

THE MINNESOTA ALUMNI WEEKLY

THE ALUMNI WEEKLY MAKES AVAILABLE FOR EACH ALUMNUS THE RESULT OF THE UNITED ENDEAVOR OF ALL ALUMNI TO KEEP IN TOUCH WITH EACH OTHER AND THE UNIVERSITY

VOL. XVII

FEBRUARY 25, 1918

No. 20

Office: 202 Library Building, University, Minneapolis, Minn.

Published by the General Alumni Association of the University of Minnesota. Entered at the Postoffice in Minneapolis as second-class matter.

Life subscription, \$25; annual subscription \$2.50.

Life members are allowed a special discount of fifty cents in consideration of payments already made.

Unless subscribers direct a discontinuance it will be assumed that a renewal of subscription is desired.

ADVISORY EDITORIAL COMMITTEE

Benjamin Drake, Chairman.
Hope McDonald, Alice Rockwell Warren
Stanley B. Houck, Harold J. Leonard.

Editor and Manager,
E. B. Johnson.

It is the purpose of the Weekly to present facts upon which the alumni may base their own judgment; to offer unbiased interpretative comment upon the facts in order that they may be better understood; to reflect editorially, the opinion of the alumni as faithfully as possible; to be always open for communications from any alumnus who desires to say anything upon a matter of interest to the alumni, as alumni. Constructive criticism, news and new subscribers are each helpful and welcome, and combined, they improve the service rendered by the Weekly to its subscribers.

MARY WAS PATRIOTIC.

Mary had a little lamb—
It was a reg'lar tramp,
She sold it to the butcher
And bought a savings stamp.

WE NEED YOUR HELP

The plan to send a medal to every man and woman who has been connected with the University and who is now serving the country in the war against Germany, involves an expenditure of \$300 on the part of the alumni. The work is so well worth doing that it ought not to require any effort to raise this amount. In order to avoid the unnecessary expense of sending out a special letter to a selected list of alumni and asking them to contribute for this purpose, we are appealing to the alumni, through the Weekly.

Are there not among the subscribers to the Weekly three hundred men and women who will be glad to send one dollar each for this purpose? Just fold a dollar bill inside a sheet of letter paper, sign your name to it and mail it to the office of the Association, 202 Library Building, University of Minnesota, Minneapolis, Minn.

TRAINING FOR WAR SERVICE.

The University is training naval cadets at the Dunwoody Institute in lots of one hundred each. The work covers a period of four months and prepares the men for first aid service on warships. The first lot of men recently finished their work and a second contingent is now at work. This means that 200 men have received or are receiving such training. This work will probably go on as long as the war lasts.

The department of electrical engineering is also training something over forty men in elementary and advanced radio signalling. These men are given a thorough drill in this line. This means that 243 men, whose names are not included in the summary are actually being trained for war service at the University.

To the General Alumni Association,
202 Library Building, Minneapolis, Minn.

Find enclosed one dollar, a contribution toward the expense of sending a medal to all Minnesota men and actually engaged in war service as defined elsewhere in this issue of the Weekly.

Signed _____

Address _____

GREETING FROM PRESIDENT BURTON.

To the Alumni of the University:

We had a great meeting of the Alumni last evening. I wish that every one of you might have been present. I know that your loyalty to your University is abounding and that your concern for its future is genuine. Such a gathering as that of last night, however, cannot fail to increase your devotion and strengthen your allegiance to your Alma Mater.

The evidence presented showed unmistakably that the University is participating fully in the war. I gathered carefully full statements from all sections of the institution

and the results are overwhelming and convincing. Minnesota is not to escape the purifying baptism of fire nor to miss the abiding blessing of this war. We are paying the price in human life and human service. Eight stars on our service flag have turned to gold—a silent and solemn prophecy of the sacrifice our men must make in the months ahead.

The University proposes to prepare itself for the period of reconstruction after the war. It involves changes in aims, in methods and in subjects of study. We desire and must have your help and co-operation in grappling with all these gigantic tasks.

Very sincerely,

M. L. BURTON.

The Student Soldier Medal

The faculty, students and alumni have planned to issue a medal to be sent to men and women in service in the great war now in progress. The design of the medal we present herewith. It will be of bronze and the name of the recipient will be engraved on each medal so that it will be personal.

The men of 1898 valued these medals as one of their choicest possessions and it is expected that the men of 1917 will prize them likewise. The medals are merely a token to remind these men and women, who

or navy as workers under the direction of the Y. M. C. A., the Knights of Columbus, the Hebrew Y. M. C. A., or the Red Cross.

This is to be interpreted as including men engaged in ambulance service whether serving directly as part of the military organization or in some semi-independent unit as the Norton-Harjes unit.

It is possible that it may be necessary to extend these limitations, but the committee is anxious to so guard their award as not to cheapen the medal.

are making sacrifices for us and for the country, that we appreciate their self-sacrificing devotion to duty.

Who Is Entitled to the Medal?

The medal will be awarded to those who were ever connected with the staff of the University or who were ever enrolled as bona fide students in the University, who come within either of the following classifications:

1. Men who have voluntarily enlisted or who have been drafted and mustered into the service; and

Men who have been commissioned and who have accepted the commission and have been called into service.

2. Men and women who are actually engaged in service in Europe with the army

Your Help Needed.

It is very important that the names of any persons entitled to receive this medal, under the requirements, should be reported to this office. The report should include information, as full as possible, as to connection with the University, connection with military or other recognized organization and present address. It is going to be extremely difficult to get these medals into the hands of those that are entitled to receive them, so that friends of those entitled to receive medals should take pains to see that the necessary information is on file at this office.

Address all information to The Minnesota Alumni Weekly, 202 Library Building, University of Minnesota, Minneapolis, Minn.

What good is money anyway if we don't win this war? Buy Savings Stamps Today.

Their Lives for their Country

PAUL HOERR

Ambulance service—captured and not heard from since.

PRACTICAL CHRISTIANITY.

"We shall have to broaden our conception of Christian service. With the sight of millions of men marching to death for convictions dear to them, it will be no longer possible for us to insist upon artificial or trifling tests as signs of the Christian spirit. It is the function of the Church today to make men conscious of the spirit which possesses them, to bring out in the clear light the Christ who is working within them.—

Francis J. McConnell (Bishop).

STUDENTS VOICE LOFTY IDEALS

The students of the college of engineering voiced a noble sentiment, at their meeting April 27, 1917, at which four hundred men were present. By a unanimous vote the men adopted the following statement of purpose:

Statement.

"1. We stand to respond to the Call of the Country in ready and willing service.

"2. We undertake to maintain our part of the war free from hatred, brutality or graft, true to the American purpose and ideals.

"3. Aware of the temptations incident to camp life and the moral and social wreckage involved, we covenant together as college men, to live the clean life and to seek to establish the American uniform as a symbol and guarantee of real manhood."

This statement was drafted by a committee headed by Harold L. Peterson, a senior. It strikes as lofty a note as the finest phrases from the speeches of Theodore Roosevelt and President Wilson.

We are glad that it was a lot of college boys who put their seal of approval upon such a statement, and we are more than proud that it was a bunch of Minnesota boys who took such an advanced stand.

With such men to rally to the colors the country is safe not only for the period of the war but for the years that follow the war. War may be hell—but it has its compensations—not the least of which is such a pledge taken voluntarily by a body of earnest young men who stand ready to back their words by deeds that would be a credit to a Sir Galahad.

Medics-Dents-Pharmacists Endorse Resolutions.

A few days later the medical, dental and pharmacy students held a meeting with four hundred fifty present. By unanimous vote these men adopted the following statement:

The Resolutions.

1. We endorse the program of the engineers and adopt their formula as our standard.

2. As our specific contribution, we pledge ourselves

(1) To enlighten men regarding the dangers of impure living and to do our share in maintaining wholesome moral conditions.

(2) We register our commendation of the stand taken by the National Council of Defense that "continence is compatible with health," and placing alcoholic beverages under strict control, and in creating moral zones around American troops.

(3) Convinced, in view of a possible world famine, that it is immoral and absurd to waste approximately a sixth of our food cereals in the manufacture of intoxicants, we appeal to the president of the United States and to Congress to establish entire prohibition as a war measure.

AMERICAN UNIVERSITY UNION IN EUROPE.

Last spring the colleges of the country combined to organize an American University Union in Europe. This union provides a club for the use of college men now in the allied service in France. Possibly a branch may be organized in England. Minnesota was not in on the formation of this union, owing to an oversight due to the change in administration and the consequent failure to get action in time. Minnesota is, however, a member of the Union and has paid \$500 for her year's membership dues and is raising \$1,000 additional toward the expenses of getting the club established. The reports of the men who have been privileged to take advantage of the provisions for their comfort, which the union offers, indicate that it is well worth while.

Someway the idea seems to have gained currency that the American University Union in Europe is especially designed for the use of University men who hold officers' commissions. Nothing could be further from the truth. This idea was suggested when the plan of organization was first broached, but those present were unanimously against any such restriction. Throughout the conferences that have since considered the matter, great care has been taken to make it perfectly clear that this is strictly a democratic institution. The private soldier has every right in this union that belongs to the highest officer. The only requisite is that he be a University man. It is certain that on any other basis the alumni of Minnesota would have no use for such an organization. If you hear any one suggesting that the Union is for officers only, be sure to combat that rumor, for it is without foundation. We owe it to our men in Europe to provide some such place for them but we are not going to make any distinction between officers and men—the humblest soldier offers his all for his country as truly as the officer and he deserves as well of us, his fellow alumni and friends.

WAR CONTRIBUTIONS AND SUBSCRIPTIONS.

The University has done its fair share in contributing toward the Red Cross, the Y. M. and Y. W. C. A. and other similar funds

and in the purchase of Liberty Bonds, as the following statement will show.

Liberty bonds purchased, second loan	\$394,869.00
Y. M. C. A. and Y. W. C. A.	28,135.00
Prisoners' relief work.....	3,500.00
Smileage books	400.00
Red Cross—almost every one a member.	

SUMMARY OF MEN AND WOMEN IN SERVICE.

Brigadier General	1
Totals—N. C.	97
Commissions	726

MINNESOTA 24—CHICAGO 15.

Last Friday night at the University Armory, Minnesota won from the Chicago basketball quint by a decisive score. There could be no doubt as to which was the better team on that occasion. Gillen was again the leading point scorer and Arntson did great work along the same line, while Eklund did fine defensive work. The Chicago players proved themselves good fighters and made the Minnesota men "go" to win.

THE HONOR ROLL

In presenting this list of men and women in service we do not claim that it is complete or correct. The information has been gathered from many sources and in many cases it has not been possible in the time available to check it for errors from official records. We are offering the list as merely tentative and we ask your help in making it complete and correct. We urge every alumnus who reads this item to study the list carefully and report correction, changes and additions that he may know need to be

made. Only in this way can we secure the information necessary to make the list more nearly complete.

Facts Wanted.

(1) Name; (2) Class in University; (3) Branch of service; (4) Rank in service; (5) Places of training; (6) Where stationed, that is the various places; (7) Present address; (8) Home address, parents address or where mail will always reach him; (9) Special honors received in service; (10) Anything else that would be of interest to friends.

The fifteenth annual meeting was held at Donaldson's tea rooms last Wednesday evening, February 20. There three hundred twenty-five sat down at the tables. The business meeting was held during the last course of the dinner.

The minutes of the previous meeting and the adjourned annual meeting having been printed and there being no objection raised to their adoption they were duly declared adopted. The report of the treasurer was likewise adopted the report having been audited by chartered accountants and by a committee of alumni. Attention was called to the reports of the board of directors and to that of the standing committees. The report of the board was offered for discussion but no question being raised it was declared approved.

W. F. Webster, '86, was recognized by the chair and offered the following draft of a letter for adoption. The letter was adopted and ordered sent to President Northrop.

Beloved Prexy: You will never know how much your boys and girls of the University love you. To see you daily, to know you, to hear you speak, and to feel the

peaceful influence of your presence near us has been our holy privilege. Because you have meant so much to us, your joys have brought us gladness, and your grief has been our sorrow.

Our hearts are heavy tonight, for we realize the pain and loneliness which the death of your daughter has caused. We wish you to know that the love which we have always felt, but not often enough expressed, is poured around you at this time. May God's peace abide with you.

The president referred to the fact that the occasion was two days off the fiftieth anniversary of the date of the signing of the act under which the University is working, and gave a few statistics to show the changes and growth of the institution during that period. He thanked the committee having the meeting in charge and announced the names of the committee, as follows:

Charles M. Andrist, chairman; Mary C. Harris, Agnes F. Jaques, D. S. Bacon, Edgar Zelle.

Other committees were announced as follows:

Athletic—John F. Hayden, Eng. '09, chairman; Henry F. Nachtrieb, '82; John R. Schuknecht, '08; Ernest B. Pierce, '04; James E. O'Brien, '92, Law '95.

Weekly—Joseph Jorgens, '91, Chairman; Hope McDonald, '94; Agnes F. Jaques, '07; Stanley B. Houck, Law '08; John F. Sinclair, '06.

Maurice Salisbury, alumni representative on Minnesota Union Board.

Grounds and Buildings, reappointed.

Harry Franklin Baker, '97, chairman; Lowell A. Lamoreaux, '87; Fred M. Mann,

*Two signs of Spring:****Easter and a New Hat!***Let the **Patterson** replace that old winter cap.**ASK YOUR DEALER**

'91; Marion A. Parker, '96; Leroy Cady, Ag. '07; the President and Secretary.

The Canvassing Committee—Charles F. Keyes, E. B. Pierce, Thomas F. Wallace.

Music was furnished by Ebba Norman, '12, who sang the Marselaise and responded with America, My Country. The audience showed its appreciation by prolonged applause. Her singing was a genuine treat.

The University quartet including Mr. Greaza, led in singing America and the Battle Hymn of the Republic, and sang several other songs in which the alumni were asked to join in the choruses. The list included Over There, Keep the Home Fires Burning, Pack all your Trouble in Your old Kit Bag. The work of the quartet was thoroughly appreciated and added greatly to the pleasure of those who were present.

The real treat of the evening was the two speeches by Major Jager and President Burton. Major Jager talked of the situation in the Balkans, especially what he saw near Monastir. He gave first-hand information of the things he saw with his own eyes. It was one of those talks that cannot be reported. We told our readers last week that they had better be present than sorry and now we must say "We told you so." The picture he drew was an appalling one, it was not a pleasant story he had to tell but it was one of intense heart interest and the hearts of everyone present were touched by the story of the heroic endurance of the peoples of Serbia. "Father" Jager told of the plans for the relief of these suffering people and of the plans for helping them to help themselves. The Red Cross has purchased farm tools and machinery and seed and other things needed to enable the Serbians to raise a crop and care for themselves. Immediate relief has been sent them to tide over the time until the crops can be raised. Major Jager has been chosen to go with the ship that is to carry this relief to our suffering allies in the Balkans.

Father Jager made a real sacrifice to be present with us on this occasion and the alumni owe him a vote of thanks both hearty and emphatic. At the close of the meeting Mr. Andrist asked for a chance to say a word and he proposed that a collection be taken to help Father Jager in his work. This was done and \$175 were contributed on the spot and others who did not have the cash with them have since sent checks. This money is to be placed in his hands and is to be used for any purpose that Father

Jager may designate for the relief of the Serbians.

President Burton talked for about half an hour and he filled every minute with words weighted with worth—while messages which carried conviction. It is impossible to report his speech, there was mighty little that could be omitted and not cut out something vital. He told of some of the things that the University is doing to help win the war and read the statistics which appear in another place in this issue. He told of the leading part that the University through its faculty, is taking in the publicity department of the government, the psychological department of the army and in various other lines of investigations, some of which have proved vastly important but which can not be made public at this time.

The University, declared President Burton, is ready to offer every atom of its equipment and energy to help win the war—even to closing its doors. There is just one task before this country—win the war, and everything must bend to that end.

Continuing, he said, the problems of the war, so far as our schools and colleges are concerned, are nothing now to what they will be after the war is over. The men who have broken into the years of their educational training to fight for our land are going to come back with a new vision, and they will look at what we are offering from a new point of view; their needs must be met no matter what traditions are upset. The students who are coming up will present new problems which we must meet and solve properly if we are to do our duty by the state.

Then, too, there will be vast numbers who will come back to us maimed and halt and blind—crippled and helpless, and we must not pension and make paupers of them. We owe it to them that they be taught to be self supporting, self respecting, useful members of society. The task is a mighty one, and to the man of vision it is almost staggering, but we must meet it and must solve it, that the country which these men have saved may be truly saved and safe.

We should have liked to have given this message in full—it was inspiring and showed that Minnesota has a man with a vision as its leader and that in the days to come Minnesota is going to take her proper place as one of the leaders in the educational reconstruction of the United States.

The meeting closed with the singing of one verse of America.

Election of Directors—Two year term—Barnum, Firkins, Head, E. P. Burch and Jorgens. One year term—McGregor, Thompson, A. M. Burch, Diamond, and Allen. Full report, showing details, next week.

UNIVERSITY OF MINNESOTA

THE LIBRARY

MAR 5 1918

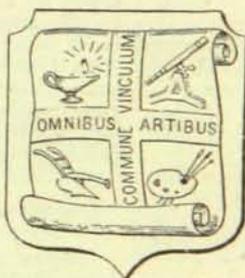

RECEIVED

MINNESOTA ALUMNI WEEKLY

VOLUME XVII No. 21

MARCH 4, 1918

FOR MINNESOTA
THE STATE
AND UNIVERSITY

ALUMNI LOYALTY
IN TERMS
OF SERVICE

ALUMNI COOPERATION
WISCONSIN-MINNESOTA GAME

PUBLISHED BY
THE GENERAL ALUMNI ASSOCIATION OF
THE UNIVERSITY OF MINNESOTA

A PROCLAMATION.

Whereas, the people of the United States are at war with the German Empire and the Empire of Austria-Hungary and for the successful prosecution of the war, systematic and organized thrift, saving and economy are absolutely necessary in all of our citizens, and permanent agencies to carry on the work of thrift, saving and economy during the full period of the war are essential, and the Government of the United States has requested its citizens to form themselves into War Savings Societies and in such societies to carry on, during the period of the war, a systematic and continuous campaign for the encouragement and practice of thrift, saving and economy and for the purchase of Thrift Stamps and War Savings Stamps and has outlined a plan for the organization of such societies;

Now, therefore, I do set aside and designate the week commencing Sunday, the tenth day of March, 1918, as

War Club Week

and during said week I do earnestly urge and request the citizens of the State of Minnesota,

First: To purchase liberally and enthusiastically War Savings Stamps and Thrift Stamps.

Second: To form War Savings societies and within such societies solemnly and formally to declare unto the Government of the United States that they will, while the war continues,

A. Practice in their personal affairs thrift and economy.

B. Abstain from expenditures which are not reasonably necessary to their health and well-being.

C. Save and invest the proceeds of their saving in Thrift Stamps and War Savings Stamps and

D. Advise and solicit their friends, neighbors and associates to practice thrift, saving and economy and to purchase such stamps and in this manner to write upon the Nation's Honor Roll the names of all those who are loyal and patriotic for the coming generations to read.

And I hereby call upon all women's clubs and organizations; all labor unions and railway brotherhoods and other labor organizations; all universities and colleges; all public, private, parochial and denominational schools and colleges; all churches, lodges and benevolent and fraternal organizations; all state, county and city officials, fire departments, police departments and hospitals; all Y. M. C. A.'s, Y. W. C. A.'s, Christian Endeavor societies and Boy Scout organizations; all business houses, office forces, office buildings, mills, factories, commercial clubs, hotels and apartment houses and all other like and similar organizations to form within themselves one or more War Savings societies and thereby to affiliate themselves with the National War Savings Committee.

(Signed) J. A. A. BURNQUIST.

IN APPRECIATION OF MISS SANFORD.

The Daily Missoulian of February 13 contains a report of an address given by Miss Sanford in Missoula on that date. It is printed under a black heading, "Serves country at the age of eighty-two." The article refers to her as "the grand old woman of Minnesota." The purpose of her speaking trip is to arouse a spirit of patriotism among the people of her country as her contribution to the cause. The following day the same paper spoke editorially of Professor Sanford. We quote from the editorial:

"Dr. Sanford's lecture tours, made upon her own initiative, are triumphal marches through the crowded ranks of her students, many of them now grandparents, who rise up and call her blessed. Everywhere they pay her homage for making them what they are in life. Great teachers, like great poets, are born, not made; and, today, as in the days of Socrates, their influence is beyond measure. Virile in body, alert in mind, towering in spirit, Maria Sanford will always be "finding pockets of gold" because her tools will never lose their edge. Today, with four score years of experience, she is using them to forge the patriotism of her countrymen as Julia Ward Howe and Wendell Phillips did in the days of Lincoln. Missoula is honored by the presence of the "grand old woman of Minnesota."

THE 1904 LAWS.

Among those who called at the office of John F. Nichols, 200 Andrus Bldg., secretary of the 1904 Law class during the Auto Show were:

Usher L. Burdick of Williston, N. D., who is now practicing law at that place. Burdick will be remembered as one of the best ends that ever played on the Minnesota team.

Geo. W. Frankberg and his family of Fergus Falls, Minn., who were on their way to Excelsior Springs, Kansas City and New Orleans for a month's vacation.

Chas. J. Dousman of Baker, Montana, and his law partner, E. S. Booth. Natural gas has been found there and Mr. Dousman looks for great development around Baker.

H. A. Johnson of Ulen, Minn., where he is president of the Ulen State bank.

W. W. Thorpe, familiarly known as "Sunny Thorpe," of Britton, S. D., one of the best guards Minnesota ever had.

Arthur W. Fowler, a leading attorney of Fargo, N. D.

This class maintains a business exchange as well as a social organization.

BIRTHS.

Mr. and Mrs. Fred R. Comb, a son, Ronald David, December 25, 57 Oliver avenue north, Minneapolis.

Mr. and Mrs. J. D. Bilsorrow, Ag. '10, a daughter, Althea Jane, February 3, 1918, Urbana, Ill. Mrs. Bilsorrow was Medora A. Paddock, '05.

THE MINNESOTA ALUMNI WEEKLY

THE ALUMNI WEEKLY MAKES AVAILABLE FOR EACH ALUMNUS THE RESULT OF THE UNITED ENDEAVOR OF ALL ALUMNI TO KEEP IN TOUCH WITH EACH OTHER AND THE UNIVERSITY

VOL. XVII

MARCH 4, 1918

No. 21

Office: 202 Library Building, University, Minneapolis, Minn.

Published by the General Alumni Association of the University of Minnesota.
Entered at the Postoffice in Minneapolis as second-class matter.

Life subscription, \$25; annual subscription \$2.50.

Life members are allowed a special discount of fifty cents in consideration of payments already made.

Unless subscribers direct a discontinuance it will be assumed that a renewal of subscription is desired.

ADVISORY EDITORIAL COMMITTEE

Benjamin Drake, Chairman.
Hope McDonald, Alice Rockwell Warren
Stanley B. Houck, Harold J. Leonard.

Editor and Manager,
E. B. Johnson.

It is the purpose of the Weekly to present facts upon which the alumni may base their own judgment; to offer unbiased interpretative comment upon the facts in order that they may be better understood; to reflect editorially, the opinion of the alumni as faithfully as possible; to be always open for communications from any alumnus who desires to say anything upon a matter of interest to the alumni, as alumni. Constructive criticism, news and new subscribers are each helpful and welcome, and combined, they improve the service rendered by the Weekly to its subscribers.

CALENDAR FOR THE WEEK.

Tuesday, March 5, 4:00 p. m.—“The effect of the war upon the public schools,” by Dean L. D. Coffman, Little Theatre.

Thursday, March 7, 12:00 m.—Chapel address by Dean E. P. Lyon of the medical school.

The interest of the students of the University in military drill this year is evidenced by the fact that of the more than twelve hundred enrolled for this work, 794 came through the first semester with an absolutely clean record, that is, no absences or demerit marks of any sort charged against them.

PRESIDENT NORTHROP APPRECIATES ALUMNI SYMPATHY.

519 Tenth Ave. S. E., Minneapolis,
February 23, 1918.

My dear Bird Johnson: I thank you with all my heart for your very kind letter expressing the feeling of the Alumni association. The sympathy of friends helps—but I am passing through no ordinary sorrow and I need all the help I can get. I can not yet realize that Elizabeth has gone and I am to see her no more on earth, though I saw her pass away and I know that she has gone.

With a heart full of thanks to the Alumni,
Very truly yours,
CYRUS NORTHROP.

The name of Charles L. Pillsbury was inadvertently omitted from the list of the members of the committee on University Union in Europe.

Misplaced at Alumni Banquet—One leather note book. Kindly inform Harold D. Finkelstein, University P. O. Box 2757, of its whereabouts, and postage will be sent for its return.

Found.—C. C. Conser, '03, U. S. Commissioner of Plevna, Mont., found a watch charm which evidently belonged to a Minnesota debater. The charm is circular in form, the central part contains an “M” and the wording on the margin is “Tri Collegiate Debate 1916.” Mr. Conser would be very glad to restore this charm to its owner who can secure it by writing to him as stated above.

The Minnesota service flag was unfurled last Tuesday noon in the University Armory before the largest convocation audience of the year. Kenneth Briggs, representing the student body, presented the flag to the University. The flag was unfurled according to military regulations by Louise Leonard of the Women's Self Government association. The flag bears seven hundred stars, eight of them gold. President Snyder, of the board of regents, accepted the flag for the University and Governor Burnquist made the principal address, dealing with the ideals for which we are fighting, and urged absolute loyalty on the part of everyone in the United

States. President Burton closed the program with an appropriate message to the student body.

AN UNWARRANTED APPEAL.

A man signing himself Nat S. Stronge, 1476 Broadway, New York City, has sent out an appeal to a list of two hundred Minnesota alumni, asking for contributions for the purchase of motion picture films for the University. The appeal is wholly unauthorized and the president of the University and the officers of the General Alumni association protest vigorously against any such appeal. The letter of appeal bears the printed heading, "University of Minnesota, Graduates' Pledge." It appears to be a plan to sell a film—the price quoted being \$1,400. Do not pledge or pay any money to the writer of this appeal. So far as we are able to determine it is a fake proposition.

DURAND'S DISMISSAL ASKED.

At a recent meeting of the executive committee, a committee, claiming to represent organized labor and organized farmers, demanded the immediate dismissal of Professor E. Dana Durand, professor of economics. The demand was based, so these men stated, upon the ground that Professor Durand is in the employ of the big packing interests. The charges were somewhat hazy and appeared to be based upon a pamphlet issued by Dr. Durand a number of years ago, which they claimed was financed by Rockefeller funds.

The executive committee will meet again March 5th for further hearings upon the charges. Professor Durand is now on leave of absence from the University, serving under the direction of the U. S. Food administration.

ADDED TO HONOR ROLL.

The following list of names has been added to the Honor Roll during the past week:

Major Robert S. K. Nelson, '00, U. S. A. Regular Army.

First Lieut. Leo W. Chilton, Med. '03, Medical Corps.

Robert D. Lewis, Eng. '07, Ry. Eng. Mission to Russia.

Harold G. Simpson, Law '15, U. S. Balloon School, Omaha, Neb.

E. R. Schwartz, For. '16, Forestry Service, A. E. F., France.

Second Lieut. Lester L. Brennan, '17, Royal Flying Corps, England; killed Feb. 26, 1917.

Four thousand pints of tincture of digitalis and five thousand one ounce capsules of the drug were finished last week by the students of the college of pharmacy. The work was done for the government for use in the military base hospitals. The whole stock, eight thousand half pint bottles, has been shipped to Washington.

"With the Brutal Frankness of a Blood Relative"

Editorial Comment.

We are publishing herewith a letter from Professor Emeritus John C. Hutchinson. The letter is called out by a letter published some time ago in the Weekly. The writer of that letter deplored, what he termed, the lowering of spiritual standards in the University. We are glad that someone has taken up this point and we are glad, too, that it was Professor Hutchinson who did it. We are apt to idealize the things that were and deprecate changes which may seem to us not always changes for the better. We do not question the good faith of the writer of the previous letter, but we feel that Professor Hutchinson's letter more truly represents conditions as they are. There are many men about the University under whose influence the writer of this note would be glad to have his son educated—and no more vital test could be suggested as a standard. While Minnesota may not be all that we might wish—Professor Hutchinson's summing up of conditions elicits our hearty amen. It's a pretty good institution after all and under the leadership of President Burton no alumnus need fear that high ideals of life will not be held the first essential.—Editor.

Letter 15.

Professor Hutchinson's Protest.

My dear Mr. Johnson: I have hoped that some one else would answer some of the criticisms appearing lately in your columns and save me the humiliation of being any more the recipient of such undeserved laudations. Of course I am glad to have my former students remember me kindly; more than glad if any word of mine still lingers helpfully in their memory. But it really makes me feel ridiculous to be spoken of so fulsomely. Have I after all failed in my endeavors to teach discrimination and to develop balance of judgment?

I send you the enclosed to do as you will with it. It has been no pleasure to me to write it. But it ought to be said and if no one else will say it I will run the risk of displeasing those whom I least desire to displease, trusting that the old proverb will prove true, "Better are the wounds of a friend than the kisses of an enemy."

If you think it better not to publish this communication well and good.

Very sincerely,

J. CORRIN HUTCHINSON.

The Committee on Alumni Co-operation:

There was a very good man once who had a fit of the "blues." Ordinarily he was a strong man; now he was weak as water. I do not wonder. He had been betrayed into a hasty judgment on his fellow citizens. He had been emphasizing his own importance. There was none orthodox in all Israel but he—righteousness would die with him. So he asked to die. One would have supposed that if his diagnosis were right dying was the last thing he would have thought of. But the "blues" do not help a man's judgment. It took clear vision in white light to see seven thousand where "the blues" saw only one. But the seven thousand were there none the less.

It may seem an ungracious task to criticize some things that have been appearing in your columns recently. And had some one else undertaken the task I should have been vastly better pleased. But the thing is getting too frequent for a self respecting silence. So even at the risk of hurting some of my friends I must protest against the seeming assumption on the part of some of your correspondents, that because some of their friends whom they knew intimately in days long gone by are no longer on the teaching force of the University, that therefore there has been or is likely to be degeneration in the ethical quality of University teaching and influence; or in the high ideals of character and of service to God and man, which I have constantly heard emphasized during the forty-seven years of my connection with the University by each of its presidents in his turn. Put so bluntly does it not seem ridiculous. Let me assure my fellow alumni for whose kindly judgment, even though it be partial, I am profoundly thankful that the "Godless State University" was never more a fiction of a diseased imagination than it is today.

That in the particular field in which my work was cast I had to deal with the greatest idealists of all time was simply my good fortune. One can not move daily in the company of Homer and Aeschylus, of Socrates and Plato, of Thucydides and Demosthenes and many others who strode like gods across the marvelous one hundred and fifty years or so between Marathon and Chaeronea without learning to prize reality and righteousness and beauty above all material acquisitions and honorable living as worth immeasurably more than comfortable existence. Add to those whom I have mentioned the writers of the most ideal and inspiring literature ever penned, those of the New

Testament, and a man would have to be a mere block, deader than the victims of the deluge not to catch a little of the fire of inspiration, not to learn in his turn and according to his measure to "see visions and to dream dreams." But the sources of such "visions and dreams" are still there, and students are being directed in their study by as true and genuine a man as it is my privilege to know. And aiding him is a woman whose previous record carries great promise for the future. I refrain from saying what I would like to say lest I should offend her modesty by what might seem to those who do not know her fulsome adulation. Time will reveal her worth to the University as a wise and sympathetic dean of women, an inspiring assistant in Greek and a personality potent for good in the entire University.

But my dear fellow alumni and alumnae were I to undertake to mention by name those whom I personally know in the faculties of the University who are aggressively interested in Christian ideals of character and conduct, these men and women would not thank me, and this communication would be lengthened beyond the space of my disposal.

We are told sometimes that actions speak louder than words—it is only half a truth. But surely \$65,000 raised in the University community for a Y. M. C. A. building for University men, and \$28,000 raised for war work through the Y. M. C. A. and the Y. W. C. A., do not demonstrate a lack of interest in spiritual realities and Christian ideals.

It does not tend to glorify the University of the earlier days to find its graduates influenced by prejudices either for or against individuals. The clear eye, the tempered judgment, the broad sympathy, the due recognition of relativities, these are the qualities in its graduates which demonstrate that the University is fulfilling its true function; while hasty and imperfectly founded judgments, whatever their cause, must tend to discount the work of the University itself and throw doubt on the ability of the critic.

Let us get out my friends from under our juniper tree in the desert; get to Horeb the mount of God and of vision, and learn the value of the "still small voice." It is still to be heard in the class rooms of the University, and will not fail with the passing of this man or of that from his accustomed place.

J. CORRIN HUTCHINSON.

Letter 16.

Minneapolis, Minn., Sept. 11, 1917.

Committee on Alumni Co-operation:

I have just received your letter of September 7th and have looked it over with care. Concerning many things referred to I do not feel in a position to speak. The one thing that suggests itself especially to me as regards the medical department, is that we

must get on a better basis with the profession of the state, which, at the present time, is by no means friendly to the medical department.

As regards question No. 3, I have no hesitancy in saying that at this time when we are certainly going to find a shortage of teachers, our emphasis should be placed more on teaching than on research work; at least if one or the other must suffer, it ought not to be the teaching work.

Sincerely yours,

ARTHUR S. HAMILTON.

Note: If Dr. Hamilton were to write his letter today, he would doubtless call attention to the fact that steps tending to bring about a better understanding between the medical school and the medical profession of the state have already been taken. The recent medical and surgical clinic for the medical men of Minnesota was a distinct contribution toward such a better understanding.—Editor.

Letter 17.

To the Committee on Alumni Co-operation:

Yes, I believe in doing one or two things. First, we can get into the game of making Minnesota the medical center of the world. (A fine start has been made by the Drs. Mayo, the biggest men in the world; and we should do our bit.) Second, cut out all teaching of the German language and substitute the study of a universal language, and let such a language be the Italian or the English with simplified spelling. Of course I would prefer the latter.

Always wishing the association the best of success, I am

E. L. SINCLAIR, Dent. '95.

Rochester, September 15, 1917.

Letter 18.

Feb. 14, 1918.

Minnesota Alumni Weekly:

I have read with considerable interest in the Bulletin of February 11 the report of the committee on grounds. It is very commendable and deserves every support.

In one detail I would disagree: "The old Mechanic Arts building to be removed." I am very willing to admit that it is an eyesore, a firetrap, and all the other things that may be said against it. But to me it is one of the buildings that links the present with the past, and the campus would never again be the same campus if it was removed. While I certainly approve monumental buildings for a university, I believe that the traditions of a university are equally important and it is the old buildings that help to bring this spirit down to the present. Harvard would never have the hold it has on its student body today, were not the old pre-revolutionary buildings still existing. Ugly, most of them, but they hold the interest of the alumni, and the alumni have made Harvard. Several hundred engineers have lived and worked in the old Mechanic Arts

and I think most of them on returning to the campus would like to see it always there.

The old campus should be left essentially as it is. From the standpoint of good design it could be much improved, but a human element is in danger of being lost.

The idea of planting more oaks is an inspiration, the oak has grown symbolic at Minnesota, and the more that can be planted the better.

Very sincerely yours,
GEORGE LISTER NASON.

Letter 19.

In Answer to Dr. Olson's Letter.

Melrose, February 2, 1918.

The Board of Directors of the General Alumni Association:

It may be that my own personal feeling of inability to express myself adequately is the reason I resent the implied slur of Dr. Carl G. Olson upon my profession and its members and our college of dentistry. His attitude seems to me to be that of the narrow uneducated craftsman found in our unions and labor organizations. We all know of their opposition to our University and our stupendous problem to make good with them.

Dr. Olson opens his letter with the commendable statement of the very highest ideal for our University, but as I ponder over his excellent letter I am impressed by its lack of logical sequence. I gather he wishes to urge that the state foster a system of dental education that will turn out dental mechanics or "tooth carpenters" or that its aim should be to prepare a money-making machine as cheaply and rapidly as possible and spend no time upon the education that would benefit people with whom he comes in contact. Let the student be the judge of how much of this he needs to acquire.

The whole excuse for this is that it costs too much to have an educated man do your dental service and that he is necessarily a snob and unwilling to work upon the common man.

Dentistry stands for more than the mechanical treatment or repair of decayed teeth. That is easily demonstrated when you consider the terrible results of some of our so-called modern dentistry. The total evils caused by installing unscientific unhygienic dentistry are appalling. How many are suffering with nervous disorders, weak hearts, rheumatism, pyorrhea, stomach troubles and pernicious anemia due to faulty and criminal dentistry may never be known.

It is true the patient does not care how much general education his dentist has but nevertheless he patronizes the one that gives the best service.

The cost of professional services will not be beyond the ability of the poorest patient to pay when he realizes its effect upon his general health and capacity to earn. Our

college does right in putting emphasis upon the education of gentlemen. Because the true gentleman as he becomes more educated becomes broader and more sympathetic and realizes more his duty to serve his fellow men. I believe in the system of some countries that renders special deference to the educated man but also demands that he be worthy of this deference. Many times the graduate of the professional colleges are the only college representatives in a community. People judge a college by the product they are acquainted with. If they are true cultured gentlemen the college is held in high esteem and vice versa.

At meetings of professional men one is often impressed with the lack of extemporaneous expression on the part of some of the brightest men and the very prevalent ignorance of parliamentary rules. Wouldn't training along these lines be of the greatest benefit to our students? Another suggestion would be to require a thorough knowledge of the scientific fundamentals of good business.

Other problems confront us as a profession we will surely solve by the dental money maker? You know that the answer is always by our educated scientific dreamers.

Entrance requirements should be strict until all the high schools of the state realize their duty to live up to the standards set for them. But students should be given more time to find themselves unless they are entirely unfit. I believe in a more thorough coaching and encouragement of the new student for he may be the product of a high school that is better prepared to make human parrots than real students. All educational systems seem to be in a transition period and it will be a happy day when there is a reasonable stability in the fundamental principles.

Let us pull together for a better, broader, more scientific, dental education that will produce real polished professional gentlemen.

Let us all try to live so that we will inspire confidence in our college and the cry to shorten and restrict the educational courses will be forgotten.

It is up to us to make good.

BILEY SMITH, Dentist.

A course in war-time social service will be offered in connection with the summer school to be held at the University next summer. The work will be under the direction of Professor A. J. Todd, of the department of sociology. It will open June 24 and close August 3. The course will include instruction in housing, city planning and caring for needy families. Among those who will assist in this course are Hastings H. Hart, now with the Russell Sage Foundation, and Amelia Sears of Chicago, who is considered an expert in work among needy families.

ELECTION OF DIRECTORS.

Rejected Ballots.

Sixty-three ballots could not be counted. Fifty-five of these ballots had to be rejected because there was nothing to indicate that the voter was entitled to cast a ballot, that is, there was no name on the envelope containing the ballot or on the ballot itself. Eight more were made void by improper marking, that is, because there was no means of determining the voters first choice.

Would Not Have Changed Result.

The ballots that were rejected would have made no difference in the final result had they been counted. Miss Firkins would have received a quota on the first ballot with several votes to spare. The other candidates ran about the same order as indicated by the returns of the valid ballots.

Comment on First Table.

The quota, that is the smallest number of votes that will insure an election, is arrived at by dividing the total number of valid votes cast, in this case 349, by six, one more than the number of directors to be chosen.

This equals 58 1-6, the next largest whole number is 59. This is the quota. Six candidates could not each receive fifty-nine votes when but 349 votes were cast, though it would be possible for five candidates to receive 59 votes each.

Mr. Barnum received the exact quota and was declared elected. There being no surplus votes to transfer, Mr. Salmon, who had the smallest number of votes was declared defeated and his 13 votes were transferred according to the second choices indicated in the table.

No one received the quota as a result of this transfer and Mr. Bell, with 20 votes, was declared defeated and his votes were distributed as indicated under the third count. This resulted in the election of Miss Firkins.

Mr. Washburn with 34 votes was then low man and it was found that 13 of his votes could not be transferred—either no second choice being indicated, or if indicated they were for some one already elected. The transfer of the remaining 21 votes resulted in the election of Dr. Head.

Mr. Selover was then declared defeated, being low man. It was not necessary to

RESULT OF ELECTIONDirector for One Year

Number of votes 342

Number of Directors 5

Quota 58

	1st Count		2nd Count Transfer McGregor's Surplus		3rd Count Transfer Hoff's 19		4th Count Transfer Lewis' 27		5th Count Transfer Thomas' 30		
	No	Result	No	Result	No	Result	No	Result	No	Result	
Allen -	39	1	40	3	43		43	11	54		Elected
Burch, A M	45			4	49	4	53	4	57		Elected
Diamond -	42			1	43	7	50	6	56		Elected
Hoff - -	18	1	19	-19							
Lewis - -	23	3	26	1	27	-27					
McGregor -	69	11									Elected
Otto - -	30	4	34		34	4	38	2	40		Low Man Eliminated
Thomas - -	26	1	27	2	29	1	30	-30			
Thompson -	50	1	51	2	53	5	58				Elected
Not transferable				6		6		7			

transfer his votes because the number remaining undefeated was the number to be elected.

Seventy-two per cent of the voters secured their first choice; ten per cent more secured second choice.

Study of Selover Vote.

A study of the Selover vote—the last man to be eliminated, whose votes were not transferred, shows that most of those who voted for Mr. Selover for first choice did not fail in the election of one or more of their choices. Eight voted for one who was elected; seventeen voted for two who were elected; twelve voted for three who were elected; three voted for four who were elected—that is everyone but their first choice was elected, only three failed to vote for someone who was elected and this with the thirteen whose votes were not transferable represent all the voters who did not vote for at least one winner. That is, only 4.6 per cent of the voters failed to score at all.

Comment on Second Table.

The quota is secured by dividing 342, the number of valid votes cast, by six, one more

than the number to be elected, which equals 57 to which one is added.

Six candidates could not receive 58 votes each but it would be possible for five candidates to each receive this number. It represents the smallest number that will insure election.

Mrs. McGregor received eleven more votes than the number needed to elect; she was declared elected and these eleven votes, chosen at random, were distributed as shown in the foregoing table as the second count.

Dr. Hoff, who received the smallest number of votes, was then declared defeated and his nineteen votes were distributed, according to second choices indicated, as shown under count three. Six votes could not be transferred as no second choice was indicated.

As this count did not result in the election of any additional directors, the next lowest man, Mr. Lewis, was declared defeated and his twenty-seven votes were distributed, according to second choices indicated, as shown under count four. Mr. Thompson received the quota on this count and was declared elected.

Mr. Otto was the next lowest man with forty votes. He was declared defeated but his votes were not transferred because the number of remaining candidates, three, was exactly the number to be elected. Messrs. Allen, A. M. Burch and Diamond were then declared elected, though each candidate fell a few votes short of the quota.

It is interesting to note that the five candidates who led on the first count were finally declared elected.

It is also interesting to note that of the 342 persons voting, 245, or more than seventy-one per cent, elected their first choice. Forty-nine others elected their second choice. This means that almost ninety per cent of the voters secured either their first or their second choice candidates.

Less than twelve per cent failed to get any choice at all, and these almost without exception because they failed to indicate more than one choice. The second ballot showed a noticeable variation from the first. More voters failed to indicate a second or additional choice.

LETTER FROM CAMP FREMONT.

Field Hospital No. 43,
Sanitary Train, 8th Division,
Camp Fremont, California.

Dear Mr. Johnson: Thank you very much for your letter and the back numbers of the Alumni Weekly which you so kindly sent me. I read them with a great deal of pleasure and was especially interested to know how the University and the alumni were getting behind the war. It could not be but as it is with the traditions that we have behind us. As for the medals they will no doubt be highly valued, especially by our posterity if we have any, but they will not help to win the war. The best medal at the present time is a pair of identification tags hung around the neck.

Have been at this camp now for about six weeks. It is a beautiful site for a camp and so far weather conditions have been excellent. We adjoin the campus of Stanford University on the south and east. We have played three games of baseball with their teams; the first with the Freshmen team, giving a score in our favor of 17-0; the other two against the regular team, with one game in our favor at 7-0 and the other against us 5-3. Their team is not up to its usual standard, I believe, as a very large percentage of their male students have enlisted and many of them are already at the front.

Will you kindly see if you have my address correctly on your mailing list? I have received no copies of the Weekly except the back numbers.

With best wishes, sincerely yours,

OSCAR ANDERSON,
Captain M. R. C.

FROM PARIS—RED CROSS.

(Extract from letter of January 23, 1918,
Mrs. E. E. Nicholson.)

I don't know how anything that I can say will wake up the people to greater effort. The one thing I can say is that I should not like to feel that because of my apathy, when our army is going to need enormous quantities of surgical dressings, and when the lack of them will mean loss of life, that lack of interest on my part made such a state of affairs possible. And that is exactly what any woman ought to feel who isn't working for the definite end of having supplies ready when they are needed.

As to quality of work, it should be of the best. I have wasted many hours today re-wrapping dressings that were so badly done as to come apart, besides being put up in miserable rags full of holes. We do not need rags or worn things. Send nothing but the best standard dressings, excellently wrapped, marked and tied and in boxes well lined with water-proof paper. If there is any doubt as to the quality of the work, have it passed on by some one of the many Red Cross supervisors and do exactly as she says, no matter how much trouble it may seem to the workers. It pays over here both in efficiency of handling and in safety for the contents.

This is just a general rule for those people asking what I have said about the kind of work they are to do. Just over and over. Nothing but the best of materials and methods. Extreme care as to cleanliness. Muslin dressings must always be laundered if the material has been printed on or soiled in the making. Everything wrapped, tied and marked according to the best Red Cross method. We may need just that kind of work to win the war. Heaven knows, I have been heartsick at some of the trash I have tried to patch up to make fit for some kind of use, and many times from places that should know better.

"THE CONFESSIONS OF A BROWN- ING LOVER."

Under this title the Abingdon Press has issued a 248-page book from the pen of John Walker Powell, '93. The essential thesis of the book, so the author says in his introduction, is, "That the world must in the end come back to the essential truths which the church has been trying to teach, however profoundly our interpretation of these truths may be modified by the enlargement of thought which the new science has afforded." In speaking of the effect which the war may have upon the spiritual life of the world Dr. Powell says: "the unmeasured suffering of the flesh and anguish of spirit through which humanity has passed during the past thirty months must issue in a deepened sense of spiritual need and a new reliance upon the profoundly simple truths of spiritual faith."

Mr. Powell treats his subject under eight chapter heads—of the poet and artist; of artists and philosophers; of ideas and forms; of orthodoxy and the theory of knowledge; of structural vs. ornamental truth; of life and love; of the problem of evil; Prosopice.

As the author says, a controversial note runs through the book, but he has not attempted to solve the disputed passages of the great poet's writings, rather he has taken his obvious message and applied it to life conditions of today.

Mr. Powell always has a message worth hearing and in this book his message is helpful and hopeful—a message for the man on the street who needs the courage and help which communion with a really great mind brings. In Dr. Powell, Browning finds a sympathetic and clear-thinking interpreter.

The Young Men's and Young Women's Christian associations of the University are about to organize small groups of students to study problems brought up by the war.

Executive Committee Minutes.

A meeting of the executive committee of the board of regents was held in the president's office, Monday, February 18, 1918, at ten o'clock. There were present Regents Snyder (chairman pro tem), Burton, Partidge, and Schulz.

Resignations were accepted as follows: E. O. Dieterich, physics, effective February 18, 1918; Henry Johansen, machinist; Charles Faimen, technician in pathology; Effie Lukens, stenographer; Alma Holstrom, secretary to the comptroller; Edna F. Busse, assistant pay-roll clerk; O. M. Kiser, Northwest School of Agriculture; Amy Sjoblom, stenographer; Alga Axness, clerk; W. H. Bender, associate professor of agricultural education.

The following appointments were approved: A. W. Olmstead, instructor in public speaking for second semester; Elizabeth Pierce, instructor in school for nurses; Christian O. Valeboe, machinist; E. M. Chapman, assistant in practice, law school; H. G. Overhold, instructor in civil engineering; Anna Kovarik, secretary in the department of medicine; Mrs. E. G. Hickey, stenographer; Professor John Hemenway, teaching fellow in physics; Edward M. Egan, service man; Wm. Harris, service man in pathology; Kennett Hinks, student helper in economics; S. W. Alvord, clerk general extension division; Russell W. Morse, technician; Donovan Lawrence, service man in anatomy; Ralph K. Viles and Boyd Phelps, assistants in electrical engineering; F. A. Burningham, assistant in glass blowing; C. E. Greenlaw, student helper chemistry; R. L. J. Kennedy, laboratory helper physiology; Ruth Field, laboratory helper pathology; C. G. Arvidson and John L. Mills, laboratory helpers physiology; A. M. Field, assistant professor of agricultural education; B. M. Gile, assistant professor of agricultural education; Percy B. Barker, instructor in agricultural education; W. F. Dyer, instructor in agricultural education; John V. Ankeney, instructor in agricultural education; Thorvald S. Hansen, to fill Mr. G. H. Wiggin's place as assistant superintendent of the Cloquet forestry experiment station; Georgia Durkin, laboratory assistant soils; F. A. Krantz, field assistant in horticulture; Ru-

dolph Hultkrans, post office assistant; John W. Bushnell, assistant in horticulture; Mark A. McCarty, assistant instructor in animal husbandry; Anna M. Kludt, stenographer; Florence Perkins, stenographer; I. D. Charlton, under appointment in agricultural engineering to be acting chief of the division of agricultural engineering; Martin Reiling, truck driver; Minnie Anderson, clerk animal industry; Joseph Kalash, assistant instructor animal husbandry; Irene A. Hedin, loan desk assistant in library; Sylvia Campiglia, assistant professor of textiles and clothing; Greta Gray, assistant professor of foods and cookery.

Certain salary adjustments were authorized.

An arrangement was entered into with Dr. Richard Burton by which he will hereafter give only the first semester each year to his University duties. This plan is in accord with Dr. Burton's wishes in the matter.

The following promotions were approved: John T. Tate, assistant professor of physics, to associate professor; F. W. Bliss, instructor in chemistry to assistant professor; Miss Lillian Cohen, instructor in chemistry to assistant professor; Elvin Berge, service man to technician; Mrs. E. L. Dieterich, scholar in physics to part-time assistant and also assistant in high school; Mrs. Barbara Lund, to full time assistant in chemistry; Winifred Ashby, from fellow on the Mayo foundation to teaching fellow in medicine for a period of six months.

Trips outside the state were authorized as follows: Professor J. P. Wentling to Madison, Wis., to collect specimens of wood for laboratory work; Miss Katherine Ball to attend the conference of the national society for the promotion of industrial education in Philadelphia, February 21-23, and to spend some time in Chicago, New York and Boston, to study vocational courses of training offered in those cities; R. Adams Dutcher to attend the meeting of the American Society of Milling and Baking Technology and American association of cereal chemists in Chicago; Professor A. V. Storm to attend the National society for the promotion of industrial education and superintendents' section of the N. E. A. in Philadelphia and At-

lantic City; Dr. E. C. Stakman and Dean E. M. Freeman to attend Wheat rust conference at Chicago and Washington.

Leaves of absence were granted as follows: Professor M. E. Haggerty, college of education, to accept appointment as major for duration of war; F. W. Bliss, instructor in chemistry, for war service in the signal corps; Henry T. Moore, assistant professor in psychology, for psychological war service; Dr. F. G. Blake, assistant professor of medicine, for war service; F. P. Leavenworth, professor of astronomy, for second semester of 1917-18 to give course of study in navigation for the nautical school conducted by the shipping board at Duluth; W. S. Miller, principal of the University high school for war service; R. B. Oshier, of the extension division, for Red Cross work for an indefinite period; Dr. James Davies, assistant professor of German, for lecture work in the East during the week of February 16-23; Miss Edna Goss, head cataloguer in the library, on sick leave; Miss Josephine Berry, home economics, extension of leave to August 1, 1918; Dr. W. D. Val-leau, research assistant in fruit breeding, for service in the medical corps of the national army; Mrs. Elsie Martin, assistant in the library, on sick leave for one year.

It was voted to look with favor upon the plan of training one thousand enlisted men in vocational lines in the college of engineering and the department of agriculture, preliminary to being sent to the military training camps and the president was requested to ascertain from the State Fair board the possibility of using some of their buildings for sleeping purposes.

It was voted to approve the policy of establishing training courses for teachers in trades and industries requisite to the University availing itself of the privileges of the Smith-Hughes Bill and the question of providing additional funds in the sum of \$4,500 to carry on the work for the next fiscal year was referred to the president and the controller.

Voted to approve the plan of establishing a minimum and a maximum salary for instructors in the college of science, literature and the arts with advancement as justified by experience in teaching or other special qualifications, the plan to receive further consideration and the effect upon the budget to be determined.

The committee considered the question of adjustment of salaries under the report of the committee on the interpretation of salary rules approved by the board of regents January 18, 1918, and it was considered that the adjustments were in keeping with the resolutions adopted July 12, 1916, in which the minutes of appointments to the instructional staff were amended to read: "for the academic year."

The establishment of courses in food conservation in the college of science, literature and the arts, was approved.

The loan of an Alden Dyanometer, the property of the engineering department, to the Dunwoody Institute for military purposes, was authorized.

Voted to accept with appreciation from the Engineers' Club of Minneapolis, the gift of the club's library, consisting of a number of engineering books of considerable value, to the college of engineering and architecture.

Voted to accept with appreciation from the Faculty Women's club the furniture, linen and belongings in Northrop, Folwell, Loring and Winchell cottages.

A fee of \$5 for the course in military signaling for men not registered as students of the University, was established.

A request from the janitors for an adjustment of employment to a nine-hour day for nine months and an eight-hour day for the three summer months was considered but on account of lack of funds was denied.

Correspondence with reference to a proposed lease of land known as the Dibble tract for peat investigation was presented and the president of the board was authorized to execute the lease if it met with his approval.

A request for an appropriation from reserve of \$500 for the purchase of lantern slides for the extension division was denied.

An additional appropriation of \$100 from reserve for taking and tabulating mental tests was authorized.

Professor Meyer of the college of engineering was granted permission to engage in experimental work in water power development along the international boundary.

Inasmuch as Dr. J. A. Quinn declined to accept the proposed lease of the "Quinn Land" for three years at \$700 per year as authorized and inasmuch as the present lease expires March 1, 1918, and approximately twenty-five acres of winter crops are in, it was voted to approve the execution of a lease for the present year expiring October 1, 1918, at \$700.

The chairmanship plan of administration in the department of English, college of science, literature and the arts was established.

The degrees of B. S. and M. D. were granted to H. M. Knudtson.

In view of the stipulations in regard to the scholarship and other considerations it was voted to decline the offer of a scholarship from the National Society of Broader Education.

Voted to accept with appreciation the gift of a horse to the department of agriculture by Dr. Geo. E. Vincent.

Voted to approve the establishment of concentration courses in the college of agriculture.

Whereas, Dr. William A. Riley, newly appointed chief of the division of entomology, has consented to spend the month of February in organizing the work in his department, it was voted to approve a voucher in

the sum of \$91.67 in addition to the regular salary, to defray expenses from Ithaca, New York, and return.

Various student loans were approved.

OF GENERAL INTEREST.

Thirty thousand cases have been treated at the dental infirmary since the University opened last fall. The Monday closing order resulted in bringing in a large number of additional cases.

The department of physiology of the University has issued a pamphlet containing a list of the publications of the men of that department during the years 1914-1917 inclusive. The pamphlet contains fifty-one titles.

Last Tuesday afternoon the young women of the University completed two thousand surgical dressings. There were fifty-eight young women present who never before attended the Red Cross class.

Professor John H. Gray is now in the office of the Board of Appraisers, 104 Broad St., New York City. Professor Gray is living at the Faculty club of Columbia University and says that he is having the time of his life.

Dean J. B. Allen recently read a paper before a joint meeting of the Minnesota section of the American Institute of Electrical Engineers and the recently organized chapter of the American Association of Heating and Ventilating Engineers.

From eleven to twelve o'clock on Thursday morning has been set aside for convocation purposes for the coming year. This action has been approved by the board of regents and the schedule will be worked out with this one point fixed.

The Students' Catholic Association gives three one-act plays on March 15 and 16 in the Little Theatre. The proceeds of these plays will be used to start a building fund for the new club house to be built opposite the campus.

Some of the larger eastern institutions that gave up intercollegiate athletics upon the entrance of the United States in the World War, have resumed to a limited extent spring athletics. The announcement of this fact was made in a recent number of the Princeton Alumni Weekly.

"Dressing and curing meats on the farm" is the title of a bulletin issued in the Minnesota Farmers' library series as No. 11. This was prepared by W. H. Tomhave and D. A. Gaumnitz, both of these men were formerly connected with the University agricultural department.

Professor Carlyle Scott is arranging a program of choral music to be given in connection with the inauguration of President Burton and the fiftieth anniversary of the founding of the University to be held some

time this spring. "Hiawatha's Wedding Feast" has been selected for the chorus.

The football dinner which was held Tuesday, February 19, proved to be an enthusiastic gathering of football and prospective football men. The dinner was held at the Minnesota Union. Dr. Williams acted as toastmaster and made a talk. President Burton was also present and was called on for a speech.

A vocational course for drafted men may be opened at the University about the first of May. The engineering department has made an offer to the government in which it proposes to teach one thousand men blacksmithing, machine repairing, and other work of like nature, to prepare the men for better service in the army.

The Minnesota basketball team defeated the Illinois team in the University Armory last Monday night by a score of 35 to 22. The score clearly indicates Minnesota's superiority. The winning of this game put Minnesota at the head of the conference basketball teams. Captain Gillen whose whose marvelous basket shooting has done so much to give Minnesota the lead in the conference, broke his collar bone during the game and will be out of it during the rest of the season. Captain Anderson of the Illini, was a star player. It kept the Minnesota men busy guarding him.

Recently President Burton received a letter from Audrey Van Vliet, a little ten-year-old Randolph, Minn., girl, asking that the students of the University subscribe ten dollars to put the name of the University of Minnesota on one of the central squares of a Red Cross quilt she is making. The central square bears the name of President Wilson; the four squares adjoining each bear the name of a Minnesota Educational institution. President Burton presented the matter at a meeting of the deans held the same day he received Audrey's letter, and they immediately subscribed the ten dollars and the check was sent to her for the Red Cross society of Randolph. Last week President Burton received a very appreciative letter of thanks from Audrey.

A copy of the report of the President of the University of Nanking (China) contains a note concerning the activities of Dean and Mrs. Downey which will be of interest to their Minnesota friends. From this report it appears that the Downeys have given two years of service to the University of Nanking without remuneration of any sort. Dean Downey has been teaching mathematics and astronomy and Mrs. Downey has been employed in the department of English. The President in his report says: "They have added very much, indeed, to the University in many ways outside of the classroom work, which has been of the highest quality, and they are especially appreciated by the students."

A second U. S. Naval hospital training school has been opened at the University, the feature of which is the work in dentistry that is being given in connection with the medical instruction. During the first month the students attend lectures and demonstrations and in the second month are given laboratory and class room work, while the last month the work will be devoted to observation in the infirmaries, of the work done by the juniors and seniors. The course will include oral hygiene training. The purpose is to give the men assigned to the smaller boats which have no commissioned dental or medical officers, sufficient training to enable them to care for emergency cases until they can be transferred for regular treatment.

Two hundred students attended a dinner in the Minnesota Union last Wednesday evening for the purpose of considering the proposition to arrange groups for the discussion of war problems in an honest, fair, open-minded search for the truth. The dinner was arranged under the direction of the Young Men's and Young Women's Christian associations of the University and the plan proposed for these groups is very simple. As far as possible natural groups such as boarding clubs, fraternities, sororities, or congenial groups of friends, will arrange for a systematic but informal discussion of world problems involved in the world conflict. Among those who spoke advocating the plan were President Burton, Professor Young, Mr. Miller of the University high school, Miss Margaret Hutchinson, and a number of leading students of the upper classes of the University.

Few of the alumni realize that the University has a large and most important reserve officers' training corps with a membership of something like thirteen hundred students. The corps is divided into two classes, junior and advanced. The advanced class includes junior and senior students who have had two years of drill. The junior class receives uniforms from the government and a member of this class may rise by merit to any rank lower than the lowest commissioned officer—second lieutenant. The students in the advanced class receive their uniforms and also nine dollars a month as ration money and upon graduation from the University are commissioned as officers in the reserve corps of the United States Army and may be drafted to active service by the government. A bill is now pending in congress providing for the establishment of a reserve army to be officered by graduates of such courses in the colleges of the country.

WEDDINGS.

Louise McDanell, formerly assistant professor of foods and cookery, 1913-1915, and Mr. Charles A. Browne, of Baltimore, Md., were married February 19.

DEATHS.

A. M. Baldwin, '85, of Cooperstown, N. D., died February 13, at a Fargo hospital of pneumonia following an attack of inflammatory rheumatism. Mr. Baldwin was fifty-eight years old and for the past twenty years had lived in North Dakota. He had served as mayor of Cooperstown and was a member of the state legislature for three successive terms. At one time he was president of the North Dakota Firemen's association. Mr. Baldwin was never married and is survived by two sisters and several nieces and nephews.

Lieutenant Lester L. Brennan of the British Royal Flying Corps, a former Minnesota student, was killed recently in an airplane accident in England. Lieutenant Brennan registered at the University in the fall of 1911.

A Stanley Hill, Mines '11, was accidentally killed in a concentration mill of the Hecla Mining Company at Wallace, Idaho, February 25. Mr. Hill's parents live in this city at 3324 Colfax avenue south. The young man was twenty-nine years old and during his senior year was captain of the University track team. He is survived by his wife.

J. H. Locke, '83, who acted as a scout for General Pershing in Mexico and was the only one of three foreigners to escape from Villa's band when they raided Minaca, died at Deming, New Mexico, December 20, of pneumonia.

Robert L. Moffett, '89, a prominent New York attorney, died at his home, 417 Park avenue, New York City, February 23. After graduating from the University Mr. Moffett took his law course at the Columbia Law school where he graduated in 1892, and immediately afterwards took up the practice of law in New York City. Mr. Moffett was interested to a considerable extent in real estate and was counsel for some of the large estates in New York City. He was one of the partners in a syndicate which built the first large apartment house on Park avenue. The offices of the Wisconsin Syndicate, of which Mr. Moffett was an equal partner with his four brothers living in Minneapolis, were closed during the hours of the funeral. He is survived by his widow and four brothers.

Dr. Charles M. Torrance is said to have died at Frankfort, Germany, December 24. The news was held up by the censor and did not reach his parents in Minneapolis until very recently. The report contained absolutely no mention of the cause of his death. A number of years ago Dr. Torrance went to Germany to study, where he met the woman who afterwards became his wife, and finally settled down to practice his profession in Frankfort. His father is Judge Eli Torrance of this city, and his brother, Graham Torrance, Law '01, is county attorney of Beltrami county at Bemidji.

Pacific Ocean.**MINNESOTA LOSES TO WISCONSIN.**

In a neck and neck race, last Saturday night in the University Armory, the University lost the game to the Wisconsin quint by a score of 18 to 17. Minnesota led by a point up to the last seconds of the game when a Wisconsin player, by a wonderful single-hand shot, scored two points and won the game for his team. The loss of this game puts Minnesota out of the leader's position in the conference and makes it improbable that she will be able to regain the lead. The loss of Gillen is severely felt by Minnesota.

PERSONALS.

'92 Law—John F. Dahl, for the past ten years counsel for the Twin City Rapid Transit company, has given up his work with the company to take up private practice. At one time Mr. Dahl was court reporter and later assistant county attorney.

'92 Ex.—Edith L. Dodge is now in Paris working under the auspices of the society of "Funds for the French Wounded." She is soon to go to Luneville and to work in the devastated district just behind the trenches. Her address is care of the Guarantee Trust company of New York, 1 Rue des Italiens, Paris, France.

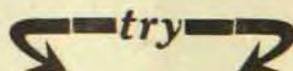

'95, '96 Eng.—Horace T. Eddy is an instructor in internal combustion engines at the U. S. School of Aeronautics, University of Illinois, Champaign, Ill. His address is 308 East Green street.

'97—Frank C. Faude who has been for a number of years past connected with the Minneapolis Tribune, was unable to get into the American service on account of his eyes. He went to Canada and enlisted in a railway contingent. When he reached London Mr. Faude was detained by the British authorities who investigated his American citizenship and the origin of his name. He hopes soon to be in active service in France.

THE GENERAL ALUMNI ASSOCIATION OF
THE UNIVERSITY OF MINNESOTA

Here are twelve successful men preparing for still greater success

—and how the lesson they have learned is directly applicable to You!

James Leffel & Company, Springfield, Ohio, make turbine engines—good turbine engines.

Twelve men in this organization are enrolled in the Alexander Hamilton Institute. Most of them are past middle age. Included in this group are the President, Vice-President and General Manager, Treasurer, the Sales Manager, Superintendent, two department managers, a salesman, two draftsmen and two foremen.

The motive that prompted these men to enrol was the determination to better themselves—to learn how to develop their positions—to make themselves and their work just one hundred per cent worth while.

To accomplish this, for these men in their maturity of years, there was only one open course, only one way. There was only one thing to do:

To master the essentials of business—to acquire a first-hand and practical knowledge of how all business success is built—to absorb for application in their own day's work those business facts and basic fundamentals which underlie all business.

These men are acquiring valuable mental capital

These men have all progressed far along the business highway. But they realized the need for something greater than their own experience to carry them on.

The bigger the man in business, the greater the natural need to absorb more business knowledge—the stronger the desire to have actual contact with other great business minds.

No business brain can be successfully nourished without using as a feeder the best product of other more successful brains.

The function of the Alexander Hamilton Institute is to give you thru its Modern Business Course and Service the best thought and experience of hundreds of successful business men—to bring them to you in the most practical, most interesting and easily readable form for absorption in your leisure time.

The Course and Service gives you a thorough understanding of business fundamentals. Once mastered, they can be applied successfully to any business.

If you are an Executive in your own business or

another's, to develop yourself and your work, you need the positive helpfulness the Alexander Hamilton Institute can bring.

If your eye is on the Executive desk ahead, you need the business information this Course furnishes. You need it more now than ever because the need for better Executives is greater now than the business world has ever known.

Wherever the wheel of business turns—the need is great

Opportunities abound in every field. The demand for trained men is far and away in excess of the supply. The war is forcing thousands of businesses to readjust their Executive staff. Every man called for duty "over there" affects the status of some other one man here.

The sooner you enrol, the sooner there is brought to you the business information that has been successfully applied by hundreds of our subscribers.

Advisory Council

This Council includes Frank A. Vanderlip, President of the National City Bank of New York; Judge E. H. Gary, head of the United States Steel Corporation; John Hays Hammond, the eminent engineer; Jeremiah W. Jenks, the statistician and economist; and Joseph French Johnson, Dean of the New York University School of Commerce.

Get further information

A careful reading of the interesting 112-page book, "Forging Ahead In Business," which we will send you, free, will show you how you can develop yourself for bigger responsibilities the same as these twelve men in the Leffel Company are doing.

Every man and woman with either a business or a career to guide to bigger, surer success should read this book. Simply fill out and send the coupon below.

THE ALUMNI WEEKLY MAKES AVAILABLE FOR EACH ALUMNUS THE RESULT OF THE UNITED ENDEAVOR OF ALL ALUMNI TO KEEP IN TOUCH WITH EACH OTHER AND THE UNIVERSITY

VOL. XVII

MARCH 11, 1918

No. 22

Office: 202 Library Building, University, Minneapolis, Minn.

Published by the General Alumni Association of the University of Minnesota.
Entered at the Postoffice in Minneapolis as second-class matter.

Life subscription, \$25; annual subscription \$2.50.

Life members are allowed a special discount of fifty cents in consideration of payments already made.

Unless subscribers direct a discontinuance it will be assumed that a renewal of subscription is desired.

ADVISORY EDITORIAL COMMITTEE

Benjamin Drake, Chairman.
Hope McDonald, Alice Rockwell Warren
Stanley B. Houck, Harold J. Leonard.

Editor and Manager,
E. B. Johnson.

It is the purpose of the Weekly to present facts upon which the alumni may base their own judgment; to offer unbiased interpretative comment upon the facts in order that they may be better understood; to reflect editorially, the opinion of the alumni as faithfully as possible; to be always open for communications from any alumnus who desires to say anything upon a matter of interest to the alumni, as alumni. Constructive criticism, news and new subscribers are each helpful and welcome, and combined, they improve the service rendered by the Weekly to its subscribers.

CALENDAR FOR WEEK.

Tuesday, March 12, 12:00 m.—Chapel, address by Dean E. M. Freeman. Little Theatre.

4:00 p. m.—Public lecture by Dean L. D. Coffman, "The effect of the war upon the public schools." Little Theatre.

Thursday, March 14, 12:00 m.—Mass meeting of University women to organize for summer war work. Under the auspices of W. S. G. A. Little Theatre.

Friday, March 15, 4:00 p. m.—Address by Dr. Bogamil Vosnjak, of Serbia, Professor of Agram University. "The doom of the Hapsburg empire." Little Theatre.

CREDIT WHERE CREDIT IS DUE.

An alumna has called attention to the fact that we did not include in our honor roll the men who have been serving on the draft boards. We are inclined to believe that she is right and that these names should have been included. The men who have been serving on draft and exemption boards have been obliged to, practically, give up their business for months. Their work has been as essential to the winning of the war as any work that is being done here at home for that purpose. These men have given their time, putting in long hours, cheerfully and without thought of reward—and in obscurity. They deserve well of us their fellow citizens and we hope that our subscribers will report such names that we may give proper credit where credit is due.

Some day we hope to publish another honor roll and we shall endeavor to include in that list the names of many more men and women who have been serving their country by giving liberally of their time and best efforts without thought of reward, to help win the war.

In this connection the "four-minute men" should be mentioned. Two nights a week devoted to such service is no mean contribution to the cause. Then too, the long list of men who have enrolled in the home guard and who have given two nights a week to training, many of them have given considerable time to active service, should come in for mention.

There are many women who are patriotically giving a large share of their time to Red Cross and other relief work absolutely essential to the success of the war. In making such mention it is inevitable that some will be missed, but we want to assure our readers that the only reason for failure to mention any one deserving of mention, is the lack of the necessary information.

THE DURAND HEARING.

Last Tuesday the executive committee of the board of regents met as previously announced, to hear a substantiation of the former charges made against Dr. Durand by representatives of organized labor and organized farmers. The charge proved to be a farce. No evidence whatever was submitted to substantiate the charges that had

been made, which were mentioned in the previous issue of the Weekly, and after Professor Durand had made his statement of the only connection he had ever had with the packers, and explained that he was now serving the government in a way that brought him in constant relation with the packers, and after a committee of the faculty had been heard in regard to the question of academic freedom, the hearing was concluded.

President Burton then put the question squarely to the ten gentlemen who had appeared before the committee and asked them whether, in view of the information brought out at the hearing, they would be willing to again sign such charges against Dr. Durand, eight of the ten immediately voted in a way to indicate that they would not, and also that they no longer felt that it would be right to demand the resignation or dismissal of Professor Durand. Two gentlemen failed to express themselves.

The hearing was as complete a vindication of Professor Durand as could have been asked and showed that the charges were absolutely unfounded and that Professor Durand is serving the government in a way to make him an extremely valuable servant of the public at the present time.

SOUTHERN CALIFORNIA ALUMNI MEET.

At a meeting of the Southern California Alumni Association of the U. of M., held in the Y. W. C. A. auditorium, February 23, Dr. Miller of the Normal faculty, gave a most interesting talk on the "Finds at Rancho La Brea." Officers for the ensuing year were elected as follows: President, Dr. G. B. Huntington; first vice president, Edward Winterer; second vice president, Miss Clara Beck; secretary and treasurer, Mrs. Hazel Greenberg.

Plans for the coming year were discussed and many attractive suggestions offered, further details of which will be announced later. All alumni and former students are requested to communicate with the secretary at 507 Consolidated Realty Bldg., Los Angeles.

COWBOY SONGS AND BALLADS.

John A. Lomax, formerly of the department of English of the University of Texas, is to be at the University March 20. He will speak to some of the English classes in the morning and give a public lecture interpretation of cowboy songs at four o'clock that afternoon in the Little Theatre. Mr. Lomax was born in Texas near one of the main trails leading from Texas to Kansas, along which the cowboys drove their cattle to market. These songs were many of them gathered by Mr. Lomax at the evening camp fires of these same cowboys. The songs are crude but straight from the heart and have a meaning that Mr. Lomax brings out in his interpretative recitals. The author has appeared each year, for many years past, at Yale University and each year he has a larger audience. The writer has heard Mr. Lomax a number of times and each time with greater pleasure. After his first volume had come from the press, President Theodore Roosevelt took occasion to write Mr. Lomax an autograph letter of appreciation and encouragement. In addition to his work on cowboy songs and ballads, Mr. Lomax has made a study of southern and negro ballads. He is very much interested in all the various branches of American balladry and one of his purposes in coming to Minnesota is to arouse interest in a study of the ballads of the prairies of the great Northwest. This is the first time we have been able to get Mr. Lomax at the University and we are sure that everyone who can make it possible to attend his lecture-recital will enjoy it immensely.

BIRTHS.

Mr. and Mrs. Charles Buckbee, a daughter, Barbara. Mrs. Buckbee was Sue Wier.

Mr. and Mrs. Arvid E. Nissen, a son, Paul Egede, February 23. Mrs. Nissen was Agnes Werdenhoff, Ex. '13.

Dr. and Mrs. Chester C. Tanner, Med. '17, a daughter, Jane Elizabeth, February 28, 1918. Mrs. Tanner was Clementine Bowman, '12. Dr. Tanner was promoted last October to senior lieutenant in the Navy and is now on board U. S. S. Wadsworth in British waters.

WEDDINGS.

Marjorie Dean Way, of this city, and Noel G. Sargent, '16, of Seattle, were married February 20. Mr. and Mrs. Sargent will make their home at 3601 Thirty-third avenue south, in this city, until June when they will go west to spend the summer.

"With the Brutal Frankness of a Blood Relative"

Letter 20.

September 13, 1917.

The Committee on Alumni Co-operation:

If I knew more about the present status of the University, its present policy, method of administration, scope of extension work, student spirit, etc., I should be glad to reply in detail to the communication sent out by your committee September 7. Are literature or reports on these points available? I shall await your reply before giving further attention to other specific questions enumerated. An institution is, in a sense, an organism, and one ought to know all of its parts before judging any single division.

In these times of storm and stress it is a relief to receive a request for constructive thought. I feel that your committee, in enlisting the co-operation of all alumni on these vital questions has taken a long stride towards democracy in the University.

ELLEN TORELLE NAGLER.

Letter 21.

University of Colorado,
Boulder, Colo., Sept. 18, 1917.

Committee on Alumni Co-operation:

In answer to the circular letter of the Committee on Alumni Co-operation I am moved to say that it seems to me the thing of most importance right now at the University of Minnesota is to develop research. My belief is that the only way to build up the graduate school to where it should be is to be liberal with scholarships and fellowships. Every professor who is interested in research might be furnished with funds for a research assistant who would do a large part of reference work, clerical work, etc., and in the sciences could assist greatly in experimental studies under guidance of the professor. But in addition to such assistants I believe it is necessary to have plenty of fellowships and scholarships. If you have twice as many graduate students as now the chances are that there will be twice as many able investigators developed.

Minnesota is already most favorably known for her solid undergraduate work. She is also known for her large attendance. But the product of research, while good, is not of the amount to attract attention. I feel most strongly that such a big institution ought to do more toward extending the limits of knowledge. It ought to prepare more men as investigators and university professors.

I am very glad to have had this chance to "say my say." With best regards, believe me,

FRANCIS RAMALEY.

Letter 22.

The University of Chicago,
Department of Geography,
September 21, 1917.

Committee on Alumni Co-operation:

Replying to your circular letter of September 7th, may I suggest that, so nearly as one may see from the outside, and somewhat remote from the Alma Mater, one of the best lines of advance for the University is along lines of research work. Senator Vilas in his bequest to the University of Wisconsin was a pioneer and a man with great vision, when he provided for the endowment of research professorships in which men especially fitted for research may be provided with laboratory equipment and materials and assistants, and may make research their main or entire work. It has been my observation that as a rule research along with teaching has almost invariably been successful about in proportion as the teaching has been neglected. Why not have the state recognize the place of research in a university and adopt the plan which Mr. Vilas outlined of having research properly supported, and make that a great issue in the immediate development of the University?

Another line in which improvement can be made in all our state universities in the middle states is an adequate provision for the natural growth in student patronage by a rigid limitation in the size of classes and in the number of classes put upon the instructor, and a somewhat more rigid insistence upon experience and skill in the instructors chosen. Too many classes have been taught by men very recently graduated or even undergraduates. The average boy or girl coming to the university has made great sacrifices to get the advantage of the university training, and universities ought to be exceedingly careful as to the quality of the teaching force.

I wish I felt better acquainted with University conditions than I do. I realize that I have been a long time away, and that I have very small opportunity to know of the actual conditions there.

J. PAUL GOODE.

WORD FROM COE.

February 2, 1918.

The following letter to Mr. W. L. Stockwell of Fargo, N. D., is from C. S. Coe, Eng. '89.

Dear Stockwell: The Christmas greeting of yourself and Mrs. Stockwell was forwarded to me here and I wish to thank you for the sentiments expressed.

I presume you know that I am in the service and have been in France more than six months or at least it will be six months some time before you receive this letter.

Was examined in April and commissioned a major and was called upon to recruit men for engineering service for the then 7th regiment to mobilize at Atlanta. So many of my own men desired to go that I finally asked to be assigned to the regiment myself and was given the rank of captain which was the only opening available at the time.

I brought over Company "A" made up almost entirely of men I had recruited in Florida and with the regiment we paraded in London before King George and the queen Mother. Presume you have read all about it and will know now that I was one of those "solemn looking blokes" referred to in the Century. We, company commanders, put in some long hours impressing upon our men to keep their eyes straight to the front and that all men caught rubbering around would be shot at sunrise. No wonder they were "solemn looking blokes." It certainly was a history making event and one which was well worth crossing the ocean through the submarine zone to take part in.

Our work in France has been of the most intense interest and I am enjoying every minute of it. We would of course prefer to be up at the front, but we have the promise that when our work is completed here we will get that chance. In the meantime we are doing some wonderful construction work and I have personal charge of a piece of work much bigger than anything I had even upon the "Railway across the sea." Wish I could tell you more of it but the details of our work must not be written about. We can talk about it, however, after the war and we will certainly do that.

Early in October one of our majors was detached and I was made acting major and have been in command of the second battalion. Presume that when Uncle Sam gets around to it I will get a commission. In the meantime I am performing the duties of a battalion commander and enjoying it very much.

Mrs. Coe and Margaret are at St. Augustine, living at 60 Almeria street. The two older girls are married and the younger of the two has a baby girl born on October 30th. The son is in college at Ames and is a captain in the cadet corps. He has been very anxious to come over. His mother has given her consent and he will probably enlist as soon as possible after his eighteenth birthday on March 11th. Presume, therefore, that I shall see him sometime in the spring.

I can't myself personally understand how any young man could accept exemption, much less claim exemption, and any young man who for any reason is prevented from taking part in this war is being deprived of the grandest privilege of the ages. My boy may not come back and I may not myself,

but whether or not we do go back, the sacrifice has been made and I believe he is, and I know I am ready to pay the price.

Going back and reading the last paragraph I see that it sounds gloomy. The situation itself is not gloomy in any way. My health is perfect. I enjoy my work every minute of it and can listen to a good story and can laugh as heartily as I ever did in my life. The fact is I have a perpetual smile just through the sheer joy of living.

And speaking of stories, here is one on one Major John B. Hawley, '87, who is attached to our regiment right now for special work. John traveled about on his investigations and made the acquaintance of a nice French family who had a beautiful "chateau." Monsieur was gracious and Madame was charming and they treated John fine. He had to finally close a deal with them and took a French captain with him to be sure his French did not fail him at the critical time. A second trip was necessary and they took Madame le Capitaine with them. On the way they bought some flowers which John presented to Madame in his most academic French. The lady talked very fast and was profuse in her thanks, but Madame le Capitaine, being something of a joker, told her in French that thanks was not enough. Well, what should she do, and Madame said she should kiss the commandant. All this was in French, spoken very rapidly, and John did not get more than one word in ten, when told the kiss the major she responded "avec plaisir" and before John could dodge she kissed him on both cheeks and as Madame le Capitaine says also on the bald spot on the top of his head. John is sure having to stand for a lot of joshing about it. He is standing the gaff pretty well but blushes very deeply. You, of course, knew John B. very well in the old days and will appreciate this.

Have been in Paris three different times, and while I have been busy I have seen enough of the city to want to see more. Our lieutenant colonel is Chas. G. Dawes, who is in charge of very important work on the staff and one one of my trips he took me to call upon Old Marshall Joffre. I esteem this interview as the greatest honor ever conferred upon me. He certainly is a great and grand old man. I know personally at least twenty generals of our own and the other allied armies but there is no one quite in Joffre's class.

We have had a rather pleasant winter although it was rather cold for about a month. Not cold of course for a Minnesota man but downright cold for a man from Florida. Almost looks like spring now and I am writing this letter in front of an open window and with bright sunshine.

Hardly expected to write a book at this time but from the number at the top of this sheet I have made a pretty good start.

C. S. COE.

Capt. C. S. Coe, 17th Engineers (railway)
Am. Exp. Force, France.

WORD FROM LOUIS COLLINS.

The following letter has just been received from Louis Collins, '04, Law '06, who has finally succeeded in getting into service. Mr. Collins served in the ambulance service in France last year because he could not get into the United States service, but finally he has been allowed to enlist in the 151st Field Artillery.

France, February 16, 1918.

Dear Mr. Johnson: I am enclosing a list of former students of the University of Minnesota who are in France with the 151st field artillery, formerly the First Minnesota artillery regiment. Of the men in this outfit 68 have attended classes at the University. Possibly this list will be of value for your records and at all events it will give you the names of a number of men who, while not graduates, feel that their attendance at the University, makes them a part of the institution.

You will notice that the University is represented among the officers by the colonel, the lieutenant colonel, one major, four captains and five lieutenants. Of the thirty members of the band, which is, by the way, the best regimental band I have heard in France, fifteen are former students at the University.

The men here are in fine condition, well trained and ready for what is to come.

In Paris recently I met Major Kenneth Taylor, who is one of the directors of the American Red Cross or Blake hospital in Paris, an institution which has done wonderful work for the French wounded and which is now under army administration. Major Taylor, A. '05, Med. —, was recently promoted from a captaincy.

The University of Minnesota men in this regiment send their best wishes to the college.

PRIVATE LOUIS L. COLLINS,

151st Field Artillery, A. E. F.

Officers of the 151st Field Artillery Who Have Attended the University of Minnesota.

Colonel George E. Leach, Lt. Colonel William H. Donahue, Major John L. Haskins, Captain Jerome Jackman, Captain Erwin H. Sherman, Captain H. H. Barber, Captain Arthur S. Gow, Lieutenant John P. Rosenwald, medical, corps, Lieutenant John E. Soper, medical corps, Lieutenant Louis M. Cruttenden, Lieutenant Mark Madigan, Lieutenant John Wallfred.

Enlisted Men of the 151st Field Artillery Who Have Attended the University of Minnesota.

Battery "A"—Corporal Thorsten Lommen, Corporal Harry Cadwell, Corporal James Carson, Private W. H. Johnson, Private Ray Weymouth.

Battery "B"—Corporal Benjamin F. Dunn, Private Charles A. Onion, Private Albion

O. Gross, Private Clarence C. Hanley, Private George M. Rockwood, Private David C. Rockwood.

Battery "C"—Corporal W. C. Cook, Corporal Ralph C. Habberstad, Private Fred Putney.

Battery "D"—Corporal Hubert Jaax, Corporal Malen G. Todd, Corporal Raymond F. Jaax, Corporal Page D. Warren, Corporal Roy S. Johnson, Private Rolf P. Jacobson, Private Clarence W. Lilly.

Battery "E"—Corporal Henry Dahl, Corporal Merle Smith.

Battery "F"—Sergeant Earl Swain, Sergeant George Burns, Sergeant Peter Jorgenson, Corporal Maurice Masterson, Private Ewart Nelson, Private Jerome J. Rice.

Headquarters Company—Band Leader Michael M. Jalma, Band Sergeant George W. Christianson, Band Corporal Martin F. Wickman, 1st Sergeant Wilson F. Engel, Sergeant Bugler Guy E. McCune, Sergeant Barton B. King, Corporal Morris T. Baker, Corporal Wm. P. Beinhorn, Corporal Jos. E. Young, Corporal Glen W. Eustis, Musician John H. Spencer, Musician Howard W. Heath, Musician Lewis R. Vrooman, Musician Ingolf Grindeland, Musician Russell Kerr, Private Wm. E. Kempton, Private E. G. Nelson, Private Louis L. Collins.

Medical Detachment—Private Howard Eichinger, Private Victor Nelson, Private Wm. W. Hurst, Private Eugene Sullivan, Private James McDowell, Private Henry Johnson, Private Carpenter F. Buck.

A GRATEFUL FRENCH MOTHER.

The mother of Oscar Johnson, For. '16, Mrs. Samuel Johnson of this city, received the following letter from a French woman:

Dear Madame: My letter will surely surprise you but you will read it joyfully because it is a mother who writes to you, and I, also, have a son at the war.

"We have had the pleasure to know your son after his arrival in France, and we had a fellow feeling for him directly. I have invited him to come to my home hoping to supply ever so little the affection of his mother. He has accepted my invitation and comes every day.

"We shall continue to give him welcome during his stay in France. Besides, my children love him very much. He is their great friend, for your son is very gay.

"Last Sunday he has spent the afternoon with us. I was happy to procure for him a little joy, because I understand very well how sad it is to be far from home. Last winter in Alsace a French family gave my son welcome. I have not forgotten how happy he was when he had found a home. This remembrance dictated to me to give American soldiers welcome, for they come in France and with the French they will push away the enemy.

"Like me, madame, you will know a sad time. Accept it bravely and hope in the

prompt end of the war and the return of your son. Believe me, yours truly, L. Guil-lame."

In a recent letter to his mother Sergeant Johnson says that the French are the most hospitable people in the world and do everything to make the Americans feel at home and enjoy themselves.

MISS SANFORD GOES EAST.

Professor Maria L. Sanford, who has recently returned from an extended speaking trip through the west, starts east soon for a few weeks' stay. She will speak in Chicago and then go on to Washington and Philadelphia, where she will visit her brother and will return to Minneapolis late this month.

Everywhere she goes she meets a most cordial reception and her heart is warmed by the evidence of the affection in which she is held by the thousands who know and honor her.

ADDITIONS TO ROLL OF HONOR.

Wayne Whisler, Ex. '17, Sergeant, Co. D, 13th Engineers (Ry.), A. E. F.

F. Lincoln Holmes, Ex. '19, Corporal, machine gun instructor, Third aviation instruction center, A. E. F.

Harvie MacFarlane, Ex. '19, Base Hospital Unit No. 26.

Adam M. Smith, Mines '19, 1st Lieutenant, 165th depot brigade, Camp Travis, Texas. (Moving, probably to France.)

Lowell L. Holmes, Ex. '18, Corporal, aeronautic department, U. S. marine corps, Marine Barracks, Philadelphia.

Henry Ackley, Ag. '19, 2nd Lieutenant, 8th Field Artillery, Camp Wheeler, Macon, Ga.

CHANGES IN THE HONOR ROLL.

U. S. Naval Hospital,
Great Lakes, Ill., March 3, 1918.

Editor Alumni Weekly: I am just in receipt of the big Weekly of last week, including the tentative list of our men who have joined the colors. None of the members of my class who joined the navy were entered correctly, however, so I beg to submit the following corrections:

C. J. Hutchinson, '14, Med. '17, Asst. Surgeon, U. S. N., Norfolk, Va.

Everett K. Geer, '15, Med. '17, Asst. Surgeon, U. S. N. R. F., Deer Island, Mass.

R. L. Christie, '15, Med. '17, Asst. Surgeon, U. S. N., Naval Hospital, Great Lakes, Ill.

Roscoe W. Jepson, Med. '17, Asst. Surgeon, U. S. N., U. S. S. Wisconsin, care of Postmaster, New York.

Adolph G. Sund, '15, Med. '17, Asst. Surgeon, U. S. N. R. F., Naval Hospital, Great Lakes, Ill.

Wallace W. Holley, Med. '17, Asst. Surgeon, U. S. N., Naval Hospital, Great Lakes, Ill.

Arthur G. Larson, '15, Med. '17, Asst. Surgeon, U. S. N. R. F., Naval Training Station, Great Lakes, Ill.

B. A. Rosenthal, '15, Med. '17, Asst. Surgeon, U. S. N., Naval Academy, Annapolis, Md.

Chester Tanner, '15, Med. '17, Asst. Surgeon, U. S. N., U. S. S. Wadsworth, care of Postmaster, New York.

Sam Solhaug, '15, Med. '17, Asst. Surgeon, U. S. N.

Frank J. Anderson, '15, Med. '17, Asst. Surgeon, U. S. N.

Einar Andreasson, '15, Med. '17, Asst. Surgeon, U. S. N., Naval Hospital, Great Lakes, Ill.

Harris Sutton, '16, Med. 16, Asst. Surgeon, U. S. N., U. S. S. Isla de Luzon.

Hoping this will be of help to you, I am,
A. G. SUND.

MINNESOTA MEN AT AMERICAN UNIVERSITY UNION.

We have just received the following list of Minnesota men who had, previous to February 6th, registered at the American University Union in Paris, France:

Abbott, John S., 1905, 43d F. A., B. E. F.; Aklers, A. H., 1914, U. S. A. A. S., Sec. 647, par B. C. M.; Ballentine, Jos. J., 1917, U. S. A., P. O. 703, 2nd Lieut. Cav., U. S. R.; Begin, Z. T., 1914, H. Q. Co., 6th F. A., A. E. F.; Brooberg, Clement, 1909, H. Q. Co., 16th Lt. Inf., A. E. F.; Bush, E. B., 1916, 1st Lieut., 43d Co., 5th Reg., U. S. M. C.; Curry, Ezra B., 1918; Eckenbeck, Everett E., 1917, 2nd Lieut., 2nd Reg. Engrs., A. E. F.; Gauger, Alfred Wm., 1914, 1st Lieut., Sanitary Corps, Gas defense service, A. E. F.; Goetzemberger, R. L., 1914, Ordnance Dept., A. E. F.; Griggs, O. H., 1904, Am. Red Cross, 4 Place de la Concorde, Paris; Haynes, Francis R., 1904, 15th U. S. Engrs.; Helmick, D. S., 1915, Hdq. A. E. F., C. of E., U. S. R.; Hewitt, Edwin H., 1896, Y. M. C. A., 41 Rue de Provence, Paris; Jager, Prof. Francis, Am. Red Cross, Serbia; Jahu, Wm. F., 1911, 1st Lieut., C. A. C., U. S. R., Anti-aircraft school; Johnson, Conrad G., 1919, U. S. air service, A. E. F.; Long, Clare I., 1918, 2nd Lieut., Cavalry, U. S. A., P. O. 703; McCarthy, R. M., 1919, Coast Artillery, Bat. B, 6th Reg.; Mendelson, Jos. A., 1912, 1st Lieut., M. O. R. C., Hdq.; Morton, H. S., 1912, 1st Lieut., Ord. Dept., 45 Ave. Montaigne; Newhall, Richard A., 1910, 2nd Lieut., Co. L, 28th Inf., A. E. F.; Poole, Arthur B., 1917, U. S. Aviation Forces, Foreign service, commissioned assistant paymaster, U. S. N. 6-20-17, advanced to lieutenant 7-1-17; Pourlden, Earl D., 1917, Q. M. C., Am. Mission Motor Trans., A. E. F., Reserve Mallet; Sedgwick, Malcolm A., 1918, 2nd Lieut., Co. B, 2nd Bal. Squad.; Sinclaiia, Gilbert S., Cadet Air service, A. E. F.; Sears-Thomson, H., 1909, Y. M. C. A., Italy; Webster, Horace P., 1920, 20th Co., Base Det., 5th Reg.,

U. S. M. C., A. P. O. 710; Wilks, Z. E., 1915, A. E. F., Engrs.; Winter, E. H., 1918, 20th Co., Base Det., 5th Reg., U. S. M. C.

MEN WANTED.

Men Wanted—Call 110. A few men for field directors, Red Cross, expenses only.

Call 111. Assistant field directors, Red Cross, possibility of promotion. Nominal salary and expenses only.

Call 112. Red Cross assistant directors connected with base hospitals and military camps in this county. Nominal salary and expenses.

Call 115. Optical draftsman and inspector of periscope manufacture. Anyone capable of filling position would have to accept at a sacrifice.

Call 116. Draftsmen for ventilating and piping systems. Experience in ventilating problems as applied to marine work.

Call 119. Research men for ordnance department. Commission as second lieutenants.

Call 120. Expert in engineering and chemistry or ordnance department. Commission as first or second lieutenant.

Call 121. Industrial engineers, trained men. Major's commission.

Call 122. Research assistant in applied economics—lawyer. First or second lieutenant's commission.

Call 123. Lawyers for drafting and examining legal documents. Men of draft age available.

Call 117. Business executives for war trade board. Lawyers preferred.

Call 118. Research men for labor and statistics. Two men wanted.

MINNESOTA HIGH SCHOOL TEACHERS' CONFERENCE.

A conference of Minnesota high school teachers will be held at the University March 26 and 27. The conference will be divided into four sections: (1) English, (2) History, (3) Home Economics, (4) Mathematics.

English Conference.

Dean Coffman will discuss units and scales and their preparation. There will be a report upon the experiment in English composition, which will include specific reports as follows:

(1) Origin and general plan, Edith Penney, West high school; (2) Results—The norm of attainment and improvement, Charles W. Boardman, Central high; (3) Results—The relation of mental tests to attainment and improvement, O. J. Johnson, college of education; (4) Statistical summary, M. Van Wagenen, college of education; (5) Results—A discussion by teachers who have co-operated in the experiment; (6) Variations in grading, J. M. Thomas, University.

Reading tests will be discussed according to the following program.

(1) Origin and general plan, J. M. Thomas, University; (2) Relation of reading ability to attainment and improvement in composition, O. D. Stoddard, East high; A. Bess Clark, Chisholm; Della Thompson, Rochester; (3) Vocabulary tests, Sister Jeanne Marie, St. Catherine's Academy, St. Paul.

History Conference.

This conference will discuss aims and standards of map work and the place of current history in the first year's work. The following will take part in this discussion: W. L. Wallace, East high; Frances Morehouse, University high; Sister Antonia, of St. Catherine's; Margaret West, Grand Rapids high; Marja Berg, Central high.

A test of history teaching will be presented by W. F. Webster and standards and measurements in history teaching by C. L. Harlan and M. J. Van Wagenen of the college of education.

(1) What shall be done with Oriental history in the first year course? Magda Hoff, North high; Mary Carney, Central high; (2) How can the history text-books now in use be best adapted to the new first year course? R. G. Krueger, Johnson high, St. Paul; Mr. Sheldon, Lake City, Minn.; Alice Leahy, Marcy school.

Professor Henry Johnson, '89, of Teachers' College, Columbia University, will be guest of honor at a luncheon given by the history teachers section.

Home Economics.

This program will be offered at the department of agriculture and Ella May Snell, Ag. '13, of the St. Paul Mechanics arts high school will preside. The program will include:

Conservation problems in textiles and clothing; Suggestions as to meeting the present shortage in wool, and the saving of materials in clothing construction, Marion Weller, department of home economics, University; Suggestions for teaching art appreciation through the analysis of dress design and house furnishings: an illustrated talk, Harriet Goldstein and Amy Morse, department of home economics, University; Round table discussion, Leader, Miss Hazel Schoelkopf, supervisor of home training, Duluth public schools.

Home economics courses in Smith-Hughes high schools—General plan, will be discussed by E. M. Phillips, director of vocational education, related work and means of meeting the home practice requirement will be discussed by Mildred Weigley of the home economics faculty.

Wednesday noon a luncheon will be held and in the afternoon a round table discussion will be led by Genevieve Burgan and development in food conservation affecting home training work will be the topic.

Mathematics Conference.

Professor A. W. Rankin will preside and the conference will consider an initial survey

of the high school mathematics situation in Minnesota: (1) A comparison of the percentage of failures in mathematics with those in other departments in the high school, J. T. Magnus, Central high; (2) A study of high school students' preferences for mathematics as compared with preferences for other subjects in the high school, Mary C. Christopher, Mechanic arts high, St. Paul.

Professor Geo. N. Bauer will preside over the second session of the conference and the subject for consideration will be mental and educational tests as a basis for classification of students according to ability in the high school.

(1) Some results of classification of students according to ability shown on mental and educational tests at the University high school, W. S. Miller, principal; (2) Standard tests in mathematics and their diagnostic value to the teacher. (A continuation of last year's study), W. D. Reeve, University high.

W. D. Reeve, of the University high school, will preside over the third session and a proposed survey of high school courses in mathematics in Minnesota will be discussed and a tentative plan will be presented by Mr. Bemis of the University. Miss Virginia Robbins of Mankato will lead the discussion of suggestions for improving the content and method of teaching high school mathematics.

OF GENERAL INTEREST

The address of Major H. E. Robertson should be, care of the Central Medical Laboratory, A. E. F., France. The address given in the roll of honor was incorrect.

The athletic manager of Northwestern University has called off the two basketball games which should have been played between Minnesota and that institution. No reason was given for the act.

Professor G. G. Glick, of the department of rhetoric of the college of agriculture, has written a new war play called, "The rift in the clouds." Professor Lansing of the department of English has given the play enthusiastic praise. It was first presented in the agricultural auditorium last Friday night.

"Doing her bit," the play written by Estelle Cook of the faculty of the school of agriculture, is to be given in the four cantonments at Camp Dodge. The expenses of the trip were provided by a patriotic program given recently at the agricultural department.

Difficulty is being experienced in finding a place to hang the new University service flag which is 25x30 feet. No building on the campus seems to have a place that will properly accommodate it. The flag was finally hung in the library, from the ceiling along the wall over the main entrance to the reading room.

Professor Arthur S. Hamilton is writing the story of the early days of medicine in Minneapolis for the *Journal-Lancet*. The number of March 1 contains the first of the three parts of this article.

Miss Katherine F. Ball, vocational advisor, has returned from an eastern trip. She visited Atlantic City and took part in the conference of the National Vocational Guidance association and also a conference of deans of women later. She attended the meeting of the National society for the promotion of industrial education and inspected women's occupational courses in Boston, New York and Philadelphia.

"A college woman's Plattsburgh" will be held at Vassar College during the coming summer. The purpose of this camp is to meet the national emergency in military and public health nursing by recruiting college women, who are especially wanted because of their previous education and the possibility of attaining, by intensive training, rapid advancement and appointment to posts where there is urgent need. This camp is the first scientific attempt to fit educated women as quickly as possible for the nursing profession. The principle employed is that used in the Plattsburgh camp of intensive training. The camp will open June 24 and close September 13, and will be under the auspices of the National Council of Defense and the Red Cross. Alumnae who are interested in this proposition are advised to correspond with Gabrielle Elliot, assistant publicity director, Room 601, 299 Madison avenue, New York City.

DEATHS.

Dr. Peter Bakke, Med. '92, died at St. Luke's hospital, St. Paul, February 27. Dr. Bakke is survived by his wife and a son. Up to the time of his death he had been engaged in the practice of his profession in Grantsburg, Wis.

Harry T. Kennedy, a senior medical student, died March 5 from spinal meningitis. At the time of his death Mr. Kennedy was attached as interne to the staff of the St. Paul city hospital.

Dr. Martin Oyen, Med. '09, died at his home at East Ellsworth, Wis., December 28, 1917, of pleuro-pneumonia.

Charles L. Sawyer, Law '97, of this city, died March 5, after an illness of but a few days. Mr. Sawyer was at one time principal of the South high school and gave up teaching to enter real estate business. He served three terms in the Minnesota legislature. He is survived by three sons and a daughter.

Sergeant Major Warren W. Stocking, formerly in the business offices of the University, died at Camp Dodge, Iowa, March 1. The cause of death was a throat trouble. Sergeant Major Stocking attended the first officers' training camp at Fort Snelling.

PERSONALS

'89 Med.—Dr. W. F. McCarthy, who has been a member of the staff of the Montana State hospital at Warm Springs, has returned to Delano, Minn., to resume his practice.

'91, '92—Major Frank C. Todd has been placed in charge of the base hospital at Camp Dodge. The appointment is understood to be permanent and Major Todd will have charge of the great hospitals which, when completed, will cover eighty acres and will accommodate one thousand patients. The staff will include anywhere from eighty to one hundred physicians and a medical corps of three hundred with Red Cross contingent of eighty.

'92, Law '97—George K. Belden has been re-elected president of the Minneapolis Athletic club.

'92 Med.—"The treatment of wounds in civil life as applied in modern warfare," is the title of an article in the *Journal-Lancet* of February 1, by Dr. Arthur E. Benjamin.

'92, Law '94—James E. Bradford was a candidate for mayor of the city of Seattle. The election took place last Tuesday. We have not yet heard whether Mr. Bradford was elected. It was said before election that although all of the papers of that city were against him, he stood an excellent chance of winning out. Mr. Bradford was corporation counsel for the city of Seattle from 1911 to 1916. Later: Mr. Bradford was defeated.

'04 Med.—Major W. A. Dennis, of St. Paul, has been assigned to the Neurological institute of New York City.

'96 Med.—Major J. F. Corbett has been sent from the Rockefeller Institute, N. Y., to Canada to study the Canadian treatment of returning soldiers suffering from peripheral nerve injuries.

'96 Med.—Drs. L. B. Wilson, W. W. Bissell and A. U. Des Jardins, of the Mayo clinic, will go to France to engage in collecting data connected with the medical and sanitary work of the war.

'98 Law—W. K. Naylor's name was not included in the list of men in service. He ranks as a Lieutenant Colonel and is attached as adjutant, to the staff of General George Bell. Colonel Naylor enlisted and served in the Spanish-American war and has continued in the service to date. He has made a fine record as an army officer.

'99 Eng.—E. M. MacKusick is engaged in engineering work at Sacramento, Calif. His office address is 904 Forum Bldg. His specialty is reclamation irrigation.

'99, Law '01—James McIntyre, of Wecota, S. D., visited the University last week. Mr. McIntyre says that his state is wonderfully prosperous and that the people are backing Uncle Sam to win no matter how long it takes. "Mac" is personally doing well in

business and is in charge of the food administration for a section of the state in which he resides.

'99, Law '01—Judge Walter A. Plymat reports that he was fully recovered from the severe nervous breakdown he suffered August 12th last. He was for more than two months a patient at the Mounds Park sanatorium in St. Paul, but then recovered sufficiently to return home and was recuperating at home from then until January 2nd, when he resumed his practice and duties as municipal judge. He says, "Our flag is still flying and nailed to the mast."

'00 Hom.—C. C. Leck, of Austin, is a lieutenant in the M. R. C., stationed at the Rockefeller institute, New York, for instruction.

'00 Med.—G. B. Owen is a captain in the M. R. C., stationed at Fort Riley, Kansas.

'01 Ag.—Professor Coates P. Bull is to go with Major Jager's relief expedition to Serbia.

'01—Med.—W. M. Chowning is a captain in the M. R. C., stationed at Camp Oglethorpe, Georgia.

'01—Dr. G. Golseth, of Jamestown, N. D., has an article entitled, "Penetrating injuries of the eye-ball" in the *Journal-Lancet* of January 15.

'01 Med.—Lieutenant J. J. Donovan, of Litchfield, has been assigned to the Presbyterian hospital of Chicago.

'01, M. A. '07—Mrs. J. Roland Ware (Amy Robbins) has received an appointment under the northern division of the Red Cross to go to France to engage in canteen work. Mrs. Ware hopes to be assigned to the radio section of this work. That is, she hopes to teach radio work to men who have been disabled in the service but who are anxious to continue and who could continue service in this line. Mrs. Ware has specially prepared herself for this work and is well prepared in her knowledge of French for such service. It is possible, though not probable, that she may be sent to Italy or in case conditions should change, to Russia. She is to sail shortly for New York for her new post.

'03—P. D. McMillan, Jr., is in the office of the quartermaster general of the U. S. Army at Washington, D. C., subsistence division.

'04—LeRoy Arnold will give a course of three public lectures on "War Literature" on Wednesday afternoons in March, at the Woman's Club House, Minneapolis, under the auspices of the College Women's club, for the benefit of a scholarship fund for a woman student at the University of Minnesota. The topics are as follows: March 6, Lord Dunsany, Soldier-Playwright; March 13, Rupert Brooke and Alan Seeger, Soldier-Poets; March 20, H. G. Wells, Prophet. Immediately after the course here, Mr. Arnold

goes to New York to give the same lectures, with an additional one on "Henri Barbusse Under Fire," before the Brooklyn Institute. In the lecture on H. G. Wells in Minneapolis, Mr. Arnold will include a brief review of Under Fire.

'04 Pharm.—William F. Passer, who completed his medical work at George Washington University in 1916, is now first lieutenant in the medical reserve corps and is located at Camp Lee, Petersburg, Va., with the 319th U. S. Infantry base hospital. Lieutenant Passer received his training at Fort Oglethorpe, Ga. His home address is Waseca, Minn.

'05 Chem.—Francis C. Frary, research chemist of the Aluminum Company of America, has been commissioned as captain in the ordnance reserve corps and assigned to research work in the Trench warfare section, Engineering bureau, office of the chief of ordnance, Washington, D. C.

'05 Law—Kenneth P. Gregg's address is 1210 Syndicate Trust Bldg., St. Louis, Mo.

'05 Eng.—The University has loaned Professor F. R. McMillan to the U. S. government because of his expert knowledge of concrete. His Washington, D. C., address is 3161 18th St. S. W., and he is with the U. S. Shipping Board, department of cement ship construction.

'05—Mrs. Edwin R. McNeill (Louise C. Clark, '05) is a member of the Red Cross and has organized a band of patriotic women who meet a couple times every month to send treats to the boys from Pawnee county, Okla., who are in the service.

'05—Edwin R. McNeill is chairman of the local exemption board of Pawnee county, Oklahoma, and also executive member of the Red Cross chapter of Pawnee county, Oklahoma.

'06 Med.—Dr. C. C. Tyrrell of this city, is a member of the medical staff of the first naval station hospital unit sent into service from the Northwest. Dr. Tyrrell has been sworn into the service and ranks as lieutenant commander, grade of surgeon.

'06 Med.—J. H. Cosgrove, of Duluth, is lieutenant in the M. R. C., stationed at Fort Riley, Kansas.

'07 Eng. Ex.—Cornelius A. Lagerstrom was recently commissioned first lieutenant, 20th Engineers, and is stationed for a few weeks at Washington, D. C. He expects orders at an early date to start for France.

'08 Med.—H. Burns is with Co. 20, M. O. T. C., Ft. Riley, Kansas.

'08—Laura Benz Ahern is living in Des Moines, Iowa, while her husband, Captain John Ahern, is stationed at Camp Dodge.

'08 Eng.—Pierce P. Furber is now living in the Majestic hotel and apartment house in Philadelphia. He moved from Boston to Philadelphia in order to take up work with the American International Shipbuilding

Corporation. This corporation is engaged in constructing a ship yard near Philadelphia and will build a large number of steel ships for the Emergency Fleet Corporation.

'08—Margo Lee Lewis writes from Seoul, Chosen, Korea, that this has been an unusual winter so far as temperature is concerned and that the price of coal is just about double. Although the girls in her school are very patient it has meant a real hardship.

'08 Dent.—Lieutenant E. J. Simon is a member of the 136th field artillery now in training at Camp Sheridan, Montgomery, Ala.

'08 Mines—J. J. Davy is a lieutenant at Camp Meade.

'08—Albert G. Evans has changed his St. Paul office to 225 East 4th street.

'08 Eng.—L. W. McKeehan, assistant professor in the physics department, has been made first lieutenant in the naval reserve and will continue his research work at a naval base in the east.

'08 Med.—W. F. Maertz is with Co. 20, M. O. T. C., Fort Riley, Kansas.

'08—Dr. Andrew H. Palmer has an article in the Scientific Monthly for February, 1918, upon "Snow and its value to the farmer." The article is illustrated with many half tone pictures and fills fourteen pages.

'08 Eng.—A. W. Shoepf is second lieutenant, S. M. A., located at the Massachusetts School of Technology, Boston, Mass.

'09—Alice Schriber Kidder is chairman of the White Bear Village Red Cross Unit. Mrs. Kidder has been doing some wonderfully effective work for Armenian-Syrian relief.

'09—Max Lowenthal, a member of the American committee to Palestine, recently appointed by President Wilson, spoke last Tuesday evening upon Zionism at the University. Mr. Lowenthal is secretary of the Federal Mediation Board and has been in Minneapolis this past week attempting to adjust difficulties between the street railway company and its employees.

'10 Med.—E. M. Watson, who has been practicing in New Rockford, N. D., has moved to Hope, N. D.

'09 Ag.—Walter M. Moore is lieutenant in the signal corps and is with the district equipment office of the signal corps, 816 Consumers Bldg., Chicago, Ill.

'09 Med.—J. D. Walker, captain M. R. C., is stationed at Camp Cody, N. M.

'10—Henry G. Johnson is first lieutenant, C. A. R. C., and is located at Fort Getty, Jamestown, R. I.

'10 Mines—J. R. McKenzie's new address is 665 Sycamore street, Terre Haute, Ind. He is with the Macdonald Engineering Co., constructing a building for the American Hominy Co.

'11 Ag.—J. Roy Brownlie has been transferred to the Sioux National Forest with headquarters at Camp Crook, S. D., and will work for the next year upon a working plan for that forest. Timber is scarce in that part of South Dakota and there are some very interesting problems to be worked out in the administration of the forest so that there will be a perpetual supply of wood for fuel and other purposes in that part of the country. Utilization there is more intense than in any other part of the United States.

'11 Ag.—F. A. Corniea has recently changed his address from Faribault to 4327 France avenue south.

'11—John Nealis Donohue is now lieutenant with the 168th Infantry, Rainbow division, A. E. F. Mr. Donohue received his preliminary training at Ft. Snelling R. O. T. C.

'11 Law—Gordon Grimes has given up his law practice to go with the Fruen Cereal company as assistant to Arthur B. Fruen, Eng. '08, general manager of the company. Mr. Grimes will also have charge of the sales department.

'11—Lillian D. Hughes is teaching at Clifton, Ariz. She is principal of the Junior-senior high school and finds her work extremely interesting in spite of the rather difficult question of disciplining Mexicans who are anything but law abiding. In a recent letter she said that while the East and Middle West are complaining of blizzards and coal-less days, it seems fine to be able to go to work mornings without gloves and the only "less" days they have are meatless and sweetless. Conditions in the early fall at Clifton were extremely trying on account of the big strikes but when the federal commission stepped in matters soon straightened out and everything is now running peacefully.

'11 Chem.—Frank M. Leavenworth is doing his bit as metallurgist for the Baldwin Locomotive Works, and for one of its important branches, The Eddystone Munitions company, Eddystone, Pa.

'11 Ag.—Dean W. Martin is a member of Co. A, 7th Battalion, 20th Engineers, A. E. F., via New York City.

'11, Med. '13—The Journal-Lancet of January 15, contains a letter from Lieut. Frederick P. Moersch, M. R. C., read at a dinner given on December 13 by the Minnesota neurological society to those members leaving for the front.

'11 Dent.—Guy B. Fairchild moved to Grand Forks, N. D., August 1. He is getting very nicely established in his profession. He was formerly located at Red Lake Falls, Minn.

'11—Captain Clyde J. McConkey of the 20th Field Artillery, has recently been transferred from Ft. Sam Houston, Texas, and is now to be addressed care of the American Expeditionary Forces, France.

'11 Med.—Whiting B. Mitchell, formerly of Sumner, Wash., is first lieutenant in the medical reserve corps, located at Fort Riley, Kansas.

'12, Med. '14—Richard O. Leavenworth is a first lieutenant in the medical reserve corps and is in service at the Post hospital, Fort Omaha, Neb. This is a balloon signalling station.

'12 Ex.—LeRoy E. Smith is corporal with the Camp Lewis detachment, Overseas Casuals, Camp Merritt, N. J. This division expects shortly to be in France.

'12 Med.—Lieutenant C. B. Drake, of St. Paul, has been assigned to Camp Doniphan, Okla.

'13 Med.—A. J. Wentworth, of Mankato, is a lieutenant in the M. R. C., stationed at Park Field, Tenn.

'13 Eng.—Vincent H. Irwin is with The Douglas Co., Cedar Rapids, Iowa. His address is 118 South Twenty-sixth street.

'13 Eng.—Hollis D. Miller is with the Quaker Oats Co. at Cedar Rapids, Iowa.

'13 Mines—Arvid E. Nissen has changed his address to High Bridge, N. J. Mr. Nissen has severed his connection with the American Graphite Co., of Chicago, to take another position with Taylor-Wharton Iron and Steel Co., of High Bridge, N. J.

'13 Med.—Lieutenant P. W. Wiperman has been assigned to Fort Sam Houston, Texas.

'14 Sch. Ag.—Spencer Buster is a member of Co. D, 318th Engineers, Vancouver Barracks. He enlisted at Fargo in December and was sent from there to Jefferson Barracks, St. Louis. He has since been transferred to Vancouver Barracks.

'14 Med.—J. Moses is a lieutenant in the M. R. C., stationed at Fort Riley, Kansas.

'14 Med.—Dr. Axel Oftedahl, of Fargo, N. D., has been ordered to report at the Great Lakes training station. His services will be in the navy.

'15—Helen Scott Anderson is private secretary to her uncle, Scott F. Evans, '97, of the corn and oats division of the U. S. food administration. Miss Andersen has been in Washington since the first of the year.

'15 E. E.—H. R. Harris, Lieutenant (j. g.) U. S. N. R. F., has been assigned to battleship Minnesota for engineering duty. His address is U. S. S. Minnesota, care of Postmaster, New York City.

'15 Pharm.—Laura H. Manderfeld is living at her home, 174 Sherburne avenue, St. Paul. She has been in the employ of the McLaughlin Gormley King Co. of Minneapolis for the past two years as pharmaceutical chemist.

'15 Med.—Lieutenant Henry Odland, of Minneapolis, has been assigned to Fairfield, Ohio.

Arthur Ross Campbell, a student at the university during the years 1916 and 1917, is with the U. S. Engineers, Casual Camp, Angel Island, Calif. His parents, Mr. and Mrs. H. S. Campbell, live at Alexandria, Minn. He is a nephew of former professor Matilda J. Wilkin.

William N. Carey, a former student in the college of engineering, is captain of the 313th engineers at Camp Dodge, Iowa.

Dr. Bronson Crothers who has held a commission as major in the French army, has resigned that commission to join the medical unit of the American army as captain. Captain Crothers is a member of the medical faculty on leave of absence.

Clifford A. Ives, a former student, has been made first lieutenant of Co. C. of the Home Guards of Minneapolis. Lieutenant Ives was for many months captain of Co. M of the citizens' auxiliary and on the organization of the home guard he enlisted with them and recently he was promoted to a first lieutenancy.

George A. Thiel who has been teaching fellow in animal biology has gone into the medical corps and is located at Fort Leavenworth, Kansas. Mr. Thiel is an expert on blood tests and will probably be assigned to special work in that line.

Six agricultural students have entered the service and gone to Fort Riley: Harold

Hanson, Marcellus Knoblauch, of the class of 1919; Leslie Wilson, a graduate student; Clifford Finley, a senior; Merrill Woodruff and Paul Smithers, of the junior class, are entering the 20th Co., Engineers, in the veterinary department.

John J. Brennan, a former student in the college of law, Ex. '17, is a member of an ambulance company at Allentown, Pa.

John G. Frayne, an instructor in physics at Minnesota, has enlisted in the signal corps of the army and is to be sent to France in about three weeks.

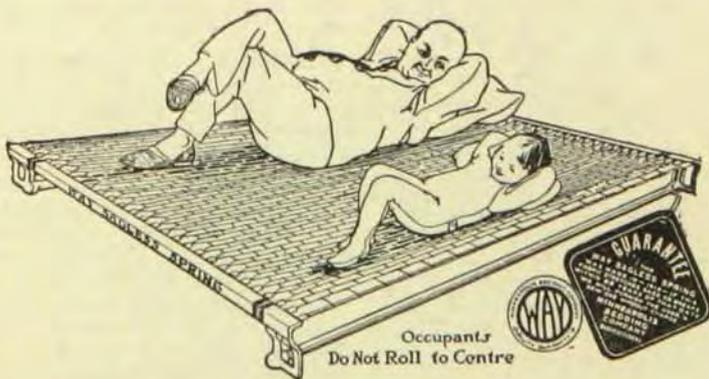

Ex. Law—Alfred J. Freudenfeld is a member of the 337th Field Artillery, Battery A, Camp Dodge, Iowa.

Florence Harrison, a former student in the University, is now located at No. 4 Place de la Concorde, care of the Red Cross, Paris, France. Miss Harrison has recently been transferred to do canteen work. She has been quite ill with pneumonia.

Edwin L. MacLean, a former student whose enlistment has previously been noted in the Weekly, has recently been promoted to captain of infantry and transferred from the 39th Infantry to the Fourth division trains. His present duties are those of captain and adjutant, with special assignment to the military police trains. He is on the staff of Major General Cameron. His address is Camp Green, N. C.

Principal W. S. Miller, of the University high school, has received his commission as first lieutenant and has gone to Fort Oglethorpe, Ga. During his absence W. D. Reeve of the department of mathematics will be acting principal.

A. H. Miszewski, a junior in the college of dentistry, who enlisted in the marine corps at the beginning of the war, has been transferred to the dental corps and returned to the University to complete his work. Miszewski was first instructor in gymnastics at Mare Island. Later he was given guard duty on the eastern coast. At the same time announcement was made that L. E. Witter and V. B. Francis, also juniors, had been transferred to the dental corps and expected to return to their work at the University very shortly.

Roland A. Peteler, of this city, has been appointed to the aviation ground school at Ohio State University, Columbus, Ohio. Mr. Peteler has been for some time in the employ of the Emerson-Brantingham company. Mrs. Peteler was Geneva G. Blodgett, '14.

Lieut. Paul Perigord recently made twenty-two patriotic speeches in seven days. Six of these loyalty talks were made within a period of ten hours. Lieutenant Perigord has gone to Kentucky where he is now making a series of patriotic talks. An effort is being made to get him back to Minnesota for a third tour.

Frank Talus, a former student in the law school, is a member of Headquarters company at Camp Dodge, Des Moines, Iowa. Mr. Talus was, prior to his enlistment, one of the most successful attorneys on the Iron Range. He has been drafted by the chaplain of his regiment to conduct Bible classes among the members of his company.

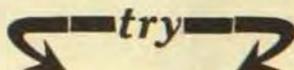

Martin Oyen, Med. '09, died at Ellsworth, Wis., December 28, 1917, at the age of thirty-five.

THE REGENTS MEETING

PUBLISHED BY
THE GENERAL ALUMNI ASSOCIATION OF
THE UNIVERSITY OF MINNESOTA

Here are twelve successful men preparing for still greater success

—and how the lesson they have learned is directly applicable to You!

James Leffel & Company, Springfield, Ohio, make turbine engines—good turbine engines.

Twelve men in this organization are enrolled in the Alexander Hamilton Institute. Most of them are past middle age. Included in this group are the President, Vice-President and General Manager, Treasurer, the Sales Manager, Superintendent, two department managers, a salesman, two draftsmen and two foremen.

The motive that prompted these men to enrol was the determination to better themselves—to learn how to develop their positions—to make themselves and their work just one hundred per cent worth while.

To accomplish this, for these men in their maturity of years, there was only one open course, only one way. There was only one thing to do:

To master the essentials of business—to acquire a first-hand and practical knowledge of how all business success is built—to absorb for application in their own day's work those business facts and basic fundamentals which underlie all business.

These men are acquiring valuable mental capital

These men have all progressed far along the business highway. But they realized the need for something greater than their own experience to carry them on.

The bigger the man in business, the greater the natural need to absorb more business knowledge—the stronger the desire to have actual contact with other great business minds.

No business brain can be successfully nourished without using as a feeder the best product of other more successful brains.

The function of the Alexander Hamilton Institute is to give you thru its Modern Business Course and Service the best thought and experience of hundreds of successful business men—to bring them to you in the most practical, most interesting and easily readable form for absorption in your leisure time.

The Course and Service gives you a thoro understanding of business fundamentals. Once mastered, they can be applied successfully to *any* business.

If you are an Executive in your own business or

another's, to develop yourself and your work, you need the positive helpfulness the Alexander Hamilton Institute can bring.

If your eye is on the Executive desk ahead, you need the business information this Course furnishes. You need it more now than ever because the need for better Executives is greater now than the business world has ever known.

Wherever the wheel of business turns—the need is great

Opportunities

abound in every field. The demand for trained men is far and away in excess of the supply. The war is forcing thousands of businesses to readjust their Executive staff. Every man called for duty "over there" affects the status of some other one man here.

The sooner you enrol, the sooner there is brought to you the business information that has been successfully applied by hundreds of our subscribers.

Advisory Council

This Council includes Frank A. Vanderlip, President of the National City Bank of New York; Judge E. H. Gary, head of the United States Steel Corporation; John Hays Hammond, the eminent engineer; Jeremiah W. Jenks, the statistician and economist; and Joseph French Johnson, Dean of the New York University School of Commerce.

Get further information

A careful reading of the interesting 112-page book, "Forging Ahead In Business," which we will send you, free, will show you how you can develop yourself for bigger responsibilities the same as these twelve men in the Leffel Company are doing.

Every man and woman with either a business or a career to guide to bigger, surer success should read this book. Simply fill out and send the coupon below.

THE MINNESOTA ALUMNI WEEKLY

THE ALUMNI WEEKLY MAKES AVAILABLE FOR EACH ALUMNUS THE RESULT OF THE UNITED ENDEAVOR OF ALL ALUMNI TO KEEP IN TOUCH WITH EACH OTHER AND THE UNIVERSITY

VOL. XVII

MARCH 18, 1918

No. 23

Office: 202 Library Building, University, Minneapolis, Minn.

Published by the General Alumni Association of the University of Minnesota. Entered at the Postoffice in Minneapolis as second-class matter.

Life subscription, \$25; annual subscription \$2.50.

Life members are allowed a special discount of fifty cents in consideration of payments already made.

Unless subscribers direct a discontinuance it will be assumed that a renewal of subscription is desired.

ADVISORY EDITORIAL COMMITTEE
Benjamin Drake, Chairman.

Hope McDonald, Alice Rockwell Warren
Stanley B. Houck, Harold J. Leonard.

Editor and Manager,
E. B. Johnson.

It is the purpose of the Weekly to present facts upon which the alumni may base their own judgment; to offer unbiased interpretative comment upon the facts in order that they may be better understood; to reflect editorially, the opinion of the alumni as faithfully as possible; to be always open for communications from any alumnus who desires to say anything upon a matter of interest to the alumni, as alumni. Constructive criticism, news and new subscribers are each helpful and welcome, and combined, they improve the service rendered by the Weekly to its subscribers.

"SLIGHTLY WOUNDED."

Dispatches from "Over There" received last week in Minneapolis state that the following named University of Minnesota men were slightly wounded in action at the front:

Captain Hugh H. Harber, Law '18; Claire E. West, '14, and Clarence W. Lilly, Eng. '17, all of Battery D, 151st Field Artillery.

AN INCENTIVE TO WORK.

"When I look at the Service Flag in the Library a compelling force drives me to study harder than I ever did before. That is the only way I can justify my being here," remarked a student the other day.

There is something magnificent and awe-inspiring about the position of the service flag. Placed before us, as it is, the flag is a constant, though silent, reminder of the absence of those who were our fellow classmates.

These are stern times and sterner standards are replacing the laxer ones of former college days. That the service flag will be an important factor in bringing us to a realization of our duty can scarcely be doubted. Those working in the shadow of this symbol can hardly escape the message which its presence implies.—Minnesota Daily.

AGRICULTURAL SCHOOL COMMENCEMENT.

Tuesday, March 26, will be home-coming day for alumni and former students at the school of agriculture. The annual meeting of the alumni association will be held and dinner will be served in the big dining room on the hill at noon. The dinner will be a conservation meal, but good cheer will be there in abundance. President Burton will be present, also Dean Thatcher and J. M. Drew. The class of 1898 which has been out for twenty years, will give an account of itself and its members. Following the business meeting there will be a general gathering of the clans in the administration building and Principal Mayne will provide a special moving picture entertainment.

The graduating exercises of the school will take place Wednesday, March 27.

Don't forget the lecture recital by Professor John A. Lomax Wednesday afternoon, four o'clock in the Little Theatre. It is going to be very much worth while.

Fifty-seven groups have been organized among the students for the discussion of war problems.

CLIFFORD L. HILTON, ATTORNEY GENERAL.

Governor Burnquist appointed Clifford L. Hilton, formerly a member of the class of 1888, attorney general of Minnesota. The appointment was made March 8. Mr. Hilton is a native of Minnesota, born at Kenyon, December 31, 1866. He graduated from the Fergus Falls high school in 1884 and attended the University as a member of the class of 1888 for a little over one year. He gave up his University course to enter the Wisconsin law school and graduated as bachelor of law in 1888. He was city attorney of Fergus Falls 1896-98, county attorney of Ottertail county 1899-1908, when he was appointed assistant attorney general. He was made deputy attorney general two years ago when the legislature created that office. He resides at 903 Fairmont avenue, St. Paul.

Other Members of Staff.

Among the other Minnesota men on the attorney general's staff are C. Louis Weeks, Law '94, who is promoted to the office of deputy, his place is to be filled by later appointment; H. C. Flannery, Law '04, assistant; Rollin L. Smith, Law '14, assistant.

Later.

Mr. Hilton has announced the appointment of Montreville J. Brown, '07, Law '09, to the post made vacant by the advancement of Mr. Weeks. Mr. Brown has practiced law the greater part of the time at Bemidji, for the past nine years and at the time of his appointment was city attorney.

SACRIFICING SELF FOR SERVICE.

The following is quoted from a bulletin sent out from the publicity department of the Minnesota War Savings committee:

Maria Sanford, professor emeritus of the University of Minnesota, and foster-mother to every girl who has attended the University for several decades, should serve as an inspiration to women who are doing no war work or who are easing their senses of obligation by doing a little perfunctory work. Miss Sanford is 81 years old. Since September 1st last, she has been traveling through Minnesota, North Dakota and Montana in behalf of many branches of the government war work—talking patriotism, loyalty, food conservation, liberty loan, Red Cross, and War Savings Stamps. Her only rest has been for a few days at Christmas time. This week a conductor on the Great Northern railway called on A. R. Rogers, the Minnesota War Savings stamps director, and told him that he thought it was a shame that the government would not supply Miss Sanford with sufficient expense money to enable her to ride in a sleeping car at night. Mr. Rogers immediately began making inquiries and finally obtained a

confession from Miss Sanford. The old lady had money enough for sleeping cars, but she said she just simply couldn't rest easy in a comfortable Pullman when she knew that hundreds of thousands of American boys were sleeping in the trenches.

"So I sat up nights in the day coaches," said the 'grand old lady' of the University "and saved the government the expense of the sleeper."

LYMAN L. PIERCE, '92, LEADER.

We are indebted to Walter A. Chowen, '91, for the following interesting item. The announcement sent out by the association inviting friends to be present at the dinner given in Mr. Pierce's honor, read as follows: "Your are respectfully invited, in connection with a few other distinguished gentlemen, to witness the last lap of the twenty-five years' of service of our mutual friend, Lyman L. Pierce, in the general secretaryship of the Young Men's Christian Association."

Mr. Chowen attended this dinner and his letter follows:

Insurance Exchange Building,
San Francisco, Cal., March 7, 1918.

My Dear Mr. Johnson: I have just returned from a luncheon at the Palace Hotel in honor of the twenty-fifth anniversary of the service of "Lym" Pierce, class of '92, in the Y. M. C. A., and the meeting was certainly an inspiration. There were about fifty men present, one from Australia, and letters and telegrams were read from all over the world, for "Lym" Pierce is known wherever the Y. M. C. A. is known.

It occurred to me as I sat listening to the account of the work that he has done and is doing and is planning to do, that the University of Minnesota has produced few, if any, graduates whose accomplishments have been measured in so large terms as those of "Lym" Pierce, and judging from present indications, his work is only just beginning. You no doubt are more familiar with the details of his accomplishments in this line than I, but it was certainly worth the price of admission to see the loyalty and affection with which he was surrounded at that meeting of some fifty representatives today.

I was treated with one surprise at the luncheon when Major Rupert C. Dewey, a classmate of "Lym" Pierce, was called upon for remarks as to Pierce's record before he went into the Y. M. C. A. work, and looking directly across the table (or rather, the tables, because there were two parallel), the splendid form of Major Dewey appeared. I had not recognized the man in uniform before. He lunches with me tomorrow, and no doubt we will compare notes of our doings since leaving the old "U."

W. A. CHOWEN.

WAR CYCLOPEDIA ISSUED.

A "War Cyclopedia" is the latest special war publication of the government issued by the Committee on public information. It is a handbook for ready reference on the great war, and contains in some 300 pages a great mass of information simply arranged and clearly stated. It is issued in response to an insistent demand from many students, writers, clergymen, lawyers, business men, and the public at large for authentic statements of the outstanding facts concerning the war in alphabetical arrangement.

The "War Cyclopedia" was edited by Frederic L. Paxton, University of Wisconsin; Edwin S. Corwin, Princeton University, and Samuel B. Harding, Indiana University, the editors drawing freely upon the time and the patriotic good-will of a large number of special writers from all parts of the country. Because of its special value and the high cost of printing a small price of 25 cents a copy has been fixed by the government to cover the cost of production and distribution. It may be obtained from the Committee on Public Information, 10 Jackson Place, Washington, D. C.

HEARING BEFORE BOARD OF REGENTS.

The board of regents held a meeting last Friday. Dr. Leo M. Crafts, '86, whose letter in the Weekly of January 28, has aroused much protest, and the editor of the Weekly, were asked to appear before the regents to consult in regard to its publication.

The president of the board of regents announced in the very beginning that the regents were perfectly able to care for the criticism so far as it affected them personally but that the criticism of the faculty contained in this letter was the concern of the present inquiry. He insisted that Dr. Crafts unqualifiedly disavow this particular statement.

Dr. Crafts asked to be allowed to make a statement dealing with his letter as a whole, but the regents refused to listen to such a statement; as Dr. Crafts refused to answer the categorical questions, the inquiry seemed likely to come to an abrupt end.

The president of the board then started to question the secretary of the association in regard to his authority for publishing the letter. It appeared that this letter, together with the other letters received, had been in the hands of all members of the committee and that it was understood that the secretary should go ahead and publish the letters from time to time using his best judgment as to the order of publication.

The committee through its chairman, Dr. Rees, submitted the following typewritten statement:

The Committee's Statement.

To the Honorable Board of Regents, University of Minnesota:

In response to your request for Mr. Johnson to appear before you and because the Committee on Alumni Co-operation assumes responsibility for publishing the series of letters now running in the Weekly, we wish to make the following statement.

The work of interviewing the alumni by letter was decided upon last June at the yearly conference between the board and delegates from the various associations.

Its object was to develop a stronger support for the University from all its alumni by arousing their interest in University affairs and by giving them an opportunity to express themselves concerning its future.

The circular letter of September 7, 1917, (a copy of which is attached), inviting such co-operation was prepared with great care and was approved and added to by President Burton, who had previously conferred with the committee.

Many letters have been received. All are written in a serious and earnest spirit by alumni who we know have the welfare of the University at heart. Because of their known loyalty we have taken what they have had to say as something that would be helpful to the future development of the University.

We have considered these letters in the nature of a family discussion and regret exceedingly the publicity given them by the city papers, and disclaim all responsibility therefor.

The committee believes that great good will result from the exchange of thought. The alumni will feel that they have been consulted in the only way possible concerning their Alma Mater and have been given an opportunity to express themselves publicly. Those who have presented definite ideas will take a keener interest in the University because of that fact. Others who hitherto have not concerned themselves about the University will be stimulated to take a more active part in its affairs. The board will know better what the members of the association are thinking about and what work they think important.

We believe the thoughts and suggestions expressed in this series, when taken as a whole, may be of value to the University administration.

In view of these facts the committee did not think it desirable to make any changes in the letters but—having received the writers' permission—to print them without assuming further responsibility.

Signed:

W. I. GRAY,
E. BIRD JOHNSON,
MRS. EFFIE AMES ROCHFORD,
SOREN P. REES, Chairman,
Committee on Alumni Co-operation.

Later, at the suggestion of Regent Mayo, the regents decided to allow Dr. Crafts to present his statement, which he did as follows:

Dr. Craft's Statement.

To the Honorable Board of Regents of the University of Minnesota.

Gentlemen: In acknowledgement of the request of your board for a more definite statement with reference to the matters set forth in my letter, published in the Alumni Weekly on January 28th of this year, I take pleasure in submitting the following for your consideration:

First, let me say that I am a loyal alumnus of the University of Minnesota, and have not done or said, and would not willingly do or say, anything that would injure my alma mater. Let me say further that my letter was inspired by a desire to furnish to the University what little I could contribute in the way of constructive criticism. All the alumni have been urged to do this, not only by the Alumni association, but by the president of the University himself. The invitation of President Burton, published in the Alumni Weekly of October 8, 1917, to the alumni to do this very thing, is so clear and strong that I beg leave to quote from it as follows:

[Here Dr. Crafts quoted the statement as published.]

A careful analysis of my letter will, I am sure, convince any unprejudiced person that I have taken our president at his word and have endeavored, in the best constructive spirit, to point out defects in control and management of the University which are worthy of the consideration of the regents. Doubtless the regents have taken exception to the statement in my letter with respect to the Mayo affiliation wherein a suggestion was made that in view of that affiliation, the position of Regent Mayo on the board was no longer tenable. This I consider a constructive criticism of the highest order. Without going into any detail of the merits and demerits of that unfortunate controversy, I wish to say merely, that the laws of the state of Minnesota (General Statutes 1913, Section 8817) clearly forbid a public officer who is authorized to sell, lease, or contract property, to take any part in the making of any such sale, lease or contract, or voluntarily to become interested individually therein, directly or indirectly; that this provision of the law applies to the Mayo affiliation and to the position of Regent Mayo in connection therewith is the expressed opinion of lawyers of high repute, among whom is a former attorney general of the state of Minnesota. Under this provision and similar provisions in our city charter, aldermen, members of the school board and others have been severely criticized for dealing directly with the council or the school board or other public bodies with which they were

officially connected in matters of personal interest to themselves. Surely, when the law is so clear and those learned in the law are so positive in their opinions, one, like myself, unlearned in the law can be pardoned for expressing a similar opinion.

I cannot imagine any serious criticism of those portions of my letter advocating more liberality in the admission requirements and in the treatment of delinquent students so that the University might take its proper place and serve its proper functions as an institution intended for all the people of the state; nor to that portion advocating the idea that our university is primarily for undergraduate work and only secondarily for graduate and research work; nor to that portion stating that our educational ideals should be the widest possible diffusion of broad educational facilities for the largest possible number of the young people of the state; nor, I think, could there be any serious criticism of that portion of my letter criticizing the present age limit as established in our University with respect to the teaching force, as the minds of reasonable men can hardly differ as to this situation. These and other suggestions made in the letter to the effect that the tuition charges should be reduced, that decidedly more women teachers should be employed in the college of science, literature and the arts in order to elevate it to a higher moral and spiritual plane, are all surely of a constructive nature, showing clearly, I believe, that my sole desire in all matters touched upon in my letter was to better the conditions and raise the standard at our University.

No doubt the attention of the regents has been unduly focused upon that portion of my letter referring to the teaching force of the University. This was but one item in a paragraph presenting a plea for greater care in the selection of teachers who are to be the principal factors in shaping the character and ideals of the young people of the state and fitting them for the highest citizenship. The reference to the presence of "dissipated" and "dissolute" characters on the teaching force expressly referred to the past and not the present teaching force. In this connection I trust that the regents take no exception to my statement "that only men and women of definite Christian principles and affiliation should be permitted in teaching positions in the institution."

My letter throughout was an attempt to hold up high ideals for our University. My suggestions along this line seem to me very timely, because of the well-known fact that the late president of the University gave the chapel over for use as a library stock room and practically abandoned all chapel exercises, wherein formerly such strong Christian men and women as President Northrop, Dr. Folwell, Dr. Brooks, Dean Eddy, Professor Hutchinson, Professor Sanford, and others were accustomed regularly to lead the students in true devo-

tional exercises, exerting a most profound and lasting influence on the lives and characters of thousands of students. For these exercises a semi-occasional so-called "convocation" was substituted. I was, therefore, reminding the University authorities that there is still a "God in Israel."

With reference to the method of appointment of members of the board of regents and the controlling influences active in its affairs, no one can deny that there is a well defined sentiment among the alumni and other friends of the University that a different method of selection should obtain, which would result in a more representative body. The regents would do well not to ignore this rising sentiment. I am not alone in holding these views. Let me quote from a letter written by the Honorable Henry Holmes, a member of the Legislature of 1917, and chairman of the Committee on University and University Lands, which letter was recently published in the Alumni Weekly. Mr. Holmes in that letter said, "It (the enlisting of alumni support) would do much to disarm criticism of the board, criticism which is much more general in some lines than I had supposed, until my experience in the legislature. Country members especially, although it was not confined to country members entirely, had the feeling that the University stood too much aloof from the public, that it was autocratic, especially its regents and had no such warm feeling toward the University as I had always entertained myself.

"As chairman of the Committee on University and University Lands, I opposed a bill introduced during the last session providing for the selection of regents by popular vote. It doesn't seem to me, even yet, that such a method of selection of regents would be wise, but unless this feeling of suspicion toward the University on the part of country members especially can be allayed, I would not be at all surprised should such a bill be passed in the near future."

As to the present state of the medical school, referred to in my letter, it is perfectly clear that the school has no longer the support or sympathy of the medical profession of the state. Formerly, and before its reorganization into its present form, it had the very highest standing, as evidenced by Flexner's authoritative report. Its present comparatively hopeless condition can be referred to nothing else than the unfortunate affiliation of public and private interests in which the private seems to control the public. No better evidence of this degeneration can be furnished than by reference to the rule adopted by the board of regents to the effect that "The new plans for developing the graduate medical work of the University should not hereafter be opposed by any member of the faculty of the medical school, but on the other hand, should have the loyal support of all of the members thereof." This would seem not

only to forbid discussion, but to put the matter in the category of the laws of the "Medes and Persians."

The alumni, however, still have a right to speak, and I as one of them am simply exercising that right.

In closing let me say that my letter was written in good faith for the best interests of the University; it was addressed to the Committee on Alumni Co-operation; it was not intended as "a charge" against anyone, or against the institution, and if received in the spirit in which it was sent it cannot do harm, but may accomplish good for the University.

Respectfully submitted,
LEO M. CRAFTS.

In connection with the reading of his statement, Dr. Crafts offered to present to President Burton, in private, evidence in justification of his statement.

Later, he frankly admitted his regret for the publication of that particular sentence in his letter. He did not, however, admit that he was mistaken in his stand nor receded from the statement itself.

There were present at the meeting, besides the members of the board of regents, the following alumni: Mrs. Effie Ames Rochford, Drs. Rees, Head, Hynes and Mr. W. I. Gray. Mrs. Rochford, and Drs. Rees and Head spoke upon the question at issue.

MINNESOTA TO TRAIN MECHANICS FOR MILITARY.

Minnesota has entered into a contract with the U. S. Government to train five hundred men—house, feed and instruct them for a period of two months from April 8. The work will be given at the department of agriculture and instruction will cover air plane mechanics. The University will receive \$1.65 a day per man, seven days the week. Instruction will cover five and one-half days each week and discipline will be under military authority. The plans were discussed and adopted at the meeting of the board of regents last Friday.

REGENTS MEETING.

A full report of the regents' meeting held last Friday will appear in the next issue of the Weekly. Many items of great interest were discussed and settled by the board.

JOHN LIND RESIGNS.

John Lind, Ex. '76, has resigned his membership on the state safety commission. Governor Burnquist in accepting Mr. Lind's resignation expressed his heartiest thanks for past services on the board.

MINNESOTA WINS.

Last Saturday night at Madison, Wis., Minnesota won the last basketball game of the season from Wisconsin by a score of 19 to 11.

"With the Brutal Frankness of a Blood Relative"

Letter 23.

DR. OLSON COMES BACK.

Minneapolis, Minn., March 9, 1918.
The Minnesota Alumni Weekly:

I wrote my former letter as short as possible, believing at the time I wrote it, that it was only to be read by the board of directors of the General Alumni association, and I thought that they would be able to see what I meant without taking up too much of their time. It certainly was very incomplete, and it was not intended as a thesis.

I am told that I slurred the dental profession and the dental college. It seems that anything that is not praise or flattery is construed that way by most of the people and consequently any adverse criticism is called slur. But really I did not mean to slur the dental school or the dental profession. I did mean to call attention to what I consider waste of time, labor and money, and the tendency to build up class distinction which my critics letter shows thoroughly.

To be cultured* seems to mean to know a lot of facts that we never intend to put into practice or use. A person that keeps himself busy learning only those things that he intends to make use of for the good of himself and the rest of the people my critic called a narrow, uneducated craftsman. I do not know of any skilled handicraft that is any simpler than dentistry.

No slur is implied here. It is simple, but it is necessary and consequently honorable. All necessary work is honorable.

What seems to underlie this so-called culture and broad mindedness is this old worn-out idea that we should learn truth for truth's sake alone, not that we should learn it for the benefit it will give us. For example, I have a dog at home. For anyone to count the number of fleas he might have would be knowing a truth, but the chances of being any use would be slight. If we carry that a little further and say that he should for truth's sake find out the number of his hairs, I think this last example would be a typical one for demonstrating truth for truth's sake only.

But before he is through counting, both he and the dog might be dead.

Any knowledge that we acquire which we do not intend to bring into concrete practice is of the same kind—only wastes our time.

I admit that to accumulate a lot of facts gives us a feeling of security and strength, but I think that feeling is atavic, from the

time when each person had to depend on himself for both getting his living and defending himself from the elements and his foes. At the present time we can trust our fellow men to do their part for our safety as we are supposed to do our part for them. I trust the men that built the bridge, that they made it strong enough to hold me, without my knowledge about its construction.

We need no training for spreading our thoughts, but we do need it for concentration. The idea that we become better dentists by being broad-minded is a falsity. If when I am cutting in the dentine close to the live pulp, I let my mind wander to some foreign subject and give my patient an "extemporaneous speech" on it, to convince him that I was an educated and broad minded man, I hardly think that he would appreciate it. I have never heard any complaint from the public of the inability of the dentist to talk, or giving "extemporaneous speeches." In our evolution we have tried to protect ourselves from impractical knowledge. The eye perceives only the forms that are useful for our action, the ears perceive only useful sounds. The whole intellectual activity is evolved for action only. I think that Bergson in his philosophy has made that self-evident, and we cannot with any profit learn facts now and store them. They may not be facts a few years from now. Theories and laws have a tendency to change according to our needs. "Truth has a tendency to overflow."

My critic says I urge that we should spend no time upon the education that would benefit people with whom we come in contact. The greatest benefit we dentists can do for the people is to concentrate our attention on our dental service. When they come into our offices, do our work well and do not expect them to absorb our foreign knowledge. Let the other professions and trades take care of their end.

Our present society is so complex that we have to be satisfied to be only a cog in the machine and learn to trust the other cogs to act their parts well and then the whole machine will work satisfactorily.

Yours truly,

CARL G. OLSON.

Letter 24.

February 24, 1918.

Minnesota Alumni Weekly:

The editor suggested that Dr. Olson's letter in the January 28, 1918, issue of the Weekly would provoke a storm. It has! For the good of the state and for the sake of

humanity we trust that the thoughts he aired in that letter will never be adopted.

Dr. Olson is quite right when he says: "There is a great deal of dental work to be done in the state, work that is necessary for the physical, mental and moral welfare of the people, but, the largest amount to be done is for people that are unable to pay the price under our present system."

He gives a false idea, however, when he says: "Most of the work to be done for these people is very simple." Though most of the work called for in any particular mouth may be relatively simple, there are comparatively few mouths that do not call for some work of a decidedly intricate nature. Many cases that appear simple at the outset develop into complex ones demanding a knowledge of the entire human body coupled with the highest degree of skill and with intricate and expensive apparatus. Yet Mr. Olson asserts that a knowledge of biology, physiology, philosophy, chemistry, etc., is superfluous. Dr. Hunter of London deserves the very great credit of stirring up the medical and dental professions, no longer ago than 1911, to a realization that these subjects are vital. Dr. Hunter first disclosed the serious conditions arising from oral sepsis. Since that time so much additional evidence has been brought forth by the leaders of the professions, by the X-ray and the test tube that a reorientation has become imperative. As soon as biology, bacteriology, chemistry, physiology, and the other sciences gave a sounder foundation to dental practice the inevitable result was a drawing of the two professions together. The teeth are now recognized as vital organs of the body, nourished by the same blood, supplied by the same nerves. It has been proven beyond doubt that the teeth influence the nutrition, growth and health of the rest of the body and that the rest of the body affects in turn the nutrition, growth and health of the teeth. Nearly every issue of the dental and medical journals cites evidence to support the above assertion. At every convention of dentists these problems are discussed. If one desires visual proof there are, daily, splendid examples at the college of dentistry clinic and in the beds at the University hospital illustrating the effects produced by those "ostrich-minded operators who will not believe the facts. There is no excuse for ignorance but it is not to be wondered at that men who acquired their dental education in two years' time should be somewhat frightened now that a five-year course is inevitable. There are a few survivors of the "old school" of medicine that persist in denying the existence of bacteria. It is well known that their field of influence is limited.

"The dentistry of the past has been more than half a failure." A perfection of technique was achieved that gloried in mechanical contrivances, disregarding the remote effects to the patient. Gold crowns, fillings

and bridges, though ingenious and admirable from a mechanical point of view, are frequently veritable mausoleums of gold over masses of sepsis unparalleled in medicine or surgery. Dentistry is one of the medical specialties. Its interrelationship with the rest of the body makes it but logical for dental students to have the same sound general foundation in the underlying medical sciences that is required of medical students.

For the benefit of the man who objects to the time spent in the study of these fundamental sciences, allow me to cite a quotation from Mr. J. Arthur Thomson's Introduction to Science as given in a paper by Dr. Alfred Owre before the American Institute of Dental Teachers at Philadelphia a year ago:

"The too intensely practical man has got so accustomed to the fruits of science that he is apt to forget that these cannot be forthcoming if the roots die. Therefore to the critic who growls over the time spent in studying sea weeds, when what we want is more wheat, over embryological research instead of fish hatching, over the theoretical puzzles of geology instead of the search for more coal and iron, we must answer, first, that man does not live by bread alone; second, that he must be patient if his desired practical results are to be sure; third, that science is a unity, and the theoretical foundation is essential if there is to be a progressive practical application; and fourth, that as a matter of fact it has often been from the most unpromising theoretical investigations that great practical discoveries have come."

Goodyear's discovery of the process of vulcanizing rubber, of which we make use in nearly every artificial denture, could never have been credited to a mere technically skilled dentist. Studies by Perkins in making synthetic quinine opened up for German chemists the entire field of aniline dyes and materials used in medicine and the arts. Moreover, aniline dyes made it possible for Koch to detect the tubercle bacillus, resulting in our anti-tubercular campaigns today. Rothschild studied fleas to the disgust of his friends, but found that fleas carry the Bubonic plague from rats to men. To quote Dr. Rosenau of Harvard, "Many a Columbus has sailed the enchanted seas in search of a route to India but finds instead a new continent."

But, how are we going to get real safe and sane dental service to the mass of people so greatly in need and so unable to pay? It is a problem worthy of the best minds in the profession. Not only biology, physiology, and chemistry are required to bring about a solution but philosophy, sociology, economics and a knowledge of life in all its many phases must be brought into play.

An attempt in the right direction is being made. The college of dentistry takes care of a great deal of work at cost to the public.

Here and there broad-minded men have founded infirmaries, established public school clinics and started propaganda for the education of the public. This is but a "drop in the bucket," but it proves the feasibility of the group plan. Many European municipalities have undertaken to subsidize certain industries from the taxes, on sanitary grounds. The great importance of a supply of pure milk for the nourishment of infants is acknowledged. Since the ordinary consumer is not in a position to make the necessary physical, chemical, and bacteriological investigations this becomes a recognized function of the state. The public is unable to judge conditions in the mouth which makes them the ready prey of ignorant operators or unscrupulous quacks. Can we not provide facilities for the care of the teeth to which all may have access? If

people could come for examination without obligating themselves, the dentist would be enabled to prevent or at least arrest the damage in its early stage, before any inconveniences had been felt or any irreparable damage suffered. How much more sensible, practical and economical such a policy would be! How much more satisfying it would be to the dentist to be free to do his best at all times regardless of the patient's ability to pay, to be able to consult with his colleagues on difficult points, and to have access to the best facilities for the work at hand. So far as the problem has been worked out it has been fathered by broad-minded, well educated and able men in the profession, not by mere technical geniuses.

HOUGHTON HOLLIDAY,
B. A., D. D. S.

OF GENERAL INTEREST

Thomas Walsh, a well known American poet, read his poems in the Little Theatre last Wednesday afternoon.

Dean E. M. Freeman, of the college of agriculture gave the chapel address last Thursday noon taking as his topic, "The significance of little things."

Professor R. R. Price, director of University extension, has been appointed chairman for the University campus to promote the sale of war savings stamps.

Last Thursday officers of the women's committee of the National Council of Defense spoke before the University women on practical war work for women.

Professor John H. Gray is a member of the board of appraisers of the United States War Department, 104 Broad street, New York City.

Professor A. C. James, of the department of economics, spoke before the Advertising Forum in this city last week upon "What changes in retail advertising will the war necessitate."

A questionnaire is being prepared to be sent to every young woman in the University for the purpose of securing a comprehensive statement of what the young women have been doing to help win the war.

Last Saturday was the big day of the year for the engineers. The occasion was the celebration of St. Patrick's Day. It is impossible to give a report of the proceedings of the day in this issue of the Weekly.

Dr. Anna Phelan was honor guest at the annual banquet of the Players club recently. The banquet was an informal progressive dinner and Dr. Phelan was presented with several copies of Conrad as a gift of the Players.

The Y. M. C. A. has issued urgent calls for volunteers to undertake emergency work in connection with Minneapolis Settlement houses. Twelve men are wanted at once to teach registrants the essentials of American citizenship.

A freshman student in the college of engineering in attempting to repair an alcohol lamp which he was using in developing pictures met with a serious accident when the lamp exploded and is now laid up in the hospital for repairs.

"The Rift in the Clouds," a three-act play by Professor Glick, which was mentioned in a previous issue of the Weekly, was given its first presentation on the evening of March 8 by the agricultural dramatic club. The play met the highest praise of Twin City critics.

A short course in traction engineering will be offered at the University agricultural department April 30 to May 31. The growing use of traction engines for farm work has made this course even more important than it has been in previous years. The course covers both practical and theoretical construction and use of farm tractors.

The University receives regularly 1,377 periodicals. About half of these are on file in the periodical room of the general library, the rest are in departmental libraries. The medical department receives about 150 copies and the engineering colleges a like number. Over one hundred general publications are received; in addition there are 60 economic journals, 50 devoted to philosophy; 40 devoted to history and 30 each to political science, English and sociology.

The recent storm furnished the University R. O. T. C. material for some real trench warfare. Divisions of cadets were sent out with snow shovels to make trenches which

were constructed in the most approved style of modern warfare. A sham battle was held and hand grenades in the form of snowballs were thrown into the opposing trenches. After this had continued for some time Captain Britt ordered the men to go over the top and for fifteen minutes the opposing cadets engaged in a vigorous snow battle at short range.

Lieutenant Raymond V. Phelan, commander of receiving company No. 4, at Camp Joseph E. Johnston, Jacksonville, Fla., is likewise athletic director of Block C of that camp. In a talk to his boys recently Lieutenant Phelan said: "The momentum promoted by athletic work is indispensable to our greatest military success. The British and Canadians have realized the military value to be found in athletics and have acted upon the realization. Among their troops the ideal sought is to keep the men keyed up, on high gear, full of splendid momentum."

President Burton broke over his practice of making Sunday a complete day of rest when he addressed the students at the First Methodist church a week ago last Sunday night. The occasion was the annual day of prayer for colleges. President Burton's topic was, "Being divine." In his address President Burton made four points, as follows: "Being divine means being oneself in the highest, loftiest sense; it involves being in intimate touch with God; it demands that one be in a moral and social sense a creator of good things; in addition, it means being a savior."

Dean F. J. Wulling, of the college of pharmacy, will be the principal speaker at a hearing on the Edmund's bill to be given in Washington March 19. On his eastern trip Dean Wulling will address the American conference of Pharmaceutical faculties at a meeting held in Baltimore March 18. The Edmund's bill provides for the establishment of a pharmaceutical corps as a division of the medical department of the United States army. The movement was started through Dean Wulling's efforts while he was president of the American Pharmaceutical association. Dean Wulling will also deliver addresses in New York and Brooklyn.

A recent letter to one of his former students, from Professor Hardin Craig, tells an interesting story of the professor's experience in military life. Professor Craig took the work at the training camp at Fort Snelling last summer, hoping to enter the field artillery, but finally accepted a lieutenancy in the quartermaster's corps, a department in which, to quote Lieutenant Craig, "there is very little that is heroic but a great deal that is laborious." After three months' service at Camp Dodge he was ordered to Camp Joseph E. Johnston at Jacksonville, Fla., on account of his health. Mrs. Craig and Hardin, Jr., have been in Jacksonville for a number of months past.

Professor A. M. Field, of the division of agricultural education, has introduced a new course this semester in visual presentation, a course the like of which it is said has never before been offered in a college in this country. It is a well known fact that 87 per cent of the knowledge of an average person comes through his eyes. The idea of the course is to instruct students in the art of using charts and making charts. It also includes the principles involved in the making of slides and in the care and manipulation of moving picture machines and the taking of usable pictures, the retention of natural color in the manufacture of slides, especially of grains, is a feature that is emphasized.

Edward P. Sanford, former instructor in rhetoric at the University, now general sales manager of the Willys-Overland company, addressed the Salesmanship club of the University last Wednesday upon the subject "Salesmanship." Mr. Sanford said: "Successful salesmanship requires the salesman to command the attention of his prospect at the beginning and hold it throughout the interview. To do this, a man must present his arguments in an interesting and convincing manner. Behind every purchase is at least one of the following motives: First, to save money; second, to gain utility; third, to satisfy personal pride; fourth, a yielding to some personal weakness. Choosing the right time to close is the most delicate point in making a sale. In my opinion, more sales are lost through failure to close at an opportune time than through any other fault."

WEDDINGS AND ENGAGEMENTS.

Lieutenant Hilbert Arthur Dahl, Eng. '17, of the coast artillery corps, U. S. A., and Miss Leora Josephine Marxen of Minneapolis, were married March 4, in the ball room of Hotel Galvez, Galveston, Texas. Lieutenant and Mrs. Dahl are at home at Fort Crockett.

Mabel Rooth, Ag. '15, and Hjalmer Nelson, Ag. '16, were married Saturday, March 9, at Deephaven. Mr. Nelson is teaching agriculture in the high school at Detroit, Minn.

The engagement of Eleanor Widell, '17, of Mankato, and Kenneth H. Smith, '13, has been announced. The wedding will take place in April.

The following named graduates of the Nurses school are members of Base Hospital No. 26: Anna Gosman, Jane E. Baudin, Agnes Fleming, Mary Nightingale, Lena Thompson, '15; Mary Brockway, Emily Covert, Myrtle Hollo, Myra Moulton, Cecelia Rosenthal, '16; Bera Lemstrom, '14; Barbara Thompson, '13; Carolyn Schwarg, '12, and Alma Johnson.

PERSONALS

'92—Major Rupert C. Dewey's address and affiliations as given in a recent number of the Weekly were incorrect. Major Dewey is in the Marines and has been for many years past, his present address is Office of the Depot Quartermaster, U. S. Marine Corps, 36 Annie street, San Francisco, Calif. He is in charge of the depot of supplies. In a recent letter Major Dewey calls attention to the fact that the class of 1892 has the largest representation in government service of any class of the last century.

'94—Frank M. Anderson, professor of history, Dartmouth, is in Washington, D. C., for a month doing war service in connection with the work of the national board for historical service. This organization was formed at the beginning of the war by historical scholars for the purpose of aiding the government along historical lines.

'98 Law—George Howe St. Clair, diamond drill contractor, has gone into Y. M. C. A. over-seas work. His home address is 1107 University avenue southeast.

'00 Law—B. B. Gislason, of Minnesota, is being talked of as the Democratic candidate for governor of Minnesota.

'00 Eng.—Harleigh Parkhurst is a major in the 14th Field Artillery, U. S. R., at present detailed as instructor in school of fire for field artillery at Fort Sill, Okla.

'03 Eng.—Alfred C. Whitney is captain with the 310th engineers, Camp Custer, Battle Creek, Mich.

'05—Mrs. Cora Sutton Castle has changed her San Francisco address to Hotel Fairmont.

'06, Med. '14—Kenneth Taylor has an article on Tetanus (lockjaw) in the Journal of the American Medical association for March 9. Dr. Taylor is director of the Robert Goelet Research Fund, American Red Cross Hospital, Paris.

'07 Mines—Harry M. Ziesemer is now first lieutenant with the American Red Cross, stationed in Paris, France. Lieutenant Ziesemer landed in France January 25, 1918.

'08 Ex.—Captain Charles Winslow Elliott, son of Charles B. Elliott, '88, is commanding a trench mortar battery in France.

'08—Sergeant William M. Jones is now a member of the 164th Infantry, headquarters company, band, A. E. F., France.

'09—Cora B. Manderfeld is said to be seriously ill at Pokegama, Minn.

'11 Law—Captain Harold S. Nelson is regimental adjutant of the 136th infantry at Camp Cody, New Mexico. Captain Nelson has been a member of the National Guard for ten years and received the ten-year service medal last September. His home address is Owatonna.

'09 Eng.—Donald M. Forfar, of this city, has recently been assigned to the 26th Engineers at Camp Dix, Wrightstown, N. J. He is a first lieutenant, having received his commission after attending the engineers' officers' training camp at Camp Lee, Virginia. He was formerly a mechanical engineer with the Charles L. Pillsbury company.

'11 Ex.—George H. Boland is a member of Battery A, 348th F. A., located at Camp Lewis, Wash.

'12, Med. '11—Karl Dedolph is first lieutenant in the aviation section of the signal corps. He is located at the U. S. Army Balloon school, Fort Omaha, Neb.

'12—A. C. Dennis has changed his address to Box 930, Cheyenne, Wyoming. He was formerly located at Gainesville, Texas. He is now with the Roxana Petroleum company of Oklahoma.

'12 Eng.—Ernest Axel Hedenstrom is at Camp Dodge, Iowa.

'12 Nurse—C. Adelaide Madsen spent the year 1915 as a Red Cross nurse in Budapest. Her present address is 2635 Aldrich avenue south, Minneapolis. She is with the Minneapolis Health department. Miss Madsen received a bar marked "European War" for service in Budapest, which is attached to a Red Cross service pin. Also a silver decoration from the Hungarian Red Cross and war department for time spent in the Hungarian Base hospital at Budapest. She was under the direction of the American Red Cross.

'12, Med. '16—Harris R. Sutton is in the naval medical service. He is located at the Great Lakes Naval Training station, care of U. S. S. Isla de Luzon. His home address is Prior Lake, Minn.

'13 Ex.—Edwin E. Elliott, son of Charles B. Elliott, '88, is first lieutenant in France.

'13 Med.—Dr. E. J. Engberg has changed his address to Nervous and Mental board, Base Hospital, Camp Doniphan, Fort Sill, Oklahoma. Dr. Engberg has just finished his work at Camp Beauregard and has been ordered to his new post as a member of a board to examine that command for mental and nervous diseases.

'13, Med. '14—George E. Sutton is lieutenant at the Casualty Clearing station No. 36, B. E. F., France. His home address is Prior Lake, Minn.

'14 For.—George Foster Freeman is in the navy and at present is on board U. S. S. Massachusetts. His address is care postmaster, New York City.

'15—W. C. Callsen, school of agriculture, is in the aviation branch of the service and is at present located at Gerstner Field, Lake Charles, La.

'14 Ex.—Henry Brandtjen is first lieutenant in the signal corps, mechanical division of the aviation section.

'14 Eng.—H. R. Harris is lieutenant, junior grade, Reserve officers quarters B, at the U. S. Naval Academy, Annapolis, Md.

'15 Law—Loy J. Molumby is now at Berkeley, Calif., in the aviation signal corps, Mr. Molumby was formerly partner of the law firm of Kotz & Molumby, Great Falls, Mont.

'15 Law—Lawrence Jaques has been promoted from second to first lieutenant. He is still at Houston, Texas.

'15 Law—Erling S. Norby is now in training camp at Berkeley, Calif., in the aviation signal corps. Mr. Norby was formerly in the law and real estate business at Great Falls, Mont.

'15—A. C. Ott is an instructor in the divisional artillery school at Camp Cody, N. M. Among the Minnesota men who are officers in his regiment, 125th F. A., are Captain Chester S. Wilson, '08, Law '12; Captain Elmer W. McDevitt, Law '14; Lieutenant Claude S. Morton, Lieutenant John J. Lieb, Lieutenant F. H. Magney, 14, Med. '15, Lieutenant Elmer J. Sundby, Dent. '14, Lieutenant F. W. Cervený, Dent. '14, Lieutenant Edward B. Cutter, Law '11, who was with the 125th F. A., has been transferred to the Signal Corps as an aeroplane observer.

'15 Med.—C. D. Richmond is a lieutenant in the M. R. C., stationed at Fort Riley, Kan.

'15 Ed.—Lillian Sevaton is now living at 119 West Grant street, Apt. 121, in this city. Miss Sevaton resigned last April from her position in the Princeton, Minn., schools, where she had taught two years, in order to travel through the West and South with her sister. This year Miss Sevaton is acting as assistant clerk in the dental dispensary.

'15 Ph. D.—Sterling Temple, associate professor of chemistry, has been given a captain's commission in the ordnance reserve corps and assigned to Trench warfare section, engineering bureau, office of the Chief of Ordnance, Washington, D. C.

'15 Ed.—Lillian Sevaton is acting as assistant clerk in the dental dispensary.

'15 Ed.—Joseph E. Cummings has been transferred from Camp Dodge to the R. O. T. C., at Camp Pike, Ark.

'15 Eng. Ex.—James Edward Fitzgerald is first lieutenant in the artillery school in France.

'15 Ag.—Remington Orsinger is a lieutenant at Camp Green, Charlotte, N. C.

'16 Dent.—Wm. E. Schultz is first lieutenant in the dental reserve corps.

'16 Eng.—Robert W. Grow has been promoted to rank of captain and is located at Camp Fremont, Palo Alta, Calif. His home address is 53 Seymour avenue S. E., Minneapolis.

'16 Dent.—Dr. A. A. Litin, of this city, is now a first lieutenant in the Dental reserve corps. His address is 1001 Main street N. E.

'16—Private John C. Bettridge (about to be discharged at Camp Jos. E. Johnston for physical disability), said to Lieut. Raymond V. Phelan, commander Receiving Co. No. 4: "It is harder for me to leave here than it was to leave home when I enlisted."

'17—H. P. Aldrich is working for the National Research council at Washington, D. C. At present he is engaged in work relating to the sources of minerals now imported by the United States. The purpose of this work is to secure a supply from within the country so that the United States shall not be dependent upon any foreign country.

'16 Eng.—W. W. Simons is with the 615th Aero Squadron at San Antonio, Texas.

'17—Walfred Anderson is private in the U. S. army and is located at Camp Dodge, Iowa. His home address is Balbo, Minn. His present address is 351st Infantry, Co. C, Camp Dodge.

'17 Pharm.—Walter M. Johnson has changed his address from this city to Virginia, Minn., care of the Model Pharmacy.

'17 Ed.—L. J. Pluto, superintendent of schools at Wood Lake, has been drafted and is to report for assignment for training about April 1. Mr. Pluto was reelected to his present position but of course has been obliged to resign. He visited the University recently while on his way home to Long Prairie. Mr. Pluto will return to his work at Wood Lake for a few days before entering camp.

'17—Loren W. Benton is lieutenant with Co. L, 350th Infantry, Camp Dodge. Lieutenant Benton received his commission after attending the R. O. T. C. at Fort Snelling.

'17—Frank Notestein is doing exploration work in Oklahoma. The purpose of this work is to increase the knowledge of the oil resources of the country. Last summer he was engaged in the same line of work in Colorado and Wyoming.

Sergeant Gilbert H. Wiggin, a former student of the University, of the 20th Engineers, was on the Tuscania which was torpedoed off the coast of Ireland. At the time the Tuscania was struck by the torpedo Sergeant Wiggin was writing a letter to his mother. He saved his letter and finished it after he landed in Ireland. The letter showed water stain and signs of the experiences through which its writer had gone. Martha McCandless, also wrote Mrs. Wiggin saying that she had seen her son and that he was well. This letter was in accordance with an agreement with a group of Irish girls who had agreed to do this for every American soldier landed in Ireland from the Tuscania.

THE COLWELL PRESS

THE MINNESOTA ALUMNI WEEKLY

THE ALUMNI WEEKLY MAKES AVAILABLE FOR EACH ALUMNUS THE RESULT OF THE UNITED ENDEAVOR OF ALL ALUMNI TO KEEP IN TOUCH WITH EACH OTHER AND THE UNIVERSITY

VOL. XVII

MARCH 25, 1918

No. 24

Office: 202 Library Building, University, Minneapolis, Minn.

Published by the General Alumni Association of the University of Minnesota.
Entered at the Postoffice in Minneapolis as second-class matter.

Life subscription, \$25; annual subscription \$2.50.

Life members are allowed a special discount of fifty cents in consideration of payments already made.

Unless subscribers direct a discontinuance it will be assumed that a renewal of subscription is desired.

ADVISORY EDITORIAL COMMITTEE

Benjamin Drake, Chairman.
Hope McDonald, Alice Rockwell Warren
Stanley B. Houck, Harold J. Leonard.

Editor and Manager,
E. B. Johnson.

It is the purpose of the Weekly to present facts upon which the alumni may base their own judgment; to offer unbiased interpretative comment upon the facts in order that they may be better understood; to reflect editorially, the opinion of the alumni as faithfully as possible; to be always open for communications from any alumnus who desires to say anything upon a matter of interest to the alumni, as alumni. Constructive criticism, news and new subscribers are each helpful and welcome, and combined, they improve the service rendered by the Weekly to its subscribers.

CALENDAR FOR WEEK.

Tuesday, March 26, 12:00 m.—Convocation address by Professor William H. Schofield, Harvard University, on Reconstruction after the war. Little Theatre.

Wednesday, March 27, 4:00 p. m.—All-University assembly. Address by Captain Rauld Amundsen, explorer, on his experience in France and the present war situation. The Armory.

2:00 p. m.—Graduating exercises of school of agriculture, Auditorium, University Farm.

TUNELL CHOSEN FOR IMPORTANT DUTY.

George G. Tunell, '92, has been asked to serve as a member of a new committee of the chamber of commerce of the United States, to be known as a committee on budget and efficiency. This committee is to deal with the subject of a national budget and with other matters having to do with increasing the efficiency of the government, particularly in its administrative departments. The chamber of commerce of the United States has gone on record through a referendum vote as favoring a national budget system and it will be the function of this committee to work out the details of such a system and to urge whatever action may be necessary to put it in force. It is a distinct compliment to the work which Mr. Tunell has been doing that he has been asked to act on this committee.

MARCH MEETING OF BOARD OF DIRECTORS.

The adjourned March meeting of the board of directors of the General Alumni Association was held at the office of the Association Tuesday evening, March 19, at 7.45 o'clock.

There were present Directors Allen, Diamond, Jorgens, Gray, Johnson, Firkins, Webster, A. M. Burch, Thompson, Rees, McGregor, Haynes, Bull, Leonard, King, Nachtrieb, Keyes and Gaumnitz.

The minutes of the previous meeting were read, corrected, and approved.

The question as to the General Alumni Association's support of the American University Union in Europe was discussed and a committee consisting of Washington Yale, and the President and Secretary of the Association, was appointed to attend the next meeting of the Athletic Board of Control

and try to secure an appropriation of five hundred dollars from the Athletic Association for this purpose.

The secretary reported that the membership fee for the year, five hundred dollars, had been paid and that practically two hundred dollars more had been subscribed, most of it having been paid in.

The secretary reported on the finances for the Annual Meeting as follows:

Fifteenth Annual Meeting.

Receipts—

From sale of tickets, 304 at \$1.....\$304.00

Expenditures—

325 dinners at 75 cents.....	\$243.75
Check woman	2.00
Flowers	10.00
Music	10.00
Postage	25.00
Printing	12.85

Total

Balance to good..... 40

The board authorized the secretary to attend the meeting of the Association of Alumni Secretaries to be held at Yale University May 10 and 11, and voted that his expenses, not to exceed \$125, be met by the

Association; this amount to be taken out of the current year's funds if they shall prove sufficient, otherwise the amount to be provided for in next year's budget.

The question as to whether the Association should entertain the senior class some time about commencement time was discussed and it was decided to leave the question of such entertainment to the members of the board who attend the dinner to be given by the board to the presidents and secretaries of the various sections of the senior class.

Mr. King moved that no more objectionable letters criticising the University, the faculty or the regents, be published in the Minnesota Alumni Weekly unless previously read before the board of directors and such publication be authorized by a majority vote of the board present.

This motion was lost, Mr. King alone voting for its adoption.

A letter from Director Frankel was received and read and the secretary was directed to write Mr. Frankel and state to him the facts regarding the matters raised in his letter.

On motion the meeting adjourned.

E. B. JOHNSON, Secretary.

Letters on Alumni Cooperation

Minneapolis, Sept. 13, 1917.

Committee on Alumni Co-operation:

Replying to your letter, sent out by the General Alumni Association, September 7th, asking for various suggestions for the improvement and strengthening of our Alma Mater, I would say that Minnesota's educational ideal should be to give the young men and women of this state a practical education.

From the beginning of time, we have found that the highest ideals, the most sterling qualities, as well as all practical things, have been found among the pioneers. Our Pilgrim forefathers were evidences of this; the men, who in the early days came to Minnesota and the Northwest, were further evidences of it. I believe that we can go west today when we need new men, and find men with practical western ideas, who will do more for our institution than if we continually follow up the tendency of trying to make the U. of M. like some of the eastern institutions.

I do not offer this suggestion as a criticism of any man or group of men; my only reason for making it is that I think there is a growing tendency at Minnesota toward eastern ideas and eastern methods. I think we would do well to use some of our original western ideas, and to look toward the west for our assistance.

My second suggestion is that the various departments of the University should be brought closer together. It would have a tendency to make our institution a stronger one, and to make the Alumni association a stronger association. At the time I was a member of the law school, we rarely, if ever, came in contact with the other departments. I have noticed with pleasure that during the past couple of years the farm school and the domestic science courses have been made more a part of the University.

I think that the University extension courses have done a great deal to bring the University in closer touch with the people throughout the state, and that continuance of this work will be a great benefit to the people of the state as a whole.

Yours very truly,

JOHN F. NICHOLS, Law '04.

Some Helpful Suggestions.

September 28, 1917.

Committee on Alumni Co-operation:

Your letter of the 7th inst, relative to the University was duly received and should have been answered at once but with other matters on hand it was set aside and I hasten to reply now and trust it is not too late.

I take it that the main object of the University is primarily for the good of the

state of Minnesota and its citizens, and secondarily for the other states of the Union and foreign countries and their citizens, and that, as many graduates and former students who may come from away settle in this state and help to build it up and that a complete college education or even one or two years of attendance at the University puts all these men and women in better position, not only to make a living for themselves, but to help the state, therefore, it does seem to me that the entrance requirements should not be too stiff. A great many young people do not appreciate the value of a college education during their first years in high school and consequently do not always take the subjects that would best prepare them for admittance to an institution of higher learning. When they come to their senior year and decide upon taking further work along educational lines it is hard to switch their course so as to take in all subjects prerequisite for admission to the University. These students should, I believe, be encouraged in going on with their educational work, and therefore, I say the entrance requirements should not be too stiff, and let the weeding out process take place during the freshman and sophomore years.

I would suggest a change so as to place the experienced professors in charge of the freshman and sophomore classes. Students in these classes are more in the formative period and need the best of guidance and I believe many students who are now dropped during the freshman year would be able to make a success of their college course if they had real professors over them, instead of assistants or instructors of about their own age. This perhaps comes back to the financial situation. One way to get around that is to have more publicity through the country papers, educate the farmers and the inhabitants of the small towns and villages to the necessity of paying larger salaries in order to secure more competent instructors. An additional help in keeping the good men, I believe, would be the policy of promoting professors to the positions of deans whenever vacancies occur. I think in the past some especially good men have been overlooked and the "powers that be" have gone outside the University and state to procure deans when they could have secured fully as competent men in our own faculty.

In the matter of internal administration I would suggest that the heads of departments and the deans spend a little more time attending classes to secure first-hand information as to the methods and ability of the professors in charge.

Also I would suggest that every instructor, professor and dean be required to have an hour every day or at least three times a week as an office hour at which time any student or any other person might feel free to call upon them to consult them in regard to University work. At the present time it

is difficult to interview some professors as they do not arrive until the class begins and they leave as soon as the classes are over.

I have always felt that professors should consider that the classes must begin at the time stated and not several minutes later. During the past four years I have had more or less to do with two students who have had eight o'clock classes and with one exception, that of Dr. Holman, no professor realized the importance of being there at eight o'clock himself. In fact, the idea has become so ingrained in the students minds that eight o'clock in the morning means 8:10 or 8:15, that Dr. Holman had to adopt the method of locking the door at eight o'clock in the morning in order to impress upon the students that he really meant business.

In order to get more support from the alumni I think it is necessary to go back to their under-graduate days and have the professors begin at that time to take a personal interest in each student and be willing to talk over with them their troubles and perplexities so as to have the students realize that they are actually taking an interest in their work, and have the student really feel that they are his friend rather than a task master set over them to make them do a certain stunt. Of course, a few professors do this now, but the majority either do not or else do not realize the benefit of it.

If any of the above suggestions are of any value to you I will be very much pleased.

Yours very sincerely,

WASHINGTON YALE.

QUESTIONS WISDOM OF MEDAL.

2740 W. 43rd and Upton,
Minneapolis, March 19, 1918.

Editor of Minnesota Alumni Weekly:
Here is a brief expression of my feelings on the U. of M. War Medal situation. You may do what you think best with it.

War medals were originally introduced and established as a visible recognition of distinguished or special service and we all recognize that the harder they are to earn, the more we desire them. We have seen how Germany has cheapened the iron cross by the wholesale awarding of it and how the allied powers have tried to be very particular in the giving of such medals. **Therefore**, it would seem advisable for any institution to be very careful about giving her boys anything that imitates or resembles such medals. It is an example that is very apt to be followed by others.

Why not present each one of Minnesota's boys with the official U. of M. pin with his name on the back and leave the medals for Uncle Sam to award for special service? It is not special service for our boys to help fight this war; it is what we all ought to do, only some are especially privileged

to go to the front and hit the enemy directly. Our money should help them to be efficient rather than to decorate them, and yet

the pins would make them feel that the U. of M. was behind them to the finish.
ROLLAND R. JONES, Dent. '07.

Regents' Meetings

A meeting of the board of regents was held in the president's office, Friday, March 15, 1918, at ten o'clock.

Present: Regents Snyder (chairman), Burton, Mayo, Rice, Partridge, Schulz, Sommers and Williams, J. G.

Voted to accept the following resignations: Dr. F. A. Woodward, University hospital; T. H. Smith, instructor in foundry; William Harris, service man, department of pathology; C. J. Iverson, assistant in law library; Nell Derus, stenographer in school of mines; Laura Lotze, stenographer in college of dentistry; J. J. Liebenberg, instructor in architecture.

Appointments.

Clerks—Florence Carlson, dispensary pharmacy.

Stenographers—Silvia Miller, mines; Lillian Sevaton, dentistry; Eva Yager, social and civic work.

Assistant professors—Dr. Charles D. Freeman, dermatology, beginning March 1, 1918, without salary.

Instructors—Dr. Charles E. Smith, medicine; Dr. Max Scham, pediatrics; Dr. John T. Litchfield, ophthalmology and otolaryngology; W. E. Bryant, foundry; E. J. Miller, mechanical drawing; George Fairclough, part time, pipe organ; M. L. Norstad, engineering.

Assistants—Dr. Glenn R. Matchan, pediatrics; Dr. Niels Nedergaard, medicine; Mrs. Gladys C. Blakey, history; T. F. Neils, law library; Margery L. Brown, romance languages; Clifford O. Bemis and Joseph G. Brom, University high school; Max Donauer, organic chemistry.

Lecturers—J. M. Rysgaard, physics.

Laboratory helper—D. D. Anderson, pharmacology; Robert G. Green, pathology and bacteriology; H. J. Moersch, physiology.

Laboratory assistants—Howard Abrahamson, experimental engineering.

Hospital steward—James McNee.

Assistant hospital steward—J. A. Lepak.

Service men—Einar Fryckman, pathology.

Student assistants—A. H. Williams, engineering.

Student helpers—Rolland E. Cole, economics; R. M. Eppard, chemistry; Edwin J. Berkvan, Norwegian.

Promotions.

Hallie Bruce, first assistant in pharmacy, to take Mr. Kohl's place; Esther Johnson, second assistant to first assistant in pharmacy; Professor Frederick Bass, chairman of the

civil engineering department; S. C. Burton, instructor in department of architecture, to the rank of assistant professor; Dr. Royal N. Chapman, from instructor to assistant professor of animal biology and assistant entomologist in the experiment station for a period of three years; Henry N. Wade to the position of superintendent of the mines experiment station; W. D. Reeve to the position of acting principal of the University high school; J. D. Dodson, from teaching fellow to instructor in psychology; Mrs. Kathryn Dieterich to the rank of part-time instructor in physics; Dr. L. W. Barry, from a second year fellowship to a third year fellowship in obstetrics and gynecology; Dr. N. O. Pearce from a first year fellowship to a second year fellowship in pediatrics.

Certain salary adjustments were authorized.

Leaves of Absence.

F. R. McMillan, for service in the department of concrete ships of the U. S. Shipping Board; Dr. J. C. Michaels, assistant in nervous and mental diseases, for war service; Dr. J. F. McClendon, associate professor of physiology, for war service; A. E. Koenig, assistant professor of German, for two and one-half weeks, beginning April 8, 1918, for a speaking campaign in South Dakota, in the German district, with regular pay.

Trips Outside the State.

Professor A. J. Todd to attend the National Conference of Social Work in Kansas City from March 15 to 21; Professor W. H. Emmons to attend a meeting of officers of the federal and state surveys for investigation of deposits of minerals used in the war, at Washington in March or April; Dean J. B. Johnston to attend the annual meeting of the North Central association of colleges and secondary schools in Chicago on March 21-23; Professor R. R. Shumway to attend the annual meeting of the North Central association of colleges and secondary schools in Chicago on March 21-23; Professor A. S. Cutler, to go as representative of the University to a conference of National Workmen's Compensation Service Bureau in Chicago on March 20.

Voted to approve the proposed new items for the 1918-19 budget; items one to four, inclusive, and nine to twelve, inclusive, with the understanding that the maintenance increase over the 1917-18 budget is limited to \$25,000.

Chemistry School to Remain.

Voted to continue the school of chemistry as a separate unit.

Voted, that the Durand case be made a special order of business at a meeting of the board to be held the 23d instant.

The matters involved in the Crafts letter was reported in the last previous issue of the Weekly.

A request was received from the War Department to train five hundred men in aviation mechanics.

It was voted to authorize the officers of the University to execute a contract with the government at \$1.65 per day.

Services and Salaries.

The following report of the committee of deans on conditions of appointments, services and salaries:

"Your committee appointed to consider the conditions of appointments, services and salaries, recommends that beginning with the year 1918-19 (August 1, 1918), appointments be made in accordance with the following terms.

Terms of appointment of University employees shall be:

A. For the fiscal year; salaries to be paid in twelve monthly installments; a vacation of one month being allowed.

B. For the academic year, consisting of forty consecutive weeks beginning one week before the date for the official opening of the college year; salaries to be paid in ten installments as provided in the minutes of the regents of January 16, 1918, with the substitution of the words "the academic year" for "the session." In cases of absence for a part of the academic year salary adjustments shall be on the basis of the number of weeks of service rendered.

C. Term employment. Salary on the basis of months, weeks, days or hours of employment.

D. Persons employed for the academic year or on any part time arrangement may be engaged for other service during any time not covered by the original contract.

In general it is to be considered that administrative officers, experiment station and extension workers, and secretaries, clerks and service men in departments whose work requires their services are appointed for the fiscal year."

The following regulations recommended by the deans' committee was also approved:

"All fellows, scholars, assistants, instructors, and all members of the teaching staff and scientific bureaus or experiment stations, when regularly enrolled as students in the graduate school shall not be required to pay University fees or tuition. Voted also that where necessary in individual cases the salaries of teachers may be increased to cover the amount of free tuition withdrawn in their cases."

Voted to approve the regulations governing the secretarial and stenographic service

as recommended by the deans and amendment with reference to Saturday employment suggested by Regent Sommers, as follows:

Secretarial, Clerical and Stenographic Service.

1. Classification. Distinction shall be made between the work required in various offices as follows:

A. Administrative offices: The distinguishing characteristic of the service is that the employee must represent the administrative officer in the application of general regulations and in the decision of minor questions in accordance with the practice of the office. Employees carrying this responsibility may be entitled **secretaries**. Salaries from \$840 in proportion to responsibilities of the position filled and the experience and ability of the employee.

B. Departmental and divisional offices: In these the element of independent responsibility is not great but there may be a considerable amount of clerical work which the employee must be able to do without minute direction. Employees may be entitled **clerks or stenographers**. Salaries from \$720 for the full year; in case of departments requiring less than the full year's service, \$50 to \$75 per month.

C. Stenographic work requiring little clerical responsibility. In smaller departments or as assistants in the larger offices. Salaries from \$540 to \$720 a year; or \$40 to \$60 a month; or 25 to 40 cents per hour of service.

2. Promotions: Advance in rank and salary shall recognize primarily ability and expertness, rather than length of service. Appointments to vacant position shall be made when practicable within the existing staff by transfer and advance, rather than from outside the University.

3. Tenure: Original appointments which contemplate service for the calendar or the academic year shall be probational and terminable at the end of any month, if service proves unsatisfactory. Successive appointments should be for one year, terminable within that year only for adequate causes.

Employment for shorter periods should be terminable at will.

4. Working Day and Vacations: Each office should have a definitely established practice. Two alternatives are suggested:

A. A working day of eight hours (usually 8-12 and 1-5) with a vacation period of four weeks with pay.

B. A working day of seven and one-half hours (usually 8:30-12 and 1-5) with a vacation period of three weeks with pay.

Employees will be allowed a half holiday on Saturday afternoon whenever the work in their department is completed and there is no other necessary work to be done. Overtime without pay shall be required whenever necessary, but the same may be compensated for in a reasonable manner by hours

of leave at times when the work of the office will allow it.

The vacation period with pay shall be granted only to persons on twelve months' employment and shall be taken at a time acceptable to and convenient for the department concerned; provided, however, no leave is permissible until six months' service have been rendered.

5. Sick Leave: In addition to the vacation period defined in paragraph 4, leave with pay not exceeding four weeks may be allowed in cases of actual disabling illness as certified by physicians' certificates.

6. Recesses: Student recesses or vacations in addition to legal holidays do not apply to secretarial, clerical, or stenographic employees.

Vacations are not permissible for short term employees, secretaries, clerks, and stenographic employees.

7. Central stenographic service: The establishment of facilities for stenographic or clerical service for the intermittent or occasional uses of various members of the instructional staff should be left to each college.

Inter-departmental service already exists in arts, engineering and agriculture. The dean's office appears to be the logical station for calls for stenographic assistance, and the assignment of service.

8. Range of legitimate work: Departments should encourage members of staff to use stenographers or clerks to assist in preparing reports of investigations or otherwise in furthering research work.

Mss. for publication for which compensation is expected, and mss. for paid lectures should not be prepared at the expense of the University.

Health Department Created.

Voted to approve the immediate establishment of a University Public Health Department, as follows:

1. That a University health department be created.

2. That all related agencies be correlated in support of this department and be represented by a health committee to be appointed by the president, which will serve in an advisory capacity to the health officer.

3. That a health fee of \$3.00 per semester be charged to each student of collegiate rank and that a fee pro rated to the period of study be charged to students of less than collegiate rank, beginning with the University session of 1918-19, and that such fees be used as a fund for the establishment of free health service for the students of the University.

4. That under the health fee system a force of physicians and nurses be selected by the health officer and appointed by the board of regents in the service of the department.

Change in Policy.

In connection with the policy of continuing members of the staff engaged in war work in part payment of salaries on the University payroll, the president submitted correspondence with the federal government which expresses appreciation of the encouragement held out to members of the faculty under the existing regulations, "but unfortunately for the program, as far as the funds derived by the University are concerned, Congress in providing these appropriations has imposed very definite limitations on their use which this department has no authority to waive or modify." The board deems it unwise "to use the funds of the state of Minnesota in any way which does not apply to federal funds. It becomes necessary, therefore, to bring definitely to the attention of every member of the staff, the strong possibility, if not probability, that after July 31, 1918, the partial payment of salaries to members of the staff engaged in government or public service will be discontinued. In accordance with the action of the regents on July 13, 1917, exceptions, of course, will be made in cases where services are performed for the University."

The usual trips of staff members in the school of mines in conducting the senior class in regular field work.

The president of the board was given authority to settle the question of making overhead charges to Shevlin hall.

The resident fee in Sanford hall beginning with the year 1918-19, has been increased from \$225 to \$250.

The loan of a relief model of Minneapolis by the department of geology to the Dunwoody Institute and the loan of Northrup synchronizing set tuning fork to the army proving grounds at Aberdeen, Maryland, was approved.

It was voted to approve the procuring of a patent on a chemical compound discovered by Professor Wm. Moore of the division of entomology and economic zoology, at the expense of the University, if arrangements can be made.

Celebration Indefinitely Postponed.

Owing to the present war situation and the general feeling that this is scarcely an appropriate time for holding celebrations, it was decided to indefinitely postpone the fiftieth anniversary celebration of the University of Minnesota, with the understanding that at the proper time some action may be taken and that at commencement some recognition of the half-century life of the University be made.

The recommendation of the dean of the medical school, that beds to the number of ten be made available in the University hospital for use of the Aviation corps at the Overland building with the understanding that all cases of throat disease be cultured and bacterial reports upon such culture be

received before patients are admitted to the hospital, was approved.

The degree of doctor of medicine, post obitum, was conferred upon H. S. Kennedy, who recently died.

It was voted to appoint a committee, with the president of the University, ex-officio chairman, the other members of the committee to be selected from the faculty, for the purpose of passing upon all gifts of art objects presented to the University.

It was decided to refer to the president, and faculty of the academic college a petition from the federation of Minneapolis ministers regarding credit for work in religious subjects in schools and colleges of approved standing.

Northrop cottage, at 112 Church street southeast, was rented at an expense of \$35 per month, for additional housing which will be required for the summer school of nurses.

The president of the University was asked to bring the advertising matter sent out by the University of Southern Minnesota to the attention of the Blue Sky law commission.

The degree of doctor of medicine was voted to Ray L. Schutt.

The petition of the Northern States Power company for an easement for a pole line for supplying current to the State Fair grounds was granted.

A report of accident to Miss Lena Olson, who later died at the University hospital, was received and ordered filed.

Voted to confirm the following agreement with Dr. J. P. Sedgwick: That his salary be increased to \$5000 per year beginning with the second semester of the current academic year with the understanding that he discontinue his regular office and that he come upon the so called full time basis with the provision that a certain amount of his time be available for consultation work.

A considerable number of other minor items of business were transacted which are not included because of no general interest to Weekly readers.

Agricultural Committee Meeting Minutes.

A meeting of the agricultural committee was held in the president's office, Friday, March 15, 1918, at eight-thirty o'clock.

Present: Regents Rice (chairman), Burton, Schulz, Sommers, and J. G. Williams.

Resignations were accepted as follows: F. L. Kennard, agronomist at Crookston; Katharine Burns, clerk, soils; Greta Gray, assistant professor of foods and cookery.

The following appointments were made:

R. O. Westley, assistant professor of agronomy, Crookston; Ruth F. Peterson, clerk in division of research in agricultural economics; Agnes Haasl, stenographer; George Beatty, station foreman; Rose Miller, cook, Crookston; Ausilga Sorenson, instructor in violin; Mabel Willson, instructor in piano; Laverne Sigmond, instructor in

voice; A. M. Christensen, instructor in farm crops, Northwest School and Station; Hilda Afdem, clerk in the division of veterinary medicine.

The following promotion was voted:

W. W. Cumberland to chief of the division of research in agricultural economics and agricultural economist of the experiment station, and associate professor of economics in charge of the section of agricultural economics in the department of economics of the College of Science, Literature, and the Arts, at a salary of \$2,750 per year, beginning August 1, 1918.

A number of salary adjustments were voted.

The following leaves of absence were authorized:

E. C. Stakman, associate professor of plant pathology from March 11 to September 15, 1918, to take up emergency work for the U. S. Department of Agriculture in the control of cereal rusts in the Mississippi valley; L. R. Whitson, instructor in drawing, for war service, beginning March 2, 1918, to July 31, 1918, without reappointment; Ida M. Shelton, assistant cashier, for one year beginning April 1, 1918.

Voted to approve the following trips outside the state:

Frank Robotka to Brookings, S. D.; G. R. Bisby to Lincoln, Nebraska; E. M. Freeman to attend the meeting of the Pathologists of the Great Plains States; A. M. Christianson from Rugby, N. D., to Crookston, to confer with Mr. Balmer on county agent work; S. B. Bedford to come from Winnipeg to Crookston to attend county agent conference.

A report of the automobile clinic in the agricultural engineering department was received and, on the recommendation of the dean of the department of agriculture, it was voted to discontinue the clinic.

The chairmanship plan in the department of agriculture was abandoned and it was voted to approve the plan of permanent chiefs of divisions, removing all administrative responsibilities from the heads of sections within each division.

Professor T. L. Haecker, who has been asked for several successive years to continue his experiments in animal nutrition, despite the fact that he has passed the usual age for retiring from service, will retire at the close of this college year, July 31, 1918, and provision will be made for completing the work upon which he is engaged and for tabulating the results.

An appropriation of \$6,500 from reserve to budget of animal husbandry division, was made and salary balances in the department of agriculture in an equal sum were ordered credited to reserve.

Voted to approve the lease of six acres, more or less, from the University Golf club for use of the division of agronomy and farm management, at \$5 per acre for the crop season.

The president, the dean of the department of agriculture and the comptroller were given authority to decide the question of loaning rifles now at the northwest school and station, to the home guard at Crookston.

WEDDINGS AND ENGAGEMENTS.

The engagement of Agnes Morton, Ag. '12, and Milton Danziger of Washington, D. C., was announced recently at a party given in honor of Miss Morton, who formerly taught in the agricultural department.

BIRTHS.

Mr. and Mrs. W. L. Badger, a daughter, Elizabeth Helen, March 16. Mr. Badger is a graduate with the classes of 1907, 1908 and received a master's degree in 1909.

DEATHS.

Mrs. Charles E. Brandow of Red Lodge, Mont., died of apoplexy March 19. Mrs. Brandow was formerly Ruth Hermann and

was a member of the Education class of 1911 and received her master's degree in 1912. She is survived by her husband and little son as well as her parents who are living in this city, and a brother, Sergeant Leonard W. Hermann, who is now in the army.

General Lewis A. Grant, a veteran of the Civil war and father of U. S. Grant, '88, and Colfax Grant, '90, died in this city last Tuesday. General Grant was assistant secretary of war during the Harrison administration. He won the brevet major general for distinguished service at Winchester and became a brigadier general in the Sixth army corps. His record as soldier and citizen is a proud one and while we sympathize with his sons in their sorrow, we share with them their pride in the honorable record he has left.

John C. Huntington, who is reported as wounded in France is a former University student. He is a member of the 151 F. A. His home is in Elizabeth, N. J.

PERSONALS

'93—Albert F. Pratt, who is listed in our honor roll as captain, has been advanced to the rank of lieutenant colonel and is now with the 125th Field Artillery.

'94 Law—Charles S. Albert, for a number of years past legal representative of the G. N. Railway company at Spokane, Wash., has been commissioned major and will be assigned to duty in the office of the judge advocate general. Mrs. Albert is the well known actress Sarah Truax.

'00 Med.—Dr. Emil Geist who has been at Fort Oglethorpe, Ga., for several months, has been promoted from captain to the rank of major.

'00—Hector G. Spaulding has changed his address to 740 Rush street, Chicago, Ill.

'02—The government research work on a method of combatting the submarine menace, which has been carried on during the past six months, under the direction of Dr. Raymond C. Benner, '02, has recently been brought to a successful conclusion.

'05—Word has been received in St. Paul that Lieutenant John S. Abbott, '05, of the Medical reserve corps in France, is suffering from trench fever.

'05, Med. '08—Dr. Ida Alexander of Sauk Center, is the first woman physician of Minnesota to be sent to France by the Red Cross.

'05 Eng.—Joseph E. Finley has just landed in France with a contingent of railway engineers. Mr. Finley holds a commission as captain in the engineers corps. Mrs. Finley (Sara Preston, '07) and their children

are living at 610 West 26th street, in this city.

'06 Med.—Dr. R. M. Pederson, of this city, has been made a lieutenant colonel in the 109th Sanitary Train at Camp Cody, New Mexico. Dr. Pederson enlisted with the first Minnesota Infantry several years ago and was then commissioned lieutenant. Later he was promoted to the rank of major and recently advanced to his present rank.

'09 Eng.—Lester H. Gadsby of Visalia, Calif., has just received the class letter of the electrical engineers of 1909. It was forwarded to Mr. Gadsby from Arch Robison and will be sent along to Fred Murrish, who is now located in Los Angeles. Mr. Gadsby is serving as first lieutenant in Co. M, 159th Infantry, Camp Kearny, Calif. This company was formerly Co. D, 2nd Regiment, California Infantry, N. G., and was called out March 26, 1917, to do guard duty in San Francisco and later, in Utah, and was finally ordered to Camp Kearny the first of last November. Lieutenant Gadsby also served on the Mexican border with the same organization from June to November, 1916, at Nogalis, Ariz. His home address is 807 South Encina, Visalia, Calif.

'10 Sch. Ag.—Willis H. Chase is now stationed at the naval training camp at Pelham Bay Park, N. Y.

'10 Sch. Ag.—Elmer Erickson is a member of the U. S. School of military aeronautics, stationed at Massachusetts Institute of Technology. He is in the mechanical section.

'10—Fred R. Johnson is now associate director of civilian relief, Southwestern division of the Red Cross, St. Louis, Mo. The Southwestern division embraces the states of Kansas, Missouri, Arkansas, Oklahoma, and Texas. Much of Mr. Johnson's time will be spent in connection with the numerous camps and camp cities located in Texas.

'11, Med. '13—Recent dispatches from the east voice apprehension for the safety of Dr. William J. Kucera of New Prague, Minn. Dr. Kucera was a member of the American Red Cross mission to Roumania and is said to have recently left Jassy for Odessa. It is impossible to tell from reports whether the doctor was in Odessa at the time of its capture by the Germans. It is possible from accounts that have been received that he may be safe in Switzerland.

'11 Ex.—Archibald A. McLaurin's address is Pierre, S. D.

'12 Sch. Ag.—Carl Carlson is a member of the machine gun company, 352d Infantry, at Camp Dodge, Iowa.

'13 Dent.—Dr. A. H. Juni, formerly of Jordan, Minn., is now with medical detachment of the 313th Headquarters train and military police at Camp Dodge, Iowa. In a recent letter he expresses his delight with army camp life.

Mrs. Henry F. Nachtrieb and daughter, Margaret, '13, have been in Tucson, Arizona, for the past two months. They will probably not return to Minneapolis until next month. Their Tucson address is 438 East Second street.

'13 Med.—Dr. W. G. Nuessle has recently moved from Milroy to Springfield, Minn.

'13 For.—Ernest C. Rogers has changed his address from Baltimore, Md., to Haugan, Mont., care of the U. S. Forest Service. Mr. Rogers spent the past winter working in the graduate laboratory of plant physiology at Johns Hopkins University.

'13—Alfred G. Smaltz who has just recently entered the service is now a member of Co. 7, Pensacola C. A. C., at Fort Barancas, Fla.

'13 Sch. Ag.—Chester G. Tvedt is in the medical corps at Fort Riley, Kansas. Mr. Tvedt gave up banking business at Goodridge and is on special duty in Major Pillsbury's office. He is enjoying his work very much.

'14—Alice Berry, secretary of the agricultural Y. W. C. A., who has been away for the past few months pursuing a course in secretarial training, has resumed her work at the department.

'14 Eng.—H. R. Harris, U. S. N. R. F., is to be addressed care the U. S. S. Minnesota, care of postmaster, Fortress Monroe, Va.

'15 Grad.—Corporal James E. Chapman who enlisted for the gas defense work last fall, has recently been transferred from

Camp Pike, Ark., to the Ordnance department, American University, Washington, D. C. He expects to be again transferred in the near future to Johns Hopkins.

'15 Med.—Lieutenant W. H. Halloran, of St. Paul, has been ordered to Fort Riley, Kansas.

'15, Dent. '17—Lieutenant Arthur H. Nobbs of the Dental reserve corps, Co. 25, Medical officers' training camp, Chickamauga Park, Georgia, spent six months at Camp Travis, Texas, as dental surgeon and has recently been transferred by the surgeon general's office to his present duties at Camp Greenleaf. In a recent letter he says that eighty-five men from different camps are being given this special eight-weeks' course of instruction in military matters and discipline, and in special surgery of the head and jaws. Included in their instruction is special work in gas defense and French.

'16 Sch. Ag.—Carl G. Carlson is a member of the 339th F. A. at Camp Dodge, Iowa.

'16—Edward Nicholson is a member of Co. C, 313th Engineers, Camp Dodge, Iowa.

'16 Sch. Ag.—L. W. Street is in service at Camp Dodge, Iowa.

'17 Pharm.—Roy W. Carlson has changed his address from Willmar to Staples, Minn. He is with George W. Beckett at that place.

'17 Ed.—L. J. Pluto enlisted in the aviation corps last Monday. Mention of Mr. Pluto was made in the Weekly recently.

'17—Chester E. Whittier is a member of Co. C, 6th Field Battalion, Signal Corps, Fort Leavenworth, Kansas. He was formerly in the Y. M. C. A. work and was first located at Paris Island, S. C.

'17—Corporal Robert S. Benepe, a member of the Marine Corps, has been awarded a sharp shooter's medal. Corporal Benepe's home address is 579 Dayton avenue, St. Paul.

'17 Law—Harold C. Costello is mess sergeant, Battery C, 337th F. A., Camp Dodge, Iowa.

'17—Victor P. Hauser is in the medical reserve corps.

'17—Anna Jacobs has changed her address to Valdez, Alaska. She was formerly located at Andover, S. D.

'17—Irma McLachlin is teaching at Heaton, N. D. Her home is at Hunter in the same state.

'17—Leslie C. McLachlin is now located at Fort Slocum, N. Y. He is with the medical corps of the U. S. Hospital, ward master of Ward A.

'17 Ex. Law—Otto J. Nelson enlisted in the second Minnesota infantry in the summer of 1916. He served with his regiment at Llano Grande, Texas, and was advanced to rank of sergeant. He is now at Camp Cody, New Mexico, and ranks as second

lieutenant. He is a member of the signal corps of the 136th infantry, Headquarters company. His home address is Owatonna.

'17 Eng.—Otis S. Nelson enlisted last December in the ordnance department of the army. His address is Provisional Co. S. Ordnance Training Camp, Camp Hancock, Augusta, Ga.

'17—Mrs. W. T. Munro (Helen Pierce) has returned from New Haven, Conn., and is now living at 111 Orlin avenue southeast.

'17—George H. Prudden is sergeant with construction company No. 9, aviation mobilization depot, Camp Sevier, Greenville, S. C.

'17—Lieutenant Sherrill E. Robinson has recently changed his address. He is now with the 348th Field Artillery at Camp Lewis, Wash.

'17—Second Lieutenants Donald Timmerman and Henning Linden visited the University last week, on their way from Fort Riley to Panama.

'18 Ag.—Everett A. Coe is with the 350th infantry at Camp Dodge, Iowa. Mr. Coe has been laid up with the measles but is recovering.

'18 E. E.—Larcom Randall was an instructor at the Harvard radio school for five months. In February he was commissioned as ensign and transferred to the naval academy at Annapolis, where he is taking the officers course. His present address is Reserve Officers Quarters B, U. S. Naval Academy, Annapolis, Md.

'18—Paul B. Greig is with the U. S. N. R. force at Station Base Dispensary, Newport, R. I.

'19 Ag.—Richard Fisher and Glenn Gullickson, '10, Law '13, both Minnesota men, were among the twenty-seven ranking highest in the Third officers' training camp at Camp Custer, Mich.

'19 Ex.—Ernest L. Johnson is assistant librarian of the camp library at Camp Shelby, Miss. In a recent letter to Miss Firkins, asking for contributions of books, Mr. Johnson says: "We have a library of about 14,000 books. They are very much used. Most of these books are in the central building but several thousand are scattered through the branch libraries of the camp." The branch library of which he is in charge averages a circulation of more than two hundred daily. One day recently four hundred fifty books were taken out.

'19 Law—J. Donald Robb, Jr., now a first lieutenant in the army, recently visited the University. He expects shortly to be ordered to France.

'18—Louis A. Hauser is in the medical reserve corps.

'18—Frank W. Hurley is with the 337th Field Artillery at Camp Dodge. His home address is 935 Portland avenue, St. Paul, Minn.

'18—Ludwig J. Hauser left last week to enter the ordnance school at Evanston, Ill. For the next six weeks he will pursue an intensive course at Northwestern University.

'18—Charles Dwan, of Two Harbors, Minn., is with the American Expeditionary Force in France.

'18 Ex.—R. E. Waldron is a flying cadet, A. S. C., Lake Charles, La.

'19—Wm. Dwan, of Two Harbors, Minn., is with the American Expeditionary Force in France.

'19—Wendell Scott McRae is sergeant with the 98th Co., U. S. Marines. He is located at the Naval Torpedo Station, Newport, R. I.

'19 Eng.—Frank Umbehoeker is a private in Co. F, 313th Engineers, at Camp Dodge, Iowa.

'19—Frederick W. Van Valkenburg is a private in the aviation corps, and located at Jefferson Barracks, St. Louis, Mo. His home address is care of Dr. and Mrs. B. F. Van Valkenburg, Long Prairie, Minn.

Ex. '19.—Rudolph L. Weum, sergeant, supply company, 135th Infantry, is located at Camp Cody, Deming, New Mexico. His home address is Moorhead, Minn.

'19 Ag.—Oscar L. Carney is with the Second Minnesota Artillery.

'19 Ag.—Newell F. Guernsey is a member of the 89th company, 1st regiment, U. S. Marine corps, League Island Navy Yards, Philadelphia, Pa.

'19 Eng.—Roger Hole, Clarence Botvidson and George Christilaw have recently enlisted and have gone to Camp Ayer, Mass., where they will be in training with the Thirty-third engineers.

'19 Law—Clarence J. Iverson left last week to attend the ordnance school at Evanston, Ill. For the next six weeks he will pursue an intensive course at Northwestern University.

'19 Eng.—Albert F. Mayer is assistant engineer at Fort Monroe, Va. His address is Box 141.

'20 Med.—Frank G. Hedenstrom is in the medical reserve corps.

'20—Arthur F. Sullivan is with the 103d field artillery and is now in training in France.

'20—Charles Edgar Erdmann is with the Marines, 78th Co., 6th regiment. He ranks as corporal. He has been in training both at Mare Island and Quantico, Va., and now he is with the A. E. F. in France. His home address is 612 Ninth avenue S. E., Minneapolis.

'20 Eng.—N. S. McVean has enlisted in the signal corps, and left last Monday for the Carnegie Institute at Pittsburgh, for special training.

Laurence Hodgson (Larry Ho) of St. Paul, was high man in the recent mayoralty primary in St. Paul. Larry had 4,500 more votes than his nearest competitor. You can't keep a good man down.

Mark Hurd is in the aviation corps, at Champaign, Ill.

Semon Kaplan, a former student, is at Camp Dodge, Iowa.

George Leslie LaVayea, Jr., is a first lieutenant in the reserve signal corps now in France. His address is Signal Reserve Corps, R. O. T. Bn., A. E. F.

Ag. Ex.—Bert G. Magladry is a member of the marine corps at Paris Island, S. C.

William Neudeck, a former student in the college of law, is at Camp Dodge, Iowa.

Walter Purple is with the naval reserve engineers, U. S. S. Pattina. His address is care of Lueders Marine Construction Co., Stamford, Conn.

OF GENERAL INTEREST.

Professor H. E. Michelson, of the medical faculty, has an article in the recent number of the Journal-Lancet.

Dr. James E. Moore, professor of surgery and chief of the department, has an article in the March 15 Journal-Lancet upon "The development of the faculty of the medical school of the University of Minnesota."

Professor George D. Shepardson, of the department of electrical engineering, has written a pamphlet which is to be published by the naval advisory board upon "The prob-

lem of improving listening devices for underwater sounds."

The War Savings Stamp campaign is on at the University. The campaign is in charge of Professor Price of the general extension division.

Major Jager and Professor C. P. Bull will sail April 1 for Serbia on the Red Cross mission which has been previously mentioned in the Weekly.

Dr. Wm. R. Murray of the medical faculty, has an article in the March 15 Journal-Lancet, upon "The vestibular apparatus and its relation to aviation."

Seventy young women of the University have registered with the Junior Council of Defense. Among the various lines of work applied for are clerical and Americanization.

Dean Wulling delivered an address at the Church of the Redeemer on Thursday evening, March 14th, on Minnesota University grown digitalis. The audience was a large and interested one and asked many questions after the lecture, extending the period of the lecture to 2½ hours.

A farm management study of southeastern Minnesota is the title of a report, bulletin 172, recently issued by the agricultural experiment station. The study is devoted to the factors influencing profits. The paper was prepared by Professor Andrew Boss and A. H. Benton of the division of agronomy, and by W. L. Cavert of the division of agricultural extension. 52 pages—illustrated.

Law School Service List

Faculty.

Major E. S. Thurston, Provost Marshall's office, Washington, D. C.

Class of 1920.

Abrahamson, Paul K., 3rd R. O. T. C., Camp Custer, Battle Creek, Mich.; Ackerson, E. J., enlisted; Aldenderfer, F. Wray, 18th Inf., Ft. Leavenworth, Kan.; Broderick, Wm. J., Aviation, San Diego, Cal.; Dahl, Wilhelm, Navy; Dolliff, Roger P., University Base Hospital No. 26, Ft. McPherson, Ga.; Druschel, L. G. Perry, Marines; Hannsen, C. F., Dunwoody, Navy; Kelly, Olaf R., Ordnance Corps, Camp Meade, Md.; O'Connor, Vernon, Aviation; Quinn, C. L., 3rd R. O. T. C., Camp Custer, Battle Creek, Mich.; Reyerson, Wallace, Aviation; Robertson, James C., enlisted, Jefferson Barracks, St. Louis.

Class of 1919.

Allen, Wm. W., 342d Inf., Recruit Detachment, Camp Grant, Rockford, Ill.; Bain, James, Aviation Section of Navy, Dunwoody; Belstrom, W. A., 1st Lieut., address unknown; Butchart, Ellis J., Aviation, Pensacola, Fla.; Cincera, Edward J., Co. I, 351st Inf., Camp Dodge, Iowa; Cullum, Richard A., 1st Lieut., U. S. Marine Corps, 103d Co., 8th Reg., care Postmaster, New York City; Dahle, C. A., 313th Supply Train, Camp Dodge, Iowa; DeMouly, Leo, Ordnance School, Northwestern University, Evanston, Ill.; Dirksen, E., 3rd R. O. T. C., Camp Custer, Battle Creek, Mich.; Duffy, R. V., enlisted, Engineering Corps; Ekman, Carl Elmer, U. S. Engineers, Co. D., 7th Reg., Ft. Leavenworth, Kan.; Engan, Ramond, 3rd R. O. T. C., Camp Custer, Battle Creek, Mich.; Fallgatter, Russell S., U. Base Hospital No. 26, Ft. McPherson, Ga.; Flaten, M. G., Jefferson Barracks, Coast Artillery; Ferch, A. J., 20th Co., 5th Reg., U. S. Marines, France; Gillen, Chas. W., 2nd Lieut., 338th F. A., Camp Dodge, Iowa; Graven, Henry N., 24th Engineers, Camp Dix, N. J. (probably in France now); Graven, J. Howard, drafted, Camp Dodge, Iowa; Hall, Howard L., government service, Washington, D. C.; Heutges, Romane, enlisted; Hoitomt, A. E., 3rd R. O. T. C., Camp Custer, Battle Creek, Mich.; Hollenbeck, G. M., Marines; Huntington, C. E., Marines; Iverson, C. J., Ordnance School, Northwestern U., Evanston, Ill.; Kempton, H. S., enlisted; Kerfoot, Paul, Q. M. C., Camp Dodge, Iowa; Kleffman, E. W., 1st Lieut., 42d Regulars, Inf., Camp Dodge, Iowa; Kulberg, S., enlisted, Aviation; Lindeman, A. H., Artillery, Fort Sam Houston, Texas; Lohman, Louis H., Corp., 11th F. A., Batt. F., Douglas, Ariz.; Matson, S. S., drafted, Camp Dodge, Iowa; Meyler, Geo. A., 1st Lieut., Arco, San An-

tonio, Texas; Montgomery, H. L., 1st Lieut., Reg. Army, Fort Bliss, Texas; Moore, Frank G., 1st Lieut., France; Nolan, J. L., Marines; North, Earl J., 2nd Lieut., Artillery, France; Oehler, K. F., 25th Engineers; Pool, Harry, civilian clerk, Q. M. C., France; Robb, J. D., 1st Lieut., Reg. Army, 11th F. A., Douglas, Ariz.; Rogstad, E. A., Marines; Sellars, G. B., 20th Co., 5th Reg., U. S. Marines, France; Severson, E. S., Radio Corps, Navy, Harvard University; Skanse, P. E., Aviation School, Austin, Texas; Smith, J. Dayton, 5th Reg., 2nd Co., Base Bat., U. S. Marines; Spriggs, W., 2nd Lieut., 338th F. A., Camp Dodge, Iowa; Stillwell, P. J., Ordnance School, U. of Chicago, Chicago, Ill.; Timerman, Gates, 1st Lieut., 339th F. John A. Lomax, the Cowboy Songs Man of Chicago, spent two days at the University last week. He spoke before Professor Beach's ten o'clock class in poetry, taking as his topic, the negro "spirituals." At four o'clock Wednesday afternoon he gave a public address in the Little Theatre which was comfortably filled. The audience was delighted with the entertainment. Thursday noon Mr. Lomax appeared before the students of the school of agriculture at their last chapel exercises and received a warm welcome there.

Captain Chute, one of the few surviving officers of the First Contingent, spoke at the University last Tuesday noon. Captain Chute was at the front for more than two years and his ability to give a vivid picture of his experiences has made him a very popular speaker.

Israel Sher, a former student at the University, who enlisted at the outbreak of the war between the U. S. and Germany, visited the University recently. So far as is known Sher is the only University man in the submarine service and he says:

"There is no joy equal to that of taking a dive of 200 feet in one of Uncle Sam's latest submarines. It has all the real thrills of a big job. It may be exciting in the trenches but I bet I got more thrills from lying on the bottom of the Connecticut river, while taking my training than any of the boys who are 'over there.'"

THE MINNESOTA ALUMNI WEEKLY

THE ALUMNI WEEKLY MAKES AVAILABLE FOR EACH ALUMNUS THE RESULT OF THE UNITED ENDEAVOR OF ALL ALUMNI TO KEEP IN TOUCH WITH EACH OTHER AND WITH THE UNIVERSITY

VOL. XVII

APRIL 1, 1918

No. 25

Office: 203 Library Building, University, Minneapolis, Minn.

Published by the General Alumni Association of the University of Minnesota.
Entered at the Postoffice in Minneapolis as second-class matter.

Life subscription, \$25; annual subscription \$2.50.

Life members are allowed a special discount of fifty cents in consideration of payments already made.

Unless subscribers direct a discontinuance it will be assumed that a renewal of subscription is desired.

ADVISORY EDITORIAL COMMITTEE

Benjamin Drake, Chairman.

Hope McDonald, Alice Rockwell Warren
Stanley B. Houck, Harold J. Leonard.

Editor and Manager,
E. B. Johnson.

It is the purpose of the Weekly to present facts upon which the alumni may base their own judgment; to offer unbiased interpretative comment upon the facts in order that they may be better understood; to reflect editorially, the opinion of the alumni as faithfully as possible; to be always open for communications from any alumnus who desires to say anything upon a matter of interest to the alumni, as alumni. Constructive criticism, news and new subscribers are each helpful and welcome, and combined, they improve the service rendered by the Weekly to its subscribers.

HIS LIFE FOR HIS COUNTRY.

Clarence A. Nelson, Dent, '17, was killed in Italy, March 29, when his airplane fell 4,000 feet. Nelson enlisted as a machinist's mate in naval aviation and received his training at Pensacola, Fla. He is the son of Mr. and Mrs. James Nelson of Crosby, Minn.

GOW AND NELSON WOUNDED.

Captain Arthur S. Gow, former rooster king, and Private Ewart G. Nelson, both of the 151st F. A., are reported to have been wounded in action. Gow's home is in Hib-

bing, Minn., and Nelson's at 4252 Colfax avenue south in this city. Nelson was a freshman in the school of mines.

DECORATED FOR GALLANTRY IN ACTION.

Colonel George E. Leach, commander of the 151st Field Artillery and a former student at the University, has been given the Distinguished Service Cross for gallantry in action in the Luneville sector in France.

Lieutenant Colonel William H. Donohue has received a similar decoration. Donohue was also a former student and is an officer in the 151st Field Artillery.

Lieutenant John P. Rosenwald of the same regiment's medical division, was likewise decorated. Twice during a heavy fire Lieutenant Rosenwald entered the fire zone to care for the wounded.

Colonel Leach and Lieutenant Colonel Donohue received their decorations for their handling of a battery during action.

Mrs. Rosenwald, wife of Lieutenant Rosenwald, lives in this city at 627 East Seventeenth street.

NO CELEBRATION—NO INAUGURAL.

As announced in the last previous issue of the Weekly, the regents have decided to do away with the celebration which had been proposed to commemorate the completion of the fifty years of existence of this institution. This means that the inauguration of President Burton will likewise be indefinitely postponed. This decision was undoubtedly wise. With all the things which are taking so much of our time these days, all concerned will feel a real sense of relief that this decision has been made.

It is an interesting fact that the University of California is likewise completing its first half century. The California Alumni Fortnightly has just issued a beautiful number in commemoration of this fact.

RANGE ALUMNI TO ENTERTAIN BURTON.

The Range alumni will give a dinner in honor of President Burton, at the public library in Hibbing, Minn., April 3d, at six o'clock. James Mikesh, dean of the junior college of that city, is in charge of arrangements. Special invitations have been sent out to all alumni living on the range whose

addresses are known and others, who may have been missed will be more than welcome if they will send word to Beatryce A. Finn, assistant secretary of the association, Hibbing.

This is President Burton's first visit to the Range since he became president of the University and those in charge hope and expect to make it a most enjoyable affair.

UNIVERSITY STUDY GROUPS.

The University discussion groups will take up the third chapter of the Minnesota Outline for discussion groups, which has been prepared by President Burton. This chapter deals with religion as related to the war. When President Burton met the leaders last Monday noon he presented his outline which suggests such subjects as, What would become of faith if the Germans were to win? How is the war affecting religious creeds? What are we to think of the kaiser's claims regarding God and the German arms? Has the American a right to pray for victory? He also suggests other lines for independent study and thought, as: Elements of truth in the great world religions; The evolution of religion; The assumptions of religion.

It is felt by all concerned that these study groups are wonderfully inspiring and helpful and that the outlines for such discussion being developed here will prove to be worthy of the best traditions of the University.

ALUMNAE CLUB MEETING.

The annual meeting of the University of Minnesota Alumnae Club will be held at the Leamington Hotel on Saturday, April 6, 1918. The program includes a luncheon at one o'clock to be followed by a business session and entertainment. Mildred Ozias DeVries will sing, accompanied by Margaret Hicks, and Bertha Marie Brecht will read. All reservations should be sent to Mrs. F. C. Rodda, 2512 Bryant avenue south.

The committee in charge includes Mrs. R. M. Thompson, Mrs. F. C. Rodda, Mrs. E. L. Noyes, Mrs. W. I. Gray, Mrs. J. F. Bernhagen, and Misses Hazel M. Crolius, Beatrice Northey, Anna Bell Thomas, Estelle Conway, Elizabeth Foss, Bertha Warner, Helen Lovell.

WOMEN WANTED.

The government has asked for women for war service, particularly women physicists for work in the bureau of standards. The work will be in the laboratories at Washington, D. C. At least one full year of college work in physics is required. Call 129.

Women bacteriologists are also greatly needed. Applicants must be qualified to do diagnostic bacteriological and pathological work. Work will be in various cantonments of the United States.

Written application should be made to

the secretary of the General Alumni association, stating residence, date of birth, preparation for line of work, present occupation and salary, when work could be begun by applicant. Salaries from \$730 to above \$1,300. These positions are not for the period of the war only but in many cases, especially in the bureau of standards, will be permanent.

SCHOOL OF AGRICULTURE COMMENCEMENT.

The program was, as always, practical and extremely interesting. Carl Anderson gave a demonstration of how to blast out stumps and reclaim vast areas in this state still unreclaimed. Milton Jenson presented a replica, ten times as large as the usual laboratory-sized "bomb calorimeter" and showed how it is used to determine food values. If he was right these "bombs" are going to effect a peaceful revolution in our daily food menus. Another demonstration was put on by Olive Olson, who showed how it was possible for women to make sugar syrup, for cooking purposes, from sugar beets raised in their own gardens. Another graduate, Elmer Starch, showed that with corn at \$1.80 a bushel and nine pounds of pork at \$1.49 the farmer lost his time and 31 cents on each bushel of corn fed to the hogs. Orma Houle, by the aid of living models, demonstrated material conservation by conservatism in dress. The high cost of living was given a visual demonstration when Oscar Hjermsstad loaded into one balance the causes that produced high prices and sent the other arm of the balance kiting toward the ceiling.

This was the 29th annual commencement for the school and ninety-two received their diplomas—less than half the usual number. One blue jacket was in the line to receive his diploma.

President Burton gave a short inspiring talk. He has been addressing the students of the school of agriculture a number of times recently upon the Meaning of America—continuing the theme from week to week. The reception given him by the students of the school shows that he has a real hold on them and that they have a genuine regard for him as a man as well as a president.

The Class Play.

The senior class play, "As the Twig Is Bent," was given in the auditorium on Monday night to a large audience and was a financial success. The play was written for the school of agriculture by Miss Estelle Cook and was chosen for presentation by the class of 1918 because it represents problems which are often encountered in the rural districts such as those to which most of the school graduates are to return.

The play, which is written in three acts, takes place in a rural school "somewhere in Minnesota," in the teacher's boarding place, and in the new teacher's cottage. A progres-

sive, young teacher, who wishes to make school vital to the pupils, encounters many difficulties. The women of the district criticize and the school board discharges the teacher. One student, however, has been inspired to seek further education although advanced in age beyond his fellow students, and is graduated from the school of agriculture.

In the last act, Larry, the school graduate, now a man, has educated public opinion to the point of building a consolidated school. Miss Best, the discharged teacher, is given a position as teacher and a love affair develops. Larry tells Miss Best that he will demand her resignation in the spring. The play ends with her promise to "think about it."

PLANT PATHOLOGISTS' PLANS.

Plant pathologists representing eight states—South Dakota, Montana, Minnesota, Nebraska, Kansas, Iowa, Colorado, and Missouri—held a meeting of the Great Plains Pathologists at Lincoln, Nebraska, recently.

Representing Minnesota were: Dean E. M. Freeman, Prof. E. C. Stakman, G. R. Bisby, and A. F. Thiel. Other members of note were: H. H. Wetzel of Cornell university, chairman of the War Emergency Board; J. D. Kern of the Pennsylvania State college; J. P. Lyman of the department of Agriculture, members of the board, and W. W. Gilbert and H. B. Humphrey, of the U. S. D. A.

Plans for consolidating war emergency work were discussed in an attempt to organize research work so as not to duplicate effort on problems unless necessary, and to keep on the lookout for new diseases and find preventatives before it is too late. Stem rust was discussed by Professor E. C. Stakman, and Dean E. M. Freeman talked on methods for its eradication.

It was pointed out that women may be of service this year in helping to reduce the grain loss, by working in laboratories, doing some field work, and especially experimental work.

The question of publicity was discussed, and plans were made to bring the importance of the control of plant diseases before the people by lectures, displays, moving pictures, and personal work.

TO THE SERVICE FLAG.

There is an ancient air of peacefulness
 Within this room. One might forget the war,
 The strife of nations, and the world distress
 Here, where a student bows above his lore,
 And yet, not even here. The sunlight falls
 Upon a flag whose stars of bravest blue,
 Against the dimness of these pillared walls
 Are gloriously deeper in their hue,
 These are the stars of faith—the pledge of youth
 To do its service in the greatest cause:
 Defend the ancient sanctity of Truth,
 Preserve the power of eternal laws.
 Then let this be the measure of thy might,
 O Minnesota, that the world may know
 These stars of blue upon a field of white
 Are symbols of thy pride and not of woe.

—Muriel Fairbanks, in the Minnesota Daily.

BRAND'S BUREAU BUSY.

We have had occasion before to comment upon the war service which is being rendered the country under the efficient leadership of Charles J. Brand, '02, of the bureau of markets. The department has just issued a 49-page bulletin devoted to outlining, very briefly, the various lines of war work in which the department has a leading part. The list includes:

Market news service on fruits and vegetables; Emergency work in marketing live stock and meats; Emergency war work in the marketing and distribution of grain by bureau of markets; Market news service for dairy and poultry products; Assistance in seed marketing—a new seed service; Food products inspection service and standardization activities; War emergency work of the transportation division; Improving marketing conditions in cities; Sale of nitrate of soda to farmers; War emergency food surveys.

KOENIG KNOCKS KAISER.

Professor A. E. Koenig was given another short leave of absence to make a trip in North Dakota to deliver patriotic talks in German in the strong German communities in that state. In speaking of this trip Arthur R. Rogers, Law '91, says:

"The speaker made plain to the German-born present that they all had left Germany to seek better conditions in this nation, and that almost without exception they had waxed prosperous and found the happiness they sought; that their children attended American schools and universities, and had been given the same unqualified opportunities as every other American child; that this has thoroughly proven to be the promised land, and that it is their home and the home of their children, and that it is their duty to support the government without reserve."

The success of the meeting is evidenced by the fact that resolutions were adopted by a unanimous vote, whereby these citizens of German birth and descent pledged their loyalty and earnest support to the government.

"In checking up the attendance," said Mr. Rogers, "I found that one party of Germans had driven 92 miles, another party 77 miles, and many parties 30 and 40 miles to attend. In the audience were many German women who brought their knitting with them."

Mr. Koenig also spoke at Bismarck, N. D., and at 12 smaller communities, delivering an average of three speeches each day.

The young women of the University are attempting to raise five hundred dollars for missionary purposes. One hundred dollars were pledged the first day and the campaign is to go on. The money when collected will be used through the Y. W. C. A. in China.

SCHOLARSHIP STANDINGS OF SORORITIES AND FRATERNITIES.

The following report from Dean Nicholson is somewhat interesting. The sororities have an average standing of 1.27 as compared with .968 for the fraternities—substantially one-third higher. The figures indicate nothing absolute—they are merely relative.

Letters on Alumni Cooperation

Two Things to Do.

Winona, Minn., Oct. 9, 1917.

The Committee on Alumni Co-operation:

In reply to your request of Sept. 7th, I should like to make two suggestions, one directly applying to the expansion of the college of education and the other to the general expansion of the University.

Teachers all over the country are feeling the need of advanced education. Even grade teachers are more and more seeking better training, not being content with their normal school graduation. Many of them find that promotion depends upon going on for a college degree. But where can they go? Teachers' College, Columbia, has been forced to bar undergraduates so that their elementary course is a graduate course. The only other place at the present time is Chicago University. Large numbers of teachers leave Minnesota each year for advanced training. Many more would no doubt like to get such training if it were possible to get it without going so far. A well organized elementary department in our own college of education would no doubt be very popular with large numbers of our grade teachers.

Then there are a number of men and women who attend our University to get training for supervision work that they may qualify for grade principals and supervisors. Very few universities in America are giving better theoretical training for this kind of work than the University of Minnesota. But we are weak on the practical side. If these students could have the opportunity to work these problems out in a good educational laboratory it would mean much more to them.

The training of grade teachers and of supervisors both demand a demonstration

school. But this is not all. Many vital problems are now confronting the schools of Minnesota. If laboratory work and research work are of importance in other fields they are certainly of importance in the field of education. So that it would seem that an experimental and demonstration school organized under the direction of an elementary department would be of very great importance to the educational development of the state. Such a school could be organized through the co-operation of the University and the city to the advantage of both and with but little additional expense to either.

The University is now doing extension work which is no doubt very valuable. But it at best is a mere make-shift, and can reach a limited number of people. At the same time the enrollment in the freshman class is so large, and the conditions in a large city are such as to make it very questionable as to whether or not the University should continue to encourage so many students in coming there for their first year of college work and probably for the first two years.

At the same time the larger cities are feeling the need for providing at public expense and in their own community an opportunity for college work. To this end we now have half a dozen junior colleges established under the direction of the State department of education. It would seem to be true that the University should have the direction of this work, that it should establish junior colleges in the various parts of the state and consider these as junior departments of the University.

Free tuition should be given. No one from that district should be admitted at the

main University for freshman work. The work should be organized so that there would be no handicap in coming from one of these schools to the University. Extension work of this kind, and from these schools as centers would reach the entire state. They would all be definitely organized, and intelligently directed. There are so many hundred reasons why the junior colleges of the state should be organized in this way rather than in the present haphazard way; so many reasons why they should be organized into one system now while they are young, that a listing of the arguments would seem unnecessary. The time is now opportune for the University of Minnesota and the state of Minnesota to do a unique job in college extension work.

Yours very truly,
ELLSWORTH LOWRY,
 Principal of the Training School.

Alumnae Should Recognize Obligations for Public Service.

Barnesville, Minn., Sept. 14, 1917.

The Committee on Alumni Co-operation:

In answer to your circular letter of the 7th inst., I wish to say that the specific questions asked in that letter have served to show me how little I know about the University and the scope of its work. I read the Alumni Weekly and try to keep in touch with the University now and have always done so since my graduation in 1903, but the problem is a big one and it has to be gripped at closer quarters than is done by the average alumnus.

I graduated from the law college, and I have come to the conclusion that while I was in the college, at least, it had the faculty and the equipment to do good work and did so, except that I would say that it was in showing its students the remedial side of the law, and that the entire question of briefing and appeals was touched upon too lightly. I believe there has been more stress laid upon the above phases of the law in later years.

There is just one general observation that I want to make and that is one that may not apply all over the state. I do not believe the University colleges, except the so-called academic course, succeed in implanting in their graduates any adequate idea of their duty to take off their coats and assist in doing such community work as there is to do in the field they choose to work in. The first and only idea is business, and the fact that there is an immense amount of work in every urban community, at least, that no one pays or thanks one for doing, is there and should be done, seems to pass unnoticed.

If University graduates could have brought home to them in the formative part of their years just how great a privilege they have over those who have only the chance to graduate from the "school of hard knocks," they would not hesitate to offer themselves as freely for the unpaid class of

work as they do for the other. It is the plain duty of every alumnus to make his business to get busy and render to the state of Minnesota or other state, something more than even first-class technical or professional work for which he is fully paid by the one engaging him, because every "selfmade" man of the proper stuff is doing that much every day.

I wish that the answers of those alumni who give the fullest and most wise answers to the questions asked in your letter might be published in order that all of us may get the benefit of it; could not the Alumni Weekly publish a limited number of such responses?

N. B. HANSON, Law '03.

Responsible for Training Leaders.

Wooster, Ohio, Sept. 17, 1917.

Committee on Alumni Co-operation:

Continuity of administration, policies, etc. (in general) are desirable leading toward more and more development of advanced work at the University—for the state's advanced students as well as proficiency in academic education; a "broadening-out" into post graduate work in all professional schools is desirable such as has been so well begun in the medical department.

Research work in the last year or two in professional schools should be continually emphasized in order to give a student a chance to imbibe the spirit of attainment of knowledge and of a profounder scholarship, also to broaden his horizon and aspirations. The mere making of routine professional men whose sole object is to make money will not conduce to the best development of the citizenship of the state of which the University is a part.

This can be attained by liberal allowances in time, equipment and funds for those who show inclination and aptitude toward productive scholarship.

The sending forth of future leaders in thought and professional fields, can, in one respect, be best furthered by having such students come in contact and work with and under men who show productive scholarship. The development "by doing" of such latent powers will give students an impetus which will carry them on to achievements which are more than routine.

J. O. HALVERSON.

Wants Training in Business Law.

Minneapolis, Minn., Sept. 14, 1917.

The Committee on Alumni Co-operation:

The writer is graduate of the school of mines and engaged in engineering and contracting business. It is my observation that the most general criticism of the engineering profession is that engineers as a class lack business sense and judgment. I believe this lack can be traced to their education, largely. In the writer's opinion, it is a very serious fault in the profession as

a whole, since, unlike most professions, engineering as a rule is very closely associated with the business of making money in the last analysis. Obviously men who have little or no business sense of judgment are not well qualified to serve their clients in matters which pertain to the financial success of large industrial and other undertakings.

If I should, with my present knowledge, enter the same course of study which I pursued at the University, I should want to include in it a brief course in business law, banking and economics, and possibly civil government. In my opinion a general knowledge of business law is indispensable to an engineer of high standing.

Yours truly,

WALTER H. WHEELER.

Engineers Should Have More Training in English.

Duluth, Minn., Sept. 4, 1917.

To the Committee on Alumni Co-operation: I have your circular letter dated September 7, 1917. There is only one suggestion that occurs to me at this time. It is that courses in English be given in the engineering schools. It has been my experience to note that the strictly technical education of our engineering school graduates is just about as good as can be obtained anywhere. Unfortunately many of our engineering graduates are incapable of expressing themselves clearly and effectively. This of course hinders them in marketing their professional services and in some cases robs them of success.

Very truly yours,

THOROLD F. FIELD,
School of Mines, 1905.

FROM LIEUTENANT HALE, MINES '04.

The following extracts are taken from letters written by William H. Hale, Mines '04, to Dean Appleby, of the school of mines.

"It was my experience at the close of the training camp at Fort Snelling to be commissioned a second lieutenant in the quartermaster corps. Like a good many others I was disappointed in this as I had set my heart on becoming an artillery officer. At the same time I felt that "beggars might not be choosers" and was glad to take what I could get. Anything to be at work for Uncle Sam and Old Glory in this day of need. A large proportion of the older men with business experience were likewise commissioned, and of these a good many preferred the quartermaster work.

"I was ordered to Camp Dodge, ten miles out from Des Moines, Iowa, on the 29th of August. This marked the opening of one of the very large concentration camps. The first sight of it was enough to make the heart quail as the camp site, buildings, roads and everything presented a most confused and unfinished appearance. Over five thou-

sand workmen and an equivalent number of teams, ditching machines, etc., were at work and the fine sand was blowing everywhere. There were no screens on the windows where we took up temporary quarters in one of the barracks, and the flies threatened to eat up all our food.

"After ten days on the drafting board I was given the outside inspection and reporting work. A good saddle horse was furnished for my special use and I was able to enjoy the next two months of such duties very much. The first feeling of disgust over the appearance of the camp gave way immediately to an interest in the high pressure work which was going on to finish the construction work, and as unusual cold weather swooped down on us the first of October, the heating department needed to work at specially high pressure. I could not be satisfied to simply report on the progress made by the contractors but managed to do considerable "trouble shooting" myself. At least it made a good excuse for frequent rides from one end of the camp to the other, a distance of four and one-half miles.

Written from Camp Joseph E. Johnston, Jacksonville, Fla.

"This is one of the newest camps hastily constructed by the U. S. government for the training of troops. Here everything is given over to the instruction and drilling of officers and men in the quartermaster corps. It is intended to accommodate 1,600 student officers and 20,000 men. Construction is about 70 per cent finished.

"The location is south from Jacksonville about 10 miles, on the west bank of the St. Johns river. Streets are laid out and buildings erected according to some well ordered scheme which I am not familiar with. However, the best location, near the river and a park-like grove of trees, has been reserved for 'our' school, and no one could complain on that score. It certainly looks good to one who has come from a camp where trees are scarce and water not at all. You should see these great live oaks hung with festoons of Spanish moss to appreciate them. Then add a sprinkling of tall southern pine and some squirrels scampering around, with a beautiful sheet of water beyond, and you have a scene worth traveling miles to see. It looks and feels particularly good when we read of blizzards raging, and below zero weather, in the northern states.

"The course for Q. M. second lieutenants is to continue for sixty working days, or about ten weeks in all. Twelve days will be given to each of five subjects: (1) administration, (2) finance, (3) construction and repairs, (4) supplies and subsistence, and (5) transportation. There will be lectures and practical problems and examinations every fortnight. Everything will be on a competitive basis, with 12 per cent of captaincies in sight. No previous records to be given consideration. So it is like starting training at Fort Snelling all over again."

PERSONALS

'88 Ex.—Clifford L. Hilton, attorney general is an avowed candidate for the republican nomination for that office. It will be remembered that Mr. Hilton was recently advanced to the office by appointment following the death of Mr. Smith.

'00 Law—B. B. Gislason of Minnesota is the democratic candidate for attorney general of Minnesota.

'01-'07—Captain George N. Northrop is the way he signs himself these days. The promotion came a few days ago as a result of the good work he has been doing in the intelligence department of the 88th division of the army. Captain Northrop is located at Camp Dodge, Iowa.

'02, Med. '05—Lieut. Paul F. Brown, M. R. C., received his captaincy in February and his promotion to regimental surgeon of the 361st Infantry, Camp Lewis, Wash.

'05 E. E.—E. H. LeTourneau is an ensign in the navy, his address being U. S. S. South Dakota, care of Postmaster, New York City. Mr. LeTourneau enlisted in the service at the beginning of the war. His vessel sailed from the Pacific coast through the Panama canal and spent some time chasing raiders off the east coast of South America. In recent months they have been conveying transports across the Atlantic. Mr. LeTourneau has been visiting in Minneapolis for a few days.

'05, Law '07—Chas. P. Schouten has been appointed captain in the home guards on the staff of Adjutant General Rhinow.

'09, '15—W. G. Bolcom has changed his address to Bemidji, Minn. Mr. Bolcom has been superintendent of schools at Staples for the past two years.

'10 E. E.—W. E. Conley and R. P. Burrows, E. E. '11, are heads of divisions at the Nela Park central laboratory of the National Lamp works. One of the recent achievements of Mr. Burrows was the development of the incandescent lamp for replacing the arc lamps formerly used with motion picture machines, this single development bringing in a business of more than \$1,000,000 a year.

'10—Wm. J. Hamilton writes from Washington, D. C., as follows: "Please have our address changed on the Alumni Weekly mailing list to 104 The State House, Indianapolis, Ind. We are leaving Washington tomorrow for Indiana where I am to be secretary of the State public library commission. For the past six weeks I have been on leave of absence from the public library here, and working for the American library association visiting the small naval camps from Portsmouth, N. H., to Cape May, to investigate book needs and help organize collections. In the large camps the A. L. A. has buildings and librarians but in

the smaller camps the work is done in co-operation with chaplains, Y. M. C. A. men and the librarians of adjoining towns. Miss Vivian Colgrove, '08, is engaged at the association headquarters in the Library of Congress, helping in the work of selecting and ordering books for the camp libraries. These books are being sent not only all over the United States but to units in Hawaii, the West Indies, and to the various bases across the sea. The work at the French front is being organized by Dr. Wm. Raney of Johns Hopkins University and Mr. Burton E. Stevenson of Chillicothe, Ohio."

'13 E. E.—E. W. Merrill and R. H. Turner, E. E. '16, are with the Minnesota Mazda Lamp factory at Jackson and Broadway, Northeast-Minneapolis.

'14 Eng.—Flying Cadet L. D. Hammond writes: "I have finished my flying here; am now a reserve military aviator, and as such can wear my wings. I am being held awaiting my commission which will be here this week sometime. Do not know to what post I will be assigned from here as yet. The Alumni Weekly is most welcome and I get it every week." Hammond is at San Antonio, Texas.

'14 Law—Rollin L. Smith, of the attorney general's staff, has been assigned to serve on the commission, created by the legislature of 1917, to revise and recodify the fish and game laws of this state. Earl Simpson, '00, Law '02, of Winona, is also a member of this commission.

'15 Eng.—E. H. Adler is operating the Electric Light and Power plant at LaMoure, N. D.

'15—Elmer T. Fegan and Merton Dunningan have gone into service in the sanitary corps. They will go into training for special chemical work at the Rockefeller Institute in New York City. When they have finished their training they will be assigned to camps or cantonments and will do the chemical work needed by the hospitals and that of a general character connected with the group to which they are assigned.

We recently published a note concerning Major Frank C. Todd who is in charge of the hospital at Camp Dodge, Iowa. The information was taken from another publication. We are informed that the report could hardly have distorted the facts to a greater extent. The following statement is from official sources and may be counted as reliable. The hospital covers 45 not 80 acres; it provides for 2,000 not 1,000 patients; it has a staff of about 200 physicians and a medical corps of about 750 with 200 Red Cross nurses. One thing is evident, that Major Todd has his hands full and is serving the country in a way that makes us all envy him.

'16—B. W. Bierman has asked us to change his Weekly address to 94th Co., 7th Reg. U. S. M. A., care of Postmaster, New York.

'17 Chem.—B. I. Corson has enlisted and will report at once, for training at the Rockefeller Institute in New York City. When he has completed this work he will be assigned to work in connection with some hospital to do the chemical work required by the hospital and by the cantonment with which it is connected.

'17 Ex.—Dean S. Firth and R. S. Bauer, Ex. '18, are electricians on the U. S. S. Mercury, care of Postmaster, New York City.

'18 E.—Melvin T. Northey has been at Asbury hospital with inflammatory rheumatism. At last reports he was making a satisfactory progress.

'18 Eng.—Three senior mechanical engineers, C. Q. Swenson, I. N. Eustis and D. L. Taylor, have left for Washington to take position as engineers of tests in the United States army. These men are all under consideration for commissions as ensigns in the navy, but pending appointment, they will accept these positions in the ordnance department.

'18 Ex. E.—I. D. Sher was a visitor at the University recently. He entertained his classmates by a recital of his experiences on a submarine. Mr. Sher is at present an electrician on a submarine at Quincy, Mass. After a few weeks his address will be care of U. S. S. O-7, care of Postmaster, New York City.

'19 Ag.—Don Shannon writes that there are six University men with him at Vancouver Barracks, where he is stationed with the spruce division of the aviation corps. The list includes Leo Isaacs, R. Backus and Harry Hill, inspectors of spruce; Orie Mundweiler, in the truck squadron, who expects to be called to France soon; Charles McCarthy, third sergeant, and Shannon who is working in headquarters as special order clerk in the vocational office.

'20 Ag. Ex.—Allan D. Collette of the 20th engineers is now in France. He is a member of Company B, 5th Battalion.

Olaf Aamodt, who was on the Tuscania when it was sunk off the coast of Ireland, has written to University friends. The censor cut out all the most interesting parts of the letter. He manages to say he was well and hopes to be able to help put the finishing touches on the huns.

Douglas E. Lurton of East Grand Forks, the twenty-year-old son of Superintendent M. A. '11, and Mrs. F. E. Lurton, formerly of this place, has volunteered for service in the regular army and has gone to Camp Dodge, Iowa, where he expects to become a member of the Ambulance Co. 350, in which his brother Malcolm is a sergeant. These two sons are the only children in this family

and so represent a hundred per cent of voluntary service in the regular army. For the last two years Douglas has been a student in the University of North Dakota, and for one year a member of the editorial staff of the Grand Forks, N. D., Daily Herald.

Frank Cleworth, who was mechanician for the electrical engineering department for several years, is with the 74th Aero Squadron, now located at Call Field, Wichita Falls, Texas.

Lieutenant Palmer V. Mabry, formerly with the agricultural extension division, writes from Austin, Texas, to express his satisfaction with the aeronautical training he is receiving. He is now in the ground school.

George F. ("Mummy") Weisel has been promoted to the rank of major in the 8th battalion of the 20th engineers (forestry) and is now in France.

WEDDINGS AND ANNOUNCEMENTS.

Lieutenant Martin B. Chittick and Margaret R. Greenstate were married at Petersburg, Va., March 20th. They are at home to friends at 640 Washington street, Petersburg, Va. Lieutenant Chittick is instructor in pharmacology in this institution and is now in the sanitary division of the medical corps of the U. S. A.

Captain Edward Hiltner Bertram and Rosalie Marie Williams are to be married April 10, at Charlotte, N. C. Captain Bertram is stationed at Camp Green, N. C.

NELSON WYLIE McLAIN DIES.

Nelson Wylie McLain, director of the University agricultural experiment station 1889-91, died at his home in Hinsdale, Ill., Friday, March 22. Mr. McLain came to the University the year following the establishment of the school of agriculture and was naturally very much interested in the work of the school. Some ten years later, when on the editorial staff of the Chicago Journal he became very much interested in delinquent and neglected boys who appeared in the juvenile court of that city. The idea of founding a school on a farm for the reclamation of these boys appealed to him and Judge Tuthill, of the juvenile court heartily seconded his plans; money was raised to establish such a school. A tract of land was secured at St. Charles, Ill., and the famous St. Charles school for boys became an established fact.

The promise of the movement appealed to others and the state finally took the school over and appropriated money for buildings and support. Mr. McLain was made superintendent, a position he held for four years when he was obliged to retire on account of failing health.

OF GENERAL INTEREST

Winifred Bailey has been chosen president of the W. S. G. A. for the next college year.

The Players, a dramatic club, has about decided to give a play, *The Lion and the Mouse*, sometime during the spring.

The meat shop at the department of agriculture suffered slight damage from fire March 16. The loss was about \$200.

The graduate club held a banquet last Wednesday evening in Shevlin Hall. Dean Arnold of Simmons college was guest of honor.

Professor Blakey is taking a month's rest cure at the Northwestern hospital in this city. His classes are being cared for by other members of the department.

Six hundred books have been turned in to Miss Ina Firkins for the use of the soldiers, by students and faculty members, as a result of the recent call for such contributions.

Louis Hauser won the half-mile event at the indoor conference meet held at Northwestern University March 23. The time was 2:03½. Michigan won the meet and Minnesota ranked fifth.

Professor A. E. Jenks, of the department of sociology and anthropology, spent last week at Camp Dodge, Iowa. He gave four evening addresses upon Americanism, to the men in training at that camp.

The University Red Cross chapter turned out more than its quota of surgical dressings during March. It is an inspiring sight to see more than eighty young women busy as bees without the bees' hum, at work on these dressings.

Bertha Conde, head of the Y. W. C. A. student work in this country, will be at the University April 10 to 14. Miss Conde is an officer of the World Student Christian federation and has traveled in India, Russia and the Balkan States.

Robert McGowan, a senior in the school of agriculture, won the diamond medal contest in extempore public speaking. Mr. McGowan spoke upon Self government. Second honors went to Sherman Johnson, who discussed Fixing the price of wheat.

Dean Sarah Louise Arnold, of Simmons College, Boston, addressed the students at the University Armory last Wednesday. Her message was in the interest of food conservation. Dean Arnold also addressed the economics teachers of the state who attended the state conference.

Mrs. F. M. Warren, '09, and Mrs. Margaret H. Abels, spoke at a luncheon given by Dean Beggs and Miss Ball last Thurs-

day in Shevlin Hall. The purpose was to enlist the interest and co-operation of the deans of the various colleges in Minnesota who were present as guests, in the work of the Women's Occupational bureau of this city. Mrs. Burton was also present as a guest.

On Saturday, March 23, the senior electrical engineers were treated to an inspection trip through the Minnesota Mazda Lamp Works by courtesy of W. M. Skiff, a representative of the central engineering headquarters for the National Lamp Works.

H. M. Turner, instructor in electrical engineering, is quarantined at his home, having an attack of scarlet fever. He is reported as being able to sit up part of the time. The other members of the department are carrying his work at the University.

The employment bureau at the University is co-operating with the State Federation of Labor to secure University students to work on farms this summer. The shortage of labor makes this a lucrative proposition from the standpoint of the men and is a distinct contribution toward helping to win the war.

The Junior Council of Defense is urging the young women of the University to begin at once Americanization work and preparation for other lines of work to be pursued during the coming summer. Classes will be formed to give the necessary instruction to prepare them for the duties to which they may be assigned.

The University athletic association voted an "M" to each of eight basketball players at a meeting held last week. The men included in the list are Captain Rony Gillen, Norman Kingsley, Neil Arntson, Alfred Schroeder, Conrad Eklund, Miles Lawler, Sig Williams, Erling Platou. The captain for the next year will be elected at a meeting of the team to be held soon.

Professor W. H. Schofield, of Harvard, spoke in the Little Theatre last Tuesday noon upon the necessity of winning a clean cut victory in the present war. Dr. Schofield made his trip among the colleges of the middle west under the auspices of the National Security League.

Saturday afternoon, March 23, the senior electrical engineers made an inspection trip through the plants of the St. Paul Gas Light Co., at the invitation of the company. Among the electrical engineering graduates with this company are W. C. Beckjord, E. E. '09, Theodore Ramm, E. '13, K. J. Mertz, E. '14, and H. B. Wilcox, E. E. '14.

Professor J. J. Flather, head of the department of mechanical engineering, spoke to the freshmen engineers at their regular tech-

nology lecture Tuesday afternoon upon "The value of engineers to society," and explained how the large industries, especially ship building, had been developed by the engineer.

Dean Alfred Owre, of the college of dentistry, representing the Dental faculties association of American universities attended the meeting of the Dental education council of America last week. The meeting was held in New York City and members of the staff of Surgeon General Gorgas were in attendance. While in the east Dean Owre will attend dental clinics in New York and Boston.

"The cost of milk production" is the title of Bulletin No. 173 of the agricultural experiment station. The bulletin was prepared by Professors Peck and Boss of the division of agronomy and farm management, and is presented in two parts, the first covering the factors of cost and the second, the application of the factors in determining the cost of milk at Northfield, Halstad and Co-kato. Thirty-six pages, charts, tables and maps.

Professor A. M. Bull was elected president of the School of Agriculture alumni association at the meeting held last week. Dean Thatcher talked of the future of the school and predicted sweeping changes in the curriculum to be brought about by the operation of the Smith-Hughes bill. President Burton spoke emphasizing the point that the one duty next at hand is to win the war—all else must bend to this necessity. Mr. Drew reported upon the alumni.

Forty men will begin their training at the college of engineering on the main campus April 8. This is merely a beginning. It is probable that the number will be increased to 500 June 8. At the same time five hundred new men will replace the 500 that begin their training at the department of agriculture April 8. It is probable that from now on there will be 1,000 men continuously in training as mechanics for war service, until the end of the war. The University stands ready to devote all its energies if called for, to this end.

The twelfth annual commencement of the University school of agriculture at Crookston covered the period from March 24 to 28. Twenty-two received diplomas, seven received teachers' training diplomas and five advanced class certificates. Saturday, the 23d, occurred the field day meet; Sunday the commencement sermon was delivered by Reverend W. E. Dudley; Monday came the musical recital; Tuesday there was the reception to the graduating class; Wednesday saw the inter-society debates and a cantata. Thursday was the big day—the class exercises came in the morning and graduation in the afternoon. The school and alumni dinner was held at six o'clock and the get-together followed at 8:30.

Professor Adolph F. Meyer, associate professor hydraulic engineering, has accepted a position as engineer for the Minnesota-Ontario Power company and will resign his position on the faculty probably, at the end of the current year. Professor Meyer has been a member of the Minnesota faculty for the past five years. He has made a study of the district to which he is going and is particularly well fitted for the duties of his new position. He is recognized as an authority upon the branch of engineering in which he is specially interested and his resignation will leave a place hard to fill.

An all-education banquet and dance was held Saturday, March 23, in Shevlin hall. President Burton spoke on war conditions, and Dean L. D. Coffman on present educational problems. After the banquet it was announced that all the guests had been drafted, and they were made to report at once for examination in the Education building. Here everyone was called upon for a stunt, and much amusement was derived from the actions of the performers. Professors W. D. Reeves and C. L. Harlan had an impromptu debate on the subject, "Resolved. That bacon rind makes better fish bait than worms." Professor Harlan defended the negative and won. Professor M. J. Van Wagenen led an invisible choir. A relay "dress-up" race between faculty women and students occasioned much merriment.

PAUL A. SCHMITT, Music Dealer. :-:

729 Nicollet Avenue, Minneapolis, Minn.

THE DESTRUCTIVE BARBERRY.

The pathologists of the North Central states east are strongly in favor of a forceful campaign for the eradication of the common barberry as a step in the fight against wheat rust. E. C. Stakman of the division of plant pathology has just returned from a trip to Wisconsin, Illinois, Indiana, Michigan, and Ohio, where he has been organizing the work for the campaign, and consulting with various pathologists in regard to war emergency measures.

Conferences are being held at intervals in various places to organize the work so that the experiment stations in each state will be set to work on the same problems. This concentration of effort will equal many years of ordinary investigational work. The information from each station will be transmitted to the war emergency board, which will summarize the results.

Startling figures compiled by the board have revealed the heavy losses in grain due merely to preventable disease. The following figures show the loss for 1917 in the Great Plains region, comprising Minnesota, Montana, North Dakota, South Dakota, Wyoming, Colorado, Missouri, Iowa, Kansas and Nebraska: Wheat, 20,000,000 bushels; rye, 2,000,000; barley, 5,000,000; oats, 41,000,000; corn, 51,000,000; potatoes, 10,000,000.

TALKS ON BELGIUM.

Mr. Gustav Van Roosbroeck, of the Romance languages department, recently gave a talk to students of that department, based upon his personal experience in Belgium. He gave a brief history of Belgium and of Belgian literature, and then told of the first days of the German invasion and of the resistance of the Belgian army.

He was wounded while fighting, and was sent to a hospital in France, and there received his invalid's discharge.

"When one considers that Belgium is only one-fourteenth the size of Minnesota, and yet had a population of more than six million people at the outbreak of the war, one can get some idea of the density of the population."

CAPTAIN AMUNDSEN, EXPLORER.

Captain Amundsen is about to start on a new trip of geographical and metrological exploration through the Arctic region, that will last from three to six years. He has a new ship ready that is practically immune to ice dangers. This ship will drift onto the ice floes and float along with them. The only way the ship can be sunk is through ice sticking to the sides. Captain Amundsen said that he has had to abandon his former plan of using aeroplanes for pilots.

In his address at convocation Captain Amundsen, discoverer of the South Pole, told how he welcomed the offer to visit the allied armies in action, after hearing of the

horrible ravages of the Germans. His fondest hopes were realized. "When visiting an American camp," he said, "I found business methods everywhere in evidence. Everybody was on the jump."

Passing over the field where the great battle of the Marne was fought, and visiting the present battle lines, he said that he began to realize the great, heroic task that the United States had undertaken. While at the front he had the pleasure of seeing a French party chase some Boche raiders behind their own lines.

Captain Amundsen said his speech would be incomplete without giving some recognition to the French soldiers who have borne the great brunt of the war, have seen their homes wrecked, comrades killed, and have fought in the mud soaked trenches; but through it all have retained the look of men, brave, resolute and confident.

CONFERENCE OF DEANS OF WOMEN.

Miss Katherine S. Ball and Dean Gertrude H. Beggs were hostesses at a banquet which was held last week in Shevlin Hall in conjunction with the conference of the Women's Occupational Bureau. The deans of women of various colleges who are members of the executive committee were the guests.

Mrs. Marion LeRoy Burton, Dean Gertrude H. Beggs, Miss Katherine S. Ball, Mrs. Frank M. Warren, Miss Mary L. Benton, Miss Louise Young, and Miss Margaret Hutten Abels were the speakers.

Among the deans who attended the conference were Miss Sarah Louise Arnold of Simmons College of Boston; Miss Louise Young of Hamline; Mrs. C. W. Williams of Macalester; Miss Mary L. Benton, of Carleton; Miss Gertrude L. Hilleboe, of St. Olaf's; Miss Natalie Thornton, of the Moorhead State Normal school; Miss Georgia L. Field, of the Mankato State Normal school; Miss Olive Evers, principal of Stanley Hall; Miss Stella Wood, principal of the Minneapolis Kindergarten association, and Miss Lowry, principal of St. Mary's Hall, Fari-bault.

And he was wondrous wise;
He wrote a Thrift Stamp jingle
To win the Edmund prize.Another boy in our town
Was quite a little wiser;
He said, 'The deuce with the Edmund prize,
I'm out to get the kaiser.I have a little Thrift Stamp
No bigger than a blister
He's helping out the soldier boy
And his Red Cross Sister."
