The Check Guarantee Card.

This card guarantees payment on Northwestern Bank personalized checks up to \$100.

The new Northwestern National Bank Check Guarantee Card was inaugurated to help our customers negotiate personal checks. Giving a personal check to a strange merchant or businessman can be embarrassing, but with this card, he knows your check is guaranteed by one of the largest banks in the country.

There is no charge for this Check Guarantee Card. Neither you nor the retailer pays any service charge.

How the Check Guarantee Card works.

You may obtain a Check Guarantee Card at Northwestern National Bank of Minneapolis if you have a Ready-Reserve Checking Account. Ready-Reserve maintains a cash reserve balance behind your personal checking account. And, with a Northwestern

Bank Check Guarantee Card, you have the most flexible, usable checking account offered by any bank in the country.

You have the option.

Once you have arranged for a Check Guarantee Card and a Ready-Reserve Checking Account, you can use them separately, together, or not at all. Maybe you won't ever have to borrow or guarantee a check, but it's always there if you need it.

Not another credit card.

Unlike credit cards, there are no service charges or fees connected with our Check Guarantee Card. You receive no bill. Arranging for a Ready-Reserve Checking Account costs you nothing. You pay interest only on funds transferred to your account. The Check Guarantee Card is more like an instant-cashier's check service.

A word to retailers.

Northwestern Bank's Check Guarantee Card is a service for you, yet you

don't have to buy anything, install any equipment, tie up any funds, or do any paperwork. It can eliminate some embarrassing situations and make life easier for you.

When you see our Check Guarantee Card, you know the check is good. A driver's license means only that the man can drive. Remember, the check is backed by one of the largest banks in the country and the person cashing the check is a good customer of ours.

Get yours now.

Stop in at Northwestern National Bank and arrange for a new Check Guarantee Card and Ready-Reserve Checking Account. It takes but a few minutes and it can save you much time and inconvenience.

Announcing... THE BIG TEN

The exciting story of the Big Ten Sports Conference...
the fabulous teams...the famous stars...the memorable events...
the story and the spectacle as it's never been told in print before!
Yours to read for ten days ABSOLUTELY FREE!

Written by former Big Ten Commissioner Tug Wilson and noted sports writer Jerry Bronfield, this king-sized book is richly cloth-bound with intaglio stamping and illustrated with over 1,000 rare and striking photographs—contains over 150,000 words!

ALL THE THRILLS, CHILLS AND SPILLS OF PULSE-POUNDING SPORT ADVENTURE!

You are in for a thrilling adventure! We have just published the first book to do COMPLETE justice to the excitement, the suspense, the fun and glamorous spectacle of the Big Ten's 70-year history in the world of sports—

THE BIG TEN

by Kenneth L. (Tug) Wilson and Jerry Bronfield

Here, for the first time ever, is the whole huge, enthralling history of the Big Ten—from the free-swinging days when athletes played football for one school and baseball for another, to the strictly-regulated, nationally-televized gladiatorial contests of today!

ONE THOUSAND nostalgic and colorful photographs capture the glamor, the excitement, the spectacle, the great stars of Big Ten sports for you . . . 150,000 words of thrill-packed sports text gives you the pulse-pounding story . . . how the Big Ten grew from a small-time bunch of upstart Westerners into the nation's mightiest collegiate conference . . . turning out more All-Americans, more championship teams, more individual national champs, more Olympic stars, more Coaches-of-the-Year and Heisman Trophy-winners than any other conference in all the land!

The Guys . . . the Guts . . . the Glory!

Red Grange the Galloping Ghost, Elroy (Crazy Legs) Hirsch, Otto Graham the "Triple Threat", Jesse Owens, Bronko Nagurski, Branch Rickey, Hopalong Cassady . . . they're all here, their greatest triumphs captured for you forever by the crackling prose of Kenneth L. (Tug) Wilson and ace sportswriter Jerry Bronfield . . . and immortalized by the greatest cameramen in the Big Ten's mighty history . . . a saga of heroism and hard fighting that wrote a new page to the history of America's greatest sports!

Yes, they're all here, from "Walt" Eckersall the 140 lb. "Mighty Mite" of All-America fame to Bob Griese; from court ace "Chris" Steinmetz in the good old days when opponents grabbed the pole and shook the ball off the loop, to "Cazzie" Russell; from "Hurry-Up" Yost's stupendous point-a-minute machine that smashed the foes to flinders with scores like the epic 130-0, to "Duffy" Daugherty and "Woody" Hayes—seven immortal decades of Big Ten stars, mighty teams, coaching titans, record-blasting performances and agonizing defeats, weird games and gigantic upsets—all these thrills and chills are poured into one giant volume filled with ten thousand memories.

YOUR Team is here, locked in battle!

Yes, your own team is here, its most glorious moments captured forever, to be lingered over for nostalgia-filled years to come . . . the great sports stars who thrilled you . . . the magnificent games written large across the tables of your memory . . . the glorious moments, the tragic defeats, the record-smashing plays!

Follow Bo McMillin and his "Pore Li'l Boys" as they sweep the Conference to gridiron glory! Grip your seat there on the 50-yard line as coaching titan "Howie" Jones whips an average team into the machine-like power of the dreaded Hawkeye Hurricane! Feel the tears start to your eyes as "Duffy" Daugherty's fantastic steamroller shatters the opposition in the great days of '65! Chew your knuckles as "Bronko" Nagurski, "Pug" Lund, and "Branch" McCracken smash through the line to undying fame!

Sample This Book for 10 Days FREE!

Just return the coupon below, and we'll send you a copy of Tug Wilson and Jerry Bronfield's mighty book, "THE BIG TEN", which you may read and thrill to for ten days without obligation to purchase. You'll find it's as big as the men who made it, close to 500 power-packed pages in an oversized, deluxe quality format—bound in rich blue cloth, with silver stamping and four color laminated jacket. Send for your copy of "THE BIG TEN"—today!

Parker Publishing Company, Dept. 6052-LI
West Nyack, New York 10994

Send me my FREE-TRIAL copy of "THE BIG TEN"—after ten days I will either keep the big book and remit only \$14.95 plus postage and packing—or RETURN the book and OWE NOTHING, PAY NOTHING!

BACK TALK

Sirs:

I was perturbed that my alumni paper would publish such a one-sided article as your recent (May) "Education of Ronald Reagan." Your only editorial comment was to characterize his acts as "antics." Rather gratuitous, I thought.

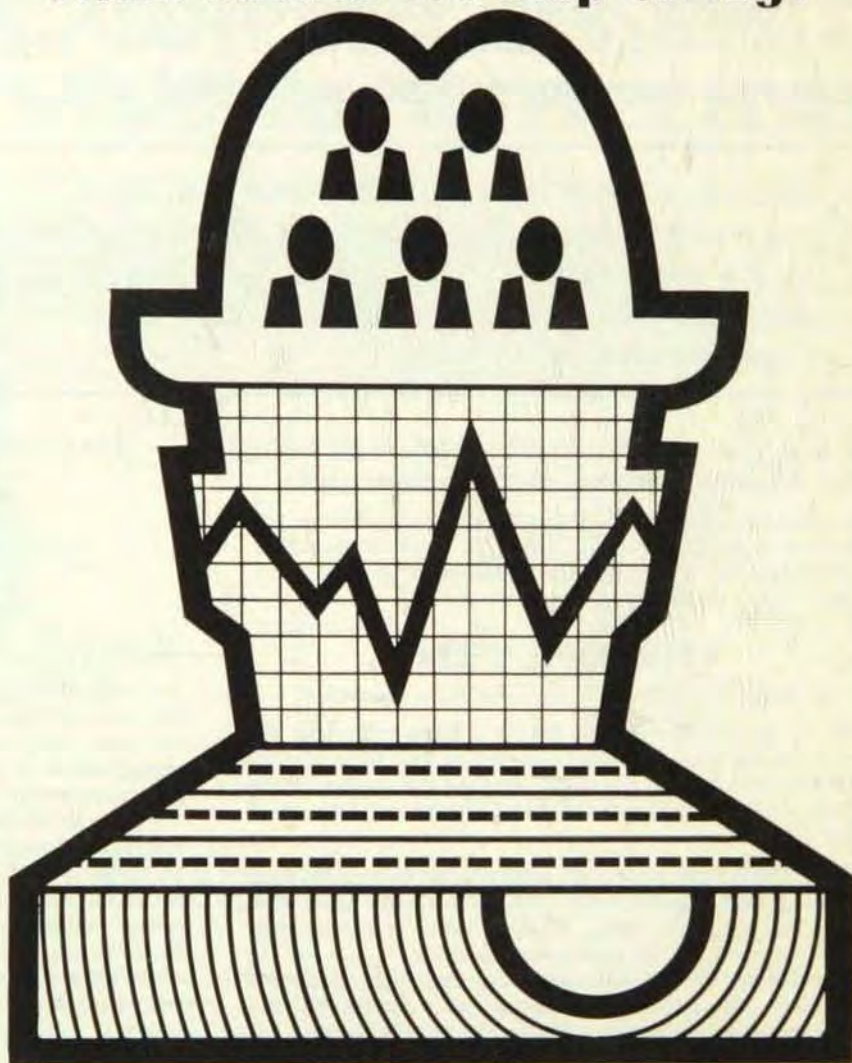

Reagan fell heir to a state with its budget some \$100 million in the red. He had little time to study before being forced to do something about it. He simply asked all state agencies to take a 10% budget cut. You perhaps know that a budget attempts to equate the available money with the desired expenditures. The money has to be there first.

Mr. Kerr had already shown his incompetence to cope with students who refused to follow the stated rules. (Reagan — and the substantial majority of Californians — say, "Follow the rules or go somewhere else.") Kerr simply refused to cooperate at all, though anyone with budgetary experience knows there are always cuts that can be made with little or no harm — just defer some desirable but not essential items. They put it all in terms of turning away students next fall. Reagan wanted to charge a nominal tuition to pay a small portion of the costs, but this was howled down. I paid about that tuition at Minnesota some 40 years ago and don't see why these kids should get it all free. Something for nothing is never highly valued! Only the top 10% are admitted to Berkeley. Why should the rest be stuck with the whole bill?

I would not permit my son to attend Berkeley University. That's how I feel about it. If it is a second rate school now, it happened before Reagan ran for office. The people here want something done about it. An article like yours does not help. We suffer from too much pseudo-intellectualism. A degree doesn't assure any common sense. Come off it.

MEMO

From
ED HAISLET
Executive Director

TO: Association Members

SUBJECT: Ninety-Eight Years of Leadership

On September 1, 1967, Malcolm Moos became the tenth president of the University of Minnesota.

In 116 years of its existence (94 years since it granted its first two degrees), the University has become one of the major universities of the country. Its growth and development is a fascinating story and its hard-won position the result of many factors — a people who believed in higher education so much that they established the University in their territorial charter seven years before statehood was achieved, the unique charter of the University which has kept it free of partisan politics, its location in what was to become the metropolitan center of the state, a man named Pillsbury, the joining of the land grant college and state university into a single institution, the strong leadership of the Board of Regents, the never-wavering support of the University by the people of the state who sent their children to the University in ever-increasing numbers, a state legislature which gave generous financial support over the years reflecting the will of the people — all these things plus ninety-eight years of leadership by the nine University of Minnesota Presidents.

As some one said to me the other day — Can you name the nine presidents of the University? — and which one signed your diploma? They are:

William Watts Folwell	(Hobart)	1869-1884	15 years
Cyrus Northrop	(Yale)	1884-1911	27 years
George Edgar Vincent	(Yale)	1911-1917	6 years
Marion LeRoy Burton	(Carleton)	1917-1920	3 years
Lotus Delta Coffman	(Indiana)	1920-1938	18 years
Guy Stanton Ford	(Wisconsin)	1938-1941	3 years
Walter C. Coffey	(Illinois)	1941-1945	4 years
James Lewis Morrill	(Ohio State)	1945-1960	15 years
O. Meredith Wilson	(Brigham Young)	1960-1967	7 years

These are the men who made the University what it is today — each brought to the job varying backgrounds and experience, each a different concept of higher education and how the University of Minnesota should meet its destiny of greatness.

Of the nine University presidents, I have served under the last five, and have known each in varying degrees. I have come to know the first four presidents of the University through the pages of University documents, the Alumni Weekly, the Gophers — and from stories told by alumni who knew them; all great people, the right persons for their time, right for the growth and development of the University.

I knew President Coffman only casually. I joined the faculty of the University in 1933 as an Intramural Assistant and Boxing Coach in the Department of Physical Education and Athletics. It was as Boxing Coach that I met the President. He was an ardent wrestling fan, having participated in the sport as an undergraduate at the University of Indiana. Several times a week he would look in on wrestling practice located in the combined wrestling-boxing gymnasium in the Stadium. He would pay no attention to boxing, and being somewhat piqued, I tried to interest him in the sport. It is in this

MIN
M 66

way I got to know him, and of his lifelong interest in all athletics and sports — in hunting, fishing and the out-of-doors. After a while he would always come over and observe boxing for a moment or two, sometimes talk about sports in general, wrestling in particular and then go over and watch wrestling practices for an hour at a time. I never was successful in proselytizing him for boxing.

My early contacts with Guy Stanton Ford were likewise through athletics. He was a varsity baseball player at Wisconsin and also had done some amateur boxing. One time after talking to him about the intramural boxing program at the University and asking him to be the honorary referee, the next day I received from him the set of boxing gloves that he had used. For several years thereafter the Best-Boxer trophy was named after President Ford. Actually, I became much better acquainted with Guy Stanton after I was alumni secretary. On my first trip to meet with the alumni chapter in Washington, D.C., imagine my chagrin in finding Dr. and Mrs. Ford sitting in the front row. Believe me, it didn't help my talk that night. Always thereafter until his death, President Ford attended the Minnesota alumni meetings in Washington D.C. Mrs. Ford has continued to attend since that time.

I didn't get to know President Coffey until he had retired and I was alumni secretary. He made it his business to drop in on me from time to time, talked to me about the University, its alumni, its past and its future. He was a great story teller, loved people, liked to attend alumni meetings. Through Walter Coffey, I learned a lot about the workings of the University, and of its history.

President Morrill had a deep interest in alumni affairs, having been alumni secretary at his Alma Mater, The Ohio State University. He was the man who hired me as alumni secretary and the one president I really knew intimately. He was a person of great warmth, charm and understanding. However, he could be tough when necessary. He had a great sense of humor, loved athletics, especially football, and was fun to be with.

President O. Meredith Wilson was a dedicated scholar, had an historian's perspective on things that were happening. A master of diction, he delighted in using words that would stump the faculty. To my knowledge, he is the only president that held the academic rank of professorship while being President. Having participated in intercollegiate athletics as an undergraduate, he had an abiding interest in athletics and in physical fitness. For instance, he never took an elevator when going up three or four floors — he walked up. Likewise he was an avid sports car enthusiast.

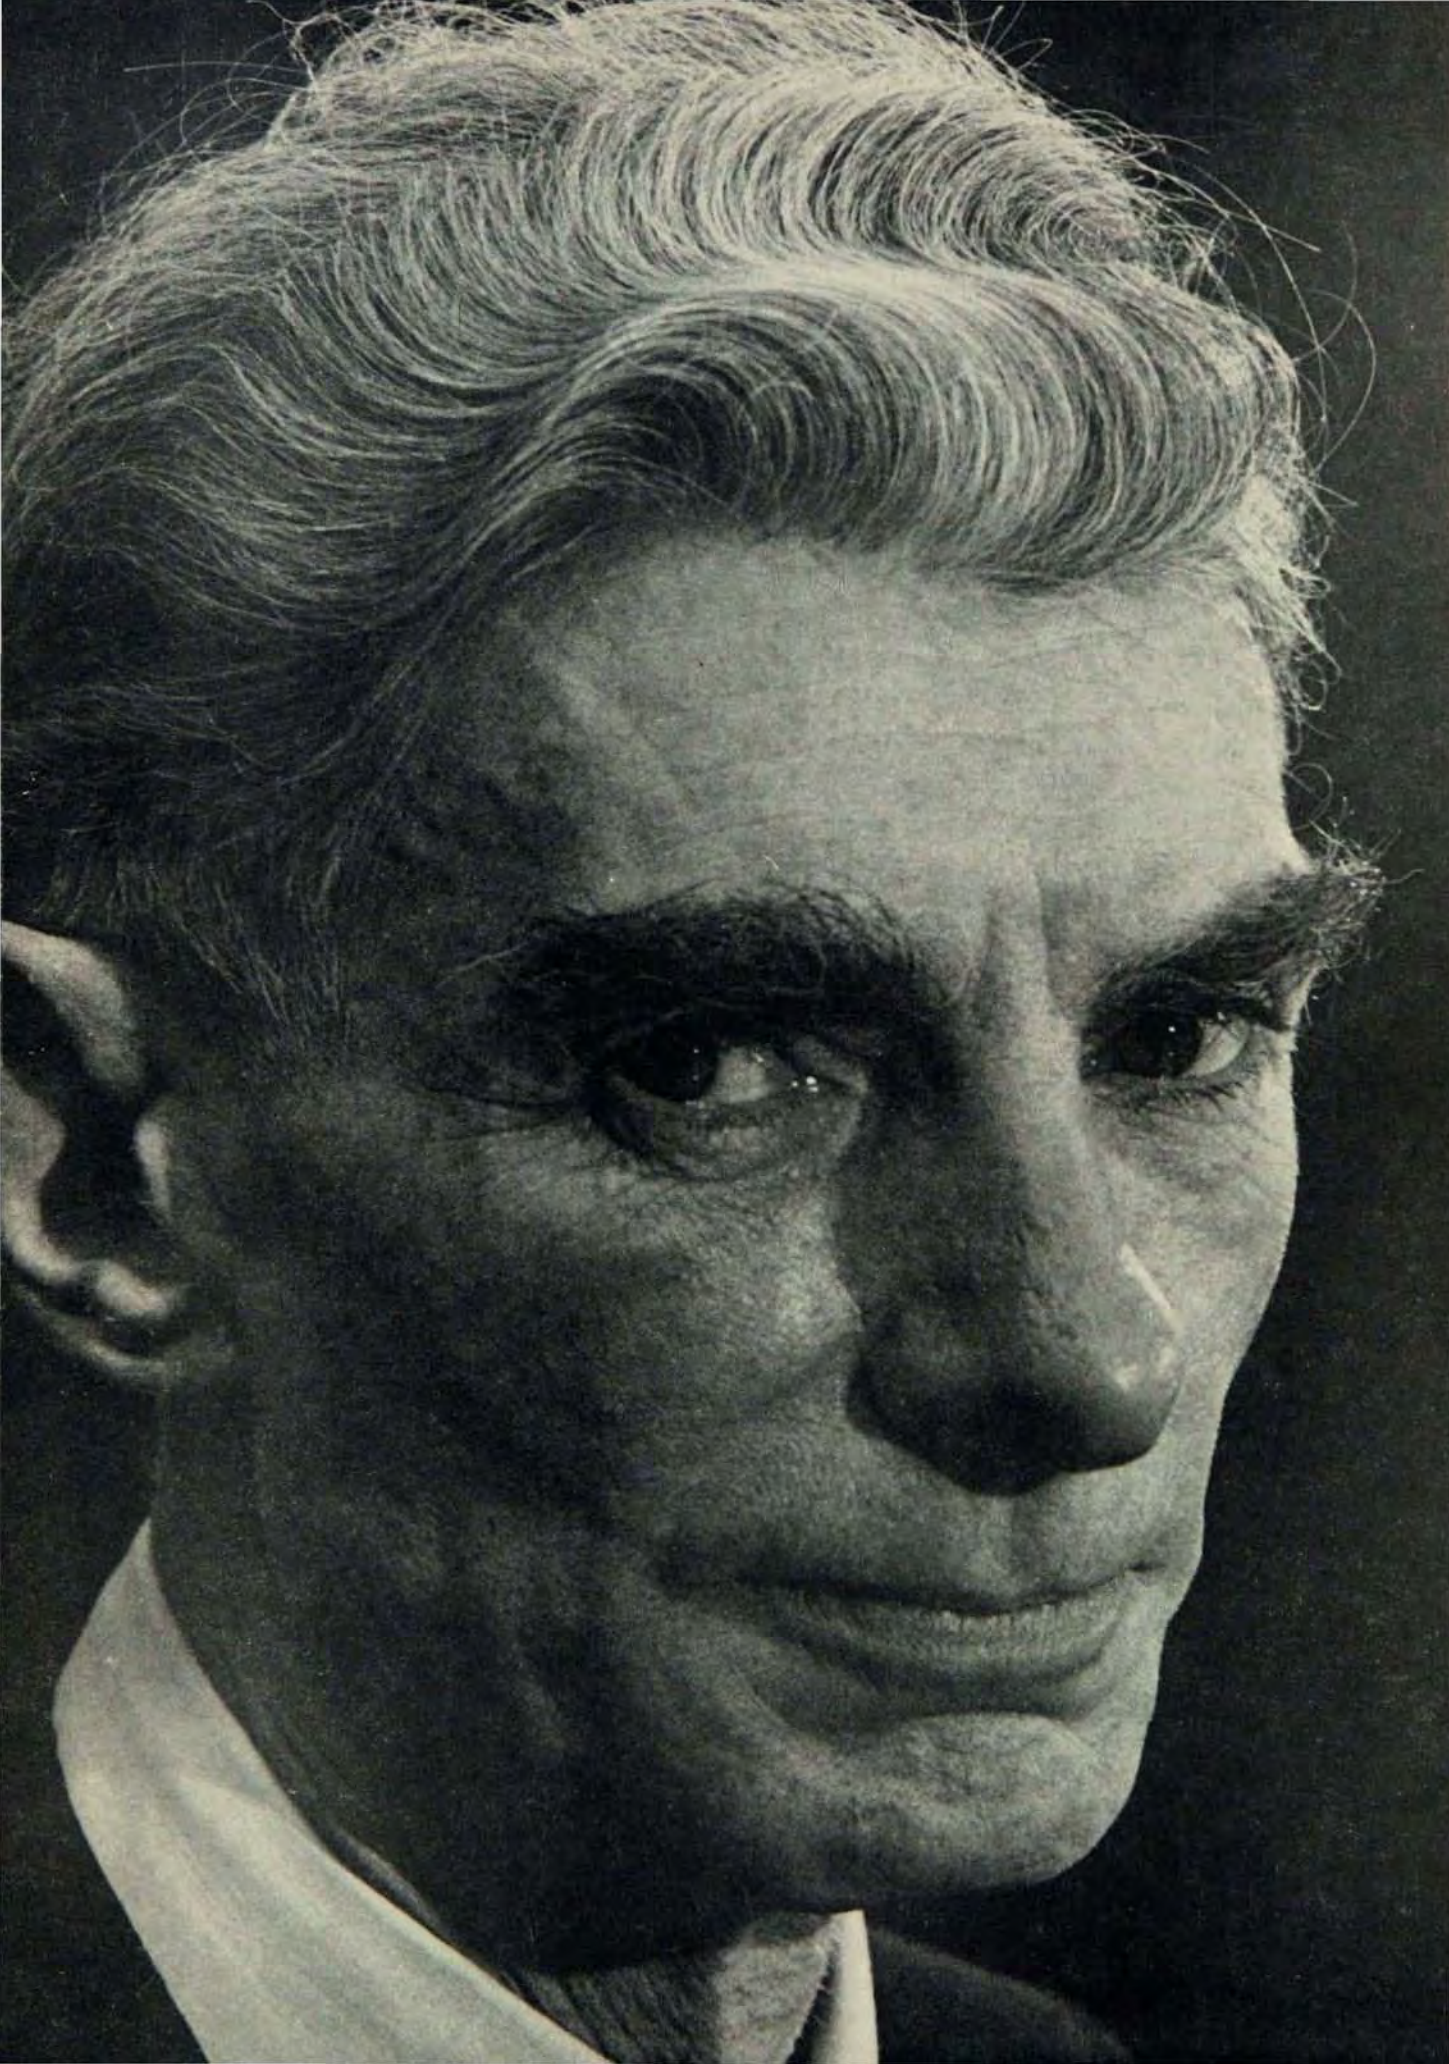

And now Malcolm Moos — the first native son of Minnesota — and the first graduate of the University ever to be its President. He comes with a fine background of qualified experience — scholar, researcher, writer and administrator. Born and raised in St. Paul, he attended University High School before matriculating at the University in Political Science. He's a most likeable person — direct, quick acting, able. With Malcolm Moos as its tenth president, the years ahead will be exciting and productive ones for the University. In response to a reporter's question on how long he expected to be president, Malcolm Moos replied — "It could be seven months or seventeen years."

We hope it will be seventeen. I know all of you join with me in saying — Welcome home, Malcolm Moos.

Sincerely,

Ed Hausler

The University of Minnesota's new chief executive is an "action intellectual."

Dr. Malcolm C. Moos ably fits Theodore H. White's description of that growing body of scholars who have had an impact on American life through their involvement in academe, the foundations and government. He has not been content with the security of the campus, but has worked to put his thoughts into action.

Dr. Moos is intimately familiar with five universities, including Minnesota, and in the past year and a half has visited 100 campuses; he has advised Presidents Eisenhower and Kennedy and other political figures; he has been active in partisan politics; he has served the Ford Foundation as director of policy and planning and as director of the office of government and law; he has authored or co-authored 10 books, including one on the relationship between government and higher education.

The announcement of Moos' appointment to succeed O. Meredith Wilson as 10th president of the University came precisely on the day Wilson's term was to have expired — July 1 — and ended a sometimes-frustrating 10-month search by the Board of Regents for his successor.

Wilson has left the University to head the Center for Advanced Study in the Behavioral Sciences at Stanford, California.

Moos' appointment ended a turbulent 10 months during which one candidate, Robben Fleming of the University of Wisconsin, accepted an offer to replace Harlan Hatcher as president of the University of Michigan. W. Clarke Wescoe, chancellor of the University of Kansas, withdrew his name shortly before Fleming was offered the Minnesota position.

(When, at his opening press conference, Moos was asked the delicate question of whether the publicity given to the long search for a president didn't make him seem like a second choice, his riposte was prompt: "I've never been accused of having an Avis

syndrome, so it doesn't bother me.")

Moos, who was born in St. Paul, is the first native Minnesotan and the first University alumnus to hold the position of president of the University. He earned his BA degree here in 1937 and an MA in 1938, working under William Anderson '13BA, professor emeritus of political science. He also holds a PhD degree from the University of California, awarded in 1942.

Anderson recalled his former student's undergraduate days at Minnesota. He was "a very congenial young man and a very high level and earnest student," according to Anderson.

A fellow student in 1938-39, as well as a close personal friend, was Vice President Hubert H. Humphrey '39BA.

Moos recalls a political debate between the two that had a time limit of 30 minutes.

"Hubert took the first 27 minutes and I ended up with the last three." Since then, he wryly notes, he has favored an equal-time rule for political debates.

When Moos left Minnesota in 1939, he became a teaching fellow at the University of California while working on his doctorate, a post he held for two years.

In 1942 he became a research assistant for the University of Alabama's Bureau of Public Administration. He wrote a study of convict road camps by living in them, and his book helped abolish the lash.

His concern for the imprisoned continued as a member of the Baltimore City Jail Commission from 1953 to 1955 and the Prisoners' Aid Society from 1952 through 1958. It culminated in his most recent position as director of the Ford Foundation's office of government and law, which he set up in December 1966.

It is dedicated to advancing more effective government at the federal, state, county and local lev-

els, and to helping ensure the health of this country's political processes and its party system. However, it is equally concerned with helping to protect the rights of individuals and with the rehabilitation of offenders.

Projects it has funded include the well-known Legal Defender Program which helps provide legal services to those who can't afford them; the NAACP Legal Defense Fund; and it helped set up a series of permanent institutes on the administration of criminal justice, and it sponsors two graduate training programs for teaching and practice in criminal law.

Then followed one term as an assistant professor of political science at the University of Wyoming under its young president, James L. Morrill, before accepting an appointment in the political science department of Johns Hopkins University.

From assistant professor in 1942, he rose to associate professor in 1946 and, in 1952, was named full professor, a post he held until his resignation in 1961.

It was while teaching at Johns Hopkins that he met and married the former Margaret Tracy Gager of Washington, D.C. 'Tracy' was a student at Goucher College at the time they met, and they were married in 1945.

The Moos' have five children — Malcolm Jr., 14; Katherine, 13; Grant, 11; Ann, 9; and Margaret, 7.

The new president's chief national prominence came as President Dwight D. Eisenhower's "ghost" in the waning years of Eisenhower's second term.

Although Moos was occasionally the target of Ike's legendary temper, he says that "Ike was very wonderful to me. He could get very mad, but 10 minutes later he'd call back and couldn't be nicer."

He is credited with infusing a punchy rhetoric into the president's speeches during the congressional campaign of 1958, but

Malcolm and Margaret Moos at their lake home near Hackensack, Minnesota. Malcolm Jr., Katherine, Lord Boswell, left; Margaret, center; Ann and Grant. (Minneapolis Tribune photo)

he is proudest of being author of Eisenhower's most memorable speech — the farewell address warning of a "military-industrial complex."

The origin of the speech is interesting. Moos remembers that "every once in a while the president would say to me, 'Malcolm, be sure to write something that will make me memorable when I leave office.'

"Well, as H. L. Mencken (an old friend from the Baltimore *Sun* where Moos was an associate editor from 1945 to 1948) used to say, every writer needs a dustbin — a place to store ideas that come to him. And I'd been constantly

concerned about the aerospace industry, the intimate linkage of defense industries with retired generals on their boards of directors.

"I could never tell how he'd respond to a speech, but he read this one in front of me and I could see it was different than anything I'd ever done.

"You've got something here," he told me.

When Sherman Adams resigned as President Eisenhower's chief presidential assistant in 1958, Moos figured prominently in speculation as Adams' successor. Instead, he remained as a White House assistant until 1961, then became a member of President John F. Ken-

edy's commission on campaign costs.

The commission investigated "the whole sticky wicket of presidential campaign finances" according to Moos.

Since Eisenhower left office in 1961, Moos has been on the outside politically. He was a speech writer for Governor William Scranton during Scranton's attempt to capture the Republican presidential nomination in 1964, and from 1961 to 1963 served as adviser on public affairs to the five Rockefeller brothers — Nelson, Laurance, David, Winthrop and John.

A lifelong Republican, Moos was an alternate delegate to the party's national convention in 1952 and a delegate in 1956. From 1954 to 1958 he served as chairman of the Republican State Central Committee in Baltimore.

However, despite his political heritage, at his opening news conference the president emphasized that he had "shucked off, as of midnight last night (Friday, June 30), my fierce belief as a political activist" to better perform his new duties as the University's chief executive.

He nevertheless defended his former partisanship, saying that professors who took stands on issues often made the best teachers.

Moos said he had often thought about becoming a college president, calling the job rewarding and challenging. He said departing President Wilson could not have left him a more favorable position from which to move ahead.

He said universities, including Minnesota, have had problems recruiting presidents because to many academicians the job had attracted some men "strictly on the make."

He said that students should be in on the decision-making process of many University problems, possibly selection of professors. "It's amazing how often student decisions coincide with those of the faculty," he said.

He also favors increased activity

of the University in contributing to the solution of urban problems, predicting that students will play a larger role in the community and possibly gain credit for off-campus activities.

He also said greater attention should be given by professors to the undergraduate program. According to Moos, the greatest problem in higher education is that graduate schools tend to subordinate undergraduate education. It's difficult to get great numbers of the faculty into undergraduate teaching, he said.

Describing higher education as a "six-track system"—junior, community, and state colleges, universities, professional schools, and post-doctoral schools, Moos said the system is growing in an "erratic, unsystematic, unplanned way."

Another problem of higher education is the length of time required to get a PhD. For example, he cited Berkeley, where it takes nine years for a doctorate in sociology.

The Moos family—and its two dogs, Topaz and Lord Boswell—spends part of every summer at a vacation home on Ten-Mile Lake near Hackensack, Minnesota, which the family has had since 1960. Nearby is a small cabin where Moos has done a good deal of his writing. His 10 books include a children's biography of President Eisenhower, and one particularly relevant to his new job, "The Campus and the State," published in 1959.

As successor to President Wilson, Moos returns to his native state and alma mater well qualified by background and temperament for the task of leading a great state university. He is sensitive, yet wise to the ways of the political world. He is an intellectual's intellectual, yet attuned to the thinking of the average man. He is dignified without being stuffy, a nimble wit that he does not hesitate to turn upon himself.

He can be expected to win the confidence of parents, taxpayers,

legislators and political office holders, regardless of party and despite his now "shucked off" liberal Republican activism.

He can be expected to win the confidence of the faculty, students and alumni, despite his lack of administrative experience. He is imbued with the substantive spirit of what a university is, and a vision of what it can and should be. He grasps the reasons for the discontent that is sweeping not only students but faculty members in the great conglomerate universities like Minnesota. He sees, therefore, the need for more student participation in administration.

As a former activist himself, he

believes activists make the best teachers. As a political scientist and one-time researcher for the League of Minnesota Municipalities, he believes universities must become deeply involved in urban problems, "scrubbing up urban sprawl" with research help, and sending students into the battle for academic credit. This has broad implications, both nationally and for the Twin Cities.

The University is indeed fortunate to welcome as its 10th president Malcolm C. Moos '37BA '38-MA, scholar, author, public servant, foundation executive, political scientist, newspaperman and aide to presidents.

Dr. and Mrs. Malcolm C. Moos, the University's first family, is shown below following the announcement that Moos would become the University's new chief officer. His wife is the former Margaret Tracy Gager of Washington, D.C. (Minneapolis Tribune photo).

"Malcolm Moos is an experienced scholar with a wide knowledge of higher education and a particular expertise in the problems of university governance and finance. His selection will place in the office a man who has an intimate knowledge of Washington, a close affiliation with the foundations, and a distinguished reputation as a scholar. Mrs. Wilson and I are delighted that the family to succeed us will have such a strong attachment to Minnesota and that they will be bringing a family into the President's home."

*O. Meredith Wilson
Director, Center for Advanced Study
in the Behavioral Sciences*

"I've long been acquainted with Malcolm Moos — indeed, when I was President of the University of Wyoming, he was a member of my faculty. He is recognized as a first-class political science scholar and has the gift of competence in public and academic relations both. I'm sure the University enjoys great good fortune in bringing Dr. Moos to the presidency."

*James L. Morrill
Eighth President, University of
Minnesota*

"We at the Ford Foundation offer our heartiest congratulations to the Regents of the University of Minnesota on their election of Malcolm Moos to be the next President of the University. Mr. Moos will bring to Minnesota the perceptive intelligence and high integrity that has distinguished his career as a scholar and public servant. His departure from the Ford Foundation will be a major loss to us, but we are delighted that his talents are now to be matched to the work of leadership of one of the nation's great universities."

*McGeorge Bundy
President, Ford Foundation*

"The Board of Regents is to be complimented on its selection of Dr. Malcolm Moos as President of the University of Minnesota. The University is indeed fortunate to have Dr. Moos as its new President. I have known Dr. Moos for many years as a friend, a leader in academic life and a government official. He brings to our University the qualities of leadership, scholarship and administrative ability."

*Hubert H. Humphrey '39BA
Vice President, United States*

"In naming Malcolm Moos as president, we feel particularly fortunate in being able to combine this great breadth of experience in education and government in a graduate and native son of Minnesota. His scholarship has taken him into searching studies of both higher education and government, but of even greater importance is the fact that he has made some of the most significant studies ever done into the relationship of each to the other. This insight into the administrative problems of a university coupled with his extensive classroom experience bring, we feel, remarkable talents to bear on the large assignment he is accepting. We feel the people of Minnesota will be proud to welcome back a native son who has achieved such great distinction on the national scene."

*Honorable Lester A. Malkerson '35BAgE
Chairman, Board of Regents*

Success never eluded Charlie Spear but his most lasting satisfaction has come from his association with New England Life.

Charlie was president of his class at Northeastern University, played on the hockey team and was an outstanding student of mechanical engineering. As a sales engineer, first with Allis-Chalmers and then with Mobil, he had become a sales supervisor of a seven-state territory when he resigned to join New England Life.

"Although I had been on the escalators of promotion, it took this business and its professional

sales approach for me to find real career satisfaction," is the way Charlie sums it up.

When he made his move he was 38 with a wife and 5 small children, and was living far from his home city of Boston. He continues to live and thrive in Wausau, Wisconsin, and gives testimony to the fact that a man can make his own way in this business, and on his own terms.

Working 200 miles from his general agency in Milwaukee, Charlie Spear is especially appreciative of the cooperation he has gotten from his Company and his general agent in giving him the preparation and backing to offer the kind of service to businessmen that could meet his high standards.

63rd Annual Meeting

Attendance by 387 alumni and guests made the 18th Annual Honors presentation and 63rd Annual Meeting of the Board and Membership on June 6 one of the most successful in the event's long history. The dinner meeting, which was held in the International Ballroom of the Pick-Nicollet Hotel in downtown Minneapolis featured the presentation to four alumni of the highest awards bestowed by the University of Minnesota and the Minnesota Alumni Association—the Outstanding Achievement Award and the Alumni Service Award. Presentation of the awards was made by University President O. Meredith Wilson, who was attending his final Alumni Association event.

Wilson, who has left the University to assume the directorship of the Center for Advanced Study in the Behavioral Sciences in Stanford, California, was the guest speaker. Following his address, retiring MAA President Waldo E. Hardell '26BSBus, presented Wilson with a citation and Steuben glass bowl engraved with the Regents' Seal of the University. On the bowl's ebony base are inscribed the words on the facade of Northrop Auditorium: "Founded in the faith that men are ennobled with understanding, dedicated to the advancement of learning, and the search for truth, to the instruction of youth and welfare of the state."

Recipients of the Outstanding Achievement Award

were Bert S. Cross '24-'29 and Chester S. Wilson '08BA '12LLB. Alumni Service Award recipients were Charles Judd Ringer '38-'41 and Douglas Manuel '22BChemE.

Cross is chairman of the board and chief executive officer of Minnesota Mining & Manufacturing Company, a post he has held since 1966 when he stepped down as the firm's president. Wilson, a Stillwater attorney, long has been active in Minnesota conservation work and from 1943-1955 was commission of conservation.

Ringer, president of the Judd Ringer Corporation, was MAA national president during 1964-65 and served on the MAA Board of Directors from 1961-65. Manuel, vice president, trade sales for Frost Paint and Oil Corporation, served on the Institute of Technology Alumni Board from 1944-56, including 10 years as president, and served on the MAA Board from 1955-56.

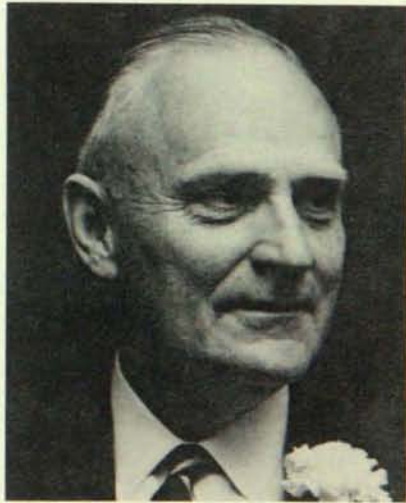

On hand to witness the award presentations were 17 former Alumni Service Award winners and 52 former recipients of the Outstanding Achievement Award. All were guests of the Association.

Highlight of the business meeting which followed the Alumni Honors Dinner was the announcement of Board election results and the introduction of new Board members and officers to the membership by outgoing-president Waldo E. Hardell.

Award recipients, shown here being congratulated by President O. Meredith Wilson are (left to right) Chester S. Wilson '08BA '12LLB, Outstanding Achievement Award; Charles Judd Ringer '38-'41 and Douglas R. Manuel '22BChemE, Alumni Service Award; Bert S. Cross '24-'29, Outstanding Achievement Award; and President Wilson.

For President Wilson it was a final appearance before the Minnesota Alumni Association. Wilson has left the University to become director of the Center for Advanced Study in the Behavioral Sciences at Stanford, California.

Seated at special tables were the guests of honor — past recipients of the Alumni Service and Outstanding Achievement Awards. The dinner was attended by 387 alumni and guests, including 17 former Alumni Service Award winners and 52 past recipients of the Outstanding Achievement Award.

Profile of a President:

Albert H. Heimbach

Psychology may have little to do with banking, but it helped Albert H. Heimbach rise to the vice presidency of Minneapolis' oldest savings bank at age 39.

A St. Paul native and graduate of Cretin Military Academy, the 1967-68 MAA national president majored in personnel work with a minor in psychology at the University, graduating in 1942 with a BBA degree.

Indefatigable then, as now, his participation in campus events — including Foundation Ball chairman in 1940, Snow Week chairman in 1941, and Community Chest co-chairman in 1941 — was recognized by his selection to Grey Friars, senior men's honorary.

After service as a lieutenant in the Army Air Force during World War II, Heimbach joined Northwest Airlines as manager of personnel for Orient region operations. He later moved into the airline's sales department. Then, in 1951, he joined Farmers & Mechanics Savings Bank as the first personnel officer they ever had employed.

Today he is one of the Twin Cities' best-known bankers. As vice president in charge of personnel, public relations and advertising, he also represents the bank in many industrial and civic organizations. In 1959 he graduated from the Stonier Graduate School of Banking at Rutgers University and in 1961 he completed the Bank Public Relations and Marketing Association School conducted at Northwestern University. From 1962 to 1964 he was a staff member of the Graduate School of Mutual Savings Banks at Brown University.

Heimbach's civic pride and sense of responsibility is perhaps best illustrated in his role with the Minneapolis Aquatennial.

His enthusiastic pace as 1966 Aquatennial president — a year-long post demanding much time and travel — had its ironic overtones. Back in 1964, after a dozen years of work for the Aquatennial in varied committee responsibilities and, in keeping with tradition,

next up for the first vice presidency, he resigned from the Aquatennial board. He and his wife Bee, the former Frances Ann Roll '42BS, had agreed that, with the many other demands on his time, he would remove himself from succession toward the Aquatennial presidency.

But illness that year sidelined one of the most experienced leaders and Heimbach, responding to need, agreed to return to the board to serve on through terms as vice president and then president.

"It was work," comments Heimbach on his administrative responsibilities for the entire Aquatennial Association, "but the work is with a lot of great people." Some 2,500 volunteers are involved in the planning and execution of Aquatennial events, all designed to emphasize regionally and nationally the desirability of Minneapolis as a fine place to live, work and play.

Heimbach's seemingly boundless enthusiasm and energy also finds an outlet in his work with and for Phi Gamma Delta Fraternity. He served two years as Purple Legionnaire (student-alumni contact) of Mu Sigma Chapter in the early 1950's and in 1952 was the Minnesota Graduate Chapter's delegate to the Toronto Ekklesia. He served as president of the Mu Sigma Alumni Association from 1953 to 1955, and in 1956 was general chairman of the host committee for the 108th "Land of Sky Blue Waters" Ekklesia in Minneapolis. He served as co-chairman from 1963 to 1966 of the Mu Sigma Chapter remodeling fund campaign, which raised \$20,000 to remodel and renovate the chapter house.

One of his greatest satisfactions is chairmanship of Mu Sigma's scholarship fund, which brings him into contact with so many students. He has held the post since 1955.

In recognition of his fraternity activities, in 1965 he was recipient of the "Outstanding Fiji Award."

Heimbach's term as Minnesota Alumni Association president prom-

ises to be an exciting — and productive — one.

Of primary importance is a new University of Minnesota film, showing the campus in action, to be premiered this fall. Produced by the University's audio-visual department with a \$5,000 grant from Farmers & Mechanics, the 15-minute sound-and-color film tells the current University story on all campuses.

Copies will be made available to alumni chapters throughout the country, and also will be handled through the General Extension Division.

"In addition to the obvious interest to alumni," Heimbach says, "there is an excellent chance that it will be of interest to the school systems and to Minnesota employers from a recruiting standpoint, to show the value of our great institution."

A second program high on the priority list is the re-inauguration of conducted alumni tours, sponsored by the MAA on an annual or every-other-year basis.

These tours, according to Heimbach, will be limited to 50 people and will provide a "common denominator" for those attending.

The MAA conducted two tours, one in 1957 and one in 1958, and was one of the first alumni groups to do this. Other schools since have picked up the idea and now most of the Big Ten schools conduct tours as a service to their alumni.

A third program is that of Alumni Continuing Education.

Seminar meetings — "refresher-type courses in the liberal arts" — will be held three weekends a year in a resort-type of physical location. The meetings would start on Friday morning and end Saturday noon.

"Continuing education is not a new concept," according to Heimbach. "We've been stressing it for years. The new factor is that it is no longer an intellectual luxury, but a practical necessity."

"Our continuing education programs may not solve our problems,

but we will multiply the probabilities of the successful solutions of our problems."

Somehow, in between banking, Aquatennial and alumni work, Heimbach has managed to be an active member of the Metropolitan YMCA Men's Club (and its former president), the Red Cross and the United Hospital Fund. He also currently is active in the Rotary Club of Minneapolis and the United Fund.

A member and former president of the School of Business Administration Alumni Association, he has worked in behalf of the Minneapolis school system and from 1960 to 1965 served as a board member and officer of the Citizens

Committee on Public Education, a volunteer group supporting the elected school board. In addition, he serves as treasurer of the Minneapolis Junior College committee.

Not surprisingly, people and public service take time. Heimbach considers himself blessed by a bank management that believes community progress is a responsibility shared by business.

"They knew being Aquatennial president would take 50 or 60 per cent of my time for a year and would cost the bank at least several thousand dollars in expenses. But they felt it was a worthwhile

contribution to the city."

Heimbach estimates that for the past 15 years he has spent an average of three to four nights a week fulfilling his responsibilities to organizations. But, he saves his weekends for his family.

Heimbach met his wife when both served as host representatives of their respective high schools during Freshman Week Activities their freshman year at Minnesota. In the family tradition, all three Heimbach daughters have attended the University - Judith graduated this year and twins Jean and Janice will be juniors this fall.

The Heimbach family graces the 1966 Aquatennial parade line-up. Seated in the convertible are Al and Bee, his wife, flanked by his lovely twin daughters, Jean and Janice.

A Rose By Any

Other Name . . .

by mike lyons

Is this the year of the roses for the University of Minnesota football team? A number of sideline observers at Gopher workouts last spring were convinced that it will be just that. Head Coach Murray Warmath and his staff are reluctant to speculate on such potential glories, but the feeling persists that they, too, feel that the upcoming squad could be a highly-successful one.

It would appear that the Gophers cannot help but field a better team than the club which finished fifth in Big Ten play last November. A total of 19 lettermen were lost from that outfit, but eight of them saw little or no action. Of the remaining 11, eight were regulars (four on offense, the same number on defense) and the other three played extensively. Although some of these men were key performers, the numerical losses were not severe.

On the profit side, 28 lettermen, including 14 regulars, return. Add

to this veteran core a sprinkling of talented sophomores, and you have the makings of what could be as potent a combination as any Warmath has fielded since his great teams of 1960-61-62.

Not that the Gophers have an easy task ahead of them. The schedule is not likely to provide many breathers. It includes the defending champions of three conferences — Nebraska of the Big Eight, Southern Methodist of the Southwest and Michigan State of the Big Ten. The latter two contests will be played in Memorial stadium October 7 and 21, respectively. The Cornhusker encounter is slated for Lincoln September 30.

In addition, Purdue, the Rose Bowl champ, is also on the docket — at Lafayette November 11. Both the Spartans and Boilermakers are rated top title contenders in the Big Ten again this season.

The rest of the home schedule

includes Utah in the season's opener (September 23), Michigan (October 28), Indiana (November 18) and Wisconsin (November 25). The remaining two road foes are Illinois (October 14) and Iowa (November 4). Michigan is expected to be tough and both Illinois and Iowa are figured to be considerably improved.

Experience will be provided by 18 offensive and nine defensive lettermen. On attack, the returnees are: Ends Chip Litten and Charley Sanders; tackles Ezell Jones, John Williams, Bob Bedney and Ron Klick; guards Bill Christison, Dick Enderle, Tom Fink, Andy Brown and Bill Laakso; quarterbacks Larry Carlson and Curt Wilson; halfbacks Hubie Bryant, Maurice Forte, Dick Peterson and John Wintermute; fullback Dennis Cornell.

The defensive returnees are ends Del Jessen and Bob Stein; tackles

McKinley Boston and Ron Kamzelski; guard Ed Duren; linebacker Noel Jenke; halfbacks Capt. Tom Sakal and Dennis Hale; safety Gordon (Mike) Condo.

Punting specialist Dave Baldrige also is back.

The leading sophomore prospects are offensive end Ted Burke (6-6½, 236 pounds); centers Anthony (Jim) Pahula (6-1, 224) and Ken Mourer (6-0, 219); quarterback Phil Hagen (6-2, 180); halfbacks Mike Curtis (6-0, 183), Jeff Nygren (6-1½, 204) and George Kemp (6-0, 196); fullbacks Jim Carter (6-3, 215) and Ragland (Rags) Cooper (6-3, 215); defensive guard Bob Bethke (6-0, 220) and defensive end Leon Trawick (6-4, 230).

Some non-lettering returnees also showed considerable improvement last spring — quarterback Ray Stephens, flankerback-end Bobby Lee, linebackers Wayne King and John Darkenwald.

The eight 1966 regulars who do not return are offensive ends Chet Anderson and Ken Last, who holds just about every Gopher pass receiving record; center Chuck Kilian; linebackers Jerry Newsom, Tim Wheeler and Gary Reierson; flankerback Ray Whitlow and defensive halfback Dick Seitz. The three other departed players who saw considerable action are defensive tackle Jerry Hermann, defensive halfback Gene Hatfield and fullback Joe Holmberg. Jerry Bevan and Jim Barle, who combined to do most of the place-kicking, also will be among the missing.

Warmath already has made some personnel switches this year and others may be in the offing. The most noteworthy to date have been Williams' shift from defensive end to offensive tackle and Sanders' move from defensive to offensive end. In addition, Cornell, although still being counted on for duty at fullback, may wind up playing most of his football at linebacker. It has been rumored that Wilson may be converted to a tailback, but this is still in the realm of conjecture.

At present, Wilson is one of four candidates in a wide-open battle for the regular quarterback spot. The others are Carlson, who alternated with Wilson at that position during the 1966 season, Stephens, the brother of Minnesota's 1961 All-American quarterback Sandy Stephens, and the widely-heralded sophomore, Hagen. Stephens failed to letter last fall but performed well in spring practice and appears set to make a real bid for the job this season. Hagen was a sensation in the spring game, completing eight of 12 passes for 229 yards and four touchdowns.

Whoever wins the quarterback spot, he will have plenty of fleet targets operating from the flankerback position. Bryant, who also was extremely effective on reverse plays last fall, is back and will be joined by Curtis and Lee. Nygren can play flanker, too, but may be tabbed for defensive duty instead. Other capable receivers are ends Litten, Sanders and Burke.

There will be plenty of running backs, too. Tailbacks include veterans Peterson, Wintermute and Forte and sophomore Kemp. At fullback, newcomer Carter is considered the best fullback prospect in memory. It appears that he will be joined at that position by still another sophomore, Cooper, who is expected to be shifted from tailback. Cornell, last season's regular, will be available for offensive duty if needed.

It is not often that a junior who played only two games as a sophomore is heralded as a candidate for all-star honors, but the Gophers' Bob Stein is an exceptional case and is very much in the running for such recognition. His limited action last year was not due to lack of ability. Illness and injury were the culprits. Stein is now sound again after knee surgery last winter. Despite his brief playing time, he tied for third in the Big Ten in number of tackles for a loss in 1966. He is expected to pair at defensive end with either Jessen or highly-respected sophomore Trawick.

The defensive secondary should be strong with Sakal and Condo

back for a third season at the regular right half and safety spots, respectively, and Hale set at left half. Sakal is expected to be one of the top defensive backs in the Conference.

Minnesota will have plenty of beef up front, thanks in large part to a new weightlifting program which has paid handsome dividends. With such behemoths as tackles Williams (6-2, 253 pounds) and Jones (6-4, 245) in the offensive line and guard Ed Duren (6-1, 238) and tackle Kamzelski (6-3, 245) in the defensive forward wall, opposing linemen and ball carriers will be faced with some formidable obstacles.

A number of players will return to action this fall after missing all or most of spring drills due to injuries. This list includes Peterson and Enderle, both recovered from shoulder operations; Steve Lundeen and Tom Williams, non-lettering juniors who underwent back surgery; Wintermute and sophomore end candidate Bill Triscila, knee-injury victims. In addition, Bryant passed up spring football to participate in track and Baldrige was out for baseball.

There are some problem spots, especially offensive center and linebacker. Lundeen is the only returnee at center with any experience. Sophomores Pahula and Mourer have promise, however. Experience also is a rare commodity at linebacker where only Jenke lettered a year ago, but King, Darkenwald and Cornell have the makings of good defenders at that position. In addition, the Gophers are a bit thin at the end positions, both offensively and defensively, and must come up with better and more consistent blocking in the offensive line than was the case last year.

It is a bit early, as well as risky, to predict titles and Rose Bowl visits, as some bold soothsayers have done, but it does seem safe to say that the 1967 Gophers of Minnesota are going to provide a great deal of excitement and will be difficult for any of their foes to handle.

ALBERT H. HEIMBACH '42BBA
New Alumni Association President

JAMES A. WATSON '42BA
Selected for second vice president

WALLACE L. BOSS '28BSBus
Elected to treasurer's post

KENNETH C. GLASER '42BBA
Advances to first vice president

FLORENCE M. LEHMANN '23BA
Becomes secretary of the board

WALDO E. HARDELL '26BSBus
Assumes past president status

An alumnus who has deep roots in the University of Minnesota has been elected president of the Minnesota Alumni Association for the one-year term beginning July 1. He is Albert H. Heimbach '42BBA, vice president of Farmers and Mechanics Savings Bank, Minneapolis.

Heimbach, first vice president during 1966-67 and a past president of the School of Business Administration Alumni Association, succeeds Waldo E. Hardell '26BSBus, president of the Charles W. Sexton Company, Minneapolis.

In addition, two vice presidents, a secretary, treasurer and six other

members join Heimbach and Hardell on the Executive Committee, and seven new members join the Board of Directors, governing body of the 24,000-member Association.

Becoming first vice president is Kenneth C. Glaser '42BBA, owner and president, Lend Lease Transportation Company, Minneapolis.

Glaser, also a past president of the School of Business Administration Alumni Association, served as president of Beta Alpha Psi Fraternity while attending the University, and in 1942 was recipient of the Tomato Can Service Award. In 1959 he received the Certificate of Merit in recognition of distinguished service to the School of Business Administration, the first alumnus so honored. As part of his duties this year, he will serve as chairman of the Alumni Club House Committee.

The new second vice president is James A. Watson '42BA, president of the board of directors of Red Owl Stores, Inc., since 1963. A psychology major at the University of Minnesota, he served as a captain in the Air Force from 1942 to 1946 when he joined the Red Owl Company as supervisor of personnel. He became an officer in 1955 and in 1957 was appointed vice president in charge of retail operations. Active in the Minnesota Retail Federation, he has served as director, president and chairman of the board of that organization.

The new secretary is Florence Lehmann '23BA. A native of St. Paul, for 25 years she operated her own public relations consulting service specializing in civic and social welfare accounts. She served for six years as executive director of the Minnesota Association for Mental Health and has been elected to the Minneapolis School Board four times, serving as the Board's president, treasurer and secretary. She is a member of the board and past president of the Minnesota School Boards Association, is a long-time member of the Citizens Committee on Public Education and helped organize the Citizens League of Greater Minneapolis.

Wallace L. Boss '28BSBus will serve as 1967-68 MAA treasurer. Boss, a former member of the School of Business Administration Alumni Association, is vice president of The First National Bank of St. Paul. He has been in the banking business since 1921 and professional affiliations include membership on the executive committee of

the Minnesota Bankers Association 1948-51, vice president from 1952-53 and president from 1953-54. From 1954-57 he also served as a member of the executive council of the American Bankers Association. Organizations include past treasurer of the U.S. and St. Paul Junior Chambers of Commerce, past chairman of the St. Paul Open Golf Tournament, past director of Saintpaulites, Inc., past regional manager of the Minnesota War Finance Committee, past campaign chairman for the Minnesota Division of the American Cancer Society and King Boreas XX of the St. Paul Winter Carnival.

Members of the Executive Committee, in addition to the officers, are:

Dreng Bjornaraa '30BA, Midwest director of public relations for United States Steel Corporation, St. Paul. Prior to attending the University he was editor of the Thief River Falls *Times* for five years. From 1933-48 he was in federal service, his last position being that of deputy regional director and Minnesota director of the War Manpower Commission from 1942-48. He is the author of a book, articles and pamphlets in the field of employment and youth counseling.

Charles W. Britzius '33BCE '38-MSCE is president of the Institute of Technology Alumni Association. Britzius is president of Twin City Testing and Engineering Laboratory in St. Paul, a firm he founded in 1938. Active in Theta Tau Fraternity, he has served as its national treasurer and national grand vice regent. He is a member and past president of the St. Paul Engineers Society and Minnesota Society of Professional Engineers, member of the Minnesota Association of Consulting Engineers, Minneapolis Engineers Club and the American Society of Civil Engineers.

Harry Heltzer '33 MetE, immediate past president of the Institute of Technology Alumni Association, is president of Minnesota Mining

& Manufacturing Company and a 1966 recipient of the University's Outstanding Achievement Award. He joined 3M as a factory worker following graduation, later became a salesman and in 1943 transferred to production. In 1952 he was named head of the reflective products division, became vice president in 1959, corporate vice president in 1961 and group vice president in 1963. He became a director in 1965 and president last year.

Oscar R. Knutson '27LLB is chief justice of the Supreme Court of Minnesota. Following graduation from the University, he entered private practice until he was appointed to the district bench in 1941. He was elected to the bench in 1942, and in 1948 resigned to accept appointment as associate justice of the Supreme Court. He was elected in 1948, 1954 and 1960. He resigned that position to accept appointment as chief justice in 1963 and was elected to that position the following year. He also is a recipient of the Outstanding Achievement Award.

Otto Quale '40BA is vice president, sales, for the publications division of Josten's, Inc., Owatonna, Minnesota. He previously served as advertising manager for several Minnesota newspapers, and was a member of the University's School of Journalism faculty from 1947-50. A member of the Steele County Alumni Association Chapter, he recently was elected to the Bishop and Council of the Minnesota Diocese of the Episcopal Church.

Howard F. Woo '27BA '31BArch is former owner of John's Place, a Minneapolis restaurant. He is past manager of the Minneapolis Restaurant Association and a member of numerous state and national trade associations. During World War II he was a product engineer at Twin City Ordnance Plant and later served as chief draftsman at the Maico Company. He then formed his own company, practiced industrial design for 12 years and was elected to membership in the American Society of Industrial Engineers.

Seven New Members Take Board Seats

Five new members from a slate of ten candidates have been seated on the MAA's Board of Directors as a result of the spring election.

The Board is elected annually by those alumni who are members of the Association. Ballots are distributed through the *ALUMNI NEWS* in April and May of each year, and the results are announced at the annual meeting in June.

Three of the newly-elected Board members also were named to the MAA Executive Committee (see story on page 18). They are *Harry Heltzer* '33MetE, president of Minnesota Mining & Manufacturing Company, St. Paul; *Oscar R. Knutson* '27LLB, chief justice of the Supreme Court of Minnesota; and *Howard F. Woo* '27BA '31BArch, former owner and manager of John's Place, Minneapolis restaurant.

In addition, the following new members were elected to four-year terms on the board:

Jeannette Ridlon Piccard '42PhD who, since 1964, has served as a consultant to Robert R. Gilruth, director of the National Aeronautics and Space Administration's Manned Spacecraft Center in Houston, Texas. A pioneer in aeronautics and aerospace research, she was the first American woman to be granted a Federation Aeronautique Internationale spherical free balloon pilot's license. In 1956 she was named Minnesota's Woman of Distinction and was the first recipient of the W. Randolph Lovelace II Award from the American Astronautical Society for significant contributions to space technology. In June 1966 she became the first woman of professorial status at Texas A & M University as a visiting professor, and during 1966-67 is serving as president of the Twin City Chapter of the American Meteorological Association.

Dr. Sheldon M. Lagaard '41BS '43MB '43MD, who has been in orthopedic surgery practice in Minneapolis since 1957. Following mil-

ANDERSON '27BA '30LLB

itary service from 1944-46, he was in general practice in Minneapolis for seven years, followed by additional residency training in orthopedic surgery from 1954-57. He belongs to four private hospital staffs in Minneapolis, in addition to Hennepin County General Hospital and Gillette State Hospital for Crippled Children, and serves as a clinical assistant professor in the Medical School. From 1948-63 he served on the board of directors of the Medical Alumni Association, and as president in 1962. He is a member of the "M" Club and civic activities has included work with the PTA, United Fund and Republican Party.

The by-laws of the MAA permit the board of directors to appoint six at-large members in order that

GOSS '15BA

proper geographical balance can be maintained. Appointed to three-year terms were:

Carl M. Anderson '27BA '30LLB, secretary of Merck & Company, Inc., Rahway, New Jersey. Anderson, who is president of The Merck Foundation, has been an executive of the pharmaceutical and chemical firm for 33 years. Former president of the Minnesota Alumni Association of New York, in January 1966 he was elected treasurer of the 3-, 200,000-member Lutheran Church in America. A member of Phi Beta Kappa and Iron Wedge, fraternity membership also include Theta Delta Chi, Phi Delta Phi and Phi Sigma Phi. He also is a member of the American, New York State and New York City Bar Associations.

Dixie Ingersoll Goss '15BA,

LAGAARD '43MD

PICCARD '42PhD

Cleveland, Ohio. Following graduation, Mrs. Goss taught two years in Puerto Rico and worked briefly in New York before serving with the Red Cross in France in 1918. Following her marriage in 1919, Mrs. Goss did post-graduate study, taught and led an adult class in current events and foreign affairs. Activities have included the PTA, Federated Women's Clubs, Women's Overseas League, Council on World Affairs, League of Women Voters and Women's City Club. In addition to her other activities, Mrs. Goss also farms in Georgia, where she raises horses, dogs, corn, cotton and peanuts.

A total of 481 ballots were cast in the election.

Med Tech Alumni Meet September 30

The First Annual Meeting of the Division of Medical Technology Alumni Association will be held Saturday, September 30, in the Campus Club, Coffman Memorial Union.

A social hour starting at 11:30 A.M. will be followed by luncheon at 12:00

Speakers at this first meeting will include John H. Westerman '54LLB '58BBA '60MHA, director of University Hospitals; Patricia Bordewich '52BS '62MS, president of the Division of Medical Technology Alumni Association; Ruth F. Hovde, director of the division of Medical technology; and Verna Rausch, past president of the ASMT.

Tickets, at \$2.50 per person, are available from the Division of Medical Technology Alumni Association, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455. Reservations must be received by Thursday, September 28.

Winona Elects Backus

LeRoy Backus '28BA has been elected president, Miss H. A. Seiz '33BS, vice president, and Mildred Kjome, secretary-treasurer of the Minnesota Alumni Chapter of Winona, Minnesota.

Alumni Role Cited

Shortly after the resignation of President O. Meredith Wilson in September 1966, the Board of Regents asked the Alumni Association to appoint an Alumni Selection Committee to aid and assist them in obtaining his successor. After carefully reviewing a sizable list of eligible alumni to serve on this Selection Committee, the following were approved by the Board of Regents:

Dreng Bjornaraa '30BA, MAA Executive Committee member and Midwest director of public relations for United States Steel; Kenneth C. Glaser '42BBA, MAA second vice president and owner and president of Lend Lease Transportation Company; Edwin L. Haislet '31BSEd, MAA executive director; Waldo E. Hardell '26BSBus, MAA president and president of Charles W. Sexton Company; Albert H. Heimbach '42BBA, MAA first vice president and vice president, Farmers & Mechanics Savings Bank; Harry Heltzer '33MetE, MAA Executive Committee member and president of Minnesota Mining & Manufacturing Company; Hibbert M. Hill '23BSCE, MAA past president and retired vice president of Northern States Power Company; James A. Watson '42BA, MAA Executive Committee member and president of Red Owl Stores, Inc.

During the Committee's efforts, the Minnesota Student Association requested recognition from the Board of Regents Selection Committee in an effort to evaluate the student body's attitude toward potential candidates. After carefully considering all the suggested candidates for the Student Committee, it was agreed that the Minnesota Alumni Association and student representatives join forces in a special "Alumni-Student President's Selection Committee" and the following students were added:

Howard L. Kaibel, president of the Minnesota Student Association and a College of Liberal Arts senior, William P. Edwards, third year graduate student; Alan W. Weinblatt, senior law student.

The entire committee worked secretly and without the knowledge of the public or the press, confining its communications to the Regents Selection Committee.

In discussing the role of the Committee, Hardell says "we are very proud to have been a part of the Regents-Faculty-Alumni-Student team. We had the privilege of calling upon the first University of Minnesota alumnus to become its new president and we all join in wishing Dr. Malcolm Moos and the University our sincerest best wishes."

"Your committee, composed of alumni and students, was an immeasurable help to the Regents Nominating Committee" wrote Honorable Lester Malkerson, chairman of the Board of Regents and a member of its Nominating Committee. "Your guidance, advice, and counsel was eagerly sought.

"The Board of Regents of the University of Minnesota wishes to thank you and your committee for your untiring efforts in the selection of our new President.

"The University of Minnesota is particularly fortunate and proud of having an alumnus of the stature of Dr. Malcolm Moos as its new President."

Other members of the Regents' Committee were Honorable Elmer L. Andersen '31BBA, Honorable Daniel C. Gainey, Honorable Marjorie J. Howard '24BA, Honorable Fred J. Hughes '34LLB, Honorable Charles W. Mayo '31MSSurg and Honorable Otto A. Silha '40BA.

THE UNIVERSITY

Sunday Seminars Planned; Alumni Club Plays Host

For years, Men's Seminars at the University have been conducted in the manner of the Englishman's club. Participants have met in the privacy of the Campus Club, first for a social hour, then a light buffet, and, finally, to settle down for serious discussion of such topics as U.S. foreign policy or the problems of freedom in contemporary society.

Participants in the Men's Seminars generally have formed a homogenous group. Characteristically, they have been busy professionals who lack the time or inclination to commit themselves to a formal University course in an area outside their particular field.

Furthermore, the groups have been marked by an absence of women.

The invitation to women to attend a Men's Seminar finally has been extended and interested wives—and business and professional women—will have a chance to accept it with good grace this fall. The program will be called "Sunday Seminar for Men and Women."

Topic for the seminar is "Urban Upheaval: Problems, Politics and Prospects." The same informal format which has proven so successful for the Men's Seminars again will be used. This fall the Seminar will meet at the Minnesota Alumni Club in the Sheraton-Ritz Hotel, downtown Minneapolis.

The Seminars will meet on seven alternate Sundays beginning September 24 and concluding December 17. The social hour will begin at 4:00 P.M., a buffet dinner will follow and a lecture and discussion session will end the program. The seminar will conclude at 8:30 P.M. Cost, not including meals, is \$50 per person for the seven Seminars.

University faculty members who have a special interest in urban af-

fairs will deliver the opening lectures and lead the discussions.

The introductory session on September 24 will concentrate on the development of urbanism, including the problems and the geographic patterns of cities. John R. Borchert, professor of geography and a speaker at previous Men's Seminars, will be the featured faculty member for that evening.

The second program on October 8, "The Shape of the City—An Architect's View," will be conducted by Hosni Iskander, assistant professor of architecture and a member of the Experimental City staff.

Edward Foster, associate professor of economics, will lead the session on November 5 on "Economics and the City."

Another popular speaker at previous seminars, David Cooperman, professor and head of the University's social science program, will lead the November 19 session on "Minority Problems and Community Action."

Urban crime—causes and possible solutions—will be discussed December 3. David Ward, the featured speaker, is an associate professor of sociology and teaches courses in criminology.

The final program on "City Government and Politics" will be held December 17. Thomas Scott, assistant professor of political science, will lead the discussion. Scott, a member of the Governor's Crime Commission, has done research and teaches courses about power systems.

Enrollment for the Urban Upheaval Sunday Seminar will be limited. To register, or for further information, contact the Department of Special Courses, Nolte Center for Continuing Education, University of Minnesota, Minneapolis 55455, or call 373-5166.

Pickrel Takes Leave, Replaced by Abraham

Luther J. Pickrel, director of the Agricultural Extension Service since 1964, has been granted a leave for 1969-68. He will carry out a special investigation of the impact of federal research funding on the University, conducted in cooperation with the Graduate School.

Roland H. Abraham has been named acting director. He has been associate director of the Agricultural Extension Service for the past five years and was acting director in 1964.

Three Named All-Big Ten

Third-place Minnesota landed three berths, one more than the repeating champion Ohio State, on the 1967 All-Big Ten Baseball Team named by conference coaches.

Fourth-place Wisconsin, like Ohio State, won two berths and one each went to Michigan State, Indiana and runnerup Michigan.

Minnesota's Bob Fenwick, lone repeater from 1966, made the rare switch from all-star outfielder last season to all-star shortstop this season. Other Gophers named were first baseman Dennis Zacho and catcher Mike Sadek.

Elected to Board

Bernard H. Ridder, Jr., publisher of the St. Paul *Dispatch* and *Pioneer Press*, the Duluth *Herald* and *News-Tribune* and the Gary, Indiana, *Post-Tribune* has been elected to the board of trustees of the University of Minnesota Foundation. His election brings the total membership of the board to 27.

Forestry School Announces Changes

Changes in the organization and administration of the School of Forestry have been announced by the School's director, Frank H. Kaufert.

Organizational changes include the creation of three divisions: forest resources development, forest biology and forest products. The School's Forest Research Center at Cloquet will function as a fourth division under the direction of Bruce A. Brown, superintendent.

Administrative changes include the appointment of Professor Richard Skok to assistant director of the School, and the appointment of Associate Professor Kenneth E. Winsness to assistant to the director for undergraduate education programs.

The School of Forestry was established in 1903 and is one of 30 accredited forestry schools in the United States. At present, there

are about 500 students enrolled, including about 65 who are engaged in graduate study and research.

\$6 Million Bequest Left to University

A St. Paul woman's bequest of \$6 million in stocks to the University has been upheld in St. Paul Federal Court. The bequest by Mrs. Olive Whiting Stone who died last August, had been challenged.

Terms of the bequest specified one-third to the Board of Regents to establish a Royal A. Stone Memorial Fund for law students, and two-thirds to establish the Royal A. and Olive W. Stone Memorial Fund for research evenly divided between heart disease and cancer. The money will be channeled by the Minnesota Medical Foundation.

Laurence R. Lunden, vice president for business administration, called the bequest "by far the largest" by an individual in the University's history.

Six Faculty Receive Standard Oil Awards

Six faculty members were given special recognition in the annual Cap and Gown Day ceremonies when they were named as the first recipients of the Standard Oil (Indiana) Foundation-Horace T. Morse Awards.

Each of the six received a University citation and a \$1,000 grant provided by the Standard Oil (Indiana) Foundation. The recipients were selected and cited by the All-University Council on Liberal Education.

The awards, in recognition to outstanding contributions to undergraduate education, were presented to A. B. Baker, professor of neurology; Orval T. Driggs, Jr., associate professor of history; Roxana R. Ford, professor of home economics education; George H. McCune, professor of social studies; William A. McDonald, professor of classics; and John S. Myers, professor of architecture.

When You Join The Minnesota Alumni Association . . .

You can qualify for
\$10,000 Group Life Insurance

If you are a member of the Minnesota Alumni Association this low cost Group Life Insurance is available to you. As little as seven cents a day will provide \$10,000 of life insurance protection if you are under age 25. If you are between the ages of 40 and 45, the same protection may be provided for as little as 20 cents a day. Find out about the MAA Group Life Insurance Program today. Write or phone inquiries to:

To Leave University

ATHELSTAN SPILHAUS, professor of geophysics and former dean of the Institute of Technology, has been appointed president of the Franklin Institute, Philadelphia. Spilhaus, who has been on the University faculty nearly 18 years, will leave Minnesota to accept the presidency next month. One of the best-known current projects in which he is involved is the Experimental City, which calls for a new city utilizing the latest technological knowledge to be built from scratch somewhere in Minnesota. Federal planning funds have been granted to the University for this research project, and major Minnesota business firms have contributed to it. Spilhaus will remain active as a consultant for the project and as chairman of its steering committee.

Forty-Two Receive Williams Scholarships

Forty-two student-athletes in nine varsity sports have received Henry L. Williams Scholarships for the 1967-68 academic year. The scholarships total \$37,773.25.

To be eligible for Williams Scholarship assistance, a student-athlete must have a grade point average of 2.8 or better for the full preceding year, or a cumulative grade point average of 2.8 or better for all academic work completed at the University. (C is 2).

SEPTEMBER, 1967

Fund Contributor Listed

Alumni contributors to the Minnesota Alumni Fund whose names were inadvertently omitted in the 1966 Honor Roll of Contributors, include:
Kenneth J. LaBudde, Kansas City, Missouri

Assistant VP

FRED E. LUKERMANN JR., professor of geography, has been named assistant vice president for academic administration. Among the duties of his new position, Lukermann will serve as acting director of the Center for Urban and Regional Affairs and, also, will be responsible for developing a pilot project for coordinated extension and continuing-education work.

Takes Cornell Post

DR. C. WALTON LILLEHEI '39BS '41MB '42MD '51MS '51PhD, famed University heart surgeon, has been named Lewis Atterbury Stimson Professor of Surgery at Cornell University Medical College in New York City. He also will be chairman of the department of surgery in the New York Hospital-Cornel Medical Center and surgeon-in-chief of the New York Hospital. Dr. Lillehei is professor of surgery at Minnesota, where he conducted his pioneering work in open-heart surgery. His appointment at Cornell will take effect on November 1. It was at Minnesota in 1955 that Dr. Lillehei developed a blood pump and oxygenator.

DULUTH

Ralph W. Marsden, manager of geological investigations-iron ore for U.S. Steel Corporation, Pittsburgh, has been named **professor and head of the department of geology**. . . . Norman G. Laws of Henry Ford Community College in Dearborn, Michigan, has been appointed assistant professor and head of the department of industrial education. . . . **Ivan Nylander, first language teacher at Duluth State Teachers College** who headed that department for 33 years, retired last June. . . . Twelve UMD faculty members have been granted leaves or furloughs for the 1967-68 academic year. . . . **The \$200,000 Marshall W. Alworth Planetarium was dedicated last June**. . . . Major Richard E. Snyder has been named professor of aerospace studies.

Twenty-four elementary teachers from 13 states have been named to attend UMD's **Experienced Teacher Fellowship Program during 1967-68**. The program is financed by a \$184,000 U.S. Office of Education grant. . . . John B. Carlson, professor of biology, has received a **\$21,213 grant from the U.S. Department of Agriculture** to compile literature on soybean research. . . . Thirty secondary school teachers from 12 states attended the six-week UMD Institute in Geography, funded by the National Defense Education Act. . . . **Fourteen new appointments to the faculty have been made by the University Board of Regents**. . . . Roland Lovstad '67BA, formerly of Esko, Minnesota, has been named a senior informational representative in the UMD News Service.

ST. PAUL

Paul B. Addis, assistant professor of food science and industry, has been **selected as a Fulbright Scholar by the U.S. State Department**. He will conduct research in the field of food science at the Max

Planck Institute, Marianne, Germany. . . . Theodore S. Weir, associate professor of horticultural science and assistant superintendent of Minnesota's Fruit Breeding Farm, retired July 1. . . . George Rossman, a Minnesota Publisher, and Norris K. Carnes '17BSAg, general manager of the Central Livestock Association, have been **elected to the Institute of Agriculture Advisory Council**. . . . Philip W. Manson, professor of agricultural engineering, recently received the Hancock Brick and Drainage Engineering Award from the American Society of Agricultural Engineers.

Robert Megraw '67PhDFor, has been named winner of the \$500 Wood Award Contest on the basis of his thesis, "A Hydrodynamic Particulate Approach to Measuring Pore Size in Wood". . . . Roxana Ford, professor of home economics education, has been named associate director of the School of Home Economics and Lois Lund, associate professor of foods, has been named assistant director of the School. . . . **Leonard B. Hertz has been named associate professor and extension horticulturist** in charge of the agricultural extension program in commercial and home fruit production. . . . The Commercial Flower Growers' Short Course will be held Tuesday, September 19. . . . **A \$12,000 grant from the Office of International Programs** will enable the School of Home Economics to develop special workshops and seminars for staff members in a program called "Home economics inter-cultural-international involvement. . . . Dale N. Moss, formerly with the Connecticut Agricultural Experiment Station, **has been named professor of agronomy and plant genetics**.

MINNEAPOLIS

Professor Harold W. Stevenson, director of the Institute of Child Development, has been named

president-elect of the Society for Research in Child Development. . . . John E. Stecklein, director of the Bureau of International Research, recently **received the first research award plaque given by the Association for Institutional Research**. . . . Ralph Rapson, head of the architecture department, recently won the \$15,000 second prize in competition to design a \$25 million civic center complex for Birmingham, Alabama. . . . **Paul V. Grambsch, dean of the School of Business Administration**, has been elected secretary-treasurer of the American Association of Collegiate Schools of Business. . . . The University will receive a **\$409,200 federal grant for its research program on cosmic rays, astrophysics and energetic particles in space**.

John Helling '57MA '63PhD, professor of education administration, has been named dean of the new North Hennepin Junior College in suburban Minneapolis. . . . **Dr. William D. Kelley, professor of surgery** who earlier this year helped pioneer in kidney and pancreas transplants, is leaving the University to enter private practice in Minneapolis. . . . Frank B. Wilderson, associate professor of special education, has been **named to a 12-member national advisory committee on handicapped children**. . . . Carl Nelson, former assistant program director for Coffman Memorial Union, has been appointed West Bank Union director. . . . **Some 3,775 graduate and undergraduate students** received diplomas in June commencement exercises.

James F. Koerner, associate professor of biochemistry, and Dr. James H. Moller, assistant professor of pediatrics, were named **1967 winners of the Minnesota Medical Foundation Distinguished Faculty Teaching Awards**. . . . Gerhard H. Weiss, professor of German, has been named associate dean for hu-

manities and fine arts in the College of Liberal Arts. Weiss, who will serve a three-year term, succeeds John D. Hurrell, who will resume his previous position as a professor of English. . . . **Two professors have been reappointed to the state board of examiners in the basic sciences.** They are Dr. John A. Johnson, professor of physiology and new board president, and Dr. Raymond N. Bieter, professor of pharmacology and new board secretary-treasurer. Both will serve six-year terms. . . . C. Arthur Williams Jr., professor of economics and insurance, has been elected president of the State Capitol Credit Union.

Sheila McNally, associate professor of art history, will be principle investigator in a three-year archaeological project entitled "University of Minnesota Archaeological Program in Yugoslavia: Excavation of Diocletian's Palace at Split." A \$26,714 Smithsonian Institute grant will finance the first year's excavation, which Miss McNally hopes to begin next summer, and further grants will be requested as the work proceeds. **She will be assisted by four University graduate students** the first year and by 10 the next two years. . . . The arts and humanities section of the National University Extension Association **has presented its 1967 Creative Programming Award to the General Extension Division.** The Extension Division, and particularly the Division's program of neighborhood seminars, was in competition with 122 institutions for the award.

Professor Edward Silberman, director of St. Anthony Falls Hydraulic Laboratory, **has been awarded a NATO senior fellowship in science by the National Science Foundation.** He spent a portion of the summer visiting European hydraulic laboratories to study and observe their research on stratified flows. . . . **O. Meredith Wilson, former president of the University,** received an honorary doctor of humanities degree from North Dakota State University during its June commencement exercises. . . . Arnold M. Rose, professor of soci-

ology, **will head the 11,000-member American Sociological Association in 1968.** Rose has recently returned from a year's research work in Europe, where he was one of five University faculty members engaged in a study of the problems of integration across national lines. . . . **Dr. Michael M. Paparella has been appointed head of the department of otolaryngology.** Dr. Paparella, 34, was assistant professor and director of the otological research laboratory at Ohio State University for three years before he came to Minnesota last April as a professor of otolaryngology.

Professor James W. Stephan, associate director of the program in hospital administration, and **Dr. John G. Mayne,** instructor in internal medicine at the Mayo Graduate School of Medicine, have been **appointed to the 14-member National Advisory Committee on Hospital Effectiveness** by John W. Gardner, secretary of health, education and welfare. . . . Robert Townswick has been named to the newly-created position of promotions and productions manager of the University's department of concerts and lectures. . . . **I. M. Koltzoff, professor emeritus of analytical chemistry,** has been elected an honorary member of the National Academy of Pharmaceutical Sciences.

The 1967 Supplement to the Educational Resources Bulletin, containing an up-to-date listing of 16 mm films and pre-recorded tapes for rental use, is available free to institutions and other organizations from the Audio-Visual Extension Service, 2037 University Avenue S.E., Minneapolis 55455. . . . **Charles H. Mannel '59BSUMD '66MA,** UMD placement coordinator since 1966, **has assumed the position of director of placement** for the School of Business Administration. In addition to his work in student placement, he also will direct alumni relations work for the school, according to Nicholas A. Glaskowsky Jr., associate dean for administration. . . . **The University has received an unrestricted grant of \$5,000 from Research to Prevent Blindness,**

Inc., for the intensification of eye research in the department of ophthalmology. Since 1960 the University has received a total of \$40,000 in unrestricted grants from the organization.

A medical research grant of \$17,470 has been made to the University for investigation into the nature of blood flow in tissues. The grant was from the John A. Hartford Foundation, Inc., New York. Dr. John P. Delaney, assistant professor of surgery, will conduct the research, which is aimed at developing a better understanding of the capillary blood flow system. . . . **Professor Thomas Anding, executive director of the Upper Midwest Research and Development Council,** will be one of 15 faculty members from leading Midwestern universities who will build a plan for attacking water-source problems in the Great Lakes area. The problem is being studied under a **grant of \$27,100 from the Office of Water Resources Research** of the U.S. Department of the Interior.

Robert Lindsay, associate professor of journalism, has been named a **1967 Fellow of the Foundation for Public Relations Research and Education.** He received a fellowship from the same foundation in 1959. . . . Karen Hegener, 20, was crowned Minneapolis Queen of the Lakes during the Minneapolis Aquatennial. Miss Hegener was Miss E-Day at the University last spring. . . . Dr. Titus Evans, professor and head of radiation research at the State University of Iowa, **recently delivered the Ethel N. Ruvelson Lecture at the University Medical Center.** The lecture was sponsored by the Radiobiophysical Group at the University and funds were donated by Alan K. Ruvelson, Minneapolis businessman. . . . **Richard E. Sieber, assistant professor of music,** recently was selected to fill the newly-created position of coordinator of continuing music education.

Dr. Robert Mulhausen '64MS-Med, assistant chief of medicine at Veterans Hospital, Minneapolis, has been named **assistant dean of the College of Medical Sciences.**

Named Dean

ALFRED L. VAUGHAN '35PhD, who served as acting dean of the General College for more than a year, has been named dean. He was associate dean from 1955 until June 1966, when he was named acting dean following the death of Dean Horace T. Morse. He previously was assistant dean, from 1946 to 1955.

Eldon Mason Receives OAA

A University alumnus who developed the American Red Cross Leadership Training Center system received the University's Outstanding Achievement Award on Wednesday, May 31, at the annual "M" Club dinner in Coffman Memorial Union.

Receiving the award was Eldon Mason '27BA '37MA, Minneapolis, director of Red Cross Youth for the Minneapolis and Hennepin County Red Cross Chapter.

A native of Minneapolis, he earned seven varsity letters at Minnesota in football, basketball and baseball. He has been director of Junior Red Cross in the Midwestern area and the North Atlantic area; deputy director of Junior Red Cross at the national headquarters in Washington, D.C., and director of Red Cross Youth for the European area, with headquarters in Stuttgart, Germany. He has been in Red Cross youth work since 1942.

Dr. Wainstock Heads Greater Detroit Club

Dr. Michael Wainstock '40MB '41MD has been elected president of the University of Minnesota Alumni Chapter of Greater Detroit.

Other officers for the coming year are Harold Rosen '42LLB, vice president; Earl Brain, treasurer; Mrs. Charles Amann, recording secretary; and Everett McGill '44BBA, corresponding secretary.

Directors are Mrs. Howard Green '30BSED and Mrs. Nicholas Kenjoski '40BSHE, one year terms; John Costello '40BBA and Mrs. Jean Page, two year terms; Harold Melin and Clifford Merriott '48BA, three year terms.

Werntz Named Center Director

James H. Werntz, associate professor of physics, has been appointed director of the University's Center for Curriculum Studies. He also is acting director of the Minnesota School Mathematics and Science Center and director of the project for the development of the mathematics and science curriculum.

The Center for Curriculum Studies, which is housed in the Physics building, will facilitate and coordinate University research and development projects sponsored by the University for aiding the development of elementary and secondary school programs.

Scholarships in Banking and Finance are Available

The University National Bank has established a scholarship fund to encourage capable students to enter the field of banking and finance. The bank will provide \$1,000 in two grants of \$500 each every spring for an indefinite number of years. A new scholarship will be awarded each year to a student entering his junior year. The student who wins the award for his junior year will, in all probability, if academic standard is maintained, receive the grant for his senior year. Recipients will be selected on a basis of academic ability by a committee of faculty from the School of Business Administration. If you are interested in this scholarship or know of a candidate, contact Russell Stotesbery, president of the University National Bank or the Bureau of Student Loans and Scholarships, University of Minnesota, for further information on how to make application.

ALUMNI NEWS

THE ALUMNI

Irene Kreidberg to Receive Outstanding Achievement Award

Irene D. Kreidberg '30BBA, group supervisor, special services division of UNIVAC, will receive the University's Outstanding Achievement Award on Saturday, September 30, at the annual Honors Meeting-Minnesota Alumnae Club.

Miss Kreidberg will receive the award at the luncheon meeting of the group at Midland Hills Country Club, 2001 Fulham Street, St. Paul. It will be presented by William G. Shepherd, vice president for academic administration.

Miss Kreidberg, who joined the Remington Rand division of the Sperry Rand Corporation in 1930 as secretary to the regional manager, became Minneapolis branch office manager in 1932, a position she held until 1964.

She is a member of the Minnesota Advisory Council on Vocational Education, Administrative Management Society, Chamber of Commerce, National Secretary Association and since 1964 has served as president of the business and professional division of the Womens Association for the Minneapolis Symphony Orchestra.

Following presentation of the award, there will be a panel discussion on "How Can Women Achieve in Business in the Upper Midwest Area?" Panel participants are Gwen Harvey, director of womens' activities and public service for WCCO-TV; Mrs. Lucille Lowmiller, assistant vice president of Marquette National Bank, Minneapolis; Mrs. Gretchen Pracht, vice president of Lutheran Brotherhood. Panel moderator will be Margaret Mull, chief of the Minneapolis Central Library and a officer of the Alumnae Club.

Afternoon activities will begin with a social hour at noon, followed by luncheon at 1:00 P.M. Luncheon tickets, including gratuity, are \$3.00 per person and may be purchased through the Minnesota Alumnae Club, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455. All alumnae and friends are invited to attend.

Dr. Hartnagel Elected

Officers of the Red Wing, Minnesota, Chapter of the Minnesota Alumni Association are Dr. Grant Hartnagel '37MD, president; J. P. Lantz '58BA, vice president; and Mrs. Kenneth Johnson '40BSHE, secretary-treasurer. Board members for 1967-68 are William L. Christiansen '58BA, Dr. R. A. Hewitt '59DDS, Dr. R. I. Skyberg '59DDS, David L. Schliep '64BA, Arnold Vogel, Mrs. G. E. Jackish '55BSEd and Helen Bell '53BSEd, ex officio.

Gopher Football Fans

If you are planing to go to any or all of the out-of-town football games, there is a special Gopher Fan Charter for each game. It's a great group and lots of fun. For information, call R. K. Pillsbury, 332-7111.

Margaret Arnason Elected Alumni Head

Margaret Fenske Arnason '54-BSHE, Minneapolis, has been elected 1967-68 president of the College of Agriculture, Forestry and Home Economics Alumni Association.

Other officers for the coming year are William H. Ziemer '48BSFor '55BBA, vice president, and Russell Stansfield '49BSAg, secretary-treasurer.

Board members and term expirations are Denis O. Bakke '58BSFor and Mrs. Arnason, 1968; Ziemer, Jack Morris '58BSAg and Ruth Hathaway Jewson '53BSHEEd, 1969; Stansfield, Edward J. Plante '48BSFor and Mrs. Donna Meland '50BSHEEd, 1970; Mrs. Evelyn Dose '42BSHE, H. Douglas Johnson '61BSAg and David B. King '38BSFor, 1971.

Immediate past presidents is Ray Mykleby '41BSAg.

Charles L. Horn Honored at Law Recognition Fete

Charles L. Horn '12LLB, president and director of three Twin Cities-area business corporations, received the Outstanding Achievement Award at University Law School senior recognition exercises June 9 in Northrop Auditorium.

Horn, a Minneapolis resident, is president and director of Federal Cartridge Corporation, Minneapolis; Hoffman Engineering Corporation, Anoka, and Anoka Drop Forge Company. He also is president and director of the Olin Foundation, Inc.; chairman and director of the Minneapolis Housing and Redevelopment Authority; chairman of the Minnesota Emergency Conservation Commission; a member of the Minnesota Water Resources Board and a sponsor of the national 4-H Conservation Camp movement.

Chicago Alumni Plan Fall Events

A bus trip to Champagne for the Minnesota-Illinois football game, and a dinner dance, highlight the fall activities for the Greater Chicago Minnesota Alumni Association.

Seventy-six bus and stadium tickets are available for the football game on Saturday, October 14. Two buses will leave the Chicago Greyhound Depot at 9:30 A.M., arriving back in Chicago at 6:30 P.M. Refreshments will be available on the bus. Cost is \$10.50.

On Saturday, November 18, the Annual Greater Chicago Minnesota Alumni Dinner Dance will be held at the Holiday Inn of Chicago. A social hour starting at 7 P.M. will be followed by dinner, with dancing from 9 until midnight. Cost is \$6.50 per person.

UMD Alumni Donate \$125 for Scholarships

The UMD Alumni Association has donated \$125 to the UMD Freshman Scholarship Fund, established earlier this year by its board of directors to aid promising students.

Tim J. Burgess '63BAUMD, Association president, announces the donation is in addition to the \$200 raised last February. He also reports that within the last year alumni sent in \$700 toward the UMD Stadium Fund in meeting previous pledges of support.

Dental Alumni Day Set September 29

A full day of seminars and guest speakers will highlight the 10th Annual Dental Alumni Day Program on Friday, September 29, on the University Campus.

The day's activities will begin with an 8:30 A.M. registration in the Mayo Auditorium foyer, where alumni and guests will be welcomed by Dr. Arthur P. Hayward '36DDS, president of the Dental Alumni Association.

At 9:10 Dr. Ronald E. LaBelle,

assistant professor of periodontics, will speak on "Occlusal Trauma—Its Recognition and Elimination," followed by a panel discussion at 10:00 entitled "The Dentist Today—Researcher and Clinician."

The annual business meeting will be held at 11:30 A.M. followed by luncheon in the Main Ballroom of Coffman Memorial Union. Luncheon speaker will be Kenneth W. Haagensen, executive vice president of the Wisconsin State Chamber of Commerce, who will speak on "You Have What It Takes—If You Only Take What You Have."

At 1:30 P.M. a paper on "Preventative Prosthodontics" will be presented by Dr. Frank C. Jerbi, associate professor of prosthodontics at the University of Maryland School of Dentistry.

From 3:30 to 4:30 all registrants are invited to tour the School of Dentistry.

Roger E. Joseph Memorial Fund Set

A Roger E. Joseph Memorial Fund has been established by a committee of his classmates and friends for the purpose of publishing a book on public affairs. Publisher would be the University of Minnesota Press.

Friends may make contributions to the University of Minnesota, Roger E. Joseph Memorial Fund.

Joseph '37BA, a Minneapolis attorney, died December 15.

Alumnae Club Officers Elected

Mrs. Violet R. Graf '33-37, Minneapolis, has been elected 1967-68 president of the University of Minnesota Alumnae Club.

Other officers for the coming year, elected June 12, are Virginia Bechtol '38BS, first vice president; L. Jeannette Wiggs '50ALA, second vice president; Margaret M. Mull '31BS, secretary; Mrs. Patricia S. Faunce '59BA '61MA '66PhD, treasurer; and Mrs. Zoe Wilkerson Cosgrove '52BA '53MA, historian and past president.

Board members and expiration

dates of their terms of office are Mrs. Graf, Miss Bechtol, Mrs. Rose Polski Anderson '26BA and Mrs. Eva Stacy '57BA, 1968; Mrs. Faunce, Miss Wiggs, Mrs. Helen Carlson Groskreutz '52ALA and Mrs. LaVonne Wagner Swenson '44BBA, 1969; Miss Mull, Mrs. Diana Kuske Murphy '54BA, Miss Ruby Moe '28BSEd and Mrs. Elizabeth Jane Moe Nelson '43BS, 1970.

Chairman of the Past President's Committee is Miss Eva Maloney '34BA '49MA.

Kaufmanis to Speak To Dental Hygienists

Karlis Kaufmanis, professor of astronomy, will speak on "Through Time and Space" at the Second Annual Meeting of the Dental Hygiene Alumnae Association on Friday, September 22, in the Campus Club, Coffman Memorial Union.

The annual meeting will begin with a social hour at 6:00 P.M. followed by dinner at 7:00.

Alumni News 10 on 11 Cal. RS-2

Other speakers at the meeting will include Dr. Ambert B. Hall, professor of dentistry; Edwin L. Haislet '31BSEd, MAA executive director; Mrs. Donna S. Aker, director of the dental hygiene program; and Marian O. Leebens '41GDH, president of the Dental Hygiene Alumnae Association.

Tickets, at \$5.00 per person, may be purchased through the Dental Hygiene Alumnae Association, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455. Reservations must be made by Wednesday, September 20.

Long Heads Pipestone

Donald W. Long has been elected president, and Mrs. C. I. Gillott, secretary-treasurer of the Minnesota Alumni Chapter of Pipestone, Minnesota. Board members are M. T. Evans Jr. '59LLB, Burdette DeGuiselles, Dr. John F. White '44DDS, Dr. W. G. Benjamin '21MD, Marian Noble, Robert Owens, Byrma Jones, chairman of the student contact committee; Mrs. Ada Schroeder '33BSHE, chairman of the scholarship committee; and Marlin Berg, ex officio.

89 at 25th For '42

The Minnesota Alumni Club in the Sheraton-Ritz Hotel was the scene June 3 of a gala Class of 1942 Silver Anniversary Reunion.

Cal Smith '42BBA, class president, led off the festivities, welcoming the 89 dinner guests. Master of ceremonies was Albert H. Heimbach '42BBA MAA national president.

Charles Baston '42BAeroE won a prize for coming the farthest distance — Los Angeles, California, where he is a vice president of Continental Air Lines; the prize for having the most children in college went to Al and Bee '42BS Heimbach — with three daughters at the University; Lee Morrow '42BEE received the prize for the "most recently married" and Elaine Roth Carlson (Mrs. Dean) '42BSEd was awarded the prize for the alumnus who has "lived in the most places."

The reunion committee consisted of Kenneth C. '42BBA and Jane '43BSEd Glaser; Richard '42BBA and Elizabeth '42BA Weigel; Lowell Jones '42BA; Lucretia Orfield '42BSEcon; James Haire '42BBA; Robert J. Odegard '42BSAg; Larry Stewart; Jack '42BA and Jean '42BSHEEd Beattie; Margaret Smaby; John Jensen; Bid Petersen '42BA; Dr. Glenn and Lou Petersen; Bert Lund '42BBA; Roy Johnson '42BBA; Mr. and Mrs. Heimbach; and Cal and Lucy '42BSEd Smith.

Milton Smith Heads Pharmacists

Milton Smith '36BSPhm has been elected president, Roland O. Leuzinger '55BSPhm, vice president, and Thomas J. Novak '42BSPhm, secretary-treasurer of the College of Pharmacy Alumni Association.

Board members and terms of office are Robert E. Bulger '51BSPhm, Smith and Ben T. Gilquist '29BSPhm, immediate past president, 1968; Arthur J. Mortenson '48BSPhm, Leuzinger and Donald H. Anderson '35BSPhm, 1969; Novak, George E. Houser '41BSPhm

Albert H. Heimbach '42BBA (left), MAA national president, and Cal Smith '42BBA, Class president, check over the reunion registration list. The dinner was attended by 89 alumni, husbands and wives.

Kenneth C. Glaser '42BBA (left), MAA first vice president, and Mrs. Glaser '43BSEd give Jean '42BSHEEd and Jack '42BA Beattie the good word at the Class of 1942 Silver Anniversary Reunion at the Minnesota Alumni Club.

and Merlin E. Beise '51BSPhm, Joseph P. McNulty '48BSPhm and 1970; Henry T. Capiz '57BSPhm, Maynard Johnson '52BSPhm, 1971.

Dallas President

JAMES LUCIER '46BA is the new president of the Minnesota Alumni Club of Dallas, Texas. Other officers, elected last April, are Carl Drew, vice president, and David Froelich, secretary-treasurer. Directors include Hugo Kamb, Ernie McIver, R. J. Hanschen '45BEE, Ernie Hill '40BA, Fred Agnich '37BA and Richard Johnson '48LLB, chairman of the board.

Nursing Alumnae Elect New Officers

Mrs. Carol Ostrow '44BSN, assistant director of nursing services at Minneapolis' Mt. Sinai Hospital, has been elected president of the School of Nursing Alumnae Association.

Other officers for the coming year are Charlotte Linster Boyles '54BSN, vice president, and Alvild Akre Berggren '44GN '50BSNursEd, secretary-treasurer.

Board members for 1967-68 are Mrs. Wayne C. Sandve '42BS '56MPH, Glenda Schadt Christensen '65BSN and Winifred N. Kuppe '40BSN, terms expiring in 1968; Mrs. Berggren, Mrs. Ostrow, Mrs. Lorraine Lilja '39BSN and Jennie O. Schey '19GN '37BS '47MPH, terms expiring in 1969; Mrs. Boyles, Mrs. Alice E. Larson '56BSN, Mary Ellen Simons '66BSN and Martha L. Cook '65BSN, terms expiring in 1970.

Ex officio members of the board include Darlene Ann Simmons

Vice President Hubert H. Humphrey '39BA, '40-'41 and Mrs. Humphrey, attending meetings of the American Bar Association in Honolulu, found time in their busy schedule to meet with members of the newly-formed Hawaii Chapter of the Minnesota Alumni Association recently. Mrs. Sharon Fitch '61BA, secretary-treasurer of the Chapter, presented the vice president with a maroon and gold plumeria flower lei on behalf of the Chapter, along with a very special "Aloha." Pictured are (left to right) Ned Wiederholt '50Arch '52, Dr. Roy K. Tachibana '53DDS, Chapter president; Agnes Fitch '27BSEd '45MA, Mrs. Fitch, Mrs. Mary Tachibana, Air Force Captain Lee Fitch '62BSB (holding banner), the vice president and Mrs. Humphrey.

Thirteen communities in four states were represented when the Mortuary Science Class of 1942 held its Silver Anniversary Reunion recently at the Radisson Hotel, Minneapolis. Pictured are (front row, left to right) Robert Delmore, Minneapolis; Lloyd Sandberg, Janesville, Minnesota; Donald Scramstad, Grand Forks, North Dakota; Mrs. Marianne Lee, Bricelyn, Minnesota; Edward C. Fisher, Minot, North Dakota; Orin Tomling, Hibbing, Minnesota; and C. Howard Peterson, Benson, Minnesota; (second row, left to right) Robert Ritter, Milwaukee, Wisconsin; Robert C. Slater, Minneapolis, director of the department of mortuary science; Curt Nelson, Montevideo, Minnesota; Joseph Reed III, Tampa, Florida; James Hultgren, Mankato, Minnesota; Fred Winter, Minneapolis; and Dean Berry, St. Louis Park; (third row, left to right) Alexander Clelland, St. Paul; Harley Hyre, Minneapolis; Vernon Iwanoski, St. Paul; and Vern Taylor, Grantsburg, Wisconsin.

'64BSN and Florence Elliott Marks '53BSN '56MNA, past presidents, and Mary Ann Nardecchia, president of the Nursing College Board.

ALUMNI NEWS

*Life insurance is a great field—
if you want to work on your own.*

says Walter W. Schlaepfer, Cornell '51
Ithaca, N.Y.

Independence. It's what brought me into life insurance in the first place, and what keeps me in it now, after eleven great years!

Because let's face it—there aren't too many fields left that let a man operate independently, yet still enjoy the benefits large companies can offer—pension plans and group insurance, for example. And not too many jobs let you see results in direct proportion to your efforts.

With Mass Mutual I've found all this—with great personal satisfaction to boot. Mass Mutual's reputation in its field is outstanding—in fiscal management, in service to policyholders, in the caliber of its agents. Not to mention \$3.4 billion in assets and 116 years of experience.

When you join Mass Mutual, you benefit from that experience and integrity. You get financial backing—while you're training—until you're on your feet. But always with the recognition that you're your own man.

If this kind of independence is what you're looking for, why not write to Mr. Charles H. Schaaff, President, Mass Mutual, Springfield, Massachusetts 01101. By the way, he started out as an agent, too!

On the Cornell campus, WALT SCHLAEPFER numbers among his many clients Cornell seniors and graduate students for whom he has worked out long-range insurance programs. Walt and his wife, both Cornell alumni, continue active in university affairs...even have six potential alumni in the family!

1942 Medical Class Sets Anniversary Date

The Silver Anniversary Reunion of the Class of 1942MBs will be held Friday and Saturday, October 20 and 21.

Houston County Elects

Al Huesmann, Caledonia, has been elected president of the Houston County, Minnesota, Chapter of the Minnesota Alumni Association. Secretary-treasurer is John Dregni '57BA, Caledonia. Board members are Pete Madsen, Spring Grove, and F. W. Deeter, Mrs. George Hendel, Dr. G. F. Frisch '40DDS, Robert Sprague '28BA and Vic Rupp '39MED, all of Caledonia.

Hustad Heads Slayton

Officers of the Slayton, Minnesota, Chapter of the Minnesota Alumni Association, elected in May, are B. C. Hustad '47AMS, president; Stan Nordin, vice president; and Mrs. Jean Aspelin, secretary-treasurer. Board members are John Holt, Ruben Boxrud '49BSAg, Kenneth Ziebarth '52BSAgEd, Mrs. Janet Conrad, Mrs. Karen Torbert, John Schoen '50MA, ex officio, and Dr. J. W. Behrends '64DDS, chairman of the contact committee.

Homecoming Week Activities Scheduled

More and new activities are on tap for students and alumni alike during 1967 Homecoming Week October 16 through 21.

The Gophers' Homecoming opponent on Saturday, October 21, will be the Spartans from Michigan State.

For Alumni in the Twin Cities area who find it difficult to attend Homecoming activities on Campus, plans are underway to hold luncheons in the area, to bring some part of Homecoming to them.

Plans also are underway for a featuring name entertainment.

Washington, D.C.

Elects M. C. Powers

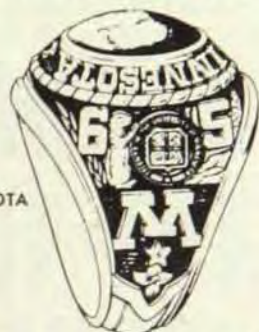

Martin C. Powers '32BA has been elected president, and Howard J. Hammes '53BBA, vice president, of the University of Minnesota Alumni Club of Washington, D.C.

Other officers for 1967-68 are Mrs. Harriet L. Brown '46BA, secretary, and Chester R. Jones '32BBA, treasurer.

A full day of activities was highlighted with a noon luncheon in the Junior Ballroom of Coffman Memorial Union for the Fiftieth Anniversary Reunion of the Class of 1917. The Reunion was held May 24 in conjunction with the University's annual Cap and Gown Day exercises. Chairman was Paul W. Frenzel '17LLB and co-chairman was Clara MacKenzie Bierman '17BA.

DEATHS

Edward A. Knapp '99LLB, St. Paul, died June 11 at age 89. A native of New York, he was a St. Paul resident for 85 years.

Dr. Herbert V. King '50MD, Morgantown, West Virginia, died April 30 at age 84. One of the oldest graduates of the Medical School, his first practice was in government service on an Arizona Indian Reservation. He later practiced in Minnesota, Wisconsin and West Virginia.

Mrs. Cathryn Thomson '09BA, Pasadena, California, died June 17 at age 80.

Philip L. Dahlquist '10BCE, Minneapolis, died June 4 at age 79.

Mrs. Ruth Galer Hurt '12BSEd, DeLand, Florida, died June 15 at age 79.

Dr. William J. Eklund '15MD, Hancock, New Hampshire, died May 30.

Frank H. Irwin '17MSEE, San Rafael, California, died July 10 at age 74. Irwin worked 33 years for the U.S. government as a design engineer on the Panama Canal, retiring in 1955.

Dr. John DeJarnette Pemberton '18MSMed died May 18 in a Rochester, Minnesota, hospital at age 80. Dr. Pemberton was a widely known specialist and pioneer in surgery of the thyroid gland, and head of a section of surgery in the Mayo Clinic from 1918 until his retirement in 1952.

Dr. Edward Dyer Anderson '18MD, formerly of Minneapolis, died May 25 in Rougemont, Switzerland, at age 75. A former president of the Hennepin County Medical Society, from 1918 to 1954 he served as assistant and associate professor of pediatrics at the University. He also was a member of the Minnesota State Medical Society, American Medical Association, American Academy of Pediatrics and the Northwest Pediatric Society.

Dr. Henry R. Brandt '19DDS, Minneapolis, died August 14 at age 72. He had been a dentist for 48 years.

Dr. George E. McGeary '17BS '18MB '19MD, died May 2 at age 73 at his home in Fort Meyers, Florida. A member of Zeta Psi fraternity, he won letters in basketball in 1914 and 1916. He was a prominent eye, ear, nose and throat specialist in Minneapolis from 1924 to his retirement in 1963.

Dr. Swan Ericson, Los Angeles, California, died May 17 at age 77. He had retired to California after practicing 31 years in LeSueur, Minnesota.

Dr. James A. H. Magoun Jr. '22MSMed, Toledo, Ohio, died April 26 at age 79. He was one of the co-founders of the Toledo Clinic in 1926.

Dr. Carl J. Agrell '23DDS, St. Paul, died July 14 at age 67. He had practiced dentistry in St. Paul since his graduation from the University.

Dr. Arthur H. Knudson '24MD, Milwaukee, died last May at age 70. He had practiced in Milwaukee since 1927.

Mary Grace Arthur '24PhD, St. Paul, died May 21 in an automobile accident. Mrs. Arthur, 84, was a clinical psychologist.

Dr. Oliver Earl Nelson '24MD, Sun City, California, died June 29 at age 74. He had retired to Sun City three years ago after practicing 44 years in Woodstock, Illinois.

Dr. Charles W. Barrier Jr., Forth Worth, Texas, died May 3 at age 78. Dr. Barrier had practiced in Fort Worth since 1924 until his retirement in January 1965.

Paul S. Amidon '24BS '34MA, St. Paul, died July 29 at age 68. He had served as superintendent of schools at South Haven, Upsala and Litchfield, Minnesota, before becoming St. Paul superintendent of schools in 1937. He also served three years as deputy commissioner of the Minnesota Education Department and in 1946 became head of the educational services section of General Mills. In 1951 he founded an independent educational consulting firm, Paul S. Amidon and Associates.

John J. Austin '24BA '26BS, St. Paul, died June 26 at age 65. A lifetime resident of St. Paul, he was a mail clerk for the U.S. Post Office for 40 years, retiring in 1965.

James S. Tighe '26BEE, Pompano Beach, Florida, died June 11 at age 63. He was a retired assistant vice president of Northwestern Bell Telephone Company, Omaha, Nebraska.

Vern W. Keech '27AMS, Stillwater, Minnesota, died June 3 at age 62. He was manager of a Stillwater funeral home from 1932 until his retirement because of illness.

Lloyd V. Berkner '27BSEE, a 1952 recipient of the University's Outstanding Achievement Award, died June 4 in a Washington, D.C., hospital at age 62. He was the chairman of the board of the Southwest Research Institute at Dallas, Texas, an organization he founded several years ago to promote graduate school science studies in Texas colleges. He served as president of the Institute until ill health forced his retirement from that position.

Harry G. Burcalow '27LLB, Hudson, Wisconsin, died July 2 at age 67. Prior to practicing law in Hudson, he practiced law at Eau Claire, Wisconsin, and was claims manager for Continental Insurance Company at Eau Claire.

Dr. S. William Becker '28MSMed, Long Beach, California, died in August 1964 at Hollywood, California.

Dr. Ames W. Nashund '28MD, Edina, Minnesota, died August 13 at age 66. A clinical instructor in radiology at the University, he was a member of the Minnesota State Medical Association, American Medical Association, Minnesota Radiological Society, Twin City Radiological Society, Radiological Society of North America, Minneapolis Academy of Medicine and Alpha Kappa Kappa fraternity.

Walfrid H. Peterson '28BS, Minne-

apolis attorney, died May 26 at age 63. He was second vice president and legal counsel for the American Swedish Institute and a member of the Swedish Society of St. Paul and Minneapolis, a group he served as president in 1943-44. He also was counsel for the FBI Agents Association and a member of the Hennepin County and Minnesota Bar Association.

Dr. J. Kenneth P. Murray '29MSMed, Hamilton, Ontario, Canada, died in May 1965 at age 69.

Anthony M. Schoenhoff '28-'30, Los Angeles, California, died last July at age 64. He was a sports writer for the Minneapolis *Journal* and associate editor of *Amateur Golfer and Sportsman*. In later years he was publications editor for the Minneapolis Federal Reserve Bank, a position from which he retired in 1954 to go to California where he was an independent talent representative until his death.

Royal P. Guetzloe '30BSEd, Edina, Minnesota, died June 3 at age 72. He was a biology teacher and football, basketball and track coach at West High School for 18 years and at Southwest High School for 19 years. He was director of athletics at Southwest until his retirement in 1960.

Dr. Melvin L. FaViolette, Seattle, Washington, died last January.

Beatrice Bernhagen '31MA, St. Paul, died June 17 at age 56. She was a director of welfare services for the Ramsey County Welfare Department, a member of the board of public welfare for Ramsey County and associate professor of sociology at Hamline University. She also served on the boards of Minnesota Welfare Conference and the National Association of Social Workers.

Norton H. Kramer '33BSPhM, St. Louis Park, Minnesota, died May 29 at age 57.

Mrs. Wilma Woestehoff '36BSHE, Minneapolis, died last month at age 54. Mrs. Woestehoff who was president-elect of the Education Wives at the University, was the wife of Arnold S. Woestehoff, director of the University's Bureau of Recommendations.

Alice V. Bergstrom '36BSEd, Minneapolis, died July 15 at age 73. She had been a teacher at Lyndale School for 30 years, retiring in 1956.

Kenneth K. Wunsch '37BA, Bloomington, Minnesota, died June 17 in an automobile accident. Wunsch, 51, was vice president in charge of public relations and advertising for the Northwestern National Life Insurance Company Minneapolis.

Dr. George D. Kaiser '37MD, Chicago, Illinois, died June 20 at age 56. A former chief surgeon for Inland Steel Company, Gary, Indiana, he had retired from private practice to become chief surgeon at Hines Veterans Hospital, Chicago, and a teacher at the University of Illinois.

Dr. John A. Hardiman '38MD, Portland, Oregon, died December 28 at age 53.

Eugene H. Goodman '38BA, San Ber-

nadino, California, died recently at age 49. From 1950 until his death he operated Goodman Jewelers of California.

J. Donald Smith '36BSAg, Springfield, Virginia, was killed last May in a helicopter crash near Leech Lake, Minnesota. Smith, 53, was chief of the U.S. Bureau of Sport Fisheries and Wildlife's management branch in its division of management and enforcement.

Martin Peterson '43MA, Lindstrom, Minnesota, died August 11 at age 67. He was school superintendent in three Minnesota communities, the last being at Lindstrom-Center City High School from 1946 to 1965.

Robert A. Uppgren '45-'47, Stillwater, Minnesota, was killed last May in a helicopter crash near Leech Lake, Minnesota. Uppgren, 43, was assistant supervisor of the U.S. Bureau of Sport Fisheries and Wildlife's division of wildlife services.

Ann M. Anderson '47BSEd, Faribault, Minnesota, died July 3 following an extended illness. Miss Anderson was prominent in Faribault cultural and civic activities and for 40 years was a third grade teacher. She was a former president of the Faribault Education Association and a member of the Minnesota and National Education Associations.

Emmet Williams '47BS '49MA, Arden Hills, Minnesota, died June 26 in a St. Paul hospital at age 60. Williams, a 1961 recipient of the University's Outstanding Achievement Award, retired December 20 after 18 years as superintendent of the Roseville School District in suburban St. Paul. In 1956-57 he served as president of the Education Alumni Association of the MAA.

Owen B. Stubben '48MHA, Tiburon, California, died June 28 at age 49. From 1963 to 1965 he served as administrator of Hennepin County General Hospital, Minneapolis, and then became a business management consultant.

James R. Shore '49BBA, Winnipeg, Canada, died June 9 in a plane accident in northern Manitoba. Shore, 41, was president and founder of Office Overload Company, Ltd.

Aldo D. Pieri '49LLB, Brooklyn Center, Minnesota, died June 11 at age 44. He was a founder of the Park Avenue Law Center in Minneapolis, where he maintained his offices.

Morton J. Feinberg '47AA '50BA, Minneapolis, died May 27 at age 41. He was office manager for the Minneapolis *Star* and *Tribune* Company circulation department, and a member of the company's 20 Year Club.

Dr. Paul F. Kiecker '50BS '52DDS, a lieutenant colonel in the Air Force, was killed June 17 in the crash of a U.S. Air Force transport plane at An Khe Airport in South Vietnam. Dr. Kiecker, 45, had been chief of dental and oral reconstruction facilities at Cam Ranh Bay, South Vietnam, for seven months.

Keith Kaplan '55BME, formerly of

Owatonna, Minnesota, was killed July 29 in an earthquake in Caracas, Venezuela. Kaplan, 34, worked for the Montana Paint Company in Caracas.

Captain Richard J. Davis '55-'58, formerly of Minneapolis, was killed May 10 in Vietnam. Captain Davis, 30, was a 1961 graduate of the U.S. Military Academy.

Noel S. Nelson '63-'65, formerly of Roseville, Minnesota, was killed June 30 in Vietnam. Nelson, a Navy hospitalman, was shot while on duty with a Marine platoon in Quang Tri province in the northern part of South Vietnam.

Sandra Schulz Ackerberg '65BA, Minneapolis, died April 24.

David J. Hughes '64-'65, an Army specialist 4, was killed May 27 in Pleiku, Vietnam. Hughes, 20, a helicopter mechanic, originally was from Richfield, Minnesota.

David J. Carlton '65-'66, formerly of St. Paul, was killed August 1 by enemy fire near Quang Tin, Vietnam. Carlton, 20, was a Marine radio operator.

Robert G. Anderson '65-'66, formerly of Bloomington, Minnesota, was killed in action recently in Vietnam. Anderson, 20, entered the Army last year.

Stephen M. Noggle '65-'66, an Army Pfc, was killed in action last June in Vietnam. He had returned to duty as a medic after being wounded in February.

Julie Helgeson '66-'67 was killed August 13 when she was attacked by a bear in Glacier National Park. Miss Helgeson, 19, was from Albert Lea, Minnesota, and would have been a sophomore in the College of Education this fall.

FACULTY

Roy G. Blakey, 87, professor, emeritus and nationally-known tax and economics expert, died recently in Santa Monica, California. He joined the School of Business Administration in 1919 and retired in 1948.

Leo J. Brueckner, 77, professor emeritus of education, died July 23 in Los Angeles, California. Brueckner, who retired in 1955 after 33 years with the University, once headed all elementary and secondary education in the American zone of occupied Germany.

Alfred E. Eagle, Minneapolis, died June 10 at age 74. He was a retired supervisor of plant pathology at the University.

Dr. Ned Olson '60DVM '64PhD, Rosemount, Minnesota, died July 5 at age 30. He was an assistant professor of veterinary medicine.

Gordon O. Voss '31MA, former professor and head of the department of industrial education at the University of Minnesota, Duluth, died May 28 in a Minneapolis hospital of injuries suffered last November in a traffic accident.

General Motors is people making better products for people.

Building cars leaves Tom Foster precious little time for his hobby... building cars.

Cars are Tom Foster's hobby. He builds hot rods (and wins awards) in his spare time. Which he has very little of. That's because his job, building engines for GM cars, is very demanding.

Tom Foster came to GM 27 years ago as an apprentice. He

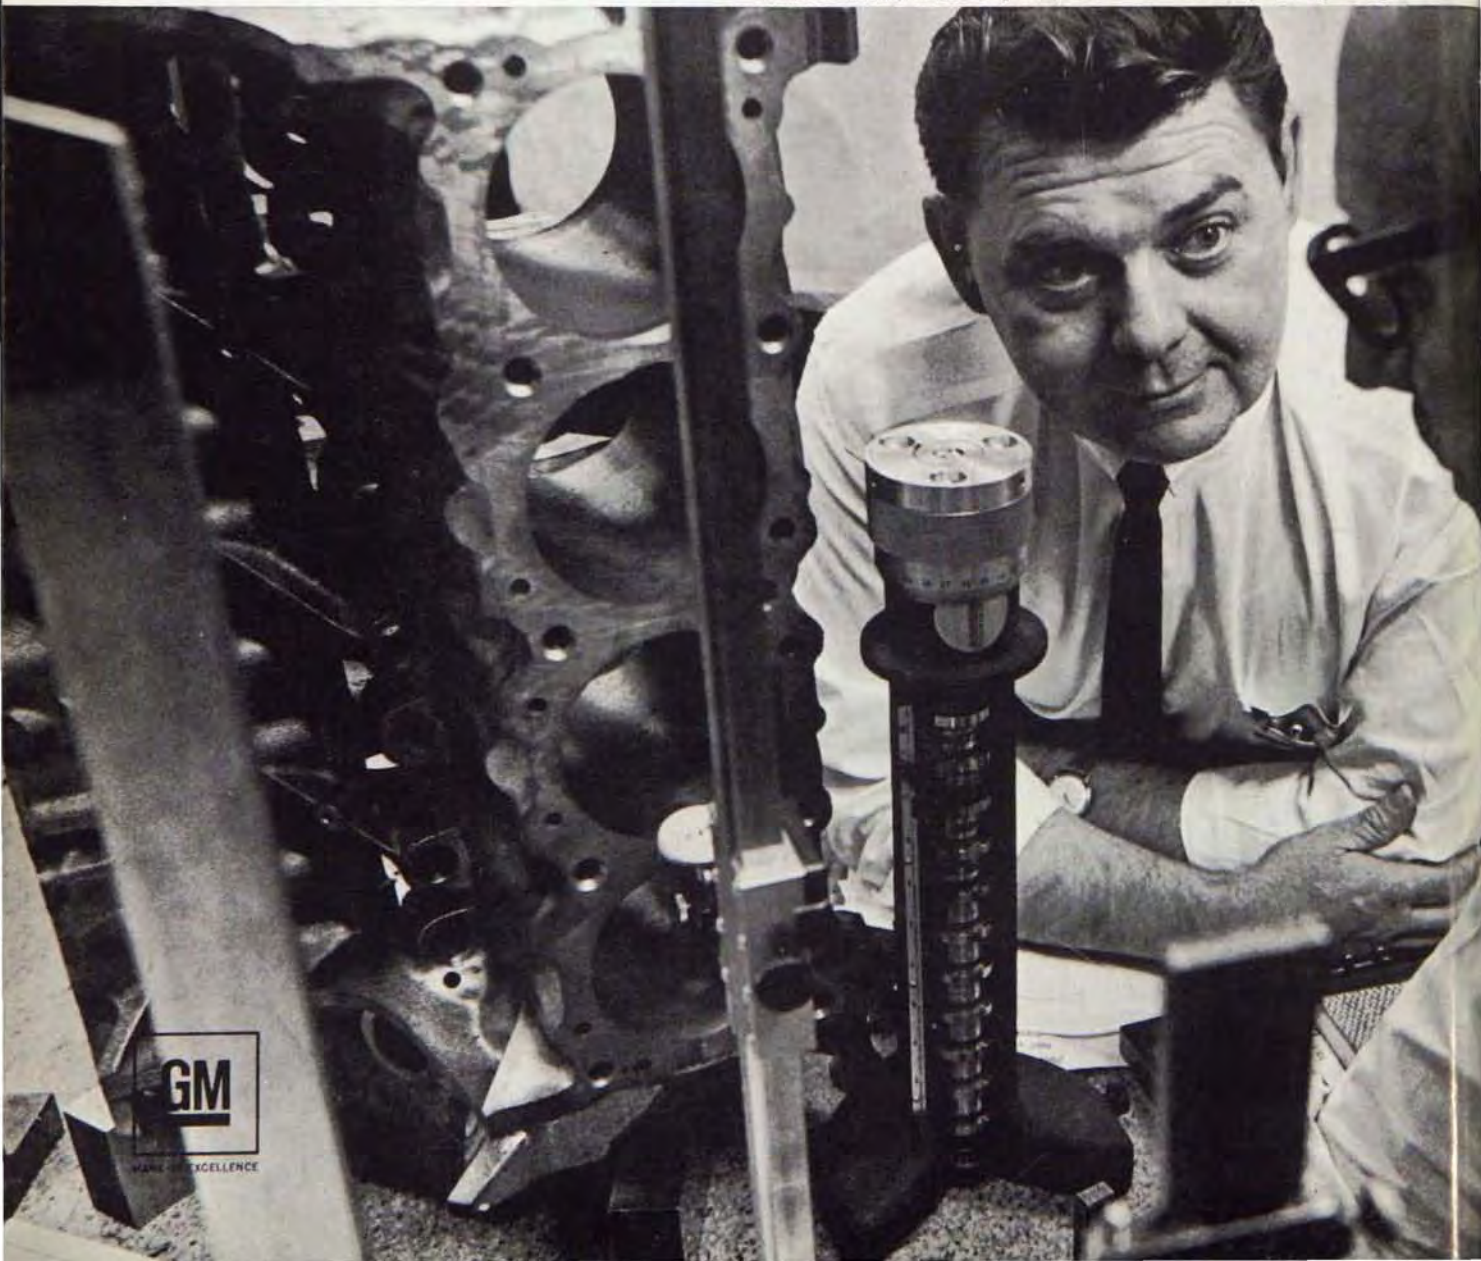

soon became a foreman. Then an instructor. Now he's Process Engineer on engine blocks in the Master Mechanics Division of GM's Pontiac plant.

To Tom Foster, cars are more than a profession. They're a way of life. Which is one reason Tom

is so good at his job.

Self-made professionals like Tom Foster—GM people who take a special kind of pride in cars—are just another reason why you get a better buy in a Chevrolet, Pontiac, Oldsmobile, Buick or Cadillac.

Thomas E. Foster, Process Engineer, Pontiac Motor Division, Pontiac, Michigan

Football Is Not Our Business . . .

But football luncheons are!

And what happens after the game as well!

If you're looking for that extra-special place for that Alumni get-together, or for that Founder's Day Dinner, we have just what it takes.

Or if you're looking for an intimate spot for post-game relaxation or an after-the-game victory celebration, we

can help you there, too. Our quality is never surpassed.

And the service and hospitality . . . they're great, too!

When it comes to football, we'll let the Gophers' Bob Stein (84) and Jim Carter (34) worry about that.

When it comes to the finest in food and beverage, both before and after the game, we'll worry about that.

Food and beverage are our business.

BACK TALK

Sirs:

Permit me to say that my stay in Minneapolis at this University of Minnesota and having the Minnesotans as friends have been a unique chapter of my life, and I am sure I will enjoy my life-membership with your Association.

Thanks.

Gopal C. Mitra '63MFA '67PhD
Department of Art Education

Sirs:

You might be interested in an experience that I had this spring while traveling in Mexico.

We had been staying at the Posada Vallarta in Puerto Vallarta, Mexico. Before leaving, I wanted to establish credit so that I could charge the bill either to my American Express credit card or give them my personal check. In the credit office, I handed my billfold containing credit cards and so forth to the credit manager and he okayed, taking the personal check on the basis of my Life Membership card in the University Alumni Association. He very carefully put down all the numbers that show on that card, completely disregarding the other credit cards.

I thought that this was a pretty good indication of the respect in which the University is held in some of the other countries.

L. S. Clark '22BSB
St. Paul

Sirs:

Congratulations on the very excellent "Memo" or editorial on the Ribicoff Bill appearing in the June issue of the ALUMNI NEWS. It is lucid, forthright, and persuasive.

MEMO

From
ED HAISLET
Executive Director

TO: Association Members
SUBJECT: A Report on the Affairs of the Association

It's annual report time. The fiscal year of the Association ends June 30. At that time the books are audited and staff members write annual reports on their areas of responsibility — and finally the annual report of the Association is published.

This year the annual report takes on a new editorial format, reduced in size from 52 to 12 pages, with the hope that in this brief form it will be more readable.

The purpose of the annual report not only is to record the official program and activities of the Association for the year, but to be better able to evaluate the accomplishments as well as failures.

Here are the highlights of the 1966-1967 annual report:

Staff — consists of eleven full time members; 5 part time employees. A new position of Alumni Representative was established to take care of Alumni Affairs for UMD.

Budget — total budget for alumni affairs was \$193,585. Of this amount, \$95,897 came from Association dues and advertising and is used to support the Alumni News, field service program, constituent groups, special events and promotions, printing, postage, travel, and office supplies, expense and equipment. The budget for the Department of Alumni Relations was \$97,706, and mainly supported salaries and the alumni records.

Membership — averaged 23,678 for the 12 month period, down slightly (678) from the year before.

Alumni Records of all University of Minnesota graduates are fully computerized and handled by Data Management, Inc. The master file includes a total of some 200,000 names; the mailing file 113,358 names. Cash receipts for Association membership, Alumni Fund and Alumni Club also are handled by computer.

Printing and Mailing — Fifty-seven different mailings and a total of 819,000 pieces of mail were processed during the year (membership, Alumni News and Alumni Fund).

Address changes — changes are processed on the 10th and 25th of each month. The complete list is mailed to twice a year and during the 1966-67 year 34,520 address changes were received.

Alumni Chapters — The total alumni chapters now number 98, with 55 instate and 43 outstate. Four new chapters were organized, Jacksonville, Fort Lauderdale, Miami and Hawaii; three reorganized, Central Florida, Southern California and Kansas City. The Outstanding Alumni Chapter of the Year Awards went to: International Falls, Minnesota for instate chapters and St. Louis, Missouri for outstate chapters.

The Alumni News — continued its policy of examining the human side of University and alumni affairs. Special issues were published on student life, the Peace Corps, and Continuing Education. For the first time, an Alumni Opinion Poll was conducted through the pages of the Alumni News; the annual Readers' Survey was continued.

Constituent Alumni Associations — two new groups were added during the year, Medical Technology, and Occupational and Physical Therapy, bringing the total to eighteen, plus the UMD Alumni Association. Through their own Boards of Directors, these groups operate programs of special interest to their own constituents and in support of their college, school or department, and are the core strength of the overall Association.

The Alumni Fund — in its fourth year, the Alumni Giving Program raised \$148,372 from

11,089 alumni. Total Alumni Gifts to the University through all channels totaled \$550,165, contributed by 12,953 alumni.

The Alumni Club— finished its fourth year on September 20, 1967 and now is the center of alumni social activity, parties and programs. A special membership campaign conducted during the year produced 134 new members, bringing total membership to 1527.

Alumni Group Insurance Program— now in its fifth year, this program has particularly served the younger alumnus. At end of year, 915 policies were in force and \$8,909,000 of insurance.

This is only a brief report to you on the affairs of your Association. Your Association is financially solvent, its programs in support of the University are growing, it is bringing more service and benefits to you. The full annual report will be mailed to you upon request.

Sincerely,

Ed Hauslet

"The actions of the 1967 Minnesota Legislature in support of education are a credit to its membership. Even though there were some things the University felt could and should be done for the State which were not funded, the general level of appropriations reflects continued wisdom of Minnesotans in making an investment in their most valuable resource—people."

So writes former University President O. Meredith Wilson in the most recent issue of *Minnesotan*, the University's staff magazine.

For Wilson, who resigned the presidency last July, it was a parting message to the faculty and staff he had headed for the past seven years. He since has left the University to assume his new position as director of the Center for Advanced Studies in the Behavioral Sciences at Stanford, California.

But with his praise of the actions of the Legislature, Wilson reminded his University family of its primary responsibility.

"Compensations for University faculty and Civil Service staff members were substantially improved by the actions of this year's Legislature and, as a result, the University has an enviable opportunity to maintain and strengthen its own human resources. At the same time, each member of the University community must exert increased effort to provide for the people of Minnesota the best teaching, research, and service that a University can offer."

The 1967 Minnesota State Legislature, responding to the growing numbers and needs of the University, approved record operating and building appropriations for the 1967-69 biennium.

The session—termed "the most responsive to our needs in my 15 years here" by Stanley J. Wenberg, vice president for educational relationships and development—appropriated \$128.7 million of the University's \$147.5 million operating request, an increase of more than \$30 million over the 1965 appropriation.

In addition, the University received \$28.9 million of its original request for \$70.2 million for building—including funds for new construction, building improvements and remodeling work, planning funds, land acquisitions and other capital expenditures. In 1964 the Regents request \$48 million and were awarded a total of \$15.8 million by the 1965 Legislature.

Money provided by the Legislature for general operations and maintenance is the foundation on which the University's budget is built. The Legislature granted \$51.8 million for the fiscal year 1967-68 and \$59.1 million for the following year. These appropriations, along with other income such as tuition and fees, make it possible for the University to pay the costs of its fundamental work including instructional costs at the Minneapolis-St. Paul, Duluth and Morris Campuses; the cost of operating and maintaining buildings and grounds; general administrative costs; the cost of libraries; part of the cost of the

For 1967-69 Biennium

Minnesota Receives Record Appropriation

Summer Sessions and the General Extension Division; and the cost of operating the various experiment stations and schools.

Most of the operating appropriation is earmarked for faculty salary increases of nine per cent for each year of the biennium. Though this is slightly less than the University's request for 11 per cent pay increases for each year to restore it to a median ranking among its competition, the Legislature also approved an additional 1.1 per cent increase in health benefits. Increases in the 1965 session over the previous session amounted to six per cent per year.

Earmarked within the general operations and maintenance appropriation were \$3 million for the first year of the biennium and an additional \$3.4 million the second year "for salary adjustments, for promotion and special merit increases for the faculty."

In addition, University faculty members and Civil Service employees now receive a fringe "package" of life and health insurance benefits, paid for by the State. The plan became effective April 1 through an act of the Legislature.

One of the most significant yardsticks for rating the strength of colleges and universities is the scale of faculty compensation. Of course, high pay does not guarantee good teachers (or vice versa), but with the education market being so competitive, institutions unable or unwilling to pay well find it increasingly difficult to attract and hold the kind of faculty members they need.

"The Legislature was stimulated by the admonition that if we are going to continue to have a high quality University, we have to provide the faculty with the tools to operate," according to Conservative Representative Rod Searle, chairman of the education subcommittee.

The necessity to provide these "tools" resulted in the large salary increases, according to Searle.

Representative Richard W. Fitzsimons, chairman of the Appropriations Committee, agreed with Searle saying the increases "clearly indicate our competitive position.

"We want to attract our share of outstanding faculty. We can't afford to be the highest (in relation to the other Big Ten schools and the University of California), but we want to be at median or above.

According to former President O. Meredith Wilson, "although the Legislature did not appropriate as much as we requested, the University will make the gains which the administration felt were necessary for us to move ahead. Our Legislature has been comparatively more sympathetic with the importance of the quality of education than have any other legislatures of public institutions with which we compare ourselves. We're very grateful."

According to Wilson, the money appropriated for faculty salaries may move the University from ninth place to "third or fourth place" among its competitors. He made the "first division" forecast after comparing

the University's legislative achievements with those of the University of California and the eight other public institutions of the Big Ten. (The University has been no better than fifth since 1960, based on the average compensation of all permanent faculty members).

Wilson said the University should rank fifth for 1967-68 and "it may be fourth or third in 1968-69, although I'm not quite so confident of the second year's position."

He said the rankings could still be affected for the second year of the biennium because several of the competitive schools are in states whose legislatures meet annually. In addition, he said, schools that received far less than they requested might make up part of the deficiency by increasing their tuition or fees.

"The faculty salary improvement program made possible by the Legislature over the two-year period," commented William G. Shepherd, vice president for academic administration, "is most heartening and highly significant in the University's future progress.

"It will strengthen the University against recruiting by other institutions as we will be able to maintain competitiveness where we have been competitive and to achieve competitiveness where we previously have been disadvantaged. This we can do by discretionary application of the 'catch-up' funding provided by the Legislature."

The funds earmarked by the Legislature and the Regents for faculty merit increase, the vice president predicted, will help the University achieve additional eminence in selected areas of great importance to Minnesota and the nation. In addition, he added, both the current salary improvement funding and the "catch-up" funding can be used to rectify inequities which have arisen for a variety of reasons in faculty salaries within the University.

"There has been an unevenness of salary progress," he explained, "from unit to unit and among faculty ranks within individual units. This gives us an opportunity to bring back into balance ranks within departments, departments within colleges, and colleges within the University.

With an eye to the future, as well as the present, needs of the University, the 1967 Legislature responded to University requests for "one per cent planning" money for such long-term projects as a \$52 million health sciences facility on the Minneapolis Campus and an animal facility and veterinary medicine building for St. Paul. Total cost of the combined projects is some \$62 million.

Despite the overall success of the session, there were some major setbacks. Chief casualties were planning funds for two buildings on the West Bank Campus—a \$4 million office building for the Humanities Division and a \$3.6 million physical education building. The University also failed to receive any of the \$100,000 it requested to study the feasibility

of a family practice program as part of the Medical School. Nevertheless, the University is required to report its findings of the study to the next Legislature.

The University did receive \$120,000 for the biennium to initiate one of two proposed pilot projects coordinating the work of the General Extension Division and the Agriculture Extension Service. The University had requested \$375,000 for the projects.

The University also will receive \$10,000 to study the possibility of establishing a fire prevention school. The University also received the go-ahead to set up a police training school, but no money was granted for this purpose.

The Legislature also granted \$232,000 in planning funds for a West Bank headquarters for the performing arts, \$171,000 in planning funds for an Animal Science Facility and \$148,000 in planning funds for a classroom-office building for Agricultural Economics and Rural Sociology.

University Hospitals, nucleus of one of the nation's outstanding medical centers, will pay for its programs of patient care and medical research during the next two years chiefly from a Legislative appropriation of \$9.4 million. An additional \$4.3 million was made available to reimburse the University for the counties' share of the cost of treating indigent patients.

In a special appropriation of \$955,000 — \$455,000 for the first year and \$500,000 for the second — the Legislature provided for the support of the new University of Minnesota Technical Institute at Crookston for the 1967-69 biennium. The Institute, which enrolled its first class last fall, was created by the Regents to prepare young men and women who are high school graduates for careers primarily in agriculture and business.

The Morris Campus received all its building requests, including \$1 million toward a physical education building, while at Duluth the major appropriation was \$660,000 toward a \$990,000 classroom building.

Many special research, educational, and service projects and various experiments and investigations carried on throughout the State under the direct supervision of the University are supported separately through special State appropriations. These special appropriations, summarized in the chart shown on a following page, total \$9.7 million for the next two years, a substantial increase over the \$7 million appropriated for the last biennium.

The special appropriations were allotted to the University with the Legislative provisions that the Board of Regents submit a written report to the 1969 Legislature of the results and status of all research work conducted from all appropriations made in the "special" category.

In addition to the Legislative appropriations, the University estimates that it will receive income of more than \$55 million during the biennium from tuition and fees and from general and departmental income.

Building

Minneapolis Campus — \$8,613,470

Complete Library Building, West Bank . . .	\$ 102,000
Construct and equip Auditorium-Classroom Building North of Highway on West Bank at a cost of not more than \$2,875,000, with State funds of	\$1,961,334
Planning funds for Classroom and Laboratory Building for the Performing Arts, Radio and Television, West Bank	\$ 232,320
Complete art instruction facilities, Naegele Building, West Bank	\$ 225,000
Develop and light outdoor physical education teaching areas	\$ 236,000
Construct and equip Vincent-Murphy Addition at a cost of not more than \$2,400,000, with State funds of	\$1,546,135
Complete Space Science Building	\$ 480,000
Construct and equip Laboratory-Classroom Building, Phase II, at a cost of not more than \$3,740,000, with State funds of	\$1,380,681
Remodel State Board of Health Building at a cost of not more than \$950,000, with State funds of	\$ 650,000
Install two primary electric feeders	\$ 350,000
Planning funds for Health Sciences facility	\$ 500,000
Complete land acquisition on West Bank	\$ 300,000
Land acquisition for physical facilities for health sciences	\$ 650,000

St. Paul Campus — \$6,881,942

Construct and equip Horticultural Science Facility at a cost of not more than \$3,172,000, with State funds of	\$2,922,000
Planning funds for Classroom-Office Building for Agricultural Economics and Rural Sociology	\$ 148,000
Planning funds to develop plans and specifications for a Biological Sciences Facility	\$ 400,000
Remodel Coffey Hall	\$1,500,000
Install new boilers and auxiliaries	730,000
Complete Entomology Building	\$ 356,942
Programmatic planning funds for Animal Science Facility and Veterinary Medicine Building to include study to eliminate unnecessary duplication	\$ 171,000
Construct Crop Service Field Building	\$ 259,000
Construct Addition to Veterinary Diagnostic and Research Laboratory at a cost of not more than \$720,000, with State funds of	\$ 395,000

Appropriations

Duluth Campus — \$3,123,334

Planning funds for Administration Building	\$ 65,000
Construct and equip classroom building at a total cost of not more than \$990,000, with State funds of	\$ 660,000
Construct and equip lecture hall at a total cost of not more than \$260,000, with State funds of	\$ 173,334
Construct theater	\$ 500,000
Convert Biology space to chemistry laboratories	\$ 230,000
Develop studio space and facilities for closed circuit television	\$110,000
Construct heating plant addition, including boiler	\$ 540,000
Construct and equip a service center and food service for residence halls, Phase I	\$ 220,000
(This is 25 per cent of the cost of this facility)	
Construct and equip student housing for 404 students	\$ 550,000
(This is 25 per cent of the cost of this facility)	
Land acquisition, Priority I	\$ 75,000

Morris Campus — \$2,390,600

Construct and equip Physical Education Building at a total cost of not more than \$1,500,000, with State funds of	\$1,000,000
Construct central heating tunnel and piping	\$ 84,900
Install electrical distribution system, Phase I	\$ 229,500
Complete science complex and north entrance road including drainage, curbing and lighting	\$ 109,000
Construct heating plant, Phase I	\$ 520,000
South area heating tunnel and piping	\$ 147,200
Construct and equip a residence hall of 250 units	\$ 300,000
(This is 25 per cent of the cost of this facility)	

Crookston Technical Institute — \$440,000

Construct temporary teaching facility	\$ 100,000
Install street lighting system	\$ 15,000
Construct dormitory	\$ 325,000
(This is 25 per cent of the cost of this facility)	

Grand Rapids — \$168,000

Construct research and administration center, excluding conference room	\$ 168,000
---	------------

Crookston Northwest Experimental Station — \$232,000

Construction addition and renovate animal science building	\$ 192,000
Construct surface feeding areas, two silos, and liquid manure system for livestock research facilities	\$ 40,000

Waseca Southern School of Agriculture & Experiment Station — \$109,000

Install campus lighting, construct parking lot, develop roadway	\$ 15,000
Land acquisition	\$ 94,000

Morris-West Central Experiment Station — \$243,000

Install utilities	\$ 20,000
Drain soil, site preparation	\$ 10,000
Construct beef research facilities	\$ 70,000
Construct swine research facilities	\$ 93,000
Construct feed storage and processing center	\$ 50,000

Lake Itasca Forestry and Biological Station — \$52,500

Construct one faculty cabin	\$ 14,000
Construct one student cabin	\$ 8,500
Rehabilitate station electric system	\$ 30,000

Cloquet Forest Research Center — \$70,000

Construct addition and remodel office, laboratory building	\$ 50,000
Construct machinery storage building	\$ 10,000
Construct one student cabin	\$ 10,000

Rosemount Agricultural Experiment Station — \$240,000

Construct swine research facility	\$ 120,000
Construct turkey research facility	\$ 120,000

Excelsior Fruit Breeding Farm — \$34,500

Construct new staff housing	\$ 10,000
Construct screenhouse	\$ 8,000
Install chain-link fencing	\$ 16,500

Excelsior Landscape Arboretum — \$96,000

Install tile drain	\$ 6,000
Construct deep well and irrigation system for nursery area	\$ 10,000
Development of education and research center, in cooperation with the Minnesota State Horticultural Society	\$ 50,000
Land acquisition	\$ 30,000

Southwest Experiment Station — Lamberton — \$75,000

Construct scale house and fertilizer storage building	\$ 15,000
*Land acquisition	\$ 60,000

Cedar Creek — \$103,000

*Land acquisition	\$ 103,000
*Through the Minnesota Resources Commission

FACULTY CLOSE-UP

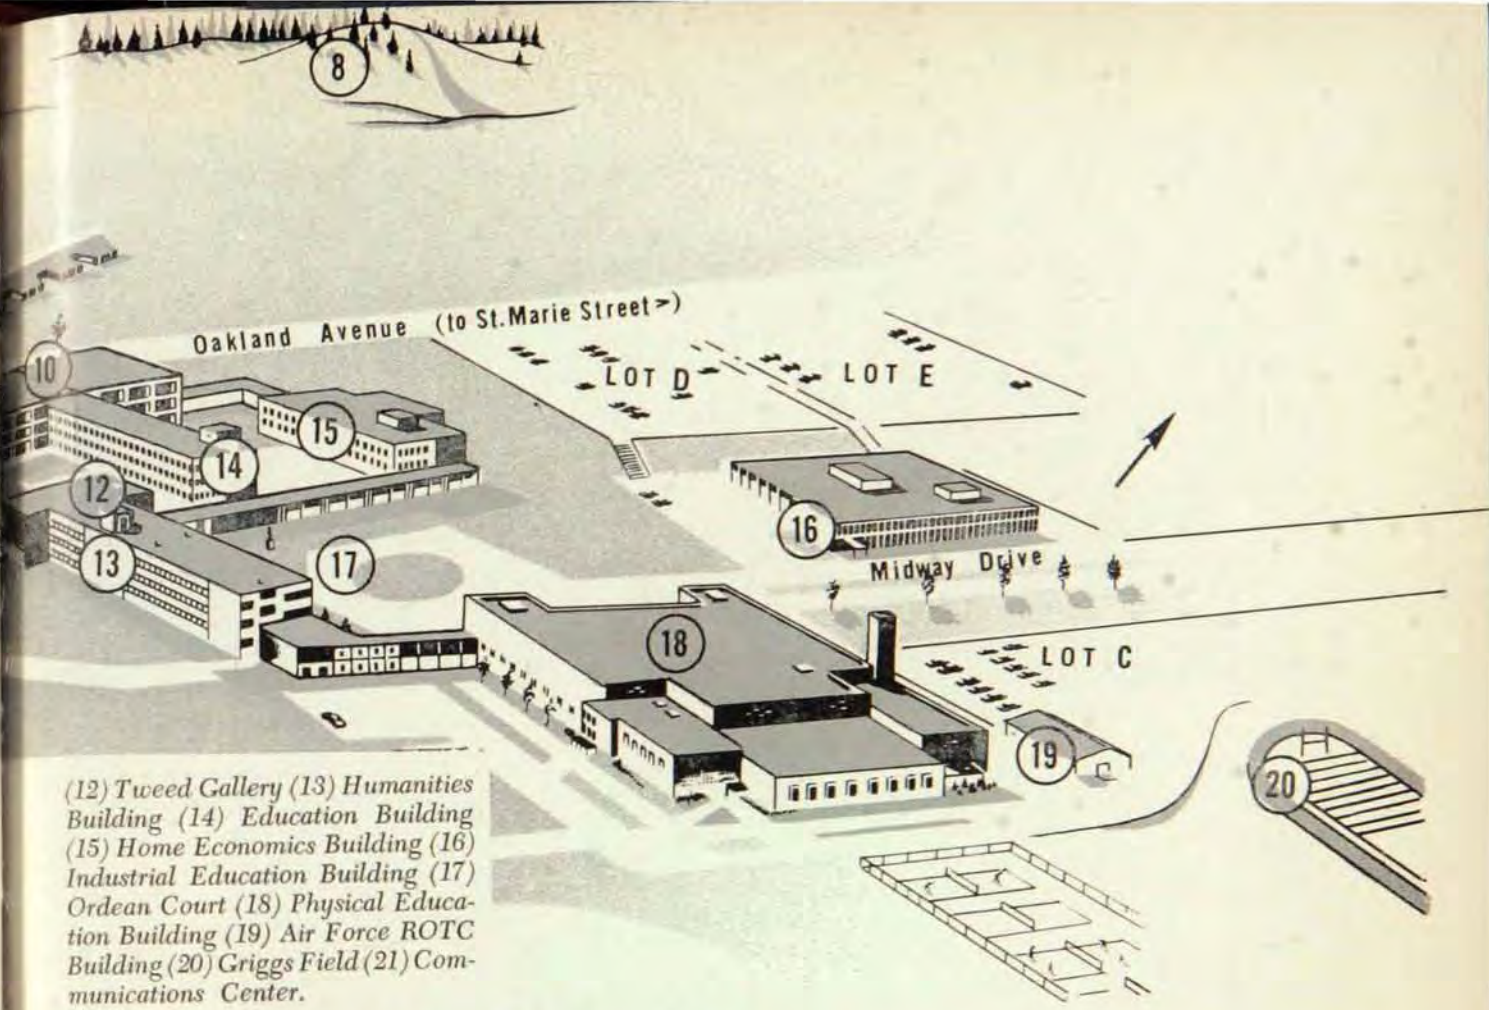

FREDERICK T. WITZIG, professor and head of geography at the University of Minnesota, Duluth, never really had a summer vacation— he was too busy directing a six-week Institute in Geography funded by the National Defense Education Act. Thirty secondary school teachers from 12 states attended the Institute, which provided the teachers with a greater understanding of the basic concepts and principles of geography. One of the most popular teachers on campus, Witzig, 42, last May was presented with the Outstanding Teacher Award at the annual UMD Recognition Dinner. A native of Morton, Illinois, where he attended high school, he received his BS degree at Bradley University in 1949, then went on the University of Illinois where he took his master's and doctorate in 1951 and 1957, respectively. He joined the UMD faculty in 1953, and since 1965 has been head of the geography department. Though a native of Illinois and a long-time resident of Minnesota, his chief interests are centered in the mining districts of northern Wisconsin and Michigan's Upper Peninsula. In 1962 he began studying their historical geography and in 1965, at an Academy of Science meeting, he presented a paper titled "The Decline of the Gogebic Iron Range." (The Gogebic Range, which transcends the Wisconsin-Michigan border, was depleted of its high-grade ore and is no longer mined, making possible a complete historical study. Were it not for the development of the taconite process, he might well be making a similar study of Minnesota's Mesabi Range.) He plans to continue his research during winter quarter of 1968.

UMD - Twenty Years Old

The Norton brothers of Paducah, Kentucky, were understandably unaware of the fact that the 160 acres of land they purchased in 1871 would someday become the site of the University of Minnesota, Duluth campus.

Their real estate venture—known as the Nortondale tract—proved a failure. For a time, only a few Indian families lived on the land. Eventually, it reverted to the City of Duluth and St. Louis County for taxes owed, and was held in conservation.

When the 1947 Minnesota State Legislature transferred Duluth State Teachers College to the University, Regent Richard L. Griggs of Duluth initiated the next step.

He purchased the Nortondale property from the city and county and gave it to the University as a site for the new campus. Other private and group donors—includ-

ing Dr. William R. Bagley and Charles Dickerman—later added 40 acres to the original tract.

Some of the youngsters who flew kites, played touch football and picked strawberries on the long-empty lots now are students at—or alumni of—the University of Minnesota, Duluth. Many of their parents graduated from Duluth State Teachers College, which operated for more than half a century three blocks “down the hill” from the new campus.

This year, on July 1, UMD celebrated its 20th birthday, complete with birthday cake and candles.

Provost Raymond W. Darland, who has guided its growth through the past 14 years, obviously pleased, cut the cake for the assembled photographers and newsmen, then reflected that UMD has progressed significantly in the past 20 years.

It was on July 1, 1947, by act of

the Minnesota Legislature, that Duluth State Teachers College officially became the University of Minnesota, Duluth Branch. The “branch” was eliminated from the name by the University Board of Regents in June 1959.

Both UMD’s predecessors—Duluth State Teachers College (1921-1947) and Duluth State Normal School (1902-1921)—operated at the lower campus at 23rd Avenue East and 5th Street.

The bustling new campus is situated on a hillside high above Lake Superior, affording a clear view of ships from all over the world as they enter the Duluth harbor.

“The Development of UMD is an excellent example of what can happen in higher education when dedicated legislators, area citizens, and generous donors combine their efforts in support of the Regents and administrators of the University.”

And Still Growing

Darland comments.

“The future of Northeastern Minnesota looks very promising. UMD plans to be a vital force in regional growth by providing quality instruction to area youth, research and public service.”

Since the first brick was placed on the new campus for the Science Building in 1949, 14 major structures have been built at a cost of \$18 million. Another \$25 million in construction will be needed to develop the campus by 1973, according to present plans.

The brick and mortar phase of UMD’s growth has barely kept pace with enrollments. When first established in 1947, there were 1,432 undergraduates on campus. This fall UMD expects to register close to 5,000, a 286 per cent increase in just 20 years.

Add to this some 1,500 Extension

Division students, 2,500 Summer Session students and about 50 graduate students, and you have more than 8,000 who receive collegiate instruction at UMD each year.

A Duluth campus “master plan” was completed in 1951. At that time President James L. Morrill noted:

“This is more than an architectural scheme; it is a product of farsighted faculty forethought as to the service which the University must strive to render to the citizens of northern Minnesota and their children. No aspect of total University operations has been more thoroughly, intelligently and cooperatively considered. None will more justifiably deserve the support of the entire state, step by step.”

By 1951 the Science Building already had been in use two years. In as rapid order as heavy construction and appropriations al-

lowed, the UMD of today took shape and form. It is architecturally unique. Nearly all its buildings are interconnected for maximum comfort and efficiency. The low profile of the campus suggests both space and compactness.

One of the most impressive additions to the new campus was the Tweed Gallery, dedicated in 1958. Mrs. Alice Tweed Tuohy and her daughter, Mrs. Bernice Brickson, donated \$228,000 for the construction of the Gallery. Mrs. Tuohy also gave her home and the George P. Tweed Memorial Art Collection to UMD and provided the \$70,000 needed to build the Gallery addition. The new Alice Tweed Tuohy Room was dedicated in 1965.

Also dedicated at that time was the bronze statute of Daniel Greyson Sieur du Luth created by Jacques Lipchitz. Funds for the statue were made available by a

GROUNDBREAKING CEREMONIES for the Science Building, first structure on the UMD Campus, were held on a chilly day in the fall of 1949. Key figures in the development of UMD in the front row are from the left, the late Senator C. A. Dahle, the late Dr. William R. Bagley, the late Representative A. B. Anderson and former Regent Richard L. Griggs '07BA.

HAPPY BIRTHDAY, UMD! Provost Raymond W. Darland (left) presented the first slice of birthday cake to Academic Dean Thomas W. Chamberlain as Constance Skidmore, UMD summer session special events coordinator, and the faculty looked on. The University celebrated its 20th birthday on July 1. It was on July 1, 1947, by act of the Minnesota Legislature, that Duluth State Teachers College officially became the University of Minnesota, Duluth Branch. The "branch" was eliminated from the name by the Board of Regents in June 1959.

Sieur du Luth

ALUMNI NEWS

bequest of the late Albert L. Orlean, pioneer Duluth banker. Another notable benefactor was Stephen R. Kirby who gave \$440,000 toward construction of the Kirby Student Center. Many other Duluthians, as well, have given funds to support UMD's development.

UMD offers more than 1,000 undergraduate and about 200 graduate courses through its four academic divisions: education and psychology, humanities, social science, and science and mathematics. Students can choose from 53 majors in 34 academic areas and 18 pre-professional programs. Five degrees are offered: associate in arts, bachelor of arts, bachelor of science, master of arts and master of science. The eight majors provided by the MA program include education, curriculum and instruction, educational psychology, history and English. In addition, the MS degree is offered in organic, inorganic, physical and analytical chemistry.

More than 300 students presently are attending UMD under 68 scholarships programs, and many others are aided by low-cost student loans.

The Humanities Division offers courses in art, English, languages, music, philosophy and speech. Students are able to supplement their academic study with participation in the speech and hearing clinic, theater, orchestra, band and choral concerts, art shows and debate teams.

The Division of Education and Psychology has special facilities which include psychological testing and interview rooms, closed-circuit and ETV studies and a specialized library.

The Division of Science and Mathematics is well known for its many research activities. Each year, a number of students participate in the National Science Foundation undergraduate research program. According to Darland, "UMD students are fortunate to be able to work with a top-level faculty in these programs. Many of the research studies are generated by a

Tweed Gallery

community need which, in turn, benefits by the information gained."

The Division of Social Sciences offers a range of subjects from business to sociology. Research and appearances by experts in social science fields are important highlights for students in this division.

One of the measures of the intellectual worth of a campus is its doctorate degree. The value of the joint student-professor effort is annually recognized by grants from the National Science Foundation, University Graduate School and many other sponsors.

Darland believes that there are a number of major factors which help retain an excellent faculty and should attract new members in the future. Duluth has an excellent school system and offers a great variety of cultural opportunities. It also is a region of outstanding scenery and recreational facilities. Add to this the fact that UMD is a campus of the University and the availability of research funds, and you create an ideal atmosphere for the educator, he observes.

About 85 per cent of UMD's students come from Duluth and the surrounding nine-county area. UMD is largely a commuter campus and a school which serves a regional need.

The hub of UMD's social and professional interest activity is the Kirby Student Center. It is equipped with offices, lounges, game rooms, cafeteria, campus club and ballrooms. It is headquarters for all major campus events, such as Student Orientation, Homecoming, Prom and Snow Week.

It's a business, cultural and social melting pot for all students, faculty, staff, alumni and campus guests.

The Center is also the "home office" for the Student Association and more than 75 student organizations made up of governing boards and councils, religious units and a multitude of special-interest groups.

These special interest groups include five social fraternities, four social sororities and one service sorority. It also includes a Young Democratic-Farmer-Labor Club, the Young Republican Club, the International Club for foreign students, and the Rangers Club, a group made up of students from the Iron Range.

In response to UMD's request for \$66 million in building funds for the 1967-69 biennium, to keep pace with burgeoning enrollments,

(Continued on page 33)

ALUMNUS ON THE MOVE!

William H. Sewell, a man who says he smokes a pipe excessively and drinks sherry moderately,

is the newly-named chancellor of the University of Wisconsin's Madison Campus.

Sewell replaces Robben W. Fleming who has left Wisconsin to become president-designate of the University of Michigan on November 1.

Sewell has been a member of the Wisconsin faculty since 1946. He has served as chairman of the sociology department and has held a Vilas Research Professorship since 1964. In addition,

he has served as chairman of the University of Wisconsin's most influential faculty committee, the University Committee.

The formal announcement of his appointment came at the conclusion of the June meeting of the Wisconsin Board of Regents. His appointment had been recommended by President Fred Harvey Harrington and a nine-member search committee which had been seeking Fleming's successor since mid-April. His appointment to the key position in the University structure was a surprise to most people as he had not been mentioned among the several men considered possible candidates for the post.

(His function will be that of the university presidents in other eras, before the establishment of branch campuses and new colleges and services in dozens of directions. He will be the principal executive responsible directly only to the man who is the chief officer of the whole university system, President Harrington.)

Nevertheless, it is significant that the University of Wisconsin did decide to promote from inside its ranks rather than secure a prominent educator from the outside.

This fact will have considerable impact on the new chancellor's approach to handling his responsibilities. One of the most volatile areas of campus development facing him will be maintaining order in the face of increased student agitation on a number of issues.

But the new chancellor does not look on this as a negative development. "I've never known when students have had a more thorough understanding of world affairs," he said in a press conference following his appointment. Today's students, he observed, "raise more penetrating questions."

Professor Sewell's understanding of students certainly will be enhanced by the fact he and Mrs. Sewell (the former Elizabeth Shogren) have three children, all of whom currently are college students — Mary (Mrs. Mary Elizabeth Knudson), a graduate student at the

University of Oregon; William III, studying in France; and Robert, working on his master's degree at Columbia University.

The new chancellor was born in Perrington, Michigan, on November 27, 1909. He received both his bachelor's and master's degree in sociology from Michigan State University in 1933 and 1934, respectively, and his doctorate from the University of Minnesota in 1939.

A strong believer in the value of athletics, Sewell explains that he follows a daily regimen of exercise which includes 25 sit-ups, 25 toe-touches, 25 push-ups, 50 leaps and running in place.

As the *Wisconsin Alumnus* commented, "He'll need to be in shape when he assumes the demanding pace and responsibilities of his new job in the fall."

In a June 17 editorial, the Appleton, Wisconsin, *Post-Crescent* wrote:

"With a new chancellor of mature years, working under a university president who is slightly younger, we may assume that the executive command of the University will be stabilized for some time. In that respect, President Harrington and regents chose well, for it is evident that the University is entering upon a period of growth and change that will rival anything in its history of more than a century. It will need firm and experienced and steady hands at the controls. Chancellor-Designate Sewell has our earnest best wishes for a successful leadership career, after decades of quiet work in sociology teaching and investigation."

ALUMNI NEWS

How the West Was Won

"Busy" is a good word, though perhaps inadequate.

"Feverish," while containing some degree of accuracy, nevertheless belies the overall relaxed quality of students and staff alike.

"Bustling," perhaps, most accurately describes the University of Minnesota, Morris.

Everywhere one looks, construction is in progress. Sleek new classroom buildings, bristling with the latest in equipment and facilities, form a comfortable camaraderie with the old on the pleasant, tree-lined campus north of town.

Originally an Indian School, in 1910 the State Legislature established it as an agency of the University as a School of Agriculture and Experiment Station.

Fifty years later the University Board of Regents inaugurated college training on the campus.

Phasing out of high-school level instruction at the school started at the same time, but Experiment Station activities continue to this day, making many contributions to the area's agriculture.

The Regents' decision, based on more than two years of study, culminated an intensive, extensive and expensive campaign by Morris-area residents in gaining recognition for the higher education needs of the area.

The West Central Educational Development Association (WCEDA), under its first president, Clayton Gay '30LLB, was organized in February 1957 to "sell" to the citizens of the state, to state legislators, the Board of Regents and other University leaders the need for higher education facilities in western Minnesota, and the desirability and practicability of es-

tablishing such additional facilities on the West Central School campus where the University and state already had a ready-made \$5 million physical plant.

A number of surveys conducted by the association brought out, among other things, the fact that of the 34 colleges in the state, only four were in the western half. The combined facilities of the four accommodated only 1/15th of the students attending college in the state while high schools in the western area provided about 30 per cent of the graduates of the entire state.

The first study led to dozens of others. The findings established the base for the Regents' action.

Farm trends, housing availability, various determining factors, population characteristics—all came under the scrutinous eye of the WCEDA. Their studies and surveys were backed and encouraged by the Minnesota Farm Bureau Federation and the Minnesota Farmers Union which were among the first statewide organizations to support their work.

The Regents' action was the result of a long, uphill battle.

The 1957-59 Interim Commission on Higher Education urged that the University begin developing college-level programs at Morris and Crookston Agricultural Schools.

Sen. Dunlap, who headed the Commission, went on record urging "that the Board of Regents be requested to develop collegiate programs and that adequate funds be provided for this purpose."

Cover Photo: An interesting contrast in the new Science Building on the Morris Campus.

The funds were not appropriated, throwing the problem back into the hands of local supporters.

The Agricultural Schools Commission, headed by Sen. Fred Behmler of Morris, urged the Regents to prepare and submit to the legislature plans for a four-year college branch at Morris and Crookston. It said higher educational facilities were lacking in a large area of western Minnesota and called for "equality in educational opportunity." It said establishment of colleges at the present high school level would provide that opportunity "without the added expense of creating entirely new campuses and facilities."

Senator Behmler, one of the leaders in the struggle for the establishment of the University of Minnesota, Morris, estimated that four-year college study at Morris would draw enrollment of a minimum of 771 and a maximum of 1,152.

From a total enrollment of 238 in 1960, enrollment has grown to more than 1,000 already—1,062 students were enrolled last fall, including 373 freshmen, and enrollment predictions of 1,137 are being made for this fall.

Area residents saw the first glimmer of hope when University appropriations were announced in 1959 by the Legislature. Where many University requests were lowered or completely leveled, appropriations for Morris facilities and improvements passed unscathed.

When word was received of the impending Regents' action, area businessmen, citizens and well-wishers raised more than \$10,000

Science Building, Unit 1

in less than 24 hours. In a week the total had climbed to \$30,000.

In announcing the Regents' action, President J. L. Morrill emphasized that they had authorized only the experimental beginning of first-year college instruction at Morris for the coming school year, and further study of the future programs of the Crookston and Grand Rapids schools.

"It will be recognized," he added, "that any development of continuing collegiate or post high school level work at these schools will require legislative support."

When college freshmen first arrived on the Morris campus in the fall of 1960, they became leading characters in an experiment of unorthodox beginning and dubious duration.

But the freshmen and an energetic, inventive little band of faculty were off and running. The 1961 Legislature, by then convinced, made it official by appropriating funds to add sophomore and junior years, and by June 1964 Morris had produced its first graduating class.

In October 1967 it is evident that the University of Minnesota, Morris has come of age. It has a constitution, approved just this year,

and a long-range plan under way. The 143 young men and women awarded degrees in the crowded gymnasium last June were the first class to experience Morris as a complete college for all of their four years.

At first the school attracted its student body primarily from the 20 counties surrounding Morris, according to the energetic Dean, Rodney Briggs. Last year, 72 counties and 267 high schools were represented in the student body.

Nevertheless, in some ways Morris is more experimental now than in its first years. Then its curriculum was basic and traditional, because recognizable academic substance seemed essential.

Now established, with closer ties to the rest of the University, with former students accepted in graduate schools, with the Legislature demonstrating respect by meeting fund requests, Morris can afford to be more daring and distinctive.

It has a Seminar-Honors program—encouraging creative discussion and research—for students at all levels, not just upper classmen. Freshmen must take part in the small-group seminars for the fall quarter, but must apply for this pro-

gram thereafter. The Seminar-Honors program is the product of an experimental Honors Program begun in the fall of 1965. Its first full-time director, Dr. Theodore E. Uehling Jr., was appointed last month.

It has a firmly selective admissions policy.

It has student representatives on every major faculty committee.

It has a generally young faculty, to whom the small college campus with a background of university prestige, is appealing.

The selective admissions policy is one of the reasons for the school's growth, according to Briggs. Students tend to be from the top 17 per cent of their high school classes.

The fact that it is a non-commuter campus with an intense and well-rounded academic and social program also is appealing, he says. About three-fourths of the students come from rural areas or small towns.

A young, imaginative faculty also has helped the school attract high-caliber students. Nearly half the faculty hold their doctorate degree.

Morris students have shown great initiative. They operate a weekly newspaper without a governing board, which is unusual for most campuses. Even in their social life they have shown initiative.

A group of students applied for and received permission to operate a 3.2 beer hall from the Morris City Council. They named it the Cougar Club, after the school's football team. It has the blessing of the administration and has become after-school campus hangout.

On the cultural side, the University imports a classical series of musical events and a popular series of folk and jazz celebrities each academic year.

Growth has been limited by facilities, but new buildings are going up—the second section of the new Science Building, another residence hall, a library and, before long, a new Physical Education Building—in accord with a master plan which assumes reaching an enrollment plateau of 2,000 students by 1975.

We also gave him a raise

Policyholders get special treatment from Connecticut Mutual—and good dividends too! This year, we again raised their dividends thus reducing the cost of their life insurance. It's the twelfth dividend increase in the last 20 years. Another reason why this 121-year-old firm is called the 'Blue Chip' company.

Connecticut Mutual Life

THE UNIVERSITY

1967 Homecoming Activities: Something for Everyone

Homecoming activities, climaxed by the Minnesota-Michigan State football game on Saturday, October 21, will move into full swing on Monday, October 9, with a Women's Alumnae Luncheon at the St. Paul Capp Towers.

A full schedule of activities for alumni and students has been planned by Chairman Mark Clein and Assistant Chairman Ian Swatez.

Other committee chairmen are Jim Hemak, finance; Roxy Weisberg, publicity; Bill Josten, athletic; Dave Estrin, educational and cultural; Chuck Levenberg, special events; Nan Weiner, information booklet; Gail Borken, secretary; and Rita London, assistant secretary.

Major events include:

- October 9—Women's Alumnae Luncheon, Noon-1:30, St. Paul Capp Towers. Buttons go on sale
- October 10—Women's Alumnae Luncheon, Noon-1:30, Sheraton-Ritz Hotel
- October 11—Men's Alumni Luncheon, Noon-1:30, Sheraton-Ritz Hotel
- October 12—Men's Alumni Luncheon, Noon-1:30, St. Paul Capp Towers
- October 16-21—Lectures by alumni and staff. University displays at Dayton's Minneapolis & St. Paul. House decorations on display
- October 17—Dance, Coffman Main Ballroom
- October 18—Art display and sale, Coffman Union
- October 19—Concert and coronation in Northrop Auditorium
- October 20—Parade
- October 21—Minnesota vs. Michigan State, 1:30 P.M. Union Board of Governors Dance

Wangensteen Honored In Medical Journal

The life and medical contributions of Dr. Owen H. Wangensteen '19BA '22MD '25PhDSurg, who retired this summer after 37 years as professor and chairman of the department of surgery, are highlighted in the cover story of a recent issue of *Modern Medicine*.

Dr. Wangensteen, selected by the journal's editors as their "Contemporary" for the issue, also is a Distinguished Service Professor and Regents' Professor. He is the holder of six honorary degrees and received the Passano Award in 1961.

Of his former trainees, 35 are full-time professors or heads of departments of surgery, while 30 more have other full-time academic positions. In addition, 11 of his students have been awarded Markle scholarships.

Arboretum Day Slated October 14

Open house at the University's Landscape Arboretum near Excelsior has been set for Saturday, October 14.

Sponsors of Arboretum Day are the University of Minnesota and the Minnesota State Horticultural Society. The event is open to the public.

Trailer tours will start at 10 A.M. and continue throughout the day. An informal program has been set for 1 P.M. to report on the progress and accomplishments of the Arboretum.

General Admission Tickets Available For All Home Games

A limited number of general admission tickets to all Gopher home football games will be on sale this fall. The tickets will be priced at \$2.50 and will admit to Section 15 in the bowl area of the stadium.

Tickets will be available the week of the game at three outlets—108 Cooke Hall on Campus, Dayton's Ticket Office and the Field Schlick Ticket Office in St. Paul.

At this date, reserved seats still are available for all games and are on mail order sale through the Campus Ticket Office.

Jasper Named To Athletic post

Wallace J. (Wally) Jasper whose appointment as assistant to athletic director Marsh Ryman and assistant professor was made by the University of Minnesota Board of Regents last month, brings with him to his new posts within the University's athletic department a strong background in sports.

Jasper's first contact with University athletic officials was made while he was serving in the capacity of press liaison officer for the 1967 Pan-American Games held in Winnipeg. He was a frequent visitor to the Twin Cities area.

Jasper taught English with the Fort Gary School division 1965-66, and taught history and physical education with the Midland School division 1962-65. He is a graduate of Brandon (Manitoba) College from which he received his BA degree in history in 1959. He was a member of the Brandon Honor Society. He served as executive of the Manitoba Amateur Hockey Association 1961-63 and was in charge of the Manitoba Secondary Schools Athletic Association 1964-66.

University's Delta Field To Be Named For Bierman

The University of Minnesota's Delta Field will be renamed Bierman Field—in honor of Bernie Bierman, former football coach and professor of physical education—at a ceremony in Williams Arena on Saturday, Oct. 7.

Bierman, who was head football coach from 1932-41 and from 1945-50, compiled one of the most outstanding coaching records in the history of American collegiate football. He retired as a professor in June 1959.

The brief dedication ceremony will be a part of the Legislators, Editors, and Broadcasters' Day program. The ceremony will be held at 11:30 a.m., with Stanley J. Wenberg, vice president for educational relationships and development, presiding.

An exhibit of Bierman pictures and mementoes will be included among the exhibits in Williams Arena. A plaque which will be placed on a new stone gate at Bierman Field will be displayed in the exhibit and at the dedication ceremony.

Delta Field, which covers approximately 15 acres just north of the Minneapolis campus, has baseball diamonds for both the varsity and freshman teams; nine softball fields, most of which are lighted, and four lighted touch football fields. Plans call for expansion of the field to 32 acres.

The field is used heavily for intramural softball and touch football and for women's physical education classes and field hockey. University High School football teams play their home games there.

The first portions of the field were purchased in the spring of 1948 and a footbridge across the Great Northern Railway tracks from the campus to the field was built the following year. A building to house baseball team locker facilities and provide storage for intramural equipment also was constructed at that time.

Bierman-coached Minnesota football teams won six Big Ten Conference championships and five national championships. He was noted for his teaching ability and for his way of helping college boys become polished young men.

"The broad sweep of Bernie Bierman's interests stand a bit in the shadow of his great fame in football," Wenberg said, "But his years at Tulane, Iowa Pre-Flight and Minnesota, and his years since retirement, reflect the full range of his interest in the physical, mental and spiritual well-being of his fellow men. A field dedicated to the interests of all students in intramural sports and physical education, as well as intercollegiate athletics, most appropriately should bear the name of Bernie Bierman."

John L. Griffith, former Big Ten Conference athletic commissioner, in the foreword to Bierman's book, *Winning Football* (published in 1937), said Bierman "would be a great teacher even if he taught a different subject."

Bierman's overall perspective was expressed in that book when he said: "I don't think football has much more effect upon the well-being of an institution than high-class achievement in other fields of college activities."

There was no question about the high-class achievement of Bierman's football teams. His Minnesota teams won 93 games, lost 35 and tied 6. He coached at Butte, Montana, High School, the University of Montana, Mississippi A&M and Tulane University before coming to Minnesota and his lifetime coaching record stands at 152 victories, 59 losses and 12 ties.

A native Minnesotan, Bierman was born in Springfield on March 11, 1894. He attended high school in Litchfield and was graduated from the University of Minnesota in 1916. At Minnesota he participated in football, track, baseball

and basketball. He captained the 1915 Gopher football team, which won the conference championship, and was named to the all-conference team that year. Upon graduation, he was awarded the Western Conference medal for proficiency in scholarship and athletics.

Bierman was head coach at Mississippi A & M in 1925 and 1926, then went to Tulane as head coach in 1927. He returned to his alma mater in 1932, when Minnesota football was in the doldrums, and under his coaching the Gophers experienced what has been called the "glory period" of Minnesota football.

Bierman's teams went undefeated in 1933, 1934, 1935, 1940 and 1941; won Big Ten championships in 1934, 1935, 1937, 1938, 1940 and 1941 and were national champions in 1934, 1935, 1936, 1940 and 1941.

He was called back into the Marines as a major in 1942, serving as athletic officer and football coach at Iowa Pre-Flight School in Iowa City. He was promoted to lieutenant colonel and was released from the service in time to resume his Minnesota coaching duties in 1945.

Minnesota lost many top athletes during the war because the school had no armed forces training program and Bierman had to rebuild his team completely. The 1949 team narrowly missed the conference championship. Bierman resigned from coaching at the end of the 1950 season but remained on the faculty as a professor.

Bierman's wife, Clara, also is a University of Minnesota graduate.

Bierman is a member of the National Football Hall of Fame and the Helms Hall of Fame. He was president of the American Football Coaches Association in 1935 and received the University's Outstanding Achievement Award in 1955. Since his retirement, Bierman has done newspaper and radio work, has served on the Minneapolis Chamber of Commerce Sports and Attractions committee and has helped organize Goodwill Industries charity drives.

Your

MINNESOTA CHAIR

Whether your home, office, or studio follows the conventional or modern trend, this beautiful chair will lend itself in perfect harmony . . . this chair, which comes in black, with gold trim, has a proper place in any setting.

You have always admired this type of chair for its beauty in design and comfort . . . and now you may own one with that added "personal touch" . . . the Minnesota seal has been attractively silk screened, in gold, to the front of the chair.

The price to members, only \$34.50; non-members, \$37.50. Shipped to you express collect from Gardener Mass. (Add 3% State Excise Tax TO TOTAL. Minnesota residents only).

Minnesota Press Launches Paperbacks

A collection of critical essays by a man known as the foremost Shakespearean scholar of his time is the first in the new Minnesota Paperbacks series published last month by the University of Minnesota Press.

Poets and Playwrights: Shakespeare, Jonson, Spenser and Milton was written by Elmer Edgar Stoll and first published in hardcover by the University Press in 1930. Stoll, a professor emeritus of English at Minnesota, died in 1959. When he received an honorary doctorate from the University in 1950, he was called "the foremost of living Shakespearean scholars."

The new series also includes the following works:

Education and Creative Potential by E. Paul Torrance, University former professor of educational psychology; *T. S. Eliot: Moments and Patterns* by Leonard Unger, University English professor; *Historians Against History: The Frontier Thesis and National Covenant in American Historical Writing Since 1830* by David W. Noble, University history professor; *Alms for Oblivion* by Edward Dahlberg;

Phonetics and Diction in Singing: Italian, French, Spanish, German by Kurt Adler, conductor and chorus master of the Metropolitan Opera; *The Concept of Development: An Issue in the Study of Human Behavior* by Dale B. Harris, former University psychology professor; *Travels and Traditions of Waterfowl* by H. Albert Hochbaum, director of the Delta Waterfowl Research Station in Manitoba, Canada; *From Jane Austen to Joseph Conrad: Essays Collected in Memory of James T. Hillhouse* edited by Robert C. Rathburn, University associate professor of literature, speech and writing, and Martin Steinmann Jr., University English professor; *The 'Mental and the 'Physical'* by Herbert Feigl, University Regents' Professor of Philosophy.

Student Employment Service Seeking Part-Time Jobs

W. L. Pedersen, director of the University's Student Employment Service, has a big job ahead of him again this year and hopes to find part time and temporary jobs for about 17,000 students — the number of students expected to apply for work at the Student Employment Service this year.

Last year, approximately 15,000 students applied. A rapidly increasing enrollment—an estimated 45,000 or more this year — and steadily rising education costs are expected to bring the additional applicants.

Although the Service was able to find work for almost 13,000 students last year — either at the University or in the surrounding metropolitan areas — Pedersen said several more thousand off-campus jobs will be needed to meet the demand this year. If the additional jobs are not located, some of the students may be forced to drop out of school.

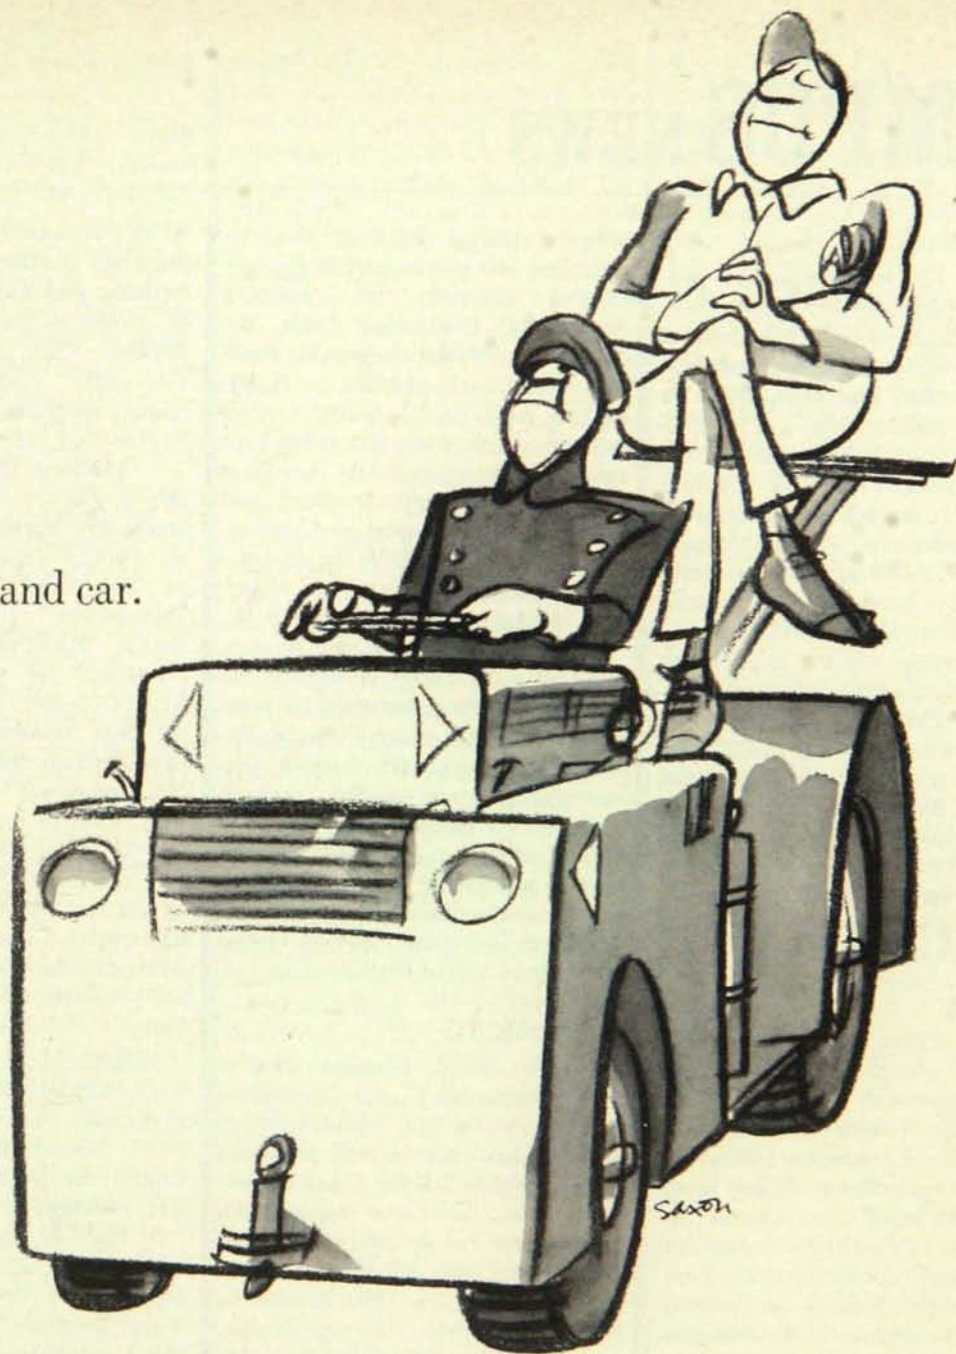

"In some cases," he said, "the parents are financially unable to help with all the student's needs. To these students, then, a job may mean the difference between staying in school and dropping out."

In an effort to help fill the job gap, the Student Employment Service has contacted a large number of business organizations in the Twin Cities area to ask their help.

Would you Twin Cities alumni also help now by checking your company's possibilities and then listing part time or temporary jobs with the Student Employment Service, 30 Wulling Hall, or phoning 373-3674.

Those alumni located outside the Twin Cities area can also lend a hand by helping students with jobs in their hometown during vacation periods and for next summer.

Our command car.

This is our man in charge of saying "No."

No to Captains. No to Vice-Presidents. And even no to The Chairman of the Board.

Which is just what a good mechanic ought to say.

He thinks nothing of keeping a 7 million-dollar airplane in the hangar because a 10¢

part needs replacing.

Or checking the burbling air in a fan-jet 20 times—until he's satisfied it's burbling just right.

All of which, we're proud to say, has made American one of the most dependable airlines in the business.

We wouldn't dare be otherwise.

We built this airline with the professional traveller in mind—the man who rates an airline on the service it gives, not how glamorous it looks.

And if his plane is late on Sunday, we know his Travel Agent won't be calling us for tickets on Monday.

Or yours, either.

American Airlines

The airline built for professional travellers. (You'll love it.)

CAMPUS NEWS

DULUTH

Donald E. Olson, assistant professor of physics, last month presented a paper at the **14th General Assembly of the International Union of Geodesy and Geophysics in Lucerne, Switzerland**. . . . Fall hours for UMD's Marshall W. Alworth Planetarium and Darling Observatory have been announced. The Planetarium program is presented at 7:30 P.M. Mondays and Wednesdays and the Observatory is opened at dark each Tuesday and Thursday evening. . . . Keith H. Anderson of Duluth and Timothy L. Anderson of Baudette, two members of Air Force ROTC Detachment 420 **have been awarded AFROTC financial assistance grants totaling \$4,000**. . . . Elroy W. Froiland, UMD senior, has been named the recipient of a **\$375 scholarship** from Clan Stewart No. 50, Order of Scottish Clans, Duluth.

ST. PAUL

Vernon W. Ruttan, professor and head of agricultural economics, has received the Best Article of the Year Award from the *Journal of Farm Economics* for his article on **"Agricultural Policy in an Affluent Society"**. . . . Career opportunities in forestry are outlined in a special booklet released recently by the School of Forestry entitled "Programs in Professional Forestry". . . . Louis H. Wetzell has been named new **resident manager of the Lake Itasca Forestry and Biological Station**. . . . Dogs and horses will come under the spotlight during discussions at a special joint symposium and conference for veterinarians October 11-12 on the Campus. **The Gaines Symposium**, sponsored by the Gaines Dog Research Center will be held in conjunction with the **annual Veterinarians Conference** for veterinarians from Minnesota and neighboring states.

E. C. Stakman, professor emeritus and former head of the department of plant pathology, recently received the **exclusive Award of Distinction from the American Phytopathological Society** at its annual meeting in Washington, D.C. . . . Manufactured milk products were the subject of opening-day sessions last month at the **Dairy Products Institute and Sanitarians Conference** on Campus. More than 250 dairy processors and sanitarians attended the three-day conference. . . . Lloyd L. Smith Jr., professor in the department of entomology, fisheries and wildlife, **has been installed as president of the American Fisheries Society**. . . . Eugene H. Sender, former group leader in the research division of General Mills, has been named **associate professor and extension processing engineer** in food science and industries and the Agricultural Extension Service of the Institute of Agriculture.

Herbert Feigl, Regents' Professor of Philosophy and director of the Center for the Philosophy of Science, **has been elected president of the Institute for the Unity of Science**. . . . Two new degree programs now being offered by the department of Middle Eastern Languages are the BA degree in Hebrew and the MA in Arabic. . . . Dr. Henry Buchwald, assistant professor of surgery, has been awarded the **Samuel D. Gross Prize in Surgery by the Philadelphia Academy of Surgery**. He is the third Minnesota surgeon to receive the \$1500 prize. . . . The University has received a **training and teaching grant of \$194,884** from the Vocational Rehabilitation Administration of the U. S. Department of Health, Education and Welfare to continue its training program for vocational rehabilitation counselors and psychologists.

MINNEAPOLIS

Roger Upson has been appointed to the newly-created position of **associate professor of international business and finance** in the School of Business Administration. . . . Robert Ellis, former Wesleyan University professor, has been named professor in the Institute of Technology school of mathematics. . . . **Mulford Q. Sibley**, professor of political science, **spoke on "Contemporary Pacifism"** at a recent international conference on conflict at Princeton University. . . . "Manpower Planning: A Research Bibliography" has been published by the Industrial Relations Center. The 36-page booklet **lists resources for firms and organizations interested in forecasting manpower** and planning full utilization of manpower. . . . Tillie D. Ginsburg '40GDH '55BA, former associate professor and head of clinical dental hygiene in the Marquette University school of dentistry, has been named associate professor in the School of Dentistry.

Eileen McAvoy, who formerly was administrative secretary to President Malcolm Moos in his Ford Foundation office, **has assumed the position of administrative assistant to the new president**. . . . Lars Gunnar Sillen, professor of inorganic chemistry at the Royal Institute of Technology at Stockholm, Sweden, currently is teaching a class in organic polymerization processes in solution under the Hill Family Foundation visiting professor program. . . . **Frank M. Whiting**, director of the University Theatre, has received the annual **award of merit of the American Educational Theater Association**. Whiting, past president of the organization, received the award for "selfless leadership and counsel to national, regional and university theater" Professor Paul E. Meehl of the psychology department **has received a "Distinguished Contributor Award"** from the

clinical division of the American Psychological Association.

Manuel Sanchez-Nelson, co-director of the University-Chilean Cooperative Agriculture Program, currently is working toward his master's degree in public administration and agriculture at the University. . . . **The first Admission Test for Graduate Study in Business** will be held November 4 on Campus. The test also will be offered February 3, April 6, July 13 and August 10, 1968. . . . Robert Vince, **assistant professor in the medicinal chemistry department** of the University of Mississippi, has received a similar appointment at the University of Minnesota. . . . **Thomas E. Hutchinson**, former research specialist at Minnesota Mining & Manufacturing Company, has been named associate professor of mineral and metallurgical engineering. . . . Roger S. Jones, assistant physicist at Brookhaven National Laboratory, Upton, New York, **has been appointed associate professor of physics.**

Andrew MacLeish, a nephew of poet and critic Archibald MacLeish, **has been appointed visiting professor of English** for 1967-68. He is an associate professor of English at Northern Illinois University. . . . Robert L. Jones, director of the School of Journalism and Mass Communication, recently began a one-year term as **president of the Association for Education in Journalism.** . . . Stephen G. Gasiorowicz and Hiroshi Suura, physics professors, recently attended the International Theoretical Physics Conference on Particles and Fields at the University of Rochester. . . . **Hide Shohara, professor emeritus of Japanese at the University of Michigan**, has been appointed a Hill Family Foundation visiting professor for 1967-68. She will teach contemporary Japanese texts and advanced Japanese conversation and composition in the department of East and South Asian languages.

"The Figure of the Earth," a science history by Tom B. Jones, professor of history, recently was

published by Coronado Press, Lawrence, Kansas. The book deals with the 18th-century controversy over the shape of the earth and the explorations to determine the true shape. The book is the **sixth to be published by a history department faculty member this year.** . . . Dale F. Stein '58BS, who has been associated with the General Electric Research and Development Center in Schenectady, New York since 1959, has been appointed associate professor in the school of Mineral and Metallurgical Engineering. . . . **Edgar M. Turrentine**, associate professor of music at Lawrence University, Appleton, Wisconsin, has been named **associate professor of music education** in the College of Education.

For the third time in two years the **"Capital Expenditure Analysis Seminar"** will be offered by the University to top-level executives who have capital expenditure decision-making authority in medium-sized and large companies. The two-day course, sponsored by the General Extension Division department of continuing business education and the School of Business Administration, **will be held October 9-10** at the Hopkins House. . . . Douglas Campbell, artistic director of the Minnesota Theatre Company, will direct Shakespeare's **"Troilus and Cressida"** from February 1-11, 1968. Other productions this year will include **"Tiny Alice"** November 2-12; **"The Pajama Game"** November 22-December 3; **"Waiting for Godot"** February 22-March 3; and **"The Inspector General"** April 18-28.

A University program to develop a course for prospective high school geometry teachers will be extended through February 1969 under a new **National Science Foundation grant of \$99,250**, bringing total support of the University project to more than a million dollars. Earlier NSF awards totaled \$909,030. . . . Rachel R. Van Meter has been appointed **associate professor in the College of Liberal Arts Center for South Asian Languages** and Area Studies and Administration. During 1966-67 she

was in Calcutta, India, under a fellowship grant from the American Institute of Indian Studies. . . . **Some 800 new students** attended eight freshman camps last month as part of the University's orientation program provided by the Dean of Students Office. . . . **More than 3,000 parents of new students** visited the Campus last month when the annual observance of Parents' Day opened the 1967 Welcome Week. President Malcolm Moos delivered the Parents' Day convocation address.

Jean Piaget, one of the world's leading child psychologists, **lectured at the University last month.** Piaget, who spoke on September 28 and 29, is director of the Institut Jean Jaques Rousseau in Geneva, founder and director of the International Center for Genetic Epistemology and professor of psychology at the University of Geneva. He has written about 25 books and several hundred articles on all phases of children's development. . . . Dr. Daniel E. Waite, former assistant professor of dentistry at the Mayo Graduate School of Medicine, has been named professor of dentistry. . . . William R. Ware, associate professor at San Diego State College, has been named associate professor of chemistry. . . . **Edmund G. Williamson**, dean of students, and **Henry Borow**, professor of psychological studies, represented the American Personnel and Guidance Association at the recent **Asian Regional Conference on educational and vocational guidance in Tokyo, Japan.**

William N. Lipscomb Jr., former chief of the chemistry department's physical chemistry division and now a Harvard faculty member, has received a **\$2,000 award from the American Chemical Society for distinguished service** in the advancement of inorganic chemistry. . . . Neville J. Wolf, senior resident research associate at the National Aeronautics and Space Administration's Institute for Space Studies, has been appointed **professor of astrophysics and director of Minnesota observatories.**

Graduate Record Examinations Set

Graduate Record Examinations of the National Program for Graduate School Selection will be offered beginning Saturday, Oct. 28, 1967.

Testing will be continued, Dec. 9, 1967, and Jan. 20, Feb. 24, April

27 and July 13, 1968.

Graduate Record Examinations are required or recommended for admission and fellowship awards at many American and Canadian graduate schools. The examinations include an aptitude test of general scholastic ability and advanced tests of achievement in 21 major fields of study. Candidates are

permitted to take the aptitude test and one advanced test on any of the six national testing dates.

A Bulletin of Information and registration form can be obtained from the Student Counseling Bureau, 101 Eddy Hall, University of Minnesota or the Educational Testing Service, 990 Grove St., Evanston, Ill., 60201.

When You Join The Minnesota Alumni Association . . .

You can qualify for
\$10,000 Group Life Insurance

If you are a member of the Minnesota Alumni Association this low cost Group Life Insurance is available to you. As little as seven cents a day will provide \$10,000 of life insurance protection if you are under age 25. If you are between the ages of 40 and 45, the same protection may be provided for as little as 20 cents a day. Find out about the MAA Group Life Insurance Program today. Write or phone inquiries to:

General Motors is people making better products for people.

Jack Schweibold took off. And landed two world records.

When General Motors' Allison Division developed a gas turbine for the Army that doubles a chopper's speed, range and payload with half the engine weight, it was test pilot Jack Schweibold's job to prove it.

Not only did he prove it, but he set new world's helicopter records for closed-circuit distance and longest solo flight to boot. GM people like Jack Schweibold won't settle for less than the best from themselves.

Which is why you never have to settle for less than the best from General Motors.

And another reason why, for example, you get a better buy in a Chevrolet, Pontiac, Oldsmobile, Buick or Cadillac car.

Jack Schweibold, Test Pilot, Allison Division, Indianapolis, Indiana.

MARK OF EXCELLENCE

THE ALUMNI

Medical Homecoming Party, Annual Meeting October 20

The Medical Alumni Association's Annual Homecoming Party and 30th Annual Meeting will be held Friday, October 20, in the Minnesota Ballroom of the new St. Paul Hilton Hotel.

Entertainment will be provided by the Strolling Strings who will play during dinner, the Jerry Mayeron Orchestra and vocalist Mary Davies.

The dinner meeting will begin at 6:30 P.M. with a social hour, followed by dinner at 8:00, with dancing from 9:30 to 12:30.

Highlight of the annual meeting will be the presentation to Dr. Theodore R. Fritsche of the Medical Alumni Association's Harold S. Diehl Award.

Three class reunions will be held in conjunction with the meeting—1917, 1937, 1942 and 1957. For reunion classes, the two-day program will be social, scientific and nostalgic.

Activities will begin Friday morning with an 8:30 A.M. registration and continental breakfast. At 9:45 all four classes will board buses for the Campus and a tour of University Hospitals, followed at noon by a luncheon and all-Medical School staff meeting in Mayo Auditorium.

Wives will attend a special luncheon at the Minnesota Alumni Club in the Sheraton-Ritz Hotel in downtown Minneapolis.

At 1:00 P.M. class members will receive greetings from the Medical School staff and hear scientific papers presented by members of the classes. Buses will return to the Hilton at 3:30.

On Saturday, reunion classes will have a 10:00 A.M. brunch before departing by bus for the Minnesota-Michigan State University Homecoming game. Following the game, buses will return to the Hilton.

Dr. Fritsche

For all reunion class members, Friday breakfast tickets are \$1.00 per person, wives' luncheon tickets are \$2.50 and tickets for the pre-game brunch are \$2.00 per person.

Cost for the Homecoming Party is \$10.00 per person. A bloc of tickets also has been received for the game. Tickets, at \$5.00 each, must be ordered by October 9.

Reservations should be sent to the Medical Alumni Association, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455.

Gaubatz Named Indiana President

Lawrence Gaubatz '48BBA has been elected president of the University of Minnesota Alumni Chapter of Central Indiana.

Other officers for the coming year are Robert Montgomery '37BSAg, vice president; Mrs. David Nealy, secretary-treasurer; and Mrs. Gaubatz '48BBA, publicity chairman.

Members of the board of directors are Ed Dewes '54BME, Rolf Westby '47BSPhm and Don Stephenson '50BME.

Morris Alumni Meeting Set

The Fourth Annual Meeting of the University of Minnesota, Morris Alumni Association will be held Saturday, October 28, in conjunction with Campus homecoming activities.

The day's activities will begin at 1:30 P.M. with the Morris-Northern State College Homecoming game, followed by tours of the Campus from 4:00 to 5:00 P.M. A social hour at 5:00 P.M. at Louie's Lower Level will be followed with dinner at 6:00 in Behmler Hall.

The dinner program will be highlighted by the presentation of the Morris Alumni Association Special Award to Christian Kamrud '64BA, past president of the Morris Alumni Association. Reports also will be made by Dean Rodney A. Briggs and Bruce Halvorson '64BA, Association president.

Tickets, at \$2.50 per person, should be ordered by Thursday, October 26. Reservations should be made at the University of Minnesota, Morris Alumni Association, 102 Edson Hall, Morris 56268.

New Ulm Elects

Mrs. S. P. Gislason '31BSHE has been elected president of the Minnesota Alumni Chapter of New Ulm, Minnesota. Serving with Mrs. Gislason as officers for 1967-68 are Kermit Kleene '42MSAg, vice president, and Dr. E. L. Tyler '58DDS, secretary-treasurer. Board members are Dr. Frank J. Carthey '52MD, Carl Jensen '49LLB, Ed Fier '46BSAgEd, C. Allan Dosland '53LLB, University Committee, and Mrs. T. P. Donnelly, ex officio.

Alumni Meet in Australia

A gathering of Minnesota alumni, former students and faculty was held Sunday, August 27, at the University of Sydney, Australia, in conjunction with the 13th International Conference of Agricultural Economists.

14th Annual Business Institute Scheduled On November 2

Frank Pace Jr., president of the International Executive Service Corps, has been named principal speaker at the evening banquet of the 14th Annual Institute of the University of Minnesota School of Business Administration Alumni Association on Thursday, November 2, at the Leamington Hotel, Minneapolis.

Pace, former secretary of the Army and former chairman of the board of General Dynamics Corporation, will speak on "The World Management Crisis—Can It Be Solved?"

Pace's talk will top off an afternoon-evening program which will begin at noon with a special alumni luncheon in the Michigan Room of the Leamington Hotel. Highlight of the luncheon meeting will be a discussion of future plans for the School of Business Administration by William E. Costello '50BBA, president of the School of Business Administration Alumni Association; Dean Paul V. Grambsch and Associate Deans Nicholas Glaskowsky and George Seltzer.

Afternoon sessions will begin at 1:45 P.M. with Professor Myles L. Mace '34BS, of the Harvard School of Business, presenting the keynote issue, "The New Business of Business." Mace will be honored at the evening banquet with the University's Outstanding Achievement Award.

Four concurrent panel discussions will follow Mace's presentation. They will be in the areas of finance, sales, accounting and industrial relations.

Chairing the finance panel discussing "New Developments in Pension Portfolio Management" will be University Professor J. Russell Nelson. Panelists will be Professor Paul Jessup, Robert E. Blixt, portfolio manager, Minnesota State Board of Investment; Joseph E. Murphy Jr., trust investment division, Northwestern National Bank of Minneapolis; and Peter O. Dietz, Northwestern University professor.

The marketing panel will consider the question, "The Consumer Credability Gap—Can It Be Closed?" with Professor Allan L. Pennington as chairman. Panelists include Professor E. Scott Maynes,

Thomas B. Kilbride, president of Knox-Reeves Advertising; and John Pierson, General Mills attorney.

The panel entitled "The Search for a Common Body of Knowledge for Accountants" will be chaired by Professor Jay M. Smith Jr. Panelists include Professor John K. Simmons, Miles A. Lea, controller, flour mills division of the Peavey Company; and Richard Thorsen, partner in Anderson, Helgeson, Lieser and Thorsen.

The industrial relations panel with Professor Herbert G. Heneman Jr. as chairman will discuss "Using Organizational Research Findings as an Effective Management Tool." Panelists include Professors William F. Weitzel Jr. and Robert Upsahl; Frank Schiel, vice president and director of personnel for Super Valu, Inc.; Robert Watson, vice president of personnel and organizational planning for Pillsbury Company; and Roy Yamaharo, manager, manpower planning, General Mills, Inc.

Tickets for the noon luncheon are priced at \$3.75 per person. Tickets for the afternoon program and evening banquet are priced at \$7.00. Reservations should be made with the School of Business Administration Alumni Association, 205 Coffman Memorial Union, University, Minneapolis 55455.

Cincinnati Alumni To Meet November 9

The Annual Meeting of the Cincinnati Chapter of the Minnesota Alumni Association will be held on Thursday, November 9, at the Maketewah Country Club.

Reservations should be made with Joe L. Armstrong, 338 Willow Brook Lane, Cincinnati 45215.

Helen Perlman to Receive University's Highest Award

Helen Harris Perlman '26BS, professor in the School of Social Service Administration at the University of Chicago, will receive the University's Outstanding Achievement Award at the Third Annual Alumni Meeting and 50th Anniversary Celebration of the School of Social Work on Tuesday, October 17, on the University Campus.

The meeting will be held starting at 6:00 P.M. in the Campus Club, fourth floor, Coffman Memorial Union.

In addition to Professor Perlman, other speakers at the dinner meeting will be Robert Boyer '50MSW, president of the School of Social Work Alumni Association; John C. Kidneigh, director of the School; and Kenneth C. Glaser '42BBA, first vice president of the Minnesota Alumni Association.

Cost for the dinner and meeting is \$4.00 per person and reservations should be made by October 16 with the School of Social Work Alumni Association, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455.

1927 Gophers Plan Reunion

The undefeated Gopher football team of 1927 will hold its 40th Anniversary Reunion starting at 5:30 P.M. Friday, October 27, in the Minneapolis Athletic Club.

On Saturday, October 28, team members will meet for luncheon at 11:00 A.M. in the Minnesota Alumni Club in the Sheraton-Ritz Hotel. Bus transportation will be provided to and from the Minnesota-Michigan game at Memorial Stadium.

Chairman of the Anniversary Committee is George MacKinnon and other members are Bob Tanney, Dr. Malvin Nydahl and Duke Johnson.

Reservations should be made with MacKinnon, 800 Investors Building, Minneapolis 55402.

Professor Perlman

Lofquist Named Associate CLA Dean

Lloyd H. Lofquist, psychology and industrial relations professor and an expert in the field of vocational rehabilitation, has been appointed associate dean for the social sciences in the College of Liberal Arts. He succeeds Fred E. Lukermann Jr. who has been named assistant vice president for academic administration.

Lofquist was appointed to the

University faculty in 1956 as associate professor of psychology. In 1960 he was named professor of psychology. He served as assistant chairman of the psychology department for five years and currently is director of the counseling psychology graduate training program and the Vocational Rehabilitation counselor training program. He is the director of a research project on work adjustment which recently received the National Research Award.

He received his bachelor's (1940), master's (1941) and doctorate (1955) from the University.

1927 EE's Set Reunion

Announcements are being mailed to the known addresses of the Class of 1927 electrical engineers regarding their 40th Reunion which will be held Saturday, October 21, in conjunction with the Minnesota-Michigan State Homecoming game.

Football tickets are available prior to October 7 by writing Seth Witts, Northern States Power Company, Minneapolis. Following the game, a banquet will be held at 6:30 P.M. in a local hotel.

Master of ceremonies will be Gordon Volkenant.

UMD

(Continued from page 17)

the State Legislature allocated \$3.1 million—or slightly more than 46 per cent. However, estimated federal aid in the amount of \$416,666 brings the total to \$3.5 million—or slightly more than 53 per cent.

Largest appropriation was for \$660,000 for a new classroom building. Federal aid will provide an additional \$330,000 toward its construction.

The State also provided \$173,334 for the construction of a new lecture hall. An additional \$86,666 in federal funds also will be available for its construction.

For a new performing arts building, the State allocated \$500,000, and also provided \$65,000 in planning funds for a proposed new \$1,390,000 administration building.

Other major appropriations included \$230,000 for converting biology space to chemistry laboratories; \$540,000 for a heating plant addition; \$220,000 for a service center and food service for the resident halls; and \$550,000 for single student housing for 404 students. The latter two items represent 25 per cent of the estimated total cost of the buildings.

Finally, the Legislature provided \$75,000 for the purchase of 58.5 additional acres for the expanding campus, and \$110,000 to develop studio space and facilities for Closed Circuit TV. A relatively new development at UMD, CCTV got its initial start last fall when about 200 students took a course in anthropology by watching TV sets in three classrooms.

Though Legislative appropriations have provided the great bulk of UMD facilities, the private donor cannot be overlooked. To date, more than \$1 million in facilities have been provided by such benefactors as Mrs. Tuohy and Mrs. Brickson, Griggs, Ordean, Stephen R. Kirby, Royal D. Alworth and a host of others.

Kirby Student Center, the Tweed Gallery, its Addition and the Tweed Art Collection, the Campus Club, the Alworth Estate and the Marshall W. Alworth Plan-

etarium, Griggs Field, the Tweed Home, Sieur du Luth and Ordean Court, Darling Observatory and the Linnological Laboratory—as well as the 200-acre campus itself—all have been gifts from generous benefactors.

As a rapidly-growing campus of the University, primary emphasis during its formative years was given to achieving excellence in undergraduate education. With this objective largely reached, time and effort now is focused on developing a quality graduate program.

With these goals in mind, UMD's curriculum is committed to the development of critical thinking, the encouragement of broad cultural and intellectual interests, and preparation for leadership and responsibility.

Dayton, Indianapolis Plan Joint Dinner

The Dayton, Ohio, and Indianapolis, Indiana, Chapters of the MAA will hold a joint Post-Game Dinner on Saturday, November 11, following the Minnesota-Purdue football game at Lafayette, Indiana.

The dinner will be held at the Heritage Restaurant, 6161 East 38th Street, Indianapolis. The 7:00 P.M. social hour will be followed by dinner at 7:30. Cost is \$3.25 per person, including tax and gratuity.

In Indianapolis, reservations should be made with Mrs. David Nealy, 1616 East Southport Road, Indianapolis 46627.

Dayton alumni will sponsor a Gopher Football Bus to the game, leaving at 8:30 A.M. from the Imperial House North, near the airport.

Dayton President Lynn Hokenson is handling arrangements for the bus and dinner. Reservations should be made with him by calling (513) 324-3334.

Heimbach, Haislet Plan Iowa Tour

Albert H. Heimbach '42BBA, MAA president, and Ed Haislet, executive director, will meet with Minnesota alumni in the Des

Moines and Cedar Rapids areas on Thursday and Friday, November 2 and 3.

Highlighting both meetings will be football films of the Minnesota-Michigan State Homecoming game.

The Des Moines Pre-Game Dinner Rally will be held November 2 at the Wakanda Country Club. Tickets, at \$5.00 per person, are available from Myron Olson, Acoustical Specialties, Inc., 51 Washington Street, Des Moines.

The Cedar Rapids meeting will begin with a social hour at 6:00 P.M. followed by dinner at 7:00 at the Holiday Inn Motel. Reservations are \$3.50 per person and may be made with Vince Grondahl, 316 - 41st Street N.E., Cedar Rapids 52402.

Haislet, Ryman Plan Eastern Trip

MAA Executive Director Ed Haislet and Marsh Ryan, athletic director, will visit Minnesota alumni chapters in New York City and Boston later this month.

On Monday, October 23, they will meet with alumni in the New York area, visiting Boston the following day.

In New York, a Minnesota Reception will be held from 4:30 to 7:30 P.M. at the New York University Club, 123 West 43rd Street. Reservations should be made through the Alumni Office, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455.

In Boston, the Second Annual Dinner Meeting will be held at the MIT Faculty Club. Reservations should be made with John D. Lanpher, 22 Westwood Road, Wellesley, Massachusetts 02181.

Lambert Named IT Associate Dean

Robert F. Lambert, professor of electrical engineering, last month was appointed associate dean of the Institute of Technology for a one-year period. He will temporarily replace Frank R. Verbrugge, who is acting as dean.

AROUND & ABOUT

College of Liberal Arts

Robert G. Fuller '23BA, retired senior vice president of First National City Bank, New York City, has been elected chairman of Erie-Lackawanna Railroad. He is a 1965 recipient of the University's Outstanding Achievement Award.

Roy Wilkins '23BA, executive director of the National Association for the Advancement of Colored People, in June received the honorary doctor of laws degree from Oberlin College. He is a 1960 recipient of the Outstanding Achievement Award.

'28

Howard Haycraft '28BA has been elected to the newly-created post of chairman of the board of directors of The H. W. Wilson Company, New York publishers of indexes and reference works for libraries. Haycraft, who joined the firm in 1929, became vice president in 1940 and in 1953 was elected president and treasurer. He is a 1954 recipient of the University's Outstanding Achievement Award.

'29

Alan H. Moore '29BA, vice president of the First National Bank of Minneapolis, has been elected president of the board of Eitel Hospital, Minneapolis. He is the first non-medical man to head the hospital's board in its 55-year history.

'33

Pete Frey '33BS has been named Kansas City district sales manager for Youngstown Steel.

'34

Hedley Donovan '34BA, editor-in-chief of Time, Inc., received an honorary doctor of humane letters degree at commencement exercises at Southwestern at Memphis. Donovan, Sands Point, New York, is a 1956 recipient of the University's Outstanding Achievement Award.

Wilkins '23BA

Moore '29BA

'35

Francis "Pug" Lund '31-'35, MAA national president from 1954-55, has been inducted into the college division of the prep coaches Hall of Fame at the annual Minnesota Prep Coaches Association Dinner in Minneapolis. An All-American at Minnesota, he is a member of the National Hall of Fame.

'36

A. M. DeYoannes '36BS, commissioner of the State of Minnesota Department of Iron Range Resources and Rehabilitation, has been elected to a three-year term on the board of directors of the State Capitol Credit Union.

'38

Alfred Steinberg '38BS '40MA is the author of *The First Ten*, published last month.

Clara Sletten '38BS, director of the department of social work of Lutheran General Hospital, Park Ridge, and Lutheran Deaconess Hospital, Chicago, has been named president-elect of the American Society for Hospital Social Work Directors of the American Hospital Association.

'40

Paul Holmer '40BA '42MA, professor of theology at Yale University Divinity School and former University professor of philosophy, recently was Honors Day speaker at Gustavus Adolphus College.

'42

Merlin C. Boehmke '42BS has been appointed manager of the investment department at Minnesota Mining & Manufacturing Company.

'50

Edward C. Brown Jr. '45-'50 has been named executive vice president and director of National City Bank of Minneapolis.

Richard I. Lange '50BA has been named president of Marquette Corpora-

tion, Minneapolis. Lange, who has been with the company since 1955, previously was executive vice president, treasurer and secretary. He will continue to serve as treasurer in addition to his new duties as chief executive officer.

'52

Thomas Thiss '52BA, former manager of management and voluntary education at IBM, Rochester, Minnesota, has been appointed director of research and education for the Larry Wilson Corporation, Edina.

Kenneth Pitchford '52BA is the author of *A Suite of Angels and Other Poems*, published recently by the University of North Carolina Press. He presently is writing and living in New York.

William C. Sergeant '52BA has been promoted to Class 5 in the U.S. Foreign Service. Since entering the Foreign Service in 1958, he has been stationed in London, Edinburgh and Santo Domingo. He presently is assigned to the Department of State as an international relations officer.

'56

Neil S. George '56BA has been named manager of international marketing for building services and cleaning products in Minnesota Mining & Manufacturing Company's International division.

J. Richard Vaaler '56BA recently received the F. Patrick Hennessy Award for "outstanding volunteer effort" from the Minnesota Heart Association.

'57

Warren W. Schaber '57BA, vice president of the Engberg-Schaber Insurance Agency, has been elected president of the St. Paul Junior Chamber of Commerce.

Gary C. Bennyhoff '57BA has been appointed Minnesota Highway Information director. He has been assistant director of publicity and promotion in the State Department of Business and Development for the past 2½ years, and formerly was employed as news editor and newsmen at Twin Cities radio and television stations. His new duties will include

ALUMNI NEWS

Qualey '30MA

supervision of the offices of public information and safety information and the technical support services unit. He will be the first to serve in this post, which was created when the government and community relations division was formed recently.

Lewis C. Cohen '55-'57, Boston, Massachusetts, has been named recipient of a Rome Prize Fellowship in sculpture. Awarded for one year beginning October 1, with the possibility of renewal, the fellowships carry \$3,650, free residence and studio, use of the library and other facilities at the American Academy in Rome. Cohen received a diploma from the School of the Museum of Fine Arts in Boston in 1962.

'60

Lloyd D. Christianson '60BA, U.S. Army captain, has been assigned to Tan Son Nhut, Vietnam. Christianson, who entered the Army in October 1960, is assistant chief in the medical and reports section of headquarters.

'61

William B. Gallagher '61BA has been named to the new position of Chicago area chemical sales manager for Dow Badische Company, Williamsburg, Virginia. Prior to his new appointment, Gallagher had been affiliated with The Dow Chemical Company, Chicago, in industrial chemical sales.

Sanford Maroglis '61BA became the Minneapolis Symphony pianist in September. Margolis, who earned his MA degree at the Manhattan School of Music in 1965, currently is studying for his doctorate as a performing artist at Iowa State University, one of two schools in the nation offering the degree.

Robert A. Chorske '61BA, territory representative at Xerox Corporation's Minneapolis branch, recently was graduated from the company's national sales development center at Fort Lauderdale, Florida. He joined the firm in 1961.

Lloyd A. Schlaepfi '61BA, U.S. Army captain, recently was awarded the Army Commendation Medal in formal retirement and awards ceremonies at Oakland Army Base, California. Schlaepfi was commissioned through the ROTC program and after training at Ft. Sam Hous-

Boehmke '42BS

ton, Texas, went to Europe as a Medical Service officer. Assigned to Oakland Army Base on his return to the U.S. in 1964, he had duty in the dispensary until being named headquarters commandant this year.

Richard A. Mier '61BA has been named brand manager for pancake mixes and syrup for the Quaker Oats Company, Chicago.

'63

Grace Lucile Blair '63BA has been awarded a rotating internship at Santa Clara County Hospital and Medical Center, San Jose, California. She received her MD degree from Washington University School of Medicine, St. Louis, Missouri, in June.

Fulton J. Weckman '63BS, St. Paul, has been appointed professional sales representative for Pfizer Laboratories, a division of Chas. Pfizer & Company, Inc.

Agriculture

Keith Hawton '62BSAg has been named manager of grade-and-yield hog buying at the Austin, Minnesota, plant of Geo. A. Hormel & Co.

'67

Severn Peterson '67BSAgEcon left recently for DaMpao, Vietnam, where he will serve six months as an observer for Project Concern, a privately financed medical relief organization. Sponsored by the Minnesota Chapter of Project Concern, Peterson hopes to help grow one crop in DaMpao, teach a rudimentary course in agriculture and on his return help design an agricultural program for the DaMpao area that the Minnesota Chapter would then support financially.

Medicine

Dr. Leo G. Rigler '20MD, professor of radiology at the University of California School of Medicine, Los Angeles, has been honored by having a symposium named for him. The First Annual Leo G. Rigler Radiology Symposium - The

Lundquist '43MD

Roentgen Diagnosis of Chest Disease in Children, was held last April in Los Angeles. A 1960 recipient of the Outstanding Achievement Award, in 1965 he was awarded the "Golden Apple," an award presented by the students of the California medical school to the most outstanding instructor.

'32

Dr. Earl J. Boehme '31MB '32MD recently joined Project HOPE's teaching-treatment mission in Cartagena, Colom-

Scholarships in Banking and Finance are Available

The University National Bank has established a scholarship fund to encourage capable students to enter the field of banking and finance. The bank will provide \$1,000 in two grants of \$500 each every spring for an indefinite number of years. A new scholarship will be awarded each year to a student entering his junior year. The student who wins the award for his junior year will, in all probability, if academic standards is maintained, receive the grant for his senior year. Recipients will be selected on a basis of academic ability by a committee of faculty from the School of Business Administration. If you are interested in this scholarship or know of a candidate, contact Russel Stotesbery, president of the University National Bank or the Bureau of Student Loans and Scholarships, University of Minnesota, for further information on how to make application.

Schultz '44MD

bia, as a volunteer. He is serving aboard the floating medical center S.S. HOPE for a two-month period. Dr. Boehme, who served with the HOPE in Guinea, is a Los Angeles surgeon who is assistant professor of surgery at Loma Linda Medical School and is in general surgical practice in Santa Monica, California.

'43

Dr. Virgil J. P. Lundquist '43MD, MAA past president, has been elected first vice president of the Svenska Sallskapet, the Swedish society of St. Paul and Minneapolis.

'44

Dr. Donald O. Schultz '44MD has been appointed associate medical director of North American REassurance Company. He formerly was medical director of Western Life Insurance Company, St. Paul.

'47

Dr. James C. Cain '47MSMed, Mayo Clinic physician, was one of three U.S. delegates appointed by President Johnson to attend the recent 20th annual business meeting of the World Health Organization at Geneva, Switzerland.

'57

Dr. Jerome H. Modell '54BA '57BS '57MD has been promoted to associate professor in the University of Miami School of Medicine.

'58

Dr. Emerson A. Moffitt '58MSMed, head of a section of anesthesiology at the Mayo Clinic and assistant professor of anesthesiology in the Mayo Graduate School of Medicine, recently was installed as president of the Minnesota Society of Anesthesiologists.

Robert F. Lockman '51MA '54PhD, former director of the manpower project of the American Psychiatric Association, has joined the Center for Naval Analysis of the Franklin Institute, and has been assigned to the Institute of Naval Studies.

John A. Johnson '54PhD, professor in the department of grain science and industry of Kansas State University, has been named 1967 recipient of the William F. Geddes Memorial Award. The award is given annually to a member of the American Association of Cereal Chemists for outstanding and lasting contributions to the Association. He is past president of that organization and has served on numerous committees.

Thomas F. Stratton '52MS '54PhD has joined the staff of Columbus Laboratories of Battelle Memorial Institute as a senior fellow, where he will plan and conduct fundamental research in plasma physics. Prior to joining the Battelle staff, he was with the Los Alamos Scientific Laboratory of the University of California. He has published more than 25 technical

Hawton '62BSAg

articles and has participated in the American Institute of Physics and National Science Foundation programs as a visiting scientist.

'58

George Vane '58PhD, English professor at Hamline University, has been named winner of the college's Merrill C. Burgess Excellence in Teaching Award, presented annually to the school's most outstanding teacher.

'59

Joseph Boskin '59PhD, associate professor of history at the University of Southern California, recently was one of eight professors chosen to receive \$1,000 awards from the USC Associates for excellent work in the classrooms and research laboratories. He is coordinator of the honors program and co-director of the USC American Studies program.

'60

Hugh G. MacNiven '60PhD, professor of political science at the University of Oklahoma, has received a summer appointment to serve on the staff of the Manned Spacecraft Center of the National Aeronautics and Space Administration in Houston, Texas.

Ian MacFarlane '58BA '60MS has been granted a \$3,000 fellowship in physics at Bryn Mawr College.

'62

Donald H. Keats '62PhD has been promoted to professor of music at Antioch College, Yellow Springs, Ohio. A winner of both Fulbright and Guggenheim fellowships, he joined the Antioch faculty in 1957.

'63

John Torgelson '56MA '63PhD, principal of the Frank B. Kellogg Senior High School in the Roseville School District in suburban St. Paul has been named dean of Willmar State Junior College.

Karel Bicha '63PhD has joined the Carleton University department of his-

Seelye '66MBE

tory faculty as assistant professor. Prior to joining the Ottawa, Canada, university, he had done extensive study in agricultural history with reference to the transference of peoples, ideas and techniques between the U.S. and Canada in the Midwest.

'64

James C. Sylvester '64MA, a chemistry teacher at Missoula County High School, Montana, was awarded a Shell Merit Fellowship for advanced study last summer at Stanford University. Sylvester was one of 100 outstanding high school science and mathematics teachers from the United States and Canada selected to attend the 1967 graduate-level seminars at Stanford and Cornell Universities.

'65

Thomas A. Krueger '65PhD is the author of *And Promises To Keep: The Southern Conference For Human Welfare, 1938-1948*, published by Vanderbilt University Press last month. He is assistant professor of history at the University of Illinois.

'66

Duane R. Adams '66MS, University research specialist in agricultural economics, has been hired as farm management specialist by Meeker-Wright Community Action, Inc., Litchfield, Minnesota.

Paul V. Peterson '54MA '66PhD, chairman of journalism at the University of Omaha, has become associate professor at Ohio State University with the responsibility of strengthening the program in photojournalism and courses in the history of journalism.

Harold I. Lunde '66PhD has been named to the new position of corporate secretary and economist for The Dayton Company, Minneapolis-based department store chain. Lunde, who also will serve as general assistant to the president, has been employed by General Motors on its New York, New York, financial staff. Prior to joining General Motors, he was associate professor of economics and assistant director of the Bureau of Economic Studies at Macalester College.

NOW AVAILABLE!

*Brand New Recording
of the*

SONGS OF THE UNIVERSITY OF MINNESOTA!

"... the finest record of college songs ever made!"

Now available for the first time in thrilling high fidelity sound, this new recording includes 16 of your favorite University of Minnesota songs in exciting new arrangements by Dr. Frank Bencriscutto, University of Minnesota Bandmaster, played and sung by the University Concert and Marching Bands, the Men's Glee Club, and the University of Minnesota Chorus. Enjoy all the excitement and pageantry of a University football afternoon in your own home. It's waiting for you now in this thrilling package of entertainment!

Your time may be worth \$8000 an hour

We didn't mean to startle you, but that two hour snooze you just took could have cost you \$16,000. You see, if your estate (life insurance, savings, home, stocks and other property) totals \$150,000 or more, a trust can save you over \$16,000 by avoiding unnecessary tax shrinkage. And it only takes a couple of hours to start it—

that's \$8,000 an hour. A tidy sum, isn't it?

You've spent a lifetime creating your estate. Why not spend a few hours protecting it? Northwestern National Bank, with three generations of experience can help you do it.

THE FIRST STEP? CALL YOUR ATTORNEY NOW!

History In The Making

Well, almost!

For Russell Bertsch, however, it is just a part of his every day routine.

Like giving some historical background on Minnesota's football All-Americans to Homecoming Queen Joan Ozark and her lovely attendants.

Or by providing the background on Ernest Hemingway's famous cocktail, the "Papa Doble."

Or by coming up with the latest statistics on the Golden Gophers.

If you want the latest inside on "history in the making," see Russell Bertsch. He might have the answer.

And, while you're there, be sure to try one of his perfectly prepared cocktails.

They're so great, even Cicero would be at a loss for words.

The University of Minnesota Alumni Club

General Motors is people making better products for people.

Jim Rennell is murder on motors. For your protection.

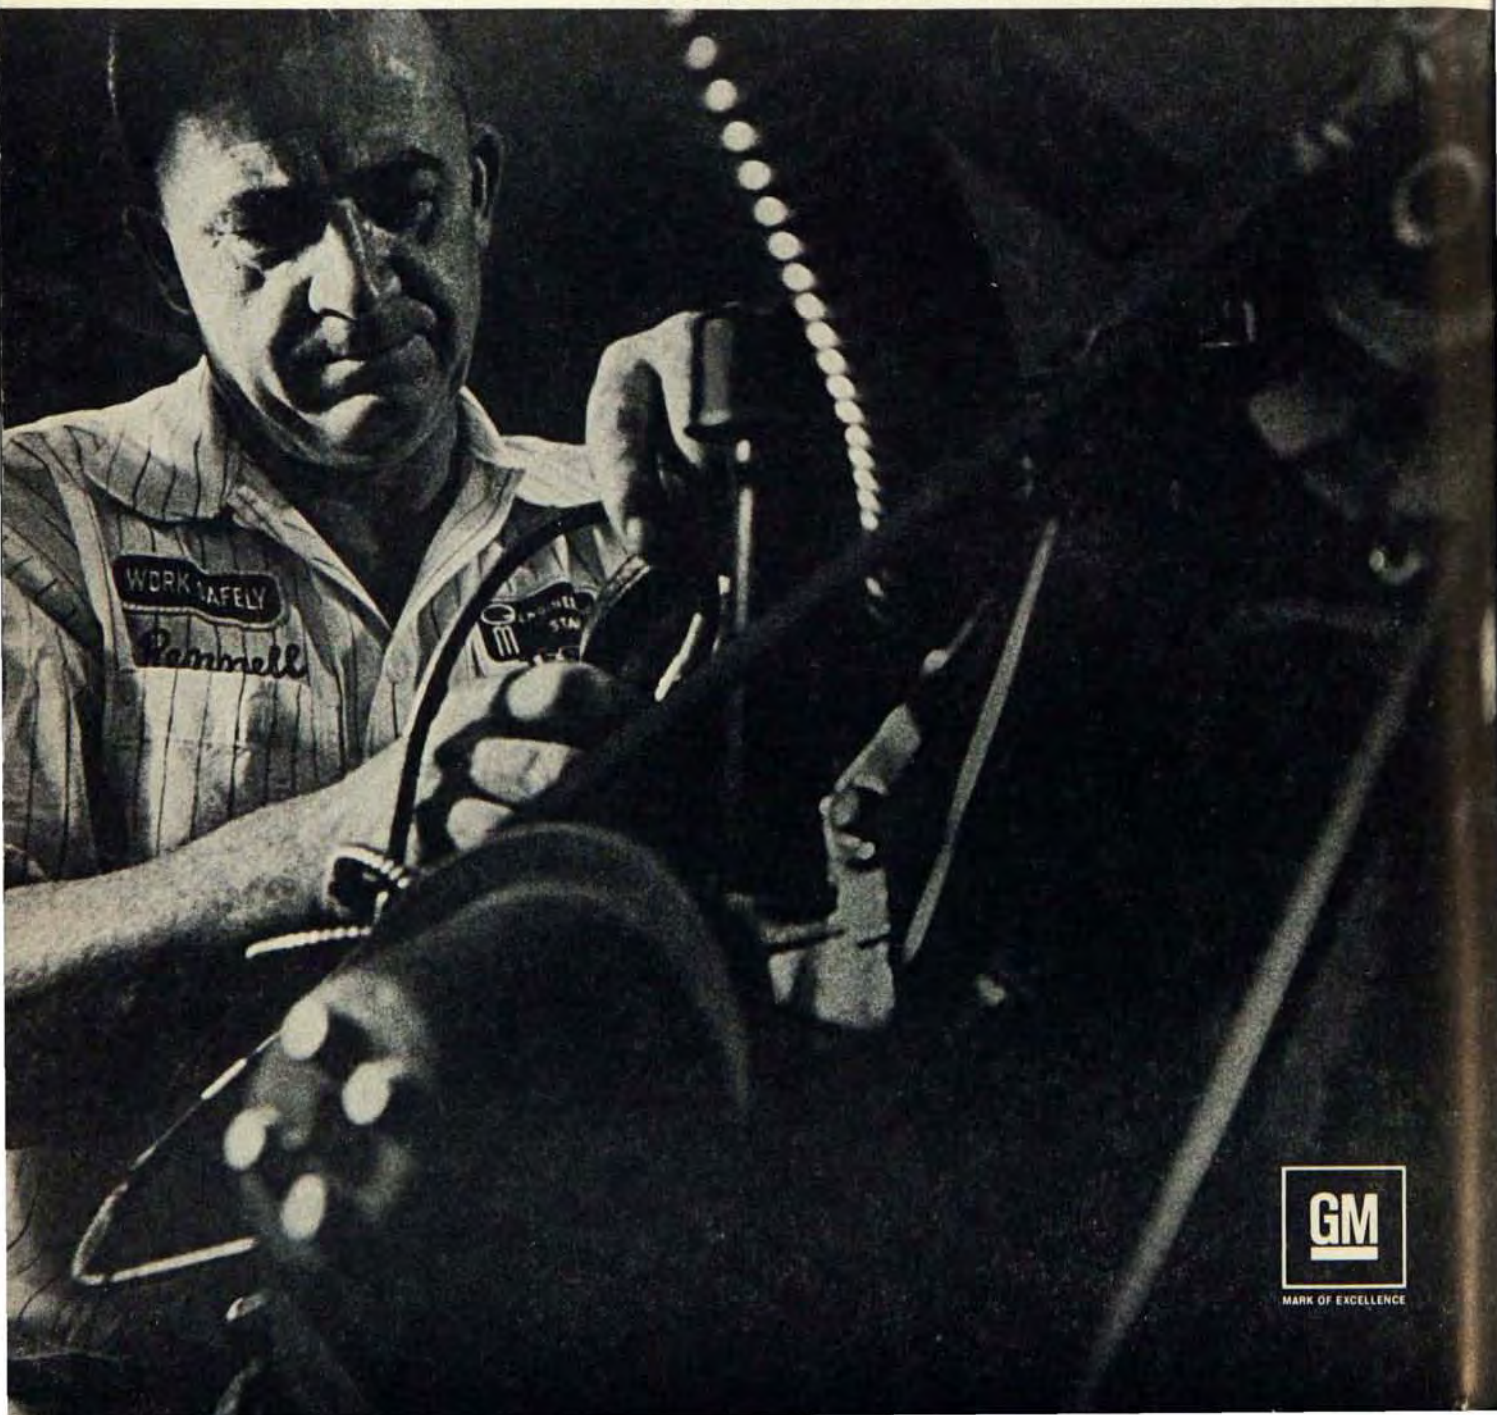

You would never dream of doing the things to your car that Jim Rennell does to his engines. Like running them wide open 29 hours straight on a dynamometer. Which is like driving your

car up a mountain all day. Pulling a heavily loaded trailer.

It's only one of dozens of grueling tests skilled technicians, like Jim, throw at GM engines before they're approved

for production. To make sure they'll take anything *you* can ever throw at them. It's another way we protect your investment in each Chevrolet, Pontiac, Oldsmobile, Buick or Cadillac car.

Jim Rennell, Dynamometer Operator, General Motors Engineering Staff, Warren, Michigan.

MARK OF EXCELLENCE

*It's one of the few frontiers still open
where imagination is all the capital you need.*

HERB STIER, *University of Texas '57*, with his wife Jo Ann and their two daughters during a visit in the San Antonio countryside. An Air Force veteran, Herb's also an avid golfer and Optimist—when he's not out setting new achievement records as a Mass Mutual agent!

Trust a Texan like Herb Stier to describe the life insurance business as a challenging new territory just waiting to be explored!

But Herb's a man who should know. After college, he spent seven years in retailing—then joined Mass Mutual in 1965. A single year later, he ended up with more individual life policies to his credit than any other man in the company! Total sales... \$1,789,974!

"It's a great business to be in," says Herb. You're on your own. You're selling a product that benefits the purchaser more than it does the seller. And you can be highly creative—you're free to put your own ideas, your own imagination to work where you think best.

"What's more, with Mass Mutual, you've got a great company behind you. You know, a lot of companies offer all kinds of help at the outset, but darned few are ready to commit the time and money that's really needed to get you on your feet. The people at Mass Mutual really put themselves out to make you successful.

"And let's not forget the personal rewards. Both my wife and I agree that we've found more in the way of friendship, pride of accomplishment, all-round satisfaction than we'd ever have found elsewhere. Not to mention far greater financial success!

"If these are your goals, too, I'd suggest you write Mr. Charles H. Schaaff, President, Mass Mutual, Springfield, Massachusetts 01101. By the way, he started out as an agent himself!"

BACK TALK

Sirs:

The ALUMNI NEWS has been an excellent publication through the years, and I suppose the October issue seems especially stimulating to University of Minnesota, Morris alumni. I have not had a chance to visit with any of our alumni since the issue arrived last week, but that will come shortly. I believe the article on UMM was well-timed because Homecoming, the directors' meeting and the evening banquet will take place on Campus October 28th.

I thought the article on UMM was very well done, and I am sure expressions will be forthcoming on the 28th. Dennis Swan [MAA assistant director] plans to be with us for the occasion and he will probably pick up some comments of appreciation, also.

Thanks much, and I will stop in for a minute to report comments when I get to the Minneapolis Campus.

Herbert G. Croom
Director of Placement
University of Minnesota, Morris

Sirs:

Splendid write-up in the September U of M ALUMNI NEWS on pages 6-7, and graced by your signature with pic.

I like it.

Always, I read what ye write.

Greetings.

Manley B. Monsen '24EE
Eau Claire, Wisconsin

MEMO

From
ED HAISLET
Executive Director

TO: Association Members

SUBJECT: Something New is Being Added

One of the important jobs of the Alumni Office is to bring to the attention of alumni the story of the University of Minnesota. A long-time need is a yearly film on some aspect of the teaching, research and service programs of the University.

Available in November to all alumni chapters and others on request is a new film of the University, made possible through the courtesy of Farmers & Mechanics Savings Bank, co-sponsors of the film with the Minnesota Alumni Association. The film attempts to show the campus as it is while the narration, in part, tells of what it used to be.

The Title is Minnesota, Then and Now. It is a 16mm., sound and color film, 15 minutes in length. It was produced under the direction of Jim Butler of the University's Audio-Visual Service. All voices heard on the film are alumni voices with narration by Bob Boyle, '50BSEd. The alumni voices in order of their appearance are: Professor William Anderson '13BA, who talks about the early buildings on campus; Waldo E. Hardell '26BSBus, who remembers the extra-curricular activities on the river bank; Elizabeth Henderson who tells about some of the early experiences of the Walter Library; Dr. Virgil J. P. Lundquist '43MD, who relates the growth of the Medical School; Herman Rosenblatt '33BA, who talks about the dedication and the first game played in Memorial Stadium when the Gophers upset Red Grange and Illinois.

The film begins with scenes of the East Bank, or Main Campus, shows the new West Bank, the St. Paul, Morris and Duluth campuses. Special music has been written for the film by Paul Eide. The color is superb; the shots of the campus unusual, the narration and voices interesting. Industry will want the film for recruitment purposes. For most alumni it is full of memories, a film to be seen and enjoyed.

A new program of continuing education designed specifically for Minnesota alumni is being planned with the aid and help of Dean Willard Thompson and the General Extension Division staff. If feasible, the first program will be held in February 1968. It will be a weekend retreat held at a motel or lodge large enough to house and feed 60 participants, but not so large as to make formal contact among them difficult.

After lunch the first day, each of the two professors conducting the program will introduce the discussion with a general address to all participants. This will be followed by informal discussion over cocktails and dinner. After dinner the group will be divided in half, each professor will meet with one of the groups to discuss the subject in detail. After breakfast the next morning, the group will switch professors for further discussion. Following lunch, both professors will lead a general summary session and will conclude by posing questions designed to evoke a written response to be mailed within three weeks after the retreat. All of this, and other innovations, will make this a most interesting and worthwhile experience.

While the price has not been fully determined, it will be in the neighborhood of \$50 per person — tuition, room, board, materials, etc. The topic proposed is "TENSION AND CHANGE IN NEW EUROPE," led by Professor Harold Deutsch and Professor John Turnbull. Both are leading scholars in their respective fields and both have just returned from a year's study of recent developments on-site in Europe. The opportunity to meet both Professors Deutsch and Turnbull and to discuss — in advance of all others — the significant findings of this one-year interdisciplinary study of this crucial world area, is one to which we feel Minnesota alumni will respond.

The third program of special interest to alumni is an alumni tour being planned for next October, or a year from this spring (Spring 1969). The Minnesota Alumni Association was one of the first alumni groups to sponsor tours to Europe, going in 1957 and again in 1958. Since that time, requests have been continually received from alumni suggesting that the Association continue its sponsorship of such tours. The tour under consideration would be a 21-day, first class, all expense tour to Bergen, Oslo, Stockholm, Copenhagen, Helsinki, Leningrad, Moscow, Berlin, Paris and London. An exciting trip and one that you might start thinking about now!

These are three of the new programs approved by the Board of Directors under the leadership of President Al Heimbach. Details on each of the programs will be published in the Alumni News.

Sincerely

Ed Hauke

ALUMNUS ON THE MOVE!

When commuter railroad service to Chicago was abruptly halted

one day last July because of the nationwide railway labor strike, Larry S. Provo was in no less of a fix than most of the other 80,000 daily riders of the Chicago & North Western Railroad's commuter runs.

He was forced to leave his Skokie home about 6:00 Monday morning and drive to downtown Chicago. Fearing the worst in traffic, he wanted to be sure of his arrival at work no later than his usual 7:30 to 8:00 A.M.

Unlike most of the other commuters, however, once in Chicago Provo went almost directly to the North Western station, It's right next door to his sixth-floor office, where Provo directs much of the North Western's operations as its new president.

And although the Chicago & North Western Railway is Chicago's oldest railroad, Provo, at 40, is the youngest president of a major railroad company in the nation.

Provo's 13-year-old railroad career began at 27 when he was elected vice president and comptroller of the Minneapolis & St. Louis Railway. His feelings toward railroading then are still the same today.

"The railroad industry certainly has no shortage of challenges to keep me occupied," the soft-spoken Provo says.

One such challenge, for example, was the railroad strike that hit less than two weeks after Provo became president. Because of the relatively short duration of the strike, the railroad's dollar losses weren't as bad as they might have been.

The thing that was lost during the strike for sure was sleep. Provo was in his office every morning by 6:30 instead of his usual 8:00 starting time. An early start is necessary, explains Provo, since all key operating personnel are in daily by 6:45 A.M.

The affable Provo cracks a broad grin when he says he "tries to catch the 5:19 North Western" each afternoon for his suburban Skokie home. His departure schedule from the office is wishful thinking more than anything else, and so is the "adequate" time he spends with his wife and three teen-age children.

Provo's thinning hair, full face and somewhat portly 5-foot-10 frame belie his years. But there is a hard-driving, quick-paced air about him that smacks of youth.

Born in Minneapolis, the son of a plumber, Provo attended South High School where, at 140-pounds, he excelled in football as captain of the 1943 Twin Cities high school football champions, earning All-City honors in the process. Now, at 5-10 and 200 pounds, he confines his athletic endeavors to weekend golfing (16 handicap).

After South High School and his graduation in 1944, Provo entered the University of Minnesota for two quarters, spent the time from the spring of 1945 to August 1946 in the service, and returned to the University in the fall of 1946.

By then he had married Lorraine Rhedin, a South High classmate. By attending summer sessions, he graduated in June 1948, completing his BBA requirements with a wife and 9-month-old son while living on his \$90-a-month GI Bill.

As North Western president, Provo took over the position held by Ben W. Heineman, who remains chairman and chief executive officer of the 10,300-mile railway. Heineman had assumed the presidency in May of last year, Provo took over the post last July 6.

Provo and Heineman have had a close relationship since 1954. It was then that Heineman, as head of the Minneapolis & St. Louis Railway, convinced Provo, then a young accountant, to enter the railroad industry.

Heineman, a Chicago attorney, had led a successful proxy fight to take control of the ailing railroad. Provo came in as a representative of Arthur Andersen & Company, certified public accountants, to put the railroad's books in shape. The two hit it off and at the

(Continued on page 22)

ALUMNI NEWS

Dear Alumni . . .

This fall almost 9,000 young people were officially welcomed into the ranks of Gophers as members of the Class of 1971. Among them were Ted Policka and Jill Reys of Minneapolis, Nanette Delyea of St. Paul and Greg Mangan and Patricia Yeager, respectively from Cloquet and Winnebago. What was so special about these particular young people who are starting their University of Minnesota careers? Why should they be singled out for recognition?

These five young people are all Minnesota Alumni Freshman Scholarship winners — their University education will be financed, at least in part, by the Alumni Freshman Scholarship Program which was started 16 years ago for the express purpose of attracting to the University top students who would be unable to attend without financial aid.

The program is an important one to the University, because the University must get its share of the top high school students in the state. But it is even more important to the students involved for many of them, talented as they are, cannot go to college without financial aid, for sheer inability to pay for it. For this group, even a small amount of assistance can mean the difference between going and not going.

The young people mentioned above are on the University Campuses because Minnesota alumni were interested in sending outstanding students to Minneapolis, St. Paul, Duluth and Morris to carry on the traditions of Minnesota and to have the opportunity to obtain a quality education.

Once the student has started his education, he usually finds a way of completing it — through student employment, loans, additional scholarships or a combination of these three. This is the Alumni Fund's job — to get him over the initial obstacles.

With enrollment at an all-time high of 46,088, it seems as if the doors of opportunity are open wider than ever before. Yet, studies indicate that an inordinate number of Minnesota's high school graduates never attend college — far too many because they just cannot afford it.

This fall, 8,868 new freshmen were admitted to the University. The total monetary need of these young people is estimated to be in the neighborhood of \$5 million.

These students are entering the University and will become graduates at a time when youth is becoming a predominant segment of the nation's makeup. By 1970, one-half of our population will be 25 years of age or under. Their opportunities are limitless — as are their responsibilities. There is no way to adequately prepare these young people and expand our way of life unless we are willing to make a substantial investment in the higher education system.

All alumni should be willing to pay part of the cost of higher education, for they have reaped some of the rewards. And they have, directly or indirectly, created the conditions that practically demand that most of our

youth gain a college education to compete in today's world, and be of meaningful service to our society.

Each summer, after the scholarship grants are announced, the Minnesota Alumni Association is flooded with letters from student recipients, expressing their gratitude for the award and pouring out their dreams and ambitions — most of them college-centered — and their happy expectations of what college life itself will give them. For most, the University represents a whole new world of opportunity, put within their reach only by the help of the scholarship program.

For the alumnus who has contributed to the fund, however, this is an aspect of the program with which he normally has no contact.

It is for this reason that we would like to share with the alumni some of the letters we have received from these students, to whom the lack of several hundred dollars can prove an insurmountable obstacle in realizing a college education.

The prospect of so many talented individuals being unable to attend college due to lack of means is as disheartening as the letters that follow are gratifying.

• "I was ignorant of the fact that the scholarships were personally sponsored. I think that this is a wonderful way to encourage and assist education. I hope to visit you sometime during the school year so I can personally thank you for the scholarship you have so generously sponsored. I needed your assistance as my expenses this year will come entirely from my own savings. I am very grateful."

Jill Reps
Minneapolis

"I am a Freshman Scholarship winner who would like to thank you for your concern and financial help to students like myself. I have always felt that a good education and higher learning are essential to helping me find my place in this modern world. Thanks again for helping me to open my "door to the world."

Carolyn Wendell

"I would like to take this opportunity to "Thank You" so very much for your financial support. My plans right now are to enter the field of medical technology. I like chemistry and lab work, so I'm pretty sure that this is what I want to do. A mere thank you seems so inadequate for the gratitude that I wish to convey at this time."

Patricia Yeager
Winnebago

"I wish to express my deepest thanks and gratitude to you for your interest and faith in me. This scholarship has greatly eased the financial burden that would otherwise have faced me and my family. I will earnestly attempt to do the best I can in all my areas of study, not only to satisfy myself, but to fully justify your support and confidence in me."

Gina Mann
Richfield

"I want to thank you for your generosity. As you undoubtedly know, without help from people like you, many students like me would be left out of the struggle for higher education. I really appreciate this help from you."

Daniel J. Walsh
Morris

"I am writing to you to express my gratitude for your generous contribution. Receiving this Minnesota Alumni Scholarship means I have a chance for a college education. Along with the grant and loan, it is enough to pay for my fees and books this year. I am sure the faith you expressed in me had a lot to do with receiving this other help."

Nanette Delyea
St. Paul

"I would like to thank you for the scholarship which you have awarded to me for the academic year 1967-68. Without this financial help, it would have been very difficult for me to attend college this fall. Realizing the importance of an education in today's world, I hope that I will make full use of the educational opportunities you have made available to me."

Greg Mangan
Cloquet

"I appreciate your gift very much. My family might have been able to pay my way through college, but my father died suddenly two years ago from a heart attack and left my mother the sole provider of myself and four younger brothers and sisters. My mother is a teacher, and her education was the best possible insurance policy she could have had. Thank you again."

HOME COMING

1967

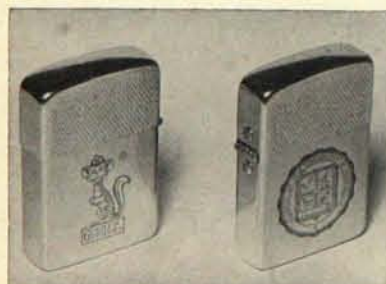

Joan Ozark, a 5'2" brunette, was crowned the 1967 Homecoming Queen in Northrop Auditorium last month by Albert H. Heimbach '42BBA, MAA national president. The coronation was one of the highlights of Homecoming Week, which was capped with an unexpected – but enthusiastically received – victory over Michigan State University. Miss Ozark, sponsored by Alpha Chi Omega and Delta Upsilon, is a senior with a double major in English literature and secondary education. She has a 3.87 overall grade-point average ("C" is 2) and was elected to Phi Beta Kappa in her junior year. Miss Ozark's attendants were Jean DeVilliers, CLA senior sponsored by Delta Gamma; Joan Seashore, CLA senior sponsored by Gamma Phi Beta; Jeanne Stine, education senior sponsored by Beta Theta Phi; and Beverly Thompson, education senior, sponsored by Delta Delta Delta.

Christmas Gifts for

U of M Blazer Emblem

Handcrafted in India, this beautiful reproduction of the University of Minnesota seal is authentic in every detail. The 3 1/4 inch wide seal is mounted on a raised background of gold cloth and maroon and gold embroidery. Made originally to sell at \$15.00, available to MAA members for \$7.50, non-members \$8.95.

CIGARETTE LIGHTERS

Lighters by Parkl Smart gold finish bears the Great Seal of the University and the Minnesota Gopher, embossed in maroon. An excellent gift for yourself or a friend. Only \$2.95 postpaid for Association members, \$3.95 to non-members.

Minnesota Key Ring

Something you'll like. Regents' Medallion. Perfect for a birthday, anniversary, Christmas or just a

gesture of thoughtfulness. Members \$.85, others \$1.00.

MINNESOTA CHAIR

The perfect gift for home, office or studio. Black finish with University Regent's seal silk-screened in metallic gold. Members \$34.50; others \$37.50.

MINNESOTA RECORD

THE UNIVERSITY

General Extension Division Adds Continuing Education Personnel

Appointments to two newly created positions in the University of Minnesota General Extension Division were announced recently by the division's Dean Willard L. Thompson.

Austin G. Anderson, director for the past two-and-a-half years of the Extension Division's department of continuing legal education, was appointed assistant dean of the Division. He also will continue as director of the continuing legal education department.

In his new position Anderson will coordinate the continuing professional education activities currently being carried on in the General Extension Division. These include an expanding series of programs for the professional, as well as the Division's department of conferences and institutes.

Just prior to joining the Univer-

sity staff, Anderson spent two years as director of the Institute on Continuing Education of the Illinois Bar, a non-profit educational organization for continuing legal education.

He received his law degree from the University of Minnesota in 1958 and was in private law practice in Hibbing for four years.

Anderson currently is secretary-treasurer of the National Association of Continuing Legal Education Administrators and is the author of an article entitled "Continuing Legal Education and the University Extension Division," which was published in the October, 1966, issue of *The Practical Lawyer*.

The second new appointment is of William Hoffman as director of continuing education in social work. The position is a joint appointment between the General Extension

Division and the University School of Social Work, under its director John C. Kidneigh.

Hoffman will oversee and develop continuing and extension education in the field of social welfare, and will be responsible to direct and coordinate institutes in the field.

The position was created in response to the need to coordinate various kinds of welfare programs and to upgrade professional and semi- and sub-professionals in the field. His work will bring him into contact with such persons as social workers and VISTA volunteers.

Hoffman has had 20 years' experience in the field of social welfare as a practitioner, educator and administrator.

For the past year he was director of special federal projects for the St. Paul Bureau of Health.

OFFICERS AND BOARD MEMBERS of the Mountain Lake, Minnesota, Chapter of the MAA are (left to right) Burton Munson, president; Mrs. Harry Franz, secretary-treasurer; Richard Hoek '63GC, vice president; and Don Nickel, chairman of the student contact committee.

Three IT Alumni to Receive Outstanding Achievement Award

Three University engineering alumni will receive the University's coveted Outstanding Achievement Award at the Twenty-Ninth Annual Meeting of the Institute of Technology Alumni Association this month in St. Paul.

The meeting will be held Friday, November 17, at the Town and Country Club. The social hour starting at 6:30 P.M. will be followed by the dinner and awards presentation at 7:30.

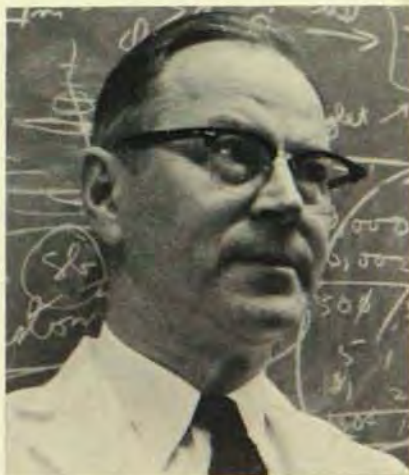

A bloc of tickets also has been reserved for alumni and their friends who wish to attend the Minnesota-Indiana football game on Saturday, November 18.

Recipients of the Outstanding Achievement Award will be Virgil C. Boekelheide '39BA '43PhD, head of the chemistry department at the University of Oregon since 1964; Carl S. Miller '40PhD, research chemist in the graphic systems laboratory of Minnesota Mining & Manufacturing Company since 1940; and Clarence L. Moyle '30BS '32MS '35PhD, research scientist at the Dow Chemical Company, Midland Michigan, since 1955.

In addition to the Outstanding

Achievement Awards, Distinguished Teacher Awards will be presented to two faculty members: Thomas E. Murphy, mechanical engineering; and Richard A. Swalin, mineral and metallurgical engineering.

Tickets, at \$6.00 per person, may be reserved with the Institute of Technology Alumni Association, 205 Coffman Memorial Union, University of Minnesota, Minneapolis 55455. Football tickets also are available at \$5.15 each. Deadline for ordering football tickets is Monday, November 6.

Fur Fashion Show, Candlelight Dinner Set For Alumni Club

A Fur Fashion Show and Candlelight Dinner will be held Tuesday, November 28, at the Minnesota Alumni Club, Sheraton-Ritz Hotel, downtown Minneapolis.

A social hour at 6:30 P.M. will be followed by dinner at 7:30.

Models of the furs, which will be provided by Jorge's Furs of Minneapolis, will be Janet Hart Widseth, Mrs. Arthur Naftalin, Mrs. Gene Layborn and Mrs. Bertram Russick.

Reservations should be made with the Alumni Club, phone 336-3031.

Warhepa Named Dental President

Walter S. Warhepa '38DDS, Minneapolis, has been elected 1967-68 president of the School of Dentistry Alumni Association.

Other officers for the coming year are Dennis A. Johnson '46DDS, Minneapolis, vice president; and Roland L. Lindstrom '35DDS, St. Paul, secretary-treasurer.

Board members and terms of office are Arthur P. Hayward '36DDS and John Haubner '56DDS, one year; Dr. Johnson, Donald H. Nelson '52DDS and Lloyd Arhart '47DDS, two years; Dr. Lindstrom, Lawrence E. Omlid '29BS '36DDS and C. M. Kleinhuizen '37DDS, three years; Frederick W. Noble '43DDS, Aaron Adlen Papermaster '25DDS and Cleon Tollefsrud '43DDS, four years.

McKinlay, Carlson to Receive Outstanding Achievement Award

McKinlay

Kathryn Thorbus McKinlay '21BA and Curtis L. Carlson '37BA will receive the University's Outstanding Achievement Award this month at the Ninth Annual Meeting of the College of Liberal Arts and University College Alumni Association on the University Campus.

The meeting will be held on Thursday, November 30, in the Campus Club, fourth floor, Coffman Memorial Union. A 6:00 P.M. social hour will be followed by dinner at 7:00.

Also highlighting the program will be the presentation to three

Carlson

faculty members of the College of Liberal Arts and University College Distinguished Teacher Award.

Recipients of the award, which will be presented by Dean E. W. Ziebarth, will be Toni A. H. McNaron, assistant professor of English; Robert F. Berkhofer, associate professor of history; and Johannes Riedel, professor of music.

Master of ceremonies will be Harriet Thwing Holden '33BA, president of the College of Liberal Arts and University College Alumni Association. Albert H. Heimbach '42BBA, MAA national president, will speak for the Association.

Enrollment Shows Increase; Total Attendance Hits 46,088

This fall's attendance at the University of Minnesota shows an overall increase of 4.7 per cent over that of a year ago, university officials announced last month.

Attendance at each of the university's four campuses increased.

Fall enrollment on the Twin Cities campus is 39,834, a jump of 1,589 over a year ago.

The Duluth campus rose 331, to a total of 4,837.

The Morris campus increased by 45, bringing its total to 1,107.

Crookston Technical Institute began its second year this fall, adding 126 students and bringing its total to 310.

Total University attendance rose 2,091, making a grand total of 46,088 regularly enrolled day students.

The School of Business Administration and the School of Nursing are the only major units to show decreases from 1966.

Dean Paul V. Grambsch of the School of Business Administration

explained that admission to the school now requires proof of competence in mathematics and calculus. "This probably disqualified some applicants," he said.

The School of Nursing discontinued its course in practical nursing with its August graduation.

Other unit fluctuations were considered normal or are consistent with the pattern of controlled growth set for the University, officials said.

There are 333 fewer freshmen than in the fall of 1966, but a decrease of 400 was anticipated, Dean R. E. Summers of Admissions and Records said.

"This reflects the changing numbers of high school graduates and their changing interest in college attendance," he said. It also reflects the impact of the growth of the new state junior colleges.

Ready employment and the Vietnam war have an impact, but one can only speculate on how much, he said. Freshman enrollment has fluctuated in the past, he added.

Students with a year or more of college, enrolling with advanced standing at the university, increased their number by 318. "This results from the recent growing attendance in all Minnesota colleges and an increasing emphasis at the university on advanced and professional programs," Summers said.

The Liberal Arts College, the university's largest, gained an even 1,000, bringing its fall attendance to 16,186. The Graduate School gained 321 and now has 7,437.

By sex, the figures break down to 29,597 men and 16,491 women. The proportion of women rose slightly, officials said.

Hormel Institute Anniversary Set

A luncheon in honor of the 25th Anniversary of the University of Minnesota's Hormel Institute will be held at noon Wednesday, November 8, at the Austin Country Club.

An open house for guests will be held at the Institute from 9:00 to 11:30 A.M. and from 2:30 to 4:30 P.M.

Success never eluded Charlie Spear but his most lasting satisfaction has come from his association with New England Life.

Charlie was president of his class at Northeastern University, played on the hockey team and was an outstanding student of mechanical engineering. As a sales engineer, first with Allis-Chalmers and then with Mobil, he had become a sales supervisor of a seven-state territory when he resigned to join New England Life.

"Although I had been on the escalators of promotion, it took this business and its professional

sales approach for me to find real career satisfaction," is the way Charlie sums it up.

When he made his move he was 38 with a wife and 5 small children, and was living far from his home city of Boston. He continues to live and thrive in Wausau, Wisconsin, and gives testimony to the fact that a man can make his own way in this business, and on his own terms.

Working 200 miles from his general agency in Milwaukee, Charlie Spear is especially appreciative of the cooperation he has gotten from his Company and his general agent in giving him the preparation and backing to offer the kind of service to businessmen that could meet his high standards.

IRENE D. KREIDBERG '30BBA is shown here accepting the University's Outstanding Achievement Award from William G. Shepherd, vice president for academic administration. Miss Kreidberg received the citation and gold medal at the Annual Honors Meeting of the Minnesota Alumnae Club.

Irene D. Kreidberg Honored by Alumnae

Some 172 alumnae, friends and guests turned out Saturday, September 30, to honor Irene D. Kreidberg '30BBA at the Annual Honors Meeting of the Minnesota Alumnae Club in St. Paul.

Miss Kreidberg, group supervisor, special services division of UNIVAC and long-active in Minnesota Alumni Association activities, was presented with the University's Outstanding Achievement Award at the meeting, which was held at the Midland Hills Country Club.

Miss Kreidberg was honored as a "distinguished graduate of the University of Minnesota, a capable executive with significant responsibility in the business world, respected consultant and former lecturer at her alma mater, active civic leader dedicated to the progress of many community concerns, and effective advocate of increased status for women."

Following presentation of the award by William G. Shepherd, University vice president for academic administration, there was a panel discussion on "How Can Women Achieve in Business in the Upper Midwest Area?" Panel participants were Gwen Harvey, director of women's activities and public affairs for WCCO-TV; Mrs. Lucille Lowmiller, assistant vice president of Marquette National Bank; and Ann Gallagher, assistant personnel director for Prudential Life Insurance Company. Panel moderator was Margaret Mull, chief of the Minneapolis Central Library and an officer of the Alumnae Club.

Included in the comments by panel members were:

Miss Gallagher: . . . "To achieve in business a woman must set a realistic goal, determine the price that will have to be paid to achieve that goal in terms of time, effort and the need to accept the frustrations of proving herself in a competitive market, and then once the decision is made to work for that goal, to go at it full-steam ahead. Women can be successful, they

PANELISTS PARTICIPATING in the roundtable discussion held in conjunction with the Alumnae Club Honors Meeting were (left to right) Miss Gwen Harvey, director of women's activities and public affairs for WCCO-TV; Miss Margaret Mull, chief of the Minneapolis Central Library, who served as moderator; Mrs. Lucille Lowmiller, assistant vice president of Marquette National Bank; Miss Ann Gallagher, assistant personnel director, Prudential Life Insurance Company. Title of the discussion was "How Can Women Achieve in Business in the Upper Midwest Area?"

have been in the past — and present — and I can see only more evidence of it coming in the future.”

Miss Harvey: “How Can Women Achieve in Business in the Upper Midwest area? . . . Reading between the words what is really being asked is ‘What is the Status of Women?’ And, because I deplore much of the hue and cry that has been raised over this question, I may be accused by some of being the Devil’s Advocate. Your status — man or woman — is what you make it. Let’s not join the swelling ranks of those who want something for nothing. . . . Whether in the home or in business, women’s role is creativity.”

Mrs. Lowmiller: “Don’t be emotional. Women are inclined to take rebuffs personally. Don’t. It makes men hesitate to put us on an equal plane, makes them feel they must weigh their words; emotionalism makes them uncomfortable and can retard our progress. There has been a charge of discrimination — it does exist, but it is lessening — so don’t make an issue of it.”

Thompson, Haislet To Visit Detroit, Cleveland Chapters

Willard L. Thompson, professor and dean of the General Extension Division and Summer Session, and Ed Haislet, MAA Executive Director, will meet with Minnesota alumni in Detroit and Cleveland on Wednesday and Thursday, November 29 and 30.

Dean Thompson will speak to both groups on the need for continuing education. Title of his address will be “Retooling the Mind.”

The Detroit meeting will be held November 29 at the Kingsley Inn, 1475 North Woodward, Bloomfield Hills. Reservations, accompanied by \$5.00 per person, should be made with Harold Rosen, 5682 Raven Road, Birmingham, Michigan.

The Cleveland meeting will be held November 30 at the Downtown Holiday Inn, 614 Euclid Ave-

Drummond, 7580 Winding Way, Brecksville, Ohio 44144.

DR. LINNEUS G. IDSTROM '38MB '39MD, president of the Medical Alumni Association, is shown here presenting the Harold S. Diehl Award to Dr. Theodore R. Fritsche '31MD, New Ulm, Minnesota, at the group's annual meeting last month in St. Paul. Dr. Fritsche became the sixth recipient of the award, which is presented annually to one of the Medical School's 6,000 alumni.

WILLIAM E. COSTELLO '50BBA (left), president of the School of Business Administration Alumni Association, is shown here accepting the Outstanding Constituent Group Award from MAA President Albert H. Heimbach '42BBA. The award, which is presented annually, was made at the October 3 meeting of the MAA Board of Directors.

ALUMNUS ON THE MOVE!

(Continued from page 10)

age of 27, Provo became a railroad vice president. The Minneapolis & St. Louis later was merged into the North Western.

In 1956 Heineman joined the North Western, again leading a group seeking to force revitalization. There was no proxy battle.

Provo went along and became vice president and comptroller, the same position he had held at the Minneapolis & St. Louis. In 1963 he was elected vice president-finance, and in 1966 he became executive vice president of the North Western.

Provo doesn't expect to institute any radical changes in the North Western's operating policies. He and

Heineman see eye-to-eye on where the company is going.

But by the same token, his associates are quick to point out that he is no "yes man." They describe him as a man who "works hard and fast" with no tolerance for incompetence.

Decisiveness is one of his major attributes. He cannot tolerate an executive who is unable to make decisions," says a fellow North Western executive.

Provo is not shy when it comes to saying what he believes, nor does he shy away from responsibilities. As president, he describes his responsibilities as "large."

He sees his primary responsibility as getting the proper personnel into the key positions, in addition to "balancing the quality of personnel" in all areas of the company.

MAA Chapters, "M" Club Set December California Meetings

Combined meetings of Minnesota Alumni Chapters and "M" winners currently are being planned in California for the last week in December.

Cosponsored by the MAA and the University Athletic Department, meetings will be held in San Diego, Los Angeles and San Francisco.

University and MAA representatives attending the meetings will include Albert H. Heimbach '42BBA, MAA national president; Ed Haislet, MAA executive director; Marsh Ryman, athletic director; Glen Reed, assistant athletic director; and Murray Warmath, football coach. In addition, "M" Club President Louis R. Brewster '47BSB, and Dr. John H. Aldes '38MD, MAA Board Member representing the West Coast, also will attend the meetings.

The first meeting will be a dinner on Tuesday, December 26, in San Diego.

On Wednesday, December 27, a luncheon meeting will be held in Los Angeles, attended by coach John Kundla and the University basketball team which will meet U.C.L.A. at 9:00 P.M. that night in the Los Angeles Basketball Classic.

The final dinner will be held on Friday, December 28, in San Francisco.

Final details of the California meetings and information on reservations and locales will be carried in the December issue of the ALUMNI NEWS.

Ohio, Indiana Meetings Slated

MAA Executive Director Ed Haislet and Glen Reed, assistant athletic director, will meet with Minnesota alumni in Ohio and Indiana on November 9, 10 and 11.

Reed will speak to alumni in Cincinnati on Thursday, November 9, at the Maketewah Country Club, 5401 Reading Road. Topic of his address will be "Plans, Programs and Problems in Intercollegiate Athletics at Minnesota."

Reservations, at \$3.35 per person, should be made with J. L. Armstrong, 338 Willowbrook Lane, Cincinnati 45125.

On Friday, Haislet and Reed will make informal alumni contacts in Terre Haute.

On Saturday night, November 11, they will attend a joint meeting of the Dayton and Indianapolis Chapters of the MAA following the Minnesota-Purdue football game.

The meeting will be held at the Heritage Restaurant, 6161 East 38th

Street, Indianapolis. Reservations, at \$3.25 per person, should be made with Mrs. David A. Nealy, 1616 East Southport Road, Indianapolis 46277.

Scholarships in Banking and Finance are Available

The University National Bank has established a scholarship fund to encourage capable students to enter the field of banking and finance. The bank will provide \$1,000 in two grants of \$500 each every spring for an indefinite number of years. A new scholarship will be awarded each year to a student entering his junior year. The student who wins the award for his junior year will, in all probability, if academic standards is maintained, receive the grant for his senior year. Recipients will be selected on a basis of academic ability by a committee of faculty from the School of Business Administration. If you are interested in this scholarship or know of a candidate, contact Russel Stotesbery, president of the University National Bank or the Bureau of Student Loans and Scholarships, University of Minnesota, for further information on how to make application.

Richard S. Elster '63BA '64MAEcon '67PhD, Pebble Beach, California, is employed as psychologist with Litton Scientific Support Laboratories at Ford Ord, California.

DEATHS

Reverend Ernest W. Wright '02BA, Hudson, Wisconsin, died September 21 at age 87. Born in Red Wing, Minnesota, he was educated in St. Paul and in 1905 graduated from McCormick Theological Seminary in Chicago. Carroll College conferred the degree of doctor of divinity upon him in 1933. He held Presbyterian ministries in Missoula, Montana; Lewiston, Montana; Oconto, Appleton and Waukesha, Wisconsin; Menominee, Michigan; and from 1941 to 1947 he was pastor of the First Presbyterian Church of Hudson. From that date until his death he was pastor emeritus.

A. O. Sletfold '11LLB, former Minnesota state senator from Detroit Lakes, died September 7 at age 78. He served in the State Senate from 1935 to 1955 and also was a former Becker County attorney and city attorney of Detroit Lakes. After leaving the Senate he served for a time as counsel for the Minnesota Taxpayers Association.

Ezra N. Oberg '12BS '12MA '12LLB, Minneapolis, former vice president of Minnehaha Academy, died last month at age 83. He taught at the Academy from 1920 to 1942 and was vice president for the last 12 years he was there. He also taught at the Minneapolis Business College, was an assistant auditor in the Federal Reserve System and served as pastor of Anoka Covenant Church from 1935 to 1937.

Lucien D. Sinclair '14BA, St. Paul, died September 8 at age 75. At the time of his retirement in 1954 he was president of Foley Brothers Railroad Contractors. A member of Sigma Chi Fraternity, he was treasurer of General Contractors of Minnesota and the Association of General Contractors of America.

Dr. Theodore H. Sweetser Sr. '15BS, St. Louis Park, Minnesota, died October 8 at age 74. Former head of urology departments at two Minneapolis hospitals, he had graduated from the Columbia University College of Physicians and Surgeons. He was president of the Minnesota Academy of Medicine and a vice president of the State Board of Health

and Vital Statistics. He taught pathology and surgery at the University from 1919 until his retirement in 1962.

Thomas S. Maple '15-'16, Excelsior, Minnesota, died last September at age 71. President of the Thomas S. Maple Company Realty since 1947, from 1935 to 1945 he was chief appraiser in Minnesota and North Dakota for the Federal Housing Administration. A member of Sigma Alpha Epsilon Fraternity, he also was a member of the Minneapolis Board of Realtors and a former director of the Northwestern Federal Savings and Loan Association.

Agnes E. Holt '16BA, St. Louis Park, Minnesota, died September 19 at age 73. She was principal at Minneapolis' West High School from 1942 to 1953.

Hans E. Bernt '20BSE, Barrington, Rhode Island, died recently at age 70. He was a former general manager of the Penn-Dixie Cement Corporation of Boston and was project manager of a section of the Alcan Highway. He was general manager for the Clyde Everett Equipment Company of Providence and East Burlington, Rhode Island until establishing the Rehoboth Tractor Company in 1961. At the time of his death he was its president.

Dr. Russell M. Kraft '20DDS, St. Johns, Michigan, died May 22 at age 69. He formerly had practiced dentistry in LeSeuer, Minnesota, before establishing his practice in St. Johns in 1928.

Dr. John H. Gammell '20MD, Minneapolis, died September 11 at age 76. He was a former chief consulting oculist at the Minnesota Braille and Sightsaving School, Faribault, Minnesota.

Dr. Benjamin M. Medof '21DDS, Minneapolis, died August 18 at age 67. Dr. Medof, who was born in Russia, lived in Minneapolis for 60 years, and was active in dental research at the University.

Richard B. Bahnsen '24EE, Columbus, Ohio, died August 26.

Angus M. Gunn '24 LLB, Minneapolis, died August 20 at age 67. Gunn, a life member of the Minnesota Alumni Association, was an attorney for the Pugh Holding Company and had been general counsel for the Franklin Manufacturing Company.

John Scanlan '24 MBA, Washington, D.C., died August 3 at age 71. Scanlan retired two years ago as chief of the poultry branch, Farmer Cooperative Service, Department of Agriculture. He spent nearly 40 years promoting and advising poultry farmers on how to set up cooperatives and the many articles he wrote made up a fund of information widely used by poultry producers across the country.

Clarence J. Bakken '27BS, assistant to the dean of students at California State

College at Long Beach, died September 19 in Albuquerque, New Mexico, after a brief illness. Bakken, 64, was a member of the Minnesota Bar, American Association of University Professors, Phi Delta Kappa and National Education Association. He had been a California faculty member since 1962.

Dr. Norman W. Anderson '30MD, Topeka, Kansas, died September 11 at age 63. He was director of the Medical Care Division of the Kansas State Department of Health and from 1953 to 1957 was commanding officer and post surgeon at Munson Army Hospital, Ft. Leavenworth, Kansas. He was a member of the board of directors of the Kansas Heart Association, and was cited by the Association in 1964 for "meritorious service" in the conduct of educational and service programs in the heart and blood vessel disease area.

Albin G. Berens '33LLB, security officer of the Mayo Clinic since 1941, died October 16 at age 64. He was a former special agent of the Federal Bureau of Investigation and at one time served as administrative assistant to J. Edgar Hoover.

Henry W. Duell '36PhD, Minneapolis, died September 21 at age 77. He was a former teacher and night school principal at Minneapolis' West High School.

Clarence R. Eskildsen '39MA, Washington, D.C., died September 25 at age 53. Eskildsen, deputy assistant agriculture secretary, was one of the department's leading authorities on foreign agriculture. He served in posts of increasing responsibility as an agriculture attache in Europe and Asia and with the Foreign Agriculture Service before he was appointed deputy assistant secretary for international affairs a year ago.

Dr. William E. Proffitt '40MD, Edina, Minnesota, died September 30 at his cottage on Lake Vermillion, near Cook, Minnesota. He lettered at wingback on the Gopher football teams of 1932, 1933 and 1934 and was a past president of the "M" Club. He served as team physician for the Minneapolis Millers baseball team for many years before the Twins came to Minnesota and for the past seven years had been the Twins team physician.

Alice L. Donahue '40MA, Minneapolis, died October 4. A Minneapolis Public School teacher for many years, she had been principal of Whittier Elementary School for 10 years and before that was assistant to the principal at Hay and Cleveland Elementary Schools.

Donald T. Bannister '41BSEd, Robbinsdale, Minnesota, died September 18 at age 63. He had been a teacher at Minneapolis' Sheridan Junior High School for the past 26 years.

Bruce Smith '42BSEd, Alexandria, Minnesota, died August 28 of cancer at age 47. Smith, All-American halfback and Heisman Trophy winner, was a key member of the University's national championship teams of 1940 and 1941 and served as captain in 1941. For his play that year he became the first Minnesota player to win the Heisman Trophy, which is given annually to the outstanding collegiate player in the nation. No one from Minnesota has won it since.

Anne Burns '48MPH died October 13 in Columbus, Ohio. She was chief of the Ohio Health Department Division of Nursing and during World War II had served with the Mayo Clinic Unit.

Robert J. Hendershott '49BA, Hopkins, Minnesota, died October 6 at age 59. He had been manager of Associated General Contractors, Inc., and executive secretary of both the Consulting Engineers of Minnesota and the Masonry and Concrete Contractors of Minnesota.
