IVAR GLEMMING
TO COORDINATE 'U'
MUSIC TELECASTS

(FOR IMMEDIATE RELEASE)

"At Home With Music", the University of Minnesota music department's weekly TV music program to be heard on Monday nights over station KTCA, Channel 2, at 9:30 p. m. this academic year, will be coordinated by Ivar Glemming.

Violinist Glemming, a member of the Minneapolis Symphony orchestra from 1921 to 1931, came to the University's Minneapolis campus this fall from the St. Paul campus where he directed the band and orchestra and taught music theory in the school of agriculture.

On Monday, Oct. 17, Johannes Riedel, program pianist and music professor, will demonstrate what Latin American musicians do with and to North American rhythms and tunes. Both popular dance tunes and religious songs will be used as illustrations.

Also scheduled for University fall quarter appearances on the "At Home With Music" programs are: Oct. 24, Alfred T. Loeffler, Jr., violaist; Oct. 31, Philip B. Lillestol, harpsichordist; Nov. 7, Paul R. Knowles, tenor; Nov. 14, Norman E. Abelson, bass-baritone; Nov. 21, Paul Freed, pianist; and Nov. 28, George L. Houle, clarinetist.

KUOM TO AIR
'YALE REPORTS'

(FOR IMMEDIATE RELEASE)

"Yale Reports", a series of discussion on subjects of general interest, will be broadcast on KUOM, University of Minnesota radio station, at 4 p. m. on Thursdays, beginning Oct. 6 and continuing through the fall.

Five programs will be devoted to the subject "Alcohol and the Citizen", three to "The World Economy" and four to "The Emergence of the Caribbean Region". The first program features experts from Yale's Center of Alcohol Studies.

On these programs, Yale university faculty and visiting personalities to the Yale campus will participate. Hostess for each program is Mrs. Edith Kerr.

NIGERIAN STUDENTS
AT 'U' TO MARK
NATION'S INDEPENDENCE

(FOR IMMEDIATE RELEASE)

Nigerian independence will be celebrated by University of Minnesota Nigerian Student association members and their guests in a series of activities Friday and Saturday (Oct. 7-8) on the University campus.

Though Nigeria received her independence Saturday, Oct. 1, the local celebration has been postponed until this weekend because of many other school-opening activities, according to A. F. Andrew-Jaja, University pre-medical student and Nigerian Student association representative.

A 5:15 p. m. soccer match with Macalester college students at Macalester will open the Independence Day celebrations Friday, Andrew-Jaja said. The Independence Ball will be held at 9 p. m. in Coffman Memorial Union main ballroom. The ball will be free and open to the public.

Governor Orville L. Freeman and the Twin Cities Mayors, P. Kenneth Peterson, Minneapolis, and George Vavoulis, St. Paul, as well as all foreign counsuls in residence in the area have been invited to attend the Independence Day dinner at 6 p. m. in the Union junior ballroom. The Reverend George P. Hall, University Lutheran Student association director, will address the meeting.

PROFESSOR NIXON
TO OPEN ECUADOR
JOURNALISM CENTER

(FOR IMMEDIATE RELEASE)

Minneapolis --- Raymond B. Nixon, University of Minnesota journalism professor, has been invited by Latin American editors and journalism educators to conduct the first classes at the new International Center for Higher Education in Journalism in Quito, Ecuador.

Professor Nixon, editor of the Journalism Quarterly and president of the International Association for Mass Communication Research, will open a two-month session Monday (Oct. 10) at the Latin American center with a series of lectures comparing journalism in Europe and the Americas. His lecture, which will extend through the first week of classes, Oct. 10-15, also will cover the relation of journalism to public opinion.

The center in Ecuador is the second International Center for Higher Education in Journalism established under United Nations sponsorship. The first, at the University of Strasbourg, France, opened in 1957 to serve Europe, Africa and the Middle East. A recent conference in Bangkok, Thailand, planned a future program for Asia.

Purpose of the new Latin American center and its European counterpart, is to help develop journalism education and practice in all lands.

Educators and journalists studying at the Quito center will be sponsored by professional organizations within their countries.

Professor Nixon was the United States representative to the 1958 United Nations Educational, Scientific and Cultural organization meeting in Quito at which the new Center was planned.

'U' CONVOCATION
TO GIVE BACKSTAGE
LOOK AT BALLET

(FOR IMMEDIATE RELEASE)

A backstage preview of the Royal Danish Ballet will be given at a special University of Minnesota convocation at 11:30 a. m. Wednesday (Oct. 5) in Northrop Memorial auditorium. The program is open free to the public.

The Ballet is scheduled to appear in Northrop auditorium at 8:30 p. m. Tuesday and Wednesday (Oct. 4 and 5) under auspices of the University Artists Course.

Wednesday's convocation will give the audience a look at the Ballet's backstage preparations, including scenery shifts, lighting and staging of properties. Three members of the company will explain the activities taking place, and will discuss touring, the Royal Theater in Copenhagen, the art of ballet and ballet techniques. The talks will be accompanied by demonstrations by some of the company's dancers.

Narrators for the backstage program will include Jens Louis Petersen, general manager of the Royal Danish Ballet; Bengt Hoeberg, state director; and Niels Bjorn Larsen, balletmaster.

The convocation will be sponsored by the University's department of concerts and lectures.

GENETICIST'S TALK
TO BE BROADCAST
FRIDAY ON KUOM

(FOR IMMEDIATE RELEASE)

"The Human Biological Future", a talk delivered by Professor Hermann J. Muller of Indiana university on the University of Minnesota campus, will be broadcast on KUOM, University of Minnesota radio station, at 1:30 p. m. Friday (Oct. 7). Professor Muller will discuss possible changes in human heredity which might occur during the next 10 or 20 generations.

Muller received the 1946 Nobel prize in genetics for research done at the University of Texas in the late 1920's and early 1930's. His experiments showed that X-rays could produce mutations in germinal cells causing heredity changes in offspring of irradiated individuals.

He has been the "distinguished service professor of zoology" at Indiana University since 1953.

The lecture was originally delivered on the University campus September 21 and was sponsored by the University's Dight Institute for Human Genetics and department of concerts and lectures and by the Minnesota Human Genetics League.

'U' GEOLOGY PARTY TO EXPLORE
TWO ANTARCTIC MOUNTAIN RANGES

(FOR IMMEDIATE RELEASE)

Minneapolis --- A nine-man University of Minnesota geology expedition, headed by geologist Campbell Craddock, will leave for Antarctica this month to conduct studies of two unexplored mountain ranges in eastern Marie Byrd Land. The party will leave from Washington, D. C., Oct. 23 and will return March 1.

The expedition is financed by an \$85,080 grant to the University from the National Science Foundation's United States Antarctic Research program to conduct a study of bedrock and glacial geology in eastern Antarctica. This year's project is a continuation of a University expedition made in 1959-60.

While Craddock, an associate professor of geology, is on fall and winter quarter leave, his classes will be taught by E. K. Walton, visiting assistant professor from the University of Edinburgh, Scotland.

Second in command to Craddock on the expedition will be Robert H. Rutford, University graduate student in geology. Other University members of the group will include Dr. Raymond C. Bonnabeau, Jr., resident fellow in surgery, the expedition's physician, and geology graduate students Thomas W. Bastien, 4335 Lyndale ave., S., Minneapolis; Thomas P. Miller, Duluth; Paul G. Schmidt, Granite Falls; John F. Splettstoesser, Waconia; and Gerald F. Webers, Racine, Wis. Ninth member will be a surveyor from the United States Geological Survey. Splettstoesser and Miller will leave ahead of the rest of the group on Oct. 10.

Craddock's party will be flown from Washington to Christ Church, New Zealand, by the Military Air Transport service. From there Navy planes will take the group to the main Antarctic base at McMurdo Sound, then on to Byrd station in the interior.

(MORE)

The University scientists will spend the first two months of the expedition surveying an unnamed mountain range discovered on last year's expedition headed by Craddock and Edward C. Thiel, research associate at the University of Wisconsin Antarctic Research center. (Thiel will join the University of Minnesota faculty on Jan. 1).

The group will be flown to the mountains, located on the Eights Coast, by Navy ski plane from Byrd Station.

Late in December, the party will be transferred to the Sentinel Mountains, largest unvisited mountain chain in the world. Sighted in 1929, the 100-mile mountain range has peaks rising to 15,000 feet out of the ice cap, which is 1,000 to 4,000 feet above sea level. An overland expedition tried to reach the mountains in 1958-59, but huge crevasses in the surrounding glacial ice forced the party to turn back.

Craddock's party will install a semi-permanent base camp in the foothills of the mountains and conduct reconnaissance in preparation for a complete study of the area to be made next year.

Both mountain camps will be more than 300 miles from any other human beings. Only contact with the outside world will be by radio. Temperatures during the Austral summer, which will be starting when Craddock's party arrives in the Antarctic, will range down to 40 to 50 degrees below zero.

Overall objective of the expedition's studies will be to determine the relation of these unexplored Antarctic mountains to the Andes in South America and to throw further light on a theory that the Antarctic was once part of Gondwanaland, a continental land mass comprised of Antarctica, South Africa, India, Australia and Brazil.

'U' WILL HONOR
5 MINES ALUMNI

(FOR IMMEDIATE RELEASE)

Minneapolis --- Five graduates of the University of Minnesota school of mines and metallurgy, who have made pioneering achievements in their fields, will be presented University Outstanding Achievement Awards Friday (Oct. 7).

Presentation will be made during the school's third five-year alumni reunion, a two-day program including an open house Saturday (Oct. 8) in the year-old mines and metallurgy building. A semi-taconite pilot plant demonstration will be staged at 10 a. m. Friday in the Mines Experiment station on the Mississippi river bank.

The Achievement award recipients are:

George M. Drake, Minneapolis, president of Johnson, Drake and Piper, Inc., international contractors; Herman F. Davies, San Francisco, president of the California Exploration company of Standard Oil company of California; Elmer A. Jones, Bonne Terre, Mo., manager of the Southeast Missouri division of St. Joseph Lead company; Fred DeVaney, Duluth, metallurgy and research director for Pickands Mather and company; and Thomas S. Lovering, Denver, Colo., chief of the United States Geological Survey's geochemical exploration section.

University President O. Meredith Wilson will present the awards, consisting of a gold medal and citation, at a 7 p. m. dinner in the Nicollet hotel, Minneapolis. Other guests of honor will include retired professors from the school of mines and past Achievement award recipients.

Friday's five award winners will deliver individual lectures beginning at 2:30 p. m. Friday in Murphy hall auditorium on the theme "The Mineral Industry in the Space Age" as part of the school's Warren lecture series.

The speakers and their topics will be: Drake, "Sidelights on the Mineral Industry"; Davies, "The Petroleum Industry at the Beginning of the Space Age", Jones, "The Mineral Industry and Its Future Problems"; DeVaney, "Mineral Concentration and Preparation for the Space Age"; and Lovering, "The Geosciences and the Soviet Challenge".

(MORE)

ACHIEVEMENT AWARDS

- 2 -

The Achievement award recipients have distinguished themselves in five separate engineering fields.

Drake, a Madelia, Minn. native, began his career as a construction straw boss and worked his way through the ranks to help found and head the world-wide operations of Johnson, Drake and Piper, Inc., which builds highways, airfields, dams and bridge formations. He received The Moles Award for 1960, given by an organization of heavy construction industry leaders.

Davies, who joined Standard Oil company in 1923 as a geologist, now heads foreign exploration activities for the California company. A native of Minneapolis, he was responsible for the discovery in the 1920's and 1930's of several oil fields in the Rocky Mountains.

Jones, an authority on trackless mining, guides the operation of 20 mines for the St. Joseph Lead company. Under his direction the company has discovered and developed a major iron ore mine at Pea Ridge and the new Viburnum Lead district, both in southeastern Missouri. In 1957, he was elected first president of the new Society of Mining Engineers of the American Institute of Mining, Metallurgical and Petroleum Engineers. Jones also is a native of Minneapolis.

DeVaney, a recognized world authority on taconite beneficiation, has been largely responsible for the process design used in the Erie Taconite plant at Aurora, Minn., and has conducted extensive research on low grade ores. He has invented and patented some 20 concentration and pelletizing processes. DeVaney is a native of Waubay, S. D., and a former resident of Minneapolis.

Lovering has conducted many geologic field investigations to uncover hidden mineral wealth and is author of the book "Minerals in World Affairs" and numerous scientific articles. The St. Paul born geologist was a United States representative to the 1955 International Conference on Peaceful Use of Atomic Energy in Geneva.

MATERNITY NURSING
PROBLEM CLINIC
AT 'U' NEXT WEEK

(FOR IMMEDIATE RELEASE)

The University of Minnesota will conduct its first problem clinic on maternity nursing in small hospitals Monday and Tuesday (Oct. 10 and 11) in the Center for Continuation Study on the Minneapolis campus.

Current problems and suggestions for improving maternity nursing practices will be discussed during the clinic.

Physical, administrative, personnel and communication aspects of hospital maternity departments will be considered on the first day of the clinic, Monday. Care of the maternity patient will be Tuesday's main topic.

Guest faculty members will include Clarice Agerlie, Minneapolis, Fairview hospital clinical instructor; Helen E. Bell, director of the Red Wing School of Practical Nursing; Kimi Hara and Gertrude Henning, state health department maternal and child health nursing consultants; Helen Hatlelid, Nobles county nurse; Arwood Miller, St. Paul, United States Army Corps of Engineers personnel director; Ann Pavlich, state health department maternity nursing consultant;

Margery Peck, Worthington Municipal hospital head nurse in the maternity department; A. B. Rosenfield, state health department director of special services; Sister M. Margaret, maternity department supervisor at St. Joseph's hospital, Brainerd; and Sister Paul Damion, maternity department supervisor at St. Mary's hospital, Minneapolis.

THREE ECONOMICS
FACULTY MEMBERS
APPOINTED AT 'U'

(FOR IMMEDIATE RELEASE)

Three faculty appointments in the University of Minnesota economics department and in the Upper Midwest Economic Study were announced Wednesday (Oct. 5) by Dean Paul V. Grambsch of the school of business administration.

Leonard W. Weiss, who is on leave from San Jose State college, California, has been appointed visiting associate professor of economics for the 1960-61 school year. He will be in charge of the economics department's National Defense Fellowship program. Professor Weiss is the author of the book "Economics and American Industry" to be published in January.

Larry A. Sjaastad, who has been studying for the doctor of philosophy degree at the University of Chicago, has been named lecturer in economics and research associate in the Upper Midwest Economic Study. R. Stephen Rodd, who has been doing graduate work at the Massachusetts Institute of Technology, also was appointed a research associate in the Upper Midwest study.

Economics department faculty members on leave for the current school year are Professor John A. Buttrick, who holds a Ford Foundation faculty research fellowship for research on the economics of decentralization; Professor John S. Chipman, who is visiting professor of economics at the Catholic University of Chile; and Professor I. Richard Savage, visiting professor of statistics at Harvard university's graduate school of business administration.

Department faculty members who have returned to their teaching duties this year after 1959-60 leaves of absence are Associate Professors Arthur M. Borak, John H. Kareken and Jacob Schmookler and Assistant Professor Peter Gregory.

'U' HOMECOMING
WEEK FESTIVITIES
TO START TUESDAY

(FOR IMMEDIATE RELEASE)

Minneapolis--- University of Minnesota alumni and students will join forces to "Boil-Illin-Oil" during the 1960 Homecoming Week celebrations starting Tuesday (Oct. 11) and continuing through the Minnesota-Illinois Homecoming football game Saturday, Oct. 15.

Dedicated to the University's new president, O. Meredith Wilson, and to the alumni, 1960 Homecoming festivities will open officially at 10:30 p.m. Tuesday at the Coronation Ball in Coffman Memorial Union main ballroom. Crowning the 1960 Homecoming Queen at midnight will be the new Alumni King, chosen by vote of Minnesota alumni chapter members. Louis Johnson's orchestra will play.

With Wednesday, (Oct. 12) a holiday at the University, no official Homecoming activities are scheduled, according to Ronald Wills, 1960 Homecoming committee general chairman. However, dormitories, fraternities and sororities participating in the parade units and house-decorating competitions will be busy completing their floats and house decorations.

Coffman Union Activities Day Thursday (Oct. 13) will feature the Union Board of Governors' sponsorship of the Charm, Inc., style show at 12:30 p.m. in the main ballroom, the Queen's tea at 3:30 p.m. in the women's lounge and the finals of the annual bridge tournament.

A highlight of every Homecoming--- the parade of floats, bands, marching units and fun groups--- will accent the 1960 Homecoming victory slogan, "Boil-Illin-Oil" on Campus Activities Day, Friday (Oct. 14). The parade, which, this year, will skip the downtown tour and appear only in "Dinkeytown" and on the campus, will begin at 12:15 p.m.

MORE

1960 HOMECOMING---

The 1960 Alumni King will join the football coach and team members as well as Minnesota cheerleaders in leading the annual Homecoming pepfest at 8 p.m. Friday evening (Oct.14) in a new location, the West Bank parking lot, 21st ave.,S.. and Washington ave. Plans call for the crowd to snake-dance across the Washington avenue bridge to the University band practice field and parking lot, No. 33, at 17th ave. and 4th street,S.E., where the traditional street dance will be held after the pepfest. "Brad" Johnson, WTCN radio and television disk jockey will play records for the dancing.

Following release of maroon and gold balloons at the 1:30 p.m. kickoff of the Minnesota-Illinois football game Saturday, Oct. 15, in Memorial stadium, Homecoming festivities will dominate the half-time activities.

Climaxing 1960 Homecoming festivities will be the annual Homecoming dance at 9 p.m. Saturday, Oct. 15, in Coffman Union main ballroom. This year's dance will feature the Four Preps, "Tex" Benneke and the Glenn Miller orchestra, "Doc" Evans and his Dixieland band, and the orchestras of Harry Troble, Dick Marrone and Bill Bright.

LAW ADMISSION
TESTS ANNOUNCED

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCTOBER 6, 1960

(FOR IMMEDIATE RELEASE)

The Law School Admission Test, required of applicants for admission to the University of Minnesota law school as well as to a number of other leading American law schools, will be given at more than 100 centers throughout the United States on the mornings of Nov. 12, 1960, Feb. 18, April 15 and Aug. 5, 1961.

In Minnesota, the tests will be given at the University of Minnesota on all four dates; at the William Mitchell college of law in St. Paul on April 15 and Aug. 5; and at St. Mary's college, Winona, Nov. 12.

The test, prepared and administered by the Educational Testing Service, Princeton, N. J., was taken by more than 19,000 applicants during the 1959-60 academic year, with scores sent to more than 100 law schools.

Law school candidates planning to enter schools requiring the test must make application to the law school of his choice, inquiring whether it wishes him to take the test and when. Since many law schools select their freshman classes in the spring preceding their entrance, candidates for next year's classes are advised to take either the November or the February tests.

The Law School Admission Test features objective questions measuring verbal aptitudes and reasoning ability rather than acquired information, and cannot be "crammed for". Sample questions and information regarding registration for and administration of the test are given in the Testing Service's bulletin of information.

The bulletin, in which an application for the test is inserted, should be obtained four to six weeks in advance of the desired testing date from the Law School Admission Test, Educational Testing Service, 20 Nassau St., Princeton, N. J. Completed applications must be received at least two weeks before the desired testing date in order to allow the service to complete the necessary testing arrangements for each candidate.

TWO MINNESOTA MEDICAL SCIENTISTS
HONORED BY MEDICAL FOUNDATION

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCTOBER 6, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Two of the University of Minnesota's foremost medical educators and scientists were recipients of the first Distinguished Service Awards of the Minnesota Medical Foundation given Monday, Sept. 26, 1960, in ceremonies at the University's medical school.

Dr. Maurice B. Visscher and Dr. Owen H. Wangensteen were honored by surprise with certificates and accompanying awards which will pay them each \$5,000 annually until retirement.

The awards, made possible by contributions to the Foundation from two Minneapolis foundations, were presented by Dr. Herman E. Drill, Foundation president, during the annual Minnesota Medical Foundation Day ceremonies.

Drs. Visscher and Wangensteen were cited "for exemplary achievement in teaching and research as members of the faculty of the University of Minnesota medical school, and for steadfast devotion to the medical school, the University and to medical education".

The grants, and similar ones which the Foundation hopes to provide in the future, Dr. Drill said, are an effort to strengthen the medical faculty and to reward distinguished performance in medical teaching.

Dr. Visscher, 59, has been head of the University's department of physiology since 1936. His award was made possible by a grant from the Modern Medicine Publications Foundation, charitable arm of Modern Medicine publications. The firm publishes five medical journals from its Minneapolis headquarters and decentralized operations in Great Britain, Canada and Australia.

Dr. Wangensteen's award was a contribution of the Phillips Foundation of Minneapolis. He is 62 years old and has been chairman of the University of Minnesota's department of surgery since 1930.

Normal retirement age for faculty members is 68 years.

(MORE)

University President O. Meredith Wilson, principal speaker at the Minnesota Medical Foundation Day ceremonies, lauded the support of private contributors to the medical school. He said he would recommend the Distinguished Service awards be designated Distinguished Service Professorships by the University's Board of Regents, thus heightening the honor by affording full academic recognition. This was accomplished a week later.

Dr. Visscher was graduated from the University of Minnesota medical school in 1931, and served at academic posts at the Universities of Tennessee, Southern California and Illinois in succeeding years. He is a native of Holland, Mich., and is a graduate of Hope college in that city. He did graduate study in London and at the University of Chicago. He received the doctor of philosophy degree from the University of Minnesota.

He is a member of the National Academy of Sciences, and is recognized among the world's top physiologists.

Dr. Wangenstein earned his medical degree from Minnesota in 1922. He became a resident surgeon at the University in 1925 and was named chairman of the department of surgery in 1930, becoming a full professor in 1931. Under his leadership, the department of surgery has won international recognition for pioneering work in surgical treatment for peptic ulcer, bowel obstruction, cancer and various types of heart disease. The University's noted team of heart surgeons are products of his department. He is president of the American College of Surgeons this year.

The Foundation Day ceremonies also included awarding of scholarships to 32 University of Minnesota medical students. Based on academic achievement and financial need, the awards amounted to \$16,500. They brought the 12-year history of the scholarship program to a total of 215 awards, worth \$110,000.

As in previous years, the scholarships were made possible by direct contribution of various medical organizations, other foundations, physicians, business firms and private citizens. All awards were \$500, except two, which were \$750.

'U' DADS' DAY
SLATED NOV. 12

(FOR IMMEDIATE RELEASE)

Minneapolis --- The annual Dads' Day at the University of Minnesota will be held Saturday, Nov. 12, the day of the Minnesota-Purdue football game. One of the University's long-standing traditions, Dads' Day is an invitation for fathers and mothers of University students to visit the campus.

For the first time this year, tours of major educational and research facilities will be included in the day's program. The guests will visit the school of physics, the University student health service, the gamma irradiation laboratory, the new architecture building, the speech and hearing clinic, the computer center and the library. Tours will leave at 9:30 a. m. from Coffman Memorial union main ballroom.

Lunch with University President O. Meredith Wilson and members of the Board of Regents will be held at 11:30 a. m. in the Union main ballroom.

Many of the visiting parents will attend the Gopher football game following the luncheon.

The University Dads' association, which sponsors Dads' Day, was established to promote the welfare of students and to work actively for advancement of the University's educational and social programs. Among projects of the association has been the establishment of an interest-free emergency loan fund for students.

President Wilson has called the Dads' association one of the most important groups providing active and moral support to the University. Membership in the association is open to fathers of all students and to fathers of former students.

Reservations for the Dads' Day luncheon can be made by writing to the Dads' Association, Room 200 Eddy hall, University of Minnesota, Minneapolis 14.

FOREIGN SERVICE
CAREERS TO BE
DISCUSSED AT 'U'

(FOR IMMEDIATE RELEASE)

Career opportunities in the United States foreign service will be discussed by a state department placement officer Tuesday (Oct. 11) at the University of Minnesota.

Foreign service officer Samuel R. Gammon will speak at 10:30 a. m. in Room 155 Ford hall and at 2:30 p. m. in Room 55 Ford hall.

A graduate of Texas Agricultural and Mechanical college system, Gammon has been in the United States foreign service since 1954 and served for a brief time as a consul in Milan, Italy. He received the doctor of philosophy degree from Princeton university in 1953 and taught history at Emory university before joining the Foreign Service Officer Corps.

He served in the United States army both during World War II and the Korea war.

In Last Year---
16,096 ADMITTED
TO 'U' HOSPITALS,
AMBERG REPORTS

(FOR IMMEDIATE RELEASE)

Minneapolis --- Patients admitted to University of Minnesota Hospitals during the year ending last June 30 totaled 16,096, according to the biennial report of Ray M. Amberg, hospitals director. In the preceding year, 1958-59, the hospitals cared for a total of 16,322 bed patients.

Outpatient visits totaled 119,602 in 1959-60 and 131,293 the previous year.

Although patient totals were down in the 1959-60 period, the daily average population was up from 561.5 in 1958-59 to 585.6. Average stay of bed patients also increased from 12.6 days to 13.3 days.

On July 1, 1960, the hospitals had a waiting list of 100 persons.

The costs of operating the hospitals continue to rise each year, Amberg reported. Average expense per patient day was \$37.45 in 1959-60, an increase of \$1.79 over the previous 12-month period. Outpatient cost rose from \$7.25 per visit to \$8.07.

Surgeons performed 10,550 operations in University hospitals during the year, an increase of 13 over the previous year's total.

The Masonic Memorial hospital of the University Hospitals treated almost twice as many patients in the last fiscal year as in the year before. Total number of patients was 730 as against 381 in 1958-59. The daily average census was up from 35.8 to 64.1.

The Variety Club Heart hospital admitted 1,844 patients compared to 1,636 the preceding year.

(MORE)

Amberg said the University Hospitals anticipate a comparable level of operation in 1960-61.

"Operating costs will continue to rise, and the increase must be met by an appropriate increase in charges," he said.

Amberg also pointed out that a shortage of skilled hospital personnel continues to exist, accounted for by many factors including increased demand for hospital services, widespread hospital construction and the constant increase in new and better medical techniques.

"While every effort will be made to recruit additional school personnel, more emphasis must be placed upon the better utilization of our existing staff," he declared.

In operation since 1909, the University Hospitals serve as a training ground for more than 500 medical students in addition to more than 900 student medical technologists, nurses, X-ray technologists, physical and occupational therapists, social workers, dietitians, pharmacists and dentists. Their work is carried on in the hospitals and outpatient department under the direct supervision and guidance of a staff of full-time and part-time instructors.

University Hospitals rules require that each patient must be referred for admission by his family physician or by a physician in his local community.

WEEKS, ATLANTIC
MONTHLY EDITOR,
TO SPEAK AT "U"

(FOR RELEASE SUNDAY, OCT. 9, 1960)

Edward Weeks, editor of The Atlantic Monthly, will address a University of Minnesota convocation at 11:30 a. m. Thursday (Oct. 13) in Northrop Memorial auditorium. Topic of his free public lecture will be "The Evolution of an American Writer".

The ninth editor of the famed literary magazine, Weeks is a successor to such men as James Russell Lowell, William Dean Howells and Ellery Sedgwick. He has served on the editorial staff of The Atlantic Monthly since 1924 -- first as a first reader, then as editor of the Atlantic books, and, since 1938, as editor-in-chief. Under his direction, circulation of the magazine has grown from 100,000 to more than 270,000.

Weeks is the author of the book "The Open Heart" and has edited several anthologies, including "Great Short Novels". His autobiography, "In Friendly Candor", was published in 1959.

The editor and writer studied at Harvard university and Trinity college under post-World War I scholarships.

A discoverer of many new authors, Weeks makes annual trips to England and the Continent in search of promising foreign material. He was one of four American writers sent to Russia in 1959 by the United States state department in a cultural exchange program. Weeks traveled 11,000 miles within the Soviet Union and became acquainted with many of its novelists, poets and editors.

The lecture will be sponsored by the University's department of concerts and lectures.

REGISTRATION FOR
COLLEGE TESTS
ENDS SATURDAY

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCTOBER 10, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Registration for the 1960-61 major test session of the American College Testing Program will close Saturday (Oct. 15), according to Ralph F. Berdie, director of the University of Minnesota student counseling bureau and state coordinator for the program.

The three-hour test will be given Saturday, Nov. 5, at approximately 50 testing centers located throughout Minnesota.

More than 18,000 Minnesota high school seniors are expected to take the test this year, Professor Berdie said. Last year, the first in the Minnesota ACT program, the test was taken by 14,000 students in Minnesota and by more than 125,000 in the nation.

Eleven private liberal arts colleges, five state colleges, three junior colleges and the University of Minnesota require or recommend that their applicants for admission or scholarship aid take the ACT test, according to Professor Berdie.

The test has four parts and five scores -- a composite score indicating overall college potential and four separate scores indicating levels of general capacity in English, mathematics, social studies and natural science.

Results of the tests are used by some 500 colleges and universities participating in the nation-wide American College Testing program, with which the Minnesota program is affiliated. They are used in student guidance, admissions and in the awarding of scholarship aid to the applicants as well as in placing freshmen in classes for programs suited to their abilities.

Students must register in advance for the test, Berdie said. Registration forms and accompanying instructions are available at the high schools.

Results and manuals showing how scores should be interpreted are furnished colleges indicated by the students and are sent to the students' high school for his and the school's use in guidance.

Minnesota colleges and universities participating in the program include Augsburg college, Austin Junior college, Bemidji State college, Bethany Lutheran college, the College of St. Benedict, the College of St. Scholastica, Concordia college in Moorhead, Concordia college in St. Paul, Hamline university, Hibbing Junior college, Macalester college, Markato State college, Minneapolis School of Art, Moorhead State college, Rochester Junior college, St. Cloud State college, St. John's university, St. Mary's college, Winona State college and the University of Minnesota.

Up 7 Per Cent---
U OF M ATTENDANCE
FALL QUARTER
TOTALS 28,277

(FOR IMMEDIATE RELEASE)

Minneapolis --- Fall quarter attendance at the University of Minnesota totals 28,277, an increase of 1,739 or about 7 per cent over the 26,538 figure of a year ago, True E. Pettengill, University recorder, reported Monday (Oct. 10).

Included in the 28,277 currently attending the University on a full-time basis are 25,399 on the Minneapolis-St. Paul campuses, 2,640 at Duluth and 238 in the new college program at Morris. A year ago, the Twin Cities campuses had 24,110 students and Duluth 2,428.

More new students entered the University this fall than a year ago, 9,389 as compared with 7,905, Pettengill reported. This year's newcomers included 6,629 freshmen, 2,374 students with advanced standing from other institutions and 386 new special students. Freshman enrollment is 1,240 or 23 per cent above last year's 5,389 total. Of the increase in freshmen, 942 are on the Minneapolis-St. Paul campuses. The college of science, literature and the arts alone enrolled 643 more freshmen this year than last for a total of 2,730 of the beginners.

Just under the 28,312 peak attendance of the post World War "veterans' bulge" recorded in the fall quarter of 1947, the 1960 total tops the postwar low of 18,682 students enrolled in the fall of 1951 by 9,595 or 51 per cent, Pettengill pointed out.

(MORE)

"The increase this fall of 1,739 students is about 800 more than we expected," R. E. Summers, dean of admissions and records, commented Monday. "There were larger-than-expected increases in freshmen, in advanced standing students and in the number of students continuing at the University and those returning after an interruption of their University programs. The enrollment of freshmen, particularly, was disproportionate to the recent growth in the number of Minnesota high school graduates."

Of the students attending the University this fall, 19,853 are men and 8,424 are women -- a ratio of men to women of approximately five to two. There are 857 (5 per cent) more men in the student body this year than last and 882 (12 per cent) more women.

Fall quarter enrollment totals since 1945, the last year of World War II, have been as follows:

1945.....	11,396
1946.....	27,103
1947.....	28,312
1948.....	27,243
1949.....	25,084
1950.....	22,080
1951.....	18,682
1952.....	18,806
1953.....	19,074
1954.....	20,399
1955.....	23,393
1956.....	25,307
1957.....	25,825
1958.....	26,568
1959.....	26,538
1960.....	28,277

'U' ATTENDANCE

- 3 -

Attendance figures for the various colleges at the close of the second week of the quarter follow:

COLLEGE	TOTAL	
	1959	1960
General College	2,285	2,429
University College	53	43
Science, Literature and the Arts	7,218	8,096

(FOR IMMEDIATE RELEASE)

"Rooms To Let", an exhibition of photographs and text by Frank E. Agar, Jr., University of Minnesota art department instructor, will open Monday (Oct. 17) in the University Gallery's third floor corridor exhibition space in Northrop Memorial auditorium.

The show, composed of 20 30-inch by 40-inch panels and 40 20-inch by 30-inch panels, is made up of photographs taken in the Twin Cities, North Dakota and San Francisco by Agar, who uses them, together with his written text, to tell the story of an elderly retired man living on Social Security.

The theme of the exhibition was researched by the artist with a grant in aid from the University graduate school.

The public is invited to attend the University Gallery tea and open house in honor of the show's opening from 3 to 5 p.m. Monday at the gallery.

(FOR IMMEDIATE RELEASE)

The 12th annual institute for student personnel workers will be conducted by the University of Minnesota Thursday and Friday (Oct. 13-14) at the Center for Continuation Study on the Minneapolis campus.

The role of the personnel worker in the student's personal and intellectual development outside of the classroom will be the theme of the institute.

Among questions to be discussed are: "What Is the Campus Climate for Cultural and Religious Values?" and "How Do We Maximize the Personal Resources of the Talented Student?".

The faculty will include University staff members Edmund G. Williamson, dean of students; Professor Henry E. Allen, coordinator of student religious activities; Professor Ralph F. Berdie, student counseling bureau director; Mabelle McCullough, student housing bureau director; Professor E. Paul Torrance, director of educational research; and Don Zander, student activities bureau director.

Visiting speakers will include Dean of Students Raymond Carlson of Bemidji State college; Steve Granger, director of student personnel services at the University of Minnesota, Morris; Sister M. Romana, placement director at College of St. Theresa, Winona; and Chester W. Wood, director of student personnel services, University of Minnesota, Duluth.

Five students in the college of science, literature and the arts who have been active in campus student activities will participate in panel discussions during the conference. They are Robert Anderson, junior, LaCrosse, Wis.; Sheila Berman, junior, 1223 Washburn ave., N., Minneapolis; Judy A. Carpenter, senior, 4650 West Broadway, Minneapolis; Eric M. Nathanson, senior, 4104 Drew ave., S., Minneapolis; and Norman T. Uphoff, sophomore, 2011 Franklin ave., S. E., Minneapolis.

The institute is co-sponsored by the University's Center for Continuation Study and the office of the dean of students.

'U' WILL PRESENT
ALUMNI AWARD
TO 3 EDUCATORS

(FOR IMMEDIATE RELEASE)

Minneapolis --- A college president and two deans will receive University of Minnesota Outstanding Achievement Awards Monday, Oct. 24, at the annual meeting of the College of Science, Literature and the Arts and the University College Alumni association.

The recipients are: the Rt. Rev. Monsignor James P. Shannon, president of the College of St. Thomas, St. Paul; Dean John Ely Burchard of the Massachusetts Institute of Technology's school of humanities and social science, Cambridge, Mass; and Dean Whitney Young, Jr., of the Atlanta (Georgia) university school of social work.

Dean E. W. McDiarmid of the University of Minnesota college of science, literature and the arts will present the awards at a 6 p. m. dinner in Coffman Memorial Union junior ballroom on the Minneapolis campus.

The Outstanding Achievement Award, consisting of a gold medal and a citation, is given to University alumni who have distinguished themselves in their chosen fields.

Monsignor Shannon, who received a master of arts degree from the University in 1951, was named president of the College of St. Thomas in 1956. He was graduated summa cum laude from St. Thomas in 1941, completing his collegiate course in three years. In 1955, he received the doctor of philosophy degree from Yale university, where his dissertation on American History was awarded the George Washington Egleston prize. He was named St. Paul's Outstanding Young Man of 1956 by the Junior Chamber of Commerce and he was appointed an honorary domestic prelate of the papal household this year, with the rank of right reverend monsignor. He was born Feb. 16, 1921, in St. Paul.

(MORE)

Dean Burchard, a noted architect and architectural critic, attended the University of Minnesota in 1915-17. He was graduated from the Massachusetts Institute of Technology in architectural engineering and received a master of science degree from MIT in 1925.

During World War II, Burchard served as executive officer of various National Research council committees and held several posts with the office of scientific research and development. He was awarded the Presidential Medal for Merit in 1948. Burchard was born Dec. 8, 1898, in Marshall, Minn.

Dean Young, who received a master's degree from the University of Minnesota in 1947, is a principal spokesman for a program of re-education in eliminating discriminatory racial practices and opening employment opportunities for Negroes. As director of the Omaha, Neb., Urban League in the early 1950's, he was credited with the solution of many inter-racial problems in that city. He was director of industrial relations and vocational guidance for the St. Paul Urban League in 1947-50. He received the 1959 Florine Laskar Award for outstanding contributions to social work.

Born July 21, 1921, in Lincoln Ridge, Ky., Dean Young is a graduate of Kentucky State college.

Tickets for the meeting of the College of Science, Literature and the Arts and the University College Alumni association may be purchased by calling or writing the Alumni office on the Minneapolis campus.

NATIONAL SCIENCE
GRANT AIDS 'U'
AIR FLOW STUDY

(FOR IMMEDIATE RELEASE)

A National Science Foundation grant of \$44,400 for support of basic research on "Periodically Fluctuating Air Flows at Low Reynolds Numbers" has been awarded to the University of Minnesota.

The three-year grant will be directed by August R. Hanson, aeronautical engineering assistant professor.

The research work, in part, will be concerned with measuring the drag produced by fluctuating air flows, according to Hanson. Of particular interest will be the "wake" cast by the small wire against which the air flow will be thrown.

The research, to be done on small-scale apparatus, will be conducted on the University's Minneapolis campus.

NAVY R AND D
CLINIC TO OPEN
WEDNESDAY AT 'U'

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
Federal 2-8158 EXT. 6700
OCTOBER 14, 1960

(FOR IMMEDIATE RELEASE)

Approximately 400 industry scientists, engineers and officials from Minnesota and surrounding states will attend a United States Navy research and development clinic Wednesday and Thursday (Oct. 19-20) at the University of Minnesota.

The Navy will present its technical problems to these business representatives in an effort to enlist local industry talent in finding solutions to such problems as missile control and food preservation. The polaris missile and radar systems will come up for discussion in secret sessions, open only to industry representatives with security clearance.

James H. Wakelin, Jr., assistant secretary of the Navy for research and development, will address the opening session at 10:30 a.m. Wednesday in Mayo Memorial auditorium. He will discuss overall "Business Opportunities in Naval Research and Development".

University President O. Meredith Wilson will welcome the clinic participants. Dean Athelstan F. Spilhaus of the institute of technology will preside over the first session, at which Sen. Hubert H. Humphrey of Minnesota also will speak.

The Navy's small business programs will be reviewed at a noon luncheon Wednesday in Coffman Memorial Union main ballroom. The speakers will be Capt. Barkdull Kahoa, chief of small business for the office of navy material, and Arthur H. Maciszewski, Raton, N. M., president of A. R. F. Products, Inc.

Thursday luncheon speakers and their topics will be Capt. Joseph Tvedt, assistant director of the naval operations progress analysis group, "Oceanography Research Requirements"; and Roy Snelt, Lockheed Aircraft corporation scientist, "A Case History: The Polaris Missile".

Specific technical problems will be taken up at panel discussions Wednesday afternoon and Thursday morning.

Panel topics and chairmen will be: "Electronics and Instrumentation", Robert M. Page, research director, Naval Research laboratory; "Energy Conversion", Cmdr. C. G. Spoerer, Jr., head of applied research in the bureau of ships; "Data Processing and Control Systems", Lt. Cmdr. Frank Nelson, head of the bureau's command control and data processing section; "Non-Metallic Materials", Cmdr. Earl C. Vicars, bureau head of materials development and application; and "Food Technology", Professor W. O. Lundberg, executive director of the University's Hormel Institute.

READING EXPERT
TO SPEAK AT 'U'
WEDNESDAY AT 8

(FOR IMMEDIATE RELEASE)

Reading expert Professor Albert J. Harris, director of the Queens college educational clinic, Flushing, N. Y., will give a free public lecture at 8 p. m. Wednesday (Oct. 19) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

His topic will be "Reading Disability in Relation to Hand and Eye Dominance".

Professor Harris has done extensive research on reading skills in elementary school children in support of his theory that the mixed-handed youngster does not learn to read as well as the child with a dominant one-sided use of hand and eye.

He has written several books including "How to Increase Reading Ability" and the "Harris Tests of Lateral Dominance". He is a past-president of the International Council for the Improvement of Reading Instruction.

His lecture will be sponsored by the University's department of concerts and lectures and the psycho-educational clinic.

Professor Harris also is scheduled to speak before the Minnesota Reading association at 2 p. m. Thursday (Oct. 20) in the Leamington Hotel.

In Virginia---
STEELWORKERS'
ROONEY TO TALK
AT 'U' SESSION

(FOR IMMEDIATE RELEASE)

John R. Rooney, assistant to the secretary-treasurer of the United Steelworkers of America, will speak at the University of Minnesota's annual Northern Minnesota Conference on Industrial Relations Thursday (Oct. 20) in Virginia.

Rooney, representing union secretary-treasurer I. W. Abel, who was originally scheduled as a conference speaker, will address a 6:15 p. m. banquet on the topic "Labor-Management Climate: 1960-65". All conference sessions will be held in the Coates hotel.

A native of Kansas, Rooney has been active in union affairs since he was working his way through college to earn a law degree. He has served as a union adviser on compensation and insurance.

Edward Gross, who joined the University of Minnesota faculty this year as professor of sociology and industrial relations, will speak at the 8:45 a. m. session Friday (Oct. 21) on "The Meaning of Leadership".

A graduate of the University of British Columbia, Gross came to Minnesota from Washington State university, where he served on the faculty for six years. He conducted a one-year study of immigrant factory workers in Israel and is the author of the book "Work and Society", a study of industrial organization.

Twenty-six other specialists from labor, industry and education will complete the faculty for the two-day conference, which will consider Northern Minnesota's economic outlook and its impact on labor-management relations.

The conference is designed to be of special interest to union members and officials, personnel and industrial relations managers, and representatives of general management.

ARSHILE GORKY
DRAWINGS AT 'U'
GALLERY OCT. 27

(FOR IMMEDIATE RELEASE)

Ten drawings from the late work of Arshile Gorky, representative of the artist's mature style, will be hung in the University of Minnesota gallery in Northrop Memorial auditorium from Oct. 27 to Dec. 2.

The drawings, lent to the University gallery by the Sidney Janis gallery, New York, will be on view in the Seminary gallery, at the East end of the third floor in Northrop.

Drawing was second nature to Gorky, according to the Janis gallery catalogue forward accompanying the show. Almost invariably one could find him sketching on whatever paper was at hand, in his studio, at restaurants, while visiting friends -- "always," he would say, "keeping my hand in". The circumstances under which he worked at times may have been informal, even casual, but his approach was always serious, and his mastery of line became a telling factor as his imagery matured.

The years of continual drawing had a powerful cumulative effect upon his work. In the last period, especially, there was a reciprocal play between his drawings and paintings, bringing to the latter a significant linear quality and to the drawings, the plasticity of his paintings. This pictorial interplay enriched his work in both media.

The University gallery exhibitions are open from 9 a. m. to 4:30 p. m. schooldays, and during concert intermissions.

BRITISH LUTE,
GUITAR PLAYER
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Julian Bream, British guitarist and lutenist, will give a concert at a University of Minnesota convocation at 11:30 a. m. Thursday (Oct. 20) in Northrop Memorial auditorium. The concert will be open free to the public.

The 27-year-old musician will present a program of classic and modern guitar music and music for the lute.

On his third American tour, Bream made his American debut in 1958 in New York Town Hall. He played to overflow college and university audiences on his first tour.

Bream began his musical career when he was 12 years old, playing guitar in his father's dance band. He studied at the Royal College of Music and under teachers Segovia and D. Perrot. He made his concert debut in Cheltenham, England, in 1947. His 1951 debut in Wigmore Hall, London, was the first to be given by a British guitarist.

Bream has transcribed much of 17th and 18th century music, particularly of Bach, for the modern guitar.

He recently signed a contract to produce six new long-playing albums for RCA Victor, over the next three years.

The concert will be sponsored by the University's department of concerts and lectures.

INDIANA PUBLISHER RECEIVES 1960
MINNESOTA 'U' JOURNALISM AWARD

(FOR RELEASE 11 A. M. TUESDAY, OCT. 18)

Minneapolis --- Louis A. Weil, Jr., publisher of the Lafayette (Ind.) Journal and Courier, has been named the 1960 winner of the annual University of Minnesota award for distinguished service in journalism.

Professor W. Edwin Emery, representing the University's school of journalism, presented a bronze medal and a certificate to Weil today (Oct. 18) during the annual meeting of The Inland Daily Press association at the Drake hotel in Chicago.

The school's faculty selected the award winner from nominations made by Inland members. Winners are chosen on the basis of distinguished career-long contributions to journalism rather than single achievements of a "spectacular" nature.

Weil is a member of the board of directors of the American Newspaper Publishers association. He also served as board member and vice chairman and is immediate past chairman of the association's bureau of advertising. He has also been board member, vice president, president and chairman of the board of The Inland Daily Press association.

The son of a newspapering family, Weil worked for several Michigan newspapers as reporter and then on the business side. He was named publisher of the Grand Rapids (Mich.) Herald in 1947. He also became publisher of the Lafayette (Ind.) Journal and Courier in 1954. At that time Federated Publications, Inc., which owned the Herald, the Lansing (Mich.) State Journal and the Battle Creek (Mich.) Enquirer and News, purchased the Lafayette paper. He served in this dual capacity, as well as executive vice president and general manager of all Federated newspapers, until the Herald was purchased in 1958. Later that year, Federated bought the

(MORE)

Marion (Ind.) Chronicle-Tribune and Station WMRI in Marion. Weil, who moved to Indiana last December, is a member of the board of directors of Federated Publications and also is vice president and a board member of The Times Herald company.

Weil has headed several successful fund campaigns on behalf of schools, hospitals and churches, and has been active in many civic organizations. The Grand Rapids Junior Chamber of Commerce presented him with its distinguished service award in 1940, as the outstanding young man of the year. Ten years later, he received the Community Chest honorary member award given annually in recognition of outstanding civic service and leadership. The Notre Dam club of Grand Rapids presented him with its annual Man of the Year award in 1951. He currently represents Indiana as a member of the Midwest Council on Airborne Television Instruction, a newly launched educational program covering six midwestern states.

Previous winners of the University of Minnesota award for distinguished service in journalism were: the late Emanuel P. Adler, Davenport (Ia.) Times publisher; the late Stuart H. Perry, Adrian (Mich.) Telegram publisher; Tom H. Keene, Elkhart (Ind.) Truth editor; J. S. Gray, editor and publisher, Monroe (Mich.) News; Harry J. Grant, board chairman, Milwaukee Journal; Linwood I. Noyes, Ironwood (Mich.) Globe publisher; Dr. Alberto Gainza Paz, when exiled editor-publisher of the expropriated Buenos Aires La Prensa; Mr. and Mrs. Harry E. Rasmussen, editor and publisher and business manager, Austin (Minn.) Herald; Carl M. Saunders, Jackson (Mich.) Citizen Patriot editor; John Cowles, president and publisher of the Minneapolis Star and Tribune; Edward E. Lindsay, editor and vice president, and Frederick W. Schaub, executive vice president, Lindsay-Schaub newspapers, who were named dual winners in 1958, and Franklin D. Schurz, president, editor and publisher of the South Bend (Ind.) Tribune.

For Navy Clinic---
POLARIS MISSILE,
NUCLEAR SUB
MODELS AT 'U'

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCTOBER 17, 1960

(FOR IMMEDIATE RELEASE)

Models of the Navy's Polaris missile and the nuclear submarine U. S. S. George Washington will be included among exhibits open to the public Wednesday and Thursday (Oct. 19 and 20) during the Navy Research and Development clinic at the University of Minnesota.

The exhibits will be on display in Coffman Memorial Union junior ballroom annex from 9 a. m. to noon and 2 to 5 p. m. each day. They are designed to show area industry representatives what private business makes for the Navy.

The clinic will bring together industrialists, engineers and scientists to help the Navy solve some of its research and development problems through panel discussion programs.

Featured among the exhibits is an eight-panel display telling the story of how the Navy develops major ship designs and missile systems at minimum cost. The Office of Naval Research will show an exhibit on problems involved in protecting underwater steel structures and power plants. An eight-foot model of the U. S.S. George Washington and a seven-foot model of the Polaris fleet ballistic missile will be shown.

James H. Wakelin, Jr., assistant secretary of the Navy for research and development, will open the clinic Wednesday morning.

A St. Paul native, Robert M. Page, research director at the Naval Research laboratory, Washington, D. C., will lead a panel on electronics and instrumentation. Page developed the first pulse radar system in the United States, for which he received the President's Award for Distinguished Federal Civilian Service this year.

Under the leadership of Lt. Cmdr. Frank Nelson, head of the Navy Bureau of Ships command control and data procession section, another panel will explore use of large scale computers and methods of handling massive quantities of information.

An historical sketch of radio and electronics with a look to the future will be presented by Louis Schlesinger, head of the Bureau of Naval Weapons components engineering branch.

Other panels will discuss energy conversion, food preservation and ship-building materials.

'U' BAND TO FLY
TO ANN ARBOR
FOR MICH. GAME

(FOR IMMEDIATE RELEASE)

Minneapolis--- The University of Minnesota marching band---150 strong---will fly to Ann Arbor, Mich., Saturday (Oct. 22) to support the Minnesota Golden Gophers in their game with the University of Michigan.

The band, resplendent in their brilliant new uniforms, will be accompanied by the University bands director, Frank Bencriscutto, the two band "twirlers", Sue Smisek and Virginia Hanson, and the band mascot, Gopher Wilbur Meiners.

The Minnesota football marching band's contribution to the half-time festivities at the Minnesota-Michigan game will be "The Story of the Rouser". Depicted in the band formations as well as in the music which it plays, are the fancied struggles of the composer of "Minnesota, Hats Off To Thee", Floyd M. Hutsell, when he wrote the song in 1909. The band, after struggling audibly and visibly to get the notes to "sound right", finally comes up with the tune known to Minnesota alumni throught the world.

Check-in time for the uniformed bandsmen will be at 6:30 a.m. Saturday (Oct. 22) at Wold Chamberlain airport, according to Bencriscutto. Both commercial and charter planes will be used, with the last return flight arriving back at Minneapolis at 1:54 a.m. Sunday (Oct. 23).

U. OF M. ORGANIST
TO PLAY RECITAL
IN NORTHROP OCT. 28

(FOR IMMEDIATE RELEASE)

Heinrich R. Fleischer, University of Minnesota organist, will present a free public recital at 8:30 p. m. Friday, Oct. 28, in Northrop Memorial auditorium.

A native of Germany, Fleischer received his doctorate of music from the University of Leipzig in 1939, and came to the United States in 1949. An internationally recognized authority on the music of Bach, Fleischer held many positions in Germany as a professor of music and as organist-choirmaster in the Lutheran church.

Scheduled to be presented on the organ recital program will be works by Michael Praetorius, Dietrich Buxtehude, Johann Sebastian Bach, Ludwig Lenel and Franz Liszt.

LUNDEN AGAIN
MURA SECRETARY;
NIER NAMED VP

(FOR IMMEDIATE RELEASE)

Laurence R. Lunden, University of Minnesota vice president for business administration, was re-elected as secretary of the Midwest Universities Research association (MURA) Monday (Oct. 17) in Chicago.

Lunden has served as secretary and as a director of MURA since the organization's founding in 1954.

Also elected at the Chicago meeting were: Professor A. O. C. Nier, head of the University of Minnesota's school of physics, as vice president, and Professor A. O. G. Mitchell, head of Indiana university's physics department, as president. Mitchell succeeds Professor H. R. Crane of the University of Michigan.

MURA, a cooperative organization of 15 Midwestern universities, is designing and developing what may be the world's most powerful proton accelerator or "atom smasher". The research project was undertaken at the request of the Atomic Energy Commission. MURA's headquarters are near Madison, Wis.

WRENN TO REPORT
ON GUIDANCE STUDY
AT MEA SESSION

(FOR IMMEDIATE RELEASE)

C. Gilbert Wrenn, University of Minnesota education professor, will report on findings of a national study on guidance in American schools Thursday (Oct. 20) before the student personnel section of the Minnesota Education association.

Wrenn will speak on "The Role of the Personnel Worker in our Society" at a noon luncheon in the St. Paul YMCA.

Wrenn heads the guidance study, which is being conducted by the American Personnel and Guidance association's commission on guidance in American schools. A Ford Foundation grant is financing the study, which has included a survey of educators and men and women in virtually all professions in order to assess the role guidance should be playing in the future of American education.

Wrenn will report on the survey's progress to date.

Thomas A. Soldahl, University instructor in educational psychology, will preside over meetings of the MEA's student personnel section. Another University faculty member, Lawrence R. Merl, lecturer in the school of social work, will serve on a panel discussing "The Role of the Personnel Worker in the Elementary School".

2 STUDENTS SERVE
WITH POLITICAL
PARTY STAFFS

(FOR IMMEDIATE RELEASE)

Two Minneapolis college students have been awarded political party internships for the fall season by the Minnesota Citizenship Clearing House, according to director Charles H. Backstrom, University of Minnesota assistant professor of political science.

Vernon J. Menard, St. Thomas college junior, 1125 Eighth st., S. E., will serve with the state central committee of the Republican party. Timothy Erlander, 3900 Harriet ave., S., University of Minnesota sophomore, will work with the Democratic-Farmer-Labor state staff.

Interns are on a half-time basis for three months to observe political party organization by active participation. The total stipend of \$400 for each student is paid half by the parties and half by the Minnesota Citizenship Clearing House with Falk Foundation funds.

"Purpose of the internship program is to stimulate active political participation among college students," according to Backstrom, "in order to strengthen the two-party system and democratic society."

WEEK OCT. 24-28

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCOTBER 21, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- "The Demands of a Decade" will be highlighted at the University of Minnesota when 8,096 College of Science, Literature and the Arts students observe their annual "SLA" Week Oct. 24-28 on the Minneapolis campus.

University President O. Meredith Wilson will address SLA students and SLA Alumni association members on this theme at the week's kick-off banquet at 6 p. m. Monday (Oct. 24) in Coffman Memorial Union main ballroom.

Outstanding teachers, alumni and students from the SLA departments will receive awards at the banquet.

A college president and two deans, alumni of the University's SLA college, will receive University of Minnesota Outstanding Achievement Awards at the banquet. Recipients are: the Rt. Rev. Monsignor James P. Shannon, president of the College of St. Thomas, St. Paul; Dean John Ely Burchard of the Massachusetts Institute of Technology's school of humanities and social science, Cambridge, Mass.; and Dean Whitney Young, Jr., of the Atlanta (George) university school of social work.

Also to be honored are winners of the Outstanding SLA Teachers awards and leading students from each of the SLA departments. SLA Dean E. W. McDiarmid will make the presentation of the awards.

At the SLA Week convocation Tuesday (Oct. 25) at 11:30 a. m. in Murphy hall auditorium, Dean McDiarmid will moderate the discussion on "Liberal Education Later". Discussants will be Dean Burchard and Dean Young.

"The Humanities Enter the Sixties" will be the subject of an SLA Week panel discussion at 3:30 p. m. Tuesday in the Murphy hall auditorium. University faculty taking part will be Professor Ralph G. Ross, interdisciplinary studies department head, chairman; and Professors William Van O'Connor, English department, and Donald Torbert, art department.

(MORE)

Panel discussions Wednesday (Oct. 26) will be held at 3:30 p.m. in Murphy auditorium on "The Social Sciences Enter the Sixties". Mitchell V. Charnley, journalism professor and SLA assistant dean, Harold W. Chase, political science associate professor, and James J. Jenkins, psychology professor, will be on the panel.

"The Natural Sciences Enter the Sixties" will be discussed by a panel headed by J. William Buchta, physics professor and SLA associate dean at 3 p. m. Thursday (Oct. 27) in the Murphy auditorium. Also on the panel are Professors Cyrus P. Barnum, Jr., physiological chemistry, and Rufus W. Lumry, physical chemistry.

The "Dean-for-A-Day", an SLA student elected by the votes of his college-mates, will reign in Dean McDiarmid's office on Friday (Oct. 28). Money from the dean contest (a penny per vote), and receipts from the SLA Week tag sales will be placed in the SLA Week fund to provide for foreign student scholarships, according to Iric Nathanson, SLA Intermediary board president. The \$150 profit from last year's sales and contest was awarded as a scholarship to a Hungarian refugee student at the University.

The annual SLA Week student-faculty football game will be held at 12:30 p.m. Friday on the Coffman Memorial Union lawn. "The Slayers" -- the faculty team -- will be coached by student counseling bureau assistant professor Edward O. Swanson, while "The Slaves" -- the oft-beaten students -- will be coached by Gary Grimm, vice president of the Minnesota Student association.

Throughout the week classroom discussions on the SLA Week theme, "The Demands of a Decade" will be held, with University faculty members making evening visitations to dormitories, rooming houses and fraternities and sororities to lead further discussion groups.

BASS-BARITONE,
PIANIST TO GIVE
CONCERT AT 'U'

Bass-baritone Norman E. Abelson and Paul Freed, pianist, University of Minnesota music department faculty members, will appear in concert at 4:30 p.m. Sunday (Oct. 30) in Northrop Memorial auditorium.

The free public concert is sponsored by the University music department, and is one of a series of Friday evening and Sunday afternoon concerts presented by the department when the Minneapolis Symphony orchestra is on tour. The University Symphony orchestra will play the Sunday, Dec.4, program.

Included on Sunday's program will be:

A group by Hugo Wolf-----

"Michaelangelo-Lieder"

"Fussreise" (Tramping)

"In Der Fruhe" (Morning)

"Er ist's" (Song to Spring)

A group of Kinder-Totenlieder (Song on the Death of Children--Gustav Mahler
"Wotan's Abschied"-----Richard Wagner

A group of songs-----Johannes Brahms

"Meine Liebe ist grun"

"Immer Leiser wird mein Schlummer"

"Vergebliches Standchen" (Futile Serenade)

"Von ewiger Liebe"

" O liebliche Wangen"

FILM OF NORWAY
WILL BE SHOWN
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

A feature-length color film, "Norway, Changing and Changeless", will be shown at a University of Minnesota convocation at 11:30 a. m. Thursday (Oct. 27) in Northrop Memorial auditorium. The program will be open free to the public.

The film will be narrated in person by its producer Mrs. Hjordis Kittel Parker, who has made several films of her native Scandinavia. Mrs. Parker, a resident of Sierra Madre, Calif., was decorated in 1959 by King Olav of Norway for her films interpreting Norwegian life.

"Norway, Changing and Changeless" traces the life of the Norwegian people from the quiet mountainside farms to the bustling cities. A sequence is devoted to the nomadic Laplanders, who still live the simple lives of their ancestors.

A naturalized citizen of the United States, Hjordis Parker attended the Universities of California and Washington. She is married to Donald Parker, a California businessman.

Mrs. Parker showed her film "Saga of Modern Norway" at a University convocation in 1953.

The film-lecture will be sponsored by the University's department of concerts and lectures. Since the program runs over an hour, a 10-minute intermission will be held at 12:20 p. m. to allow additional seating in the audience.

RAILWAY MEN COOPERATE IN U. OF M.
HEART DISEASE RESEARCH PROJECT

(FOR IMMEDIATE RELEASE)

Minneapolis --- Thousands of railway men, examined in laboratories installed in two traveling Pullman cars, have been playing an important part in University of Minnesota research that may eventually give some answers to questions puzzling scientists about heart disease, the nation's leading cause of death. Preliminary findings indicate that men who hold sedentary jobs may be more susceptible to coronary heart disease than those in jobs calling for greater physical activity.

The findings were reported in St. Louis, Mo., Sunday (Oct. 23) by Professor Henry L. Taylor of the University's Laboratory of Physiological Hygiene at the annual scientific sessions of the American Heart association. Professor Taylor heads a team of University researchers making the railroad workers study, which is partially supported by a grant from the American Heart association.

Railroads whose employees were examined: Chicago Burlington & Quincy; Chicago Great Western; Chicago Northwestern; Chicago River & Indiana; Indiana Harbor Belt Railroad; Great Northern Railway; Milwaukee Road; Northern Pacific; Minnesota Transfer; Rock Island Lines; St. Louis & San Francisco Railway; Southern Pacific; and Western Pacific Railraod.

The two Pullman cars were supplied by Great Northern and Rock Island Lines. Helpful statistics about employees was furnished by the Chesapeake and Ohio Railway co.; Duluth, Missabe and Iron Range Railway; Minneapolis and St. Louis Railway co.; and Spokane, Portland and Seattle Railway System.

(MORE)

The research included a study of the frequency in railway clerks and switchmen of overweight, obesity, elevated blood pressure and cholesterol (a fatlike substance) in the blood. All these factors are in question as possible causes contributing to atherosclerosis, a form of arteriosclerosis or hardening of the arteries. Strokes, heart attacks and other serious or fatal conditions may result from atherosclerosis.

Professor Taylor has also been looking for answers to questions such as these: Is lack of exercise and the increasing use of machinery, replacing work done by men, a factor in the all-too-frequent occurrence of coronary heart disease in American males? How do physical build, personality and eating habits of men who hold desk jobs differ from those of physically active men? How do the bodies of the sedentary and the active men differ in handling cholesterol, the smoking habit, etc.? Do people who choose physically active jobs differ from people who stay in sedentary ones?

Railway workers were selected for study involving these questions for three reasons. They usually remain on their jobs for a long time, which allows for investigating the possible bearing of job conditions on the heart and arteries. They provide a good cross section of three distinctly different types of work, namely, physically active (as in the case of section men), sedentary (clerks and train dispatchers) and supervisory (executives were included in the group examined, as the researchers wished to consider the possibility that job responsibility affects the development of coronary disease). Long-term records of railway personnel are readily available from the Railroad Retirement Board.

Beginning in 1956, clerks and switchmen between the ages of 40 and 59, with at least 10 years service on their jobs, were examined and interviewed. Questions like, "What did you eat during the last 24 hours?" and "How much do you walk each day?" were asked. Physical examinations were given in two Pullman cars converted into laboratories, housing diagnostic equipment - electrocardiographs, an X-ray unit, treadmill and a chemical lab.

(MORE)

The first "passengers" came aboard at LaCrosse, Wisc. From there, the heart laboratory train covered a unique route over 12 railroads and into 32 cities, mostly hitching a ride on a night freight that happened to be going its way. Its windows were dark and no one was aboard until the lab train reached its new destination. On its travels, nearly 3,000 men were examined, interviewed and re-examined.

Another part of the study concerning sedentary and more physically active subjects is purely statistical. This analysis of death rates of three groups of railroad men (whose occupations required light, moderate and heavy physical activity) was also reported at the American Heart Association sessions. Age-adjusted figures showed death rates from arteriosclerotic heart disease during 1955 and 1956 in these men to be twice as high for clerks as for section men (5.76 per thousand for clerks, compared with 2.79 for section men and 3.87 for switchmen).

Taylor reported that clerks as a group do not bring to their jobs "an undue proportion of personal characteristics (obesity, high blood pressure and cholesterol) that have been linked to increased incidence of coronary heart disease."

Data thus far collected is tentative but seems to support the concept that less coronary heart disease exists among men holding jobs that require moderate or heavy physical activity, and that this apparent difference in coronary heart disease cannot be explained by personal characteristics of clerks as compared to switchmen. Much of the collected data has not so far been analyzed but will be presented by Taylor at a later date.

U OF M ALUMNUS
HEADS KANSAS
'U' LIBRARY

(FOR IMMEDIATE RELEASE)

A University of Minnesota library school alumnus, Thomas R. Buckman, head of the acquisitions department of the University of Kansas library, has been appointed director of the Kansas university library. The appointment will become effective Sept. 1, 1961.

A graduate in 1937 from the College of the Pacific, Buckman, now 37, studied Scandinavian and European literature at the University of Stockholm from 1948 to 1951, received the master of arts degree in Scandinavian area studies from the University of Minnesota in 1952, and the bachelor of science degree in library science from the University in 1953.

A member of the American Library association and the Bibliographical Society of America, Buckman recently was elected secretary-treasurer of the Society for the Advancement of Scandinavian Study.

In Far East---
U OF M HOSPITAL
COURSE DIRECTOR
TO HEAD STUDY

(FOR IMMEDIATE RELEASE)

Professor James A. Hamilton, director of the University of Minnesota program in hospital administration, will leave Nov. 1 for the Far East to head a study of United States State Department medical services abroad.

Hamilton and his associates will make an appraisal of the operation and adequacy of the State Department's medical services program for foreign service personnel with a view to establishing improved benefits and administration of the program.

Embassies in the Far and Middle East to be visited by Hamilton this winter are in Manila, Philippine Islands; Saigon, Viet Nam; Phnom Penh, Cambodia; Bangkok, Thailand; Rangoon, Burma; Katmandu, Nepal; New Delhi, India; Kabul, Afghanistan, and Tehran, Iran. The group also will visit Rome, Madrid and Lisbon. Later trips will be made to embassies in Africa, Latin America and other cities in Europe.

'U' SOCIOLOGY
STUDENT WINS
SALES SCHOLARSHIP

(FOR IMMEDIATE RELEASE)

William H. Eckland, University of Minnesota graduate student in sociology, has received a \$483 sales scholarship from Wear-Ever Aluminum, Inc.

Eckland was the company's top salesman in the nation over a four-month period ending in August. He is the leading contender for the firm's all-America scholarship award of \$500 to be presented at the end of the year to the student-salesman who has made the most sales over the preceding 12 months. A matching \$500 grant will be made to the school attended by the winning salesman.

Stanley J. Wenberg, University vice president and administrative assistant, presented the sales scholarship to Eckland who lives at 5786 Hackman avenue, Minneapolis.

WELFARE NEEDS OF 1970 WILL MATCH
TODAY'S DESPITE NATION'S ECONOMIC
GROWTH, U OF M ECONOMIST PREDICTS

FOR RELEASE AFTER 9 A.M. THURSDAY, OCT. 27, 1960

Minneapolis --- A University of Minnesota economist predicted Thursday (Oct. 27) that the need for welfare programs will be as great 10 years from now as it is today despite a 50 per cent increase anticipated in the nation's economic growth.

"Important as is the economic component in influencing man's well-being.... even an economic Utopia would still leave many problems of human welfare," John G. Turnbull, economics professor, told a group of county welfare board directors at the University's Center for Continuation Study on the Minneapolis campus.

Turnbull spoke on "Economic Change and Welfare Problems" at the opening session of the annual two-day training institute for welfare officials.

He cited predictions of another University economist, Professor Walter W. Heller, that the nation's gross national product will increase by 50 per cent to \$750 billion in 1970.

"This would mean the annual personal income of American families will average more than \$8,500, compared to the 1959 average of \$6,500," Turnbull said.

"These are averages," he added. "By 1970, the well-to-do should improve their position. So should the poor. Yet, poverty is not readily eradicated by economic growth; poverty is persistent, and some types are resistant, almost impervious, to prosperity."

Based on projected growth rates, Turnbull predicted the ratio of the nation's population which falls into the low-income category (below \$2,500 family income) will drop from the current one-fifth to 14 per cent in 1970 and to 10 per cent in 1977.

(MORE)

"But this still leaves a 'hard core' of poverty, which for at least a quarter of a century will demand the attention of persons in the professions represented here," Turnbull told the institute participants.

Turnbull further conjectured that while economic growth may cut down the number of unemployed, "people will still retire, there will still be transitional unemployment, industrial accidents will still occur".

"Such a program as old-age assistance probably will continue to decrease in relative importance; conversely, present gaps as in illness protection, will increasingly be filled by formalized programs," he said.

Turnbull asserted that "society provides for the economically insecure through increasingly formalized methods, whether these be public or private".

Thus, he predicted "by 1970, a relative increase in the economic security role of the federal government and possibly some relative growth in service as against income programs, despite the greater freedom of choice the latter provides".

The institute for county welfare board directors will continue through Friday (Oct. 28), which will be devoted to discussions and workshops on the effect of a community's industrial development on county welfare programs. Speakers include University faculty members and representatives of the Minnesota Association of Directors of County Welfare Boards and the Minnesota Department of Public Welfare, which are co-sponsoring the institute with the University.

RADIOLOGISTS'
COURSE AT 'U'
SET NEXT WEEK

(FOR IMMEDIATE RELEASE)

A continuation course in radiation therapy for radiologists will be conducted by the University of Minnesota Monday through Friday (Oct. 31-Nov. 4) in Mayo Memorial auditorium on the Minneapolis campus.

Control and treatment of malignant disease will be discussed by a faculty of leading radiologists from the United States, Canada and England. They will cover the fields of radiation, surgical, chemical and hormone therapy, discussing basic background and practical information on techniques used in radiotherapy.

The course will be presented under the direction of two University faculty members, Dr. Harold O. Peterson, professor and head of the department of radiology, and Dr. Donn G. Mosser, professor and director of radiation therapy. Co-sponsors are the University's medical school and the Center for Continuation Study.

As part of the course, Dr. Manuel Lederman, radiotherapist for the Royal Marsden hospital, London, England, will deliver the fifteenth annual Leo G. Rigler lecture, open free to the public, at 8:30 p. m. Thursday in Mayo auditorium. His topic will be "Cancer of the Larynx---Its Natural History and Treatment by Radiation Therapy".

Other guest participants will include Drs. Jean Bouchard, McGill university associate professor of radiology, Montreal, Canada; George W. Casarett and Philip Rubin, University of Rochester associate professors of radiology, Rochester, N. Y.; Charles Heidelberger, University of Wisconsin physiological chemistry professor, Madison; Morton Kligerman, Yale university professor of radiology, New Haven, Conn.; and Charles Martin, Dallas, Tex., radiologist. Remainder of the faculty will include University of Minnesota medical school and Mayo Foundation staff members.

STATE MEDICAL
FOUNDATION ELECTS
DR. A. LAZAROW

(FOR IMMEDIATE RELEASE)

Minneapolis ---Dr. Arnold Lazarow, University of Minnesota medical school professor and head of the department of anatomy, was elected president of the Minnesota Medical Foundation at its fall board of trustees meeting in Minneapolis this week. He lives at 221 Woodlawn, St. Paul.

Also elected to two-year terms of office were Dr. Corrin H. Hodgson, Mayo Clinic, Rochester, vice president; and Dr. John A. Anderson, University medical school professor and head of the department of pediatrics, secretary-treasurer.

Dr. Lazarow succeeds Dr. Herman E. Drill, Hopkins physician, who was elected president in 1958.

The Minnesota Medical Foundation is a non-profit organization of alumni, physicians, faculty and other individuals providing private support for the University's medical school. The Foundation has awarded \$110,000 in scholarships to 215 medical students during the past 12 years, and recently presented two major faculty grants for lifetime research.

New trustees installed at the meeting were Dr. C. D. Creevy, Dr. Arthur C. Kerkhof, Dr. V. J. P. Lundquist and Samuel H. Maslon, all of Minneapolis, and Dr. Harold O. Peterson, St. Paul.

'U' TO REISSUE
POPULAR BIRD
PORTRAIT VOLUME

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCTOBER 28, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis ---- A book which has been out of print but in continuing demand for a number of years, "Bird Portraits in Color" by Thomas S. Roberts, will be reissued in a revised edition by the University of Minnesota Press Nov.5(price \$5.95).

The book contains 92 full-page color plates reproduced from water-color paintings by six outstanding nature artists: Allan Brooks, George Miksch Sutton, Walter A. Weber, Francis Lee Jaques, Walter J. Breckenridge and Louis Agassiz Fuertes. The illustrations are identical with those in Dr. Roberts' classic two-volume work, "The Birds of Minnesota", long out of print.

The revisions, which bring the text up to date wherever necessary, as, for example, in matters of nomenclature or range of species, are by Walter J. Breckenridge, director of the Minnesota Museum of Natural History, University of Minnesota; Dwain W. Warner, curator of birds, and Robert W. Dickerman, research assistant at the museum.

Each color plate is accompanied by a page of text giving information about the birds shown on the opposite page. The plates show a total of 295 species in 561 major figures. Most of the birds common to the United States and most of Canada east of the Rocky Mountains are represented.

Dr. Roberts was a medical practitioner in Minneapolis until the latter part of his life when he gave up most of his practice to become a professor of ornithology at the University. He had always been keenly interested in birds and had been a fellow of the American Ornithologists' Union for many years before joining the University faculty. At the University, in addition to his teaching, he served as director of the natural history museum. He was awarded the Brewster medal of the American Ornithologists' Union for his work, "The Birds of Minnesota". He died in 1946 at the age of 88.

CHILDREN'S BOOKS
AUTHOR TO SPEAK
AT 'U' DINNER

(FOR RELEASE SUNDAY, NOV. 6)

Natalie Savage Carlson, author of children's books, will address the annual Book Week dinner, Tuesday, Nov. 15, at the University of Minnesota. The dinner will be held at 6:15 p. m. in Coffman Memorial Union main ballroom.

Displays and discussions of new books will precede the dinner.

Books for kindergarten and elementary school children will be exhibited from 3:30 to 6 p. m. in the lobby of the Minnesota Museum of Natural History auditorium. Shirley Brady, junior librarian, St. Paul public library, will review some of these books at 4:30 p. m. in the Museum lobby.

The display of junior and senior high school books will be set up in the University High school library in Peik hall. Edith Kromer, school librarian, will present a discussion of the books at 4:30 p. m.

Mrs. Carlson has been writing children's stories and books since she was a schoolgirl. She also worked for a short time as a reporter on the Long Beach, Calif., Sun.

Among her books are "Alphonse, That Beared One", "Sashes Red and Blue", "The Talking Cat" and "Wings Against the Wind".

She is married to retired Rear Adm. Daniel Carlson and lives in Newport, R. I.

Reservations for dinner tickets, which are \$2.50 each, may be made by writing or telephoning Norine Odland, Burton Hall, University of Minnesota, Minneapolis 14, FEderal 2-8158. Deadline for reservations is Wednesday, Nov. 9.

GALLERY TO HANG
JAPANESE PRINTS
FOR COLLECTORS' SHOW

(FOR IMMEDIATE RELEASE)

"Contemporary Japanese Prints" from the Weyhe and the Hiratsuka Nippon galleries in New York City make up the third annual Collectors' Exhibition opening Wednesday, Nov. 9, in the University of Minnesota galleries.

The 125 prints, many of which are in vivid color, will hang in the gallery's principle exhibition space, the fourth floor main gallery in Northrop Memorial auditorium.

As is customary in these annual Collectors' Exhibitions, all of the items on display are for sale, with prices varying upward from \$15, according to Betty Maurstad, gallery curator. The University gallery will handle sales for the New York galleries, Miss Maurstad said.

While some of the prints are in what has become known as the traditional Japanese style, the majority are completely contemporary in color, design and feeling. Outstanding in the "traditional" style is a more than life-sized black and white portrait of Nichiren, founder of the Hokke sect of Buddhism, and a number of conventional "flower and tree" patterns in both color and black and white. One large vividly colored print by T. Ono is marked as the winner of the International Block Print Exhibition in Tokyo in 1959.

Edward M. Copeland, Slavic language instructor at the University and Japanese art and language authority, in previewing the prints, said the exhibition is one of the finest in quality and quantity that he has seen outside of Japan.

The exhibition will be open free to the public during school hours weekdays and during concert intermissions.

TIME PUBLISHER'S
AIDE TO SPEAK
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

John Scott, assistant to the publisher of Time magazine, will give a lecture on "Russia Revisited" at a University of Minnesota convocation, open free to the public, Thursday (Nov. 3). Scott will speak at 11:30 a. m. in Northrop Memorial auditorium.

Scott made a four-month fact-finding trip to the Soviet Union for Time magazine in 1959. The tour was one of several assignments to Europe and the Middle East which Scott has filled since assuming his present position in 1952.

Before that Scott had a varied career as a journalist and in the 1930's worked for five years in Soviet industrial plants as a welder. He was ousted from his job by a 1937 purge, but stayed in Moscow to become a correspondent for the French news agency Havas and later for the London News Chronicle.

In 1940 and 1941, he traveled through the Balkans, the Middle East and Asiatic Russia until his expulsion by the Soviet Union on charges of "slandering" Soviet foreign policy in his written reports, which appeared in both European and American publications. His next venture was in Japan, where he became a correspondent for Time. He later became head of the Time-Life bureau in Stockholm and the Central European bureau in Berlin, returning to the New York office three years after World War II.

Scott was scheduled to be a University convocation speaker on the Minneapolis campus on Jan. 14, but, because of plane trouble arrived too late to give his lecture. He also appeared at University convocations in 1957 and 1958.

The talk will be sponsored by the University's department of concerts and lectures.

'U' AWARD TO GO
TO TWO DENTAL
SCHOOL ALUMNI

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
OCTOBER 31, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Two Minnesota dentists will receive University of Minnesota Outstanding Achievement Awards Friday (Nov. 4) at the annual School of Dentistry Alumni association luncheon.

The recipients are Dr. Benjamin C. Amundson, who has practiced dentistry for 39 years in Duluth, Minn., and Dr. Charles E. Rudolph, who served on the University faculty from 1912 to 1947, before devoting full time to his private practice in Minneapolis.

Dean William H. Crawford of the school of dentistry will present the awards at the 12:30 p. m. luncheon in Coffman Memorial Union junior ballroom. President O. Meredith Wilson of the University will be the guest speaker.

The Outstanding Achievement Award, consisting of a gold medal and a citation, is presented to alumni who have distinguished themselves in their chosen fields. Both Dr. Amundson and Dr. Rudolph have held several top positions in professional dentistry.

Dr. Amundson, who graduated from the University school of dentistry in 1921, has been a leader in dental health education on the local, state and national levels. He supervised the Duluth public school system's dental health department for 12 years and was chairman of the Duluth district dental health committee for 20 years. He is a member of the State Dental Health Education committee and an alternate delegate to the American Dental association's house of delegates.

He is a member of the Minnesota State Board of Dental Examiners and the American Association of Dental Examiners, a fellow in the American College of Dentists and a senior dental surgeon of the United States Public Health service.

Dr. Rudolph, a 1911 dentistry school graduate, is a past president of the American College of Dentistry, 1937-38, and a fellow of the American College of Dentists. He served as a regent of the American College of Dentists from 1936 to 1941 and has been a trustee of the American Dental association and The American Dental Foundation. He served as chairman of the committee on socio-economic studies of the cost of dental service for the American College of Dentists and of the Minnesota State Dental association's council on dental health. He has written several articles on research for dentistry journals and bulletins.

'U' MUSEUM SERIES
TO OPEN SUNDAY;
'PESTICIDES' TOPIC

(FOR IMMEDIATE RELEASE)

A film-lecture on "Pesticides" will be given by Walter J. Breckenridge, director of the Minnesota Museum of Natural History, at 3 p. m. Sunday (Nov. 6) in the museum auditorium. The lecture will be the first in the annual series of free Sunday programs offered by the museum from November to April.

Breckenridge will comment on chemical as well as natural controls of insect pests. The lecture will be accompanied by a film on biological control of insects, entitled "Natural Enemies of Insect Pests".

The next program, on Nov. 13, will be a color sound movie on "Sweden's Forestry Practices", according to Donald K. Lewis, museum visual-education adviser.

'U' WILL CONDUCT
DAIRY MANAGERS'
COURSE FRIDAY

(FOR IMMEDIATE RELEASE)

A one-day seminar in management for officials of creameries, dairies and dairy processing plants will be conducted by the University of Minnesota Friday (Nov. 4) at its Center for Continuation Study.

The seminar will consider business factors affecting management and the essential management functions, communication and human relations.

Three specialists in the field of management will comprise the faculty. They are Nicholas A. Glaskowsky, Jr., University assistant professor in management and business policy; Elmer R. John, manager of personnel research and consulting services at General Mills, Inc., Minneapolis, and Andrew A. Kole, director and vice president of Superior Separator company, Hopkins.

The seminar is co-sponsored by the University's Continuation Study center and the school of business administration and the Minnesota Dairy Products Association, Inc.

RABBI WEINSTEIN
TO SPEAK AT 'U'
RELIGION WEEK

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.

NOVEMBER 2, 1960

(FOR IMMEDIATE RELEASE)

Rabbi Jacob J. Weinstein, a national labor arbitrator and chairman of the National Committee for Labor Israel, will be chief speaker during Religious Participation Week at the University of Minnesota.

Rabbi Weinstein, head of the K. A. M. Temple, Chicago, will discuss "The Next President -- Opportunity for Moral Leadership" in a free public lecture at 8 p. m. Sunday (Nov. 6) in Northrop Memorial auditorium. An organ recital by Christian Koch, University graduate student, will precede the lecture, beginning at 7:30 p. m.

Rabbi Weinstein was one of the arbitrators in the 1959 Wilson Meat Packing company strike in Albert Lea, Minn.

He will visit the campus through Wednesday (Nov. 9), giving three talks in addition to the Sunday night lecture. He will address a noon luncheon for faculty and religious advisers Tuesday in Coffman Memorial Union junior ballroom. His topic will be "Ministers and Professors as Politicians".

Tuesday evening he will review "The Book of Ruth", with comments on the movie of the same name, at a 6 p. m. dinner in Hillel foundation on the Minneapolis campus.

His final appearance will be at a Wednesday luncheon forum in Hillel foundation, where he will speak on "Judaism In Theory and Action".

Under the leadership of Rabbi Weinstein, K. A. M. Temple has become noted among members of the Jewish faith as a leading force for liberalism. Rabbi Weinstein has lead a campaign for racial, as well as religious integration, in Hyde Park, the Chicago area where his temple is located.

He is a member of the American Civil Liberties Union and the National Panel of Arbitrators.

His Sunday night lecture will be sponsored by the University's department of concerts and lectures and the Council of Student Religious Organizations.

ANTHROPOLOGISTS TO MEET
IN MINNEAPOLIS NOV. 17-20

NOVEMBER 3, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- The 59th annual meeting of the American Anthropological association will be held Nov. 17-20 in Minneapolis, according to Robert F. Spencer, University of Minnesota anthropology professor, program chairman.

Headquarters for the meeting will be the Hotel Leamington.

Some 1,000 anthropologists will gather to exchange information and discuss new findings in fields ranging from social organization of ancient cultures to anthropology's application in modern medicine.

Two hundred papers on recent studies by leading anthropologists will be presented.

Margaret Mead, association president, will serve as conference chairman and will give the presidential address at 8:15 p.m. Friday, Nov. 18, in the Hotel Leamington. Miss Mead is associate curator of the American Museum of Natural History, New York, N. Y., and the author of several books. The talk will be open to the public.

A University of Minnesota convocation, sponsored by the department of concerts and lectures, will open the association's meeting at 11:30 a.m. Thursday, Nov. 17, in Northrop Memorial auditorium. Cora DuBois, anthropology professor at Harvard university's Peabody Museum, will speak on "The Idea of Looseness or Tightness in Cultures".

The convocation will be open free to the public. Miss Mead will preside. Professor E. Adamson Hoebel, University anthropology department chairman, will welcome the delegates.

Remaining sessions, consisting of 42 panels, will be held in the Hotel Leamington. Panel topics include ethnology, social structure, religion, personality, art, culture, values and prehistorical anthropology. These subjects will concern North and South America, Ancient Mesoamerica, India, the Caribbean, Africa, Southeast Asia, Europe and Oceania.

Registration will be held from 6 p.m. to midnight Wednesday, Nov. 16, 8:30 a.m. to 10:30 p.m. Thursday, Nov. 17 and 9 a.m. to 5 p.m. Friday, Nov. 18, in the Hotel Leamington lobby. Fee is \$3 for adults and \$1 for students. Tickets for the Friday smorgasbord may be purchased at the time of registration.

H.S. SENIORS MUST
APPLY BY NOV. 18
FOR NAVAL ROTC
COLLEGE PROGRAM

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
NOVEMBER 3, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Minnesota high school seniors and graduates interested in attending college through the Naval Reserve Officers Training Corps have until Nov. 18 to apply for the nationwide competitive examinations, according to Captain Cary M. Hall, USN, University of Minnesota professor of Naval science and NROTC unit commander.

Qualified students will be able to earn regular commissions in the United States Navy or Marine Corps as well as their bachelor degrees in the field of their choice, Captain Hall said. The University is one of 53 institutions of higher education in the country having NROTC units.

To meet eligibility requirements for this Navy program applicants must: have reached their 17th but not their 21st birthday by July 1, 1960; contract to remain unmarried until commissioned; complete prescribed Naval science courses, drills and cruises, in addition to their regular university courses for graduation; and accept commissions in the regular Navy or Marine Corps if offered.

The physical requirements for the "regular" NROTC are the same as those required of candidates for entry into the U. S. Naval academy at Annapolis, Captain Hall explained. Selection of winning candidates who have successfully passed the Navy college aptitude test is made according to area quotas based upon the percentage of male high school graduates from each state in relation to the country at large.

Successful candidates may choose the qualified college or university which they wish to attend, and are not required to attend the institution nearest to their legal residence.

In addition to tuition, books, uniforms and incidental fees, the regular program NROTC students under this plan receive a personal allowance of \$50 per month each for a duration of the four years, Captain Hall said.

Completed application forms for the Navy College Aptitude Test must be received by the Naval Examining Section, Educational Testing Service, Princeton, N. J., not later than midnight, Nov. 18. Application forms may be obtained at the University of Minnesota, Naval Reserve Officers Training Corps, Armory, Minneapolis, or at any U. S. Navy recruiting station.

'U' RECEIVES \$40,000
FOR RESEARCH IN
ORGANIC CHEMISTRY

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
NOVEMBER 3, 1960

(FOR IMMEDIATE RELEASE)

The University of Minnesota has received three grants totaling almost \$40,000 for long-range research in organic chemistry under the direction of Professor William E. Parham, organic chemistry division chairman.

A \$12,726 grant from the United States Public Health Service will support the organic division's continued studies of the mechanism of action of certain chemical agents against leukemia.

The other two grants will support Parham's work in synthetic organic chemistry. A two-year grant of \$16,100 from the National Science Foundation will finance a study entitled "Ring Expansion Reactions Involving Carbene Intermediates". This project is directed toward discovering new procedures for the preparation of complex organic molecules, according to Professor Parham. These new procedures involve the use of unstable fragments called carbenes.

"The chemistry of carbenes represents one of the newest developments in synthetic organic chemistry and many new and possibly useful compounds can now be prepared, using these fragments," Parham said.

The third grant, of \$11,090, is from the United States Army Office of Ordnance Research to support study of "Sulphur Containing Organic Compounds". The project will entail exploitation of new types of organic sulphur compounds, first discovered in the University laboratories, which may have application in a number of fields, particularly the pharmaceutical, according to Parham.

Assisting Parham in the three studies are graduate and post-doctorate students in organic chemistry.

'U' OF MINNESOTA
TO HONOR AMERICAN
AIRLINES OFFICIAL

(FOR IMMEDIATE RELEASE)

Minneapolis --- Charles R. Speers, Jr., senior vice president of sales for American Airlines, Inc., New York, N. Y., will received the University of Minnesota Outstanding Achievement Award Wednesday, November 16.

University President O. Meredith Wilson will present the award at the School of Business Administration Alumni association's annual banquet at 6:15 p. m. in the Hotel Leamington.

The award, consisting of a gold medal and a citation, is presented to University alumni who have distinguished themselves in their chosen fields.

A native of Marshalltown, Iowa, Speers received a bachelor of business administration degree from the University of Minnesota in 1928.

He joined American Airlines, Inc., in 1934 and has held successive positions as a district sales manager in Chicago, Detroit and New York City, as regional vice president and as assistant vice president and general sales managers. He was named to his present position in 1954.

Speers is a member of the New York Sales Executives club, the National Sales Executives and the Air Traffic Conference, of which he is a past president.

ABELSON TO SING
ON 'U' TELEVISION
PROGRAM MONDAY

(FOR IMMEDIATE RELEASE)

Norman Abelson, University of Minnesota bass-baritone music department faculty member, will be this week's featured artist on "At Home With Music", televised at 9:30 p. m. Monday, (Nov. 14) by station KTCA-TV, Channel 2.

The program, televised weekly during the school year by the University music department under the direction of Ivar Glemming, presents faculty members as featured performers. The program for Nov. 21 will introduce pianist Paul Freed in a program of the music of Bach, Beethoven, Schubert, Debussy and Martin.

Abelson's program will be:

- "Mundeline".....Claude Debussy
- "Beau Soire".....Claude Debussy
- "Drei Dedichte Michelangelo".....Hugo Wolf
 - 1 - "Wohl denk ich oft"
 - 2 - "Alles endet, was entsteht"
 - 3 - "Fuhlt meine siele"
- "Avant de gwitter ces lieur".....Charles Gounod
- "Don Quichotte a Dul cinee".....Maurice Ravel
 - 1- "Chanson Ramanesque"
 - 2- "Chanson Epigue"
 - 3- "Chanson a boire"

DENTAL AIDES
COURSE TO OPEN
MONDAY AT 'U'

(FOR IMMEDIATE RELEASE)

The third part of a certification course for dental assistants will be offered by the University of Minnesota Monday through Friday (Nov. 14-18) at its Center for Continuation Study on the Minneapolis campus.

The 104-hour course meets the requirements set up by the American Dental Assistants association's educational committee to become certified dental assistants.

First two parts of the course, which covers subjects from dental office management to dental pathology, were presented in January and June.

Dr. A. T. Thorson, St. Paul, is coordinator of the course and will be assisted by University staff members in conducting the classes.

Dental assistants who register for the course need not attend the three parts of the course in sequence, but must attend all three sessions in order to acquire certification. The three sessions are offered annually.

Advance registration is required and may be made by writing to the Director, Center for Continuation Study, University of Minnesota, Minneapolis 14. Fee for registration and tuition totals \$15.

The Minnesota Dental Assistants and Hygienists association is co-sponsoring the course along with the University's Center for Continuation Study.

SYMPHONY WILL
REHEARSE AT 'U'
CONVO THURSDAY

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA

NOVEMBER 7, 1960

(FOR IMMEDIATE RELEASE)

The Minneapolis Symphony Orchestra will be presented in rehearsal at 11:30 a. m. Thursday (Nov. 10) at a University of Minnesota convocation in Northrop Memorial auditorium. The convocation will be open free to the public.

This will be the first appearance of Stanislaw Skrowaczewski, the symphony's new music director, at a student function in Northrop auditorium.

The program will be a regular rehearsal of the orchestra, which will have started earlier in the morning. The audience will be admitted at 11:30 a. m.

Formerly the music director and chief conductor of the National Philharmonic of Poland, Skrowaczewski spent several months as a guest conductor with various orchestras in the United States and South America before he was named to the Minneapolis post.

The 37-year-old Polish conductor made his United States debut with the Cleveland Orchestra on Dec. 4, 1958. He also has conducted extensively in France, Italy, Czechoslovakia, Denmark, Holland, Austria, Belgium and Great Britain.

Skrowaczewski served as conductor of the Warsaw Philharmonic Orchestra in 1957-59. Previously he conducted the Krakow Philharmonic, and was conductor of the National Philharmonic in Katowice, Poland, from 1948 to 1954.

The convocation will be sponsored by the University's department of concerts and lectures.

'U' GETS \$6,000 GRANT TO STUDY
SCHOOL MECHANICAL EQUIPMENT

(FOR IMMEDIATE RELEASE)

The University of Minnesota has received a \$6,000 grant from the Johnson Service company, Milwaukee, Wis., for a study to be conducted by the college of education's bureau of field studies and surveys on the lifetime costs of heating, ventilating and control equipment in school buildings.

Selected educational buildings in Minnesota will be surveyed, according to Professor Otto E. Domian, bureau director.

The study will attempt to evaluate initial costs of mechanical equipment as well as operational and maintenance costs in order to pinpoint the areas of real economy over the life-span of school buildings, Professor Domian said.

Johnson Service company is a member of the Minnesota School Facilities Council, which is organized to develop programs in Minnesota communities for more efficient schools and school equipment as tools of better education. The council is composed of educators, architects, engineers and businessmen who specialize in school equipment.

Dean Walter W. Cook of the University's college of education, in acknowledging the grant, praised the company for its "enlightened interest in American education". J. A. Cutler is president of the Johnson Service company.

'U' PROF. OBERG
TO ATTEND MUSIC
SCHOOLS SESSION

(FOR IMMEDIATE RELEASE)

Paul M. Oberg, University of Minnesota music department chairman, will represent the University at the 36th annual meeting of the National Association of Schools of Music in Chicago Nov. 25-26.

In addition to attending the various conference sessions as the University's official representative, Professor Oberg also will take part in activities of the NASM curricular commission.

Some 250 schools of music will be represented at the meeting by deans of the departments of music in the majority of the universities throughout the country as well as by conservatory administrative heads, Professor Oberg stated.

The NASM has been designated by the national commission on accrediting as the responsible agency for the accreditation of all music degree curricula with specialization in the fields of applied music, music theory, composition, music therapy, musicology and music as a major in liberal arts programs. Its deliberations will have an important bearing on the direction which music takes in coming years, according to Professor Oberg.

The entire NASM group will attend a Chicago Symphony Orchestra performance as guests of the Orchestral association on Friday afternoon, Nov. 25. A special luncheon will be held on Saturday, Nov. 26, honoring Earl V. Moore, one of the association founders.

BRONK TO GIVE
SEYMOUR LECTURE
AT U OF M NOV. 20

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
Federal 2-8158 EXT. 6700
NOVEMBER 8, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Detlov W. Bronk, physiologist and president of the Rockefeller Institute for Medical Research, New York, will deliver the tenth Gideon Seymour memorial lecture Sunday, Nov. 20, at the University of Minnesota.

Bronk will speak on "Science, Man and Nature" at 4:30 p.m. in Northrop Memorial auditorium.

Application for free tickets to the lecture should be postmarked by midnight Saturday (Nov. 12). Tickets may be obtained by writing to the Gideon Seymour Memorial Lecture office, 223 Northrop Memorial auditorium, University of Minnesota, Minneapolis 14. Each request should state the number of tickets desired and include a stamped, self-addressed envelope.

Former president of Johns Hopkins university in Baltimore, from 1948 to 1953, Bronk has headed the Rockefeller Institute for Medical Research for seven years. He has been chairman of the National Science foundation since 1956 and has held the presidency of the National Academy of Sciences since 1950. He headed the American Association for the Advancement of Science in 1952 and was chairman of the National Research Council from 1946 to 1950.

He has held trusteeships of 11 institutes, foundations and universities, membership in or chairmanship of 21 scientific committees, boards and councils and the editorship of six scientific journals.

Established in 1954 in memory of the late executive editor (1944-54) of the Minneapolis Star and Tribune, the Seymour lectures bring to the University of Minnesota campus distinguished personalities in a wide variety of fields. Directed by a citizens' advisory committee appointed by the University president, the series is financed through funds provided by the Minneapolis Star and Tribune.

Previous Seymour lecturers have been: James Reston, Arnold J. Toynbee, T. S. Eliot, Walter Lippmann, James B. Conant, Lester B. Pearson, Harrison Brown, Archibald MacLeish, and Sri Jaya Chamaraja Wadiyar Bahadur (His Highness, the Maharaja of Mysore, India).

SWEDEN'S FORESTS
'U' MUSEUM FILM
TOPIC SUNDAY

(FOR IMMEDIATE RELEASE)

A color sound movie, "Sweden's Forestry Practices", and a film on the work of Swedish botanist Carl Linnaeus will be shown at 3 p. m. Sunday (Nov. 13) in the Minnesota Museum of Natural History auditorium at the University of Minnesota.

This will be the second in the series of free Sunday programs offered by the museum from November to April.

The film on forestry, a field in which Sweden has been a leader, will deal with the development of better quality forestry trees through genetic selection.

The other film will honor the work of the Swedish botanist Linnaeus, who is known as the father of the present-day classifications in botany and zoology.

Next program on the museum's Sunday schedule will be a showing of the new film, "Game Management ABC'S -- The Big Four", produced by the museum and the University's audio-visual education service, according to Donald K. Lewis, museum audio-visual adviser.

'U' TO OBSERVE
DADS' DAY ON
CAMPUS SATURDAY

(FOR IMMEDIATE RELEASE)

The annual Dads' Day will be held at the University of Minnesota Saturday (Nov. 12) in activities preceding the Minnesota-Purdue football game in Memorial stadium.

Parents and families of University students have been invited to participate in the Dads' Day program, which will begin at 9:30 a. m. with tours of campus points of interest. The tours will start from the balcony of Coffman Memorial Union main ballroom and will include the school of mines and metallurgy, the school of physics, the speech and hearing clinic, the school of architecture, the computer center, the Walter library and the student health service.

The freshman cabinet will furnish guides for the tours, which will wind up at 11:30 a. m. at a luncheon in the Union main ballroom. President O. Meredith Wilson and members of the University Board of Regents will extend greetings to parents at the luncheon.

Sponsors of Dads' Day is the University Dads' association, an organization of fathers of University students, past and present.

LIST OF UNIVERSITY OF MINNESOTA CAMPUS LECTURES AND PUBLIC PROGRAMS

WEEK OF NOV. 13-20

- Sunday, November 13 --- Color sound movies, "Sweden's Forestry Practices", 3 p.m., Minnesota Museum of Natural History auditorium, open free to the public.
- Sunday, November 13 -
November 20 ---- Third annual collectors' exhibition: "Contemporary Japanese Prints", University gallery, fourth floor, Northrop Memorial auditorium, open free to the public during school and concert hours.
- Sunday, November 13 ---- Play, "House of the Dead" by George Poletes, University Studio Theater, Scott Hall, 3:30 p.m.; tickets \$1 on sale at box office.
- Monday and Tuesday,
November 14 & 15 ---- Play, "House of the Dead" by George Poletes, University Studio Theater, Scott Hall, 8 p.m.; tickets \$1 on sale at box office.
- Tuesday, November 15 ---- Book Week program: Exhibits, books for elementary school children in Minnesota Museum of Natural History auditorium lobby, books for high school students in University High school library; discussions at 4:30 p.m.; dinner with author Natalie Savage Carlson as speaker, 6:15 p.m., Coffman Memorial Union main ballroom.
- Wednesday, November 16---- University of Minnesota School of Business Administration Alumni seventh annual institute, business seminars 2 to 5:15 p.m., banquet 6:15 p.m., Leamington Hotel.
- Wednesday, November 16---- Lecture, "The Critic, The Artist and the Public" by Hilton Kramer, editor of Arts magazine, 8 p.m., Minnesota Museum of Natural History auditorium, series ticket admission.
- Thursday, November 17 ---- Convocation, lecture by Professor Cora DuBois, Harvard university Beabody Museum, "The Idea of Looseness or Tightness in Cultures", 11:30 a.m., Northrop Memorial auditorium, opens four-day annual meeting of American Anthropological association, registration open to the public. All remaining sessions in Hotel Leamington.

NATIONAL SCIENCE
GRANTS OF \$56,400
GO TO 3 AT 'U'

(FOR IMMEDIATE RELEASE)

Three University of Minnesota faculty members, Robert F. Lambert, Hugh L. Turrittin and William Garland, recently received National Science Foundation research grants and fellowship awards totalling \$56,400. Awards to the latter two provide for study in foreign countries.

Professor Lambert of the electrical engineering department is the recipient of a \$44,300 renewal-grant for the continuation of support of basic research on "Sound Propagation in Moving Media". The grant, effective for two years, is concerned, according to Professor Lambert, "with studying sounds buried in noise created by moving fluids such as air and water". This research is being done at the University.

According to Professor Lambert, this "listening through noise" has commercial as well as military uses such as sonar submarine detection and noise abatement in aircraft and missiles. In the field of noise reduction, he said, "we've reached the point now where our ability to create noise exceeds our ability to eliminate it".

Professor Turrittin of the institute of technology mathematics department has been awarded a \$7,600 grant for basic research on "Ordinary Differential Equations". The work will be carried on at the University of Vienna and at the Vienna Institute of Technology, Turrittin said. Timing of the grant -- Dec. 15, 1961 to July 15, 1962 -- will enable him to present a paper before the International Mathematical Congress in Stockholm, Sweden, in August 1962. Professor and Mrs. Turrittin will leave for Europe in June 1961.

(MORE)

Garland, anthropology teaching assistant, received a \$4,500 NSF fellowship for advanced study and research in the Foundation's post-doctoral fellowship program. The fellowship, in addition to the \$4,500 annual stipend, provides an allowance for dependents and a limited allowance to aid in defraying the cost of travel to the site selected for the research -- in this case, Tanganyika, Africa.

Though the fellowship was granted to Garland at the University of Minnesota, he will remain on the campus only until he receives the doctor of philosophy degree in the summer of 1961. He then will leave for South Africa to carry on his anthropological research over a period of two or more years. A \$3,700 Public Health Service research grant conferred by the National Institute of Mental Health has made it possible for Garland to complete the work for the doctor's degree before leaving for Africa.

In Tanganyika, Garland will work on the general ethnography (a description of a people and its culture) of a specific tribe in the mountainous section of the eastern coastal section.

SOUTHEAST ASIA
EXPERT TO SPEAK
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

Professor Cora DuBois of Harvard university's Peabody Museum of Archaeology and Ethnology, will speak at a University of Minnesota convocation at 11:30 a.m. Thursday (Nov. 17) in Northrop Memorial auditorium. Her topic will be "The Idea of Looseness or Tightness in Cultures".

Margaret Mead, author and anthropologist, will introduce Professor DuBois.

The free public convocation will be the opening session of the 59th annual meeting of the American Anthropological association, over which Miss Mead will preside. Remaining sessions will be held in the Hotel Leamington.

Professor DuBois, a specialist in the cultures of Southeast Asia, is the author of six books and more than 30 papers and articles. From 1942 to 1945, she was chief of research and analysis for the wartime Office of Strategic Services for Indonesia and spent 19 months in Ceylon for the OSS. Later, she served four years in the United States' state department's office of intelligence research as chief of the southern areas branch in the Far East.

She has taught and lectured at several colleges and Universities and has held the Zemurray professorship at Harvard and Radcliffe college since 1954.

The convocation will be sponsored by the University's department of concerts and lectures.

ANTHROPOLOGISTS
WILL HOLD 59th
ANNUAL MEETING

(FOR IMMEDIATE RELEASE)

Some 1,000 anthropologists are expected to attend the 59th annual meeting of the American Anthropological association Thursday through Sunday (Nov. 17-20) in Minneapolis.

Margaret Mead, author and associate curator of the American Museum of Natural History, New York, will preside. She also will give a free public talk at 8:15 p. m. Friday (Nov. 18) in the Hotel Leamington.

A University of Minnesota convocation Thursday (Nov. 17) will open the four-day meeting. Professor Cora DuBois of Harvard university's Peabody Museum will speak at 11:30 a.m. in Northrop Memorial auditorium on "The Idea of Looseness or Tightness in Cultures". The convocation, open free to the public, is sponsored by the University's department of concerts and lectures.

Remaining sessions, which will be devoted to the presentation of approximately 200 papers on recent studies in anthropology, will be held in the Hotel Leamington.

A study of the Negro culture pattern in Minneapolis, which was made by Merle Broberg, Washington, D. C., anthropologist, will be included among the papers. Topics of other papers will range from the application of anthropological methods in electronics to a study of murder without motive.

The American Anthropological association's board of directors will meet Wednesday (Nov. 16) in the Hotel Leamington, preceding the annual general sessions.

Registration for the annual meeting will be held from 6 p.m. to midnight Wednesday, Nov. 16; 8:30 a.m. to 10:30 p.m. Thursday; and 9 a.m. to 5 p.m. Friday in the hotel lobby. Fee is \$3 for adults and \$1 for students.

DR. THOMAS GOOD
GIVEN PEDIATRICS
RESEARCH AWARD

(FOR IMMEDIATE RELEASE)

Dr. Thomas A. Good of Baltimore, brother of Dr. Robert A. Good, American Legion heart research professor at the University of Minnesota, received the annual Ross award for outstanding research in pediatrics at the 1960 meeting of the Western Society for Pediatrics Research last week in Denver.

The award, consisting of a \$1,000 prize and a bronze plaque, was presented to Dr. Good for his work on "pituitary adrenal relationships and connective tissue mechanism" done at the Universities of Minnesota, Utah and Maryland, where he is now stationed. Dr. Good also presented the principal address of the convention speaking on the research for which he was honored.

A 1952 graduate of the University of Minnesota medical school, Dr. Good attended Minneapolis Central high school. Both Dr. Thomas A. Good and Dr. Robert A. Good were proteges of Dr. Irvine McQuarrie, former chief of the University's pediatric department now retired and living in Oakland, Calif. Another brother, Charles H. Good, is a graduate student and teaching assistant in anatomy in the University's medical school.

Detlev W. Bronk---
FAMED SCIENTIST
TO SPEAK AT 'U'
SUNDAY AT 3:30

(FOR IMMEDIATE RELEASE)

Minneapolis --- Detlev W. Bronk, noted American scientist and research administrator, will speak on "Science, Man and Nature" in the tenth Gideon Seymour Memorial lecture Sunday (Nov. 20) at the University of Minnesota. The lecture will be given at 3:30 p. m. in Northrop Memorial auditorium.

The famed physiologist has been president of the Rockefeller Institute for Medical Research, New York, since 1953. He served as president of Johns Hopkins university in Baltimore from 1948 to 1953.

Dean Bryce Low Crawford, Jr., of the University graduate school will introduce Bronk.

Established in 1954, in memory of the late executive editor (1944-54) of the Minneapolis Star and Tribune, the Seymour lectures bring to the University of Minnesota campus distinguished personalities in a wide variety of fields. Directed by a citizens' advisory committee appointed by the University president, the series is financed through funds provided by the Minneapolis Star and Tribune.

Free tickets may be picked up in advance at Room 105 Northrop Memorial auditorium on the University's Minneapolis campus. Mail orders for tickets closed last Saturday.

On 'U' Campus---
STATE PROFESSORS
WILL HOLD FIRST
CONFERENCE NOV. 26

(FOR IMMEDIATE RELEASE)

Minneapolis --- The first statewide conference of professors from all university and college campuses in Minnesota will be held Saturday, Nov. 26, in Mayo Memorial auditorium on the University of Minnesota campus.

Sponsored by the Minnesota conference of the American Association of University Professors (AAUP), the day-long meeting will focus on problems of maintaining standards and improving the quality of higher education in the state.

It will mark the first major effort by faculty members from the University of Minnesota, state colleges and private colleges to join together in discussing their professional interests and their service to society, according to Professor Walter Mink of Macalester College, AAUP Conference president.

Principal speakers will be J. Cameron Thomson, retired board chairman of Northwest Bancorporation, President O. Meredith Wilson of the University of Minnesota, and Dr. Peggy Heim of the AAUP national office in Washington, D.C.

Taking part in panel discussions will be Professor Margaret Boddy, Winona State college; Professor Martha G. Worthington, St. Cloud State college; Professor Robert C. McClure, University of Minnesota; Professor A. E. Van Eaton, Mankato State college; Professor Paul Jenson, Macalester college; and A. A. Heckman, executive director, Louis W. and Maud Hill Family Foundation, St. Paul.

The conference also represents AAUP chapters at the Duluth campus of the University of Minnesota, Gustavus Adolphus college, Hamline university, Moorhead State college and St. Olaf college.

(MORE)

Faculty members from any campus in the state, whether or not AAUP members, are welcome to attend, according to Professor Samuel H. Popper, University of Minnesota, conference general chairman.

Members of the appropriations, education and university committees of the state legislature, state college board members, and officers of boards of trustees of private colleges are being invited to attend the conference, Popper said.

Thomson will speak at luncheon in the university Campus Club on "A Businessman Looks at the College Professor". President Wilson will open the conference at 9 a. m. with "Reflections of an Erstwhile Faculty Member".

Reservations may be made by sending a \$3 fee, which includes luncheon charge, to Professor Ruth Palmer, secretary-treasurer, Home Economics Department, University of Minnesota, Duluth.

UNIVERSITY OF MINNESOTA ART AND MUSIC DEPARTMENT NOTES

Zigmunds Priede, University of Minnesota art department teaching assistant, has been notified of the purchase of his intaglio, "The Blues", for the print collection of the Free Library of Philadelphia.

The print has been included in the American Color Print Society 21st Travel Exhibit, currently being shown throughout the country.

Jose Serebrier, master of arts in music graduate from the University of Minnesota, has been appointed full-time conductor of the Utica, N. Y., Symphony orchestra and faculty member at the Utica college of Syracuse university. He also will be guest conductor with the Boston Symphony and the National Symphony, conducting his own compositions. He has been asked to conduct the National Symphony in the work he composed for his master of arts thesis at the University.

While at the University, Serebrier served for two years as apprentice conductor of the Minneapolis Symphony orchestra under the direction of Antal Dorati.

INSTITUTES FOR
SOCIAL WORKERS

NOVEMBER 15, 1960

(FOR IMMEDIATE RELEASE)

Two training institutes for social workers will be conducted by the University of Minnesota Monday and Tuesday (Nov. 21 and 22) at its Center for Continuation Study on the Minneapolis campus.

The annual seminar for group work executives will emphasize the process of decision-making in agency administration.

Main speakers will be F. Judson Snell, new products committee chairman of the temperature control group, Minneapolis Honeywell Regulator company, and Paul Steen, Gustavus Adolphus college professor of social work. Snell will speak at 9:45 a.m. Monday on "Principles of Decision-Making". Steen will talk at 11 a. m. Monday on "Line and Staff: Board and Committee Roles in Decision-Making".

"Priorities in Practice: the Social Worker's Dilemma" will be the topic of the other institute. The two-day course will be presented by the University's Continuation center and the school of social work in cooperation with the Medical Social Work chapter of the National Association of Social Workers (NASW). It is open to medical and psychiatric social workers.

Margaret L. Schutz, assistant professor at the George Warren Brown School of Social Work, Washington university, St. Louis, will direct each of the institute sections. Professor Schutz is well-known nationally for her interest in determining priorities in casework practice. She was the first chairman of the NASW subcommittee study on professional and non-professional components in medical social work practice.

Edith M. Lentz, University associate professor in the school of public health, will speak at the institute dinner Monday evening in The Tempo restaurant. Her topic will be "Give and Take in Hospitals".

Mrs. Ruth Agar of the Veterans Administration hospital, Minneapolis, at 8:45 a. m. Tuesday will report on the NASW subcommittee study on medical social work practice.

INTEGRATION OF
EUROPE TOPIC
OF 'U' CONFERENCE

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.
MINNEAPOLIS 14, MINNESOTA
FEDERAL 2-8158 EXT. 6700
NOVEMBER 15, 1960

(FOR IMMEDIATE RELEASE)

A "Symposium on European Integration" will be conducted by the University of Minnesota Tuesday and Wednesday, Nov. 29 and 30. Integration of social, political and economic forces among European countries will be discussed by University faculty members and guest speakers from the Twin Cities area.

The two-day session will be sponsored by the University's Center for International Relations and Area Studies and the Union Board of Governors' FOCUS committee. All sessions will be open to the public.

Arnold M. Rose, University sociology professor, will open the symposium with a talk on "European Integration: the Social Sphere" at 1:30 p. m. Nov. 29 in Room 320 Coffman Memorial Union on the Minneapolis campus. The talk will be followed by a panel discussion by Gisela Konopka, social work professor, and Walter H. Uphoff, assistant professor of industrial relations.

Remaining sessions will be held in the Union men's lounge.

Professor Harold C. Deutsch, University history department chairman, will discuss "European Integration: The Political Sphere" at 8 p. m. Nov. 29. Panelists will include Robert W. Smith, Minneapolis Star and Tribune editorial page associate editor; and Roy Preiswerk, University political science teaching assistant.

Eugene H. Harrison, British vice consul, St. Paul, will speak on "European Integration: The Economic Sphere" at 3:30 p. m. Nov. 30. The panel speakers will be Edward Coen, associate professor of economics, and John W. Webb, assistant professor of geography.

Werner Levi, University political science professor, will discuss "European Integration: Significance for United States" at 8 p. m. Nov. 30. Panelists will be Paul Sharp, assistant to the vice president of Minneapolis Honeywell Regulator company's international division; and Robert J. White, chairman of the Foreign Policy Association of Minnesota.

PUBLIC WILL SEE NEW GAME FILM
FIRST TIME SUNDAY AT 'U' MUSEUM

(FOR IMMEDIATE RELEASE)

"The Big Four", a new University of Minnesota film on game management principles, will be given its first public showing at 3 p.m. Sunday (Nov. 20) in the Minnesota Museum of Natural History on the Minneapolis campus. No admission will be charged.

The color sound movie deals with the problems of animal population and population changes. It was produced by the University's audio-visual education service and the museum in cooperation with the Delta Waterfowl Research station, Delta, Manitoba, Canada, and the Minnesota Department of Conservation's division of game and fish.

John R. Tester, museum ecologist, will introduce the film, which is the first in a proposed series to be known as the "Outdoor Heritage Series".

The film attempts to explain the need for wildlife preservation and control and the work of the game biologist.

"The big four" referred to in the title are four factors involved in wildlife population behavior -- environmental conditions, the wildlife population capacity of individual habitats, reproduction and the surplus of game animals available in the fall for hunting.

Next in the series of free Sunday programs to be offered by the museum will be an illustrated lecture, "Adaptations in Mammal Skulls", on Nov. 27, according to Donald K. Lewis, museum visual-education adviser.

TALK ON BRECHT
BY GERMAN PROF.
SET FRIDAY AT 'U'

(FOR IMMEDIATE RELEASE)

Professor Helmut Motekat of the University of Munich, Germany, will give a free public lecture at 3:30 p. m. Friday (Nov. 18) in Murphy hall auditorium at the University of Minnesota.

His topic will be "Bertolt Brecht, the 'Maker' of Plays". Brecht, author of the text for "The Three-Penny Opera", died in Germany in 1956. He gave himself the title of a "maker" of plays because of his so-called craftsman's approach to writing. Brecht's other plays include "Mother Courage" and "The Caucasian Chalk Circle".

Professor Motekat also will lecture this week at St. John's university, Collegeville, and Macalester college, St. Paul. His present lecture tour of the United States is sponsored by the Carl Schurz Memorial Foundation, Inc. His visit to Minnesota also is supported by the Hamm Foundation, St. Paul.

Motekat has specialized in the interpretation of modern lyrical German poetry and is the author of several books.

His lecture at the University will be sponsored by the department of German and the department of concerts and lectures.

TALK ON JAPANESE
PORCELAINS SLATED
FRIDAY EVENING

(FOR IMMEDIATE RELEASE)

An illustrated lecture on seventeenth century Japanese porcelains will be given at 8:30 p.m. Friday (Nov. 18) in the Minnesota Museum of Natural History auditorium at the University of Minnesota. The talk will be open free to the public.

The speaker will be Millard B. Rogers, associate director of the Seattle Art museum, Seattle, Wash. Title of his lecture will be "Kiln Sites of Kyushu". Rogers visited Kyushu island in 1956, to study the origin of the fine porcelains that captured the European market in the seventeenth century. A number of imitations of these porcelains were made by European manufacturers.

The lecture will be sponsored by the Minnesota Society of the Archaeological Institute of America, the University's departments of classics, history and anthropology and the department of concerts and lectures.

'U' CONSUMER
CREDIT SESSION
SET SATURDAY

(FOR IMMEDIATE RELEASE)

A one-day conference on consumer credit will be conducted by the University of Minnesota Saturday (Nov. 19) at its Center for Continuation Study on the Minneapolis campus.

The conference is designed primarily for board members, officers, committee members of credit unions and other leaders in the credit union movement.

Discussions and lectures will be directed toward developing a clearer concept and understanding of the role of consumer credit and credit unions in the national economy.

Professor Richard L. D. Morse, head of the family economics department at Kansas State university, Manhattan, Kans., will lecture during the morning session beginning at 9 o'clock. Kent W. Francis, special projects director for the Credit Union National association, Madison, Wis., will lecture at the 1 p. m. session.

The conference is co-sponsored by the University and the Minnesota League of Credit Unions.

EDUCATOR WARNS TEACHERS ON LOSING
LEADERSHIP TO 'OUTSIDE SOURCES'

(FOR IMMEDIATE RELEASE)

Minneapolis --- A leading educator Thursday (Nov. 17) warned teachers they are losing their leadership in developing new teaching ideas to "outside sources".

"The best-publicized new ideas on teaching are coming from outside the profession," Alexander Frazier, director of The Ohio State university's center for school experimentation, told Minnesota school officials and curriculum directors at the University of Minnesota's Center for Continuation Study. Frazier keyed the seventh annual institute of the Minnesota Association of Supervision and Curriculum Development.

He cited educational television, audio-visual aids and teaching machines as examples of innovations which have been "called to the attention" of educators by industry, military training programs and other sources.

"Unless we are able to see the teaching program as flexible," Frazier warned the educators, "we are liable to lose our leadership in developing new ideas to semi-professional or lay people who do have less fixed ideas.

"The only way to make sure we have professional leadership," he added, "is to be equally inventive on our own terms.... We have to take the lead if we want to promote better learning and to protect ourselves from ill-founded but well-promoted lay proposals."

Frazier said television and other electronic aids to education "have their uses", but teachers have to make sure "these things are put to legitimate educational use and are used in terms of learning".

(MORE)

FRAZIER

- 2 -

"We need to be experimental on a much larger scale than we have been in determining the best conditions for learning," Frazier said.

"We always had thought something was wrong with a child when he couldn't learn," he added. "Maybe, instead, something is wrong with us."

Frazier also is scheduled to speak at 9 a. m. and 3 p. m. Friday (Nov. 18), final day of the institute. Nolan Kearney, assistant superintendent in charge of curriculum and research for the St. Paul public schools, gave a report Thursday afternoon on "Cooperative Action Plans in Minnesota".

The Minnesota Association of Supervision and Curriculum Development is a division of the Minnesota Education association.

LUNDEN ISSUES
'U' FINANCIAL
REPORT 1959-60

(FOR RELEASE THURSDAY, NOV. 24, 1960)

Minneapolis --- Operating costs of the University of Minnesota for the fiscal year ending June 30, 1960, total \$81,354,845.17 for all campuses and stations, and 87,596 individuals received instruction at some level from the University during the year, according to a summary of financial operations released today (Nov. 24) by L. R. Lunden, business vice president.

Of the 87,596 students who registered for instruction, 5,785 earned academic degrees during the period.

In addition to its operating expenses, the University paid out \$9,393,526.76 for the construction and remodeling of buildings and the purchase of land. In the 12-month period, to meet construction costs, the sum of \$4,322,615.00 was withdrawn from funds appropriated by the State Legislature for that purpose.

Largest operating outlay, Lunden reported, was the \$37,299,745.15 spent for the instruction of students (at college and non-college level, in short courses and evening classes and through correspondence study) and departmental research on all campuses, agricultural schools and experiment stations, in summer sessions and through agricultural and general extension programs and for the services provided by University Hospitals.

Of the University's total overall operating costs of \$81,354,845.17, the vice president pointed out, the State of Minnesota provided \$28,573,050.19 or 35.1 per cent -- slightly more than one third. State support funds consisted of the Legislative maintenance appropriation of \$23,665,555.00, a special appropriation of \$3,166,895.12 (\$1,631,038.12 of which was charged to the counties) for the care of indigent patients at University Hospitals and a Legislative allotment of \$3,371,638.19 for special projects carried on by the University for the general benefit of Minnesota's citizens.

(MORE)

These "special projects" include agricultural extension work and research, business and economic research, medical research, operation of the Minnesota Rehabilitation Center, the Child Psychiatric Hospital, the Multiple Sclerosis Clinic, the Institute of Child Development and Welfare and the schools of agriculture student aid fund.

Sources of University income other than the State, the report indicates, are: appropriations from the Federal government---\$2,659,035.91 including \$307,626.11 for hospital construction and remodeling; fees and receipts---\$16,228,815.94 including \$7,585,354.90 in student tuition and fees; self-supporting University services and revolving funds---\$15,243,194.78 including \$264,371.88 allocated to plant expansion; trust funds---\$20,265,209.92 of which \$13,150,885.17 represents federal contracts and grants; and intercollegiate athletics---\$1,254,107.29.

Income from intercollegiate athletics included \$1,192,957.35 from the Minneapolis campus and \$61,149.94 from the Duluth campus. Expenditures for the operation of intercollegiate athletics and that part of physical education expenses paid from athletic receipts totaled \$1,181,362.63 for the fiscal year 1959-60. Involved was an outlay of \$1,116,611.16 in Minneapolis and \$64,751.47 in Duluth.

Other highlights of the report released by Vice President Lunden are as follows:

** Overall total receipts of the University for the fiscal year amounted to \$90,181,325.08, while expenditures for all purposes, transfers and adjustments for the period totaled \$90,177,626.52 leaving a free unencumbered balance of \$3,698.56 as of June 30.

(MORE)

** Expenditures for building and remodeling and land purchases, totaling \$9,393,526.76, were distributed--- Minneapolis campus, \$6,450,148.75; St. Paul campus, \$1,834,334.94; Duluth campus, \$256,259.83; outlying schools and stations and off-campus plant, \$852,783.24.

** At the close of the fiscal year, the University total endowment fund, including endowments for general purposes amounting to \$45,701,377.23, totaled \$63,183,616.75.

** University-owned land as of June 30, 1960, consisted of 16,543.33 acres valued at \$10,232,886.49, while the University's 1,080 buildings had an estimated value of \$109,456,157.06, representing original cost. University equipment was valued at \$43,081,919.02 and included \$359,995.72 in livestock and \$11,020,292.32 in books and museum collections.

'U' TO HOST
10-STATE MEETING
ON CHILD HEALTH

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
NOVEMBER 17, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Representatives of state maternal and child health and crippled children agencies from 10 states will attend a University of Minnesota institute on "Newer Concepts of Growth and Development: Implications for Child Health Services" Nov. 28 to Dec. 2.

This will be the third such institute co-sponsored by the University of Minnesota and the University of Michigan schools of public health under a grant from the United States Children's bureau. The institute will be conducted by the University of Minnesota's Center for Continuation Study. All sessions will be held in the Calhoun Beach hotel.

"The objective of the program is to promote state maternal and child health and crippled children programs by bringing together administrators and key staff members of the official state agencies to consider their current child health programs and the development of new programs," according to Dr. Gaylord W. Anderson, director of the University's school of public health.

The states represented will be Indiana, Illinois, Iowa, Kansas, Missouri, Nebraska, Ohio, North and South Dakota, Wisconsin, Michigan and Minnesota.

Principal speakers will include Mrs. Rollin Brown, New York, chairman of the Golden Anniversary White House Conference on Children and Youth; Dr. Robert W. McCammon, Denver, Colo., associate director of the University of Colorado school of medicine child research council; Dr. John A. Rose, Philadelphia, chief of child psychiatry at the Children's Hospital; and Dr. Helen M. Wallace, Washington, D.C., chief of professional training in the United States Children's bureau division of health services.

BRONK LECTURE
TO BE AIRED
ON KUOM THURS.

(FOR RELEASE MONDAY, NOV. 21)

"Science, Man, and Nature", the tenth Gideon Seymour memorial lecture delivered by Detlev W. Bronk Sunday (Nov. 20) at the University of Minnesota, will be broadcast over KUOM, University radio station, at 1:30 p. m. Thursday (Nov. 24).

Bronk is a noted American scientist and president of the Rockefeller Institute for Medical Research in New York. He was president of Johns Hopkins university in Baltimore from 1948 to 1953, has been chairman of the National Science Foundation since 1956 and has held the presidency of the National Academy of Sciences since 1950.

Bronk has held trusteeships of 11 institutes, foundations and universities, membership in or chairmanship of 21 scientific committees, boards and councils and the editorship of six scientific journals.

The Seymour lectures were established in 1954, in memory of the late executive editor of the Minneapolis Star and Tribune. The series is directed by a citizens' committee appointed by the University president and is financed through funds provided by the Star and Tribune.

Bronk's lecture will be broadcast on KUOM's regular daily program feature, "Public Affairs Forum".

Wednesday A.M.---
GOPHER GRIDDERS
TO GET LETTERS,
NAME CAPTAIN

(FOR IMMEDIATE RELEASE)

Minneapolis ---Football letters will be presented to members of the 1960 University of Minnesota team at the annual football convocation at 11:30 a.m. Wednesday (Nov. 23) in Coffman Memorial Union main ballroom.

The 1961 Gopher football captain also will be named during the free public program. Captain Greg Larson will pass the traditional lighted torch to his successor.

Murray Warmath, head coach, and Ike Armstrong, athletic director, will speak briefly. Professor Max O. Schultze, chairman of the University senate faculty-student-alumni committee on intercollegiate athletics will present the football awards.

Russell Backstrom, Minneapolis, president of the Minnesota Alumni association, will give "An Alumnus' Viewpoint on Intercollegiate Athletics".

Music will be provided by the University of Minnesota marching band under the direction of Frank Bencriscutto, bandmaster. The Gopher cheerleaders and the pom pon girls will lead the audience in cheers for the team and in singing "Minnesota Rouser", "Minnesota March" and "Hail, Minnesota".

The convocation will be sponsored by the Minnesota Student association and the department of concerts and lectures.

HELLER TO ADVISE
BROOKINGS STUDY
OF GOV'T. FINANCE

(FOR IMMEDIATE RELEASE)

The Brookings Institution, Washington, D. C., Monday (Nov. 21) announced the appointment of Walter W. Heller, University of Minnesota economics professor, to the advisory committee of its new Study of Government Finance.

A non-profit organization, the Brookings Institution will conduct a five-year program of research and education on taxation and government expenditures under a recent grant from the Ford Foundation.

Professor Heller, chairman of the University's economics department in the School of Business Administration, will attend the first meeting of the advisory committee Nov. 30. Purpose of the meeting will be to assist the Brookings Institution staff in formulating a general set of research and educational proposals and to recommend organizations and individuals who best can carry out particular projects in the program.

HOW TO CARVE
TURKEY FEATURE
OF 'U' TV SHOW

(FOR IMMEDIATE RELEASE)

"How To Carve Your Turkey"--with a freshly roasted bird, complete with stuffing and trimings -- will be a pre-Thanksgiving feature on the University of Minnesota television program, "Folio" at 9 p. m. Wednesday (Nov. 23) on KTCA-TV, Channel 2.

Milo H. Swanson, University associate professor of poultry husbandry, will demonstrate the fine points of satisfying the demand for "just a little bit of white meat, and some of that dark meat, too please" on a smoking hot carcass rushed to the studios hot from the ovens of the University food service in Coffman Memorial Union.

The demonstration will be held during the first part of the program, in order that the bird may still be hot and in perfect serving condition, according to Sheldon Goldstein, KUOM television program director.

STATE ASSESSORS
TO ATTEND TAX
COURSE AT U OF M

(FOR IMMEDIATE RELEASE)

Minneapolis --- A two-week "Property Tax Seminar" for municipal and county assessors will be offered for the first time by the University of Minnesota Nov. 28 to Dec. 9 at the Center for Continuation Study on the Minneapolis campus.

Fred E. Berger, Continuation center director, said the seminar will be scheduled annually and will be offered in addition to the three-day spring institute which has been conducted by the Center for more than 20 years.

The two-week course, which is offered in cooperation with the Minnesota League of Municipalities, will be an attempt to further professionalization of assessing, according to Berger.

He pointed out that the problem of property tax assessment is becoming increasingly more complex as new types of buildings and construction are developed.

The two-week seminar will offer intensive instruction in four major areas: appraisal of real estate, property tax law, basic land economics and assessment administration.

Faculty members will be Howard Shenehon, University general extension division lecturer and a Minneapolis appraiser; George R. Johnson, Minneapolis attorney and former assistant state commissioner of taxation; James Schwinden, University agricultural economics instructor; and Irving J. Olson, director of the Minnesota Department of Taxation's property tax division.

Sessions will be held from 9 a. m. to noon and 1:30 to 4:30 p. m. Monday through Friday.

TRIO SONATAS
ON 'U' TELEVISION
MUSIC PROGRAM

(FOR IMMEDIATE RELEASE)

Two "Trio Sonatas" by Handel and Telemann will be played on this week's "At Home With Music" program televised at 9:30 p.m. Monday, Nov. 28, by station KTCA-TV, Channel 2.

The program, a weekly production of the University of Minnesota music department, is directed by assistant professor Ivar Glemming.

Taking part in the program will be University music department faculty and students led by George Houle, oboe, Jane LaBerge, violin, Jane Furriss, harpsichord, and Eva Hradetzky, 'cello. They will play four movements from Telemann's "Concerto II" in G minor and four movements from Handel's "Sonata" in B flat major.

Christmas music, sung in four languages by the University Music Educators' chorus, will make up the Dec. 5 "At Home With Music" program, according to Glemming.

'U' GIVEN \$21,400
FOR KOLTHOFF STUDY
OF NEW ELECTRODE

(FOR IMMEDIATE RELEASE)

The University of Minnesota has received a \$21,400 grant from the National Science Foundation for a two-year continuation of research on a new electrode introduced by the University's analytical chemistry division.

Professor Izaak M. Kolthoff, division head, directs the study, which is entitled "Fundamental Polarographic Studies at the Rotated Dropping Mercury Electrode".

"Previous University Studies have shown that this new electrode can be used to determine very small amounts of materials not traceable by traditional electrodes," Professor Kolthoff said. "The electrode also is ideally suited for study of adsorption and desorption of surface-active substances at the surface of mercury-water."

One example of the electrode's practical application which Professor Kolthoff cited, is its ability to determine very small traces of metals in soil.

8 'U' FACULTY MEMBERS
TO PARTICIPATE
IN NATIONAL MEET

(FOR IMMEDIATE RELEASE)

Eight University of Minnesota faculty members will appear on the program of the 50th convention of the National Council of Teachers of English Thursday, Friday and Saturday (Nov. 24-26) in Chicago.

Harold B. Allen, English professor and nominee for presidency of the Council, will preside at a meeting on "Scholarship in Linguistics". Professor Allen is first vice president of the Council.

Dora V. Smith, professor emeritus of education, will preside at a meeting on the English curriculum and will speak at a luncheon Friday on "Fifty Years of Children's Book".

Guy L. Bond, education professor, will talk on "Reading in the Elementary School" and will preside at a session devoted to "Reading in the Atomic Age".

Other University speakers will be: William Van O'Connor, English professor, "The Modern Novel" and "Putting Literary Scholarship to Work in the Classroom"; Naomi C. Chase, assistant professor of education, "Reading and Creative Thinking"; Daniel V. Bryan, associate professor in the communication program, "Teaching Communication"; Stanley B. Kegler, assistant professor of education and University high school English department head, "Advances in Teaching Techniques"; and John S. Simmons, University high school instructor, discussant in panel on "Concept Development in Literature".

'MAMMAL SKULLS'
TOPIC OF SUNDAY
MUSEUM LECTURE

(FOR IMMEDIATE RELEASE)

"Adaptations in Mammal Skulls" will be the subject of an illustrated lecture at 3 p. m. Sunday (Nov. 27) in the Minnesota Museum of Natural History auditorium at the University of Minnesota. The program will be open free to the public.

Harvey Gunderson, museum curator of animals, will give the lecture and show illustrated slides. He will explain how evolution has worked to shape different mammal skulls to suit certain food habits or ways of living.

Next in the series of Sunday museum programs will be a discussion of "Geology and Twin City Water Problems" Dec. 4 by George M. Schwartz, University geology professor and director of the Minnesota Geological Survey.

PRIVATE PRESS
BOOKS ON DISPLAY
AT 'U' LIBRARY

(FOR IMMEDIATE RELEASE)

Examples of books from the private presses of bookmakers of the last 200 years are on exhibition in cases in the main floor lobby of the University of Minnesota's Walter library.

The exhibition, open through the first week in December, is part of the Private Press collection from the Walter library's Russell Room, according to James Kingsley, Jr., chief of the library's special collections.

John Baskerville's editions of Milton, Addison and Congreve, dated as early as 1758, show Baskerville's answer to his personal dissatisfaction with "modern" printing methods: after designing and casting his own new type face (still much favored by today's "most-modern" printers) he designed elaborate improvements upon the then-existing printing presses, developed a new "woven" type of paper (again, extensively used today), and produced his own ink.

Sir Horace Walpole's famous Strawberry-Hill imprint is found on the books in one case -- with that of Dr. Henry Daniel's Daniel Press in an adjoining case. Identifying cards point out that the Daniel Press used the type faces of Dr. Fell, of the "I do not like thee, Dr. Fell" limerick fame.

Of William Morris and his Kelmscott Press (circa 1891) Kingsley says, "By reviving an interest in good printing and the book arts generally, Morris created a new era in bookmaking".

The books making up this special exhibition, as well as the thousands of other rare and unusual books owned by the Walter library may be viewed during library hours by contacting Kingsley at the library.

ALLEN, 'U' PROFESSOR,
HEADS NATIONAL
TEACHERS GROUP

(FOR RELEASE FRIDAY, NOVEMBER 25)

Harold B. Allen, University of Minnesota English professor, Thursday (Nov. 24) was elected president of the National Council of Teachers of English (NCTE) at the organization's 50th annual convention in Chicago.

Professor Robert Carlsen of the State University of Iowa, former University of Minnesota high school instructor, was elected to the first-vice presidency succeeding Allen. Carlsen also received the doctor of philosophy degree from Minnesota.

Both new officers have long been active in the National Council of Teachers of English. Allen served as second-vice president in 1957 and as first-vice president this past year. He was a founding member of the NCTE's constituent group, the Conference on College Composition and Communication, and was its associate chairman in 1951 and its chairman in 1952.

Allen has been an adviser to "College English", a NCTE publication, and has served on numerous committees, including the linguistic terminology committee of which he has been chairman for three years. He is advisory board chairman for the Council's Major Textbook project undertaken on a grant from the United States Information Agency.

Carlsen served as second-vice president in 1958 and has been prominent in NCTE activity in the field of high school reading and literature for adolescents.

Four previous NCTE presidents have been University of Minnesota people: Professor Emeritus J. M. Thomas, former assistant dean of the college of science, literature and the arts, president in 1919; Rewey Belle Inglis, Minneapolis public school teacher and a University graduate, in 1928; Dora V. Smith, professor emeritus of education, in 1936; and Luella B. Cook, who was a Minneapolis public school consultant and also a University graduate, 1956.

(MORE)

Professor Smith also was chairman of the NCTE commission on English curriculum and directed publication of a series of volumes dealing with the high school and college preparatory curriculum for English teachers.

Two Minnesota English professors have served as chairmen of the NCTE College section. They are former professor Theodore R. Hornberger, now at the University of Pennsylvania, and the late professor Tremaine R. McDowell, chairman of the program in American Studies. Two others, besides Allen, have been elected as advisers to "College English": Professor William Van O'Connor and Professor Samuel H. Monk.

The present editor of the Council's secondary school publication, "The English Journal", Professor Dwight L. Burton of Florida State university, is a former University high school English department chairman. Robert C. O'Hara, instructor in the University's communication program, has recently been appointed as a member of the advisory board of the Council's new publication, "Studies in the Mass Media"; and another Communication staff member, J. Vernon Jensen, assistant professor of speech and communication, has just been named chairman of the Council's liaison committee for maintaining relationships with the Speech Association of America and the Educational Theater Association.

Especially far-reaching has been the influence of Professor Dora V. Smith in directing the doctoral training of many candidates who currently direct major English teacher-training programs throughout the country. The following of her former students, all of whom are professors of English, have become active in the National Council of Teachers of English: Stanley B. Kegler and Naomi Chase, University of Minnesota; Dwight Burton, Florida State university; Richard Alm, University of Hawaii; Walter Loban and Grace Daly Maertins, University of California; Mary Tingle, University of Georgia; Dorothy Petitt, San Francisco State college; Raymond Kehl and Silvy Kraus, University of Oregon; Oscar Haugh, University of Kansas; Robert Carlsen, State University of Iowa; Herbert Coutts, University of Alberta, Canada; Ellen Frogner, Southern Illinois university. Also a leader in the Council and in English education is the Minnesota graduate, Arno Jewett, of the secondary schools division of the United States Office of Education.

COLLEGE TEACHERS TO HOLD FIRST
STATEWIDE MEET AT U OF M SATURDAY

(FOR IMMEDIATE RELEASE)

Professors from Minnesota universities and colleges will assemble at the University of Minnesota's Mayo Memorial auditorium Saturday (Nov. 26) for their first statewide conference.

Sponsored by the Minnesota conference of the American Association of University Professors (AAUP), the day-long meeting will focus on problems of maintaining standards and improving the quality of higher education in the state.

"It will mark the first major effort by faculty members from the University of Minnesota, state colleges and private colleges to join together in discussing their professional interests and their service to society," according to Professor Walter Mink of Macalester college, AAUP Conference president.

President O. Meredith Wilson of the University of Minnesota will open the conference at 9 a. m. with a talk on "Reflections of an Erstwhile Faculty Member".

J. Cameron Thomson, retired board chairman of Northwest Bancorporation, will speak at a luncheon in the University's Campus Club on "A Businessman Looks at the College Professor".

Dr. Peggy Heim of the AAUP national office in Washington, D. C., will be the third principal speaker. She will give a report from the national committee at a 10:30 a. m. panel and will summarize the conference discussions with concluding remarks at 3:30 p. m.

Faculty members from any campus in the state, whether or not AAUP members, are welcome to attend, according to Professor Samuel H. Popper, University of Minnesota, conference general chairman.

Registration will be held at 8:30 a. m. in the lobby of Mayo Memorial auditorium.

All 215---
MORRIS 'U' STUDENT BODY
TO VISIT MAIN CAMPUS

(FOR IMMEDIATE RELEASE)

The Thanksgiving holiday will be slightly extended for some University of Minnesota students when the entire enrollment -- the 215-member freshman class -- of the University of Minnesota, Morris, "bus it" to the main campus to spend the day, Thursday, Dec. 1, as guests of the Minnesota Student association (MSA).

Accompanied by Dean Rodney A. Briggs and 14 members of the Morris faculty, the busloads of students will arrive at 10:30 a. m. at Northrop Memorial auditorium.

Welcoming the newcomers will be James R. Spensley, MSA president. E. G. Williamson, University dean of students, will greet the visitors, and Pat Nordstrom, MSA Morris Day committee chairman and coordinator, will explain the day's program.

Following Dean Williamson's convocation address at 11:30 a. m., the Morris campus students will adjourn to Coffman Memorial Union junior ballroom for paperbag lunches.

Representatives from eight "special groups" -- the Minnesota Daily staff, the St. Paul campus, engineering, the governing boards from the college of Science, Literature and the Arts, the University bands, religious organizations, the student unions, and officers of MSA, the student government organization -- will act as group sponsors conducting campus tours from 1:30 to 3:15 p. m.

At 3:30 p.m. the entire Morris delegation will reassemble in Coffman Union main ballroom to attend the MSA Assembly meeting and observe the University student government in operation.

The University will sponsor the evening banquet for the Morris students at 5:30 p.m. at Pioneer hall. A representative from President O. Meredith Wilson's office, Malcolm M. Willey, administrative vice president, Dean Williamson, and Dean Briggs will be banquet speakers.

After attendance, as the University's guests, at the Minnesota-Bradley basketball game at Williams arena, the Morris students and faculty will return to their Western Minnesota campus.

'U' WILL PRESENT
ALUMNI AWARDS
TO 2 EXECUTIVES

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.
MINNEAPOLIS 14, MINNESOTA
FEDERAL 2-8158 EXT. 6700
NOVEMBER 23, 1960

(FOR IMMEDIATE RELEASE)

Minneapolis --- Cyril P. Pesek, Minnesota Mining and Manufacturing company executive, and Russell F. Erickson, president of a New York chemical cellulose producing firm, will receive University of Minnesota Outstanding Achievement Awards Dec. 1.

The awards will be presented at the twenty-second annual meeting of the University Institute of Technology Alumni association in the Town and Country club, St. Paul. The award, consisting of a gold medal and a citation, is given to University alumni who have distinguished themselves in their chosen fields.

University President O. Meredith Wilson will speak at the alumni meeting.

Pesek received a bachelor of science degree in architectural engineering from the University in 1925. He has been vice president for engineering and staff manufacturing at Minnesota Mining and Manufacturing company (3M) since 1956. He joined the St. Paul firm in 1944, as chief industrial engineer and has held successive positions as administrator of engineering, vice president in charge of engineering and vice president in charge of engineering and properties before he was named to his present post.

In 1959, he was elected to 3M's board of directors and to the executive committee. He co-ordinates the company's missile activities and is president of the parent company's Big Rock Stone and Material company.

A Minneapolis native, Pesek is a graduate of St. Thomas academy, St. Paul, and attended St. Thomas college. He was a partner in a Minneapolis architectural and engineering firm and served with the United States Army Engineers and Gopher Ordnance Works before joining Minnesota Mining and Manufacturing company. Pesek is married and lives at 2125 Oliver avenue, South, Minneapolis.

Erickson, president of Rayonier, Inc., one of the world's largest producers of chemical cellulose, received a bachelor of science degree in mechanical engineering from the University in 1932. He began his engineering career with Minnesota and Ontario Paper company, International Falls, Minn., and later worked with New York, Alabama and Florida firms. He joined Rayonier as plant engineer of a company mill in Florida and in four years rose to vice president in charge of engineering. He was named president in 1958.

Also a Minneapolis native, Erickson is married and lives in Scarsdale, a New York suburb.

REGENTS ENDORSE
U OF M ROSE BOWL
BID ACCEPTANCE

(FOR IMMEDIATE RELEASE)

Minneapolis --- Ray J. Quinlivan of St. Cloud, chairman of the University of Minnesota's 12-member Board of Regents, Friday (Nov. 25) issued the following statement on behalf of the board regarding the University football team's participation in the Rose Bowl game with the University of Washington team in Pasadena, Calif., Jan. 2:

"The Regents of the University of Minnesota applaud the decision of the Senate Committee on Intercollegiate Athletics to accept the invitation to participate in the 1961 Rose Bowl game and add their unqualified endorsement. We are confident that the team's performance will support the wisdom of the Rose Bowl committee in its selections."

U OF M ANNOUNCES
TICKET POLICY
FOR ROSE BOWL

(FOR RELEASE 7 P.M. SATURDAY, NOV. 26, 1960)

Minneapolis, Nov. 26, 1960----- Rose Bowl ticket plans as approved by the University's Rose Bowl Committee determining policy for the distribution of an estimated 12,000 Rose Bowl tickets which the University of Minnesota will have available for the Jan. 2 game at Pasadena, California, was announced today by the office of Athletic Business Manager Marsh W. Ryman.

Ticket allocation to the University of Minnesota as the visiting participant and to the Big Ten totals 16,783, Marsh Ryman stated. The 12,000 tickets to be put on priority sale represent the quantity available after obligated ticket commitments for University-sponsored special trains for student, staff and alumni and to other Western Conference schools have been filled.

The University Rose Bowl Ticket Committee stressed the principle of "personal application for personal use only" and a maximum of two (2) tickets per application. This will enable the Athletic Ticket Office to spread the supply to a greater number of the Gopher's regular supporters and followers.

Special applications will be made available to five (5) main priority groups with quotas assigned to each of these groups with a maximum of two (2) tickets per application, Ryman said:

- (1) University students currently registered and eligible to purchase a regular Student Season Athletic Ticket (Present Season Athletic Ticket holders will be given first priority.)
- (2) University faculty and civil service staffs currently employed and eligible to purchase the Staff Season Athletic Ticket. (Present Season Athletic Ticket holders will be given first priority.)
- (3) University benefactors.

(MORE)

TICKET POLICY FOR ROSE BOWL

- 2 -

- (4) Public season football ticket purchasers (who have purchased in their own name without interruption for the last three (3) years.)
- (5) Alumni Association paid-up members and Minnesota "M" lettermen.
- (6) General public (only if tickets are available after filling above priorities). -- If any are available, procedures for purchase of General Public tickets will be announced after Dec. 5.

Ticket prices will be \$6, plus a 50-cent mailing charge. Single student and staff tickets will be sold at half-price.

Applications including complete instructions for ordering will be mailed first class today (Sunday) to the above groups except students and staff who will apply personally on special sale dates. Ryman estimates 40,000 applications will go out today and stated that orders will be accepted only on the official application blank in the original applicant's name for his own use.

Opening date of the sale for the priority groups one to five above will be Tuesday, Nov. 29, and will close Monday, Dec. 5, at 4 p.m. Applications received after the deadline will be accepted only if the ticket supply is not exhausted.

The ticket office stated that "the application holders are not guaranteed tickets". Orders will be accepted and filled in order of receipt within priority group in the ticket office until the supply is exhausted.

Cash orders will not be accepted. Checks and postal money orders must accompany applications and applications must be mailed in. No orders will be accepted or tickets sold over the counter in Cooke hall.

Tickets will be mailed by registered mail between Dec. 15 and 19 except to students and staff who must claim them in person at a special ticket office in Los Angeles between Dec. 30 and Jan. 1.

(MORE)

Students and staff will be limited to one ticket plus one additional if married. Students and staff apply in person only (with check, bank draft or postal money order only) at Williams Arena on the following schedule: Documentary evidence of marriage will be required.

Students - Wednesday and Thursday, Nov. 30 and

Dec. 1, 9 a. m. - 4 p.m.

Staff - Friday and Saturday, Dec. 2 and 3, 9 a. m. to 4 p. m.

The Athletic Ticket Office anticipates the greatest volume of mail in its history and estimates that only about one-third of the requests will receive tickets. Orders which cannot be filled will be returned as soon as possible after Dec. 5.

CHRISTMAS SONGS
ON 'U' MUSIC
TV SHOW MONDAY

(FOR IMMEDIATE RELEASE)

Christmas songs will be sung in Norwegian, German and French on the University of Minnesota music department's weekly "At Home With Music" program at 9:30 p. m. Monday, Dec. 5.

Thirteen members of the Music Educators' chorus, under the direction of Associate Professor Arnold Caswell, will sing the Christmas program, televised over KTCA-TV, Channel 2.

The program, according to Professor Ivar Glemming, program coordinator, will consist of the Norwegian song, "Oh, How Beautiful the Sky", arranged by Paul Christiansen; the German song, "Oh, Beloved Shepards", by Andreas Hammerschmidt; and the French carol, "A Joyous Christmas Song" by F. A. Gevaert.

Robert Solem, graduate student in music, will conduct the first number and accompany the chorus in the other two.

Rose Bowl Bound---
'GOLDEN GOPHER'
SPECIAL STUDENT
TRAINS PLANNED

The Minnesota Student association and the office of the dean of students Monday (Nov. 28) announced their co-sponsorship of the "Golden Gopher Special" student trains to the Rose Bowl in Pasadena, Calif.

The transportation sub-committee of the University Rose Bowl committee has named James R. Spensley, MSA president, and E. G. Williamson, dean of students, to arrange for the special trains. Others currently involved in the planning are members of the MSA executive committee and the dean's staff.

Room for 2,000 University students on the week-long trip has been planned at a per-student cost of \$189.85. Departure is set for Tuesday, Dec. 26, and return arrival the evening of Jan. 4, 1961. Cost of the trip includes round-trip railroad fares, meals enroute, hotel rooms for five nights in Los Angeles, all transfers of luggage, and transportation to the Tournament of Roses parade and the Rose Bowl game.

The actual football ticket and meals while in Los Angeles are not included in the quoted tour price. Student tickets for the Minnesota-Washington match may be obtained at a price of \$3 through the Athletic Ticket Office, Wednesday and Thursday at Williams Arena.

The "Golden Gopher Special" down-payment of \$5 reserving a seat is payable at the "Special's" reservation desks in Coffman Memorial Union, east first floor lobby, ordinarily the ping-pong area. These reservations may be made beginning at 1 p. m. Wednesday (Nov. 30) and on Thursday, Friday and Saturday, Dec. 1, 2, 3.

(MORE)

Positive identification will be required of students at the time of reservation as the trip is for students only. If at any time during the trip, a passenger is identified as a non-student (University, fall quarter), he will be expelled without refund, Dean Williamson pointed out.

The deadline for cancelling the reservations without forfeiture of the deposit is 8 p. m. Monday, Dec. 5. The balance of \$184.85 will be paid at the "Special" desk Wednesday through Saturday, Dec. 7-10. Final payments will be made in cash (exact change), money order or cashier's check in the exact amount for convenience and to avoid mistakes. No personal checks will be accepted.

Because train seat arrangement will be in the order of final payment it is possible for friends to travel together on the trains. Also one person may make final payment for up to four at once provided he holds the appropriate credentials for each (fee statements, deposit receipts, etc.), Spensley explained.

Special tours will be available in Los Angeles, and a free trip to San Diego is optional. The trains will stop over for several hours in Las Vegas, Nevada. Student groups from other Big Ten schools have been enthusiastic about their similar special trains, according to Spensley. More than 2,500 students attended the game by train from Michigan State.

Representatives of the sponsoring groups will accompany each train to facilitate the trip and accomplish the necessary liaison with railroads, hotels, etc. Regular university policy regarding student behavior will be in effect during the entire trip, according to Dean Williamson. The "Golden Gopher Specials" are the only official University trips for students.

STUDENT-STAFF ROSE BOWL
TICKET SALES SET AT 'U'

(FOR IMMEDIATE RELEASE)

A special priority ticket sale for University of Minnesota students and staff who will attend the Rose Bowl football game at Pasadena, Calif., on Jan. 2, 1961, was approved by the University Rose Bowl ticket committee and announced by the athletic ticket office Monday (Nov. 28).

Marsh Ryman, business manager of athletics, stressed that all tickets sold to students and staff must be picked up personally by the original applicant upon presentation of official receipt and other identification at Los Angeles, Calif., between Friday, Dec. 30, through Sunday, Jan. 1, 1961.

The University athletic ticket office where students and staff will claim their tickets will be located in the lobby of the Southern California Edison Company building at 5th and Grand, across the street from the Biltmore hotel in Los Angeles, Ryman said.

To be eligible to purchase a Rose Bowl ticket, Minnesota students must be currently registered and eligible to purchase the regular student season athletic ticket. Minnesota staff (faculty and civil service) must be currently employed and eligible to purchase the staff season athletic ticket.

Students and staff will be limited to one ticket if single, plus one additional if married. Either or both tickets are for personal use only of husband and/or wife. The student or staff member's ticket is a reduced rate ($\frac{1}{2}$ price) ticket at \$3. The non student-staff spouse ticket will be sold at the regular admission price of \$6, and documentary proof of marriage will be required at the time of purchase. Students will be required to present a fee statement on purchase, and staff will be required to establish appointment and classification status.

(MORE)

The University Rose Bowl ticket committee has ruled that present student and staff season athletic ticket holders will be given first priority in the and staff "special sale" quotes.

The athletic ticket office emphasized that time of application on "special sale" dates will not determine seat locations. All student and staff game tickets will be issued only at the University claim office in Los Angeles. Those desiring adjacent seating will be accommodated insofar as possible if they appear together at the claim office in Los Angeles.

Students and staff are cautioned that NO refunds (except in the eventuality that quotas are exhausted) will be made on tickets applied for and not picked up at the claim office because of failure to comply with the specific identification regulations and policies. Policies established for personal purchase, ticket pick-up, identification and non-transfer regulations are in accordance with Big Ten regulations which govern the sale of tickets to University personnel for their own use.

The special priority student-staff sale will be held at Williams Arena lobby on the following schedule:

Students - Wednesday and Thursday, Nov. 30 and Dec. 1

Hours - 9 a. m. - 4 p. m.

Staff - Friday and Saturday, December 2 and 3

Hours - 9 a.m. - 4 p. m.

UNION CHRISTMAS
ACTIVITIES SOON
TO BEGIN AT 'U'

(FOR IMMEDIATE RELEASE)

Christmas activities at the University of Minnesota Coffman Memorial Union will get into full swing Wednesday (Nov. 30) with the opening of a Christmas workshop from 11:30 a. m. to 1:30 p. m. in the Union main ballroom.

Such Christmas ideas as table and tree decorations, gift wrappings and house ornaments will be constructed by trained students and demonstrators from local hobby shops and stores.

The Christmas theme also will be carried out at the All-University Talent Show at 12:30 p. m. Thursday (Dec. 1) in the Union main ballroom. The show is sponsored by the University Union Board of Governors (UBOG) talent committee.

The first big social affair of the holiday season, UBOG's semi-formal Christmas Ball will be held from 9 p. m. to 1 a. m. Saturday (Dec. 3) in the Union main ballroom. Music will be provided for the dancing by Harry Strobel's orchestra, with the Choralaires providing intermission entertainment. Admission to the ball, open to the public, will be \$3.50 per couple, available at the door.

215 Strong---
MORRIS STUDENTS
TO SPEND DAY
ON 'U' CAMPUS

(FOR IMMEDIATE RELEASE)

The entire student body from the University of Minnesota's newest campus, Morris, will find out "how the other half lives" today (Thursday, Dec. 1) when the 215 freshmen descend from busses at 10:30 a.m. at Northrop Memorial auditorium on the Minneapolis campus.

Accompanied by Dean Rodney A. Briggs and 14 members of the UMM faculty, the Morris students will spend the day on the University's Minneapolis campus as guests of the Minnesota Student association (MSA).

An "open to the public" rehearsal of the Minneapolis Symphony Orchestra at which the UMM students will watch Conductor Stanislaw Skrowaczewski put the orchestra through its paces, will open the day's festivities in Northrop auditorium.

Following the orchestra rehearsal, the UMM students will go to Murphy hall auditorium where James R. Spensley, MSA president, and E. G. Williamson, University dean of students, will welcome them to the campus. Pat Nordstrom, MSA Morris Day committee chairman and coordinator, will explain the day's program.

After a "paper-bag" lunch in Coffman Memorial Union junior ballroom, the UMM students will break up into eight special interest groups, joining with representatives from the Minnesota Daily staff, the St. Paul campus, engineering, the governing boards from the college of science, literature and the arts, the University bands, religious organizations, the student unions, and officers of MSA, the student government organization, who will act as group guides and sponsors conducting campus tours from 1:30 to 3:15 p.m.

At 3:30 p.m., the entire Morris delegation will reassemble in Coffman union main ballroom to attend the MSA Assembly meeting and observe the University student government in operation.

Willard L. Thompson, assistant to University President O. Meredith Wilson, will address the Morris students at a University sponsored banquet at 5:30 p.m. in Pioneer hall. Malcolm M. Willey, administrative vice president, Dean Williamson and Dean Briggs also will speak to the students.

After attendance, as the University's guests, at the Minnesota-Bradley basketball game at Williams arena, the Morris students and faculty will return to their western Minnesota campus.

NATIONAL EXAMS
FOR PROSPECTIVE
TEACHERS SLATED

(FOR IMMEDIATE RELEASE)

Prospective teachers in this area will have the opportunity to take the National Teacher examinations Feb. 11, 1961, according to Ralph F. Berdie, University of Minnesota student counseling bureau director who will supervise the administration of the tests.

Application blanks and information bulletins describing registration procedures and containing representative test questions may be obtained from the University Student Counseling Bureau, Room 101 Eddy hall, or directly from the National Teacher Examinations, Educational Testing Service, 20 Nassau st., Princeton, N. J.

Completed applications must be received at the Princeton office not later than Jan. 13, Berdie stated.

At the one-day testing session a candidate may take the common examinations which include tests in professional information, general culture, English expression and non-verbal reasoning. In addition, each candidate also may take one or two optional examinations, designed to demonstrate mastery of subject matter in fields in which the candidate is prepared.

TAX INSTITUTE
FOR ATTORNEYS
SLATED AT 'U'

(FOR IMMEDIATE RELEASE)

The University of Minnesota's annual December Tax institute for members of the Minnesota State Bar association and attorneys who have been admitted to the bar of other states will be held Thursday and Friday, Dec. 8-9 in the Center for Continuation Study.

The first two sessions Thursday morning will be devoted to recent federal and state laws and rulings. The speakers will be William B. McCallum, Minneapolis attorney, and Thomas M. Vogt, St. Paul attorney.

Handling a tax fraud investigation will be discussed by Raymond B. Ondov, Austin, Minn., attorney, at a Thursday afternoon session.

George Harding, Minneapolis attorney, will deal with profit-sharing plans and close corporation pensions in a talk at 3 p. m. Thursday. This same subject will be considered by Wood Foster, St. Paul attorney, at Friday's 9 a. m. session.

"Review of a Marital Deduction Will" will be discussed in remaining sessions Friday by Thomas L. Waterbury, University law professor, and Robert Tarbox, Minneapolis attorney, and by a panel of four speakers including Judge Melvin J. Peterson, Hennepin county probate court.

The institute is co-sponsored by the University's law school and the Center for Continuation Study and the Minnesota State Bar association. Registration may be made by writing to the Director, Center for Continuation Study, University of Minnesota, Minneapolis 14.

'TIME, CALENDAR'
EXHIBIT OPENS
AT 'U' MUSEUM

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
NOVEMBER 30, 1960

(FOR IMMEDIATE RELEASE)

"Time and the Calendar", an exhibit of ancient scientific instruments collected by Professor Mark A. Graubard of the University of Minnesota, opened this week at the Minnesota Museum of Natural History.

The museum is located at University and 17th avenues S. E. on the University campus. Exhibit hours are 9 a.m. to 5 p.m. Monday through Saturday and 2 to 5 p.m. Sundays.

The exhibit is the first in a series of Professor Graubard's collection to be shown throughout the 1960-61 school year.

Graubard, who is a professor of interdisciplinary studies, has been collecting replicas and making copies of ancient scientific instruments for 15 years.

"You can learn a lot about these instruments from building them," Professor Graubard declared. "In fact, the only way to know the past is to put yourself in the driver's seat of that time".

He has built the instruments out of modern materials from descriptions in ancient textbooks and history books and from archeological excavation reports.

"Time and the Calendar" is an exhibit of instruments used in ancient times for measuring time and acquiring information necessary to make a calendar -- the position of the planets; the position of the sun at noon and at sunrise; the celestial longitude and latitude; and the equinoxes (when night and day are of equal length, March 21 and Sept. 21) and the solstices (shortest and longest days of the year).

The items range from the oldest known home calendar, a red sandstone slab with pegs used by the Egyptians about 2500 B. C., to a "Rube Goldberg type" water clock which measured time by means of a rising float.

Titles of the subsequent exhibits are: "Cosmological Theories---Ptolemaic, Copurnican and Tyconic", "Technology and Gadgetry of the Ancient World", "Optical Early Scientific Devices and the First Telescope", "Ancient Calculations in Geometry", "Ancient Astronomy and Contemporary Holidays" and "Ancient Geography".

MIDWEST CHEMISTRY
MEETING OPENS
ON 'U' CAMPUS

(FOR IMMEDIATE RELEASE)

Some 60 professors of analytical chemistry will attend the annual Midwest Universities Analytical Chemistry conference in the University of Minnesota Murphy hall Friday and Saturday (Dec. 2-3).

Hosts to the meeting, held last year at Purdue university, will be Minneapolis and Duluth faculty members of the University's division of analytical chemistry, according to Professor I. M. Kolthoff, Minneapolis campus division head.

Many of the participating analytical chemistry teachers from all of the midwestern states and Pennsylvania, New Mexico and Colorado will present results of their latest research at the conference which will open at 9 a. m. Friday and continue through Saturday afternoon. Friday afternoon meetings are being reserved for general discussions of the status of and education in analytical chemistry, Professor Kolthoff stated.

An informal 7:30 p. m. dinner in the University Campus Club, Coffman Memorial Union, will be held Friday evening for conference participants.

740 TO RECEIVE
DEGREES AT 'U'
COMMENCEMENT DEC. 15

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
DECEMBER 1, 1960

(FOR RELEASE THURSDAY, DEC. 8, 1960)

The University of Minnesota will award degrees to approximately 740 graduates in Fall commencement exercises at 8 p. m. Thursday, Dec. 15, in Northrop Memorial auditorium.

C. A. Elvehjem, president of the University of Wisconsin, will give the commencement address on the topic "The Future is Yours".

President O. Meredith Wilson of the University of Minnesota will confer undergraduate and graduate degrees and ROTC certificates.

A world-famed biochemist, President Elvehjem served on the University of Wisconsin faculty for 35 years before he was named president in 1958. He also received the bachelor of science, master of science and doctor of philosophy degrees from Wisconsin. He served as dean of the graduate school for 14 years before being named president.

President Elvehjem has been a leader in research in nutrition and Vitamin B complex work, for which he has received many awards, including the 1956 Charles F. Spencer award for meritorious contribution to food and agricultural chemistry.

He is chairman of the food and nutrition board of the National Research Council and is a charter member of that organization. In 1953, he became the second Wisconsin faculty member to be elected to the American Academy of Arts and Sciences.

President Elvehjem gained international prominence in the 1930's when he isolated nicotinic acid -- leading directly to the cure for human pellagra.

A president's reception for the graduates, their families and friends will be held immediately after commencement exercises in Coffman Memorial Union main ballroom.

'U' ALUMNI CHIEF
WARNS BOWL FANS
TO 'PREPARE' EARLY

(FOR IMMEDIATE RELEASE)

Rose Bowl-bound Minnesotans were warned today (Thursday, Dec. 1) by University officials to make accommodation arrangements early and to do it without fail before they leave Minnesota.

Edwin L. Haislet, director of alumni relations, who returned Wednesday (Nov. 30) from Pasadena, Calif., reports that the hotel reservation situation throughout the area is already "tight" and that by the end of December unprepared travelers will find it almost impossible to make satisfactory room arrangements.

Many hotels, he said, require guests to make reservations for a minimum of five nights. Many also require guests to participate in hotel-sponsored programs such as Rose Bowl or New Year's eve parties.

"In many cases there simply are no rooms available, with or without strings attached," Haislet said. "The public should be aware of these problems."

He suggested that fans who plan to see the Rose Bowl football game on Jan. 2 and have neither tickets nor hotel reservations look into the official tour which is being sponsored by the University Alumni association. "The special tours, which are open to the public as well as to alumni, assure, for the participants' convenience and protection, a ticket to the game, transportation to and from California, and hotel accommodations, as well as provision for details such as parade reservations and transportation to and from the game itself," Haislet said.

"Whichever way you plan to go, it cannot be emphasized too strongly that plans must be made well in advance or you're going to find lots of thorns in those roses," he added.

The University of Minnesota's Gophers will meet the University of Washington's Huskies in the New Year's Day classic.

'U' DEAN URGES
BOWL-BOUND STUDENTS
TO JOIN OFFICIAL TRIP

(FOR RELEASE SUNDAY, DEC. 4, 1960)

E. G. Williamson, dean of students at the University of Minnesota, today (Sunday, Dec. 4) called the attention of students and their parents to the advantages of the University-approved, official Rose Bowl Student Trip, which will be made by special trains.

The trip will be chaperoned and everyone going on the official trains will be guaranteed a football ticket.

"This is the only Rose Bowl trip for students which has been approved to date," Dean Williamson said. "It is not comparable to the annual junket to Florida taken by many students during the spring holiday."

"On the Rose Bowl Student Trip we will provide restful, safe and well-supervised facilities and quarters. More than 60 hours of traveling time are required by bus or car, which can be very fatiguing, although admittedly the cost of travel is less."

Dean Williamson also pointed out that winter traveling conditions on the highways are uncertain and often dangerous.

Hotel facilities in downtown Los Angeles have been reserved for members of the University-approved student train trip.

Students on the official train will arrive in downtown Los Angeles well before the 5 p. m. deadline Sunday, Jan. 1, for picking up football tickets, the dean said. The train will return students to their classes early, probably only one or two days after winter quarter classes begin, he added.

KUOM TO MARK
BEETHOVEN BIRTH
WITH FESTIVAL

(FOR RELEASE SUNDAY, DEC. 11, 1960)

KUOM, University of Minnesota radio station, will observe the 190th anniversary of the birth of Ludwig Von Beethoven with a Beethoven Festival Dec. 12-17. Beethoven was born Dec. 16, 1770.

Beethoven music only will be played on the "Music in the Morning" program at 11:30 a. m. and "The Afternoon Concert" at 2:30 p. m. Monday through Friday.

The eighteenth century composer's opera "Fidelio", will be broadcast in its entirety at 2 p. m. Saturday.

Included in the weekday festival broadcasts will be Symphonies No. 1, 2, 3, 4, 8 and 9; Piano Sonatas No. 11, 14 (Moonlight), 21 (Waldstein), 24 and 29 (Hammerklavier); Piano Concerto No. 5 (Emperor); as well as overtures, quartets and other works.

A bulletin with detailed programs of the Festival may be obtained by writing to KUOM, University of Minnesota, Minneapolis 14.

'U' CONFERENCE ON TEACHER
EDUCATION TO OPEN FRIDAY

(FOR IMMEDIATE RELEASE)

Minneapolis --- The thirty-first annual University of Minnesota Conference on Teacher Education will be held Thursday and Friday (Dec. 8-9) in Coffman Memorial Union and Mayo Memorial auditorium on the Minneapolis campus.

Approximately 250 college educators and administrators, elementary and high school teachers, state education officials and parent-teacher representatives are expected to attend the conference, which will consider new ideas and research in teacher education. They will come from Minnesota, North and South Dakota, Iowa, Wisconsin, Indiana, Illinois, Kansas, Wisconsin, Michigan and Wyoming.

The first annual Western Conference Teacher Education Research Institute, which will bring together deans of education and research personnel from the Big 10 universities and the University of Chicago, also will be held Thursday and Friday in conjunction with the conference.

The research institute, which grew out of the annual meeting last year of Big 10 education deans, will consider the possibility of cooperative research in teacher education. The Committee on Institutional Cooperation of the 11 schools will sponsor the institute.

T. R. McConnell, former University of Minnesota dean of the college of science, literature and the arts, will keynote both the conference and the institute in a joint session at 9:15 a. m. Thursday in the Union women's lounge. He will speak on "Crucial Questions for Teacher Education". McConnell, who headed the arts college from 1944 to 1950, is a professor of higher education at the University of California, Berkeley.

;(MORE)

Remainder of the day Thursday will be devoted to a meeting of college presidents, deans and directors of teacher education and a meeting of directors and coordinators of student teaching.

The college administrators will hear a report at a luncheon in the Union junior ballroom on a national study of the supply and demand for college teachers made by the United States Office of Education. Robert Poppendieck, teacher education specialist, will give the report in a talk entitled "Staffing: The Key to Quality in Higher Education".

The general session of the Conference on Teacher Education, bringing together the groups which met Thursday as well as classroom teachers and other interested persons, will open at 9 a. m. Friday in Mayo auditorium. Ned A. Flanders, University of Minnesota associate professor of education, will speak on "Applying Interaction Analysis to Teacher Education " and B. Othanel Smith of the University of Illinois will discuss "Logical Dimensions of Teaching Behavior" Florence B. Stratemeyer, Columbia University education professor, will speak at a noon luncheon in the Union junior ballroom on "The Decade Ahead: Challenges to Teacher Education".

"Meeting the Challenges in Teacher Education" will be the subject of the final panel discussion at 2:15 p. m. in Mayo auditorium. Forrest E. Conner, St. Paul public schools superintendent and president of the American Association of School Administrators, will be a member of the panel.

'U' PROFESSOR
WINS CHEMICAL
ENGINEERING AWARD

(FOR IMMEDIATE RELEASE)

L. E. Scriven, University of Minnesota assistant professor of chemical engineering, Tuesday (Dec. 6) received the A. P. Colburn award of the American Institute of Chemical Engineers (A.I.Ch.E.) for a paper setting forth new mathematical developments in fluid mechanics.

The award was presented at the institute's annual awards banquet in Washington, D. C.

The paper, entitled "Interfacial Turbulence: Hydrodynamic Stability and the Marangoni Effect" was written by Professor Scriven and C. V. Sternling, chemical engineer for the Shell Development company, Emeryville, Calif. The award was presented jointly to the two men.

The Allan P. Colburn award, consisting of a certificate and a plaque, is presented to the author or authors of outstanding papers published by the institute. Professor Scriven's paper was published in the December, 1959, A. I. Ch. E. Journal.

Professor Neal R. Amundson, head of the University's chemical engineering department, hailed the paper as a "pioneering one which should stimulate others to continue the investigation...and should prove of great value in the design of chemical process equipment."

The paper developed a mathematical model to explain the mechanism of transfer of a solute between two different fluids or between a fluid and a gas.

YOUNG ARTISTS
PIANIST WINNER
ON CH 2 MONDAY

(FOR IMMEDIATE RELEASE)

Pianist Mary Helen Schmidt, recent winner of the fifth annual Young Artists contest at the University of Minnesota, will be the featured guest on the Monday, (Dec. 12) "At Home With Music" program.

The program, televised at 9:30 p. m. by KTCA-TV, is a regular weekly feature of the University of Minnesota music department. Directing the program this year is Ivar Glemming, assistant professor of music.

Miss Schmidt, 2926 Russell ave., N., Minneapolis, is a graduate of the MacPhail school of music, and a sophomore in the University college of science, literature and the arts. Her program will include:

"Prelude and Fugue" F sharp, minor.....Bach
"Fantasia" C minor.....Mozart
"Etudes", opus 10, No. 4, opus 25, No. 3.....Chopin
"Feux d'Artifices".....Debussy

Johannes Reidel, University music professor, will be the guest artist on the Dec. 19 "At Home With Music" program, according to Glemming. The University organist, Heinrich Fleischer, will present a program of organ music on the Dec. 26 show.

GERHART SEGER,
GERMAN AUTHOR,
TO SPEAK AT 'U'

(FOR IMMEDIATE RELEASE)

"Germany Between East and West" will be the subject of a free public lecture at 8 p. m. Thursday (Dec. 8) in Coffman Memorial Union men's lounge, at the University of Minnesota.

The speaker will be Gerhart H. Seger, one-time member of the German Reichstag who served in the United States Office of Strategic Services during World War II.

Seger is the author of "Germany -- To Be or Not to Be?" and of several school textbooks. He came to the United States in 1934, after his escape from a Nazi prison camp, and became a naturalized American citizen in 1942. After the war, he devoted his career to lecturing and writing. He was a witness in the first Nuremberg trial and a member of Justice Jackson's staff.

The talk is sponsored by the University's Center for International Relations and Area Studies and the Jewish Community Relations Council of Minnesota.

U OF M RECEIVES
MAC ARTHUR BOWL
FOR GRID 'RETURN'

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota Tuesday night (Dec. 6) received the second annual MacArthur Bowl, awarded by the National Football Foundation and the Hall of Fame to the top college football team in the country.

Stanley J. Wenberg, University vice president and administrative assistant, accepted the bowl on behalf of President O. Meredith Wilson at an awards dinner in the Waldorf-Astoria hotel, New York. Murray Warmath, head football coach, also was present for the award ceremony.

The silver bowl represents a football stadium, complete with rows of seats, miniature goalposts and yard lines. The names of the winning teams are engraved on the entrance arches of the stadium exterior. Minnesota's name was placed after that of Syracuse university, the 1959, and first, winner of the bowl.

The bowl was donated by an anonymous sponsor in the name of General of the Army Douglas MacArthur.

In accepting the award for the University, Wenberg told the foundation boards of directors: "We of the University of Minnesota are grateful to your board for the distinguished recognition implicit in the award."

Wenberg said football in Minnesota this year has been "far more than just an exciting rags to riches story" and the Big Ten and national titles.

"We're happy for the team and their coaches in these accomplishments," he said. "But what we can be more proud of is that this group of young men employed the tools of loyalty, stamina and courage to fight against all odds to identify once more for the sports public what the true objectives of collegiate football really are."

BARRIER REEF
FILMS SLATED
SUNDAY AT 'U'

(FOR IMMEDIATE RELEASE)

Two color sound films of Australia's great barrier reef will be shown at 3 p. m. Sunday (Dec. 11) in the Minnesota Museum of Natural History auditorium at the University of Minnesota. The program will be open free to the public.

Titles of the films are "Coral Wonderland" and "Some Creatures of the Barrier Reef". The movies deal with the colorful marine life, the birds, fish and mammals , of the Australian seas.

Next in the series of free Sunday programs, Dec. 18, at the Museum will be "Meet Paul Bunyan", a collection of tales told by Donald K. Lewis, museum audio-visual adviser.

ZIEBARTH COORDINATES
TV NETWORK PROGRAM
ON EDUCATION ACT

(FOR IMMEDIATE RELEASE)

E. W. Ziebarth, University of Minnesota summer session dean and national award-winning news analyst, will act as coordinator and moderator of a special network television program dealing with the National Defense Education Act and its national significance.

The program will be produced by the National Radio and Television Center in New York City. The Center has had research teams making films and conducting interviews at selected American universities including the University of Minnesota.

In charge of the work at the University, where work is being done in the fields of teacher training in science, mathematics and language, is Professor Robert J. Keller, University high school director and former head of the University's Bureau of Institutional Research and of the Bureau of Field Studies.

As these materials are edited, Dean Ziebarth will supervise their coordination into a documentary pattern for film distribution by television stations throughout the nation.

WILSON INAUGURATION AS NINTH
'U' PRESIDENT SET FOR FEB. 23

(FOR RELEASE 10 A. M. FRIDAY, DEC. 9, 1960)

Minneapolis --- O. Meredith Wilson will be inaugurated as the University of Minnesota's ninth president on the observance of the University's 110th birthday, Charter Day, Thursday, Feb. 23.

The inauguration ceremony will take place at 2:30 p.m. in Northrop Memorial auditorium, highlighting a day-long program of events. Ray J. Quinlivan of St. Cloud, chairman of the University Board of Regents, will preside over the inauguration.

President Wilson will present a statement of educational policy in his inaugural address.

Professor Emeritus William Anderson, one-time chairman of the University's political science department, will review the school's history from its founding in 1851 through 1960.

Approximately 5,000 persons, including delegates from American and foreign colleges, universities and learned societies, are expected to attend.

President Wilson, members of the Board of Regents, the University's administrative committee and the official delegates will march in academic procession into Northrop auditorium preceding the inauguration.

Among guests at the ceremony will be members of the Minnesota State Legislature, sponsors of the Minnesota observance of the Land-Grant Act Centennial, community and state leaders and benefactors of the University.

Inauguration day events will include open houses, luncheons, a reception, a dinner and an inaugural concert by the Minneapolis Symphony orchestra, under the direction of Stanislaw Skrowaczewski.

The concert, at 9 p.m. in Northrop auditorium, will conclude the inauguration.

President Wilson took office as chancellor of the University on July 1, succeeding J. L. Morrill. President Morrill was inaugurated on April 25, 1946.

The new president served as head of the University of Oregon for six years before coming to Minnesota.

COUNTY ROAD
ENGINEERS TO MEET
FOR 'U' INSTITUTE

(FOR IMMEDIATE RELEASE)

The sixteenth annual University of Minnesota training Institute for County Highway Engineers will be held Monday through Thursday (Dec. 12-15) at the Center for Continuation Study on the Minneapolis campus.

Participants will study functions of management and technical problems of highway maintenance, construction and safety.

Luncheon speakers on the first three days of the conference will be Robert Johnson, Anoka county attorney; Frank D. Marzitelli, Minnesota state deputy commissioner of highways; and Ben F. Ostergren, Washington, D. C., managing director of the American Road Builders association's county and local roads division.

Speakers will include three other guest lecturers from Washington: Howard Bussard of the Automotive Safety foundation; Clinton H. Burns and E. C. Rogers from the Bureau of Public Roads.

The institute is presented by the University in cooperation with the Minnesota Association of County Highway Engineers and the Minnesota Department of Highways.

BUNYAN LEGEND
MUSEUM TOPIC
AT 'U' SUNDAY

(FOR IMMEDIATE RELEASE)

Tales of Paul Bunyan, the legendary hero of the north woods, will be told in a program entitled "Meet Paul Bunyan" at 3 p. m. Sunday (Dec. 18) in the Minnesota Museum of Natural History auditorium. The program will be open free to the public.

Donald K. Lewis, museum visual education adviser, will give the background of the Paul Bunyan legend and tell some of the tales which he has collected of the exploits of the giant lumberjack.

The stories will be illustrated with colored slides.

The Paul Bunyan legend originated in the lumber camps of New England and southeastern Canada and later was carried westward by the 19th century immigration, Lewis said. The legend has become associated with Minnesota because of the state's extensive forest industry.

"Caribou Mystery", a color sound film, will be shown at the next museum Sunday program Jan. 8.

DECEMBER 12, 1960

(FOR RELEASE SUNDAY, DEC. 18)

"America in Perspective: An Exploration of Main Themes in American History" will be the subject of a series of 10 lectures to be broadcast on KUOM, University of Minnesota radio station, at 1:30 p. m. beginning Monday (Dec. 19).

The first lecturer will be Clarke A. Chambers, University associate professor of history. He will discuss "The Colonial Origins: People and Culture" in the opening program.

The series will be broadcast on weekdays through Dec. 30.

Topics of subsequent lectures, in the order they will be presented, will be: "American Political Faith: Freedom and Order", "The American As Frontiersman", "The American As Immigrant", "The American As Egalitarian", "The Roots of Slavery and Sectionalism", "Civil War and Civil Rights", "America: An Affluent Society", "The American As Reformer" and "America As a World Power: Crisis and Dilemma".

Professor Chambers, a member of the University faculty since 1951, has specialized in 20th century American political and social history. A graduate of Carleton college, Northfield, he received a master of science and the doctor of philosophy degrees from the University of California, Berkeley. He is the author of "The Significance of Immigration", "American Belief in Progress" and "Historiography of the New Deal Period".

The lectures originally were delivered at an orientation institute for foreign students which was held at the University Aug. 28 through Sept. 10.

'U' TO PRESENT
LECTURE SERIES
ON 'THE OCEAN'

(FOR RELEASE SUNDAY, DEC. 18)

Minneapolis --- "The Ocean" will be the subject of the University of Minnesota's ninth annual lecture series on "Man and His Scientific Quest".

The six-lecture series will begin Wednesday, Jan. 25, and continue through March 1. All lectures will be given at 8 p. m. on Wednesdays in the Minnesota Museum of Natural History auditorium. Admission will be by series ticket.

The series will consider the ocean as a frontier for scientific research and exploration.

"Increasing interest is being shown in the ocean both by scientists and the general public," according to Professor Allan H. Brown, series moderator. "A great deal of exploring and mapping is being done, and, for the first time, we are finding out what is in the bottom of the ocean. While the resources of the ocean---including food, power and chemicals---have been exploited for a long time, we still have not made as much use of them as we should be able to in the future. The more we know about the ocean, the more we can exploit it for practical purposes."

Professor Brown, a University botanist, said the ocean is akin to outer space as a "horizon for scientific quest".

Dean Athelstan Spilhaus of the University's institute of technology, a noted oceanographer, will deliver the first lecture Jan. 25 on the topic, "Explorers of the Sea".

"The Ocean As Archive of the Past" will be discussed on Feb. 1 by Fritz Koczy of the University of Miami Marine laboratory.

(MORE)

Grover C. Stephens, University of Minnesota associate professor of zoology, will consider "The Origin and Evolution of Marine Life" in the Feb. 8 lecture. Harry Hess, Princeton university geologist, will discuss "The Ocean Floor and Beneath" on Feb. 15.

"The Seas in Motion" will be the topic of Walter Munk of the University of California Scripps Institution of Oceanography, La Jolla, Calif., in his lecture on Feb. 22. Dixie Lee Ray, University of Washington zoologist, will give the final lecture March 1 on "The Living Ocean".

Fee for the series is \$10. Student and faculty rate is \$6.50. Registration may be made in person or by mail at the following offices of the University's general extension division: 57 Nicholson hall on the campus, 690 Northwestern Bank building, Minneapolis, and 555 Wabasha street, St. Paul.

STARS TO TOAST
GOPHERS AT ROSE
BOWL DINNER

(FOR IMMEDIATE RELEASE)

Minnesota's Golden Gophers, national football champions, will be toasted by personalities of stage, screen and television Dec. 29, at the 1960 "Dinner for Champions" in Los Angeles.

Plans for the pre-Rose Bowl celebration were reported Friday by E. L. Haislet, executive secretary of the University Alumni association.

Bob Hope will head the list of stars as master of ceremonies. The event, co-sponsored by the Big Ten club and the Minnesota Alumni Club of Southern California, will be held in the international ballroom of the Beverly Hilton hotel. A full evening of entertainment, combining the talents of Hollywood celebrities and Minnesota personalities is planned.

All Minnesota fans may join in this prelude to the Jan. 2 game, according to Haislet. However, as with most Rose Bowl events, the number of available tickets is limited. Anyone interested in this annual Big Ten party, honoring the Gophers for the first time, should contact the University of Minnesota Alumni association, 205 Coffman Memorial Union, as soon as possible.

'U' GIVEN \$1,000
LIBRARY SCHOOL
SCHOLARSHIP GRANT

(FOR IMMEDIATE RELEASE)

The University of Minnesota has received a \$1,000 scholarship fund from the H. W. Wilson Foundation, Inc., to be awarded to a student for study in the University's library school in the 1963-64 school year.

Minnesota is one of 32 library schools which were awarded \$1,000 scholarships each by the foundation in order to further recruitment for professional librarians, according to Howard Haycraft, president of the foundation and of the H. W. Wilson company.

The company, which publishes "The Readers' Guide" and other indexes, had its beginning on the University of Minnesota campus. H. W. Wilson was a student at the University in 1889, when he formed a partnership with a friend to sell student textbooks and supplies. The "Cumulative Book Index" was first issued in Minneapolis in 1898, with Wilson and his wife as the entire staff. His firm grew to be the world's largest reference publishing house.

Haycraft, the present head of the company, is a graduate and former staff member of the University. He was editor of The Minnesota Daily while a student.

Haycraft, in announcing the scholarship program, cited what he called a "currently acute problem of library recruiting".

He specified that "each scholarship is to be used by the receiving institution as and when it deems most suitable, but preferably in such a manner as to further recruitment for librarianship".

(FOR IMMEDIATE RELEASE)

Dr. Byrl J. Kennedy, associate professor of medicine in the University of Minnesota school of medicine, has been awarded a \$20,063 American Cancer Society grant for research on "The Role of 5-Fluorouracil Therapy in the Treatment of Breast Cancer Refractory to Hormone Therapy".

The research grant term is from November, 1960 through August, 1961, with research work to be done at the University of Minnesota.

With the role of hormone therapy in the treatment of advanced breast cancer well-developed in the last 15 years, according to a statement by the American Cancer Society, the fact has become apparent that approximately 60 per cent of the patients have been recalcitrant to this type of therapy. It is this problem on which Dr. Kennedy will work under the society's grant.

An associate professor of medicine at the University since 1957, Dr. Kennedy received his doctor of medicine degree from the University medical school in 1946, his master of science degree in 1951 from the McGill Medical School, Montreal, and served his internship in internal medicine at Massachusetts General hospital, Boston. He also has served as a Damon Runyon Clinical Research Fellow at McGill, and as a resident at Massachusetts General, before coming to Minnesota.

Working with Dr. Kennedy on this research project is Dr. John F. Foley, University graduate school fellow in internal medicine.

Policy Explained---
NO 'U' BOWL
TICKETS ALLOTTED
TRAVEL AGENCIES

(FOR IMMEDIATE RELEASE)

Minneapolis --- The University of Minnesota made no allotment of Rose Bowl tickets to commercial travel agencies, Stanley J. Wenberg, chairman of the University's Rose Bowl committee, said today in a statement explaining the school's ticket distribution.

"We needed desperately to protect our entire allotment for our own University of Minnesota constituencies and this we have sought to do to the best of our ability," he declared.

Wenberg, University vice president and administrative assistant, said "the problem of assigning the University's allotment of almost 17,000 tickets -- with a large number of prior commitments made through Western Conference procedures established across the years of this Rose Bowl relationship -- was an almost impossible assignment".

A fixed number of tickets was placed in each of five categories -- student, staff, benefactor, alumni and season ticket purchaser of at least three years' record.

"This guaranteed that someone in each of these categories would receive tickets," Wenberg said.

"Our problem of assigning student tickets," he added, "was compounded by the fact that while we have over 22,000 students on the Minneapolis and St. Paul campuses, we have additional thousands of students in night school, in the University High school, at the Schools of Agriculture around the state and at Morris and Duluth.

"We sought, therefore, as fair a principle as we could conceive of, and adopted the principle that a student to be eligible for a 'student Rose Bowl ticket' must also be eligible to buy one of our own season athletic tickets. That we felt was a fair principle, particularly in view of the very difficult problem we were faced with in meeting the requests of everyone who could fairly be considered eligible to apply for a ticket."

Wenberg said he thought Ike Armstrong, athletic director, and Marsh W. Ryman, business manager of athletics, and "our entire athletic ticket office staff are to be commended for the superb job they have done in trying to meet the very difficult conditions under which any such Rose Bowl ticket allocation and distribution system must operate".

Ryman is chairman of the University's Rose Bowl ticket sub-committee. Other members are Wenberg, Armstrong and Professor Max O. Schultze, chairman of the University senate committee on intercollegiate athletics.

'U' HISTORIAN
RECEIVES GRANT
FOR INDIA STUDY

(FOR IMMEDIATE RELEASE)

Burton Stein, University of Minnesota assistant professor of history, has received a Fulbright grant to conduct research in the economic history of South India.

His study of the economic and social history of South India before the British control -- in the 18th century -- will be carried on during the 1961-62 academic year at Madras university, Madras, India, according to Stein.

Professor Stein will complete University of Minnesota teaching assignments through the first summer session next year, before leaving with his family for nine months in India.

Fulbright awards are made under provisions of the Fulbright Act, Public Law 584, 79th Congress. This award is one of more than 500 grants for lecturing and research abroad included in the program for the 1961-62 academic year. The funds used for carrying out the program under the provisions of the Fulbright Act are certain foreign currencies or credits owed to or owned by the Treasury of the United States. Such programs currently are in effect in 38 countries.

FOREIGN STUDENT
LEADERS IN U.S.
TO MEET AT 'U'

(FOR IMMEDIATE RELEASE)

Between 40 and 50 foreign student leaders attending schools in the United States and their college or university representatives will attend a five-day student leadership project meeting Dec. 26-30 at Camp Ihduhapi, Lake Independence, Minn.

This fourth annual mid-year conference of the group, sponsored jointly by the University of Minnesota Student association (MSA), the United States National Student association and the University's foreign student adviser's office, is supported^{by}/the Ford Foundation and the National Student association.

Attending the conference from the University will be delegates Ram Lubhgya Lakhini, India, an adult special student in business education, and Paul Firmina, Northern Rhodesia, a graduate student in geography. Carlyle Hystad, chairman of the MSA international affairs committee, and Joanne Nelson, MSA foreign student leadership project chairman, will represent the MSA at the camp. University foreign student adviser Forrest Moore and his assistant, Josef Mestenhauser, will represent the University, hosts to all of the project meetings.

Foreign students and campus representatives from the University, Macalester, Dartmouth, Kalamazoo and Swathmore colleges and the universities of Chicago, Kansas, Illinois, Utah, Washington, North Carolina, Wisconsin and Rutgers will attend the meeting, restricted, by the project, to foreign students from Asia, Africa and the Latin American countries.

'U' RARE BOOKS
SUBJECT OF TV SERIES

(FOR IMMEDIATE RELEASE)

The famous collection of rare books, manuscripts and charts found in the James Ford Bell collection at the University of Minnesota library will be featured in a new television series beginning Tuesday, Jan. 3, on the University hour on KTCA-TV, Channel 2.

"Books from the Bell Collection" will be aired at 9 p. m. each Tuesday through March 28. The Jan. 3 program will concern "The Ancient World, Its Trade and Its Books". The entire series will tell the story of ancient and early world commerce as it is found in rare books and maps.

John Parker, associate professor and curator of the Bell collection, will be featured in the series of discussions with Robert Boyle, program director at KUOM, University radio station. Parker, an expert in rare books pertaining to voyages and explorations, has been curator since the establishment of the Bell collection seven years ago. He has traveled extensively in seeking new materials for the collection.

The complete list of programs is as follows: "The Ancient World, Its Trade and Its Books", Jan. 3; "Medieval Travel and Geography", Jan. 10; "Europe and the Atlantic", Jan. 17; "The Voyages of Da Gama, Columbus and Magellan", Jan. 24; "The New Geographers (1500-1570)", Jan. 31; "Early Exploration of North America", Feb. 7; "Exploration of South and Central America", Feb. 14; "East India, Early Exploration and Trade", Feb. 21; "Early Trade of China, Japan, Siberia", Feb. 28; "The Mississippi Valley", March 7; "Hudson's Bay", March 14; "The South Seas and Northern Oceans", March 21; "Thoughts on Trade, a History of Attitudes", March 28.

500 NEW STUDENTS
TO PARTICIPATE
IN 'U' ORIENTATION

(FOR IMMEDIATE RELEASE)

Approximately 500 new students at the University of Minnesota -- freshmen and transfer students coming to the University from other schools -- will take part in the winter quarter orientation-registration program Thursday and Friday (Dec. 29-30), according to Leon H. Rottmann, coordinator of the orientation program for the University's student activities bureau.

The program, planned by the office of the dean of students, in cooperation with all University facilities and departments, is designed to acquaint new students with the University, campus activities and registration procedures.

Scheduled for the first day of each session are general orientation group meetings, testing, physical examinations and guided tours of the campus. On the second day, new students will receive registration materials, attend college meetings and meet advisers to arrange their winter quarter class schedules.

Specially trained upperclassmen sponsors will direct the 20-member groups of the new students in their two-day campus orientation work.

SECOND 'U' OFFICIAL
FLIGHT LEAVES THURSDAY
FOR ROSE BOWL

(FOR IMMEDIATE RELEASE)

A Northwest Airlines chartered DC-6B will take off from Wold-Chamberlain field at 8:30 a. m. Thursday (Dec. 29) carrying the second echelon of the University of Minnesota's "official party" to the Tournament of Roses in Pasadena. An earlier plane carried the football team and coaches to the West Coast.

Members of the official party aboard the plane will be: President and Mrs. O. Meredith Wilson, their daughter, Connie, and son, David; the following University Regents and their wives: Ray J. Quinlivan, Dr. Charles W. Mayo, A. J. Olson, Herman F. Skyberg, Robert E. Hess, A. I. Johnson and Lester A. Malkerson; Regent Richard J. Griggs and his grandson, Warner Griggs; Regent Emeritus and Mrs. Karl Neumeier.

The University's three vice presidents and their wives: Malcolm M. Willey, Laurence R. Lunden and Stanley J. Wenberg; Willard L. Thompson, assistant to the president, and Mrs. Thompson; Sterling Garrison, assistant secretary of the Board of Regents, and Mrs. Garrison; Clinton T. Johnson, assistant vice president and treasurer; Ray M. Amberg, director of University Hospitals, and Mrs. Amberg.

The following faculty members of the University Senate Committee on Intercollegiate Athletics and their wives: Max O. Schultze, chairman; Raymond W. Darland, Willis E. Dugan, John H. Williams, Stanley V. Kinyon, George J. Schroepfer and Alfred L. Vaughan; alumni members of the committee, Russell Backstrom and Dr. Lief Strand, and their wives; student members of the committee, William Chorske and James Reese.

(MORE)

OFFICIAL PARTY

- 2 -

Also aboard as part of the official party will be Mrs. Richard Borstad, wife of a coaching staff member, and Mr. and Mrs. Richard J. Donnelly -- the latter, assistant director of physical education for men, will be in charge of the flight as tour manager.

Governor-elect and Mrs. Elmer L. Andersen will accompany the official party on the return flight from Pasadena on Tuesday, Jan. 3. They will fly to the Rose Bowl game Sunday (Jan. 1).

Accompanying the official party on the flight to California will be a number of relatives and associates not traveling at Rose Bowl income expense.

'U' BAND FUND
HELPS FINANCE
ROSE BOWL TRIP

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM.BLDG.
MINNEAPOLIS 14, MINNESOTA
FEderal 2-8158 EXT. 6700
DECEMBER 27, 1960

(FOR IMMEDIATE RELEASE)

The University of Minnesota has received more than \$25,000 to date from Minneapolis and St. Paul firms and individuals toward paying expenses of sending the University of Minnesota Marching Band to the Tournament of Roses in Pasadena, according to Stanley J. Wenberg, chairman of the University's Rose Bowl committee.

Wenberg, University vice president and administrative assistant, estimated the total cost of the band trip at approximately \$40,000.

Co-chairmen of the band fund-raising committee are Roy W. Larsen, president of the Twin City Federal Savings and Loan association, Minneapolis, and E. E. Engelbert, president of the St. Paul Book and Stationery store, St. Paul.

The following firms each have given \$500 or more to send the band to the Tournament of Roses: Minnesota Mining and Manufacturing company, St. Paul Dispatch-Pioneer Press, Minnesota Federal Savings and Loan association, Northern States Power company, West Publishing company, Paper Calmenson and Company, St. Paul Book and Stationery company, McNally Foundation Incorporated, Northwestern National Life Insurance company, General Mills Incorporated, Minneapolis Star and Tribune, Super Valu Stores Incorporated, Minneapolis-Honeywell Regulator company and Twin City Federal Savings and Loan association.

The 128-piece band, which is under the direction of Frank Bencriscutto, left Minneapolis for Pasadena Tuesday (Dec. 27) aboard a special train. The band was accompanied by drum majorettes, cheerleaders, pom pon girls, the Gopher mascot and University chaperones.

The train is due to arrive in Pasadena at 9:30 a. m. Thursday (Dec. 29). It will leave Los Angeles Jan. 2, arriving back in Minneapolis at 7 p. m., Jan. 4.

The band will march in the Tournament of Roses parade and will perform at pre-game and half-time ceremonies of the Rose Bowl football game, Jan. 2. It also will give a performance Friday, Dec. 30, at Disneyland.

NSF RESEARCH
AWARD TO 'U'

(FOR IMMEDIATE RELEASE)

The University of Minnesota has been awarded a National Science Foundation grant of \$36,500 for the support of basic research on "Optical Absorption of Crystalline Defects".

The grant, effective Dec. 6, will be two years in duration. Professor John E. Wertz of the University physical chemistry department will direct the project which will be carried out at the University.

A thorough understanding of the behavior of crystal defects will aid in the further development of new solid-state devices such as transistors and crystal diodes, according to Professor Wertz.

FOLK SINGER
TO APPEAR
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

Richard Dyer-Bennet, noted tenor and guitarist, will present a program of folk songs and ballads at a University of Minnesota convocation at 11:30 a.m. Thursday (Jan. 5) in Northrop Memorial auditorium. The program will be open free to the public.

The British-born singer, who grew up in California, has given concerts throughout the United States and appeared many times in Manhattan's Town Hall. Next spring he will make his first concert tour of England, France and Italy.

Dyer-Bennett has collected more than 500 songs in his repertoire, which range from Elizabethan tunes to World War II ballads and American folk songs. He also will sing little-known art songs of famous 16th and 17th century composers.

The folk singer will accompany himself on the classic Spanish guitar.

The program will be sponsored by the University's department of concerts and lectures as the first in the series of winter quarter convocations.

4 BRITISH DRAMAS
TO BE AIRED ON KUOM

(FOR IMMEDIATE RELEASE)

A series of four half-hour dramas produced by the British Broadcasting corporation will be presented at 1 p. m. Tuesday, Wednesday, Thursday and Friday (Jan. 3-6) on KUOM, University of Minnesota radio station, 770 k. c.

"The Silent Brothers" by Arnold Bennett will be heard on Tuesday. Adapted for radio by Keston Clarke, the story concerns the rivalry of two brothers over a girl.

"Death in a Crystal" by Josephine Bell, to be aired Wednesday, relates the events before and after the murder of a cranky and wealthy old woman.

Thursday's drama will be "A Crown of Gold" by Giles Cooper. The play depicts the frustrations of a plutocratic couple who cannot take their second steward abroad because of passport troubles.

"Top Prize" by Philip Levene completes the series on Friday. Dealing with television quiz games, this play portrays the vicissitudes which befall a young girl and her family after she becomes a quiz winner.

GROUND BREAKING
SET WEDNESDAY FOR
'U' WEST CAMPUS

UNIVERSITY OF MINNESOTA
NEWS SERVICE--214 ADM. BLDG.
MINNEAPOLIS 14, MINNESOTA
Federal 2-8158 EXT. 6700
DECEMBER 30, 1960

(FOR IMMEDIATE RELEASE)

Ground will be broken at 9 a. m. Wednesday (Jan. 4) for the first three buildings on the new west campus of the University of Minnesota. University President O. Meredith Wilson will turn the first shovelful of dirt in a special ground breaking ceremony attended by University officials.

Others present will include University Regent Lester A. Malkerson; Laurence R. Lunden, vice president for business administration; Roy V. Lund, assistant vice president for business administration; Winston A. Close, University advisory architect; Dean Paul V. Grambsch of the school of business administration; Dean E. W. McDiarmid of the college of science, literature and the arts; and Eugene A. Kogl, assistant supervising engineer for plant services.

The first three buildings in the new expansion program will be a 15-story humanities-social science building, a 13-story business administration building -- each housing faculty offices -- and a four-story general purpose classroom building. Two large octagon lecture halls will connect to the classroom structure.

Excavation will begin in an area between Washington avenue S. and Third street and 19 and 21 avenues S. General excavation contractor is Park Construction company, Minneapolis. Bids for foundation work for the two large office buildings will be taken in about a month, according to Vice President Lund. Advertising for bids for construction of the superstructures has been set for about March 15.

Completion of the three buildings, which will be constructed under a \$6,579,000 appropriation from the 1959 legislature, is scheduled for fall, 1962.

The three buildings will have tan brick exteriors with metal windows. Basement of the classroom building initially will house a bookstore, library reading room and bag lunch room. Remaining three floors will be used for classrooms for humanities, social science and business administration. Enclosed pedestrian bridges will connect the upper stories of the Humanities-Social Science and the Business Administration buildings with the classroom building.

"The west campus area incorporates new techniques of planning which permit extremely compact building arrangements," according to Close, University advisory architect. "Approximately half as much land will be required as on the present campus for an equivalent instructional load. Yet the architectural character and the ground coverage will relate effectively to those of the present campus."

PHOTOGRAPHY,
ECONOMY TOPIC
OF 'U' TV SERIES

(FOR IMMEDIATE RELEASE)

"Economic Growth" and "Photography, the Popular Art" are the topics of two new University of Minnesota television series which will begin next week on KTCA-TV, Channel 2.

Francis M. Boddy, economics professor, will discuss "Economic Growth and the Cold War" in the opening program at 9 p. m. Thursday (Jan. 5) of a series presented by the University's department of economics.

Sheldon Goldstein, assistant director of the University's department of radio and television broadcasting, will serve as series interviewer. The series will examine economic growth in relation to economic stability and welfare, foreign competition, under-developed countries and state and federal government policies.

Burton Paulu, University director of the department of radio and television broadcasting, will interview guest experts on photographic techniques in a series which begins at 9 p. m. Friday (Jan. 6). "Cameras" will be the subject of the opening program.

The series will be designed to help amateur photographers take better pictures and aid more experienced photographers in increasing their skills. The aesthetic values of photography as a visual art also will be examined.

Topics and dates of subsequent programs are: "Choosing Films", Jan. 13; "Lenses", Jan. 20; "Exposure", Jan. 27; "Controlling Light", Feb. 3; "Composition", Feb. 10 and 17; "Photographing People", Feb. 24; "Photographing Places", March 3; "Photographing Nature", March 10; "The Darkroom", March 17; "Viewing and Storing Pictures", March 24; and "Photography as a Fine Art", March 31.

THE UNIVERSITY OF MINNESOTA FACULTY....

A total of 422 University of Minnesota staff members are included in the 1960-61 edition of "Who's Who in America".

This number -- impressive in itself -- is a significant indication of the scholarly and scientific attainments of the Minnesota faculty. The Who's Who list include men and women from all colleges and divisions of the University -- from the arts to the sciences.

Of the staff members on the list, 257 serve on the Minneapolis campus, which is the home of the College of Science, Literature and the Arts; the Institute of Technology; the College of Medical Sciences; the School of Law; the College of Education; the College of Pharmacy; the General College; the School of Business Administration; the General Extension Division; and the central administration. A total of 43 serve the St. Paul campus (the institute of agriculture and the college of veterinary medicine) and 110 are on the staff of the Mayo Foundation for Medical Education and Research at Rochester.

President O. Meredith Wilson and five members of the Board of Regents also are on the list.

The remainder are on the staff of the University's out-state campuses and divisions -- Duluth campus, Northwest School of Agriculture and Experiment Station at Crookston and the Hormel Institute (research) at Austin.

Six of these distinguished members of the University of Minnesota staff had not yet reached the age of 40, while 22 were over 80. The six youngest are: Dr. Richard A. DeWall, surgeon and inventor of the DeWall "bubble oxygenator" used in open heart surgery; John Ervin, Jr., director of University of Minnesota Press; Robert J. Holloway, professor of school of business administration; Dean Robert B. Howard of the college of medical sciences; Robert L. Jones, director of the school of journalism; and Paul E. Meehl, psychology professor.

DISTINGUISHED CALIFORNIA ALUMNI OF THE UNIVERSITY OF MINNESOTA

Among distinguished California alumni of the University of Minnesota are many recipients of the University's highest alumni honor, the Outstanding Achievement Award.

Outstanding Achievement Award gold medal winners include: S. Clark Beise, of San Francisco, president of the Bank of America; Guy N. Bjorge, Berkeley, vice president of the Homestake Mining Co., Lead, S.D.; Cledo Brunetti, vice president and general manager, Grand Central Rocket Co., Redlands, and associate director, Stanford Research Institute; Lawrence A. Clousing, chief of Full Scale and Systems Research division, Ames Research Center, Moffett Field.

Award winners from the University of California, Berkeley, are Geoffrey B. Bodman, professor and chairman of the department of soils and plant nutrition; Melvin Calvin, chemistry professor; William L. Prosser, law school dean; Paul F. Sharp, Agricultural Experiment Station director; and Dr. Albert M. Snell, clinical professor of medicine and internationally known researcher in gastroenterology and medical author.

Also on California university faculties are B. Lamar Johnson, professor of education at the University of California Los Angeles, and Lucien B. Kinney, Stanford university professor of education.

Californians, too, are John W. Dargavel, Encino, executive secretary of the National Association of Retail Druggists; Dr. Arild E. Hansen, Children's Hospital, Oakland, a national authority on rheumatic fever and member of the editorial board of "Pediatrics", Journal of the American Academy of Pediatrics; Herman F. Davies, San Francisco, president of the California Exploration company, a Standard Oil of California division; Dr. Louis H. Roddis, San Diego, United States Navy (Ret.) naval medical officer and medical and naval historian; Dr. Morse J. Shapiro, chief of pediatric cardiology at Cedars of Lebanon Hospital, Los Angeles; Walter A. Spivak, chief project engineer, North American Aviation, Inc., Los Angeles; and Jack L. Van Volkenburg, president of Pacific Ocean Park, Inc., Santa Monica, and former president of Columbia broadcasting System, Television.

THESE ARE THE GOPHER SONGS.....

John Philip Sousa, the most famous bandsmen of them all, shares honors with two amateur songwriters as composers of the University of Minnesota's football and school songs which will sound through the Los Angeles area for the next few days and in the Rose Bowl Jan. 2.

The first of these songs was a piece written for the 1904 class play, which came to be the official University and state hymn, "Hail, Minnesota". A senior student and member of the band, Truman E. Rickard, wrote the music and collaborated with the Rev. E. W. Shurtleff, to write the words.

The piece was sung in the play and later that year at commencement exercises. It found great favor with the students, and the next year it was taken up again -- but with one change. President Cyrus Northrop requested that a new second verse, which was dedicated to him, be replaced by a verse written by poet Arthur Upson, who was a student at the University at that time and later a member of the English faculty.

Later, "Hail, Minnesota" was adopted as the official University hymn. Today it is played at half-time ceremonies for Gopher home football games, at commencement exercises and other academic events and at state functions.

" Minnesota, hail to thee!
Hail to thee, our college dear!
Thy light shall ever be
A beacon bright and clear;
Thy sons and daughters true
Will proclaim thee near and far;
They will guard thy fame
And adore thy name;
Thou shalt be their Northern Star.

" Like the stream that bends to sea,
Like the pine that seeks the blue,
Minnesota, still for thee,
Thy sons are strong and true.
From thy woods and waters fair,
From thy prairies waving far,
At thy call they throng,
With their shout and song,
Hailing thee their Northern Star."

Next came "The Minnesota Rouser". In 1909, the Minneapolis Tribune, noting that the Gophers had no football fight song, sponsored a contest inviting original compositions to be submitted as entries. The winning entry was a song called "Minnesota, Hats Off to Thee", written by Floyd M. Hutsell, Minneapolis vocal teacher and choir director. The paper gave Hutsell a \$100 prize for his composition and turned the song over to the University band. The song, later known as "The Minnesota Rouser", has become the most famous and most-played of the Minnesota football songs.

CHORUS

"Minnesota, hats off to thee!
 To thy colors true we shall ever be;
 Firm and strong, united are we,
 Rah! Rah! Rah! for Sku-U-Mah!
 Rah! Rah! Rah! Rah!
 Rah! for the U. of M."

The years that followed saw the composition of numerous University songs for all occasions, from commencement to football "fight songs". The most popular of these was "The Minnesota March", which was added to the roll of Gopher melodies in 1927.

Students and alumni back in the 1920's decided the University needed a football march. When John Philip Sousa, the famous bandmaster and composer, came to Minneapolis in 1926 to give a concert, a committee from the University asked him to write a march for the school. He promised to do so and wrote the music a few months later. Michael M. Jalma, University band director, wrote the words and "The Minnesota March" was introduced in the fall of 1927. The song, along with the 'Rouser', is still played today at Minnesota football games.

"March on, March on to victory,
 Loyal sons of varsity,
 Fight on, Fight on for Minnesota,
 For the glory of the old Maroon and Gold.
 March on, March on to win today,
 Down the field, fighting every play
 We're with you team, Fighting team!
 Hear our song, we cheer along
 To help you win a victory."

CHORUS

"Rah! Rah! Ski-U-Mah (twice)
 Rah! Rah! Rah! (twice)"

GOPHER SONGS

- 3 -

Some fans thought "The Minnesota March" should substitute for "The Minnesota Rouser" as the "official" football fight song, but the earlier piece persisted. Today, when the Golden Gophers cross their opponent's goal line, it means it is time for the University Marching Band to strike up with: "Minnesota, hats off to thee.....".

KAY M. KNUDSON

UNIVERSITY OF MINNESOTA 1960 HOMECOMING QUEEN

A "two-toned blonde" is the way Miss Kay Knudson, the University of Minnesota's Homecoming Queen for 1960 describes herself. She will ride enthroned on the University's float in the Tournament of Roses parade Jan. 2.

Representing her sorority, Pi Beta Phi, as one of the 48 candidates for the title and honor of Homecoming Queen at the University of Minnesota for the 1960-61 academic year, pretty Kay survived the three elimination contest-interviews to be crowned at the annual Coronation Ball October 11 in Coffman Memorial Union.

A junior student in the University's College of Education, Kay is the daughter of Judge and Mrs. Theodore B. Knudson, 4107 Highwood road, (Edina) Minneapolis. Judge and Mrs. Knudson and Kay's younger sister and two brothers will be present at the Rose Bowl festivities.

UNIVERSITY OF MINNESOTA ROSE BOWL PARADE FLOAT

"Minnesota----Hats Off to Thee", opening phrase of the University of Minnesota's pep song, "The Rouser", will be the theme of the University's float in the 1961 Tournament of Roses parade Jan. 2.

Depicting a miniature football field, the float will be dominated by a huge star, emblematic of the State of Minnesota's motto, L'Etoile du Nord, Star of the North. Enthroned on the star will be Miss Kay Knudson, 1960 University of Minnesota Homecoming Queen, who will be surrounded by replicas of the mascots of all of the Big 10's teams.

The miniature Wisconsin Badger, Iowa Hawk, Purdue Boilermaker, Indiana Scarlet Bull, Illinois Indian, Ohio Buckeye, Michigan Wolverine, Northwestern Wildcat and Michigan State Spartan will face the Queen in the "hats off" position.

The Golden Gopher, Wilbur Meiners, Minnesota's football marching band member who has entertained and amused the Memorial Stadium crowds at all Minnesota games this fall, will carry on his capers, cavorting on and around the miniature goal posts which will be placed behind the Queen.

Float sideboards will carry the identification, "The University of Minnesota". The float title, "Minnesota, Hats Off to Thee", will appear across the front.

FRANK BENCRISCUITO, Director,
UNIVERSITY OF MINNESOTA BANDS

When Frank Bencriscutto, University of Minnesota bands director, heads his 128-member high-stepping Football Marching Band in the Rose Bowl parade and in the half-time festivities at the Rose Bowl game, Jan. 2, he will appear in his uniform as marching band director. "Wearer of four hats", he also could appear as director of the University's Concert Ensemble, the University Symphony Band, or as director of the University Brass Choir.

A newcomer to the University of Minnesota bands though not to band activities, Bencriscutto came to the University this fall, replacing Gale R. Sperry, bandmaster since 1953.

A "cum laude" graduate of the University of Wisconsin where he received the bachelor of music degree in 1951, Bencriscutto returned to Wisconsin in 1956 and completed the work for the master of music degree in 1957. He received the doctor of musical arts degree from the Eastman School of Music of the University of Rochester, Rochester, N. Y., last month. His major was in composition with his major instrument the clarinet.

Solo chair clarinetist in the University of Wisconsin concert and marching bands, both as an undergraduate and as a graduate, Bencriscutto also held the same chair in the University symphony orchestra, as well as playing in dance bands for many years. He arranged the music for many of the University of Wisconsin football half-time shows and composed the music for and conducted the accompaniment of a university documentary film.

During his three years of service in the Fifth Army band he was featured alto saxophone soloist and taught a class in music composition. He also served as head arranger for the Fifth Army band's weekly broadcasts in Chicago and wrote special arrangements for soloists and band and male chorus and band.

UNIVERSITY OF MINNESOTA FOOTBALL MARCHING BAND

The University of Minnesota Football Marching Band -- 128 strong -- assisted by the Golden Gopher mascot, baton twirlers and guidon-bearers, will represent their university in the Rose Bowl parade January 2 and will lead thousands of loyal Gopher fans in cheering on the Minnesota national champion football team.

With the band are Director Frank Bencriscutto, Drum Major Melvin W. (Bill) Johnson, student baton twirlers, Susan Smizek, Virginia Hansen and Donald Holmgren; the Minnesota Gopher mascot, Wilbur Meiners, and ten guidons and three alternates.

New uniforms, worn for the first time this fall, will make the Minnesota Band resplendent in the parade. Navy blue, decorated with maroon, gold and white braiding, the uniforms are completed by special "double-exposure" dickeys, white in front, metallic gold on the back, emblazoned with giant maroon "M's" -- secured by a gold-buckled maroon belt. White plumes adorn the weather-proofed, white-topped caps. White spats and gloves emphasize the fancy maneuvers of the marching musicians.

The Minnesota Football Marching Band performs annually for the six home games in Memorial Stadium in Minneapolis and makes one out-of-town trip with the team. This year the band flew to the University of Michigan game at Ann Arbor. School spirit and football enthusiasm was at such a pitch this season that 50 bandsmen decided to support their team at the final conference game with the University of Wisconsin, and paid their own way to Madison where their vociferous support of their Golden Gophers was heard, via the television, throughout the land.

Started in 1896 at the request of students who wanted music at the games, the football marching band this year celebrates its 65th birthday.

MEET PRESIDENT O. MEREDITH WILSON OF THE UNIVERSITY OF MINNESOTA

Scholar, administrator and historian---President O. Meredith Wilson of the University of Minnesota answers to all of these descriptions.

President Wilson will be inaugurated as ninth chancellor of the University of Minnesota on the University's annual Charter Day, Feb. 23, marking the school's 110th birthday.

President Wilson took office at Minnesota last July 1, after six years as head of the University of Oregon and a distinguished career as teacher and historian.

In the words of his predecessor, J. L. Morrill, President Wilson brought to Minnesota "enviable and distinguished intellectual and administrative leadership".

He was selected by the University Board of Regents to fulfill the qualifications expressed by Board chairman Ray J. Quinlivan when the Regents began their search for a new president:

"We want a man who has great administrative ability and who has scholastic stature."

President Wilson was named to the Minnesota post by the Regents after an extensive search by a special sub-committee of the board and a faculty consultative committee. The committees considered some 170 candidates from the nation's leading educational institutions before making their final choice.

When President Wilson left Oregon, Dean Charles Duncan of the school of journalism at the West Coast school said of him:

"He came, in 1954, to a good university. He leaves it, in 1960, better than he found it. He goes to the only kind of a university that could have taken him from Oregon---one that is truly great. Oregon is a long step nearer greatness because he was here."

(MORE)

This tribute, and others like it, along with the many academic appointments and honors which have come to President Wilson are indicative of the high regard in which he is held in the field of education.

In 1958-59, President Wilson served as chairman of the American Council on Education, the leading educational organization in the country, charged with coordinating the work of other nationwide educational groups.

He is a member of a commission appointed a little over a year ago by the Council on Higher Education for American Republics to strengthen relations between universities of North and South America.

A soft-spoken man, President Wilson, nonetheless, is a man dedicated to discipline and order. Born Sept. 21, 1909, in Chihuahua, Mexico, he grew up in Salt Lake City, Utah, where his father was principal of Latter Day Saints university, a secondary school.

President Wilson attended Brigham Young university and continued on the school's history faculty for one year after his graduation in 1934. He spent the next 15 months abroad studying at the University of London and the University of Heidelberg. He returned to Brigham Young university in 1937, as an assistant professor, and stayed there until he joined the University of Utah faculty in 1942.

President Wilson's teaching career was interrupted for a year and a half while he attended the University of California to complete work for the doctor of philosophy degree, which he received in 1943.

From 1944 to 1947, he served on the faculty of the University of Chicago, where he became an associate dean of The College. He returned to the University of Utah in 1947 as professor and dean of university college.

President Wilson left his teaching career in 1952 for two years to serve as secretary and treasurer of the Fund for the Advancement of Education. He became president of the University of Oregon in 1954.

President Wilson and his wife, Marian, have six children.

THIS IS THE UNIVERSITY OF MINNESOTA

The University of Minnesota, chartered in February 1851 by the Legislative Assembly of the Territory of Minnesota seven years before the Territory achieved statehood, will celebrate its one hundred and tenth birthday February 23.

Largest of the Big Ten schools, the University of Minnesota ranks fourth in the nation in enrollment, with 28,277 full-time students.

Dedicated to the task of training the youth of Minnesota, the University's success is measured in part by the 153,219 degrees that it has awarded to students who have studied in its classrooms and laboratories.

In addition to providing collegiate instruction for more than 28,000 students on its Minneapolis, St. Paul, Duluth and Morris campuses, the University, through its Schools of Agriculture and General Extension Division, this year will give specialized training to approximately 59,000 Minnesotans on a part-time and extension basis. Also, its staff members who are county agents, home agents, 4-H Club agents and recreation and health consultants regularly assist citizens of the state in their home communities.

University scientists are constantly working on research of vital import to the future welfare of the state and the nation in the school's diverse research laboratories on its four college campuses, at the several agricultural experiment stations scattered throughout the state, at the Rosemount Aeronautical Research Center, the Cloquet Forest Research Center, the Cedar Creek Natural History Area, the Fruit Breeding Farm and Arboretum at Excelsior, the Lake Itasca Forestry and Biological Station, at the Mayo Foundation for Medical Education and Research at Rochester and the Hormel Institute at Austin.

Some of the projects now being studied include cancer, heart surgery, taconite, gamma radiation, teacher training, municipal government, nuclear energy, and new varieties in agricultural and horticultural species.

(MORE)

Cultural hub of the Upper Mississippi Valley area, the University is the home of the University Artists Course, radio station KUOM, the University Theater and its Mississippi-river cruising Showboat, the Minneapolis Symphony Orchestra and area performances of the Metropolitan Opera. Many of the programs televised by the Twin City Area Television service, KTCA-TV, Channel 2, originate on the Minneapolis campus. Through the University of Minnesota Program Service, the University brings musicians and lecturers to more than a million and a half people in the area.

Contributions to the University from the people of Minnesota have made possible the Minnesota Museum of Natural History, the Journalism School's Murphy Hall, the Variety Club Heart Hospital and the Mayo Memorial Hospital. The American Legion and its Auxiliary have provided an endowed research professorship in heart disease. Other contributions have enabled the University to build the Masonic Memorial Hospital, the Veterans of Foreign Wars Cancer Research Center and Memorial Stadium.

Equally generous have been the contributions made by corporations, associations, foundations, trade unions, clubs and individuals whose assistance has made hundreds of scholarships available each year to outstanding students.

Over recent years, much of the University's energy has gone into planning for anticipated increases in enrollments. At present, about half of the students enrolled in Minnesota colleges and universities attend the University of Minnesota. If other institutions continue to take the same percentage of students, no fewer than 47,000 full-time students will be attending the University in 1970.

The University is mirrored in the legend inscribed on the stone facade of its massive Northrop Memorial auditorium:

THE UNIVERSITY OF MINNESOTA
FOUNDED IN THE FAITH THAT MEN ARE ENOBLIED BY UNDERSTANDING
DEDICATED TO THE ADVANCEMENT OF LEARNING AND THE SEARCH FOR TRUTH
DEVOTED TO THE INSTRUCTION OF YOUTH AND THE WELFARE OF THE STATE
