference, and to the best interests of physical education and intercollegiate athletics has been unusually sound, constructive and distinctive."

President Morrill has called the first meeting of the advisory group for next Tuesday (Jan. 10) at 4 p.m. in his office.

Minneapolis, Jan. - Twenty-five authorities on Scandinavia will meet at the University of Minnesota Monday (Jan. 9) to discuss the subject, "Scandinavia in a Divided World".

They will participate in an international relations institute focused on that topic and sponsored by the University's program of Scandinavian area studies. The institute will be held Monday through Wednesday (Jan. 9 through 11) at the Center for Continuation Study on the University campus.

Among the international relations experts to participate in the institute are John C. deWilde, chief of the Scandinavian and Benelux branch, program coordination division, Economic Cooperation administration; Jorgen Dich, visiting professor in Scandinavian area studies at the University of Wisconsin and counselor to the ministers of housing, social affairs and labor of the Danish government; Sven Grafstrom, permanent delegate from Sweden to the United Nations; Bryn J. Hovde, president, New School for Social Research, New York City; Per Jacobsson, economist and director of the Bank for International Settlements, Basle, Switzerland; and John H. Wuorinen, professor of history, Columbia university.

The institute will be opened at 10 a.m. Monday by Dr. Theodore C. Blegen, dean of the University graduate school. Following, Hovde will present a paper on "Social and Political Aspects of Scandinavia and the Atlantic Community of Nations" and Dich will discuss "The Scandinavian Countries and World Trade".

The Marshall plan will be the subject of the Monday evening meeting at 7:30 at which deWilde will discuss "The Marshall Plan and the Scendinavian countries".

(more)

Participating in a panel discussion on "Conditions for U. S. Aid" will be Gunnar Kjolstad, commercial counselor, the Norwegian Embassy, Washington; Goran Ohlin, Swedish economist now doing research at Harvard university; Gunnar Seidenfaden, commercial attache, the Danish embassy, Washington; and Gerhard Stoltz, Norwegian economist with the Cowles commission for research in economics, University of Chicago.

Dich, Ohlin, Stoltz and Valdimar Bjornson, associate editor of the St. Paul Pioneer Press and Dispatch, will also discuss "U.S. Aid and Public Opinion in the Scandinavian Countries".

Jacobsson will speak on "Future Scandinavian Dollar Earnings and the Problem of Scandinavian Exports" at 9:30 a.m. Tuesday. His talk will be followed by a panel on "Possibilities of Intra-Scandinavian Economic Cooperation in Relation to Western Europe".

The next two meetings of the conference will be devoted to discussions of the North Atlantic Pact with Magne Skodvin of Oslo university, Norway, and visiting lecturer at the University, giving the introduction at 7:30 p.m. Tuesday. "Sweden's Position on the North Atlantic Pact" will be discussed by Grafstrom, who will also participate in a panel discussion on "The Pros and Cons on Scandinavian Participation in the North Atlantic Pact".

A panel on "Suggested Alternatives to Scandinavian Participation in the North Atlantic Pact at 9:30 a.m. will open Wednesday's meetings. Also on the Wednesday morning program will be a panel on "The Scandinavian Countries and Russia after the Pact".

Wuorinen will speak on "Scandinavia--United or Divided in a Divided World?" at 2:30 p.m. Wednesday.

Arthur Upgren, associate editorial editor of the Minneapolis Star and professor of economics at the University, will summarize the institute in a talk, "Scandinavia in the World Pattern Today and Tomorrow".

Following the institute, Jacobsson will deliver the regular University convocation address at 11 a.m. Thursday in Northrop Memorial auditorium. His talk also will be entitled "Scandinavia in a Divided World".

Minneapolis, Jan. - A gift of \$7,500 for the purchase of two rare books, both first editions more than 300 years old, has been made to the University of Minnesota by J. F. Bell of Minneapolis, University regent and executive of General Mills, Inc.

The books, both about early explorations in America, were printed in Paris, one in 1557 and the other in 1603. They will be placed in the University library.

Of the \$7,500 gift, \$5,000 will be used to buy a copy of "Des Sauvages, ou Voyage de Samuel Champlain de Brouage Fait en la France Nouvelle". The book was written by the explorer Champlain in 1603 after he returned from his first voyage to "New France" as the section of Canada he visited was then called. In the 80-page book, Champlain described his trip and the manners and way of life of the "savages of Canada".

The other book, "Les Singularitez de la France Antarctique", was written by Andre Thevet, a Franciscan friar, who came to America shortly before 1557 and traveled from Brazil to Canada. The book, which contains 332 pages, is profusely illustrated with woodcuts of the Indians and plants Thevet saw during his explorations. Purchase price of the volume is \$2,500.

Both books were among the "best sellers" of their time. The Thevet narrative was reprinted in Paris and in Antwerp in 1558 and later in London. A second edition of the Champlain book was issued in 1604.

There are only three other known copies of the Thevet volume in this country and four of the Champlain work.

Minneapolis, Jan. - Improving the elementary school reading program will be the theme of a University of Minnesota institute on supervision to be held Thursday and Friday (Jan. 12 and 13) at the University Center for Continuation Study.

The institute is open to supervisors of elementary instruction, elementary school principals, superintendents of schools and county superintendents and directors of training and instructors in teachers colleges.

Included among the institute's faculty will be Bernice Leary, director of elementary education, Madison, Wis., public schools; and from the University faculty: Guy L. Bond, professor of education; Leo J. Brueckner, professor of education; Walter W. Cook, professor of educational psychology; Dora V. Smith, professor of education; and Miles A. Tinker, professor of psychology.

Among the subjects to be taken up will be "showing the child how to read", "guiding personal reading", and "helping the child to use his ability to read".

The course will include observations at the Tuttle demonstration school in Minneapolis, the University child study center and the University elementary school.

FARM-HOME WEEK
PLANS COMPLETE

Final plans are now complete for the 1950 Farm and Home Week. It will be Jan. 31 - Feb. 3 on the St. Paul campus of the University of Minnesota.

Word was received today from J. O. Christianson, agricultural short course director, that final arrangements have been made for one of the strongest Farm and Home Week programs in recent years.

A total of 178 discussions, meetings and assemblies have been prepared for farmers, homemakers and townspeople from _____ and other Minnesota counties. There will be 160 talks on new farming and homemaking developments during the four days at University Farm.

Eight general assemblies, featuring outstanding regional and national authorities, will be held. Ten livestock breed associations will hold meetings.

Dr. George D. Scarseth, research director for the American Farm Research Association, Lafayette, Indiana, will open the 48th annual event with a talk on soil building.

One of the highlights of the speaking program will be an address by O. B. Jesness, chief agricultural economist at University Farm. A leading authority on farm supports, Jesness will talk on "The Farm Program for 1950."

"His talk at the Wednesday noon assembly offers _____ county farmers an opportunity to learn at first hand the farm program in store for them this coming year," Christianson said.

The entire Farm and Home Week program is open to all without fee.

Christianson recommends that those going from this area write to Twin-City hotels immediately for hotel reservations.

MINNESOTA—\$125,000,000 in Gifts

Within one week, the University of Minnesota received approximately \$125,000,000 in gifts. The first, \$482,304, mostly in bonds and securities, came from the estate of the late Silas McClure, Minneapolis businessman who died last February at the age of 83, and will be used for medical research. The second was a 750-acre farm in Hennepin county valued at more than \$750,000 and one of Minnesota's best known landmarks. It was deeded to the University by Earle Brown, former candidate for Minnesota governor, the first head of Minnesota's highway patrol system, and one-time sheriff of Hennepin county. Brown, who is now 70, will live on the farm, which is his ancestral home, until his death.

GUIDANCE MEET
TO OPEN MONDAY
AT U. OF M. CENTER

Minneapolis, Jan. --Guidance leaders from 12 Midwest states will attend the University of Minnesota's North Central Regional Conference of State Supervisors and Counselor-Trainers of Guidance Services Monday through Thursday (Jan. 16 through 19).

The conference, limited to state supervisors of guidance services and counselor-trainers in guidance work, will be held at the Center for Continuation Study on the University campus. It is being held in cooperation with the occupational information and guidance service, U. S. Office of Education, and the Federal Security agency.

Among topics to be considered are on-campus counselor training methods on a graduate level and in-service training procedures of guidance personnel.

Those taking part in the conference include Dean M. Schweickhard, Minnesota commissioner of education; Harry C. Schmid, state director of vocational education; Guy O. Tollerud, state supervisor of occupational information and guidance; C. Gilbert Wrenn, professor of educational psychology at the University, E. G. Williamson, dean of students and professor of psychology; Dr. Starke R. Hathaway, professor of psychiatry and neurology and medical psychologist; and Homer J. Smith, professor of industrial education.

Minneapolis, Jan. --The University of Minnesota's winter quarter continuation training in dentistry will open Monday (Jan. 16) with courses in oral surgery and dentistry for children.

Both courses, to be held through Friday (Jan. 20) will meet in the school of dentistry on the University campus.

The oral surgery course, headed by Dr. H. B. Clark, Jr., professor of dentistry, will consist of clinical practice under supervision, seminar conferences and motion pictures.

The course in dentistry for children will include clinical demonstrations, motion pictures and lectures in such subjects as child psychology, cavity preparations and public health dentistry. The course will be directed by Dr. H. C. Wittich, professor of dentistry.

A course in operative dentistry, an intensive presentation of root canal therapy for the general practitioner, will be held Monday through Friday, Jan. 30 through Feb. 3.

A one-week course in prothesis will begin Monday, Feb. 23.

The winter quarter series will close with a one-day course in radiographic technic. The complete course will be given on each of three days, Monday, March 20, Wednesday, March 22, and Friday, March 24.

The courses will be conducted by the University school of dentistry through the Center for Continuation Study.

Alexander Schreiner, organist for the Salt Lake Mormon Tabernacle, Salt Lake City, Utah, will present a special organ concert at 8:30 p.m. Saturday, Jan. 28, in Northrop Memorial auditorium on the University of Minnesota campus.

The famous organist, who is on his fourth extended tour of major American cities, has been organist for the Tabernacle since 1924. He began his career as a church organist at the age of eight, and in 1929 played the first of the national radio programs from the Tabernacle. The program is one of the oldest continuous broadcasts in existence.

From 1930 to 1939, he divided his time between Salt Lake City and the University of California at Los Angeles, where he played 100 recitals yearly and taught the Arnold Schoenberg system of harmony.

Schreiner, who studied with Louis Vierne at Notre Dame in Paris, is author of "Organ Voluntaries", Volumes I and II, both of which are best-sellers among books of music for church organists. He is a member of Phi Beta Kappa and Phi Kappa Phi, Honorary scholastic fraternities.

The concert here will be sponsored by the University department of concerts and lectures and the Minnesota chapter of the American Guild of Organists. No admission charge will be made.

NEW PHILOSOPHY
JOURNAL PUBLISHED
BY U. OF M. PRESS

Minneapolis, Jan. --Philosophical Studies, a new periodical in the field of philosophy, has been launched at the University of Minnesota.

The new journal published by the University of Minnesota Press, is being edited by two members of the University philosophy department, Herbert Feigl, professor of philosophy, and Wilfrid Sellars, associate professor of philosophy.

Although there are similar philosophy magazines, this is the only one now being published that is devoted entirely to analytical philosophy. According to the editors, the new publication is designed to fill the "urgent and growing need for space devoted to quick publication of timely contributions to the various areas of analytical philosophy".

Philosophical Studies, which will appear six times during the school year, has as one of its aims to keep students of philosophy up to date on new definitions and controversies.

The first issue, published this week (Jan. 13), contains two articles: "Analysis and Real Definition" by Morris Weitz of Vassar college, Poughkeepsie, N. Y.; and "Ordinary Language and Absolute Certainty" by Paul Edwards of the City College of New York.

Professors Feigl and Sellars have contributed to leading philosophical journals in this country and abroad. Assisting them with the new publication will be three other members of the University faculty: May Brodbeck, instructor in philosophy; John Hospers, assistant professor of philosophy; and Paul Meehl, associate professor of psychology and psychiatry.

The second issue of the magazine will be published in February.

FOR IMMEDIATE RELEASE

The results of a 20-months' stay in New Caledonia during the war will furnish the material for the Minnesota Museum of Natural History lecture Sunday (Jan. 15) by Dr. Dwain W. Warner, curator of birds for the museum and assistant of zoology at the University of Minnesota.

Dr. Warner will give his talk, "G. I. Naturalist in New Caledonia", at 3 p.m. in the Museum auditorium on the University campus. His talk is one in a series of free public lectures given every Sunday at the Museum.

Dr. Warner will discuss the peoples, plants and animals of the sub-tropical island, comparing the island, which contains a large percentage of plants and animals found nowhere else, with Minnesota.

Botanical studies of Alaskan glaciers will be discussed by Dr. William S. Cooper, University professor of botany, at the Jan. 22 lecture.

IRISH SURGEON,
WRITER TO SPEAK
AT 'U' CONVOCATION

Minneapolis, Jan. --"A Way of Understanding James Joyce" will be discussed by Joyce's friend and former classmate, Dr. Oliver St. John Gogarty, at the University of Minnesota convocation at 11 a.m. Thursday (Jan. 19) in Northrop Memorial auditorium.

Dr. Gogarty, Irish poet, novelist and essayist, is the "Buck Mulligan" of Joyce's "Ulysses". He is a surgeon still in active practice and a Fellow of the Royal College of Surgeons in Ireland.

Dr. Gogarty has also been a friend of such other great figures of the Irish literary renaissance as William Butler Yeats and George Moore. Born in Dublin where he still makes his permanent home, he was educated at Stonyhurst and Trinity college there. He was a senator of the Irish Free State from 1922 to 1936.

His works include his memoirs, "As I Was Going Down Sackville Street", and his autobiographical novel of student days, "Tumbling in the Hay". Among his other writings are "Wild Apples", "An Offering of Swans" and "I Follow St. Patrick".

SWEDEN RESISTS
RED INFLUENCE,
SPEAKER SAYS

UNIVERSITY OF MINNESOTA
NEWS SERVICE
JAN. 12, 1950
FOR IMMEDIATE RELEASE

Minneapolis, Jan. —There is no growing ground for communism in Sweden according to Sven Grafstrom, permanent delegate from Sweden to the United Nations, who visited the University of Minnesota recently.

Grafstrom, who was in Minneapolis to speak before an institute in international relations sponsored by the University's program in Scandinavian area studies, cited as evidence the last elections in which the communists got only seven of the 230 seats in the lower house of the Swedish parliament.

He also pointed out that during the last war the Nazis were unable to establish a fifth column in his country.

Grafstrom said that the outlook of the average Swede was similar to that of the average American, the ideals and mental attitude of the citizens of both countries being the same.

"Both countries," he said, "are very developed democracies, and the people are individualistic and put freedom above everything else. Many Swedes who settled in the United States felt at home and became good American citizens—and Sweden is proud of that fact."

Grafstrom expressed a faith in the future of the United Nations, to which he has been a delegate since the beginning of 1948, although he added, "We can't hope for smashing results because the U. N. is young."

"For a long time to come," he said, "many of the major decisions in international affairs will be made outside of the United Nations. One of the reasons for this is that the veto in the security council hampers decisions in political matters."

Of the recent decisions made by the U. N., Grafstrom termed the vote to make Jerusalem an international city "unfortunate because we cannot back it up as long as both groups concerned refuse to agree to the decision". He added that the Netherlands and Sweden had tried to put forth a scheme for international control of the holy places only.

Among the non-political decisions made during the recent assembly, Grafstrom stressed as particularly hopeful the resolution to extend economic help to underdeveloped countries. "It is an important step in realizing the ideal of human solidarity put down in the charter," he said.

'U' RADIO STATION
MAKING COVERAGE,
AUDIENCE SURVEY

Minneapolis, Jan. --An audience survey and measurement of its geographic coverage are being made by KUOM, the University of Minnesota's radio station.

Burton Paulu, manager of KUOM, said that both projects will be completed by June 30.

"The two chief reasons for the audience survey," said Paulu, "are to appraise our work and obtain valid data which can be used in the improvement of our program services.

"We are looking for answers to these five basic questions:

"What is KUOM's share of the Twin City audience? What are the differences between those people who do and do not listen to KUOM? How does the rural audience respond to KUOM's programs? How effective are KUOM's programs for schools? How can KUOM programs be pre-tested at low cost?"

The audience survey to determine the impact of the station's programs is being conducted under the direction of Associate Professor Charles E. Swanson of the University's school of journalism. Several other faculty members are serving on an advisory committee.

Information for this survey is being gotten through personal interviews, telephone calls and mail questionnaires.

The measurement of geographic coverage or field strength intensity is being done on a contractual basis outside the University. It will determine the geographic area within which KUOM programs are received satisfactorily.

Information on field strength is required by the Federal Communications Commission for license renewal applications. It will also be useful in determining the service range within which the station can concentrate its program promotion.

KUOM, a non-commercial station, presents a great variety of educational and musical programs.

Minneapolis, Jan. --Forty scholarships amounting to a total of \$10,000 will be awarded to Minnesota high school seniors for the University of Minnesota academic year 1950-51, Arthur R. Hustad of Minneapolis, chairman of the board of trustees of the Greater University Fund, has announced.

The \$10,000 was given to the Greater University Fund by Minnesota alumni for the University's second annual alumni sponsored scholarship program.

Hustad said that the amounts of the scholarships would vary, the average award to be \$350 and the maximum not to exceed \$500.

Of the 40 scholarships, one will be awarded to a student from each of the 18 districts of the Minnesota Alumni association state organization. The remaining 22 will be awarded "at large" to high school seniors throughout the state. If there is no qualified applicant in any of the 18 districts, the scholarship for that district will also be awarded "at large".

The winners will be announced in May.

Each of the Minnesota Alumni Association's 18 district scholarship committees will choose three applicants from its district, and the final selection will be made by a central committee at the University.

Applications, which were mailed to all Minnesota high schools last week, must be returned completed to the high school offices by Wednesday, Feb. 8, and must be in the hands of the local Minnesota Alumni association representative or district committee by Wednesday, Feb. 15.

Tuesday, Feb. 28, is the deadline for receipt of the applications by the Minnesota Alumni association district scholarship chairman; and the Greater University Scholarship committee must receive the applications and district recommendations by April 7.

With Mat of Dr. George M. Briggs,
University Poultry Scientist

**NEW B-12 CHICK
FEED IS FARM-
HOME WEEK TOPIC**

The much talked-about new vitamin B-12 poultry feed will be one of the discussion topics at Farm and Home Week when it is held at University Farm the last of this month.

B-12, or Animal Protein Factor as it is sometimes called, has won national attention as an inexpensive growth booster when added to chick rations. Experiments at University Farm have shown the powerful vitamin will produce one pound chicks at slightly over six weeks -- almost double the gain of those receiving no animal protein.

The work is being carried on by Dr. George M. Briggs, poultry scientist. He will discuss his experiments with B-12, and other new poultry feeds on Thursday afternoon, Feb. 2.

The entire poultry program will be Thursday, the third day of Farm and Home Week. It gets started at 8:45 a.m. with talks on disease control and "scientific" poultry raising. Discussions on hybrids, deep litter, labor saving, and a question and answer panel will take up the afternoon.

This year's Farm and Home Week starts on Tuesday, Jan. 31. It ends Friday afternoon, Feb. 3. During those four days, a total of 160 different discussions, similar to those in poultry but covering all phases of farming and homemaking, will be held. Ten general assemblies, featuring nationally known authorities, are scheduled. Eight state livestock groups will hold meetings.

Programs listing all those talks, along with the time and place they will be given, are now available. County Agent _____ has a supply in his County Extension Office in _____. Or, you can get a copy by writing the Short Course Office, University Farm, St. Paul 1.
(town)

J. O. Christianson, short course director, recommends that hotel reservations be made immediately with one of the Twin-City hotels. Meal facilities and other conveniences for _____ county visitors are being taken care of on and near the University Farm campus.

**MANY SESSIONS ON
GARDEN AND HOME
AT FARM-HOME WEEK**

The home and garden will occupy an important place on the University of Minnesota's annual Farm and Home Week program January 31-February 3.

Wylle B. McNeal, director of the School of Home Economics at the University of Minnesota, will open the homemaking sessions, which are scheduled for every morning and afternoon during the four-day event. Planned for rural and city homemakers of all age groups and interests, they will include discussions on family life and personal relationships, improvements in family housing, home lighting, home furnishings, new fabrics on the market, foods and nutrition. One session on the opening day will be devoted entirely to home freezing problems and new developments.

Featured speaker for the women's sessions is Dr. Esther McGinnis, director of the Merrill Palmer School, Detroit, Michigan, and national authority on child development and parent education. She will also address men and women at the noon assembly Thursday (Feb. 2).

Horticulture sessions have been arranged for the last two days of Farm and Home Week (Feb. 2, 3). Discussions on Thursday will be given over to ornamental horticulture. Friday (Feb. 3) attention will be turned to fruits.

Lawn care and crab grass control, house plant culture, begonias for house and garden and hardy bulbs and perennials are some of the subjects to be discussed by staff members of the University division of horticulture and home gardeners. Insect pests and diseases of garden plants will also be considered.

Emphasis at Friday's gardening sessions will be placed on such orchard problems as mulching, apple thinning, windbreaks for fruit planting and color development in apples as well as weed and pest control in home plantings.

NOTED ORGANIST
TO GIVE PUBLIC
CONCERT AT U. OF M.

Minneapolis, Jan. --A special concert by the Salt Lake Mormon Tabernacle organist, Alexander Schreiner, will be presented at 8:30 p.m. Saturday, Jan. 28, in Northrop Memorial auditorium on the University of Minnesota campus.

Schreiner, who has been organist for the Mormon Tabernacle, Salt Lake City, Utah, since 1924, is on his fourth extended tour of major American cities. From the Tabernacle in 1929, he played the first of the Tabernacle's national radio programs, now among the oldest continuous radio shows in existence.

A church organist since the age of eight, Schreiner has studied with Louis Vierne at Notre Dame in Paris. He is the author of the two-volume "Organ Voluntaries", which is a best-seller among books of church music for organists.

From 1930 to 1939, while retaining his post as Tabernacle organist, he played 100 recitals yearly and taught the Arnold Schoenberg system at the University of California at Los Angeles.

The concert here, to which there will be no admission charge, will be sponsored by the University department of concerts and lectures and the Minnesota chapter of the American Guild of Organists.

U. of M. ENROLLS
23,547 STUDENTS
WINTER QUARTER

Minneapolis, Jan. --- Winter quarter attendance at the University of Minnesota totals 23,547, a decline of 2,151 from the 1949 winter quarter and a drop of 1,537 from the last fall quarter, True E. Pettengill, University recorder, reported Monday (Jan. 16).

The decrease in enrollment, Pettengill pointed out, represents the normal anticipated drop from fall to winter quarter and runs very close to estimates made by University officials last October. Fall quarter enrollment this school year was 25,084.

Veterans attending the University under GI benefits number 9,847 this quarter as compared with 13,785 a year ago and 10,639 during the fall quarter.

The steady downward trend in veterans' enrollment from the peak of 16,736 ex-servicemen and women attending University classes in the fall quarter of 1947 is expected to continue, Pettengill said. Over the nation, he pointed out, veteran enrollment fell from one-half to one-third of total college attendance from the school year 1948 to the school year 1949.

Partially offsetting the decline of veteran attendance at the University, the recorder explained, is a substantial increase in non-veteran enrollment.

A breakdown of winter quarter attendance figures at the University shows 21,695 students including 9,167 veterans enrolled on the St. Paul and Minneapolis campuses and 1,852 students including 680 ex-servicement and women at the Duluth Branch.

During winter quarter 1949, Twin City campus attendance was 23,858 of whom 12,954 were veterans. At that time, the Duluth Branch had 1,840 students including 831 veterans.

St. Paul and Minneapolis campus enrollment during the fall quarter just ended totaled 23,168 including 9,941 veterans, while the Duluth Branch had 1,916 students of whom 698 were veterans of World War II using their GI educational benefits.

Men students continue to outnumber women students at the University by three to one, 12,040 to 5,507, Pettengill reported adding that the ratio between men and women students is gradually declining as veteran enrollment decreases. The pre-war ratio was one and one-half men to each coed.

On the Twin City campuses there are 16,697 men and 4,998 women this quarter, while at the Duluth Branch men outnumber women 1,343 to 509.

All attendance figures are as of the close of the second week of the quarter.

Winter quarter attendance by University colleges and divisions for 1949 and 1950 was reported by Pettengill as follows:

A film telling the story of how an English village forgot the war in its concern over a family of birds will open the University of Minnesota Film society's winter quarter program Tuesday, Jan. 24.

The English comedy film, "The Tawny Pipit", will be shown at 4 and 8 p.m. in Northrop Memorial auditorium.

In the film, the birds are discovered by an RAF officer and his nurse, while the officer is recuperating on a walking tour through the English countryside. The Cotswold villagers protect the bird family against the attempts of a fifth column ornithologist, army tanks and egg stealing youngsters.

The movie, written, produced and directed by Bernard Miles, who also plays a leading role, shows the original Cotswold cottages which have been the prototypes for many American houses.

Twenty school children from the Cotswold area take part in the film.

The movie is the first in the University Film society's series of six scheduled for winter quarter.

STUDENTS NAMED
FOR STUDY IN
FOREIGN COUNTRIES

Minneapolis, Jan. --Twenty-seven University of Minnesota students have been chosen to study in foreign countries during the coming summer vacation under the Student Project for Amity Among Nations (SPAN).

The names of the members of the Minnesota group, who will study in five different countries, were announced by Russell M. Cooper, assistant dean of the University junior college and chairman of the University faculty SPAN committee.

The 27 students, chosen from among 49 applicants, will visit Colombia, England, France, Germany and Scandinavia.

They will be part of a group of approximately 75 successful applicants from 10 Minnesota colleges and universities who will leave this country in June and return in September under the SPAN program, a project designed to promote international understanding.

Expected to return to the University next fall and discuss what they learned during the summer, the students were chosen on the basis of scholarship, knowledge and interest in public and international affairs and general leadership ability. Undergraduate students are given 12 University credits for their summer work, and participating graduate students are given credits according to a special arrangement.

Preceding the trip abroad, students from all the participating colleges who are planning to visit a certain country will meet to study the background, habits and language of that country.

Other Minnesota colleges and universities taking part in the program are the University's Duluth branch; Hamline, Macalester, St. Thomas, Augsburg, Gustavus Adolphus, St. Olaf, Carleton and St. Cloud Teachers' college.

This is the fourth year that SPAN, which originated at the University, will help to finance student study in foreign countries and the second year that the project has been statewide.

Dean Cooper said that SPAN would try to raise a total of \$15,000 in contributions from throughout the state.

University students who will study in Colombia are Ruth Elliff, 3233 South Fremont, Minneapolis; Laverna Gillette, 1716 Taylor street northeast, Minneapolis; William Horan, Wells; and Marilyn Suess, Lakeville.

Visiting England will be Bettye Ruth Bryan, New Orleans, La.; Jean Fletcher, 3715 Huntington avenue, St. Louis Park; Marilyn McCrudden, 514 Eleventh avenue southeast, Minneapolis; Marshal McKusick, 4924 First avenue south, Minneapolis; Marcia Morrison, 3115 Girard avenue south, Minneapolis; Shirley Price, 3856 Twenty-eighth avenue south, Minneapolis; Donald Salper, 2192 Highland parkway, St. Paul; Lucy Schwartz, Sleepy Eye; Ruth Weesner, Graceville; Sheila Dolan, 88 North Lexington, St. Paul; and Sally Van Valkenberg, 1927 Sargent, St. Paul.

The six University students selected to go to France are Donna Allen, 4722 Upton avenue south, Minneapolis; Ellen Mary Kahn, 2753 Dean Boulevard, Minneapolis; Berna Leibowitz, New York, N.Y.; Cherry Merritt, Pequot Lakes; Ruth Weigel, 124 Prospect avenue, Minneapolis; and Madge Loranger, Virginia.

Those going to Germany will be Lucy Balian, 235 East Arlington avenue, St. Paul; Theodore Edblom, 3508 Twelfth avenue south, Minneapolis; William John Geske, 2911 Logan avenue north, Minneapolis; Caroline Heller, Wauwatosa, Wis.; and Thelma Kunde, New Ulm.

Judith Edes of Glen Lake was selected to go to Scandinavia.

U. OF M. CHEMIST
ATTENDS NUCLEAR
STUDIES INSTITUTE

Minneapolis, Jan. --Dr. Walter M. Lauer, professor of organic chemistry at the University of Minnesota, is studying the techniques of using radioisotopes in research at a one-month course offered by the Oak Ridge Institute of Nuclear Studies at Oak Ridge, Tenn.

Through a contract with the Atomic Energy commission, the institute, formed by 24 Southern universities, conducts a broad program of research, training and education in the nuclear sciences. The present class brings to 400 the number of research workers who have attended the radio isotope school.

Radioisotopes are atoms which give off radiation and thus enable scientists, using a Geiger counter, to trace them through complicated chemical and biological processes. As a result radioisotopes have been called the most important research tool to be developed since the invention of the microscope.

The laboratories and facilities available to scientists in the program are among the finest of their kind in the world. Oak Ridge is the center of radioisotope production in this country. The most economical method for producing radioisotopes is to subject small quantities of an element to neutron bombardment in the uranium chain-reacting pile present at Oak Ridge National laboratory.

Dr. Lauer plans to use radioisotopes in the preparation of organic compounds for the solution of problems related to the mechanism of drug action.

COURSE IN CHILD
HEALTH TO OPEN
MONDAY AT U. OF M.

Minneapolis, Jan. --A demonstration of a model school health council meeting will be included in the University of Minnesota's continuation course in child health for public health nurses Monday and Tuesday (Jan. 23 and 24) at the University's Center for Continuation Study.

Presiding at the council will be Perry J. Sandell, supervisor of physical and health education, safety and recreation, Minnesota department of Education. The council will take up such topics as plans for progressive health information to be given to the student group.

The course, itself, will deal with the general subjects of helping the child of school age to understand his physical and emotional development, conferences as a method of teaching and how to work with groups.

Faculty for the course will include Ella McNeil, professor of public health nursing, University of Michigan; Dr. L. F. Richdorf, clinical associate professor of pediatrics at the University of Minnesota; Dorothy F. Simmons, associate professor of agricultural extension and state home demonstration leader; C. Gilbert Wrenn professor of educational psychology; and Lillian Zimmerman, American Red Cross nursing field representative, Midwestern area office, St. Louis.

GLACIERS SUBJECT
OF 'U' MUSEUM
LECTURE SUNDAY

Minneapolis, Jan. --How studies of Alaskan glaciers explain what happened in Minnesota during the glacial period will be the subject of the Minnesota Museum of Natural History lecture at 3 p.m. Sunday (Jan. 22) at the museum auditorium on the University of Minnesota campus.

The speaker will be Dr. William S. Cooper, professor of botany at the University, who will discuss "Forests and Glaciers", telling how plants and forests advance as glaciers recede and how they are destroyed as ice advances.

Dr. Cooper's talk, to be illustrated with slides, will also deal with the relation of the glaciers to the present climatic conditions of Alaska.

The lecture is part of a series of free Sunday programs sponsored by the museum. Speaking Jan. 29 will be Warren H. Nord, assistant scientist at the museum, who will lecture and show movies on "Birdlife of the Lower Souris Refuge in Dakota".

U. OF M. INSTITUTE
ON FAR EAST
SLATED FEB. 17-19

Minneapolis, Jan. --An institute to acquaint Minnesota citizens with America's foreign policy in the Far East and to help them participate in the formation of these policies will be held at the University of Minnesota Feb. 17 through 19.

The Far East institute will be sponsored by the Minnesota World Affairs Center at the University in cooperation with the University's Center for Continuation Study. The World Affairs Center, which is made up of the Minneapolis and St. Paul Foreign Policy Associations, the Minnesota Atlantic Union committee, the Minnesota United Nations association, and the Minnesota World Federalists, will be aided in presenting the institute by approximately 40 other organizations.

Principal speakers will be A. T. Steele, Far Eastern newspaperman for the past 18 years and author of a recent series of articles, "Asia's Red Riddle"; and Livingston T. Merchant, deputy assistant secretary for Far Eastern affairs, U. S. department of state.

Those attending the institute will participate in individual discussion groups during the afternoon of Saturday, Feb. 18, and a summary of the results of their discussions will be presented to Merchant for consideration by the state department.

The institute will be open to all interested persons upon payment of a \$2.50 registration fee.

EXPLORER COUPLE
TO SHOW ALASKAN
FILMS AT U. OF M.

Minneapolis, Jan. --Two young explorers and colored motion pictures they took in Alaska will be on the University of Minnesota convocation program at 11 a.m. Thursday (Jan. 26) in Northrop Memorial auditorium.

The explorers, Constance and Harmon Helmericks, began their first trip to Alaska shortly after their marriage and their graduation from the University of Arizona.

On their first trip, which lasted 26 months, they travelled on foot and by canoe, but they made their second trip in a small plane, "The Arctic Tern". During their trip by plane, they lived entirely on fish they caught themselves.

In spite of the 62 degrees below zero temperatures and a 70-miles-per-hour wind they encountered on their trip, the Helmericks have planned to build a permanent home on the shore of Takakula lake in Alaska.

Their motion pictures include everything from the wild flowers and insect life of Alaska to the large floating ice cakes they encountered on their trip. The life of the Eskimos with whom they lived for a year will also be included.

They are the authors of "We Live in Alaska" and "Our Home in the Arctic".

U. OF M. BUSINESS
SCHOOL TO MARK
30th ANNIVERSARY

A-B-D-1-2, Regents

Minneapolis, Jan. --A birthday that is of concern to more than 5,000 people will be celebrated at the University of Minnesota Thursday (Jan. 26).

It is the thirtieth birthday of the University of Minnesota's school of business administration, which, since its first graduating class of 14 in 1919-20, has boosted its total alumni count to 5,882.

Alumni will celebrate the school's birthday with conferences in marketing, finance and controllership, an alumni coffee hour at 3:30 p.m. in Coffman Memorial union and an alumni dinner at 6 p.m. in the main ballroom of the union.

Ralph Cassady, Jr., professor of marketing at the University of California at Los Angeles, will discuss "Research--A Modern Aid to Business Policy" at the opening conference on marketing scheduled for 9 a.m.

"Federal Budget Financing and the National Economy" will be the subject of the address by John K. Langum, vice president of the Federal Reserve Bank of Chicago, at the finance conference at 10:30 a.m.

Three speakers will take part in the controllership conference at 2 p.m. Philip Pillsbury, president of Pillsbury Mills, Inc., Minneapolis, will discuss "What Management Expects from the Controller". K. Y. Siddall, controller, Proctor and Gamble company, Cincinnati, will speak on "What the Controller Expects from His Staff". And Victor Z. Brink, assistant controller of the Ford Motor company, Dearborn, Mich., will discuss "The University's Part in Training for Controllership".

The three conferences, which will include discussions following the speakers, will be held in Room 320 of the union.

The school's second dean, Russell A. Stevenson, who headed the school from 1926 to 1944 and who is now dean of the school of business administration at the

University of Michigan, will be the speaker at a luncheon conference at 12:15 p.m. in the union junior ballroom. His topic will be "Trends in Management Training".

Arthur W. Marget, formerly a professor in the school and now assistant director, division of research and statistics, board of governors of the Federal Reserve System Washington, will be the principal speaker at the alumni dinner. He will discuss "On the International Financial Front, 1944-1949".

The school of business administration, which since 1944 has been headed by Richard L. Kozelka, had an enrollment of only 88 students and 21 faculty members when it was established in the old mechanic arts building (Eddy hall) at the University. By 1938, when the school was moved to its new building, Vincent hall, it boasted 54 faculty members and a pre-war peak of 666 students enrolled during the school year. An all-time high of 82 faculty members and 2,240 students during the year was hit in 1947-48.

Although the primary function of the school has been to train students for business careers, research projects and conferences have kept the faculty in touch with problems throughout the state.

In addition to an annual bankers' conference, conferences and courses on topics ranging from accounting to industrial relations have been organized by the business faculty and presented at the University's Center for Continuation Study.

Among the research projects in which the school has participated are the Red Wing community survey when enabled that city to examine its needs and resources after the war.

UNIVERSITY OF MINNESOTA
NEWS SERVICE
JAN. 20, 1950
FOR IMMEDIATE RELEASE

Registration will begin Monday (Jan. 23) for the 275 evening courses offered spring semester by the University of Minnesota's general extension division.

The courses, which include classes of vocational and avocational interest as well as those leading to a University degree, will open the week of Feb. 6.

Most of the courses may be taken for regular University credit and meet one night a week for a 17-week period.

Among the new or infrequently offered courses are "Reading for Pleasure", designed to increase both reading speed and comprehension; "Flour Milling Survey", which presents an over-all picture of the flour milling industry; and "The Greek Heritage", a humanities course.

In the field of business, courses offered include "Advertising Practice", "Common Legal Problems", "Introduction to Industrial Relations", "Basic Salesmanship" and "Real Estate Appraisal".

General and liberal arts courses include such titles as "Present Day English", "Foundations of National Power", "Birds of Minnesota", "Modern Philosophies of Social Reform", and "Motion Picture Laboratory".

All three Twin Cities extension offices will maintain special evening and Saturday hours during the registration period.

From Monday, Jan. 23, through Friday, Feb. 10, the campus office at 57 Nicholson Hall and the St. Paul office, 500 Robert street, will be open weekdays from noon to 8:15 p.m. On Saturdays during that period, the campus office will be open from 8 a.m. to 5 p.m. and the St. Paul office from 8:30 a.m. to 5 p.m.

The downtown Minneapolis office, 690 Northwestern Bank building, will maintain special hours from Monday, Jan. 23, through Saturday, Feb. 4. The office will be open weekdays from noon to 8:15 p.m. and on Saturdays from 8:30 a.m. to 5 p.m.

*Harold
Shreiner*

Organ music by Bach, Franck and Louis Vierne, his teacher at Notre Dame in Paris, will be played by the Salt Lake Mormon Tabernacle organist, Alexander Shreiner, when he appears at the University of Minnesota Saturday (Jan. 28).

Shreiner, who will give a free public concert at 8:30 p.m. in Northrop Memorial auditorium, will also play a new modern composition, "Fantasie in G", by the Belgian composer, August Waelberghe.

The Louis Vierne work, "Four Pieces de Fantasie", is made up of "Intermezzo", "Clair de Lune", and "Carillon de Westminster", a composition on the well-known tune played on the bells of the Houses of Parliament tower, and "Naiades".

Also on Shreiner's program will be "Fantasie in G Major" and "Fantasie and Fugue in G Minor" by Bach, and "Fantasie in A Major" by Cesar Franck.

Shreiner, who has been organist for the Mormon Tabernacle, Salt Lake City, Utah, since 1924 and a church organist since the age of eight, is on his fourth extended tour of major American cities. From the Tabernacle in 1927, he played the first in the series of national radio programs that is now one of the oldest continuous radio shows in existence.

He is the author of the two-volume, "Organ Voluntaries", a best-seller among books of music for church organists.

From 1930 to 1939, while retaining his position as organist at the Tabernacle, Shreiner played 100 recitals yearly at the University of

California in Los Angeles and taught the Arnold Schoenberg system of harmony there.

Sponsoring the University concert will be the University department of concerts and lectures and the Minnesota chapter of the American Guild of Organists.

COURSE IN CHILD
DISEASES TO OPEN
THURSDAY AT 'U'

Minneapolis, Jan. --Dr. Franklin Top of the Herman Kiefer hospital, Detroit, and Dr. J. A. Book, director of medical genetics at the University of Lund, Sweden, will be guest faculty members at the University of Minnesota's continuation course in pediatrics to open Thursday (Jan. 26).

The course, to be held through Saturday (Jan. 28) at the University's Center for Continuation Study, will be attended by doctors of medicine engaged in general practice.

Three major fields of medicine will be considered in the course. The first day will be devoted to common dermatological problems in infants and children. The second portion of the course will consist of a half-day discussion of the significance of genetics and heredity in human disease. The remainder of the course will be devoted to common contagious diseases of children.

Clinical and full-time faculty members of the University's medical school will complete the course's faculty.

FOR IMMEDIATE RELEASE

Minneapolis, Jan. -- Two new series of weekly radio programs, "American Folk Music" and "The Collector's Corner", will be added to the schedule of KUOM, University of Minnesota radio station.

"American Folk Music", which will be heard on Tuesdays from 5:30 to 5:45 p.m., will be devoted to recordings of authentic folk material issued by the Library of Congress and will include some background material concerning the music. The program will begin Feb. 7.

"The Collector's Corner", an experimental program, will be heard from 5:30 p.m. to 5:45 p.m. on Wednesdays, beginning Feb. 8. The program will be made up of little-known recordings from the private collections of KUOM listeners. If the owner of a record has an interesting story concerning his collector's item, he will be asked to appear on the program.

Arnold Rosenberg, KUOM musical director, said that if the experiment proves successful the length of the program may be increased to a half hour. Those owning collector's records may contact Rosenberg by phone or mail at KUOM.

SUN'S WARMTH MAY
SOME DAY HEAT
MINNESOTA HOMES

Minneapolis, Jan. --Heat which comes from the sun may some day be used to heat Minnesota homes.

Research that may make this possibility a fact is being conducted by three University of Minnesota institute of technology staff members Dr. R. C. Jordan, professor of mechanical engineering, and Joseph Feilzer and Marvin Yarosh, instructors in mechanical engineering.

"The sun's heat," said Dr. Jordan, "is a tremendous source of untapped energy--enough to heat our homes if we could harness it."

He explained that enough work had already been done on the problem to make the sun's heat, or solar energy, a practical source of heat for homes in California and other fairly high temperature states, but that it was not yet a practical heating method for climates as cold as that of Minnesota.

There are two problems to be solved Dr. Jordan said, before it will be usable here. One is an efficient means of trapping the heat rays that are available from the sun. The other is a means of storing the heat until it is needed.

By making use of a reversed refrigeration cycle or "heat pump", which can pump heat from one place to another as water can be pumped up from below the surface of the earth, heat can be taken from the sun-warmed air, earth or water and pumped into a room.

(more)

The heat pump works like this: Outside air is drawn into an evaporator, which contains a liquid refrigerant, for instance, liquid ammonia. As it evaporates, the liquid refrigerant cools the air by absorbing its heat. The heated vapor resulting from the evaporation of the refrigerant then passes through a compressor and is discharged at a higher pressure into another chamber, the condenser, which is actually the heating unit in the house. The condenser changes the refrigerant back into a liquid and the stored heat is released.

Thus, heat from a 20-degree temperature out-of-doors, for instance, could raise a room's temperature to 70 degrees. Essentially, the heat is absorbed at a low temperature and released at a higher temperature.

"In fact," Dr. Jordan said, "no matter how cold it is outside, usable heat units are always present. They would be present unless the temperature dropped to 460 degrees below our zero."

But the heat from the sun must be trapped before it can be used in a heat pump, he said, adding that one of the possible solutions might be to trap the sun's rays in a glass chamber. He explained that this would follow a principal similar to that existing in the ordinary greenhouse, which absorbs more heat than it can release.

Because solar energy is not constantly available, it is necessary to store the heat until it is needed. Dr. Jordan said that the use of liquids is one of the possibilities being considered.

The research is being made with money awarded to the University by the American Society of Heating and Ventilating Engineers. Right now, the possibilities of solar heating are being explored on paper. But Dr. Jordan hopes a working model can be constructed at the University this summer.

AT 'U' THURSDAY

Minneapolis, Jan. --Three American singers will present the comedy opera, "The Secret of Suzanne", at the University of Minnesota convocation at 11 a.m. Thursday (Feb 2) in Northrop Memorial auditorium.

The trio, made up of Marie Rondahl, Andrew Gainey, and Paul Knowles, will sing the Wolf-Ferarri opera in English.

Miss Rondahl, soprano, has been soloist with Dr. Frank Black and the NBC Symphony orchestra. She has starred in the programs "Serenade to America" and "Lucky Stars".

The trio's baritone, Gainey, has sung major roles with the New York City Center and the American Opera companies and has frequently been a guest on the "Harvest of Stars" program.

Knowles, tenor, has done solo work under such conductors as Toscanini, Ormandy, Walter, Rodzinski and Barbirolli.

The opera performance will be broadcast over the University's radio station, KUOM.

LEADERS OF SPAN
GROUPS NAMED

Minneapolis, Jan. --The names of five faculty members from Minnesota universities and colleges who will accompany Minnesota's SPAN group to foreign countries this summer have been announced by Russell M. Cooper, assistant dean of the University of Minnesota junior college and chairman of the University SPAN committee.

Seventy-five students from ten colleges and universities in Minnesota will study in Colombia and four European countries under SPAN, Student Project for Amity Among Nations.

Accompanying the Colombia group will be Herbert M. Willging, professor of Romance languages at the College of St. Thomas, St. Paul. Mulford Sibley, associate professor of political science at the University of Minnesota, will go to England. Huntley Dupre, professor of history and political science at Macalester college, St. Paul, will accompany students studying in France. The group going to Germany will be led by James C. Flint, associate professor of philosophy and religion at Carleton college, Northfield. And Iver B. Olson, professor of Norwegian at Augsburg college, Minneapolis, will head the Scandinavian group.

The five will be members of the University of Minnesota summer session faculty.

SPAN, which originated at the University of Minnesota to promote international understanding, became statewide last year.

MANAGING SOILS THE SECOND 100 YEARS -- FARM AND HOME WEEK

Great strides in scientific agriculture must be taken during the next 50 to 100 years if increasing world populations are to be fed without the soil being "mined," a national soil scientist revealed at the opening of Farm and Home Week at University Farm Tuesday (Jan. 31).

The job can be done "as long as farmers are free to progress in using better methods to make abundant food at a fair cost and profit," Dr. George D. Scarseth, American Farm Research Association director, told Minnesota farmers and homemakers at the opening session of their four-day short course.

Scarseth sees great new soil-building improvements ahead for agriculture "as long as the traditional American incentive of a fair profit for honest effort is not replaced by some system of orders or statism."

3 On the other hand, "if farmers lose as much individual freedom as many laborers have lost, food will be scarce" for the 106 million additional people expected by Scarseth in the United States within the next century.

Scarseth predicted nine advancements for soil management in the years ahead, provided the incentives "for putting out hard, honest work" were furnished all Americas.

"I predict irrigation will take one big risk out of farming for more gain," he told the noon assembly audience.

"I predict increased amounts of nitrogen will be used to get the growing season started earlier.

"I predict a close relationship will be found between the contents of soils for available major as well as trace mineral elements and the health and welfare of man and animals.

"I predict we will find methods to grow certain highly valuable crops without the use of rotations.

(MORE)

Add 1 - Scarseth

"I predict growers will crowd the use of yield and quality factors until the unconquerable bottle-necks of light and temperatures remain the only limiting factors.

"I predict the plant breeder will bring out new characteristics in plants to fit new needs.

"I predict farmers will give more attention to producing high protein forages and pastures.

"I also predict more protein forages will be made into silages to approach closer the need for June quality dairy feeding in January.

"I predict programs for equality and fairness will be based more on encouragement of practices that produce on fewer acres for greater profit.

During the first of the 160 discussions scheduled for the 4-day week, George McPhee, extension engineer, listed an above ground insulated pump house and an underground discharge as the two methods recommended by the University of Minnesota for keeping farm water systems from freezing in winter.

Those two installations will protect the types of water pressure systems required to meet Minnesota sanitation regulations for farms producing grade A milk for sale, McPhee said.

RELEASE: 5:00 P.M.

There is definite evidence that reading disability and juvenile delinquency are related, according to Dr. James Brown, associate professor of rhetoric at the University of Minnesota.

Speaking at the opening session for homemakers, he stressed the importance of providing interesting and instructive reading material for children. Most homes do not have enough good reading material for children, he said. Hobbies and particular interests of family members should be considered in selecting books and magazines.

The family library should also include books that are suitable for reading aloud, Dr. Brown believes. As suitable for that purpose he listed such books as Gulliver's Travels, Wind in the Willows, Alice in Wonderland, Pilgrim's Progress, Big Family and Life with Father.

HIGH COSTS AHEAD FOR FARM SUPPORT PROGRAMS -- FARM AND HOME WEEK

Full use of productive resources and fair distribution of returns should be the guides for developing coming farm programs, O. B. Jesness, University of Minnesota farm economist, told a Farm and Home Week audience at University Farm Wednesday (Feb. 1).

"The highest level of living available will be obtained only if we use productive resources effectively and distribute the results in the fairest possible manner," he told Minnesota farmers and homemakers at the second general assembly of the 4-day short course.

Jesness sees obstacles ahead for a long range high price support program.

"We will do well to weigh some very important costs, if the government is to guarantee farmers given prices regardless of the market available," he told the group.

These costs include not only the drain on the public treasury, but the need for production controls as well. Stronger controls will be needed if high price supports are to prevail, he pointed out.

A second, "very serious" cost of high price supports "is the conflict between high price supports and our policy of developing international cooperation and trade," he said.

Jesness does not think all farm problems are solved by price programs, whether they be high supports or income payments.

"The worst conditions of rural poverty and low income are not solved by price manipulation. We should not justify price support programs simply because they benefit those farmers best able to look after themselves," he said.

"Nor should we overlook the other ways of improving rural living. Maintaining good health and a high level of productive activity in other parts of the economy is

(MORE)

essential to agricultural welfare.

"Government is not something separate and apart from the people in regard to a long-range farm program, he said.

"We only delude ourselves if we think financial needs of the government can all be provided by taxation of only the very rich when we have a federal budget well over forty billions of dollars. The general run of people must provide most of this budget because, after all, this is where most of the income and resources lie," he said.

* * * * *

Good seeding practices can cut the amount of grass or legume seed needed for planting by as much as one-third to one-half, Agronomist A. R. Schmid told Farm and Home Week visitors Wednesday morning.

High seed costs, coupled with the need for shifting more agricultural land into soil-building legumes and grasses makes it important that Minnesota farmers take advantage of all practices proven to improve seed stands, Schmid said.

* * * * *

Thursday talks on the St. Paul Campus will cover poultry and soil conservation, in addition to the discussions on livestock, crops, gardening, homemaking and beekeeping.

"The Eagle With Two Heads", a fantasy by Jean Cocteau, will be presented by the University of Minnesota Film society at 4 and 8 p.m. Wednesday (Feb. 1) in Northrop Memorial auditorium.

The movie, second in the University Film society's winter quarter series, deals with the story of a young queen who mourns for ten years after her husband is assassinated on their wedding night. When a young anarchist attempts to assassinate her, she falls in love with him.

"The Eagle With Two Heads" will be the University's third film by Cocteau, French poet and playwright. Earlier "Beauty and the Beast" and "The Eternal Return" were shown on the campus.

The film is in French with English subtitles.

ITALIAN-FRENCH
PICTURE COMING
TO 'U' WEDNESDAY
(Feb. 8)

An Italian-French film, "Flight Into France", will be shown by the University of Minnesota Film Society at 4 and 8 p.m. Wednesday, Feb. 8 in Northrop Memorial.

The movie directed by Mario Soldati, deals with the flight of a Italian war criminal across Italy and into France.

On his flight to the Italian-French border to escape death, the war criminal is followed and then accompanied by his young son. He accidentally shoots the son in a fight with several others who are also on their way to France, and is captured.

The movie which includes many scenes of the Italian landscape, is in Italian and French with English subtitles.

It is the third in the society's winter quarter series of six films.

'U' LIBRARY EXHIBITS
SELECTION OF FINE BOOKS

Minneapolis, Jan. —"Fifty Books of the Year", an exhibition of the best designed, printed and manufactured books of 1948, are on display at the University of Minnesota library and will be shown through Wednesday, Feb. 22.

Books in the exhibition, circulated by the American Federation of Arts, Washington, were chosen from a group of 730 entries by a jury selected by the American Institute of Graphic Arts. The jury included Gyorgy Kopes, assistant professor of visual design, Massachusetts Institute of Technology; James Hendrickson, designer, typographer and printer; and E. McKnight Kauffer, artist and designer.

The books were judged on their merits as media of communication.

A selection from among books published in 1949 will be made in March.

RELEASE: THURSDAY, 3:45

FERTILIZER AND STAND AID CORN YIELD

Minnesota corn yields can be stepped up by combining proper planting rates and the right fertilizer, new experimental results released by the University of Minnesota department of agriculture indicate.

Adequate stand and proper fertilization have "considerably increased" corn yields in experiments the past three years, A. C. Caldwell, University Farm soils associate professor, reported.

The tests show a stand of three stalks per hill (about 11,000 plants per acre) to give the best returns on sandy soil, he said. One hundred pounds of fertilizer per acre, placed in the hill at planting time, was the best fertilizer rate.

For medium textured soil, the best stand was four stalks per hill (15,000 plants per acre), with 200 pounds of fertilizer added. In fields having heavier soil a stand of 20,000 plants and 200 pounds of fertilizer gave a yield of over 140 bushels per acre.

Caldwell said seeding rates should not be over 3 stalks per hill where the fertilizer is not added and fields lack natural fertility.

The experiments showed ear size to get smaller as the plant population per acre was increased, but yield was usually greater. The small ears still had a high shelling percentage when the crop was fertilized, he said.

PERENNIALS ARE BUSY PERSON'S FLOWER

Perennials are the answer to the busy person's require for flowers that need little special care and produce blooms for a number of years.

Given proper care, perennials will last indefinitely, says Richard Stadtherr, research assistant in horticulture at the University of Minnesota. They are relatively inexpensive, considering the number of years they last.

Though personal preference governs to a large extent which perennials to choose, hardiness is an important consideration in this climate. Soil type and drainage are other factors to consider.

A well designed flower border depends to a large extent on harmony in color and texture. In planting perennials in the flower border, key or accent plants are usually placed first. Taller plants generally go next to the background, though uniformity is avoided in the most effective borders. Irregularity creates interest and prevents plants from being hidden. Since a neat, attractive border with continuous bloom is the ultimate goal, hardy bulbs and annuals should be included.

MODERN FURNITURE IS VERSATILE

RELEASE: THURSDAY 4:30 p.m.

Versatility of use is a significant trend of modern design in furniture.

Chests are now being made which can be used for various purposes and are suitable for living room, dining room, bedroom or hall.

Another practical trend in modern furniture is the development of comfortable chairs which are not upholstered and are less expensive, says Helen Ludwig, assistant professor of home economics at the University of Minnesota.

Appearance on the market of pieces of furniture with adjustable shelves and graduated drawer spaces indicates that manufactures are giving more thought to efficient storage.

Versatility of use is also evident in modern lamps, according to Miss Ludwig. In the past table lamps have been too low for good lighting. Today's lamps are a better height for tables. Many of them are well designed and inexpensive. The trend is toward larger, more important-looking lamps.

RELEASE: THURSDAY, 1:45 p.m.

BEEES ARE BEST POLLINATORS

Honeybees are responsible for at least 75 per cent of all returns from various agricultural crops requiring insect pollination, M. H. Haydak, University Farm entomologist, estimated today.

Haydak places their value as pollinators at 25 times greater than the work they do producing honey -- even though Minnesota led the nation in honey production this last year.

The bees are best fitted for pollination of cultivated plants for many reasons, Haydak explains.

They are the most abundant pollinating insect in the spring. They can be transported very easily to places where they are needed. They are "flower steady" -- visiting only one kind of flower on each trip.

He believes between 85 and 90 per cent of all insects pollinating our agricultural crops are honeybees. They also contribute to the conservation and enrichment of soil in pastures and erosion areas through the pollination of self-seeding legumes.

Honeybees can be kept anywhere in Minnesota, he said.

WHAT ABOUT POULTRY HYBRIDS?

Better hybrid chickens are "anticipated" for the future, a University of Minnesota poultryman reported today at University Farm.

R. N. Shoffner, poultry breeding specialist, called the production of hybrids a relatively infant industry, but one which has already produced birds with better size, maturity and egg production uniformity than average outbred, or "purebred" lines.

"Hybrids tend to perform alike even under different management by different poultry raisers," he said. This is the result of the diversified ancestry of the hybrid, which permits it to cope with a wide range of conditions.

As to the questions, Are hybrids any good? Shall I buy them? and What can be expected from them? -- the University Farm poultry division, the U. S. Department of Agriculture, a 12 state north-central research cooperative and many commercial producers are working on those answers.

No blunt yes or no can yet be given to questions about the ability of hybrids. Shoffner does consider them "at least a good risk," however.

"We know there are good hybrids, and others not so good, just as in the so-called purebreds," he said.

Children between the ages of six and twelve years, who will attend Saturday morning classes in rhythm and swimming, are among those registering this week for University of Minnesota general extension division spring semester classes.

The rhythm classes, which include ball activities, rhythmic games and dances, will be held from 9 to 10 a.m. and 10 to 11 a.m. on Saturday mornings in Norris gymnasium on the campus. The 9 a.m. class will be open to eight and nine-year old children and the later class has been scheduled for six and seven-year-olds.

Swimming classes for girls aged six to 12 will be held Saturday morning in Norris gymnasium and classes for boys of the same ages will be held Saturday mornings in Cooke hall. The swimming classes are divided into sections for beginners, advanced beginners and intermediate swimmers.

Registration for children's recreation classes is still open at the University's three extension offices; 57 Nicholson hall on the University campus, 690 Northwestern bank building in downtown Minneapolis and 500 Robert street in downtown St. Paul.

Registration without late fee for the 275 extension courses offered by the University during the spring semester will close Saturday (Feb. 4). Special evening and Saturday hours will be maintained by the three offices during that period.

SWINE HONOR ROLL -- Farm and Home Week

Fourteen Minnesota farmers were named to the 1949 swine honor roll Thursday (Feb. 2) by the Minnesota Swine Producers' Association meeting, held in conjunction with Farm and Home week at University Farm.

Recognized for outstanding hog production were: Roy Bakehouse, Owatonna (Steele county); Lloyd Cipra, Glenville, (Freeborn); Manville W. Elmer, Wells, (Faribault); E. G. Ham, St. Charles, (Winona); the Hamann brothers, Garretson, So. Dakota, (Rock); Murray Jessen, representing the Jessen Brothers, St. Charles, (Winona); Eli Kitchenmaster, Steen, (Rock); Henry Lippman, Gibbon, (Nicollet); V. E. Merrill, Pipestone, (Pipestone); Enoch Peterson, Alden, (Freeborn); Wm. H. Stevermer, Easton, (Faribault); and Dave Williams, Waltham, (Mower).

The awards are based on long time records for efficient hog production attained by following good sanitation, feeding, and management practices, according to E. F. Ferrin, University of Minnesota animal husbandry chief and secretary of the swine producers association.

Other producers who made good records, were given honorable mention. They include: Elmer Bendixen, Redwood county; L. W. Bryson & Son, Freeborn; A. D. Kennedy, Rock, E. A. McCready, Dodge, and George Schroeder, Nobles.

MINNESOTA 'U' TO SPONSOR
INSTITUTE ON RELAXATION

Minneapolis, Feb. —An institute on teaching the art of relaxation will be held at the University of Minnesota Friday and Saturday (Feb. 17 and 18).

The relaxation institute, sponsored by the University department of physical education for women and the University general extension division, will be attended by men and women who will, in turn, teach relaxation to others. The course will be of particular interest to teachers, physiotherapists, psychiatrists, doctors, dentists, social workers, recreation workers and clergymen.

Instructors will be Dr. Edmund Jacobson, director of the laboratory for clinical physiology at the University of Chicago, and author of "You Must Relax"; Dr. Josephine Rathbone, associate professor of health and physical education at Teachers college; Columbia university; and Dr. William T. Heron, professor of psychology at the University of Minnesota.

"A knowledge of the skills of relaxation is especially important in our country because we are always in a hurry," Dr. Gertrude M. Baker, director of physical education for women at the University, said. "The spread of that knowledge is even more important now, in this time of insecurity."

'U' OF MINNESOTA
FUND CAMPAIGN

Minneapolis, Feb. —Carl W. Painter, New York city lawyer, has been named 1950 national chairman of the University of Minnesota's Greater University Fund, Arthur R. Hustad of Minneapolis, chairman of the fund's board of trustees, has announced.

The post was held last year by John F. McGovern of LeSueur, Minn., a 1911 graduate of the University and the school's first All-American football player.

In accepting the post, Painter said, "I am convinced that the Greater University Fund is good, not only for the University, but for the alumni, and I want to do my part."

The Greater University Fund, sponsored by the Minnesota Alumni association, provides scholarships for both graduate and undergraduate students and special research projects with funds contributed by University friends and alumni.

Painter, a senior partner in the New York firm of Cravath, Swaine and Moore, has been associated with that firm since 1920. He was graduated from the University of Minnesota in 1915.

During World War I, Painter was a lieutenant in the American Expeditionary Forces in France and served in the Army of Occupation in Germany.

While attending the University, Painter was managing editor of the Minnesota Daily and won a number of awards as an inter-collegiate orator and debater. He was elected to Grey Friars and Phi Beta Kappa.

In June 1949, Painter was awarded the University of Minnesota Outstanding Achievement Medal, an honor authorized by the Board of Regents to be conferred on Minnesota alumni "in recognition of noted professional attainment".

TO ADDRESS U OF M
EXTENSION CLASS

G. Cullen Thomas, vice president of General Mills, Inc., will speak on "Management's View of Products Control" at 6:20 p.m. Thursday (Feb. 9) in Room 106 Nicholson hall on the University of Minnesota campus.

Thomas will address the first of 17 weekly meetings of the University's general extension division evening course on "Products Control in the Grain Processing Industries".

The course has been planned as an activity of the Northwest section of the American Association of Cereal Chemists. A committee headed by R. K. Durham, director of products control for Pillsbury Mills, Inc., will guide the course and select the speakers to present a complete picture of the products control function from the selection of raw materials to control for customer satisfactor. Related subjects in soybean, flax seed, corn, rye and other grain processing fields will be covered.

Films and a tour of local grain processing facilities will supplement the lectures. Instructor for the course is John M. MacKenzie, assistant professor of mechanical engineering and director of the milling engineering section of the University's institute of technology.

N.Y. FILM CRITIC
TO SPEAK AT 'U'

Minneapolis, Feb. --The motion picture editor and critic of the New York Times, Bosley Crowther, will be the University of Minnesota convocation speaker Thursday (Feb. 9).

Crowther will speak on "What You Don't Know About the Movies" at 11 a.m. in Northrop Memorial auditorium.

Crowther, a 1928 graduate of Princeton university, was winner that year of the New York Times intercollegiate current events contest. That fall he went to work for the Times as a general reporter.

Joining the Times drama department in 1932 as an assistant to the drama critic, he became assistant film critic and editor in 1937 and film critic in 1940.

With William DuBois, he is the co-author of the play "East of the Sun".

KUOM, the University of Minnesota radio station, will broadcast Crowther's talk.

Minneapolis, Feb. —Two new programs, one to discuss university life in foreign countries and the other designed to bridge the gulf between the scientist and the layman have been scheduled by KUOM, the University of Minnesota radio station.

KUOM will broadcast "Hands Across the World" on Thursdays at 1:30 p.m. and "Your Stake in Science" on Wednesdays at 5:15 p.m.

Burton Paulu, KUOM manager, will lead a discussion on life in British universities Thursday (Feb. 9) on "Hands Across the World." His guests will be a British student now attending the University and a Minnesota student who has studied in England.

Dr. Mark Graubard of the University's natural science department and his guests will discuss the H-bomb on "Your Stake in Science" Wednesday (Feb. 8). Dr. Alfred O; C. Nier of the University's physics department will be one of the speakers.

Discussions on the science program will center around questions sent in by listeners.

DOCUMENTARY FILM,
' THE QUIET ONE',
AT 'U' WEDNESDAY

A film which tells the story of a delinquent Negro youngster who eventually finds understanding at a boys' school will be shown by the University of Minnesota Film society at 4 and 8 p.m. Wednesday, Feb. 15, in Northrop Memorial auditorium.

The film, "The Quiet One", is an American documentary film that has as part of its cast the staff and youngsters from New York's Wiltwyck School for Boys and has as its setting both the school and New York City.

The story is that of a 10-year-old child whose life has been marred by the indifference of his family and who withdraws into himself.

Chosen the "Best Picture of the Year" by the New York Newspaper Guild and cited for a page one award, the movie is also winner of the first annual prize of the City College Film institute and a special award by the Protestant Motion Picture council and the Christian Herald.

The film is the fourth in the society's winter quarter series of six motion pictures.

Clifton Utley, national news commentator for WMAQ-NBC, Chicago will be the featured speaker when the University of Minnesota School of Journalism holds its fourth annual Radio News short course at Minneapolis, Friday and Saturday Feb. 17 and 18.

Minnesota Associated Press Broadcasters will meet in conjunction with the short course at the Center for Continuation Study.

Utley will give the short course's principal talk at a dinner at the Radisson hotel on Feb. 17. A cocktail party given by the United Press will precede the dinner.

Three Minnesota School of Journalism professors are scheduled to speak at the short course which draws participants from Minnesota, Iowa, North and South Dakota.

Dr. Ralph D. Casey, director of the school, will address the broadcasters on "The Fundamental Job of Radio News."

Professor Mitchell V. Charnley, chairman for the short course, will relate the results of a survey of newsroom personnel, operations and costs.

"Do People Understand What They Hear?" will be the subject of a talk by Professor Charles E. Swanson.

Other scheduled speakers are Wallace E. Stone, manager, KILQ, Grand Forks, N.D.; W. Earl Hall, managing editor, Globe-Gazette, Mason City, Iowa; John F. Meagher, manager, KYSM, Mankato; Art Stringer, National Association of Broadcasters, Washington, D.C.; Jim Bormann, news director, WMT, Cedar Rapids, Iowa; Tony Moe, promotion manager, WCCO, Minneapolis.

FOR IMMEDIATE RELEASE

Minneapolis, Feb. ---University of Minnesota officials will open bids Feb. 24 on the construction of an addition to Agricultural hall, a classroom building at the West Central School of Agriculture and Experiment Station at Morris, according to William T. Middlebrook, business vice president of the University.

The project calls for the construction of a two-story addition, 40 by 100 feet, which will house an animal and poultry judging arena, a refrigeration room, a meat preparation laboratory, classrooms and offices. Also included in the contract will be several alterations to the present Agricultural hall.

The 1949 State Legislature appropriated \$125, 000 for the project which is expected to be completed by next August, Middlebrook said. Architects for the building are Hein and Fugelso of Albert Lea.

Bids on a one-story steel building to be erected on the Mississippi river bank near the University's Minneapolis campus heating plant as a home for a new 60 million-volt atom smasher will be opened next Tuesday (Feb. 14), Middlebrook said.

The atom smasher, a proton linear accelerator which will be the world's most powerful device of its type, is being designed and built by University scientists under an agreement with the Atomic Energy commission. The AEC has made a grant of \$728,000 to the University, covering a five-year period, to finance the design, development, construction and initial operation of the atom smasher.

Construction of the new building to house the device, which has been nicknamed "linac", is expected to be completed by May 15. Architect for the building is the firm of C. H. Johnson, St. Paul.

U. OF M. TO HONOR
FAMOUS SURGEON

Minneapolis, Feb. ---Dr. Donald C. Balfour of Rochester, director emeritus of the Mayo Foundation for Medical Education and Research, will receive the University of Minnesota's "Builder of the Name" medal Thursday, Feb. 16, at a special Charter Day convocation highlighting the third annual University of Minnesota Week to be observed throughout the state Feb. 12-18.

Dr. Balfour, world renowned surgeon and director of the Mayo Foundation, a division of the University's graduate school, from 1937 to 1947, will be the fourth person to receive the award, an honor established by the Board of Regents in 1947 to be given in recognition of outstanding service to the University.

Previous recipients of the gold medal are: Fred B. Snyder, chairman of the Board of Regents; E.R. Pierce, director emeritus of alumni relations; and Mrs. George Chase Christian, benefactress of the University's medical school.

President J.L. Morrill of the University will present the medal to Dr. Balfour during the convocation to be held in Northrop Memorial auditorium at 11 a.m. The convocation will mark the 99th anniversary of the University's founding by the Minnesota Territorial Legislature.

Principal speaker at the convocation will be Dr. Bernard Iddings Bell of Chicago, author, lecturer and consultant in religious education, whose topic will be "How to Live in the Twentieth Century".

A luncheon honoring Dr. Balfour will be held in Coffman Memorial Union immediately following the convocation program.

(MORE)

Born August 22, 1882, in Toronto, Ontario, Canada, Dr. Balfour was educated at Hamilton Collegiate institute and the University of Toronto where he received his doctor of medicine degree in 1906. He interned at Hamilton City hospital in Ontario from 1906 to 1907.

Dr. Balfour joined the staff of the Mayo Clinic in 1907. He was an assistant in pathology in 1907 and clinical assistant in 1908. In 1912, he was named head of a section in the division of surgery and later became chief of the division.

He was appointed professor of surgery in the University of Minnesota's Mayo Foundation at Rochester in 1923 and was named associate director in 1935. He became director of the foundation for medical education and research in 1937.

Dr. Balfour was president of the American College of Surgeons for the year 1935 to 1936 and chairman of the American Medical Association surgical section 1928 to 1929.

He became a member of the American Surgical association in 1917 and was named vice chairman of that group in 1922.

Dr. Balfour holds the following honorary degrees: doctor of laws from Carleton college, Toronto university and St. Olaf college and doctor of science degrees from McMaster university and Northwestern university. He is also a fellow in the Royal Society of Medicine and a fellow of the Royal College of Surgeons.

The former Mayo Clinic surgeon holds 18 honorary memberships in foreign medical and surgical societies, including the academy of surgery in Paris.

He wrote a book on the stomach and duodenum with Dr. G. B. Buserman in 1935 and has written 160 articles and monographs on general and abdominal surgery.

His favorite recreations are music and farming.

Governor Luther W. Youngdahl, in a recent proclamation, called upon all the people of the state to join in the observance of University of Minnesota Week which is sponsored jointly by the Minnesota Junior Chamber of Commerce and the Minnesota Alumni association.

During the week, Jaycee and alumni groups and service clubs throughout the state will hold special luncheon and dinner meetings with University staff members as speakers. Many Minneapolis and St. Paul stores and business offices will feature University exhibits in their display windows during the observance.

MINNESOTA 'U' PRESS
TO PUBLISH BOOK ON
CANADIAN GOVERNMENT

Minneapolis, Feb. --A book dealing with the fundamental ideas and structure of the Canadian government will be published Wednesday (Feb. 15) by the University of Minnesota Press.

The book, "Democratic Government in Canada", was written by Robert MacGregor Dawson, professor of political economy at the University of Toronto, Canada.

"Democratic Government in Canada" is a short descriptive account of the workings of Canadian national, provincial and municipal governmental organizations.

Dawson begins with the basic conceptions which give Canadian government its own special character and then shows how the small executive body works closely with the larger and essentially representative group, the legislature. He also discusses the relationship of the central or federal government to Canada's state or provincial governments.

The book, which includes discussions of such topics as dominion-provincial finance, the distribution of power and political parties, contains the complete text of the British North American Acts through 1949.

Dawson, 1947 winner of the governor general's award for academic non-fiction, is also the author of "The Civil Service of Canada" and "The Government of Canada".

'U' GEOGRAPHER
WRITES BOOK ON
BARLEY GROWING

Minneapolis, Feb. --The important part played by Minnesota and its neighboring states in the history of barley raising is brought out in a new book by John C. Weaver, professor of geography at the University of Minnesota.

The book, "American Barley Production", is a study of the basic geographic barley growing patterns in the United States and the factors which have affected those patterns.

Professor Weaver traces the nation's barley production patterns for more than 100 years--from 1839 through 1947. At the 100-year mark, 1939, Minnesota led the six north central states in both acreage and production, raising 40 per cent of the region's barley on 32 per cent of the area's acreage.

The midwest came into its own between 1889 and 1919, with Minnesota, Wisconsin and Iowa raising 50 per cent of all the barley in the United States in 1889. Previously, the leaders had been New York and California. But in 1899, Minnesota alone was second only to California as a barley growing state, and by 1919, the Red River valley had become one of the outstanding barley culture regions in the nation.

After 20 years of a yearly average acreage of more than 1,000,000, and many years with an average of more than 2,000,000, Minnesota's yearly average fell to 712,000 in 1944 and to 447,000 in 1945. By 1947, however Minnesota almost hit the million mark again, the states.

Weaver's general conclusion, drawn from the 1947 picture, is that "the particularly impressive areas of extending barley acreage are centered in the eastern Dakotas, western and southern Minnesota, western Iowa and eastern Wisconsin."

The book was prepared under the auspices of the Midwest Barley Improvement association of Milwaukee, for which Weaver has served as research consultant since 1946.

ANNUAL LABOR
CONFERENCE AT 'U'
TO OPEN WEDNESDAY

Minneapolis, Feb. --A talk on what unions can do to make a better community will open the University of Minnesota annual labor conference Wednesday and Thursday (Feb. 15 and 16).

Speaking on this subject will be Dr. Seth Russell, dean of sociology at Pennsylvania State college and one of the early leaders in the development of community relations programs for unions. Orville Jones, director of education for the Ohio state council of the CIO, will discuss the handling of community relations during negotiations, arbitrations and strikes.

The conference, this year devoted to the topic "Union Community Relations", will be held in the University's Center for Continuation Study. Designed especially for leaders and potential leaders of organized labor, the conference is sponsored by the University's Industrial Relations center and the Center for Continuation Study.

Two panel discussions will complete Wednesday's program. Orlin Folwick, director of public relations for the Minnesota Federation of Labor, Rodney Jacobsen, secretary of the Minnesota State CIO and Kenneth Crouse, labor editor for the St. Paul Dispatch and Pioneer Press, will discuss methods for the development of constructive community attitudes toward the union.

Members of a panel on the qualifications necessary for community leadership will be J. Bradshaw Mintener, vice president of Phillipsbury Mills, Joseph Okenesy of the AFL General Drivers union in St. Paul and Glenn Peterson, president of the Minnesota state CIO.

(More)

W. Ellison Chalmers, director of the institute of labor and industrial relations at the University of Illinois, will open Thursday's meetings with a talk on union goals and the public interest; and Vidkunn Ulriksson, assistant director of the University of Wisconsin school for workers, will describe the place of workers' education in a community relations program.

The conference will close with a discussion of community leadership through political action by Gus Tyler, director of the ILGWU political department and news commentator for the labor radio station WFDR, in New York.

Among state labor leaders who have been invited to act as discussion leaders are Jim Ashe, Grand Lodge representative, IAM; Willard Beaudin, United Steelworkers of America, CIO; John Biddison, executive secretary for the Newspaper Guild of the Twin Cities, CIO; Michael Finklestein, manager of the Twin Cities ILGWU joint board; Fullerton Fulton, regional director for the CIO, St. Paul; William Gunn, director of the legal and research division of the Minnesota Federation of Labor; Harry Hansen, state labor conciliator;

Harry Leonard, vice president of the Central Labor union, Minneapolis; Clarence Lofquist, secretary-treasurer of the Printing Pressmen and Assistants union; Ed Murnane, UAW-CIO; Gerald O'Donnell, president of the St. Paul Trades and Labor assembly; Joseph Prifrel, business manager of the Fur and Leather Workers union locals 52 and 57, St. Paul; Hubert Schon, United Labor Committee for Human Rights, Minneapolis; Carl A. Swenson, vice president of the Minnesota Federation of Labor; and Frank Marzitelli, secretary treasurer of the Bakers and Confectioners union No. 21, St. Paul.

MINNESOTA UNIVERSITY
PROFESSOR WRITES
HISTORY OF A.N.P.A.

Minneapolis, Feb. ---The first detailed study of the American Newspaper Publishers association and its impact upon national affairs will be published this week--63 years after the founding of the business trade association of the nation's daily newspapers.

Dr. Edwin Emery, assistant professor of journalism at the University of Minnesota, has written the "History of the American Newspaper Publishers Association," to be published Wednesday (Feb. 15) by the University of Minnesota Press.

The story is one of the advancement of the business interests of daily newspapers by the association since its founding on Feb. 16, 1887, and of resulting conflicts and adjustments with labor unions, communications competitors, advertisers, newsprint makers, and the government. Emery analyzes these activities and integrates the history of the association with the economic, social, and political developments of the 63-year period.

The author gives special emphasis to the association's relations with the printing trades unions and with the American Newspaper Guild. He presents a detailed study of the international arbitration contracts between the ANPA and the unions, a pioneering step in labor relations taken in 1900.

Other major topics are the association's opposition to federal legislation which publishers asserted imperiled the freedom of the press; the association's battles to eliminate tariff charges on newsprint and to maintain favorable second-class mail rates; competition with radio and magazines for advertising revenue; and mechanical research activities.

Two chapters of the 263-page book are devoted to summaries of the association's internal affairs. Included is the first complete listing of all officers and directors of the association.

Emery, a former United Press correspondent and bureau manager in San Francisco, received his doctor of philosophy degree in history and journalism at the University of California, Berkeley.

FOR RELEASE FEB. 12, 1950

U OF M JOURNALIST
WRITES HISTORY OF
PUBLISHERS' GROUP

Minneapolis, Feb. —Minnesota newspaper publishers and managers have played a prominent part in the affairs of the American Newspaper Publishers association, according to a history of the organization written by a University of Minnesota faculty member.

Dr. Edwin Emery, assistant professor of journalism, found several of the leading personalities of his book were Minnesotans, when he wrote the "History of the American Newspaper Publishers Association," to be published Wednesday (Feb.15) by the University of Minnesota Press.

Frederick Driscoll, who teamed with Joseph A. Wheelock to publish the St. Paul Pioneer Press from 1863 to 1900, served as first labor commissioner of the association from 1900 until his death in 1907. Driscoll was one of a group of publishers who advocated the signing of international arbitration contracts with the printing trades unions, a then pioneering step in labor relations.

Herman Ridder, father of the three Ridder brothers who now control St. Paul and Duluth newspapers, was association president from 1907 to 1911, while publisher of the New York Staats-Zeitung. Victor F. Ridder, his son and present publisher of the Duluth Herald and News-Tribune, has been active in committee work on printing trades schools and international news communication.

Walter E. Wines, mechanical superintendent of the Minneapolis Tribune before 1900, became the first manager of the association's mechanical department. Joyce A. Swan, vice president of the Minneapolis Star and Tribune, is a member of committees on the newspaperboy and on schools of journalism accrediting.

Two former St. Paul newspaper executives, Conde Hamlin of the Pioneer Press and Lewis Baker of the old Globe, were directors around the turn of the century.

The late Fred Schilplin, publisher of the St. Cloud Times, helped direct the work of the association's bureau of advertising.

Other state newspapers active in the association are the Albert Lea Tribune and International Falls Journal.

Minneapolis, Feb. --A discussion of functional posture by Dr. Josephine Rathbone, associate professor of health and physical education at Teachers college, Columbia university, will open the University of Minnesota relaxation institute Friday and Saturday, Feb. 17 and 18.

Dr. Rathbone, who will speak on "An Approach to the Development of a Functional Posture" at 2:30 p.m. Friday in Norris gymnasium on the campus, will also discuss "Group Procedures for the Release of Tension" at 9 a.m. Saturday, and "Suggested Solutions to Specific Problems" at 10:45 a.m. Saturday in Norris gymnasium.

Dr. Edmund Jacobson, director of the laboratory for clinical physiology at the University of Chicago, will speak on "Relaxation" at 7:30 p.m. Friday in Murphy hall auditorium; and Dr. William T. Heron, professor of psychology at the University of Minnesota, will address the group on "A Psychological Basis for Relaxation" at 4:30 p.m. Friday.

A dinner will be held at 6 p.m. Friday at the University's Center for Continuation Study.

The institute, designed to be of especial interest to teachers, physiotherapists, psychiatrists, doctors, dentists, social workers, recreation workers and ministers, is being sponsored by the University General extension division and department of physical education for women.

The author of "Corrective Physical Education" and "Relaxation", Dr. Rathbone has served on the faculties of the State Normal School at New Britain, Conn., Wellesley college, Yenching University in Peking, China, and the YMCA College of Physical Education at Madras, South India.

Dr. Jacobson, a practicing physician in Chicago and New York, is the author of "Progressive Relaxation", "You Must Relax", "You Can Sleep Well" and "The Peace We Americans Need". He has conducted investigations in psychology, physiology and several departments of medicine and has held appointments at North Chicago hospital and Michael Reese hospital and dispensary.

Dr. Heron is the author of "Clinical Applications of Suggestion and Hypnosis" and has worked primarily in the areas of the genetics of learning ability, the theory of learning and the use of hypnosis in medicine and dentistry.

COLLEGE OFFICIALS
TO CONFER AT 'U'

Minneapolis, Feb. --A talk by T. J. Berning, assistant commissioner of the Minnesota state department of education, will open the annual meeting of the Upper Midwest Regional Association of Collegiate Registrars to be held Monday (Feb. 20) at the University of Minnesota.

Berning will discuss "Enrollment Prospects for Colleges and Universities" at 9:30 a.m.

The meeting, originally scheduled for October in Winona, will be attended by registrars and office staff members from approximately 75 colleges and universities in Iowa, Minnesota and the Dakotas. The various speeches and discussions scheduled for the one-day conference will all be given in Room 320 of Coffman Memorial union on the campus.

Three University of Minnesota Staff members will participate in a panel discussion at 10:30 a.m. Nelson L. Bossing, professor of education, will speak on "The Changing Curriculum in the High School as It Affects Admissions". Russell M. Cooper, assistant dean of the college of science, literature and the arts, will discuss "The Changing Curriculum in Universities and Liberal Arts Colleges as It Affects Admissions "; and H. T. Morse, dean of the general college, will talk on "The Changing Curriculum in the Junior Colleges and Its Effects on Admissions".

At an afternoon program for registrars, beginning at 1:45 p.m., R. J. Bradley, registrar at Macalester college, St. Paul, will address the group on "A Report on a Study of Certain Factors that are Related to Retention or Discontinuance from College". At the same meeting, Donald H. Klinefelter, director of admissions at Carleton college, Northfield, will discuss "Discrimination Versus Selection in College and University Admissions".

(More)

Office assistants, meanwhile, will attend a workshop clinic and discussion led by Ruby M. McKenzie, registrar at the University of North Dakota, Grand Forks.

A business meeting of the association will follow the afternoon program, and a luncheon has been planned for 12:30 p.m. in Coffman Memorial union.

Officers of the association are Marshall R. Beard of Iowa State Teachers college, Cedar Falls, president; the Rev. Donald J. Gormley of the College of St. Thomas, St. Paul, vice president; and W. M. Nordgaard of the State School of Science, Walpeton, N. D., secretary-treasurer.

FAR EAST NEWS
WRITER TO OPEN
INSTITUTE AT 'U'

Minneapolis, Feb. --A. T. Steele, Far Eastern newspaper correspondent for the last 18 years, will open the University of Minnesota's Far East institute with a talk on the China situation at 8 p.m. Friday (Feb. 17) in Nicholson hall auditorium.

The institute, sponsored by the Minnesota World Affairs center in cooperation with the University's Center for Continuation Study and more than 40 other organizations, will consist of a series of discussions and lectures Friday and Sunday evenings and Saturday afternoon. It has been designed to acquaint Minnesota citizens with America's foreign policy in the Far East.

Steele's talk will be followed by a speech on "Burma's Place in the World Today" by U So Nyun, ambassador from Burma to the United States.

From 2 to 5 p.m. Saturday those attending the course will meet in small informal groups to discuss issues related to the nation's Far Eastern policy. The group meetings will be held in Coffman Memorial union.

The results of these discussions will be presented to Livingstone F. Merchant, deputy assistant secretary for Far Eastern affairs of the U. S. state department. Merchant, who will speak on factors influencing American foreign policy in the Far East at 8 p.m. Sunday in Nicholson hall auditorium, has been with the state department since 1942, and in 1949 was counselor of embassy at Nanking.

Those leading the Saturday discussion groups will include Jan O. M. Broek, chairman of the University geography department; George P. Conger, chairman of the University philosophy department; Col. Roland S. Henderson, senior army instructor in the Minnesota organized reserve and former military government officer for Nara prefecture, Japan; Richard B. Mather, assistant professor of linguistics at the University.

(More)

Harold S. Quigley, chairman of the University political science department; Herman S. Reisig, international relations secretary for the council for social action of the Congregational Christian Churches of America; Robert F. Spencer, assistant professor of anthropology at the University; Roland S. Vaile, professor of economics and marketing; George B. Vold, professor of sociology; and Mrs. Theodore D. Walser, field representative for the Women's International League for Peace and Freedom.

LOGGING COLOR
FILM AT U. OF M.
MUSEUM SUNDAY

A color motion picture in which an old logger discusses his experiences with various logging methods will be shown at 3 p.m. Sunday (Feb. 19) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

The film, "Logging and Forest Fires", deals with both logging and conservation, showing how carelessness results in heavy forest losses through fire. Included are shots of the 1948 Maine forest fire.

The showing of the motion picture is included in the museum's 1949-50 free public lecture series. On Feb. 26, Dr. William Marshall, professor of entomology and economic zoology at the University, will speak on "Animals of Great Salt Lake Islands".

'U' RADIO NEWS
SHORT COURSE
TO OPEN FRIDAY

Minneapolis, Feb. --Radio editors, news writers and reporters, press association representatives and journalism teachers from throughout the Northwest will meet at the University of Minnesota Friday and Saturday (Feb. 17 and 18) for the University's fourth annual radio news short course.

The course is being conducted through the facilities of the University's Center for Continuation Study and school of journalism in cooperation with the Northwest Radio News association. Friday's sessions will be held at the center and Saturday's meeting will take place in Murphy hall auditorium.

W. Earl Hall, managing editor of the Mason City Globe-Gazette, Mason City, Iowa, will be chief speaker at the annual meeting of the Northwest Radio News association to be held at 1:30 p.m. Friday in connection with the course.

Among the subjects to be discussed during the course will be promotion of radio news--listenership and sales, the fundamental job of radio news--a sound correspondent system and a study of newsroom personnel.

The course's faculty will include Ralph D. Casey, director of the school of journalism; Mitchell V. Charnley, professor of journalism; Charles D. Hilton, news director, KGLO, Mason City, Iowa; John F. Meagher, manager, KYSM, Mankato; Tony Moe, promotion manager, WCCO; Wallace E. Stone, manager, KILO, Grand Forks, N. D.; Art Stringer, National Association of Broadcasters, Washington; Ray Thompson, news director, KROC, Rochester; Jim Bormann, news director, WMT, Cedar Rapids, Iowa; William P. Jensen, journalism instructor; and Charles E. Swanson, associate professor of journalism.

Thelma Emile Hunter, a member of the University of Minnesota's music department staff, will be one of the two soloists at the University Symphony orchestra's concert at 8:30 p.m. Tuesday (Feb. 21) in Northrop Memorial auditorium.

Mrs. Hunter, a graduate of Cornell university, received a masters degree from the Eastman School of Music and has been with the music department staff since 1947. When she was 10 years old, she made a concert tour of Norway and in 1941 was soloist with the New York City amateur symphony at the World's Fair.

Mrs. Hunter will play the piano solo in Mozart's "Concerto in A Major, No. 23".

Barbara Sorlien, 16-year-old violin student from Fargo, N.D., will appear with the orchestra in Goldmark's "Violin Concerto in A Minor, Opus 28". She is the 1949-50 winner of the Raphael Druian violin scholarship at the University.

The orchestra will also give the first Minneapolis performance of "Symphony No. 1, Opus 13" by Dr. Dale Miller, head of the fine arts division of the University's Duluth Branch, and will play Chadwick's "Euterpe Concert Overture".

The orchestra is directed by Dr. Paul Oberg, chairman of the music department.

EXPERTS TO DISCUSS
ART OF RELAXATION
AT U. OF M. INSTITUTE

Minneapolis, Feb. --A physician, a physical education teacher and a psychologist will discuss the art of relaxation from the viewpoints of their various fields at the University of Minnesota Friday and Saturday (Feb. 17 and 18).

They will speak at the University's two-day relaxation institute, planned especially for teachers, physiotherapists, psychiatrists, doctors, dentists, social workers, recreation workers and ministers.

The physician, Dr. Edmund Jacobson, director of the laboratory for clinical physiology at the University of Chicago, will speak on "Relaxation" at 7:30 p.m. Friday in Murphy hall auditorium. Dr. Jacobson is the author of "Progressive Relaxation", "You Can Sleep Well" and "The Peace We Americans Need".

Dr. Josephine Rathbone, associate professor of health and physical education at Teachers college, Columbia university, and author of "Corrective Physical Education" and "Relaxation" will address three sessions of the institute.

She will speak on "An Approach to the Development of a Functional Posture" at the opening meeting at 2:30 p.m. Friday; "Group Procedures for the Release of Tension" at 9 a.m. Saturday; and "Suggested Solutions to Specific Problems" at 10:45 a.m. Saturday in Norris gymnasium.

The psychologist, Dr. William T. Heron, professor of psychology at the University of Minnesota, will discuss "A Psychological Basis for Relaxation" at 4:30 p.m. Friday in Murphy hall auditorium. Dr. Heron is the author of "Clinical Applications of Suggestion and Hypnosis" and has worked primarily in the areas of the genetics of learning ability, the theory of learning and the use of hypnosis in medicine and dentistry.

A dinner will be held at 6 p.m. Friday in the University's Center for Continuation Study.

The institute is being sponsored by the University department of physical education and the general extension division.

Dr. Bernard Iddings Bell of Chicago, noted author, historian and consultant on religious education, will speak on "How To Live in the Twentieth Century" at the University of Minnesota Charter Day convocation Thursday (Feb. 16).

The convocation, highlighting the third annual University of Minnesota Week (Feb. 12 through 18), will mark the 99th anniversary of the University's founding by the Minnesota Territorial Legislature.

At the convocation, Dr. Donald C. Balfour of Rochester, director emeritus of the Mayo Foundation for Medical Education and Research, will be presented the University's "Builder of the Name" medal by President J. L. Morrill of the University.

The world renowned surgeon and director of the Mayo Foundation, a division of the University's graduate school, from 1937 to 1947, will be the fourth recipient of the award which was established by the Board of Regents in 1947 in recognition of outstanding service to the University.

The convocation's principal speaker, Dr. Bell, is honorary canon of the Episcopal cathedral in Chicago and a contributor to the country's leading magazines. He is the author of 18 books, among them "Beyond Agnosticism", "The Church in Disrepute", "God Is Not Dead" and "Crisis in American Education".

A former professor at Columbia university, Dr. Bell has been connected with the teaching profession for 35 years. Before he was 26, he had been ordained and was dean of the cathedral in Fond du Lac, Wis. During World War I, he was organizing aide to the senior chaplain at the Great Lakes Naval Station.

The convocation, to be held at 11 a.m. in Northrop Memorial auditorium on the University campus, will be broadcast over the University radio station, KUOM.

It will be followed by a luncheon, honoring Dr. Balfour, in Coffman Memorial union.

'U' ATHLETIC CHIEF
WILL BE HONORED

Minneapolis, Feb. --Frank G. McCormick, director of physical education and athletics at the University of Minnesota since 1933, will be honored at a dinner preceding his leaving the University June 30 to return to private business.

The dinner will be held Wednesday, June 14, and will be attended by athletic directors and coaches from all over the country who will be at the University to attend the National Collegiate Athletic association track meet June 16 and 17.

Scheduled for 6:30 p.m. in the main ballroom of Coffman Memorial union on the University campus, the dinner will be sponsored by the University department of physical education and athletics, the Minnesota Alumni association and the "M" club.

McCormick came to the University in 1930 as baseball coach and assistant professor of physical education and athletics and became director in 1933 succeeding Herbert (Fritz) Crisler.

Before joining the University staff, he was assistant U. S. attorney for the district of South Dakota and had previously held athletic positions in various schools and colleges.

'U' STUDENT NEWS
TEAMS TO OPERATE
PAPERS FOR WEEK

Minneapolis, Feb. --Six Minnesota weekly newspapers will be published by teams of journalism students from the University of Minnesota during the week of March 19.

The six newspapers, announced by Dr. Ralph D. Casey, director of the school of journalism, are: the Anoka Herald, Buffalo Lake News, Cambridge North Star, Granite Falls Tribune, Montevideo News and Steele County Photo News.

The 17 students participating in the project will virtually "take over" these newspapers for one edition, gathering and writing all news and editorial matter and handling all local advertising.

For many of them the experience will serve as a first real taste of the work which represents their goal, publishing a newspaper of their own.

Charles T. Duncan, associate professor of journalism and a former Minnesota weekly newspaperman, will be in charge of the teams.

The project, an annual event in Minnesota for many years, is held during the University's spring vacation in order not to interfere with students' class schedules.

Suspended during and immediately after the war, the team project was re-established last spring when teams went to the Hutchinson Leader, Litchfield Independent Review, Moose Lake Star-Gazette, Northfield News and Redwood Gazette.

"Its success over the years reflects the highly cooperative spirit of the state's publishers in their relations with the school of journalism," Dr. Casey said.

Minneapolis, Feb. ---Plans for the integration of large and small hospitals will be among the subjects discussed by well-known hospital administrators, consultants, and specialists at the University of Minnesota's continuation course in hospital administration Monday through Friday (Feb. 20 through 24).

Plans to be studied are the Rochester plan, the New England Medical center plan and the United States Public Health Service plan.

The course, to be held at the University's Center for Continuation Study, has been planned with the cooperation of the Minnesota Hospital association, and the American College of Hospital Administrators of Chicago. It will be preceded by a meeting and informal reception at 8 p.m. Sunday (Feb. 19) in the center.

Covering the general field of hospital administration, the course will deal specifically with what the administrator needs to know about departmental operations; purchase of equipment; factors in measuring adequacy of nursing care; personnel relations and medical staff problems.

The course will be open to hospital administrators, assistant hospital administrators and those enrolled in the University course in hospital administration.

Minneapolis, Feb. --Charles Emerson Boddie, minister of the Mount Olivet Baptist church in Rochester, New York, will speak on "All These People" at the University of Minnesota convocation Thursday (Feb. 23).

Boddie's convocation lecture, to be given at 11 a.m. in Northrop Memorial auditorium, will deal with effective human relations in the world neighborhood.

For his contribution to racial relations in Huntington, W. Va., Boddie was named that city's "Man of the Week" and was later awarded the same title by the editors of the Rochester Democrat and Chronicle. In 1943 the New York State Baptist Youth Fellowship established an annual scholarship in his name for a worthy Negro student at a southern college.

A graduate of Syracuse university, Boddie received a B. D. degree from the Colgate-Rochester Divinity school and an A. M. from the University of Rochester.

He is the author of "A Giant in the Earth" and "The Biblical Basis of the Negro Spiritual".

His lecture will be broadcast over the University of Minnesota radio station, KUOM.

U. OF M. ENGINEERING
STUDENTS TO WORK
IN INDUSTRY FOR
COLLEGE CREDITS.

Minneapolis, Feb. --A plan whereby University of Minnesota students in mechanical and electrical engineering can work in industry as a part of their course has been devised by the faculty of the University's college of engineering.

The announcement was made by Athelstan F. Spilhaus, dean of the University's institute of technology, who said that the cooperative work-study plan would go into effect fall quarter if there were sufficient interest among local industries. He said that present indications were that local companies would cooperate in the plan.

Under the work-study plan, students will spend a total of 13 quarters at the University and six quarters in industry. The present length of the engineering course, five years, will not be changed, but summer quarters will be added, Dean Spilhaus said.

Students participating in the program, selected on a competitive basis, will be divided into two groups who will attend the University and work in industries during alternating quarters. They will have three weeks vacation during the year.

Two students will be selected for each job available and, because they will work alternate quarters, will be treated by the industry as one employee, receiving the regular rate of pay for the job held and the time worked. Over the three-year period, Dean Spilhaus said, industry will be expected to give the pairs of students more advanced work so that by the time of their graduation they will already be at the level at which industry hires graduate engineers.

(More)

Mechanical engineering students will be selected for the work-study program at the end of their freshman year, and those studying electrical engineering will be chosen during the early part of their sophomore year.

The program will begin with these two groups, but, if it is successful, will be expanded to include other branches of the institute, Dean Spilhaus said.

"By the time the student has finished the program, he will have completed the equivalent of full-time study," said Dean Spilhaus. "The courses left out are those for which industrial experience gives the equivalent, and the humanities courses have not been sacrificed.

"The work-study program will be of value both to the student and to industry," he added. "It will give industry a chance to look over the engineering students and will give the students an opportunity to get their feet in industry before graduating."

The program, he said, will also enable students to finance entirely the last three years of their college career.

Dean Spilhaus added that while the program has not been tried here previously, it has proved successful at other colleges.

DRUGGISTS SHORT
COURSE TO OPEN
MONDAY AT U. OF M.

Minneapolis, Feb. --Dr. Robert P. Fischelis of Washington, secretary of the American Pharmaceutical association, will speak at the thirteenth annual University of Minnesota continuation course in pharmacy, Monday through Wednesday (Feb. 27 through March 1).

Dr. Fischelis will speak on "The Pharmacists' Right to Exercise Professional Judgment" at the course's closing dinner at 6:30 p.m. Wednesday at the center. The talk, dealing with food and drug administration legislation, will be published in the Journal of the American Pharmaceutical Association upon Dr. Fischelis' return to Washington.

Formerly chief chemist and secretary of the Board of Pharmacy of New Jersey, Dr. Fischelis has held the posts of dean and professor in the New Jersey College of Pharmacy and special lecturer at the Philadelphia College of Pharmacy.

The course, which is the oldest pharmacy continuation course in the United States and the oldest continuation course at the University, will be held in the University's Center for Continuation Study.

Among the speakers will be Dr. Wesley W. Spink, professor of medicine at the University; Louis W. Busse, associate professor of pharmacy at the University of Wisconsin; George H. DeKay, professor of pharmacy at Purdue university; Charles H. Rogers, dean of the college of pharmacy at the University of Minnesota; Floyd J. LeBlanc, dean of the division of pharmacy at South Dakota State college; Dr. David F. Mitchell, associate professor of dentistry at the University; and Carl L. Nelson, associate professor of accounting.

Henry H. Gregg of Minneapolis, president elect of the American Pharmaceutical association, will speak at a dinner and open meeting of the Northwestern branch of the American Pharmaceutical association at 6:30 p.m. Tuesday at the Center. His subject will be "Challenges in Pharmacy".

'U' ORGAN STUDENTS
HEARD BY 10,000
EVERY SUNDAY

University of Minnesota organ students who serve as organists for Twin Cities area churches are heard by more than 10,000 church-goers every Sunday.

That estimate was made by Arthur B. Jennings, associate professor of music and University organist..

Jennings' students playing the organ for Minneapolis churches are Byron Arneson, Grace Lutheran; Kenneth Bomberg, Christ Lutheran; Priscilla Keeler, St. Luke's Episcopal; Astrid Knutson, Salem Lutheran; Thomas Johnson, Park Avenue Covenant; Paul O. Manz, Mt. Olive Lutheran; John Miller, Pilgrim Congregational; Marcia Lange, Augustana Lutheran; Gladys Lundstrom, Lynhurst Congregational; and Frederic Nitschke, Trinity First Lutheran.

Organists for St. Paul churches are Raymond Cutting, Knox Presbyterian; Gloria Karlson, Holy Trinity Lutheran; Muriel Mickelsen, St. Stephen's Evangelical Lutheran; and Corinne Amundson, Fairmont Methodist. Ruth Havlik is organist for the Hopkins Presbyterian church.

Students of Edward D. Berryman, organ instructor, who play in Minneapolis churches are Mary Fulton, Trinity Independent; James Albrecht, St. John's Lutheran; and Katherine Holum, Central Lutheran. Another Berryman student, Peggy Smith, plays at St. Anthony Park Methodist, St. Paul.

Minneapolis, Feb. --Mrs. Clara H. Koenig, assistant to the dean of admissions and records at the University of Minnesota, has been elected president of the Upper Midwest Regional Association of Collegiate Registrars and Admissions Officers.

The group held its annual meeting Monday (Feb. 20) at the University of Minnesota.

Other officers elected were E. M. Miller, registrar at Westmar college, Le Mars, Iowa, vice president; and Ruby McKenzie, registrar at the University of North Dakota, Grand Forks, secretary-treasurer.

The meeting was attended by approximately 90 registrars and office staff members from 75 colleges and universities in Iowa, Minnesota and the Dakotas.

MINNESOTA—Work-Study Program

A work-study plan under which University of Minnesota students in mechanical and electrical engineering can gain practical experience in industry as a part of their course has been devised by the faculty of the University's college of engineering. Athelstan F. Spilhaus, dean of the University's institute of technology, said that the plan would probably go into effect fall quarter—depending upon the interest exhibited by local industries. The program will enable students to spend 13 quarters at the University and six quarters in industry while taking no more than the normal five years to complete the course. They will, however, either attend school or work in industry during the summer. Students participating in the program will be selected on a competitive basis and will be divided into two groups who will attend the University and work in industry during alternate quarters.

GREATER 'U' FUND
CHAIRMAN NAMES
CAMPAIGN AIDES

Minneapolis, Feb. --Carl W. Painter, New York City lawyer, recently named 1950 national chairman of the University of Minnesota's Greater University Fund, today (Feb. 24) announced his national executive committee for the 1950 fund raising campaign.

The Greater University Fund is sponsored by the Minnesota Alumni association and provides scholarships for both graduate and undergraduate students and funds for research projects. The campaign will be launched May 15.

Dr. William F. Braasch of Rochester, who received degrees from the University in 1900 and 1903, has been named special gifts chairman.

Henry C. Mackall of Minneapolis, a 1906 graduate, was appointed bequest chairman.

A Fairmont man, Harley R. Langman who graduated in 1924, will serve as organization chairman.

Publicity chairman for the campaign will be Dreng Bjormaraa of St. Paul, a member of the class of 1930.

At the same time Arthur R. Hustad, chairman of the Greater University Fund board of trustees, announced four appointments to the fund alumni advisory committee. They are John S. Pillsbury of Wayzata, Ben W. Palmer of Minneapolis, Theodore Christianson, Jr., of St. Paul and Charles Judd Ringer of Wayzata.

MINNESOTA 20,000 YEARS AGO
LIKE PARTS OF ALASKA TODAY

Minneapolis, Mar.— Minnesota more than 20,000 years ago was probably much like parts of Alaska are today, according to Dr. William S. Cooper, professor of botany at the University of Minnesota.

Dr. Cooper, who has made five field trips to Alaska, said that the present glaciers of Alaska and their gradual melting indicate a parallel development in pre-historic Minnesota.

"As the ice melts away from the land, plant life invades it in three successive stages," Dr. Cooper said. "This whole process is taking place in Alaska and is therefore readily observable."

He said that the land is first covered by herbs and low creeping shrubs which give way to the second growth--bushes willows and alders. These, he said, produce shade for the third and permanent group--spruces, and hemlock--which in turn crowd out the second growth.

In Minnesota, he said, this third growth apparently took the form of spruce, fir and birch forests similar to those now existing in the northern part of the state.

He said that he had studied fossil evidence near Loring park in Minneapolis in the 1930's which showed beds of pine needles, cones of spruce and fir and fragments of birch bark, indicating that area had, about 15,000 years ago, been forested with those trees.

"This kind of forest", he said, "is permanent until the climate changes. As the climate became warmer and drier the deciduous trees--those which shed their leaves in the fall such as the present oaks, maples and basswood came in, and they will be permanent until another change of climate."

(More)

"At the time that the conifer woods covered with Minneapolis area," he said, "the edge of Minnesota's glacier was no more than 200 miles away on this side of Lake Itasca. At this time the source of the Mississippi was still ice-covered and the river was still a glacial river."

Another member of the botany staff, Dr. Donald B. Lawrence, associate professor of botany, is now continuing Dr. Cooper's studies and will make his third field trip to Alaska this summer.

GRAUBARD TO TALK
AT 'U' CONVOCATION

Minneapolis, Feb. —"Soviet Persecution of Science and the American Attitude" will be the subject of the University of Minnesota convocation lecture at 11 a.m. Thursday (March 2) in Northrop Memorial auditorium.

Speaker will be Dr. Mark Graubard, associate professor of general studies at the University, who visited Russia in 1932 as national research fellow in the biological sciences and again in 1936 under a Rockefeller Foundation research grant.

In 1946, Dr. Graubard served as an observer on the Senate's Committee for Atomic Energy for the extension service of the Department of Agriculture, and from 1942 to 1945 he was director of adult education in food and nutrition for the Department of Agriculture.

The author of 14 technical papers on pigments and hormones, Dr. Graubard is now continuing research in that field in the University department of physiology.

He has been a member of the University faculty since 1947 and received a bachelor of science degree from the College from the College of the City of New York in 1926 and master of arts and doctor of philosophy degrees from Columbia university in 1927 and 1930.

Dr. Graubard is the author of "Man, the Slave and Master", "Man's Food, Its Rhyme or Reason" and "The Quest for Science".

The lecture will be broadcast over KUOM, the University radio station.

BERTHA CITIZENS
TO ENTERTAIN 'U'
FOREIGN STUDENTS

Minneapolis, Mar. --Some 40 University of Minnesota foreign students whose homes are as far away as India, Japan and Finland are going to get a chance to see what life in small Minnesota town is like.

The students will leave the morning of Friday, March 17, for the town of Bertha in Todd county, where they will be entertained for three days (Mar. 17, 18, 19) by the town's residents.

The project, sponsored by the YMCA at the University, is being arranged by a committee of 35 Bertha citizens, headed by Harry L. Luitjens, editor and publisher of the Bertha Herald, and Charles Le Count. It was begun by Lester Milbrath, a University of Minnesota junior from Bertha.

The students' introduction to the town of Bertha, which has approximately 600 residents, will take place at the Bertha high school where a program has been arranged to acquaint the students with the townspeople. At the high school the various students also will meet the people at whose homes they will stay during their visit.

Dinner at the homes of the individual hosts will be followed by informal discussions held in about 15 Bertha homes.

(More)

Saturday morning the students will be taken on a tour of the town--to watch the community at work. They will visit such places as the newspaper office, the bank, stores, the post office and the doctor's office.

In the afternoon each student will study aspects of the town which are of particular interest to him. For instance, those studying agriculture will visit the town's farms and dairy. Later they will attend meetings of such organizations as the 4-H clubs and the Future Farmers of America.

A folk dance party has been planned for Saturday evening.

On Sunday morning the students will attend church services with their hosts and will return to their hosts' homes for typical Sunday dinners.

Among those already scheduled to make the trip are students from Colombia, Finland, Norway, Germany, Japan, the Africal Gold Coast, China, India, Burma and Austria.

'U' JOURNALISM
STUDENT TEAMS
TO EDIT PAPERS

Minneapolis, March --The names of 17 University of Minnesota journalism students who will work on weekly Minnesota newspapers during the week of March 19 have been announced by Dr. Ralph D. Casey, director of the school of journalism.

The students will do most of the work on one edition of the papers, gathering and writing all news and editorial matter and handling all local advertising.

Working on the Anoka Herald during their spring vacation will be Floyd R. Devereaux of 2006 Emerson ave. south, Minneapolis; John S. Franklin, 719 East Eighteenth st., Minneapolis; and Charles K. Jarvis of Austin.

Thomas F. Barnhart, Jr., 5228 Lake Nokomis parkway, Minneapolis, and Robert Goldberg, 271 Prescott st., St. Paul, will edit the Buffalo Lake News.

The Montevideo News will be edited by Bruce Bartel, Route 1, Wayzata; William Chevalier, 2106 Stanford ave., St. Paul; and Jane Davison, Worthington, Ohio.

Those planned to work on the Granite Falls Tribune are Joyce Countryman, Route 10, Minneapolis; Omar Shonkwiler, Hackensack; and George L. Willey, Warren.

Four students will put out the Steele County Photo News at Owatonna. They are Sewall L. Glinternick, editor of the Minnesota Daily, 727 Fifteenth ave. southeast, Minneapolis; Hugh Miller 1760 Randolph ave., St. Paul; Calvin Probst, 2211 East Thirty-fourth st., Minneapolis; and James Putnam, Granite Falls. Putnam's father, Jay L. Putnam, is publisher of the Granite Falls Tribune, one of the cooperating papers.

(More)

Two Minneapolis students, Thomas M. Kelly of 3132 Thirty-seventh ave., south and Thomas E. Letch of 701 Washington ave., southeast, will work on the Cambridge North Star.

Most of the students hope to publish weekly newspapers of their own eventually, but others are interested in advertising or agricultural writing.

Charles T. Duncan, associate professor of journalism and a former Minnesota weekly newspaperman, will be in charge of the teams.

AERIAL SURVEY INDICATES LARGE
IRON-BEARING ROCK FORMATION IN
OTTER TAIL, BECKER COUNTIES

Minneapolis, Mar. --Clear definition of an 80-mile-long belt of abnormal magnetic attraction in northern Otter Tail and southeastern Becker counties indicating a large iron-bearing rock formation, was disclosed this week by Dr. G. H. Schwartz, University of Minnesota geology professor and director of the Minnesota Geological survey.

The outline of the area was developed in the course of the most extensive "treasure hunt" in Minnesota's history, the aerial search for new iron formations which may lie buried beneath the glacial drift in a 30,000-square-mile area in the northern part of the state.

Partial results of the aeromagnetometer or "doodlebug" survey, started in 1947 as a cooperative project of the United States Geological survey and the Minnesota Geological survey, were released this week in the form of six aeromagnetic maps covering portions of Becker, Clearwater, Douglas, Grant, Mahnommen, Otter Tail, Red Lake and Polk counties. The area covered by the six maps measures approximately 5,500 square miles.

The first report on the aerial "treasure hunt", covering parts of Hubbard and Cass counties, was released by the two geological surveys in January 1949. The maps issued at that time showed a continuous belt of abnormal magnetic attraction, three to 10 miles wide, extending from east to west across both counties. Dr. Schwartz interpreted this as a potential iron formation and probably a westward extension of the Vermillion iron range.

(More)

2 - AERIAL SURVEY

Dr. Schwartz reported that the zone of abnormal magnetic intensity outlined in Otter Tail and Becker counties consists of two connected areas, each shaped like a gigantic horseshoe with its open end to the east. One of these huge horseshoes lies in Otter Tail county and has a length of about 50 miles, while its somewhat smaller counterpart is just to the north in Becker county and is some 30 miles long. Together the two segments of the formation form a huge "E".

Exploratory core drilling in the Otter Tail county zone in 1910, by E. J. Longyear and R. M. Bennett, pioneer Minneapolis mining engineers, the survey director pointed out, showed an iron-bearing rock formation at 350 feet below the surface. At the point of the drilling site, he explained, the formation was 125 feet thick. Glacial drift at this point was 294 feet deep, however, and the thickness of the drift has discouraged further exploration of the area.

With the aerial magnetometer survey now revealing the tremendous extent of what is probably the same iron formation found in the core drilling of 40 years ago, Dr. Schwartz enthusiastically believes that the double horseshoe area is "ripe" for intensive exploration. Intelligent exploration of the zone based on the aerial survey results, he explained, could very probably reveal deposits of commercial iron ore which may be lying in the formation like "plums in a pudding" as on the Mesabi range.

Because of the depth of glacial drift in this area, ranging from 190 to more than 300 feet, such exploration of the supposed iron formation for enriched deposits (iron ore) would be done by core drilling at strategic points indicated by the isomagnetic contours on the maps released this week, according to the geologist.

(More)

3 - AERIAL SURVEY

The maps released this week, Dr. Schwartz reported, also show that the large belt of abnormal magnetic intensity noted in Hubbard and Cass counties last year also extends westward all the way across northern Becker county and probably beyond.

"There are certain areas of high magnetic intensity shown on these maps," the geologist said, "which have a pattern distinctly different from that of the supposed iron-bearing formations. We believe that these areas are underlain by vast granite beds which often give a high magnetic indication but in an irregular pattern. This is borne out by experiences with test drill holes and deep wells."

Such areas are found, Dr. Schwartz said, in the northwestern corner of Mahnomon county and in the southern sector of Otter Tail county.

Also noted on the maps, he added, are extensive areas of no abnormal magnetic attraction. By comparison with other areas in the state, these zones are believed to be underlain by slate. Typical of such areas are southern Mahnomon county and a dozen or more townships in Clearwater county.

Prepared in Washington by the United States Geological survey, the maps covering the 5,500-square-mile area, about one-sixth of the total area being surveyed, were made available for public inspection this week in three places in the state: 1. the Minnesota Geological survey office in Pillsbury hall on the University of Minnesota campus; 2. the office of the U.S. bureau of mines, Federal building, Duluth; and 3. the office of the division of lands and minerals, Hibbing.

(More)

4 - AERIAL SURVEY

Printed copies of the maps will be published as soon as possible, according to W.E. Wrather, director of the federal survey, and will be offered for sale. Maps covering an additional 9,500 square miles of northern Minnesota are expected to be released in the near future.

Used in the surveys flown over the northern part of the state during the last three years was an instrument known as the airborne magnetometer, nicknamed "doodlebug", a device which detects and records variations in the earth's magnetic field while being flown over the survey area at an altitude of 1,000 feet in paths at one-mile intervals.

Enclosed in a bomb-like container, the magnetometer's detector unit is suspended on a long cable from a specially equipped airplane operated by experts from the United States Geological survey. The recording device is carried in the airplane. The instrument is similar to a device developed by American scientists during World War II for use in detecting submerged enemy submarines from the air.

"The necessity for aerial magnetic work," explained Dr. Schwartz, "arises from the problem of the thick glacial drift over much of Minnesota. Magnetic work on the ground has been carried on for a long time in the state, but the process is slow, and consequently, only selected areas have been covered. No one person or group has access to more than a fraction of the data thus compiled.

"It is our belief that by combining a knowledge of the state's geology with a systematic aerial magnetic survey we may properly evaluate the possibilities of finding iron ore beneath the glacial drift. The important point is that about 95 per cent of the area can be eliminated by this aerial survey without further work and expense involved in ground surveys."

Dr. Schwartz, however, emphasized the necessity of following up "leads" resulting from the aerial survey by a careful ground survey and core drilling in zones which seem promising before making any predictions about finding commercially interesting iron deposits.

MAGNANI STARS
IN ITALIAN FILM
AT 'U' THURSDAY

Starring Anna Magnani, one of Italy's leading actresses, the Italian film "Woman Trouble" will be presented by the University of Minnesota Film society at 4 and 8 p.m. Thursday (Mar. 9) in Northrop Memorial auditorium.

The picture deals with the troubles that confront a Roman family when the husband steals an automobile in his efforts to solve his economic problems during the post-war unemployment period.

Originally entitled "The Streets Are Full of Dreams", the film is in Italian dialogue with English subtitles.

N.W. NEWSMEN
TO MEET AT 'U'

Mar. --A news executives' conference for editors of the Northwest area will be held March 20-21 at the University of Minnesota school of journalism to discuss the problems of non-metropolitan daily newspapers.

Round-table discussions will range over such problems as covering the local community, establishment and operation of branch offices, school news, the women's page, agricultural news, and local government coverage.

Editors are participating in the selection of conference topics, and will join with journalism faculty members in panel discussions. Dr. Ralph D. Casey, school director, is conference chairman.

Professor Clifton C. Edom, director of photography courses at the University of Missouri and editor of "The Great Pictures" annual, will lead a two-hour discussion of photographic problems Monday morning, March 20. Editors who are using local pictures intensively will demonstrate their daily work. Professor Edom is co-author with Stanley K. Kalish of the Milwaukee Journal of the forthcoming book, "Talking with Pictures".

Speakers on economic problems in the news will include Dr. Arthur R. Upgren, associate editor of the Minneapolis Star and University of Minnesota economics professor, discussing "The Economy Shape of Things to Come"; LeRoy Harlow, director of the Minnesota Efficiency in Government commission, talking on problems of state and local government in the Northwest area; and Dr. O.B. Jesness, chief of the division of agricultural economics, University of Minnesota, speaking on "The Farm Policy Program."

Sessions will be held in Murphy hall, the journalism school building.

'U' LAB PLANNING
SALVADOR WATER
POWER PROJECT

Minneapolis, Mar. --Work on an experimental design study for a large hydroelectric project in Salvador, Central America, has been started in the St. Anthony Falls Hydraulic laboratory at the University of Minnesota, Dr. Lorenz G. Straub, director of the laboratory, reported Monday (Mar. 6).

The study involves the planning of the flood spillway structure required to divert safely excessive high water flows of the Lempa river on which the hydro plant will be built.

Dr. Straub has been named a special consultant and is directing the experimental studies. He is being assisted by Alvin G. Anderson of the hydraulic laboratory staff.

The project has been made financially possible by a \$12,500,000 loan to Salvador by the World Bank and an additional \$5,000,000 raised within the country, Dr. Straub said. The hydroelectric project, to be built on the Lempa river at Chorrera Del Guayabo, will give the tiny country on the west coast of Central America a constant minimum of 30,000 kilowatts of relatively cheap power, according to the University engineer.

UNIVERSITY FACULTY
WILL DANCE WHILE
STUDENTS STUDY

Examination week makes Saturday (March 11) a closed date for University of Minnesota student parties but not for the faculty. On that night the annual joint dinner dance of the Faculty Dancing club and the Campus club will be held in Coffman Memorial Union.

Many small parties in members' homes will precede this, one of the outstanding faculty social events of the year. Many off-campus couples will be guests of members.

The buffet dinner will be served in the Campus club from 6:30 until 7:30. A social hour for bridge, billiards, and conversation will follow.

Dancing, which will be from nine until midnight, will be preceded by a period for getting acquainted with guests and completing the program of 12 scheduled dances. Light refreshments will be served as usual during intermission from 10:30 until 11:00.

FOR IMMEDIATE RELEASE

Minneapolis, Mar. ----Dr. Malcolm M. Willey, vice president for academic administration of the University of Minnesota, today was appointed to the new committee on faculty research fellowships of the Social Science Research council.

The committee will guide the council's new program of faculty research fellowships and will determine the selection of appointees to such fellowships. The Carnegie corporation recently made a grant of \$465,000 to the council to finance the research fellowships over the next five years.

The fellowships are intended to enable young social scientists to devote a substantial part of their time to self-directed research while remaining in residence at their own educational institutions and continuing to carry a restricted teaching load. Cooperative financial arrangements will be worked out with each appointee's college or university so that he will be relieved of half of his teaching and administrative duties.

DEGREES ON OVER
900 THURSDAY

Minneapolis, Mar. ---The University of Minnesota will award degrees to more than 900 students at winter quarter commencement exercises at 8 p.m. Thursday (Mar. 16) in Northrop Memorial auditorium.

Dr. Lewis Webster Jones, president of the University of Arkansas, will deliver the commencement address speaking on the subject: "The Crisis in Belief".

Recently Dr. Jones was selected as the Arkansas "Man of the Year in Service to Agriculture" by the Progressive Farmer, a southwide agricultural journal. He is president of the Arkansas committee for agricultural development, and as a young man worked as a forest ranger in the Northwest.

He served on President Truman's commission on higher education and a short time ago was appointed to membership on the President's water resources policy commission. Dr. Jones is also a member of the board of foreign scholarships which administers the scholarships provided for college and university faculty members under the Fulbright act, and serves as a member of the national advisory heart council of the Public Health service.

President J.L. Morrill of the University of Minnesota will confer the degrees and will speak for the University. The invocation will be given by Rabbi Lewis Milgrom, director of Hillel foundation at the University.

CONTRACTS FOR FOUR
U. OF M. BUILDING
PROJECTS AWARDED

Minneapolis, Mar. —Awarding of contracts totaling \$1,018,165.15 for the construction of four University of Minnesota building projects was announced Friday (Mar. 10) by William T. Middlebrook, business vice president of the University.

The contract for the general construction of the new addition to the Home Economics building on the St. Paul campus was awarded to the Steenberg Construction company, St. Paul, on that firm's low bid of \$360,928.

Other contracts for the project were awarded as follows, Middlebrook reported: heating, plumbing and ventilating, Harris Brothers, Minneapolis, \$99,500; electrical work, People's Electric company, St. Paul, \$58,165; and elevator installation, Otis Elevator company, Minneapolis, \$11,988.

Total value of the contracts is \$530,581. Addition of \$110,000 allotted for equipment, \$42,000 for miscellaneous costs such as architects' fees, supervision of construction and landscaping plus \$17,419 for contingencies will bring the total outlay to \$700,000, the amount appropriated for the project.

Work on the Home Economic building is expected to start at once, and the contract calls for completion within nine months.

Successful general construction bidder on the addition of a fourth floor to the Variety Club Heart Hospital building now under construction on the Mississippi river bank beside University Hospitals in Minneapolis is the firm of Naugle-Leck, Inc., Minneapolis. This firm, which is building the basic structure, entered the low bid on the fourth floor addition in the sum of \$139,470.

(More)

Other contracts on the Heart Hospital addition were awarded to the following low bidders: plumbing, heating and ventilating, Reuben L. Anderson company, St. Paul, \$67,170; and electrical work, Batzli Electric company, Minneapolis, \$26,133.48. Contracts for the addition total \$232,773.48. Miscellaneous costs will bring the grant total to \$244,412.15. A National Heart Institute grant of \$242,500 will cover most of the cost. The entire Heart Hospital is expected to be completed late next summer.

The Knutson Construction company of Minneapolis was awarded the contract for the general construction of a building on the Mississippi river bank near the Minneapolis campus heating plant to house the huge linear accelerator or "atom smasher" which is being designed and built by University scientists under a grant from the Atomic Energy Commission. The Knutson company entered the low bid, \$82,300.

Supplemental contracts in connection with the linear accelerator building were awarded as follows: plumbing, heating and ventilating, Harris Brothers, Minneapolis, \$26,900; electrical work, Kohne Electric company, St. Paul, \$11,042; underground construction, R.J. Mangan, Minneapolis \$25,170; cranes, Minneapolis Supply company, \$4,676; and sinking a deep well, Max Reener Well company, St. Louis Park, \$5,056.01. Although the contracts total \$155,224.01, additional costs such as roads and architectural fees will raise the figure to \$165,388.01.

Contracts call for completion of the linear accelerator building in three months.

The low bid of \$71,700 won the general construction contract on the agricultural hall addition at the West Central School of Agriculture and Experiment Station at Morris for the George Madsen Construction company of Minneapolis. The plumbing, heating and ventilating contract went to the Home Builders company of Morris on the low bid of \$22,138.66, while the Dalager Electric company of Morris took the electrical contract on a bid of \$5,698.

The contracts total \$99,586.66, and additional costs including furniture, equipment and landscaping will bring the cost of the project up to \$120,000. Funds for this project were appropriated by the 1949 Legislature. The building is expected to be completed by September 1, 1950.

MINNESOTA 'U' TO OFFER SUMMER
COURSE ON CULTURAL RELATIONS,
IDEOLOGIES IN WORLD AFFAIRS

Minneapolis, March - A new social science course in which a number of visiting specialists will analyze the effect of different cultures and ideologies on international relations will be offered during the first summer session at the University of Minnesota June 12 - July 22.

The course, "Cultural Relations: Instrument for War or Peace", will attack the problem from the viewpoints of history, political science, sociology, social psychology and anthropology.

Among those scheduled to participate are Hans Kohn, professor of history at the City College of New York; Linden Mander, professor of political scientist at the University of Washington; and Louis Wirth, professor of sociology at the University of Chicago.

Also participating will be representatives of a number of foreign embassies who will discuss the cultural activities of their countries.

The course will include background and analysis, with particular emphasis on nations' conscious use of ideology in their foreign relations; a description of actual activities in the cultural field of international relations; and an evaluation of these activities in the light of the preceding analysis as well as of their actual results in relation to peace or war.

The course, to be conducted as a regular University course, will last for six weeks.

Three Minneapolis school children will present a baton to Antal Dorati, conductor of the Minneapolis Symphony orchestra, at a reception following the season's final Young People's Symphony concert preview over University of Minnesota radio station KUOM Monday (March 20).

The group of children, giving the baton to Dorati in appreciation of the series of nine previews in which Dorati has participated, will include his daughter, Tonina, a fifth grade pupil at Northrop Collegiate school in Minneapolis.

The other youngsters, sixth grade pupils at Holland school in Minneapolis, will be Elaine Sedoris and Edward Ulmanioc.

Presiding at the reception, to be held at 3 p.m. in KUOM studies on the University campus, will be Malcolm M. Willey, University vice president in charge of academic administration.

During the nine KUOM preview broadcasts, Dorati has explained concert numbers to groups of young people appearing with him at the microphone. At Monday's broadcast his discussion will include the symphonic poem "The River Moldau" by Smetana and the third movement from Tchaikowsky's "Pathetique" symphony. Participating in this program, at 2:30 p.m., will be the three school children who will present Dorati with the baton.

The reception following will be sponsored by the Young People's Symphony Association.

Minneapolis, March - The spring issue of the American Quarterly, marking the beginning of the magazine's second year of publication, will be devoted primarily to historical and literary writers who were influential at the turn of the century.

The Quarterly, available Tuesday (March 28), is published by the University of Minnesota Press.

The spring issue will deal with such writers as Frederick Jackson Turner, Herman Melville, reformer John Jay Chapman and novelist Winston Churchill.

Articles appearing in the issue will include "The Frontier Hypothesis and the Myth of the West" by Henry Nash Smith of the University of Minnesota; "Winston Churchill: A Study in the Popular Novel" by Richard and Beatrice Hofstadter of Columbia university and "Lloyd's Wealth Against Commonwealth" by Daniel Aaron of Smith college.

Among the other major articles are "The Emergence of American Philosophy" by May Brodbeck of the University of Minnesota; "James Gibbons Huneker, Critic of the Seven Arts" by John M. Raines and John Paul Pritchard, both of Oklahoma university; "John Jay Chapman and Political Reform" by David Stocking of Beloit college; and "Melville's 'Mardi'" by Newton Arvin of Smith college.

The issue will also include book reviews by W. H. Glover of the Wisconsin Historical society and G. W. Pierson of Yale university. "20th Century Poetry in English", recordings of contemporary poets' readings of their own work is reviewed by David W. Thompson of the University of Minnesota.

Editor of the American Quarterly is William Van O'Connor, assistant professor of English at the University of Minnesota.

The meeting will be based on the general theme "Education at Mid-Century".

Taking part in a panel discussion on high school-college relations will be Dr. Mervin G. Neale, professor of educational administration, and Dr. Minard W. Stout, associate professor and principal of University high school. Dr. Stout will also be chairman of a discussion group on "The Use of the Extended School Year".

Others attending will be Dr. Malcolm M. Willey, University vice president in charge of academic administration; Dr. Wesley E. Peik, dean of the college of education; and Dr. Clifford P. Archer, director of the bureau of recommendations. Dr. Willey is a member of the association's board of review.

MINNESOTA - Cultural Relations

A new social science course in which a number of visiting specialists will analyze the effect that different cultures and ideologies have on international relations will be offered this summer at the University of Minnesota. The course, "Cultural Relations: Instrument for War or Peace", will attack the problem from the viewpoints of history, political science, sociology, social psychology and anthropology. Among specialists scheduled to participate are Hans Kohn, professor of history at the City College of New York; Linden Mander, professor of political science at the University of Washington; and Louis Wirth, professor of sociology at the University of Chicago. Also taking part will be representatives of foreign embassies who will discuss the cultural activities of their countries.

BUCHTA TO OPEN
'U' PHYSICS SERIES
FOR H. S. STUDENTS

The University of Minnesota physics department's annual lecture series for high school students will open Tuesday evening (Mar. 21) with a discussion of "Sounds Heard and Unheard" by Dr. J. W. Buchta, chairman of the department. Dr. Buchta will speak in the main auditorium of the Physics building at 7:30 p.m. He will repeat his lecture Wednesday evening (Mar. 22) at the same time also in the Physics auditorium.

Second lecture in the series, "Time", will be presented by Dr. John Nafe, assistant professor of physics, Tuesday and Wednesday (Mar. 28 and 29) at 7:30 p.m. in the Physics auditorium. Additional lectures in the series will be announced later.

Open to high school students in the Twin Cities and suburban areas without charge, the lectures will be illustrated with demonstrations. Tickets for the lectures are distributed through high school teachers in the Twin Cities area, Dr. Buchta said.

SOCIAL SECURITY
CHIEF TO SPEAK
AT 'U' CONFERENCE

Minneapolis, Mar. - An address by Arthur J. Altmeyer, United States commissioner for social security, will open the eighth annual Minnesota Industrial Relations conference Thursday (March 23) at the University of Minnesota.

The conference, to be held Thursday and Friday (March 23 and 24) at the Minnesota Museum of Natural History on the University campus, is sponsored yearly by the University Industrial Relations Center and the Twin Cities chapter of the Society for the Advancement of Management. The University's Center for Continuation Study cooperates in staging the meeting.

Altmeyer, who is the United States representative on the social commission of the economic and social council of the United Nations and former assistant secretary of labor, will discuss "Trends in Government Social Security and Benefit Programs" at 9:15 a.m.

His talk will be one of four Friday on the general topic, "Welfare Programs and the National Economy". Others speaking will be Herbert R. Northrup, labor economist for the National Industrial Conference board, New York; Abner Brodie, Carnegie research fellow and lecturer at the University of Wisconsin school of law; and Frederick H. Harbison, executive officer of the University of Chicago Industrial Relations Center.

Friday's program will be devoted to specific problems in the individual firm. Speaking will be Lane Kirkland of the research staff of the American Federation of Labor, Washington; Edwin E. Witte, chairman of the University of Wisconsin department of economics; James A. Hamilton, vice president and actuary of the Wyatt company, Washington; Samuel C. Evett, representative for the United Steelworkers of America, district 31, East Chicago, Ind.; Lawrence A. Henninger, president of Strutwear, Inc., Minneapolis; and Raymond C. B. Howe of Chadbourne, Hunt, Jaeckel and Brown, New York attorneys.

Robert S. Hartman, associate professor of philosophy at Ohio State University, will speak on "Profit Sharing: Labor-Management Cooperation in Free Enterprise" at a dinner at 6:30 p.m. Friday in the junior ballroom of Coffman Memorial Union.

U. OF M. TO STAGE
HOME INSTITUTE

Minneapolis, Mar. - Both the functional and the aesthetic aspects of the home will be stressed in talks, exhibits and an open forum during a University of Minnesota homemakers' institute Saturday (March 25).

The institute, "The Home as a Background for Living", will be held at the University's Center for Continuation Study and is being sponsored by the center in cooperation with the University of Minnesota Alumnae club.

As a part of the program, three clinics will be held in which homemakers may get advice from faculty members on problems in remodeling and building, fabrics and hospitality.

Harlan E. McClure, associate professor of architecture at the University, will discuss "The House You Live In: How to Make the Best Home Out of It", in a talk illustrated with colored slides. He will tell how it is possible to equip and furnish the home to make it fit the needs of a family of different ages, activities and incomes.

"The Interior of the Home: Trends in Fabrics, Furniture and Floor Coverings" will be the subject of a talk by Mrs. Leah M. Lewis, assistant professor of art, who will show fabrics, new wallpapers printed with the silk screen process and carpets made of nylon.

Lucy A. Studley, associate professor of home economics, will discuss "Hospitality: How to Achieve It in a Home with Limited Budget, Space and Help".

Bernard P. Arnest, instructor in art, will exhibit paintings and speak on the place of fine art in the home and the relation of color schemes and furnishings to pictures.

Demonstrations of hand weaving on the loom will be given by Hilma Berglund, instructor in art.

Participating in the question and answer sessions following the talks will be Mr. McClure, Miss Berglund and Miss Studley of the University; Robert E. Halloran of F. Schumacher and Co., Minneapolis; and Rewey Belle Inglis, Marion A. Arling and Lucile Collins Dooley, all of the Minnesota Alumnae club.

KUOM TO PRESENT
NEW SERIES ON
CHILD DEVELOPMENT

Minneapolis, Mar. - A new series of programs on child development will be broadcast, beginning Monday (March 27), on the University of the Air over KUOM, the University of Minnesota's radio station.

The series, to be broadcast from 1 to 1:50 p.m. on Monday, Wednesday and Friday throughout the University's spring quarter, will consist of the classroom lectures of Frank W. Hansen, instructor in child welfare at the University.

The lectures are designed to acquaint parents and potential parents with the basic principles in child development. The broadcasts will attempt to assist parents in meeting individual problems as a part of the total picture of child development rather than as isolated incidents. Class discussions will be encouraged.

Reading lists will be available upon request.

'U' FILM SOCIETY
TO SHOW PREMIERE
OF DON QUIXOTE

The Twin City premiere of the movie, "Don Quixote", will be presented by the University of Minnesota Film society Friday, March 31, and Saturday, April 1.

The picture, which will precede the Film society's regular spring quarter series of six motion pictures, is based on Cervantes' great satirical novel.

Rafael Rivelles takes the part of Don Quixotes, the "Knight Errant of the Sorrowful Demeanor", who sets out to relieve the distressed according to his own fancied concept of chivalry.

Showings of the film, in Spanish with English subtitles, will be at 1, 4 and 8 p.m. each day in Northrop Memorial auditorium on the University campus.

General admission price is \$1 and special price arrangements have been made for high school and college students.

"The Children", a Swedish film based on the book, "The Children of the Moor" by Laura Fittinghoff, will open the society's regular series Wednesday, April 12.

"Monsieur Vincent", the French film which won the Motion Picture Academy Award for the best foreign film of 1948, will be presented Wednesday, April 19.

A second University showing of "The Quiet One", an American documentary film, will be held Wednesday, April 26.

A play by Noel Coward is the basis for "This Happy Breed", an English film to be shown Thursday, May 4.

"Affair Blum", produced in the Russian zone of Germany and telling the story of a young accountant who is wrongly accused of murder, will be presented Thursday, May 11.

Christian Jacque's French film version of Prosper Merimee's story, "Carmen", will be shown Thursday, May 25. Starring in the film is Viviane Romance.

Showings of the six films in the regular series will be at 4 and 8 p.m. in Northrop Memorial auditorium.

U. OF M. TO OFFER
OPERA COURSES
DURING SUMMER

Minneapolis, Mar. - Courses in opera production will be offered at the University of Minnesota for the first time next summer.

The University department of music and the University Theatre will cooperate in the presentation of an opera workshop made up of two courses, an opera production lecture course and an opera production laboratory.

The workshop will be held during the University's first summer session, June 12 through July 22.

The opera production lecture series has been designed to acquaint the student with the history of opera, the various theatre techniques essential to stage production of opera, the use and values of opera in the high school and college curriculum and the value of operatic experience to the vocalist, actor and instrumentalist.

Laboratory sessions will be devoted to practice in organizing and conducting various groups involved in the production of opera as well as to practical training in such technical skills as lighting, costuming, makeup and scenic design. Students will participate in musical productions of the University Theatre.

The workshop will deal with the lighter opera works, from musical comedy to chamber opera, rather than with grand opera.

Teaching the courses will be Frank M. Whiting, associate professor of speech and director of the University Theatre, James Aliferis, associate professor of music, and other members of the music and theatre staffs.

Minneapolis, Mar. - "The Welfare State: Menace or Millenium?" will be the subject of the third series of annual public lectures sponsored by the Social Science Research Center of the University of Minnesota graduate school.

The lectures, scheduled for Wednesday, April 12, and Wednesday, April 19, will be given at 8 p.m. in the Museum of Natural History auditorium on the University campus.

At the April 12 meeting, John C. Kidneigh, director of the University school of social work, will discuss "The Welfare State: What is it?" and Dale Yoder, professor of economics, will talk on "The Welfare State: What Are Its Costs?" Gideon Seymour, vice president and executive editor of the Minneapolis Star and Tribune, will be chairman at this meeting.

"The Welfare State: What Are Its Political Repercussions?" will be discussed by Asher N. Christensen, professor of political science, at the April 19 meeting. John E. Anderson, director of the University Institute of Child Welfare, will speak on "The Welfare State: What Does It Do to People?" Chairman will be Bernard H. Ridder, president of the St. Paul Dispatch-Pioneer Press.

The talks at both meetings, which will be open to the public, will be followed by discussion from the floor.

HOME INSTITUTE
SLATED SATURDAY
AT MINNESOTA 'U'

Minneapolis, Mar. - Homemakers will have an opportunity to discuss their own problems in remodeling and building, fabrics and hospitality at the University of Minnesota's institute, "The Home as a Background for Living", Saturday (March 25).

The one-day institute, sponsored by the University's Center for Continuation Study in cooperation with the University of Minnesota Alumnae club, will be held at the center.

Talks by experts in various fields of homemaking will be followed by question and answer clinics dealing with the specific problems of the individual homemaker. Answering questions in these discussions will be Harlan E. McClure, associate professor of architecture at the University; Hilma Berglund, instructor in art; Lucy A. Studley, associate professor of home economics; and Robert E. Halloran of F. Schumacher and Co., Minneapolis.

A talk by McClure on "The House You Live In: How to Make the Best Home Out of It" will open the institute's lectures. He will tell how it is possible to equip and furnish the home to make it fit the needs of a family of different ages, activities and incomes.

Mrs. Leah M. Lewis, assistant professor of art, will discuss "The Interior of the Home: Trends in Fabrics, Furniture and Floor Coverings".

"Hospitality: How to Achieve It in a Home with Limited Budget, Space and Help" will be the subject of a talk by Miss Studley.

Bernard P. Arnest, instructor in art, will exhibit paintings and speak on the place of fine art in the home and the relation of color schemes and furnishings to pictures, and Miss Berglund will give demonstrations of hand weaving on the loom.

Exhibits of fabrics and hand-woven textiles will be on display at the center.

The problems involved in the recent rise of welfare and security programs will be dealt with at the eighth annual Minnesota Industrial Relations conference Thursday and Friday (March 23 and 24) at the University of Minnesota Center for Continuation Study.

More than 200 union and management leaders are expected to attend the conference, sponsored by the University Industrial Relations Center and the Twin Cities chapter of the Society for Advancement of Management.

Arthur J. Altmeyer, United States commissioner for social security, will open the conference at 9:15 a.m. Thursday with a discussion on "Trends in Government Social Security and Benefit Programs".

Thursday's sessions will be devoted to the general topic, "Welfare Programs and the National Economy". In addition to Altmeyer, those speaking will include Herbert R. Northrup, labor economist for the National Industrial Conference board, New York; Abner Brodie, Carnegie research fellow and lecturer at the University of Wisconsin school of law; and Frederick H. Harbison, executive officer of the University of Chicago Industrial Relations Center.

Special problems facing the individual firms and unions in bargaining on welfare and security clauses will be discussed during the second day of the conference.

Speaking at the annual Industrial Relations banquet at 6:30 p.m. Friday in the junior ballroom of Coffman Memorial Union will be Robert S. Hartman, associate professor of philosophy at Ohio State University. Hartman, who will speak on "Profit Sharing: Labor-Management Cooperation in Free Enterprise", was organizing chairman of the Council of Profit Sharing Industries in 1947 and executive secretary of the council from 1947 through 1949.

UNIVERSITY OF MINNESOTA
NEWS SERVICE
MARCH 23, 1950
FOR RELEASE THURSDAY, MAR. 30,
1950.

IT WOULD TAKE 4,000 YEARS
TO READ BOOKS IN 'U' LIBRARY

Minneapolis, Mar. If you were to read a book a day, it would take you more than 4,000 years—without any time off for Sundays or holidays— to read through the University of Minnesota library.

Even reading the new volumes acquired during the last year would take a good half century longer than the average lifetime.

The library's annual report for the year July 1948 through June 1949 just released by Dr. Errett W. McDiarmid, University librarian, shows a total of 1,540,967 books and pamphlets on the shelves at the University main library and its departmental libraries and reading rooms. New acquisitions during the period totaled 57,256.

Of the new books that went through the library's catalog department, 10,216 volumes were in foreign languages. The number of French books cataloged, 3,887, was the largest, while 1,973 were in German and 1,452 were in Spanish.

There was also one book each in such less widely understood languages as Chippewa, Turkish and Gaelic.

First editions, dating back to the 17th century, were among these new acquisitions. One of these is the most celebrated work on Scandinavian antiquities and one of the rarest of all books—Olaf Rudbeck's "Atlanta", published between 1689 and 1698.

Extensive in use as well as in scope, the library issued 756,205 books during the year for use either in its reading rooms or outside the library and loaned 2,710 books to other libraries under the nationwide interlibrary loan program in which the University library participates. The University borrowed 661 books from other institutions.

In its shipments of books and pamphlets from other countries, the 1948-49 fiscal year brought the University library almost back to pre-war status. Even Russian occupied Germany has become more cooperative and easier to do business with, the report stated.

KUOM WILL PUT
FOUR NEW SPRING
PROGRAMS ON AIR

Minneapolis, Mar. - Four new programs will be broadcast this spring over KUOM, the University of Minnesota radio station.

The programs, to be presented over KUOM's University of the Air, will be "The University Music Hour", "Out of My Life", "Child Development" and "The World Within".

"The University Music Hour", a 13-week series to be broadcast from 4 to 4:30 p.m. on Tuesdays, will portray the life and works of Johann Sebastian Bach. The series will begin April 4.

"Out of My Life", which will deal with informal essays by such writers as Charles Lamb, Joseph Addison and Ralph Waldo Emerson, will be heard from 4 to 4:15 p.m. on Mondays beginning April 3.

A series presented in cooperation with the University hospitals and the Governor's committee on mental hygiene will begin April 7. The series, "The World Within", from 4 to 4:15 p.m. on Fridays, will consist of short dramatic episodes dealing with specific personality problems and talks by Dr. Roger W. Howell, associate professor of psychiatry at the University. Topics will include "The Gossip", "The Chronic Liar", "The Alcoholic" and "The Pregnant Father".

Programs designed to orient parents and prospective parents to the basic principles of child training will be presented from 1 to 1:50 p.m. every Monday, Wednesday and Friday beginning March 29. The program, "Child Development", will present the classroom lectures of Frank W. Hansen, instructor in child welfare.

A bulletin listing all of the general adult programs to be broadcast during the University spring quarter may be obtained from KUOM.

PHILIP GUSTON,
NOTED ARTIST
TO TEACH AT 'U'

Minneapolis, Mar. - The noted American artist Philip Guston, painter of murals for a number of the nation's public buildings, will serve as the University of Minnesota's visiting artist during the spring quarter.

Guston, who recently completed a year's study in Italy under a fellowship from the American Academy in Rome, will teach advanced undergraduate and graduate classes in painting and drawing in the University's department of art.

The department of art's visiting artist program was begun last year to enable students to study with a variety of the country's well-known artists. Preceding Guston in the post were Paul Burlin, Ralston Crawford, Cameron Booth and Arnold Blanch.

During Guston's three months' stay here, the University of Minnesota gallery will show an exhibition of his work. The exhibition, from April 10 through May 12, will include 16 paintings, a number of drawings, and photographs of several of his murals. Among these will be murals from the Queensbridge housing project, New York; the Social Security Buildings, Washington, D. C.; and the WPA building facade at the New York World's Fair.

This fall Guston will go to New York university, where he has been appointed adjunct professor of fine arts.

'U' BUSINESS SCHOOL
TO STUDY MILL CITY
CAPITAL FORMATION

Minneapolis, Mar. -- A research project that will indicate the business capital investment picture in Minneapolis during the four years following the war is being started by members of the school of business administration faculty at the University of Minnesota.

University President J. L. Morrill announced Saturday (March 25) that the study will be carried out under a \$7,000 grant-in-aid from Investors Diversified Services, Inc., managers of the largest single aggregate of investment funds in the United States.

The research project is a sequel to the "Albert Lea Report" which was completed in 1943 by the school of business administration faculty and which established a widely-followed pattern for community research into reconversion problems after the war. The study will be an inquiry into the factors involved in past decisions on capital formation and into the future prospects for capital formation by Minneapolis firms.

Dean Richard L. Kozelka of the school of business administration said the project will be under the general supervision of Arthur R. Upgren, professor of economics, with Walter W. Heller, associate professor of economics, and Carl L. Nelson, associate professor of accounting, serving as co-directors.

He said the results of the study will probably be available by mid-summer.

(More)

Professor Upgren explained that capital formation does not refer only to monetary capital but includes all of society's useful, durable and productive tools, buildings and equipment. The projected research, he said, will determine Minneapolis' "investment curve" in such a way that it will be comparable to principal components in a like "investment curve" for the nation. He listed three following objectives for the study:

1. To show the role which capital formation has had in the high, productive level of employment and business in the United States since the end of the war.
2. To measure the quantitative amount, variation and growth in actual capital expenditures of business in Minneapolis.
3. To draw conclusions with respect to the need for stabilization of capital expenditures.

The report will include two main divisions--a discussion of cyclical variation in modern industrial economies and the report on capital formation. The latter will be made up of a survey of capital expenditures of the city's business firms, a special investigation of approximately 20 of the largest industries in Minneapolis and a survey of building permits.

Cooperating in the project are Galen Van Meter, vice chairman of the board of Investors Diversified Services, Inc., and Frank Hatch, Minneapolis, vice president. Through their support the University researchers will be able to obtain advice from the corporation's consultants, including Professor Fred C. Mills of Columbia university, Dr. Theodore J. Kreps, staff director of the Joint Committee on the Economic Report, and Dr. Simon Kuznets of the National Bureau of Economic Research.

FILM DIRECTOR
TO OPEN U. OF M.
CONVOCAATION SERIES

Minneapolis, Mar. -- Julien Bryan, executive director of the International Film foundation, will lecture and show his colored motion picture, "Europe Rebuilds", at the first University of Minnesota convocation of the spring quarter.

His lecture will be given at 11 a.m. Thursday (March 30) in Northrop Memorial auditorium on the University campus.

The film, beginning in Warsaw, Poland, shows the life today in that country and in Austria, Germany, Czechoslovakia and Hungary.

Bryan, who arrived in Prague at the time of the death of President Benes, has photographed the story of the grief of the Czech people.

Included in the film are scenes of the ruins of great cities like Budapest and Nuremberg and scenes of the United Nations' displaced persons camps.

The film ends with a series of pictures showing government officials from Canada and Venezuela selecting hundreds of refugees to be resettled in these two countries.

The International Film Foundation, which Bryan heads, was established in 1945 by a grant from the Davella Mills Foundation to promote better relations between peoples of all nations, races and religions.

Bryan began lecturing after a trip to Russia in 1930. Since then he has completed 23 films on South America for the United States government and eight films on the American way of life which are being issued in 20 different languages. His filming of the invasion of Warsaw, "Siege", was the first important motion picture of World War II.

(More)

The University Chorus and Orchestra, conducted by James Aliferis, associate professor of music at the University, will present the quarter's second convocation April 6. The chorus will sing "The Seven Last Words", a Good Friday work by Theodore Dubois.

Emil Liers, breeder and trainer of otters, will show a motion picture, "Otters", with commentary, at the April 13 convocation.

"The Theater of the Future" will be discussed on April 20 by Robert Edmond Jones, who has designed stage settings for John Barrymore's "Richard the Third" and "Hamlet", most of Eugene O'Neill's plays and "Green Pastures".

Dr. Benjamin Fine, education editor of the New York Times, will address the April 27 convocation audience on "The Crisis in American Education". For the recently published report of his six months' nation-wide survey of schools and colleges, Dr. Fine was awarded a citation by the National Education association and by the New York State Board of Regents.

On May 4, H. S. Ede, formerly curator of the National Gallery of British Art, will speak on the subject "Pictures Are Like People".

The University Chorus will be heard again on May 11--this time in a joint appearance with the University Band, directed by Gerald R. Prescott, band master and associate professor of music.

All of the convocations in the series, which will close May 18 with the annual University Cap and Gown Day convocation, will be held at 11 a.m. on Thursdays in Northrop Memorial auditorium.

The Spanish film version of Cervantes' great satirical novel, "Don Quixote", will be shown at the University of Minnesota Friday (March 31) and Saturday (April 1).

This will be the Twin Cities premiere of the movie and will precede the University of Minnesota Film society's regular spring quarter series of six motion pictures. Showings will be at 1, 4 and 8 p.m. both Friday and Saturday in Northrop Memorial auditorium.

Taking the part of the idealistic Don Quixote, who sets out to relieve the distressed according to his own outmoded and fanciful code of chivalry, is the distinguished Spanish actor, Rafael Rivelles.

Juan Calvo plays the part of Don Quixote's faithful squire, Sancho Panza.

Among the incidents from the Cervantes novel chosen for inclusion in the film are the familiar battle with the windmill, the routing of the sheep and the freeing of the galley slaves.

Rafael Gil adapted the Cervantes classic for the screen and directed the film, which is in Spanish with English subtitles.

General admission price is \$1, and special price arrangements have been made for high school and college students.

'U' OFFERS COURSE
ON GROWTH OF U.S.
MOTION PICTURES

Minneapolis, Mar. -- Development of the American motion picture from the silent one and two-reelers of the 1890's to the films of today will be traced in the seven weekly film showings of a special course at the University of Minnesota.

The course, "The Development of the American Motion Picture", will include the showing of both old and new films. It has been prepared by the University program in American studies and the general extension division.

Meeting on Tuesdays from April 18 through May 23 with final sessions on Monday, May 29, the course will be divided into two sections—one at 3:15 p.m. and the other at 8:15 p.m. Both sections, with the exception of the May 9 evening showing, will be held in the Minnesota Museum of Natural History auditorium. The May 9 evening section will meet in Nicholson auditorium.

Actors to be shown in films during the series include Sarah Bernhardt, Charles Chaplin, Greta Garbo, William S. Hart, William Powell, Carole Lombard, Gary Cooper and Victor McLaglen.

The types of films to be dealt with are early and later comedy, the Western, the documentary, the film classic and the experimental film.

The course, not offered for University credit, has a fee of \$1.75.

MARCH 28, 1950
FOR IMMEDIATE RELEASE

Minneapolis, Mar. - V. C. Arnsperger, executive vice president of Encyclopaedia Britannica Films, and Julien Bryan, executive director of International Film Foundation, Inc., will be among the speakers at the University of Minnesota's fourth annual workshop in audio-visual education.

The workshop, to be held Thursday and Friday (Mar. 30 and 31) at the University Center for Continuation Study, will be attended by coordinators of audio-visual instruction, teachers and school administrators.

Arnsperger will be the main speaker at a dinner meeting at 6 p.m. Thursday in the center dining room. He will discuss film strips, films and magnetic tape recordings as they relate to classroom instruction.

Bryan, to speak at 1:30 p.m. Thursday, will discuss criteria for evaluating documentary films.

The workshop is being held through the facilities of the center, the University's audio-visual extension service and the college of education.

###

"My Eyes Have a Cold Nose", a talk on Seeing Eye dogs and their help to the blind, will be the subject of the first special lecture of the University of Minnesota spring quarter series.

Speaking will be Hector Chevigny, author and radio script writer, who will also be among the speakers at the University institute for workers and teachers of the blind Friday and Saturday (March 31 and April 1) in the University Center for Continuation Study.

The special lecture will be given at 3 p.m. Friday (March 31) in the Minnesota Museum of Natural History auditorium on the University campus.

Chevigny, who lost his sight suddenly in 1943, is co-writer of the radio program "Mr. and Mrs. North" and was formerly chief of the script division for Columbia Broadcasting System in Los Angeles.

He is the author of the books, "Lord of Alaska", "My Eyes Have a Cold Nose", and "The Woman of the Rock", a novel which is currently undergoing preparation in Hollywood as a motion picture.

A new book, "The Adjustment of the Blind", written in collaboration with the clinical psychologist, Dr. Sydell Braverman, will be published in April.

The second special lecture will be given by Dr. W. A. Bramlette, Rocky Mountain division geologist for Carter Oil company. He will speak on "Petroleum Exploration in the Rocky Mountain Area" at 8 p.m. Tuesday, April 11, in Room 150, Physics building.

Dr. Robert Braidwood of the Oriental Institute, University of Chicago, will speak at 4 p.m. Thursday, April 13, in Murphy hall auditorium. His topic will be "The First Farmers: New Light on Early Mesopotamian Agriculture".

Special lectures

- 2 -

"Wildlife of the Antarctic" will be discussed by Col. Niall Rankin, British ornithologist, at 8 p.m. Monday, April 24, in the Minnesota Museum of Natural History auditorium.

A former Czech ambassador to Yugoslavia will discuss "Tito and the Cominform" at 3 p.m. Friday, April 28, in the museum auditorium. He is Dr. Josef Korbell, now visiting professor at Denver university.

"Discoveries in Cyprus and Turkey" will be the subject of an archaeology lecture by Dr. Claude F. A. Schaeffer, curator of the French national museums. Dr. Schaeffer will speak at 8:30 p.m. Monday, May 8, in the museum auditorium.

**UNIVERSITY GALLERY PLANS
PHOTO EXHIBITS
DURING APRIL**

*John W. Sherman
John H. ...
Laurie ...
Miss Ruth Lawrence*

Exhibitions of work by two leading contemporary photographers will open at the University of Minnesota gallery during April.

Fifteen photographs by Man Ray, French painter and photographer who was one of the leaders in the post-impressionist and cubist movements, will be on exhibit from Wednesday, April 5, to Wednesday, April 26.

Work by Bill Brandt, English photographer who has done much work for both English and American magazines, will be shown from Friday, April 21, to Friday, May 12.

Both exhibitions were prepared by the Museum of Modern Art, New York.

On exhibit at the gallery until Tuesday, April 18, is a show of Modern church art. The exhibition includes a section on French and English work, prepared by the Museum of Modern Art, and a section on American church art, compiled by the University gallery. Both parts of the exhibition include photographs and actual works such as stained glass and paintings.

UNIVERSITY OF MINNESOTA
NEWS SERVICE
MARCH 29, 1950
FOR RELEASE 11 A.M. FRIDAY,
MAR. 31, 1950

SURVEY INDICATES
ITASCA COUNTY
IRON FORMATION

Minneapolis, Mar. 31 - A potential iron formation with a magnetic pattern remarkably like that of the Mesabi iron range lies buried beneath the glacial drift in a wide belt extending some 30 miles across the northwest corner of Itasca county in north central Minnesota.

This was revealed today, Friday, Mar. 31, with the public release by the United States Geological survey of 21 additional maps based on the aeromagnetic survey of 30,000 square miles of northern Minnesota underway since 1947 as a joint project of the federal bureau and the Minnesota Geological survey.

Purpose of the aerial survey, according to Dr. G. M. Schwartz, director of the Minnesota Geological survey and University of Minnesota geology professor, is to determine the major magnetic trends associated with the known deposits of iron ore in the state, to ascertain possible extensions of those deposits and to indicate new areas which may be favorable for further exploration.

Under the latter heading falls the band of abnormal magnetic attraction found in northwestern Itasca county just south of Island lake. Dr. Schwartz described this zone as "one of the most interesting new areas thus far disclosed in the survey" and recommended careful exploration to determine whether or not the indicated formation contains deposits of commercially valuable iron ores.

The state geologist pointed out, however, that in the vicinity of Funkley the west end of this belt merges with a large known granite formation which underlies much of Beltrami county. This fact, he said, raises the question as to whether this zone, which is remarkably like the Mesabi range in magnetic pattern, may be merely a granite area. Only extensive ground exploration and core drilling can determine just what lies below the glacial drift, he added.

(More)

Thanks to the new maps, Dr. Schwartz explained, a complete magnetic picture of the Mesabi range, the world's most important iron ore producing area, is now available for the first time. This picture of the Mesabi now gives geologists a valuable basis for the evaluation of unknown areas by a comparison of the magnetic characteristics of the producing iron range and those of the areas being explored by aeromagnetic survey.

Also particularly well-defined by some of the maps issued today, Dr. Schwartz pointed out, is the magnetic picture of the Cuyuna iron bearing district. The maps show that the mines, both open pit and underground, in this district are in areas of "considerable magnetic complexity", the geologist reported. The mines are concentrated in areas where the iron formation is shown by the magnetic maps to be folded laterally into "U" shapes, he added, and the iron deposits seem to follow the "U" shape of the formation.

Shown clearly on the maps is the southwestward extension of the Cuyuna range formation beyond the area in which mining operations are now being carried on, the state geologist said.

"The magnetic belts of the Cuyuna range are shown crossing the Mississippi river in the vicinity of Camp Ripley and are about 15 miles in width," Dr. Schwartz stated. "West of the river, these belts swing sharply southward and then die out gradually in the vicinity of Flensburg, southwest of Little Falls in Morrison county. The reason for this southern termination of the Cuyuna range formation at this point is not well understood at present, but we do know that there are massive areas of granite just to the south."

At the other end of the Cuyuna range, the new maps show a northeastward extension of the range formation to about the center of Aitkin county, Dr. Schwartz indicated. This extension of the range formation has been known to geologists for some time, he said, but the outline shown on the maps is expected to be a great aid to further study and evaluation of the zone for future mining operations.

(More)

Also shown by the aeromagnetic maps, the geologist found, is a wide belt of abnormal magnetic attraction which runs through Itasca, Cass, Hubbard and Becker counties, parts of which were noted on maps of the survey released in 1949 and earlier this month.

Maps released earlier this month also disclosed the outlines of an 80-mile-long potential iron formation shaped like an "E" in northeastern Otter Tail and southeastern Becker counties.

The maps made public today cover 15,850 square miles of the area surveyed and bring the total area for which maps have been issued to 21,350 square miles. The 21 maps released today were in two groups:

1. A set of 12 printed maps covering an area of 9,250 square miles in north central Minnesota including Cass, Crow Wing, Hubbard, Morrison, Todd and Wadena counties and parts of Beltrami and Itasca counties. Preliminary maps of Hubbard and Cass counties were issued last year. These maps may be purchased from the Director, U. S. Geological survey, Washington 25, D. C. for 35 cents per map.
2. Nine preliminary aeromagnetic maps (blueprints) covering 6,600 square miles in the northeastern sector of the state including parts of the Mesabi and Gyuana iron ranges. These maps cover Aitkin county and parts of Itasca, Kanabec, Koochiching, Mille Lacs, Pine and St. Louis counties. Although these maps are not for sale, they may be examined at the office of the Minnesota Geological survey, Pillsbury hall, University of Minnesota, Minneapolis; the office of the U.S. Bureau of Mines, Federal building, Duluth; and the office of the Division of Lands and Minerals, Hibbing. These preliminary maps were issued in response to requests for advance information on the results of the survey. Final maps will be published and sold at a later date.

Six maps released earlier in March covered an area of approximately 5,500 square miles in Becker, Clearwater, Douglas, Grant, Mahnomen, Otter Tail, Red Lake and Polk counties. These maps also are preliminary studies and are on open file for public inspection in Minneapolis, Duluth and Hibbing along with the nine additional blueprint maps released today.

(More)

Total area covered by the 27 maps issued to date by the United States Geological survey is approximately 21,350 square miles.

Dr. Schwartz pointed out today that there are very large areas on these aeromagnetic maps which show little variation in magnetic intensity or attraction and, therefore, according to present geologic knowledge, little possibility of yielding iron ore. For the most part, the geologist explained, these large areas are underlain by slates and occur in most of the counties included in the portion of the state covered by the 27 maps now available for public examination.

In addition to their value in locating and outlining possible iron formations which may contain valuable iron ore deposits, the maps based on the aeromagnetic survey are going to be of great value in determining and understanding the geology of the state, Dr. Schwartz asserted.

Used in the surveys flown over the northern part of the state during the last three years was an instrument known as the airborne magnetometer, nicknamed "doodlebug", a device which detects and records variations in the earth's magnetic field while being flown over the survey area at an altitude of 1,000 feet in paths at one-mile intervals.

Enclosed in a bomb-like container, the magnetometer's detector unit is suspended on a long cable from a specially equipped airplane operated by experts from the United States Geological survey. The recording device is carried in the airplane. The instrument is similar to a device developed by American scientists during World War II for use in detecting submerged enemy submarines from the air.

"The necessity for aerial magnetic work," explained Dr. Schwartz, "arises from the problem of the thick glacial drift over much of Minnesota. Magnetic work on the ground has been carried on for a long time in the state, but the process is slow, and consequently, only selected areas have been covered. No one person or group has access to more than a fraction of the data thus compiled."

'U' WILL CONDUCT
TWO-DAY MINING
MEET IN HIBBING

Minneapolis, Mar. - Exploration drilling and the geology of Minnesota iron ranges will be discussed at two mining symposiums conducted by the University of Minnesota in Hibbing Thursday and Friday (Mar. 30 and 31).

The symposiums are being presented through the University's Center for Continuation Study in cooperation with the Eighth District Society of the Minnesota Association of Professional Engineers.

Thursday's symposium on exploration drilling will open with talks on "What Types of Materials Present Serious Problems in Core Recovery" by Wing G. Agnew, chief of Mount weather branch of the United States Bureau of the United States Bureau of Mines, Bluemont, Va., and Stanley A. Tyler, professor of geology at the University of Wisconsin. The remainder of Friday's symposium will be devoted to discussions of the problems.

Dean Athelstan F. Spilhaus of the University's Institute of Technology will be the main speaker at a dinner meeting at 6:30 p.m. Thursday of the Eighth District Society of the Minnesota Association of Professional Engineers.

Among those speaking at the Friday symposium on the geology of Minnesota iron ranges will be G. M. Schwartz, professor of geology at the University and director of the Minnesota Geological survey; T. L. Joseph, assistant dean of the University's school of mines and metallurgy; and M. P. Walle, chief research engineer for the Minnesota Division of Lands and Minerals.

MINNESOTA 'U' TO OFFER DEGREE
IN INDUSTRIAL ENGINEERING

Minneapolis, Mar. - An engineering program leading to a newly established degree of bachelor of industrial engineering will be offered next fall by the University of Minnesota's institute of technology, according to Dean Athelstan F. Spilhaus of the institute.

The new degree has been established and the curriculum set up to train people for production, supervisory or management positions in industry, Spilhaus said.

Heading the program, which is under the institute's department of mechanical engineering, will be Lee S. Whitson, professor of mechanical engineering.

Whitson said that the first three years of the new five-year curriculum will be essentially the same as the present mechanical engineering program but that industrial engineers would also study specific industrial engineering subjects and take courses in the school of business administration.

He said that 21 new industrial engineering courses have been planned and that some of them will be open also to mechanical engineering students. Courses to be taken in the school of business administration include general economics, cost accounting, industrial relations and statistics.

The new program, he said, will not conflict with a present program under which students combine business and engineering curricula and receive both engineering and business degrees. He explained that a schedule leading to the two degrees could also be completed by industrial engineering students.

Objectives of the new program, Whitson said, will be to train students in the development of production methods and production equipment and the layout of industrial plants, the day-to-day operation of plants and the preparation of management surveys applicable to long-range planning.

(More)

Among the courses to be offered are work measurement and production standards, industrial plants, production planning and control, engineering economic analysis and cost control, elements of supervision, and graduate courses in advanced industrial engineering and management and in production engineering problems.

Other faculty members in the industrial engineering program will be John L. Imhoff, assistant professor of mechanical engineering, and Evan D. Scheele, Stanley M. Block and Charles E. Burnham, Jr., instructors in mechanical engineering.

Minneapolis, Mar. - Several series of special Easter Week talks and musical and dramatic programs, two of them for children, have been arranged by University of Minnesota radio station KUOM.

A rabbi, a minister and a priest will discuss the meaning of the season's various holidays at 11 a.m. Tuesday, Wednesday and Friday (April 4, 5 and 7). The programs, to be presented over KUOM's Minnesota School of the Air, will be for youngsters.

Rabbi Louis Milgrom, director of Hillel Foundation at the University, will speak Tuesday on the meaning of the Passover. The meaning of Easter will be discussed by Dr. Charles Nelson Pace, former president of Hamline University, on Wednesday's program and by the Rev. Joseph L. Baglio, director of the Minneapolis Catholic Youth center, on Friday.

The second series for children will consist of Easter stories to be read by members of the University's Radio Guild at 2:15 p.m. Monday through Friday.

The University of Minnesota Chorus, under the direction of Dr. James Aliferis, associate professor of music, will sing Dubois' "Seven Last Words of Christ" during the regular convocation broadcast from 11 to 11:45 a.m. Thursday.

The last act of Wagner's opera "Parsifal", will be presented on recordings during the "Afternoon Concert" program at 2:30 p.m. Friday.

"Afternoon Concert" on Saturday will be extended to two hours for the presentation of Bach's "Passion of St. Matthew" from 3 to 5 p.m. Recordings of the work will be by the Boston Symphony orchestra, the Harvard glee club and the Radcliffe choral society.

"The King Comes to His Own", Dorothy L. Sayers' drama on the story of the resurrection, will be presented from 5 to 6 p.m. Saturday by the University's Radio Guild in cooperation with the Minnesota University of the Air.

GREATER 'U' FUND
GIFTS LAST YEAR
INCREASE \$50,000

Minneapolis, April - An increase during 1949 of more than \$50,000 in contributions to the University of Minnesota through the Greater University fund has been announced by Stanley J. Wenberg, fund director.

The Greater University fund, established in 1948 and sponsored by the Minnesota Alumni association, conducts a yearly fund-raising campaign to support University scholarships, fellowships and research projects. It also accepts gifts for specific research projects and gifts designated for new or existing University trust funds.

During 1949, 2,202 individuals contributed a total of \$86,953 for these three phases of the organization's activities. This compares with 1,180 individual contributors giving \$33,424 in 1948.

A breakdown on the 1949 figures shows \$19,682 in unrestricted gifts for the fund's scholarship-fellowship-research program; \$42,554 for specific projects; and \$24,716 for various new or existing University trust funds.

Wenberg said that the \$86,953 total collected was a particularly significant increase over the 1948 total in that approximately one-fourth of the 1948 total consisted of class funds already collected when the Greater University Fund was established.

U. OF M. TO OFFER
AMERICAN STUDIES
SUMMER COURSE

Minneapolis, Mar. - "American Civilization from 1900 to 1950" has been chosen as the theme of the University of Minnesota American Studies program for the University's 1950 summer sessions.

The program, which will have on its faculty a number of visiting professors in many fields, will be augmented by 20th century courses in many departments of the University's college of science, literature and the arts.

The new courses to be taught by visiting professors will include "World History in the Twentieth Century", "The Leftward Movement in 20th Century American Fiction", "Conservative Patterns in 20th Century Fiction", "Contemporary American Culture", "The American City" and "American Minorities".

Among the visiting professors will be George E. Axtelle, professor of philosophy of education at New York University; Hornell Hart, professor of sociology at Duke University; Hans Kohn, professor of history at City College of New York; Hortense Powdermaker, professor of anthropology at Queens College, New York; Willard Thorp, professor of English at Princeton University; and Louis Wirth, professor of sociology at the University of Chicago.

Another new course, Science and Technology in the United States, will be offered by the department of general studies.

During the University's two summer sessions, from June 12 through July 22 and from July 24 through Aug. 26, a series of panel discussions and public lectures on 20th century America will also be held.
