U OF M EXPERIMENT
IS ABOARD NEW
ATS-A SATELLITE

For further information, contact:
GLENN ICKLER

(For release AFTER launch of ATS-A, scheduled for 9 p.m. CST April 4)

More University of Minnesota research equipment is aboard the Applications Technology Satellite (ATS-A) launched today (April 4) at Cape Kennedy.

The National Aeronautics and Space Administration (NASA) satellite is carrying an electron spectrometer identical to the one placed in orbit aboard the ATS-B last Dec. 6, according to John R. Winckler, University physics professor.

The Minnesota experiments aboard both ATS satellites were developed under the direction of Winckler, Thomas W. Lezniak, a NASA fellow and graduate student in physics, and Roger L. Arnoldy, research associate, all of the University's Institute of Technology. Lezniak has been responsible for the coordination and implementation of the project as his doctoral thesis in physics.

The experiment aboard the satellite launched today is designed to gather information on the acceleration mechanisms acting on electrons trapped in the earth's magnetic field. The ATS-B has been gathering the same type of information, but the new satellite will have a different orbit and a different altitude. This will enable the Minnesota scientists to study two parts of the Van Allen radiation belts simultaneously.

A circular orbit at an altitude of about 6,000 miles is planned for the ATS-A. It will circle the earth four times daily. The ATS-B is in a geostationary orbit in the vicinity of Christmas Island at an altitude of 19,000 miles.

(MORE)

Lezniak said the altitude of the ATS-A should place it "in the slot--- the gap between the two Van Allen belts." He said the ATS-B is sending back data on an area roughly in the center of the outer Van Allen belt.

Information from both ATS's will be analyzed along with data from two Orbiting Geophysical Observatory (OGO) satellites carrying similar University experiments to provide a more comprehensive picture of the trapped particles in the radiation belts.

The electron spectrometers aboard the satellites are high time-resolution magnetic spectrometers which examine the energy distribution of the trapped electrons.

Every .16 second the spectrometer counts the number of electrons in samples taken from space in each of three different energy ranges: 50-150 kev; 150-500 kev and 500-1,000 kev. (One kev is the energy obtained by an electron when it is accelerated through a potential difference of 1,000 volts. A 50-kev electron is traveling at .41 of the speed of light and a 1,000-kev electron is traveling at .94 of the speed of light).

The electron counts are transmitted to tracking stations around the world and the data tapes are shipped to the University for analysis.

The tiny five-pound electron spectrometer on the ATS-A is a modification of a larger spectrometer designed by research assistant Karl A. Pfitzer, a graduate student in physics. Modification work was done by Lezniak and the School of Physics electronics shop.

Lezniak said the electron spectrometer will be turned on after the 10th orbit of the ATS-A, some 60 hours after launching. It will be about four weeks before the first data tapes arrive at the University.

Both Winckler and Lezniak said the data received so far from the ATS-B is excellent. Lezniak said the satellite seems to be orbiting in "a choice spot" and that the experiment "is functioning beyond our expectations."

The Minnesota experiment is one of many aboard the ATS-A, which was sent into space by an Atlas Agena rocket. Main purpose of the satellite is to test a new system of stabilization known as gravity gradient stabilization.

Four metal booms, each 132 feet long, will be deployed in space, making the satellite 269 feet long from tip to tip. One end will be closer to earth, so that the pull of earth's gravity will be slightly greater (about one-100,000th of a pound) on the end closer to the earth. This difference is expected to keep the satellite stable.

RUSSIAN MAGAZINE
EDITOR VISITING
U OF M DURING APRIL

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Minneapolis---A Soviet magazine editor is visiting the University of Minnesota school of journalism and mass communication during April as part of a study of American journalism education and professional methods.

He is Vitaly Aleksevitch Korotich, editor-in-chief of "Ranok" magazine, which is published in Kiev, the Ukrainian republic of the USSR. During his month-long stay at Minnesota, Korotich will be an "honorary fellow," according to Robert L. Jones, director of the school.

Korotich, 31, is fluent in English and visited Canada in 1965 on a UNESCO grant. His current trip to the United States also is sponsored by UNESCO, through the Institute of International Education in New York.

The Russian editor spent February in New York, visiting the Columbia University Graduate School of Journalism. He then went to the University of Wisconsin and arrived at Minnesota on April 1. After leaving Minnesota he will visit Stanford University's department of communication and research. He will return to Kiev in June.

During his U.S. stay, Korotich also is visiting local newspapers, radio and television stations and publishing houses.

Korotich has had four books of poems published in Ukrainian. Their English titles are: "Golden Hands," "The Smells of the Sky," "Corn-Flowers' Street," and "The Stream." He has written two books of feature articles concerning his visit to Canada.

HUMAN ECOLOGY
TO BE SUBJECT OF
5 'U' LECTURES

(FOR IMMEDIATE RELEASE)

A specialist in human ecology and resource management will give the first of a series of five public lectures on "Problems and Theories in Human Ecology" Wednesday (April 5) at the University of Minnesota.

Demitri Shimkin, University of Illinois professor of anthropology and geography, will speak at 8 p.m. in Murphy hall on the Minneapolis campus. Title of his talk is "An Ecological View of Culture."

The lecture program is part of a series of human ecology seminars sponsored by the University's anthropology department, according to Luther Gerlach, associate professor of anthropology and director of the department's human ecology program.

Gerlach described human ecology as the field of study concerned with the interrelationships among man's socio-cultural, human-biophysical and physical environmental factors.

Other lectures in the series, all scheduled for 8 p.m. in Murphy hall, will be:

April 19 --- Charles Sanders, Pennsylvania State University associate professor of anthropology, "Archaeology and Ecology."

May 3 --- William Laughlin, University of Wisconsin professor of anthropology, "Socio-cultural Factors Relating to Gene Flow."

May 11 --- G. W. B. Huntingford, University of London, visiting professor at the University of New Brunswick, Fredericton, New Brunswick, Canada, and specialist in the cultural history of East Africa.

(MORE)

May 17 --- Andrew Vayda, Columbia University associate professor of anthropology, "Cultural Ecology."

Shimkin is a member of the University of Illinois Ecology Center, a contributor to the projected International Biological program and a consultant to several U.S. government agencies.

The lecture and seminar series is designed to bring distinguished visitors to the University campus for the benefit of graduate students. The University's human ecology program is one of a handful in the country and is funded by the National Defense Education Act (NDEA). Fellowships for five graduate students, all seeking doctorates in anthropology, are provided by the NDEA.

The human ecology visitors are part of the anthropology department's visiting specialist program.

Gerlach noted that the human ecological view of man from a broad perspective is an elaboration upon the basic approach of the anthropologist.

"It is from this perspective that we can come to grips better with such problems as air pollution," he said.

Complex problems which demand an ecological approach would include such things as human nutrition, Gerlach said. Nutritional problems relate to man's physical environment, man as a biological organism and man as a socio-cultural being, he explained.

"We try to establish an ecological balance sheet which is best to manage the affairs and resources of men," he said.

U.N. POLITICAL AFFAIRS OFFICER
TO ADDRESS MODEL U.N. AT 'U'

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

James O. C. Jonah, political affairs officer in the United Nations department of political and security council affairs, will address the 350-some members of the Model U.N. in conclave at the University of Minnesota Thursday through Sunday (April 6-9).

Jonah, a representative to the U.N. from Sierra Leone, will speak at the opening session of the 10th annual Model U.N. assembly at 1 p.m. Thursday (April 6) in Coffman Memorial Union (CMU) main ballroom.

The Model U.N. conclave, made up of students from colleges and universities in the five-state region of North and South Dakota, Wisconsin, Iowa and Minnesota comprising the North Central district, always meets in Coffman Union.

In the Model U.N. sessions some 50 member-nations of the "real" U.N. will be represented by student groups that have chosen the countries they wish to represent. These groups then act, vote and veto as would "their" countries in the U.N.

Jonah's background in political science and international relations includes bachelor degrees in liberal arts from Durham University, England, and in political science from the University of Pennsylvania; a master's degree in international relations from Harvard University; a year at Boston University's Special African Program; two years at Harvard Law School's special program in international law; a doctor of philosophy degree in political science from Massachusetts Institute of Technology and a one-year fellowship with the Friedrich Ebert Foundation as well as extensive research in European international organizations.

He joined the United Nations in the fall of 1963.

CHICAGO RABBI
TO ADDRESS 'U'
CONFERENCE ON VIOLENCE

(FOR IMMEDIATE RELEASE)

A national authority on violence within communities---Rabbi Robert J. Marx---will deliver the opening lecture at a University of Minnesota conference entitled "The Rising Tide of Violence."

The one-day event will be held in Mayo auditorium on the Minneapolis campus on Tuesday (April 11) and is open to anyone concerned about violence as it affects society.

The program will be presented by the department of conferences and institutes of the University's General Extension Division in cooperation with the Minnesota branch of the Women's International League for Peace and Freedom.

Rabbi Marx, who will talk at 9:45 a.m. on "Community Violence," is director of the Union of American Hebrew Congregations in Chicago, an organization which represents 76 Jewish Reform congregations.

He is an active participant in a wide range of social and civic programs. In March 1965 he joined clergymen of all denominations in the Selma, Ala. march, to protest the denial of civil rights to Negro citizens. He is one of three honorary chairmen of the Illinois Committee to Abolish Capital Punishment, and the founder and director of the Jewish Council on Urban Affairs, a group which attempts to bring the commitment of Judaism to the problems of the city. He has recently completed a study on violence between ethnic groups.

(MORE)

The second lecture, "Violence and the Individual," will be given at 1:15 p.m. by Dr. Richard W. Anderson, University professor of psychiatry. He will discuss the psychological forces that predispose an individual to violence, and the controls on violence which the individual learns from his family or society.

Valdemar N. L. Johnson, a foreign service officer and visiting professor in the department of political science, will discuss "International Violence" at 2:45 p.m. He is one of 11 senior foreign service career officers participating in a nationwide State Department visiting professor program.

His lecture will deal essentially with positive developments made in coping with international violence, especially in terms of the United States' relationship to the Soviet Union and Eastern Europe.

Professor Johnson has served for the State Department in the Soviet Union and all Eastern European countries but Albania; two years in Oslo, Norway; two and a half years in Warsaw, Poland; and, most recently, five years as deputy chief of mission at the American embassy in Reykjavik, Iceland.

Reactor panels will follow each speaker.

For additional information or to attend the conference, write to the Director, Department of Conferences and Institutes, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455.

(FOR IMMEDIATE RELEASE)

Minneapolis---The international debate over students from the less developed countries who do not return to their homeland after receiving a U.S. college education will be explored in depth at a national two-day conference to be held next week at the University of Minnesota.

Many sides of the question---the reasons why these students do not return home, the problems thus created, and what might be done about them---will be discussed at length.

The conference, titled "Higher Education and the International Flow of Manpower: Implications for the Developing World," will be held in the University's Coffman Union main ballroom.

Eight major speakers will be featured, along with eight-member discussion panels, at four main sessions: all-morning and all-afternoon meetings on Thursday and Friday, April 13 and 14. The speakers and discussants will represent federal agencies, national organizations and universities that are concerned with international affairs. The conference will be sponsored by three offices of the University of Minnesota: the Office of International Programs, the Office of the Adviser to Foreign Students, and the General Extension Division's World Affairs Center.

Frederick H. Harbison, director of industrial relations at Princeton University, and Francis X. Sutton of the Ford Foundation's Office for International Programs will be the first major speakers, beginning at 9:15 a.m. April 13. They will address themselves to the topic, "The Importance of Higher Education to Development," in a session chaired by Willard W. Cochrane, Minnesota's dean of international programs.

Jacob Canter, deputy assistant secretary for education and cultural affairs in the U.S State Department, and F. Champion Ward, vice president of the Ford Foundation, will speak at 2 p.m. to start the afternoon session on "American Higher Education for Students From the Developing World," chaired by University of Minnesota President O. Meredith Wilson.

(MORE)

Paul Miller, assistant secretary for education in the U.S. Department of Health, Education and Welfare, and Kenneth Thompson, vice president of the Rockefeller Foundation, will speak at 9:15 a.m. April 14. That session, chaired by Forrest G. Moore, director of the Office of the Adviser to Foreign Students at the University of Minnesota, will be titled "The Post-Educational Careers of American-Educated Students From the Developing Countries."

U.S. Senator Walter F. Mondale (D.F.L.-Minn.) and U.S. Representative Albert H. Quie (R.-Minn.), will address the final session beginning at 2 p.m. April 14, on "Implications for Educational and Public Policy." Chairman of that session will be William C. Rogers, director of the University's World Affairs Center.

Each discussion panel following the major addresses will consist of eight representatives from among the following universities and agencies: Minnesota, Purdue, Pennsylvania, Michigan State, Illinois and Wisconsin universities; the U.S. Agency for International Development and the U.S. State Department's Bureau of Educational and Cultural Affairs; the Institute for International Education; the American Council on Education; the National Association of Foreign Student Advisers; Education and World Affairs (E.W.A.); the Bureau of Social Science Research, Inc.; the Agricultural Development Council; and the Ford Foundation.

A type of round-table-discussion format, frequently used at conference of international organizations, will be used. The major speakers and the eight discussants will be seated around a table in the center of the ballroom. Four tiers of seats will surround them, holding faculty members, out-of-town visitors, students, and community leaders. Microphones will be situated in each group of seats to handle question-and-answer sessions after each panel discussion.

Anyone interested in attending the conference can obtain further information from Dean Cochrane, Office of International Programs, 1214 Social Science Building, University of Minnesota, Minneapolis, Minn. 55455.

'U' PROF BOROW HEADS
VOCATIONAL GUIDANCE GROUP

Henry Borow, professor of psychological studies in the University of Minnesota's General College, recently took office as president of the 11,000-member National Vocational Guidance Association (NVGA)---the oldest unit of the federation of professional organizations known as the American Personnel and Guidance Association. Professor Borow is editor of the 50th-anniversary yearbook of the NVGA and author of numerous articles and research reports, and serves as consultant to the U. S. Social Security Administration, the U. S. Office of Education and the Minneapolis Veterans' Hospital.

'U' WORLD AFFAIRS CENTER
SPONSORS ILLINOIS MEET

William C. Rogers, director, Barbara Stuhler, associate director, and Alice Moore, program coordinator of the World Affairs Center (WAC) of the University of Minnesota General Extension Division, recently participated in a three-day course, "Simultaneous Residential Seminars," in St. Charles, Ill. The event was sponsored by the WAC in cooperation with the Council on Religion and International Affairs and the Congdon Foundation of Duluth, and was attended by business, labor, academic and religious leaders from the entire midwest.

Professor Rogers and Mrs. Stuhler acted as moderators for the two seminars, "The Ethics of Non-Intervention: Assumptions of U. S. Foreign Policy" and "Tradition and Ideology: Dilemmas of Chinese Power."

Rogers also has recently been appointed a member of the Population Crisis Committee, which has its headquarters in Washington, D. C. The major purpose of the committee is to encourage the mobilization of United States resources to curb the growth of world population, and to urge the expansion of the activities of government agencies currently authorized by congress to deal with the problem.

SIGGELKOW OF UMD
NAMED DIRECTOR
OF COFFMAN UNION

For further information, contact:
DORIS FENICK

(FOR RELEASE FRIDAY, APRIL 7)

Minneapolis---Edwin O. Siggelkow, director of Kirby Student Center and coordinator of student activities at the University of Minnesota, Duluth, (UMD) today (Friday, April 7) was named director of Coffman Memorial Union on the University's Minneapolis campus, according to Donald R. Zander, director of University Unions.

Siggelkow, who took over management of the Duluth student center in 1955, will assume his new position in Minneapolis July 1.

In his Duluth position Siggelkow administered all student activities including the Kirby Student Center building and programs; was adviser to the student government; served as a member of the student-faculty Student Affairs and Kirby Student Center policy committees; and was a member of the Faculty committee, the UMD Honors and Awards committee, the Campus Safety and Civil Defense, the University Calendar and the Parking and Transportation committees.

He received student government faculty-staff awards in 1957 and in 1958.

A native of Burlington, Wis., Siggelkow graduated from Washington high school, Milwaukee, and received a bachelor of psychology degree and a master of science degree in guidance and student personnel work from the University of Wisconsin. He also worked toward a doctor of philosophy degree while at the University of Minnesota, Minneapolis.

He came to the University of Minnesota in 1950 from a personnel position at the University of Wisconsin. During his five years on the Minneapolis campus, before he was named Kirby Student Center director at UMD, he was an adviser to academic fraternities and social action groups and received an Outstanding Service award from the Interfraternity Council.

10 MCKNIGHT THEATRE
FELLOWSHIPS AWARDED
AT U OF M FOR 1967-69

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Minneapolis---The University of Minnesota today (Wednesday, April 5) announced 10 winners of the two-year McKnight Foundation Graduate Theatre Fellowships.

The winners will spend the 1967-68 school year studying in the University's Graduate School; the following year (1968-69) they will continue their graduate study until the start of the Tyrone Guthrie Theatre season, when they will become interns with the Minnesota Theatre Company for the 1969 season.

Professor Kenneth L. Graham, chairman of the University department of speech, communication and theatre arts and head of the McKnight Foundation fellowship selection committee, announced the winners, which this year include six in acting, two in costuming and scenic decor, one in directing and one in theater business management and promotion.

The amount of the fellowship varies with the winner. The first-year stipend ranges from \$1,200 to \$2,400; the second-year stipend from \$1,900 to \$2,700.

The 10 winners were selected from 120 applicants who were nominated by their college or university theater directors. The six winning actors were chosen through auditions held recently at the University and judged by a selection committee consisting of staff members from the Minnesota Theatre Company and from the University Theatre. The other four winners were chosen through samples of their work and by their references, Professor Graham said.

Of the 10 winners, five are currently attending the University of Minnesota. Of the remaining five, one is with the Hartford Stage Company and the others are attending Southern Illinois University, the University of Miami, Ohio Wesleyan University and St. Mary's College, Winona. Seven of the winners hold bachelor's degrees and the other three are completing work for a bachelor's degree this spring.

(MORE)

Walter Trennery of St. Paul, president of the sponsoring McKnight Foundation, has stated that the goal of the fellowship program is to provide an opportunity for outstanding graduate students to continue advanced work in both educational and professional theater.

The winners are as follows:

ACTING

Douglas W. Cheek, 22, of 1113 Twenty-third ave. SE., Minneapolis. He holds a bachelor of arts degree from the University of Maryland, where he was named best supporting actor in 1964-65 for his portrayal of Gaston in "Waltz of the Toreadors." He was executive director of the Northwestern Alumni Players, a summer theater at Hyattsville, Md., from 1963 to 1966. Currently enrolled in the University of Minnesota Graduate School, he is scheduled to play Mercutio in the University Theatre's upcoming summer Showboat season. He is married.

Peter M. Goetz, 25, of 212 Fair oak st., Little Valley, N.Y. He studied at the University of Miami from 1960-62, then at State University College of New York at Fredonia, where he received a B. S. degree in 1965 and was named best actor in 1964 and 1965. He is currently enrolled in Graduate School at Southern Illinois University, Carbondale, Ill. (where his address is Southern Hills Apts. 121-4).

William J. Grivna, 24, of 315 Eleventh ave. SE., Minneapolis. He received a B. A. degree in 1966 from Minnesota where he is currently in Graduate School. He was a leading man in the 1964 Showboat cast and held the Oscar W. Firkins Award for five years as an undergraduate. He has spent the 1965 and 1966 summers at the Paul Bunyan Playhouse, Bemidji, Minn.

George M. Muschamp, Jr., 22, of 4630 Edgebrook place, Edina, Minn. Now attending the University of Minnesota Graduate School, he received a B. A. degree in 1966 from Gettysburg College, Gettysburg, Pa., and studied one summer at the University of Caen in Caen, Normandy (France).

Cynthia Wells Scherfenberg (Mrs. Craig Scherfenberg), 25, of 649 Summit ave., St. Paul. Both she and her husband are currently attending the University while managing the Eastside Theatre of St. Paul. She has been selected for the Showboat cast of 1967. She has appeared in many Eastside productions, and previously acted at Macalester College where she received a B. A. degree cum laude in 1964. She also appeared as a singer with the Center Opera Co. of Minneapolis from 1964 to 1967.

Joseph T. Walsh, 22, of 10 Crest drive, Tarrytown, N.Y. He is currently with the Hartford Stage Company of Hartford, Conn., and appeared at Minneapolis' Firehouse Theatre in 1966. He received a B. A. degree in 1966 from Yankton College, Yankton, S.D., where he appeared in "The Fantasticks," "Julius Caesar," "The Italian Straw Hat" and other plays.

COSTUMING AND SCENIC DECOR:

Warner P. Blake, 24, of 610 W. Franklin, Minneapolis. A Minnesota graduate who now is in the Graduate School there, he has designed the University's spring-quarter production of "Robin Hood" and is a director-designer of plays put on by the University French Club. He spent a year as a technical director in the U. S. Army Special Services Playhouse in Frankfurt, Germany. He is married and the father of one child.

Janece F. Manches, 21, of 621 Lenox ave., Miami Beach, Fla. She will receive a B. A. degree this spring from the University of Miami, Coral Gables, Fla., where she is majoring in art and minoring in theatre and where she has worked as scenic artist this year. She was also scenic artist for the Southern Shakespeare Repertory Theatre last summer, and for three years served as arts and crafts specialist in the Jewish Community Center.

DIRECTOR:

William H. Graham, 21, of 508 N. Broadway, Barnesville, Ohio. He will receive a B. A. this spring from Ohio Wesleyan University, Delaware, Ohio (where his current address is 207 N. Sandusky st.). In last year's production there of "Romeo and Juliet," he arranged the musical background and directed the party scene, including choreography, as well as playing one of the parts. This year he has directed "The Importance of Being Earnest" and a spring musical, "Show Boat."

BUSINESS MANAGEMENT AND PROMOTION:

Douglas J. Eichten, 21, of Fulda, Minn. He will receive a bachelor's degree this spring from St. Mary's College, Winona, Minn. (where his current address is 263 Griffin Hall). He has acted in numerous plays at St. Mary's, including the title role in the fall 1965 production of "Luther."

MONDALE TO TALK
ON 'BRAIN DRAIN'
AT 'U' BANQUET SATURDAY

(FOR IMMEDIATE RELEASE)

"The Brain Drain," a problem of increasing international importance, will be discussed by U. S. Senator Walter F. Mondale (D.F.L.-Minn.) on Saturday (April 8) at the annual International Student Festival banquet in Coffman Memorial Union main ballroom on the University of Minnesota's Minneapolis campus.

The banquet this year is being given by member clubs of the University of Minnesota's International Student Council and will honor the 350 student-delegates to the Model U.N. now in conclave in Coffman Union.

Mondale is deeply concerned about the problem of students from the less developed countries who do not return to their homelands after completing their education in the United States, and he is working closely on the matter.

He will present an overview of the situation and what currently is being done about it, and will welcome questions from this singularly appropriate audience, his Washington, D.C., office said.

More than 600 members of the Model U.N. groups and foreign students at the University of Minnesota are expected to attend the banquet at 5:30 p.m. Saturday, according to Seshadri Velamoor, this year's festival chairman.

The banquet, presenting an international menu, will be open to the public and tickets may be purchased at the door. Ticket prices are \$2.85 for adults and \$1.75 for youngsters under 12.

VIETNAM JOURNALIST
TO TALK AT U OF M

(FOR IMMEDIATE RELEASE)

For further information, contact:
NANCY PIRSIG

Tran Van Dinh, Washington, D. C., bureau chief for the Saigon Post since 1964, will give a convocation address at the University of Minnesota Monday (April 10).

He will speak at 8:15 p.m. in Northrop auditorium. The talk, free and open to the public, will be sponsored by the Minnesota chapter of SANE (U.S. Committee for a SANE Nuclear Policy), the Minnesota Student Association and the department of concerts and lectures.

Dinh, 44, has lectured in more than 100 colleges and universities in this country and is the author of "No Passenger on the River," a book about the war in Vietnam.

Educated at Quoc Hoc College and Hanoi University, Dinh was active in the nationalist underground movement against the French colonial regime and the Japanese occupation forces from 1942-45. He has held several positions with the military, including chief of staff with the Lao-Viet Liberation Army in Laos from 1945-48 and military adviser to Prince Souphanouvong.

He was assistant to the editor of Liberty, an English daily newspaper printed in Bangkok, Thailand, before joining the Vietnamese foreign service in 1951. From 1952-56 he was director of the Press and Information Service at the Vietnam Embassy in Bangkok. From 1957 to 1964, when he resigned from the Foreign Service, he had assignments in many parts of the world, including India, Indonesia, the Philippines, Mexico, Argentina, the United Nations, and the Vietnamese Embassy in Washington, D.C., where he served a brief stint as acting ambassador of Vietnam to the United States.

-U N S-

Note to editors: A news conference for Mr. Dinh will be held at 4 p.m. Monday (April 10) in Room 320 Coffman Union.

LEARN TO ADDRESS
DADS' ASSOCIATION

Elmer W. Learn, assistant to the president of the University of Minnesota, will speak on "University Development" at the April meeting of the University Dads' Association Wednesday, April 19.

The meeting will be held at 7:15 p.m. in the North Star room of the St. Paul Student Center on the St. Paul campus and will be preceded by a dinner at 6 p.m.

Reservations for the dinner, at \$1.75, must be in the Dads' Association office, Room 302-C Eddy hall, University of Minnesota, Minneapolis, Minn., 55455, by Monday, April 17.

FINAL MUSEUM PROGRAM
TO BE ON SAND PLAINS

A film trip into the Anoka/^{Sand}Plains will be shown this Sunday (April 9) by Professor W. J. Breckenridge, director of the Minnesota Museum of Natural History, in the final program of this year's Sunday-afternoon series at the museum.

The color sound film shows the remarkable flora and fauna to be seen very close to the Twin Cities area, Professor Breckenridge pointed out, and emphasizes the value of the new Sherburne County National Wildlife Refuge.

The program, open free to the public, will be held at 3 p.m. in the museum auditorium.

MARGARET MEAD
TO SPEAK TWICE
AT 'U' TUESDAY

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

Noted anthropologist Margaret Mead will speak twice at the University of Minnesota Tuesday (April 11).

Miss Mead, who has spent many years living with various South Seas peoples and has written numerous books and articles about them, will discuss "The Future as Shared Culture" in both talks.

She will speak at convocations in the North Star ballroom in the St. Paul campus Student center at 9:15 a.m. and in Northrop auditorium on the Minneapolis campus at 1:15 p.m.

Miss Mead is curator of ethnology at the American Museum of Natural History in New York City and adjunct professor of anthropology at Columbia University.

Her first expedition to the South Seas was in 1925, when she went to Samoa. She has visited New Guinea five times and has also studied primitive communities in Bali, Iatmul and Montserrat.

During her travels, Miss Mead has learned seven primitive languages.

She is presently involved in two New Guinea field projects and is concerned with studying contemporary cultures in the light of perspective gained by the study of small, homogeneous, stable societies.

Miss Mead is considered a specialist in family life, mental health, personality and culture, national character, education and culture and cultural change.

Miss Mead's visit is sponsored by the University Convocations committee.

2 'U' PHYSICISTS
TO ATTEND MEETING
ON NEW ACCELERATOR

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

Two University of Minnesota faculty members will attend a meeting of high-energy physicists at Argonne National Laboratory, near Chicago, Friday and Saturday (April 7 and 8) to discuss the new 200-billion electron volt (beV) accelerator to be built at Weston, Ill.

The technical meeting will be sponsored by Universities Research Association, Inc., (URA) an organization of 46 universities which has offered its services to the Atomic Energy Commission (AEC) to design, construct and operate the accelerator.

Minnesotans attending will be Professor Morton Hamermesh, head of the University School of Physics and a member of the URA board of trustees, and Hans W. J. Courant, associate professor of physics.

Hamermesh said the purpose of the meeting is to let physicists who will eventually use the huge accelerator express their ideas on its construction.

There will be presentations of the status and plans for developing the Weston site, the accelerator design, the National Accelerator Laboratory and the plans for communication between the laboratory and members of the high-energy-physics community.

The 200-beV accelerator, which will be the world's largest, was sought by nearly every state, including Minnesota, which proposed sites at Rosemount and Duluth.

URA was formed in 1965 to provide national academic participation in the operation of the accelerator. The association's initial contract with the AEC is for about \$200,000.

INNOVATOR IN MEDICAL EDUCATION
TO SPEND WEEK AT 'U' MEDICAL CENTER

For further information, contact:
Gerald Knox, 373-5830

(FOR IMMEDIATE RELEASE)

Minneapolis---An innovator and leader in medical education---and a proponent of the concept of physicians' assistants as a striking new way to alleviate the shortage of doctors---has been named as the John C. and Miriam Cornelius visiting professor in medicine at the University of Minnesota.

Dr. Eugene A. Stead, Jr., professor and chairman of the department of medicine at the Duke University School of Medicine, will spend next week (April 10-14) at the University's Medical Center and will give a talk on Thursday (April 13) on the "New Medical Curriculum at Duke University School of Medicine." The talk, at 4:15 p.m. in the Adytum on the first floor of the main Mayo building, is free and open to the public.

"We are very fortunate to have Dr. Stead visit us," said Dr. Richard V. Ebert, professor and head of the Medical School's department of medicine, in announcing this year's visiting professor. "Dr. Stead is well regarded for his findings in cardiovascular research, his excellent ability as a teacher, and his leadership in medical education."

Dr. Stead has been instrumental in developing the new medical program at Duke, where individuals work toward the doctor of medicine degree by pursuing diverse courses, heading toward different goals. Courses are selected by the student to satisfy his individual needs, with fewer courses required.

Duke also has a pilot study now under way for the training of physicians' assistants. The idea represents a method of extending the physician's reach by enabling him to delegate a number of time-consuming chores that do not require his medical judgment. The type of assistant trained at Duke will be able to take the technically oriented, repetitive work off the physician's hands. He might, for example, do the initial work-up of the patient prior to the physician's examination; then follow through on the course of therapy designated by the physician. Three such physicians' assistants will graduate from the two-year course at Duke this year.

The Cornelius visiting professorship in medicine brings a distinguished medical educator to the University campus for one week each year. It is sponsored in perpetuity by Mr. and Mrs. John C. Cornelius of Minneapolis through gifts to the Minnesota Medical Foundation.

OTOLARYNGOLOGIST
TO TALK AT 'U' MON.

For further information, contact:
Gerald Knox. 373-5830

(FOR IMMEDIATE RELEASE)

Minneapolis---Sir Terence Cawthorne, an internationally noted otolaryngologist, will speak at the University of Minnesota Monday (April 10). The lecture, free and open to the public, will be at 4 p.m. in Room 555 Diehl hall.

Dr. Cawthorne, who is a past president of the Royal Society of Medicine in England, and former dean of Kings College Medical School there, will talk on "Two Famous Tracheostomies." (A tracheostomy is placing a tube in the windpipe to prevent choking.) The tracheostomies to be discussed are considered to have significantly altered the course of history.

The lecture is sponsored by the department of otolaryngology in the University's Medical School, as the Joseph Bettingen lectureship in otolaryngology.

Dr. Lawrence R. Boies, professor and head of the University's otolaryngology department since 1942, will be honored by members of his department during a dinner Sunday evening (April 9) at the Lafayette Club, Lake Minnetonka. Dr. Boies is retiring from the University faculty this June. Lady and Sir Cawthorne will attend on this occasion.

YODER TO BE HONORED
AT INDUSTRIAL RELATIONS
MEET AT 'U' FRIDAY

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Professor Dale Yoder, founder and first director of the University of Minnesota Industrial Relations Center, will return to the campus as the principal speaker at a one-day conference on Friday, April 14.

The event is the Tenth Anniversary Conference of Iota Rho Chi, professional industrial-relations fraternity at the University.

Professor Yoder will be featured on the luncheon program and will speak on the conference theme, "Relating University Research to Practical Application in Industry."

Following the speech, University President O. Meredith Wilson, on behalf of the Board of Regents, will present Yoder with an honorary citation which reads, in part, "to a scholar and educator who served the University and its students well for 25 years, and who has always supported the ideals of good scholarship and professionalism in his chosen field of business administration."

Yoder recently was appointed director of the Bureau of Business Research at California State College in Long Beach. From 1958 to 1966 he served as professor and director of the division of industrial relations in the Graduate School of Business at Stanford University, Stanford, Calif.

He became a staff member of the University of Minnesota in 1934, and from 1946 to 1958 served as professor of economics and director of the Industrial Relations Center.

Three nationally prominent business leaders will present keynote speeches at the conference on the subject, "The Role of Industrial Relations in the Accomplishment of the Organization's Goals." The men, speaking at 9 a.m., are Robert O. Hawkanson, vice president of public relations for U. S. Steel Corp., New York City; Richard T. Lindgren, retail facilities and development manager, Ford Motor Co., Dearborn, Mich.; and James D. Hodgson, corporate director of industrial relations, Lockheed Aircraft Corp., Burbank, Calif.

Concurrent panels will be conducted in the afternoon by University faculty members on labor relations, compensation, manpower development and employment, and management development. At 4:45 p.m. Sociology Professor Edward Gross will speak on "Implementing a Manpower Policy."

The program, which begins at 8:15 a.m., will be held in Coffman Memorial Union.

CAMPUS CARNIVAL SET
AT 'U' NEXT WEEKEND;
FUNDS GO FOR SCHOLARSHIPS

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Clowns cavorting on the University of Minnesota's Minneapolis campus and through children's hospitals in the Twin Cities area again will herald the approach of the annual Campus Carnival at the University.

The two performances of the 54th annual Carny will be held from 7 p.m. to midnight Friday and Saturday (April 14-15) in the University Field House, University and Nineteenth ave. SE., Minneapolis.

Tickets at \$1 will be sold at the door, with Carny profits (more than \$19,000 last year) going to University scholarship funds, according to Anna Marie Huston, Student Activities Bureau counselor for the affair. Funds from Carny will be allocated to SPAN (Student Project for Amity Among Nations), the International Student Exchange Scholarship, Project Awareness scholarships and the Social Service Council's general scholarship fund.

Carny is by far the largest scholarship fund money-raising project undertaken by the students, Dean of Students Edmund G. Williamson pointed out.

While from 200 to 300 University students will appear as barkers, pitchmen, dancers, chorus girls, actors in skits and participants in running the food and game concession booths, some 2,500 students actually work on Carny, Miss Huston said. "They do the behind-the-scenes work of carpenters, scene painters, costume designers, electrical crews, scene designers, script writers, musicians and musical directors," she said.

Forty-four student groups, representing academic and professional fraternities and sororities, residence halls, scholarship achievement societies and others, will combine forces in presenting the carnival games and skits, Bonnie Cumberland, 6222 Third ave. S., Richfield, off-campus publicity chairman, explained.

"We will have such acts as a "Psychedilic Fun House," a science-fiction play, a "Devil's Den" gambling house, bullfighting and some robot specialists to liven up the scene," Miss Cumberland said.

-U N S-

Note to Editors: Excellent picture opportunities will be available when Carny is setting up in the Field House, Thursday afternoon and evening and all day Friday.

NANCY PIRSIG

How the University of Minnesota represents itself to people and institutions throughout the state---but particularly to prospective students---is the subject to be studied by a special committee recently appointed by Stanley J. Wenberg, University vice president for educational relationships and development.

The 20-man Special Committee on University Representation, chaired by Paul H. Cashman, assistant vice president for educational relationships and development, will seek to organize the University's contacts with high school students and others. At present, there is no University-wide policy on the matter, and each college of the University handles contacts in its own way, often on a hit-and-miss basis.

"We need to work out the best way to present to the people of the state the educational opportunities the University has available," Wenberg said. He added that while prospective students are the main concern, the committee also will examine communications with counselors and other high school personnel, with junior college students, and with other institutions such as state and private colleges.

The types of communication to be explored include letters, television presentations, special recruitment programs, college and career days, visits by University students and staff to schools, visits by prospective students to the University, and others.

Wenberg pointed out that the committee obviously will not be concerned with recruiting more students to the University, but wants to make sure that prospective students are fully aware of what is available at the University, particularly in the way of variety of professional training and career opportunities.

The problem of representing the University to the state was recognized as long ago as 1960, when the Faculty Senate's Committee on Institutional Relationships recommended changes in recruitment practices and the Senate concurred. The report has never been implemented.

Among the members of the new committee are Raymond W. Darland, provost of the University's Duluth campus; Rodney A. Briggs, dean of the Morris campus; Richard S. Caldecott, dean of the College of Biological Sciences; Roger B. Page, associate dean of the College of Liberal Arts; H. Mead Cavert, associate dean of the College of Medical Sciences; Nicholas A. Glaskowsky, associate dean of the School of Business Administration; Donald Z. Woods, associate dean of the General Extension Division; and Stanley D. Sahlstrom, director of the University's Technical Institute at Crookston.

LIST OF UNIVERSITY OF MINNESOTA MINNEAPOLIS CAMPUS PUBLIC EVENTS
WEEK OF APRIL 8-15

- Sat. -- April 8 -- International Student Festival annual banquet: honored guests, members of Model U.N. in conclave at University. Speaker, U.S. Senator Walter F. Mondale, (D.F.L.-Minn.); topic, "The Brain Drain;" 5:30 p.m., Coffman Union main ballroom. Tickets at door.
- Sat. -- April 8 -- International Student Festival: Three international plays by Arab, African and Indian student groups; 8:30 p.m., Scott hall. Tickets at door.
- Sun. -- April 9 -- International Student Festival: International Fete; games, booths, music, dancing, foreign articles for sale on main, second and third floors, Coffman Union. Open, 12 noon to 6 p.m. Free.
- Sun. -- April 9 -- Model U.N.; General Assembly, 9 a.m.-12 noon; final session, 1-4 p.m., Coffman Union main ballroom. Open to public.
- Sun. -- April 9 -- Concert; New compositions by pianist Paul McIntyre, assistant professor of music; Sigma Alpha Iota, professional music sorority, and area professional musicians will perform; 8:30 p.m., Scott hall. Tickets at door.
- Sun. -- April 9 -- Minnesota Museum of Natural History Sunday program: Final program in series: color-sound film of "A Trip Into the Anoka Sand Plains," with Professor Walter J. Breckenridge, Museum director. 3 p.m., Museum auditorium. Free.
- Mon. -- April 10 -- Special medical lecture: Sir Terence Cawthorne, former dean, Kings College medical school, England, will speak on "Two Famous Tracheostomies;" 4 p.m., 555 Diehl hall. Free.
- Mon. -- April 10 -- Lecture: "Islam As a Religion;" Professor Philip K. Hitti, visiting professor in department of Middle Eastern languages; 8 p.m., Murphy hall. Free.
- Mon. -- April 10 -- University Gallery: "Nicholas Dean, Photographs;" gallery 309; gallery open school hours weekdays. Free.
- Mon. -- April 10 -- Special lecture: Tran Van Dinh, Washington, D.C., bureau chief of the Saigon Post, will speak under sponsorship of SANE (U.S. Committee for a SANE Nuclear Policy), Minnesota Student Association and department of concerts and lectures; 8:15 p.m., Northrop auditorium. Free.
- Mon. -- April 10 -- Special lecture: "Socio-cultural Factors in Mental Retardation," by Dr. Cynthia Deutsch, New York Medical College; 8 p.m., Museum aud. Open to all professional workers, parents and laymen interested in mental retardation.
- Mon. -- April 10 -- Architecture lecture: "Frederick Law Olmsted: Open Space Designer With a Vision;" by Roger Martin, associate professor of architecture and landscape architecture; in conjunction with exhibit of collection of designs, writings and memorabilia of Olmsted; 3:30 p.m., 130 Architecture. Free.

CALENDAR

-2-

- Tues. -- April 11 -- Convocation: Anthropologist Margaret Mead speaks on "The Future as Shared Culture;" 1:15 p.m., Northrop auditorium. Free.
- Tues. -- April 11 -- University Theatre---"Two Afternoons of Prester John," by Stephen Benson; through Saturday, April 15, 8 p.m.; Scott hall studio theatre. Tickets.
- Tues. -- April 11 -- Conference, "The Rising Tide of Violence," Mayo aud., all day. Lecture; "Community Violence," by Rabbi Robert J. Marx, director, Union of American Hebrew Congregations, Chicago, 9:45 a.m. Fee for conference, payable at door.
- Wed. -- April 12 -- Spring quarter special lecture series, "Studies of the Mystical Experience;" this week's lecture, "Sufism in Islamic Piety," by Professor Philip K. Hitti, noted Arabic scholar and currently University visiting professor; 8 p.m., Museum auditorium. Free.
- Wed. -- April 12 -- 1967 Spring Lecture Series: "American Antiques," this week's lecture, "Midwestern Blown Glass," by William G. Keener, curator of history, Ohio Historical Society; 8:30 p.m., Mayo auditorium. Series tickets or tickets at door.
- Thurs. - April 13 -- Annual visitation to University College of Medical Sciences of St. Paul by interested high school students; 12:30-4 p.m. Mayo.
- Thurs. - April 13 -- Special medical lecture: Dr. Eugene A. Stead, Jr., professor and chairman, department of medicine, Duke University, innovator and leader in medical education, speaks on "New Medical Curriculum at Duke University School of Medicine;" 4:15 p.m., Adytum, Mayo. Free.
- Fri. -- April 14 -- University Film Society: "La Ronde" (1950, France) Museum auditorium, 7:30 p.m. Tickets.
- Fri. -- April 14 -- Concert: University Concert Band Ensemble, 8:30 p.m., Northrop aud. Free.
- Fri. -- April 14 -- University Theatre---"Two Afternoons of Prester John," by Stephen Benson; matinee, 3:30 p.m., Scott hall. Tickets.

'U' CLASSICS DEPARTMENT
OFFERS FELLOWSHIPS FOR
2 LATIN PROGRAMS

(FOR IMMEDIATE RELEASE)

The classics department at the University of Minnesota is now taking fellowship applications for two separate programs in Latin.

One program, for trainers of Latin teachers, is a two-week Institute for Advanced Study in Arts and Humanities. It will be held at the University June 18 to 30. To be eligible, one should be engaged in teaching Latin methodology to student teachers.

The institute will accommodate 30 persons, all of whom will be eligible for stipends (from the National Foundation on the Arts and Humanities) of \$75 a week plus \$15 a week for dependents. Five classes will be offered, with emphasis on seventh and eighth-grade Latin---planning and evaluating curriculum, the training necessary for such a curriculum, audio-visual techniques, and others.

The other fellowship program is for prospective high school Latin teachers. Designed for master's-degree candidates, it will provide support for up to two years of graduate study beginning this September. The fellowship will run anywhere from 9 months to 21 months, depending on the student's needs, and will pay \$2,000 for the first year of study, \$2,200 for the second year, and \$400 for summer study, and all tuition and fees. Allowances for dependents are available as well. Applicants must have some prerequisites in Latin or Greek.

Further information on either program can be obtained from the Classics Department, 309 Folwell hall, University of Minnesota, Minneapolis, Minn., 55455.

LAZARSFELD TO SPEAK
ON CONSUMER MOTIVATION

(FOR IMMEDIATE RELEASE)

Professor Paul F. Lazarsfeld of Columbia University will give the fourth and last lecture in a series on "Behavioral Science Contributions to Business Management" at 3:15 p.m. Thursday (April 13) in Room 10 Classroom building, West Bank area. His topic will be "Social Research and Consumer Motivation."

Professor Lazarsfeld received a doctor of philosophy degree from the University of Vienna. He is currently professor of social science and his areas of interest are mathematical models, attitude changes, and research methodology.

This lecture series has been arranged to bring faculty, businessmen and graduate students into closer contact with outstanding scholars in the behavioral sciences, whose contributions have had major impact on business management. It is sponsored by the Graduate School of Business Administration through a grant from the Ford Motor Co.

'U' LAW SCHOOL ALUMNI
CAN EXCHANGE DEGREES
THIS SEPTEMBER

(FOR IMMEDIATE RELEASE)

Former graduates of the University of Minnesota Law School will be able to exchange their old LL.B. degree for the new J.D. degree beginning this September, according to Dean William B. Lockhart.

The University's Board of Regents recently adopted the J.D. (Juris Doctor) degree for all graduates of the Law School, beginning this June, and in addition made the degree retroactive so that all alumni can trade their LL.B. (bachelor of laws) for a J.D. The Law School will, in the near future, inform alumni of the exact procedure for making the exchange.

The University is the most recent of a number of large middle western universities that have switched over to the J.D. degree, the others being Chicago, Northwestern, Michigan, Wisconsin and Illinois. At this time, some 70 of the 136 law schools approved by the American Bar Association have made the switch.

The reasons for the new degree can be summarized as follows: (1) the law degree represents three years of study beyond a bachelor's degree and thus is comparable to a graduate or professional degree; (2) some schools have awarded the J.D. degree for years, which has created confusion and caused many people to think the J.D. is superior to the LL.B.; and (3) even prospective students sometimes think that law schools granting the J.D. provide a better education than those granting the LL.B.

TECHNICAL WRITING
SYMPOSIUM SLATED
AT 'U' APRIL 18

(FOR IMMEDIATE RELEASE)

Many aspects of technical writing, a field in which a severe shortage of personnel exists, will be discussed by leaders in industry and education at a technical communications symposium at the University of Minnesota Tuesday, April 18.

Sessions on writing and editing, publication costing, printing and technical art and illustrations are scheduled for the symposium, which will begin at 8:30 a.m. in Murphy hall on the Minneapolis campus. Theme will be "The Human Element in Technical Communications."

The symposium and an accompanying technical art show are sponsored jointly by the Twin Cities chapter of the Society of Technical Writers and Publishers, Inc., (STWP) and the University of Minnesota School of Journalism and Mass Communication. It marks the first time that these two groups have held a cooperative symposium on the University campus, according to Phillip Tichenor, associate professor of journalism.

An industry spokesman said the symposium was planned "in response to a tremendous demand for a greater growth of technical writing, based on a shortage which is becoming critical."

Speaking at the writing and editing session (8:30-10 a.m.) will be Ed Grazda, New York, editorial director of "Electronic Design" magazine; H. L. Shimberg, chief of publications at the Naval Ordnance Laboratory, Silver Springs, Md., and Wendell Weed, Minneapolis, executive editor of "Modern Medicine" and "Nursing Homes" magazines.

(MORE)

Panelists who will participate in a discussion on publication costing (10:30-noon) are L. V. Rozycki, manager of technical publications at the Honeywell, Inc., aerospace division; William Patterson, supervisor of technical publications at Northern Ordnance, a division of FMC Corp., Minneapolis; Gerald Hommes, supervisor of engineering writing in the defense systems division at Univac; and Jay M. Smith, University professor of business administration.

Lester Metz, director of printing and graphic arts at the University, and Arthur Holt, manager of the University's printing department, will speak at the printing session (1:40-3 p.m.).

Technical art and illustrations session (3:15-4:30 p.m.) speakers will be A. O. Pardoe, graphic arts director at Raytheon Co., Wayland, Mass., and Abner B. Cohen, art director for the Federal Aviation Agency, Washington, D.C.

Athelstan Spilhaus, University professor of geophysics, will be featured speaker at a noon luncheon in Coffman Memorial Union. Awards to winners of the technical art show also will be presented at the luncheon.

Art show entries will be displayed April 12-18 in Murphy hall corridors.

Reservation rates are \$7.50 for STWP members and \$9 for non-members. Admission for persons without reservations will be \$10. Reservations for the luncheon only are \$3.

Reservations may be made by sending checks payable to the STWP, Twin Cities chapter, to H. Kenneth Hansen, 9500 N. Oliver ave., Minneapolis, 55430.

APRIL 10, 1967

To Counselors, Advisers and Program Consultants working with University student groups:

As you may know, the new office of University Relations and the News Service is located in the Hubbard building (just east of KSTP in St. Paul). So that I can work more closely with students who wish to give me news of their activities, and in an advisory capacity on all aspects of publicity, Don Zander has found me an office in Coffman Union where I can meet with them.

I plan to spend mornings at the News Service in the Hubbard building, and to spend many afternoons on campus---either in room B-7, C.M.U. (just across the hall from the Creative Arts workshop), or in Eddy hall, S.A.B., or in various offices in the Union.

Please tell the students who work in your particular areas that they can make an appointment with me by calling me in the morning at 373-2126, or, in the afternoon, by leaving a message for me with Bert Atkinson's office, 373-2420. I will pick up messages from Atkinson's office each noon, and return calls and confirm appointments.

We feel certain that this new plan, once we get used to it, will work out to everyone's satisfaction, and will give me more time and personal contact with the many student groups and activities at the University.

Cordially,

Doris Fenick

ANCIENT ROCKS, BAD WEATHER SURPRISE
2 MINNESOTA ANTARCTIC EXPLORERS

(FOR IMMEDIATE RELEASE)

Two veteran University of Minnesota Antarctic explorers found several surprises during their latest expedition to the polar ice cap.

The explorers, who made the trip to study the geology of a portion of western Antarctica, are Campbell Craddock, associate professor of geology and geophysics, and Bernhard Sporli, research associate in geology and geophysics. They returned recently and are awaiting the arrival of five crates of rock samples which are en route to the University via ocean freight.

Most important of the surprises, Craddock said, was the type of rocks found along the coast of Marie Byrd Land, where the expedition was based.

"We were expecting to find geologically young volcanic rock," Craddock said. "Instead we found much older igneous and metamorphic rocks."

When the five crates of rock specimens arrive at the University, they will undergo radiometric age determination so that Craddock will know whether they were formed during the mesozoic age (60 to 180 million years ago), paleozoic age (180 to 600 million years ago) or precambrian age (the $4\frac{1}{2}$ -billion-year-long period preceding the paleozoic age).

Craddock said the knowledge gained from these rock samples will provide important evidence of the geologic history of Antarctica. He said the samples are mostly granite, but the collection includes some rocks "which are best described as diverse metamorphic rock."

(MORE)

Craddock had been hoping to find rocks which would support previously found evidence that the Antarctic ice sheet is much older than most scientists believe.

It has long been believed that the ice sheet was formed one or two million years ago, about the same time an Arctic ice sheet moved across North America. Bedrock found in a 1960-61 expedition, however, bore marks indicating that ice may have covered Antarctica 20 million years ago, Craddock said. These ice-scratched rocks had been covered by volcanic rock which was 20 million years old.

"Since we found no volcanic rocks, we made no headway in our work on that theory," Craddock said.

Another important surprise was the weather. Craddock said it was "so frightful that we only accomplished about one-third of our original plan."

The expedition, an ambitious cooperative effort by scientists from several American institutions, was to have established three field camps in Byrd Land. A geology team from Texas Tech was to have done the geologic work at the first camp during November, while Craddock and Sporli were to have done the geologic work at camps two and three in December and January, respectively.

When the weather-delayed Minnesota team arrived in the field on December 30, a month late, they found the Texas Tech geologists had been able to work only six or seven days and had made little headway at camp one. So Craddock and Sporli stayed at camp one and worked on the eastern half of that area, while the Texans covered the western half.

(MORE)

"We worked on a 100-mile stretch of coastline which had never been studied before by anybody," Craddock said. "We found about 50 groups of rock outcrops, which in itself was reassuring since less than 5 per cent of the continent is exposed through the ice."

The Minnesotans spent 20 days in the field but were able to work only four days because of poor flying weather. Expedition scientists were transported to work sites within a 150-mile radius of their camp by army helicopters.

"Thanks to the helicopters, we did more work in those four days than we could have done in a whole season using land transportation," Craddock said. "We flew over some country that we couldn't have crossed any other way."

A third surprise found among the Antarctic rocks was water---in the form of ponds. Craddock said the rocks reached temperatures of 60 or 70 degrees on warm, sunny Antarctic summer days, causing snow to melt and form the ponds. Some small, primitive plant life was found around these ponds, he said.

"It was really amazing to find these pools in the rocks there," Craddock said. "It looked just like a mountain scene in Utah."

Movement of the scientific teams, which also included men from the University of Wisconsin, Ohio State University, Washington University of St. Louis and the U. S. Geological Survey, was slowed somewhat by the loss of a helicopter on the first work day of the expedition.

The helicopter went out to pick two surveyors off a mountain top ahead of an approaching storm, but failed because of headwinds which blew the 100-mile-an-hour aircraft backward, Craddock said. Visibility then got so bad that the pilot flew right into the snow, while thinking he was at an altitude of 200 feet. The helicopter was destroyed but the crew survived with minor injuries.

The trip to Antarctica was Craddock's fourth and the second for Sporli, a native of Switzerland.

They were joined in some of their field work by Lev Klimov, a Russian exchange geologist from the Institute of Arctic Geology in Leningrad.

"It was extremely interesting to work side-by-side with someone from another nation and to compare opinions with him," Craddock said. He added that although opinions varied occasionally, there were no major differences.

The geologists also were visited by space expert Werner Von Braun and three other men from the National Aeronautics and Space Administration (NASA). They were studying the problems of doing scientific work in remote places, or, as they put it, "at the extreme end of a long logistic chain," Craddock explained.

"That was the social highlight of the season," Craddock said. "We were put on the movie circuit this year for the first time and some of the films we saw would have to be classed as the greatest hardship of the season."

2 EDUCATORS TO RECEIVE
OUTSTANDING ACHIEVEMENT AWARD

(FOR IMMEDIATE RELEASE)

For further information, contact:
NANCY PIRSIG

Minneapolis---Two educators who received their doctorate degrees from the University of Minnesota will be presented with the University's Outstanding Achievement Award Friday (April 14).

They are M. Catharine Evans, personnel secretary with the American Friends Service Committee in Philadelphia, and Professor Walter F. Johnson, Jr., director of staff development and director of graduate student affairs at Michigan State University, East Lansing.

University Vice President Stanley J. Wenberg will present the awards---the highest honor given to former students by the University's Board of Regents---at the annual meeting of the College of Education Alumni Association, to be held in the Coffman Union Campus Club beginning with a social hour at 6 p.m. Dinner will be served at 7 p.m.

Dr. Evans, a native of Kansas, earned a bachelor of arts degree from Friends University in Wichita, a master of arts degree from the University of Kansas, Lawrence, and a doctor of philosophy degree (in 1940) from the University of Minnesota.

She has been with the American Friends Service Committee (AFSC) since 1954, when she served for a year as field director in Israel. Her projects there included an agricultural-community development project in an Arab village, an urban community center and an international-work camp program. She has been AFSC personnel secretary since 1955, with responsibility for the recruitment, selection, placement and training of all staff for the AFSC which has a national and 11 regional offices, as well as offices in more than a dozen foreign countries.

(MORE)

Her career previously had been in the college student personnel field and included various positions at Nebraska Central College, the University of Minnesota, Bennington College and Indiana University. At Indiana she was assistant director of counseling from 1947-50 and assistant dean of students from 1950-54. She has long been active in various professional organizations, including the American Personnel and Guidance Association, and in community activities.

Johnson is a highly respected national leader in counseling and personnel work. He earned all three of his degrees---B.S., M.A. and Ph.D.---at the University of Minnesota, the last in 1950. He was director of student personnel at University high school and an instructor in the College of Education at the University of Minnesota from 1942 to 1948, when he went to Michigan State University (MSU).

During his 18 years at MSU, Johnson has served as professor of education, director of staff development and director of graduate student affairs. Recently he returned to fulltime teaching and advising graduate students. In 1963 he was honored at a special assembly as one of six professors to receive MSU's Distinguished Faculty Award.

His work in international education also has been notable. He spent the 1965-66 academic year on leave, mainly in Thailand, and he has been active in international education development in Latin America and Nigeria.

He served for five years as consultant to the U.S. Office of Education, and has been a consultant to the long-range advisory committee of the American Personnel and Guidance Association, an organization of which he was president in 1958-59.

INTERCOLLEGIATE COOPERATION
THEME OF MINN. FACULTY MEET

(FOR IMMEDIATE RELEASE)

For further information, contact:
NANCY PIRSIG

Minneapolis---More than 100 faculty members from every size and type of college in Minnesota will gather at Grand Rapids, Minn., this weekend (April 14-16) for a first-of-its-kind conference on intercollegiate cooperation.

"Forms of Interfaculty Cooperation" will be its theme. The conference will be held at Sugar Hills Resort, beginning with a social hour and dinner on Friday (April 14) and ending with a 12:30 p.m. dinner on Sunday (April 16).

Paul A. Miller, assistant secretary for education in the U. S. Department of Health, Education and Welfare, will deliver the keynote address after dinner on Friday.

David Fellman, Vilas professor of political science at the University of Wisconsin and former national president of the American Association of University Professors, will speak after dinner on Saturday (April 15). He will talk about the difficulties of trying to stimulate cooperation among institutions and faculties, and the value of such encounters.

Saturday morning's program consists of a general session followed by reports from participating faculties. After lunch, a three-man panel will discuss "Cooperative Relationships Among Minnesota Faculties." Panel members will be Philip Helland, executive director of the Minnesota State Junior College Board; Bevington Reed, chancellor and executive director of the Minnesota State College Board; and Ralph Berdie, psychology professor and director of Student Life Study at the University of Minnesota.

From 3:30 to 4:30 p.m., "Facilities for Inter-Faculty Cooperation" will be discussed by Richard Hawk, executive director of the Minnesota Liaison and Facilities Commission, and Edward McMahon, chairman of audio-visual education at Mankato State College and assistant director of the Television Feasibility Study submitted to the 1967 State Legislature.

(MORE)

Sunday morning's session will feature small group discussions on prospects for future interfaculty cooperation, followed by a general session of reports and discussion.

Every college and junior college in Minnesota---some 45---has been invited to send one faculty delegate for approximately every 50 faculty members on its staff, up to a maximum of 10 delegates. The conference is being financed by a grant from the Hill Family Foundation of St. Paul, and is expected to be the first of a continuing series of conferences. Sponsors are the Minnesota conference of the American Association of University Professors and the University of Minnesota Senate (faculty governing body).

A nine-man steering committee representing the various types of colleges in Minnesota has planned the agenda and made all the arrangements. Conference co-chairmen are Philosophy Professor D. Burnham Terrell of the University of Minnesota and Chemistry Professor Clarence Perisho of Mankato State College.

Paul A. Miller, the keynote speaker, was named assistant secretary for education last August and, as such, serves as chairman of the Federal Interagency Committee on Education. From 1962-66 he was president of West Virginia University, where he had earned his bachelor of arts degree.

Miller received a master's and a doctorate degree in sociology and anthropology from Michigan State University, where he joined the faculty in 1947. He served on the sociology and anthropology staffs, as director of the Cooperative Extension Service, as vice president for off-campus education and, from 1959-1962, as provost.

He has been active in international education activities, has served on the Colombian Commission on Higher Education and the National Advisory Commission on Food and Fiber, among others, and was chairman of the West Virginia Governor's Commission on Higher Education.

HARD-EDGE PAINTING EXHIBIT
TO OPEN IN UNION GALLERY FRI.

(FOR IMMEDIATE RELEASE)

"Space Graphs," hard-edge paintings that illustrate well-known psychological theories of image and color transfer, will be displayed in Coffman Union Gallery at the University of Minnesota Friday (April 14) through April 30.

The artist, Milton B. Howard, an instructor in the University's studio art department, is supervising the arrangement and hanging of the exhibit, according to Tom Stark, Union program consultant and gallery director.

"Hanging in the proper numerical order of the forty acrylic paintings is vital," Stark pointed out, "for the visual and mental image must be carried from one picture to the next for the exhibit's full impact to be felt."

Howard will be present at the opening of the show from 4-6:30 p.m. Friday (April 14) and will explain his theories to gallery viewers.

Shown simultaneously with Howard's paintings, which will hang in the gallery proper, will be an exhibition of drawings done by some 50 University art students whose winter-quarter assignment was to illustrate certain musical compositions. The music, recorded by choral groups in eastern Europe and Russia, will be played during the hours that the exhibit is open. This show, Stark said, will be hung and heard in the long hall adjacent to the Union gallery.

Both shows will be open free to the public and may be seen from 9 a.m. to 8 p.m. Monday through Saturday and from noon to 8 p.m. on Sunday.

SPRING QUARTER
ATTENDANCE AT 'U'
SETS RECORD

UNIVERSITY OF MINNESOTA

NANCY PIRSIG

Student attendance at the University of Minnesota for spring quarter, 1967, is larger than that for spring quarter, 1966, with virtually every unit showing an increase, W. Donald Beatty, University recorder, announced today.

These increases and the very few decreases are consistent with expectations and the pattern of controlled growth which has been established for the University, Beatty said.

Currently registered at the University are 38,569 regular collegiate students. This is a record for the spring term, exceeding last spring's attendance by 1,770, an increase of 4.8 per cent.

The largest individual gain occurred in the College of Liberal Arts which now numbers 12,709, an increase of 924 or 7.8 per cent over the number for spring, 1966. The Graduate School also shows a continuing and steady increase in its present attendance of 6,652, or 252 more than a year ago.

Each of the major campuses of the University shows an increase when compared with the figures for the spring quarter 1966.

	<u>1967</u>	<u>1966</u>
Twin Cities campus	33,429	32,113
Duluth campus	4,006	3,775
Morris campus	960	911

The University Technical Institute at Crookston, which began a new two-year program in the fall quarter of 1966, has 174 students. This figure will be substantially larger for the fall term 1967 when a new freshman class is admitted.

The new students in the various colleges and divisions total 828, substantially more than the 714 who entered the University a year ago.

Men continue to outnumber women on the various campuses at the usual ratio of about two to one. For the present spring term, the figures are 24,878 men and 13,691 women.

In addition to the regular students, there are 11,932 registered in the General Extension Division evening classes and another 9,281 currently taking correspondence courses. These, combined with other non-regular enrollments number 24,986.

'U' VET MEDICINE
DEAN, WM. THORP,
TO BE HONORED SAT.

(FOR IMMEDIATE RELEASE)

Minneapolis---Dr. William T. S. Thorp, dean of the College of Veterinary Medicine at the University of Minnesota, will be honored by the Veterinary Medical Alumni at a special dinner this Saturday evening (April 15) at the St. Paul Hilton Hotel. Dean Thorp, who has headed the college since 1954, will receive two awards at the 7:30 p.m. dinner, before some 250 invited guests.

Dean Thorp will receive the first Distinguished Service Award of the Veterinary Medical Alumni of the University of Minnesota. This award, expected to be given annually by the alumni group, will be presented to Dr. Thorp in recognition of his contributions to teaching, research, and public policy in the fields of veterinary medicine and public health. Dr. Robert Wescott, Elgin, Minn., president of the veterinary alumni association, will act as master of ceremonies for the evening, and will present the Distinguished Service Award to Dr. Thorp. The award consists of a gold plaque and will be hung in the library of the college.

The second award to be presented to Dr. Thorp is the Karl F. Meyer Gold Headed Cane Award, given every other year to veterinarians who have made major contributions in the field of public health. It is awarded by the National Conference of Public Health Veterinarians.

(MORE)

Speakers at this first Veterinary Medical Alumni recognition dinner will include Dr. Robert Schroeder, Los Angeles, president-elect of the American Veterinary Medical Association, and Dr. James H. Steele, Atlanta, Ga., chief veterinary medical officer of the U.S. Public Health Service. University of Minnesota speakers will be William G. Shepherd, vice president for academic administration, and Stanley J. Wenberg, vice president for educational relationships and development.

The chairman of recognition events is Dr. Robert Martens of Nicollet, Minn.

Dean Thorp has received numerous awards and citations, including the Distinguished Alumni Award from Michigan State University (1960), the Griffin Award for Distinguished Service from the American Association for Laboratory Animal Science (1965), and the Pfizer Award from the National Civil Defense Council (1960).

He also has been active in many service organizations, such as the National Advisory Board and Resources Committee of NIH (member), National Board of Veterinary Medical Examiners (president from 1962 to present), Joint Committee on Veterinary Medical Education for the American Veterinary Medical Association and the Association of American Veterinary Medical Colleges (chairman), National Society for Medical Research (secretary-treasurer), and the North Star Research and Development Institute (board of directors).

Dr. Thorp was born in 1914 in Edmonton, Alberta, Canada. He received his doctor of veterinary medicine degree from Michigan State University in 1935, and then earned a master of science degree in animal pathology in 1937, also at Michigan State.

He joined the University of Minnesota faculty as professor and dean of the College of Veterinary Medicine in 1954, after seven years as chief of comparative pathology and research services at the National Institutes of Health. Prior to his NIH work, Dr. Thorp taught and did research at Pennsylvania State University from 1938 to 1947.

2-DAY CONFERENCE
SET IN ST. PAUL ON
INFORMATION RETRIEVAL

(FOR IMMEDIATE RELEASE)

Information retrieval and the implications of information technology will be analyzed during a two-day conference on April 20 and 21 at the Holiday Inn, St. Paul.

The event is the Sixth Conference on Records Administration. Theme of the program is "Records Today: Information Tomorrow." It will explore all forms of records, including paper, film, tape and tube.

The conference is designed for records administrators, office managers, comptrollers, and other executives concerned with records and systems administration.

The conference will be sponsored by the department of conferences and institutes of the University of Minnesota's General Extension Division, in cooperation with the Twin City Chapter of the American Records Management Association.

According to Lois Loveless, conference chairman and office services supervisor for Honeywell, Inc., Minneapolis, revolutionary changes in technology have created a need for professional service to management in all fields.

"Insuring actual savings and efficient operation in the task of information collection requires not only a thorough understanding of the new techniques in records administration, but critical analysis of their design," she said recently. "This conference presents an opportunity to analyze present needs and to plan for the challenge of the future."

(MORE)

The opening address of the conference will be delivered by John G. Geier, assistant dean of Summer Session at the University of Minnesota. He will discuss principles of human relations essential to effective face-to-face communications, in a speech entitled "Barriers to Communication."

"A New Dimension in Records Retrieval" will be discussed by Lou Britt, sales manager for the systems division of Remington Rand, Minneapolis. The talk will deal with the introduction of miniaturization and electronic transmission into the field of records administration.

Cost of the conference is \$40 and includes two luncheons. To register or obtain additional information, write to the Director, Department of Conferences and Institutes, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455.

PATERSON LECTURE
AT 'U' THURSDAY

(FOR IMMEDIATE RELEASE)

"The Social Implications of Current Research in Behavior Modification" will be discussed by Professor Leonard Krasner, director of clinical training, State University of New York, Stony Brook, in the annual Donald G. Paterson Memorial lecture Thursday (April 20) at the University of Minnesota.

This annual lecture series is dedicated to the memory of Donald G. Paterson, University psychology professor emeritus who died in 1961.

The 1967 lecture will be given at 8 p.m. in Mayo auditorium and the public is invited to attend.

It is jointly sponsored by the University departments of psychology, educational psychology and concerts and lectures, the Minnesota Chapter of Psi Chi and the Institute of Child Development.

Professor Paterson, who retired from the University June 15, 1960, joined the faculty in 1921. During his 39 years as a teacher, 88 candidates for the degree of doctor of philosophy received their degrees under his guidance.

At the time of his death, friends collected a memorial fund to establish this lecture series.

NEW TESTAMENT
AUTHORITY TO BE
ADDED TO 'U' FACULTY

For further information, contact:
NANCY PIRSIG

(FOR RELEASE AT 10 A.M. FRIDAY, APRIL 14)

Minneapolis---The University of Minnesota Board of Regents today (April 14) created a new faculty position intended to strengthen the University's offerings in religious studies.

The board named A. Thomas Kraabel as assistant professor of classics beginning fall quarter 1967. Kraabel will offer new courses in ancient and Hellenistic religions, as well as a course in the history of Christianity.

The new post is one result of discussions within the University on religious studies. The Religious Studies Committee and the classics department had jointly recommended the addition of a person specializing in New Testament studies, to help balance the current offerings in various departments, according to Robert P. Sonkowsky, chairman of classics.

"We're very happy to get Mr. Kraabel," Professor Sonkowsky said, "because he has the perfect credentials for the job."

Kraabel is working on a doctor of theology degree at Harvard Divinity School, majoring in the New Testament. He holds a B.A. in classics from Luther College, Decorah, Iowa, a master's degree in classics from the University of Iowa, Iowa City, and a bachelor of divinity from Luther Seminary, Minneapolis.

In addition, he served from 1961-63 as assistant pastor of Our Saviour's Lutheran Church, Minneapolis, and he has been a synagogue specialist on an archaeological expedition to Sardis.

Currently he is teaching Greek and the New Testament parttime at the Episcopal Theological School, Cambridge, Mass.; for three years he taught Greek and Latin at Luther Theological Seminary, St. Paul.

INVOLVING THE AGING
IN PUBLIC AFFAIRS,
AIM OF 'U' INSTITUTE

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

The problem of how to involve senior citizens in public affairs will be explored during the first of three Public Affairs Training Institutes for the Aging to be held Tuesday and Wednesday (April 18 and 19) at the Holiday Inn Capitol in St. Paul.

The institutes are planned as residential seminars for leaders among the aging, who will be briefed on selected current issues, and then provided with information to help them plan similar programs of their own.

Federal financing awarded to the University of Minnesota General Extension Division's State Organization Service (under Title III of the Older Americans Act) has made the three programs possible. They are being sponsored by the State Organization Service in cooperation with the Governor's Citizens Council on Aging.

Topics in general will deal with the aging person in relation to urban affairs. Mrs. Milton Hughes, chairman of the transit study for the Council of Metropolitan Area League of Women Voters, will speak at 11 a.m. Tuesday on "Transportation: Present and Future."

Air and water pollution will be discussed by Malcolm Hargraves, *ex officio* chairman of the Minnesota Water Pollution Control Board of Rochester, Minn., at 2 p.m. the same day.

Other topics include "New Dimensions in Housing in Urban Design," which will be discussed by University Architecture Professor Walter Vivrett, at 3:30 p.m. Tuesday; "Federal Programs for the Aging," discussed by Albert Rosenthal, visiting professor in the University's Public Administration Center, at 7:30 p.m. Tuesday; and "China, Vietnam and the United States," discussed by John Horner, senior foreign service officer with the U.S. Department of State, now on leave as a visiting lecturer at Tulane University, New Orleans, at 2 p.m. on Wednesday.

IBELE APPOINTED
ASSOCIATE DEAN
OF 'U' GRAD SCHOOL

For further information, contact:
GLENN ICKLER

(FOR RELEASE AT 10 A.M. FRIDAY, APRIL 14)

The appointment of Warren E. Ibele, professor of mechanical engineering, as associate dean of the University of Minnesota Graduate School was approved today by the University's Board of Regents.

Ibele's position is new, giving the Graduate School two associate deans. Professor Francis M. Boddy has been associate dean since 1961 and will continue in that position.

A specialist in thermodynamics and heat transfer, Ibele has been a member of the University faculty since 1947. He served temporarily as associate dean of the Graduate School from December 1965 through June 1966 while Boddy was on leave.

Ibele, 42, was born in New Orleans. He received a mechanical engineering degree from Tulane University in 1944, after which he served 2½ years in the U.S. Navy as a submarine officer.

At Minnesota, Ibele earned a master's degree in mechanical engineering in 1947 and a doctor's degree in thermodynamics in 1953. He was hired as an instructor of mechanical engineering in 1947, became an assistant professor in 1953, was appointed associate professor in 1956 and was promoted to professor in 1959.

Ibele has spent several summers and one fall quarter with the technical and research group of Pratt and Whitney Aircraft. In 1963, he lectured at Moscow University.

During the spring quarter, Ibele will spend half his time in the Institute of Technology and the other half in the Graduate School.

Ibele and his wife have four children.

LIST OF UNIVERSITY OF MINNESOTA MINNEAPOLIS CAMPUS PUBLIC EVENTS
WEEK OF APRIL 15-23

- Sat. -- April 15 -- Campus Carnival---7:30 p.m.-12 midnight; University Field House. Tickets, \$1 at door.
- Sat. -- April 15 -- University Theatre---"Two Afternoons of Prester John;" 8 p.m., Scott hall auditorium. Tickets.
- Sat. -- April 15 -- Coffman Union Gallery---Two shows: "Space Graphs," oils by Milton Howard and "Art to Music," by student artists; gallery open 9 a.m.-8 p.m., Mondays through Saturdays; 12 noon-8 p.m., Sundays. Free.
- Sun. -- April 16 -- University Theatre---Final performance, "Two Afternoons of Prester John;" 3:30 p.m., Scott hall auditorium. Tickets.
- Mon. -- April 17 -- University Gallery---"Nicholas Dean: Photographs;" Gallery 309, Northrop auditorium. Gallery open school hours, weekdays. Free.
- Wed. -- April 19 -- April meeting, University Dads' Association: Elmer W. Learn, Assistant to the President, speaks on "University Development;" dinner, \$1.75; 7:15 p.m., North Star room, St. Paul Student Center. Reservations.
- Wed. -- April 19 -- Spring Quarter Lecture Series---"American Antiques;" this week's lecture, "American Art Nouveau Glass," by A. Christian Revi, managing editor, "Spinning Wheel" magazine; 8:30 p.m., Mayo auditorium. Series tickets or ticket at door.
- Thurs.- April 20 -- University Theatre---Opening, "Biedermann and the Firebugs;" through Saturday, April 22; 8 p.m., Scott hall. Tickets.
- Thurs.- April 20 -- Annual Donald G. Paterson Memorial Lecture---"The Social Implications of Current Research in Behavior Modification" will be discussed by Professor Leonard Krasner, director, clinical training, State University of New York, Stony Brook; 8 p.m., Mayo auditorium. Free.
- Fri. -- April 21 -- University Film Society---"Head Against the Walls;" (France, 1961) and "Judex;" 7:30 and 9:30 p.m., Museum auditorium. Tickets.
- Sun. -- April 23 -- Music recitals: Student-Faculty Chamber recital, 8 p.m., Mayo auditorium. Free.
Gary Sipes, piano recital; 4 p.m., Scott hall auditorium. Free.
Noel Robinson, M.F.A. voice recital; 2:30 p.m., Coffman Union gallery. Free.

HEALTH SCIENCE
PROGRAMS AND PLANS
PRESENTED TO 'U' REGENTS

UNIVERSITY OF MINNESOTA
NEWS SERVICE-220 MORRILL HALL
MINNEAPOLIS, MINNESOTA 55455
APRIL 14, 1967

For further information, contact:
Gerald Knox, 373-5830

(FOR RELEASE AT 10 A.M. FRIDAY, APRIL 14)

Minneapolis---Top University of Minnesota educators in the health sciences presented their programs to the University's Board of Regents today---and outlined proposed plans to greatly increase the number of students to be educated in the health sciences at the University during the next 10 to 20 years. The presentation was one of a series of seminars initiated last year by the Board of Regents on major developments at the University.

The University's program in the health sciences was given by Dr. Robert B. Howard, dean of the College of Medical Sciences, Dr. Erwin M. Schaffer, dean of the School of Dentistry, Lawrence C. Weaver, dean of the College of Pharmacy, and John H. Westerman, director of University of Minnesota Hospitals. Elmer W. Learn, assistant to President O. Meredith Wilson of the University, and chairman of the University's Committee for the Study of Physical Facilities for the Health Sciences, led the presentation.

The presentation outlined the methods, facilities, funding and future of the University's education of medical students, dental students, students in nursing, pharmacy, public health and a dozen other existing or new programs in associated health professions. Considerable attention was given to the needs of Minnesota and the upper midwest for people trained in the health sciences.

The University's major \$53-million expansion plan in the health sciences was related to present programs, with emphasis on increased quality of educational programs in the health sciences, as well as a striking increase in students. The University's health sciences expansion plan was approved by the Board of Regents in July of 1966, and presented to the Minnesota State Legislature earlier this year.

The program calls for more than doubling student enrollment in the health sciences at the University, from 3,124 students in 1966 to 6,900 students in 1986.

(MORE)

Price tag on the expansion proposal is \$53,440,800. This replaces a \$34-million 10-year building program presented to the 1965 legislature which did not anticipate expansion of medical and dental classes. The new proposal represents a more comprehensive approach to health science facilities, and incorporates the enrollment expansion recommendations of the Health Manpower for the Upper Midwest Study, independently sponsored by the Hill Family Foundation of St. Paul.

It is expected that about half of the new funds will come from federal matching and private sources. The request before this session of the Minnesota State Legislature is for \$1,150,000 for the next two years to cover land acquisition costs (\$650,000) and planning (\$500,000).

The program includes an increase in the University's entering medical class from 160 to 200 students at an early date and establishes plans for expansion to 250 at some time in the future. Further medical enrollment increases are expected in intern training and graduate students (fellows and residents), at both the University's medical center and affiliated hospitals. Medical students will go from 1,290 in 1966 to 1,645 in 1973---and to 2,105 by 1986.

Dental classes will increase by 40 per cent, from 110 to 150 students, with an eventual expansion to 200 students anticipated. Additional students in dentistry training (graduate and postgraduate students, dental hygiene, and dental assistants) will increase the total dental student population from 569 in 1966 to 1,184 in 1973.

Public health programs, such as environmental health, hospital administration, and public health nursing, will increase from 262 students in 1966 to 389 in 1973, with long-range expansion to 540 students.

Nursing programs now conducted will show the largest proportional increase (nearly 100 per cent), with student training at the University of Minnesota going from 417 in 1966 to 802 in 1973.

Occupational therapy, physical therapy, and 10 other existing or new professional programs in the associated health sciences will also show significant increases. These programs will expand to accommodate nearly 200 new students by 1973 and as many as 555 new students by 1986.

The proposed expansion envisions the remodeling of existing basic science buildings, the construction of a new dental building, a new outpatient clinic and hospital building (which would include 270 beds), and a new clinical research building.

The need for a modern and expanded outpatient facility was stressed. The present building was constructed in 1920.

Changes in education programs for the health sciences are at the heart of the University's plans. Closer integration of all health science programs, in recognition of the "team approach" to comprehensive health care, was a major point. This has significant implications for the training of physicians, dentists, nurses, pharmacists, and members of the growing number of associated health professions. Closer interaction among research workers in all areas of the health sciences also is a part of the plan.

The basis for the health sciences expansion program at the University of Minnesota is found in two recent reports: Health Manpower for the Upper Midwest (August 1966), sponsored by the Louis W. and Maud Hill Family Foundation, and a preliminary report from the University's Long Range Planning Study of the Physical Facilities for the Health Sciences.

CHILDREN'S NONSENSE PLAY
TO TOUR SOUTHWESTERN MINN.

UNIVERSITY OF MINNESOTA

Beth Kent, 373-5166

A nonsense revue designed for children---which any adult or child should find delightfully logical---will be the next undertaking of the Minnesota Cultural Opportunities Resource Center to tour the southwestern part of the state.

The show is called "The ABC'S," and is produced and performed by the Moppet Players, a professional children's theater group affiliated with the St. Paul Arts and Science Center.

The program is one of a number of activities presented by the Cultural Opportunities Resource Center, a community organization with federal funding, which is now in its pilot phase in a two-county area. Its home base is Marshall, Minn.

The University of Minnesota General Extension Division, through its Drama Advisory Service, has assisted in the arrangements for the program.

"The ABC'S" is basically a series of 26 skits based on the letters of the alphabet. Props consist mostly of fanciful masks and building blocks; the three performers wear splashy, clownish costumes, and make their point through the use of song, pantomime and dance. The process is spontaneous, educational and---most viewers agree---good fun.

All three players are seasoned performers, both with this show, which was presented to Twin Cities' audiences several months ago, and with professional theater groups.

Kicky Sherman was a member of the Minnesota Theatre Company during its 1964-65 season and has worked with the University of Minnesota Theatre. He was a member of a USO troupe which produced "The Matchmaker" in Iceland, and has played roles in the Moppet's "Puss 'n' Boots," "Aesop's Fables" and "Red Riding Hood."

Stephen Benson is a teaching assistant in the University's Scandinavian department and has toured abroad with a Swedish acting company. An interest in playwriting, children's stories and drama preceded his association with the Moppet Players. He is the author of their production of "Red Riding Hood."

(MORE)

A feminine contrast to Sherman and Benson is provided by Sandra Nei Schulte. She, too, has toured with the USO and has been active in theater in the Minneapolis-St. Paul area. Her previous work for the Moppet Players includes not only acting, but costuming and directing.

The Moppets will follow a team of three instructors sent by the Drama Advisory Service to the area to offer in-service training and classroom demonstrations in creative dramatics to elementary teachers. The local teachers, then, will have had a chance to prepare their students for the performance. Two of the team members, Robert Reynolds and Janet Pierce, are instructors in the University's department of speech, communication and theatre arts.

Beth Linnerson, who was the third member of the Drama Advisory Service team of teachers, is also director of the play. Her belief in the importance of developing new and better techniques for children's plays and their production led to the founding of the Moppet Players in Minneapolis in 1961. Since that time both their facilities and audience have increased, and the group has received statewide recognition for its high-caliber children's theater.

The Moppets will perform in the following towns at the public elementary school unless otherwise noted: Marshall Eastside at 9 a.m. and Westside at 2:30 p.m., both on Monday, April 24; Marshall Holy Redeemer at 9 a.m. on Tuesday, April 25; Cottonwood at 2:30 p.m. on Tuesday, April 25; Tracy at 9 a.m. on Wednesday, April 26 and at 2:30 p.m. the same afternoon at Tracy St. Mary's; Milroy at 9 a.m. on Thursday, April 27; Lucan at 2:30 p.m. on Thursday, April 27; Balaton at 9 a.m. on Friday, April 28; and Currie at 2:30 p.m. on Friday, April 28.

Performances are scheduled in May for Ghent at 9 a.m. on Monday, May 1; Lynd at 2:30 p.m. on Monday, May 1; Lake Benton at 9 a.m. on Tuesday, May 2; Verdi at 2:30 p.m. on Tuesday, May 2; Ivanhoe at 9 a.m. on Wednesday, May 3; Hendricks at 2:30 p.m. on Wednesday, May 3; Russell at 9 a.m. on Thursday, May 4; Tyler at 2:30 p.m. on Thursday, May 4; and Minneota at 9 a.m. and again at 2:30 p.m. at Minneota St. Edwards on Friday, May 5.

(FOR IMMEDIATE RELEASE)

Minneapolis---Members and friends of the American Friends Service Committee (AFSC) will observe 50 years of the Quaker service group's worldwide activities at an anniversary dinner at the University of Minnesota Saturday (April 22).

Gilbert White, chairman of the national board of the AFSC and professor of geography at the University of Chicago, will be the honored guest speaker, according to John Martinson, program coordinator for the Minnesota area AFSC office in St. Paul.

He will speak on "Violence and Plenty" immediately after the 7 p.m. dinner in Coffman Union junior ballroom on the University's Minneapolis campus.

Sponsoring the anniversary celebration will be the newly organized Friends Student Committee at the University, Martinson said. "This group has just been organized at the University, and we are pleased that such an occasion will be its introduction to the University community," he said.

In addition to his work with the national board of the AFSC, White was a consultant to the Lower Mekong Co-ordinating committee, Southeast Asia, 1961-62; is chairman of the committee on water, National Academy of Sciences; and is the author of various technical publications including "Science and the Future of Arid Lands."

The AFSC's Fiftieth Anniversary program includes a social hour from 6 to 7 p.m.; dinner, at \$2.75 per person, from 7 to 8 p.m.; and White's speech from 8 to 9 p.m. A discussion of his talk and a social hour will conclude the evening.

Events on the program are open to the public, Martinson said, and guests are welcome to come in after the dinner to hear White's talk. Tickets for the dinner may be reserved through the AFSC Minnesota Area office, 270 W. Cottage place, St. Paul, 55112. Reservations should be in by Wednesday (April 19).

SOUTH ASIAN LANGUAGE
AND AREA CENTER
AWARDED TO U OF M

(FOR IMMEDIATE RELEASE)

Minneapolis---The University of Minnesota has been notified that it will receive funds for a South Asian Language and Area Center, one of only two centers for graduate studies awarded this year by the U.S. Office of Education. Funds are available through the National Defense Education Act (NDEA).

Professor Karl Potter, chairman of the University's philosophy department, will be director of the center, which will begin operations in September 1967. He will be assisted by an advisory committee made up of India-oriented faculty members.

The center will not offer any courses or degrees itself. Rather, Potter said, it will serve mainly to encourage various departments in the College of Liberal Arts (CLA) to strengthen instruction relating to India, Ceylon and Pakistan.

It also will attract graduate students in South Asian studies, since increased fellowship assistance for graduate students will be available.

Potter listed two major reasons why the University was awarded the center. First, "we already have a number of good people who specialize in India, who represent a sizable commitment in this field on the University's part." Some of these faculty members are located in the departments of history, geography, political science, sociology, anthropology, linguistics, art history, economics and philosophy.

(MORE)

Second, Potter said, "we have the Ames Library of South Asia, a renowned and extensive collection of Indian materials known to Indianists throughout the world." The Ames Library, housed on the fourth floor of Walter Library, was donated to the University by its founder, Charles Lesley Ames, in 1961.

Universities from all over the country applied for undergraduate and graduate NDEA centers in various specialties. The only other graduate center financed this year was one for African area studies at Stanford University. Six undergraduate centers were financed. The grants are given for one year but are renewable for a period of years.

One of the first areas in which Potter hopes to begin adding faculty members is in languages. At present, two teachers of Indian languages are on the staff. Two more will be added in 1967-68.

Students who are interested in taking an Indian language in the Graduate School now may be eligible for financial assistance through the National Defense Foreign Language program, and can apply through Potter. However, he pointed out that the center will not be running a graduate program as such and all degrees will be awarded by individual departments. Counseling and program planning toward a master's degree are available through the Center for International Relations and Area Studies.

The University has one other NDEA center: the Center for Northwest European Language and Area Studies, begun in 1965 and directed by Professor Alrik Gustafson, head of the Scandinavian department.

(FOR IMMEDIATE RELEASE)

Minneapolis---Professional broadcasters and educators from the University of Minnesota and Twin Cities area radio and television stations will participate in the third annual Upper Midwest College and Radio conference to be held Friday and Saturday (April 21-22) at the University.

WMMR, the University's student-operated closed-circuit radio station heard only on the Minneapolis-St. Paul campus, again will host the conference, which is expected to draw some 100 delegates from college radio stations in this five-state area, according to John Stanton, 6445 Russell ave. S., Richfield, student conference chairman.

Students connected with college radio stations in 20 colleges in the Dakotas, Wisconsin, Iowa and Minnesota have been invited to take part. The conference will be held in Coffman Memorial Union (CMU), sponsored by the Union Board of Governors.

Leonard D. Bart, University assistant professor of speech, communication and theatre arts, will deliver the convention's keynote address at the opening session at 7:30 p.m. Friday (April 21) in CMU men's lounge. Following his talk, the group will tour radio and television facilities of WCCO and KSTP.

Special area-section discussions will start at 9 a.m. Saturday (April 22) and continue throughout the day. Charlie Boone, WCCO radio personality, will speak at the convention's annual awards banquet Saturday evening.

Invitations to take part in the conference have been extended to these schools:

St. John's University, Collegeville
St. Mary's College, Winona
St. Cloud State College, St. Cloud
Moorhead State College, Moorhead
St. Olaf College, Northfield
Carleton College, Northfield
College of St. Thomas, St. Paul
College of St. Catherine, St. Paul
Hamline University, St. Paul
Augsburg College, Minneapolis

Macalester College, St. Paul
University of Minnesota, Duluth
University of Minnesota, Morris
Bemidji State College, Bemidji
Concordia College, Moorhead
Coe College, Cedar Rapids, Ia.
University of Iowa, Iowa City, Ia.
Sioux Falls College, Sioux Falls, S. Dak.
Lawrence University, Appleton, Wis.
Wisconsin State University, Platteville, Wis.

'U' TRANSPORTATION
EXPERT KEYNOTES MEET

Edmund A. Nightingale, professor of economics and transportation in the University of Minnesota School of Business Administration, gave the keynote address at the First Nebraska Transportation Symposium, held recently in Omaha. He spoke on "Technological and Demographic Changes as Related to Future Requirements of the National Transportation System." The conference, attended by some 300 people, was designed to explore the future demands, technological needs and economics of the nation's transportation system.

U OF M LATIN
TEACHER HONORED

Mrs. Margaret Forbes, associate professor of classics at the University of Minnesota, was one of four persons honored recently at a meeting of the Classical Association of the Middle West and South, in recognition of service to the profession. She was awarded an ovatio, a speech given in Latin describing her contributions to the teaching of Latin.

'U' HISTORIAN
GIVEN GRANT

The American Philosophical Society has awarded University of Minnesota History Professor Timothy L. Smith a grant of \$1,000 to support four weeks of research in Geneva, Switzerland, on the relationships between the World Council of Churches, the International Y.M.C.A., and refugee Orthodox congregations of Western Europe. Smith began research on this topic last year, concentrating on barracks congregations in the refugee camps. In the coming project, he will study the emergence of established Orthodox jurisdictions outside the refugee camps, particularly in England and West Germany, as well as the history of the Orthodox communities in Paris during the 1950's.

LAWYERS' SHORT COURSE

(FOR IMMEDIATE RELEASE)

The University of Minnesota spring legal education series will be presented at eight state locations in April and May on the subject, "Practitioner's Review of the Organization, Operation and Termination of Minnesota Corporations."

The one-day study course, which will be presented by the University General Extension Division's program in continuing legal education, will be held in Duluth, Fargo-Moorhead, Grand Rapids, Mankato, Marshall, Rochester, St. Cloud and Minneapolis.

The spring topic was selected on the basis of a questionnaire sent to Minnesota lawyers late in 1966. Findings of the questionnaire revealed that corporation law represents a substantial portion of many lawyers' practice and touches on the work of lawyers specializing in other areas.

The conference faculty, made up of 26 Minnesota lawyers, will discuss the following topics: organization of the corporation, operating the business corporation, and buying, selling and merging businesses.

A registration fee of \$25, which will include the cost of Minnesota Practice Manual 14, may be paid at the door at 8:30 a.m. on the day of the course.

The program will be held in Minneapolis on Saturday, April 22, at Mayo auditorium, University of Minnesota, and again on Saturday, May 6, in Murphy hall auditorium.

Outstate programs will be held on Friday, April 28, in Fargo-Moorhead at the Holiday Inn, and in Grand Rapids at the Rainbow Inn; Saturday, April 29, in Duluth, room 70 of the home economics building at the University of Minnesota, Duluth; and in St. Cloud at the Thomas Gray laboratory school auditorium at St. Cloud State College; on Friday, May 5, in Rochester at the Holiday Inn and in Marshall at The Chalet; and on Saturday, May 6, in Mankato, room D-63, science and arts building, Mankato State College.

INDUSTRY'S ROLE
IN CIVIL DEFENSE
TOPIC OF CONFERENCE

(FOR IMMEDIATE RELEASE)

The current status of the threat of atomic nuclear war, and the role and stake industry and management have in civil defense, will be explained at a one-day conference to be held Thursday, April 27, at the Sheraton-Ritz Hotel in Minneapolis.

The program, "Industrial Survival Planning," is designed for business and industrial management. Sponsor is the University of Minnesota General Extension Division's civil defense program.

A candid review of the world political situation---and particularly the hazards to world peace---will be offered during the introductory session in a speech delivered at 9:30 a.m. by Clinton B. Conger, chief of the presentations staff, Office of Current Intelligence, Central Intelligence Agency, who also will appear later in the program during a question-and-answer period.

The rationale of civil defense and the essentials of an effective civil defense program will be outlined during an 11 a.m. session which will be led by Colonel Robert J. Elliott, director of the extension division's civil defense program.

Main focus of the afternoon sessions will be to explain to local industry some of the survival efforts already under way on a national basis. Robert L. Browning, security and safety services manager of the Rochester, Minn., branch of the International Business Machine Corp., will summarize his organization's civil defense program with particular reference to its Rochester installations.

The conference is being developed in cooperation with the Minnesota State Department of Civil Defense, the Upper Midwest Executive Reserves and the Minneapolis and St. Paul Chambers of Commerce.

PROBLEM OF COOLING SUPERSONIC JET
ENGINES SOLVED BY 'U' RESEARCHERS

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

When America's first supersonic transport (SST) plane roars off the ground, it will be powered by jet engines made more efficient by University of Minnesota research.

Research basic to the success of the multi-million-dollar aircraft, which will be able to carry 350 passengers as far as 4,000 miles at supersonic speeds, is being done in the University mechanical engineering department.

Directing the research are Professor Ernst R. G. Eckert, director of thermodynamics and heat transfer, and Richard J. Goldstein, professor of mechanical engineering. They are assisted by several graduate students, including James Ramsey, who runs much of the testing program.

The Minnesotans are experimenting with a method of cooling the turbines in a jet engine.

The gases which turn the turbines in today's jet engines are heated to a maximum of about 1,800 degrees Fahrenheit. Goldstein said the gases which hit the turbines in the engines of the SST will be at least 2,000 degrees F. or hotter. The National Aeronautics and Space Administration (NASA) anticipates temperatures as high as 2,200 degrees in SST aircraft traveling at Mach 3 (three times the speed of sound).

This higher temperature is needed to increase the efficiency of the SST engines so that the huge aircraft will get better "mileage" and will not have to carry a range-shortening amount of fuel. This high-temperature gas is a real threat to the stainless steel turbines, however, Goldstein said.

Because such high temperatures could cause the turbine blades to lose their strength and fail, Eckert and Goldstein and their assistants are trying to find a way to cool the blades.

(MORE)

They have helped to solve the problem with a system of "film cooling" and the project, done under a NASA contract, is nearing an end, Goldstein said.

Film cooling is so named because a film of relatively cool gas is injected into the boundary layer between the turbine blade and the hot gas flowing over the blade, Goldstein explained.

The injected gas---in this case just plain air---will be about 800 degrees cooler than the hot gases driving the blades, he said. The coolant gas will be pumped into each turbine blade by the aircraft air compressor, thus cooling the blade first from the inside, then will be injected along the boundary layer through small holes in the surface of the blade.

The Minnesota experiments are being conducted in wind tunnels. Goldstein noted, however, that the experiments are not being done at a temperature of 2,000 degrees. They are done at much lower temperatures and the results are extended by mathematical analysis.

He said also that it is easier in the laboratory to do the experiments in reverse---meaning that the main flow of air in the wind tunnel is cool and the film of air injected into the boundary layer is hot, just the opposite of what will take place in the jet engines.

"We are able to show that the effects will be similar," he said.

Federal Aviation Authority officials have estimated that at least 500 SST aircraft will be built, at an estimated cost of 36 million dollars each. The SST engines will be built by General Electric Co. and the airframe will be constructed by the Boeing Co.

'U' ART STUDENTS
SHOW WORK IN
WEST BANK CLASSROOM

(FOR IMMEDIATE RELEASE)

Drawings by University of Minnesota art students---from beginners to graduates---make up the opening exhibition now showing in a new art gallery on the University's Minneapolis campus.

The gallery---in a classroom in the studio art department's quarters on the West Bank, 2020 Washington ave. S.---will be used to exhibit student work in all areas of visual art taught in the department, according to Malcolm Myers, department head.

The show represents work done under the supervision of nine instructors in the department, Myers pointed out. They are Mario Volpe, gallery director; Associate Professors Peter Busa and Herman Rowan; Assistant Professors David Routon and Zigmunds Priede; Visiting Professor Frederick Hayman-Chaffey; and instructors Robert Johnson, Milton Howard and Titt Raid.

The show, open during school hours and free to the public, will close Saturday, April 29.

(FOR IMMEDIATE RELEASE)

The University of Minnesota and social agencies of the Twin Cities area will be hosts to 25 youth leaders and social workers from 20 different countries beginning Tuesday (April 25) in the fifth annual international program for such a group.

As in previous years, the visitors will spend four months in this country. They will divide their time between special classes organized by the University's School of Social Work and field experience in camps, neighborhood agencies, welfare departments or correctional institutions of this area.

The University of Minnesota and Twin Cities social agencies conduct one of five such programs in the nation, with over-all sponsorship by the U.S. Department of State. Other participating cities are Cleveland, Philadelphia, Chicago and San Francisco.

The contingent coming to Minnesota this year includes several youth workers from Southeast Asia, one of them a volunteer from South Vietnam. A Yugoslavian social worker also is in the group.

Following their arrival, the group will spend three days in orientation meetings at St. Paul Camp Owendigo, Maplewood. Classes at the University will begin May 1, with members of the regular social work staff lecturing on professional topics and faculty members from several other departments discussing various phases of life in America.

Twin Cities residents pay for one-third of the program by providing homes for the visitors as well as other financial support. The University contribution of faculty time, classroom and office space accounts for another third of the program's cost; and the State Department covers the final third by providing transportation and covering various other general expenses.

-U N S-

Note to Editors: The University News Service has the names of all program participants and the complete schedule of their activities. If you are interested in feature story possibilities, we will be glad to help you make arrangements.

CHILD DEVELOPMENT HEAD
NAMED PRESIDENT-ELECT

UNIVERSITY OF MINNESOTA
NEWS SERVICE-220 MORRILL HALL
MINNEAPOLIS, MINNESOTA 55455
TELEPHONE: 373-2126
APRIL 20, 1967

Professor Harold W. Stevenson, director of the Institute of Child Development at the University of Minnesota, was named president-elect of the Society for Research in Child Development at the association's annual meeting held recently in New York. He will take office in 1969.

Stevenson became a director of the national group in 1959 and, with this election, is the third Minnesota faculty member to become its president.

The late Professor John E. Anderson, organizer and first institute director, was president of the society in 1942-43; the late Professor Florence L. Goodenough held the office in 1946-47.

A national interdisciplinary organization of research workers in the area of child development, the Society for Research in Child Development has a membership of approximately 1,000 professionals from the fields of psychology, pediatrics, sociology, education, home economics and public health.

HARVARD GROUP HONORS
'U' PROF TENNYSON

W. Wesley Tennyson, associate professor of educational psychology and counselor educator at the University of Minnesota, has been honored with the Certificate for Outstanding Accomplishment of the Harvard Graduate School of Education Association. The award was conferred by the Harvard group at its recent meeting in Dallas, Texas, in conjunction with the annual convention of the American Personnel and Guidance Association.

Presentation of the award was made by Professor David V. Tiedeman of Harvard University, who emphasized Professor Tennyson's substantial contributions as trustee and officer of the National Vocational Guidance Association. Tennyson just completed a one-year term as president of the 11,000-member organization which is the oldest division of the American Personnel and Guidance Association.

CONFERENCE FOR JUDGES
TO GIVE DEVELOPMENTS
IN COURT ADMINISTRATION

UNIVERSITY OF MINNESOTA
NEWS SERVICE-220 MORRILL HALL
MINNEAPOLIS, MINNESOTA 55455
APRIL 20, 1967

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

The latest developments in the fields of traffic and law court administration will be presented during a two-day program on the University of Minnesota campus Thursday and Friday, April 27-28.

The 14th annual Minnesota Municipal Judges Traffic Court Conference will be presented by the department of conferences and institutes of the University's General Extension Division in cooperation with the Minnesota Municipal Judges Association and the League of Minnesota Municipalities.

This year's conference will focus on some recent Supreme Court decisions, such as the Rasmussen and Duhn cases, and on problems relating to probation. It is designed to be of interest to municipal court judges, justices of the peace, prosecuting attorneys and law-enforcement officials.

One of the principal speakers on Thursday (April 27) will be Judge Keith J. Leenhouts, Royal Oak, Mich., who has distinguished himself nationally as the main force behind a unique community probation program for young law offenders.

The essence of the Royal Oak program is to grant judges the authority to put young misdemeanants on probation for as long as two years, and to bring them---during the probation period---into regular contact with qualified specialists and sponsors before they drift back into criminal habits. The effectiveness of the program depends on the local sponsors---private citizens who volunteer their time to help the offenders. The program has received recognition as a model with revolutionary potential for other communities. Judge Leenhouts' topic will be "Project Misdemeanant."

Another key speaker will be Stanley N. Thorup, municipal court judge in Blaine and Spring Lake Park. Thorup, who is president of the Minnesota Municipal Judges Association, was recently presented with an honorary award by the North American Judges Association for such work in the field of traffic safety as the development of local driver improvement clinics. He will discuss the duties and obligations of a traffic court judge in a speech entitled "The Responsibility of Being Responsible."

USING COMPUTERS TO DESIGN
ELECTRICAL NETWORKS,
TOPIC OF 3-DAY 'U' MEET

UNIVERSITY OF MINNESOTA
NEWS SERVICE-220 MORRILL HALL
MINNEAPOLIS, MINNESOTA 55455
APRIL 20, 1967

(FOR IMMEDIATE RELEASE)

For further information, contact:
Beth Kent, 373-5166

The utilization of computer programs in the design of complex electrical networks will be the primary consideration of a three-day seminar, "Computer-Aided Network Design," which will be held on the University of Minnesota Minneapolis campus May 9-11.

The computer application course is being presented by the University General Extension Division's program for continuing education in engineering and science.

According to J. E. Holte, director of the engineering and science program, the seminar "will seek to bridge the communication gap between those who understand computers and those who anticipate the potential for computer services in solving circuit design problems."

Lectures, discussion and direct computer practice will be employed to meet this goal. Demonstration of a remote console, time-share computer system is a feature activity of the program.

The two seminar leaders are currently active in extending the application of computer methods to a wide range of network problems. D. A. Calahan, associate professor of electrical engineering at the University of Michigan, Ann Arbor, has published papers on computer-aided circuit design and has served as an industrial consultant on the subject.

B. A. Sheno, associate professor of electrical engineering at the University, has taught both undergraduate and graduate courses in network analysis and design at the Universities of Illinois and Minnesota and is engaged in research related to the seminar subject.

Fee for the three-day program is \$150. For additional information contact J. E. Holte, 210 Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455; telephone 373-5057.

DR. WANGENSTEEN
TO BE HONORED
AT 3-DAY PROGRAM

(FOR IMMEDIATE RELEASE)

Minneapolis---Dr. Owen H. Wangensteen, professor and head of the department of surgery in the College of Medical Sciences at the University of Minnesota, will be honored during three days of activities on May 4, 5, and 6, it was announced today by Dr. Arnold S. Leonard, assistant professor of surgery at the University and chairman of the program.

Dr. Wangensteen will retire June 30, after 37 years as head of the University's department of surgery.

The program will open on the evening of Thursday, May 4, with a recognition dinner in the main ballroom of the Coffman Union on the Minneapolis campus of the University. Principal speakers will include O. Meredith Wilson, president of the University of Minnesota, and Dr. Robert B. Howard, dean of the University's College of Medical Sciences.

Scientific sessions of the program will start on Friday, May 5, and run through Saturday, May 6. Registration will be at 8 a.m. Friday, with Dr. Howard giving the welcome address.

Some 47 papers will be presented, all by former students of Dr. Wangensteen.

MARTIN LUTHER KING
TO BE CONVOCATION SPEAKER
AT 'U' ST. PAUL CAMPUS

(FOR IMMEDIATE RELEASE)

The Reverend Martin Luther King, Nobel peace prize winner and famed civil rights leader, will deliver a convocation address at the University of Minnesota Thursday (April 27).

He will speak on "A World in Transition" at 3 p.m. on the St. Paul campus Mall. In case of bad weather, the affair will be moved into the North Star ballroom in the St. Paul Student Center.

The public is invited to attend the affair, sponsored by the University Convocations committee.

Dr. King, who has received more than 20 honorary degrees from such colleges and universities as Harvard, Yale, Hofstra and the Jewish Theological Seminary, is a graduate of Morehouse College, Atlanta, Ga. He studied at the University of Pennsylvania and at Harvard University and received the doctor of philosophy degree in the field of systematic theology in 1955 from Boston University.

In 1963, Time magazine selected him as its "Man of the Year," stating that he had become "the unchallenged voice of the Negro people and the disquieting conscience of the white."

-U N S-

Note to Editors: Dr. King will arrive just in time to get to the campus for his speech, and will leave for Madison, Wis., at 5 p.m.

WEEK OF APRIL 23-30

- Sun. -- April 23 -- Coffman Union gallery---"Space Graphs," hard-edge oils by Milton B. Howard, and "Art to Music," by student artists; gallery open 12 noon-8 p.m., Sundays; 9 a.m.-8 p.m., week days. Free.
- Sun. -- April 23 -- Recitals: Student-Faculty Chamber group; 8 p.m., Mayo auditorium. Free. Noel Robinson, vocalist; 2:30 p.m., Coffman Union gallery. Free.
Gary Sipes, pianist; 4 p.m., Scott hall. Free.
- Mon. -- April 24 -- Special lectures: Mental Retardation series---Professor Robert Levy, University Law School, speaks on "Legal Controls and Protection for the Mentally Retarded," 8 p.m., Minnesota Museum of Natural History. Free.
Problems of the Decade series---Professor John Turnbull, CLA associate dean, speaks on "Some Aspects of the New Economics," 7:45 p.m., 309 Aeronautical engineering. Series tickets.
- Tues. - April 25 -- Recital: Pianist Susan Standen; 8:30 p.m., Scott hall. Free.
- Tues. - April 25 -- University Theatre---"Biedermann and the Firebugs;" matinee, 3:30 p.m., Scott hall. Tickets.
- Wed. -- April 26 -- University Theatre---"Biedermann and the Firebugs;" 8 p.m., through Saturday, April 29. Scott hall. Tickets.
- Wed. -- April 26 -- Special lectures: Studies of the Mystical Experience series: Alan Watts, author on Zen Buddhism, speaks on "Science and Mystical Experience," 8 p.m., Museum auditorium. Free.
"American Antiques" series: Alice Winchester, editor, "Antiques" magazine, speaks on "American Furniture---Major Trends and Regional Tastes;" 8:30 p.m., Mayo auditorium. Series tickets or tickets at door.
- Wed. -- April 26 -- Minneapolis Symphony Orchestra, Skrowaczewski conducting a program of music composed by University faculty members. 8:30 p.m., Northrop auditorium. Free.
- Fri. -- April 28 -- Concert: Pianist Duncan McNab, University music faculty; 8:30 p.m., Northrop auditorium. Free.
- Fri. -- April 28 -- University Film Society---"Gertrude" (Denmark, 1966); 7:30 and 9:30 p.m., Minnesota Museum auditorium. Tickets.
- Sun. -- April 30 -- Concert---University Men's Glee Club and Women's Chorus; 4 p.m., Northrop auditorium. Free.
- Sun. -- April 30 -- University Theatre: Final performance, "Biedermann and the Firebugs," 3:30 p.m., Scott hall. Tickets.

SUMMER WORKSHOP
IN PERSONAL FINANCE
SLATED AT U OF M

(FOR IMMEDIATE RELEASE)

A Summer Workshop in Personal Finance will be offered for high school teachers at the University of Minnesota during the first summer session, June 12 through July 15.

The five-week workshop will be directed by Charles R. Hopkins, an instructor in the University's College of Education, assisted by Associate Professor J. Russell Nelson of the School of Business Administration.

Some 30 scholarships are now available for the workshop to cover both tuition and fees. Applications will be accepted through Tuesday (April 25) from secondary-school teachers of business, home economics, social studies or mathematics. Applicants must be scheduled to teach a course during the 1967-68 school year which includes personal finance topics.

Six credits will be offered for the workshop---three from the School of Business Administration for a business finance course and three from the College of Education for a course in curriculum and instruction.

The workshop, which is similar to one conducted last summer, is expected to give participants an opportunity to study many topics related to personal finance that will be of value in their classroom teaching. These will include examinations of savings and estates, trusts and wills.

Emphasis will be placed on the relation of these and other areas both to individuals and the nation's economy.

All successful workshop applicants will be notified of their selection by the scholarship selection committee by May 5.

NATION'S LEADING
EXPERT ON ANTIQUES
TO SPEAK AT 'U'

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Minneapolis---"Antiques reflect the cultural history of an area---that's one of the most important things about them," said Miss Alice Winchester in a telephone interview today (Friday, April 21).

Miss Winchester will speak at 8:30 p.m. Wednesday (April 26) in Mayo auditorium on the University of Minnesota Minneapolis campus during the fifth program of the six-week spring lecture series, "American Antiques." Her topic will be "American Furniture---Major Trends and Regional Tastes."

Generally recognized as the most knowledgeable person in this country on the subject, Miss Winchester is editor of Antiques magazine, the leading publication of its type in the world.

Through her contacts on the magazine, plus collectors and students of furniture throughout the country, Miss Winchester said she has gained a personal familiarity with the antiques of this area.

Commenting that midwestern antique furniture style is "dictated by taste," she said that pieces vary considerably from Ohio to Minnesota. "But the feeling for regional antiques has gradually declined," she said. "Contemporary interest is international, and that's probably due to the increasing ease of transportation and wider means of communication.

"You can see the lives of the time in furniture," she continued. "In the frontier days, for example, furniture was simple, utilitarian. When the country became more settled, with a little more leisure and wealth, furniture became finer, more sophisticated." But op and pop furniture styles don't fit into her outline yet. "That's out of my sphere," she laughed, "though they may well become antiques."

The lecture series is sponsored by the University's General Extension Division in cooperation with the Department of Art History and Division of Related Arts. Admission at the door for Miss Winchester's talk is \$3.

NOTED ITALIAN
PHARMACOLOGIST
TO SPEAK AT 'U'

(FOR IMMEDIATE RELEASE)

Minneapolis---Dr. Rodolfo Paoletti, associate professor of pharmacology at the University of Milan, Italy, will lecture at the University of Minnesota Thursday (April 27). A noted researcher in the field of lipid pharmacology, he will speak on "Recent Advances in the Control of Lipid Metabolism" at 4 p.m. in Room 150 Appleby hall on the Minneapolis campus.

Dr. Paoletti is the seventh in a series of visiting lecturers sponsored by the University's College of Pharmacy. He is a member of the editorial board of the "European Journal of Pharmacology," and, in 1964, edited and published a definitive work called "Lipid Pharmacology."

Drugs affecting lipid metabolism are of increased importance today because of efforts to control lipid (essentially, fat) levels in the blood to reduce a number of illnesses, such as atherosclerosis (hardening of the arteries).

ALAN WATTS SPEAKS
AT 'U' WEDNESDAY

Alan Watts, noted philosopher and author on Zen Buddhism and on comparative religion, will speak at 8 p.m. Wednesday (April 26) in the Minnesota Museum of Natural History on "Science and the Mystical Experience."

His talk will be the third in a lecture series on "Studies of the Mystical Experience," presented by the University of Minnesota's humanities program.

Watts, of Sausalito, Calif., was a professor of comparative philosophy in the American Academy of Asian Studies at the University of the Pacific from 1951 to 1957, and has been a guest lecturer at many U. S. universities, including Harvard, Chicago and Cornell, and at Cambridge University, England. He has also been an editor, an Episcopalian minister, and a research fellow at Harvard. He is a native of England and holds a master's degree from Seabury-Western Theological Seminary in Illinois.

FOREIGN SERVICE OFFICER
TO TALK ON EAST EUROPE

Valdemar N. L. Johnson, diplomat-in-residence at the University of Minnesota, will speak on "American Relations with the Soviet Union and Eastern European Countries" Wednesday (April 26).

The program, at 3:15 p.m. in 850 Social Science tower, West Bank area, is open free to the public and is sponsored by the Coffman Union Board of Governors Forum committee.

Johnson, who has been in the U. S. Foreign Service for the last 20 years, currently is one of nine foreign service officers taking part in a State Department-University exchange program whereby a senior officer spends an academic year as a visiting professor. His area specialty has long been Eastern European and Soviet affairs. From 1946 until 1952 he served in the State department working in these areas and spent much of his time in Poland and the U.S.S.R.

MUSIC OF JAPAN, CHINA, INDIA
TO BE DISCUSSED IN 'U' SERIES

(FOR IMMEDIATE RELEASE)

The music of China, Japan and India will be featured in "Music of the East," the 1966-67 Guy Stanton Ford Memorial Lecture Series, which will begin Monday, May 1, at the University of Minnesota.

Three distinguished lecturers on non-Western musicology will speak at 8 p.m. on May 1, 8 and 15 in Mayo auditorium. The lectures will be open to the public free of charge.

"The Musical Structure of Japanese Noh Drama," presented by William P. Malm, professor of music literature at the University of Michigan, will open the lecture series on May 1. Professor Malm, who studied in Japan in 1955-57, spent last spring in East and Southeast Asia collecting instruments and materials on the music of the East. He has written widely in the field of Japanese music, including his latest book, "Music Cultures of the Pacific, the Near East and Asia," which was published in January.

Tape recordings and slides will highlight a lecture on "Musical Elements in the Peking Opera" to be presented May 8 by Rulan Chao Pian, lecturer in Chinese and Chinese music at Harvard University. Miss Pian will analyze the dramatic uses of speech, arias and the percussion orchestra in the Peking Opera. She did research on Chinese music in Taiwan, Hong Kong, Japan and Korea in 1958-59 and in Taiwan again in 1964. She also traveled in the United States, Asia and Europe doing research on the Peking Opera last year. Her latest book, "Song Dynasty Musical Sources and Their Interpretations," is being published this year.

(MORE)

The music of India will be discussed May 15 by Music Professor Harold S. Powers, of the University of Pennsylvania. Powers studied Indian music in India in 1952-54 and 1960-61. He was in India again in 1964 and in 1966, when he also attended a Symposium on the Musics of Asia in Manila. He is currently working on a book on South Indian classical music which will be accompanied by recordings and transcriptions. He will be on leave from the University of Pennsylvania to do research and study in India again next year.

The Ford Lecture Series is sponsored annually by the Arts and Letters Advisory Council of the University's Graduate School, and the department of concerts and lectures. The series was begun in 1957 in honor of Guy Stanton Ford, president of the University from 1933-1941 who died in 1962.

PRESIDENTS' BALL
TO BE FRIDAY
AT U OF M

(FOR IMMEDIATE RELEASE)

Fresh spring flowers, sparkling fountains and formal gowns will brighten the Coffman Memorial Union main ballroom Friday (May 5) at a dance honoring the presidents of student organizations at the University of Minnesota.

The annual Presidents' Ball---the only formal dance still programmed at the University---this year will honor the heads of some 380 student groups, according to Joseph Kroll, Union Board of Governors social area chairman directing the affair.

"Naturally, University President and Mrs. O. Meredith Wilson will lead the Grand March," Kroll said. "After all, he's a president, too."

Next in line will be members of the Board of Regents and then the University's Administrative Committee members. Heads of student organizations will follow these leaders in the gala procession.

Tickets for the affair, which will be open to the public, may be purchased at the door, Kroll said, or in advance at the ticket office on the ground floor of the Union. The price is \$3 per couple.

U OF M RESEARCHER REPORTS
ON HEREDITY FACTORS
IN SCHIZOPHRENIA

For further information, contact:
GLENN ICKLER

(FOR RELEASE AT 10 A.M. WEDNESDAY, APRIL 26)

Washington, D. C.---Evidence supporting a theory that hereditary factors may be a partial cause of schizophrenia was presented here today (Wednesday, April 26) by Irving I. Gottesman, University of Minnesota associate professor of psychology.

Gottesman explained research he and an English colleague have done in a paper entitled "A Polygenic Theory of Schizophrenia," at the 104th annual meeting of the National Academy of Sciences. He was introduced by Dr. Theodosius Dobzhansky, of Rockefeller University, New York, one of the world's foremost genetic researchers.

Data gathered in a research project in London, involving the study of twins, showed that the identical twin of a diagnosed schizophrenic is at least 50 times as likely to be schizophrenic as a person from the general population, Gottesman said.

Working with Gottesman on the project was James Shields, lecturer in genetics at the Psychiatric Genetics Research Unit, Maudsley hospital, London. Gottesman was a special fellow in psychiatric genetics at that hospital in 1963.

Gottesman is the first American psychologist to study schizophrenia by using a method of handling genetic data which was developed by agricultural geneticists in the United Kingdom.

Among behavioral scientists, there are two schools of thought on the cause of schizophrenia. One theory is that anyone can become schizophrenic if he is sufficiently maltreated by his parents. The other theory, which Gottesman said his evidence supports, is that certain genetic factors must be present in a person's make-up before he can become schizophrenic.

Gottesman said this evidence indicated that there is a need for continued biological research on the causes of mental illness.

(MORE)

Proponents of the genetic-cause theory have usually talked in terms of Mendelian genetics, Gottesman said. However, the classical genetic ratios of a 25 or 50 per cent incidence of schizophrenia are not found among relatives of schizophrenics, he said.

Gottesman and Shields evaluated the data from their study of twins in the light of work done by D. S. Falconer, a Scottish agricultural geneticist, in his study of traits which are not inherited in a simple manner by a single gene, but may have some hereditary basis. These traits show up with a higher incidence among relatives of affected individuals than among the general population.

Gottesman said results indicate that schizophrenia may be such a disease.

In their study, Gottesman and Shields investigated the mental status of twin sisters and brothers of schizophrenic patients admitted to Maudsley hospital over a 16-year period. Fifty-seven pairs of twins were involved.

They found that 50 per cent of the identical twins and 12 per cent of the fraternal twins of schizophrenia victims were schizophrenic, Gottesman said. The incidence of the disease among the general public is 1 per cent.

Gottesman cited other studies of relatives of schizophrenics which showed incidences of schizophrenia to be 10 per cent in siblings; 10 per cent in a group which included parents, siblings and children, and 4.6 per cent in aunts and uncles. This data becomes more meaningful when it is handled in a method devised by Falconer, said Gottesman.

Using Falconer's method, Gottesman and Shields have attempted to determine the heritability of the liability to schizophrenia.

Liability includes both an individual's innate tendencies to develop this type of disease (susceptibility) and the external circumstances which make him likely to develop the disease.

A person develops the disease if his liability exceeds a fixed point on the scale of liability. This point is called the threshold.

Gottesman compared the reaching of this threshold to the addition of the proverbial straw which breaks the camel's back.

Heritability expresses the degree to which physical make-up characteristics (phenotypes) of parents are genetically transmitted to their children, according to Gottesman.

Falconer devised a technique for estimating the heritability of liability to schizophrenia that involves the relationships between the average liabilities of the general population, of schizophrenics in the general population and of relatives of schizophrenics and the incidence of schizophrenia.

Previous estimates of heritability have not taken into account the frequency of schizophrenia among the general population, Gottesman said.

Gottesman and Shields applied the new technique to their study of twins and to data from other studies of parents, siblings and children; of twins; and of siblings and aunts and uncles.

"Our values of the heritability of the liability to schizophrenia would appear to be as high as, if not higher than, those calculated for congenital abnormalities and physical diseases that are commonly regarded as having a strong hereditary component," Gottesman said.

He noted that the heritability values are strikingly similar to those found in diabetes research. Since diabetes can be studied with more exactness than schizophrenia, the results of diabetes research may prove helpful to persons concerned with schizophrenia, he said.

Gottesman urged further biological research into the causes of schizophrenia, stating that "the task ahead is to identify some of the specific contributing genetic factors and explore how they interact with other such factors and the environment."

INSTITUTIONAL LIBRARIES
TO BE SUBJECT OF
1-DAY MEET AT U OF M

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

The Library School of the University of Minnesota will present the Perrie Jones Institute on Institutional Libraries on Friday, May 12, at the University.

The institute is being held in cooperation with the library division, Minnesota State Department of Education, the Minnesota Department of Corrections and the Minnesota Department of Public Welfare.

The purpose of the institute is to promote discussion of library services to institutions and to consider the expansion of these services with the availability of federal funds. It is intended for institutional and public librarians and for members of citizens' groups which are interested in work with the handicapped.

Harris C. McClaskey, director of Institutional Library Services in the state of Washington, will describe the program being developed there to serve the needs of staff and residents of institutions, a program based on cooperation with school and public libraries.

Robert R. McClarren, director of Indiana State Library, will speak on the trends to be seen in correctional and hospital library services in general, while Robert S. Bray, chief of the Division of the Blind and Physically Handicapped, Library of Congress, Washington, D. C., will survey the growing services of his department. Other specialists outside the library field will speak on the role of the library as it contributes to their work in institutions.

Copies of the complete program and application blanks may be obtained from the Library School, University of Minnesota, Minneapolis, Minn., 55455. No registration fee will be required.

The institute is made possible by the Perrie Jones Fund in the Library School. Miss Jones had a distinguished career as a public librarian, as a hospital librarian and as supervisor of State Institutions Libraries in Minnesota.

CLERGY FROM THROUGHOUT STATE
TO ATTEND ECONOMIC EDUCATION MEET

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Minneapolis---Selected religious leaders of all faiths from throughout the state have been invited to participate in the fifth annual Minnesota Clergy Economic Education Seminar to be held in Brainerd May 7-11.

Nine professional economists will lead discussions on the fundamentals of economics and the practical application of economic principles to modern social problems. The seminars are designed to enable the clergy who serve as community leaders and counselors to interpret economic matters within an ethical framework.

Funds for the seminar are raised annually by the Minnesota State Council on Economic Education. The program is conducted by the University of Minnesota as an interdepartmental effort, with planning being done by the University General Extension Division's department of conferences and institutes; the religious activities bureau, Office of the Dean of Students; and the economic education council.

Among the principal faculty members will be Rufus T. Logan, commissioner of taxation for the state of Minnesota, currently on leave as chairman of the economics department at Gustavus Adolphus college, St. Peter. Logan, who has contributed to economic education and research in both the United States and abroad, will conduct two seminars---"Economics of International Trade and Balance of Payments" and "Economics of Developing Nations"---and will participate in a final symposium, "Values, Ethical Conceptions, and Economic Issues."

Other key speakers include Father James S. Rausch, government and economics instructor, Cathedral high school, St. Cloud, and Harlan M. Smith, University associate professor of economics.

The seminar will take place at Brainerd's Madden's Inn and Golf Club. For additional information, contact the Director, Department of Conferences and Institutes, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455.

OUTSTANDING 'U' STUDENT
WINS YEAR AT HARVARD

(FOR IMMEDIATE RELEASE)

For further information, contact:
DORIS FENICK

A University of Minnesota student who will graduate from the College of Education this June has been named a recipient of one of the nation's most coveted awards for graduate work---a Harvard University Prize Award in Mathematics and Science---according to Professor Gordon M. A. Mork, director of student teaching in the college.

Bruce L. Temte, 4210 E. Fiftieth st., Minneapolis, was named as one of 41 students throughout the country to receive the award---an annual stipend of \$5,000 for 12 months of study at Harvard in the Master of Arts Teaching Program. His work at Harvard in the Graduate School of Education will start with special summer session classes and continue throughout the 1967-68 academic year.

Temte, who was elected to Phi Beta Kappa (national scholastic honorary society) in his junior year at the University, has carried a triple-major program in mathematics, chemistry and physics and a joint program in the College of Liberal Arts and the College of Education, Professor Mork pointed out. "He has maintained a grade point average so close to a straight "A" that it is practically impossible to compute the difference," Mork said.

Because Temte has completed the practice-teaching requirements for a degree in education, Mork said he may well be able to complete the work for his master's degree during one year at Harvard.

A 1963 graduate of Roosevelt high school, Minneapolis, Temte returned to that school for part of his practice-teaching experience, Mork said. The remainder of this work was done at University high.

In recommending Temte for this award, Mork wrote: "A student with a truly outstanding record whose ability has been clearly demonstrated."

Temte's extracurricular activities at the University included team membership on intramural bowling and basketball squads and membership in the Minnesota Christian Fellowship.

MINNESOTA COLLEGE
GROUP WILL MEET
FRIDAY AT AUSTIN

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

The Association of Minnesota Colleges will hold its semi-annual meeting Friday (April 28) in Austin. The morning sessions will be held on the new campus of Austin State Junior College.

Included on the agenda are reports on junior college development, national and state; on the inter-institutional television feasibility study; on problems of transfer students between institutions; on the Upper Midwest Regional Educational Laboratory; on high school-college relationships; and other matters.

Richard Hawk, executive director of the Minnesota Liaison and Facilities Commission, will open the meeting at 9:30 a.m. with a report from his commission. At 9:45 a.m., E. J. Glazer, executive director of the American Association of Junior Colleges, will speak on "Development of Junior Colleges on the National Scene," followed by Philip Helland, executive director of the State Junior College Board, talking on "Junior College Development in Minnesota---Its Impact Upon Other Institutions."

At 10:30 a.m. a panel will discuss "Issues in Transfer," with Theodore E. Kellogg, University of Minnesota admissions director; Albert Finholt, vice president and dean of the college of St. Olaf, Northfield; and E. W. Teigen, president of Bethany Lutheran College, Mankato.

Committee reports and lunch will fill the rest of the day's program until adjournment at 2:15 p.m.

The Association of Minnesota Colleges includes 43 Minnesota junior colleges, colleges and universities in its membership. Current president is Dean Charles E. Hill of Rochester State Junior College. Secretary-treasurer is Stanley J. Wenberg, vice president for educational relationships and development, University of Minnesota.

6 NEW PROGRAMS
ADDED TO KUOM
SCHEDULE FOR MAY

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

An expanded radio schedule which features the arts and urban and world affairs will be broadcast during May over University radio station KUOM. Because of longer daytime hours, a new series of programs will begin at 7 p.m. and conclude at 8:30 p.m. Monday through Friday.

Two new features will be broadcast on Mondays. The Minnesota Theatre of the Air will return at 7 p.m. with a series of plays adapted for half-hour production. The radio dramas are the cooperative effort of KUOM, an educational service of the University's General Extension Division, and the department of speech, communication, and theatre arts, with assistance from the McKnight Foundation.*

A half-hour program, "The United States and the World," will follow on Mondays. In this series of five lectures, Valdemar N. L. Johnson, senior United States Foreign Service Officer now serving as a visiting professor at the University, will present an insider's view of how foreign policy is formulated and administered. Johnson, who has specialized in Eastern European affairs during his 20 years in the foreign service, has served in Iceland, Norway, Poland, the USSR, and other countries of Eastern Europe.**

The Tuesday addition, an hour-long program entitled "A Chance to Grow," will examine the ways members of normal families deal with critical changes in their lives. Documentation for the series, produced by WGBH educational radio in Boston, was drawn from nearly 100 hours of recorded interviews with representative families. The program will be broadcast at 7 p.m.***

(MORE)

"Don't Drink the Water," a half-hour series scheduled for Wednesday at 7 p.m., will present facets of the problem of water pollution and possible solutions.

"Civil Liberties '67," an hour-long program broadcast at 7 p.m. on Thursdays, will feature well-known national experts in discussions of the current status of civil liberties. The series of six programs was produced by WRVR, the Riverside Church station in New York City.

Friday evenings, from 7 to 7:30 p.m., critic and reviewer Dwight MacDonald will survey the history and current status of the film art. The series of talks, entitled "Dwight MacDonald on Film," was drawn from his recent lecture series at the University of Texas.

An evening concert will follow each special feature.

-U N S-

* Dates for the Minnesota Theatre of the Air plays, all adapted by Bruce McConachie, McKnight Fellow, are as follows:

- May 1, "The Bald Soprano," by Eugene Ionesco;
- May 8, "Whisper Into My Good Ear," by William Hanley;
- May 15, "The Bourgeoisie," by Raymond F. Betts; and
- May 22, "The Gadshill Robbery," from Henry IV, Part I, by Shakespeare.

** Johnson's schedule of lectures on foreign policy, all prepared at KUOM studios, is as follows:

- May 1, The Foreign Service of the United States;
- May 8, The Formulation of U.S. Foreign Policy;
- May 15 and 22, The Development of U.S. Relations with Eastern Europe and the Soviet Union; and
- May 29, The Development of U.S. Trade Relations with Eastern Europe and the Soviet Union.

*** The "Chance to Grow" May schedule is as follows:

- May 2, Prologue;
- May 9, A Child at Camp;
- May 16, From High School to College;
- May 23, From High School to Work; and
- May 30, A Military Enlistment.

DORNBLASER NAMED
HOSPITAL ADMINISTRATION
DIRECTOR AT U OF M

For further information, contact:
Gerald Knox, 373-5830

(FOR IMMEDIATE RELEASE)

Minneapolis---Bright M. Dornblaser, director of the Franklin County Public Hospital in Greenfield, Mass., has been named the new director of the Division of Hospital Administration at the University of Minnesota, it was announced today by Dr. Gaylord W. Anderson, director of the University's School of Public Health. The appointment is effective Aug. 1.

Dornblaser, 42, has been director of Franklin County Public Hospital---a 168-bed community hospital---in Greenfield since 1960. There he has led in the development of a comprehensive hospital program for that community, in addition to being responsible for education programs in affiliation with the University of Massachusetts. He also has done considerable research into the problems of health care under the auspices of the U. S. Public Health Service.

Dornblaser is a member of the Advisory Committee to the Regional Medical Program for Massachusetts, New Hampshire and Vermont. He also serves as a member of numerous other committees, including those of the American Hospital Association, the American College of Hospital Administrators, the New England Hospital Assembly and the Massachusetts Hospital Association.

Dornblaser, a native of Minneapolis, received a bachelor of business administration degree from the University of Minnesota in 1949 (with distinction) and a master of hospital administration degree in 1952. From 1952 to 1954 he was secretary to the Board of Health in Philadelphia, Pa. In 1954, while with James A. Hamilton Associates, a hospital consulting firm, he served as an instructor in the hospital administration program at the University. He also is past president of the University's Alumni Association of the program in hospital administration. From 1956 to 1960 he was an assistant administrator of the Danbury Hospital, Danbury, Conn.

He is married to the former Carole M. Carley of Danbury, Conn. They have four children.

U OF M REVISES
ENROLLMENT ESTIMATES
FOR FALL 1967, 1968

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

University of Minnesota officials have revised downward their estimates of University enrollment for the coming fall quarter and for fall 1968.

The new estimates, prepared by the University's central administration, have been substituted for the old in subcommittee hearings at the State Capitol, according to Stanley J. Wenberg, University vice president for educational relationships and development.

The new estimated enrollment for fall quarter 1967 for the entire University is 47,465, as compared with the previous estimate of 48,400. For fall quarter 1968, the new estimate is 49,960, as compared with 51,200. (Last fall's enrollment was 43,997.)

The earlier estimates were prepared almost a year ago, according to R. E. Summers, dean of admissions and records, for use by University officials as they prepared legislative requests. "In the light of actual enrollments during this past fall and winter quarters and of applications received thus far, we could make a much more accurate assessment of probable fall-quarter enrollments," Dean Summers said.

He pointed out the fact that freshman enrollment was not down from the number expected last fall, but that a somewhat surprising decline had occurred in the numbers of returning sophomores and juniors.

While the new enrollment estimates show an over-all decline from the earlier estimates of 935 students this fall and 1,240 for fall 1968, individual colleges within the University do not necessarily follow suit. As a matter of fact, the revised figures for eight colleges (including the Graduate School) show increases expected over the previous estimate, while five colleges and the Duluth campus show a decline. Estimates for the remaining colleges stayed the same.

DID EARLIEST AMERICANS
HELP MAKE ELEPHANT EXTINCT?

A University of Arizona biogeographer, who is exploring the possibility of early man having played a role in the extinction of prehistoric animals, will speak on "Prehistoric Overkill, or Why Did Elephants Survive in Africa and Not In America?" at the University of Minnesota Tuesday (May 2).

Paul S. Martin, associate professor of geochronology at Arizona, will speak in Murphy hall on the Minneapolis campus at 8 p.m. He has been studying the cause or causes for the spectacular extinction of such large animals as the mammoth, mastodon, camel and horse in North America at the end of the glacial period.

The talk, open to the public, is sponsored by the departments of anthropology, geology and geophysics, ecology and behavioral biology, and concerts and lectures.

CALIFORNIA PROF
TO TALK ON POETRY

Louis Simpson, professor of English at the University of California (Berkeley), will speak on "Modern Poetry from Symbolism to the Present" in the annual Joseph Warren Beach Memorial Lecture to be given at the University of Minnesota Friday, May 5.

The lecture---presented each year in honor of Professor Beach, a member of the University's English department for many years---will be given at 8 p.m. in Murphy hall auditorium, open free to the public.

'U' AIR FORCE ROTC
TO HONOR 15 STUDENTS

Fifteen University of Minnesota students---13 U.S. Air Force Reserve Officers Training Corps (AFROTC) cadets and two co-eds---will be honored Thursday (May 4) when the annual Air Force ROTC Awards Day ceremonies are held on Northrop field at 12:15 p.m.

Air Force officials, commanding officers of the University's AFROTC unit and top representatives of area service organizations will make the presentations to the outstanding cadets, according to Lieutenant Colonel James Suttie, professor of aerospace studies and unit commanding officer.

Sharon Williams, 1215 Twenty-seventh ave. NE., Minneapolis, a College of Liberal Arts (CLA) senior, has been named Honorary Colonel of the cadet regiment and will be presented with appropriate insignia by Colonel Suttie. Miss Williams will represent the AFROTC at the Tri-Service Review and Ball on May 19.

Marsha Thole, 444 Sheridan ave. S., Minneapolis, a sophomore in the College of Education, will represent the Angel Flight (co-ed auxiliary to the Arnold Air Society) in accepting the Boy Scout Award for Angels. This award, presented to persons or groups who have contributed significantly to the success of the Boy Scout movement, will be presented by A. Zach Hirsch, director of program services, Viking Council, Boy Scouts of America.

Frank C. Momsen, department adjutant, American Legion, will present the Legion's two top annual awards---the gold and the silver medals signifying the American Legion ROTC General Military Excellence Awards---to cadet Colonel Joseph M. LaBat, 5300 Georgia ave. N., Crystal, a CLA senior, and to cadet 2nd Lieutenant Dennis R. Rossbach, 1406 County rd. C-east, Maplewood, a junior in the Institute of Technology.

The Reserve Officers Association Gold Medal, awarded each year to an outstanding Aerospace cadet junior, will go to cadet 2nd Lieutenant Neal M. Gendler, Albert Lea, by Major Donald W. Lynch, association member.

(MORE)

The American Fighter Aces Association Award to the most outstanding Flight Instruction Program cadet will be presented by Major John C. Gill, assistant professor of aerospace studies, to cadet Lieutenant Colonel Robert G. O'Malley, 1890 Summit ave., St. Paul.

Cadet Major Charles A. Farrell, Jr., 1007 Linwood ave., St. Paul, will receive the Society of American Military Engineers ROTC Award from Colonel Suttie.

The Sons of the American Revolution Award will be presented by Stanley S. Gillam, secretary of the group's Minneapolis chapter, to cadet 2nd Lieutenant James A. Telinda, 877 Algonquin ave., St. Paul.

The gold medal senior scholastic award from the American Legion will go to cadet Major Herman W. Vogt., Jr., Owosso, Mich., while the junior silver medal will go to cadet Major Dale M. Rucker, Springfield, Minn. The Legion's Department Adjutant, Frank C. Momsen, will make this presentation.

Colonel William T. Harris, Jr., USAR (Ret.), assistant director of the department of University relations, will present the Air Force Times award to cadet Lieutenant Colonel Paul W. Lavender, Jr., 9098 Pinehurst ave., St. Paul.

The Outstanding Aerospace Studies Senior Cadet Award will be presented to cadet Colonel David M. Wang, 6013 St. John's ave., Edina, by Colonel Suttie.

The Minnesota National Guard Association's award in memory of Major General Joseph E. Nelson, state adjutant general from 1949 to 1961, will go to cadet Captain Scott W. Madole, 1479 W. Idaho, St. Paul. Making this presentation will be Brigadier General John R. Dolny, commander of the 133rd Airlift Wing, Wold Chamberlain.

The Rodney C. Loehr Award to the senior aerospace studies cadet with the highest grade-point average will be presented to cadet Major Allan V. Shukle, 1802 Hague ave., St. Paul, by Loehr, University history professor and chairman of the University Senate committee on ROTC.

The Lawrence C. Lundberg Award, symbolizing the Air Force pilot's acceptance of sacrifice and dedication to mission, this year will be presented to cadet Major Peter D. Ablor, 1340 Snelling ave., St. Paul, by Mrs. Lundberg.

Captain John J. Denice, commandant of cadets for the University AFROTC unit, will present the Kiwi Award to cadet Major Farrell. This award each year goes to the member of the Arnold Air Society who best typifies the ideals and enthusiasm necessary for a future officer of the USAF.

ALUMNI SERVICE AWARD
TO BE PRESENTED
TO FORMER TEACHER

(FOR IMMEDIATE RELEASE)

A former Minneapolis teacher who has long been active in University of Minnesota alumni work will be honored with the University's Alumni Service Award on Thursday (May 4) at the annual meeting of the University Alumnae Club.

She is Carmen N. Richards (Mrs. Orrin J.), of 570 S. Baywood drive, Dunedin, Florida. The award---given for outstanding service to the Alumni Association---will be presented by University Vice President Stanley J. Wenberg.

The meeting will begin with a 6 p.m. dinner in the St. Paul Hilton hotel. After dinner, Mrs. Jeanette Piccard, a pioneer balloonist with her late husband, Jean, and currently a consultant to NASA's Manned Space Craft Center, will speak on "The Past Is Prologue."

A native of Minneapolis, Mrs. Richards was graduated from the University in 1913. She joined the Alumnae Club in 1945 and served in many offices, including president from 1958-60. During this tenure, the Alumnae Club Scholarship Fund was started. When she and her husband moved to Florida in 1964, she organized the Suncoast chapter of the Minnesota Alumni Association and became its first president, a position she still holds.

Mrs. Richards taught English in Minneapolis schools from 1930 to 1960. She previously had taught in several Minnesota towns. She also was active in a number of groups including the League of Minnesota Poets, and has had poems published in magazines and anthologies.

LIST OF UNIVERSITY OF MINNESOTA MINNEAPOLIS CAMPUS PUBLIC EVENTS
WEEK OF APRIL 30-MAY 7

- Sun. -- April 30 -- Concert: University Men's Glee Club and Women's Chorus, 4 p.m., Northrop auditorium. Free.
- Mon. -- May 1 -- Spring Lecture Series on Mental Retardation---"Psychological Approaches to Mental Retardation," Dr. Edward F. Zigler, associate professor of psychology, Yale University; 8 p.m., Minnesota Museum of Natural History auditorium. Free.
- Mon. -- May 1 -- Annual Guy Stanton Ford Memorial Lecture Series, "Music of the East."---First lecture, "The Musical Structure of Japanese Noh Drama," by William P. Malm, professor of music literature, University of Michigan; 8 p.m., Mayo auditorium. Free.
- Mon. -- May 1 -- Student recital---Organist Gerald Asheim; 8:30 p.m., Grace church, Harvard and Delaware sts. SE., Minneapolis. Free.
- Mon. -- May 1 -- University Gallery---"Robert Wilcox---Photographs;" M.F.A. Thesis exhibits, Gary Kenning, paintings, prints and drawings; and Jack Worseldine, pottery. Third-floor galleries, Northrop auditorium. Open school hours weekdays. Free.
- Mon. -- May 1 -- Coffman Union Gallery---University Student Sculpture Show; Elizabeth Blikstad, Fabric show; M.F.A. Thesis show, James Butterworth. Gallery open 9 a.m.-8 p.m. through Saturday; 12 noon-8 p.m. Sunday. Free.
- Tues. - May 2 -- Special lecture and discussion---"The Greek Political Crisis," with emphasis on the current status of former University faculty member Andreas Papandreou; 7:30 p.m., Coffman Union women's lounge. Free.
- Tues. - May 2 -- Student recital---Organist Mary Stauffer; Grace church, 8:30 p.m. Free.
- Tues. - May 2 -- Special lecture---Graduate Biochemistry Research Symposium: Dr. E. E. Snell, department of biochemistry, University of California (Berkeley) speaks on "Mechanism of Action and Subunit Structure of Tryptophanase," 7:30 p.m., Mayo auditorium. Free.
- Tues. - May 2 -- Lecture---"Prehistoric Overkill, Or Why Did Elephants Survive in Africa and Not in Arizona?" by Dr. Paul S. Martin, associate professor of geochronology, University of Arizona; 8 p.m., Murphy auditorium. Free.
- Tues. - May 2 -- University Theatre---Opening, two plays by Euripides, "Hecuba" and "The Cyclops;" performance at 8 p.m. through Saturday; Scott hall. Tickets.

(MORE)

- Wed. -- May 3 -- Spring Lecture Series, "American Antiques;" final lecture, "Scandinavian Decorative Arts in America," by Marion Nelson, University associate professor of art history and director of Norwegian-American Museum, Decorah, Iowa; 8:30 p.m., Mayo auditorium. Series tickets or tickets at door.
- Wed. -- May 3 -- Special lecture---"Origins and Population Dynamics of Eskimos and Aleuts," by William Laughlin, professor of anthropology, University of Wisconsin; 8 p.m., Murphy auditorium. Free.
- Wed. -- May 3 -- University Dads' Association meeting---Special dinner honoring University President O. Meredith Wilson; speaker, Regent Fred J. Hughes, St. Cloud; 6:30 p.m., Coffman Union junior ballroom; ticket reservations, Dads' Association office, Room 8 Temporary North of Mines.
- Thurs.- May 4 -- Annual Engineers' Day convocation---Athelstan Spilhaus, professor of geophysics, speaks on "The Experimental City," 11:15 a.m., Northrop auditorium. Free.
- Thurs.- May 4 -- "E-Day" Open House and Industrial Exhibits---departmental tours of University engineering departments, architecture and engineering buildings; and exhibits in Architecture Court; 8 a.m.-5 p.m. Free.
- Thurs.- May 4 -- Annual U.S. Air Force ROTC Awards Day ceremonies---12:15 p.m., Northrop field (or in University Field House if rain). Free.
- Thurs.- May 4 -- Annual meeting, University of Minnesota Alumnae Club---Guest speaker, Balloonist Jeanette Piccard, NASA Manned Space Center consultant; dinner, 6 p.m., Capitol ballroom, St. Paul Hilton hotel. Tickets through alumnae club.
- Fri. -- May 5 -- Annual University Presidents' Ball, honoring heads of student organizations; formal ball, Coffman Union main ballroom, 9 p.m.-1 a.m. Tickets at door.
- Fri. -- May 5 -- "E-Day"---Parade, (on Minneapolis campus only) 11 a.m.; ceremonies, steps to Engineering Court, 11:45 a.m.; picnic, Engineering Court, 12:30 p.m. "E-Day" Brawl, Holiday Inn Central, dinner 7 p.m., dance, 9 p.m.
- Fri. -- May 5 -- "E-Day" Open House and Industrial Exhibits---departmental tours of University engineering departments, architecture and engineering buildings; and exhibits in Architecture Court; 8 a.m.-5 p.m. Free.
- Fri. -- May 5 -- University Theatre---Matinee performance, Euripides' "Hecuba" and "The Cyclops," 3:30 p.m., Scott hall. Tickets.
- Fri. -- May 5 -- Annual Joseph Warren Beach Memorial Lecture: Louis Simpson, professor of English, University of California (Berkeley) speaks on "Modern Poetry from Symbolism to the Present;" 8 p.m., Murphy hall auditorium. Free.
- Fri. -- May 5 -- Concert---University Symphony Orchestra; 8:30 p.m., Northrop auditorium. Free.
- Fri. -- May 5 --
and University Film Society: "Kanchenjanga" (India, 1963); 7:30 p.m., Friday; 8 p.m., Saturday, Museum auditorium. Tickets.
- Sat. -- May 6 --
- Sun. -- May 7 -- University Theatre---Final performance, Euripides' "Hecuba" and "The Cyclops;" 3:30 p.m., Scott hall. Tickets.
- Sun. -- May 7 -- French horn recital, JoAnn Honaas; 8 p.m., Grace church. Free.

(FOR IMMEDIATE RELEASE)

GREEK POLITICAL CRISIS
TO BE DISCUSSED AT 'U'

"The Greek Political Crisis" will be discussed at the University of Minnesota Tuesday (May 2) in a special meeting at 7:30 p.m. in the women's lounge of Coffman Memorial Union.

Of particular interest to the group, and bound to be the major topic of discussion, will be the situation involving a former University faculty member, Andreas Papandreou, currently being held as a political prisoner in Athens, according to Rick Theis, Minnesota Student Association (MSA) vice president and chairman of the MSA Legislative Affairs committee sponsoring the meeting.

Papandreou was a member of the University's department of economics from 1947 to 1950 and from 1951 to 1955.

Taking part in the discussion, which will be open to the public, will be two members of the University faculty---Professor J. A. Buttrick, economics, and Associate Professor Theofanis G. Stavrou, history, both personal friends of Papandreou---and A. Kizilos, a Greek graduate student from Harvard University who now is employed in the Twin Cities.

DADS' ASSOCIATION
TO HONOR WILSONS

University of Minnesota President and Mrs. O. Meredith Wilson will be honored at a special dinner given by the University Dads' Association Wednesday (May 3) in Coffman Memorial Union junior ballroom.

The dinner, at 6:30 p.m., will take the place of the customary May meeting of the organization. University Regent Fred J. Hughes, St. Cloud, will be the featured speaker at the program following the dinner.

Reservations for dinner tickets at \$3 should be in the Dads' Association office, Room 8 Temporary North of Mines, by Monday, May 1.

JONES NAMED
ASSISTANT TO 'U'
HOSPITALS DIRECTOR

(FOR RELEASE MONDAY, MAY 1)

Minneapolis---Thomas F. Jones, administrative resident at the University of Minnesota Hospitals, has been named assistant to the director of University Hospitals, it was announced today by John H. Westerman, director of the hospitals.

Jones, 31, will be responsible for hospital administration in a number of areas, particularly in personnel and pharmacy. The appointment is effective May 1.

"We feel extremely fortunate to have Tom Jones join our staff," said Westerman. "His background in pharmacy gives University Hospitals strength in an area of growing complexity and challenge to all hospitals."

A 1957 graduate of the University of Wisconsin with a bachelor of science degree in pharmacy, Jones will receive a master of hospital administration degree from the University of Minnesota in June.

From 1957 to 1965, Jones practiced pharmacy, first in San Antonio, Texas, and then in Menomonie, Wis. He is a native of Manitowoc, Wis.

Jones and his wife, Mary Ann, are the parents of three girls, and will make their new home in Edina.

BASIC LIBRARY
ON RETAILING
TO BE GIVEN TO 'U'

UNIVERSITY OF MINNESOTA

DORIS FENICK

The University of Minnesota Wednesday (May 3) will receive an important gift in the field of retailing: funds for a basic library of 270 books and a one-volume bibliography of 1,700 titles on the subject.

It will be a joint gift from Donaldson's Department Store and Allied Stores Inc. (Donaldson's is a wholly owned subsidiary of Allied.) It was made possible by the B. Earl Puckett Fund for Retail Education.

The funds for the library will be presented at a luncheon in the Campus Club on the University's Minneapolis campus. Representing Donaldson's and Allied Stores will be T. R. Brouillette, chairman of the board; K. G. Iversen, president; and W. J. Bowerman, director of personnel, all of Donaldson's.

Accepting the gift for the University will be President O. Meredith Wilson. Also present to express their thanks will be Nicholas Glaskowski, associate dean of the School of Business Administration, and Marcia Edwards, associate dean of the College of Education.

The library will be useful not only to students in business administration, but also to distributive-education students in the College of Education who become teachers in the field of marketing and distribution in high schools and adult evening classes.

The B. Earl Puckett Fund for Retail Education was begun in 1963 in honor of the retiring chairman of the board of Allied Stores, its aim being to improve the library collections of colleges and universities on the subject of retailing. Four distinguished professors in the subject compiled a bibliography of 1,700 titles of books, articles and reports of value on the subject, and then selected 270 book titles as a minimal beginning library in the subject. The foundation now is urging retail business firms to donate this basic collection to colleges or universities of their choice.

The four professors who compiled the bibliography were Charles M. Edwards, Jr., dean of the Institute of Retail Management of New York University; Charles E. McCarthy, chairman of the marketing department in the College of Business Administration, St. John's University (and also a past president of Allied Stores); Malcolm P. McNair, Lincoln Filene professor emeritus of retailing in the Harvard Graduate School of Business Administration; and John W. Wingate, chairman of the department of marketing, City College of the City University of New York.

The Institute of Technology (IT) at the University of Minnesota will go on display this week as engineering-department open houses, tours of industrial displays and all the high-jinks of the traditional celebration of Engineers' Day ("E-Day") take place Thursday through Saturday (May 4-6).

Minnesota high school students interested in engineering as a career will be the special guests Thursday (May 4) when the industrial exhibits in Architecture Court and the open house presentations will be open to them and to the public from 8 a.m. to 3 p.m. Engineering departments on display will include electrical, aeronautical, mechanical, civil, agricultural, mathematics, physics and chemistry.

Industrial displays will include a Collins radio-equipped Jeep able to establish contact with controls throughout the world, Bell systems on-line computers and Xerox copying machines.

Athelstan Spilhaus, professor of geophysics and former dean of IT, will be the "E-Day" convocation speaker at 11:15 a.m. Thursday in Northrop auditorium. He will speak on "The Experimental City."

Minnesota junior-college students will be the honored guests at the open houses and the industrial displays Friday (May 5) from 9 a.m. until 3 p.m. The public also will be welcomed.

The traditional fun-and-games section of the "E-Day" celebration will start at 11 a.m. Friday (May 5) when the parade of floats, bands, Queen Colleen and St. Pat contestants and Plumb Bob members winds through the Minneapolis campus. Immediately after the parade the knighting of St. Pat and crowning of this year's Queen Colleen will take place on the Main Engineering building steps to the Engineering Court. Miss Jan Schwarz, Columbia Heights, last year's Queen Colleen and a sophomore in engineering, will crown the new queen.

A picnic in Engineering court and chariot races, a tug-of-war and a greased-pig race will wind up Friday's fun.

The traditional "E-Day" Engineers' Brawl will be held from 7 p.m. to 1 a.m. Saturday (May 6) at Holiday Inn Central, Minneapolis. Tickets may be obtained from "E-Day" committee members or at the door.

HEAD START
DENTAL PROGRAM,
TOPIC OF MEET

(FOR IMMEDIATE RELEASE)

A limited number of Minnesota and Wisconsin dentists who are, or shortly will be, involved in plans for a regional Head Start dental program will cut their teeth at a two-day conference on the subject Friday and Saturday (May 5-6).

The Minnesota-Wisconsin Head Start Conference for Dentistry, to be held at the Curtis hotel in Minneapolis, generally will attempt to inform the participants on details of the operation of the federal program.

The program is sponsored by the department of conferences and institutes of the General Extension Division of the University of Minnesota, and the Minnesota State Department of Health.

First-day sessions will be concerned with the nature of poverty groups and the provisions of dental care, the philosophy of Head Start dental programs, and some local approaches to implementation.

Charlotte Wheeler, Chicago regional director of the Head Start program, will open the Saturday session with a speech on "The Role of the Regional Office in Head Start." She will be followed by a panel of experts, including L. Irving Peterson, supervisor, public assistance medical programs for the Minnesota State Public Welfare Department, who will discuss the subject.

Participating dentists will have an opportunity to explore their own problems with the panel. Emphasis will be given to planning and approaches used by providers of dental services in supported programs.

Cooperating with the conference plans are the Minnesota and Wisconsin Dental Associations, the Wisconsin State Health Department, the U. S. Public Health Service and the Office of Economic Opportunity.

PHOTOJOURNALISM
FRATERNITY MEET
SET FOR MINNEAPOLIS

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

The University of Minnesota's School of Journalism and Mass Communication will host the national convention of Kappa Alpha Mu (KAM), honorary photojournalism fraternity, in Minneapolis May 11-13.

The convention is the first in a series of conferences in Minneapolis commemorating the 50th anniversary of the School of Journalism and the 100th anniversary of the Minneapolis Tribune. All sessions will be held in the Ambassador Motel, Minneapolis.

Key speakers will include William Allard and Bill Garrett, National Geographic, and Earl Seubert, chief photographer, Minneapolis Tribune. Allard, a 1964 graduate of the School of Journalism, was runner-up "Magazine Photographer of the Year" in 1965. Seubert has won the "Newspaper Photographer of the Year" award three times. Garrett is a well-known speaker in NPPA-KAM circles.

A special session on the past, present and future of Canon 35 will be presented by Donald Gillmor, associate professor of journalism and author of the recently published book, "Free Press and Fair Trial." Technical representatives from Honeywell, Plymouth, and Bell and Howell will be on hand for a special tools and techniques session.

Photojournalism students will have their own news conference with two Twin Cities television newsmen just back from Vietnam. Students will view color footage shot in Vietnam before moving into the newsroom to see last-minute preparations for the evening color newscast over KSTP-TV, an award-winning NBC affiliate.

Following a model initiation, KAM members will hear editor Jim Vance of the Worthington (Minn.) Globe speak on color photography's power to build circulation.

Among the many features of this year's convention will be the first showing of the winners of the 1966 College Show and the winners in the "Pictures of the Year" competition jointly sponsored by the School of Journalism, University of Missouri, the National Press Photographers Association (NPPA) and World Book Encyclopedia

(FOR IMMEDIATE RELEASE)

Minneapolis---The University of Minnesota and the Minneapolis Park commissioners will join forces to provide theatrical entertainment for the very young and for the young-in-heart when the University Theatre's new project---the Peppermint Tent Theatre---opens June 27 for a summer's run of children's plays.

The huge red-and-white-striped circus tent, big enough to hold an audience of 400, will be located on the Mississippi river at the University Showboat's landing just south of the Washington avenue bridge, according to the new project's director, Lee Adey, assistant professor of theatre arts.

"The University Theatre department and the Summer Session, providers and supervisors of the physical facilities, have been working on this project for quite some time," Adey said. "It has taken the cooperation of Robert W. Ruhe, superintendent of the Minneapolis Park commissioners and members of his board to make this Minneapolis park property available to us."

According to Adey, three "thrillers---dear to the hearts of youngsters---" are scheduled for performance this summer in the Peppermint Tent. "Daniel Boone," "Androcles and the Lion" and "Huckleberry Finn" will be produced during June, July and August.

"Daniel Boone," as adapted by Leona Baptiste, will open the season June 27 and will run through July 14. Shaw's "Androcles and the Lion," as adapted by Aurand Harris, will open July 18 and run through August 4. The Showboat "captain," Professor Frank M. Whiting did the adaptation of the final show, Mark Twain's "Huckleberry Finn," which will open August 8 and run through August 18.

Performances will be given at 3:30 p.m. on Sundays, Mondays, Tuesdays, Thursdays and Fridays, with additional later afternoon performances at 5:30 p.m. each Sunday through the season.

Individual tickets at \$1 for Peppermint Tent performances may be purchased at the Scott hall ticket office. Groups of 20 or more may obtain tickets at special group rates of 50 cents per ticket. Tickets will go on sale June 1.

NEWS EXECUTIVES
FROM 5 STATES
TO MEET AT U OF M

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Minneapolis---Executives from newspapers in a five-state region will meet for the Annual Upper Midwest News Executives' Conference Friday, May 12, in Murphy hall on the Minneapolis campus of the University of Minnesota.

Newsmen from Minnesota, Iowa, North and South Dakota and Wisconsin are expected for the program which is sponsored jointly by the School of Journalism and Mass Communication and the News Executives' Conference.

Registration is set for 8:30 a.m. in Murphy hall auditorium. Robert L. Jones, director of the School of Journalism, and Ray Stougaard, 1967 conference chairman, will open the day-long program at 8:45 a.m.

At the two morning sessions, Paul S. Swensson, director of the Newspaper Fund, and Professor Robert Haverfield, University of Missouri, will lead a discussion (9 a.m.) on newspaper personnel problems; and Robert C. King, assistant managing editor, Minneapolis Star, will chair a session (10:30 a.m.) on the newspaper's community service role.

Allen Neuharth, executive vice president of the Gannett Newspapers and president of that group's new daily, "Today," of Cocoa, Florida, will speak at a luncheon in Coffman Memorial Union. Neuharth will discuss "Innovations in Newspapers, Gannett Style."

Following the luncheon, Professor Edmund Arnold of Syracuse University will "Talk Typography" (2 p.m.) in terms of newspaper makeup trends. Arnold is a well-known newspaper consultant in typography and graphics. At 3:30 p.m. a group of discussants including Arnold will conduct a typography "Buzz Session."

Following a dinner at the Minnesota Press Club for the newsmen and their wives, William Allard, award-winning photographer for National Geographic, will speak. Allard will recount his experiences with several well-known persons in a speech titled, "Lynda Bird, Bobby and Me."

In recognition of the 50th anniversary of journalism instruction at the University, honor guests at the dinner will be Professor Ralph D. Casey, director emeritus of the school, and Mrs. Casey.

10 'U' MEDICAL
SCHOOL FRESHMEN
WIN SCHOLARSHIPS

(FOR IMMEDIATE RELEASE)

Minneapolis---Ten Minnesota college students who will enter the University of Minnesota Medical School in September 1967 have been named winners of \$500 Minnesota Medical Foundation scholarships. Eivind Hoff, executive director of the foundation, said the scholarships were awarded on the basis of scholastic performance and on financial need.

The 10 winners are among approximately 160 students who will begin their freshman year at the Medical School Sept. 25, at which time the grants will be awarded.

Freshman scholarship winners, with the name of the college they are currently attending, are as follows:

Michael R. Tripp, Belgrade, Minn. (University of Minnesota)

Philip J. Schiller, Wadena, Minn. (University of Minnesota)

Richard D. Olsen, Montevideo, Minn. (Pacific Lutheran College)

Paul R. Julsrud, Rushford, Minn. (St. Olaf College)

Barbara J. Jabunich, Iron, Minn. (Bemidji State College)

Allen L. Horn, Paynesville, Minn. (St. John's University)

John W. Gabe, 1546. 7 $\frac{1}{2}$ ave. NE., Rochester, Minn. (Carleton College)

Darrell L. Carter, Ada, Minn. (University of Minnesota)

David G. Albers, 825 Twelfth ave. S., St. Cloud, Minn. (St. John's University)

Suzanne D. Dixon, 7315 Thomas ave. S., Minneapolis, Minn. (Creighton University)

The Minnesota Medical Foundation is a nonprofit organization of 3,000 persons providing various types of private aid to the Medical School.

Since 1949, the foundation has awarded 576 scholarships worth a total of \$303,220, according to Hoff. Competition for scholarships from the foundation among sophomores, juniors and seniors in the medical school is now under way, with winners to be announced in July.

The foundation also provides interest-free loans to medical students, grants for medical research by faculty and students and awards for distinguished teaching, and is co-publisher of the University of Minnesota "Medical Bulletin," a monthly medical alumni news and scientific journal.

Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Mortality in contemporary society will be examined from various points of view on Thursday and Friday, May 18 and 19, at the Pick-Nicollet hotel, Minneapolis, during a symposium designed for professional persons involved in handling death and bereavement, and others concerned about the subject.

The program, "Death, Grief and Bereavement: An Interdisciplinary Evaluation," will be presented by the department of conferences and institutes of the General Extension Division of the University of Minnesota.

The opening session at 1:50 p.m. Thursday will be led by Professor Jacques Choron of the New School of Social Research in New York City. Choron, who will speak on "Modern Man and his Philosophy of Death," is the author of "Modern Man and Mortality" and "Death in Western Thought."

At 2:20 p.m. Professor Herman Feifel, chief clinical psychologist of the Mental Hygiene Service, Los Angeles, will offer a psychological perspective on attitudes toward death.

Sessions on grief and how to manage it, and on the nurse and the dying patient will conclude the afternoon discussion. An overview of death in America will be presented during a 7:30 p.m. session.

Friday morning will feature four workshop groups and a final lecture, "Death, Grief and Bereavement: Some Prospects and Proposals." The last session, to be held at 11 a.m., will be conducted by Professor Talcott Parsons of the department of social relations, Harvard University.

Cooperating with the department of conferences and institutes on arrangements for the symposium are the University College of Medical Sciences, the departments of psychiatry, clinical psychology, mortuary science, nursing and sociology, and the Family Studies Center.

For additional information write to the Director, Department of Conferences and Institutes, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455.

30 HIGH SCHOOL TEACHERS
TO STUDY ECON EDUCATION
AT U OF M NEXT YEAR

UNIVERSITY OF MINNESOTA

(FOR IMMEDIATE RELEASE)

The Minnesota State Council on Economic Education (MSCEE) will conduct an inservice institute in economics and economic education at the University of Minnesota for 30 secondary school teachers during the 1967-68 school year.

The nine month institute, sponsored by a grant from the National Science Foundation, marks a new phase in the council's inservice program.

The institute will be aimed at intensifying the educational backgrounds of teachers who have already had basic instruction in economics. It is hoped that in this way a core of highly qualified teachers will be developed to act as leaders in their respective school systems.

Two intermediate courses in economic theory will be taught by University professors who have been active in the council's inservice economic education program.

Additionally, a professional educator will demonstrate to institute participants some educational methods and techniques which are useful in translating economic topics to the high school curriculum.

The institute will be under the direction of Darrell R. Lewis, executive director of the MSCEE and an assistant professor of economics at the University.

(MORE)

Tuition grants and book and travel allowances will be provided for the 30 selected participants. To be eligible for this program, teachers should have a bachelor's degree and at least one year of teaching experience. They also should have completed previous inservice courses (or the equivalent) which have been offered at the Center for Economic Education at the University of Minnesota, Minneapolis, Minnesota.

Participants are expected to be employed either as economics instructors or curriculum consultants in high schools.

Applications and/or further information can be obtained from the Minnesota State Council on Economic Education, 1169 Business Administration Building, University of Minnesota, Minneapolis 55455; or by phoning 373-4469.

During the first summer session this year, the MSCEE also will sponsor an institute in economics and economic education for 30 elementary social studies teachers, curriculum specialists and administrators. Some 30 tuition and materials scholarships will be awarded soon for that program.

ELI GINZBERG,
2 OTHERS TO EXPLORE
ETHICS AND EMPLOYMENT

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Ethics and employment will be discussed by a panel of three specialists and practitioners in the field of personnel and manpower at a University of Minnesota symposium on Friday, May 12.

The symposium, open without charge to the public, will be held at 2:30 p.m. in Room 10 Classroom building on the West Bank of the Minneapolis campus. It is sponsored by the Graduate School of Business Administration through the financial support of the Merrill Cohen Memorial Fund.

The major program participants will be:

- (1) Professor Eli Ginzberg, economics professor in the Graduate School of Business, Columbia University; chairman of the National Manpower Advisory Committee and consultant to the U.S. Departments of State, Defense, Labor, and Health, Education and Welfare; and director of the Conservation of Human Resources Project at Columbia;
- (2) Roger Wheeler, director of corporate personnel services of Control Data Corp., Bloomington; and
- (3) Professor George W. England, industrial relations and psychology professor, Graduate School of Business Administration, University of Minnesota.

Paul V. Grambsch, dean of the Graduate School of Business Administration will welcome the audience, followed by opening remarks from Professor Herbert G. Heneman, Jr., conference chairman and director of the school's Industrial Relations Center (IRC).

Professor Ginzberg will speak first on "The Imperative of Work." Professor England, who is assistant director of the IRC, will speak next on "Managerial Value Systems---A Research Approach," followed by Wheeler talking on "Our Government's New Definition of Business Ethics."

This will be the third in a series of symposia held annually on the general topic of ethics in business. Their purpose is to explore some of the ethical implications of business issues and problems, a topic of great interest to the late Merrill Cohen, president of the J.M. Dain Co., in whose honor they are held. -UNS-

'U' EXTENSION DIVISION
TO OFFER SUMMER
EVENING CLASSES

For further information, contact:
Beth Kent, 373-5186

(FOR IMMEDIATE RELEASE)

For the first time, University of Minnesota evening courses will be offered during the summer at two Twin Cities downtown locations.

Twelve undergraduate courses, presented by the General Extension Division's department of evening classes, will range in subject matter from accounting and economics to history and the humanities. No prerequisites are required for any of the classes.

Students may earn from two to four credits per course, at a cost of \$11 per credit. The classes will be given at MacPhail Center, Minneapolis, and/or the St. Paul Extension Center.

The summer term begins the week of June 12 and extends through August 19. Courses will meet one evening a week, from 5 to 7:30 p.m., with the exception of the four-credit course, which will meet until 8:15 p.m.

Registration will take place Thursday and Friday, June 1 and 2, and Monday through Thursday, June 5-8, at the following locations:

Department of Evening Classes, Minneapolis campus office, 57 Nicholson hall (southeast entrance), from 7:45 a.m. to noon and 12:45 to 8 p.m.

MacPhail Center office, 1128 LaSalle avenue, Minneapolis, from 7:45 a.m. to 1 p.m. and 1:45 to 4:45 p.m.

St. Paul Extension Center office, Ninth and Exchange, from 7:45 a.m. to noon and 12:45 to 8 p.m.

Students may register at any of the three locations, regardless of where they plan to attend class, or they may complete the registration process by mail for most of the classes. Registration for the five classes with limited enrollment must be completed in person. Materials may be obtained by phoning one of the three numbers listed below.

(MORE)

One class, Preparatory Composition, will not be offered for credit. It is recommended for students whose primary need is organization and development of theme composition. Charge for the course is \$33, plus a \$1 materials fee. It will be held at MacPhail Center on Thursdays and at the St. Paul Extension Center on Wednesdays, and is limited to 25 students.

The eleven courses which award credits include:

Principles of Accounting, 3 credits, limited to 30 students
MacPhail Center, Thursday
St. Paul Extension Center, Wednesday

Principles of Economics, 3 credits, limited to 30 students
MacPhail Center, Thursday
St. Paul Extension Center, Wednesday

Civilization of the Modern World, 3 credits
St. Paul Extension Center only, Wednesday

American History, 4 credits
MacPhail Center only, Thursday

Humanities in the Modern World 1, 3 credits
MacPhail Center, Wednesday
St. Paul Extension Center, Thursday

American Life (Humanities 22), 3 credits
MacPhail Center only, Wednesday

American Life (Humanities 23), 3 credits
St. Paul Extension Center only, Thursday

Problems of Philosophy, 3 credits
MacPhail Center, Wednesday
St. Paul Extension Center, Thursday

How to Study, 2 credits (credits do not count toward a bachelor of arts degree, but are included in the over-all grade point average), limited to 25 students.
St. Paul Extension Center only, Thursday

General Psychology, 3 credits
MacPhail Center, Thursday
St. Paul Extension Center, Wednesday

Efficient Reading, 3 credits (credits may be used on degree program by petition), limited to 30 students
MacPhail Center, Wednesday
St. Paul Extension Center, Thursday

For additional information, or registration materials, contact the campus office, telephone 373-3195; the MacPhail Center office, telephone 332-4424; or the St. Paul Extension Center office, telephone 222-7355.

'U' NATURAL HISTORY
MUSEUM TO BE OPEN
TUESDAY EVENINGS

(FOR IMMEDIATE RELEASE)

New evening hours for the Minnesota Museum of Natural History were announced today by the museum director, Professor W. J. Breckenridge.

"For the first time in the history of the museum, Twin Cities area residents and visitors now will have the opportunity to become better acquainted with Minnesota displays of wildlife, mammals, birds and plants during their evening hours," Dr. Breckenridge said.

"We are now able to keep the museum open from 7:30 to 9:30 on Tuesday evenings," Breckenridge continued. "This will enable local groups, civic organizations and the general public to come and tour the exhibits at a time that may be more convenient for them."

On view in the two exhibition-hall levels of the museum on the University of Minnesota's Minneapolis campus are the noted "habitat" exhibits showing such typical Minnesota scenes as the North shore of Lake Superior in the winter, complete with wolves; a prairie scene with the natural grasses, flowers and birds; and a North Country scene of pines, rocks and moose.

The museum will maintain its regular schedule, open from 9 a.m. to 5 p.m. weekdays and from 2 to 5 p.m. Sundays, in addition to its new evening hours.

'U' PROF BECOMES
PRESIDENT OF
PSYCHOLOGICAL GROUP

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

Professor James J. Jenkins, director of research at the University of Minnesota Center for Research in Human Learning, will be installed as president of the Midwestern Psychological Association on Friday, (May 5) at its annual meeting in Chicago. The association, which has about 3,000 members, is the third largest organization of its kind in the world.

Jenkins, 43, has been on the University faculty since 1948, and has held his present position since 1964. He holds bachelor's degrees in physics and psychology from the University of Chicago and William Jewell College, respectively, and earned his master's and doctoral degrees in psychology at the University of Minnesota.

Although the Midwestern Psychological Association officially includes the territory between the Rocky mountains and the Appalachians, its membership is nationwide. Approximately 400 scientific papers were scheduled to be presented at the three-day meeting (Thursday through Saturday).

Jenkins lives at 2152 Folwell st., Falcon Heights.

DORIS FENICK

Minneapolis----Top engineering students and faculty were named and presented with awards at the University of Minnesota today (Friday, May 5) in the traditional ceremonies climaxing the annual observation of Engineers' Day ('E-Day') at the University.

The two highest student awards went to Richard B. Peterson, a junior student in civil engineering from Annandale, and to Gerald A. Johnson, a senior in mechanical engineering, 4334 Tenth ave., S., Minneapolis.

Peterson received the Honeywell, Inc., award---a silver tray and a cash prize.

Johnson received a watch as the Hamilton Watch Co. award, given annually to "the senior who has most successfully combined proficiency in his or her major field of study with academic and extra-curricular activities in the social sciences and humanities."

Two professors in the Institute of Technology (IT) were named Distinguished Teachers for this year: Professor Richard A. Swalin, 16 Red Fox rd., North Oaks, head of the School of Mineral and Metallurgical Engineering; and Thomas E. Murphy, 5936 Columbus ave. S., Minneapolis, associate professor of mechanical engineering.

Each of the professors will receive a financial award and a citation at the presentation ceremonies during the annual Institute of Technology Alumni Association meeting and banquet next Nov. 17.

The donor of the annual Distinguished Teaching awards, Acting IT Dean Frank Verbrugge said, was an IT alumnus, George W. Taylor of Rockford, Ill., who provided financing for "an annual award for outstanding teaching and inspiring teachers. Such a person or persons might be a laboratory assistant or an instructor or he might be the most learned full professor on the staff."

Ten IT faculty members have received this award since its inception in 1963.

2 'U' BUILDINGS TO BE NAMED
FOR THEODORE BLEGEN, WILLIAM ANDERSON

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Minneapolis--Two University of Minnesota West Bank buildings will be named in honor of two distinguished former faculty members in dedication ceremonies to be held on Monday, May 29.

The West Bank Classroom building will be named Blegen Hall in honor of Professor Theodore C. Blegen, dean of the Graduate School from 1940 to 1960 and history department faculty member from 1927 to 1960.

A new classroom building now under construction will be named Anderson Hall in honor of William Anderson, member of the political science faculty from 1916 to 1957 and chairman of that department for 17 years. The structure, which is going up to the east of the present West Bank buildings, will be in use by winter quarter of next year.

Many good friends of Dean and Mrs. Blegen and Professor and Mrs. Anderson will attend the luncheon for them on May 29, scheduled for noon in the East Wing of the Campus Club. President and Mrs. O. Meredith Wilson will head a distinguished delegation of University officials and faculty members.

Following the lunch, the group will tour Blegen Hall and a name placque will be unveiled (at approximately 2:30 p.m.) The placque for Anderson Hall will be nearby during this ceremony, to be installed in the other building when it is completed.

Blegen, of 1588 Northrop st., Falcon Heights, a Minneapolis native, earned bachelor of arts degrees from Augsburg College and the University of Minnesota, then went on for a master's degree at the University and a doctorate in 1925.

He began his career teaching high school, then taught history at Hamline University, St. Paul, and was head of the history department there from 1922-27, when he joined the University faculty.

(MORE)

The son of Norwegian immigrant parents, he spent 1928-29 as a Guggenheim fellow in Norway and wrote extensively in the field of Norwegian immigration history. The Royal Frederik University of Oslo awarded him an honorary doctor of philosophy degree in 1938, and he has since received other honorary degrees from six U.S. institutions.

He served as assistant superintendent of the Minnesota Historical Society from 1922-31 and superintendent from 1931-39, and since his University retirement in 1960 he has continued his writing and research activities as a research fellow of the historical society.

Just to list the papers and articles Blegen has written would require five pages of single-spaced typing. Among his 20-some books are two volumes on "Norwegian Migration to America," published in 1931 and 1940; "Grass Roots History," 1947; "Land of Their Choice," 1955; and "Minnesota: A History of the State," 1963.

His interest in Sherlock Holmes and the Baker Street Irregulars is reflected in his 1951 book, "The Crowded Box-Room," a study of Holmes' mind, and in "Sherlock Holmes, Master Detective," which he co-edited with E.W. McDiarmid in 1952.

During his 20 years as dean of the Graduate School, Blegen was noted for beginning new services and new programs, including a number of graduate-level interdepartmental programs. He was awarded the University's Outstanding Achievement Award in 1962.

William Anderson, also a Minneapolis native, now living at 111 Melbourne ave. SE., holds a bachelor of arts degree from the University of Minnesota and a master's and a doctorate degree from Harvard University. He began his teaching career directly in the political science department at the University and continued there until his retirement in 1957. During that period, he served as chairman from 1927-1932 and again from 1935-1946.

Anderson's interest in and concern for good government are legendary in Minnesota history and are reflected both in the numerous committees, governmental units.

(MORE)

and professional organizations on which he served, and in the students he inspired to careers in government and politics. His department was known for its activist, rather than strictly theoretical, approach to political science, and among Anderson's former students are Vice President Hubert H. Humphrey, Minneapolis Mayor Arthur H. Naftalin (now on leave as a University professor of political science), Congressman John Blatnik (DFL-Minn.) and U.S. Comptroller General Elmer B. Staats.

Anderson's contributions to government include service on such units as the Minneapolis Charter Commission, the Minnesota State Planning Board, the Minnesota Resources Commission, the Governor's Task Force on State Governmental Functions, the Governor's Committee on Ethics in Government, and President Eisenhower's Commission on Intergovernmental Relations.

A list of his writings on various aspects of government would fill many pages. Among his books are "A History of the Constitution of Minnesota," 1921; "American City Government," 1925 and 1950; "Federalism and Intergovernmental Relations," 1946; and "The Nation and the States, Rivals or Partners?", 1955. He edited 10 volumes of "Intergovernmental Relations in Minnesota" from 1950-56.

On retirement, Anderson began to work on the first history of the study and teaching of politics. His first volume was published in 1964, titled "Man's Quest for Political Knowledge: The Study and Teaching of Politics in Ancient Times." He is now working on the second volume, dealing with the subject in medieval and modern times, which is expected to be published in 1968.

Upon Professor Anderson's retirement, the Minneapolis Tribune commented, in part, "Probably no man in Minnesota has exerted a stronger influence for good government, through the years, than Professor William Anderson.....Part of it was direct and may be measured in terms of his personal services to the cause of good government. But an incalculably large portion of it was indirect. Through his writings in the field of political science, and through the impress of his teaching on his students, Dr. Anderson's influence grew in ever-widening circles. His spirit of dedication was contagious and as it spread, a vigorous and perceptive interest in government spread with it..."

Anderson received the University's Outstanding Achievement Award in 1959.

UNIVERSITY OF MINNESOTA LECTURE SHORTS

(FOR IMMEDIATE RELEASE)

KAPLAN, MICH. PHILOSOPHER
TO SPEAK AT 'U' WED.

Abraham Kaplan, University of Michigan professor of philosophy, will deliver the fourth lecture in a University of Minnesota series on "Studies of the Mystical Experience."

Kaplan will talk at 8 p.m. Wednesday (May 10) in the Minnesota Museum of Natural History auditorium on the Minneapolis campus. His topic will be "Martin Buber and the Hassidic Tradition."

A native of Russia, Kaplan was professor and chairman of the philosophy department at UCLA before he went to Ann Arbor in 1963. He is a past president of the American Philosophical Association's Pacific division.

He has written numerous books and articles on philosophy, has received fellowships from both the Guggenheim and Rockefeller foundations, and has studied at the Center for Advanced Study in the Behavioral Sciences. He is a 1937 graduate of the College of St. Thomas, St. Paul, and received a doctor of philosophy degree from UCLA.

CHICAGO PROF
TO TALK ON ART

"The Final Flowering: German and Austrian Art in the 18th Century" will be discussed by Art Professor Edward Maser, of the University of Chicago, in a special lecture at the University of Minnesota Thursday, May 11.

The lecture, sponsored jointly by the University's departments of art history and of concerts and lectures, will be held at 3:30 p.m. in Room 50 Architecture. It will be open free to the public.

PHOTOCHEMISTRY MEET
HONORS U OF M
PROFESSOR LIVINGSTON

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

Photochemists from the United States, Canada and several European nations are attending a special meeting being held in honor of Professor Robert Livingston, who is retiring as chief of the University of Minnesota division of physical chemistry.

The meeting, which began Monday (May 8) and continues through noon Wednesday (May 10) is being held in the Hopkins House motel, 1501 hwy. 7, Hopkins. Sessions begin at 9 a.m. each day.

A dinner honoring Livingston will be held at 6 p.m. Tuesday (May 9).

Twenty-two scientific papers dealing with various aspects of photochemistry are being presented. Photochemistry deals with the effect of radiant energy, especially light, in causing chemical changes. The best-known example of photochemistry is photography.

Livingston has been chief of the physical chemistry division since July 1959. He joined the University faculty in 1927, after graduating from the University of California, Berkeley, and studying at the Institute of Physical Chemistry in Copenhagen, Denmark.

Livingston was one of seven University faculty members honored in 1948 by President Harry S. Truman and the armed forces for their "outstanding fidelity and meritorious conduct in the aid of the war effort against the common enemy." Livingston received certificates of appreciation from the Army and Navy for important experiments he conducted during World War II.

15 'U' ROTC
MIDSHIPMEN
TO BE HONORED

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Minneapolis---Fifteen midshipmen members of the Naval Reserve Officers Training unit at the University of Minnesota will accept personal and unit awards Thursday (May 11) at the annual Awards Day ceremonies at 11:15 a.m. on Northrop field.

U.S. Navy officials, commanding officers of the Naval ROTC unit and top representatives of area service organizations will make the presentations to the outstanding midshipmen, according to Captain James M. Marshall, USN, professor of naval science and unit commanding officer.

Receiving the awards will be:

Order of Polaris (trophy): Midshipman James R. Dybdal, Fergus Falls; presented by Martin L. Snoke, assistant dean of students.

General Dynamics award (plaque): Midshipman Terrence M. Keegan, 1454 Old Shakopee circle, Bloomington; presented by Dean Snoke.

Armed Forces Communications and Electronics Association award (gold medal): Midshipman Don L. Tilseth, 2851 East Lake of the Isles blvd., Minneapolis; presented by John Magnuson, Jr., president, Greater Minnesota chapter, Armed Forces Communications and Electronics Association.

Honorary Membership in the United States Naval Institute: Midshipman Laramie M. Winczewski, Dickinson, N.D./ and David A. Wlashin, Stillwater; presented by William L. Nunn, director of the department of University relations.

Reserve Officers Association (gold medal): Midshipman Edward C. Stelberg, 1372 N. Grotto st., St. Paul; presented by Captain Robert Murray, USNR.

(MORE)

Sons of the American Revolution award (gold medal): Midshipman Ross T. Petersen, Route #7, Excelsior; presented by the Reverend Joseph B. Head, president, Minneapolis chapter, SAR.

American Legion Military Excellence awards (gold medal): Midshipman Jon F. Silverberg, 1814 E. Minnehaha parkway, Minneapolis; (silver medal): Donald A. Beaufait, Grosse Pointe Woods, Mich.; presented by O.T. Bussard, chairman, American Legion national defense committee.

Minute Man Navy award (bronze medal): Midshipman Donald P. Paskewitz, 2124 W. Hoyt ave., St. Paul; presented by Colonel G.F. Bauman, USMC, commanding officer, Marine Air Reserve Training Detachment, Twin Cities Naval Air Station.

North American Aviation Corporation award: Midshipman Stelberg; presented by Commander William H. Robinson, USNR, Twin Cities Naval Air Station.

American Legion Scholastic Excellence awards (gold medal): Midshipman Wickham G. Smith, Whittier, Calif.; (silver medal) Midshipman David E. Cyrus, Grand Rapids, Minn.; presented by O.T. Bussard.

The Freshman award (The chief's Trophy): Midshipman Michael J. Mayfield, 5412 Sixty-seventh ave. N., Minneapolis; presented by Senior Chief Gunners Mate Laurence R. Williams, instructor, naval science.

Norman J. Garvey Military Rifle award (trophy): Midshipman Daniel M. Rau, Pine Creek; presented by Colonel William D. Beard, USA, professor of military science.

Tom Hastings Navigation award (trophy): Midshipman Jeffery R. Pier, Avon, S.D.; presented by Lieutenant Colonel James Suttie, USAF, professor of aerospace studies.

Twin Cities Council of the Navy League Pistol Award (trophy): Midshipman Winczewski; presented by Howard Milbert, president, Twin Cities Council of the Navy League.

(MORE)

Honorary Membership in the United States Naval Institute:
Midshipman Grant P. Gustafson, Excelsior; presented by Richard K. Sorenson, Congressional Medal of Honor winner from Robbinsdale.

Midshipman Gustafson, company commander of Company "B", will accept two awards for his company: Glen Reed, University assistant professor and assistant coach, intercollegiate athletics, will present the Gymkhana trophy; and Professor Rodney C. Loehr, chairman, University Senate committee on ROTC, will present the Color Company trophy.

In case of rain, the ceremonies will be held in the University Field House.

REAL ESTATE LAW
TO BE REVIEWED
IN SHORT COURSE

(FOR IMMEDIATE RELEASE)

UNIVERSITY OF MINNESOTA
NEWS SERVICE-220 MORRILL HALL
MINNEAPOLIS, MINNESOTA 55455
MAY 8, 1967

For further information, contact:
Beth Kent, 373-5166

A comprehensive one-and-a-half-day course designed to give Minnesota lawyers an in-depth review of real estate law and procedure will be held May 19 and 20 at the Curtis Hotel, Minneapolis.

The program, the Third Annual Real Estate Law Forum, has been developed by the department of continuing legal education of the General Extension Division of the University of Minnesota.

Cooperating with the department is the Section of Real Property Law of the Minnesota State Bar Association.

The first morning sessions will deal primarily with the Torrens Act, a system of land registration and an essential area of knowledge for legal real estate practice.

Six additional topics will be analyzed, including conveyancing and recording; land descriptions in surveying; the use of survivorship in estate planning; the rights and responsibilities of landlords and tenants; and federal tax liens.

As in previous years the department of continuing legal education has developed a practice manual containing detailed lecture outlines and written materials prepared by the speakers, which will be distributed free to course participants.

Cost of the course, including the practice manual, is \$25. For further information contact Karen M. Warnert, Registrar, Continuing Legal Education, 338 Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455; telephone 373-5386.

99 RETIRING FROM U OF M
REPRESENT 2,191 YEARS OF WORK

(FOR IMMEDIATE RELEASE)

For further information, contact:
DORIS FENICK

Minneapolis---When the annual Faculty and Staff Retirement Party at the University of Minnesota is held Friday, May 26, in the Frederick Mann Court in the Architecture building, 99 faculty and staff members will be honored for their total of 2,191 years of service to the University.

The list of names of those retiring during the 1966-67 fiscal year (July 1-June 30) includes 19 faculty members with 752 years of service and 80 civil service employees who have been employed at the University for a total of 1,439 years, according to Ray F. Archer, director of the department of insurance and retirement.

Each of the honored members of the University family will receive a Certificate of Merit stating:

"The Regents and the President of the University of Minnesota, in recognition of devoted service, express their gratitude and high esteem through the presentation of this Certificate of Merit to---whose name is inscribed in official records for all time as one who has contributed to our university and our state."

University President O. Meredith Wilson, Vice Presidents Laurence R. Lunden and Stanley J. Wenberg, and Elmer W. Learn, assistant to the president, will take part in the ceremonies.

Topping the list of faculty members, in matter of longevity of service, are six with 40 or more years: Professor Gertrude Gilman, director of University Hospitals (through last Dec. 31), 46 years; Professor Mary E. Malcolm, music department, 45 years; Professor Helen Hart, department of plant pathology and physiology, University of Minnesota, Duluth, and Professor Richard L. Kozelka, business administration, each with 44 years; Dr. Owen H. Wangensteen, professor and head of the department of surgery in the College of Medical Sciences, 42 years; and Chemistry Professor Robert S. Livingston, 40 years.

(MORE)

Retiring after 30 or more years on the University faculty will be Neith E. Headley, assistant professor of elementary education, and Ione Jackson, associate professor of dentistry, both with 39 years; Theodore S. Weir, associate professor and assistant superintendent, Excelsior fruit farm, 38 years; Harold D. Smith, director, University Bookstores, 37 years; and Professors Lawrence R. Boies, otolaryngology, and Willem J. Luyten, astronomy, each with 36 years.

Heading the longevity list of civil service employees, and the only retiree this year with 50 years, is Arthur Mouseau, a gardener in the horticultural department.

Two civil service employees have records of 49 years of employment---Raphael Merrick, principal laboratory attendant, chemistry stockroom, and John E. Splan, chemistry laboratory service superintendent.

Two others have over-40-year records---Clara C. Johnson, food service worker in Comstock hall, 44 years, and William H. Johnson, storehouse dock superintendent, general storehouse, 41 years.

PUBLIC'S RESPONSIBILITY
TOWARD BROADCASTING,
THEME OF 'U' MEET

(FOR IMMEDIATE RELEASE)

Four national communications specialists will be the major speakers at the second annual Symposium on Communication, scheduled for Saturday (May 13) in the Minnesota Museum of Natural History. Theme of the symposium will be "The Public's Responsibility Toward Broadcasting."

College teachers of speech and communications from a five-state area, as well as professional broadcasters and interested laymen, are invited to attend the meeting.

The major speakers will be George Smith, chief of the Broadcast Bureau, Federal Communications Commission, Washington, D. C.; Robert Lemon, a vice president of the National Broadcasting Co., Chicago; Professor Robert R. Smith of Boston University's School of Public Communication; and the Reverend Warren Ebinger of Naperville, Ill., president of the American Council for Better Broadcasts with TACT (Television Action Committee for Today and Tomorrow).

The meeting will start at 9:15 a.m., with a presentation by each of the four speakers followed by discussion among themselves and then questions from the audience. The discussion will be continued after an optional luncheon. The participants will discuss ways in which members of the public and of special-interest groups are making their influence felt on broadcasting, and how effective these are.

The symposium will be sponsored by the University of Minnesota's department of speech, communication and theatre arts, under the direction of Associate Professor Donald R. Browne.

2 'U' PROFS EDIT
BOOK ON PROFITS

"Profits in the Modern Economy" is the title of a just-published book edited by two University of Minnesota faculty members: Professor Harold W. Stevenson, professor of finance and insurance, and J. Russell Nelson, associate professor of finance, both in the School of Business Administration. The book contains 19 papers authored by executives, professors and government officials with various viewpoints on corporate profits. Among the contributors are Walter W. Heller, University professor of economics, Professor Francis M. Boddy, associate dean of the Graduate School, Henry Ford II of the Ford Motor Co., and Frederick L. Deming of the U. S. Treasury Department.

VOLUNTARY GROUPS
LISTED IN DIRECTORY

A new publication that will be useful to persons working with state organizations, called "A Directory of Voluntary Associations," now is available through the University of Minnesota General Extension Division. The 46-page paperback is a revised and updated version of a similar work published in 1957, and is available for \$1 from the State Organization Service, 122 Social Science Building, University of Minnesota, Minneapolis, Minn. 55455.

BENSON TO INTERN
WITH OHIO PRESIDENT

Frank T. Benson, associate professor of speech and administrative assistant in the University of Minnesota's General College, has received one of the American Council on Education's fellowships in academic administration for 1967-68. He will spend the academic year as an intern under President Vernon Alden of Ohio University (Athens, Ohio). The ACE this year awarded 50 fellowships for interning under a college president; last year it awarded 38. The program was begun in 1965, financed by the Ford Foundation.

INTERNATIONAL COLLEGE UNIONS
GROUP ELECTS SIGGELKOW

Edwin O. Siggelkow, who will become director of Coffman Memorial Union on the University of Minnesota's Minneapolis campus July 1, was named president-elect of the Association of College Unions---International, at the group's convention held recently in Philadelphia. He will take office at the 1968 annual meeting, set for Chicago. Siggelkow currently is director of the Kirby Student Center and coordinator of student activities at the University of Minnesota, Duluth.

In addition, three CMU staff members were elected to standing committees of the Association of College Unions---International. Tom Reeve, program director, was placed on the professional development committee; Carl E. Nelson, Jr., assistant program director, on the international relations committee; and Tom Stark, program consultant, on the committee on the arts.

DR. GOOD DELIVERS
DYER LECTURE IN D.C.

Dr. Robert A. Good, professor of pediatrics and microbiology in the University of Minnesota's College of Medical Sciences, delivered the 16th annual Dyer Lecture in Washington, D. C., recently. He spoke at the National Institutes of Health on "Development and Involution of Lymphoid Tissue and Immunologic Capacities." Good has been the American Legion Heart Research professor at the University since 1954.

HELLER, 4 OTHERS
HONOR OBERLIN PROF

Walter W. Heller, economics professor at the University of Minnesota, was one of five leading economists and alumni of Oberlin College who returned to Oberlin (Ohio) recently to honor Professor Ben W. Lewis, retiring after 42 years on the economics faculty there. Heller, who received a B.A. from Oberlin in 1935 and an LL.D. in 1964, spoke at a private dinner, while the other four gave public lectures in a two-day symposium. (Heller served as chairman of the President's Council of Economic Advisers from 1961-64.)

ZIEBARTH TO PRESIDE
AT DEANS' CONFERENCE

Dean E. W. Ziebarth of the College of Liberal Arts, University of Minnesota, will preside at a three-day Conference of Deans of Arts and Sciences, to be held at the University June 11-13. Theme of the conference will be "Liberal Arts in the Modern World," with several sessions devoted to special problems faced by arts and sciences colleges which are part of a large university organization. Although it is called the Missouri Valley Conference, the group includes universities from Penn State on the east, and Oklahoma, New Mexico and Wyoming on the south and west. Around 25 universities will be represented at the meeting.

2 AT 'U' TO STUDY
IN STATE DEPARTMENT

Richard N. Blue, assistant professor of political science at the University of Minnesota, has been selected to serve as a U. S. State Department senior fellow this summer in Washington, D. C. John C. Chalberg, graduate student in history, will participate in the State Department's Summer Student Intern Program.

State Department senior fellowships, which go to instructors and assistant professors who teach in some area related to international affairs, are designed to give the teacher first-hand observation of the State Department's operations in foreign policy-making. Blue teaches courses in U. S. foreign policy, international politics, and the government and politics of Southeast Asia, and has a special interest in American economic and technical assistance programs in India.

The Summer Student Intern Program is for college seniors and graduate students who have passed the written exam for the Foreign Service. Each intern is assigned to work with one of the operating units of the State Department. The interns also attend a series of lectures and seminars and meet senior officials in various federal agencies. Chalberg, who was chosen competitively by a University faculty committee, is specializing in the history of U. S. foreign policy.

'U' HIGH SCHOOL
OFFERS 5-WEEK
SUMMER COURSES

(FOR IMMEDIATE RELEASE)

High school students may enroll now for University high school's summer session, offering a variety of enrichment and remedial courses for students from the 7th through 12th grade.

Some of the courses being offered are field biology, individualized laboratory investigation, computer-assisted applications in math and science, world trouble spots, individual study of the English language, and better writing.

The summer session will last five weeks beginning June 12. Courses will be offered in the morning only, and students will be limited to two classes.

The courses are open to any high school student regardless of where he lives. Brochures and further information are available from University High School, Peik Hall, University of Minnesota, Minneapolis 55455.

NATURAL HISTORY MUSEUM
WILL BE RENAMED
FOR JAMES FORD BELL

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

Minneapolis---The Minnesota Museum of Natural History will be renamed in honor of the late James Ford Bell, former University of Minnesota regent and major contributor to the museum, in a ceremony at 2:45 p.m. Friday, May 19.

Three of Mr. Bell's four children, plus several of his grandchildren, will attend the ceremony at the museum, on the University's Minneapolis campus. A stone slab bearing the name "James Ford Bell Museum of Natural History" will be uncovered over the museum entrance, and a plaque commemorating Bell will be unveiled in the museum lobby.

Children of James Ford Bell who will attend are Mr. and Mrs. Charles H. Bell of Wayzata, Mr. and Mrs. Ford Bell of Hopkins, and Samuel H. Bell of Chandler, Ariz. A daughter, Mrs. Herbert O. Perry of Rancho Santa Fe, Calif., is abroad and thus unable to attend.

Host and hostess for the affair will be President and Mrs. O. Meredith Wilson. Guests will include Laurence R. Lunden, vice president for business administration; Stanley J. Wenberg, vice president for educational relationships and development; Walter J. Breckenridge, museum director; Richard S. Caldecott, dean of the College of Biological Sciences; and Whitney Eastman, chairman of the finance committee which raised the money for the recent addition to the museum; and their wives.

An open house for invited guests will follow the ceremony, at 3 p.m.

Members of the Bell family will have lunch with President and Mrs. Wilson in the University Campus Club at 1 p.m., preceding the ceremony.

The founder of General Mills, Inc., James Ford Bell served on the University Board of Regents from 1939 until his death on May 7, 1961. He was a 1901 graduate of the University.

A lover of the outdoors, Bell financed the major part of the construction of the museum in 1940 and contributed many specimens and exhibits. The museum had been housed in a number of campus locations since its beginning in 1875.

Bell also spearheaded a drive to raise funds for the new annex in 1960, contributing \$25,000 of the more than \$300,000 which was raised. The State Legislature provided additional funds. The first and fourth floors of the new wing contain offices and the second and third floors will contain new exhibits when they are completed.

Bell also donated his collection of books on Americana to the University. These are housed in the James Ford Bell room in Walter library.

The museum was an independent unit of the University from 1919 to 1966, when it became part of the new College of Biological Sciences. It serves as a major state research and education center in natural history.

STOKELY CARMICHAEL
TO SPEAK AT 'U'
AT 7:30 P.M. MONDAY

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Minneapolis---Stokely Carmichael, national integrationist and leader of the Student Non-violent Coordinating Committee (SNCC) will speak at 7:30 p.m. Monday, (May 15) at the University of Minnesota.

Jointly sponsoring Carmichael's appearance in Williams Arena will be the newly formed University student group, Students for Racial Progress (STRAP), the Minnesota Student Association (MSA), the Coffman Union Board of Governors (UBOG), Students for a Democratic Society (SDS) and the University YMCA and YWCA, according to Lucian (Scotty) Stone, 601 Fifth ave. SE., Minneapolis, sophomore political science and pre-law student and STRAP president.

While there will be no charge for the meeting, which will be open to the public, a cash donation will be taken during the program.

This parent chapter of STRAP, Scott said, hopes to establish chapters in other educational institutions throughout the United States this summer. The group has organized "to present a realistic view of the American Negro in relation to his cultural and social heritage, with emphasis on the academic community," Stone said.

While the initiation of Carmichael's campus appearance was its first activity as a recognized campus student group, the organization plans to continue its activity with other campus meetings and public meetings through the summer sessions, Stone added.

-U N S-

Note to Editors: A news conference for Carmichael will be held on his arrival on campus, at 3:30 p.m. in Murphy hall auditorium.

JAY PHILLIPS DONATES
\$1.5 MILLION TO U OF M FOR
MEDICAL RESEARCH CENTER

For further information, contact:
NANCY PIRSIG

(FOR RELEASE AT 11:30 A.M. FRIDAY, MAY 12)

Minneapolis---The University of Minnesota Foundation today accepted a gift of \$1.5 million from Jay Phillips, Minneapolis businessman and philanthropist, which it then presented to the University Board of Regents. This is one of the largest private gifts in Minnesota philanthropy.

The funds are for a medical research building, to be called the Jay Phillips-Owen H. Wangensteen Research Center. Dr. Wangensteen, world-renowned surgeon who will retire in June after 37 years as head of the department of surgery in the University's College of Medical Sciences, is a longtime friend of Phillips.

The gift was presented by Phillips in a brief ceremony at the monthly meeting of the Board of Regents, held in the Arthur Upson room of Walter Library. The regents then gave Phillips a citation of appreciation.

Attending for the occasion were several board members and officers of the University of Minnesota Foundation---of which Phillips is secretary---including Carlyle E. Anderson of Evanston, Ill., chairman of the board, and Arnulf Ueland, Minneapolis banker, foundation president.

The University Foundation, formed in 1962, seeks private funds for important needs of the University for which state tax money is generally not available.

The Jay Phillips-Owen H. Wangensteen Research Center will house research laboratories and other facilities to serve departments within the College of Medical Sciences, including the departments of medicine, pediatrics, obstetrics and gynecology, otolaryngology, ophthalmology and radiology. The research will be closely related to the clinical care and treatment of patients. The Center will include a laboratory for Dr. Wangensteen.

(MORE)

Because the new center is for medical research, it will be eligible for matching funds from the U.S. Public Health Service, and thus will be approximately a \$3-million building. It will be an integral part of the University's plans for long-range expansion in the health sciences, for which planning funds have been requested from the State Legislature. Its proposed location is next to the Diehl hall laboratories and bio-medical library.

University President O. Meredith Wilson said, speaking of Phillips, "He is a warm, generous spirit who, even when his own strength was impaired, gave liberally of himself, of his time and energy to make sure that the University of Minnesota Foundation was well launched...The spirit of his gift even exceeds its material value. Jay Phillips, Rose Phillips and their family have a special place of honor at the University..."

Dr. Robert B. Howard, dean of the College of Medical Sciences, stated, "My immense gratitude to Mr. Phillips is shared by the entire faculty. His gift is an excellent example of how private funds can help develop the necessary physical facilities at the University and also demonstrates that a faculty of high quality, such as the one we have here, is able to attract the private financial support we need so vitally. The new Research Center will certainly ease some of the extreme crowding we are presently suffering."

Carlyle E. Anderson, chairman of the board of the Foundation, commented, "That dramatic benefits to man's physical life will flow from Jay's gift is obvious. Possibly not so obvious is the stimulus it will provide those of us who are considering what philanthropic responsibilities we should meet to nurture the University and all that she does."

Phillips is chairman of the board of Ed Phillips and Sons Co., largest independent wholesale distributor of distilled spirits, a company which was founded by his father in 1912 as a newspaper, candy and tobacco agency in their home town of Manitowoc, Wis. His son, Morton B. Phillips, is president.

Education and medicine are two of Phillips' major interests, and he selected the University for his most recent gift both because of its excellent accomplishments in these areas and because its influence is so far-reaching in the state, the nation and the world.

"The University does a fantastic job in training and teaching doctors," he has said. "I believe it has one of the best medical schools in the country."

Phillips also has contributed heavily to Mt. Sinai Hospital, Minneapolis, and the National Society for Crippled Children and Adults, Inc. In addition, he is a director of the Greater Minneapolis Chamber of Commerce (president in 1961); of the First National Bank, Minneapolis; of North Central Airlines; of National Presto Industries, Inc., Eau Claire, Wis.; of the Minneapolis Symphony Orchestra; of the Minneapolis Federation for Jewish Service, and of the Minneapolis chapter, Boy Scouts of America. He is chairman of the board of Century Metalcraft Corp., Los Angeles, and a Fellow and Trustee of Brandeis University, Waltham, Mass.

In attendance for the late-morning ceremony were a number of Governor John Sargent Pillsbury Fellows---major donors to the Foundation---including Mrs. Frank W. Bowman, Mr. and Mrs. Curtis L. Carlson, Dr. William F. Braasch, Mrs. John S. Dalrymple, Mr. Thomas F. Ellerbe, Mr. and Mrs. Paul W. Frenzel, Mrs. Richard P. Gale, Mr. and Mrs. Louis Gross, Mrs. Lloyd A. Hatch, Mr. Henry C. Mackall, Mr. Samuel H. Maslon, Mr. Cyril P. Pesek, Mr. and Mrs. John S. Pillsbury, Sr., Mr. John S. Pillsbury, Jr., Mr. Edmond R. Ruben, Mr. Alan K. Ruvelson, Mr. and Mrs. Parker D. Sanders, Mrs. Walter H. Ude and Mr. and Mrs. Edgar F. Zelle. Jay Phillips' son, Morton, and his wife also attended.

INTERNATIONAL VETERINARY
MEDICINE POSITION
CREATED AT U OF M

For further information, contact:
Gerald Knox, 373-5830

(FOR RELEASE AT 10 A.M., FRIDAY, MAY 12)

Dr. Hannis L. Stoddard, regional veterinarian for South America for the Food and Agriculture Organization (FAO), United Nations, was named professor of international veterinary medicine at the University of Minnesota today by the Board of Regents.

Dr. Stoddard, 44, is presently stationed in Santiago, Chile, and will assume his new post in the University's College of Veterinary Medicine July 1.

Dr. Stoddard's appointment is the first to be made at the University in the area of international veterinary medicine---and is one of the first such positions in the nation. The new post was created by the University's Office of International Programs, from a Ford Foundation grant which has allowed the Office to start other new international positions.

Dr. Stoddard has been associated with the FAO since 1956, first in Paraguay and then as team leader of the international cinderpest control campaign in Cambodia. He has been FAO's regional veterinarian for all of South America since 1963.

A 1943 graduate of Texas A&M College (bachelor of science), Dr. Stoddard also received a doctor of veterinary medicine degree from Texas A&M in 1947. Further, he received a diploma in tropical veterinary medicine from the University of Edinburgh, Scotland, in 1961.

He is a member of numerous professional organizations, and is presently a consultant in animal health and production to the World Bank, the Inter-American Development Bank, and the United Nations Development Program. He is also a veterinary consultant to the Rockefeller mission in Chile, and various other United States AID missions throughout Latin America.

BISHOP PIKE TO TALK
ON SCIENCE, RELIGION
AT 'U' THURSDAY

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Bishop James A. Pike, noted Episcopal theologian, scholar, author and teacher, will speak on "The Real Conflict Between Science and Religion" at the University of Minnesota Thursday (May 18).

Pike, currently teaching in the Institute for Democratic Studies, Santa Barbara, Calif., will deliver this major public address at 3:15 p.m. in Coffman Memorial Union main ballroom, according to The Reverend G. Russell Hatton, chaplain and director, Episcopal Student Center.

The talk will be sponsored jointly by the University Council of Religious Advisers and the Coffman Union Board of Governors.

Other public and private appearances of Bishop Pike on Thursday will include a noon luncheon given by the College of Liberal Arts Lower Division Honors Colloquia at which he will speak on "Religion in Higher Education," and a meeting at 8 p.m. at Hillel Foundation where he and Rabbi Robert Gordis, professor of the Bible, Jewish Theological Seminary of America, will conduct a dialogue on "The Image of God in Our Time." The meeting at Hillel Foundation will be open to the public.

INDIAN AFFAIRS OFFICIAL
TO SPEAK AT UNIVERSITY
EDUCATION DAY PROGRAM

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

"Unicorn Horns and Other Nostrums" will be discussed in the annual Education Day convocation to be given Wednesday (May 17) at the University of Minnesota.

Carl L. Marburger, assistant commissioner for education in the Bureau of Indian Affairs, U. S. Department of the Interior, could have selected this novel title to intrigue educators, students and the general public into attending the talk, according to Marcia Edwards, associate dean of the College of Education.

"His experiences in the areas of education of disadvantaged children and in the urban problems of minority groups are exceptional," she pointed out.

The convocation at 11:15 a.m. in Murphy hall auditorium will be open free to the public and is sponsored by the department of concerts and lectures in cooperation with the College of Education.

A teacher who has also served as an officer in the U.S. Army Security Agency where he specialized in cryptanalysis and traffic analysis, Marburger was divisional director of the Great Cities Project for the Detroit board of education and spent nine months in 1964 as director of Task Force on Disadvantaged Youth, Office of Education and Office of Economic Opportunity, where he developed the guidelines for education for the Economic Opportunity Act of 1964.

He returned to the Detroit board of education in 1965 as assistant superintendent for the Detroit public schools, and assumed his present position with the Bureau of Indian Affairs in July, 1966.

UNIVERSITY OF MINNESOTA LECTURE SHORTS

(FOR IMMEDIATE RELEASE)

COLUMBIA ANTHROPOLOGIST
TO SPEAK ON ECOLOGY

"Ecology, Cultural and Noncultural" will be the topic of a special public lecture at the University of Minnesota by Andrew P. Vayda, associate professor of anthropology at Columbia University.

Vayda will speak in Murphy hall auditorium on the Minneapolis campus at 8 p.m. Wednesday (May 17). The lecture is sponsored by the departments of anthropology and of concerts and lectures.

CHEMIST TO GIVE
PHARMACY LECTURE

Professor Corwin Hansch will speak at the University of Minnesota Wednesday (May 17) on "Substituent Constants in Drug Design." He will talk at 4 p.m. in Room 150 Appleby hall.

The talk, open to anyone, will be one in a visiting lecture series sponsored by the University's College of Pharmacy.

Hansch, chemistry professor at Pomona College, Claremont, Calif., has been successful in correlating the physico-chemical properties of molecules with their biological activity, and has developed the so-called Hansch equation to treat biological data mathematically. Hansch has provided the medicinal chemist with a powerful tool which, in the five years since its inception, has played an increasingly important role in revolutionizing the approaches to drug design.

TRI-SERVICE REVIEW

DORIS FENICK

Minneapolis---Army and Air Force cadets and Naval midshipmen, members of the Reserve Officers Training units at the University of Minnesota, will pass in review before University, State and military "top brass" when they hold their annual Tri-Service Review Friday (May 19) in Memorial stadium.

Musician members of the units will make up the Tri-Service band leading the combined corps; service queens and color girls will salute commanders of honor companies, and parents and friends will watch the precision marching of the units, according to Lieutenant Colonel James Suttie, USAF, professor of aerospace studies and commanding officer of the Air Force ROTC unit.

William G. Shepherd, University vice president for academic administration, will take the review.

Other members of the reviewing party will be the three commanding officers of the University's ROTC units---Captain James M. Marshall, USN, Colonel William D. Beard, USA, and Colonel Suttie---and Professor Rodney C. Loehr, chairman of the senate faculty committee on ROTC.

Honored guests at the review will include Brigadier General John R. Dolny, commander, 133rd Military Airlift Wing, St. Paul, and the donors of two of the top annual awards that are presented at this time---Mrs. Ray S. Miller, 1544 Edgumbe rd., St. Paul, who will present the Ray S. Miller award, and Mr. and Mrs. William E. G. Watson, Minneapolis, who will present the John W. Watson award.

Color girls who will decorate the honor companies of the three services will be Carol Johnson, 1868 Portland ave., St. Paul, the Army Queen; Mary McQuiston, 5090 N. Lexington ave., St. Paul, Navy Color Girl; and Sharon Williams, 1215 Twenty-seventh ave. NE., Minneapolis, Air Force Color Girl.

(MORE)

Commander of the troops will be Air Force Cadet Colonel James C. Diamond, 875 Osceola, St. Paul.

Leading their respective service outfits will be the Army ROTC commander, Cadet Colonel Lawrence P. Larson, 4909 Eleventh ave. S., Minneapolis; Naval ROTC Battalion Commander, Midshipman Captain Don L. Tilseth, 2851 E. Lake of the Isles blvd., Minneapolis; and Air Force Group Commander, Cadet Colonel Joseph M. LaBat, 5300 Georgia ave. N., Crystal.

Highest group honors of the year will go to the Army Honor Company, "C" company, commanded by Cadet Captain Curtis Houston, 5644 Humboldt ave. S., Minneapolis; Navy Color Company, "B" Company, commanded by Midshipman Lieutenant Grant P. Gustafson, Excelsior; and to Air Force Honor Squadron, Squadron 1, commanded by Cadet Lieutenant Colonel Peter D. Abler, 1340 Snelling ave., St. Paul.

At this annual review, only the highest over-all awards and the top award for each of the service units is presented, Col. Suttie pointed out. Receiving the Northwest Post, American Ordnance Association award (a presentation sword) will be Air Force Cadet Robert G. O'Malley, 1890 Summit ave., St. Paul. This is a Tri-Service Review award presented to the top student in military aptitude and in grades.

The Rodney C. Loehr award to the top student in grades in the three services this year will go to Air Force Cadet Allan V. Shukle, 1802 Hague ave., St. Paul.

The John W. Watson award (a gold watch) will go to Army ROTC Cadet Colonel Larson, while the Twin Cities Council of the Navy League award (a sword) will go to Midshipman Captain Tilseth.

Air Force Cadet O'Malley will receive the Ray S. Miller trophy.

The Tri-Service Athletic award, a subject of intense competition between the three services during the entire year, this year will go to the Air Force unit, Col. Suttie said. Accepting the award for the unit will be Cadet Paul W. Lavender, Jr., 2098 Pinehurst, St. Paul.

UNIVERSITY OF MINNESOTA NEWS NOTES

(FOR IMMEDIATE RELEASE)

UNIVERSITY PROFESSOR
HEADS NATIONAL GROUP

Gerhard Neubeck, professor of family studies at the University of Minnesota who has directed the University's marriage counseling training program (for post-doctoral and post-Master of Social Work students) for the last three years, has been elected president-elect of the American Association of Marriage Counselors in nationwide balloting. He will take office in fall 1968. The association is a group of social workers, psychologists, and other professionals who qualify as marriage counselors, with headquarters in Madison, N.J. It is devoted to maintaining high standards in marriage counseling, and to its development as a profession.

POET BERRYMAN ELECTED
TO AMERICAN ACADEMY

John Berryman, Pulitzer-prize-winning poet and humanities professor at the University of Minnesota, has been elected to the American Academy of Arts and Sciences, the academy announced this week.

THREE TEACHERS ATTEND
PHYSICAL THERAPY INSTITUTE

Three teachers in the University of Minnesota course in physical therapy recently attended the 13th annual institute for physical therapy teachers, sponsored by the American Physical Therapy Association and the U.S. Vocational Rehabilitation Administration. The program was held at the University of Nebraska with the theme, "Implementation of the Evaluation Process in Physical Therapy Education." Those attending were Helen V. Skowlund and James F. Pohtilla, assistant professors, and Instructor Shelby J. Clayson.

AMERICAN BUDDHIST, 2 OTHERS
TO PLEAD FOR PEACE IN VIETNAM

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Three religious leaders will plead for an extension of a possible truce in Vietnam which has been proposed to honor the celebration of Buddha's birthday, in a program to be held Friday (May 19) at the University of Minnesota.

The three, representing the American Buddhist, Catholic and Protestant faiths, will speak at 8 p.m. Friday in Mayo auditorium. The program will be co-sponsored by the University chapter of the Committee for a Sane Nuclear Policy (SANE), the Twin City Buddhist Association and the University Student Buddhist Association.

Speaking for the American Buddhists will be the Reverend Hogen Fujimoto, director of youth activities of the Buddhist Churches of America, who will be in the Twin Cities to address the Twin City Buddhist Association Thursday night. Speaking as a Catholic will be Father Brice Howard, assistant chaplain and professor of philosophy at St. John's University, Collegeville, and as a Protestant, the Reverend Alvin Currier, assistant chaplain at Macalester College, St. Paul.

The appearance of Rev. Fujimoto is believed to be the first time the American Buddhists have spoken out against the Vietnam war, and the first time they will have joined two other large church groups in attacking the war on purely religious grounds, according to John Huebner, coordinator of data processing for the University's Student Housing Bureau and an official of the campus SANE chapter.

Buddha's birthday is May 23. While a truce at that time is not assured, the South Vietnamese government has proposed a one-day halt of military action and the North Vietnamese have proposed a two-day halt.

The Rev. Fujimoto is a native American who holds a bachelor's degree from the University of California at Santa Barbara, and an M.A. from Ryukoku University in Kyoto, Japan. He served as minister of three American Buddhist churches---at Los Angeles, Fresno and Placer County, all in California---before accepting his present position, according to Chi-jun Yakumo, president of the University Buddhist Association.

38 FELLOWSHIPS AVAILABLE
FOR GRADUATE STUDY
IN 'U' LIBRARY SCHOOL

Minneapolis---Thirty-eight fellowships for graduate study in library science and information science will be available at the University of Minnesota for the 1967-68 academic year, according to Professor David K. Berninghausen, director of the Library School at the University.

Of these, 20 career-entrance fellowships, at the master's degree level, will provide stipends of \$2,650 for a calendar year of study, plus \$600 for each dependent, travel expenses and exemption from tuition.

Seven fellowships for experienced professional librarians who hold master's degrees from American Library Association-accredited library schools also are available.

These post-master's fellowships, Berninghausen said, will provide \$6,020 for a calendar year of study plus \$600 for each dependent, travel expenses and exemption from tuition.

Three of these seven fellowships are for study toward a doctor of philosophy degree in a subject field with a minor in library science; two are available for potential teachers of library science who do not necessarily plan to complete a doctorate. The other two are for advanced study in library science and other fields as preparation for specialized activities in libraries and information sciences other than teaching.

All of these 27 fellowships are supported by funds from the U.S. Office of Education under the Higher Education Act of 1965.

The University's Library School also has available 11 master's-degree-level fellowships for the preparation of biomedical librarians. These awards are supported by funds provided under the Medical Library Assistance Act.

During the academic year 1966-67, Berninghausen said, the University Library School will have graduated about 70 qualified librarians. He added: "If this number can be doubled within the next two years, it will still be far too few librarians to meet the demand."

'U' GENERAL EXTENSION
DIVISION ADDS PROGRAM
IN URBAN AFFAIRS

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

A new program of continuing education in urban affairs is now underway at the University of Minnesota.

Administered by the State Organization Service of the University's General Extension Division, the program is made possible by a grant from the U. S. Office of Education under Title I of the Higher Education Act.

The purpose of the program is to raise the level of understanding of urban affairs on the part of adults. It aims at bringing together the citizen who wants to know, and the urban expert who is willing to share his knowledge.

Services of the program include an information referral service, assistance with program planning, and a pamphlet shop, where the program makes available a collection of free and inexpensive materials written especially for lay readers. Its main function is to help existing groups in the state which are already concerned about urban problems such as the League of Women Voters, community action groups, political party clubs, etc.

Director of the program is William C. Rogers, who is also director of the State Organization Service. Mrs. Dorothy Anderson serves as program coordinator.

A new addition to the University of Minnesota staff is Danforth H. Leach, associate director of the program of continuing education in urban affairs. Leach has had extensive experience in Minnesota government as an assistant county attorney and village attorney in the Crow Wing county area. In addition to having a private law practice, Leach recently was associated with Standard Oil as a real estate and property tax representative.

Anyone who would like additional information about the program should write to Continuing Education in Urban Affairs, 122 Social Sciences Building, University of Minnesota, Minneapolis, Minn., 55455.

'U' Archaeology Student's Project---

COPPER ARTIFACTS, FOUND BY MILLE LACS
AID STUDY OF ANCIENT MINNESOTA INDIANS

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

New insight into the lives of some ancient American Indians, who were making tools and weapons of copper long before the white man arrived in North America, may be gained from artifacts now being studied by a University of Minnesota graduate student.

The artifacts, both copper and stone, came from an archaeological excavation at Petaga Point, in the new Mille Lacs-Kathio State Park, at the southwestern edge of Mille Lacs lake.

The copper artifacts were the first ever scientifically excavated in Minnesota.

The Indians who made and used these copper items belonged to the Old Copper culture, one of the least understood prehistoric cultures in the United States, according to Elden Johnson, state archaeologist and associate chairman of the University anthropology department.

This pre-pottery culture existed during the Late Archaic period (about 1000 to 3 B.C.) and, in the United States, was characterized by highly specialized, very diverse groups of people.

Studying the artifacts under Johnson's tutelage is Peter Bleed, graduate student in archaeology, who directed the excavation project last summer. He is preparing a report on his findings as a master's thesis.

Bleed said Petaga Point is only the eighth Old Copper culture site to be extensively excavated in the United States. The great number of associated copper and stone artifacts found there makes Petaga Point an archaeologically important site, Bleed said.

Of the other seven sites, all of which are in Wisconsin, only two contained significant quantities of copper. Those two contained very few stone artifacts, however, and Bleed noted that a relationship between copper and stone artifacts must be established before the Old Copper culture can be fully understood.

(MORE)

Copper found at the Petaga Point site includes several conical socketed points, a crescent-shaped knife, a possible harpoon, several awls and numerous nuggets of unworked copper. Late Archaic-type stone artifacts found include spear points, heavy knives, side scrapers (apparently used for cleaning flesh off animal hides) and heavy chopping tools.

The stone items are similar to types found in many Archaic sites in the eastern United States, Bleed said.

Research on the Petaga Point findings is complicated by two factors, Bleed said. First, the site was occupied by another group of Indians during the Late Woodland culture period (about 1000 A.D.); second, the earth was plowed by a farmer who homesteaded the area in the early part of the 20th century.

As a result, the artifacts of the two cultures have become somewhat mixed together, creating a sorting job for the archaeologists.

The differences in the two cultures are obvious. The Late Archaic people, who were hunters, made their tools and weapon points from copper and heavy slate rocks and had no pottery. The Late Woodland Indians, who depended on wild rice for a substantial part of their diet, made pottery, had smaller weapons and tools and did not use any copper.

Bleed said spherical, granular rocks apparently used to hammer the raw copper into usable shapes were found at Petaga Point. These, and the copper nuggets, are evidence that tools and weapons were made there.

Since raw copper is not native to the area, it is believed the nuggets came from prehistoric copper mines which have been found on Isle Royale and in other parts of the Great Lakes states.

The center of the Old Copper culture area was in eastern Wisconsin, Bleed said. From there the copper-using people fanned out into Minnesota, northern Illinois, Indiana, Ontario and along the Great Lakes as far east as New York state.

(MORE)

For some reason, the use of copper eventually shifted from tool and weapons-making to jewelry, Bleed said. By the Late Woodland period, the use of copper had ceased almost entirely.

Copper artifacts were first discovered at Petaga Point in the 1920s when the homesteader, T. E. Moore, turned up some spear points with his plow. He sold them to a Chicago collector in the '30s and they cannot be traced.

The University has photos of the Moore artifacts and their discovery was noted by Lloyd A. Wilford, who was then a University anthropology professor.

Leland R. Cooper, retired Hamline University anthropology professor, conducted an archaeological survey of the area in 1965, when work on the state park camping site was begun. It was decided that Petaga Point was worthy of further investigation.

Bleed said the 1966 excavation had a dual purpose---to obtain a total history of the point, since park facilities were to be constructed there, and to see if copper artifacts could be found in direct association with stone artifacts in order to link the Old Copper tools to an Archaic culture.

A crew of from 10 to 18 men worked from June 16 through Sept. 1, digging in the most promising spots in an area about 250 yards by 300 yards in size. The site is between Lake Ogechie and the headwaters of the Rum river, near the southwest shore of Mille Lacs. The project was financed by the Minnesota Outdoor Recreation Resources Commission.

Late Woodland artifacts found, in addition to the Old Copper items, included 12,222 pot shards, rice threshing jigs, many stone tools and arrow heads and a rice parching ring. Johnson is conducting a study of the Late Woodland occupation, which occurred some 2,000 years after the Late Archaic people used the site.

PROF ROBERT TURNER
TO SPEAK AT 'U'
ON ECONOMIC POLICY

(FOR IMMEDIATE RELEASE)

Robert C. Turner, distinguished service professor of business economics and public policy at Indiana University, will speak at the University of Minnesota Thursday (May 25) on "New Directions in Economic Policy for Stability and Growth."

The talk, free and open to the public, will be at 3:30 p.m. Thursday in Room 10 Classroom building, West Bank area. It is the second annual Alan K. Ruvelson lecture on the relationships between business and government, presented by the University's Graduate School of Business Administration.

Professor Turner has an extensive record of public service dating from 1941, when he became an economist with the War Production Board. Following World War II, he served for a year as director of the Bureau of International Supply in the Civilian Production Administration and for two years as an economist on the White House staff. In 1948, he became professor of business at Indiana University, a title later changed to professor and chairman of the department of business economics and public policy.

He was recalled to Washington in 1952 to serve on President Truman's Council of Economic Advisers, and again in January of 1961, as assistant director of the Bureau of the Budget. While on leave, in May 1961, Turner relinquished his administrative duties at I.U. to accept that university's highest award---Distinguished Service Professor. Since

(MORE)

returning to Indiana in September 1962, he has served in a consultant capacity or on advisory committees to the Council of Economic Advisers, the Secretary of the Treasury, the Bureau of the Budget, the Post Office and Commerce Departments, international conferences and the government of India; and, in the spring of 1967, he was appointed by President Johnson to the Commission on Budget Concepts.

The Alan K. Ruvelson lectureship, begun in 1966, is an annual presentation by the Graduate School of Business Administration, made possible by gifts from friends and associates of Ruvelson. Ruvelson is president of the First Midwest Capital Corporation of Minneapolis.

CHILDREN'S ART
CLASSES AT 'U'
OFFERED IN SUMMER

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Summer art classes for Twin Cities-area children aged 5 through 10 will be conducted again at the University of Minnesota, according to Professor Harold W. Stevenson, director of the Institute of Child Development.

"This will be the seventh summer that the institute, working in conjunction with the art education department, will sponsor these classes for the children," Stevenson said.

Two classes each week---from 1 to 3:30 p.m. on Mondays and Wednesdays or on Tuesdays and Thursdays---will be held in the different age-groups, Stevenson continued. "We will attempt to adjust the schedules to fit with the parents' summer plans."

Fee for the course, which runs from June 12 through July 13, will be \$7.50 per child.

Classes will be taught by art education graduate students at the University, under the supervision of Professor Clifton Gayne, chairman of the art education department.

The children will be encouraged to experiment in new media, through the use of new teaching techniques and art materials, Gayne said. At the same time, faculty members and graduate students in the institute will use some of the children in perceptual and learning research that will contribute to their knowledge of children.

Registration blanks or additional information for these summer art classes may be obtained by telephoning Mrs. Sylvia Rosen, 373-2386.

ROWAN PAINTINGS
EXHIBITED
ON WEST BANK

(FOR IMMEDIATE RELEASE)

A retrospective show of paintings done in the last four years by Henry Rowan, associate professor of studio art at the University of Minnesota, is now on display in the Studio Art Gallery in the department's building, 2020 Washington ave. S. (West Bank area, Minneapolis campus).

The show---titled "Hello---Farewell, A First and (Probably) Last One-Man Show in Minnesota"---Rowan says symbolizes his four-year stay here and celebrates his return to "the more livable and creative climate of California." It will hang through June 2.

Rowan, who came to the University from California in 1963, is leaving to join the faculty of Grossmont College, San Diego, Calif.

Of this show of his work, the artist says: "The earliest of these paintings done in the past four years are in an abstract expressionist vein using organic symbolism. Even the pictures which seem to be non-objective are not, but are derived from the figure and dealt with in a highly abstract way. It will be evident that the painting style seems to vary: this is proof of my changing concept of reality over this time interval."

CAP AND GOWN DAY,
WEDNESDAY AT U OF M,
RECOGNIZES HONOR STUDENTS

(FOR IMMEDIATE RELEASE)

Minneapolis---Members of the Class of 1967 at the University of Minnesota will wear their caps and gowns for the first time Wednesday (May 24) when they parade down the Mall and into Northrop auditorium for the annual Cap and Gown Day honors convocation at 11:15 a.m.

Honored will be several thousand scholarship, fellowship and award winners and honor students who have maintained a "B" or better grade average during their academic careers.

True to University tradition, the Cap and Gown Day convocation speaker will be a representative of the retiring faculty members: this year Professor Willem J. Luyten, chairman of the astronomy department, will address the assembly.

Stanley J. Wenberg, University vice president for educational relationships and development, will preside at the ceremonies.

University President O. Meredith Wilson will extend the University's congratulations to the honored students and Howard L. Kaibel, outgoing Minnesota Student Association president, will respond for the Class of 1967.

William G. Shepherd, vice president for academic administration, will present the honored students to the University officials and faculty and members of the audience.

UNIVERSITY OF MINNESOTA LECTURE SHORTS

(FOR IMMEDIATE RELEASE)

LANDSCAPE ARCHITECT
TO GIVE 2 LECTURES

"The Use of Natural Land Resources in Concept and Practice: Regional Planning in Europe" will be discussed by landscape architect Tito Patri in two illustrated lectures at the University of Minnesota.

Patri, who has just completed ten months of travel and a survey of the use of natural resources in regional planning in Europe, will speak at 3:30 p.m. Friday (May 26) in Room 210 Physics, on the Minneapolis campus, and at 10 a.m. Monday (May 29) in the lecture room, Green Hall, on the St. Paul campus. Both lectures will be open free to the public.

FINAL TALK WEDNESDAY
IN MYSTICISM SERIES

John Ferguson, Hill Foundation visiting professor of classics at the University of Minnesota this year, will deliver the final lecture in a series on "Studies of the Mystical Experience." He will speak at 8 p.m. Wednesday (May 24) in the James Ford Bell Museum of Natural History on "Modern Nigerian and Ancient Classical Religions." He formerly taught at the University of Ibadan, Nigeria. The lecture is free and open to the public, sponsored by the University's humanities department.

PSYCHOLOGIST WILL
TALK AT 'U' THURS.

The University of Minnesota's annual Richard M. Elliott lecture will be given by psychologist Sigmund Koch, of the Ford Foundation, at 8 p.m. Thursday (May 25) in Mayo auditorium on the Minneapolis campus.

Koch will discuss "The Definition of Psychological Concepts." The lecture, open free to the public, is sponsored by the department of psychology, the Minnesota chapter of Psi Chi fraternity and the department of concerts and lectures.

MINNESOTA-DAKOTAS
ASSEMBLY TO EXAMINE
STATE LEGISLATURES

(FOR IMMEDIATE RELEASE)

Minneapolis---Do state legislatures adequately perform the function of representation?

This and similar questions concerning the effectiveness of the state legislative body will be examined during the sixth Minnesota-Dakotas Assembly, to be held in Moorhead, Minn., June 7-10.

The topic of this year's program is "State Legislatures in American Politics." State officials and legislators, college and university faculty members, representatives from business and labor, and concerned laymen from the three-state area are eligible to attend the meeting.

Arrangements for the program are being made by William C. Rogers, conference chairman, who is director of the State Organization Service of the University of Minnesota General Extension Division. Assisting Rogers is the General Extension Division's department of conferences and institutes.

The Minnesota-Dakotas Assembly is patterned after the American Assembly, a national, educational institution founded by former President Dwight D. Eisenhower in 1950 when he was president of Columbia University. Purpose of the assembly is to bring together interested citizens to discuss a subject and to reach a consensus.

Past assemblies have been held in most areas of the United States, and Canada, Europe, Latin America and Asia.

The Minnesota-Dakotas Assembly will include talks by John Anderson, Jr., president of the Citizens Council on State Legislatures, and by Malcolm Jewell,

(MORE)

University of Kentucky, and Samuel Patterson, University of Iowa, who are co-authors of the new book, "The Legislative Process in the United States."

Most of the assembly time will be spent in group discussion, with knowledgeable persons serving as chairmen and with resource persons stimulating discussion. A final report outlining the conclusions of the participants will be developed during the conference and approved in the final plenary session.

Text for the assembly will be its own paperback publication, "State Legislatures in American Politics," which will be sent to participants when their registrations are received. Background papers on the three states and their legislatures also will be distributed.

Cooperating with the University of Minnesota are the Universities of North and South Dakota, North Dakota State University, South Dakota State University and Moorhead State College.

A registration fee of \$25 will be charged. The major portion of the costs will be covered by a grant from the Hill Family Foundation of St. Paul.

For further information about the assembly, contact Mrs. Dorothy Anderson, Program Coordinator, State Organization Service, 122 Social Science Building, University of Minnesota, Minneapolis, Minn., 55455; telephone 373-3977.

'CHARLEY'S AUNT'
OPENS THURSDAY
ON 'U' SHOWBOAT

(FOR IMMEDIATE RELEASE)

When the curtain goes up on the first scene of "Charley's Aunt" on the University of Minnesota's Showboat Thursday (May 25), the University Theatre will open its tenth season of river-boating.

Certainly one of the most widely produced and best-known plays, "Charley's Aunt" was first performed in 1892 in London, where the lead character, Babs, who disguises himself as Charley's aunt, was played by William S. Penly. Since then it has been played on the stage, in the movies and on television by such notables as John Mills, Jack Benny, Jose Ferrer, Ray Bolger and Syd Chaplin.

Playing Babs on the Showboat will be Michael Kassin, Skokie, Ill., a sophomore at the University majoring in theatre arts. Thomas J. Orth, Redwood Falls, will play Charley.

Others in the cast include Douglas Cheek, College Park, Md., Brassett; Jane Ellen Drake, Palatine, Ill., Amy; Linda Kelsey, 823 W. Cottage Ave., St. Paul, Ela; Robert D. Larsen, 2118 E. Thirty-third St., Minneapolis, Jack; Rachael Ann Lindhart, Humboldt, Ia., Donna Lucia d'Alvadorez; Robert E. Reynolds, Ventura, Calif., Spettigue; and Valerie A. Vaux, 5524 Twenty-sixth Ave. S., Minneapolis, Kitty.

Everyone in the cast will be appearing in the Showboat's trademark---the olios, created, this season by Elizabeth S. Torgersen, 1495 N. Albert, St. Paul.

Costumes for "Charley's Aunt" are designed by Hertha Schulze, University theatre costumer, and the sets are the work of Wendell Josal, associate professor of theatre arts and University theatre scene designer. Professor Frank M. Whiting, theatre director and Showboat Captain, directs the play.

Tickets for "Charley's Aunt" are now on sale at the University Theatre ticket office, Scott Hall, University of Minnesota, Minneapolis, 55455, and also may be purchased at the Minneapolis Downtown Ticket Office, Northstar Center, and at all Field-Schlick and Dayton's ticket offices in the Twin Cities area.

2 ACCOUNTING
SEMINARS SET
AT NOLTE CENTER

(FOR IMMEDIATE RELEASE)

Two seminars in "Accounting for Non-Accountants" will be conducted at Nolte Center on the University of Minnesota campus Tuesday and Wednesday (May 23-24) and June 1-2.

Both courses are for business managers who need to understand the meaning of financial statements and how to use accounting data for specialized decision-making. They will be applicable to persons who have had no training in accounting or those who have had one or two courses in accounting ten years ago or longer.

Sponsors of the seminars are the University General Extension Division's department of continuing business education and the School of Business Administration. Cooperating with arrangements are the Minneapolis and St. Paul Chambers of Commerce.

The first course, Seminar A, is designed to provide users of basic accounting statements with an understanding of the aims of accountants in preparing the statements.

Seminar B will consider other accounting reports which are useful to managers in planning and controlling business activity. Although Seminar A prepares the participant to go on to Seminar B, both courses are self-contained, and A is not a prerequisite for B.

Application may still be made for Seminar B (June 1-2). Due to demand, both seminars will be repeated sometime in 1968.

For further information contact Peter Rosko, Director, Continuing Business Education, School of Business Administration, University of Minnesota, Minneapolis, Minn., 55455; telephone 373-3680.

1963 COMET DISCOVERED
BY 'U' RESEARCH ASSISTANT

(FOR IMMEDIATE RELEASE)

Minneapolis----A new comet has been discovered by a research assistant in the University of Minnesota department of astronomy, Professor Willem J. Luyten, department chairman, announced today (Tuesday, May 23).

The rare astronomical discovery was made by Mrs. Jean Hackett Anderson, who has assisted Luyten since 1950. The comet has been named Comet Anderson, in accordance with the astronomical custom of naming comets after their discoverers.

Mrs. Anderson found the comet on a photographic plate from the Mount Palomar Observatory while looking for stellar motions. The comet, with its wide tail, is clearly visible on four plates made about an hour before sunrise on four successive days in November 1963.

Comet Anderson was discovered on a large Palomar Schmidt plate made on Nov. 21, 1963, the day before the assassination of President John F. Kennedy. The movement of the comet was traced on large plates made Nov. 22, 23 and 24, and the comet also was found on two smaller plates made on Nov. 21.

The 48-inch mirror at Mount Palomar was used in making the photographs. Luyten estimated the comet's distance from the earth at about 300 million miles. It was not visible to the naked eye.

Data on the position and movement of the comet was sent to B. G. Marsden at the Smithsonian Astrophysical Observatory, Cambridge, Mass. He has reported the discovery to other astronomers.

(MORE)

Astronomers who have plates of the region where Comet Anderson was found have been asked to look for the comet and report their findings to Marsden. More positions must be plotted before Marsden can determine the comet's orbit.

When discovered, Comet Anderson was in the sky south of the earth's Tropic of Cancer. It was located about midway between Gemini (the twin stars ---Castor and Pollux) and Regulus (brightest star in the constellation Leo).

Comet Anderson's perihelion (closest point of approach to the sun) will be about three times the earth's distance from the sun, according to Smithsonian calculations. The comet has a magnitude of 16, which means it is about 10,000 times fainter than the faintest object visible to the naked eye. (The brightest stars have an average magnitude of zero; the faintest stars visible to the naked eye have an average magnitude of six.)

Mrs. Anderson discovered the comet while assisting Luyten in his research on the motions of stars. Using a device called a blink machine, on which two photographic plates can be compared, Luyten has measured the motions of about 140,000 stars.

Mrs. Anderson said she was expecting to find some variable stars (stars which vary in brightness) when she looked at the plate through a magnifying glass. In addition, she saw the comet tail.

A University graduate, Mrs. Anderson lives at 1056 Nineteenth ave. SE., Minneapolis. She and her husband, Melford, an auto mechanic, have two children: John, 8, and Janice, 4.

'U' STUDENTS PLAN
FAREWELL CONVOCATION
FOR PRESIDENT WILSON

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Approximately 100 students at the University of Minnesota have been working for several weeks on a ceremony they hope will become a tradition at the "U"---a farewell for departing President O. Meredith Wilson.

The Students' Convocation for President Wilson is set for 11 a.m. Wednesday, May 31, on the steps of Northrop auditorium, to be followed by a reception in Mann court of the Architecture building.

In addition to President and Mrs. Wilson, special guests invited to the convocation include Governor LeVander and other state government officials, University Regents, and Regents' Professors. The entire University community of faculty and students is invited too, of course, according to Edward B. Lambert, a junior in the College of Liberal Arts (CLA) who heads the ad hoc committee arranging the affair.

At 11 a.m. on May 31, music will be played in front of Northrop. At 11:15, William Newell, newly elected president of the Minnesota Students' Association (MSA) will speak representing all students of the University. He will call attention to the special guests who are present, including several past presidents of MSA and representatives from the Duluth and Morris campuses.

He then will introduce President Wilson, who will talk about the high points of his seven-year stay at Minnesota.

Lambert then will present President Wilson with a gift from the students: a lamp like the one depicted on the Regents' Seal. The gift "represents the respect and appreciation students feel for the president, as the representative of education," Lambert said. It will be a symbolic occasion at which students will be showing something of their feelings toward the University and its president, he said, and he and the other committee members hope this "lamping tradition" will be repeated for future departing presidents.

A male chorus will end the affair with the Minnesota Hymn and "Halls of Ivy." Everyone will be invited to attend the reception in Mann court, where punch and cake will be served.

In case of rain, the convocation will be moved inside Northrop. UNS-

MINNEAPOLIS BEAUTIFICATION
TO BE TOPIC OF CONFERENCE

For Further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

A critical look at the city of Minneapolis, with an eye toward improving its appearance, will be given by the Minneapolis Committee on Beautification during a one-day conference to be held Friday, June 2, at the Minneapolis Institute of Arts, 201 E. Twenty-fourth st.

The "Minneapolis Conference on Beautification" is the first venture of the committee, formed by Minneapolis Mayor Arthur Naftalin early this spring.

The program, which is open to the public, first of all will attempt to inform citizens of the problems involved in city beautification, and, second, will launch committee efforts to establish an organization which could educate citizens on the subject on a continuing basis.

Co-chairmen of the committee are Mrs. Magnus Olson, member of the Council of Community Councils, and Mrs. Louis Smerling, member of the Park Board and City Planning Commission.

The conference is presented by the committee in cooperation with the program of continuing education in urban affairs of the General Extension Division, University of Minnesota. William C. Rogers, director of the urban affairs program, serves as conference subcommittee chairman.

Mayor Naftalin will keynote the conference at 9:15 a.m. in the institute auditorium, and will speak on the challenge presented to the conference.

He will introduce Lewis Crutcher, city planning expert from Portland, Ore., who will present a talk at 9:30 a.m. entitled "A Look at Minneapolis."

The second morning speech will be delivered at 10:30 a.m. by Garrett Eckbo, landscape architect and faculty member of the University of California, Berkeley, who will talk on "How to Make a City More Livable." Panel discussions in four relevant areas will be held in the afternoon, conducted by Minnesota specialists.

Cost of the Conference, which includes the luncheon, is \$5. For additional information contact William C. Rogers, Director, Program of Continuing Education in Urban Affairs, 122 Social Science Building, University of Minnesota, Minneapolis, Minn. 55455; telephone 373-3709.

REGISTRATION DEADLINE
JUNE 2 FOR NATIONAL
TEACHERS EXAMS

For further information, contact:
DORIS FENCIK

(FOR IMMEDIATE RELEASE)

Minneapolis---Prospective teachers who plan to take the National Teachers Examinations at the University of Minnesota July 1 are reminded that registrations must reach Educational Testing Service, Princeton, N.J., by Friday, June 2, Arthur A. Smith, director of the University's Student Counseling Bureau, announced today.

Bulletins of information describing registration procedures and containing registration forms may be obtained from the bureau, Room 101 Eddy hall, University of Minnesota, Minneapolis, 55455, or directly from the Educational Testing Service, Box 911, Princeton, N.J.

The University of Minnesota does not require these tests, but administers them in this region for other educational institutions that do, Smith pointed out.

At the one-day test sessions a candidate may take the common examinations, which include tests in professional education and general education, and one of the 13 teaching-area examinations.

Each candidate will receive an admission ticket advising him of the center to which he should report. Candidates for the common examination will report at 8:30 a.m. July 1 and will continue, after a lunch break, until 3:10 p.m. The teaching-area examinations will begin at 3:15 p.m. and should be completed by approximately 5:30 p.m., according to the time schedule set up by the testing service.

ARMY ROTC UNIT
INITIATES PARENTS-SONS
BANQUET AT U OF M

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Cadets in the Army Reserve Officers Training Corps (ROTC) at the University of Minnesota and their parents and guests will attend the first Parents and Sons banquet at the University Saturday, June 3.

The affair, jointly sponsored by the ROTC unit at the University and the Minnesota Reserve Officers Association, will be held at 7 p.m. in Coffman Memorial Union main ballroom.

"We have initiated this get-together at the end of the academic year to give the parents of Army ROTC cadets the opportunity to meet their sons' instructors and classmates and to learn more about the program in which the cadets are enrolled," Colonel William D. Beard, professor of military science and commanding officer of the unit, said.

Guest speaker at the banquet will be Major General John H. Chiles, deputy commanding general, Fifth United States Army, Chicago, who will speak on "Active Army Procurement."

A veteran of World War II where he served with the 2nd Infantry Division, General Chiles also participated in five campaigns of the Korean war; has been a member of the Joint Chiefs of Staff organization, Washington, D.C.; was the U.S. Army attache to Mexico in 1963-64, and commanded the 2nd Infantry Division at Fort Benning, Ga., and in Korea. He assumed command of the Fifth Army in 1966.

SUMMER COURSE TO TRAIN
SCIENCE-TEACHING TEAMS

(FOR IMMEDIATE RELEASE)

Six "science-teaching teams" for elementary schools will be trained at the University of Minnesota in a five-week summer course supported by a National Science Foundation (NSF) grant announced today.

Each team will consist of two teachers for the elementary grades, a curriculum supervisor or specialist from a school system, and a faculty member from a teacher-training institution in the same area, according to the instruction plan. Following the summer program, the teams will return to their home areas and concentrate on activities considered essential for improving science and mathematics curricula and implementing use of modern teaching materials and methods.

The NSF grant of \$45,500 was channeled to the Minnesota program through the Upper Midwest Regional Educational Laboratory, which will serve as the project's administrative office.

Alan H. Humphreys, associate professor of elementary education at the University of Minnesota, is project director. He will be assisted by Warren J. Thomsen, chairman of the mathematics department at Moorhead State College. Both Humphreys and Thomsen have been associated with MINNEMAST, the Minnesota Mathematics and Science Teaching Project, which is developing coordinated mathematics-science curriculum materials under other NSF grants.

(MORE)

The summer workshop represents a pioneering effort by the NSF in direct support of science education programs conducted jointly by a college of education and a specialized curriculum project such as MINNEMAST. The University General Extension Division's department of off-campus classes is cooperating with the other groups in establishment of the model course.

Workshop sessions will run from July 17 to Aug. 18, and modern instruction materials being developed by MINNEMAST for kindergarten, first, second, and third grades will be used as the foundation of the course, Professor Humphreys said.

During the next school year, the teams will present special courses following the summer model at teacher-training institutions and also will conduct in-service courses to acquaint teachers in the field with some of the newest methods and materials.

Teachers, science supervisors, and faculty members accepted for participation in the program will receive stipends and travel allowances from the NSF grant but will be charged \$45 for tuition. The concentrated summer course will carry four credits from the University of Minnesota.

SIX 'U' PROFESSORS
HONORED FOR CONTRIBUTIONS
TO UNDERGRADUATE EDUCATION

(FOR IMMEDIATE RELEASE)

Six University of Minnesota faculty members today (Wednesday, May 24) were given special recognition in the annual Cap and Gown Day ceremonies in Northrop auditorium when they were named as the first recipients of Standard Oil (Indiana) Foundation-Horace T. Morse Awards.

The awards, in recognition of outstanding contributions to undergraduate education, were presented to A. B. Baker, professor of neurology; Orval T. Driggs, Jr., associate professor of history; Roxana R. Ford, professor of home economics education; George H. McCune, professor of social studies; William A. McDonald, professor of classics, and John S. Myers, professor of architecture.

Each of the six honored faculty members received a University citation and a \$1,000 grant provided by the Standard Oil (Indiana) Foundation.

During the awards ceremonies which concluded the Cap and Gown Day program, the six recipients, selected and cited by the All-University Council on Liberal Education, were presented to University President O. Meredith Wilson by the Council chairman, Donald K. Smith, associate vice president for academic administration.

In making the presentation to President Wilson, Dr. Smith said:
"...These awards combine the generosity of the Standard Oil (Indiana) Foundation, which is greatly concerned with achieving the highest possible standards in undergraduate education, with the name of the late Dean Horace T. Morse, whose contributions to undergraduate education at the University of Minnesota were highly significant."

MUSIC TEACHERS
THROUGHOUT STATE
TO ATTEND CONFERENCE

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

The second annual music curriculum conference organized by Professor Johannes Riedel of the University of Minnesota department of music and the Minnesota National Laboratory has been scheduled for Saturday, June 3.

The day-long meeting will include evaluations of experimental high school music courses which have operated during the current academic year, proposals for new research in music instruction and training of teachers for the new courses, and demonstrations by school musical groups trained under the modern methods, according to Professor Riedel.

This year's conference will be held at McGuire's restaurant, Lexington avenue and Ramsey county road E in Arden Hills. Statewide participation by teachers and supervisors of music is again expected, repeating the pattern established in 1966 when more than 125 music educators attended.

Professor Riedel, musicologist in the University's music department, also serves as director of music research for the National Laboratory, which is a curriculum research arm of the Minnesota State Department of Education.

The June 3 program will include a demonstration of high school string orchestra training directed by Theodore Russell of the University music department and a "school chorus laboratory" directed by Professor Stanley Linton, who organized the so-called Fox Valley project at the Oshkosh branch of the Wisconsin state university system.

'U' MEDICAL GRADS
GIVEN LOCATIONS FOR
YEAR'S INTERNSHIP

For further information, contact:
Gerald Knox, 373-5830

(FOR IMMEDIATE RELEASE)

Minneapolis---Minnesota is the most popular choice for internships by members of the University of Minnesota's 1967 graduating medical class. Fifty-two graduating doctors from a class of 155 will serve their internships in the Twin Cities metropolitan area or in Duluth, it was announced recently by Dr. H. Mead Cavert, associate dean of the University's College of Medical Sciences.

"They will join 97 newly graduated physicians from other medical schools coming into the State of Minnesota under the National Matching Program," said Dr. Cavert.

The second most popular state for University of Minnesota graduates is California, with 32 to intern there. Illinois, West Virginia and New York will get 22 graduates, with the rest distributed around the country.

Ten members of the Minnesota graduating class will intern at University Hospitals, and will be among a total of 40 interns starting July 1. The straight internship---i.e., concentration in one major field---at University Hospitals will be held by 15 interns in surgery, 12 in pediatrics, and 13 in medicine.

Rotating internships, which give experience in a selection of the major specialty areas of medicine, were selected by 76 per cent of the class. They were preferred by most students who intend to go into general practice, and by others who want broad clinical experience before training in a specialty.

Hospitals directly affiliated with medical schools are the most popular choice for internships by the University's graduating medical class. Seventy per cent of the graduates have chosen medical schools which are noted for their teaching activities.

Sixteen per cent of the class picked private hospitals, and six per cent chose general county or city hospitals not affiliated with medical schools. The armed services and the U. S. Public Health Service will get 8 per cent.

COMMUNICATION SKILLS
FOR BUSINESSMEN TO BE
TOPIC OF ROCHESTER MEET

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

A two-day seminar designed for business managers and others who need to develop communication skills will be held at the Kahler hotel in Rochester this Thursday and Friday (June 1 and 2).

The program, a "basic seminar in communication and persuasion," will be presented by the University of Minnesota Graduate School of Business Administration and the department of conferences and institutes of the General Extension Division, in cooperation with the Rochester Chamber of Commerce. Sessions will meet from 10:30 a.m. to 5 p.m. on Thursday, and from 8:30 a.m. to 3 p.m. on Friday, to permit participants to spend some time at their work each day.

Two first-day sessions will deal with interpersonal communications, including barriers to communication, expectations in communications, and personality characteristics which affect communications. The final Thursday session, "Persuasion--- The Winning of Willing Cooperation," will discuss key concepts in the field and explain ten "blockbuster formulas" for persuasion.

Topic of the 8:30 a.m. meeting on Friday will be motive analysis, or how to appeal to reason, emotion, and habit in particular people. It will be followed by a case study of a relevant problem in communication and persuasion.

The closing session, which begins at 1:15 p.m., will pull together material presented in previous meetings under the general title "Effective Communication in Management." During this session, a list of items of practical advice for the communicator will be developed.

Cost of the seminar, including two luncheons and all books and supplies, is \$60. For further information or to register, contact Wilbur Wakefield, resident director of the General Extension Division, Rochester center, 114 Coffman building; telephone, 288-5484. Or write to the Director, Department of Conferences and Institutes, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455.

GEOPHYSICAL MAP
OF WESTERN IRON
RANGE AVAILABLE

(FOR IMMEDIATE RELEASE)

Anyone interested in the geology of the western end of the Mesabi iron range and the surrounding area may obtain a geophysical map of the area from the Minnesota Geological Survey, according to Paul K. Sims, survey director and professor of geology and geophysics at the University of Minnesota.

The new map, known as a Bouguer gravity map, was prepared as part of a program of statewide geologic mapping being carried out by the survey and financed by appropriations from the state natural resources fund.

Sims said the geologic features are superimposed on an Army Map Service (AMS) chart of the Hibbing area. The map includes the western end of the Mesabi range and adjacent areas to the north and south.

The map was prepared by survey geophysicist Rodney J. Ikola. It may be examined in the survey's office, 220 Pillsbury hall, Minneapolis campus, or purchased for 50 cents a copy. Orders should be sent to the Minnesota Geological Survey, University of Minnesota, Minneapolis 55455.

STATE'S FIRST WORKSHOP
FOR TEACHER AIDES
SLATED FOR DULUTH

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Practical aspects of work in the teaching-aide field will be explored during the first two-week workshop for teacher aides to be held in Minnesota.

"A Workshop for Teacher Aides" is designed for both present or prospective aides on the elementary and secondary-school levels. It will be conducted at the Laboratory School, University of Minnesota, Duluth, from June 19-30.

Cyril M. Milbrath, a member of the workshop planning committee and the University's General Extension Division, explained recently that teacher aides are "sub" or paraprofessionals who perform non-teaching duties in public school classrooms to free teachers for professional duties and allow them more time for teaching individual students.

"The workshop," he continued, "will produce and allow participants to experience the realities of teacher aide work." The program will be one of involvement, with participants active in sessions dealing with office machinery, library work, tutorial skills, housekeeping duties, and other day to day tasks.

Enrollment is open to anyone with a high school degree, but will be limited to 40 elementary and 40 secondary school participants. Six University of Minnesota certificate credits will be issued to those who complete the course.

Staff for the workshop will be drawn from elementary and high school principals and staff members from the Duluth public school system who have had wide teacher aide experience.

A fee of \$70 will be charged for the course. Dormitory space will be available on the Duluth campus at a cost of \$4 a day.

The program is sponsored by the University of Minnesota General Extension Division's department of conferences and institutes. For further information contact Cyril M. Milbrath, Regional Director, Institutes; General Extension Division; 209 Education Building, University of Minnesota, Duluth; Duluth, Minn., 55812.

SCHOLARSHIPS AWARDED
TO JOURNALISM SCHOOL
STUDENTS AT 'U'

For further information, contact:
NANCY PIRSIG

(FOR IMMEDIATE RELEASE)

Minneapolis---Scholarship awards of more than \$5,000 were presented to 16 students in the School of Journalism and Mass Communication, University of Minnesota, Friday evening, May 19. The presentations were made following the School's annual J-Day banquet in Minneapolis. The winners of \$1,650 in freshman scholarships also were announced.

J-Day, the final event of the Journalism School's 1966-67 social calendar, includes the awards banquet on Friday evening and a picnic and day-long series of faculty-student athletic contests on Saturday. The program is organized by the members of the Student Liaison Committee.

Following the announcement of awards, Robert L. Jones, director of the school, delivered the "State of the Murphy" message, a humorous recap of the past year in Murphy hall, the home of the journalism school.

J-School seniors poked good-natured fun at the faculty in a post-banquet skit, and faculty wives elected "Miss Print" for 1967-68.

Scholarship winners were Cara Louise Benson, Minneapolis; Frederick Brown, Litchfield; David Currer, Nerstrand; Paul Gruchow, Montevideo; Jean Haskell, St. Paul; Patricia Kluttz, Minneapolis; Lola Lewison, St. Paul; Sharon Marrinson, St. Paul; John McKeon, Minneapolis; Margaret McKnight, Minneapolis; Marilyn Jo Michales, Minneapolis; Linda Olson, Faribault; Patricia Robertus, St. Paul; Jean Schlemmer, Redwood Falls; Susan Spiegel, Evanston, Ill.; and Chung W. Suh, Masan, Korea.

Scholarship sponsors include the Advertising Club of Minneapolis; the Minneapolis Star; the Miller Publishing Co.; Minnesota Mining and Manufacturing Co.; the Minnesota Press Women; Modern Medicine Publications; the Northwest Council of Advertising Agencies; the Northwest Daily Press Association; and the Northwest Industrial Editors Association.

Memorial scholarships honoring the late Carroll Binder and David Silverman of the Minneapolis Star and Tribune and the late Thomas F. Barnhart of the School of Journalism also were awarded.

'U' GALLERY SHOW
TO COMBINE QUIRT
DRAWINGS, CHINESE SCROLLS

For further information, contact:
DORIS FENICK

(FOR IMMEDIATE RELEASE)

Sixteen stone rubbings from an ancient Buddhist shrine---a priceless gift to the University of Minnesota's Gallery---and recent drawings by Walter Quirt, studio art department professor, will be shown at the University Gallery June 2-25.

The scrolls were given to the University by Mr. and Mrs. Robert J. Salmon, 4928 Williston rd., Minnetonka, and were obtained by them when they were stationed in Hangchow, Chechiang Province, China, during the '40's, according to Charles C. Savage, III, gallery director.

The rubbings are from stone carvings of the sixteen Lo Han or Buddhist saints on the Shen Yen Sze (Sacred Source) monastery near Hangchow, and are of particular interest and value, Savage said, because the bas reliefs from which they were made reportedly have been destroyed by the Communists.

"Casual Impressions of Yucatan Life," recent drawings by Professor Quirt, were made during a recent trip to Yucatan where Quirt and a University graduate student were working on a visual test project sponsored by the Office of International Programs and the Graduate School of the University.

The opening of these two shows will be held from 7 to 9 p.m. Friday (June 2) in the galleries. The public is invited to attend.

The stone rubbings will be shown in gallery 405, and the Quirt drawings in 307 in Northrop auditorium.

The galleries are open to the public 2-5 p.m. Sundays and school hours weekdays.

HANDLING STAFF PROBLEMS,
TOPIC OF 'U' SHORT COURSE

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

How to handle interpersonal staff problems will be the theme of a one-day University of Minnesota program designed for managers who are responsible for the behavior of others within their organizations.

The course, "Superior-Subordinate Relations," will be held Thursday, June 8, in Mayo auditorium on the University campus. It will be presented by the University General Extension Division's department of continuing business education and the School of Business Administration, in cooperation with the Minneapolis and St. Paul Chambers of Commerce.

The program, explained Peter Rosko, director of the department of continuing business education, is directed toward those persons who can answer yes to the question: "Have you ever observed or been involved in superior-subordinate misunderstandings that you thought could have been handled differently or avoided entirely?"

The one-day program is designed to furnish an introductory exposure to basic concepts which will be examined further in future, longer programs, he said.

All sessions will be conducted by Allen R. Solem, professor of management in the University's Graduate School of Business Administration. Solem, nationally noted author in the area of management and industrial psychology, is known to many Minnesota firms that have utilized his services as a consultant. He formerly taught at the University of Michigan and the University of Rochester.

Fee for the program is \$25, and includes all materials, instruction, luncheon and parking. Applications, which must be received by Friday, June 2, should be sent to the Director, Department of Conferences and Institutes, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn., 55455.

For further information, contact Peter Rosko, telephone 373-3680.

'U' GIVEN FOUNDATION GRANT
FOR MUSIC TEACHERS' WORKSHOP

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

A Rockefeller Foundation grant of \$13,700 will underwrite the major portion of the costs of the University of Minnesota High School Music Teachers' Workshop, according to Willard L. Thompson, dean of the University's Summer Session.

The workshop is a new feature of the Summer Music at Minnesota program, which was begun last year. Workshops and performances offered through the summer music program are sponsored by the University Summer Session and the departments of music and music education.

The grant will cover most of the instruction costs, plus room, board and tuition for the 40 Minnesota high school teachers of vocal, string and woodwind music who take part in the workshop, Thompson said.

The teachers will be on the University campus for the first term of the Summer Session, June 12 through July 15, and will be involved in a full program of participation and observation.

A three-credit seminar for workshop members, daily ensemble rehearsals coached by members of the music faculties and the Minneapolis Symphony Orchestra, and an elected course in music, music education or a related field will be available.

Observation activities will be drawn from aspects of the High School Musicians' Project, in session for four weeks of the first term of Summer Session. The 141 gifted high school students will sit in during symphony reading sessions and receive college-level instruction in various fields of music.

The High School Music Teachers' Workshop was established in response to requests expressed in a survey of secondary school music educators in Minnesota.

MINNESOTA-DAKOTAS ASSEMBLY
POSTPONED UNTIL OCTOBER

(FOR IMMEDIATE RELEASE)

Minneapolis---The Minnesota-Dakotas Assembly on "State Legislatures in American Politics," scheduled to be held in Moorhead, Minn., June 7-10, has been postponed because of the special session of the Minnesota State Legislature.

Arrangements for the program, rescheduled in the same format for Oct. 4-7, are under the direction of William C. Rogers, conference chairman, who is the director of the State Organization Service of the University of Minnesota General Extension Division.

In a letter of regrets sent to all registrants for the June meeting, Rogers said, "It would be impossible to have a good Assembly without members of the Minnesota legislature and others who are closely identified with it."

Those persons who had registered will receive a refund of their registration fee and will be contacted sometime during the summer concerning the fall Assembly, which also will be held in Moorhead.

The Minnesota-Dakotas Assembly is patterned after the American Assembly, a national, educational institution founded by former President Dwight D. Eisenhower, and is designed to bring together interested citizens to discuss a subject and reach a consensus.

ELDON MASON TO RECEIVE
U OF M OUTSTANDING
ACHIEVEMENT AWARD

For further information, contact:
GLENN ICKLER

(FOR IMMEDIATE RELEASE)

A University of Minnesota graduate who developed the American Red Cross Leadership Training Center system will receive the University's Outstanding Achievement Award Wednesday (May 31).

Receiving the award will be Eldon Mason, Minneapolis, director of Red Cross Youth for the Minneapolis and Hennepin County Red Cross chapter. He was graduated from the University in 1927 with a bachelor's degree in government and earned a master's degree in educational administration at the University in 1937. He also holds a bachelor of education degree from Bemidji State College.

A native of Minneapolis, he earned seven varsity letters at Minnesota in football, basketball and baseball.

The award, given to former students who have attained high eminence in their field, will be presented by Lester A. Malkerson, chairman of the Board of Regents, at the annual M Club dinner in the main ballroom of Coffman Memorial Union at 6 p.m.

Mason, 64, has been director of Junior Red Cross in the Midwestern area and the North Atlantic area; deputy director of Junior Red Cross at the national headquarters in Washington, D. C., and director of Red Cross Youth for the European area, with headquarters in Stuttgart, Germany. He has been in Red Cross youth work since 1942.

Mason is known among Red Cross leaders as "the dean of the Junior Red Cross." Much of the current philosophy of Red Cross youth work was shaped by his early work as director of the Midwestern and North Atlantic areas.

He started the first Leadership Training Center at Lyman Lodge, Excelsior, in the summer of 1944. By 1948, the training center idea had been adopted by the national organization and three years later training centers had been established in all major chapters in the United States and in many other nations. It is estimated that 1,300 centers have been operated in the U.S., with 120,000 boys and girls in attendance.

KUOM TO BROADCAST
LAST SEASON'S
SYMPHONY CONCERTS

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Minneapolis Symphony Orchestra subscription concerts from the 1966-67 season will be broadcast over University of Minnesota radio station KUOM as a special summer evening feature.

The concerts, uncut and unaltered, will be presented each Monday and Wednesday during June and July from 7 to 9 p.m., beginning June 5. An informal commentary will precede each performance.

Sixteen of the 20 regular Friday-night concerts performed in Northrop auditorium will be aired, in addition to one program which was not included in the regular subscription series. That concert, to be broadcast July 31, will feature Stanislaw Skrowaczewski, musical director of the symphony, conducting compositions by University of Minnesota faculty members.

The programs were produced by KUOM Music Director Russell Walsh, who commented recently that the broadcast of these concerts is one of the station's major projects of the year. Recordings were made under the supervision of Russell Iverson, a senior member of the KUOM engineering staff, whose recording experience in the auditorium goes back to 1956.

Summer dates for the concerts of some outstanding guest performers of the past season include soprano Roberta Peters on June 12, violinist Isaac Stern on June 21, cellist Leonard Rose on July 10, conductor Charles Munch on July 12, and pianist Arthur Rubenstein on July 19.

KUOM, an education service of the University's General Extension Division, is the only Twin Cities radio station which carries the symphony concerts on an AM frequency.

RESEARCH GROUP
HONORS STECKLEIN

John E. Stecklein, director of the University of Minnesota's Bureau of Institutional Research, recently received the first research award plaque given by the Association for Institutional Research. The plaque was presented to Stecklein "for outstanding service and leadership" as the first president of the relatively new, 400-member organization. The University's Bureau of Institutional Research is one of the oldest in the nation.

NORTH DAKOTA STATE
HONORS O. M. WILSON

O. Meredith Wilson, president of the University of Minnesota, received an honorary doctor of humanities degree from North Dakota State University during its recent commencement exercises.

ADDIS NAMED
FULBRIGHT SCHOLAR

Paul B. Addis, assistant professor of food science and industry in the University of Minnesota Institute of Agriculture, has been selected as a Fulbright scholar by the U. S. State Department. He is one of 200 American professors who received research grants under the Fulbright-Hays act. He will conduct research in the field of food science at the Max Planck Institute, Mariansee, Germany.

GOLDSTEIN RETURNS
FROM HEW STINT

Sheldon Goldstein, assistant director of the department of radio and television of the University of Minnesota's General Extension Division, returned to his position recently following a three-month leave of absence in Washington, D. C. Goldstein served as a consultant on educational television in the Department of Health, Education and Welfare. The major portion of his work was related to the public broadcasting act.

REGISTRATION OPEN
SOON FOR 12 'U'
EVENING CLASSES

For further information, contact:
Beth Kent, 373-5166

(FOR IMMEDIATE RELEASE)

Registration for University of Minnesota summer evening courses, to be offered in both downtown Minneapolis and St. Paul beginning the week of June 12, will take place Thursday and Friday (June 1 and 2) and Monday through Thursday, June 5-8.

The twelve undergraduate courses, presented by the General Extension Division's department of evening classes, will meet at the MacPhail Center, 1128 LaSalle avenue, Minneapolis, and the St. Paul Extension Center, Ninth and Exchange. All courses will meet one evening a week until the middle of August, from 5 to 7:30 p.m., with the exception of one four-credit course, which will meet until 8:15 p.m.

Courses range in subject matter from accounting and composition to "how to study" and the humanities. No prerequisites are required for any of the classes, which are designed to accommodate the needs of high school graduates with no previous college background, professionals who need to brush up on particular skills, or adults who wish to take a course just for enjoyment.

Students may register at either downtown location (regardless of where they plan to attend class), by mail, or at the Minneapolis campus office, 57 Nicholson hall (southeast entrance).

Offices will be open on the registration dates at the following times: MacPhail Center, from 7:45 a.m. to 1 p.m. and 1:45 to 4:45 p.m.; St. Paul Extension Center, from 7:45 a.m. to noon and 12:45 to 8 p.m.; 57 Nicholson hall, from 7:45 a.m. to noon and 12:45 to 8 p.m.

Registration for classes with limited enrollment must be completed in person. For more information or registration materials, call the campus office, 373-3195; MacPhail Center, 332-4424; or the St. Paul Extension Center, 222-7355.
