REGENTS HONOR 3  
'U' PROFESSORS

(FOR RELEASE AT 11 A.M. THURSDAY, OCT. 2)

Three University of Minnesota professors today were given the University's highest honor for faculty members.

John Berryman, professor of humanities, Dr. Robert Good, professor of pediatrics and microbiology, and Leonid Hurwicz, professor of economics, were awarded the title of Regents' Professor at the University's opening convocation in Northrop auditorium.

The professors were invested with medallions by members of the Board of Regents and presented with citations by President Malcolm Moos. Each award includes a \$5,000 annual gift for as long as the professor remains on the University faculty.

The Regents' Professorship was created in 1965 and is given to the University's most distinguished professors. #

SUPPLEMENTARY INFORMATION

John Berryman, 54, Regents' Professor of Humanities

Born in McAlster, Okla.; B.A. from Columbia University; M.A. from University of Cambridge, England. Joined University of Minnesota faculty in 1954.

Published works:

"His Toy, His Dream, His Rest," National Book Award, 1968, and Bollingen prize for poetry, 1968

"77 Dream Songs," Pulitzer Prize, 1965

"Berryman's Sonnets," McKnight Prize in Literature

"Short Poems"

"Homage to Mistress Bradstreet"

"Critical Biography of Stephen Crane"

"The Dispossessed"

"Poems"

"20 Poems"

Hundreds of articles, including studies of Shakespeare

Awards include:

Guggenheim Fellowship, 1966-67

Partisan Review-Rockefeller Fellowship in poetry, 1957

National Institute of Arts and Letters Loines Award for Poetry, 1964

Academy of American Poets Fellowship, 1966

National Endowment for the Arts Grant, 1967

Brandeis University Poetry Award

(MORE)

MTR

Robert A. Good, 47, Regents' Professor of Pediatrics and Microbiology

Born in Crosby, Minn. B.A., M.B., M.D. and PhD. from University of Minnesota. Joined the University medical staff in 1947, after receiving his PhD. in anatomy. Recognized for his contribution to transplant surgery through research in immunobiology (study of the body's defense mechanisms).

Awards include:

President of the American Society for Clinical Investigation, 1967-68  
Robert A. Cooke gold medal for outstanding contributions to immunology, 1968  
Clemons Van Pirquet medal for outstanding contributions to allergy, 1968  
President's Medal from University of Padua, Italy, for outstanding contributions to immunopathology, 1968  
First annual Squibb Award for Excellent Achievements presented by the Infectious Disease Society of America.  
Honorary Doctor of Medicine Degree, University of Uppsala, 1966  
Rectors Medal, University of Helsinki, "Outstanding Contributions to Medicine and Microbiology, 1963-64"  
E. Mead Johnson First Award for "Outstanding Research Contributions to Pediatrics," 1955.

Leonid Hurwicz, 52, Regents' Professor of Economics

Born in Moscow of Polish parents. Received basic secondary and university education in Poland; law degree from the University of Warsaw; postgraduate studies at the London School of Economics, the Postgraduate Institute of International Studies in Geneva and the University of Chicago.

In 1944 became a naturalized citizen of the United States. Joined the University of Minnesota faculty in 1951 and served as chairman of statistics department for two years. In 1955-56 was a fellow at the Center for Advanced Studies in the Behavioral Sciences; 1958-59, visiting professor at Stanford University; 1965-66, Fulbright lecturer in Bangalore, India; presently (1969-70) Frank W. Taussing Research Professor of Economics at Harvard University.

Is specialist in the "games" theory, a system of analyzing a problem by taking into account relative strengths and weaknesses, past performances and other factors.

Resident of the Econometric Society, an international society devoted to econometrics and mathematical economics; board of editors of International Economic Review and Journal of Economic Theory; has served as consultant to numerous U.S. government agencies, research organizations and business firms.

Previously named Regents' Professors are:

Earl R. Amundson, chemical engineering; Ralph E. Comstock, genetics; Ernst R. G. Eckert, mechanical engineering; Herbert Feigl, philosophy; Walter Heller, economics; E. Adamson Hoebel, anthropology; Paul E. Meehl, psychology; Alfred C. Nier, physics; James B. Serrin, Jr., mathematics; Wesley W. Spink, medicine; Allen Tate, English; Maurice B. Visscher, physiology; Owen H. Wangensteen, surgery; and Cecil J. Watson, medicine.

### HUNTERS ASKED TO AID 'U' BEAR STUDY IN LAKE COUNTY

by Bill Hafling  
University Science Writer

Hunters planning to go to the Lake County area of Minnesota this fall are asked to be on the lookout for black bears.

Researchers at the University of Minnesota would greatly appreciate reports of any bear killed in that area from now till spring.

Seventy-one bears---34 males and 37 females---have been marked with metal ear tags containing an identity number. If a hunter kills a tagged bear he should call collect as soon as possible to Lynn Rogers, University researcher, at 373-7772 or 373-5643; or to his home, 824-1218. Rogers is particularly interested in the sex of the bear and the date and location of the kill.

If an untagged bear is killed in Lake County, hunters are asked to send their name and address, place and date of kill, and the bear's sex to the Bell Museum at the University, Minneapolis 55455.

Ten of the tagged bears have been equipped with radio transmitters, placed in the hope of tracking them to their hibernation dens.

"We hope that knowing the percentage of tagged bears in the kill, and the bears' movements as obtained by radio tracking, will enable us to estimate the density of bears per square mile in northeastern Minnesota," Rogers said. He is working on a doctor of philosophy degree under the direction of Professor Albert Erickson, one of the world's leading experts on bears.

His study is being financed by the Twin Cities Big Game Club, a group of Minneapolis-St. Paul sportsmen interested in wildlife research and conservation.

Rogers said that signs of bear in an area include dug-out anthills and wasps' nests, wild fruit trees torn down, and torn stumps. The bears are primarily vegetarians, living on grass until around July 1 each year, then eating wild fruits and berries as well as insects and food scraps found at dumps.

'WHO CARES FOR ST. PAUL?'  
'U' SERIES TO START OCT. 22

(FOR IMMEDIATE RELEASE)

"Who Cares for St. Paul?"--for quality education, adequate housing for all citizens, fair law enforcement, understanding and eliminating prejudice?

University of Minnesota faculty members who have particular knowledge on these issues, and St. Paul-area residents who are concerned about them, will meet in a series of University-sponsored discussions beginning Oct. 22.

Psychology, sociology, and law enforcement science are among the disciplines represented by the faculty members who will speak at the Wednesday-evening meetings, organized by the General Extension Division's department of evening and special classes.

The discussions will be held at the St. Paul Bureau of Health, which is co-sponsoring the series, at 555 Cedar Ave. (There is a parking lot adjacent to the building.) Sessions begin at 7:30 p.m. every Wednesday (except the night before Thanksgiving) through Dec. 10.

Registration fee is \$7 per person, or \$10 for a married couple. Information is available from the Department of Evening and Special Classes, 57 Nicholson Hall, University of Minnesota, Minneapolis 55455; telephone 373-3195.

#

#### SUPPLEMENTARY INFORMATION

- Oct. 22--Neighborhood Communication. Associate Professor John Geier, University communications expert.
- Oct. 29--The Nature of Prejudice. Norman Miller, professor of psychology.
- Nov. 5--Education and Urban Children. Professor William Gardner, chairman of secondary education.
- Nov. 12--Housing in St. Paul. B. Warner Shippee, executive vice president of the University Community Development Corporation.
- Nov. 19--Group Action and Urban Problems. Irving Tallman, associate professor of sociology.
- Dec. 3--Law in St. Paul. Professor David Ward, chairman of the department of criminal justice studies.
- Dec. 10--St. Paul, 1980. Speaker to be announced.

UNIVERSITY OF MINNESOTA EVENTS

(FOR IMMEDIATE RELEASE)

MEXICAN MUSIC, SPANISH LANGUAGE  
TO BE AIRED SATURDAYS ON KUOM

Music from Mexico will be featured in a series starting Saturday (Oct. 4) on KUOM, the University of Minnesota General Extension Division radio station.

Andrea Peterson, a graduate student in Spanish and a native of Uruguay, will conduct the programs entirely in Spanish.

The series was planned to give the flavor of a Latin or South American radio show, to give students of the language a chance to hear a rapid stream of good Spanish, and to contribute to the understanding of this country's Spanish-speaking neighbors, according to Marion Watson, KUOM program director.

Originally built around a special collection of Mexican music, the series will probably be expanded to include music from other countries, and some interviews, Mrs. Watson said.

Broadcasts will be at 10:30 on Saturday mornings for 13 weeks, beginning this week.

INDIAN STONE SCULPTURES  
GIVEN TO 'U' GALLERY

Two Indian stone sculptures dating from the 11th century have been given to the University Gallery of the University of Minnesota.

The works are the gift of Paul Manheim, New York investment banker and collector of Indian art. They were included in the "Art of India" exhibit held in the University Gallery last summer.

Both pieces, made of red sandstone, are figures of the Hindu god Shiva. They are believed to have been made in Central India between the 11th and 13th centuries.

Manheim declined to estimate the value of the works.

"My purpose in presenting these pieces to the gallery is to encourage people to become familiar with the enormously growing and alive field of Indian art," he said.

ROBERT MOORE NAMED  
ENGLISH DEPT. CHAIRMAN

(FOR IMMEDIATE RELEASE)

Professor Robert Moore has been named chairman of the University of Minnesota English department for 1969-70, Dean E.W. Ziebarth of the College of Liberal Arts announced today.

He succeeds Professor John Clark, who resigned as department chairman June 30.

Moore has been a member of the University faculty since 1945. In 1958 he was cited for outstanding performance in educational television by the Minneapolis Citizens Committee on Public Education. He is the author of numerous articles and several books, including "Hogarth's Literary Relationships," and "Henry Purcell and the Restoration Theatre." He received a bachelor's degree from Washington College in Chestertown, Md., and his doctor of philosophy degree from Yale University.

'U' ARCHITECTURE STUDENTS  
TO PRESENT SPANISH EXHIBIT

(FOR IMMEDIATE RELEASE)

The feel of a Spanish city--its people, its buildings, its unique life cycle will be illustrated in an exhibit by some 30 University of Minnesota architecture students, who spent last spring in Spain.

The exhibit begins Monday (Oct. 6) in the Architecture building court and will run for a week, from 7 a.m. to 7 p.m.

University regents and administrative officials have been invited to attend the opening at 4 p.m. Monday.

After a week in Barcelona, the students broke into groups of three and concentrated on the study of one city. The groups covered 11 cities, including Madrid, Cadiz, Avila, Vego, Segovia, and Granada. Each group will present a display of photographs and sketches which show the integration of the people and geography with the architecture, and reflect on the growth and future development of the studied cities.

The fourth-year architecture students received University credits in design, art, and planning for their work. They worked under the supervision of John Meyers, professor of architecture.

Last year, a group of architecture students studied transportation and architecture in Rome.

FORMER PRESIDENTIAL ADVISER  
TO SPEAK AT LABOR CONFERENCE

(FOR IMMEDIATE RELEASE)

Leon Keyserling, former adviser to President Harry S Truman and a leading economist specializing in the field of housing, will be the featured speaker at the annual Minnesota Labor and World Affairs Conference.

The conference, to be held Oct. 29 through Nov. 1 in Hill City, Minn., will focus this year on domestic problems of housing and health, according to John Curtis, chairman of the Minnesota Trade Union Council for Histadrut.

The council and the University of Minnesota's Labor Education Service--an office of the Industrial Relations Center and the General Extension Division--co-sponsor the conference.

Keyserling is a consulting economist and attorney in Washington, D.C.

Detailed information on the conference is available from John Curtis at the Hotel and Restaurant Employees Union Local 458 at 900 Hennepin ave., Minneapolis, 55403.

LABOR 'BUDDY SYSTEM'  
TO BE TOPIC OF 'U'  
TELEVISION BROADCAST

(FOR IMMEDIATE RELEASE)

A "buddy system" in operation in the Twin Cities-area labor movement will be the subject of a University of Minnesota Television Hour broadcast Wednesday (Oct. 8) at 9:45 p.m. on KTCA-TV, channel 2.

A buddy is a union member who volunteers to serve as a liaison between a new worker and his foreman and co-workers during his probationary period.

Among those who will appear on the program are Mrs. Tobey Lapakko, trade union representative for the Minnesota department of employment security; Elmer Childress of the Human Resources Development Institute of the Minnesota AFL-CIO; and Ed McFarland, director of Organized Labor's Employment Opportunity Program (OLEOP).

Michael Shanley, a member of the Communication Workers of America employed by Northwestern Bell Telephone Company, and John Nolen, a new employee at Northwestern Bell and the man for whom Shanley acted as buddy, also will be guests.

MOOS TESTIFIES AGAINST  
SECTION ON FOUNDATIONS  
IN TAX-REFORM BILL

(FOR RELEASE MONDAY, OCT. 6)

Malcolm Moos today suggested that certain provisions of a tax-reform bill being considered by the U.S. Senate are too punitive toward legitimate foundations that grant funds to colleges and universities.

In written testimony mailed last week to the Senate Finance Committee, headed by Russell Long of Louisiana, the president of the University of Minnesota stated firmly his conviction that "both reason and self-interest argue for major tax reforms," but expressed his fear that the legislation as written would cut down on much-needed foundation and private gift-giving to educational institutions.

To the extent that these laws bring a general reduction in private giving to educational institutions, they "will increase the pressure on students and federal and state treasuries for support of higher education," Moos wrote. "State governments are reaching the limits of their ability to finance public needs....The result is that students in public institutions of higher education are being required to provide an escalating share of the costs of that education."

After describing various ways in which foundations provide valuable assistance to individual institutions, Moos stated that "perhaps the most unprecedeted and undesirable aspect of the proposed legislation is the 7½ per cent tax on investment income of the foundations. The effect...would be a direct reduction in the amount of funds available to universities through the foundations."

(MORE)

"The Louis W. and Maud Hill Foundation in St. Paul is heavily involved in grants to institutions of higher education...and has provided information that indicates that the 7½ per cent tax, exclusive of tax on capital gains, would diminish the amounts available annually for grant purposes by at least \$177,000. This relatively small foundation supported efforts at the University of Minnesota amounting to more than \$600,000 during the fiscal year ending in 1969." Should the capital-gains income be taxed in the Hill Foundation, the amount lost to grant-receiving institutions would be about doubled, Moos wrote.

"It makes little sense to require taxes to be paid from funds which would have supported cancer research and student assistance programs but not from those which support the self-serving activities of trade associations and other lobbying organizations," Moos said. He added that he found the sections of the bill that would "muzzle groups making representations before Congress appalling. Such a sweeping restriction would tend to stifle the very breath of a pluralistic society and in my judgment ought to be eliminated."

In conclusion Moos wrote, "Tax legislation that affects the income of public and private higher education should always be considered in the context of the important question of possible alternatives to the contribution made by foundations to research, instruction, and management of American higher education. Greater dependence on the federal government for financial and management support is the only alternative I can visualize."

#

SUPPLEMENTARY INFORMATION

The bill before the Senate committee is H.R. 13270, Tax Reform Act of 1969. President Moos was asked to comment on its provisions regarding private foundations and higher education because of his many years in higher education and his previous position with the Ford Foundation. This section of the bill is the subject of hearings this week. The bill has been passed by the House of Representatives.

NUCLEAR POWER CONFERENCE  
AT UNIVERSITY TO PROVIDE  
NEUTRAL FORUM

(FOR IMMEDIATE RELEASE)

"A neutral forum for the presentation of sound and verifiable information and the airing of issues" is the objective for a two-day symposium on "Nuclear Power and the Public" to be held at the University of Minnesota next week.

"We are bringing together recognized, competent scientists, working in various fields of study relating to nuclear power, to elucidate the divisive points of view on the pertinent issues in this controversy," Dr. Harry Foreman, chairman of the planning committee for the symposium, said today.

"It is our hope that the academic atmosphere will promote unfettered discussion where proponents of diverse views can face each other in a calm, reasoned manner appropriate to men who respect one another."

More than 700 people from around the United States are expected to attend the symposium, which begins at 9 a.m. Friday, Oct. 10, and concludes at 5:30 p.m. Saturday, Oct. 11.

All speakers for the conference were carefully chosen by the committee not just for the diverse views they represent but for their proven competence in the area in which they will speak, Dr. Foreman said.

The diversity of viewpoints on the conference committee itself reflects the widespread interest in a discussion of nuclear power.

Committee chairman Foreman, who holds a doctor of medicine degree, is director of the University's Center for Population Studies, a function of which is the coordination of research and studies in population, including family planning and population growth. For many years, Dr. Foreman has been involved in research and teaching on the biological effects of radiation.

(MORE)

Other committee members are John Borchert, director of the University's Urban Affairs Center, and a member of the Minnesota Pollution Control Agency; Herbert Isbin, a member of the Federal Advisory Committee on Reactor Safety and a professor of nuclear engineering at the University; Dean Abrahamson, president of the Minnesota Committee for Environmental Information, a man active across the United States in discussions of nuclear power; Lloyd Smith, professor of fisheries and wildlife, a man long concerned with the ecological effects of water pollution and an adviser to several governmental bodies on such matters; and Donald Barber, an expert in radiological health and health physics in the School of Public Health at the University.

"The selection of men of different outlooks for the committee was deliberate in an attempt to have various legitimate points of view presented and to develop a balanced program," Dr. Foreman said.

Following opening remarks by William G. Shepherd, University vice president for academic administration, Governor Harold LeVander is scheduled to deliver a welcoming address at 9 a.m. Friday in Coffman Union main ballroom.

LOFQUIST TO BE NAMED U OF M  
ASSISTANT VICE PRESIDENT

(FOR IMMEDIATE RELEASE)

Professor Lloyd H. Lofquist is expected to be named assistant vice president for academic administration at the University of Minnesota when the Board of Regents meets next on October 18.

Lofquist has been associate dean for the social sciences in the College of Liberal Arts (CLA) for the last two years. He will begin his new position about January 1, depending on how quickly CLA Dean E.W. Ziebarth can fill his post.

In the new position, under Vice President William G. Shepherd, Lofquist will succeed Professor James Hogg, who was recently named secretary to the Board of Regents and executive assistant to President Malcolm Moos.

"Dean Lofquist is one of the most remarkable scholar-administrators I have known, combining as he does the very best qualities of both," Dean Ziebarth commented. "He will do a superb job in his new role."

Vice President Shepherd added that Lofquist "has served as an impressive administrator at the departmental and college levels, and we are looking forward to his contributions on a University-wide level."

SUPPLEMENTARY INFORMATION

Lloyd Lofquist, 52, a native of Minneapolis, holds bachelor's, master's and doctor of philosophy degrees from the University of Minnesota. A professor of psychology and industrial relations and an expert in vocational rehabilitation, he joined the faculty in 1956 and served as assistant chairman of the psychology department from 1960 to 1966.

He is co-author (with R.V. Davis) of a new book, "Adjustment to Work," and of a 1960 book (with George England), "Problems in Counseling," and is author of a 1957 book, "Vocational Counseling with the Physically Handicapped," as well as numerous articles.

He is active in the American Personnel and Guidance Association (received its National Research Award in 1967), the American Rehabilitation Counseling Association (past president) and the American Psychological Association.

He will join Fred E. Lukermann, Jr., as assistant vice president under Shepherd. Two years ago he succeeded Lukermann as CLA associate dean.

A JOINT RELEASE FROM THE UNIVERSITY  
OF MINNESOTA AND THE LEAGUE OF MINNESOTA  
MUNICIPALITIES.

DEAN LUND NAMED TO REPLACE  
ORVILLE PETERSON IN UNIVERSITY,  
MINN. MUNICIPALITIES POSTS

(FOR IMMEDIATE RELEASE)

Dean A. Lund has been named to replace Orville Peterson as director of the Municipal Reference Bureau at the University of Minnesota and executive secretary of the League of Minnesota Municipalities, effective immediately.

Willard L. Thompson, dean of the University's General Extension Division, announced the appointment, which he made in consultation with a search committee and the executive board of the league.

The University's Board of Regents is expected to confirm the Municipal Reference Bureau appointment at its Oct. 18 meeting. The director of the bureau automatically assumes the post of executive secretary of the league.

Of Minnesota's 853 municipalities, 706 belong to the league. The bureau, a part of the General Extension Division, serves as library and consulting service to the league.

Lund served as the first executive secretary to the league's Metropolitan Section (1966-69) and was appointed assistant director of the bureau and assistant executive secretary to the league in 1963.

Peterson submitted his resignation last summer, effective in September. He is teaching fulltime in the School of Public Affairs, where he has been teaching on a part-time basis.

James Dalglish, president of the league and a member of the search committee, said that the search for Peterson's successor included consideration of some 50 candidates, and that the appointment is of great importance to "the league, the University, and all the citizens of the state."

Dean Thompson said today, "Dean Lund's creative work as executive secretary of the Metropolitan Section of the league during its formative years, and his subsequent posts have prepared him superbly for his new position. (MORE)

"We anticipate with great pleasure working with Mr. Lund to continue the tradition of 56 years of partnership between the University and municipalities throughout the state in furtherance of informed and efficient public service."

The Municipal Reference Bureau was the first unit of the General Extension Division. Both were established in 1913.

Orville Peterson, who joined the league staff in 1937 as attorney and became its executive secretary in 1959, said, "I am delighted that a man with Dean Lund's many talents and broad experience has been appointed my successor.

"We can expect from him active leadership in undertaking new programs that will increase the capacity of local government institutions to deal effectively with the complex problems of municipalities, large and small, throughout the state.

"I hope that in my own expanded role in the University's School of Public Affairs, we can strengthen the long-standing partnership between the University and the league."

#

SUPPLEMENTARY INFORMATION:

Dean Arthur Lund, 41:

- holds a bachelor's degree in business administration and a master's degree in public administration from the University of Minnesota.
- served for two and a half years as executive secretary to the league's Metropolitan Section. During this time it developed into a highly effective organization through which municipal officials express their views on major metropolitan issues such as sewage and solid-waste disposal, taxes, mass transit and government finance and structure.
- in 1968 was a member of the advisory council appointed by the Minnesota attorney general to consider the feasibility of a law enforcement training academy in Minnesota.
- prior to his work with the league, was a manpower utilization officer for the Ford Foundation in Dar es Salaam, Tanzania, and taught a course in public personnel administration at the University College there.
- also has worked for the Minnesota Highway Department, the Public Administration Service in Chicago, the U.S. Atomic Energy Commission in Washington, D.C., and Aiken, S.C., and the U.S. Civil Service Commission, St. Paul.
- lives with his wife and three daughters (ages 7, 6 and 3 years) at 92 Orlin ave. SE., Minneapolis.

TEACHERS MIGHT FIND  
'BEHAVIOR MANAGEMENT'  
CONFERENCE USEFUL

(FOR IMMEDIATE RELEASE)

How to accomplish anything each day with a classroom of normal kids is something a lot of concerned teachers spend a lot of nights trying to figure out.

Complicating the teaching job is the fact that these "normal" kids have intelligence ranging from genius to retarded. A normal classroom may also contain some emotionally disturbed children and those with a history of delinquency.

Powerful tools for analyzing behavior, improving instruction, and correcting behavior problems---not just in classroom settings, but in institutions for chronically disturbed patients---have been developed and successfully tested in recent years.

These methods will be presented in a conference on "Behavior Management" at the University of Minnesota Friday, Oct. 17, in Nolte Center for Continuing Education.

In addition to education, the conference will cover three other main areas in which behavior-management techniques have proven effective: rehabilitation, mental health and correction. A highlight of the mental-health portion will be a motion picture showing the progress made with chronic psychotics and mentally retarded persons under the direction of Travis Thompson, University psychology professor.

#

#### SUPPLEMENTARY INFORMATION

Speakers for the conference, in addition to Travis Thompson, will be Psychology Professor Jack Michael, Western Michigan University; Thomas Sturm, psychologist at Lino Lakes Rehabilitation Center; and Educational Psychology Professor Wells Hively, University of Minnesota.

Registration can be made in advance by calling Program Director Gordon Amundson, 373-7839; or at 8 a.m. Oct. 17 in Nolte Center. Fee of \$18 covers lunch, coffee breaks, and instructional materials and outlines.

'U' POLICY OUTLINED  
FOR 'MORATORIUM' DAY

(FOR IMMEDIATE RELEASE)

University of Minnesota policy on the nationwide Vietnam Moratorium scheduled for Oct. 15 was the subject of a directive sent today to University provosts, deans, directors and department heads by Academic Vice President William G. Shepherd. It reads as follows:

"A group of students and faculty have called upon the University community to join on Oct. 15 in an organized effort to demonstrate concern for the ending of the United States involvement in Vietnam.

"This is one of the most important issues of our time, and deserves most thoughtful examination by faculty and students. It is important that we also keep in mind the commitment which we as a University and a scholarly community have made to the students who have enrolled.

"Each faculty has the responsibility to see that its instructional commitments are fully met. Accordingly, an instructor should not absent himself from his class without having made provision for either substitute or make-up instruction, which is acceptable to the members of his class and within departmental and collegiate policy.

"We would thus clearly affirm that a student has freedom of choice with respect to his right to learn. We urge therefore that colleges and departments make appropriate arrangements in a timely fashion for the management of University instructional programs on Oct. 15."

PRIZE-WINNING SWEDISH FILM  
TO SHOW FREE SATURDAY;  
DIRECTOR WILL ANSWER QUESTIONS

A noted Swedish film director will appear in Northrop auditorium Saturday night (Oct. 11) following a free showing of his prize-winning film, "Here Is Your Life."

He is Jan Troell, who is currently in the Twin Cities for the filming of "Unto a Good Land," the second part of an epic sotry of Swedish immigration to Minnesota.

He will be accompanied in his Northrop appearance by Eddie Axberg, star of the earlier movie which won the "Best Film" award of the 1967 Berlin Film Festival.

The movie and the appearances are being arranged by the University Film Society with the cooperation of the department of concerts and lectures.

Troell has been described as Sweden's successor to Ingmar Bergman but working in an epic tradition, similar to the old Russian filmmakers. "Here Is Your Life" is based on an autobiographical novel by Ayvind Johnson dealing with the coming of age of a young boy in Swedish working-class society around World War I.

The Saturday showing will be at 7:30 p.m. The movie is about 2 hours and 15 minutes long. Troell and Axberg will then answer questions from the audience.

'U' TO CELEBRATE HOMECOMING WEEK  
(FOR IMMEDIATE RELEASE)

To cheers of "Give the Bucks a WARM-ath," Homecoming festivities at the University of Minnesota will get under way Monday (Oct. 13) with a Kick-Off Convocation at noon in front of Northrop auditorium.

Walter Bowser, Gopher quarterback, will send a football flying over the crowd signaling the start of Homecoming Week. The five queen finalists will be introduced at the convocation.

Official coronation ceremonies will be at noon Wednesday, Oct. 15 on Coffman Union Terrace. The queen will be crowned by an officer of the Alumni Association.

On Thursday, Oct. 16, friends and alumni of the University are invited to the annual Homecoming Luncheon in the Hall of Flags at Holiday Inn Central in Minneapolis. Gopher Captain Jim Carter, the new Homecoming Queen, and Miss Dee Drenth, the first woman student to serve as Homecoming chairman, will be at the luncheon which begins at 11:30 a.m. Former University All-American and now a Twin Cities sportscaster, Paul Giel, will be master of ceremonies.

A new feature of this year's Homecoming activities is Friday's (Oct. 17) Sing-In at noon in front of Northrop auditorium. Organized by Frank Bencriscutto, director of the University Bands, it is hoped that all students, staff, and faculty on campus will join in the singing of the Minnesota Rouser, "Minnesota March," and the Minnesota alma mater. The University Marching Band, under Bencriscutto's direction, will lead the singing. A pep fest precedes the sing-in.

Dances, a jazz concert and a coed football game fill out the week's activities which climax with Saturday's football game between the Gophers and Ohio State.

HISTORY OF DISCOVERIES SOCIETY  
TO MEET IN MINNEAPOLIS THIS WEEK

(FOR IMMEDIATE RELEASE)

A world premiere showing of the skies as they appeared to the Portuguese navigator Vasco da Gama in 1498 will be featured at the national meeting of the Society for the History of Discoveries Friday and Saturday (Oct. 10 and 11) in Minneapolis.

The public program at 9 p.m. Friday in the Minneapolis Public Library's planetarium will be narrated by Francis Rogers, America's foremost scholar in the field of Portuguese discoveries, professor of Portuguese language and literature at Harvard University and president of the society.

About 50 scholars are expected to attend the two-day meeting hosted by the James Ford Bell Library of the University of Minnesota. All sessions are open to the public.

The meeting will begin at 9 a.m. Friday with registration in the James Ford Bell Library, which is located on the fourth floor of the new Wilson library on the University's West Bank.

Speakers at the Friday sessions at the University will include Tom Jones, University history professor and author of the recently published book, "The Figure of the Earth"; David B. Quinn, the foremost English writer on English voyages and colonization in North America and professor of modern history at the University of Liverpool, England; Alexander Melamid, economic geographer and professor at New York University; Vincent Ponko, Jr., dean of humanities at California State College, Bakersfield; and Norman J.W. Thrower, professor of geography at the University of California, Los Angeles.

(MORE)

The Saturday-morning session begins at 10 a.m. in the Minneapolis Public Library. Lecturers will be Warren Cook, professor of anthropology and history at Castleton State College, Vermont, and specialist in Andean history and Spanish exploration in North America; Kenneth Nebenzah, Chicago antiquarian bookseller; and Herman Friis, senior specialist in the National Archives and Records Service in Washington, D.C.

John Parker, curator of the James Ford Bell Library, is secretary of the society.

#

SUPPLEMENTARY INFORMATION

The Society for the History of Discoveries was formed in 1960 for the purpose of stimulating interest in teaching, research and publishing in the history of geographical exploration, and includes members from many academic disciplines as well as laymen.

PAUL GIEL TO MC 'U'  
HOMECOMING PEPFEST LUNCHEON

(FOR IMMEDIATE RELEASE)

University of Minnesota former All-American Paul Giel will be master of ceremonies for the second annual Minnesota Homecoming Pepfest Luncheon to be held on Thursday, Oct. 16, in the Hall of Flags, Holiday Inn Central, downtown Minneapolis.

Giel, a well-known Twin Cities sportscaster, will interview Coach Murray Warmath and Football Captain Jim Carter at the head table. He will also introduce the new Homecoming Queen (to be officially crowned at coronation ceremonies on the campus Wednesday) as well as Homecoming Chairman Dee Drenth, plus Minnesota football All-Americans and other alumni personalities.

Miss Drenth, a senior in the College of Liberal Arts from Lyle, Minn., is the first woman student to serve as Homecoming chairman. The Pepfest Luncheon is one of the principal activities during Homecoming Week, Oct. 10 through 18, preceding Saturday's Homecoming football game between the Gophers and the Ohio State Buckeyes.

All loyal University supporters are invited to come and enjoy this special event sponsored by the Minnesota Alumni Association and open to the general public, according to Warren Headley of the Minnesota Alumni Association. A social period will start at 11:30 a.m., the luncheon is at noon and the program will be completed by 1:30 p.m. for people who have to get back to the office.

Tickets are \$4 per person and are available through the Minnesota Alumni Office, 205 Coffman Union, University of Minnesota; telephone 373-2466. Arrangements can be made for special tables with name cards for groups of 10 or more where desired.

PARKING RAMP RESERVED  
FOR MOON ROCK VIEWERS

(FOR IMMEDIATE RELEASE)

Parking could be a problem for people planning to view the moon samples on display at the University of Minnesota this weekend (Saturday and Sunday, Oct. 11-12).

In an attempt to make things easier for the viewing public, Walter D. Johnson, parking facilities supervisor, has reserved "Ramp A" at the corner of Washington avenue and Union street for moon-sample viewers only. Other lots and ramps will be open as well.

Moon samples will be on public display Saturday and Sunday from 9 a.m. to 6 p.m. at the Space Science Center on Union street.

These samples amount to about an ounce and a half of material brought to the University for detailed analysis by researchers. Once research begins the samples will not be available for viewing, and when it is completed the moon material will be returned to the National Aeronautics and Space Administration (NASA).

'U' CONSOLIDATED FUND DRIVE  
COLLECTING FOR STUDENT AID FUND

(FOR IMMEDIATE RELEASE)

An inner-city Boy Scout troop, continued cancer research, guidance for an unwed mother, a college education for a student with no money....

All of these are made possible in part by the funds collected through the Consolidated Fund Drive at the University of Minnesota, Minneapolis campus, Oct. 2 through 23.

Each October more than 700 University staff and faculty solicitors conduct a fund drive for the United Fund of Greater Minneapolis, the Minnesota Heart Association and the American Cancer Society, a drive which last year raised almost \$150,000.

This year a University of Minnesota Student Aid Fund, to help disadvantaged students, has been added to the drive on the Minneapolis campus and to similar drives on all other University campuses and facilities.

"These funds will be used to aid the University's neediest students, those who require the most help financially and educationally--through counseling, advising and tutoring," says Fred Lukermann, assistant vice president for academic administration.

The money collected will be used to give direct financial aid to students in four groups. The majority of it will go to the neediest undergraduates, with the next largest amount going to New Careers transfer students who wish to go on for an associate in arts or a bachelor of arts degree.

"A high degree of academic success and a high retention rate has been proven for New Careerists at the University," Lukermann says.

Money will also be used for students enrolled in independent study programs and for graduate students.

"This is a most important aspect of the University's program for minority and disadvantaged students insofar as one of our greatest needs is for faculty from these groups," says Lukermann.

Director of this year's Consolidated Fund Drive is Steve Barich, associate professor of mechanical engineering.

'INDICTMENT OF SYSTEM, SOCIETY'  
IS TOPIC FOR HUMPHREY SPEECH AT 'U'

(FOR IMMEDIATE RELEASE)

"The Indictment of the System and Society" will be the topic for the first in a series of four public speeches by former Vice President Hubert H. Humphrey sponsored by the Pillsbury Company.

Humphrey, now a professor at the University of Minnesota and Macalester College, will speak at 8 p.m. Thursday, Oct. 16, in Northrop auditorium at the University.

Dates and locations of the other speeches in the series will be announced later by the Pillsbury Company.

Humphrey said the lecture series will relate to the world with which man must learn to cope, and will not deal with contemporary political issues.

"The decision to have Mr. Humphrey deliver the lectures recognizes today's critical need for a constructive re-evaluation of mankind's values, goals, and environment. To contribute toward this re-evaluation, and to seek ideas which may lead to solutions, seems to be a genuine and constructive manner in which the Pillsbury Company should celebrate its 100th anniversary," said Robert J. Keith, chairman of the board of Pillsbury.

INTERESTED IN NROTC?  
QUALIFYING EXAM SET IN NOV.

(FOR IMMEDIATE RELEASE)

High school seniors and others who plan to enter college next fall may be interested in becoming midshipmen in the Naval Reserve Officers Training Corps (NROTC), suggests the NROTC office at the University of Minnesota.

Anyone interested must take the regular NROTC qualifying examination on Dec. 13. Applications for the exam must be received by Nov. 14.

Those accepted will have all tuition, fees and books for four years financed by the Navy, and will receive a subsistence allowance of \$50 a month. Each summer during their college years the midshipmen participate in an at-sea training period.

Applicants must be high school seniors or graduates who will enter college next September and who are at least 17 but not yet 21 as of July 1, 1970. They will take the Navy College Aptitude Test, which is given in many different locations, and those who pass will be given a medical examination. Applications will be completed in January and February, 1970.

The NROTC program is offered at 51 colleges, including the University of Minnesota. Upon graduation the midshipmen become commissioned officers in the regular Navy.

Anyone interested may get further information from high school counselors, U.S. Navy Recruiting stations, or the NROTC Unit, 203 Armory, University of Minnesota, Minneapolis, Minn. 55455.

STUDENTS FOR ENVIRONMENTAL  
DEFENSE ATTACK NUCLEAR-POWER  
SYMPOSIUM ARRANGEMENTS

(FOR IMMEDIATE RELEASE)

Students for Environmental Defense (SED), a University of Minnesota student organization concerned over environmental deterioration and the population explosion, today objected to certain arrangements in the symposium on "Nuclear Power and the Public" being held on the Minneapolis campus this weekend (Oct. 10-11).

Its main objection is that questions from the audience--expected to be around 700 people from across the country--may only be submitted in writing. It gave the following reasons for protesting:

"1. The panelists will have the opportunity of editing and disregarding questions they might find difficult or embarrassing to handle.

"2. The panelists can present seemingly provocative questions which they have prepared themselves.

"3. Provocative questions can be studied in advance and answers rehearsed which seem to satisfy the questions but which actually gloss over or evade the issues. Questions which are answered in this manner are not open to rebuttal from the audience. We feel the opportunity for rebuttal is essential to the symposium.

"4. Some members of the audience who write questions will not be able to attend question-and-answer sessions.

"5. To hold some questions for several hours or even a day will mean they will become either irrelevant or will require a summary of information in order that the answer have any meaning...."

SED says the reasons given for this policy, by organizers of the symposium, are that they felt oral exchange would lead to duplication of questions, the audience

(MORE)

would offer opinions rather than questions, the panel wished to avoid emotional outbursts and extraneous questions, and the panel believed the symposium would become too lengthy.

SED co-chairman Wes Fisher, a graduate student in ecology, explained that SED feels such direct exchange is vital to the democratic process and that the proposed restrictions smack of dictatorship.

The symposium begins at 9 a.m. Friday (Oct. 10) and concludes at 5:30 p.m. Saturday. Speakers were chosen to represent diverse points of view regarding nuclear power as well as proven competence in their field, according to Dr. Harry Foreman, conference organizer.

In its statement, SED said it is "aware that in the academic world all research must be open to verification and attack if it is to be accepted by other members of the academic community. If the AEC (Atomic Energy Commission) is to be free from such scrutiny during the symposium, the symposium's findings and conclusions should not, in our opinion, be accepted as valid by the University or any group concerned with scientific objectivity."

In an accompanying statement, "A Position on the Peaceful Use of Atomic Energy," SED explained that it is "not opposed to the peaceful use of nuclear power. With the increase in America's population and the depletion of the world's oil resources, use of nuclear energy will be of critical importance in the near future."

SED calls for an end to the AEC's dual role as both a regulatory agency and a promotional agency for the use of nuclear power; the addition of more ecologists, persons knowledgeable about environmental problems, to its staff; and the eventual formation of a Cabinet-level Department of Environmental Defense with the power to set and enforce standards on such questions as nuclear safety, use of insecticides, pollution of air and water, and the consumption of natural resources.

FAMILY LIFE, SEX EDUCATION  
WORKSHOP TO BE HELD AT 'U'

(FOR IMMEDIATE RELEASE)

"Why do they teach sex education in schools for 12 years when I can tell my children all they need to know in five minutes?" irate parents have been known to ask.

Elizabeth Peterson, director of parent and family life education in the University of Minnesota General Extension Division, is always ready with an answer to that question.

"It's true that the biological facts can be taught briefly," Mrs. Peterson says. "But when you are also concerned with values and attitudes, it takes longer. The real goal of family life and sex education is a good family to bring up the next generation with wholesome attitudes."

Though grade school sex education sometimes elicits community and parental opposition, Mrs. Peterson sees the early grades as the natural place to start. She points to Minnesota Department of Education endorsement of sex education in grades kindergarten through three with emphasis mainly on family life and in grades four through six with emphasis on anatomy, physiology and basic genetics, and continuing concern for values and attitudes.

( MORE )

A workshop in family life and sex education for elementary school teachers--and also parents, social workers, religious leaders and anyone else concerned--will be held under Mrs. Peterson's direction at the University Nov. 14 and 15, with financial support from the Minnesota Department of Health.

Nationally known family life and sex education experts and local teachers will be on the faculty to talk about the facts and the feelings that are part of sex education--including basic information on reproduction, the attitude of the teacher or parent who passes on that information, curriculum materials, and questions and responses that can be expected from children.

Freda Kehm, author and former director (1948-65) of the Association for Family Living, a Chicago-based organization, and Jessie Potter, director of a sex education consultants' and speakers' bureau in Chicago, will each give several talks on Friday, Nov. 14.

Panels composed of teachers from the Twin Cities area will discuss developing receptive community attitudes toward family life and sex education, methods of presentation, and moral values, on Saturday morning (Nov. 15).

Registration is limited but still open, according to Mrs. Peterson. Information is available from the extension division's Department of Conferences and Institutes, Nolte Center, University of Minnesota, Minneapolis, Minnesota 55455; telephone 373-3151.

#### SUPPLEMENTARY INFORMATION

Sponsors, in addition to the General Extension Division, include numerous state health, education and religious organizations.

Mrs. Kehm holds a master's degree in sociology and psychology and a doctorate in sociology and social work. She has worked for public health and welfare organizations and taught at several colleges and universities, including Carleton College in Northfield, Minnesota.

Mrs. Potter was a staff member of the Association for Family Living for nine years and has done extensive consulting and lecturing in the field of sex education.

'U' GALLERY RECEIVES  
HYLTON THOMAS COLLECTION

(FOR IMMEDIATE RELEASE)

Art works collected by the late Hylton A. Thomas, professor of art history at the University of Minnesota for 19 years, have been given to the University Gallery.

Allen Davis, acting gallery director, estimates the value of the collection at \$50,000.

It includes approximately 175 pieces -- paintings, drawings, prints and furniture. Emphasis is on the Rococco style of the 18th century, although there are representative pieces from the 16th, 17th, 19th and 20th centuries, as well. Included are Viennese and French Louis XV commodes, Venetian Louis XVI furniture, 18th-century pewter, Sevres and Meissen porcelain, Piranesi and Van Huysum drawings, an oil painting by the 17th-century Italian painter Solimena and a sizable collection of prints by such artists as Goya, Tiepolo, Goltzius, Aldegrever, della Bella and Piranesi.

Mr. Thomas, who died March 28, 1969, at the age of 56, began his collection at an early age and over the years continued to develop it on many trips to Europe. He frequently used the University Gallery for meetings of his classes and seminars in art history.

RAUP TO SPEAK  
AT CONFERENCE ON MIDDLE EAST

Phillip Raup, professor of agricultural economics at the University of Minnesota, will participate in a Conference on Rural Politics and Social Change in the Middle East Oct. 23-25 at Indiana University, Bloomington, Ind.

Educators from more than 30 universities throughout the world will take part in the conference, aimed at finding a more systematic way of studying rural peoples in developing regions of the world. A series of seven panel discussions are planned, dealing with several aspects of village life in the Middle East rural areas.

The conference is sponsored by Indiana's International Development Research Center.

\* \* \*

V.P. WENBERG  
HAS NEW TITLE

University of Minnesota Vice President Stanley J. Wenberg has a new title, given him by the Board of Regents at its September meeting.

He is now vice president for the coordinate campuses and educational relationships. He is thus in charge of coordinating the various University campuses -- at Duluth, Morris, Crookston and, shortly, Waseca -- and the relationships the University has with other educational institutions. His former title was vice president for educational relationships and development. Most development or fund-raising operations will gradually be shifted to Vice President Roger Kennedy.

U OF M JOINS ASSOCIATION  
FOR INTERNATIONAL ACTIVITIES

(FOR IMMEDIATE RELEASE)

A big jump in international activities is anticipated for the University of Minnesota as a result of its new membership in a five-university association.

The Midwest Universities Consortium for International Activities (MUCIA) this month accepted Minnesota as its fifth member. Original members are the universities of Wisconsin, Illinois, Indiana and Michigan State.

MUCIA was formed in 1964 to assist the four universities in improving their overseas operations by providing funds for research and staff that wouldn't otherwise be available; to help them improve their capabilities in the international field by building a closer relationship between overseas operations and on-campus programs of research and instruction; to help improve campus programs designed to train people in the field of development of emerging nations; and to promote cooperative programs among the four institutions in the international field.

MUCIA was originally funded by a \$3.5 million grant from the Ford Foundation, of which approximately \$1.6 million remains. Of this, some \$206,000 has been earmarked for use by Minnesota faculty and graduate students, funds which can be used in the following ways:

(1) Financing overseas research by faculty members. To qualify for a grant, the research project must either strengthen the research component of an overseas project of one of the MUCIA universities, or extend knowledge of factors, relationships, processes, and problems of developing nations.

(2) Financing research by faculty members returning from overseas assignment. This may include completing research begun overseas, preparing reports, or carrying on research related to the overseas project.

(MORE)

(3) Providing salary guarantees; designed to assist the MUCIA universities in recruiting staff for assignments to their overseas projects.

(4) Financing orientation programs for faculty members being assigned to overseas projects, such as language training, training in a specialty within the faculty member's field, or a trip to observe the project in the field.

(5) Financing student programs: graduate student internships, post-baccalaureate professional student grants, and senior predoctoral fellowships.

#

#### SUPPLEMENTARY INFORMATION

MUCIA, which is a non-profit corporation, is headed by a council made up of presidents of the member universities, which in turn elects a board of directors that conducts its business. Donald K. Smith, vice president for administration, and Willard W. Cochrane, dean of international programs, are the University's representatives on the board of directors. MUCIA executive director is George Axinn, former assistant dean of international programs at Michigan State University, with headquarters at the University of Illinois.

Four major overseas assistance projects currently in operation under MUCIA will require staffing from Minnesota in the future. They are:

- (1) Basic sciences exchange program with La Molina (the Agrarian University) at Lima, Peru. University representative on advisory committee is Frank Verbrugge, director of computer services.
- (2) National Institute of Development Administration, Bangkok, Thailand; involves teaching, training and research programs in the various fields of development administration, such as public administration, business administration, and development economics. Professors George Warp, head of Public Administration Center, and George Seltzer, associate dean, School of Business Administration, are Minnesota's representatives.
- (3) Korean education project; provides consultants to Korean government for its long-range educational planning agencies. Education Dean Robert Keller is University's representative.
- (4) Indonesian agricultural education program; assists Indonesian government in setting up agricultural colleges. Institute of Agriculture Dean Sherwood O. Berg and Dean Cochrane are Minnesota representatives.

Students and faculty members who wish more information on MUCIA programs should contact Dean Cochrane at 373-3793.

UNICEF CHRISTMAS CARDS  
AVAILABLE NOW AT 'U'  
WORLD AFFAIRS CENTER

(FOR IMMEDIATE RELEASE)

A grateful seven-year-old Czechoslovakian girl created the first United Nations Children's Fund (UNICEF) greeting card design 20 years ago -- a group of happy children around a maypole wreathed with flowers.

"The picture means joy," she wrote, "and the wreath shows that the line of children being helped is endless."

Grandma Moses, Henri Rousseau and Rene Magritte are among the artists represented by the 19 designs used for this year's cards, which are now on sale at the University of Minnesota World Affairs Center.

The Magritte design, depicting a bird in flight among swirling leaves, is this year's large special-edition card.

Religious, wintry and whimsical designs on the other cards are accompanied by greetings in English, French, Spanish, Russian and Chinese -- the official languages of the United Nations.

"Universe of the Child," a 1970 calendar with 54 color illustrations which remain when weekly calendar pages are removed, and year-round note cards also are on sale at the World Affairs Center, 122 Social Science building on the University's West Bank, telephone 373-3799. The center is a part of the University's General Extension Division.

Proceeds from sales are used by UNICEF to bring food, medicine and education to children around the world.

BUSINESS, LAW ADMISSION TESTS  
TO BE GIVEN AT 'U' THIS YEAR

(FOR IMMEDIATE RELEASE)

Tests for admission to law schools and to graduate study in business will be given at the University of Minnesota again this year, Dallis Perry, assistant director of the Student Counseling Bureau, announced today.

Each test will be given on several dates. The test for admission to graduate study in business is scheduled to be administered Nov. 1, 1969, and Feb. 7, April 4, June 27 and Aug. 8, 1970. The law school admission test will be given Nov. 8, 1969, Feb. 14, April 11 and July 25, 1970.

Both tests are administered by the Educational Testing Service of Princeton, N.J. Registration forms and additional information can be obtained in 101 Eddy hall, University of Minnesota, Minneapolis, Minn. 55455.

#

SUPPLEMENTARY INFORMATION:

The law school admission test is required by most American law schools and last year was taken by some 58,000 candidates whose scores were sent to over 165 law schools. The morning session of the test measures the ability to use language and to think logically. The afternoon session measures writing ability and general background.

The admission test for graduate study in business is required by more than 240 graduate business schools or divisions. It is an aptitude test designed to measure abilities and skills that are developed over a long period of time. It is not a measure of achievement or knowledge in specific subject matter and does not presume undergraduate preparation in business subjects.

KNIGHT AND DRAGON SPOOF  
TO OPEN YOUNG PEOPLE'S SEASON

(FOR IMMEDIATE RELEASE)

A spoof about knights and dragons will be the first play in the Young People's University Theatre 1969-70 season.

"The Thwarting of Baron Bolligrew" by Robert Bolt, who is also the author of "A Man For All Seasons," will be presented at 10:30 a.m. and 2 p.m. Saturday, Oct. 25, and at 2 p.m. Sunday, Oct. 26, in Scott hall auditorium at the University of Minnesota.

Theodore Herstand, associate professor of theatre, will direct the production. Cast in the lead roles are Stephen Kanee, a senior theatre major from Minneapolis, as Baron Bolligrew; Allan Estes, a graduate student from Anchorage, Alaska, as Oblong fitz Oblong, the knight; and Jeffrey B. McLaughlin, a senior theatre major from Hopkins, as Squire Meanheart.

The production is planned to entertain "children of all ages," Herstand said.

Tickets are on sale for public performances at the University Theatre Ticket Office in Scott hall (phone 373-2337) and at Dayton's. The play is being presented for groups of school children at 1:15 p.m. Oct. 13-15, and 20-24.

DRAMATIST VAL GRAY  
TO PERFORM AT 'U'

Black dramatist Val Gray and other black artists will perform at a Liberation Coalition program and rally at the University of Minnesota Sunday (Oct. 19).

The program, beginning at 8 p.m. in Coffman Union main ballroom, is sponsored by the Afro-American Action Committee. Tickets at \$2 may be purchased at the door.

The Liberation Coalition is composed of campus groups protesting the arrest and trial of Rosemary Freeman, Horace Huntley, and Warren Tucker, Jr., in connection with last January's Morrill hall sit-in. Their trial begins Monday (Oct. 20).

MUSEUM OPEN TILL 9  
ON WEDNESDAYS

The Bell Museum of Natural History at the University of Minnesota is open to 9 p.m. on Wednesdays once again, as its winter hours went into effect this week.

"The museum is staffed on Wednesday nights for the benefit of Boy Scouts, Girl Scouts, Indian Guides and similar groups," says Richard Barthelemy of the museum staff. "Unfortunately, not many of these groups are aware of those Wednesday hours."

The museum will arrange special tours for the elderly and the handicapped, as well as for children's groups, by reservation. Those interested should call 373-2423. Regular hours, except for Wednesday, are 9 a.m. to 5 p.m. daily, 2 to 5 p.m. Sundays.

TORT LAW DEVELOPMENTS  
TO BE REVIEWED AT  
LAWYERS' FALL INSTITUTE

(FOR IMMEDIATE RELEASE)

Significant developments in tort law will be reviewed for attorneys at the continuing legal education fall institute, to be held Nov. 7 at the Leamington Hotel in Minneapolis.

Continuing legal education is a joint project of the University of Minnesota General Extension Division and the Minnesota State Bar Association.

The fall institute is the only annual review of tort law in the state and is intended to keep lawyers up to date on federal and state court decisions and their effects.

Faculty will include law professors and practicing attorneys. Registration, for a fee of \$30, can be made with Continuing Legal Education, 338 Nolte Center, University of Minnesota, Minneapolis, Minn. 55455; telephone 373-5386.

MIDWEST ELECTRIC  
POWER SYSTEMS MEETINGS  
TO BE HELD AT UNIVERSITY

(FOR IMMEDIATE RELEASE)

Electrical and electronics engineers from the midwest will confer at the University of Minnesota next week to discuss electric power.

A "Power Systems Conference" will be held Monday and Tuesday (Oct. 21-22) and the "1969 Midwest Power Symposium" will be held Wednesday (Oct. 23). Both events will be held in Mayo Memorial auditorium on the Minneapolis campus of the University.

A featured event Tuesday (Oct. 21) will be a banquet speech, "Compressed Speech and Who Needs It," by Dana S. Gregory, editor of the Honeywell Computer Journal. The speech, concerning some psychological problems of "speed listening," will be given in the Alumni Club at the Sheraton-Ritz Hotel, Minneapolis.

Further information on the conference is available from Associate Professor James Holte, Nolte Center for Continuing Education, University of Minnesota, Minneapolis, Minn. 55455; telephone 373-5057.

#

SUPPLEMENTARY INFORMATION:

The "Power Systems Conference" is in cooperation with the Twin Cities Section of the Institute of Electrical and Electronics Engineers. Theme: Power System Security Through Control.

The "Midwest Power Symposium" is in cooperation with the Power Engineering Education Committee of the Institute of Electrical and Electronic Engineers. Theme: Research in the University.

All events are being held under the auspices of the University's General Extension Division.

Professor Vernon Albertson of the department of electrical engineering, University of Minnesota, is on the "Power Systems Conference" planning committee and is chairman of the "Midwest Power Symposium."

FOUR SUCCESSFUL ENGINEERS  
TO RECEIVE UNIVERSITY'S  
OUTSTANDING ACHIEVEMENT AWARD

(FOR IMMEDIATE RELEASE)

Four engineering graduates of the University of Minnesota, all of whom have been successful as engineers and as top-level administrators, will receive the Outstanding Achievement Award of the University.

The awards will be presented at the annual meeting of the Alumni Association of the Institute of Technology on the evening of Friday, Oct. 24 at the Holiday Inn Central.

Recipients of the award are J. Leonard Frame, founder and president of Flui-Dyne Engineering Corp., Golden Valley, Minn.; William W. Hagerty, president of Drexel Institute of Technology, Philadelphia, Pa.; John Jamieson, director of transit development, Metropolitan Transit Commission, St. Paul, Minn.; and Elden H. Olson, vice president and general manager of the aeronautical division at Honeywell, Inc., Minneapolis, Minn.

#

SUPPLEMENTARY INFORMATION:

J. Leonard Frame--Bachelor of aeronautical engineering degree, 1943; married, 5 children; Flui-Dyne is prominent in wind tunnel technology.

William W. Hagerty--Bachelor of science in mechanical engineering, 1939; Ph.D. from University of Michigan 1947; married, 3 children; adviser to many federal agencies and departments.

John Jamieson--Master of science, 1948; married; recipient of the Donald G. Paterson Distinguished Citizen Award of the Prospect Park and East River Road Improvement Assn; was state highway commissioner 1965-1967 and deputy federal highway administrator 1967-1969.

Elden H. Olson--Bachelor of aeronautical engineering, 1937; married, 3 children; holder of several patents in aircraft engine design.

HOUSING, HEALTH PROBLEMS,  
MIDDLE EAST CRISIS  
TOPICS AT LABOR MEET

(FOR IMMEDIATE RELEASE)

Domestic problems of housing and health and the crisis in the Middle East will be the main topics for discussion at the annual Labor and World Affairs Conference to be held Oct. 29 through Nov. 1 at the Quadna Lodge near Hill City, Minn.

Speakers will be economist Leon Keyserling; Professor Jerome Pollack of the Harvard Medical School and director of the Harvard Community Health Plan; Amos Eiran, labor attache to the Israeli embassy in Washington, D.C.; and Sol Chaikin, chairman of the American Trade Union Council for Histadrut and vice president of the International Ladies Garment Workers' Union.

The Minnesota Trade Union Council for Histadrut and the University of Minnesota Labor Education Service--an office of the Industrial Relations Center and the General Extension Division--are co-sponsors of the conference.

Keyserling, a Washington, D.C., economist and attorney and former adviser to President Harry Truman, will speak at 9 a.m. Thursday, Oct. 30, on "Housing--A Key to the National Economy."

The keynote address will be delivered by Sol Chaikin at 8 p.m. Wednesday, Oct. 29. His topic will be "Histadrut: The Response to the Challenge." (Histadrut is the Israeli labor federation.)

Other major speeches will include Amos Eiran speaking on "The Political Situation in the Middle East" at 8 p.m. Thursday, Oct. 30, and Jerome Pollack speaking on "Union Health Plans: The Future" at 9 a.m. Friday, Oct. 31. Dr. Pollack is a former director of health for the United Auto Workers of America.

Registration information is available from John Curtis, chairman of the Minnesota Trade Union Council for Histadrut, at the Hotel and Restaurant Employees Union Local 458 at 900 Hennepin ave., Minneapolis, Minn., 55403.

FANG, TWORKOV  
JOIN 'U' FACULTY

(FOR RELEASE AT 10 A.M. SATURDAY, OCT. 18)

Irving E. Fang, former television newsman and expert on television coverage of election returns, has been named associate professor of journalism and mass communication in the University of Minnesota's College of Liberal Arts.

He was appointed today, retroactive to Sept. 16, by the University's Board of Regents.

Fang has been a member of the American Broadcasting Company's (ABC) news staff for nine years. In 1968 he participated in the direction of ABC's coverage of the national election returns and has been assistant manager of the ABC political unit since 1967.

Fang has bachelor's, master's and doctor of philosophy degrees from the University of California in Los Angeles. He is the author of "Television News," published in 1968 by Hastings House. His doctoral dissertation, a computerized study of writing, was printed by a computer, probably the first dissertation that was key punched instead of typed.

Fang is teaching classes in reporting and in broadcast news writing and editing at the University.

In other action, the Regents appointed Jack Tworkov as Hill Family Foundation visiting lecturer in the studio arts department for fall quarter.

retired

Tworkov, 69, / chairman of the art department at Yale University, received the first William A. Clark Prize and in 1963 received the Corcoran Gold Medal from the Corcoran Gallery of Art in Washington, D.C. He has exhibited widely and his work is in many major collections in the United States, including those of the Museum of Modern Art, the Metropolitan Museum and the Whitney Museum in New York.

**TOP FILMS TO BE SHOWN AT 'U'  
AND TWIN CITIES LIBRARIES**

(FOR IMMEDIATE RELEASE)

Award-winning films from the 1969 American Film Festival of the Educational Film Library Association, held in New York in May, will be shown in the Twin Cities Oct. 25 through 30.

Among the 40 titles to be seen here are "Little Man, Big City," "Robert Kennedy Remembered," "Still a Brother: Inside the Negro Middle Class," "The World of Carl Sandburg" and a social documentary entitled "Flowers on a One Way Street."

Films will be shown free at the Minneapolis Public Library, the St. Paul Public Library and several of its branches, three branches of the Hennepin County Library and the University of Minnesota.

The University General Extension Division's audio-visual extension service arranged the showings in cooperation with the libraries. William J. Price, assistant director of the service, served as a juror in one of the 50 categories judged at the festival and was in charge of a pre-festival screening committee at the University.

"Ski the Outer Limits," a film about "man alone in his environment," took the festival's top award, the "Emily," Price said. It will be shown several times at different locations.

MOON MISSION MOVIE  
TO BE SHOWN BY SPACE  
SCIENCE DIRECTOR

(FOR IMMEDIATE RELEASE)

A short film of the Apollo 10 mission to the moon (the mission preceding the moon walk) will be shown at the University of Minnesota to anyone interested.

Professor Laurence Cahill, director of the University's Space Science Center, will show the 20-minute film at 4:15 p.m. Thursday (Oct. 23) in Room 25 Architecture building.

It will follow Professor Cahill's discussion of the University's role in NASA (National Aeronautics and Space Administration) research.

Although free and open to the public, the talk is part of the fall quarter electrical engineering colloquium at the University. The colloquium is aimed primarily at engineers and advanced students of engineering. Each week a different expert presents a different topic.

#

SUPPLEMENTARY INFORMATION:

Future topics of the colloquia are:

Oct. 30: Industry and the Environment--A.V. Dienhart, Northern States Power Co.

Nov. 6: A Professorial Dropout Talks on Engineering Education--D.E. Anderson, G.T. Schjeldahl Co.

Nov. 13: Recent Developments in Learning Systems Research--K.S. Fu, Purdue University.

Nov. 20: Silicon-Silicon-Dioxide Interfaces--P.V. Gray, General Electric Co.

Dec. 4: Filtering Theory with Applications--K.S.P. Kumar, electrical engineering, University of Minnesota.

'U' REGENTS URGE CONGRESS  
TO RE-EXAMINE STUDENT AID

(FOR RELEASE AT 10 A.M. SATURDAY, OCT. 18)

The University of Minnesota Board of Regents has expressed its belief in the necessity for Congress to support a "comprehensive and thoughtful program of student financial aid for college and university students."

The Board, at its meeting today, voted to send a letter to Minnesota's congressional delegation urging that Congress re-examine its entire student aid program with an eye toward increasing the grant portion of the program and suggesting several steps Congress might take.

The letter, drafted by Vice Presidents Paul Cashman and Roger Kennedy, goes on to state that the failure of Congress to pass an amended guaranteed student loan program in time for the opening of the school year inconvenienced and may have jeopardized hundreds of University of Minnesota students who had assumed that such loans would be available.

Cashman, in commenting on the financial situation facing the University, calls it an exceptionally serious problem. He stresses that grant assistance to students has dropped from 31 per cent in 1958 to 23 per cent last year. He further states that when student employment is added to total loans and grants available to students, grant assistance represents only about 1 per cent of the total.

"What is clearly needed," the letter states, "is a complete review of the federal approach to student aid. The increasingly heavy reliance upon loans as opposed to grants, the decline of grants for low-income students, the decrease in graduate fellowships and the whole pattern of withdrawal of federal money from the student aid area is a matter of serious consequence for the nation."

(MORE)

The letter refers to the "unfortunate time" at which the weakening of federal support comes, since many institutions, relying in part upon the expectation of federal encouragement and support, have brought many low-income students to the campus.

The steps suggested to Congress by the Regents are:

- (a) The guaranteed loan program should be amended as soon as possible to provide a higher ceiling rate guaranteed by the federal government;
- (b) Steps should be taken to insure the availability of loans under this program notwithstanding times of "tight money" policy, possibly by a device analogous to the federal mortgage "auction" set up for the Federal National Mortgage Association (FNMA) and the Government National Mortgage Association (GNMA);
- (c) Congress should review the adequacy of present grant programs for higher education with a view to providing greater allocations of such funds for disadvantaged and high-risk students.

FREDERICK NAMED DIRECTOR  
OF 'U' TECHNICAL COLLEGE AT WASECA

(FOR RELEASE AT 10 A.M. SATURDAY, OCT. 18)

Edward C. Frederick today was named director of the new University of Minnesota Technical College, Waseca. He was appointed by the University's Board of Regents.

The technical college is a two-year campus of the University that will have its first students in fall 1971. A combination college and technical school, it aims to prepare semi-professional graduates for technical areas of agriculture and business. It will offer courses in agriculture, business and general education, as is now done at the University's other Technical College at Crookston.

Frederick is currently superintendent of the University's Southern School and Experiment Station at Waseca. The Southern School of Agriculture will be dissolved in favor of the new technical college, for which planning funds were voted by the 1969 State Legislature.

#

SUPPLEMENTARY INFORMATION:

Frederick was appointed to his present position in January, 1964. Previously he served at the University's Northwest Experiment Station in Crookston. His special research field is dairy physiology and management, and he is the author of many scientific and popular articles.

A native of Mankato, Frederick received his B.S., M.S. and Ph.D. degrees from the University of Minnesota. He received his bachelor's degree with honors and won the Caleb Dorr Senior Medal for the highest ranking member of the senior class in the College of Agriculture, Forestry and Home Economics.

'U' THEATRE TO ENTER  
'INSECT COMEDY' IN  
REGIONAL COMPETITION

(FOR RELEASE TUESDAY, OCT. 21)

The University of Minnesota Theatre's production of "The Insect Comedy" will be entered in Region VII competition for the American College Theatre Festival, Theatre Director Frank M Whiting announced today.

A Czechoslovakian satire on the regimentation of contemporary life, the play was written by Josef and Karel Capek. It will be presented at the University Nov. 7 through 16 under Professor Whiting's direction.

Six other colleges and universities in Minnesota and North and South Dakota also will have entries in Region VII, according to Dale Huffington, regional director and head of the University General Extension Division's Drama Advisory Service.

The judges, who will travel to see all regional entries, are Ruth Nelson, Tyrone Guthrie Theatre actress, and John Cromwell, a noted director who also has acted at the Guthrie Theatre.

After seeing the final production in December, they will select one play to be entered in the national festival in Washington, D.C., next spring.

#

SUPPLEMENTARY INFORMATION:

Other Region VII entries are:

Minnesota--Lea College (Albert Lea), "Sound of Bread Breaking"  
Southwest State College (Marshall), "The Devils"  
Hibbing State Junior College, "The Madwoman of Chaillot"  
College of St. Catherine (St. Paul), "Juno and the Paycock"

North Dakota State University, Fargo, "The Peripatetic Bartholomew Bone"  
University of South Dakota, Vermillion, "Waiting for Godot."

U OF M ENROLLMENT  
PASSES 50,000 MARK

(FOR IMMEDIATE RELEASE)

Enrollment at the University of Minnesota for the fall quarter of 1969, as measured by registration counts at the end of the second week of classes, has increased on all campuses compared with 1968. The University now serves 50,415 students, compared with 49,454 a year ago.

These registration figures more accurately reflect overall attendance for the quarter as compared to the count of second-week paid fee statements which the University has used in previous years, according to Theodore Kellogg, associate dean for admissions and records.

Total students registered on the Twin Cities campus are 42,996. Figures for the four campuses, last year and this year, are as follows:

	<u>1968</u>	<u>1969</u>	<u>Increase</u>
Twin Cities	42,519	42,996	477
Duluth campus	5,300	5,468	168
Morris campus	1,264	1,510	246
Crookston campus	<u>371</u>	<u>441</u>	<u>70</u>
Total	49,454	50,415	961

Units showing significant growth are the College of Education (209 increase), the Graduate School (Twin Cities) (416 increase), the Institute of Technology (222) the Morris campus (246) and the Duluth campus (168).

Men attending the University total 31,373; the women, 19,042. By campus the sexes are: Twin Cities, 26,931 men and 16,065 women; Duluth, 3,201 men and 2,267 women; Morris, 854 men and 656 women; Crookston, 387 men and 54 women.

(MORE)

The entire freshman class numbers 8,787 (compared with 8,810 last year), with 6,573 of those on the Twin Cities campus. New students transferring to the University this fall number 4,335 as compared with 4,159 in 1968.

The above figures represent regular, daytime enrollments. In addition, the General Extension Division reports 19,819 students attending evening classes, an increase of 529 over a year ago, plus 6,216 students enrolled in Independent Study courses. These totals, combined with other General Extension enrollments, come to 26,402 being served by the GED.

The various colleges and divisions of the University Twin Cities campus report the following registration figures for the end of the second week of classes:

	<u>1969</u>		<u>1969</u>
General College	3,351	Public Health	168
University College	74	School of Dentistry	420
College of Liberal Arts	17,580	Dental Hygiene	124
Institute of Technology	3,679	College of Pharmacy	282
Ag, Forestry and Home Ec	2,732	College of Education	3,173
Law School	591	Business Administration	922
Medical School*	667	Graduate School Twin Cities, 7,700	8,272
Medical Technology	128	Duluth, 112 Rochester, 460	
Mortuary Science	71	Veterinary Medicine	235
Occupational Therapy	52	Biological Sciences	135
Physical Therapy	95	Total	42,996
School of Nursing	245		

\*In addition to the above figures for the Medical School there are 24 regularly enrolled medical students having a scheduled vacation quarter. A year ago there were 8 such students.

MARY STOLZ TO SPEAK  
AT BOOK WEEK PROGRAM

(FOR IMMEDIATE RELEASE)

Mary Stolz, an author who writes about the reality of racial conflicts, city living, individual differences and death in her books for young people, will speak at the 50th anniversary Children's Book Week program at the University of Minnesota Tuesday, Oct. 28.

Miss Stolz, who is known widely for both her children's books and teenage novels, will speak at a public dinner at 6 p.m. in Coffman Union at the University.

Some of her more recent works include "The Story of a Singular Hen and Her Peculiar Children," concerned with individual differences, for children ages 4 through 8; "The Dragons of the Queen," a story about adults and death in Mexico, for children ages 8 through 12; and "The Noonday Friends," a book about city life, for children ages 8 through 12. Earlier in her career she wrote novels for teenagers, including "Rosemary," "The Organdy Cupcakes," "To Tell Your Love" and "Who Wants Music on Monday?"

The book week program will also include a week-long display of books for children and young people on the first floor of the Museum of Natural History and reviews of books for elementary and junior and senior high school students.

Reviews of books for kindergarten and elementary school students will be presented at 4:30 p.m. Tuesday in the Museum of Natural History auditorium by Norine Odland, professor of children's literature at the University of Minnesota; Mrs. Geraldine Kozberg, elementary teacher in the St. Paul Public Schools, and Mrs. Ellen Reeker, teaching assistant in the University's education department.

Professor Anna Lee Stensland of the English department, University of Minnesota, Duluth, will review new books for junior and senior high school students at 4:30 p.m. Tuesday in Murphy hall auditorium.

Reservations for the book week dinner can be obtained by writing to Professor Norine Odland, College of Education, Burton hall, University of Minnesota, Minneapolis, Minn. 55455.

PLAY ABOUT PACIFIST  
ASSYRIAN KING SET  
AT U OF M THEATRE

(FOR IMMEDIATE RELEASE)

"Sardanapalus," a play by Lord Byron about a legendary bi-sexual Assyrian king who tried to live a pacifist life and was destroyed, will open Tuesday, Oct. 28, in the Scott hall studio theatre at the University of Minnesota.

This will be the first performance on record of the play in the United States since the 19th century.

Performances are scheduled for 8 p.m. Tuesday through Saturday, Oct. 28-Nov. 1 and at 3:30 p.m. Sunday, Nov. 2.

John Chase Soliday, a graduate student from Lancaster, Ohio, is directing the University Theatre production. Ivar Brogger, a theatre student and McKnight Foundation fellow from Minneapolis, is cast in the title role. A live boa constrictor plays a supporting role.

Tickets are on sale at the University Theatre Ticket Office in Scott hall and at Dayton's.

#

SUPPLEMENTARY INFORMATION:

Soliday -- Director of theatre at the College of Wooster (Ohio) for four years. Holds bachelor's degree from Otterbein College and master's degree from Bowling Green State University. Working for doctor of philosophy degree in theatre at the University. In 1969 has directed "The Odd Couple" for the Lakeshore Playhouse; "Secret Service" for the Minnesota Historical Society and the McKnight Foundation, and "Good Grief Charlie Brown," "Aria da Capo" and a series of Pinter one-acts at Central High School in Minneapolis.

ROWAN'S ONE-MAN SHOW  
AT MARTIN GALLERY

(FOR IMMEDIATE RELEASE)

Herman Rowan will have his first one-man exhibition of paintings in Minneapolis at the Martin Gallery, Nov. 1 through 26.

Rowan, associate professor and assistant chairman of the University of Minnesota studio arts department, has had three one-man shows at Grand Central Moderns in New York and has also had one-man exhibitions at Gump's Galleries in San Francisco and at Talladega College in Alabama. His works have been in numerous national and regional group shows including a four-man invitational at Walker Art Center in 1964 and the 1964 and 1966 Walker Biennials.

Rowan joined the Minnesota faculty in 1963 after teaching at San Diego State College and the State University of New York in Fredonia, N.Y. His drawings and paintings are included in the collections of Walker Art Center, the Brooklyn Museum, Notre Dame University Gallery and the San Diego Gallery of Fine Arts.

The exhibition at the Martin Gallery, 2645 Lyndale Av. S., will open with a reception from 2 to 5 p.m. Saturday, Nov. 1. The gallery is open from 10 a.m. to 6 p.m., Monday through Saturday.

PAVIA TO LEAD  
PANEL DISCUSSION

Philip Pavia, New York sculptor and visiting professor of studio arts at the University of Minnesota, will lead a panel discussion on contemporary ideas in art Thursday, Oct. 30, at 8 p.m. in the Studio Arts building on the University's West Bank.

This will be the third in the series of six discussions of contemporary art sponsored by the studio arts department. Pavia is scheduled to lead another session Nov. 20. Jack Tworkov, retired chairman of the art department at Yale University and visiting professor of studio arts at Minnesota, will lead a discussion Nov. 13.

All sessions are open free to the public.

VISTA TO RECRUIT  
VOLUNTEERS AT 'U'

(FOR IMMEDIATE RELEASE)

VISTA, "the poor man's Peace Corps," will be recruiting volunteers at the University of Minnesota Monday through Friday (Oct. 27 to 31).

According to national officials, VISTA is now in the process of a major revamping and is looking for more professional people who can bring expert knowledge to the war on poverty.

VISTA officials predict that this year 20 per cent of the volunteers will be professional specialists such as lawyers and architects who will get on-the-spot training in the poverty areas where they will work.

Information tables will be set up on the ground floor of Coffman Union and in Blegen hall on the West Bank from 9 a.m. to 4 p.m. VISTA volunteers will show a movie in room 343 Coffman Union at 12:15 p.m. Monday through Thursday. On the St. Paul campus, VISTA will be in room 202 Student Center, Wednesday (Oct. 29) with a movie at 12:15 p.m.

There will be informal discussion with former volunteers Tuesday (Oct. 28) at 11 a.m. in the University YMCA, 1425 University ave. SE., and at 10:15 a.m. Thursday (Oct. 30) at the Hillel Foundation, 1526 University ave. SE.

'U' AEROSPACE RESEARCHER  
TO RECEIVE NATIONAL RECOGNITION

(FOR IMMEDIATE RELEASE)

A University of Minnesota space scientist will be honored Thursday (Oct. 23) at the American Institute of Aeronautics and Astronautics (AIAA) convention in Anaheim, Calif.

Professor Helmut G. Heinrich and 28 others will be made Fellows in the AIAA. Fellows are persons of distinction in aeronautics and astronautics who have made notable and valuable contributions to the arts, sciences or technology of space.

Heinrich, a professor of aeronautical engineering at the University, is being honored for "his distinguished contributions in aerodynamic deceleration and air crew rescue methods."

Other Fellows to be named this year include Astronaut Frank Borman; Najeeb Halaby, president of Pan American; Dietrich Kuchemann, head of the aeronautical department of England's Royal Air Force, and Samuel C. Phillips, Apollo program director.

#

SUPPLEMENTARY INFORMATION:

"The University of Minnesota is the only university in the world, that I know of, teaching courses in aeronautic deceleration. Since we began teaching the course in 1957 we have had over 300 graduates -- all now hold positions of responsibility in aerospace all over the world" -- Helmut Heinrich

Heinrich joined the University as a visiting professor in 1956. He received his bachelor of mechanical engineering degree from State Engineering College in Stettin, Germany in 1929 and his doctorate in engineering from Technische Hochschule in Stuttgart, Germany in 1943. In 1958 he received the Aeronaut Leo Stevens parachute award for developing a new type of parachute for human and cargo descent.

'DIALOGUE ON SEXUALITY'  
TO BEGIN AT U OF M

(FOR IMMEDIATE RELEASE)

A St. Paul attorney, who does not believe that the first amendment protects obscenity, will discuss pornography with a University of Minnesota psychologist, who favors abolishing censorship of all printed matter for adults, as part of "Dialogue on Sexuality" at the University Monday through Friday (Oct. 27 to 31).

Dan Klas, St. Paul assistant city attorney, will exchange views with John Brantner, University clinical psychologist, at noon Tuesday (Oct. 28) in Coffman Union main ballroom.

"The purpose of the week of programs is to provide objective information on a wide variety of sex topics, and, most important, to harmonize this information with the theme of sexuality as an expression of love," says Pam Lande, College of Liberal Arts junior from St. Paul and program chairman.

The Dudley Riggs Workshop will present "The Story of Sex," a satirical play, at 11:30 a.m. Thursday (Oct. 30) in Coffman Union main ballroom. The play will be followed by a showing of modern fashions, featuring the "unisex" look.

Planned parenthood, abortion, and the double standard are among the other subjects to be discussed by University and community experts.

#

(MORE)

SUPPLEMENTARY INFORMATION:

The following is an outline for the program, "Dialogue on Sexuality." All sessions are in Coffman Union main ballroom and are open free to the public.

Monday, Oct. 27, 11:30 a.m.

Planned Parenthood representative talking on contraceptives.

Film: "Roadsigns On a Merry-Go-Round."

Chaplain William J. Teska, University Episcopal Center, "Christianity-Sexuality."

Tuesday, Oct. 28, 11 a.m.

Professor Ira Reiss, sociologist, University of Minnesota, speaking on "Changing Sex Scenes."

Noon, associate professor John Brantner, psychologist, University of Minnesota, and Dan Klas, Assistant St. Paul City Attorney, discussing pornography.

7 p.m., Terrace Reading Room, art discussed by Karen Mattison Belisle, and the film, "An Andalusian Dog," discussed by a filmmaker, Robert Zeller.

Wednesday, Oct. 29, 11:30 a.m.

The film, "A Man and A Woman." Robert McCoy, president of the Humanist Association, will comment on the film at its conclusion.

Thursday, Oct. 30, 11:30 a.m.

Dudley Riggs' Workshop presenting a satirical play, "The Story of Sex." Jaana's presenting a fashion show of modern and unisex clothing.

7 p.m., a sample of sensitivity led by a trainer.

Friday, Oct. 31, 11:30 a.m.

Abortion discussed by Robert McCoy, president of the Humanist Association. Robert Flint, of the Student Counseling Bureau, discussing "Morality of Post-Marital Intercourse."

Assistant professor David Holland, psychologist, University of Minnesota, discussing "Men Do - Women Don't."

PROGRAM FOR DELINQUENTS  
CUTS REPEATERS TO 18%

Half of all juvenile delinquents in this country are arrested within a year after release from an institution. In contrast, "graduates" from a special program at Lino Lakes Rehabilitation Center, Circle Pines, Minn., rarely return to an institution.

Speaking at a recent conference on "Behavior Management" in Nolte Center at the University of Minnesota, Thomas Sturm, psychologist at Lino Lakes, explained the program.

The key to Lino Lakes' success, according to Sturm, is the correct use of well-known principles of "behavioral conditioning." For example, by giving immediate recognition to constructive behavior and educational progress on the part of Lino Lakes juveniles, such behavior increases substantially. Tokens and points are used to add weight to such recognition and to help keep track of each individual's progress.

Anti-social acts decrease rapidly as more time is spent on rewarded activities. The only consequence for anti-social acts--formerly very common--is the loss of tokens. In addition, a minimum of attention is given to anti-social behavior while a good deal of attention is given by the staff to constructive activity.

Tokens may then be used to purchase such things as extra cottage privileges, extra dessert, TV time, games of pool, and--with sufficient tokens earned for constructive behavior--trips off grounds. Eventually, a juvenile will have earned so many tokens that he is released from the institution; and by this time, constructive behavior has become a habit.

Only 18 per cent of the "graduates" from Sturm's behavior modification program at Lino Lakes are arrested again.

(MORE)

In addition to reducing recidivism, the Lino Lakes behavior modification program assists delinquents in achieving significant educational advancement. During an average stay of only 11 weeks, the youngster advances 1.2 grade levels in reading skills and nearly a year (0.8 grade level) in mathematics.

Despite the success of Lino Lakes' program with juveniles--who ordinarily would have faced long-term sentences--Sturm was concerned with the few who did not "make it on the outside."

"The transition from institution to society is just too big a jump for a lot of these kids," he said.

"Too often the juvenile gets out on parole and no one gives him any pats on the back for doing good work. The only time he gets any attention is when he does something wrong."

Sturm said more juvenile delinquents could more easily become useful citizens if they had a "half-way" house to go to after release from an institution. He estimated that the 18 per cent recidivism rate for behavior-modification-trained juveniles could be reduced to less than 5 per cent if they had a half-way house to go to.

In a half-way house, newly released parolees could help encourage one another in their attempts to adjust to society. The transition from the highly structured correctional environment to that of more normal society could more easily be bridged--something which cannot be done in an institution.

"Once the kids find out that our society can be rewarding without crime, crime no longer interests them," Sturm said.

#

#### SUPPLEMENTARY INFORMATION:

The behavior management conference was held at Nolte Center on Oct. 17, 1969, presented by the General Extension Division. At this conference, the applications of "behavior management" principles to the problems of the physically handicapped, the mentally handicapped, and to situations in schools as well as in correctional institutions were explained to some 100 teachers, students, nurses, psychologists, social workers and correction officers.

Currently successful behavior modification techniques have evolved only in the past 10 years. Such techniques are based on earlier research in instrumental or operant conditioning. In these methods, rewards (more technically known as reinforcements) are provided the patient when he exhibits normal behavior.

Thomas Sturm has recently completed work for his doctor of philosophy degree in psychology at the University of Minnesota. Because he will be out of the country, he will not be available until December. However, Professors Travis Thompson and Gordon Heistad are familiar with his work, having advised and worked with him at Lino Lakes. Interviews with Thompson or Heistad can be arranged.

A JOINT RELEASE FROM THE NATIONAL COUNCIL ON FAMILY RELATIONS AND THE  
UNIVERSITY OF MINNESOTA

'U' PROF RECEIVES AWARD  
FROM NATIONAL COUNCIL  
ON FAMILY RELATIONS

(FOR IMMEDIATE RELEASE)

Washington, D.C.--Professor Richard N. Hey today (Thursday, Oct. 23) was named a recipient of the National Council on Family Relations' Ernest G. Osborne Teaching Award for 1969.

Hey is associate professor of family studies and sociology at the University of Minnesota and acting chairman of the University's Family Studies Program. He will take office as president of the National Council on Family Relations at the close of the group's annual meeting Saturday in Washington.

The Osborne award is annually presented to "outstanding family life educators." Also receiving the award this year was Mrs. Sylvia Sacks, chief supervisor in family life education, Division of Family Studies, University of Pennsylvania. Each recipient receives \$250.

The National Council on Family Relations is a 4,000-member, Minneapolis-based organization which unites professional persons with an interest in the well-being of American families.

Hey joined the Minnesota faculty in 1964. He was formerly supervisor in family life education at the University of Pennsylvania Medical School's psychiatry department. He received his doctor of philosophy degree in 1963 from Columbia University and has a bachelor of divinity degree from Andover Newton Theological School, Newton, Mass., and a bachelor of arts degree from Berea College, Berea, Ky. His numerous published articles include one titled "Ernest G. Osborne, Family Life Educator," written for the May 1965 issue of "Journal of Marriage and the Family."

**BLACK BEARS TO APPEAR  
ON 'U' TELEVISION HOUR**

Two black bears will appear on the pilot program of a channel 2 television series next week about the University of Minnesota's Bell Museum of Natural History.

The half-hour color program will feature Lynn Rogers, a researcher who is working on a doctor of philosophy degree at the University, demonstrating the techniques he has used to tranquilize black bears, sample their blood, determine their ages and weigh them in northern Minnesota woods. He also has tagged a number of bears and tracked some with radio transmitters.

The pilot program will be on the University of Minnesota Television Hour at 9:30 p.m. Friday, Oct. 31. The weekly series, beginning Dec. 2, will include programs on deer, wolves and other subjects of the museum's public education services.

The University's General Extension Division coordinates Television Hour broadcasts.

**CONCERT BAND'S RUSSIAN TRIP  
TO BE FEATURED ON WCCO RADIO**

"To Russia With Music," a chronicle of the University of Minnesota Concert Band tour of the Soviet Union last spring, will be broadcast on WCCO radio Monday (Oct. 27).

The program, beginning at 8 p.m., will feature some of the music the band played while in Russia and highlights of the return ceremony in the White House rose garden, with the voices of President Nixon, Ambassador Dobrynin and University President Malcolm Moos. During the hour-long program, members of the band and their director, Frank Bencriscutto, will discuss their experiences in Russia and the people they met.

STATE ECONOMICS ASSOCIATION  
TO HOLD ANNUAL MEETING IN ST. PAUL

(FOR IMMEDIATE RELEASE)

Federal tax reform, environmental control problems and financing higher education will be discussed at the annual meeting of the Minnesota Economics Association Saturday, Nov. 1, at the College of St. Catherine in St. Paul.

Speakers at the 10 a.m. session on Federal Tax Reform will be Norman Ture, economist for the Planning Research Corporation, Washington, D.C., former director of tax research for the National Bureau of Economic Research and former chairman of President Nixon's Task Force on Taxation; and Roger Miller, University of Wisconsin economics professor.

Attorney General Douglas Head will speak on the topic "Environmental Control Problems" at a 12:15 p.m. luncheon session.

Speakers at the 2:30 p.m. session on "Financing Higher Education" will be G. Theodore Mitau, chancellor of the Minnesota State College System; Arthur Flemming, president of Macalester College and former U.S. Secretary of Health, Education and Welfare; Roger Kennedy, University of Minnesota vice president for investments and executive director of the University Foundation; and Professor John Buttrick of the University of Minnesota economics department.

#

SUPPLEMENTARY INFORMATION:

John D. Helmberger, University of Minnesota professor of agricultural economics, is president of the Minnesota Economics Association for 1969.

The association is an organization of economists from government and industry and high school and college teachers of economics.

TREE PLANTING IN WHITE BEAR  
HONORS CONSERVATION TEACHER

Nat Johnson, retired education specialist for the Minnesota conservation department and the man responsible for 22 years of conservation broadcasts on KUOM, was honored at a tree-planting ceremony recently.

Seventeen trees of several varieties were planted in his honor in Four Seasons Park in White Bear Township, near his home, as a "living appreciation," according to Betty Girling, director of KUOM's Minnesota School of the Air.

Johnson coordinated KUOM's "Following Conservation Trails" broadcasts from 1946 to 1968. (KUOM is the University of Minnesota General Extension Division radio station.) Burton Paulu, director of radio and television, presented Johnson with a citation expressing appreciation from the University and the many Minnesota schoolchildren who heard the broadcasts.

KANSAS MAN RECEIVES  
1969 MINNESOTA AWARD

(FOR IMMEDIATE RELEASE)

A Kansas newspaperman has received the 1969 Minnesota Award for distinguished service in journalism, Professor Robert L. Jones, director of the University of Minnesota School of Journalism and Mass Communication, announced today.

The engraved medallion and certificate in recognition of distinguished, career-long contributions to journalism has been presented to John H. Colburn, editor and publisher of the Wichita (Kan.) Eagle and Beacon.

Colburn was selected by members of the Minnesota journalism faculty from nominations made by members of the Inland Daily Press Association.

Professor Jones said that judges of the award nominees were impressed by the information that despite Colburn's many professional activities requiring considerable travel, "the work-a-day business of newspapering continued under his personal supervision."

Colburn, 57, has served simultaneously on the boards of the American Newspaper Publishers Association (ANPA), the ANPA Research Institute, the ANPA Foundation and the American Society of Newspaper Editors. He began his career on the Columbus (Ohio) Dispatch in 1930 and was a correspondent for the Associated Press during World War II. After the war he became executive editor of AP World Service in London and secretary of Associated Press, Ltd. In 1949 he became managing editor of the Richmond (Va.) Times-Dispatch. In 1963 he became editor of the Wichita newspapers.

#

(MORE)

SUPPLEMENTARY INFORMATION

In 1961-62, directed a study by a group of editors who drafted a code, "What Makes a Good Newspaper," which was designed to help the public and press evaluate newspapers.

In 1962, received the John Peter Zenger Award of the University of Arizona for "effective work in support of freedom of the press."

In 1963, received an award from Southern Methodist University and the Dallas Press Club for "distinguished service to journalism as a vigilant crusader for freedom of information."

In 1963, received the Liberty Bell Award of the Wichita Bar Association for "recognition of community service which strengthens the effectiveness of the American system for freedom under the law."

Serves as a visiting lecturer in Northwestern University's Medill School of Journalism, conducts newspaper seminars and has served on accrediting teams of the American Council on Education for Journalism.

UNIVERSITY THEATRE  
TO PRESENT  
'INSECT COMEDY'

(FOR IMMEDIATE RELEASE)

Gideon Schein, a McKnight fellow in directing at the University of Minnesota, will play the lead role in the University Theatre's production of "The Insect Comedy," opening Nov. 7 in Scott hall auditorium.

Schein will play Albert, the vagrant, in David Ball's adaptation of Karl and Josef Capek's play. He is a teaching assistant at the University where he is working for his master's degree in theatre. His past experience includes work with Theatre Atlanta and the Oberlin College Gilbert and Sullivan Company in Falmouth, Mass.

Frank M Whiting, University Theatre director, will direct the updated production.

The play deals with the evils of war and riches and includes a cast of crickets, butterflies, beetles, flies and ants (played by University students.)

Performances will be at 8 p.m. Nov. 7 and 8 and 11 through 16 and at 3:30 p.m. Nov. 11 and 16.

Tickets are on sale in the Scott hall ticket office and at Dayton's.

NEW YORK LABOR  
NEGOTIATION CHIEF  
TO SPEAK AT 'U'

(FOR IMMEDIATE RELEASE)

Arvid Anderson, chief labor negotiator for New York City, will speak at a conference on labor relations in public employment at the University of Minnesota Tuesday (Nov. 4).

Local and state government officials responsible for negotiating with organizations of public employees (other than teachers) will attend to consider the effectiveness and proposed modifications of present Minnesota policies and laws.

Planned in response to a steady increase in both the number and militancy of public employee labor unions, the conference is sponsored by the League of Minnesota Municipalities, the Association of Minnesota Counties and the University's General Extension Division.

Anderson will speak at 11 a.m. Tuesday, giving a national overview of public employee labor relations. He was commissioner and executive secretary of the Wisconsin Employment Relations Commission from 1948 to 1967 prior to taking his present position two years ago.

Cyrus Smythe, labor relations consultant to the League of Minnesota Municipalities and associate professor of industrial relations at the University, will speak at 10 a.m. on labor relations in Minnesota.

#

#### SUPPLEMENTARY INFORMATION

The conference will be held in Nolte Center on the University's Minneapolis campus.

Major sessions will be:

10 a.m. -- Introduction by Dean Lund, League of Minnesota Municipalities executive secretary and director of the University's Municipal Reference Bureau.

10:05 a.m. -- Cyrus Smythe

11 a.m. -- Arvid Anderson

1:15 p.m. -- "What are the Problems in Minnesota?" Panel discussion with John Elwell, Albert Lea city manager; George Hite, Eden Prairie city manager; John Jackson, director of Minnesota Civil Service; Peter Obermeyer, consultant to the state civil service; Bernard Steffen, county administrator for Anoka County; and R. J. Whaling, auditor for Itasca County.

3:45 p.m. -- Panel discussion with Arvid Anderson and Cyrus Smythe.

RELIGION COORDINATORS  
TO MEET AT U OF M

(FOR IMMEDIATE RELEASE)

State college religion coordinators will gather at the University of Minnesota Nov. 10 and 11 for the annual national meeting of the Association for the Coordination of University Religious Affairs (ACURA).

More than 100 religion coordinators will discuss religious pluralism on campus, dehumanization in a computerized world and other ethical concerns facing the modern campus.

Professor John Flagler, director of the University's Labor Education Service, will discuss the causes and consequences of alienation in our time at the opening session Monday, Nov. 10, at 12:45 in Coffman Union junior ballroom.

Among the other speakers will be Dr. Maurice Visscher, Regents' Professor of Physiology in the University's College of Medical Sciences, speaking on "New Ethical Problems for Physicians and Medical Investigators" at 1 p.m. Tuesday, Nov. 11, in Coffman Union junior ballroom. Responding to his remarks will be Dr. Kenneth Vaux, of the Institute of Religion, Texas Medical Center, Houston, Texas.

Arthur Flemming, president of Macalester College and president of the National Council of Churches, will address the body Tuesday, Nov. 11, at 7 p.m. in the University Campus Club.

Professor Henry Allen, coordinator of students' religious activities at the University, and Robert Ross, adviser to student religious organizations, make up this year's program committee. Allen, the first religion coordinator ever appointed, is retiring this year after 22 years in his position.

ACURA's purpose is to promote professional standards and continued education for religion coordinators, according to Ross.

All ACURA sessions are open to the public.

WILLIAM LEAR TO SPEAK  
AT BUSINESS INSTITUTE

(FOR IMMEDIATE RELEASE)

William P. Lear, inventor and designer of the Lear Jet, will speak at the University of Minnesota School of Business Administration Alumni Association's 16th annual institute Thursday, Nov. 6.

"What's Ahead for Vehicle Powerplants in the Seventies" will be the topic for Lear's speech at 6:30 p.m. at the Leamington Hotel.

Lear is president of Lear Motor Corporation, Reno, Nev., which is currently developing vapor cycle power systems to replace internal combustion engines.

"Economy in the Seventies" will be the topic for the institute's keynote speech by economist Arthur Upgren at 1:30 p.m. Upgren, formerly a professor of economics at the University and Macalester College, is visiting professor of economics at the University of Florida, Pompano Beach.

"What's Ahead for Business Education in the Seventies" will be discussed in a panel session at 4:15 p.m. Dean Paul Grambsch of the University's School of Business Administration is chairman of the panel.

"What's Ahead for Business in the Seventies" will be discussed at five concurrent panel sessions at 2:30 p.m. Topics for the panels include Work and Employment Trends, The Impact of New Technology on Transportation and Communication Systems, Computer-Based Management Information Systems, Corporate Organization Trends and Marketing to the Consumer. Panel members will be University of Minnesota business faculty and Twin Cities businessmen.

All sessions will be at the Leamington Hotel and are open to all business men and women. Requests for reservations should be addressed to the University of Minnesota School of Business Administration Alumni Association, 205 Coffman Union, University of Minnesota, Minneapolis, Minn. 55455.

DR. C. W. LILLEHEI  
TO SPEAK AT U OF M

(FOR IMMEDIATE RELEASE)

Dr. C. Walton Lillehei, noted heart transplant surgeon and former University of Minnesota professor of surgery, will speak at the University Thursday, Nov. 6.

Dr. Lillehei, now professor and chairman of the surgery department at Cornell University, performed the first successful open heart surgery at the University of Minnesota in 1954.

He will be addressing the quarterly seminar in the history of medicine, sponsored by the department of the history of medicine, at 8 p.m. in Murphy Hall auditorium. His topic will be "Some Landmarks in Cardiac Surgery: The Progress and Promise of Two Decades."

A 6 p.m. dinner in the Campus Club will precede the seminar. Tickets (at \$4.50) are available from Professor Leonard Wilson, chairman of the department of the history of medicine, Diehl Hall, University of Minnesota.

#

SUPPLEMENTARY INFORMATION:

Dr. Lillehei, a Minneapolis native, received his B.S., M.S., M.D. and Ph.D. degrees from the University of Minnesota. He performed the first successful open-heart surgery here, developed a heart-lung machine which made intricate heart-valve repair possible and, in 1958, made the first successful use of a completely artificial heart valve.

WORKS BY BROTHER RODERICK  
SHOW STRONG ANTI-WAR FEELING

(FOR IMMEDIATE RELEASE)

Anti-military feeling is strong in the exhibit of collages and collagraphs by Brother Roderick Robertson which opens Monday (Nov. 3) in Coffman Gallery at the University of Minnesota.

This will be the first one-man show for Brother Roderick, 28, who teaches art at Cretin high school, a military academy in St. Paul.

"I am very much against the war in Vietnam--and against militarism being forced upon the students as it is at Cretin," he said.

The exhibit of between 30 and 40 works shows current art trends used to convey a social message. Abstract expressionism, pop art techniques, hard-edge painting, photographic imagery in collage, plus the media of light and sound are all used in his works.

Brother Roderick was born in Green Bay, Wis., and studied art at St. Norbert's in DePere, Wis., and at the College of St. Catherine. He is currently working for a master's degree in art education at the University of Minnesota. He is sub-director of the community of Christian Brothers who teach at Cretin.

The exhibit will open with a public reception Monday (Nov. 3) from 7 to 9 p.m. and will be in the gallery through Nov. 21. Regular gallery hours are 8 a.m. to 8 p.m. Monday through Saturday and noon to 8 p.m., Sunday.

(FOR USE WEEK OF NOVEMBER 3)

### AIR AMBULANCE SERVICE SAVES INFANTS' LIVES

by Bob Lee  
University Health Sciences Writer

The birth of a baby is an ordinary occurrence in most hospitals. But when an infant is premature or born with severe birth defects in a small community hospital there is often no specially skilled personnel or equipment to care for him.

Mindful of this the University of Minnesota Health Sciences Center has established a pediatric surgery section with a specially equipped intensive care unit and an air ambulance service--the first in the nation--covering four states.

Within minutes of receiving an emergency call from an out-state hospital Dr. Arnold Leonard, associate professor and head of Pediatric Surgery, can dispatch an associate to the Anoka Airport where a chartered airplane is being readied. A helicopter is used for the final leg of the trip from Anoka to University Hospitals.

Some three dozen seriously ill infants have used the air ambulance service during the past year. For most it has truly been a life-saving flight.

A lot of standard hospital equipment and practices have had to be modified for these tiny, fragile patients--and more changes will be made as needs develop.

Dr. Leonard, who took a year's specialty training in pediatric surgery, had to design much of the special equipment including a portable self-contained incubator with its own heat and oxygen supply, a computerized cart for monitoring a baby's critical body systems, and a small infusion pump to control small amounts of intravenous solution.

Isolettes--enclosed oxygen boxes--provide premature infants with the same kind of sterile protection the National Aeronautics and Space Administration gave the moon rocks.

MORE

X-ray and other diagnostic equipment are usually brought to the intensive care unit. Special techniques had to be developed by Dr. Leonard and his associates, Dr. Russell Lucas, associate professor of pediatrics, and Dr. Gary Gathman, assistant professor of pediatrics, of the pediatric cardiology section.

Weights are measured in grams, medications are taken in tenths of milliliters, and blood is measured in drops. A special "micro" laboratory was established by Dr. David Brown, assistant professor of pediatrics and laboratory medicine, to analyze the few drops of blood taken by pricking an infant's heel. Other services will be added soon.

Station 56 in the University Hospitals, which includes a four-bed intensive care section, seems cramped for space. Nurses, doctors, aides and orderlies maintain a hectic pace caring for more than a dozen infants in three small rooms.

Another area, Station 45, is now being remodeled into a computer-monitored intensive care unit for 18 infants and will be operational in December.

The constant ticking of electrocardiographs is the only break in the unusual quiet as the doctors and nurses move from room to room on rounds and technicians wheel in testing equipment.

Clown faces and painted flowers in the walls and windows provide the only bright spots of color. Whenever possible, the mother is encouraged to feed her own child and rocking chairs are available for that indispensable ingredient of medical treatment--tender loving care.

ARMY ROTC CADETS  
TO BE HONORED AT 'U'

(FOR IMMEDIATE RELEASE)

Outstanding senior Army ROTC cadets and eight cadet scholarship winners at the University of Minnesota will be honored at the autumn awards ceremony Friday (Oct. 31), Colonel William D. Beard, professor of military science, announced today.

The ceremony will begin at 3:30 p.m. in the Armory.

The honored cadets were chosen for qualities of leadership, high moral character and an aptitude for military service. The cadets must also rank in the upper half of their class.

The four-and two-year scholarships are awarded by the Army ROTC and cover tuition and books plus a subsistence allowance. They are given to young men who are interested in the Army as a career, on the basis of academic record and personal qualifications.

'U' STUDENT ASSOCIATION  
TO ORGANIZE CAR POOLS  
IN CASE OF BUS STRIKE

In case the impending bus strike is called, the University of Minnesota Student Association (MSA) is making an effort to get stranded commuters to campus on Monday.

Anyone who can drive to campus and is willing to pick up passengers should call the MSA office at 373-2414 and leave his name, address and phone number. Those who need rides should call the office and they will be given the name and number of someone from their area who is driving. MSA will have people at the phones from noon to 10 p.m. on Saturday and Sunday.

Tom Gilsenan, MSA president, stressed the need for people who are willing to drive. There is already a long list of people who need transportation, he added.

BOOKS FOR CHILDREN  
TO BE DISCUSSED AT 'U'

(FOR IMMEDIATE RELEASE)

Children's books will be discussed in three simultaneous public sessions at the University of Minnesota Wednesday, Nov. 12, at 4:30 p.m.

"Which Books Win the Prizes? Why?" will be the discussion topic in Room 109 Walter library led by Karen Nelson, curator of the Kerlan Collection, and Edieann Biesbrock, assistant professor of children's literature in the College of Education.

"Realism in 1969-70 -- How Much?" will be discussed in Room 125 Burton hall. Members of the panel will be Mrs. Geraldine Kozberg, elementary teacher in the St. Paul Public Schools, Norine Odland, professor of children's literature, and Mrs. Ellen Reeker, graduate assistant in the College of Education.

"How Do We Choose Science Books?" will be discussed in Room 102, Pattee hall. The panel members will be Richard Barthelemy, assistant professor and public education coordinator for the Bell Museum of Natural History, Roger Johnson, assistant professor of elementary education, and Mrs. Phyllis Thornley, librarian at Folwell junior high school in Minneapolis.

The discussions are sponsored by the College of Education in observance of National Book Week.

'U' MED SCHOOL DEAN  
ELECTED CHAIRMAN  
OF COLLEGE ASSN.

(FOR IMMEDIATE RELEASE)

Dr. Robert B. Howard, dean of the University of Minnesota College of Medical Sciences, will become the chairman of the Association of American Medical Colleges Monday (Nov. 3) in Cincinnati.

The AAMC includes some 100 medical schools and representatives of more than 35 teaching hospitals and academic societies.

Dr. Howard, Minnesota dean since 1958, explained he will use his one-year term to solidify recent organizational changes which broadened the AAMC's scope.

The AAMC conducts accreditation visits to medical schools, sponsors the Medical College Admission Test and is a leading promoter of medical education services, Howard said.

#

SUPPLEMENTARY INFORMATION:

Dean Howard: a St. Paul, Minn., native, received his B.A., M.B., M.D., and Ph.D. degrees from the University of Minnesota. Prior to being named dean of the College of Medical Sciences, he was an associate professor in the University's department of internal medicine; director of the department of continuing medical education, and associate dean.

CHRISTY TO RECEIVE  
'U' ACHIEVEMENT AWARD

(FOR IMMEDIATE RELEASE)

Myron M. Christy, president of the Western Pacific Railroad Company, will receive an Outstanding Achievement Award from the University of Minnesota at the School of Business Administration's 16th annual institute Thursday (Nov. 6).

Stanley J. Wenberg, vice president for coordinate campuses and educational relationships, will present the award to Christy at a 6:30 p.m. dinner at the Leamington Hotel.

Christy, 52, received a bachelor of business administration degree with high distinction from the University in 1948 and graduated from Harvard Business School in 1955.

In 1949 he joined Western Pacific Railroad Company as a traveling accountant and in 1965 was named president. He is being honored as a "leader in expanding the railroad's activities and services."

He is a director of the Bank of California, California Liquid Gas Corporation, Fruit Growers Express Company, San Francisco Chamber of Commerce and the San Francisco Region, Golden Gate chapter of the American National Red Cross. He is a trustee of Golden Gate College in San Francisco.

Christy is married and lives in San Rafael, Calif.

BRITISH SOCIAL ECONOMIST TO ADDRESS  
STUDENT SOCIAL WORKERS AT 'U'

(FOR IMMEDIATE RELEASE)

Robert Theobald, noted British social economist, will be the main speaker at the third annual conference of the Great Lakes Region of the National Federation of Student Social Workers, Nov. 7 through 9, at the University of Minnesota.

Theobald has lived in the United States for the last 10 years studying society's transition from an industrial era to one of cybernetics. He is the author of "An Alternative Future for America" and "Teg's 1994," a book to be published later this year. His talk, at 10 a.m. Saturday (Nov. 8) in 110 Anderson hall on the West Bank, is open to the public.

Thomas Walz, director of the University's Living Learning Center and a coordinator for the Center for Urban and Regional Affairs, will open the conference Friday (Nov. 7) with a talk on social work in the seventies at 8:30 p.m. in the Newman Center, 1701 University ave. SE. His talk is open to the public.

The National Federation of Student Social Workers is an organization of social work students which acts as a vehicle of communication between local chapters throughout the United States. The theme of this year's conference is "Responsibility of Student Social Workers in a Changing Society: On the Campus and in the Community."

#

SUPPLEMENTARY INFORMATION

Theobald: Received his master's degree at Cambridge and did post-graduate work at Harvard. He is the author of numerous books and the general editor of the Dialogue series published by Bobbs-Merrill.

Walz: Formerly assistant professor of social work, he is president of the Southern Chapter of the National Association of Social Workers.

NEWS CONFERENCE

There will be a news conference for William Lear at 3:50 p.m.  
Thursday (Nov. 6) in the news conference room on the ground level  
of Minneapolis-St. Paul International Airport.

Lear is scheduled to arrive in his own Lear jet at 3:45 p.m.  
at Gate 35.

Lear now heads Lear Motors Corporation in Reno, Nev. They  
have recently developed a vapor cycle power system to replace in-  
ternal combustion engines -- a practical solution to the problem  
of air pollution.

LIST OF UNIVERSITY OF MINNESOTA, MINNEAPOLIS AND ST. PAUL CAMPUS PUBLIC EVENTS  
WEEK OF NOVEMBER 9 - 16

- Sunday, Nov. 9 -- Football Marching Band concert, 4 p.m. Northrop aud. Admission.
- Sunday, Nov. 9 -- John Oman, MFA piano recital, 8 p.m. Scott Hall aud. Free.
- Sunday, Nov. 9 -- Coffman Gallery: Collages and collagraphs by Brother Roderick Robertson, through Nov. 21. Hours: 8 a.m. to 8 p.m. Mon. through Sat., 1 to 8 p.m. Sun. Free.
- Monday, Nov. 10 -- University Gallery: Drawings by the late American expressionist John Marin, Northrop aud., through Nov. 23. Hours: 8:30 a.m. to 4 p.m., Mon. through Fri. Free.
- Monday, Nov. 10 -- Association for the Coordination of University Religious Affairs (ACURA) Conference: "Causes and Consequences of Alienation in Our Time," Professor John Flagler, director of University's Labor Education Service, 12:45 p.m. Coffman Union junior ballroom. Free.
- Monday, Nov. 10 -- Constance Wilson, voice recital, 8 p.m. Scott Hall aud. Free.
- Monday, Nov. 10 -- "The Whole:" Collier and Smith, through Sat., 8:30 p.m. to 1 a.m. Coffman Union. Admission.
- Tuesday, Nov. 11 -- ACURA Conference: "New Ethical Problems for Physicians and Medical Investigators," Dr. Maurice Visscher, Regents' Professor of Physiology, 1 p.m. Coffman Union junior ballroom. Responding will be Dr. Kenneth Vaux, Institute of Religion, Texas Medical Center, Houston, Texas. Free.
- Tuesday, Nov. 11 -- University Theatre: "The Insect Comedy," a play by Josef and Karel Capek, adapted by David Ball, 3:30 and 8 p.m. Scott Hall aud. Also 3:30 p.m. Nov. 16 and 8 p.m. Nov. 12 to 16. Admission.
- Tuesday, Nov. 11 -- ACURA Conference: "Ethical Concerns and the Contemporary Campus," Arthur Flemming, president of Macalester College and president of the National Council of Churches, 7 p.m. University Campus Club. Free.
- Wednesday, Nov. 12 -- Seminar on children's books: "Which Books Win the Prizes? Why?" Room 109 Walter Library; "Realism in 1969-70--How Much?" Room 125 Burton hall; "How Do We Choose Science Books?" Room 102 Pattee hall. All begin at 4:30 p.m. Free.
- Wednesday, Nov. 12 -- Encore Film Club: "The Kid From Spain" and "Roman Scandals," two Eddie Cantor films, 7 p.m. Bell Museum of Natural History. Admission.

(MORE)

- Wednesday, Nov. 12 -- Minneapolis Chamber Ensemble, 8:30 p.m. University Lutheran Church, 11th and University Aves. Free.
- Thursday, Nov. 13 -- The Life and Songs of Carl Michael Bellman, 18th Century Swedish troubador, with lecture by Paul Britten Austin and music by Carl Jerker Engblom, 4:15 p.m. Scott Hall aud. Free.
- Thursday, Nov. 13 -- "The Church in Social Action," Father James Groppi, 8 p.m. Northrop aud. Free.
- Saturday, Nov. 15 -- A choral festival, featuring area high school choirs, 8 p.m. Northrop aud. Free.
- Sunday, Nov. 16 -- Football Marching Band concert, 4 p.m. Northrop aud. Admission.
- Sunday, Nov. 16 -- "Where In the World Are We Going?" film, 2:30 and 3:30 p.m. Bell Museum of Natural History. Free.

A JOINT RELEASE FROM THE MINNESOTA INDIAN EDUCATION COMMITTEE AND THE UNIVERSITY OF MINNESOTA

MOMADAY, MONDALE  
TO SPEAK AT INDIAN  
EDUCATION CONFERENCE

(FOR IMMEDIATE RELEASE)

Pulitzer Prize winning writer N. Scott Momaday, a Kiowa Indian, will be among the featured speakers at the national Indian education conference in Minneapolis Thursday and Friday, Nov. 20 and 21.

Momaday, a faculty member at the University of California at Santa Barbara and Berkeley, won the Pulitzer Prize for fiction in 1969 for his novel, "House Made of Dawn." He is a poet, critic and essayist as well as novelist.

Minnesota Governor Harold Levander will open the conference at 9 a.m. Nov. 20.

Major speakers, in addition to Momaday, who will speak at 1:30 p.m. Nov. 20, will be: Will Antell, director of Indian education in Minnesota (9 a.m. Nov. 20); Senator Walter Mondale (D-Minn.), a member of the Senate subcommittee on Indian education (11:30 a.m. Nov. 21); and Robert Bennett, former commissioner of the Bureau of Indian Affairs (3 p.m. Nov. 21).

The Indian people of Minnesota are sponsoring the conference through a number of state Indian, urban, religious and educational groups, including the Minnesota Indian Education Committee, an independent organization comprised of members from Minnesota reservations and urban areas, and the University of Minnesota General Extension Division.

Indian educators representing diverse tribal heritages and many states will chair most of the 20 workshops scheduled for the two days. Among the topics for the workshops will be community control and parent participation in education, education

(MORE)

in correctional institutions, book evaluation, curriculum for reservation schools, militancy and legislation for Indian education.

Workshop chairmen will draw up proposals to be presented at a general session at 2 p.m. Nov. 21.

A fourth grade class from the Red Lake reservation in northern Minnesota, where the Upper Midwest Regional Educational Laboratory is applying behavioral theories in classrooms, will participate in a demonstration classroom the morning of Nov. 20.

Although planned especially for the Indian leaders and educators, the conference also will include others who are interested in the particular problems of Indian education. All sessions will be held at the Leamington Hotel in downtown Minneapolis.

#

SUPPLEMENTARY INFORMATION:

N. Scott Momaday, born on an Oklahoma reservation, was brought up on Navaho, Apache and Pueblo reservations in the Southwest. He holds a bachelor's degree from the University of New Mexico and a master's degree and doctorate from Stanford University. Named Outstanding Indian of 1969, he collected a volume of Kiowa legends which was illustrated by his father, Al Momaday.

Planning committee members are:

Will Antell, Minnesota director of Indian education.

Bernard Bear, chairman of the Upper Midwest American Indian Center Board.

John Buckanaga, Indian Community Action Project (ICAP) director at Bemidji (Minn.) State College.

Rosemary Christensen, research associate in Indian education for the Upper Midwest Regional Educational Laboratory.

Ted Mahto, chairman of the Minnesota Indian Education Committee.

Larry Martin, director of the St. Paul American Indian Center.

Ruth Myers, Duluth Action Council.

Sponsoring groups are:

Minnesota Indian Education Committee

Upper Midwest American Indian Center

American Indian Movement

St. Paul American Indian Center

Duluth Action Council

Urban Federation of American Indians

Minnesota Council of Churches

Financial support:

Minneapolis Urban Coalition

Presbyterian Synod of Minnesota

IOWA PROF TO RECEIVE  
UNIVERSITY OF MINNESOTA  
OUTSTANDING ACHIEVEMENT AWARD

(FOR IMMEDIATE RELEASE)

A world-renowned protein researcher, Professor Henry B. Bull of the University of Iowa, will receive an Outstanding Achievement Award from the University of Minnesota. The award will be presented at the University's Campus Club on Nov. 19.

Bull, who received his Ph.D. degree from the University of Minnesota in 1930, is internationally known for his work in physical biochemistry. Author of the textbook, "Physical Biochemistry," he is an active research scientist, lecturer and teacher.

#

SUPPLEMENTARY INFORMATION:

Nov. 19, 1969 -- 4:15 p.m. Dr. Bull will give a seminar in the department of biochemistry, St. Paul campus (further information from Professor L.M. Henderson, 373-1303).

6:30 p.m. - Small dinner at Campus Club; Bull will recount experiences at the University of Minnesota. Professor Bryce Crawford, Graduate School dean, is expected to present the award.

Prof. Henry B. Bull -- Bachelor of science degree, U. of South Carolina, 1927;  
Master of science degree, U. of Minnesota, 1928;  
Doctor of philosophy degree, U. of Minnesota, 1930  
Pioneer investigator into denaturation of proteins  
and researcher into the size and shape of protein  
molecules.  
Listed in Who's Who in America and American Men of  
Science.

'U' CREATES FIRE CENTER  
HEADED BY FRANK OBERG

(FOR IMMEDIATE RELEASE)

The Fire-service Information, Research and Education (FIRE) Center established at the University of Minnesota last August is believed to be the first of its kind in the nation, according to its acting director, Frank E. Oberg.

Oberg, a former St. Paul fire chief, says that the center will do research, and act as an information source for local governments and fire departments, on fire prevention and control and fire service administration and training.

Coordination of state fire service education programs -- offered through the Minnesota Department of Education, the University, the junior colleges and individual fire departments -- and course planning for junior colleges, vocational schools and other training programs also will be done at the center.

Attached to the Municipal Reference Bureau (a part of the University's General Extension Division) the center will have ties to local governments throughout the state through the League of Minnesota Municipalities, with which the Municipal Reference Bureau is closely associated.

#

(MORE)

SUPPLEMENTARY INFORMATION

Frank Oberg was with the St. Paul fire department for 28 years. A past president and chairman of the board of the Minnesota State Fire Chiefs' Association, he is the editor of Minnesota Fire Chief magazine. He conducted a study for the Metropolitan Council and the League of Minnesota Municipalities on the feasibility of a metropolitan fire service training center.

Mrs. Antona Richardson, part-time assistant director of the center, directed the University study which recommended its establishment. She was training consultant and director of publications for the League of Minnesota Municipalities prior to reassignment to her present position. Along with Oberg, she served as a member of the State Interim Advisory Council on Fire Service Education and Training, and an American Association of Junior Colleges advisory committee set up to establish national guidelines for two-year degree programs in fire service.

With partial funding from a Housing and Urban Development Agency grant, the center will offer short courses and seminars, continuing a program conducted last year by the Agricultural Extension Service on the St. Paul campus. Oberg headed the program as coordinator of fire service education and training.

**ENCORE CLUB TO SHOW  
VINTAGE MGM FILMS**

Four vintage Metro-Goldwyn-Mayer movies have been scheduled for showing at the University of Minnesota.

A double-feature---"Trader Horn" with Harry Carey and "The Big House" with Wallace Beery---will be presented Monday, Nov. 17.

Greta Garbo stars in "Anna Christie" Monday, Nov. 24.

"David Copperfield," starring W.C. Fields, will be presented Monday, Dec. 1.

The showings are sponsored by the Encore Film Club and begin at 7 p.m. in the Bell Museum of Natural History auditorium. Admission is \$1.25 for non-members.

\* \* \* \* \*

**DUO TO PRESENT  
TROUBADOUR LIFE, SONGS**

The Life and Songs of Swedish troubadour Carl Michael Bellman will be presented in a public program of music and commentary at 4:15 p.m. Thursday (Nov. 13) in Scott hall auditorium at the University of Minnesota.

Presenting the free program will be Carl Jerker Engblom, Swedish singer and guitar player, and Paul Britten Austin, British lecturer and expert on Swedish life and literature.

#

SUPPLEMENTARY INFORMATION

"Carl Michael Bellman (1740-95) -- Sweden's greatest troubadour, lived a checkered life, alternating between extreme poverty, heavy drinking, royal favor and being committed to a debtors' jail. His numerous songs and ballads, drinking songs, parodies and jolly ditties have become part of the Swedish literary and musical heritage and assure his enduring fame." -- Prof. Alrik Gustafson, "A History of Swedish Literature."

The program is sponsored by the University's Center for Northwest European Language and Area Studies and department of concerts and lectures in cooperation with the American-Scandinavian Foundation.

NEWS CONFERENCE

There will be a news conference for Father Groppi at 5:30 p.m. Thursday in the airport news conference room. He is scheduled to arrive at Minneapolis-St. Paul International Airport at 5:28 p.m. via Northwest Airlines flight No. 29.

FATHER GROPPPI TO SPEAK  
AT 'U' CONVOCATION

(FOR IMMEDIATE RELEASE)

The Rev. James Groppi, Roman Catholic priest and militant civil rights leader, will speak at a public convocation at 8 p.m. Thursday (Nov. 13) in Northrop auditorium at the University of Minnesota.

"The Church in Social Action" is the title of the free speech to be delivered by Father Groppi, who has been called a "hoodlum" and "leader of criminals and student revolutionaries" by Wisconsin state legislators.

Father Groppi is a pastor at St. Boniface Catholic Church in Milwaukee, Wis. His appearance here is sponsored by the Campus Committee on Convocations.

#

SUPPLEMENTARY INFORMATION

Father Groppi, 38, has been active in the civil rights movement since the 1963 March on Washington. He participated in the Selma-Montgomery March in 1965 and the Poor People's Campaign in 1968. In Milwaukee, where his church is located in the heart of a low-income district, he served as vice-chairman of the United School Integration in 1965 and was twice arrested in connection with school issues. In 1967 and 1968 he led open-housing demonstrations as head of the Milwaukee (NAACP) Youth Council. With the same group, he supported local laundry workers in their demands for improved wages and working conditions and fought against discrimination in a local electronics firm.

This fall Father Groppi led a march to the State Capitol in Madison, Wis., to protest cuts in welfare to mothers receiving Aid to Families with Dependent Children. On Sept. 29 he led a takeover of the legislature and was subsequently arrested on Oct. 1 on charges of contempt of the assembly and disorderly conduct and jailed without a hearing. He was released in Madison pending a hearing on the constitutionality of the state law under which he was jailed without a hearing. He was then arrested in Madison and jailed in Milwaukee on a charge of violating the probation of a resisting-arrest conviction in 1968. U.S. Supreme Court Justice Thurgood Marshall ordered him released pending the hearing of his case in the U.S. Supreme Court.

'BILLY LIAR' TO HAVE  
6 PERFORMANCES AT 'U'

(FOR IMMEDIATE RELEASE)

One day in the life of an undertaker's clerk is the foundation for a comedy to be given six performances at the University of Minnesota next week.

"Billy Liar," with the lead role played by veteran U actor David Monasch, will open Tuesday (Nov. 18) in the Shevlin Hall Arena Theatre.

Adding to Billy Fisher's drab existence is the play's setting in an industrial town in the north of England. To escape from dreary reality, Billy lives a rich fantasy life sometimes hard to distinguish from actuality in the play.

The play will run at 8 p.m. Nov. 18 through 22, with a matinee at 3:30 p.m. Nov. 23.

#

SUPPLEMENTARY INFORMATION

"Billy Liar": Directed by Robert Neu, graduate student in theatre.

Set by Richard Anderson, graduate student in theatre.

Assistant director: Wendy Cole, theatre undergraduate.

Adapted by Willis Hall from the novel by Keith Waterhouse.

Billy's parents, Alice and Geoffrey Fisher, played by Maralyn Dossey and Jeffrey McLaughlin.

Barbara, Rita and Liz, three girls to whom Billy is simultaneously engaged, played by, respectively, Pamela Nice, Amy Nissen and Carey Sutton.

Florence Boothroyd played by Barbara Byrne.

Arthur Crabtree played by John Behan.

JAMES FORD BELL  
ASSOCIATES TO HOLD  
ANNUAL MEETING

(FOR IMMEDIATE RELEASE)

The life and travels of explorer Jonathan Carver will be the topic of the address to the annual meeting of the Associates of the James Ford Bell Library Thursday (Nov. 13) at the University of Minnesota.

John Parker, curator of the library, will talk about his research on the 18th-century American explorer of the Minnesota-Lake Superior area. Carver, for whom a town, a county and the "new town" of Jonathan were named, was the first English-speaking explorer in the area to publish an account of his travels.

An exhibit of international travel literature entitled "The Discoverers: Narratives of Travel and Exploration" will be on display at the 8 p.m. meeting in the library, on the fourth floor of Wilson Library on the University's West Bank.

The James Ford Bell Library is an extensive collection of publications relating to the history of commerce and travel.

ZIEBARTH REELECTED CHAIRMAN  
OF ARTS, SCIENCES COMMISSION

E.W. Ziebarth, dean of the College of Liberal Arts at the University of Minnesota, today was reelected by unanimous vote as chairman of the National Commission on Arts and Sciences, meeting in Chicago.

The commission, made up of presidents, vice presidents and deans of state universities and land-grant colleges, has been active in urging more national legislation to help universities accomplish their missions. Ziebarth has been the major spokesman on behalf of the commission for such legislation.

He was also elected chairman of a sub-commission which is planning an intensive national study of the nature of liberal education in state universities.

'THINK ECOLOGICALLY'  
SAYS U OF M'S ALAN BROOK

by Bill Hafling  
University Science Writer

Even football games may be looked at from an ecological standpoint, says ex-rugby fullback Alan Brook.

"Many young animals engage in play. This is their way of developing mind and body -- testing themselves for the real world."

Professor Brook's real world began in a port city in the north of England known as Newcastle on Tyne. One of the first songs Brook recalls begins "The Tyne, the Tyne, the coaly Tyne, Queen of all the rivers," in honor of the then-polluted river which ran through Newcastle.

This year, for the first time in over 100 years, the Tyne as well as the Thames River which runs through London, and other rivers all over Britain are clean enough to have fish living in them again.

In a move which Brook, head of the department of ecology and behavioral biology at the University of Minnesota, is pushing for in the United States, Britain cleaned up its waters by policing industrial pollution.

According to Brook, the move to clean up Britain's waters got off to a good start when a private citizen's group, "The Anglers' Cooperative Association," raised \$3 million to take a large chemical company to court for polluting the River Tees. Brook is encouraged by the results of such organizations as the Sierra Club in the United States in preserving and cleaning up the natural environment.

Pollution and play are only a part of what ecology encompasses. A fairly new science, formally speaking, ecology is the study of the interrelation between all plants, all animals "including man and microbe," and their environments.

(MORE)

Brook spends much of his time trying to persuade his fellow men to "think ecologically." Seriously concerned that man is now threatening the very existence of much of the life on earth through overpopulation and an unwillingness to care enough about his environment to preserve it, Brook lectures, talks and writes about ecology almost constantly.

In addition, he is this quarter presenting an educational television show, "The Final Crisis," which is being well received by viewers.

Going beyond thinking ecologically and talking ecologically, Brook and his family - including 2 girls, 16 and 14, and a boy, 9 - live ecologically. Mrs. Brook, a former professor of geography, is described by Brook as a "keen gardener." At their home near Wayzata the Brooks grow their own vegetables, using only "ordinary household soap and water" to keep the insects down.

"We absolutely refuse to use any insecticides or herbicides at our place, they are so dangerous ecologically," Brook says. Not particularly upset by the "enormous growth of crabgrass" at his home, he feels that the large trees and the deer, woodchuck, fox, raccoons, and other animals seen on his five acres of land are worth the price of living ecologically.

Holder of a doctor of philosophy degree in botany from the University of Durham and a doctorate in science from the University of Edinburgh, Professor Brook also offers some sound advice on what to do with house flies: "Hit them with a fly swatter." It's the ecological thing to do.

OUR POLLUTED PLANET

(FOR IMMEDIATE RELEASE)

Without air and water, man's existence on earth is impossible. As he continues to make both air and water increasingly unusable his continued existence on this planet rapidly approaches a crisis point.

"Polluted Planet: The Coming Crisis in the Environment" is the title of a talk to be given on the University of Minnesota St. Paul campus.

Gordon Rattray Taylor, science adviser to BBC-TV and president of the International Science Writers Association, will speak at 10:15 a.m. Monday (Nov. 17) in the St. Paul Student Center North Star ballroom.

Free to the public, Taylor's talk is sponsored by the Campus Committee on Convocations and the Arts.

#

SUPPLEMENTARY INFORMATION:

Taylor's books include "Conditions of Happiness," "The Biological Time Bomb" and "Sex in History." He has worked for the London Morning Post and the Daily Express; as BBC scriptwriter of science documentaries; BBC chief science adviser; and editor of BBC science series "Horizon" (1964-1966). He founded the International Science Writers Association in 1966.

U DENTAL SCHOOL  
SETS ALUMNI DAY

(FOR IMMEDIATE RELEASE)

The University of Minnesota School of Dentistry will hold its 12th annual Alumni Day Program Friday, Nov. 21. Speakers will include Dr. Richard C. Lillehei, professor of surgery and son of Dr. C.I. Lillehei, an alumnus of the Dental School.

Dr. Richard Lillehei, who has pioneered pancreas and intestine transplants at the University, will discuss the present status of transplantation.

Other speakers and their topics are Dr. Dennis J. Brandstetter, a general dental practitioner in Hopkins, "Current Concepts in Applying a Preventive Dentistry Program in Your Office;" Dr. Ambert B. Hall, professor emeritus of dentistry, "Importance of Perfection in Dentistry;" Paul H. Cashman, University vice president for student affairs, "Contemporary Student Concerns;" and Dr. William F. Braasch, clinical associate professor of dentistry, "Importance of Dental Anatomy in Restorative Dentistry."

Dr. Hall, who retired last year after 48 years as a dental educator, will be the guest of honor and will receive a Dental Alumni Award.

NAFTALIN TO SPEAK AT HARVARD

Professor Arthur Naftalin, former mayor of Minneapolis now on leave from the University of Minnesota's School of Public Affairs, will speak at three meetings on the Harvard University campus next week.

On Tuesday (Nov. 18) he will address the faculty of the Harvard-MIT Joint Center for Urban Studies and meet with the Urban Fellows of the Institute of Politics of Harvard's John F. Kennedy School of Government. Gerard Hegstrom, former member of the Minneapolis city council, is one of the Fellows, who are men and women with significant experience in urban affairs.

As a member of the advisory committee of the Harvard program on technology and society, Naftalin will attend its seminar on systems analysis in the urban environment on Thursday and Friday (Nov. 20 and 21).

THOMPSON NAMED TO  
NATIONAL EXTENSION POST

Willard L. Thompson, dean of the University of Minnesota General Extension Division and Summer Session, was elected chairman of the Council on Extension of the National Association of State Universities and Land Grant Colleges, at the group's annual meeting in Chicago this week.

Composed of deans and directors of extension from member institutions, the council is one of the five major units in the association. The council acts as a forum for discussion of common problems and as a central agency for working with governmental units and public and private agencies concerned with adult and continuing education.

Thompson, GED and Summer Session dean since 1963, came to the University from Oregon in 1960 as an assistant to President O. Meredith Wilson.

FLORIDA PROFESSOR TO  
RECEIVE UNIVERSITY'S  
STRAUB AWARD

(FOR IMMEDIATE RELEASE)

Most people take the water in the reservoir pretty much for granted. This year's recipient of the University of Minnesota's Lorenz G. Straub Award does not.

Assistant Professor Wayne C. Huber of the University of Florida will receive the 1969 Straub Award at 3:30 p.m. Nov. 20 at a colloquium held at the St. Anthony Falls Hydraulic Laboratory. Huber's paper, "Thermal Stratification in Reservoirs," is the main reason for granting him the award.

Following presentation of the award, consisting of a gold medal and cash, by Bryce Crawford, dean of the University of Minnesota Graduate School, Huber will present his paper. It describes the temperature distribution in natural reservoirs and the importance of stratification in reservoir water management. The public is invited to attend.

The St. Anthony Falls Laboratory, known internationally as a leading research center in hydraulics engineering, is located at the foot of Third avenue SE., Minneapolis, on the Mississippi River.

#

SUPPLEMENTARY INFORMATION:

Wayne C. Huber - Received Ph. D. degree from Massachusetts Institute of Technology under direction of Dr. D.R. F. Harleman.

Lorenz G. Straub - Born Kansas City, Mo., Director of St. Anthony Falls lab until death in 1963. First Straub Award presented in 1966.

EFFECTIVE GROUP COMMUNICATION  
TO BE OBJECT OF 'U' WORKSHOP

(FOR IMMEDIATE RELEASE)

How can a small group -- a family, a business or community group, a social action agency -- reach agreement on a plan for action when many divergent points of view are represented?

Through communication of ideas and understanding of the feelings behind them, and by changing the behavior of the people involved, according to John Geier, University of Minnesota communications expert.

As leader of a workshop in effective small-group communication to be held at the University Dec. 1 and 2, Geier will speak on communication techniques, guide participants in applying them in practice sessions, and supervise role-playing exercises.

Among those who have registered for similar workshops in the past are representatives of business and industry, the clergy, social work agencies and community groups such as the League of Women Voters and PTA's. Parents working for better family communication also are invited to attend.

Advance registration is suggested so that participants can submit descriptions of problems encountered in small-group work to Geier prior to the workshop. Information is available from the General Extension Division's department of conferences and institutes in Nolte Center on the Minneapolis campus. The workshop will be held in Nolte Center.

WISCONSIN PROF TO TALK  
ON WEATHER PREDICTION TECHNIQUES

Believe it or not, weather prediction is more accurate than ever. One main reason for this is the use of weather satellites. Friday (Nov. 21) at 4:15 p.m., Verner E. Suomi, director of the University of Wisconsin Space Science and Engineering Center, will report on the use of weather satellite cameras and other recent advances in weather prediction techniques.

Suomi's talk, "Atmospheric Turmoil Seen From Space," will be held in Room 150 Physics at the University of Minnesota. Free to the public, the talk is sponsored by the Society of the Sigma Xi, the Minnesota Academy of Science, and the department of concerts and lectures.

\* \* \* \*

NEW LIBRARY SCIENCE  
RESEARCH TOPIC OF TALK

All librarians and library science students are invited to a lecture at the University of Minnesota Wednesday (Nov. 19) on new research in the field.

Robert M. Hayes, director of the Institute of Library Research and professor in the School of Library Service at the University of California, Los Angeles, will speak on the work of his institute, at 2:30 p.m. Wednesday in Room 320 Coffman Union, Minneapolis campus. (Parking is available on Level 3 of the East River Road ramp.)

The Institute of Library Research carries on fundamental research in library science with emphasis on the use of formal techniques and information-processing technology to attack basic problems of library science.

AUSTIN, ALBERT LEA  
UNDERTAKE JOINT  
HEALTH-SERVICES STUDY

(FOR IMMEDIATE RELEASE)

Can two rural Minnesota communities, barely 20 miles apart, cooperate to improve their health services---despite a long tradition of rivalry in many fields?

Albert Lea and Austin, in southern Minnesota, will decide next year whether they can. It will be a purely local decision, but in order to make it wisely, the communities have asked for outside study help.

The study got under way Nov. 1, concerned with the feasibility of a combined organization and hospital facility to serve both communities. The Freeborn and Mower county governments, both city governments and the two municipal hospitals have contracted with Northlands Regional Medical Program, the University of Minnesota and the Mayo Clinic for the \$80,000, eight-month planning and feasibility study.

Half the money is coming from the communities themselves, the other half from federal funds handled through Northlands. Minnesota Blue Cross also is participating, as is a major hospital consulting firm, James A. Hamilton Associates of Minneapolis.

Extensive local interviewing will begin shortly to determine the needs of both the consumer of health-care services and the practitioner of them: doctors, nurses, pharmacists and others. The study is headed by Professor Bright M. Dornblaser, director of the University's program in hospital and health-care administration, aided by Robert Wilkins, Northlands associate director. The Mayo Clinic will assist in the planning of health-care services and delivery.

(MORE)

By June 30, 1970, those conducting the study are expected to arrive at a series of alternatives to present to the communities of Albert Lea and Austin.

#

SUPPLEMENTARY INFORMATION

Staff members at the University, Northlands, and Rochester's Mayo Clinic will be involved in the study, which will examine existing organizational and physical structures, alternative uses of allied health manpower, and the uses of new medical technology. The organization of St. Olaf Hospital in Austin and Naeve Hospital in Albert Lea will be examined to determine if their programs could be centralized or shared.

Additionally, the survey will determine how local residents view:

- \* the present health-care system with attention to possible new or additional health manpower;
- \* new technological innovations such as closed-circuit television and remote computer diagnosis;
- \* out-of-hospital services such as village clinics;
- \* financial support needed for such health services;
- \* the implications of prepayment health insurance on the health-care system.

A local advisory committee of 17 persons from the Albert Lea-Austin area will meet monthly to review progress of the study. A state advisory committee will be formed as well.

Freeborn and Mower counties together have approximately 86,000 residents.

Northlands Regional Medical Program is a non-profit Minnesota corporation established by Congress and supported by federal funds whose primary purpose is to stimulate cooperative arrangements among all health-care professionals and institutions toward the improvement of health-care services throughout the state.

NEWSMEN: Please check the schedule carefully for changes in the time and location of speeches you may be planning to cover. Room 226 at the Leamington Hotel will be used as a press room for the conference.

INDIAN EDUCATION CONFERENCE  
REGISTRATION CAUSES CHANGES  
IN SCHEDULE, LOCATION

(FOR IMMEDIATE RELEASE)

The first national Indian education conference, to be held Thursday and Friday (Nov. 20 and 21) in Minneapolis, has drawn nearly twice the expected number of participants, necessitating changes in schedule and location.

Some 550 persons were registered at the latest count -- a figure almost double the 300 that conference planners, the Indian people of Minnesota and the University of Minnesota General Extension Division, had hoped to attract.

All workshops will be held, as announced, at the Leamington Hotel. General sessions, including major speeches by Pulitzer Prize-winning novelist N. Scott Momaday, Minnesota Senator Walter Mondale, Robert Bennett, former U.S. commissioner of Indian affairs, and Will Antell, director of Indian education in Minnesota, will be nearby, in the Vocational High School auditorium.

The revised schedule is as follows:

Thursday, Nov. 20

9 a.m. -- Welcome by Minnesota Governor Harold LeVander and Will Antell. (Vocational)  
9:30 and 11 a.m. -- Workshops. (Leamington)  
1:30 p.m. -- N. Scott Momaday. (Vocational)  
3:30 p.m. -- Workshops. (Leamington)  
8:30 p.m. -- Powwow. (Leamington)

Friday, Nov. 21

8:30 a.m. -- Workshops. (Leamington)  
10:15 a.m. -- Will Antell. (Vocational)  
10:30 or 10:45 a.m. -- Walter Mondale. (Vocational)  
12:30 p.m. -- Workshops. (Leamington)  
2 p.m. -- Robert Bennett. (Vocational)  
3 p.m. -- Closing session. (Vocational)

'U' CHEMICAL ENGINEERING PROF  
RECEIVES NATIONAL SOCIETY AWARD

Rutherford Aris, University of Minnesota professor of chemical engineering, received the 1969 Alpha Chi Sigma Award of the American Institute of Chemical Engineers (AIChE) today (Nov. 18).

The award, presented for outstanding recent accomplishments in chemical engineering research, consists of a certificate and \$1,000. It was presented at a banquet as part of the 62nd annual meeting of the AIChE in Washington, D.C.

Professor Aris' work, for which the award is given, includes six books and almost 100 papers in the science of elementary chemical reactor analysis. He is the author of "Elementary Chemical Reactor Analysis," published in 1969.

Aris joined the University of Minnesota staff as a research fellow in 1955. He received his Ph.D. in mathematics and chemical engineering in 1960 and his D.Sc. in 1964 both at the University of London.

MACPHAIL'S 'MUSICAL TROLLEY'  
TO BE HELD DOWNTOWN AND IN SUBURB

(FOR RELEASE THURSDAY, NOV. 20)

Even if you're only half its size, you may be able to make a musical instrument make its sound for you.

Pre-schoolers in a music class created particularly for them hold instruments and examine their parts, find out "What would happen if I did this?" and try to make sounds come out.

At MacPhail Center for the Performing Arts, a part of the University of Minnesota General Extension Division, the Musical Trolley class provides an early introduction to the arts -- complete in itself or a basis for future training.

Essentially, the class is "a chance to try different things," says instructor Jo Mastry. Music leads to dancing, drama and visual art through common elements of rhythm, movement, sound and texture.

Musical Trolley classes will meet in St. Louis Park -- at Westwood Lutheran Church, 9001 S. Cedar Lake rd. -- for the first time beginning Dec. 8. A Monday-morning class and a Monday-afternoon class will meet there.

The week of Dec. 1, several Trolley classes will begin at MacPhail Center, 1128 LaSalle ave. in downtown Minneapolis.

All the classes meet once a week for 12 weeks, with a two-week break for Christmas. Registration information for either location is available from MacPhail Center.

VICE ADMIRAL TO ADDRESS  
PARENTS-SON BANQUET OF NROTC

(FOR IMMEDIATE RELEASE)

Vice Admiral Frederick H. Michaelis, USN, former commanding officer of the nuclear aircraft carrier Enterprise and currently deputy director of Joint Strategic Target Planning, will be the principal speaker at the ninth annual Naval ROTC Parents and Son Banquet at the University of Minnesota Saturday (Nov. 22).

Approximately 350 midshipmen and their parents will attend the dinner in Coffman Union main ballroom. The banquet is given each fall by the University Naval ROTC unit and the Twin Cities Council of the Navy League of the United States, to introduce the students' parents to the NROTC officers and to University faculty members.

Walter P. Halstead is president of the Twin Cities Council of the Navy League and Gale H. Chapman is chairman of this year's banquet.

#

SUPPLEMENTARY INFORMATION

Vice Admiral Michaelis, a 1940 graduate of the U.S. Naval Academy, participated in the first carrier-based air attack on Tokyo in World War II. He assumed command of the Enterprise in 1963. Recently he has been director of development programs, Office of the Chief of Naval Operations, commander of Carrier Division Nine, commander of Task Group Seventy-seven Point Eight, and assistant chief of naval operations (air). He became deputy director of Joint Strategic Target Planning at Offutt Air Force Base, Nebraska, last September. He is a native of Kansas City, Mo.

Saturday evening's events will include:

Reception, Coffman main ballroom lobby, 7:30 p.m.

Dinner, Coffman Union main ballroom, 8 p.m.

Presentation of the Captain's Trophy to the outstanding junior midshipman, after dinner.

Crowning of the Battalion Queen.

Address by Vice Admiral Michaelis (approximately 9:15 p.m.).

Slide presentation, 15 minutes, of midshipmen's summer cruises.

DEANS ATTEND  
COMBINED DEGREE  
CONFERENCE AT U

(FOR IMMEDIATE RELEASE)

The combined-degree program of the University of Minnesota's School of Dentistry was the subject of a recent invitational conference for the deans and representatives of a dozen dental schools.

The dental school's D.D.S.-Ph.D. (doctor of dental science and doctor of philosophy) program was the first in the country six years ago. University dental students are accepted into the program after their second year and while earning their Ph.D. and D.D.S. degrees also receive advance training in one of the dental specialties.

In all, more than 45 dental professionals heard eight University students discuss the dual-degree program. Other University participants were Dr. Erwin Schaffer, dean of the dental school; Dr. Robert Isaacson, chairman of orthodontics and director of the training program; and Dr. Lawrence Meskin, chairman of the school's health ecology division.

The two-day conference was sponsored by the National Institute of Dental Research to encourage other dental schools to establish similar programs.

'U' THEATRE TO PRESENT  
CHEKHOV'S 'THE SEA GULL'

(FOR IMMEDIATE RELEASE)

Misplaced love is the theme of Anton Chekhov's comedy, "The Sea Gull," which opens Friday, Nov. 28, in Scott hall auditorium at the University of Minnesota.

Professor Robert Moulton, who is director of the Stagecoach Players in Shakopee, is directing the University Theatre's production of the Russian dramatist's work. Moulton is also a choreographer for the Minnesota Theatre Company and the Canadian Contemporary Dance Company.

"The Sea Gull" symbolizes senseless cruelty in the production which has been designed by John William Gerth, a McKnight fellow and master's degree candidate.

Cast in major roles are the following University Theatre students: Pamela Brook as Nina Zaryechny; Mary Corrigan as Irina Arkadina, Madame Trepleff; Allan Estes as Semyon Medvedenko; Allison Giglio as Marsha; William Levis as Peter Sorin; Terence Marinan as Konstantine Trepleff; Steven Ryan as Boris Trigorin; Milda Steinbrecher as Pauline Andreevna; Michael Tezla as Eugene Dorn; and John Ashford as Ilya Shamreyeff.

Performances will be at 8 p.m. Friday and Saturday, Nov. 28 and 29, and Tuesday through Saturday, Dec. 2 through 6. There will be two matinees at 3:30 p.m. Tuesday, Dec. 2 and Sunday, Dec. 7.

Tickets are on sale at the University Theatre's ticket office in Scott hall and at Dayton's.

MONDALE'S ADDRESS TO  
INDIAN EDUCATION CONFERENCE  
CHANGED TO THURSDAY

(FOR IMMEDIATE RELEASE)

Minnesota Senator Walter Mondale will address this week's national Indian education conference in Minneapolis on Thursday (Nov. 20) rather than Friday, as previously announced.

Senate voting on the confirmation of the appointment of Clement Haynsworth to the Supreme Court, now scheduled for Friday, caused the change in Mondale's plans.

-UNS-

NEWSMEN: Mondale's speech is now scheduled for a Thursday luncheon at 12:30 p.m. at the Leamington Hotel. Space limitations will be severe, and there is a possibility that newsmen covering the speech would not be able to be admitted because of the large number of persons registered for the conference.

The Thursday schedule remains the same as that announced by the News Service in a release dated Nov. 18, aside from the change in Mondale's speech. On Friday, workshops will begin at 9 rather than 8:30 a.m. at the Leamington, and Will Antell, director of Indian education in Minnesota, will speak at 10:45 a.m. in the Vocational High School auditorium.

'U' REGENTS APPOINT  
LEADING BIOPHYSICIST

(FOR RELEASE AT 10 A.M., SAT. NOV 22)

A leading biophysicist was appointed to the University of Minnesota faculty today by the University Regents.

Irwin Rubenstein, an associate professor at Yale University, was named a professor in genetics and cell biology in the College of Biological Sciences. Genetics and cell biology are key studies in the further understanding of such world problems as mental and physical health, disease, nutrition, and pollution.

Commenting on Rubenstein's appointment, Dean Richard S. Caldecott of the College of Biological Sciences said, "Dr. Rubenstein is one of the most highly regarded molecular biophysicists that have been brought to our attention. He is particularly interested in contact with students. We anticipate that he will play a major role in our developing program in cell biology."

#

SUPPLEMENTARY INFORMATION:

Irwin Rubenstein -- B.S. degree, California Institute of Technology, 1953; Ph.D. degree, University of California in Los Angeles (UCLA), 1960; Research Fellow, Johns Hopkins, 1960-62; Assistant Professor, Yale, 1963-68; Associate Professor, Yale, 1968 to present. Member: Biophysics Society and The Genetics Society; Born 1931, Kansas City, Mo. Married, three children.

College of Biological Sciences -- Dean's office located at 123 Snyder hall, St. Paul; Includes departments of biochemistry; botany; The Dight Institute for Human Genetics; ecology and behavioral biology, field biology, genetics and cell biology, Museum of Natural History and zoology.

CLASSICAL DANCES OF INDIA  
TO BE FEATURED IN 'U' FESTIVAL

A Festival of Classical Dances of India will be held at the University of Minnesota Tuesday, Wednesday, and Thursday, Dec. 2, 3 and 4.

The program will include a public performance of Kathak dance by Gopi Krishna and his dance troupe and two public lecture-demonstrations by Kapila Vatsyayan, noted authority on Indian dance.

The Gopi Krishna dancers will perform at 7 p.m. Dec. 3 in Coffman Union main ballroom. Admission will be \$2 for the general public and \$1.50 for students.

There will be no admission charge for the lecture-demonstrations at 8 p.m. Dec. 2 and 4 in the Coffman Union women's lounge. "The Theoretical and Historical Background of Classical Indian Dance" is the topic for the Tuesday lecture. "The Technique and Repertoire of Contemporary Classical Indian Dance Styles" is the topic for Thursday.

The festival is sponsored by the University's South Asia Center and the Indo-American Club.

#

FRANCIS CHASE  
TO SPEAK AT 'U'

Francis Chase, dean emeritus of the Graduate School of Education of the University of Chicago, will deliver a public lecture at the University of Minnesota Tuesday (Nov. 25) at 3:15 p.m. in Murphy hall auditorium. He will discuss the role of research and development centers in the improvement of education.

Dean Chase is the author of "The National Program of Educational Laboratories," a U.S. Office of Education study of 20 educational laboratories and nine research and development centers.

Dean Chase is internationally recognized as an authority on education and is the author of "Education Faces New Demands" (with Edgar Morphet) and "The Forty-Eight State School Systems." He was co-editor of "The High Schools in a New Era."

'U' CENTER RECEIVES  
\$200,000 FORD GRANT

(FOR IMMEDIATE RELEASE)

A \$200,000 grant to the University of Minnesota Center for Comparative Studies in Technological Development and Social Change was announced today (Monday, Nov. 24) by the Ford Foundation and Dean Willard W. Cochrane of the University's Office of International Programs.

The funds will be used to continue the center's research for a three-year period in the areas of urbanization and development, the political basis of economic development and the exploration of new ideas and projects for the center.

The center was established in the Office of International Programs in 1967 for the purpose of conducting interdisciplinary research and developing theories on the relationships between technological development and social change in many different social and cultural settings. Professor Robert T. Holt is director.

Currently involved in research at the center are five University faculty members representing the disciplines of political science, anthropology, economics and mathematics. They work with collaborators in four foreign countries -- England, India, Mexico and Morocco. The new grant will allow for increased participation by faculty and students.

Two field studies in which the center is involved concern "new" industrial cities in India and Mexico. The cities provide a social laboratory for the study of urbanization and development. Four basic problems are being studied in these projects: (1) the operation of the different organizational forms in these cities; (2) the attitudes of residents toward these organizational forms; (3) the patterns of migration to these cities; and (4) the effect of the new cities on the rural

(MORE)

communities surrounding them.

Another field project, currently being conducted by the center, concerns the Berber and Arab tribes in Morocco -- soon to be affected by major irrigation work there. The center has two researchers (one from the London School of Economics and one from l'Ecole Pratique des Hautes Etudes in Paris) in Morocco with the objective of establishing a base point which will identify the important similarities and differences between these two populations before the irrigation is begun. During the next three years the center will continue the study of the tribes as their incomes increase with the introduction of irrigation and new crops.

JUDGE NELSON TO EXHIBIT WORKS  
IN OLD MINNEAPOLIS WAREHOUSE

Growing grass, the hole that was Walker Art Center, and Dayton's department store all are subjects for a showing of visual information by Judson Nelson scheduled to open Saturday, Dec. 6, in a renovated warehouse at 117 S.E. Main St., Minneapolis.

Nelson, a University of Minnesota teaching assistant in studio arts and candidate for a master of fine arts degree, has rented the space for the show from architect Peter Hall.

The multi-media presentation will include films, photographs, drawings and lights.

There will be a public reception from 4 to 7 p.m. Dec. 6.  
The show will be up through Dec. 23.

DON DAVIES  
TO GIVE MAJOR POLICY SPEECH  
AT 'U' EDUCATION CONFERENCE

NEWSMEN: For further information,  
contact: JUDY VICK, 373-5193

(FOR IMMEDIATE RELEASE)

Don Davies, associate U.S. commissioner of education, will give the keynote address at the Dean's Conference on Teacher Education next week in Minneapolis.

According to the U.S. Office of Education this will be a major policy speech outlining the new administration's goals in education.

Davies will speak at a 6 p.m. dinner meeting Thursday, Dec. 4, at the Radisson Hotel.

"Urban Education: Teacher Education in the '70s" is the theme of the Dec. 4 and 5 conference sponsored by the University of Minnesota College of Education. Attending will be deans of education colleges and schools in a 12-state area. All sessions will be at the Radisson.

Frank Wilderson, University of Minnesota associate dean for community relations in the College of Education, will speak at a noon luncheon meeting Friday, Dec. 5. Wilderson is spending the current academic year visiting school systems in major cities of the United States.

There will be two general sessions on topics relating to teacher education. Scheduled for 8:30 a.m. Friday are presentations on "Twin City Trainers of Teacher Trainers Program," by Charles R. Bruning, University professor and director of the program, and Mrs. Mabel Cason, chairman of the local TTT board; "Urban Areas Student Teaching Program," Mildred Hume, supervising teacher in the Minneapolis Public Schools; "Community Agencies and Teacher Education," Norine Odland, University elementary education professor, and Mrs. Rosalie Anderson, staff member of the Phyllis Wheatley House.

Topics for a 2 p.m. Friday session will be "Precision Teaching," Wells Hively, professor of educational psychology at the University of Minnesota, and "Individual Instruction in the Inner-City Classroom," Robert Pinney, program coordinator for the Upper Midwest Regional Educational Laboratory.

CONTROL OF PUBLIC EDUCATION  
TO BE TOPIC FOR SCHOOLMEN

NEWSMEN: For further information,  
contact: JUDY VICK, 373-5193

(FOR IMMEDIATE RELEASE)

Who should run our schools -- laymen or professional educators?

This question will be discussed Thursday, Dec. 11, at the annual Schoolmen's Day sponsored by the University of Minnesota College of Education's division of educational administration and the State Department of Education.

"Shaping the Future of Public Education" is the theme for the one-day conference at the Holiday Inn Central in Minneapolis. More than 600 elementary, secondary and college administrators from throughout the state are expected to attend.

Speakers will include Malcolm Moos, University of Minnesota president; Professor Bertram Gross, director of the Center for Urban Studies at Wayne State University; James D. Koerner of the Education Development Center in Newton, Mass.; and Professor Stephen K. Bailey, School of Education, Syracuse University.

The conference will end with a panel discussion of the ideas presented. Panel members are Thomas G. Arneson, of the labor relations staff of Honeywell Inc. and former Mounds View school board member; Robert F. Arnold, president of the Minnesota Education Association; Harriet Jordan, former Roseville school board member; and Flora Rogge, president of the Minnesota Federation of Teachers.

#### Schedule for Schoolmen's Day

9 a.m. Registration

9:30 a.m. "The Future Environment for Public Education"  
Professor Bertram Gross

10:30 a.m. "The Role of the Layman in Shaping the Future of Public Education"  
James D. Koerner

Noon -- Luncheon  
"Future Directions of Higher Education -- the Multiuniversity"  
President Malcolm Moos

2 p.m. "The Role of the Professional in Shaping the Future of Public Education"  
Professor Stephen K. Bailey

3 p.m. Panel discussion.

U OF M CONTRIBUTES  
\$60,000 TO AID MARTIN  
LUTHER KING PARTICIPANTS

(FOR RELEASE THURSDAY, NOV. 27)

The University of Minnesota yesterday (Nov. 26) announced that it is contributing an additional \$60,000 to the fund of financial aids available to students in the Martin Luther King program.

The funds were needed because of a decrease in the amount of state and federal financial aid available, which resulted in a \$60,000 short-fall in the anticipated funds for disadvantaged students.

Two hundred thirty students are enrolled in the Martin Luther King (MLK) counseling and tutorial program this fall quarter. Last year the program served a total of 190 students all three quarters.

The University had counted on increased federal grant expenditures and additional state grant-in-aid funds for this year's MLK program. During the summer, however, the federal funds available were substantially cut from the previous year's level. The state grant-in-aid program was delayed and not a substantial source of aid for the fall quarter. Private contributions also fell short of expectations.

This combination of events placed an excessive burden on loans and work-study funds, which are considered the least desirable financial aids for disadvantaged students--who generally need extra time for studying.

Some \$265,000 is budgeted for aiding MLK students this academic year. Five major sources are contributing to the funds, which are handled through the University's Office of Student Financial Aid. The sources are (1) contributions from individuals, particularly from the University community (faculty, staff and students) and from Twin Cities business firms; (2) traditional University grant and scholarship resources;

(MORE)

(3) federal and state grant sources; (4) loan and work-study funds (largely from federal and University joint programs); and (5) the University itself.

In the distribution of financial aids, all students in the program are counseled individually by staff members of the Office of Student Financial Aid, which seeks to put together the most effective aid program for each student given his particular needs and the resources available.

Because further federal cuts are expected for next year, University officials anticipate the need for increased private contributions and direct University funding in 1970-71 and thereafter--or a return to heavy reliance on loan and work-study programs.

#

#### SUPPLEMENTARY INFORMATION

The disadvantaged students being aided by the funds this year include 63 per cent black or Afro-American; 10 per cent American Indian; 1 per cent American Oriental; 6 per cent Spanish-American; and 20 per cent classified as "other," which includes Caucasians and some minority students difficult to classify.

The University's statistical summary of the aid program reveals that between 300 and 400 students were contacted each of the two years for the MLK program. Of the 230 now in the program, 104 are returnees from last year. More than half (54 per cent) this year are from Minneapolis, 32 per cent are from St. Paul, 8 per cent from other parts of Minnesota, and 6 per cent from out-of-state.

The 190 students aided last year included 122 in the University's General College, 58 in the College of Liberal Arts and the rest in other colleges. They received a total of \$178,000 in direct financial aid (not loans) covering both educational costs and subsistence.

The MLK program was born following the assassination of Martin Luther King in April 1968, as University students and staff as well as others recognized the need to actively recruit minority and disadvantaged students whose aspirations might not include a college education, and then to follow through with intensive tutoring and individual counseling to compensate for their often inadequate previous schooling. A special drive for funds from the University community and the Twin Cities business community resulted in a large initial fund, as many persons found such contributions to be one answer to the frequently asked question, "What can I do?"

At the outset of fall quarter the University budgeted an original \$60,000 for tuition of MLK students.

ANNUAL TAX INSTITUTE FOR LAWYERS  
TO BE HELD DEC. 5-6 IN ST. PAUL

(FOR IMMEDIATE RELEASE)

Tax reform -- now being debated in Congress -- is among the topics for the 1969 Tax Institute, to be held Dec. 5 and 6 in the St. Paul Hilton Hotel.

Sponsors of the annual institute, now in its twenty-ninth year, are the Minnesota State Bar Association's section on tax law and the University of Minnesota General Extension Division.

John M. Sullivan, attorney from the St. Paul firm of Briggs and Morgan, will speculate on what Congress is likely to do in the field of tax reform.

Other major topics include tax anatomy of an estate plan (John E. Harris, Faegre and Benson, Minneapolis) and tax planning of farm real estate (Neil E. Harl, professor of economics at Iowa State University).

Registration, for a \$30 fee which includes a copy of the institute practice manual, can be made with Continuing Legal Education, 338 Nolte Center, University of Minnesota, Minneapolis, Minn. 55455.

Firms that wish to send more than one representative and receive only one practice manual can send up to four registrations for \$20 each for each \$30 registration.

#

SUPPLEMENTARY INFORMATION:

The rest of the topics to be discussed at the institute are:

Recent Developments in Income, Gift and Death Tax Law (Rudy K. Steury, of Popham, Haik, Schnobrich, Kaufman and Doty, Minneapolis).

Hedging Against Corporate Tax Losses (Ronald L. Sorenson, Briggs and Morgan, St. Paul).

Tax Exposure in Transactions Between Closely Held Corporations and Their Officers and Shareholders.

-- Closely Held Corporate Problems -- Constructive Dividends (James L. Walsh, of Oppenheimer, Hodgson, Brown, Wolff and Leach, St. Paul).

-- Asset Sale Transaction (John C. Johannesson, of Maun, Hazel, Green, Hayes, Simon and Aretz, St. Paul).

-- Redemption of Stock (Harold S. Ruttenberg, of Mullin, Galinson, Swirnoff and Weinberg, Minneapolis).

-- Fringe Benefits (Robert P. Sands, of Fredrickson, Byron and Colborn, Ltd., Minneapolis).

NEW "U" PRESS BOOK  
DISPELS HARDING MYTHS

(FOR IMMEDIATE RELEASE)

Was the late Warren G. Harding really a bumbling nonentity?  
Or was his failure as a person, rather than as a president?

Myths surrounding the controversial Republican who served as president in the 1920's are analyzed and many of them dispelled in a new book published by the University of Minnesota Press.

"The Harding Era: Warren G. Harding and His Administration" by Robert K. Murray is a reappraisal of the Harding nomination, election and administration in light of newly available materials, including the Harding Papers.

The book reveals that the Harding administration, despite inherited domestic and international chaos, was surprisingly successful in solving its immediate problems and engineered an efficient transition from the postwar turmoil to a time of prosperity.

Murray says Harding was a catalytic influence in these accomplishments and that his failure was not in administration, but in himself and his friends.

The author is chairman of the history department at Pennsylvania State University. He wrote "Red Scare: A Study in National Hysteria, 1919-1920," also published by the University of Minnesota Press.

SOCIALIST YOUTH TO HOLD  
NATIONAL CONVENTION AT U OF M

(FOR IMMEDIATE RELEASE)

The Twin Cities chapter of the Young Socialist Alliance (YSA) will host the organization's ninth annual national convention, to be held Dec. 27-30 at the University of Minnesota.

"We expect activists from all over the country---in the anti-war movement, black community, colleges, high schools, trade unions and the armed forces---to attend the convention," Bill Scheer, YSA Twin Cities organizer, said today. "We will assess this year's work and make plans for 1970."

Scheer, who describes the group as the socialist wing of the radical youth movement, said that 800 people attended last year's convention at the University of Chicago and that since then the number of members has increased substantially.

Discussions and panels will include topics on international youth radicalization, the movement to end the war in Vietnam, black and third-world movements and women's-rights movements.

Scheer said that world leaders in these movements will address the convention.

INDIANS WANT VOICE  
IN EDUCATION DECISIONS,  
IS CONFERENCE MESSAGE

(FOR IMMEDIATE RELEASE)

Indians want to be involved in the education of Indian children, and Indian students want a voice in making decisions about their own education.

This was the message heard in speeches and workshop sessions at the First National Indian Education Conference held in Minneapolis Nov. 20 and 21. The conference drew 900 participants from all over the United States---three times as many as expected.

In one of the major addresses, Sen. Walter F. Mondale (DFL - Minn.) spoke of the "national tragedy" of Indian education. He said the system tries to make an Indian child "lose his Indianness" and tells him "to disregard his family's teachings and adopt the Great White Way of doing things." A child who has been taught to cooperate with others is suddenly told that he must become competitive.

The Minnesota senator spoke of "a system which sends an Alaskan child 6,000 miles from his home to a boarding school in Oklahoma," and "a system in which 25 per cent of the teachers of Indian students admit they prefer not to teach Indians."

Mondale outlined recommendations of the Senate Indian Education Subcommittee, of which he is a member. The recommendations "may seem absurd," he said, "simply because they are so fundamental to any effective educational program;" for example, locally elected school boards for federal Indian schools.

N. Scott Momaday, a Kiowa Indian and a Pulitzer Prize winner for his novel "House Made of Dawn," told the conference that the Indian has been generalized in the imagination of the white man. People speak of an "Indian problem" as if there were one problem and one solution, Momaday said. But he noted there are several hundred societies of Indians and more than 100 living Indian languages in the United States.

(MORE)

The relationship between white man and red man was "doomed from the outset," Momaday said, because of different values and goals. To white men, the Indian stood in the way of progress and western expansion; thus they determined to "civilize" or eliminate the Indian. Momaday is now a professor of English and comparative literature at the University of California.

Will Antell, director of Indian education in Minnesota and honorary conference chairman, spoke of the problems of communication between the Indian community and the public schools. He said educational institutions should produce teachers who understand the history, culture, and value systems of the Indians--whether or not the teachers plan to serve in Indian communities.

Antell also discussed the problem of textbooks that defame or ignore the American Indian. At a workshop session on the same subject, a participant pointed out that history books are biased through the eyes of the conqueror. "When the whites won it was called a victory," he said, but "when the Indians won it was a massacre." "Minnesota, Star of the North" was cited as a particularly offensive book in which the word "savage" is used more often than the word "Indian."

Robert Bennett, former commissioner of the Bureau of Indian Affairs, expressed impatience with all the studies that have been conducted on Indian problems. He warned Indians against those "who want to make Indians their thing, with their pet theories and panaceas as to what is best for you."

Indians in workshops and informal conversations repeated these feelings. "We're tired of having white people come around to ask us questions and try to find answers for us," said a student from South Dakota. "We're being studied to death," said a Seattle woman. "We don't want to be somebody else's statistic," said a Duluth woman.

The 900 conference participants were predominantly Indian leaders, Indian educators, and white educators. A group of Indian college students who felt they had been denied adequate representation presented a resolution to the conference Friday requesting endorsement for a demand that the Bureau of Indian Affairs provide \$250,000 to fund a National Conference of Indian College Students. It passed unanimously.

ANCIENT MIDDLE-AMERICAN  
CIVILIZATIONS TO BE FOCUS  
OF 'U' SEMINAR SERIES, TRIP

(FOR IMMEDIATE RELEASE)

"Study now, see later" is the idea of a new University of Minnesota series on ancient middle-American civilizations.

The Sunday-evening lecture-discussion series with University faculty members begins Sunday (Dec. 7) in Nolte Center.

Continuing education for women, a department of the General Extension Division, is sponsoring the series, which is planned as preparation for a department-sponsored trip to Mexico in March.

Associate Professor Richard Adams and Assistant Professor Dennis Puleston, both of the anthropology department, and Donald Torbert, professor of art history, will speak at slide-illustrated seminar meetings Dec. 7 and 14, Jan. 11, 18 and 25 and Feb. 1.

Professors Adams and Puleston both have done extensive archaeological work in Mexico.

Their talks will include discussions of the ceremonial centers, crafts and mythologies of ancient civilizations, according to Mrs. Louise Roff, director of continuing education for women.

Though the March trip and the seminars are being planned together, the seminars are also for people planning their own trips to Mexico and anyone who is interested in the subject, Mrs. Roff said. Husbands are welcome at the seminars and on the trip, she said.

#

(MORE)

MEXICO

-2-

SUPPLEMENTARY INFORMATION

Topics for the six meetings are:

- Dec. 7-- Ancient Civilizations: The Olmec; Classic Teotihuacan (Adams)
- Dec. 14--The Yucatan Maya (Adams)
- Jan. 11--Art and Architecture of Meso-America (Torbert)
- Jan. 18--Continuing discussion of Jan. 11 (Torbert)
- Jan. 25--An Overview of Southern Mexico and Guatemala Sites (Puleston)
- Feb. 1--Ecological and Social Factors in the Decline of the Civilization (Puleston)

Civilizations to be studied are the Olmec, Mayan, Mixtec, Toltec, Zapotec, Aztec, Uxmal, Chichen Itza, Palenque, Monte Alban, Teotihuacan and Tikal.

Registration can be made in advance by mail to Continuing Education for Women, 315 Nolte Center, University of Minnesota, Minneapolis, Minn. 55455. A tuition fee of \$18 for the series, or \$4 a lecture, can also be paid at the door. Discussions begin at 6:45 p.m.

UNIVERSITY NOT POLITICAL  
BODY, SAYS PRESIDENT MOOS

(FOR IMMEDIATE RELEASE)

University of Minnesota President Malcolm Moos reiterated his stand against the politicization of the campus in a letter sent to Carla Reihle of the Student Mobilization Committee to end the war in Vietnam.

The letter was in response to a committee statement issued Nov. 13 suggesting that the University conduct a referendum among students, faculty and administration concerning immediate troop withdrawal from Vietnam, the abolishment of the ROTC program and the prohibition of secret research on campus.

Moos stated that after careful consideration he felt a binding referendum was not appropriate.

"What seems clear to me is that the role of the University is to provide an environment in which the value of ideas can be fully debated in the belief that in this way the academic community can make the most significant contribution to truth," said Moos. "The protection of the freedom of the campus for ideas is jeopardized when the institution becomes a political body itself .... The University must always be a place of careful analysis rather than a place of ineffective declarations."

Moos also pointed out that the ROTC program is currently being studied by a University committee which has recently held a public hearing for the purpose of receiving divergent opinions.

With regard to secret research, Moos said that on July 11, 1969, the University Regents approved a policy prohibiting secret research at the University.

Moos said he could see no logical new steps to be taken by the University in the wake of a referendum on the conduct of the Vietnam war.

Moos did not rule out the possible usefulness of an advisory referendum taken by a University committee or group in the course of its work and suggested that a printed ballot in the Minnesota Daily would enable all members of the University community to participate.

'LANGUAGE OF CITY'  
TO BE CONFERENCE TOPIC

(FOR IMMEDIATE RELEASE)

"Language of the City" will be discussed in a two-day conference in Minneapolis this week.

Speakers will include Arthur L. Johnson, deputy superintendent of the Detroit (Mich.) Public Schools; Professor Arthur Smith, a member of the speech department of the University of California in Los Angeles and author of books on black rhetoric; and Milt Williams, education director of The Way.

Johnson will deliver the keynote speech at 9:15 a.m. Wednesday (Dec. 3). His topic will be "Understanding the Language of the Inner City." Smith will speak at 8:15 p.m. Wednesday (Dec. 3). "The Rhetoric of Revolution in the Inner City" will be his topic. Williams will speak at 2 p.m. Thursday on "The Message Is Not Always Verbal."

All sessions are open to the public and will be held at University Lutheran Church of Hope, 601 Thirteenth ave. SE. The conference is sponsored by the Twin City Trainers of Teacher Trainers, a federally funded program with headquarters at the University of Minnesota.

"The Language of the School: Who Listens? Who Tries to Understand?" will be the topic for a panel discussion by Twin Cities high school students at 10:15 a.m. Wednesday.

A response, "We Are Listening," will be the topic for a panel discussion by youth workers at 2 p.m. Wednesday. Participants will include Charles Smith, school/community human relations specialist with the Minneapolis Public Schools; Harold Pearl, social worker, St. Paul Elementary Schools; Sister Giovanni, director of the Guadalupe Area Project in St. Paul; Gregory Mitchel, coordinator, Southside Indian Center in Minneapolis; and Mrs. Barbara Huntley, helping teacher in the Minneapolis Public Schools.

"The Lincoln Kids," a presentation by the drama production group of The Way, will be presented at 9:30 a.m. Thursday.

Lillian Anthony, assistant chairman of the Afro-American studies department at the University of Minnesota, will lead a summary session at 3:15 p.m. Thursday.

DELWIN ANDERSON  
TO RECEIVE OAA AWARD

(FOR IMMEDIATE RELEASE)

Delwin M. Anderson, director of Social Work Service for the Veterans' Administration central office in Washington, D.C., has been named by the University of Minnesota Board of Regents to receive the University's Outstanding Achievement Award.

The Social Work Service employs more social workers than any other single agency in the United States.

Lloyd H. Lofquist, University assistant vice president for academic administration, will present the award to Anderson Thursday (Dec. 4) at the annual meeting of the Social Work Alumni Association at the Sheraton-Ritz Hotel.

Anderson received his bachelor's degree in sociology from Minnesota in 1939 and in 1946 received his master's degree from the University's School of Social Work. He was a member of the School of Social Work faculty in 1946-47. He joined the Veterans Administration in Duluth, Minn., in 1947 as a social worker and later worked in VA offices in St. Paul, Detroit, and Columbus, Ohio. He has been in his present position since 1964.

This year Anderson received the Community Service Award, Health and Welfare Council of the National Capital Area. In 1968 he received the Veterans Administration Service Award.

ISRAELI STUDENTS TO PROTEST  
HIGHJACKING, HOLDING OF VICTIMS

Students for Israel and Damascus II will hold a silent protest in front of Coffman Union at the University of Minnesota at noon Thursday (Dec. 4).

The students are part of a nationwide protest over the holding of two Israeli highjack victims by the Syrian government. Political Science Professor Samuel Krislov will address the students at 12:30 p.m. in the main lounge of Coffman Union. Later in the afternoon the students will go downtown to collect signatures for petitions condemning highjacking and governments that permit it. These petitions will be sent to the United Nations, the Syrian embassy, and international aviation authorities.

The protest date was planned to coincide with the beginning of Hanukkah, a Jewish celebration of freedom.

3 FILMS TO SHOW  
AT MUSEUM SUNDAY

Three short films will be shown Sunday (Dec. 7) at the Bell Museum of Natural History auditorium, University of Minnesota, as part of the museum's free Sunday-afternoon program.

They are "Big Animals of Africa," showing such beasts as the hippopotamus, the rhinoceros and the elephant in their natural habitat; "Birds of the Prairie," showing birds of our region; and "A Chairy Tale," described by the museum as "an especially entertaining movie that appears a fantasy but contains many psychological implications."

The films will show at 2:30 and again at 3:30 p.m.

'U' PROF HAROLD ALLEN  
HONORED BY NCTE

(FOR IMMEDIATE RELEASE)

One of the highest honors possible for an English teacher was awarded last weekend to Harold B. Allen, professor of English and linguistics at the University of Minnesota.

He received the Distinguished Service Award of the National Council of Teachers of English (NCTE) at its 59th annual convention, held in Washington, D.C. Also receiving the award was Muriel Crosby, former acting superintendent of the Wilmington, Del., public schools and author of "An Adventure in Human Relations" and other books.

Receiving the award from Albert H. Marckwardt of Princeton University and past president of NCTE, Professor Allen was cited for his "notable contribution to the study of regional dialects of American English." He has prepared numerous anthologies aiding English teachers in the field of linguistics.

A former president of NCTE, Allen has held other NCTE offices and has been active in the Linguistic Society, the American Dialect Society, the Modern Language Association, and the Speech Association of America.

#

#### SUPPLEMENTARY INFORMATION

##### Harold B. Allen:

--joined the University faculty in 1944, directed communication program 1945-1964. Has held summer teaching appointments at various colleges including Michigan State University, U of Michigan, U of Southern California. Has also taught in Cairo, U.A.R.

--holds master's and doctor of philosophy degrees from University of Michigan.

--was chairman of the Language Arts Advisory committee for the Minnesota Board of Education, 1961-68.

'U' GROUPS TO PRESENT  
CHRISTMAS CONCERT

(FOR IMMEDIATE RELEASE)

Sacred Christmas music will be presented in a free public concert  
Wednesday, Dec. 10, at 8 p.m. in Grace University Lutheran Church, Harvard  
and Delaware sts. SE., Minneapolis.

Three University of Minnesota student groups will perform under  
the direction of Thomas Lancaster, University music instructor.

The 20-member Chamber Singers, the 30 members of the Concert Choir  
and the Collegium Musicum, an organization of about 20 vocalists and  
instrumentalists, will present a program ranging from medieval carols  
and Renaissance motets to compositions by Mozart and Bruckner and  
20th-century choral works.

Members of the University of Minnesota Symphony Orchestra will  
join the Chamber Singers and Collegium Musicum to conclude the program  
with Heinrich Schutz's "Christmas Story."

SEX-CHANGE EXPERT  
TO SPEAK AT U OF M

(FOR IMMEDIATE RELEASE)

Born with chromosomes appropriate for one sex, but with the body of the other sex, some people have a problem. Some of these people try to solve the problem with a sex-change operation.

John Money, associate professor of medical psychology and pediatrics at Johns Hopkins University, is a leading psychologist studying the sex-change question. Money will speak on "Cytogenetic Sex and Gender Identity Differentiation" at 4:30 p.m. Monday, Dec. 8. Free and open to the public, the talk will be held in Murphy Hall auditorium on the Minneapolis campus of the University of Minnesota.

Two of Money's recent books are "Sex Errors of the Body" and "Transsexualism and Sex Reassignment," published by Johns Hopkins Press.

'U' RADIO-TV FRATERNITY  
PRESENTS DOCUMENTARIES  
ON KTCA TELEVISION HOUR

(FOR IMMEDIATE RELEASE)

The University of Minnesota chapter of Alpha Epsilon Rho, national honorary radio and television fraternity, began a series of documentary films on the University of Minnesota Television Hour Tuesday (Dec. 2).

"A E Rho Presents," scheduled for Tuesdays on KTCA-TV, channel 2, from 9 to 9:30 p.m. through December, will consist of films produced by fraternity members. The first film, entitled "15," was on the October and November 15th moratoriums.

"Israel: International Interaction" is the title of next Tuesday's (Dec. 9) film, which deals with an Israeli program, similar to the Peace Corps, which works for agricultural and educational development.

On Dec. 16, a film entitled "A Few Steps Behind," on the preparation of Cambridge State Hospital patients for roles in society, will be shown. The programs for Dec. 23 and 30 have not been announced.

The Minnesota chapter of Alpha Epsilon Rho, with over 30 members, is one of the strongest of some 40 chapters across the country. Juniors and seniors in radio and television with B averages or higher belong to the fraternity.

The University Television Hour is an educational service of the General Extension Division.

U OF M NURSING FACULTY  
EXTEND SERVICES OUTSTATE

(FOR IMMEDIATE RELEASE)

The School of Nursing at the University of Minnesota is offering its consultation and continuing-education services to nursing teachers throughout the state.

Eugenia Taylor, assistant professor of nursing, will consult with the various vocational schools, hospitals, and junior colleges that have practical nursing or associate-degree nursing programs.

Her efforts will be coordinated with the Minnesota Board of Nursing, the Vocational Education Division, and the Junior College Board of the State Department of Education.

There are 27 practical nursing programs in the state with some 125 faculty and more than 800 students. Associate-degree programs have been established at four junior colleges with another opening in the fall of 1970. More than 700 students are being taught by 70 faculty members.

#

SUPPLEMENTARY INFORMATION

Miss Taylor is a graduate of the Sacred Heart School of Nursing in Havre, Mont. She received her bachelor's and master's degrees in nursing from the University of Minnesota and has been on the School of Nursing faculty since 1949. She recently spent a year of post-graduate study at the University of California at San Francisco concentrating on the development of curriculum and preparation of faculty for associate-degree programs in nursing.

REGISTRATION SET DEC. 15-30  
FOR 'U' WINTER EVENING CLASSES

(FOR IMMEDIATE RELEASE)

University of Minnesota winter quarter evening classes begin the week  
of Jan. 5 on campus and at a number of places around the Twin Cities.

Registration is scheduled for Dec. 15 through 23, and 29 and 30.

Major evening classes centers are MacPhail Center, 1128 LaSalle ave. in  
Minneapolis, the St. Paul Extension Center at Ninth and Exchange, Sandburg  
Junior High School in Golden Valley, Richfield High School, and Kellogg  
High School in Roseville.

In addition, some classes are held at Minneapolis Central High School  
(including a course this winter on the Afro-American experience) and Hopkins  
High School. A sociology course will meet winter quarter at the Bryant  
Precinct police station in Minneapolis.

The campus office, at 57 Nicholson hall, and the MacPhail and St. Paul  
centers take registrations for all classes, the others for their own classes  
only. Registration for classes at Kellogg is held at the school district  
office, 1251 W. County Road B2.

Mail registration for all classes can be made through the campus office,  
telephone 373-3195.

(FOR USE WEEK OF DECEMBER 15)

NEW PROGRAM HELPS  
FRESHMEN STAY IN I.T.

By the end of the 1962-63 academic year, more than 60 per cent of the freshman class in the University of Minnesota's Institute of Technology (IT) had dropped out, victims of the traditionally rigorous requirements of the institute.

Following the 1968-69 year, however, only 37 per cent were unable to continue doing "C" work or better. The dramatic increase in retention of promising young engineers and scientists must be attributed, in large part, to a program of retention and recruitment headed by IT Assistant Dean Paul A. Cartwright.

According to Cartwright, it became apparent to the IT faculty in the mid-60's that some new approach had to be devised to aid the young students. "It was quite a waste of resources to retain only 40 per cent out of such a fine group," he says.

Three years ago, Cartwright began the first steps in a three-part program of recruitment and retention. His first concern was to recruit, through increased contacts with Minnesota high schools and junior colleges, a larger number of potential IT students.

With this end in mind, three-man teams consisting of a working engineer, a professor from IT and an IT senior began visiting various high schools and two-year colleges, talking to interested students about the institute.

A second, closely related, program involved an attempt to "clean up the image" of the institute, according to Cartwright. "Potential students used to shy away from a college program in IT," says Cartwright, "because they had heard it was extremely difficult and once they got in, they would be lost in their studies, without anyone to go to for outside help."

(MORE)

To change the image, Cartwright began writing letters of an informational and explanatory nature to prospective students encouraging their enrollment in IT.

Also initiated was the third, perhaps most important, step in the recruitment and retention program.

Last year, for the first time, two entire floors were set aside in men's dormitories exclusively for IT students. Each floor, or "house" as it is called, is supervised by a live-in IT senior whose room and board is paid by the institute in return for his tutoring services.

In its first year of operation the retention rate for freshmen and sophomores living in the "houses" climbed to 72 per cent, prompting the institute to open three additional "houses" this year.

The program is headed by Dr. Ronald G. Taylor, a fulltime psychiatrist with the University's Student Counseling Bureau whose only job is to run the "houses" and counsel IT students with their personal problems.

Commuters, who comprise nearly 75 per cent of IT's enrollment, have not been left to fend for themselves. Mathematics tutoring sessions for freshmen who commute are held from 3 to 5 p.m. Monday through Thursday on campus, and a mathematics teaching assistant is available for tutoring Tuesday and Thursday evenings at Edina High School.

Before choosing that school, IT administrators looked at a map to find a cluster of commuting students---and Edina was in the center. Other suburban schools may be added to the program.

Now under consideration for next year is a plan to make meal tickets available to commuters at cost so that they will be able to eat at the IT "houses" once a week and take advantage of the tutoring after supper.

Another kind of help for students came last fall when the IT faculty voted almost unanimously to allow a student who gets an "F" or a "D" to repeat the course and have only the second grade computed in his grade point average. "It's the final knowledge the student has that counts," says Cartwright, yet the first grade is still on the record to show how he arrived at that level of knowledge.

Also for the first time this year, freshmen may remain undecided on what department in the college they wish to enter. "In the past," says Cartwright, "we demanded that each new freshman decide in his first year what department he would enter. We now believe it is fairer to the students to allow them a year of general course work before deciding."

Says Cartwright, "We are very pleased with the results of the recruitment and retention programs. But as of last year, only about 25 to 30 per cent of the people entering the institute were being awarded degrees. We won't be satisfied until we have boosted that figure to 50 to 60 per cent."

NEW 'U' CENTER TO FOCUS  
ON RESEARCH, DEVELOPMENT  
IN EDUCATION OF HANDICAPPED

(FOR IMMEDIATE RELEASE)

Improving education for thousands of handicapped children in Minnesota is the goal of a new center at the University of Minnesota.

"The primary purpose of the center is to conduct programmatic research aimed at the improvement of educational programs for children handicapped by physical, social, intellectual or emotional disabilities," said director Bruce Balow.

Balow, a professor of special education, is directing the research of 10 University faculty members and 24 predoctoral and postdoctoral fellows. They are working with children from the paranatal period through adolescence in Minnesota public schools and state institutions.

Called the Research and Development Center in Education of the Handicapped, it is funded by grants totalling \$594,206 from the U.S. Office of Education and is located in the College of Education's special education department. The grants are for a five-year period, beginning in June, 1969, and may be extended beyond that time.

In order to achieve its goals the center is pursuing basic, developmental and applied research in three areas: (1) characteristics of handicapped children and their teachers, (2) characteristics of various treatments, as well as development of new techniques, and (3) educational "packages" intended to match students, teachers and techniques for the best educational development.

A complementary objective of the center is the training of personnel in the education of handicapped children through the program of predoctoral and postdoctoral fellowships.

#

(MORE)

SUPPLEMENTARY INFORMATION

The staff of the center are listed below, with their areas of research:

Bruce Balow (Ph.D., 1958, Minnesota) -- biosocial characteristics; emotionally and socially maladjusted; reading disability.

Robert Bruininks (Ph.D., 1968, Peabody) -- mental retardation; reading; language.

David Feldman (Ph.D., 1969, Stanford) -- cognitive development; biosocial characteristics; individual differences.

Richard Martin (Ph.D., 1963, Minnesota) -- stuttering; role of punishment in learning; behavior modification.

Rosalyn Rubin (Ph.D., 1961, Minnesota) -- individual differences; developmental problems in special education.

John Rynders (Ph.D., 1967, Wisconsin) -- mental retardation; infant stimulation; early education.

Gerald Siegel (Ph.D., 1957, Iowa) -- language development and retardation; experimental manipulation of fluency.

James Turnure (Ph.D., 1965, Yale) -- attention and perception; cognitive development; mental retardation.

Frank Wood (Ph.D., 1965, Minnesota) -- social interaction in the classroom; improvement of higher education.

U DENTAL ALUMNI  
NAME PROF OF YEAR

(FOR IMMEDIATE RELEASE)

The Century Club, an alumni organization of the University of Minnesota School of Dentistry, named a "Professor of the Year" recently at its third annual meeting in Minneapolis.

Some 350 members, who support educational activities of the school which cannot be funded by the state or by grants, also presented two honorary memberships.

Dr. Robert J. Isaacson, professor and chairman of orthodontics, was selected "Professor of the Year" for his many contributions to educational research. Honorary memberships went to Jay Phillips, a Minneapolis philanthropist, and University President Malcolm Moos.

Phillips helped to sponsor the establishment of a cleft palate program at the University four years ago. Currently enrolled are some 600 patients from 163 communities in nine states.

Moos was cited for his "helmsmanship, understanding and support of dentistry and other health sciences and for fostering excellence in the School of Dentistry in education, research and service. . . "

#

SUPPLEMENTARY INFORMATION

Dr. Isaacson, 37, heads the first combined D.D.S.-Ph.D.-degree program in the country and also directs two large interdisciplinary post-doctoral clinical research training grants for the Dental School.

Additionally, the University of Minnesota graduate has served on many National Institute of Dental Research committees and continues to be a consultant in orthodontics to the Council on Dental Education of the American Dental Association.

'OF MEDIA' COMPETITION  
OPEN THROUGH DEC. 31

All post-high-school students in Minnesota have been invited to participate in the "Of Media" competition to be held at the University of Minnesota Jan. 7 through 17.

The deadline for entries is Wednesday, Dec. 31.

The categories of competition are art (works ready for hanging or sturdy sculpture), crafts (jewelry, ceramics, textiles), film (black and white or color), literature (prose, poetry, drama -- typewritten), music (pop, folk or classical -- original compositions), photography (mounted on matte board or slides), and theatre (actual presentation of a one-act play, original or established).

Awards ranging from \$25 to \$130 will be presented to individuals in each category. A total of \$3,000 will be awarded.

Applications for the competition can be obtained by writing to 229 Coffman Union, University of Minnesota, Minneapolis, Minn. 55455.

ANTI-MILITARY BALL  
TO BE HELD AT 'U'

The First Annual Spiro T. Agnew Memorial Anti-Military Ball will be held at the University of Minnesota Saturday (Dec. 13).

Beginning at 8 p.m. in Coffman Union, the ball culminates Honeywell Days (Dec. 12 and 13), calling public attention to corporate-military power in the United States. The ball is being sponsored by the Honeywell Project, a group working to induce Honeywell Inc. to stop production of anti-personnel fragmentation bombs and other weapons, the Minnesota New Mobilization Committee to end the war in Vietnam and the Union Board of Governors at the University.

The groups involved have planned anti-military skits and invite the public to attend in costume. A 50-cent donation, to cover the cost of the dance, can be paid at the door.

INDIAN ANTHROPOLOGIST  
NAMED TO 'U' FACULTY

(FOR RELEASE AT 10 A.M. FRIDAY, DEC. 12, 1969)

Edward P. Dozier, an anthropologist who has earned an international reputation for research in the Philippines and among American Indians, has been named a professor of American Indian studies and anthropology at the University of Minnesota.

He was appointed today by the University Regents and will begin his duties at the University in September, 1970.

Final arrangements are being made to appoint Dozier as chairman of the University's new department of American Indian studies, said Professor Frank Miller, chairman of the American Indian studies advisory committee.

"The appointment of Dr. Dozier will be the major impetus for the development of the new department of American Indian studies and will further strengthen the strong focus within the anthropology department on the cultures of the Pacific area," said Dean E.W. Ziebarth of the College of Liberal Arts. "His appointment should enable the University to attract other outstanding scholars in the field of American Indian studies."

Dozier, 53, a Tewa Indian, was born and grew up in Santa Clara Pueblo, New Mexico. He received his doctor of philosophy from the University of California in Los Angeles in 1952 and has taught for a total of 16 years at the University of Oregon, Northwestern University and the University of Arizona where he is now professor of anthropology and linguistics. He is currently doing a study of American Indians in urban centers in the United States at the Center for Advanced Studies in the Behavioral Sciences in Stanford, Calif.

He is the author of three books -- "Mountain Arbiters: The Changing Life of a Philippine Hill People," "Hano-A Tewa Indian Community in Arizona," and "The Kalingas of Northern Luzon." His fourth book, "The Rio Grande Pueblos" will be published by Holt, Rhinehart and Winston in 1970.

CANCER SOCIETY  
NAMES RESEARCH  
PROF AT U OF M

NEWSMEN: For further information,  
contact: ROBERT LEE, 373-5830

(FOR RELEASE AT 10 A.M. FRIDAY, DEC. 12)

Dr. Osias Stutman, assistant professor of laboratory medicine at the University of Minnesota, has been named a research associate of the American Cancer Society.

Dr. Stutman, who is determining why certain strains of mice are resistant to cancer, will receive \$101,281 over five years from the cancer society, it was reported to the Board of Regents today.

His earlier work in the function of the thymus, a gland important to the body's natural defense system (immunology), led him to study the possible role of immunologic function in malignancy.

Dr. Stutman said he believes tumors may happen naturally all the time and are normally suppressed, but that the oncogenic (cancer-causing) agents also affect the body's immunologic response and permit the tumor to develop.

Using various tumor-causing agents (chemicals, viruses, radiation, and ultraviolet light) Dr. Stutman has found that mice strains vary from zero per cent to almost 100 per cent in cancer resistance.

Dr. Stutman's virus research has led him to believe a very basic (stem) cell is a target cell for leukemia development. He calls the evidence so far "circumstantial" but adds there is a great deal of it. "I deeply believe a defective immune response is very important in malignancies. But there are other important factors as well such as the target cells for a viral attack and how an animal metabolizes the oncogenic material."

#

SUPPLEMENTARY INFORMATION:

Dr. Stutman, an Argentine native, received his M.D. degree in 1957 from the Buenos Aires University School of Medicine. In 1966 he came to the University of Minnesota as a U.S. Public Health Service research fellow. In 1967 he received the Cecil J. Watson Award from the Minneapolis Society of Internal Medicine for his work on carcinogen induced tumors of the thymus. Society memberships include Tissue Culture Association, American Society for Experimental Pathology, American Association of Immunologists, and the Central Society for Clinical Research.

'U' DENTAL SCHOOL  
TO GET NEW PEDIATRIC  
DENTISTRY CHAIRMAN

NEWSMEN: For further information,  
contact: ROBERT LEE, 373-5830

(FOR RELEASE AT 10 A.M. FRIDAY, DEC. 12)

Dr. Michael Till, assistant professor of pedodontics at the University of Pittsburgh, was named associate professor and chairman of pediatric dentistry at the University of Minnesota today (Dec. 12) by the University's Board of Regents.

Dr. Till, who will soon receive a Ph.D. degree in educational administration and research, will direct an undergraduate program in a 14-chair clinic in the School of Dentistry and a graduate program in University Hospitals.

His students also are participating in community programs at Cambridge State Hospital and the Community University Health Care Center.

#

SUPPLEMENTARY INFORMATION

Dr. Till received his D.D.S. degree (1961) and M.S. degree (1963) from the University of Iowa. In 1963 he was the staff pedodontist at the Eastman Institute, Stockholm, Sweden, and in 1964 he was named chairman of pedodontics at the Royal Dental College, Aarhus, Denmark. In 1966 he joined the University of Pittsburgh faculty. He is also a pedodontic consultant for the Arabia-American Oil Co. in Dhahram, Saudi Arabia, and Operation Crossroads Africa in Dahomey, West Africa.

Dr. Till will succeed Dr. Louise Messer, assistant professor of dentistry, who was acting chairman of the division. Dr. Messer, who received her dental training at the University of Melbourne, Australia, will remain on the faculty.

'U' DENTAL SCHOOL  
GETS NEW DEAN FOR  
ACADEMIC AFFAIRS

(FOR RELEASE AT 10 A.M. FRIDAY, DEC. 12, 1969)

An assistant dean for academic affairs in the School of Dentistry was appointed today by the University of Minnesota Board of Regents.

Dr. James R. Jensen, professor and chairman of the division of operative dentistry and endodontics, will be responsible for curriculum development in his new post. His appointment is effective immediately.

Citing the shortage of dentists in the Upper Midwest, Dr. Jensen explained that his office would also be examining expanded duties for dental assistants and dental hygienists, as well as planning new teaching methods and uses for the new dental school facility which is scheduled for construction in 1970-71.

#

SUPPLEMENTARY INFORMATION

Dr. Jensen, 47, received both his D.D.S. and M.S. degrees from the University of Minnesota. He is a Fellow of the American College of Dentists and a Diplomate of the American Board of Endodontics. Dr. Jensen recently returned from a month's work at the University of Saigon Dental School where he helped to establish curriculum guidelines.

UM NAMES NEW  
HORTICULTURAL  
SCIENCE HEAD

(FOR RELEASE AT 10 A. M. FRIDAY, DEC. 12)

Andrew A. Duncan, horticultural professor at Oregon State University in Corvallis, today was named head of the department of horticultural science at the University of Minnesota by the Board of Regents.

Duncan will begin his duties here in March, succeeding Leon C. Snyder, who was named director of the University's Landscape Arboretum in July. Snyder has served as department head since 1953.

During the past 10 years as extension specialist in vegetable crops at Oregon State, Duncan has directed educational programs aimed at helping farmers adopt optimized cropping systems for vegetables.

#

SUPPLEMENTARY INFORMATION

Duncan, a native of Scotland, studied at the University of Maryland where he received his B.S. degree with first honors in 1950, his M.S. degree in 1952, and his Ph.D. degree in 1956. His major area of specialization was vegetable crops production, with secondary interests in plant physiology, genetics and statistics.

He was extension specialist in vegetable crops at the University of Maryland from 1952-1958.

He is the author of over 100 publications, has served on a number of state, local and national committees, and is a member of horticultural societies.

He is married and has four children.

DON STEVENS NAMED TO HEAD 'U'  
OEO LABOR LEADERSHIP PROJECT

(FOR RELEASE AT 10 A.M. FRIDAY, DEC. 12)

Don Stevens, education director for the Michigan AFL-CIO and chairman of the Michigan State University Board of Trustees, has been named to direct the Midwest Labor Leadership Project at the University of Minnesota.

Stevens' appointment, effective immediately, was approved today by the Minnesota Board of Regents.

Planned to train 110 active union members from four states for effective participation in local poverty programs, the one-year project is funded by a grant from the Office of Economic Opportunity to the University's Labor Education Service (LES), headed by Professor John Flagler.

The LES is part of the University's Industrial Relations Center and General Extension Division.

Cooperating with the LES in sponsoring the project are labor education programs at the Universities of Wisconsin and Indiana, the national AFL-CIO, and the state federations of labor in Minnesota, Indiana, Wisconsin and North Dakota.

Stevens was asked to direct the project because of his "many years of experience as education director for one of the outstanding state federations of labor and his vast experience in urban and community affairs," according to Emil Starr, director of urban affairs for the LES. The project will function through Starr's office.

Though his family is in Michigan, where he will maintain residency, Stevens is now living in the Twin Cities. He is taking a one-year leave of absence from his AFL-CIO position and continues to serve as chairman of the Michigan State Board of Trustees.

#  
(MORE)

SUPPLEMENTARY INFORMATION

Field representatives have been named by state AFL-CIO presidents to work directly under Stevens in each state. They are:

Len Kieffer, vice president of Local 1644 Carpenters Union in Minneapolis, for Minnesota and North Dakota.

Nellie Wilson, a member of Local Federal Labor Union in Milwaukee, for Wisconsin.  
John Norris, former director of the Indiana AFL-CIO, for Indiana.

The field representatives are now recruiting 110 trainees, to be selected from the states proportionate to population and concentration of industry and labor. Stevens lists the approximate breakdown by state as 45 from Indiana, 35 from Wisconsin, 25 from Minnesota and 5 from North Dakota.

Training for the 110 union members chosen will begin in February with a week-long seminar, with all of them attending together. Three three-day seminars will be held in each state (with Minnesota and North Dakota together) for its own trainees through the spring and summer, and a final week-long seminar, again with all 110 attending, will be held in October.

Each of the 110 trainees is expected, during the course of the project, to involve 10 other union members in participation in poverty projects, bringing to 1,100 the total number of persons affected by the program.

'U' PERSONNEL INSTRUCTED  
IN HOLDUP PROCEDURES

(FOR IMMEDIATE RELEASE)

University of Minnesota personnel who handle money are being trained in procedures to follow in event of a holdup.

Fifty departments are sending more than 200 staff members to one of three training sessions this week where they will see weapons and films of holdups and will be instructed in procedures to follow if they see a person acting in a suspicious manner, if they are actually held up, and after a holdup occurs.

The department of University police is conducting the two-hour sessions with aid from the Federal Bureau of Investigation.

Two actual holdups have occurred on the campus this fall, according to Lt. A. G. Kirby of the University police. He also commented that the period from Nov. 15 to Jan. 15 is the most popular time of year for holdups, both locally and nationally.

MESABI TIRE CO.  
OFFERS SCHOLARSHIPS  
AT UNIVERSITY

(FOR IMMEDIATE RELEASE)

For the twelfth consecutive year, the Mesabi Tire Company of Hibbing is offering scholarships to University of Minnesota students.

The scholarships are given in the name of the company's customers as the company's Christmas gifts to them.

The scholarships, which are distributed through the University's Office of Student Financial Aid, are presented by Carl D'Aquila and Mario Casagrande, co-owners of the company, to students enrolled in the Institute of Technology. Preference is given to students from the Iron Range.

This year the Mesabi Tire Company is sending its customers Christmas cards with a note from William L. Nunn, director of the University's Special Projects Program, stating "...this fine gift, which marks the twelfth year of a wonderful tradition, is your Christmas gift --- an investment in the future of the fine, young people who will benefit from the scholarships."

'U' REGENTS' COMMITTEE DISCUSSES  
STATEWIDE HIGHER EDUCATION NEEDS

(FOR RELEASE AT 4 P.M. FRIDAY, DECEMBER 12)

Almost 80,000 more students will probably be going to college in Minnesota in 1980 than there is currently room for.

The great bulk of these will be from the Twin Cities area, and would prefer to stay in the metropolitan area to go to college. Most of them will be in one of the state's three public systems of higher education: a state junior college, a state college, or the University of Minnesota.

Almost 40,000 of these additional students will be in the first two years of college (lower division); 20,000 in the last two years (upper division); and 20,000 in post-baccalaureate work (graduate study or a professional school).

One fairly obvious conclusion from such data is that Minnesota must expand its public college facilities in Minneapolis and St. Paul in a big way in the coming decade.

Those data were among a wealth of facts, figures, projections and predictions contained in a report given today (Dec. 12) to the educational policies committee of the University's Board of Regents.

The report is a preliminary, discussion draft. Thus it does not represent a University policy or decision but is simply a factual starting point from which University administrators, faculty, students and Regents can draw conclusions and develop recommendations.

The 76-page report (with another 70 pages of appendices) also will be used in discussions between the University and such bodies as the State College Board, the State Junior College Board, and the Higher Education Coordinating Commission (HECC).

(MORE)

The 1969 State Legislature asked HECC to look into the higher-education needs of the whole state. In order that HECC can take into consideration the University's viewpoint, several Regents asked that President Malcolm Moos name a task force to gather data. From this preliminary report, the Regents will determine University polity --- possibly making recommendations in two or three months.

Titled "Availability of Educational Opportunity: An Analysis of Higher Education Needs in Minnesota, 1970-1980," the report was drawn up by a four-man task force headed by Stanley B. Kegler, assistant vice president for coordinate campuses and educational relationships.

Although final recommendations are not made, the report through its massive data leads to some inevitable conclusions on specific matters.

In one lengthy section, for example, the idea of an upper-division college (third and fourth years plus potential graduate programs) is examined minutely --- its philosophy, examples of such institutions elsewhere in the country, and application of the possibility to various areas of Minnesota. The upper-division college has been suggested in recent years as a place for junior college graduates to continue their education into the third and fourth years.

All the data point to negative conclusions, and the authors state that if there is any other feasible way to provide for the needed upper-division education, "there seems little reason to create an upper division college."

Another long section deals with "Needs of the Rochester Area" and concludes: "The need for some kind of college to be established in Rochester is clear." While such a recommendation has been repeated by various study committees in recent years, ---most recently last spring in a "U of M Report to HECC on Educational Needs of the Rochester Area"---the task force examined new data on enrollment, migration patterns of students, and population projections.

"More recent data make the establishment of a new institution seem even more urgent," the authors state.

(MORE)

Enrollments in the various college systems, and where the students come from, are examined in detail and clearly show several trends.

One is that the development of the State Junior College System between 1960 and 1968 has had at least one unexpected effect. While junior-college enrollment has increased by 345 per cent in that period, and five new metropolitan junior colleges have allowed many more Twin Cities-area students to go to school in that region, the task force concludes that "Growth in junior college enrollments may be placing about as much demand on baccalaureate (four-year) colleges in Minnesota as they are reducing demand, in terms of total numbers of students."

Between 1968 and 1969, enrollments in lower divisions in four-year colleges grew by 3.6 per cent but in upper divisions by 7.1 per cent. Thus the junior college system has not really reduced the demand for lower-division work in either the state college system or the University of Minnesota; it has merely slowed down the rate of growth of this demand, while greatly increasing the demand---both numerically and proportionally---for upper-division spaces in those two systems. (Effects on the private colleges have remained relatively constant.)

Migration patterns show that the vast majority of Minnesota students attend college near home, when one is available. The five metropolitan-area junior colleges illustrate this dramatically. Before their development, in 1960, 1,666 students from the Twin Cities area attended a junior college somewhere else. In 1968, 7,180 Twin Cities students attended metropolitan junior colleges, and only 96 went to one elsewhere.

Despite this, the number of students leaving the metropolitan area to go to college elsewhere in the state has increased substantially since 1960, both in real numbers and in proportion of total undergraduates. In 1960, 85 per cent of all Twin Cities-area undergraduates attended college in the seven-county metropolitan area. In 1968 this was down to 75 per cent. Figures for new freshmen alone show that this trend is continuing today. And fully half of these undergraduates are attending the closest state colleges: Mankato and St. Cloud.

(MORE)

The implications of these data lead the task force to a summary of alternatives for higher education in the metropolitan area which includes:

- \* additional lower-division college space in St. Paul as well as in existing and perhaps new metropolitan junior colleges;
- \* additional upper-division college space for metropolitan-area students, both at the University and through expansion of state college facilities, perhaps in a new metropolitan state college;
- \* additional graduate-school and professional-education space at the University as well as additional graduate capacity in the state college system;
- \* "additional higher education opportunity in the center cities of the metropolitan area to serve the needs of economically and educationally disadvantaged young people who do not have the means to travel...even to campuses as far away as the suburbs;"
- \* "the creation of upper division college opportunity of new kinds to serve the manpower needs of the metropolitan area for paraprofessional employees and to serve the needs of students whose backgrounds, interests and abilities do not coincide with those of the conventional candidate for the baccalaureate degree."

In addition to sections on the needs of the metropolitan area and Rochester, the report briefly mentions the needs of the Iron Range, which has four junior colleges. The conclusion seems to be that the present and potential college population is too small to justify either an upper-division college or a new four-year institution, but that solutions might be found in the creation of special extension programs, use of educational television, and use of resources in the existing four-year colleges.

Implications of all the data for the University of Minnesota at Duluth and Morris will be the subject of another report, along with enrollments in the health sciences and allied fields.

**NEWSMEN:** It is imperative that the preliminary nature of this report be fully understood and emphasized in news reports. Any decision to establish a new college program in Rochester, the Twin Cities or elsewhere will be made by the State Legislature, acting upon recommendations from HECC.

'U' REGENTS' COMMITTEE RECEIVES REPORT SUPPORTING 4-YEAR ROCHESTER COLLEGE

(FOR RELEASE AT 4 P.M. FRIDAY, DEC. 12)

Establishment of a four- or five-year college in Rochester was given a boost today in a preliminary report submitted to a Regents' committee at the University of Minnesota.

The University task force which prepared the report emphasized that it is a "discussion draft," primarily a collection of facts, figures and projections, and does not represent any conclusions or recommendations on the part of the Regents. It was presented to the educational policies committee of the Board, which will study the data and come up with recommendations, possibly by February.

The Higher Education Coordinating Commission (HECC, a creation of the State Legislature) is currently compiling data on higher education needs in Minnesota. The recommendations of the University Regents, when they are formulated, will form a part of the HECC report to the 1971 State Legislature.

However, the task force report's detailed analyses of probable Minnesota college enrollments --- 80,000 new spaces needed by 1980 --- and of where the students will be located lead to the inescapable conclusion that a baccalaureate college (a four- or five-year institution that grants a bachelor's degree) is needed in Rochester. And the task force minces no words in agreeing with many earlier studies to the same effect.

"As the Task Force has been able to study data for 1968 and 1969, the earlier recommendations of various groups that a new college is needed have been corroborated and strongly reinforced. More recent data make the establishment of a new institution seem even more urgent," it states.

(MORE)

Further, the report emphasizes the benefits that would accrue if such a college were a campus of the University. These include the following factors:

"1. A University branch would make a complete variety of higher education opportunities available... (whereas) development of a state college would create a heavy concentration of similar schools in the south-central and southeast areas.

"2. University affiliation would contribute to a decentralization of University programs, making it possible for those programs to be more responsive to the needs of the non-metropolitan area.

"3. Establishment of a University branch would allow the present cooperative extension center to be more closely related to full-time, resident programs....

"4. Coordination of a four-year college with the Mayo Graduate School of Medicine could be enhanced and could afford new opportunities for the development of undergraduate health science and related programs.

"5. Community groups openly favor University affiliation and can be counted upon for the kinds of support a new institution would require."

The task force emphasized that vocational-technical opportunities in Rochester will have to expand to meet enrollment demands. It was also stressed that the junior-college functions in Rochester---both vocational and transfer---must be maintained, regardless of the type of college established.

Cold water was thrown on the possibility of an upper-division college (the third and fourth years plus potential graduate programs), which has been suggested for Rochester. A thorough examination of such colleges throughout the country led the task force to negative conclusions about their feasibility.

The task force noted several types of course offerings and programs that would seem particularly well suited to the Rochester area, including pre-medicine, nursing, paramedical personnel, hotel management, applied sciences, business administration and hospital administration.

It pointed out, however, that all actual planning of programs would be left to groups representing such interests as the Rochester community, University faculty and Rochester-area faculty, and HECC.

The report submitted today to the Regents' committee is titled "Availability of Educational Opportunity: An Analysis of Higher Education Needs in Minnesota, 1970-1980." The task force that prepared it is headed by Stanley B. Kegler, assistant vice president for coordinate campuses and educational relationships.

'U' TO OFFER ART CLASSES  
FOR CHILDREN AGES 5 TO 8

(FOR IMMEDIATE RELEASE)

Children ages 5 to 8 are eligible for Saturday art classes to be offered at the University of Minnesota for 10 weeks beginning Jan. 10.

The classes, designed to provide opportunities for teachers and students to experiment with new art materials and methods, were previously offered for children ages 5 to 10. "Increased demand for classes for the younger children has resulted in a lowering of the age limit," said Mrs. Helen Dickison of the Institute of Child Development staff.

The classes will meet from 10 a.m. to 12:30 p.m. Saturdays at the Institute of Child Development on the Minneapolis campus.

Professor Clifton Gayne, chairman of the University's art education department, is supervisor of the program and classes are taught by graduate students in art education.

Registration materials and further information can be obtained by writing to Mrs. Dickison, Institute of Child Development, University of Minnesota, Minneapolis, Minn. 55455, or phoning 373-9851.

There is a \$10 fee for the series. Children who have not previously attended an art class at the institute will be enrolled first.

'U' LAW SENIOR NAMED  
SUPREME COURT CLERK

(FOR IMMEDIATE RELEASE)

Allan A. Ryan, a University of Minnesota Law School senior, has been appointed as a clerk in the office of U.S. Supreme Court Justice Warren Burger for one year beginning July 1, 1970.

"We consider this a singular honor for Mr. Ryan and for the Law School," said William B. Lockhart, dean of the Law School. "He is one of a select few from the University who have received this honor. It indicates that he has an outstanding academic record and an effective and scholarly personality."

Each year approximately 20 law school seniors from throughout the United States are selected to serve as clerks in the Supreme Court. Six of these are chosen to serve the chief justice.

Ryan, 24, was notified Thursday of his appointment. A 1966 graduate of Dartmouth College, he taught American government in a New Orleans, La. high school for one year before enrolling in the Law School, where he is president of the Minnesota Law Review this year. He is a reserve officer in the Marine Corps and will serve three years of active duty after completing his term with the Supreme Court.

Last summer Ryan was employed as a clerk with the Minneapolis law firm of Cant, Haverstock, Gray, Plant and Mooty.

DEATH OF THORNESS IS  
SERIOUS LOSS TO UNIVERSITY  
OF MINNESOTA PHYSICS DEPARTMENT

(FOR IMMEDIATE RELEASE)

Rudolph B. Thorness worked for the University of Minnesota for 40 years. During that time his genius at building scientific instrumentation was crucial to the physics department's rise to national prominence in such fields as space research, astronomy, and nuclear physics. His death on December 10, at age 60, was a serious loss to the University, according to his colleagues in the physics department.

"He had his hand in everything that was designed or built around here, and certainly contributed more to this department than almost any professor I can think of," Professor Edward Ney, one of the nation's top physicists, said of Mr. Thorness.

After graduating from high school in Duluth Mr. Thorness was largely self-taught, Ney said, "yet he was a 'professor' for every experimental Ph.D. physicist graduated from here over the years."

As Managing Research Engineer for the physics department, Mr. Thorness, working with Regents' Professor of Physics Alfred O.C. Nier, developed the apparatus used in World War II for analyzing uranium to determine the relative abundance of isotopes. Because of this, the University of Minnesota lab was the only one in the world at that time capable of doing such analysis. The first prototypes of analytical equipment used on the Manhattan Project, the so-called "atom-weighing instruments," mass spectrometers, were built by Mr. Thorness as well.

Mr. Thorness also built the first helium leak detector prototype at that time, the instruments of which commercial versions are now widely used by industry, particularly in the manufacture of vacuum vessels.

(MORE)

Working with Professor Ney, Mr. Thorness designed some of the automatic cameras used on the Mercury and Gemini space projects and the instruments for cosmic ray studies which were carried aloft over the North Pole by balloons. He also designed equipment for such physics department projects as those sponsored by the American Cancer Society.

According to Professor Nier, "Buddy Thorness was a genius at mechanical design and was a key person in our projects. We are now running on over \$4 million a year of outside-sponsored research money. This money is primarily for experimental programs. These programs are heavily dependent on what our shop can do in the way of equipment design. We'll feel Buddy's loss here very much because he knew how to do it."

###

SUPPLEMENTARY INFORMATION:

Some of the people working with Mr. Thorness during his career at the University, in addition to Ney and Nier, include Prof. John Bardeen, Nobel Prize winner now at the University of Illinois, joint inventor of the transistor; John Naugle, associate administrator for NASA; and Vice President William G. Shepherd of the University of Minnesota.

Mr. Thorness died of a heart attack in his sleep early on Dec. 10, 1969.

**HOEBEL NAMED TO ADVISORY BOARD  
OF U.S. ARMS CONTROL AGENCY**

Regents' Professor E. Adamson Hoebel, of the University of Minnesota anthropology department, has been named to the Social Science Advisory Board of the U.S. Arms Control and Disarmament Agency.

He will hold the title of social science officer and consultant to the Disarmament Agency in the Department of State, while continuing to teach at the University.

Making the announcement was Girard Smith, agency head and chief of the U.S. delegation to the Strategic Arms Limitation Treaty (SALT) negotiations in Helsinki, Finland. The board encourages and guides research programs and plans for arms control and disarmament.

\* \* \* \*

**SMITH NAMED MANAGER  
OF PRODUCTION SERVICES**

James C. Smith has been named manager of production services in the Audiovisual Resources division of University Services at the University of Minnesota.

The department was recently reorganized and now provides "anything visual" for publication, classroom instruction or research at the University.

Smith has been on the University staff for almost six years. He was formerly a free-lance photographer in the Far East and before that directed the U.S. Army's photographic facilities in Okinawa.

Production Services includes art, microfilm, processing and photographic divisions. It produces still and motion pictures and provides art services.

'U' TO AWARD HONORARY DEGREE  
TO NOBEL-WINNING CHEMIST  
AT DECEMBER COMMENCEMENT

NEWMEN: For further information,  
contact: PAT JULIANI, 373-5193

(FOR IMMEDIATE RELEASE)

A Nobel Prize winner whose scientific explorations have ranged from the chemical aspects of memory to life on the stars will receive an honorary doctor of science degree from the University of Minnesota at its fall-quarter commencement Saturday (Dec. 20).

Professor of Chemistry Melvin Calvin, of the University of California at Berkeley, will be presented the degree by University President Malcolm Moos at ceremonies beginning at 7:30 p.m. in Northrop auditorium. A native of St. Paul, Calvin was awarded the Nobel Prize for Chemistry in 1961 for his work in photosynthesis.

Commencement speaker will be Robert John Donovan, Washington bureau chief for the Los Angeles Times. Donovan is the author of "PT 109: John F. Kennedy in World War II," "The Future of the Republican Party," published in 1964, and numerous other books and articles.

Among the 1,500 graduates will be 970 candidates for undergraduate degrees, 350 master's-degree candidates and 180 candidates for doctor of philosophy degrees.

Following the ceremony graduates and their guests are invited to the President's reception in Coffman Union main ballroom.

#

#### SUPPLEMENTARY INFORMATION

Calvin: received his bachelor and doctor of science degrees from Michigan College of Mining and Technology and a doctor of philosophy degree from the University of Minnesota in 1935. He is a pioneer in research in the use of radioactive carbon as a tracer in biochemical reactions.

The University has awarded 47 honorary degrees in its history to such people as Hubert Humphrey; Robert Gilruth, director of the manned spacecraft center at Houston; Edward Davis, developer of the taconite process; James Shannon and other internationally prominent figures. The last degree was awarded in 1967.

MOOS TELLS NEEDS OF THE 70's  
IN MINNESOTA HIGHER EDUCATION

by Mrs. Nancy Pirsig  
University News Service Director

In the last decade, said President Malcolm Moos of the University of Minnesota:

"Our state colleges have tripled their enrollment;

"The public junior colleges, by adding a number of institutions including five in the metro area, have increased their enrollment six-fold;

"The University of Minnesota system, starting from a much higher base, increased its enrollments by about two-thirds;

"The area vocational-technical schools enrolled six times as many students in 1969 as they did in 1960.....

"Stated otherwise, we have added the equivalent of a new St. Cloud State College each year over the last ten years."

Summing up some of the huge growth in higher education during the decade of the sixties, President Moos then went on to describe the coming problems for the seventies. He was addressing a Schoolmen's Day audience, principals, superintendents and other school officials who gather once a year in the Twin Cities.

"Taking a deep breath and looking at the seventies, one matter is certain: We need to find room over the next ten years for approximately 80,000 more students in collegiate programs....The junior college system very likely will double. (Undergraduate)enrollments in the state college system will also double and the graduate programs in the state colleges will probably need to be multiplied threefold...."

While the University of Minnesota will need to expand in all areas, the president said, "the most striking and difficult University problem" will be its ability to provide for doubled graduate and professional enrollments by 1980 --- "a phenomenal 14,000 additional students...."

(MORE)

Moos mentioned some of the top-priority areas for decisions to be made by the Higher Education Coordinating Commission, which plans statewide higher education for the State Legislature:

- \*\* the increased need for third and fourth-year education for students who complete junior college;
- \*\* the great need for a four or five-year college in the Rochester area, while continuing that region's junior-college functions and vocational-technical school;
- \*\* the problems of third and fourth-year college education in the Iron Range area, where great distances and relatively small population present difficulties; and
- \*\* the most troublesome problems of the Twin Cities area, where a vast majority of the new students of the seventies will be located and where no four-year public institution exists except the University.

In making these decisions, Moos said, "We must take into account not only the individual aspirations of our young people but the manpower needs of the state as well....We must ask loudly and clearly if decentralizing---creating some institutions in non-metro areas of the state---is not a more useful vehicle for meeting regional manpower needs."

To support this idea he mentioned the close relationship between where students complete their education and where they establish their careers.

Moos referred to the close of the sixties as a "watershed time in education" comparable to the turn of the century when the state committed itself to elementary and high school education for everyone.

Now, he said, the nation and the state have made "a commitment to the principle of some kind of post-secondary education for nearly everyone." By 1985, he said, "we must be educating 85 per cent of our high school graduates in some form or another."

-UNS-

Readers: Copies of President Moos's speech can be obtained by writing to the University News Service, 20 Johnston Hall, U of M, Minneapolis, Minn. 55455.

NEWSMEN: Bill Martin, public relations director for the YSA, will maintain an office for news media in 131 Coffman Union and will arrange interviews with convention participants as desired. Background materials on different questions under discussion at the convention are available this week at local YSA headquarters, 1 University Ave. NE., second floor.

A pre-convention news conference, to be held on Friday (Dec. 26), will be announced later. Leading participants will be introduced at that time.

The Dobbs speech on Saturday and the four workshops on Sunday are currently planned to be open to the news media. The question of opening other sessions to newsmen will be decided at the first session Saturday.

or Bill Martin, 332-7781

(FOR IMMEDIATE RELEASE)

Farrell Dobbs, chairman of the Socialist Workers' Party and leader of the 1934 Teamsters' strike in Minneapolis, will deliver the keynote speech of the 1969 national convention of the Young Socialist Alliance (YSA).

He will speak after dinner on Saturday (Dec. 27), at approximately 8:30 p.m., in Coffman Union main ballroom.

The YSA's ninth annual national convention is being called "the largest socialist youth convention since prior to World War II" by Bill Martin, YSA public relations director. It will run Saturday through Tuesday (Dec. 27-30) in Coffman Union at the University of Minnesota.

Some 1,000 young people from throughout the United States and abroad are expected to attend to discuss and draw up plans for a broad range of actions for the coming year.

(MORE)

The group will discuss setting up a national chain of "Action Committees" at both colleges and high schools to initiate and support action for "liberation movements such as the black and third-world movement, the women's liberation movement and others," according to Martin.

Youth movements around the globe will be the subject of reports and out of the ensuing discussion "will develop a deeper understanding of the revolutionary youth movements abroad," Martin said today.

A national drive to back candidates in the 1970 elections will be discussed, with YSA both to run candidates and to supply campaign workers supporting Socialist Workers Party candidates.

"Campaigns will be launched against Senators Kennedy and Goodell and Governors Reagan and Rockefeller," Martin said, "and we plan to discuss launching legal battles against restrictive election laws."

"What also makes this convention important," Martin added, "is that it is the largest gathering of avowed socialist youth since prior to World War II and --- because of these young people's leadership role on a national level in mass popular movements --- it will without a doubt be a major factor in the events of the next year."

#

#### SUPPLEMENTARY INFORMATION

Convention Schedule will include the following:

##### Saturday, Dec. 27

- 10 a.m.: Opening session.
- 10:30 a.m.: Report on "The Worldwide Youth Radicalization and the Tasks of the Fourth International" given by Carolyn Lund, YSA executive committee member who has spent the last two years in Europe.
- 3:30 p.m.: Report on "The Deepening Radicalization: Revolutionary Perspectives for the 1970's" given by Larry Seigle, national YSA chairman.
- 7 p.m.: Dinner (main ballroom)
- 8:30 p.m.: Farrell Dobbs gives keynote speech (main ballroom).  
(Open to press.)

##### Sunday, Dec. 28

- 10:30 a.m.: Report on "The New Stage in the Antiwar Movement: A Strategy for Young Socialists" given by Susan LaMont, YSA executive committee member.

(MORE)

- 4 p.m.: Report on "Strategy and Tactics in the Struggle for Black Self-Determination" given by Tony Thomas, YSA executive committee member.
- 9 p.m.: Workshops on (1) the antiwar movement, (2) socialist electoral action, (3) black and other third-world struggles, and (4) the international revolutionary movement.  
(Open to press)

Monday, Dec. 29

- 10:30 a.m.: Workshops on "The Militant" (a weekly newspaper), (2) women's liberation, (3) the high-school movement.
- 2:30 p.m.: Organizational and "Young Socialist" report given by Nelson Blackstock, YSA organizational secretary and editor of "Young Socialist," a monthly magazine.

Tuesday, Dec. 30

- 2:30 p.m.: Credentials report (Constitution Commission report)
- 3:15 p.m.: Election of National Committee
- 4:15 p.m.: National Committee Plenum

In attendance at the convention and of possible interest to news media, in addition to the persons named above as giving reports, will be the following:  
Carol Lipman, chairman of the National Student Mobilization Committee.

- Andrew Pulley and Joseph Cole of the Ft. Jackson (S.C.) Eight, "a group of GI's who sued the government and the army to secure the rights of free speech and free assembly on the base in order to protest the Vietnam war," according to Martin, who says the suit is in a Virginia federal district court.
- Pvt. Joe Miles (probable), founder of GI's United, opposing the Vietnam war, now stationed in Alaska.
- International student leaders from Japan, the Middle East, England, France, Germany, Italy and Canada.
- Candidates, both YSA and Socialist Workers Party, in 1970 elections for the U.S. Senate and House of Representatives and for state governorships.

The Young Socialist Alliance, founded in 1957, according to Martin:

- \* "is the leader of the growing left wing of the American student movement;
- \* "has local affiliates in 40 states including such diverse ones as Alaska, Alabama, Maine, Texas and Florida;
- \* "has organized chapters on every major college and university campus in the United States as well as on high school campuses in every major city;
- \* "is the most active participant in both the leadership and the rank-and-file of the student antiwar movement;
- \* "is financially and politically independent of the Socialist Workers Party although some of the membership overlaps;
- \* "is currently in basic agreement with the Socialist Workers Party on concrete issues;
- \* "has an age cutoff of 27;
- \* "is paying for its use of facilities at the University of Minnesota."

HUMPHREY CONFRONTATION  
TO BE SHOWN ON CHANNEL 2

(FOR IMMEDIATE RELEASE)

A confrontation between former Vice President Hubert Humphrey and local radicals will be shown in color on KTCA-TV, Channel 2, at 6 p.m. Wednesday (Dec. 24).

The question, "Is Congress and society responsive to the needs of the poor and the black?", was discussed last spring following a seminar at the University of Minnesota. The confrontation was taped in a local television studio. David Broder of the Washington Post is the moderator.

Members of the panel, in addition to Humphrey, were former Senator Thomas Kuechel of California; Eugene Eidenberg, associate professor of political science at the University of Minnesota; and political scientists Nelson Polsby and Richard Fenno.

Participants from the audience included Evan Stark, Rebecca Finch, Edward Pillow and Lee Zeldin.

The program is distributed by the National Educational Television Network and is being released for the first time Wednesday. It is a presentation of the University of Minnesota Social Science Program produced by Hyman Berman, director of the social science program, and John Stewart, executive director of the Democratic Policy Council and former legislative assistant to Humphrey.

3 FILMS TO BE SHOWN SUNDAY  
AT NATURAL HISTORY MUSEUM

Abstract forms, soil and the cougar are the subjects of three films scheduled to be shown Sunday (Dec. 28) in the Bell Museum of Natural History at the University of Minnesota.

The free public program will be presented at 2:30 p.m. and again at 3:30 p.m. in the museum auditorium.

"Birth of the Soil" illustrates man's dependence on a few inches of topsoil; "The Cougar" shows the animal in its hunting habits, its natural environment and in relation to other members of the cat family; "Notes on a Triangle" is a ballet of familiar abstract forms.

FRASER TO OPEN 'U' SERIES;  
REGISTRATION NOW ON

(FOR RELEASE ON OR AFTER DECEMBER 26)

Congressman Donald Fraser will open a series of dinner-discussion meetings at the University of Minnesota Jan. 8.

Patterned after the semi-annual men's seminars offered by the General Extension Division, this series is co-sponsored by the GED's department of continuing education for women.

"Influencing Public Policy" is the general topic of the series.

At the first of four informal dinner and discussion meetings, Congressman Fraser will speak on "Forming Policy at the National Level."

Other speakers and topics will be:

Jan. 22 -- "The Role of Expert Advisors," Professor John Brandl, chairman of the School of Public Affairs.

Feb. 5 -- "Decision-Making in the Metropolitan Area," Eugene Eidenberg, associate professor of political science.

Feb. 19 -- "Is There a Power Structure?" Professor Samuel Krislov, chairman of the political science department.

All the meetings begin at 5:45 p.m. in the Campus Club in Coffman Union. Cost for the series is \$25 per person, or \$35 a couple (dinner is extra). Registration information is available from the department of evening and special classes, 57 Nicholson hall, telephone 373-3195.

HUMPHREY TV PROGRAM RESCHEDULED  
(FOR IMMEDIATE RELEASE)

The confrontation between former vice president Hubert Humphrey and several Minneapolis radicals that was originally scheduled to be telecast on Christmas Eve has been rescheduled for showing on KTCA-TV, Channel 2, at 7 p.m. Friday, Jan. 2.

The question, "Is Congress and society responsive to the needs of the poor and the black?" was discussed last May following a seminar on the subject "Is Congress Obsolete ?" at the University of Minnesota.

David Broder of the Washington Post moderated the discussion. Participants included former Senator Thomas Kuechel of California and citizens such as Evan Stark, Rebecca Finch, Edward Pillow and Lee Zeldin.

The program is being released today by National Educational Television for distribution throughout the United States.

NATURE SLIDES  
DONATED TO  
BELL MUSEUM

(FOR IMMEDIATE RELEASE)

A photographer's lifetime collection of nature slides, including  
photos of practically every wild plant in Minnesota, has been donated  
to the Bell Museum of Natural History at the University of Minnesota.

The slides were donated by the photographer's widow, Mrs.  
Howard Bahnemann, 1039 Winslow st., West St. Paul. More than 3,000  
slides, entirely catalogued for easy identification, are in the  
collection. They will be kept in a special cabinet at the museum.

**MEYER RECEIVES AWARD  
IN DISTRIBUTIVE EDUCATION**

Warren G. Meyer, professor of distributive education at the University of Minnesota, received the 1969 Award from the Council for Distributive Teacher Education at the group's recent annual meeting in Boston, Mass.

Meyer was honored for his "contributions to teacher education, research, writing and personal dedication to the improvement of education for marketing, management and merchandising."

Meyer has been a member of the University faculty since 1946. He developed one of the first complete programs of distributive teacher education in the nation.

**'U' FACULTY MEMBER NAMED  
TO INTERNATIONAL COMMITTEE**

Professor Gordon Swanson, University of Minnesota coordinator in international education, has been named to an international committee on agricultural education.

Swanson is one of two North Americans appointed to serve on the Advisory Committee on Agricultural Education, Science and Training, a cooperative effort of the United Nations Educational, Scientific and Cultural Organization (UNESCO), the Food and Agriculture Organization (FAO), and the International Labor Organization (ILO). He was appointed by A.A. Buzzati-Traverso, assistant director-general for science of UNESCO.

The purpose of the committee is to "advise the directors-general of the three organizations on the planning and execution of programs of agricultural education, science and training as well as rural employment." Swanson attended a recent meeting of the group in Paris, France.

'OF MEDIA' ARTS FESTIVAL  
TO OPEN AT 'U' JAN. 7

(FOR IMMEDIATE RELEASE)

"OF MEDIA," a statewide arts festival including some 80 different events, will be held Wednesday, Jan. 7, through Saturday, Jan. 17, at the University of Minnesota.

Performances by professional and amateur artists, workshops, and competition in the fields of painting, sculpture, films, crafts, literature, music, photography and theatre will be included in the festival sponsored by the Coffman Union Board of Governors.

This year for the first time the arts festival will be extended beyond the limits of the Twin Cities campus. Northern States Power Company in downtown Minneapolis will host the University of Minnesota Print Show Wednesday through Friday, Jan. 7-9, and will provide its auditorium for film showings at 12:30 p.m. Jan. 13 and 16.

Among the artists who will be presenting public performances on the campus are pianist Richard Zgodava (Jan. 7, 8:30 p.m., Coffman Union terrace room); the Bach Society of Minneapolis (Jan. 12, 8:30 p.m., 10 Blethen hall, West Bank); Minnesota Dance Company (Jan. 13, 12:30 and 1:30 p.m., Coffman Union main ballroom); Minnesota Theatre Company actor Charles Keating (Jan. 14, 8 p.m., Coffman Union "The Whole" coffeehouse); Macalester College Faculty Trio (Jan. 14, 8:30 p.m., Coffman Union terrace room); pianist Mary Kay Belanger (Jan. 15, 3:15 p.m., Coffman Union gallery), and soprano Sarita Roche (Jan. 15, 8:30 p.m., Coffman Union terrace room).

Regents' Professor of Humanities John Berryman, winner of the Pulitzer Prize and National Book Award, will read his own poetry at 2:15 p.m. Friday, Jan. 16, in Coffman Union main ballroom. There will be a poetry rap session with poet Robert Shaw at 11:15 a.m. Jan. 16 in Coffman Union terrace room.

Some 650 prints from the University's studio arts department will be on sale from 10 a.m. to 4 p.m. Jan. 13 and 14 in the Coffman Union main lounge. Selections from this sale will be exhibited at Northern States Power Company Jan. 7-9.

Gary Lee Nova and Box Ratzenberg, Vancouver, Canada, multimedia artists, will be special guests at the festival the first week. Colin Higgins, Los Angeles filmmaker, will be a special guest the second week.

SHAKESPEARE COURSE  
ON KUOM TO FEATURE  
PERFORMANCES OF PLAYS

(FOR IMMEDIATE RELEASE)

An award-winning University of Minnesota English teacher in her classroom, combined with recordings of plays read by top actors, will be offered as an unusual Advanced Shakespeare course over KUOM radio this winter.

For the first time in KUOM's history, the course is being offered for credit to anyone who wishes to take it.

The plays will be aired beginning Saturday (Jan. 3) with "Measure for Measure," starring Sir John Gielgud, Margaret Leighton and Sir Ralph Richardson, at 2 p.m.

Others will be heard at 11:15 a.m. weekdays. For the next two weeks they will run Monday through Friday. "Macbeth" with Alec Guiness and Pamela Brown will run Jan. 5-9; "Cymbeline," with Claire Bloom and Boris Karloff, Jan. 12-16.

The course itself will be heard from 11:15 a.m. to noon beginning Jan. 19. At that time it will alternate with recordings of the works being studied. Lecture-discussions will be on Mondays, Wednesdays and Fridays, the plays on Tuesdays and Thursdays.

The course, taped in the classroom, will be taught by Associate Professor Toni McNaron who has received the Teacher of the Year award from the College of Liberal Arts and the Horace B. Morse Award for Effective Teaching (which includes \$1,000 from the Standard Oil Foundation).

#

SUPPLEMENTARY INFORMATION

Miss McNaron suggests that the first three plays be read as background, before her lectures begin. The other plays, to be intensively discussed during the course, will be "Othello," "Coriolanus," "The Winter's Tale," and "The Tempest," plus various sonnets. All are available in paperback editions.

The 3-credit course is the regular English 135 and is being offered through the General Extension Division's department of independent study. Listeners may obtain a course outline from KUOM, Eddy Hall, University of Minnesota, Minneapolis, Minn. 55455, as well as a bibliography of readings and registration instructions.

Broadcasts will run from Saturday (Jan. 3) through approximately March 20. KUOM, at 770 kc (AM) is the University of Minnesota radio station, operated by the General Extension Division.

SMALL LANDSCAPE CLASS  
FOR HOME GARDENERS  
SET IN MINNEAPOLIS

(FOR IMMEDIATE RELEASE)

Home gardeners who would like to give their house a professionally landscaped appearance may find just what they're looking for in a small, daytime class to be held Wednesday mornings this winter in downtown Minneapolis.

Titled "Landscape Gardening," the class will consist of seven sessions with Robert A. Phillips, professor of horticultural science at the University of Minnesota and garden columnist for the St. Paul Sunday paper.

The class will be limited to 20 persons, who will prepare their own private projects. A group discussion of these projects will be the primary subject of three of the seven sessions.

The other four classes will include illustrated discussions of the landscape and its relationship to other factors such as the architecture of the house and its interior design; a site analysis: how to draw plans; and principles of planting composition.

Class will be held from 9:30 a.m. to noon, Jan. 7 through Feb. 18, at the MacPhail Center annex, 1128 LaSalle ave., Minneapolis. Tuition is \$25.

For further information, contact the department of continuing education for women (a part of the University's General Extension Division) at 315 Nolte Center, U of M, Minneapolis 55455; phone 373-9743.

'U' COMMUNITY SEMINARS  
TO BEGIN JAN. 20 AND 21

(FOR IMMEDIATE RELEASE)

Benjamin Franklin, Henry David Thoreau, Allen Ginsberg, Abe Fortas and Malcolm X are among the authors to be discussed in one of several University of Minnesota community seminars beginning Jan. 20 and 21.

Community seminars are informal lectures and group discussions, with faculty members acting mainly as resource people. They are held at churches, schools and other community centers around the Twin Cities.

"The Search for Morality in American Thought and Culture" is the seminar with the reading list including Thoreau, Ginsberg etc. The seminar will meet from 7:30 to 9:30 p.m. Tuesdays, Jan. 20 through March 17, at the Minnesota Council of Churches building, 122 W. Franklin ave.

Other winter seminars will be in modern drama, twentieth-century systems of thought, parent-child relationships, urban society and American foreign policy. They will meet in St. Louis Park, Golden Valley and St. Paul beginning Jan. 20 and 21.

Information on all the seminars, or on arranging a seminar by special request, is available from the General Extension Division's department of evening and special classes in 57 Nicholson hall, telephone 373-3195. Tuition is \$25 for each seminar.

#

SUPPLEMENTARY INFORMATION

Locations for the winter seminars are:

- "Primary Ideas of the Twentieth Century"--Tuesday afternoons, Jan. 20-March 17, at the Golden Valley Public Safety Building, 7800 Golden Valley Rd.
- "Modern Drama"--Tuesday evenings, Jan. 20-March 17, at the St. Louis Park Public Library, 3240 Louisiana ave. S.
- "Parent-Child Relations"--Tuesday afternoons, Jan. 20-March 17, at the Jewish Community Center, 1375 St. Paul ave., St. Paul.
- "Urban Society"--Wednesday mornings, Jan. 21-March 18, at the University's St. Paul Extension Center, Ninth and Exchange.
- "American Foreign Policy"--Tuesday mornings, Jan. 20-March 17, at Gustavus Adolphus Lutheran Church, 1669 Arcade, St. Paul.

FREE FILMS TO BE SHOWN SUNDAY  
AT MUSEUM OF NATURAL HISTORY

Nature's elements, from man to the seed, will be the topic of three films to be shown Sunday (Jan. 4) in the Bell Museum of Natural History at the University of Minnesota.

The free public program will be presented twice; at 2:30 and 3:30 p.m., in the museum auditorium.

"Blind As a Bat" illustrates the flying mammal's unique ability to navigate safely in the dark. "White Throat" shows nature's white-throated creations, including fish, birds and mammals, as they appear in their natural habitat. "Persistent Seed" pits man with his mechanical power against the force of nature--all in the context of city planning.

\* \* \*

'MIDDLE AMERICA' SERIES  
TO RESUME IN JANUARY

The four remaining talks in a University of Minnesota series on Latin America will be offered for \$12.

They are part of a six-part series, open to the public, that began in December on the general topic "Ancient Peoples and Places of Middle America," held Sunday evenings at Nolte Center for Continuing Education on the Minneapolis campus. The remaining talks, from 6:45 to 9:15 p.m., will be as follows:

- Jan. 11: "Art and Architecture of Middle America" by Donald Torbert, professor of art history.
- Jan. 18: "Art and Architecture" continued.
- Jan. 25: "An Overview of Southern Mexican and Guatemalan Sites" by Dennis Puleston, assistant professor of anthropology.
- Feb. 1: "The Decline of the Early Civilizations," also by Puleston.

Individual talks cost \$4. The series is sponsored by the General Extension Division's department of continuing education for women.

LAMBERT MADE  
FELLOW OF IEEE

(FOR IMMEDIATE RELEASE)

Noise, and what to do about it, is the specialty of Robert F. Lambert, professor of electrical engineering at the University of Minnesota.

In recognition of his "contributions in theoretical and applied acoustics: with special reference to noise and system dynamics," Lambert has been named a fellow of the Institute of Electrical and Electronics Engineers (IEEE). The title of fellow, the highest attainable in the organization, is conferred only upon "persons of outstanding qualifications and achievements in their particular fields."

Lambert has contributed largely to the understanding of electro-acoustics, guided waves, noise abatement, random vibrations, and the processing of signals in noise. He has been active in consulting various groups on technical aspects of the problems in sonic (noise) pollution.

Long-range communication problems which may be faced by the Minnesota Experimental City, noise abatement, and architectural acoustics are some of the research topics he is currently working on.

#

SUPPLEMENTARY INFORMATION:

Lambert received a bachelor of electrical engineering degree in 1948, M.S. in 1949 and Ph.D. in 1953, all from the University of Minnesota. He joined the faculty in 1947 and became a full professor in 1959. He is listed in "Who's Who in Science," "American Men of Science," and "Leaders in American Science."

'YEAR OF THE PIG' OPENS  
'U' FILM SOCIETY WINTER SEASON

"Year of the Pig," a new documentary analysis of the current situation in Vietnam, will be the University of Minnesota Film Society's first presentation for winter quarter.

The film, by Emile de Antonio, includes new material on North Vietnam and the long-range picture in North and South Vietnam. Showings will be at 7:15 and 9:30 p.m. Thursday through Sunday, Jan. 8-11, in the Bell Museum of Natural History auditorium. (Showings Jan. 10 are tentatively scheduled for Murphy hall auditorium.)

Other films scheduled for January showings in the museum auditorium are "The Money Order," a new film from Senegal, 7:30 and 9:30 p.m., Jan. 16 and 17; "Cat and Mouse," a German film starring the sons of Willy Brandt, 7:30 and 9:30 p.m., Jan. 23 and 24, and "Red Beard," a Japanese film directed by Akira Kurosawa, 8 p.m., Jan. 30 and 31.

FREE AND CLERGY TO DISCUSS  
HOMOSEXUALITY AND CHURCH

"Homosexuality and the Church" will be discussed by area clergymen at the Thursday, Jan. 8, meeting of FREE at the University of Minnesota.

Representatives of several denominations will participate in discussion groups at 8 p.m. in Coffman Union men's lounge. Jack Baker, president of FREE (Fight Repression of Erotic Expression), a campus homosexual group, said that everyone is welcome to attend the meeting. He also noted that the Christmas dance FREE sponsored to raise money for Santa Anonymous was a "huge success." The 100 students and guests donated \$50 and numerous gifts to the organization.

'U' AERONAUTICS PROFESSOR  
RECEIVES INTERNATIONAL RECOGNITION

UNIVERSITY OF MINNESOTA  
NEWS SERVICE-20 JOHNSTON HALL  
MINNEAPOLIS, MINNESOTA 55455  
TELEPHONE: 373-5193  
DECEMBER 31, 1969

Professor Helmut G. Heinrich of the University of Minnesota's School of Mechanical and Aerospace Engineering has been elected a fellow to the Royal Aeronautical Society of Great Britain, indicating international recognition in aeronautics.

Heinrich is a specialist in parachute design and applications, and air-crew rescue methods. He was made a fellow of the American Institute of Aeronautics and Astronautics (AIAA) this year also. The Royal Aeronautical Society was founded in 1866 and incorporated in 1948. It is an international organization with members from industrial and academic occupations.

\* \* \*

ABRAHAMSON TO SPEAK

Dr. Dean E. Abrahamson, assistant professor of anatomy at the University of Minnesota, will participate in a Jan. 9 and 10 symposium on the population crisis at the University of Wisconsin at Green Bay. Dr. Abrahamson has been active in the Minnesota Committee for Environmental Information.

\* \* \*

U OF M DEAN CRAWFORD  
TO EDIT JOURNAL

Professor Bryce L. Crawford, dean of the Graduate School at the University of Minnesota, becomes editor of The Journal of Physical Chemistry as of Thursday (Jan. 1). The journal is one of many published by the American Chemical Society.

Crawford, a professor of physical chemistry, was chairman of the University's chemistry department from 1955 to 1960. He is a member of the American Chemical Society's board of directors. As editor of the journal he succeeds Professor Frederick T. Wall of the University of California, San Diego, who is now executive director of the American Chemical Society. (Editing the journal will not affect Crawford's position with the University.)
