

Autumn Convocation Address  
Thursday, Oct. 2, 1958  
Northrop Memorial Auditorium  
University of Minnesota  
By President J. L. Morrill

THE IDEA OF <sup>A</sup> THE UNIVERSITY

Dean Snoke, Mr. Anderson, Members of the Faculty and Young Ladies and  
Gentlemen -- especially those coming to the University for the first time:

Some of you, I'm sure, were out there on the Mall last week at that box-lunch  
birthday party which meant so much to me, and for which I feel so grateful to the  
Freshman Class. As I said to you then, almost I wished I were starting in with  
you to college once again -- except for all those examinations you've got to take  
and pass. How well I remember those times when I felt sure I knew a lot, but  
just couldn't seem to think of it!

Those of us older often do wish we were younger with the chance to start  
over again -- believing we'd do so much better, but forgetting how much we've  
learned from time and experience. I'm remembering another college president, Dr.  
Nicholas Murray Butler, who presided over Columbia University to a very advanced  
age -- and who remarked one time that youth is a wonderful thing, but it has one  
unfortunate drawback: the fact that it occurs so early in life.

This Opening Convocation of the college year is always very meaningful to me --  
and I wish I could somehow make it so for you. It is the one opportunity that I  
shall have to meet most of you face-to-face during your college experience as  
student-citizens in this great University-City of the Mind, as we might call it.

The chance to make new friends, the comradeship of the campus, the exciting  
thrill of athletics, the rewards of leadership and participation in student life  
and activities -- all these will help to build the loyalty to the University that  
will linger all your lives, I hope -- but it is the loyalty to learning that should  
mean most and linger longest in your life-long remembrance and respect for this  
place. For learning, and the uses of learning for yourselves and for society,  
are what this University is all about.

(M)  
(MORE)

You, here for the first time, have been learning a good deal about the University in the orientation sessions and the useful program of Welcome Week. Your minds -- or at least your notebooks! -- are full of things it is helpful to know. There is no information or advice that I can add.

And yet this Convocation is planned and scheduled each year for a final word as you begin the myriad tasks and assignments that will add up at length to the attainment of your diploma and the purpose which brought you here. It is planned to give you perspective -- some glimpse of the forest before you find yourselves too deep in the paths among the trees: some idea of the total meaning of the University.

That word "idea" -- the dictionaries and the philosophers have given it many meanings. "A mental picture or image" is one; "a purpose, plan or aim to be carried out" is another. The celebrated Cardinal Newman wrote a great book more than a hundred years ago entitled "The Idea of a University." The Cardinal, of course, could not foresee the kind of world this would be a century ahead -- or the kind of universities it would require -- but his definition of a university as "a place of concourse whither students come from every quarter for every kind of knowledge" needs no revision for this campus; nor does his often-quoted statement that "if, then, a practical end must be assigned to a university course, I say it is that of training good members of society."

Doctors, lawyers, teachers, engineers and all the other careers you have in mind the University is organized to help you become -- but the whole is greater than its parts. The training of "good members of society," of citizens "ennobled by understanding," capable of thinking sensibly and acting fairly is the larger meaning of this place. Looking at Little Rock today, how can there be enough of these?

How can people say, as some do, "there are too many young people in college"? Too many of some kinds, of course, as there have always been: young people lacking the inborn ability, or ill-prepared, or without the serious purpose to meet college requirements. But a total enrollment of 3,500,000 in all American higher education in a population of 170 millions is surely numerically not too many!

(MORE)

How, too -- remembering Cardinal Newman's "idea" of a university's "practical end" and the American Dream of educational opportunity for the largest possible number of those capable and determined to deserve it -- how could the president of one of America's oldest and most eminent private universities so far forget his country's history and world-envied achievement as to say (as quoted in a recent newspaper) that "we should look to the Continental system where not more than five percent of a given age group attend universities, whereas in the United States one third of such an age-group is enrolled."

He went on further to say that "the greatest danger is that we all talk so much about the university in modern society, and try to justify the university in terms of what it can do for society, that we overlook the fact that the primary function of a university is to provide enrichment of individual and intellectual activities, whether or not it benefits society."

This ivory-towered conception has not been the narrow view of those who founded the great public land-grant state universities such as ours -- or of the people of Minnesota who have built this one to its present size and service. Surely this University has proved over the years that quality and quantity and service to society are compatible and attainable.

And the notion that the individual is lost sight of among large numbers is less true in a university than in any place I can think of. For education, by its very nature, is an individual enterprise. No one can get it for you.

The American idea has been, as the President of the University of New Hampshire wrote not long ago, that "every mind is entitled to its own fullest development; and the finest development of some one else's mind (some selected minority or elite) is no adequate substitute." For "the next man cannot be virtuous for us, or see for us, or hear for us; neither can he think for us," he said.

The number of students in American colleges and universities is significant in the sense of opportunity and individual responsibility accepted by large numbers. It is a sign of strength for citizenship and society. Other nations the world over are coming to recognize this, as I came especially to appreciate at a great Congress of all the universities of the British Commonwealth at Montreal in Canada a month ago.

More and more this is becoming understood, I think, by the people of this country as the nation faces up to the fact of a doubled college-age population within the next 10 or 12 years. Your younger brothers and sisters will be among these -- and even your own children later on. There is more concern and conversation -- and controversy, too -- about education in general, and higher education in particular, than at any time in my experience. And this is all to the good, long range, in my opinion.

Schools, colleges and universities -- and the students attending them -- are being looked at and re-appraised. Things too much taken-for-granted are being studied and rethought. If education is to cost more, as assuredly it must at the college level with twice as many students 10 years hence, the taxpayers and private supporters of higher education want us, the educators -- and you, the students -- to do the best job possible at the lowest possible cost.

That will be an issue in the forthcoming session of our Minnesota Legislature when the University must seek support for the bigger job it sees ahead. For more than three years now the University has been thinking hard about its future. We have studied our internal program and operations in an all-University survey. We have inventoried our land and building needs, projecting them as far ahead as 1970, with plans to expand our Minneapolis campus across the Mississippi River as the soundest and most feasible and most economical solution of our problem here in the Twin Cities.

But our problem is only half the Minnesota problem -- because the University, large as it is, enrolls only approximately half the total Minnesota college student population. The other half is the responsibility of the private colleges, the state colleges and the junior colleges of the state. It is our earnest hope that they will continue to carry their share of the load, and that the sudden overload on the University during the post-war "veterans bulge" need not happen again.

To manage the larger enrollments of the future, every college and university in Minnesota needs help -- help from private and corporate benefactors for the private colleges, legislative help for the others. All these institutions must enroll more students, and the establishment of new junior colleges seems likely and necessary.

But in some parts of the state, the argument for establishing a new junior college in this town or that seems to take a strange turn. "Spend the money here instead of at the University in Minneapolis, St. Paul or Duluth," the hometown editor or the local chamber of commerce is likely to urge.

It's the "instead" that is misleading in this plea. For the educational task ahead is a doubled one. More students at every institution, with more junior colleges, too. Minnesota's present nine public junior colleges, with a 25 percent increase in enrollments this fall, take care of only 2600 students -- only about one-tenth of the University's load. To double their number would be no solution of the problem -- and to do so without comparable expansion of the University and other Minnesota colleges offers no real relief.

The real reason, moreover, for more junior colleges is to make educational opportunity available to students who can live at home, and thus at lower cost. The University of Minnesota, with its three campuses, is located within commuting reach of nearly half of Minnesota's total population. Are not the parents and future students of the Twin Cities and Duluth to be given this same opportunity?

Either, it would seem clear, there must be new junior colleges in the Twin Cities metropolitan area, or the University itself must be given the additional resources to provide more students with junior level instruction. Which, in the long run, is the more feasible the Legislature and citizens of the community must decide.

For the problem of higher education in Minnesota won't be solved by short-changing any part of it. The welfare of all the colleges and universities in this state is indivisible because it is the welfare of the youth of the state, and thereby "the welfare of the state" itself.

Difficult as it will be -- and has been all these years -- the only answer to the richer resource of larger college enrollments will be addition, not subtraction. Minnesota's investment in higher education is the people's surest investment in their own future, I have often said -- and deeply believe. The status quo of current costs will not suffice.

Indeed, the old adage that two can live as cheaply as one has been rarely realized, as our married students well know -- for, as someone has said, "the love of a good woman . . . is a constant expense!" The idea that Minnesota can solve its problem of higher education by anything less than an expansion of all its colleges and universities -- any such idea the people of Minnesota long since have rejected as contrary to the faith and purpose of which this University stands today as a shining sentinel. They have believed, and have taxed themselves as proof, that they can and must afford the education of their children.

For as my friend, President David D. Henry of the University of Illinois, has lately said: "Every citizen has a stake in the colleges and universities of his state . . . The public schools of America are the essence of the democratic hope, and the university is the capstone of that structure.

"Democracy," h e said, "does not promise there will be no economic or cultural dividing lines. It does promise that everyone has a chance to cross such lines . . . to improve his lot -- if he has the will and the ability to do so."

It is this precious chance that the people of Minnesota have made it possible for you to enjoy -- and you will miss the meaning of this University if you fail to understand and to deserve it by serious study and good work and useful service to society.

I have not meant to speak to you today in terms of lofty abstractions -- "over your head," so to say. It is understanding and inspiration and a sense of challenge that I have wished you to have.

For you are more than just young people beginning a college course. You are citizens of the University -- and as later voting citizens and taxpayers, you will be lifelong partners in the ongoing of this institution, yourselves the responsible interpreters of its "idea."

All that you bring here -- your energies and enthusiasm, your talents and aspirations -- are grist for the mill of your own richer lives and success; and they are an indispensable resource for the future of the state and nation.

We hear and read a good deal these days about missiles -- missiles guided and unguided, and some so misguided that they blow up and sputter out. Students, just starting in, could be thought of as human missiles, I suppose, ready to take off from the launching pad. Each, presumably well designed and prepared -- with some flaws and mistakes in the past, perhaps -- but stocked with the solid fuel of ambition to reach a goal.

But there must be a guiding mechanism -- and this the University is organized to provide: through its curricula, its teaching, its helpful concern for student life and activities. Indeed, the unguided student, like the fabled knight, is too likely to ride off in all directions at once, getting nowhere in particular.

PRESIDENT MORRILL

- 8 -

I wish you all good speed and sure direction at this moment of the "count-down." Take stock of the best that is in you and put it to the test, looking always forward and not back.

There is an old hymn, sometimes sung in my church, with words that come to my mind in welcoming you and wishing you well as you set out on your course:

"Hold thee in full survey:

Forget the steps already trod,

And onward urge thy way --

And onward urge they way!"

MANUFACTURERS'  
SHORT COURSE  
OFFERED AT 'U'

(FOR IMMEDIATE RELEASE)

"Profitable Management for the Smaller Manufacturer", an eight-week University of Minnesota short course, will be conducted by Twin Cities businessmen and University staff members starting Tuesday evening, October 21.

Lecturers for the various sessions -- to be conducted weekly through December 9 from 7 to 9:30 p. m. in Room 20 Fraser hall, the University's law school -- will include public accountants, bankers, representatives of industrial firms and University faculty members. Already scheduled to speak are Fred L. Moore, Jr., of the Arthur Andersen company, Minneapolis, E. Paul Torrence of the University bureau of educational research and the following St. Paul businessmen: Otto Greven, production director of the Donaldson company; Frank J. Havlicek, sales manager of the Reid H. Ray Film Industries, Inc.; William L. West, president of the Torit Manufacturing company; and Milton M. Broeker, of Broeker and Hendrickson.

Subjects of the course sessions are "Results Management for the Small Manufacturer", "Sound Business Financing Policies for Organization Expansion and Growth of an Enterprise", "Selling for Profit", "Production Problems and Policies", "Purchasing and Inventory Control", "Finding Your Cost", "Controlling Your Costs" and "Human Relations".

Sponsors of the sessions are the University general extension division and the United States Small Business administration.

Registration is limited to the first 40 qualified applicants, and can be made at one of the three extension division offices -- 57 Nicholson hall, on the University campus; 690 Northwestern Bank Building, Minneapolis; and Wabasha and College, St. Paul.

MORRILL INVITES  
VISITING KOREAN  
FACULTY TO TEA

(FOR IMMEDIATE RELEASE)

The 22 faculty members of Seoul National University of Korea who have entered the University of Minnesota as graduate students this fall will be honor guests of President J. L. Morrill at a tea to be given Monday, (Oct. 6) at 4 p. m. in the Campus Club in Coffman Memorial Union.

Participants in a program operated under a contract between the University of Minnesota and the United States International Cooperation administration, 46 faculty members from this "sister-university" presently are studying at the University of Minnesota and two other United States institutions under this contract. One hundred and nine have completed their studies and returned to their posts in Korea during the last four years.

Also invited to the tea are members of the Korean advisory committee, appointed by President Morrill.

2-DAY COUNSELING  
INSTITUTE AT 'U'  
TO START THURSDAY

(FOR IMMEDIATE RELEASE)

College counselors will study the changing patterns of work and education for women at a University of Minnesota institute Thursday and Friday (Oct. 9 and 10) in the Center for Continuation Study.

Sponsored by the University Continuation Center and student counseling bureau, this year's session will feature information on problems of placement, employment, enrollment and retention of the woman student.

Idelia Loso, dean of the Ely junior college; Barbara Mertz, associate dean of students and dean of women at Hamline university, St. Paul, and Sister Rosalie, academic dean of the College of St. Catherine, St. Paul, will discuss woman student enrollment, drop-out and survival at their respective schools.

Representatives of other state colleges who will join University faculty members on the institute staff will be Jane Andrews, director of placement, Carleton college, Northfield; Charles Emery, director of placement, St. Cloud State college; and Walter D. Mink, associate professor of psychology, Macalester college, St. Paul.

Heading the faculty guests will be Emily Chervenik, coordinator of placement and assistant dean of women at the University of Wisconsin, Madison. She will discuss the placement and employment of women at 9 a. m. Friday (Oct. 10). This will be followed by a discussion of the Minnesota placement and employment picture by Miss Andrews, Emery and Mabel K. Powers, University of Minnesota assistant professor of psychology and coordinator of advising, upper division, college of science, literature and the arts.

'U' MAN NAMED  
TO QUARTERMASTER  
ADVISORY GROUP

(FOR IMMEDIATE RELEASE)

E. Paul Torrance, director of the University of Minnesota's bureau of educational research, recently was appointed by the National Academy of Sciences and the National Research Council to a committee on acceptance which advises the U. S. Army Quartermaster Corps' research and development staff.

The advisory committee is especially interested in attitudinal and social psychological factors affecting the acceptance by military personnel of various products now under research development by the Quartermaster Corps.

Torrance, an associate professor in the University's college of education, recently returned to the campus upon completion of a research program for the Air Force.

'U' WILL PRESENT  
HUMAN BEHAVIOR  
SERIES ON CH. 2

(FOR IMMEDIATE RELEASE)

Why do we behave as we do?

Dr. Bernard C. Glueck, University of Minnesota associate professor of psychiatry, will answer this question in a new television series, "Understanding Human Behavior", scheduled to start Tuesday (Oct. 7) on KTCA-TV, Channel 2.

The half-hour programs will be seen at 9:30 p. m. Tuesday evenings through December 30. Each will be woven around a common behavior episode.

In the first program -- "The Mind, Unconscious Mind and Brain" -- Dr. Glueck will explain why it is easy to recall a multiplication table and yet difficult to remember childhood events experienced at the same time. In future programs, he will discuss the complex functions of the unconscious mind, the development of the self concept, adolescent and adult sexual behavior and the cause and significance of dreams.

Before joining the University staff in 1955, Dr. Glueck, a certified psychoanalyst, was a psychiatrist for the United States Army Air Force. In 1949 he became the supervising psychiatrist at Sing Sing prison, where he remained until 1952, when he joined the Columbia university staff as a psychiatry instructor and associate psychoanalyst. He also was director of the sex delinquency research project for the New York State Department of Mental Hygiene from 1952 to 1955.

WILDE COMEDY  
TO OPEN U OF M  
THEATER SEASON

(FOR IMMEDIATE RELEASE)

An inspired bit of nonsense, Oscar Wilde's "The Importance of Being Earnest", will open the University of Minnesota Theater's 28th season according to Frank M. Whiting, theater director. Performances will be given in the Minneapolis campus Scott hall auditorium Oct. 30, Nov. 1 and 5-8 at 8:30 p. m., and on Nov. 4 and 9 at 3:30 p. m.

George Bernard Shaw's story of Joan of Arc, "Saint Joan", directed by Whiting, will be season's second offering. Evening dates for this production are Nov. 27-29 and Dec. 3-6, with matinee performances at 3:30 on Dec. 2 and 7.

"The Scythe and the Sunset" by Denis Johnston, directed by Arthur H. Ballet, associate professor of speech and theater arts, will be the third presentation of the University Theater. Evening performances will be given at 8:30 Jan. 29-31 and Feb. 4-7, with matinees being given on Feb. 3 and 8.

Robert D. Moulton, assistant professor of speech, will direct the season's fourth play, William Shakespeare's charming story of revenge and happiness on an enchanted isle, "The Tempest". Evening performances will be given on Feb. 26-28 and Mar. 4-7, with matinees on Mar. 3 and 8.

"Pal Joey", the popular Rodgers and Hart musical, will round out the season. Kenneth L. Graham, University speech professor, will direct, with evening performances on April 16-18, April 22-25, and matinees on April 21 and 26.

As season ticket priority renewals have increased greatly this year, according to Merle W. Loppnow, business manager for the University Theater, no additional season orders are being accepted for Saturday evening performances. Balcony and main floor side section seats are still available for all other performances. Season subscription seats are now on sale at the Scott hall box office, with sales closing Nov. 4 for the Tuesday matinees and Nov. 9 for the Sunday matinees.

DOC WILLIAMS  
MEMORIAL REUNION  
SET OCTOBER 17

(FOR IMMEDIATE RELEASE)

Men who played football under the late Dr. Henry L. Williams will honor their popular coach at a memorial reunion Friday, October 17, in the Pick-Nicollet hotel, Minneapolis. Bert Baston, St. Cloud, All-American end in 1917, will be master of ceremonies at the party, to be held on the eve of the Minnesota-Illinois homecoming football game.

Dr. Henry L. Williams, Jr., of Rochester, son of the man who coached Minnesota football teams for 21 years, will be a special guest at the 5 p.m. cocktail party and 7 p.m. dinner, both in the Pick-Nicollet's Lakeland room.

Plans for the reunion were coordinated through the Minnesota Alumni association at the University of Minnesota.

George Kelby, homecoming committee chairman, will speak before the dinner, and participating in the dinner program will be John McGovern, George Barton, Ed Shave, Sig Harris and Clark Shaughnessy.

Twelve former team captains also will be on hand to pay tribute to their coach. They are Ed Rogers, '03, Walker, Minn.; Dr. Moses Strathern, '04, Gilbert, Minn.; Dr. Earl Current, '05 and '06, Seattle, Wash.; Earl Pickering, '11, St. Louis Park; Paul Tobin, '12, Potlatch, Idaho; Donald Aldworth, '13, Culbertson, Mont.; Dr. A. Boles, '14, Oakland, Calif.; Bernie Bierman, '15, St. Paul; Dr. George W. Hauser, '17, St. Paul; N. Kingsley, '18, Upper Montclair, N.J.; E. Lampi, '19, New York; and L. Teberg, '21, Minneapolis.

In 21 years and 132 games as Minnesota's coach, Doc Williams had 97 victories to his credit, 6 ties and 29 losses. The Minnesota Shift, which stressed concentrated attacks at unexpected points, was one of his inventions.

An honor student in medicine at the University of Pennsylvania, Williams did graduate work in medicine in Berlin and Vienna. Also a college athlete, he earned eight letters in football and track while an undergraduate student at Yale.

He returned to the full-time practice of medicine when he left coaching at Minnesota in 1921. He died June 14, 1931.

Williams Arena, named in his honor, was built in 1927, and a hockey rink was added in 1949. Also in 1949, the Henry L. Williams Memorial Scholarship Fund was established for athletes.

PROFESSOR ROSE  
TO AIR MINORITY  
PROBLEMS ON ETV

(FOR IMMEDIATE RELEASE)

Minority problems will be studied on a new University of Minnesota television series Wednesday nights on KTCA-TV (Channel 2) starting October 8. Arnold M. Rose, University sociology professor, will be featured on the weekly programs at 9 p. m. through December 24.

Rose will explore the causes of minority problems resulting in prejudice, discrimination and conflict among groups distinguishable by race, religion, nationality, language and culture. The changing status of racial problems in the United States will be covered, with emphasis on the current situations of the American Negro and Indian.

A graduate of the University of Chicago, Rose taught at Bennington college, Vermont, and Washington university, St. Louis, Mo., before coming to the University of Minnesota in 1949. He has received two Fulbright research scholarships for study in France and Italy, and in 1952 he won a \$1,000 prize from the American Association for the Advancement of Science for the best contribution to social theory. He is currently alternate American delegate to the International Sociological association.

Rose has written a number of books on the subject of minority problems.

CAPACITY CROWD  
TO HEAR POET  
SUNDAY AT 'U'

(FOR IMMEDIATE RELEASE)

A capacity audience is expected to hear Archibald MacLeish's discussion of "Poetry and Journalism" Sunday (Oct. 12) in Northrop Memorial auditorium at the University of Minnesota. MacLeish will deliver the eighth Gideon Seymour Memorial lecture at 4 p. m.

More than 5,500 free tickets have been mailed to those who requested them before the October 4 deadline.

The lecture series, which memorializes the late executive editor of the Minneapolis Star and Tribune, is directed by a citizen's advisory committee appointed by University President J. L. Morrill and is financed through funds provided by the newspapers.

MacLeish, former librarian of congress and two-time winner of the Pulitzer prize in poetry, is Boylston professor at Harvard university. His Pulitzer prizes were won in 1932 and 1953. His latest book, widely acclaimed a "best seller", is "J. B."

While serving as librarian of congress from 1939 to 1944, MacLeish also spent one year as director of the U. S. Office of Facts and Figures and another year as assistant director of the Office of War Information. In 1944, he was assistant secretary of state.

Previous Seymour lecturers have been James Reston, Arnold J. Toynbee, T. S. Eliot, Walter Lippmann, James B. Conant, Lester B. Pearson and Harrison Brown.

McCARTHY, THYE  
TO DEBATE FOREIGN  
POLICY AT U OF M

(FOR IMMEDIATE RELEASE)

United States foreign policy will be debated by Minnesota candidates for the U. S. Senate in a special University of Minnesota evening convocation at 8 p. m. Friday (Oct. 10) in Northrop Memorial auditorium. The public is invited to attend, free of charge.

Republican Senator Edward J. Thye and his Democratic-Farmer-Labor opponent, Representative Eugene J. McCarthy, will present their views of the government's policies abroad in 20-minute speeches. This will be followed by eight-minute rebuttal speeches and two-minute rejoinders by each candidate.

Following the debate, Thye and McCarthy will answer questions from the audience.

The University of Minnesota All-University Congress will sponsor the convocation, with the assistance of the University's department of concerts and lectures.

NEBRASKANS TO HEAR  
U OF M LIBRARIAN

(FOR IMMEDIATE RELEASE)

"Scientific Literature in an Age of Science" will be the topic of a talk to be given before the Nebraska Library association by Ralph H. Hopp, University of Minnesota associate director of libraries. The association will hold its annual meeting Thursday, October 16, at the Pathfinder hotel, Fremont, Nebr.

Hopp's talk will be designed to assist, by way of suggested sources and background material, the librarians of small communities as well as the librarians of medium and large public libraries, in the building of their collections and in the meeting of the needs of their reading publics.

A Nebraska native, Hopp received his graduate degrees in library work at the University of Illinois. He served as a research fellow at the Mellon Institute of Industrial Research, Pittsburgh, and acted as divisional librarian in science and technology and as librarian of the college of agriculture of the University of Nebraska libraries before coming to the University of Minnesota in July, 1953.

GUIDING GIFTED  
CHILDREN TOPIC  
OF 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Minneapolis --- The three ways in which schools can accommodate gifted children will be considered at a University of Minnesota conference Monday, Tuesday and Wednesday (October 13-15) at the Center for Continuation Study.

Designed for educators in leadership or research positions relating to talented children, the course on identification, development and utilization of talent will be presented by the Continuation Center, the college of education, the division of special education, the bureau of educational research and the institute of child development and welfare.

Minnesota Governor Orville L. Freeman will open the conference with a keynote address at 9 a. m. Monday (Oct. 13).

Tuesday's session (Oct. 14) will include a discussion of schools' three ways of caring for the gifted child -- enrichment of school curricula, special grouping and acceleration. Speakers will be Arthur J. Lewis, assistant superintendent of the Minneapolis public schools; Florence N. Brumbaugh, principal of Hunter college elementary school, New York City, an elementary school just for gifted children; and Maynard C. Reynolds, University of Minnesota professor of education.

Catherine Cox Miles, consultant and research scientist from New London, Conn., will talk on "Crucial Factors in the Life History of Talent", and Anne Rowe, research scientist from New York university, will present "Crucial Life Experiences in the Development of Scientists". University of Minnesota Professor of Education Robert H. Beck, who has just returned from a month's tour of Russia, will tell how Russian schools treat individual differences.

E. Paul Torrance, director of the University's bureau of educational research, will speak on the conference theme at a noon luncheon Wednesday (Oct. 15) in the junior ballroom of Coffman Memorial Union.

'LUMBERJACKS'  
TO OPEN YOUNG  
PEOPLE'S THEATER

(FOR IMMEDIATE RELEASE)

"Paul Bunyan's Lumberjacks" will start the children's theater season this fall when the University of Minnesota Young People's Theater presents the play Sunday, Oct. 19, at 3:30 p. m. in the Scott hall auditorium on the Minneapolis campus.

The play was written in observance of Minnesota's Centennial observation by Helen and Lowell Manfull, the acting, directing and writing team that has worked on and in so many campus theater productions. More than 8,000 Twin City youngsters saw "Paul Bunyan's Lumberjacks" when it was first presented last spring. Since that production, the Manfulls have revised and rewritten several scenes, according to Merle Loppnow, business manager of the theater, who will direct this production.

With settings by Bill H. Demos, costumes by Robert D. Moulton and lighting by James T. Lineberger, the cast for the play will be: Lowell B. Parsons, Michael Higgins, Charles Droege, John Reighard, Jim Hawkins, Jack Litowsky, Don Challman, Marjorie Rasmussen, Janice Herdey, Bill Blesi and Gary Garlough.

Tickets for "Paul Bunyan's Lumberjacks" are now on sale in Scott hall, Minneapolis campus, the downtown ticket office, Minneapolis, and at the Field-Schlick ticket office in St. Paul.

ROSS NOW HEADS  
WORKER TRAINING  
DEPARTMENT AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- Philip Ross of Chicago has taken over as acting head of the University of Minnesota general extension division workers' education department. Until recently, he was international representative and regional manager of the United Hatters, Cap and Millinery Workers International Union, AFL-CIO.

Ross, 34, temporarily replaces Walter H. Uphoff, who is spending a year in West Germany conducting research on membership participation and workers' education methods and materials used in German unions. Uphoff is studying at the University of Cologne under terms of a Fulbright research grant.

Ross, who also has charge of the union studies laboratory of the University's Industrial Relations Center, is a graduate of the University of California at Los Angeles. He has taken graduate work in economics at the University of Colorado, the New School of Social Research at New York university, American university and St. Louis university.

Before going to work for the hatters' union in 1955, he was field examiner for the National Labor Relations board and executive secretary of the National Enforcement commission of the Wage Stabilization board. He also has taught courses in industrial relations at St. Louis university and labor education classes at Roosevelt university in Chicago.

Ross, his wife and 23-month-old son, David, live at 1359 W. Maynard drive, St. Paul.

The Coffman Memorial Union board of governors of the University of Minnesota will sponsor the annual "V.I.P." -- a fall retreat, Sunday (Oct. 12) at Southview Country club, Southview boulevard and S. Robert st., South St. Paul. Approximately 150 members of the professional staffs of Coffman Union, all committee chairmen and committee members, both University staff members and students, will attend the afternoon and evening programs which will begin at 2 p. m.

Richard L. Erickson, president of the Union board of governors, will give the welcoming address and will introduce board members and the Union board staff. Gordon L. Starr, director of the University's student unions, will speak on "What Makes Us Tick".

Priscilla Orme, board of governors' secretary, will describe the board structure and introduce the program areas of the Union. Members of the standing committees will be introduced by Erickson following Miss Orme's address.

A coffee-break will precede a general discussion period titled "Let's Get Some Ideas", and a talk by Don Finlayson, program director of the Union, on "The Big Picture", an over-all view of the Union and its activities.

Dinner is scheduled at 6 p. m. "No speeches, just fun" is promised for the evening's entertainment by the committee in charge of the retreat.

COUNTY WELFARE  
BOARD OFFICIALS  
TO STUDY AT 'U'

(FOR IMMEDIATE RELEASE)

A three-day course for executive secretaries of county welfare boards will start Thursday (Oct. 16) at the University of Minnesota Center for Continuation Study.

The course will be presented by the University, the Minnesota Association of Executive Secretaries of County Welfare Boards and the Minnesota department of public welfare.

James R. Dumpson, first deputy commissioner of welfare for the City of New York, will discuss the need for a reappraisal of the philosophy of public welfare. He will be joined on Friday's (Oct. 17) program by Joseph E. Baldwin, director of the Milwaukee county department of public welfare, Milwaukee, Wis., who will present management aspects of welfare administration.

Forthcoming legislation affecting county welfare boards will be discussed, and Maynard C. Reynolds, University education professor, will speak on the responsibilities of the public school system and the welfare board in dealing with the exceptional child.

Emil J. Bagley, Crockston, president of the Minnesota Association of Executive Secretaries of County Welfare Boards, will serve on the course faculty, as will the following county welfare board secretaries: Flora M. Cross, Jackson county, Jackson; Philip E. Murray, Koochiching county, International Falls; Dorothy Passer and Ove M. Wangensteen, St. Louis county, Duluth; George Sele, Kittson county, Hallock; and Oscar Skibness, Wright county, Buffalo.

MAC LEISH TO GIVE  
SEYMOUR LECTURE  
AT 'U' SUNDAY

(FOR IMMEDIATE RELEASE)

"Poetry and Journalism", the eighth Gideon Seymour Memorial lecture, will be delivered by Archibald MacLeish at 4 p. m. Sunday (Oct. 12) in Northrop Memorial auditorium at the University of Minnesota.

MacLeish, two-time winner of the Pulitzer prize in poetry and former librarian of Congress, will be introduced by Professor John W. Clark, chairman of the University of Minnesota English department.

More than 5,500 free tickets have been mailed to those who requested them before the October 4 deadline, and a capacity audience is expected to hear the lecture which memorializes Gideon Seymour, the late executive editor of the Minneapolis Star and Tribune.

MacLeish now is Boylston professor at Harvard university. He won his Pulitzer prizes in 1932 and 1953, and his latest book, "J. B.", is a best seller.

While librarian of Congress from 1939 to 1944, MacLeish also spent one year as director of the U. S. Office of Facts and Figures and another year as assistant director of the Office of War Information. He was assistant secretary of state in 1944.

The Seymour lecture series is directed by a citizen's advisory committee appointed by University President J. L. Morrill and is financed through funds provided by the Minneapolis newspapers.

U OF M OBSERVES  
'58 HOMECOMING;  
'SPILLINOIS' - SLOGAN

(FOR RELEASE WEDNESDAY, OCT. 15)

Minneapolis --- "Spillinois" is the slogan of the University of Minnesota's 1958 Homecoming festivities this week on Twin City campuses. Recognition of the state's 100th birthday will be made in the Centennial theme that will be carried out in campus decorations and in the annual Homecoming parade.

At the Coronation Ball, Monday evening (Oct. 13), held for the first time on the St. Paul campus, 1958's Homecoming queen and king were presented to the students and alumni. Two style shows in Coffman Memorial Union main ballroom at 12:30 p.m. Tuesday and Wednesday (Oct. 14 and 15) displayed the latest in feminine fashions for campus wear.

"Barefoot Boy With Cheek, Gopher-alumnus Max Shulman's comedy about campus life at Minnesota, will be presented at 8 p.m. Thursday (Oct. 16) and Friday (Oct. 17) in Northrop Memorial auditorium when a veteran cast of University theater performers present the annual Varsity Show.

"The Past 100 Years of Minnesota's History" will be the theme of Friday's (Oct. 17) Homecoming parade which will leave the Minneapolis campus at 12:20 p.m., reaching downtown Minneapolis at 1 p.m.

"1958-2058" -- the next 100 years in Minnesota -- will be the theme of student house decorations for Homecoming this year. Judging of house decorations will be held at 7:30 p.m. Friday (Oct. 17), immediately before the second showing of the Varsity Show.

The annual bonfire and pepfest, complete with cheerleaders, pompon girls, the University band, and the Homecoming queen and king, will be held on the parking lot at 4th and 17th streets, S.E., at 10:30 p.m., preceding the Pep dance at the Armory gymnasium at 11:30.

Minnesota's Gophers will tangle with Illinois in the Homecoming game at 1:30 p.m. Saturday (Oct. 18), and the alumni will be guests at a coffee hour in the Union following the game.

The traditional gala Homecoming dance at 9 o'clock Saturday evening at the Union will wind up Homecoming Week, 1958.

(FOR RELEASE SUNDAY, OCTOBER 19)

Minnesota historian Grace Lee Niles will address the Friends of the University of Minnesota Library at their annual fall dinner at 6:30 p. m. Tuesday (Oct. 21) in the Campus Club of Coffman Memorial Union. Speaking on "Fluid Highways", she will review the importance of water transportation in the early exploration and settlement of Minnesota.

As a part of the program, a special exhibit entitled "Water Roads to Minnesota" will be on display in the library corridors. It will be exhibited through November 15.

The meeting again will be the occasion for announcement of the publication of two books based on materials in the James Ford Bell collection. "The Obedience of a King of Portugal", published by the University of Minnesota Press, is based on an oration delivered to Pope Innocent VIII in 1485 by the Portuguese ambassador. The translation with editorial comment is by Professor Francis M. Rogers of Harvard University.

David M. Wilson, University of Minnesota history professor, is author of the second publication to be introduced -- "A Royal Request for Trade". This is an historical narrative written about early English commerce with Japan and includes a facsimile of a letter from James I to the Emperor of Japan written in 1612.

Persons who are not members of the Friends of the Library but are interested in attending Tuesday's (Oct. 21) meeting should call the University of Minnesota Library.

'U' HAS INSTITUTE  
FOR RELIGIOUS  
EDUCATORS OCT. 28-29

(FOR IMMEDIATE RELEASE)

The University of Minnesota will present an institute on "The Religious Educator and Values" October 28 and 29 at the Center for Continuation Study on the Minneapolis campus.

Designed for professional and lay teachers of religion, the session is the fourth to be sponsored by the University Continuation Center and the office of the coordinator of students' religious activities.

Highlight of the Tuesday, October 28, program will be a panel discussion on the unique contribution of religious education in the growth of a person. The Rev. Troy Keeling, St. Paul's Episcopal Church, Minneapolis, will serve as panel chairman, and discussants will be the Rev. Waldo Hermes, instructor of religion at St. Thomas Academy, St. Paul; Rabbi Bernard Raskas, Temple of Aaron congregation, St. Paul; and the Rev. Charles R. Sweet, minister of pastoral care, Hennepin Avenue Methodist Church, Minneapolis. Religious and psychological problems will be the subject of a talk by the Rev. Ray R. Kelley, Plymouth Congregational church, St. Paul.

Wednesday, October 29, will be devoted chiefly to small group discussions of religious values in the home, religious values in social life and religious values in the church. The Rev. Alfred Longley, Church of St. Richard, Minneapolis, will open the Wednesday, October 29, program with a review of the previous day's discussions.

'U' ATTENDANCE  
TOTALS 26,568,  
UP 3 PER CENT

(FOR IMMEDIATE RELEASE)

Minneapolis --- Fall quarter attendance at the University of Minnesota totals 26,568, an increase of 743 or 3 per cent over last year's fall quarter total of 25,825 students, True E. Pettengill, University recorder, reported Tuesday (Oct.14)

Included in the current attendance total are 24,267 students on the Twin Cities campuses and 2,301 at the Duluth Branch. A year ago, there were 23,672 on the Minneapolis and St. Paul campuses and 2,153 at Duluth.

This is the seventh successive year that the University has recorded an attendance increase. Since the post-war fall quarter low mark of 18,682 in 1951, attendance has advanced by 7,886 students or 42 per cent, Pettengill noted, adding that this upward trend is expected to continue through the 1960's and beyond.

More new students entered the University this fall than a year ago, 7,774 as compared with 7,399. These included 5,183 beginning freshmen, 2,243 students with advanced standing from other institutions, and 348 new special students. Freshmen attendance is 237 or 5 per cent above last year's total of 4,946. Advanced standing attendance is 124 or 6 per cent over 2,119 last year.

The increase in freshmen was 12 per cent in the college of science, literature, and the arts, 11 per cent in the college of education, 5 per cent in agriculture, forestry and home economics, and 4 per cent in the general college with lesser percentage increases in the other more populous colleges except the institute of technology where the number of freshmen was 10 per cent less than last year. The most popular college for freshmen is the college of science, literature and the arts in which 2,016 freshmen entered, 223 more than a year ago. The new students constitute 29 per cent of the student body -- the same proportion as last year.

Men continue to outnumber women in the University by more than two to one. Of the students on campus this fall, 19,199 are men and 7,369 are women. There are 396 more men this year than last and 347 more women -- the number of women having again increased proportionately more than the number of men.

(MORE)

With respect to total attendance, all of the more populous colleges approximated, or showed increases over last year except the institute of technology in which the number of students declined 296 (7.5 per cent) 3,642 this year compared with 3,938 a year ago, Pettengill reported.

Attendance figures for the various colleges at the close of the second week of the quarter follow:

<u>COLLEGE</u>	<u>TOTAL</u>	
	<u>1957</u>	<u>1958</u>
General College	2227	2241

RELIGION IN LIFE  
WEEK TO BEGIN  
SUNDAY AT U OF M

(FOR RELEASE SATURDAY, OCT. 18)

Minneapolis --- Religion in Life Week, beginning Sunday (Oct. 19) will be widely observed on both the Minneapolis and the St. Paul campuses of the University of Minnesota.

The Rev. Theodore A. Gill, managing editor of The Christian Century and president-elect of the San Francisco Theological Seminary, San Ansalmo, Calif., will open the annual campus religious week observances at 8:30 p.m. Sunday in Northrop Memorial auditorium on the Minneapolis campus. The public is invited to hear him discuss "Religion Facing the Secular World".

A native of Eveleth, Minn., Mr. Gill completed his undergraduate work at the University of Wisconsin, completing work for the doctorate degree in theology at the University of Zurich.

In addition to his editorial work, he has had parish experience in rural Ohio, industrial sections in Pennsylvania and in both the slums and residential sectors of New York City. He has published several books and has taught religion at Lindenwood college, St. Charles, Mo.

Edward D. Berryman, University organist and assistant professor of music, will play an organ concert in Northrop auditorium at 8:15 p.m. preceding Mr. Gill's address. William B. Lockhart, dean of the University law school, will introduce the speaker. The lecture, which will be open to the public, will be sponsored jointly by the Student Council of Religions and the University department of concerts and lectures.

The school of journalism faculty will sponsor a noon luncheon Monday at which Mr. Gill will address the audience on the subject "Answers That Suggest Questions". The luncheon will be held in Room 307, Coffman Memorial Union. The luncheon and lecture are open to the public, and the charge will be \$1.15.

(MORE)

Hugo Thompson, department chairman and professor of philosophy at Macalester college, will be the principal speaker at a 3:15 p. m. faculty coffee hour Monday at the Wesley Foundation on the St. Paul campus.

The University Presbyterian Center, 17th ave. at 4th st., S. E., Minneapolis, will be host at 6:15 p. m. Monday to a Presbyterian faculty dinner at which Mr. Gill will speak.

The St. Paul campus Religion in Life Week theme, "Harmony With God", will be discussed in St. Paul sorority and fraternity houses Monday evening.

Tuesday, a faculty luncheon in the junior ballroom, Coffman Union on the Minneapolis campus, will be sponsored by the University Council of Religious Advisors. Mr. Gill will speak at this luncheon which will be held at 12:15 and is open to the public.

The Rev. J. Maxwell Adams, chaplain of Macalester college, will speak to the St. Paul campus dormitory residents at 7 p. m. Tuesday in Bailey hall. His theme will be "Harmony With God".

A symposium on "How Can Unity of the Christian Church Be Achieved?", sponsored by the Eastern Orthodox Fellowship, to be held at the Episcopal Foundation, 317 17th ave., S.E., at 5 p. m. Tuesday, will conclude Religion in Life Week on the Minneapolis campus. The Rev. George G. Garrelts, director of the Newman Foundation, the Rev. Vladimir Borichevsky, St. Mary's Russian Orthodox Catholic church, Minneapolis, and the Rev. Clifford A. Nelson, pastor of Gloria Dei Augustana Lutheran church, St. Paul, will make up the discussion panel at this supper and meeting.

On the St. Paul campus, the Cantorians, an inter-denominational choral group, will present a concert of sacred music at 8 p. m. Wednesday in Coffey hall. The concert, which will be open to the public, will be directed by John Whittaker.

FORMER PLAYERS  
TO HONOR DOC  
WILLIAMS FRIDAY

(FOR IMMEDIATE RELEASE)

The late Dr. Henry L. Williams, known to millions of football fans as Doc Williams, will be honored by his former players at a memorial reunion Friday (Oct. 17) in the Pick-Nicollet hotel in Minneapolis.

Special guest at the party, to be held on the eve of the Minnesota-Illinois Homecoming football game, will be Dr. Henry L. Williams, Jr., son of the man who coached Minnesota football teams for 21 years. The junior Williams is the University's 1958 alumni Homecoming king.

A 5 p. m. cocktail party will precede the 7 p. m. dinner in the Pick-Nicollet's Lakeland room. Bert Baston, St. Cloud, All-American end in 1917, will be master of ceremonies, and speakers will include George Kelby, homecoming committee chairman, and John McGovern, George Barton, Ed Shave, Sig Harris and Clark Shaughnessy. Twelve former team captains also will pay tribute to their coach.

Doc Williams, who returned to the full-time practice of medicine when he left coaching at Minnesota in 1921, invented the "Minnesota shift", which stressed concentrated attacks at unexpected points. He died June 14, 1931.

Williams Arena, named in his honor, was built in 1927. In 1949, the Henry L. Williams Memorial Scholarship Fund was established for athletes.

Plans for the reunion were coordinated through the Minnesota Alumni association at the University of Minnesota.

SHAPLEY TO OPEN  
SCIENCE LECTURE  
SERIES AT U OF M

(FOR IMMEDIATE RELEASE)

"What We Don't Know About Science" will be the subject of a University of Minnesota lecture series which will start Monday (Oct. 20) in the Minnesota Museum of Natural History auditorium on the Minneapolis campus. The six lectures will be held weekly at 8 p. m. through November 24.

John R. Winckler, University of Minnesota physics professor, is coordinator of the series, which is sponsored by the general extension division.

Harlow Shapley, Paine professor of astronomy at Harvard university, will open the series Monday (Oct. 20) with his lecture, "Groping Among the Galaxies". Former director of the Mt. Wilson Observatory in California and the Harvard College observatory, Shapley has held lectureships all over the United States as well as in England and Belgium and has received awards from European, Mexican and American groups. In his new book, "Of Stars and Men", he discusses the inevitable clashes between some of our beliefs and what we are beginning to learn of the universe.

Future lecturers and their subjects will be C. Gordon Little, consultant to the radio propagation physics division of the National Bureau of Standards, "Exploring the Upper Atmosphere with Radio Waves", October 27; Roger Revelle, director of the Scripps Institution of Oceanography at LaJolla, Calif., "Why Does a Small Planet Have Oceans?", November 3; Arnold Lazarow, professor and head of the University of Minnesota anatomy department, "The Fourth Dimension of Anatomy", November 10; Rupert I. Murrill, University of Minnesota assistant professor of anthropology, "Some Aspects of Race", November 17; and Eugene P. Pfleider, professor and chief of the mineral engineering division of the University of Minnesota school of mines and metallurgy, "Our Vanishing Mineral Resources: A Challenge", November 24.

Registration for the lecture series can be made at the door of the Natural History auditorium in advance of the first lecture or in person or by mail at any general extension division office -- 55 Wabasha st., St. Paul; 690 Northwestern Bank building, Minneapolis; or 57 Nicholson hall on the University campus.

Tickets for the series are priced at \$5 -- \$2.50 for teachers and students. Tickets to individual lectures can be purchased for \$1.50.

FORMER UNESCO  
OFFICER TO SPEAK  
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Walter H. C. Laves, chairman of the Indiana university department of government and former deputy director general of UNESCO, will be the University of Minnesota convocation speaker Thursday (Oct. 23). He will discuss "U. S. Policy and the Crises of Asia and the Middle East" at 11:30 a. m. in Northrop Memorial auditorium.

The program, open free to the public, is sponsored by the University department of concerts and lectures.

As head of Indiana university's government department, Professor Laves has had principal responsibility in developing a cooperative project in public administration with the University of Thammasat in Bangkok. He was chairman of social sciences at the University of Chicago before going to Indiana in 1954.

During World War II he served in the office of Inter-American affairs, the Office of Civilian Defense and the executive office of the President, Bureau of the Budget.

He participated in the formation of the United Nations at San Francisco in 1945 and in 1946 served on United States delegations to the U. N. Assembly in London, to the International Labor organization and to UNESCO, serving as deputy director general of UNESCO for the next four years.

He served with the Economic Cooperation administration and the Mutual Security Agency of the U. S. from 1950 to 1952, and during 1952-54 he traveled to Europe, the Middle East and South and Southeast Asia on several consulting assignments with the U. N.

Laves is co-author of the book, "UNESCO: Purpose, Progress and Prospects", which won a 1958 Indiana Authors Day citation as outstanding in the field of international affairs. A forthcoming book will concern the cultural relations program of the U. S. State Department.

PROBATION, PAROLE  
WORKERS TO MEET  
AT 'U' OCT. 20-22

(FOR IMMEDIATE RELEASE)

Minneapolis --- Proposed legislation on corrections in Minnesota will be studied by state probation and parole workers at a University of Minnesota institute Monday, Tuesday and Wednesday (Oct. 20-22) at the Center for Continuation Study.

Proposals of the interim commission on juvenile delinquency, adult crime and corrections will be outlined, as will proposals of the Prisoners Aid society, the County Probation Officers association and the Minnesota Probation and Parole association.

The interim commission will hold a dinner and evening meeting at the Center Monday (Oct. 20) night. This meeting will be open to the public, according to chairman Dan S. Feidt, Minneapolis, state senator from the 34th district.

Walter F. Rogosheske, Little Falls, fifth district court judge, will open the program with a discussion of the court and correctional process. Other guest faculty members will include Philip Anderson, Crookston, Polk county judge of probate; Walter Eldot, Sunday editor, Duluth News-Tribune; John T. McDonough, Stillwater, Washington county judge of probate and juvenile court; and Lyle Pearson, North Mankato, Nicollet and LeSueur counties' probation officer.

The institute is presented by the University with the cooperation of the Minnesota Probation and Parole association.

TORÉ SEGELCKE,  
NORWEGIAN ACTRESS,  
AT 'U' MONDAY

(FOR IMMEDIATE RELEASE)

Tore Segelcke, Norwegian dramatic actress, will present dramatic scenes in English and Norwegian in a special appearance Monday (Oct. 20) at the University of Minnesota. She will offer her "Theatre Individuel" at 8:30 p. m. in Scott hall auditorium in a program sponsored by the University Theater, the Scandinavian languages department and the department of concerts and lectures.

The program is open to the public, free of charge.

Born in Tonsberg, Norway, Miss Segelcke has been with the National Theatre in Oslo since she was 27 years old. She has received many honors and awards from Norway, Iceland, Finland and Sweden as well as a United States Government Grant Fellowship through the conference board of the Associated Research Council.

In March 1958, she accepted the invitation of the Yale University Dramatic association to present her program at "The International Festival for Theatre and Drama with Prominent Persons in Professional and Educational Theatre".

She represented Norway at the International Drama Festival in Paris in 1956 and the same year was Norway's representative at the Hans Christian Andersen's 150 years anniversary in Copenhagen, Denmark. Her first appearance in the United States was in New York's Town Hall in April, 1956.

The actress is married to Oslo surgeon Anton Raabe.

UNIVERSITY REPORTS  
INCOME, EXPENDITURES  
FOR YEAR 1957-58

(FOR RELEASE THURSDAY, OCT. 23, 1958)

Minneapolis --- University of Minnesota expenditures for the fiscal year ending June 30, 1958, totaled \$78,196,960.26, while the school's income for the year amounted to \$78,192,595.44 plus a balance of \$4,364.82 over from the previous year, according to a summary of financial operations released today (Oct. 23) by William T. Middlebrook, business vice president.

Largest source of University income was the State of Minnesota which provided \$34,278,097.66 or approximately 43.8 per cent of the year's total, the summary disclosed. During the previous fiscal year, the University obtained \$23,124,586.22 or 36.4 per cent of its \$63,563,590.75 income for that year, from the State.

The State's contribution to the University's 1957-58 income consisted of: a Legislative maintenance appropriation of \$21,189,291.73; a Legislative appropriation of \$2,898,776 for special projects administered and carried on by the University for the general benefit of the people of the State; a deficiency appropriation totaling \$1,160,127 to cover the University's share of civil service retirement costs as required by law; an appropriation to the University Hospitals for the care of indigent patients totaling \$2,567,384.93 of which the counties pay \$1,284,090.20; and \$6,462,518 drawn from Legislative appropriations for construction of buildings.

The State maintenance appropriation includes income from the Permanent University fund, \$1,145,771.02; "swamp land fund" interest, \$127,630.86; and 23/100 Mill Tax receipts, \$359,055.57 which was credited in prior years directly to the University; plus \$5,594,817.71, the University's share of the occupational tax on iron ore which was credited in prior years to a permanent trust fund.

(MORE)

Other sources of University income for the fiscal year were reported by Middlebrook as follows: fees and receipts, \$13,137,045.97 including \$6,006,522.55 in student tuition fees; University services and revolving funds, \$12,698,158.03; from trust funds \$14,227,127.38; intercollegiate athletics, \$1,412,790.67 (including \$48,345.68 at the Duluth Branch); and from the federal government for instruction, agricultural research, agricultural extension work and physical plant expansion, \$2,439,375.73.

Largest University expenditure for the year 1957-58 was \$32,110,989.50 paid out for instruction and research. Included in this outlay was the expense of college instruction and research, the Duluth Branch, the agricultural schools and experiment stations, University Hospitals, summer session and agricultural and general extension activities.

Expansion of the University's physical plant resulted in an expenditure of \$11,239,381.40 during the fiscal year, according to Middlebrook. This amount was applied against construction costs, alterations and land purchases as follows:

Minneapolis campus: Land, \$607,637.08; housing and food service, \$2,565,671.63; rehabilitation of buildings, \$884,907.38; new buildings, \$1,772,490.20; permanent improvements, \$37,770.40; planning, \$12,195.35; equipment, \$300,984.56.

St. Paul campus: Land, \$12,475; housing and food service, \$1,446,219.31; rehabilitation of buildings, \$16,817.17; new buildings, \$2,341,543.98.

Duluth campus: Housing and food service, \$57,608.72; new buildings, \$876,565.37; permanent improvements, \$9,864.73.

(MORE)

Other campuses: Crookston -- rehabilitation of buildings, \$43,544.06; new buildings, \$53,042.71; Cloquet -- buildings, \$7,599.93; Rosemount Research Center -- new buildings, \$44,360.89; permanent improvements, \$10,536.30; Grand Rapids -- new buildings, \$457.60; equipment, \$221.34; Excelsior -- new buildings, \$946.26; permanent improvements, \$7,179.48; Duluth Experiment Station -- new buildings, \$750.85; Waseca -- new buildings, \$49,719.02; Morris -- new buildings, \$50,161.98; Itasca -- new buildings, \$183.49; Cedar Creek Natural History Area -- land, \$19,846.51; new buildings, \$4,928.36; general rehabilitation at branch stations, \$3,151.74.

Expenditures for self-supporting University services and revolving funds totaled \$11,386,990.91, according to the report. Included are expenditures for University services and revolving fund operations such as dormitories, dining halls, married student housing, printing, laundry, the University Press, department of concerts and lectures, the University theater, the health service, seed distribution fund, towel and locker funds and private duty nurses' funds.

Trust fund expenditures for the care of the sick, research and teaching, scholarships, fellowships, prizes and other trust purposes used up \$12,983,516.03 of the University's available funds during the year. Of this total, \$8,213,355 was spent on governmental and privately supported research.

The expenses of maintaining and operating the buildings and of making improvements on the St. Paul and Minneapolis campus cost \$4,242,374.47.

General University expenditures during 1957-58 amounted to \$3,777,905.80. This item included the expenses of the library, general bulletins and publications, campus lectures and convocations, operation of the University storehouses, truck service, operation of the inter-campus bus, the University's share of employee's retirement costs, and other services of an all-University character.

Administration of the University for the year cost \$1,897,790.60. Operating expenses of intercollegiate athletics and that part of physical education expenditures paid out of receipts from intercollegiate athletics amounted to \$1,079,626.57 (including \$51,239.03 at the Duluth Branch).

Transfers and adjustments between various funds of the University, separately maintained and accounted for, amounted to a credit of \$521,615.02 during the year, Middlebrook reported. This includes items such as: transfers from current funds for operation and plant to endowment principally for temporary investment, \$168,550.74; decrease in outstanding contracts and obligations for plant expansion, \$1,366,911.11; increase in purchase orders and outstanding obligations for equipment and services, \$353,453.96; and increase in current reserves, \$323,291.39.

At the close of the fiscal year, the University total endowment fund, including endowments for general purposes amounting to \$44,886,343.41, totaled \$60,585,413.57.

University-owned land as of June 30, 1958, consisted of 16,070.99 acres valued at \$8,214,236.29, while the University's 1,062 buildings had an estimated value of \$88,641,753.26. University equipment was valued at \$36,330,071.33 and included \$302,347.85 in livestock and \$9,898,858.02 in books and museum collections.

YOUNG PEOPLE'S  
BOOKS SUBJECT  
OF 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Minneapolis --- "Young People's Books" will be the theme of the University of Minnesota's annual Pre-Book Week program Tuesday, Oct. 28, on the Minneapolis campus.

"New Books for the Kindergarten and Elementary School" will be the subject of an address by Norine Odland, instructor in the University's college of education, at 4:30 p. m. in the Nicholson hall auditorium.

On the junior and senior high school levels, Mary Saul, instructor in language arts at University high school, will speak on "New Books for the Junior High School", and Phyllis Schutt, librarian at University high school, will cover "New Books for the Senior High School". Both addresses will be given at 4:30 p. m. in Murphy hall auditorium.

Virginia Sorensen, Rutherford, N. J., author of a number of books for young readers, will address the dinner meeting at 6:15 p. m. in the main ballroom of Coffman Memorial Union. Mrs. Sorensen's books have dealt directly with problems of young people and the adults with whom they work and play. In keeping with the theme of national Book Week, "Explore With Books", she will speak on the exploring she has done while writing her books.

Minnesota authors who have written for children and young people will be guests at the dinner. Among the authors who will attend are: Sigurd Olson, Ely, author of the Centennial book, "Listening Point"; Darragh Aldrich, Minneapolis; Emma Brock, St. Paul; and Philip D. Jordan, University history professor.

Books reviewed at the afternoon sessions will be displayed in the Union ballroom from 3:30 to 9:30 p. m.

(FOR IMMEDIATE RELEASE)

Otto Greven, production director of the Donaldson Company, Inc., St. Paul, will open an eight-week course in "Profitable Management for the Smaller Manufacturer" at 7 p. m. Tuesday (Oct. 21).

Meeting in Room 20 Fraser hall, the University's law school, the first session will deal with "Results Management for the Small Manufacturer".

Greven, himself a graduate of the University, was regional personnel director for the War Manpower Commission during World War II. Past president of the Twin City Personnel Managers association, he has held many offices in the local chapter of the Society for Advancement of Management and served a term on its national executive committee.

Future lecturers will be F. C. Atwill, vice president, First National Bank of Minneapolis; Stanley W. Willson, financial specialist, Small Business administration, Minneapolis; John E. Drieman, John Drieman and Associates, St. Paul; Andrew A. Kols, general manager, Farshand company, Hopkins; William L. West, president, Torit Manufacturing company, St. Paul; Milton M. Broeker, Broeker and Hendrickson, CPA, St. Paul; Fred L. Moore, Jr., Arthur Andersen and Company, Minneapolis; and E. Paul Torrance, director of the ER University of Minnesota bureau of education research.

The course is sponsored by the University general extension division and the United States Small Business administration.

KUOM TO PRESENT  
ON SPOT REPORTS  
OF RUSSIAN TRIP

(FOR IMMEDIATE RELEASE)

"On the Spot Reports from Russia", a series of 11 15-minute programs taped by E. W. Ziebarth, dean of the University of Minnesota's Summer Session and noted radio commentator, during the recent visit to Russia of an all-man University faculty study group, will be broadcast by radio station KUOM weekday afternoons at 3:30 Monday (Oct. 20) through Nov. 3.

The University faculty study group has just returned from a month's travel in the Soviet Union. The trip, financed by a grant from the Hill Family Foundation of St. Paul, was in the form of a seminar study group in which each member had specific assignments and areas of study. Unit meetings were held to meet with Russian leaders in the fields of communications, heavy industry, government, education and agriculture.

During periodical meetings of members of the group, the University faculty members were interviewed by Dean Ziebarth and the tape recordings made for this program. Funds for the series were supplied by the National Association of Educational Broadcasters. The complete schedule of broadcasts is as follows:

- Oct. 20---"Russian Economic Reorganization and Its Political Ramifications", John E. Turner, associate professor, political science.
- Oct. 21---"The Russian Agricultural Economy", Philip M. Raup, professor, agricultural economics.
- Oct. 22---"Radio Moscow - North American Service", William S. Howell, chairman and professor, speech department.
- Oct. 23---"The Language Barrier" and "The Position of Religion in the Soviet Union", Thomas F. Magner, chairman and associate professor, Slavic languages department.
- Oct. 24---"Education", J. William Buchta, associate dean, college of science, literature and the arts.
- Oct. 27---"The Soviet System of Education", Robert H. Beck, professor of education.
- Oct. 28---"Consumer Goods in Russia", Robert J. Holloway, chairman and professor of the department of business administration.
- Oct. 29---"Utilization of Natural Resources", John R. Borchert, chairman and professor, geography department.
- Oct. 30---"The Soviet Economy", Francis M. Boddy, economics professor.
- Oct. 31---"Questions Russians Ask Americans", Robert T. Holt, assistant professor, political science.
- Nov. 3--- "General Overall Impressions", Dean Buchta and Professor Howell.

'U' JOURNALISM  
AWARD GOES TO  
2 ILLINOIS NEWSMEN

(FOR RELEASE MONDAY, OCTOBER 20)

Two Illinois newspaper executives today (Monday, Oct. 20) will receive the University of Minnesota's annual Award for Distinguished Service in Journalism at the annual meeting of the Inland Daily Press association in Chicago.

Professor Robert L. Jones, director of the University school of journalism, will present medals and certificates to Edward E. Lindsay, editor and vice president, and Frederick W. Schaub, executive vice president, Lindsay-Schaub newspapers, Decatur.

The winners were selected by the University journalism school faculty from nominations of Inland members. Distinguished careers rather than single achievements of a spectacular nature are the basis for selection of award winners, Jones indicated.

Long active in professional journalism affairs, Lindsay is completing his 35th year in 1958. He has held the office of vice president of the Associated Press; has been a board member of the AP Managing Editors' association, a director of the American Society of Newspaper Editors and a vice president of Sigma Delta Chi for undergraduate chapters; and is a member of the advisory board of the American Press Institute. He has been chairman of the American Council on Education for Journalism since 1952 and as such has presided over the joint efforts of industry and educator representatives to evaluate and to improve education for journalism and advertising.

A prominent Inland member for more than 30 years, Schaub has served the association in many capacities. He was president in 1941 and has been continuously interested in development of the Inland cost and revenue study since 1931, serving six years as chairman of the committee. This work has made an outstanding contribution to production analysis and industry stability. Also active in the American Newspaper Publishers association and the American Press Institute, Schaub has served both organizations for many years. He is a charter member and former director of the Institute of Newspaper Operations and is currently a director of the ANPA Research Institute. This institute also deals with newspaper production studies.

Previous winners of the University of Minnesota Award for Distinguished Service in Journalism include Mr. and Mrs. Harry E. Rasmussen, editor-publisher and business manager, Austin Herald, and John Cowles, president and editor of the Minneapolis Star and Tribune and board chairman of the Des Moines Register and Tribune.

COLLEGES' ART  
FACULTY SHOW  
AT 'U' GALLERY

(FOR RELEASE SUNDAY, OCT. 26)

In keeping with the state of Minnesota's 100th birthday celebration, the University of Minnesota Gallery's Centennial show in Northrop Memorial auditorium Nov. 3 through Dec. 19, will feature the work of Minnesota artists. Title of the exhibit is "Minnesota Colleges' Art Faculty Show".

Current work of 30 staff-artists representing 12 degree-granting Minnesota institutions and illustrating something of the variety and breadth of artistic stimulus accessible to students of art in the state, will be arranged in groups representing the different colleges and schools.

Making up the show is the work of art department staff members from the following colleges and institutions: University of Minnesota Duluth Branch, St. Olaf college, Mankato State college, Concordia college, St. Mary's college, St. Cloud State college, College of St. Catherine, Minneapolis School of Art, College of St. Benedict, Winona State college, Macalester college and Carleton college.

Placed with each school's art department exhibit in the University Gallery's Centennial show which will be hung in the fourth floor gallery and in the third floor central hall will be information on the background of the individual art departments -- the time of founding of the department, degrees offered and members of the staff. The exhibit will be open to the public during school hours and times of concerts in Northrop auditorium.

JUDGE LOEVINGER  
MEMORIAL LOAN  
FUND SET AT 'U'

(FOR IMMEDIATE RELEASE)

Establishment of the Gustavus Loevinger Memorial Loan fund to assist worthy students in the University of Minnesota law school was announced this week by Robert P. Provost, director of the Greater University fund.

Donations are now being solicited for the Loevinger fund which already has more than \$2,000 available for loans to University law students for the 1958-59 school year. Decisions on applications for loans will be made by the law school loan committee.

A 1906 graduate of the University law school, Judge Loevinger took an active part in civic and public affairs of the St. Paul community. A scholar in his field and an active leader in the promotion of justice, he was a member of the Minnesota Bar association committee which developed into the Minnesota Youth Conservation commission. In his studies of the jury system, Judge Loevinger used a questionnaire for jury members in an effort to improve the jury system.

Members of the Loevinger Memorial fund committee are: B. H. Ridder, J. K. Donahue, C. W. Gardner, W. Eugene King, W. W. Marvin, G. W. Lawson and M. W. Stoffer -- all of St. Paul.

HENNEPIN COUNTY  
SCHOOLS FORM  
STUDY COUNCIL

(FOR IMMEDIATE RELEASE)

The organization in Hennepin county of Minnesota's first area school study council was announced Wednesday (Oct. 22) by William Nilsen of Excelsior, superintendent of Minnetonka schools, who has been elected president of the group.

Sponsored and supported by the Hennepin county area division of the Minnesota Association of School Administrators in cooperation with the University of Minnesota's college of education, the new council was formed primarily to apply systematic research to common educational problems of the participating public school systems. Central offices will be maintained in the bureau of field studies and surveys in the college of education.

"These schools recognize that some problems must be faced on a local level," Nilsen said Wednesday, "but that there are many significant problems which can be studied more effectively on an area or regional basis. Our organization is considered to be a pilot project. Experiences gained during the first year of operation should help in formulating more specific plans for continuation of the program."

Six major purposes to which the council will devote its attention were outlined by Nilsen as follows:

1. Study of specific problems in the area's schools.
2. Development of research in fundamental problems of education.
3. Acceleration of adoption of new and better educational practices by schools.
4. Sharing of new ideas, methods and practices between the University and council member schools.
5. Encouragement of experimentation and the improvement of teaching methods by the classroom teacher.

(MORE)

6. Provision of a permanent agency through which the college of education and the public schools can work continuously on a closer basis making possible a realistic laboratory in which college personnel and graduate students can study concrete problems of school operation and the teaching-learning function.

Officials of the council have decided, according to Nilsen, that the most pressing problem which should be studied is that of staffing the schools to meet the bulging enrollments of the future.

The council will be governed by the member school systems through an elected board of directors, Nilsen reported. The directors and officers for the council's first year are, in addition to President Nilsen: Milton Kuhlman, superintendent of the Edina schools, vice president; Hubert Olson, Bloomington school superintendent, secretary; Harry Rumpel, Richfield superintendent, treasurer; and Willard Lane, University associate professor of education, executive secretary.

Other members of the board of directors are: Rufus Putnam, Minneapolis superintendent; Carl Bye, Watertown superintendent; and Harold Enestvedt, St. Louis Park superintendent.

Each of the school systems in the Hennepin county area division of the Minnesota Association of School Superintendents will be invited to join the council, Nilsen stated. Dues collected will be used to provide consultative assistance and research personnel for the council.

School systems in the Hennepin county area which have indicated an interest in becoming members of the council are: Mound, Minnetonka, Minneapolis, Richfield, Bloomington, Orono, St. Louis Park, Edina, Robbinsdale, Watertown, Chaska, Hopkins, Wayzata, Eden Prairie, Waconia and University high school.

Dean W. W. Cook of the college of education reported Wednesday that college staff members and Hennepin county area school administrators have been conferring during the last year on the formation of the council. It was decided, he said, that school systems located in the same geographic area would have more problems in common than school systems considered on a statewide basis.

The dean expressed the hope that if the Hennepin county council proves successful, other area study councils will be formed in other parts of the state with the cooperation of the college of education.

KUOM PRESENTS  
SATURDAY SHOW  
FOR YOUNGSTERS

(FOR IMMEDIATE RELEASE)

"Magic Circles" -- guaranteed to have absolutely nothing to do with hula-hoops -- is a show done by and for children of all ages by the University of Minnesota's radio station KUOM.

The show, broadcast from 10:30 to 11:30 every Saturday morning during the school year, might just as well be called the "Gerry Burtle Show", according to KUOM's staff, for Gerry, a sophomore at the University, majors in theater, writes the skits, directs the production, chooses the talent, and even brings the "goodies" for after the show.

Besides directing the dramatized original stories, Gerry plays children's records, reads a chapter from a well-known children's story -- right now it's "The Wizard of Oz", -- and joins the rest of the cast when they try to guess the weekly riddle provided by Dick Skinner. Dick, a St. Paul 13-year-old, plays a boy about his own age, and frequently is joined by Marcia Olbin, 11, also from St. Paul, who appears as Dick's sister or friend.

PROGRAMS SET  
FOR 'U' MUSIC  
SHOWS ON CH. 2

(FOR IMMEDIATE RELEASE)

Programming for "A Home With Music", the University of Minnesota music department's 9 o'clock Monday morning TV show on station KTCA-TV, Channel 2, has been completed according to Norman E. Abelson, host for the program. According to Abelson, assistant professor of music at the University, all of the artists who will appear on the programs are University music faculty members and students.

The schedule for the programs through December follows:

- Oct. 27---Brahms - "Sonata for Violin and Piano", William Fitzsimmons  
and Paul Freed.
- Nov. 3 --- Mozart - Selections, Bernhard Weiser, pianist.
- Nov. 10--- Mozart - Selections, Bernhard Weiser.
- Nov. 17--- Mozart - Arias from "Marriage of Figaro", University students.
- Nov. 24--- Mozart - Operatic Duets, Trios, Quartets; Paul Knowles,  
Norman Abelson, Joyce Zastrow and others.
- Dec. 1 --- Mozart - String Ensemble; William Fitzsimmons and others.
- Dec. 8 --- Bach - Arias, Roy Schuessler, George Houle and others.
- Dec. 15--- Bach - Suites, Paul Freed, pianist.
- Dec. 22--- Bach - Arias from Christmas Oratorio; Paul Knowles,  
Paul Oberg, Norman Abelson.

RADIO PROBING  
OF SPACE 'U'  
LECTURE TOPIC

(FOR IMMEDIATE RELEASE)

"Exploring the Upper Atmosphere With Radio Waves" will be the subject of a lecture by C. Gordon Little at the Minnesota Museum of Natural History auditorium on the University of Minnesota campus at 8 p. m. Monday (Oct. 27).

The lecture will be the second in a series on "What We Don't Know About Science" held weekly through Nov. 24. John R. Winckler, University of Minnesota physics professor, is coordinator of the series which is sponsored by the general extension division.

Little, consultant to the radio propagation physics division of the National Bureau of Standards, is former director of the Geophysical Institute of the University of Alaska in charge of the research programs in ionospheric physics and arctic radio wave propagation. A fellow of the Royal Astronomical society, Little also has been consultant to the U. S. International Geophysical Year committees on the ionosphere, aurora and airglow and earth satellites.

Roger Revelle, director of the Scripps Institution of Oceanography, La Jolla, Calif., will speak on "Why Does a Small Planet Have Oceans?" in the third lecture in this series Monday, Nov. 3. Tickets for the individual lectures may be purchased at the museum for \$1.50.

SOVIET EMBASSY  
CULTURAL ATTACHE  
TO SPEAK AT 'U'

(FOR IMMEDIATE RELEASE)

Victor F. Isakov, cultural attache of the Embassy of the Union of Soviet Socialist Republics, Washington, D. C., will speak on "Education in Russia" at a University of Minnesota convocation Thursday, Oct. 30, at 11:30 a. m. in Northrop Memorial auditorium.

Originally scheduled for this convocation talk, the Pakistani Ambassador, His Excellency Mohammad Ali, has notified the University that he would be unable to fill the engagement, according to James S. Lombard, director of the department of concerts and lectures.

E. W. Ziebarth, University Summer Session dean, who has just returned from a study-tour of the Soviet Union, will preside at the convocation and will introduce the Russian attache. Dean Ziebarth also will conduct a 30-minute question-and-answer session with Mr. Isakov immediately following the convocation address. This will be the first time in 15 years -- since the lecture delivered by John Gunther in 1943 -- that a post-convocation question-and-answer period has been scheduled, according to Lombard.

Following a luncheon at Coffman Memorial Union where he will meet with faculty and student leaders, the Soviet attache will speak at the SLA (college of science, literature and the arts) Week recognition and awards ceremonies in the Minnesota Museum of Natural History auditorium at 2:30 p.m. An additional question-and-answer period will follow, with questions restricted to subjects discussed in his morning's convocation address.

"Russia Re-Visited" will be the topic of an address by John Scott, special assistant to the publisher of Time magazine, at 3:30 p.m. immediately following the conclusion of the Soviet attache's forum in the museum auditorium.

Scott, who appeared here a year ago, has just returned from another of his annual global assignments for Time. This year his trip took him to Africa and the Soviet Union.

An expert on Russia with firsthand experience in global reporting, Scott filed his first dispatches for Time from Japan in 1941. A year later, he became a contributing editor of Time in New York City. In 1943 he was in Washington, D. C., covering the State Department; later that year he was sent to London, then on to Stockholm to head the Time-Life bureau there until 1945. At the end of World War II, he reopened Time's Central European bureau in the wreckage of Berlin, returning three years later to the New York office.

'U' BAND TO MAKE  
TRIP TO MICHIGAN

(FOR IMMEDIATE RELEASE)

The University of Minnesota's football marching band of 150 men will attend the Minnesota-Michigan football game in Ann Arbor Saturday to entertain the fans and inspire the Golden Gophers to recover the Little Brown Jug.

The bandsmen will fly to Michigan Saturday morning in two chartered Northwest Airlines planes. Departure time from Wold Chamberlain field is 8 a. m., and the planes are expected to land at Willow Run airport at 11 a. m., Eastern Standard Time. Buses will take the musicians to the Michigan stadium at Ann Arbor.

Following the game, the Minnesotans will be guests of the Michigan bandsmen prior to their departure at 7 p. m. (EST) from Willow Run airport.

'LIBERAL ARTS,  
SPUTNIK' - 'U' SLA  
WEEK THEME

(FOR IMMEDIATE RELEASE)

"Sputnik and the Liberal Arts" will be the theme of the annual University of Minnesota SLA Week honoring the college of science, literature and the arts, to be held on the Minneapolis campus Monday, Oct. 27 through Friday, Oct. 31.

Highlight of the week's activities will be the Thursday convocation address by Victor F. Isakov, cultural attache of the Embassy of the Union of Soviet Socialist Republics in Washington, D. C. Mr. Isakov will speak on the topic "Education in Russia" at 11:30 a. m. in Northrop Memorial auditorium. E. W. Ziebarth, dean of Summer Sessions, will introduce Mr. Isakov and preside over the half-hour question-and-answer period following the convocation address.

Monday's activities in SLA week will include balloting in the "Dean for a Day" contest in which all the University organizations cast their votes for a "student-dean" who will take over the office of SLA college Dean E. W. McDiarmid Friday; tag sales, proceeds to go to the SLA board and the freshman council; the deadline for entries in the SLA Week essay contest, and preliminaries for the Minnesota Quiz Bowl program, to be held from 3:30 to 5:30 p. m. in Coffman Memorial Union. Two tickets for the University's Artists Course concerts will be given as prizes in the essay contest based on the week's theme, "Sputnik and the Liberal Arts".

Outstanding high school seniors from throughout the state will be SLA board guests Tuesday when they will spend the day on the University campus. Upperclassmen will take their guests on their rounds of campus life, introducing them to class and social life at the University.

A forum at 12:30 p. m. at Coffman union will follow a luncheon for the high school students. Faculty participants in the forum, discussing the week's theme will be history Professor John B. Wolf; William B. Lockhart, law school dean; Philip Siegelman, instructor in interdisciplinary studies; and Rufus W. Lumry, chemistry professor.

(MORE)

The time-honored laugh-provoker, the annual student-faculty football game again will be held on Wednesday of SLA Week. This year's contest will take place on the mall in front of Coffman Union at 12:30 p. m. The distaff side of the faculty will be represented this year for the first time when feminine faculty cheer leaders will direct the crowd's support of their favorites. Quiz Bowl semi-finals will be held from 3:30 to 4:30 p. m. in the Union.

Following the 11:30 a. m. convocation address by Mr. Isakov at Northrop auditorium on Thursday, SLA Week Recognition coffee hour will be held at 2:30 p.m. in the Minnesota Museum of Natural History auditorium. Mr. Isakov will speak at this meeting which will honor outstanding students and faculty in the college of science, literature and the arts. A question-and-answer session, directed by Dean Ziebarth, will follow the attache's address, with questions based exclusively upon Mr. Isakov's convocation speech. All University faculty and students are invited to attend this meeting at the museum.

Finals of the Minnesota Quiz Bowl contest will be held on television Thursday when station KTCA-TV, Channel 2, will air the program at 9 p. m.

Oscar Wilde's play, "The Importance of Being Earnest", produced by the University Theater, will be co-sponsored by the SLA Week board for the evening performances at 8 p.m. in Scott hall auditorium on Thursday and Friday.

Winner of the Dean for a Day contest will preside in Dean McDiarmid's Johnston hall office on Friday, and the Dean will lunch with the student organization that sponsored the winner.

University faculty members will visit residence groups throughout the week in a series of "get-acquainted" meetings and displays illustrating and explaining the work done in the different departments in the college of science, literature and the arts will be featured in the campus buildings during this week.

PARKING METERS  
TO BE INSTALLED  
ON U OF M CAMPUS

(FOR IMMEDIATE RELEASE)

Plans for the installation of 51 parking meters at four locations on the University of Minnesota's Minneapolis campus were announced Friday (Oct. 24) by C. B. Hanscom, director of the University's department of protection and safety.

The meters, which will be installed in about three weeks, will be placed as follows: 14 on the driveway in front of the main entrance to University Hospitals; four on the driveway north of the Administration building; 10 on the East River road behind the State Board of Health building; and 23 on the East River road at the northeast corner of the Mines Experiment building.

Charges on the Hospitals and Administration building meters will be five cents for 15 minutes with a time limit of one hour, Hanscom indicated. The River road meters will have an eight-hour time limit, and the charges will be 10 cents an hour for the first four hours and 10 cents for the next four-hour period -- a total charge of 50 cents for eight hours.

The Hospital and Administration building metered parking spaces will replace no-parking zones and are being set up primarily to provide more short-time parking for visitors, according to Hanscom. The River road meters will control space which presently is available for free parking.

RUTH E. GROUT,  
HEALTH EDUCATOR  
AT 'U', HONORED

(FOR RELEASE 9 A.M. TUES., OCT. 28)

Ruth E. Grout, professor of health education in the University of Minnesota school of public health, has been awarded the Cleveland Health museum's Elisabeth S. Prentiss national award in health education for 1958. The award, "to Ruth E. Grout, M.P.H., Ph.D., Friendly Master-Teacher" was presented at the health museum's national advisory council meeting in St. Louis, Mo., today (Oct. 28).

Born in Princeton, Mass., and educated at Mount Holyoke college and Yale university, Miss Grout has been a member of the University of Minnesota faculty in the school of public health and the college of education since 1943. As consultant in health education in the regional office for Europe of the World Health Organization, she did consultant work on conferences and programs in Geneva, Switzerland, and in Copenhagen, Denmark, in 1952-53 and 1956-57.

Miss Grout is the author of several books on health education, including "Health Teaching in Schools" which is now in its third edition.

At the University, Miss Grout is responsible for the program of training public health educators who come to the University from state and municipal centers throughout the Midwest. The University of Minnesota has one of only six such training centers in the United States.

(FOR RELEASE SUNDAY, NOV. 2)

"Human nature being what it is, possession is nine points of the thrill of experiencing a work of art," according to the noted American collector and critic, Albert Reese, and it is with this thought in mind that the University of Minnesota Gallery is offering the show "Original Graphic Art for Young Collectors".

Opening Nov. 4 in the third floor corridors of Northrop Memorial auditorium, the show will run through Nov. 30. The exhibition of approximately 85 prints gathered from the studios of many modern French and Italian masters includes prints by Bonnard, Cezanne, Degas, Dufy, Fiorini, Leger, Laurencin, Maillol, Matisse, Music, Picasso, Redon, Renoir, Roualt, Toulouse-Lautrec, Utrillo, Vlaminck, Villon and Vuillard -- artists who represent a bridge between the traditional and the modern in the world of art.

"Possession" comes into the picture in this gallery show, as these original prints not only are for sale, but also are priced "within pocketbook range of young collectors" according to Ferdinand Roten, Baltimore, arranger of the exhibition. Gallery officials expect the prices to range from \$5 to \$25.

BERRY CAMPBELL,  
U OF M ANATOMIST,  
TAKES L. A. POST

(FOR IMMEDIATE RELEASE)

Dr. Berry Campbell, University of Minnesota anatomy professor for the last 15 years, has been appointed research professor of neurology at the College of the Medical Evangelists in Los Angeles. Professor Campbell's new position, which he will assume Jan. 1, 1959, will involve research and graduate teaching at the Los Angeles County hospital in which the College of Medical Evangelists maintains its teaching facilities. His work currently is being subsidized by the United States Public Health service.

"Protective" or "immune" milk, developed by Campbell and William E. Petersen, University professor of animal husbandry, is one of the principal research projects Campbell has worked on while at the University. Among others are poliomyelitis, antibiotic secretions in the brain and multiple sclerosis.

A native of St. Paul, Professor Campbell received his education in California and completed his doctor of philosophy degree at Johns Hopkins university, Baltimore. Assistant professor of anatomy at the University of Oklahoma medical school from 1937 to 1942, he also held a Guggenheim fellowship in the department of physiology, Rockefeller Institute for Medical Research, New York, from 1940 to 1942.

A research fellow in neurology at Columbia university in 1942-43, Campbell became an assistant professor of anatomy at the University of Minnesota in 1943, an associate professor in 1945, and was made professor in 1958. He was named an honorary research associate in the University college, London, in 1953-54.

Both Professor Campbell and his wife, Irene Wilson Campbell, grew up in the Los Angeles suburb, Monrovia. The Campbells will be returning to their former home in Monrovia when they leave their Prospect Park residence at 153 Orlin ave., S. E., Minneapolis. Three of the four Campbell children have graduated from University high school, and the fourth child, Cathryn, attends Pratt school in Minneapolis.

Members of the Prospect Park Co-op, the Campbells have been active in neighborhood affairs and in faculty music groups.

NEW ARBORETUM  
LECTURE TOPIC  
AT 'U' MUSEUM

(FOR IMMEDIATE RELEASE)

Leon C. Snyder, University of Minnesota horticulture chief and director of the University's new arboretum near Excelsior will present the first in a series of free Sunday programs at the Minnesota Museum of Natural History at 3 p. m. Sunday (Nov. 2).

A sound and color film, "Fruits for the North", telling the story of the University's fruit breeding farm at Excelsior and the fruit industry of Minnesota will precede Professor Snyder's talk, "The New Arboretum Aids the Northern Gardeners". In this illustrated lecture, Snyder will describe the University's newly acquired "research tool" southwest of Excelsior and explain how it can accomplish the same results for the ornamental horticulturist as the fruit breeding farms have for the fruit growers.

"Recent Discoveries in Space Research" will be the topic of the second free public lecture in the museum's Sunday series. Thomas F. Irvine, Jr., associate professor of mechanical engineering at the University, will speak on this topic Nov. 9.

OCEAN EXPERT  
TO TALK AT 'U'  
MONDAY NIGHT

(FOR IMMEDIATE RELEASE)

"Why Does a Small Planet Have Oceans?" -- that is the question Roger Revelle, director of the Scripps Institution of Oceanography, LaJolla, Calif., will answer in a lecture at the University of Minnesota Monday evening (Nov. 3).

Revelle's talk at 8 p. m. in the Minnesota Museum of Natural History auditorium will be the third in a series of lectures on "Man and His Scientific Quest" being presented this fall by the University's general extension division.

A commander in the United States Navy serving with the naval electronics laboratory and the bureau of ships during World War II, Revelle was in charge of oceanographic measurements during the Bikini nuclear explosion tests in 1946. A call from the Scripps Institution for a geologist to analyze ocean bottom cores had started his interest in oceanography while he was a student at the University of California.

Presently, Revelle is a member of the National Academy of Sciences panel on biological effects of atomic radiation, the International Geophysical Year and the UNESCO committee on marine sciences. He explains that his studies of physical oceanography and the geology of the sea floor is impelled by the tremendous lag in knowledge of his field as compared with the land sciences.

Dr. Arnold Lazarow, head of the University's anatomy department, will present the fourth lecture in the series in the museum auditorium the evening of Monday, Nov. 10. His topic will be "The Fourth Dimension of Anatomy".

These talks are open to the public. Tickets for individual lectures may be purchased at the museum door for \$1.50.

SIR JOHN GIELGUD,  
ENGLISH ACTOR,  
AT 'U' NOV. 10

(FOR IMMEDIATE RELEASE)

Sir John Gielgud, noted English Shakespearean actor, will appear in a special convocation at the University of Minnesota at 8:30 p. m. Monday, Nov. 10, in Northrop Memorial auditorium.

The program -- Sir John Geilgud in "Shakespeare's Ages of Man" -- a solo performance, is sponsored jointly by the University department of concerts and lectures, the drama advisory service and the University Theater. There will be no admission charge for this special convocation which is open to the public.

The first American appearance of Sir John since his 1950 New York production of "The Lady's Not for Burning", "Ages of Man" shows him in his first solo performance in this country. He has given this Shakespearean recital at the festivals of Amsterdam, Edinburgh and Berlin. Of the Edinburgh festival, the London Spectator commented, "Of the festivals, by far the most successful and imaginative was the Shakespeare recital given by Sir John Gielgud. It was an astonishing and highly characteristic performance -- quiet, cerebral, beautifully spoken, a little understated, leaving the unmistakable impression that here was the most intelligent actor on the English stage."

Sir John also has appeared in this country in "Hamlet", "The Importance of Being Earnest", "Love for Love" and "Crime and Punishment", and directed a new adaptation of "Medea" with Judith Anderson and Florence Reed. In addition to his work on Broadway, he has appeared in several films including "Julius Caesar".

Now a director-actor, Sir John has been a member of the famous Old Vic company in London since 1929. Playing principally Shakespearean parts -- Hamlet, Macbeth, Mark Anthony and King Lear -- he directed and played in Hamlet and Romeo and Juliet in London, establishing world record runs in both plays.

IN DENTAL MEET

(FOR IMMEDIATE RELEASE)

Eight staff members of the University of Minnesota school of dentistry will participate in sessions of the annual convention of the American Dental association and related organizations in Dallas, Texas, next week beginning Sunday (Nov. 9).

Dr. Eugene E. Petersen, associate professor of radiology, will attend a special convention conference on radiation effects of dental X-rays. Plans will be made at the conference for a nationwide survey of radiation effects in dentistry. Financed by the United States Public Health service, the survey will be made by 10 dental schools including the Minnesota school.

Dr. Erwin M. Schaffer, clinical professor of periodontics, will serve as chairman of the convention's session on periodontics.

Dr. Norman O. Holte, clinical assistant professor of oral surgery and pharmacology, will present a paper on drugs concerned with the dilation and constriction of blood vessels.

Dr. William A. Jordan, chief of the dental health section in the state board of health and lecturer in the dental school, will serve as a member of a convention panel on the fluordation of public water supplies.

Dr. Wallace D. Armstrong, head of the University's physiological chemistry department, will receive an honorary fellowship in the American College of Dentists Sunday.

Dr. Robert W. Wiethoff, clinical associate professor of operative dentistry, will be installed as a fellow in the American College of Dentists in special convention ceremonies. He will be sponsored for admission to the college by Dr. Harold C. Wittich, professor of pedodontics and president of the Minnesota section of the college.

Dr. Marion W. McCrea, associate dean of the dental school, will attend a meeting of the executive committee of the American Association of Dental Schools and the annual meeting of the American Association of Dental Examiners. He also will be installed as editor of the Journal of Dental Education, publication of the American Association of Dental Schools.

FRIENDS TO HONOR  
AMBERG FRIDAY

(FOR IMMEDIATE RELEASE)

In recognition of his "outstanding achievements in the fields of hospital administration, public health and in improving licensing laws", Ray M. Amberg, director of the University of Minnesota Hospitals and president this year of the American Hospital association, will be honored at a dinner at 7 p. m. Friday (Nov. 7) at the Lowry hotel, St. Paul. The dinner, open to all his friends, will be preceded by a social hour at the Lowry at 6 p. m.

A citation, to be signed by the guests, will be presented to Amberg following the dinner. Inscribed on the scroll will be: "In friendly appreciation of all the things that have been done for thirty-five years by Ray M. Amberg -- in recognition of his outstanding achievements in the fields of hospital administration, public health and improved licensing laws, not only in his highly-respected position as director of the University of Minnesota Hospitals, but as an honored and esteemed state and national leader in his profession -- presented by his many friends upon the occasion of his 1958-59 presidency of the American Hospital association."

Members of the Minnesota Hospital association will be hosts at the dinner which also will be their annual meeting.

PUBLIC INVITED  
TO HEAR GIELGUD  
AT 'U' MONDAY

(FOR IMMEDIATE RELEASE)

Sir John Gielgud, noted Shakespearean actor, will appear in "Shakespeare's Ages of Man" -- a solo performance, at a special evening convocation at 8:30 p. m. Monday ( Nov. 10) at the University of Minnesota's Northrop Memorial auditorium. The public is invited to attend this free performance which is sponsored by the University Theater, the drama advisory service and the department of concerts and lectures.

In Gielgud's first American performance since his New York appearance in "The Lady's Not for Burning" in 1950, Sir John portrays "Youth" in scenes depicting childhood, nature, sport, love, jealousy and lust; "Manhood" calls for scenes of war, strife, kingship, government and society, passion and character; "Old Age" brings death, sickness, man against himself, old age and time.

In this, his first tour of the United States, Sir John is presenting, as his program, one that has been featured at the Edinburgh festival, in Milan, Italy, Amsterdam, Holland and in Berlin.

SPACE RESEARCH  
SUNDAY MUSEUM  
LECTURE SUBJECT

(FOR IMMEDIATE RELEASE)

"Recent discoveries in Space Research" will be the topic of a lecture at 3 p. m. Sunday (Nov. 9) in the auditorium of the Minnesota Museum of Natural History. Thomas F. Irvine, University associate professor of mechanical engineering, will present the free public lecture which will be the second in the museum's weekly Sunday series.

Some of the things that we have discovered from satellite and rocket measurements about the upper atmosphere during this International Geophysical Year and some of the things that we still would like to know will be discussed by Professor Irvine. Why we need moon-satellites, and what we can learn from them will be explained.

"Secrets of the Ocean Reefs", a color sound film on the fantastic and colorful marine life of the shallow seas, will be the Sunday, Nov. 16, presentation of the museum.

325 ATTENDING  
'U' RADIOLOGY  
SHORT COURSE

(FOR IMMEDIATE RELEASE)

More than 325 doctors and radiologists from all over the United States are attending the short course in pediatric radiology at the University of Minnesota's Mayo Memorial auditorium this week.

As a feature of the course, the annual Leo G. Rigler lecture, "Status and Possibilities of Cancer Chemotherapy", will be presented at 8:30 p. m. Thursday (Nov. 6) by Sidney Farber, director of research in the Children's Cancer Research foundation, Boston, and professor of pathology in the Harvard medical school.

The Rigler lecture is given in honor of the former head of the University of Minnesota's department of radiology who now is consultant in radiology at the Cedars of Lebanon hospital, Los Angeles, and visiting professor at the University of California at Los Angeles.

The course in radiology, sponsored by the University's Center for Continuation Study, will be concluded Friday evening with the annual fall dinner meeting of the Minnesota Radiological society at 6 p. m. at the Radisson hotel. C. John Hodson, of the X-ray diagnosis department, University College hospital, London, will deliver an address on the topic, "Thickened Bronchial Walls in Children" at this joint meeting.

DENTAL AIDES'  
COURSE SLATED  
NEXT WEEK AT 'U'

(FOR IMMEDIATE RELEASE)

Part III of a three-part course which qualify students to meet requirements for qualification as certified dental assistants will be given at the University of Minnesota's Center for Continuation Study.

Dental assistants of Minnesota and nearby states may next week (Nov. 10-14), by taking the full three-section course set up by the University and the educational committee of the American Dental Assistants' association, fulfill the requirements for becoming certified dental assistants. The course is being presented in cooperation with the Minnesota Dental Assistants and Hygienists association.

Next week's sessions will complete the series of these courses at the center for 1958. A new series for 1959 will commence with Part I being offered January 19-24. Part II for 1959 will be held June 8-12.

Dr. A. T. Thorson of St. Paul will act as coordinator of the courses and will be assisted by University staff members.

FILM ON USSR  
AT 'U' CONVOCATION  
THURSDAY AT 11:30

(FOR IMMEDIATE RELEASE)

A travel film and lecture, "Is This the U.S.S.R.?", will be presented by former CBS newsman Charles Dee Sharp at the University of Minnesota convocation at 11:30 a. m. Thursday (Nov. 13) at Northrop Memorial auditorium.

This color documentary film was made by Sharp in connection with his experiences in Russia, Poland, Czecho-Slovakia, East Germany and in the Southwest Soviet Union in Asia. Television cameras and recording equipment enrich Sharp's lecture narration with native voices, street sounds and indigenous music.

Sponsored by the University's department of concerts and lectures, the convocation film and lecture are free to the public.

LUNDEN AND NIER  
AGAIN ELECTED  
TO MURA BOARD

(FOR IMMEDIATE RELEASE)

Re-election of L. R. Lunden, University of Minnesota comptroller, and Professor A. O. C. Nier, chairman of the University's school of physics, to the board of directors of the Midwestern Universities Research association (MURA), it was reported Thursday (Nov. 6).

Lunden, who has been secretary of MURA and a director since its founding in 1954, also was re-elected secretary.

Nier was named to the MURA board last April replacing John H. Williams, University physics professor, now on leave of absence, who became director of the research division of the Atomic Energy Commission April 17.

Williams, who had been a director of MURA, along with Lunden, since 1954, served as president of the organization from March 1956 to October 1957.

MURA, a cooperative organization of 15 Midwestern universities, is designing and developing the world's most powerful proton accelerator or "atom smasher". The research project was undertaken at the request of the AEC. MURA's present headquarters is in Madison, Wis.

OIL MARKETING  
MANAGERS TO HOLD  
CONFERENCE AT 'U'

(FOR IMMEDIATE RELEASE)

A management development institute for oil industry marketers will be held at the University of Minnesota Center for Continuation Study Monday through Wednesday (Nov. 10-12). The course, limited to 30 participants, is designed to stimulate both the experienced and the inexperienced managers of oil companies in reappraisal of their concepts of the management job.

Featured in the institute will be intensive use of the case method of problem solving and the "incident process" -- one of the newer methods of developing management's potential, applicable to all events -- "middle" management in a corporation set-up.

Professor Paul Pigors, of Massachusetts institute of technology's department of economics and social science, developer of the incident process, will deliver the principal conference address at 1 p. m. Tuesday (Nov. 11) on "The Incident Process as a Means of Learning -- Teaching from Experience".

Other well-known educators from the oil industry who will act as faculty members at the institute are S. N. Bell, regional manager of marketing, Continental Oil company, Kansas City, Mo. and L. T. White, vice president of the Cities Service Petroleum, Inc., New York.

2-DAY WELDING  
CONFERENCE SET  
NEXT WEEK AT 'U'

(FOR IMMEDIATE RELEASE)

"Metals and How to Weld Them" will be the subject of a two-day institute to be conducted by the northwest section of the American Welding society and the University of Minnesota at the Minneapolis campus Center for Continuation Study Tuesday and Wednesday (Nov. 11 and 12). Fundamentals of welding metallurgy, recent developments in welding and design for welding will be stressed.

"Implications of Our Missile and Space Age" will be the topic of an address to be given by William S. Osborne, Aeronautical Division, Minneapolis Honeywell, at the Tuesday (Nov. 11) dinner meeting of the American Welding society. The meeting and dinner, a highlight of the two-day program, will be held at 6 p. m. in the junior ballroom of the University's Coffman Memorial Union. Tickets, available to all who are interested, may be obtained at the center.

"Recent Developments in Welding Aluminum" will be the topic of an address to be given by Charles Bruno at the 10:30 a.m. Wednesday (Nov. 12) session of the institute. Formerly chief welding engineer of the Lincoln division of the Ford Motor company, Bruno now holds the same position for Reynolds Metals company.

Thomas H. Nicholl, Kansas City, Mo., who worked on field testing of bomb detectors for the U.S. Navy during World War II and has taught welding for the University of California, will speak at 3:30 Wednesday (Nov. 12) on "Design and Its Effect on Cost".

HUMAN RELATIONS  
GROUP TO SPONSOR  
BANQUET THURSDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- The Panel of Americans, a human relations program designed to provide interracial and interdenominational discussion panels to address any public gathering interested in fostering human relations, will be hosts at a banquet Thursday (Nov. 13) at 12:30 p.m. in the University of Minnesota's Coffman Memorial Union.

The meeting will honor the 30 patrons of the University organization whose contributions of \$3,000 have made possible the establishment of a permanent office for the student organization. John Jacobson, institute of technology senior, and winner of the King Gustav award in 1957 for "the student who has contributed most to religious and racial understanding on the University of Minnesota campus for the year", will be introduced to the assembly as the new professional staff director of the group. Offices of the organization will be established in the Student Activities Bureau on the University's Minneapolis campus.

Composed of one Negro, one Jew, one Catholic, one Protestant and one new-American student, each of the panels and its faculty-member moderator, provides a program in human relations. Services of each panel are available to such groups as parent-teacher associations, high school assemblies, service organizations and church groups. The organization is sponsored by the University's interfraternity council, the panhellenic council, the student council of religions and the office of the dean of students.

'U' CONFERENCE  
ON MIDDLE EAST  
POLICY SLATED

(FOR IMMEDIATE RELEASE)

Minneapolis --- "U.S. Policy in the Middle East" will be the theme of a two-day conference to be held at the University of Minnesota Nov. 19-20. Four key speakers in this field and four panel-discussions will highlight the sessions.

The conference will be sponsored by the University's center for international relations and area studies, the Coffman Memorial union board of governors and the department of concerts and lectures.

"Arab Nationalism and the U.S. Foreign Policy" will be the topic of an address at 2:30 p.m. Wednesday, Nov. 19, in the men's lounge of Coffman Union by Armin H. Meyer, deputy director, office of near eastern affairs, U.S. Department of State. Professor Yahya Armajani, Macalester college history department, will preside at this session of the conference. Following Meyer's talk, a panel discussion will be held. Panel members will include principal conference speakers and Professor Scott D. Johnston, chairman of the Hamline university political science department, and Fred E. Lukermann, instructor in the University of Minnesota's geography department.

William C. Rogers, director of the University's World Affairs Center, will be chairman of the evening session of the conference which will be held at 8 p.m. in Mayo Memorial auditorium. John C. Campbell, director of political studies for the Council on Foreign Relations, will speak on "The Vital Interest of the West".

Professor T. Cuyler Young, chairman of the department of oriental studies and director of the program in near eastern studies at Princeton university, will present a "Critique of Recent U.S. Middle Eastern Policy" at the 2:30 p.m. meeting Thursday, Nov. 20, in the men's lounge, Coffman union. Robert W. Smith, associate editorial page editor of the Minneapolis Star and Tribune, will be the chairman of this afternoon session and will direct the panel discussion following Young's address. Panel members will be the principal speakers at the conference, Professor Henry E. Allen, University co-ordinator of student religious activities, and Professor Forrest A. Young, chairman of Macalester college's department of economics.

"The Middle East: Problems and Prospects" will be discussed by John S. Badeau, president of the Near East foundation and former president of the American university at Cairo, Egypt. His talk will be given at 8 p.m. in Mayo auditorium. Professor C.H. McLaughlin, director of the University's center for international relations and area studies, will be the chairman of this closing session of the conference. A discussion panel will follow Badeau's talk.

'ASPECTS OF RACE'  
FIFTH OF 'QUEST'  
LECTURES AT 'U'

(FOR IMMEDIATE RELEASE)

"Some Aspects of Race" will be the title of the fifth lecture in the University of Minnesota series, "Man and His Scientific Quest" to be given at 8 p. m. Monday (Nov. 17) by Rupert I. Murrill, assistant professor of anthropology at the University. The address will be presented in the auditorium of the Minnesota Museum of Natural History on the Minneapolis campus. Tickets may be purchased at the door for \$1.50.

In his lecture, Murrill will emphasize the environmental aspects of different climates on the origins of different human racial types. He also will discuss the effects of a combination of hereditary and environmental factors on racial types.

Born in Mexico City and educated at McGill university, Toronto, Canada, Murrill has done research with the American Museum of Natural History and the University of Puerto Rico and has been on the faculty of Columbia university and the University of Kansas. Racial history of man, racial blood pressure and ethnography of Micronesia have been his areas of important study.

Eugene P. Pfleider, chief of the division of mineral engineering at the University, will deliver the final lecture in this year's Man and His Scientific Quest series. "Our Vanishing Mineral Resources: A Challenge" will be the title of his talk which will be given at 8 p. m. Monday, Nov. 24 in the museum auditorium.

The lecture series is being presented by the University's general extension division.

GUNNAR MYRDAL,  
SWEDISH ECONOMIST,  
TO LECTURE AT 'U'

(FOR IMMEDIATE RELEASE)

Gunnar Myrdal, Swedish economist and currently research director of the Twentieth Century Fund Asian Study, New Delhi, India, will present the sixth annual Sidney Hillman lecture at the University of Minnesota at 8 p.m. Sunday (Nov. 16) in the Mayo Memorial auditorium.

The free public lecture will be sponsored by the Sidney Hillman foundation which has also sponsored the University appearances of United States Supreme Court Justice William O. Douglas, Mrs. Franklin D. Roosevelt, Carl T. Rowan, Thurgood Marshall and Morris Milgram.

Beginning in 1957, the pattern of the Hillman lectures was changed -- the lecturers now remain on the campus for several days, speaking to a wide variety of groups.

Arriving in Minneapolis early Sunday morning, Professor Myrdal will be met by Arnold M. Rose, University professor of sociology and associate author with Myrdal of the book "The American Dilemma" -- a study of the American Negro.

Immediately preceding the Hillman lecture, a dinner will be given for Professor Myrdal at 6 p.m. Sunday at the Campus club in Coffman Memorial Union. Hosts for the dinner will be the Amalgamated Clothing Workers of America, A.F.L.-C.I.O., and the University of Minnesota.

Institute of agriculture faculty members from the department of agricultural economics and rural sociology will lunch with Professor Myrdal on the St. Paul campus at 12:30 p.m. Monday (Nov. 17). A seminar with this group will follow at 2 p.m. Myrdal also will attend a 3:30 p.m. meeting of sociology department members and the Sociology club on the Minneapolis campus.

The local chapter of the National Association for the Advancement of Colored People, (the N.A.A.C.P.) will sponsor a public lecture by Professor Myrdal at 8:30 p.m. Tuesday (Nov. 18) at St. Peter's A.M.E. church, 401 E. 41st st., Minneapolis

"The Modern Democratic Welfare State and the Dream of a Welfare World" will be described by Professor Myrdal at a University law school convocation to be held at 11:30 a.m. Wednesday (Nov. 19) in Room 101 Fraser hall.

The University's departments of economics and history will sponsor Myrdal's lecture on "The Role of the Price Mechanism in the Planning for Development in Underdeveloped Countries" Wednesday (Nov. 19) at 2 p.m. in the fine arts lounge, Room 320, Coffman Memorial Union.

'NEW FRANCE' 'U'  
CONVO TOPIC;  
WRITER TO TALK

(FOR IMMEDIATE RELEASE)

Catherine Gavin, internationally-known U.S. correspondent of the Glasgow Bulletin and Time magazine writer, will speak on "The New France" at the University of Minnesota convocation at 11:30 a.m. Thursday (Nov. 20) at Northrop Memorial auditorium.

A war correspondent in the newly-liberated Paris, Miss Gavin was accredited to SHAEF. From Paris, Miss Gavin went to the Middle East, where she met many of the rising leaders who now are making history there. She returned to Paris to cover the beginnings of the Fourth Republic from the press gallery of the National Assembly.

In 1950 she came to the United States with her American husband and began her association with Time magazine. She has just returned from a summer in France where she observed the current political activities there.

This free public lecture will be sponsored by the University department of concerts and lectures.

GUNNAR MYRDAL,  
SWEDISH ECONOMIST,  
TO LECTURE AT 'U'

(FOR IMMEDIATE RELEASE)

Gunnar Myrdal, Swedish economist and currently research director of the Twentieth Century Fund Asian Study, New Delhi, India, will present the sixth annual Sidney Hillman lecture at the University of Minnesota at 8 p.m. Sunday (Nov. 16) in the Mayo Memorial auditorium.

The free public lecture will be sponsored by the Sidney Hillman foundation which has also sponsored the University appearances of United States Supreme Court Justice William O. Douglas, Mrs. Franklin D. Roosevelt, Carl T. Rowan, Thurgood Marshall and Morris Milgram.

Beginning in 1957, the pattern of the Hillman lectures was changed -- the lecturers now remain on the campus for several days, speaking to a wide variety of groups.

Arriving in Minneapolis early Sunday morning, Professor Myrdal will be met by Arnold M. Rose, University professor of sociology and associate author with Myrdal of the book "The American Dilemma" -- a study of the American Negro.

Immediately preceding the Hillman lecture, a dinner will be given for Professor Myrdal at 6 p.m. Sunday at the Campus club in Coffman Memorial Union. Hosts for the dinner will be the Amalgamated Clothing Workers of America, A.F.L.-C.I.O., and the University of Minnesota.

Institute of agriculture faculty members from the department of agricultural economics and rural sociology will lunch with Professor Myrdal on the St. Paul campus at 12:30 p.m. Monday (Nov. 17). A seminar with this group will follow at 2 p.m. Myrdal also will attend a 3:30 p.m. meeting of sociology department members and the Sociology club on the Minneapolis campus.

The local chapter of the National Association for the Advancement of Colored People, (the N.A.A.C.P.) will sponsor a public lecture by Professor Myrdal at 8:30 p.m. Tuesday (Nov. 18) at St. Peter's A.M.E. church, 401 E. 41st st., Minneapolis

"The Modern Democratic Welfare State and the Dream of a Welfare World" will be described by Professor Myrdal at a University law school convocation to be held at 11:30 a.m. Wednesday (Nov. 19) in Room 101 Fraser hall.

The University's departments of economics and history will sponsor Myrdal's lecture on "The Role of the Price Mechanism in the Planning for Development in Underdeveloped Countries" Wednesday (Nov. 19) at 2 p.m. in the fine arts lounge, Room 320, Coffman Memorial Union.

FOUR MEDICAL  
SHORT COURSES  
AT 'U' NEXT WEEK

(FOR IMMEDIATE RELEASE)

Four courses in the medical-nursing field will be held at the University of Minnesota's Center for Continuation Study next week (Nov. 17-22).

A two-day work conference on nursing service administration will be held at the Center Monday and Tuesday. Savallah Shields, assistant chief of nursing education at the Veteran's Administration hospital, Fort Snelling, will speak on "The Nursing Team Conference" at 2 p. m. Monday in the Continuation Center chapel. Small discussion and practice groups will spend Tuesday in nursing care conferences.

A course in fractures for general physicians will be held at the Center Monday through Wednesday. Treatment of fractures most commonly seen will be stressed. Guest speakers will include Dr. George J. Garceau, head of the Indiana university school of medicine orthopedics department, and Dr. Fred C. Reynolds, assistant professor of clinical orthopedic surgery at Washington university medical school, St. Louis, Mo. The course will be presented under the direction of Dr. John H. Moe, director of orthopedic surgery at University of Minnesota hospitals.

Emphasis will be given to common neurological problems seen in general practice in the center's course in neurology for general physicians Monday through Saturday. Also included will be a review of basic neuroanatomy and methods of neurological diagnosis.

(MORE)

The course in neurology will be presented under the direction of University professors -- Dr. A. B. Baker, director of neurology, and Dr. William T. Peyton, director of neurosurgery. Faculty for the course will include members of the faculty of the University's medical school and the Mayo Foundation, and Dr. Gilbert H. Glaser, Yale university school of medicine neurology chief; Dr. Charles A. Kane, Boston University school of medicine neurologist; and Donald D. Matson, associate clinical professor of surgery at Harvard university medical school.

The Sister Kenney foundation is cooperating with the University in the presentation of a continuation course in physical medicine for specialists at the center Thursday, Friday and Saturday. The program will deal with bracing for the upper extremities.

The course will be presented under the direction of Dr. Frederic J. Kottke, head of the University's department of physical medicine and rehabilitation. Faculty for the course will include, in addition to faculty members of the University medical school and the Mayo foundation, Dr. Arthur S. Abramson, chairman of the rehabilitation medicine department at Albert Einstein college of medicine, Yeshiva university, New York City; Dr. Robert L. Bennett, medical director of the Warm Springs, Ga., foundation; and Odon F. von Werssowetz, medical director of the Gonzales Warm Springs foundation, Gonzales, Texas.

'U' BITUMINOUS  
CONFERENCE  
SET WEDNESDAY

(FOR IMMEDIATE RELEASE)

Between 150 and 200 key members of the asphalt industry are expected to attend the fifth annual bituminous conference Wednesday (Nov. 19) at the University of Minnesota's Murphy hall auditorium. The conference is being presented by the University's Center for Continuation Study with the cooperation of the Minnesota Bituminous Pavement association and the Asphalt institute.

At the conference, leaders in the asphalt industry will discuss all aspects of bituminous construction methods and materials. The program is designed especially to provide current information on principles and practices of bituminous construction. It is open to all who have an interest in this field.

Louis C. Lundstrom, director of the General Motors proving grounds, Milford, Mich., will address the conference at a luncheon Wednesday in Coffman Memorial Union's junior ballroom. Lundstrom's topic will be "Safety Aspects of Vehicle-Road Relationships".

"Maintenance and Repair of Asphalt Surfaces" will be the topic of the 1:45 p. m. address by E. L. Tarwater, district engineer of the commerce department's bureau of public roads, Washington, D. C.

"Current Practices in Bituminous Maintenance" will be the topic of the 3:15 symposium in Murphy hall auditorium. Speaking on the state level will be E. R. Boyce, Rochester, assistant district engineer, maintenance division, Minnesota department of highways; the county level will be presented by Arvel Klessig, Fairmont, Martin county engineer; the municipalities will be presented by Erwin Hensch, Duluth city engineer. An open discussion will conclude the conference.

LARGE BURTON  
WATERCOLOR 'U'  
GALLERY SELECTION

(FOR RELEASE SUNDAY, NOV. 23)

"Off Key West", a large watercolor by former University of Minnesota faculty member S. Chatwood Burton, has been designated as "Picture of the Month" by the University of Minnesota Gallery. The painting, property of Mr. and Mrs. Carl Hawkinson, 5135 Third st., N., Minneapolis, is on extended loan to the Gallery, where Hawkinson is employed as chief gallery technician. It is hung in the regular "Picture of the Month" location, in the east stairwell in Northrop Memorial auditorium.

A graduate of the Royal College of Art, London, Burton came to the University in 1915 from his home in Haslingden, England. Initially employed as an instructor in freehand drawing and watercolor in the University's school of architecture, Burton became a professor in this school in 1931, a position that he held until his death on March 4, 1947. He also acted as freehand drawing instructor in the University's general extension division from 1922 to 1937.

Recipient of many top prizes and scholarships in art, Burton was noted as a print-maker and etcher as well as a sculptor and watercolorist. Many of his drawings and etchings are in the University Gallery's permanent collection.

'OUR VANISHING  
MINERALS' QUEST  
LECTURE THEME

(FOR IMMEDIATE RELEASE)

"Our Vanishing Mineral Resources: A Challenge" will be the topic of an address to be given by Eugene P. Pfleider, University of Minnesota mineral engineering division chief at 8 p. m. Monday (Nov. 24) in the Minnesota Museum of Natural History auditorium. The address, last in this year's "Man and His Scientific Quest" series, is open to the public. Tickets may be purchased at the door for \$1.50.

A Minneapolis native who received his education at the University of Minnesota, Professor Pfleider has had practical mining experience in this country and in South America in sulphur and tin mining. He has been iron ore reserve estimator for the State of Minnesota department of taxation and the Minnesota tax commission. Pfleider's principal research work has been in mining methods, drilling and blasting and application of the study of rock pressures. He is a member of the executive committee of the mining-geology-geophysics division of the American Institute of Mining and Metallurgical Engineers.

DENTAL SCHOOL  
ALUMNI TO HOLD  
FIRST CONVENTION

(FOR IMMEDIATE RELEASE)

The first convention of the alumni association of the 70-year-old University of Minnesota school of dentistry will be held Friday (Nov. 21) on the Minneapolis campus. Dr. Raymond D. Pruitt, professor of medicine at the Mayo Foundation, Rochester, will be the principal speaker at the afternoon session.

Following 8-9:15 a.m. registration in the foyer of Mayo Memorial auditorium, closed circuit TV will be used to display the chair clinics being held in the various departments in Owre hall.

J. L. Morrill, University of Minnesota president, will welcome the alumni at the luncheon at 12 o'clock in Coffman Memorial Union. A business meeting and election of officers at 1:30 will precede Dr. Pruitt's address at 2 p. m. His topic will be "The Clinician as an Investigator".

Dr. Henry E. Colby, Minneapolis, first president of the alumni group, is assisted on the program committee by the chairman, Dr. L. W. Thom and Dr. Arnold O. Larson, Minneapolis, Dr. M. O. Sletten, Madison, Dr. Marshall W. Mueller, St. Paul and Dr. Marion W. McCrea, associate dean of the school of dentistry.

SOCIAL WORKERS  
TO ATTEND 'U'  
REHAB CONFERENCE

(FOR IMMEDIATE RELEASE)

A medical social workers' conference on rehabilitation services for clients will be held at the University of Minnesota's Center for Continuation Study on Monday and Tuesday (Nov. 24-25). The course will be presented by the University and its school of social work in cooperation with the Medical Social Work chapter of the National Association of Social Workers.

Caroline H. Elledge, author of "The Rehabilitation of the Patient -- Social Case Work in Medicine", will lead the workshop. Peter Briggs, University psychology department research associate, will speak on "Patient Motivation and Professional Responsibility" following the dinner meeting at 6 p. m. Monday in the Center dining room.

Principles, processes and techniques of motivating people towards rehabilitation will be discussed at the Tuesday morning session of the conference. Demonstration of the rehabilitation team in action will highlight the closing session of the conference Tuesday afternoon.

15 STATE LABOR  
CHIEFS TO ATTEND  
COURSES AT 'U'

(FOR IMMEDIATE RELEASE)

Fifteen of Minnesota's top labor officials will return to school Friday (Nov. 21) when the University of Minnesota, through its general extension division workers' education department, offers the first of a series of four policy-making educational refresher courses for executive and administrative labor officials.

The courses are attracting nation-wide attention in labor circles, according to Philip Ross, acting director of the workers' education department, as they will be the first of this type to be conducted by a state university.

University President J. L. Morrill will welcome the labor-leader students to the first class in the series at 2 p.m. Friday (Nov. 21) in Room 346, Coffman Memorial Union. William B. Lockhart, University law school dean, and Herbert G. Heneman, Jr., assistant director of the Industrial Relations Center, will be the instructors in this class on "Arbitration".

In the future Friday classes to be held Dec. 5, 12 and 19, topics to be studied will include preparation and presentation of contract provisions, training personnel, and work on the areas, types, philosophies and future of arbitration. Instructors for these classes will include three Twin City attorneys, Jerome Levinson, Henry Halladay and Douglas Hall, and John G. Turnbull, University economics professor.

(MORE)

Heading the closed-registration list is Robert A. Olson, Minnesota AFL-CIO president. Others who will attend are: Robert Hess and Neil Sherburne, executive vice president and secretary-treasurer of the Minnesota AFL-CIO; Walter Noreen, president of the St. Paul Trades and Labor Assembly, and Walter Cramond, president of the Minneapolis Central Labor Union.

Anthony P. Sandys, chairman of the Minnesota AFL-CIO education committee; John Burmeister, secretary-treasurer of the Minneapolis Central Labor Union; St. Clair Beeman, vice president of CLU; Carl Winn, regional director of the AFL-CIO; Earl Bester, director of District 33, United Steelworkers; and Harry Leonard, business representative of International Brotherhood of Electrical Workers Local No. 160.

Labor leader "students" from the District 77 of the International Association of Machinists are: William McKenzie, director of business representatives; Michael McKliget, district business representative and vice president of the Minnesota AFL-CIO; John Peterson, business representative of District 77; and William F. Schleifer, District 77 business representative and vice president of the Minnesota AFL-CIO.

"The labor movement in Minnesota is extremely pleased that the University is able to conduct these refresher courses for the leaders in our organization," according to Neil Sherburne, executive vice president of the state AFL-CIO.

"Labor education is too often overlooked by both educators and union officials."

ORAL CANCER  
SHORT COURSE  
PLANNED AT 'U'

(FOR IMMEDIATE RELEASE)

"Oral Cancer" will be the topic of a one-day course to be held Dec. 11 at the University of Minnesota's Owre hall on the Minneapolis campus. The course will be sponsored jointly by the American Cancer society, the University school of dentistry, and the Center for Continuation Study.

A biopsy demonstration - closed circuit TV discussion of "Biopsy Do's and Don'ts" will be held in Room 111, Owre hall at 10 a. m., followed by a movie on biopsy processing. Dr. Hamilton B. G. Robinson, University of Kansas City dentistry school dean, will address the meeting at 11 a. m. on "Oral Cancer".

"Radiation Therapy vs. Surgical Therapy in Oral Cancer" will be discussed by Dr. Donn G. Mosser, University director of radiation therapy and associate professor of radiology, and Dr. W. Albert Sullivan, director of the University's department of continuation medical education, at the 1 p. m. meeting of the conference in Room 15, Owre hall.

Dr. Robert J. Gorlin, chairman of the oral pathology department of the dental school, will speak on "Differential Diagnosis of Oral Lesions" at the 2 p. m. session. "Facial Skin Cancer" will be the topic of a 3 p.m. address by Dr. Carl Laymon, University clinical professor of dermatology.

NEW 'U' BOOK  
REVIEWS TODAY'S  
COLLEGE TEACHING

(FOR IMMEDIATE RELEASE)

Minneapolis --- "The Two Ends of the Log", a discussion of learning and teaching in today's college edited by Professor Russell M. Cooper, assistant dean of the University of Minnesota college of science, literature and the arts, was published this month by the University of Minnesota Press.

The 317-page book contains 27 chapters based on papers presented at a college teaching conference held last April at the University under the sponsorship of the Association of Minnesota Colleges. Major conference addresses and reports of analysts who participated in the programs are featured. The foreword is by University President J. L. Morrill.

An appraisal of college teaching today, Cooper's book includes ideas for improvement and outlines traditional and new teaching methods, including television and other audio-visual methods, student personnel services and the role of the community in college teaching.

The volume also is being published in Great Britain, India, Pakistan and Canada.

University staff members whose chapters are included in the book are Theodore C. Blegen, dean of the graduate school; Horace T. Morse, dean of general college; Virginia L. Senders, psychology lecturer; and C. Gilbert Wrenn, professor of educational psychology. Harald C. Bakken, 1956 University graduate and now director of the Foreign Student Leadership project of the United States National Student association, also wrote a chapter.

NEW 'U' GRID  
CAPTAIN TO BE  
NAMED WEDNESDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Bernard "Mike" Svendsen, 1958 Gopher football captain, will pass the torch, symbolic of his office, to the teammate who will captain the 1959 team at the annual University of Minnesota football convocation to be held Wednesday (Nov. 26) at 11:30 a. m. in the main ballroom of Coffman Memorial Union.

Football letters will be awarded for the 1958 season to team members at the student assembly jointly sponsored by the All-University Congress and the department of concerts and lectures.

Following an introduction by All-University Congress president, Wayne Anderson, Coach Murray Warmath will review the 1958 football season and introduce coaching staff members. Professor Max O. Schultze, senate committee on intercollegiate athletics, will confer the awards upon members of the 1958 team.

"An Alumnus' Viewpoint on Intercollegiate Athletics" will be the topic of an address to the student assembly by Lee Johnson, Minnesota "M" club president. Following Johnson's address, Captain "Mike" Svendsen will pass the leadership-torch to the player that he and his teammates have chosen as captain for 1959.

GENE BLUESTEIN  
TO GIVE FOLKSONG  
PROGRAM AT 'U'

(FOR RELEASE SUNDAY, NOV. 30)

Gene Bluestein, folksong singer, will present songs for the Christmas season and excerpts from his Minnesota Statehood Centennial album, "Songs of the North Star State", at a University of Minnesota convocation Thursday, (Dec. 4) at 11:30 a. m. in Northrop Memorial auditorium.

Bluestein, an English instructor at the University, accompanies himself on a variety of folk instruments including the five-stringed banjo, the guitar and the steel drum -- a melody instrument made from oil barrels in the West Indies.

Recipient of two Carnegie Foundation American studies fellowships to collect and record folksongs in the southern Appalachian mountains, Bluestein also was commissioned by the Louis W. and Mard Hill Family Foundation fellowship in collaboration with the Minnesota School of the Air and the Minnesota Statehood commission to collect and publish songs of Minnesota.

From these commissions have come the Bluestein album, "Songs of the North Star State", "Songs of the Holidays" and "Buell Kazee Songs". The latter two are documentary recordings of a famous Appalachian folksinger.

The free public concert by Bluestein is sponsored by the University department of concerts and lectures.

OBERG TO DIRECT  
U OF M SYMPHONY  
CONCERT DEC. 10

(FOR RELEASE SUNDAY, NOV. 30)

The University of Minnesota Symphony orchestra will present its annual fall concert at 8:30 p.m. Wednesday (Dec. 10) in Northrop Memorial auditorium. Paul M. Oberg, music department chairman, will conduct the orchestra which will be augmented for this performance by 24 musicians from the Minneapolis Symphony orchestra.

Opening the program will be the premiere performance of Ivar Glemming's Symphony No. 2. This composition was written by Glemming, assistant professor and band director of the school of agriculture on the St. Paul campus, under a grant from the University graduate school. The symphony is in one movement and is written for full symphonic orchestra.

Jose Serebrier's Sinfonia No. 1, premiered in 1957 by the Houston symphony under the baton of Leopold Stokowski, will complete the first half of the concert program. Serebrier's first orchestral work, "La Leyenda de Fausto", completed when he was 17, won a national prize in music composition in his home country, Uruguay. On the basis of this work, Serebrier was invited to the United States by the state department. Scholarships and fellowships he has won include a Koussevitzky foundation award, the Broadcast Music Composers' award -- with "Sinfonia No. 1" -- and a Guggenheim award. He is this year's Antal Dorati fellowship winner and is studying with the director of the Minneapolis Symphony for the school year 1958-59.

Two piano solos, Chopin's "Ballade in F Minor" and Liszt's "Hungarian Rhapsodie No. 6" will be played by James Bonn, last year's winner of the Minneapolis Symphony Women's association contest.

Carolyn Bailey (Mrs. Dominick Argento) will sing the soprano part in her husband's composition, "Concerto for Soprano and Orchestra -- Ode to the West Wind", written especially for her. Mr. and Mrs. Argento are newcomers to the University where he is a member of the music department faculty.

ORTONVILLE DENTIST  
HEADS ALUMNI GROUP

(FOR IMMEDIATE RELEASE)

Dr. Roger R. Nolop, Ortonville, was elected president of the University of Minnesota School of Dentistry Alumni association at the group's first annual meeting last week.

Also elected were Dr. William Yock, St. James, vice president, and Dr. Marshall W. Mueller, St. Paul, secretary-treasurer. Dr. Henry E. Colby, Minneapolis, outgoing president, will continue as his group's representative on the Minnesota Alumni association board of directors.

'U' GALLERY TO SHOW  
38 PHOTOGRAPHS  
BY WYNN BULLOCK

(FOR RELEASE SUNDAY, NOV. 30)

Thirty-eight photographs by one of America's top living photographers, Wynn Bullock, will be exhibited during the month of December by the University of Minnesota Gallery. The photographs will be hung in the exhibition space in the main floor west corridor of Northrop Memorial auditorium.

The gallery's exhibition of Bullock's pictures will be the first Twin Cities showing of his work which often has been compared, both in technique and in subject, with the work of the late Edward Weston.

Bullock, who lives in Monterey, Calif., turned to creative photography in middle life. Until he was 46, he followed successive careers as a concert singer, real estate salesman and advertising photographer.

"Objects," according to Bullock, "are not just textures and forms but events in which textures and forms are merely attributes."

YOUNG COLLECTORS'  
SALE POPULAR  
AT 'U' GALLERY

(FOR IMMEDIATE RELEASE)

That the "young collectors" of the Twin Cities are interested in owning original pieces of graphic art has been demonstrated at the University of Minnesota Gallery during the first three weeks of the show, Original Graphic Art for Young Collectors, on view in Northrop Memorial auditorium through Nov. 30.

More than half of the original prints and lithographs have been sold, and one buyer purchased eight to be used for Christmas gifts, according to Judy Goldman, gallery assistant curator.

With the announced price range varying from \$5 to \$30, the average price of the pictures that have been sold has been around \$12, Miss Goldman said.

The exhibition is of approximately 85 prints gathered from the studios of many modern French and Italian masters and includes works of Degas, Cezanne, Dufy, Picasso, Toulouse-Lautrec, Utrillo and Renoir -- artists who bridge the traditional and the modern in the world of art.

ENGLISH EXPERT  
FROM JAPAN 'U'  
SPEAKER TUESDAY

(FOR IMMEDIATE RELEASE)

"English Teaching in Japan" will be the subject of a special University of Minnesota lecture at 3:30 p.m. Tuesday (Dec. 2) in the men's lounge of Coffman Memorial Union. Speaker will be Shigeo Imamura, English instructor and executive secretary of the research institute for the teaching of English at Ehime university, Ehime, Japan.

A graduate of the University of Michigan, Imamura spent four years as an interpreter for the U. S. military government and another four years as English teacher supervisor for the prefectural (state) board of education. His tour of United States language teaching institutions is sponsored by the Asia Foundation.

Sponsors of his University talk, which is open free to the public, are the University departments of English, classics, Slavic and Oriental languages, German, Romance languages and concerts and lectures.

HS PRINCIPALS  
TO STUDY DEFENSE  
EDUCATION ACT

(FOR IMMEDIATE RELEASE)

State junior and senior high school principals will study the National Defense Education Act of 1958 as it affects Minnesota schools Tuesday and Wednesday (Dec. 2 and 3) in the Center for Continuation Study on the Minneapolis campus.

The University college of education and the Continuation Center will present the course with the cooperation of the Minnesota Association of Secondary School Principals and the State North Central association.

Areas to be discussed will include the mathematics curriculum, vocational education, guidance, counseling and testing. The faculty will include Charlotte Lehman, Bloomington junior high school; K. L. Pederson, Hibbing high school principal; and Ray Witt, Bemidji high school principal.

Monday, Tuesday and Wednesday (Dec. 1-3), a postgraduate course in endodontics also will be conducted at the Center for Continuation Study.

3 GRADS OF 'U'  
BUSINESS SCHOOL  
TO BE HONORED

(FOR IMMEDIATE RELEASE)

Three graduates of the University of Minnesota school of business administration will be recognized for their contributions to the business world Thursday, Dec. 4, at the fifth annual institute of the school's alumni association. Lester A. Malkerson, University regent, will present the awards at a 7 p. m. dinner in the Leamington hotel Hall of States.

Recipients will be Philip L. Ray, North Oaks Farm, St. Paul, director and chairman of the board, First Trust Company of St. Paul; William W. McCallum, Evanston, Ill., president of John Morrell and Company, Ottumwa, Ia.; and Willard C. Lighter, Elmhurst, Ill., executive vice president of The Glidden Company, Cleveland, O.

Ray, who served as president and director of the First Trust Company of St. Paul from 1930 to 1945 and has been director and chairman of the board since 1945, is a 1912 graduate of the University.

McCallum, a 1930 Minnesota graduate, is well known for his work in labor relations and market research, and Lighter, class of 1933, has received national recognition as an expert in the soy bean processing industry.

Arthur "Red" Motley, publisher of Parade magazine and a 1922 University of Minnesota business school graduate, will be the dinner speaker. His subject will be "Use It or Lose It".

The dinner will follow nine seminars -- in the fields of office management, personnel, secretaries, insurance, sales, business management, advertising, securities and accounting -- conducted concurrently from 3 to 5 p.m. in the Leamington hotel.

EMOTION PROBLEMS  
OF PUPILS TO BE  
'U' INSTITUTE TOPIC

(FOR IMMEDIATE RELEASE)

Public health nurses will attend a University of Minnesota institute on the emotional problems of school-age children Thursday and Friday, December 4 and 5, at the Center for Continuation Study on the Minneapolis campus. The course will be presented with the cooperation of the Minnesota department of health.

Dr. Paul F. Wilson, director of the mental health clinic of the Rochester-Olmsted County Health Center, Rochester, will direct the course, which is a forerunner to regional conferences to be conducted by the state health department.

Group discussions will be led by Evi Altschuler, Rochester, and Jane Sheehan, Minneapolis, generalized public health nursing consultants, Minnesota department of health; Vivian Harriman, Rochester, director of public health nursing, Rochester-Olmsted County Health department; and Helen Jurkovich, school nurse, New Brighton schools.

An institute on current tax problems will be conducted for Minnesota lawyers at the Continuation Center also on Thursday, Friday and Saturday, December 4-6.

JOURNALISM GRAD  
SHARES AWARD  
WITH 'U' SCHOOL

(FOR IMMEDIATE RELEASE)

The University of Minnesota school of journalism recently received \$500 as the result of an award to one of its graduates.

Verne O. Williams, reporter for The Miami News, Miami, Fla., last week won a first place Ted V. Rodgers Journalism Award for a series of more than 10 articles dealing with Miami's traffic problems and the city's progress in coping with them. His award consisted of \$1,500 for his personal use and \$500 for the journalism school of his choice.

In his letter informing Professor Robert L. Jones, director of the University school of journalism, of the award, Williams said, "It gives me great pleasure to be able in a small way to repay the school for a year that will always be a bright spot in my memory". Williams received his master of arts degree in 1951 and was a graduate teaching assistant in the journalism school during the 1950-51 school year.

The journalism awards are named to honor Ted V. Rodgers of Scranton, Pa., who led in the founding of the American Trucking associations in 1933.

A graduate of the University of Miami and Michigan State college as well as Minnesota, Williams joined the Miami News staff in 1950 as Sunday staff writer and assistant editor of the magazine section. With another reporter, he won the 1954 "Green Eyeshade" award, presented each year for public service writing in the Southeast. He also has received various awards sponsored by the Florida Association of Daily Newspapers for public service, spot news and feature writing.

'U' TO HONOR  
2 ENGINEERING  
GRADS DEC. 5

(FOR IMMEDIATE RELEASE)

Two University of Minnesota engineering graduates -- one engaged in rocket fuel research and the other a chemical consultant in the sugar industry -- will receive the school's Outstanding Achievement Award Friday, Dec. 5, at the annual meeting of the University's Institute of Technology Alumni association.

At a 6:30 p.m. dinner in Coffman Memorial Union junior ballroom, University President J. L. Morrill will present the awards to Cleo Brunetti, vice president and acting manager of the Grand Central Rocket company, Redlands, Calif., and Henry W. Dahlberg, chemical consultant and retired manager of Great Western Sugar company agricultural and chemical research activities, Denver, Colo.

Brunetti, one of the contributors to the development of the proximity fuse for anti-aircraft shells and the printed electronic circuit, received his bachelor of electrical engineering degree from the University of Minnesota in 1932 and his doctor of philosophy degree in 1937. Before assuming his duties with the Grand Central Rocket company in September, he was associated with the Food Machinery and Chemical corporation, San Jose, Calif., and, from 1953 to 1957, he was director of engineering research and development in the mechanical division of General Mills, Inc., in Minneapolis. He also has served in various capacities with the National Bureau of Standards in Washington, D. C., and has been recognized for his assistance by the war department, the army and the navy.

Dahlberg, a 1910 University chemical engineering graduate, has traveled extensively in Europe, Egypt, Iraq and Iran since his retirement from the Great Western Sugar company in 1953 after 43 years of service. Working with Arthur D. Little, Inc., Cambridge, Mass., under the auspices of the U. S. department of state, he advises those countries regarding their sugar industries.

(MORE)

Much of Dahlberg's work at Great Western was done in the field of sugar beet breeding, and he was among the first to work toward domestic facilities for the raising of domestic sugar beet seeds. He was instrumental in the perfection of the barium process, which made possible the extraction of more sugar from the beets. Under his direction, more sugar byproducts were developed, a process was derived for the production of monosodium glutamate, and beet pulp and beet molasses were developed for cattle feed.

Also on the dinner program is a panel discussion -- "Russia As We Saw It" -- moderated by John E. Turner, associate professor of political science. Panel members, all recent visitors in Russia, will be Institute of Technology Dean Athelstan Spilhaus; Associate Dean Benjamin J. Lazan; Professor Richard C. Jordan, head of mechanical engineering; and Edgar L. Piret, chemical engineering professor.

The public is invited to attend, free of charge, the afternoon session of the engineers' annual meeting -- a panel discussion of "The Engineer and Advanced Degrees" at 2:30 p. m. in Room 4 Mechanical Engineering building. Keynote and panel moderator will be Clifford L. Jewett, general manufacturing manager, Minnesota Mining and Manufacturing company. Panel speakers will be Finn Larsen, director of research, Minneapolis Honeywell Regulator company; Professor Richard C. Jordan, head of mechanical engineering; and Professor William G. Shepherd, head of electrical engineering.

A coffee hour will follow the discussion at 4:30 p. m. outside Room 4.

MORRILL REPORTS  
UNIVERSITY NEEDS  
TO GOV. FREEMAN

(FOR RELEASE AFTER 4 P.M. FRIDAY, NOV. 28)

St. Paul --- Needs of the University of Minnesota for the next two years were laid before Governor Orville L. Freeman and his administration commissioner, Arthur Naftalin, by President J. L. Morrill Friday afternoon (Nov. 28) at a budget hearing held in preparation for the 1959 Legislative session.

President Morrill presented the University's requirements for the next biennium under three major headings: 1. general maintenance and operation; 2. special state research and extension projects; and 3. University Hospitals.

University Regents are planning to ask the 1959 Legislature for general maintenance appropriations of \$26,221,522 for the fiscal year July 1, 1959 to June 30, 1960, and \$28,763,674 for 1960-61 or \$54,985,196 for the biennium, President Morrill reported to the governor.

For special extension and research projects carried on by the University for the direct benefit of the people of the state, the Regents will seek appropriations of \$2,110,051 for 1959-60 and \$2,179,359 for the following year... aggregating \$4,289,410 for the period.

Toward the cost of maintaining and operating the University Hospitals, the Legislators will be asked to provide \$4,369,227 for the first year of the biennium and \$4,525,611 for the second year...a total of \$8,894,838.

1. GENERAL MAINTENANCE

President Morrill pointed out to the governor and his staff that the \$54,985,196 general maintenance request for the two-year period represents 71.7 per cent of the total budget requirement of \$76,737,975 (\$36,852,203 for the first year, \$39,885,772 for the second) to carry on the University's regular program of teaching, non-sponsored research and public service during that period. The remaining 28.3 per cent of the budget represents University income from various other sources, primarily student tuition.

(MORE)

Provided in the two-year program are: 157 new faculty positions, 26 the first year and 131 the following year; faculty payroll increases of 10 per cent the first year and an additional 5 per cent the next year; some civil service salary increases and staff additions; and funds to meet price advances and to permit adequate physical plant upkeep.

Faced with estimated enrollments of 28,150 in 1959-60 and 30,050 in 1960-61 compared with a student body of 25,307 when the Legislature last met in 1957 and a current enrollment of 26,568, the Regents have worked out an overall budget for the general operation of the University amounting to \$36,852,203 for 1959-60 and \$39,885,772 for 1960-61, the president stated.

By deducting from these budget totals estimated University income from various sources including tuition, the Regents determined how much they must ask from the Legislature for general maintenance -- \$26,221,522 for the first year and \$28,763,674 for the second. This, Morrill explained, represents an increase of \$3,137,501 or 13.6 per cent in 1959-60 over the appropriation made for the current year, 1958-59, and an increase of \$2,542,152 or 9.7 per cent in 1960-61 over the sum requested for 1959-60.

In 1957, the Legislature voted the University a general maintenance appropriation of \$45,433,440 for the current two-year period -- \$22,349,419 for 1957-58 and \$23,084,021 for this year. Thus, the Regents' request for \$54,985,196 in operating funds for the next two years involves an increase of \$9,551,756 or 21 per cent over the funds allotted by the lawmakers for the present biennium.

The total operational budget for the next two years, \$76,737,975, tops the total operational budget for the current biennium, 1957-59, by \$10,998,938, but, President Morrill explained, an estimated \$1,447,182 net increase in University income for the next two-year period cuts to \$9,551,756 the share of the total maintenance needs increase which the Regents must ask from the Legislature.

Principal sources of University income are: student tuition, the sales of agricultural products and overhead charges on research contracts and grants. Income increases are anticipated primarily from greater tuition revenue from a larger enrollment and from a boost in tuition fees charged students who are not Minnesota residents.

At some length, President Morrill explained how the University applied an excess of \$1,228,271 in enrollment-related funds appropriated by the 1957 Legislature to financial obligations authorized and required by the Legislature but for which sufficient funds were not appropriated.

In 1957, the Regents based their maintenance requests on enrollment estimates of 27,450 in 1957-58 and 29,000 in 1958-59. Actual enrollment, however, fell short of these estimates -- reaching 25,825 last year and 26,568 this year. The result was an appropriation surplus which, when balanced against the loss of anticipated tuition revenue due to unrealized enrollment, left a net excess of \$1,228,271.

The University had determined to revert this excess to the State treasury, President Morrill pointed out. However, in order to meet obligations mandated by the 1957 Legislature but not fully financed by the Legislature, the University applied the excess to the cost of these programs -- 1. inclusion of Old Age Survivors Insurance in the retirement program for civil service employees retroactive to January 1, 1956, and OASI rate increases for both civil service and academic staff members; 2. a cost of living pay increase for civil service staff members effective July 1, 1958; and 3. unemployment compensation for University employees effective January 1, 1958.

Additional funds to help defray the costs of these programs were derived from University-wide economies effected during the last two years, the president reported, and from a deficiency allotment of \$1,160,127 provided from funds made available by the Legislature to the State Commissioner of Administration.

(MORE)

Turning to a discussion of staff salary increases, President Morrill stated that the Regents, in order to retain present members of the faculty and to attract outstanding newcomers, will ask the Legislature for \$1,599,483 for academic staff salary adjustments and promotions for 1959-60. This is equivalent to 10 per cent of the current year's estimated academic payroll of \$15,994,834. For 1960-61, the Regents will request an additional academic payroll boost of 5 per cent of the estimated 1959-60 payroll. Cost of this increase will be \$890,255.

Major reasons for the request for faculty salary increases were reported by the president as follows:

"Several neighboring and comparable state universities indicate that they are requesting increases of their legislatures averaging 21.2 per cent of their academic staff payroll for salary adjustments. Therefore, an upward revision of 21.2 per cent would be necessary to keep on a comparable level with these other institutions. The University, however, is requesting only 10 per cent the first year and an additional 5 per cent the second.

"Business and industry, with higher levels of compensation, offer added competition, particularly in the recruitment and retention of young and promising members of the academic staff."

Cost of the proposed reinforcement of the teaching staff by 26 in 1959-60 and by another 131 persons the following year, Morrill stated, will be \$210,781 in 1959-60 or 1.3 per cent of the 1958-59 academic payroll and an additional \$1,105,253 in 1960-61 or 6.2 per cent of the previous year's faculty payroll.

Merit increases required by University civil service schedules within the various salary ranges will necessitate an additional \$322,995 in 1959-60 or 3.6 per cent of the 1958-59 civil service payroll and another \$340,466 the next year, an increase also of 3.6 per cent over the 1959-60 payroll.

(MORE)

If the cost of living index in Minneapolis is over 124.0 in January 1959, Morrill explained, a 4 per cent cost of living increase will be added to the civil service payroll in accordance with Legislative action tying civil service salaries to the cost of living index.

Additional civil service staff needed to meet demands related to enrollment increases will cost an estimated additional \$300,603 for the second year of the new biennium, the University chief indicated. This will represent 3.2 per cent of the 1959-60 civil service payroll.

For additional custodial employees needed to maintain new University buildings, the Regents will require an appropriation increase of \$61,551 for 1959-60 and another step-up of \$19,500 for next year, according to Morrill.

Included also in the general maintenance needs of the University are increases for "supplies, expense and equipment" -- \$1,662,290 for next year over this year's appropriation and \$200,367 more for 1960-61 over 1959-60.

The increase for the first year provides: \$247,679 for maintenance and operation of new buildings opened during the year; \$257,233 to restore the level of physical plant maintenance which has been cut back by wage increases; \$221,488 to meet the rise in the general price level, which advanced from 114 in July 1956 to 119.2 in July 1958, and to meet fuel price advances; \$820,690 for Social Security and SERA cost increases including OASI coverage of civil service employees and rate hikes; telephone rate increase, \$33,140; postage rate increase, \$31,728; unemployment compensation claims, \$42,832; and mines tax commission expense increase, \$7,500.

(MORE)

The additional \$200,367 increase for supplies, expense and equipment for 1960-61, President Morrill reported, covers: costs of maintenance and operation of new buildings opened during that year, \$81,942; costs directly related to enrollment increases, \$64,379; and additional Social Security costs for new staff, \$54,046.

2. SPECIAL STATE RESEARCH AND EXTENSION PROJECTS

Special research and extension projects carried on by the University for the direct benefit of the people of the state will require appropriations totaling \$4,289,410 for the coming two-year period, President Morrill reported to Governor Freeman.

Needed for the first year is \$2,110,051, an increase of \$350,051 over the amount appropriated for the present year, while the 1960-61 requirements will be \$69,308 higher or \$2,179,359.

The requested amounts are needed, President Morrill said, to carry out the same programs and, in some instances, slightly expanded programs. The increases are necessitated primarily by increases in salaries, prices, postage and employer's contributions to OASI and SERA.

(MORE)

The special extension and research projects for which funds are sought by the Regents with the amount appropriated for the current year, 1958-59, and the amounts requested for each year of the next biennium are as follows:

	<u>Current</u>	<u>Requested</u>	
		<u>1959-60</u>	<u>1960-61</u>
Agricultural Extension Service	\$ 600,000	\$ 688,589	\$ 714,915
Experiments in the Beneficiation of Manganiferous and Low Grade Ores and for Experiments in the Direct Process Beneficiation of Low Grade Ores	100,000	121,129	124,622

Special Assessments - Duluth Branch		<u>9,527</u>	
	\$1,760,000	\$2,110,051	\$2,179,359

(MORE)

3. UNIVERSITY HOSPITALS

Of the requested \$8,894,838 appropriation toward the expense of maintaining and operating University Hospitals for the next two years, \$3,158,092 is recoverable from the county governments of the State for the care of indigent patients, President Morrill reported to the governor.

Counties are required to reimburse the State for one-half the funds expended for the care of patients without means referred to University Hospitals by their county welfare boards. Customarily, both the State's share and the counties' share, as estimated, are appropriated by each Legislature for the biennium following the session.

The Regents' requested appropriation for University Hospitals for 1959-61 includes \$4,369,227 for the first year and \$4,525,611 for the second. The 1957 Legislature appropriated \$3,625,661 for 1957-58 and \$3,978,847 for the current year ending June 30, 1959 -- a total of \$7,604,508.

President Morrill explained that the \$1,290,330 increase (\$860,431 from State funds and \$429,899 from the counties) in University Hospitals' request for the next biennium is needed to cover the cost of salary adjustments, some additional staff, Social Security and SERA increases, unemployment compensation, postage rate increases and higher prices of supplies, equipment and services.

Amounts needed from the Legislature for the maintenance and operation of the five divisions of University Hospitals for the next two years were listed by the president as follows:

	<u>For 1959-60</u>	<u>For 1960-61</u>
University Hospitals (General)		
State's share.....	\$1,549,532	\$1,608,560
Counties' share.....	<u>1,549,532</u>	<u>1,608,560</u>
Total.....	3,099,064	3,217,120
Psychopathic Hospital.....	608,500	627,225
Child Psychiatric Hospital.....	236,730	243,512
Rehabilitation Center.....	392,093	403,611
Multiple Sclerosis Clinic.....	<u>32,840</u>	<u>34,143</u>
Total.....	\$4,369,227	\$4,525,611

(MORE)

The 1957 Legislature appropriated \$1,283,294 as the State's share of the indigent general patient cost for 1957-58 and \$1,461,069 for 1958-59, of which only \$1,444,103 is estimated to be needed, according to Morrill. These amounts match the share borne by the counties sending welfare patients to the institution.

Appropriations for the other hospitals divisions for the first and second year of the current biennium were: Psychopathic hospital -- \$522,073 and \$533,181; Child Psychiatric hospital -- \$201,715 and \$207,236; Rehabilitation Center -- \$313,211 and \$322,644; Multiple Sclerosis Center -- \$26,882 and \$27,580.

GEORGE BELLOWES  
SHOW TO OPEN  
MONDAY AT 'U'

(FOR RELEASE SUNDAY, DEC. 7)

An exhibition of 65 prints and drawings by the American artist George Bellows will open at the University of Minnesota Gallery Monday (Dec. 8) and will continue through Dec. 28. The Bellows prints -- all lithographs except the six etching variants of "The Life Class" -- will be hung in the gallery's third floor west corridor exhibition space in Northrop Memorial auditorium.

In January and February of 1957 the National Gallery of Art in Washington, D.C. held the first one-man exhibition in its history -- a retrospective of the work of George Bellows. It is from that comprehensive exhibition that this selection of drawings and prints was made by the Smithsonian Institution Traveling Exhibition service. The exhibition is being circulated among leading museums throughout the United States and Canada.

According to Elizabeth Mongan, curator of graphic arts at the National Gallery of Art, in her foreword to the exhibition catalogue, "George Bellows was primarily an illustrator. His prints and drawings are the best example of American graphic reporting done between the two great wars. He used, in a perfectly legitimate way, the shock value of realistic scenes of prize fights, slums, social injustice, and the brutality of war. Also, he was by instinct an inheritor of the odd American sense of caricature and drollery.

"Bellows was a troubled draftsman. His prints and drawings show how much he labored over a theme, both before and after making a variation. Like Stephen Crane, Bellows did have a notion of what was happening around him. He put it down as he saw it, with dexterity and honesty."

KAISER GRANT  
PROVIDES \$1500  
'U' FELLOWSHIP

(FOR IMMEDIATE RELEASE)

A new graduate fellowship in business administration at the University of Minnesota has been made available by the Kaiser Aluminum and Chemical corporation, Oakland, Calif., according to University business administration school department chairman Robert J. Holloway.

The \$1,500 fellowship, plus resident or non-resident tuition, provides financial aid to a qualified graduate student whose interest is in marketing and business administration.

Graduate students who presently are enrolled or are planning to enroll may apply for this fellowship by contacting Professor Holloway, department of business administration, University of Minnesota. Applications must be submitted by March 1, 1959.

MUSIC EDUCATORS'  
CHORUS TO PRESENT  
CHRISTMAS PROGRAM

(FOR RELEASE SUNDAY, DEC. 7)

Members of the Music Educators' chorus, a music education class at the University of Minnesota, will present a Christmas program at the Tuesday Music Hour program Dec. 9 at 11:30 a. m. in Scott hall auditorium.

Group director will be associate professor of music education Arnold F. Caswell who will be assisted by Robert D. Berglund, a graduate student.

Both traditional and less well-known Christmas music will be included on the program, according to Caswell. The chorus will sing compositions by Johann Sebastian Bach, Alessandro Scarlatti, Michael Praetorius, Guillermus Dufay, Healey Willan, Benjamin Britten and William Latham. The audience will participate in the singing of Dufay's "Gloria" and three chorals from Bach's "Christmas Oratorio".

The public is invited to attend this free public concert.

Music Educators' chorus members will take part in the college of education's thirty-eighth annual Carol Sing from 7 to 9:30 p.m. Tuesday (Dec. 9) at the University YMCA.

Next Saturday (Dec. 13) the chorus will participate in the Twin Cities In and About Music Educators' club annual Christmas party to be held at noon at the Women's club in Minneapolis.

'U' I.T. ALUMS  
TO AIR HIGHER  
DEGREES FRIDAY

(FOR IMMEDIATE RELEASE)

"The Engineer and Advanced Degrees" will be discussed at the afternoon session of the twentieth annual open meeting of the University of Minnesota Institute of Technology Alumni association Friday (Dec. 5) at 2:30 p.m. The session will open in Room 4 of the University's mechanical engineering building.

Clifford L. Jewett, general manufacturing manager, Minnesota Mining and Manufacturing company, will act as panel moderator and keynoter. He will introduce Finn Larsen, Minneapolis Honeywell research director, who will speak on the first panel topic -- "Industry's Need for Engineers with Advanced Degrees".

The second panel topic, "Selection of Engineers for Graduate Work", will be discussed by Richard C. Jordan, University mechanical engineering department head. Professor William G. Shepherd, electrical engineering department head, will speak on the third panel topic, "Graduate Training to Meet the Need". A question and answer period and open discussion of the topics will conclude the afternoon's session.

A coffee hour will be held from 4:30 to 5:30 p.m. in the hall outside the conference room. Members of the speakers' panel will have copies of their talks available for the audience.

Robert A. Hoel, president of the Institute of Technology Alumni association, will preside at the organization's annual dinner at 6:30 p.m. in the junior ballroom of Coffman Memorial Union. University President J. L. Morrill will welcome the guests.

University Outstanding Achievement Awards will be presented to Cleo Brunetti of Redlands, Calif., and Henry W. Dahlberg of Denver, distinguished alumni of the institute.

An evening panel discussion on "Russia as We Saw It" will be moderated following the dinner by John E. Turner, University associate professor of political science. Turner and the panel members -- Dean Athelstan Spilhaus of the institute, Benjamin J. Lazan, associate dean, Professor Jordan and Edgar L. Piret, professor of chemical engineering -- have recently returned from visits to Russia.

Engineers interested in attending the dinner and panel discussion are asked to contact the I.T. Alumni association, 204 Coffman Memorial Union, University of Minnesota, Minneapolis 14, for tickets which are \$3. The dinner is open to families and friends of the members.

Two University of Minnesota music department faculty members, lyric tenor Paul Knowles and composer-pianist Dominick Argento, will present "A Program of Song" at the Minneapolis Women's club Tuesday (Dec. 9) at 1:30 p. m.

Opening the program will be four selections from Handel's "The Messiah", followed by the second group of songs which will include "Through the Silent Night" by Sergei Rachmaninoff; "Visions" by S. Sjoberg; "Sweet Little Jesus Boy" by Robert MacGimsey and "Lamento di Federico", an aria from the opera "L'Arlesiana" by F. Cilea.

Knowles will sing "Six Elizabethan Songs for Tenor Voice" in the closing portion of the program. These songs were composed by Argento, and this will be their premiere Minneapolis performance.

ALUMNI TO HEAR  
'PARADE' CHIEF

(FOR IMMEDIATE RELEASE)

Arthur "Red" Motley, publisher of Parade magazine, will be guest speaker at the annual dinner of the University of Minnesota School of Business Administration Alumni association Thursday (Dec. 4) evening at the Leamington hotel.

A 1922 graduate of the business school, Motley will speak on "Use It or Lose It". The dinner, at 7 p. m., in the Leamington's Hall of States, will bring to an end the alumni's fifth annual institute. Starting at 3 p. m., nine two-hour seminars will be conducted on office management, personnel, secretaries, insurance, sales, business management, advertising, securities and accounting. The public is invited to attend the seminars, which will be followed at 5:15 p.m. by a social hour.

Also at the dinner, Lester A. Malkerson, University Regent, will present the University's Outstanding Achievement Award to Philip L. Ray, North Oaks Farm, St. Paul, class of 1912, director and chairman of the board, First Trust Company of St. Paul; William W. McCallum, Evenston, Ill., class of 1930, president of John Morrell and Company, Ottumwa, Ia.; and Willard C. COUNTY ROAD  
BUILDERS TO MEET  
AT 'U' NEXT WEEK

(FOR IMMEDIATE RELEASE)

Minneapolis --- Governor Orville L. Freeman will be the opening speaker at a University of Minnesota institute for county highway engineers next week at the Center for Continuation Study. Presented by the University, the Minnesota Association of County Engineers and the Minnesota department of highways, the session will meet Monday through Thursday noon (Dec. 8-11).

Governor Freeman will talk at 8:45 a.m. Monday (Dec. 8).

Services of the Minnesota highway department planning and traffic division will be outlined, and bridge construction, legislation, safety and the relationship between contractors and county engineers are among the subjects to be studied. Howard Bussard of the Automotive Safety foundation in Washington, D.C., will speak on county management.

County highway engineers on the institute faculty will be George A. Anderson, Sibley county, Gaylord; Elroy W. Angus, Kandiyohi county, Willmar; Richard Cook, Redwood county, Redwood Falls; Ray C. Deegan, Blue Earth county, Mankato; Joe H. Dupont, Stevens county, Morris; Carl I. Erickson, Polk county, Crookston; I. M. Fellbaum, Morrison county, Little Falls; W. P. Huber, Otter Tail county, Fergus Falls; Arvel B. Klessig, Martin county, Fairmont; H. M. McLaird, Houston county, Caledonia; Carl C. Nelson, Becker county, Detroit Lakes; N. C. Nickerson, Carlton county, Carlton; George H. Wellner, Beltrami county, Bemidji; and Maynard E. Wing, Norman county, Ada.

District engineers for the Minnesota department of highways also will take part in the program. They are Julian Idzorek, Mankato; C. M. Larson, Bemidji; L. H. Miller, Duluth; A. W. Moulster, Brainerd; C. A. Swanson, Rochester; and C. A.

Thompson, Willmar. Other guest faculty members will be Francis Gamelin, assistant to the superintendent, District 281, public schools, Robbinsdale; Charles L. Halsted, Brainerd, state representative and chairman of the highway laws commission; and Abe Johnson, construction engineer, Johnson Construction company, Litchfield.

FRIENDS TO HONOR  
DONALD COWLING  
AT 'U' WEDNESDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- Friends of Donald J. Cowling will honor the state civic leader and former Carleton college president at a dinner Wednesday (Dec. 10) in Coffman Memorial Union at the University of Minnesota. Sponsored by a committee of Cowling's friends, the dinner will start at 6:30 p. m. in the Union main ballroom.

Three committee representatives will take part in the program. Laurence M. Gould, Carleton college president, and J. L. Morrill, University president, will speak, and the Rev. Howard J. Conn, pastor of Plymouth Congregational church, Minneapolis, will deliver the invocation and benediction. A musical program will be presented by the Carleton Knights, a male double quartet, and the University of Minnesota Men's Glee Club.

Cowling, president of Carleton college, Northfield, from 1909 to 1945, currently is active in numerous civic and community projects, taking part in memorial and fund drives and serving on boards of such institutions as the St. Paul Institute and Science Museum, Anatolia college in Greece, and the Menninger Foundation, Topeka, Kans. He was chairman of the Mayo Memorial Committee of Founders for nine years and has served as chairman of the Minnesota Medical Foundation scholarship committee since 1950.

He holds the distinction of being one of two men to receive both an honorary degree and a Builder of the Name Award from the University of Minnesota.

To conduct his many business and civic affairs, this energetic educator maintains an office in Minneapolis' Northwestern National Bank building.

(MORE)

COWLING

- 2 -

Cowling lives with one of his four daughters, Mrs. Cameron Newell, at 1985 Queen ave., S., Minneapolis. Mrs. Newell, Mrs. John A. Guice, Kansas City, Mo., and Mrs. C. H. Burgstahler, Birmingham, Mich., and three of Cowling's grandsons will be present at next week's dinner. A fourth daughter, Elizabeth, is at the University of North Carolina school of music and unable to attend.

Born in 1880 in Trevalga, Cornwall, England, Cowling was brought to this country at the age of two. He is a graduate of Lebanon Valley college, Pa.; Yale university and Baker university, Baldwin City, Kans. He holds bachelor of divinity and doctor of divinity degrees as well as a doctor of philosophy degree and numerous honorary degrees.

While at Carleton, he served as president of both the Association of American Colleges and the American Council on Education in 1918-1919 and was president of the Religious Education association from 1924 to 1926.

'U' SOCIAL WORK  
PROFESSOR GETS  
RESEARCH AWARD

(FOR IMMEDIATE RELEASE)

Werner W. Boehm, University of Minnesota social work professor, has been awarded the annual Harry M. Cassidy Memorial Research fund award in the school of social work in the University of Toronto.

The Cassidy fund was established in 1952 in memory of Harry M. Cassidy, director of the Toronto university social work school, and is intended to encourage fundamental research in questions relating particularly to the practice of social work and the development of social policy.

Professor Boehm's research grant which will commence in March, 1959 will be used in two locations -- his study on the theory of social work will be done at the University of Minnesota and the field tests will be conducted in Toronto. This is the first time that the University of Toronto has allowed the grant to be used in this manner, according to Boehm. Previously, all work has been done at the Canadian school.

Born in Germany and educated at the French university of Dijon and at Tulane university, New Orleans, La., Boehm now makes his home at 160 Arthur st., S. E., Minneapolis. Experience in the practice of social work in New York, Boston and the U. S. Army preceded his service with the United Nations in Geneva and as a consultant to the ministry of welfare in Israel. In 1955 and 1956, he was guest lecturer at the Université de Montréal where he taught in French.

Author of a number of technical contributions to professional journals, he is just completing his report on a three-year term in New York City as director of the curriculum study of the Council on Social Work Education.

EDUCATORS OF 10  
STATES TO CONFER  
AT MINNESOTA 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis --- Educators from 10 states will meet at the University of Minnesota Thursday and Friday (Dec. 11 and 12) for the University college of education's twenty-ninth annual regional conference on teacher education. Representatives from Minnesota, North and South Dakota, Wyoming, Iowa, Nebraska, Wisconsin, Illinois, Michigan and Kansas will attend.

Three special meetings for college administrators are scheduled to open the program Thursday (Dec. 11). Presidents and deans of teacher-preparing institutions will meet at 2 p.m. in the library of the Campus club, Coffman Memorial Union, to hear E. F. Linqvist, State University of Iowa professor of education, discuss "College Scholarship and Admission Examination Programs". Directors of student teaching will meet in Room 320 Union and student personnel administrators in Room 315 Union; both sessions will be held from 9:30 a.m. to 4:30 p.m.

Harvey M. Rice, Macalester college president, St. Paul, will address the combined group at a conference dinner in the Campus club Thursday (Dec. 11) evening. His subject will be "The Future of Teacher Education".

College faculty members and officials of state departments of education and state education associations will join the administrators in Friday's (Dec. 12) general sessions, the first of which will feature a discussion of research in student teaching and personnel work, "Decisions by Design and Default", by University Assistant Professor Roger E. Wilks, assistant director of student personnel. Robert H. Beck, University education professor, will present his observations of teacher education in the Soviet Union during his recent visit in Russia.

Highlight of the Friday (Dec. 12) luncheon in the Union junior ballroom will be an address by Philip H. Phenix, dean of the college, Carleton college, Northfield. His title will be "Teacher Education and the Integrity of Culture".

The afternoon session will focus on instruction problems. Ruth E. Eckert, University professor of education, will speak on "What Research Says About College Instruction".

Co-directors of the conference are Arnold Woestehoff, director of the bureau of recommendations, and Don Davies, director of student teaching at the University.

SEWAGE DISPOSAL  
TO BE TOPIC OF  
U OF M INSTITUTE

(FOR IMMEDIATE RELEASE)

Sewage disposal problems of residential neighborhoods, schools and similar institutions, fringe communities and metropolitan areas will be studied at the University of Minnesota's fifth annual wastes engineering conference Friday and Saturday, December 12 and 13, at the Center for Continuation Study.

Principal speaker will be Walter H. Blucher, professor of planning at the University of Illinois and consultant to the American Society of Planning Officials, which he served for 20 years as executive director. He will address the dinner meeting Friday (Dec. 12) on the subject, "Metropolitan Area Planning with Emphasis on Consideration of Waste and Sewage Disposal". A former president of the American Institute of Planners, Blucher currently is a member of many municipal housing and planning commissions.

Industrial wastes and the organization of sanitary districts also are scheduled for discussion during the two-day session, which is presented by the University with the cooperation of the sanitary division of the department of civil engineering and the Minnesota department of health.

Guest faculty members, in addition to Blucher, will be A. F. Bartsch, biologist, and James B. Coulter, sanitary engineer, Robert A. Taft Sanitary Engineering Center, U. S. Public Health Service, Cincinnati, Ohio.; A. S. Johnson, sanitary engineer, Oscar Mayer and Company, Madison, Wis.; Homer Knox, sanitary engineer, Ohio department of health, Columbus, O.; Winston C. Larson, consulting engineer, Detroit Lakes, Minn.; Raymond D. Leary, chief engineer, Milwaukee Sewage commission, Milwaukee, Wis.; and Gerard A. 'U' PROFESSOR'S 4-VOLUME WORK  
ON ADMINISTRATIVE LAW  
TO BE PUBLISHED MONDAY

(FOR IMMEDIATE RELEASE)

A four-volume treatise on administrative law by Kenneth Culp Davis, University of Minnesota law professor, will be published Monday (Dec. 8) by the West Publishing company, St. Paul.

Administrative law -- law about government agencies -- has grown rapidly over recent decades, according to Davis, until today more than one-third of all Supreme Court decisions involve review of administrative action.

Davis' earlier volume, published in 1951, was awarded the Henderson Prize for "outstanding excellence" by the Harvard law school faculty. In addition to his other writings, Davis has published a casebook on administrative law which has been used as the basis of instruction in more than half the law schools of the United States.

Commenting on his colleague's achievement, Dean William B. Lockhart of the University law school said, "Even before publication of this multi-volume treatise, Professor Davis is generally recognized as America's leading authority on administrative law. Through more than 40 articles and through his 1951 one-volume treatise, he has become the outstanding legal scholar in the field. His writings have been cited more by the courts and have had far more influence on law development than the writings of any other author in this field."

Davis himself says, "It has many weaknesses and deficiencies, even though it is about the best I can do in the 17 years I've devoted to it. If I can put it through four more editions during the coming 20 years, it will probably still fall short of solving all the major problems. Although the task is infinite and therefore somewhat frustrating, I can imagine no more enjoyable intellectual enterprise than trying to systematize the confused and conflicting law and ideas in this field."

BIRTH INJURIES  
TO BE REVIEWED  
AT 'U' CONFERENCE

(FOR IMMEDIATE RELEASE)

Perinatal casualties -- accidents to babies at the time of birth -- will be the subject of an institute to be conducted next week (Dec. 8-12) at the University of Minnesota Center for Continuation Study on the Minneapolis campus.

Presented by the schools of public health of the Universities of Minnesota and Michigan, the session is jointly sponsored by the maternal and child health agencies and crippled children agencies of the two states. It will be attended by medical directors, supervisors and nursing heads of maternal and child health departments and crippled children services from a 12-state area.

Three representatives of the United States Children's Bureau, Washington, D. C., are included on the long list of visiting faculty. They are Rudolph Hormuth, consultant in mental retardation; Dr. Arthur Lesser, director of the division of health services; and Ruth Taylor, director of nursing services.

Moore to Japan --  
U OF M CONDUCTS  
FOREIGN ALUMNI  
RELATION STUDY

(FOR IMMEDIATE RELEASE)

Forrest G. Moore, University of Minnesota advisor to foreign students and director of the Carnegie Corporation project on American college and university foreign alumni relationships, will leave Sunday (Dec. 7) for Tokyo, Japan, the first stop on a four-month tour of the Far and Near East.

Designed to determine the feasibility and value of continuing the personal and professional bonds forged between overseas alumni and their American alma mater, the \$24,000 grant will carry the project through its preliminary stages to about August 31, 1959. The complete project is expected to take about eight years.

"This project is conceived as a pilot and exploratory one of great potential not only for our own University but also for other institutions," Moore said. "Our experiences with foreign students parallel those of other institutions, and the results of this proposed study will serve to stimulate other universities to experiment in a similar manner."

As a major part of the study Moore plans to conduct systematic interviews with selected alumni of the University in India, Egypt, Greece, the Philippines and Turkey. He also will make shorter visits to Korea, Taiwan, Malaya, Thailand, Burma, East and West Pakistan, Iran and Iraq and Israel. He plans to return to this country in the later part of March, 1959.

'U' offers course --  
NOW YOU CAN  
STUDY SCIENTIFIC  
RUSSIAN AT HOME

(FOR IMMEDIATE RELEASE)

Minneapolis ---- A home study course in scientific Russian has been initiated by the University of Minnesota general extension division and Slavic and Oriental languages department. The same course was offered for the first time this year during the University's summer sessions.

Aimed at developing the student's reading ability in the Russian language, especially in Russian scientific texts, the course includes 12 lessons. Textbook for the course is the Manual of Scientific Russian by Thomas F. Magner, chairman of the University's Slavic and Oriental languages department. A recording is available to give basic Russian pronunciation.

Two advanced home study units of six lessons each also are available. They are adapted to meet the individual needs of the students, and each registrant selects one or more texts from a number of articles reproduced from Russian scientific journals.

The basic course, Russian 24x, carries two University credits upon completion of the final examination, and the fee is \$14. The advanced courses, 25A and 25B cost \$12 each and carry no credit.

Professor Magner taught scientific Russian to more than 100 students during the first summer session this year. As a result of this enthusiastic response, the course was taught again the second session.

Persons interested in registering for the home study course in Scientific Russian can write to the Correspondence Study Department, University of Minnesota, Minneapolis 14, Minnesota.

(FOR RELEASE SUNDAY, DEC. 14.)

The work of Walter Quirt, associate professor of art at the University of Minnesota, will open the new year for the University Gallery according to Sidney Simon, gallery director.

Opening on Tuesday, Jan. 6, the Quirt show—17 oils and 15 large wash drawings—will initiate the 1959 shows in the gallery's exhibition space in Northrop Memorial auditorium on the Minneapolis campus.

Simon and the gallery staff will be hosts at an exhibition-opening tea at the gallery in honor of the artist during the afternoon. Members of Quirt's classes and Twin City art lovers are invited to attend.

The gallery's extended loan collection of the work done by B.J.O. Nordfeldt, one of the finest in the country, will be featured in February. Nineteen oils and 13 etchings by the noted Swedish painter and former teacher at the Minneapolis School of Fine Arts will be hung in the gallery's exhibition space from Jan. 30 to Feb. 23.

The annual Minneapolis Symphony-School Art Project show, "Young Peoples' Art", also will be on exhibition at the gallery in February. This show, which will be hung from Feb. 6 to Feb. 27, is of the work done by school children who have attended one of the Symphony's Young Peoples' Concerts, and then have returned to their art classes to picture what the music created in their minds.

March 4 through the 30th will bring the Artists Equity Regional show to the gallery. This is contemporary work of the central area chapter and features work of artists in Illinois, Iowa, Indiana and Ohio. Also to be exhibited in March will be the prints of Marc Chagall which will be shown here March 6 through the 1

MORE

add art story—

April will find the Second Pacific Coast Biennial show—50 paintings in oil- and watercolors done by artists from Washington, Oregon and California. Concurrently with this exhibition which will run through April 26, will be the Young British Painters show featuring the work done by Sandra Blow, Donald Hamilton Fraser, Peter Lanyon, Louis Le Brocqy, Ceri Richards, William Scott and Bryan Wynter.

The University of Minnesota Student Art show will be exhibited at the gallery for the six weeks from May 1st to June 5th, and will be followed by an exhibition of "Canvas and Collage" June 8 through the 30th. The work of Six Japanese Painters will conclude the gallery's exhibitions for the regular school year.

HALF 'U' STUDENTS  
LIVE IN HOUSING  
'U' OWNS, CHECKS

(FOR IMMEDIATE RELEASE)

Approximately half of the University of Minnesota students live in housing that is either operated or supervised by the University, according to the annual residence study issued this week by Maybelle G. McCullough, director of the University Housing Bureau and assistant professor of education at the University. The study includes a breakdown of the student enrollment and the various classifications of residences in which the students live on the campus and in the Twin Cities area.

The student housing bureau, a subsidiary of the University's office of the dean of students, Edmund G. Williamson, finds the trend toward more married students continuing, with a total of 5,296 married students, or 22.27 per cent of the total St. Paul and Minneapolis campus enrollment of 23,778. This is an increase of 470 married students or 1.54 per cent over last year's married student enrollment.

Increase in students owning or renting their own homes or apartments has been steady since World War II. This year 2,025 students fall into this category. Of these, 291 are single students and 1,734 are married.

According to the bureau, the ratio of men to women at the University is about the same as it was in 1957-58. The 17,210 men account for 72.38 per cent of the total enrollment; the 6,568 women represent 27.62 per cent.

The number of students living in rooming houses decreased 249 from last year. In 1957-58 there were 1,954 students in the fall quarter registration who indicated that they lived in rooming houses as compared to 1,705 in the fall 1958-59 registration. This is 7.12 per cent of the total registration. This drop, according to Miss McCullough, is partly due to the removal of many Southeast rooming houses for parking lots and the clearing of the land on the new West campus area.

(MORE)

## STUDENT HOUSING

- 2 -

Single students living in apartments stabilized numerically this year with 1,653 single students in apartments as compared with 1,654 students last year. The total number of single and married students in apartments this year is 4,164, or 17.51 per cent of the total enrollment. The student housing bureau feels, Miss McCullough states in her report, that the single students will continue the upward trend towards apartment living as they report that the cost of sharing an apartment is less than for many sleeping rooms as the apartments provide cooking facilities which reduce the board costs.

Housing of married students living in the University's married student residences in University Village on Como ave., Minneapolis, and in Grove East, on Cleveland avenue, St. Paul, remained constant, the survey shows. There were 549 married students living in these residences -- 2.38 per cent of the enrollment -- in 1957-58 and 565 in 1958-59. At the time of this survey, 101 married students were living in the new Commonwealth Terrace apartment units on the St. Paul campus.

The percentage of students living at home is 38.54, an increase of only .23 per cent over the previous year. In 1957-58, the number was 8,916; in 1958-59, it is 9,165.

University residence halls housed 9.82 per cent of the student population in the year 1957-58. In 1958-59, as expected, this figure increased by 1 per cent as new halls were available this fall.

Fraternity and sorority housing is constant from year to year since very few new houses are built. There are 1,143 or 4.80 per cent of the University students being housed in this manner.

Miss McCullough concludes the bureau's annual report with the observation that the only noticeable changes in residence patterns at the University at the present time are in the increase of the number of married students and in the number of single students living in apartments.

'U' IT ALUMNI  
ELECT OFFICERS

(FOR IMMEDIATE RELEASE)

Clifford L. Jewett, 5715 Clinton Ave. S., Minneapolis, recently was elected president of the University of Minnesota Institute of Technology Alumni association.

First vice president is Edwin A. Willson, 5440 Normandale Rd., Minneapolis, and second vice president is Otto J. Pfeifer, 5016 W. 44th St., Minneapolis. Peter Warhol, 4832 Twelfth Ave. S., Minneapolis, was elected secretary and treasurer.

Elected to the board of directors for two-year terms were Harold A. Cloud, 1493 Chelsea, St. Paul, representing agricultural engineering; Bruce Abrahamson, 7205 Shannon Dr., Minneapolis, architectural engineering; Erwin W. Ulrich, 984 Prosperity, St. Paul, chemical engineering; Albert J. Hendry, 1248 Sinclair, St. Paul, electrical engineering; and William W. Brooks, 6 Mill Rd., Minneapolis, mining and metallurgy.

Continuing on the board for another year are Robert A. Holdahl, Hopkins, aeronautical engineering; Arndt J. Duvall, 1391 Fairmount, St. Paul, civil engineering; and Alden Elstrom, 2601 Xenwood Ave., Minneapolis, mechanical engineering.

3 UNIVERSITY  
GRAD STUDENTS  
GET FELLOWSHIPS

(FOR IMMEDIATE RELEASE)

Graduate school doctoral fellowships have been awarded to three University of Minnesota students for the current academic year, it was announced today by Dean Theodore C. Blegen of the University graduate school.

Recipients are David Herreshoff, 246 University Village, Minneapolis, whose work is in American studies; Cole I. Iverson, 1387 Randolph, St. Paul, in music; and William A. Hachten, 338 University Village, in journalism.

The fellowships are awarded to students preparing for a teaching career who have progressed beyond their first year of graduate work. Funds for the stipends were made available to the graduate school by the Woodrow Wilson National Fellowship foundation.

'U's DR. VISSCHER  
IS HONORED BY  
NEW YORK GROUP

(FOR IMMEDIATE RELEASE)

Dr. Maurice B. Visscher, professor and head of the University of Minnesota school of medicine's physiology department, has been designated a Fellow of the New York Academy of Sciences. The title was conferred last week at the academy's annual meeting in New York City in recognition of Dr. Visscher's "outstanding work toward the advancement of science".

A member of the National Academy of Sciences, Dr. Visscher lives at 1 Orlin St., S. E., Minneapolis. He is a recipient of the American Cancer society's medal and distinguished service award (1955) and has lectured abroad for the World Health Service, represented the United States at the General Assembly of the Council for the Coordination of International Congresses of Medical Sciences in Geneva and participated in the 1956 meeting of the executive board of the International Council of Scientific Unions held at Bagneres-de-Bigorre, France. He also is the author of a great number of scientific articles which have received world-wide publication.

WATER RESOURCES  
IS 'U' MUSEUM  
PROGRAM TOPIC

(FOR IMMEDIATE RELEASE)

Minnesota's water resources will be discussed by Lloyd L. Smith, University of Minnesota professor of entomology and economic zoology, at the weekly program of the University's Minnesota Museum of Natural History at 3 p. m. Sunday (Dec. 14) in the Museum auditorium on the Minneapolis campus.

Using slides and a film, Smith will outline Minnesota's water resources, point out their importance to every state resident and tell what is being done to maintain these resources for the future.

While the Museum will be open December 21 and 28, there will be no Sunday programs. The next program -- on January 4 -- will be a movie-illustrated discussion of the whooping crane by Walter J. Breckenridge, Museum director.

'U' AERONAUTICAL  
LECTURER WINS  
RESEARCH AWARD

(FOR IMMEDIATE RELEASE)

L. Albert Scipio, II, aeronautical engineering lecturer in the University of Minnesota's institute of technology, has been awarded the D. B. Steirman Award for 1958 by the New York Academy of Sciences. The \$500 award was given on a paper submitted to the organization by Scipio entitled "On the Design of Structural Models to Study Thermal Stress Phenomenon".

According to Scipio, some of the results discussed in this paper were obtained during the course of research supported by the United States Air Force, monitored by the Aircraft laboratory, Wright Air Development center, and executed at the University's Rosemount Aeronautical Research laboratories.

Scipio, who makes his home at 1424 Upper Afton road, St. Paul, is a member of the National Society of Professional Engineers Research Society of America, the American Society of Civil Engineers, the American Society of Mechanical Engineers, the American Mathematical society and the American Association for Advancement of Science.

JOINT RELEASE FROM:  
THE UPPER MIDWEST RESEARCH AND DEVELOPMENT COUNCIL  
AND  
THE UNIVERSITY OF MINNESOTA, MINNEAPOLIS, MINN.  
DECEMBER 11, 1958

WAY CLEARED FOR  
UPPER MIDWEST  
ECONOMIC STUDY

(FOR RELEASE SUNDAY, DECEMBER 14, 1958)

Minneapolis --- Approval of Ford Foundation aid has cleared the way for a four-year study of general economic conditions including the business and industrial structure of the Upper Midwest. For the purposes of the study, the area will include the Ninth Federal Reserve District -- Minnesota, Upper Michigan, Montana, North and South Dakota and western Wisconsin.

The study, to be conducted by the University of Minnesota and the Upper Midwest Research and Development Council (UMRDC), will involve \$350,000 of foundation funds, \$200,000 cash contributions raised by UMRDC as well as support from the Committee for Economic Development (CED). It is expected that the study also will receive contributions of research service valued at \$100,000 from education and business institutions in the study area.

CED has designated the Upper Midwest project as a pilot study, hoping it will be useful in guiding future similar investigations in other areas of the United States.

First step in the study will be appointment by the University of a research director, to be chosen with concurrence of UMRDC. The director will be given the status of a University faculty member. Policy guidance for the study will come from UMRDC through its research committee, headed by Frederick L. Deming, president of the Minneapolis Federal Reserve Bank. Other members of the committee are: Dean Richard L. Kozelka and Professor Walter W. Heller of the University's school of business administration; Arthur Upgren, Macalester college economics professor, and O. B. Jesness, deputy chairman, and Frank Parsons, economic research director, Federal Reserve Bank. Jesness is University emeritus professor of agricultural economics.

President J. L. Morrill of the University of Minnesota and J. Cameron Thomson, UMRDC chairman and chairman of the board of Northwest Bancorporation, Minneapolis, expressed the hope that as many area colleges and universities as can qualify under the terms of the program will participate in the project.

(MORE)

Every activity which contributes to wealth-making in the Ninth Federal Reserve District will be examined in the study from the standpoint of its present position and future possibilities, and the relation of each to the others.

The character and capabilities of the region's labor supply will be considered. The research project also will cover mineral and other material resources, water supply, power and transportation facilities.

Analysis of information obtained is expected to yield two principal products:

- 1.--An understanding of all factors contributing to the economic welfare of the region and its people, or detracting from it.
- 2.--A forecast of the future place of the region in the economy of the United States, taking into account shifts of population and changes in inter-regional competition, changing demands for goods and services and recommendations for action needed to accelerate sound economic growth of the region.

Approval of the grant by Ford Foundation directors, meeting in New York, brought success to many months of effort, both by UMRDC and University authorities. UMRDC Chairman Thomson outlined these as the main reasons for making the study:

No thorough economic study of a large American regional economic unit, such as the Upper Midwest has yet been made. Completion of such a study here will furnish the basic information needed for designing similar studies for other regions, and for economic planning for the nation as a whole.

Economic character of the region provides an opportunity for studying two of its current and long-range economic problems -- agriculture in transition and the economic potential of low-grade mineral resources.

The transition in farming implies a population shift. As it adopts new methods -- particularly new machines -- farming will engage fewer and fewer people in the region. As they are released from farming, these people must be provided with new and profitable pursuits in this region, if they are not to be lost to other areas. This situation suggests the need of a study leading to establishment of new industries, or expansion of present ones.

(MORE)

The region soon will begin to feel the influence of the Great Lakes seaway, as it already is feeling the impact of the Missouri basin development. Yet it has no coherent idea of what the effect of the two will be.

Existing institutions in the region are well-equipped to guide and foster the study, and to encourage continued regional economic planning on a permanent basis after the research project has been finished.

The study is expected to get under way as soon as the research director has been selected. First phase will be a six-months pilot project, primarily to lay out a design for the main study. This will be financed entirely from the Ford Foundation grant.

When this project has been finished, and a budget prepared for the main research project, study plans will be reappraised. It is assumed that this reappraisal will confirm need for the study, and that the main investigation will then begin, under a schedule calling for its completion in three and one-half years.

A second review of the project will come at this time, to determine whether a permanent and continuing economic analysis of the region is needed. If it is agreed that a permanent operation is needed, \$50,000 of the Ford Foundation grant will be used to set it up, but with the understanding that sources in the region will support it thereafter.

During the period when the main study is under way, a supplementary project, financed with \$50,000 in Ford Foundation funds, will be conducted at the University to determine the relationship between development of the Twin Cities metropolitan area and the Upper Midwest region.

In the view of Ford Foundation executives who studied the proposal for this project, it will, among other considerations, help "to avoid what has become almost standard -- and unfortunate -- practice; economic planning of large areas, unrelated to physical and land-use planning of urban components."

(MORE)

UMRDC has been considering establishment of a regional economic survey for more than a year as a means of implementing the purposes set out in its articles of association. These include study of the principal factors affecting the region's economic growth; determination of means for stimulating sound economic improvement; collection and analysis of economic statistics for the region; assistance to government and business agencies in fostering sound economic growth, and dissemination of information about the region's resources and economic advantages.

"We believe that the assistance given by the Ford Foundation and the participation of the University of Minnesota and other educational institutions will make it possible to provide a body of solid fact on which to base a program of action for improving our economic conditions," Thomson said. "Our ultimate aim, of course, is to provide more and better jobs for more people.

"With such an aim, it should be possible to obtain support for an action program from all segments of our economy, including government, business, agriculture and labor".

Thomson announced appointment of two committees to represent the public interest during the course of the study.

One will be a governors' advisory committee to which appointment has already been accepted by Orville Freeman, Minnesota; John E. Davis, North Dakota; Ralph Herseth (governor-elect) South Dakota, and J. Hugo Aronson, Montana, governors of the four states which lie entirely within the study area.

UMRDC intends to seek and consider the views of the governors during progress of the study, and will afford them an opportunity to name staff members to advisory subcommittees which will consult with researchers on special aspects of the study.

Representative citizens of the study area will be asked to serve on a citizens advisory committee, which will hold discussions of the study at various stages in its progress. It will include representatives of agriculture, labor, business and the professions.

UMRDC is the successor of the Resources Research Committee, which several years ago financed a \$130,000 study of mineral resources of the region, with emphasis on possibilities for developing North Dakota lignite deposits.

In the following list of council members, members are presidents of their organizations, unless otherwise indicated: R. W. Rovelstad, Baukol-Noonan, Inc., Minot, N. D.; Donald C. Dayton, The Dayton Co., Minneapolis; Frederick L. Deming, Federal Reserve Bank of Minneapolis; Philip H. Nason, First National Bank of St. Paul; John M. Budd, Great Northern Railway Co., St. Paul.

H. H. Corey, chairman of the board, George A. Hormel & Co., Austin; Pierce H. McDowell, Howalt-McDowell Co., Sioux Falls, S. D.; Paul R. Doelz, Kalman and Co., Minneapolis; Paul B. Wishart, Minneapolis-Honeywell Regulator Co.; G. Allan MacNamara, Soo Line, Minneapolis.

Joyce A. Swan, executive vice president, Minneapolis Star and Tribune Co.; Herbert P. Buetow, Minnesota Mining and Manufacturing Co., St. Paul; Frederick R. Gamble, vice president and treasurer, Montana-Dakota Utilities Co., Minneapolis; John E. Corette, The Montana Power Co., Butte; John F. Merriam, Northern Natural Gas Co., Omaha.

Allen S. King, Northern States Power Co., Minneapolis; J. Cameron Thomson, chairman of the board, Northwest Bancorporation, Minneapolis; A. F. Jacobson, Northwestern Bell Telephone Co., Omaha; Robert S. Macfarlane, Northern Pacific Railway Co., St. Paul; R. T. Elstad, Oliver Iron Mining Division, Duluth.

Cyrus G. Wright, Otter Tail Power Co., Fergus Falls, Minn.; Paul S. Gerot, The Pillsbury Co., Minneapolis; B. H. Ridder, Jr., publisher, St. Paul Dispatch and Pioneer Press; D. C. Minard, Trane Co., LaCrosse, Wis.; A. H. Truax, chairman of the board, Truax-Traer Coal Co., Chicago.

John M. Musser, chairman of the board, Weyerhaeuser Sales Co., St. Paul; A. G. Martin, Montana Chamber of Commerce, Billings, Mont.; R. E. Meidinger, Greater North Dakota Association, Jamestown, N. D.; E. F. Gronert, Greater South Dakota Association, Rapid City, S. D.

(MORE)

Expectation that the study will produce lasting benefits for the territory was expressed by several leaders.

Governor Freeman said he believes that "this whole region is entering upon a period of dynamic expansion in populations, in industry and in progress".

The area can realize its potentialities, he said, only through planning based on knowledge of "the nature and extent of our human and material resources, and how they fit in with today's trends and needs", and knowledge of "the implications of modern technological and scientific changes" and of "our relationships with other regions".

Because it proposes to supply much of this knowledge, Freeman said, the survey "should be of invaluable assistance in both public and private planning for the future".

"We in Minnesota will look forward to its conclusion with deep interest, and will offer every possible assistance to the project," he said.

The Minneapolis Federal Reserve Bank "is highly pleased that there will be such a study and that it can participate in the research work," Deming said.

The federal reserve system is unique among central banks because it administers national credit policy "with an awareness of regional developments and differences," Deming said.

This method "requires, of course, constant study of the various districts to make this kind of policy formulation effective," he said, "The proposed Upper Midwest survey should lift economic knowledge of the ninth district to a new high level."

"I think the study is a fine thing for this area," Governor Davis said. "It's a chance to take a new look at what we have here. North Dakota will co-operate to the fullest extent. I hope it will include some special projects for North Dakota, and indicate how we can continue to diversify our economy as well as continue to grow in our traditional activities."

"A survey of this type may be the answer to many of our problems," Governor-elect Herseth said. "Our attempt to solve economic problems on a local level has failed to produce the needed results. The creation of the South Dakota Industrial Development and Expansion Agency two years ago was a step forward in reaching this goal. It was not, however, the answer to all of our problems.

"An economic study by a group as large as is being proposed by the Upper Midwest Research and Development Council can provide us with useful information that would have taken years for individual states to compile."

The study proposal, in recognizing "the larger-than-state character of resources and problems", represents "a major breakthrough in economic thinking", President Morrill said.

Pooling of the talents of business leaders and economists with those of economists of the university and other educational institutions of the region, he said, has provided "a balanced, comprehensive approach to this study".

"Education and industry have been interdependent partners in the upbuilding of this region, and this relationship finds new vitality in this new partnership," Morrill said.

"One of the keys needed to unlock the treasure chest that is Montana is sound research," Governor Aronson said. "In view of this, I am hopeful that the program of the Upper Midwest Research and Development Council will help Montana open up new vistas of development.

"We are truly a Treasure State, in fact as well as in name. However, only through knowing the full, factual picture can we achieve our fullest possible development. Such research will also be of great assistance to the Montana State Planning Board, which was reactivated under my administration".

BRITISH NEWSMAN  
TO ADDRESS 'U'  
GRADS THURSDAY (DEC. 18)

(FOR IMMEDIATE RELEASE)

Minneapolis --- Max Freedman, Washington correspondent of The Manchester Guardian in England, will address members of the University of Minnesota's December graduating class at commencement exercises at 8 p. m. Thursday (Dec. 18) in Northrop Memorial auditorium. He will speak on "America's Leadership of the Free World".

Born and educated in Winnipeg, Manitoba, Canada, Freedman served as chief executive assistant to Canada's minister of trade and commerce and was senior editorial writer and later head of the Ottawa bureau and London correspondent for the Winnipeg Free Press. He has been in Washington for The Manchester Guardian for nine years. During his career, he has served as a correspondent in London, Paris, Bonn and the United Nations.

Chosen by United States Supreme Court Justice Felix Frankfurter to write his biography and a study of his judicial career, Freedman is now engaged in this project.

President Morrill also will speak to the graduates before he awards some 725 degrees and confers certificates of ROTC completion.

Edward Berryman, University organist and assistant professor of music, will play a half-hour organ recital before the commencement. He also will play for the processional and recessional.

Graduating students, their families and friends will be guests of President and Mrs. Morrill at a reception in the main ballroom of Coffman Memorial Union following the commencement exercises. At the reception, Christmas carols will be sung by the University's Men's Glee Club Ensemble, under the direction of Norman Abelson, assistant professor of music.

EDWARD BROOKS FAMILY GIVES "EASTCLIFF",  
ST. PAUL RIVER BOULEVARD HOME, TO U OF M  
AS FUTURE PRESIDENTIAL RESIDENCE

(FOR RELEASE 11 A.M. FRIDAY, DECEMBER 12, 1958)

In the future, presidents of the University of Minnesota will reside at "Eastcliff", the white, Georgian colonial Brooks home at 176 North Mississippi River boulevard in St. Paul.

University Regents today accepted the property as a gift to the school from the Edward Brooks family. The house has been a St. Paul landmark since it was erected in 1922. The architect was C. H. Johnston, Jr.

Built by the late Edward Brooks, prominent Northwest lumberman who died in 1954, "Eastcliff" is still occupied by Mrs. Brooks who will continue to live in the house for a limited period while planning her future residence.

"We always have had a high regard for the University of Minnesota," Mrs. Brooks said today, "and we feel the house to be eminently suitable as a residence for the president and an appropriate setting for entertaining the visitors who come to Minnesota as guests of the University."

The Brooks home will replace the Governor John S. Pillsbury house at Fifth street and Tenth avenue, Southeast, in Minneapolis, residence of University chancellors since 1911. The Pillsbury house has been the home of six presidents: George E. Vincent, Marion L. Burton, Lotus D. Coffman, Guy S. Ford, Walter C. Coffey and J. L. Morrill. President Morrill, who will retire in 1960, will not occupy "Eastcliff". University Regents will decide later the disposition of the Pillsbury House, built in 1877.

(MORE)

Members of the Brooks family who, with Mrs. Brooks, presented "Eastcliff" to the University are three sons and a daughter: Conley Brooks of Long Lake, executive vice president of Brooks-Scanlon, Inc., lumber manufacturing company with headquarters in Minneapolis; Edward Brooks, Jr., 500 South Mississippi River boulevard, St. Paul, a master at St. Paul Academy; Dwight F. Brooks of the Powell River Company, Limited, of Vancouver, B.<sup>C.</sup>. and Mrs. John D. (Markell Brooks) Krafchuk of Long Lake, wife of Dr. John D. Krafchuk, Minneapolis dermatologist.

Expressing the appreciation of the Regents for "this magnificent gift to the University from the Brooks family", Ray J. Quinlivan of St. Cloud, chairman of the Board of Regents, commented today: "This will be a distinguished home for the University presidents for many years to come".

For many years prior to his death in 1954, Edward Brooks had been president of Brooks-Scanlon, Inc. He also was a director of the Northern Pacific railway, Miller hospital in St. Paul, and a senior director of the Powell River Company, Limited, Vancouver, British Columbia, owners of the largest single newsprint mill in the world.

He was the son of Dr. Dwight F. Brooks, a doctor of medicine who entered the lumber business with M. J. Scanlon of Minneapolis and together with the doctor's brothers, the late Lester R. Brooks and Anson S. Brooks, founded the parent Powell River and Brooks-Scanlon companies. Also associated with Edward Brooks in the family enterprises were his brothers, the late Harry K. Brooks and Sheldon D. Brooks.

Mr. Brooks was born in St. Paul in 1888. In 1920, he married Markell Conley, also born in St. Paul. In World War I, he served as a captain with the U. S. Army Engineers in France.

"Eastcliff" occupies a site approximately two acres in extent bounded by Dayton and Otis avenues and the Mississippi River boulevard.

SCHWAN'S CUSTOMERS  
GIVE TO 'U' HEART,  
CANCER RESEARCH

(FOR IMMEDIATE RELEASE)

Heart and cancer research at the University of Minnesota received Christmas presents of \$600 each this year from some 8,400 ice cream enthusiasts in southern Minnesota and northwestern Iowa.

For the third straight year, the Christmas gift of Schwan's Ice Cream of Marshall, Minn., to its customers has gone to further research at the University. In 1956 and 1957, the total given by Schwan's, in the name of its customers, was \$1,000 and cancer research alone benefited from the gift. This year, a 20 per cent increase in business enabled Marvin Schwan to increase the gift of his customers to \$1,200, and, for the first time, heart research is included.

Prior to 1956, Schwan spent a similar amount on individual gifts for his customers. However, that year he decided to put this money to work to benefit even a larger number of people. So, he approached the University to see in what area his gift would be helpful, and medical research was selected.

Schwan's routemen will deliver each customer a card from the University expressing its appreciation for the gift. The Christmas card says, in part, "Your Christmas present for 1958 from Mr. Schwan and your routeman is the knowledge that you are helping thus to save lives". It continues, "All the folks at Schwan's . . . have tried to give you the very finest Christmas present possible", and adds, "We at the University believe they have succeeded very well".

Schwan's trucks deliver ice cream to homes in southern Minnesota, and as far north as Wadena and St. Cloud, as well as in sections of northwestern Iowa.

SCIENCE ACADEMY  
NAMES TOBIAN  
TO FELLOWSHIP

(FOR IMMEDIATE RELEASE)

Dr. Louis Tobian, Jr., associate professor in the University of Minnesota's school of medical sciences, has been designated a fellow of the New York Academy of Sciences. The title was conferred last week at the academy's annual meeting in New York City. Election to fellowship in the academy is an honor conferred upon a limited number of the members who, in the estimation of the organization's council, have done outstanding work towards the advancement of science.

A graduate of the University of Texas, Austin, and the Harvard medical school, Dr. Tobian is a member of the American Physiological Society, and the American Society for the Study of Arteriosclerosis, he has received research grants from the American Heart association, the Minnesota Heart association and the United States Public Health Service. He also was a holder of the "Established Investigator" senior fellowship of the American Heart association in 1954-56.

Dr. Tobian lives at 549 Otis ave., St. Paul.

'U' LAW STUDENT  
TO STUDY IN LONDON  
ON ROTARY AWARD

(FOR RELEASE MONDAY, DECEMBER 15)

Michael A. Berens, a University of Minnesota law student from Rochester, Minn., has been awarded a Rotary Foundation Fellowship for advanced study abroad during the 1959-60 academic year, it was announced today (Monday, Dec. 15) by Rotary International, world-wide service club organization.

One of 121 outstanding graduate students from 33 countries to receive this honor, Berens was recommended for the fellowship by the Rotary Club of Rochester. He will study law at the University of London.

Son of Mr. and Mrs. A. G. Berens of Rochester, he received a bachelor of science in law degree from the University law school in 1957 and is presently working toward a bachelor of laws degree, which he hopes to receive in June, 1959.

Berens has written or collaborated on six legal articles published in the Minnesota Law Review and is on the editorial board of that publication. He is employed part time as law clerk to Associate Judge William P. Murphy, Minnesota Supreme Court. At the University, he is a member of Phi Delta Phi, professional law fraternity, and an active participant in intramural athletics.

Since the Rotary's fellowship program was initiated in 1947, 1,191 graduates from 65 countries have studied in 43 countries on grants averaging \$2,600. This year's awards brings the total grants to more than \$3,000,000.

Chosen from applicants sponsored by their local Rotary Clubs, the Rotary Fellows are selected for their high scholastic standing, leadership qualities, interest in world affairs and ability to make friends easily. Each student is in direct contact with Rotarians and their families in the country in which he studies.

'U' TO PRESENT  
TV PROGRAM  
ON CIVIL RIGHTS

(FOR IMMEDIATE RELEASE)

"Organization for Civil Rights and Minority Improvement" is the subject of the next program in the University of Minnesota's weekly television series, "Minority Problems". The half-hour program will be seen Wednesday (Dec. 17) at 9 p.m. on KTCA-TV, Channel 2.

Special guests will be Wilfred C. Leland, director of the Minnesota Fair Employment Practices Commission; L. Howard Bennett, Minneapolis municipal court judge and former president of the Minneapolis chapter of the National Association for the Advancement of Colored People; and Perry S. Lusk, director of the Minneapolis office of the National Conference of Christians and Jews. Arnold M. Rose, University of Minnesota sociology professor, will serve as host.

On the December 24 program, Rose will discuss minority problems in a changing world, the development of a world community and the position of the United States and its territories toward race conflict.

Gallery.  
Quirt

Houk  
Harvey

UNIVERSITY OF MINNESOTA  
NEWS SERVICE—214 ADM.BLDG.  
MINNEAPOLIS 14, MINN.,  
DEC. 15, 1958

(FOR RELEASE SUNDAY, DEC. 21)

Seventeen oils and 15 large wash-drawings—the work of Walter Quirt—will open the new year of exhibitions at the University of Minnesota gallery in Northrop Memorial auditorium. Opening Tuesday, Jan. 6, the one-man show by Quirt, University associate art professor, will hang until Jan. 26.

Sidney Simon, gallery director, the gallery staff and members of the University's art department will be hosts at a "meet-the-artist" tea in the galleries on the opening day of the show, Jan. 6. Art students and Twin City art lovers are invited.

Quirt, who has taught at the University ~~of~~ for 11 years, is one of the acknowledged pioneers in American abstract art. Minnesota was deliberately chosen by Quirt after his 17 years of work in New York City.

"This," Quirt feels, "is the ideal environment for the 'new art'—an art which returns to the human figure. New York is the better location for the non-objective painter, but not for the painter of people."

In reviewing Quirt's work in 1942, Art Digest commented on "his spiral, cubistic designs". In 1944, reviewers were struck by "the damask-like designs created by ribbons of color". The next year a critic commented on Quirt's "freedom from insistence on an old style— he abandons his usual flat patterns of sinuous black lines intricately convoluted and set against backgrounds of blazing color for a pattern of cool, low notes, admirably adjusted".

Now, according to Betty Kurtze, assistant director of the St. Paul Fine Arts gallery, his pictures are "characterized by a new intensity of color—these paintings are likely to be the threshold of Walter Quirt's greatness".

AMERICAN AUTHORS'  
FIRST EDITIONS  
DISPLAYED AT 'U'

(FOR IMMEDIATE RELEASE)

A group of 35 first editions of works of well-known American authors is now being displayed at the University of Minnesota library according to an announcement this week by Mrs. Eileen Michels, art librarian.

The books, on view in the lobby display cases, include first editions of Thoreau's "Walden", Hawthorne's "Twice Told Tales" and some of Poe's early poems.

A book which arouses much curiosity in viewers is "A History of New York, From the Beginning of the World to the End of the Dutch Dynasty" written by Diedrich Knickerbocker and published in 1809.

The display, made up of books from the library's "Z", or treasure, collection, will be on view for approximately two months.

MORE THAN 500  
NEW 'U' STUDENTS  
TO BE ORIENTED

(FOR IMMEDIATE RELEASE)

More than 500 new students at the University of Minnesota will take part in the winter quarter orientation-registration program Dec. 29-30. This is the largest number of students to be enrolled in this winter quarter pre-class program in the history of the University's student activities bureau, according to Donald R. Zander, coordinator of the orientation program.

The program, planned by the office of the dean of students in cooperation with all University faculties and departments, is designed to acquaint new students with the University, campus activities and registration procedures.

Scheduled for the first day of each session are general orientation group meetings, testing, physical examinations and guided tours of the campus. On the second day, new students receive registration materials, attend college meetings and meet advisers to arrange their winter quarter class schedules.

Sixteen University upperclassmen will work with Zander as group sponsors for the orientation tours. Sponsors for the 20-student groups will be, from Minneapolis and suburbs: Dick Stanford, 892 Wilder st., SLA (college of science, literature and the arts) junior; Suanne Bergan, 3938 Dakota ave., St. Louis Park, SLA junior; Eric Nathanson, 4104 Drew ave. S., SLA sophomore; Judy Carpenter, 4650 W. Broadway, Robbinsdale, SLA sophomore; Gerald Schultz, 5144 Park ave., institute of technology senior; Patricia Lines, 5328 Hampshire, N., SLA junior; and Marilyn Mattson, 3301 45 ave., S., SLA sophomore.

Group leaders from St. Paul will be John Mears, 1635 Summit ave., SLA senior; Nancy Arme, 962 St. Clair ave., SLA junior; Judy Johnson, 2111 Commonwealth ave., also a junior in SLA; and Marian McGrail, 625 Stewart, South St. Paul, SLA sophomore.

Student leaders from outside the Twin Cities are: Ellsworth Gerritz, Manhattan, Kans., University college senior; Janet Karon, 317 N. 20th ave., E., Duluth, SLA sophomore; Paula Vertelney, 1914 Lawn st., Duluth, SLA sophomore; Susan Popp, Hutchinson, SLA senior; and Lorrie Rice, 82 Woodland drive, Fargo, N.D., SLA junior.

LILLEHEI, BUCHTA  
WILL PARTICIPATE  
IN SCIENCE MEET

(FOR IMMEDIATE RELEASE)

Two University of Minnesota faculty members will participate in the 125th annual meeting of the American Association for the Advancement of Science in Washington, D. C., from Dec. 26-31.

Dr. C. Walter Lillehei, professor of surgery in the University's medical school, will deliver a paper on "Advances in Surgical Treatment of Congenital Heart Disease Utilizing the Heart Lung Machine" on Tuesday, Dec. 30.

Professor J. William Buchta, associate dean of the college of science, literature and the arts, is chairman of the association's cooperative committee on the teaching of science and mathematics and will preside at committee meetings throughout the session.

UNIVERSITY OF MINNESOTA  
NEWS SERVICE—214 ADM. BLDG.  
MINNEAPOLIS 14, MINN.  
D. C. 22, 1958

(FOR RELEASE SUNDAY, DEC. 28)

A poured-tar surface, heavily sanded, on which the artist executes his designs with his toes— crumpled paper applied to canvas and then covered with paint and lacquer— <sup>paper</sup> inverted paint tubes imbedded in the impasto surface of a brilliant vermilion painting— these are some of the "new techniques" of the Japanese artists making up the Gutai Group of Osaka whose work will be exhibited at the University of Minnesota gallery during the month of January.

The 25 paintings which will be exhibited in the galleries in Northrop Memorial auditorium are done by a frankly experimental group who, for the first time, are breaking with Japanese tradition by the practice of non-objective art. While overtones of an ancient and proud culture can be found, according to the Martha Jackson gallery of New York, American sponsors of the show, none of the over-skilled tastefulness and virtuosity of the artist-artisan remains.

The exhibition is an exchange with the Gutai Group under whose sponsorship the work of 25 American artists will be shown in the International Art of A New Era exhibition in Japan. Paintings shown here were chosen by Jiro Yoshihara, leader of the Gutai Group. Mr. Yoshihara is sponsor of the exhibition as well as one of the contributing artists.

'U' OFFERS 2nd  
SUMMER STUDY  
TOUR OF EUROPE

(FOR IMMEDIATE RELEASE)

Minneapolis ---The United Nations and world affairs will be the subject of the second European summer study tour to be sponsored by the University of Minnesota's general extension division and the Minnesota World Affairs Center in 1959.

The basic program from July 3 to August 1 will center on a three-week seminar on international institutions and organizations offered by the University of Geneva in Switzerland. Lectures will be given by officials of international organizations headquartered in Europe, including the International Labor Organization, World Health Organization, World Council of Churches, International Red Cross, Interparliamentary union and the European office of the United Nations. The course will include discussions, seminars and visits to the headquarters of many of these groups.

One week in Spain will precede the Geneva stay, and the tour will be extended for those wishing to visit Italy, Germany, France and England.

W. Donald Beatty, associate professor of history at the University and a specialist in Hispanic-American history, will lead the first part of the trip. John E. Turner, associate professor of political science, whose field is cooperative government, will head the extended tour.

Leader of last year's tour was William C. Rogers, director of the World Affairs Center.

Although the course does not carry academic credit, all participants will receive attendance certificates from both the University of Minnesota and the University of Geneva. Additional information can be obtained by writing the World Affairs Center at the University or by calling the Center at FE. 8-8791.

'U' WILL PUBLISH  
STATE GEOGRAPHY  
BY PROF. BORCHERT

(FOR IMMEDIATE RELEASE)

Minneapolis ---The University of Minnesota Press next month will publish a book designed to help the young people of the state understand how their state developed as it did, what it looks like today and why. The book, "Minnesota's Changing Geography" by John R. Borchert, will be published January 2.

Professor Borchert, head of the University's geography department, was assisted by consultants from public schools in the planning of the book. It is designed especially for use as a social studies textbook in the fourth to sixth grades and also as a reference book in school and public libraries as well as for individuals.

The story, pictures and maps tell of Minnesota's changing geography but the subject embraces a good deal that lies beyond the boundaries of the state. The account of the settlement of the land, its industry and commerce, its climate and other aspects of the state's story presents the state in perspective as part of the nation and the world.

The book contains 191 pages in a large format, size 8 $\frac{1}{2}$  by 10 $\frac{1}{2}$  inches. It has 83 photographic illustrations and 37 maps. In a section of facts about Minnesota at the back of the book tables provide statistics on Minnesota's population, county by county, on area, temperature and rainfall, and significant dates in the state's history.

The trade edition of the book, which will be available in bookstores, has a jacket featuring a relief map of Minnesota outlined against a black background.

(FOR IMMEDIATE RELEASE)

"Music of Latin America" will be featured on six consecutive Wednesdays commencing January 7 on the 2:30 Afternoon Concert program on the University of Minnesota's radio station, KUOM. The series will be presented by the 22-year old composer, Jose Serebrier of Uruguay, this year's winner of the Antal Dorati scholarship. He is now studying conducting and composing at the University.

The music of the foremost Brazilian composer, Heitor Villa-Lobos, will be discussed and demonstrated through recordings by Serebrier on his first program Wednesday (Jan.7). On subsequent programs he will present the music of the Mexican composer-conductor, Carlos Chaves and the works of the Argentinian, Alberto Ginastera. Music composed by the two Uruguayians, Guido Santorsola and Vincente Ascone, will be followed on later Wednesdays by the works of the Colombian, Luis Escobar and Juan Orrego Salas from Chili. Serebrier will include several of his own compositions on the broadcasts.

'U' TO PRESENT  
TV SERIES ON  
"ADVERTISING, 1959"

(FOR IMMEDIATE RELEASE)

A new University of Minnesota television series, "Advertising, 1959", will start Monday (January 5) at 9:30 p. m. on KTCA-TV, Channel 2. William A. Mindak, assistant professor of journalism and a former advertising man, will conduct the series.

Monday's (January 5) program, the first in a 12-program series, will include a presentation of the scope of the advertising field and preconceptions, misconceptions and stereotypes of advertising.

Future programs will be "From Neanderthal Man to 'Organization Man'", "The Critic Looks at Advertising", "The Housewife Looks at Advertising", "Why Advertisers Ring Doorbells", "What About the 'Hidden Persuaders?'", "Madison Avenue, U. S. A.", "The Birth of an Advertising Campaign", "The Birth of a TV Commercial", "All Business Is Local -- The Newspaper", "Brainstorming" and "The Future of Advertising".

VANISHING BIRDS  
TO BE SUBJECT  
AT MUSEUM SUNDAY

(FOR IMMEDIATE RELEASE)

Walter J. Breckenridge, director of the Minnesota Museum of Natural History, will discuss extinct and vanishing birds and wild life at 3 p. m. Sunday (January 4) in the Museum auditorium at the University of Minnesota. The program is open free to the public.

A film on the whooping crane will illustrate Breckenridge's talk, and he also will discuss the ivory-billed woodpecker, the swallow-tailed kite, the California condor and others.

At the January 11 program, William H. Marshall, University professor of entomology and economic zoology, will speak on "Growth in the Field of Game Management".

THEOLOGIAN TO TALK  
AT 'U( WEDNESDAY

UNIVERSITY OF MINNESOTA  
NEWS SERVICE—214 ADM.BLDG.  
MINNEAPOLIS 14, MINN.  
DEC. 31, 1958

(FOR RELEASE TUESDAY, JAN. 4)

The Rev. Jaroslav Pelikan, associate professor of historical theology at the Federated Theological Faculty, University of Chicago, will speak on the topic "Beyond Togetherness: A Religious View of Community" at 7:30 p.m. Wednesday (Jan. 7) in the Minnesota Museum of Natural History auditorium at the University of Minnesota. The public is invited to attend Dr. Pelikan's address which is sponsored by the University's Student Council of Religion as part of its annual speakers' program.

Dr. Pelikan, a graduate of Concordia college, Fort Wayne, Ind., Concordia seminary, St. Louis, and the University of Chicago Divinity school, will discuss the religious significance of the current emphasis upon the community as distinguished from earlier emphasis upon the individual. He has written and contributed to four books and is one of the editors of "Luther's Work", now being published.

'U' THEATER TO STAGE

SHEPIDAN'S 'RIVALS'

THURSDAY AT 11:30

University of Minnesota  
News Service—214 ADM. BLDG.  
MINNEAPOLIS 14, MINN.  
DEC. 31, 1958

(FOR IMMEDIATE RELEASE)

Shepidan's comedy, "The Rivals", will be presented by the University of Minnesota Theater on Tour at the first University convocation for the New Year Thursday (Jan. 8) in Northrop Memorial auditorium. The public is invited to the free performance which will run from 11:30 a.m. to 1:20 p.m.

The presentation of "The Rivals" marks the third year in a row that the University of Minnesota Theater has toured productions of great classic comedies. Two years ago the company presented Shakespeare's "A Midsummer Night's Dream" and last season, his "Taming of the Shrew".

Directed and costumed by Robert D. Moulton, assistant speech professor, this year's production of "The Rivals" will display settings by Wendell J. Jocal, also an assistant speech professor. Frank M. Whiting, director of the University Theater, accompanies the cast as tour manager. Whiting has led Minnesota Theater tours to Europe, South America and the Orient during the last two years, as well as "skipped" the theater's recent acquisition, the Minnesota Centennial "howboat".

University students making up the cast of "The Rivals" are: Sandra Anderson, John P. Blue, William Boughton, Charles Droege, Elizabeth Earl, Robert Hansen, William Hillard, James Horwill, Janet Knudson, Thirley Varnard May, Gary D. Schuls and Mary Jo Trainer.

The convocation performance of "The Rivals" is sponsored by the University department of concerts and lectures.
