Beauty

and comfort and
performance
combine to
give fine car
quality

Beauty, comfort and performance will be yours in *full* measure when you buy your new Master De Luxe Chevrolet for 1935. It is beautiful in *every* detail of its Fisher bodies. It is comfortable, too, for it has every modern improvement to make your ride smooth—safe—pleasant. And in performance it will be a revelation to you. All these advantages combine to give fine car quality—the *highest* quality Chevrolet has ever offered . . . yet Chevrolet prices are low and Chevrolet operating economy is greater than ever before. May we suggest that you *prove* these facts by your own tests, and choose *Chevrolet* for quality at low cost.

Briefly Speaking

THERE is a belief held by many that college alumni associations are organizations of a "ballyhoo" nature whose chief purpose is to raise a rumpus when the football team loses more than two games in a row. This is as far from the truth as the myth that all college boys wear coonskin coats.

The modern alumni association serves a real purpose or it would not survive. It serves both the institution and the alumni body in a variety of ways and during this period of economic crisis many graduate organizations have rendered invaluable aid to their schools.

As an example of the interest taken in the University of Minnesota by alumni in distant parts of the land we point to the scholarship fund which is being raised by the Minnesota Alumni Club of New York City. The club recently sponsored a concert to raise money for the fund and additions will be made in various other ways.

Alumni units in various communities throughout the state hold meetings with members of the faculty and the administration as guest speakers. Alumni Secretary E. B. Pierce assists in the arrangement of the programs and he is the directing genius of Minnesota's alumni organization which is one of the most genuinely active graduate bodies in the country. The fact of course refutes the assertion that Minnesota alumni are not as interested in their school as are the graduates of other colleges and universities.

Minnesota is one of the two state universities in the United States having weekly alumni publications. The other school is Vermont. The only other schools having weekly magazines are Harvard, Princeton, Yale and Cornell. The other schools have monthly and quarterly alumni journals.

There are Minnesota alumni clubs in Chicago, New York, Washington, Pittsburgh, Fort Wayne, Detroit, Schenectady, Denver, Great Falls, Seattle, San Francisco and Los Angeles.

The annual Alumni Day on the campus on June 17, will mark the sixtieth anniversary of the class of 1875, the oldest of the five year class groups. The two living members of the class are Julius Miner of Minneapolis and Mrs. Henry Williamson of Portland, Oregon.

Plans for a reunion on the campus of the members of the fifty year class, the class of 1885 are being initiated. Howard Abbott of Minneapolis will be at the head of the committee on arrangements. The reunion will be held on Alumni Day, June 17.

Why Go Elsewhere and Pay More?

Invest wisely in yourself and in your earning power. Your summer session at the University of Minnesota pays abundant dividends in preparation for a better position—in a freshened outlook and broader viewpoints—in health and happiness, too. For Minneapolis lies at the threshold of the famed Ten Thousand Lakes vacation land. It's a city of remarkable beauty, cultural and recreational advantages.

A Course for Adult Education Leaders

The University of Minnesota offers for the first time a formal course of training in Adult Education. Special courses in Sociology, Emergency Education, Child Welfare, Public Health, Physical Education, Play Production, Home Economics, Music and many others of value in the adult education movement.

The University of Minnesota offers you a faculty of 250 selected educators, with 600 courses leading to baccalaureate or advanced degrees.

To round out your summer session, there are special lectures, recitals, plays and excursions. Fees and living expenses are moderate.

First Term: June 17 to July 27.

Second Term: July 27 to August 31.

NUMBER 29

Some Opening Remarks—

NEW alumni are aware of the activities of the University in the field of student counseling and vocational guidance. Years ago it was more or less traditional that the high school senior who was somewhat of an orator should rush off to college to study law. A boy who felt that he would enjoy the rough and ready life of the great outdoors would look to engineering as a profession, and youths generally were influenced in their choice of a profession by some such factor. As a result, of course, young men and women have been preparing for work to which they are not suited. And rightly, this matter of vocational guidance has been assuming a place of greater importance in the college field.

For the purpose of applying guidance procedures to educational and vocational problems the University of Minnesota Testing Bureau was established in 1932 as an independent service agency. During the past biennium a total of 1,932 new student cases were counseled and the work of the bureau grows with each succeeding year. The director is Dr. Edmund G. Williamson, a thoroughly trained expert in the field of student counseling and guidance. From Dr. Williamson's biennial report to President Coffman we learn the following about the activities and purposes of the project.

THROUGH this bureau the University attempts to apply to the problems of its own students the knowledge gained from years of experience and experimentation in student personnel work, student selection, motivation and counseling. This bureau is a service agency in the field of education and vocational adjustment; it serves as a clinic in this field in much the same way that the Students' Health Service operates in the field of student health. It has and seeks no monopoly within the field of guidance but is a technical agency available for faculty advisers and counselors in their attempts to help students in their problems of adjustment.

By means of its technical services and its clinical work with individual students, the bureau has come to function as a method of co-ordinating the

guidance efforts of faculty advisers and other personnel workers. Other universities have attempted to secure co-ordination within this area by organic consolidation of all personnel agencies within one department or by centralization of authority over personnel work in the office of one administrator. The University of Minnesota achieves such co-ordination with resulting efficiency by the co-ordination of efforts, not by centralization of authority. The University contends rightly that the effective guidance of students is the sole objective of its personnel work and to this end seeks to focus the resources and efforts of all its personnel agencies upon individual cases. That such a policy is justified in terms of the resulting improvement in work with students, without loss of initiative and individuality of any personnel agency, has been demonstrated. Naturally, a large part of the success of student personnel work is due to the co-operation of the counselors in the individual colleges.

COLLEGE guidance work, as carried on by the bureau, is primarily concerned with problems which cannot be adequately adjusted elsewhere. It attempts a continuing study of the individual and a careful process of guidance toward his satisfactory adjustment in the academic situation, as preliminary to an ultimately satisfactory life adjustment. Such a program includes: an original, intensive study of the individual student which will synthesize interviews, psychological tests, health reports, high school achievement, work experience, and other pertinent data; a recommendation, from this available evidence, as to the broad occupational field which will yield the greatest satisfaction and the type of academic training necessary for this field; the collection of relevant personal data from many sources; the individualized interpretation of occupational and academic requirements and opportunities; a continuing follow-up and repeated study to determine the extent of the individual's growth and adjustment after he has been thus oriented, the establishment of friendly relationships between such students and members of the faculty; and

finally, the co-ordination of all personnel workers dealing with the same student cases. This is essentially the framework within which the University Testing Bureau operates.

At present, the greater part of this counseling is devoted to helping students who are faced with the immediate difficulties of setting up tentative or final occupational goals and mapping out the proper training course for these goals. In the past it has been customary for students and faculty to ignore the need for guidance until some overt maladjustment had developed. Gradually this emphasis will be shifted to preventive work in individual academic and occupational adjustments which will be a natural continuation of the program of the Committee on Vocational Information, the present pre-college counseling work, and the eventual co-ordination and follow-up of counseling begun in high school. Continuity of counseling as students transfer from high school to college is necessary for effective guidance. Perhaps the end result of such preventive work will include a counseling program for all freshmen, but this will transpire as the culmination of the development of the present program, and after an adequate demonstration of the effectiveness of this method of student guidance.

TWO recent improvements in the University's personnel program constitute a beginning of this continuous program. The revised application for admission will provide college counselors with a record of the efforts of high school counselors to help those students who come to the University and will make possible an early attempt on the part of the college counselors to continue previous counseling. Moreover, the new function of the University Testing Bureau's Committee on Vocational Information will permit early identification and work with students in need of guidance. The members of this committee interview each new student at the time of his first appearance on the campus, thus serving as a means of personalizing each student's first contact with the University. During this

initial interview, the committee advisers explain briefly the registration procedure and answer questions regarding the various curricula or refer the student to a college adviser for more detailed information. These general advisers seek to identify those students in need of extensive guidance and to refer them to vocational advisers. After this initial work carried on during Freshman Week and at the beginning of the winter and spring quarters, the University Testing Bureau continues this counseling of these new students on a more extensive scale.

A student in need of guidance may be referred to the University Testing Bureau from a variety of sources. Problems of college entrance usually come from the registrar's office; college probation officers may refer difficult scholastic problems; faculty counselors in the different colleges may refer students with vocational or personal problems; transfer students or students petitioning for registration in special curricula are referred for counseling and recommendations; physically handicapped students are studied for recommendations to the State Department of Re-education; and finally, individual students come voluntarily to the bureau.

REGARDLESS of the source of referral, the student receives, in general, the same type of service. The bureau's clinical tester first interviews the student to determine the nature and extent of his problem. Upon the basis of this information, those tests which will evaluate the educational and vocational possibilities of the student are chosen from a large battery of psychological measuring instruments. Other relevant data are collected, such as health service reports, scholarship standing, entrance test ratings and high school scholarship, and reports, when available, from other counselors or advisers. The collection of this material is made possible by the maintenance of the Faculty-Student Contact Desk, wherein all out-of-routine contacts between students and faculty are summarized for confidential exchange, and through which counselors' requests for relevant information about students are cleared.

Data from psychological tests are but one of several methods of diagnosing the student's educational and vocational possibilities. The bureau does not base its diagnosis and subsequent recommendations upon one test alone but upon repeated testing supplemented by data of other types. The bureau seeks to learn all it can about each of its cases, within the limits of its staff resources and the availability of supplementary data. Thus, when the testing is completed and the student is ready for his interviews, the counselor

has at hand an extensive body of relevant information which, in the subsequent interviews, is synthesized and presented to the student to enable him to make a rational and logical decision about his specific problems.

Three general principles of guidance deserve mention. (1) The function of a counselor is to help the student by providing him with data about his own aptitudes and interests and the educational and occupational opportunities which are commensurate with these abilities and interests. By means of this mutual attack on the student's problem he is able to foresee the outcome of various possible decisions he may make.

(2) Guidance on the college level is most effective when it deals with judgments of success or failure in meeting various standards as they occur in the student's professional training program rather than prognosis of success in subsequent occupational competition. This restriction does not preclude the latter type of prognosis but is based upon the recognition of the fact that the counselor knows less about the factors making for success in heterogeneous occupations than in the relatively more controlled conditions of college curricula. This guidance procedure, while not definitely validated, is more feasible since neither the counselor nor the student can exercise sufficient control over occupational trends and opportunities to put into effect specific occupational recommendations, even if occupational requirements were adequately understood. Training recommendations are usually made so that the individual student will achieve and understand his possible vocational versatility, as well as specialization, as the best provision for later economic security and life enjoyment, with due regard for possible future changes in the nature of his work.

(3) Because it is common practice to take test results too literally, the counselor must guard against this over-emphasis by interpretation in terms of the individual student's background, rather than evaluating the student in terms of the specific test scores alone. These test scores can be caused by a multitude of factors, which must be utilized in interpreting the student's situation.

WHEN the interviews with the vocational counselor are completed, the student is then advised regarding a program of personal and professional training. If he is in need only of vocational information, he is referred to members of the Committee on Vocational Information and to the University Testing Bureau's extensive bibliography of titles dealing with the various occupations

and professions. If his problem is more personal, he is referred to special service agencies on the campus: the Speech Clinic, the psychiatrist, the social case workers, How To Study classes, and the employment bureaus. If his problem is one of curricular selection, he is assigned to a faculty counselor. In cases where the student is referred to other counselors or agencies, a test profile and abstract of the vocational counselor's diagnosis and recommendations are sent to give the background of the case, and to secure co-ordination. A periodic follow-up of the more serious cases is attempted each quarter by the bureau to determine whether the student is adjusting satisfactorily, or whether further work is needed. Many additional students return voluntarily for further advice. This follow-up work is, of course, co-ordinated with that of the student's adviser or counselor.

A dictaphone record of every interview, a copy of every report to counselors, and extensive data regarding educational, vocational, and family history for each case are filed in a separate coded folder for each student. Generally speaking, the bureau has no inactive cases, the folders being in constant use by members of the staff for research, follow-up, additional tests and interviews, and reports to advisers, parents, and university administrators.

THE University Testing Bureau fulfills other functions in its regular routine of work. It supervises and administers the general university entrance examinations, which each entering student must take. Students who have not completed a full high school program also take these examinations, supplemented by special examinations required in the various colleges. Transfer students are also required to take the entrance tests for admission to some units of the University. As a supplement to the general entrance testing, some of the tests administered by the bureau are used for placement purposes, as in the freshman English courses.

The bureau acts as the technical agent of the Association of Minnesota Colleges in the supervision and administration of the state-wide testing program of high school seniors. Reports of the results of this program, which annually includes more than 20,000 high school seniors, are forwarded to high school principals and colleges throughout the state.

The test results from these programs are on file in the University Testing Bureau, and provide basic research data for many workers. This centralized arrangement saves large expenditures in basic testing, and also makes available basic data for the counseling of individual students.

Students Receive Aid Through Loan Funds

By

C. R. BUTLER, JR. '34

"I HAVE loaned as little as \$2 for two days, and as much as \$250 for a year," stated Mrs. Mary P. Skinner, assistant to the dean of student affairs. "Students sometimes come in to borrow money because they have not enough to buy their meals over the week-end," she said.

Mrs. Skinner has charge, among other things, of granting loans to students from all of the various funds for that purpose held by the University. During the school year of 1933-1934 she allowed loans totaling \$31,603.15 to 496 students, but that was a small year in spite of the depression. The federal aid plan for helping students attending the University has taken many students from the loan rolls. The volume of loans has decreased from \$50,000 yearly to the present figure since the inauguration of federal aid for college students.

The loan funds are divided into two classes: the general fund, comprising 63 separate funds; and three special funds which are used for loans of an emergency nature. The general fund is administered, except for the granting of loans, by the Bursar, and the special funds are administered wholly by Mrs. Skinner.

The total amount of the general student loan funds was \$313,197.24 at the end of 1933-34, but the cash available for loans was only \$71,842.64, the difference of \$241,354.60 representing the notes of students who have borrowed from the funds. During that school year the loan funds were increased by \$14,951.24 through gifts and the interest on notes.

Five per cent interest is charged on all loans made to students from these funds, and the maximum length of a note is one year. Most of the loans from the general fund are made for one year, but those from the special funds, the "money for food over the week-end" variety, are of shorter duration, being mostly from 60 to 90 days, with six months an exceptionally long period for repayment. During 1933-34, Mrs. Skinner approved loans of almost \$30,000 to 444 students from the general fund, while 52 students borrowed slightly more than \$1,500 from the three special funds.

University regulations limit the total amounts that may be borrowed by any one student to \$250 a year for students in the medical or dental schools, and to \$200 yearly for students in all other schools and colleges. The limits for loans made to one student during his whole course at the University are \$600 for medical and dental students, and

\$400 for all others. These differences are set up because of the higher tuition in the two professional schools which places a heavier burden on the student in need of financial assistance. A student does not become eligible for a loan until he has been in attendance at the University for at least two quarters, and, with the exception of a few funds, no loans may be made to graduate students.

Collections, according to Mrs. Skinner, are generally quite successful, considering that no collateral or co-signers are required. Students may secure extensions of the terms of their loans if necessary, but the majority are able to pay promptly. In a very few cases it is necessary for the University to have recourse to legal methods in order to collect on student notes.

Before Mrs. Skinner approves a loan, she helps the student to make out a budget of what his needs will be. Receipts and expenses for the preceding quarter are tabulated and used as a basis for estimating what the student will need to borrow. The student must have a letter from the dean of his college approving the loan before it is granted, and he must also have his parents' consent, although his parent or guardian is not asked to sign the note. A complete check of the student's scholastic and personnel records at the University is made, and the student is required to give detailed information as to his financial record, fraternity affiliations, and the purpose for which the money will be used.

Although the original gifts made to establish University student loan funds were very generous, these now make up only a small part of the total amount. Interest and further donations have in many cases increased funds to more than twice their original size.

The largest single trust fund used for student loans is that established by the gift of Judge John B. Gilfillan of Minneapolis in 1901. The original gift of \$50,000 in bonds has now increased to nearly \$105,000. Second in size are the three funds provided by gifts and bequests of John D. Ludden of St. Paul, who gave \$5,000 in 1902 and 1904 for this purpose and left \$15,000 and the residue of his estate to the University at his death. The real estate included in the bequest has been set up as a

special fund, the income from which is used for loans. In 1931 the Board of Regents authorized the transfer of \$20,000 of athletic funds to be made available for student loans. This is the third largest loan fund held by the University. Through salary deductions, University staff members and employees have set up three funds for student loans amounting to \$20,000. The various other funds for student loans range in amount from \$6,800 down to \$25.

Each fund has been donated subject to varying restrictions on its use. Several are limited to students in specified courses, others have more strict or more lenient conditions. When a student receives a loan, however, he does not know from what specific fund the money is drawn. General University limitations require that in order to obtain a loan, the student must be "of unblemished moral character, of temperate and industrious habits, and maintain a taste, habit, and aptitude for study."

Music Contest

Six judges, all nationally known music instructors, have been appointed to determine the winners of the eleventh annual high school music contest, which more than 3,000 young people will attend this week-end in Northrop auditorium.

Mrs. Carol M. Pitts, director of the famous A Cappella choir of Central high school, Omaha, Neb., heads the list of judges. Others are Professor Raymond Dvorak of the University of Wisconsin; Professor C. B. Righter of the University of Iowa; Professor Carl Christensen, South Dakota State college, and Professor J. Arndt Bergh and Professor Carl Abrahamson of St. Olaf college.

Freshman Week

An executive committee of five members has been selected from representative student groups to outline policies for acquainting graduates of Minnesota high schools with the University during the 1935 Freshman week.

Together with this announcement yesterday, Robert Crawford, student Freshman week chairman, named the following as committee members:

Janet Hudson, Richard Neville, Belford Gunderson, Phyllis Hawlish and Kenneth Wilson.

Engineers Plan Open House

THERE will be "Open House" on the Engineering campus next Friday, May 17 . . . and the occasion will be the annual Engineers' Day. All alumni and the general public are invited to visit the buildings to view the various interesting exhibits arranged by the engineers. Books and slide rules will be put aside for the day as the engineers pay tribute to patron Saint Pat.

Using all the buildings in the Engineering group and the Armory, the various departments will put on display the latest developments and methods used in the field of engineering. The mechanical engineering building will be used to demonstrate to visitors the most modern methods of manufacture. Using a full crew of skilled men this department will produce various useful articles which will be presented to the visitors. The Chemical Show will occupy the major portion of the Chemistry Building and judging by the amount of time and effort put in by the large crew of men in this department this display will be well worth seeing. Having taken over the north wing of the Armory, the Aeronautical Engineers will have space for their display of newly acquired planes. They will also have on display a miniature modern airport showing all the latest equipment.

The parade will begin at 11 o'clock at the Main Engineering Building. Led by St. Pat and his Queen, on horseback, the procession will travel from the Engineering Building to University avenue, down University to Tenth avenue, then up to Fifth past President Coffman's residence, and back to the Campus Knoll, where the knighting of the senior engineers will take place. The parade will consist of floats representing all mathematics classes, honorary groups, and other organizations. The University Marching Band and the American Legion Drum Corps have also been secured for the occasion.

General College

The attitudes, ideas and ways of thinking of students in the General college will be subjected to searching scrutiny during the next three years in an effort to supplement knowledge of the late adolescent mind.

Research into student minds will be paid for out of the \$75,000 fund donated to the college by the Rockefeller foundation and accepted by the Board of Regents at Monday's meeting. Ac-

cording to the terms of the grant, \$25,000 will be spent annually.

A staff of research counsellors will be set up to study the drives, interests and motives of students through personal interviews and other test methods. Counsellors will also sit in on classes, work in the testing bureau, assist in planning courses to fit student needs.

A new group of full-time staff members will work with the research counsellors in a search for techniques to improve teaching methods and course material. Although they will teach a little and investigate methods, their chief function will be critical appraisal of the college.

By analysis of present and other possible methods Dr. Malcolm MacLean, director of the college, hopes to obtain a "real definition and implementation of general education." New textbooks may grow out of the study in addition to bulletins, syllabi and reports.

Cap and Gown

Robin Hood and his merry men will come to the Minnesota Union May 16 as junior coeds adopt a Sherwood forest theme for their annual Cap and Gown day luncheon. The traditional luncheon, at which senior honors in W.A.A. and Mortar Board are passed to junior class members, will begin at 12:30 p.m. immediately after the Cap and Gown day convocation.

Helen Dae Hopper, vice president of Tam O'Shanter, junior organization of W.S.G.A., and general arrangements chairman for the luncheon, appointed seven assisting chairmen.

Chairmen and their committees are:

Tickets: Phyllis Hawlish, chairman; Betty Peterson, Margaret Nelson, Peggy Ann White, Bettie Ragland, Harriet Kinning, Jane Wilson, Jean Bryant, Marjorie Paulsen, Margaret Thomes, Tonie Callenbach, Jane Sher, Constance Fegles, Ellen Brown, Betty Addy, Jeanne Porter, Lorraine Kleinman, Norma Batchelder, Dorothy Duckett, Ruth Robinson, Genevieve Goldblum, Elaine Lund, Lois Brown, Dorothy Merritt, Marilyn Shields, Lucille Tate, Barbara Watson and Gertrude Chalgren.

Invitations: Winona Carlson, chairman; Mary K. Taylor, Betty Ann Day and Mary Helen Schmitz.

Luncheon: Carla Meacham, chairman; Dorothy Gurton, Dorothy Bush and Dorothy Quamme.

Decorations: Marion McCulloch,

DR. MALCOLM MACLEAN

chairman; Mildred Dudding, Louise Neuman, Helen Gilmore, Sue Stewart, Kay Anderson, Florence Brill, Karin Farrell, Ruth Libbey, Marjorie Bruce, Virginia Bass, Sigi Ringer, Rachel Frisvold and Jean Hall.

Publicity: Bettie Ragland, chairman; Georgianna Adams and Mary Brennan.

Waitresses: Marjorie Morrill, chairman; Betty Bushnell, Louise Ernst, Jane Wright and Lucille Moody.

Program: Jean Gardner, chairman; Mary June Cooper, Mary Wadell and Janet Baird.

Tickets may be obtained either from coeds on the tickets committee or in the post offices of both campuses where they will be on sale next Tuesday and Wednesday.

Chemists

University chemists will demonstrate large scale production of cold luminescence at the chemistry show, May 17 and 18.

Directed by William Pritchard, senior chemist, an organic compound will be placed in a flask of water and will produce enough light to take pictures.

Other features of the exhibit include a display of Crookes and cathode tubes and a demonstration of a fog track apparatus showing the trail of radioactive emanations. Assisting Pritchard with the exhibit will be Theron Loveland, John Hansen and George Lones.

Orator

Lucie Lawson, winner of the Pillsbury oratorical prize, won fourth place in the forty-fifth annual contest of the Northern Oratorical league at Ann Arbor, Michigan, last Friday, with her speech entitled "Must It Be War?" First prize went to Paul J. Hergenroeder of Western Reserve university.

Baseball Team Opens Conference Play

ONE of the bright spots on the spring football training session on Northrop Field has been the brilliant work of Julie Alfonse, veteran right halfback. He has been running through the opposition for long gains and there is every indication that he will complete his career as a Gopher in a blaze of glory. Alfonse comes from Cumberland, Wisconsin, and he and Pug Lund were rival stars while in high school.

The White football team somewhat avenged its 37 to 0 defeat by the Reds last week when it held the latter to an 18-18 tie in the fourth A squad game of the spring football series Saturday at the University of Minnesota.

Both squads had new mentors by reason of a shift in practice last week. George Hauser coached the Whites and Red Dawson the Reds.

The field was slippery from recent snows and slips and fumbles marred what otherwise was an improved game.

Three changes were made in the lineups this week. Uram and Matheny, who had played on the Red squad, were transferred to the Whites for Saturday's game. Bob Lewis was assigned to the Red squad.

George Rennix, out of play last week, saw service for the Whites.

Clarence (Tuffy) Thompson, freshman from Montevideo, and Julius Alfonse were outstanding in the backfield for Dawson's team. Ray King, Duluth, played an excellent game at right end for the Reds.

Lewis Midler, freshman tackle on the White team, starred on the line for that aggregation. In the backfield Ring, Rennix and Matheny played up well.

Sammy Hunt, although out of uniform because of a broken thumb, called signals for the White squad.

The Reds took a 12-point lead on two touchdowns by Alfonse. In the first quarter he skirted end and raced 70 yards to the goal. A few moments after the start of the second quarter, Alfonse rounded left end and traveled 25 yards to score. The blocking on both plays was excellent.

The third period, after a series of gains by Bugni and Rennix, saw Matheny cut between left end and guard, reverse the field and race 40 yards to score for the Whites. Rennix missed the try for point. A few moments later the Whites again threatened when they had the ball on the one-yard line. A fumble, however, gave the ball to the Red team.

After receiving the punt, the Whites worked the ball down to the Reds' six-yard line. Rennix carried it over, tying

the score at 12 as the third quarter ended. His try for extra point failed.

Early in the fourth quarter, the Whites grabbed the lead when Matheny caught a pass on the 20-yard line and scored. Goal was again missed.

The Reds, with but six minutes to play in the last period, started a concentrated drive toward the White goal. Alfonse and Thompson, along with King's blocking, were chiefly responsible for bringing the ball down to the Whites' 35-yard line. Thompson, on a hole opened by King, skirted left end and went 35 yards to score. A bad pass from center prevented the try for goal.

The starting lineup:

Reds: Seidel, quarterback; Thompson and Alfonse, halfbacks; Beise, fullback; Carlson and King, ends; Dick and Willis Smith, tackles; Edwards and Wilkinson, guards; Hanson, center.

Whites: Rooney, quarterback; Matheny and Uram, halfbacks; Bugni, fullback; Reed and Berryman, ends; Midler and Trampe, tackles; Kafka and Dale Hanson, guards; Wooley, center.

Track

With the 1936 edition of the Olympic games only a year away the college athletes of the country are beginning to look forward to the event in the hopes that they may be able to win a place on the American team. Minnesota's leading candidate for honors will be Wayne Slocum who is now rated as the leading distance runner in the Big Ten. He has been cutting seconds from his time and is favored to win the two-mile event in the annual conference meet. He placed second last year.

Baseball

The Minnesota baseball team which went through the training season without a defeat opened the conference campaign Saturday against Northwestern by dividing a two-game series. This weekend the Gophers meet the Badgers on Northrop Field.

Minnesota defeated the Wildcats in the first game, 3 to 1, with Gallivan, the Gopher hurler, allowing the opposition only three hits. In the second contest the Minnesotans went into a batting slump and were held to four hits. Aase and Grossman allowed the Purple batters only six hits but these were enough to give Northwestern a 3 to 2 victory.

The MINNESOTA ALUMNI WEEKLY

Published by

The General Alumni Association of the
University of Minnesota

WILLIAM S. GIBSON, '27, *Editor and Business Manager*
LILLIAN HASSELMAYER, '29Ed, *Assistant Editor*

Vol. 34 MAY 11, 1935 No. 29

Issued on Saturday of each week during the regular session, from September to June, and monthly during July and August. Entered as second class matter at the post office at Minneapolis, Minnesota.

Life subscriptions with life membership in the General Alumni Association are \$50. Yearly subscriptions are \$3. Subscribe with central office or local secretaries. Office on the campus is 118 Administration Building. Telephone: Main 8177.

OFFICERS AND DIRECTORS

ORREN E. SAFFORD, '10L, <i>President</i>	Minneapolis
ERLING S. PLATOU, '20Md, <i>Vice-President</i>	Minneapolis
THOS. F. WALLACE, '93, '95L, <i>Treasurer</i>	Minneapolis
E. B. PIERCE, '04, <i>Executive Secretary</i>	St. Paul

NEWS and COMMENT

THE members of the class of 1930 who return to the University on June 17 to attend the occasion marking the fifth anniversary of their graduation will find that many changes have taken place on the campus during the five year period. There are several new buildings including Medical Sciences which is the new home of the School of Dentistry, the residence for nurses, Pioneer Hall, and the new indoor sports building. Various landscaping changes have been made including the planting of grass and shrubbery on the section of the parade ground between the Minnesota Union and Folwell Hall. The inter-campus car no longer runs up behind the Business building to turn around.

The members of all the classes however from 1875 to 1930 will be able to find many familiar landmarks and scenes. The Knoll retains its identity. The Old Armory has not changed its outward expression since the turn of the century although it has undergone a general turnover of occupants during the past year. The Business building, that hardy perennial, has been blessed with a new entrance and some new interior decorations while that venerable structure, the old Library, continues to face the Knoll but now under the name of Burton Hall. And of course there is always the river.

THE needs of the University for the coming biennium received the sympathetic consideration of the state legislature during its recent session and this is appreciated by alumni. The maintenance appropriation for the next two years will be greater by \$300,000 a year than was the appropriation for the biennium now closing. This will enable the University to hold its present staff and possibly to restore a

part of the salary reduction which was put into effect two years ago. The maintenance appropriation of \$3,100,000 a year for the next two-year period when the enrollment may easily reach a new high mark is lower by \$175,000 a year than the sum received from the state by the University during the peak period three and four years ago. There is a possibility therefore that classes will be even more crowded than they are now with the increase in the number of students at a time when additional funds for an augmented teaching staff are not available. Much of the \$300,000 will be absorbed in the rising costs of materials and supplies.

The building operations of the coming biennium on the campus may be restricted to a roof house addition to University Hospital to serve as the quarters for the psychopathic ward although there is a possibility that an addition will be made to the women's gymnasium. The legislature appropriated \$75,000 for the construction of the psychopathic ward with an additional \$12,000 for equipment but made no provision for maintenance. It is estimated that the total cost of the construction of the unit will be about \$107,000 and PWA funds may be available to cover the difference between the legislative grant and the total estimated cost. The ward with a capacity of thirty patients will be used primarily as a training clinic for students.

The PWA officials are also considering a request of the University for \$91,000 for an addition to the women's gymnasium. The addition would include a swimming pool and space for other activities.

THE fiftieth anniversary of the founding of the Minnesota Agricultural Experiment station at University Farm will be celebrated with appropriate ceremonies on June 14. This division of the University has played a highly important role in the development of agriculture in the state. The staff members are engaged in constant research on various problems affecting the farmers and the division has been a leader in fostering the trend toward diversification. The experiment station was organized under the Morrill land grant act of 1885. Plans are being completed for the anniversary program by a committee headed by Dr. Andrew Boss, vice director of the station.

THE football season of 1935 is still many months away but the annual spring game in Memorial Stadium next Saturday will attract the attention of all Minnesota fans. During the past several weeks the coaches have been concentrating their attention upon the newcomers to the squad who must be drafted to fill the holes caused by graduation. Bernie Bierman has been anything but optimistic over the prospects but several freshmen and reserves have given indication that they may become stars with additional seasoning and instruction and will be able to hold their own on the gridiron next fall. The followers of the team will have a chance to see these new men in action in the game Saturday afternoon. The first string eleven must be shaped quickly next fall for Minnesota will face the strong Nebraska team at Lincoln in the second game of the season.

The Reviewing Stand

W. S. G.

Hobbies

RUTH LAMPLAND '28, of New York City, has made the study of hobbies her hobby and now she has become a nationally known authority on this most fascinating subject. A few months ago she published a large volume entitled *Hobbies for Everyone* in which she described leisure-time enthusiasms of a number of well known personalities including Albert Payson Terhune, Rudy Vallee, Don Marquis, Fannie Hurst, Levon West '23, Tony Sarg, Fred Waring, Eva Le Gallienne, and others.

This past week the first annual hobby round-up sponsored by the Leisure League was held in New York City with some forty associations and organizations with civic and social interest presenting displays of hobbies of all kinds.

In a signed article in the *New York Times*, Miss Lampland described the event and offered the following comment on the increasing popularity of hobbies as a leisure-time pursuit:

"Nothing could illustrate better the fact that hobbies have become America's newest hobby. The vast number of persons who rode the stamp-collecting hobby, for example, was indicated recently by the fact that more than \$500,000 was received by the Postoffice Department in Washington from one day's sale of special issues of stamps. The number of American stamp collectors, according to Postmaster General Farley's figures, is now approaching 10,000,000.

"But stamp collectors constitute only one regiment, as it were, of the vast army of hobbyists in this country. Coin collectors, or numismatists, are numerous. Recent figures of the American Numismatic Association indicate that more than 600,000 Americans treasure coins at far more than their face value.

"Those who assemble antiques, early American glass, china, old silver, clocks, compasses, shawls, early editions of American newspapers, valentines, dolls, prints, pipes, canes, manuscripts, autographs, books, samplers, or a thousand other types of impedimenta of other lives and times represent a great proportion of the population. Amateur radio, motion-picture photography, astronomy—in the Amateur Astronomy Association there are more than 60,000 enrolled—gardening, knitting—all these well-known hobbies have huge followings.

"More unusual are some of the hobbies that are now the rage. Some have been previously confined to one occupational group, but are now widespread. Others were formerly associated with persons of one age or type and now are being generally enjoyed.

"Model making is a good example of both of these trends. Perfect scale models of life-size objects like ships, trains, bridges and theatre stages were formerly made by experts, craftsmen or engineers who had planned and operated the large originals. Now they are made by the amateur. A man and his wife used to build at home, from small pieces of wood and steel, a perfect miniature train with cars. Now one can purchase a complete model-maker's equipment, put up by manufacturers so carefully that each small stick, wire, string, rod, screw and nail is ready to be assembled. The Institute of Model Engineers recently stated that there were more than 100,000 model makers in the United States.

"Ship models, for example, were formerly made almost exclusively by seamen and were reproductions of vessels on which they had voyaged. Now they are frequently made by landlubbers, perhaps by some who have never seen either the Atlantic or the Pacific. Ask any small boy what the most popular juvenile and adolescent hobby is and he is likely to reply 'aviation.' Spurred on by the success stories and exploits of famous fliers, whom many boys worship, the lads seriously study, not only the principles of flying, but also the construction of models.

"Stage models, formerly only working aids for designers of theatre settings, now are the avocation of amateur theatre fans who never trod the boards. Marionettes, of which the ordinary person knew little ten years ago, are now employed in leisure hours by thousands of hobbyists who have learned to make their own puppets complete with strings and pulleys, and who run their own marionette shows at home or in clubs.

"This is the day of the inexpensive hobby, rather of the inexpensive form of the aristocrat's hobby. Where one wealthy person has been able to collect ship models of ivory and precious metals, Chinese furniture, or paintings of the great masters, a thousand people of moderate means have taken up clay modeling, carving, soap sculpture, or perhaps have acquired fine art reproduction' (inexpensive colored prints of famous paintings).

"The hobbies of famous people always interest the ordinary person, who likes to compare or contrast them with his own. Every small boy who collects stamps or ship models knows that he is to that extent a confrere of President Roosevelt. Most art enthusiasts feel a friendly interest in Mayor La Guardia's ardent championship of art and music hobbies because of his own enjoyment of them. Lucrezia Bori collects historic fans. Newcomb Carlton, chairman of the board of Western Union; Junius Morgan, commodore of the New York Yacht Club, and James A. Farrell collect ship models.

"Some well-known people have turned their hobbies into their professions. Anton Bruehl, formerly an electrical engineer in Melbourne, Australia, and later in New York, had followed photography as a hobby for years before he decided to make it his profession. Lily Pons was a pianist who sang for the sheer love of singing when a voice teacher herd her singing as she practiced one day and persuaded her to take her hobby seriously and make a profession out of it. Albert Payson Terhune says his hobby—dogs—is his profession and can scarcely remember the time when he was not breeding them or writing about them. Janet Scudder, the former sculptress, recently turned painter because she found her hobby so much more engrossing than her former profession.

"There are several fundamental reasons for the swift growth of the interest in hobbies in this country. Certainly one is economic insecurity, which has prevented the spending of money on expensive entertainment. Another reason is the increasing amount of leisure resulting from the forty-hour week and from unemployment.

"The manufacturers of hobby equipment have probably done most of all to accelerate the movement. Scientific hobbies—biology, zoology, chemistry, astronomy, physics—all have been made possible through the manufacture of miniature microscopes, telescopes and laboratory sets."

Soloist

Katherine Hennig '33Ed, whose last public appearance on the campus was in the title role of "Madame Butterfly" two years ago, came to Northrop auditorium yesterday, May 10, in the title role of the "Erl King's Daughter," presented at the close of the two-day state high school music contest.

Performance of the piece was directed by Archie N. Jones and was accompanied by the University Symphony orchestra under the direction of Abe Pepinsky.

Plan Youth Conference Program

By CAROL HAYWOOD '36Ed

CAPTAINED by one of the outstanding youths of today, Francis (Pug) Lund, a Youth Today Conference, one of a movement which has been sweeping the country, will be held at the Nicolle hotel May 17 and 18.

The conference is an attempt to dramatize the needs and problems of modern youth so that young people and workers and leaders in youth movements and the public generally will better comprehend those needs and problems and be helped in forming plans and broad policies that may be beneficial.

The first large non-partisan, non-sectarian youth conference ever conducted in Minneapolis, this statewide session is expected to draw over 2,000 delegates and leaders in youth work. Any person between the ages of 17 and 25 may represent his group.

Sponsoring this program based on the wants and aspirations of modern youth is the Minneapolis Council of Social Agencies, which is cooperating with the University of Minnesota, the Board of Education, the Y.M.C.A. and Y.W.C.A., the University Y.W.C.A., the Newman club, Big Brothers, the Settlement House Association, and several church groups. Among the University faculty on the Executive and program committees are Professor Elio D. Monachesi and Deans Malcolm M. Willey and Otis McCreery. Twenty-eight prominent Minneapolis business and professional men, judges, ministers and rabbis and women leaders, are acting as sponsors.

Chemistry Alumni Hold Meeting

A MINNESOTA luncheon was held at the Hotel Governor Clinton in New York City during the convention of the American Chemical Society on April 23. Forty-five alumni met with several members of the faculty who were attending the convention. Dr. Charles A. Mann of the School of Chemistry presided and short talks were given by Dr. S. C. Lind, director of the School of Chemistry, Professor C. H. Bailey of the School of Agriculture, Dr. F. C. Frary, director of research of the Aluminum Company of America and Dr. Roe E. Remington of the South Carolina Medical College. Arrangements for the luncheon were completed by Dr. R. F. Light '26.

Among those present at the meeting

According to "Pug" Lund, discussion groups, each with a chairman in charge, will analyze such vital matters as jobs, how to get them and what to do after obtained; boy and girl relationships; the use of leisure time; improvement of education; the philosophy of conduct; responsibility as citizens, and others. Meetings of the various sections will be conducted Friday night, Saturday afternoon and night.

At a dinner Saturday at 6:30 p. m. the leaders will summarize what their groups discussed and interpret findings for the others who did not attend that particular division.

Climaxing the two days' activities will be the presence of Walter B. Pitkin, writer and radio commentator. The author of "Life Begins at Forty" will tell how life may be made significant for those under that age. Mr. Pitkin, who assisted at the New York Youth Conference, will preside at the final Saturday night session, which will be open to the public, and will give an address — interpreting what has been accomplished by the conference.

It is hoped that such a conference will be valuable as a mirror of the minds of youth, thus helping youth work organizations see their way more clearly. It is also designed as a method of vivid interpretation to a wider public, giving fresh stimulus to writers and public speakers interested in youth, and showing the public that organizations for youth guidance are trying to face the vital issues that underlie handball tournaments and songs around a campfire.

in New York were the following:

C. H. Bailey, Univ. of Minn., Mpls.; N. Bekkedahl, '25, U. S. Bureau of Standards, Washington, D. C.; J. University Theatre

Three presentations of "The Merry Monarch," a comedy based on the life of Charles the Second, will open the fourth summer season of plays presented annually by the University Theatre. Professor A. Dale Riley announced this week. The comedy will be given on June 19, 20 and 21.

Wendell Johnson, graduate student, will direct "The Merry Monarch" as his thesis project for his master's degree. The play was written by John Howard Payne and Washington Irving.

The second of three plays to be given during the first summer session is "A Perfect Alibi" by A. A. Milne, which will be directed by Clement Ramsland. It will be given July 1, 2 and 3. Professor Riley will direct the third play, a new script by Bill Davidson, author of "Joan of Arkansas." The world premiere of this production will be given in the Music auditorium July 17, 18 and 19.

Mines Alumni to Honor Dean

GRADUATES of the school of mines and metallurgy will honor Dean William R. Appleby at a banquet on the evening of June 15. Dean Appleby will retire at the end of the present term after serving the University for a period of forty-four years. It is expected that mines alumni from all parts of the country and if possible from some foreign lands will be present for the event.

The school of mines was established in 1888 and it existed as a separate organization until 1891 when it became an integral part of the college of engineering, metallurgy, and the mechanic arts. In 1896 another reorganization took place and the school of mines was made an independent organization with its own course of study and faculty, and in 1900 William R. Appleby, professor of metallurgy, was made dean.

Dean Appleby was born in New Jersey and received degrees from Williams College and Cornell University. He served as an assistant in the school of mines at Columbia University and later as assistant in chemistry in the College of Pharmacy in New York City. After working in the commercial field for a short time he came to the University of Minnesota as professor of mining and metallurgy in 1890.

One of the dean's first classes at the university was in assaying. He was dumbfounded to find it packed with girls. Listed under the unassuming title of "quantitative mineralogy," it had been mistaken for a course in advanced geology. The dean clarified the situation by asking his feminine students to wear overalls and aprons. The following year no co-eds showed up for the course.

Under Dean Appleby's guidance, a new building for the school of mines was erected in 1915, and the experiment station in 1923. Student trips to Minnesota iron ranges and western mining centers have also been originated and expanded under his direction.

Algot F. Johnson '10, is chairman of the Dean William R. Appleby Appreciation Day committee. James Cowin '07, is chairman of the banquet committee and Walter H. Parker '07, is chairman of the printing and memorial committee. George M. Drake '11, is treasurer.

The members of the committee are as follows: R. W. Allard '18, H. H. Angst '05, R. H. Bassett '07, G. N. Bjorge '12, C. H. Chadbourn '21, W. A. Cole '09, W. A. Collier '15, C. R. Conkey '10, J. J. Craig '16, P. W. Donovan '01Ex, K. J. Duncan '10, J. Edwin '20, H. E. Farnam '10, T. F. Field '05,

A. W. Fosness '13, L. T. Gavin '09, S. L. Gillan '07, J. A. Grimes '08, W. H. Hale '04, S. Harmon '17, L. S. Heilig '15, A. F. Keene '04, M. S. Kingston '04, J. E. Lawton '11Ex, C. O. Lee '24, R. J. Lilly '23, M. S. Lindholm '11, S. W. Livingston '03, J. R. McKenzie '10, A. Y. Peterson '99, H. J. Rahilly '11, W. A. Rose '06, O. A. Sundness '10, W. L. Taylor '12, S. A. Trengove '28, H. H. Wade '15, F. M. Warren '99, W. H. Wheeler '06, E. F. Whiteley '03, A. Winther '03, and H. M. Wribitzky '23.

Band President

ROBERT HOSE, third year bandman and junior in the College of Engineering and Architecture, has been elected president of the University bands for the year 1935-36 to succeed Herbert Jensen, present president.

Succeeding Robert Davis as vice-president of the organization is George Hemsey '36D. Eleanor Jones '38A replaces Clarence Swanson as secretary, while Alfred Angster '37A succeeds James Featherstone as treasurer.

Four new offices have been added to the organization to aid main officers in planning band activities. Conrad Eliason '37A and James Featherstone '36A were elected councilmen from the concert band, with Gus Cooper '37P and Cruse Honey '36E representing the marching band. Two representatives from the freshman band will be appointed in the fall. Initiation of officers will take place at the annual spring banquet, May 23.

Senior Prom

More than 200 couples danced Friday night to the music of Clyde McCoy and his orchestra at the largest senior prom in the history of the University.

Sixteen couples paraded on the ballroom floor in the grand march, led by Torvald Eberhardt, president of the Senior commission, and Mary Baker. Others, in their order of march were: Roy Dingle, senior president in the College of Agriculture, Forestry and Home Economics, and Irma Hammerbacher; Harold Le Vander, senior president in the Law school, and Phoebe Hallenberg; John Wangaard, senior president in the School of Mines, and Marion Ives; Marlowe Anderson, senior president in the School of Dentistry, and Caroline Davies, senior president in the Arts college.

DEAN WM. R. APPLEBY

John McGlone, senior president in the College of Engineering and Architecture, and Gertrude McNelly; Arnold Sward, senior president in the School of Chemistry, and Helen Hoff; Clark Snyder, senior president in the School of Pharmacy, and Betty Strait; Robert Brotcher, senior president in the School of Medicine, and Phyllis Savage; Lawrence Barette and Jayne Eastman, Marshall Taft and Mary Ann Riggs, William Gordon and Dorothy Walle, Louis Dietrich and Inez Bedard, Gordon Rosholt and Janet Ostrander, Jack Densmore and Iantha Powrie, and Charles Campbell and Dorothy Helstrom completed the march line.

Law Book Store

An eight per cent dividend of \$300 was declared by the Law school cooperative bookstore.

The bookstore was established last year under the supervision of the Law school council and under the management of two students. It was started without funds, but \$100 was put in the bank this year as working capital.

Attempted only as an experiment, the store has had such success that it has been made permanent.

Fall Rushing

Crushing hopes for a return to deferred rushing, abandoned three years ago, the Panhellenic council this week voted to maintain the present system of fall rushing by a standing ballot of 13 to 6.

This settles the question for next year only, but the comfortable margin given the motion makes it virtually certain that deferred rushing will not come back to Minnesota for several years.

Minnesota Women

Mortar Board

THE annual Cap and Gown Day Banquet of the alumnae and actives of Mortar Board will be held Thursday evening, May 16, at half past six in the King Cole Hotel at 56 Willow Street, Minneapolis. Arrangements are in charge of Dora V. Smith '16, president; June Chrysler Bryngelson '26, vice-president, and Josephine Pease '33, secretary-treasurer. Mrs. Leora Cassidy '04, toastmistress, promises a program of unusual sprightliness and originality. Stunts by representatives of each decade from 1905 to 1935 will parody well-known books. Shades of Cinderella hover about the older group indicating that feet were small in 1905. Emily Post's *Etiquette* proves a stumbling block in '25, and only the '15's can do justice to *A Strange Interlude*. The actives will produce evidence that Shakespeare lives again albeit improved somewhat by the inroads of modern popular ballads. Living book ends will lend color to the background. Indications are good that the dinner will be one of the best attended in recent years. Tickets are \$1.00. Reservations may be sent to 206 Burton Hall, University of Minnesota.

Mortar Board records are in great need of bringing up to date. If any alumna member in or near the Twin Cities has not received an invitation, it is because her recent address is not in the files. The secretary would appreciate any assistance you can give her in furnishing your most recent address or that of any friends who you hear did not receive an invitation. All members of Mortar Board are most cordially invited to the banquet.

Graduates of the home economics division of the college of agriculture, forestry, and home economics are in demand in other states as well as in Minnesota, according to Professor Wylle B. McNeal, chief of the division. Graduates already have been placed in California, Maryland, Ohio, Illinois, and Indiana, as well as in our own state, most of them as dietitians.

A list of the appointments of dietitians thus far announced follows:

To University hospital, Minneapolis: Jean Andrews, Selma Kvale, Elizabeth Lyons, Elsie Mathiar and Vivian Ory.

To Leland Stanford university hospital, San Francisco: Margaret Dodds.

To Johns Hopkins university hospital, Baltimore: Eugenia Lueders.

To Western Reserve university hospital, Cleveland: Florence MacDonald.

To Miami Valley hospital, Dayton: Lois Swanstrom.

To Michael Reese hospital: Ruth Peterson.

To Cook County hospital, Chicago: Olive Smith.

To University of Indiana hospital: Charlotte Young.

The following appointments were also made by Professor McNeal: nutrition investigators, Helen Bjerke, Georgia Overland; home economics teachers, Katherine Schneider, to Atwater, Minnesota and Marcia Vig, to Cokato, Minnesota.

One of the largest of the various benefits was the afternoon bridge party given May 3 by the Minnesota alumnae association of Kappa Kappa Gamma sorority. It was given in the parish house of St. Mark's Episcopal church and was for the benefit of the scholarship fund.

Mrs. Alan F. Sandy was the chairman of the committee in charge of the bridge and on her committee were Mmes. LeRoy Arnold, Earl Griswold, Murray K. Guthrie, C. Myron Webster, Raymond C. Beim, Richard L. Forrest, Royal G. Tomlinson, all of Minneapolis; Mrs. Frank W. Fuller of St. Paul; Mrs. J. A. Campbell, representing the Kappa Kappa Gamma Mothers' Club, and Barbara Bruce, representing the active chapter.

Officers elected to serve on the board of directors of the alumnae association for the year 1935-36 are Mrs. Robert Bardwell, re-elected president; Mrs. F. L. Hovde, vice president; Alice Wright, secretary; Mrs. Harry Schoening, assistant secretary; Mrs. Philip Neville, organization chairman; Mrs. Alan Sandy, assistant to organization chairman; Mrs. Morris Tanquary, treasurer, and Mrs. Robert Hartzell, social chairman.

Bookplates designed by Cleora Wheeler, Minnesota alumna, and also her original steel engraving done for Mildred Aldrich, American author, are on display this week in the foyer of the University library. Tools and processes involved in their designing and printing also are on display. Clippings concerning Miss Wheeler's work, letters, a notebook of her photographic work and a selection of miniature and duplicate plates by Miss Wheeler complete the exhibit.

Other well known people for whom

Miss Wheeler has designed plates are Frank B. Kellogg, Philip Weyerhaeuser, Fitzhugh Burns, and John Gilman Ordway. The bookplate of Kappa Kappa Gamma also was designed by Miss Wheeler.

"Jobs for Senior Women" was the theme of a dinner meeting of the feminine members of the graduating class at the University arranged by Cap and Gown, senior women's organization, for Tuesday, May 7, in the Minnesota Union. The speaker was Miss Florence Jackson, former director of the appointment bureau of the Women's Educational Union of Boston and former vocational consultant at Wellesley.

Jean Tucker of St. Paul, president of Cap and Gown, was in general charge of arrangements. Committee chairmen were Laura Bruce, posters; Maxine Kennedy and Jean Stark, publicity co-chairmen; Inez Bedard, menu and reservations; Helen Jane Baily and Ellen Hulbert, invitations co-chairmen; and Phyllis Savage, Lois Curtis, Iantha Powrie, and Lucie Lawson, ticket committee.

Nola A. Cheeley '33DH, whose marriage to Dr. Douglas G. Ganfield '33D, took place last Saturday, was honor guest at a number of pre-nuptial parties. Joyce Dahleen '33DH, who was a bridesmaid at the wedding, gave a shower for Miss Cheeley. There were sixteen guests. Florence Coones '34DH, and Audrey Anderson '34A, were hostesses Friday evening, April 26, at a party in honor of Miss Cheeley at the home of Miss Coones. Sixteen guests attended. The hostesses both were in the bridal party. Mrs. Cavel Clapp, who also was an attendant, gave a tea for Miss Cheeley on Sunday afternoon. Miss Cheeley is a member of Delta Delta Delta sorority.

Elaine Nortz '34A, 4916 First avenue south, entertained members of the cast of the plays, "He Came Seeing," and "The Rock" at her home. Miss Nortz directed the plays which were recently presented at Hennepin Avenue Methodist Episcopal church. There were twenty-five guests. Assisting Miss Nortz were Mrs. George C. Boice, Mrs. Henry Hoff, and Carolyn Joyce.

Evelyn Gordon, 2540 West Twenty-fourth street, was hostess recently to members of the evening group of the Delta Delta Delta Alliance. Assisting hostesses were Mrs. N. Lawrence Enger, Jr. (Lois Will '33Ed), and Theone Halverson. Bridge was played. Mrs. Robert Ramsdell (Annie Emily Shipley '32A) of New Ulm was an out-of-town guest.

Brief Notes About Minnesota Alumni

12,000 Minnesotans read this department
each week for news of friends of College
days.

1891

The following poem from the pages of the Argyle, Wisconsin, Atlas, was contributed by F. W. Sardeson '91, who occasionally puts aside his studies in geology to write verse.

A poet lived upon a hill,
With pencils, pads and pen,
With ink enough to fill a pail,
But wrote nothing, even then.

Winds whistled in his ear.
Sun glared him in the eye.
Always he could see too far.
The moon rose up too high.

He moved down below the hill,
Where shadows always fall
And sun and moonlight fell,
As figures on the wall.

And now he writes, day by day,
With pencils, pads and pen.
Spirit speaks more beautifully
When shadows fall on men.

Know the Answers?

YOU have received through mails this week a new kind of questionnaire for college graduates. During the past seven years, thirteen editions of this novel booklet have been issued to the graduates of the 44 leading colleges and universities in the country.

It is our hope that Minnesota graduates will make a good showing in the number of return cards mailed to the Graduate Group, our national advertising representative in New York.

Every alumnus who fills out and mails this card will be rendering a valuable service to the Alumni Weekly and there is no obligation connected with the project.

Alumni in State Hold Meetings

Three alumni units in the state held meetings during April. Alumni secretary E. B. Pierce, Professor Herbert Heaton and Fred Hovde '29 spoke to the Olivia group on April 15. Mr. Pierce and Mr. Hovde were present at the meeting at Redwood Falls on April 23 and Dean Malcolm M. Willey accompanied Mr. Pierce to the gathering at Bemidji on April 26.

The guest lists of the Bemidji and Olivia meetings are not available. Among those present at Redwood Falls were the following: E. A. Johnson, L. M. Anderson, M. L. Holmberg, George Townsend, Mrs. J. F. Knudson, Mrs. W. J. Dunlevy, Mrs. Clinton G. Orth, Mr. and Mrs. G. N. Nelson, Dr. and Mrs. E. H. Johnson, Dr. and Mrs. O. H. Johnson, Mr. and Mrs. C. D. Clippell, Dr. A. J. McLean, Dr. and Mrs. Rasmussen, Mr. and Mrs. Harold Franta, Mr. and Mrs. Elmer Franta, Mr. and Mrs. D. W. Gold, C. H. Burmeister, Mr. and Mrs. G. A. Barnes, Edwin Johnson, Mr. and Mrs. J. F. Knudson, T. F. Reed, Jr., and Dr. and Mrs. C. L. Lynn.

1893

Dr. ('93D, '94Md) and Mrs. Thomas B. Hartzell, 2508 Pillsbury avenue, arrived recently from a three-weeks vacation in California, where they visited their son-in-law and daughter, Mr. and Mrs. Walter Severson (Elizabeth Hartzell '28A). They also were guests for a short time of Dr. Hartzell's sister, Mrs. F. E. Kenaston '93D, at her home in San Marion.

Thomas F. Wallace '93A, '95L, was named treasurer of the Minneapolis Council of Parent-Teacher Associations at its annual meeting. Mr. Wallace also is treasurer of our General Alumni Association.

1899

Dr. J. C. Litzenberg '99Md, was the guest speaker at the spring conference of the Southern Clinical Society at Dallas, Texas, this spring.

1905

Dr. B. A. Dyar '05Md, of De Smet, South Dakota, has been appointed to make a survey of the adult relief clients in the state as to tuberculosis and other contagious diseases.

1906

Dr. Ray R. Knight '06Md, of Minneapolis, president of the sixteenth district of Beta Theta Pi fraternity, presided at the fraternity's annual convention late in April at the chapter house at Minnesota. He was also toastmaster at the alumni dinner.

1908

Al L. Dretchko '08P, president of the Hennepin County Bar Association, recently was appointed assistant county attorney to fill a vacancy in the office that has been open since the death of Leo J. Gleason more than a year ago.

After his graduation from the University, where he was a varsity pitcher,

Mr. Dretchko played professional baseball with the Seattle club of the Pacific Northwest League. He subsequently was graduated from the Minnesota College of Law and has practiced law in Minneapolis since 1918. He is a past exalted ruler of the Elks.

The committee in charge of arrangements for the Silver Anniversary luncheon to be held in the Minnesota Union on June 17 by the class of 1910 held a meeting this week to make further plans for the event. By tradition this class is in charge of the program for the annual Alumni Dinner to be held just preceding the Commencement exercises.

1913

An announcement from Sydney, Australia, brings the interesting news of the approaching marriage of Ruth L. Annis of Berkeley, California, and Foster H. Kreis '13A, at present attached to the American consul general in Sydney as vice consul, which is to take place in Sydney on Saturday, May 25. Miss Annis is sailing from San Francisco on the S. S. Monterey and will arrive in Sydney May 20. Miss Annis and Mr. Kreis became acquainted in Shanghai, China, when Mr. Kreis was stationed in that city as American vice-consul.

1916

Mrs. Joseph L. Harper, mother of Stanley J. Harper '16A, of Minneapolis, died April 2 at the Oak Grove hotel. Mrs. Harper had lived in Minneapolis seventy years, coming here as a child from Prescott, Wisconsin, her birthplace. She belonged to Monument chapter, D.A.R., the New England colony, the Woman's club, the Y. W. C. A., and Trinity Baptist church. Until a year ago she was an

TRAVEL

Watch the pages of the *Minnesota Alumni Weekly* for suggestions for summer travel. Several leading travel agencies and transportation companies will offer special trips and tours which are economical and well planned.

This Summer SWEDEN!

LAND OF SUNLIT NIGHTS

Sweden is Scenic—Secure—Serene

Here you find the hum of sober industry, a deep peace of simple, beautiful living such as you may have thought had vanished forever.

Spend at least a fortnight of continuous daylight in beautiful Stockholm or among the charming inland waterways of Sweden. See its romantic castles and picturesque customs in a scenery of tranquil beauty.

The joy of fine living experienced in Swedish American liners does not end with the crossing. Each day in Sweden assures the same treat.

Direct from New York in eight days—convenient from England and the Continent.

Your travel agent or we will gladly send our new "Lands of Sunlit Nights"

with complete travel detail of delightful journeys in all the Scandinavian countries—a treasure house of vacation guidance.

NEW YORK

active member of the Y. W. C. A. board.

1917

Elmer J. Croft '17, is a candidate for alderman in the second ward of Minneapolis. Since graduation, Mr. Croft has been a keen student of taxation and municipal government and has been an active worker in various civic projects such as the community fund, the Boy Scouts and the Y. M. C. A. He has been a resident of the ward for 30 years and lives at 1616 East River Terrace. During the war he served in the 36th Infantry.

1921

Dr. Earl R. Carlson '21A, '23G, director of the department of corrective motor education of the New York Neurological Institute, recently came to Minneapolis to speak to medical students and teachers and parents of crippled children at a clinic conducted by the University at the Radisson hotel.

Dr. Carlson, himself a birth-injured child who, after earning his way through the University of Minnesota, became a nationally known authority on such cases, warned against danger of neglecting such children. The problem of the crippled or handicapped child in school was described by Dr. Carlson as being "the subject of the most profound psychological difficulties." A teacher in an ordinary school is likely to be lenient with the crippled or handicapped child, and if this situation is not combatted with the proper discipline early in life, a psychotic personality is bound to develop, he said.

1924

Martin Nelson '24E, is a director on the Engineer's Corps for the Iowa Institute of Hydraulics Research in Iowa City.

1925

William F. Schroeder, Jr., '25Md, is practicing medicine in Rock Island, Illinois. His son, William F. Schroeder III, is graduating from the University of Chicago in June and will enter Northwestern medical school next fall.

Western Electric

Leaders in
Sound Transmission

He won second place in the Big Ten on the flying rings as a member of the University of Chicago gym team. Betsy Schroeder, his daughter, is a sophomore at Goucher College in Baltimore, Maryland.

An engagement recently announced is that of Myrtice Elizabeth Matchitt '25Ex, to Harold Stanley Holmquist of Albert Lea, Minnesota. The wedding will take place in June. Miss Matchitt is a member of Alpha Gamma Delta sorority. She went to Carleton after leaving Minnesota, where she received her degree.

Lesbia Mateer '25N, is employed at the Ball Memorial Hospital, Muncie, Indiana.

1926

Eleanor J. Poucher '26A, whose marriage to Clayton A. Gay '30L, will take place in June, was honor guest at a kitchen shower and bridge given by Mrs. T. R. McKenzie, 2228 Sheridan avenue south. There were sixteen guests. A linen shower and tea was given by Mrs. Arthur S. Samuelson, 3940 Beard avenue south, in honor of Miss Poucher.

Ruth Drewry '26N, is now Mrs. F. N. Brownell and lives at Lake City, Iowa.

1928

Mable D. Gray '28N, is working in the surgery department of the General Hospital at Elkhart, Indiana.

Gertrude Tennyson '28Ex, of Forest Hills, New York, and George Watkins Nuckols were married Monday, April 22, at five o'clock in St. Luke's Episcopal church, Forest Hills. Mrs. Nuckols received her bachelor's degree from Columbia University. Mr. Nuckols attended Duncan and Tate preparatory schools at Nashville and Shelbyville, Tennessee, the University of Tennessee, and New York University. He is now associated with an investment house in Wall street.

Evelyn S. Malmstrom '28N, is with the Curry County Public Health Nursing Service at Clovis, New Mexico.

1929

Mr. and Mrs. William Whyte Hunter (Marion Ashley '29A), 4320 Abbott avenue south, are on a three-weeks motor trip in the east. They will visit in Boston and other cities.

Mildred Pokorny '29N, is employed at the National Homeopathic Hospital in Washington, D. C. She is doing general duty work and enjoys the work in a small hospital very much.

1930

The youngest of the five year groups to hold a reunion luncheon on the campus on Alumni Day, June 17, will be the class of 1930. Last year the class of 1929 had one of the largest delegations at the annual dinner on Alumni Day and it is expected that this June the class of 1930 will be well represented.

The engagement of Mary Rose Hyde '30Ed, to Ray Hamilton Darling of Worthington, Minnesota, was announced at a party given by her sister Frances Hyde '31, on April 19. The wedding will take place in June.

Yvonne Sperry '30Ed, has chosen Saturday evening, June 15, as the date for her marriage to Raymond A. Rice. The ceremony will take place at Hennepin Avenue Methodist Episcopal church. Mrs. Terrance L. Webster (Laurel Ellis '26A) will be Miss Sperry's matron of honor, and Betty Lu Rice, Harriet Walker, and Betty Wold '28, will be bridesmaids.

Marion B. Schofield '30N, is now living at 1200 Harvard avenue, Seattle, Washington.

1931

Dr. (31Md) and Mrs. R. G. Edwards announce the arrival of a baby girl, Ruth Marjorie on February 11.

Benjamin Lifson, prominent Minneapolis real estate man and builder, died April 26 in Eitel hospital. He was the father of Mrs. Robert S. Schneider, Minnette '35, Harriet, Carl '26A, David '32Ex, Nathan '31A, and Melvin Lifson. In addition to erecting many buildings in Minneapolis, Mr. Lifson also had built the Denver, Colorado postoffice and the courthouse at Miami, Florida.

Lois Middlemist '31N, is with the New Haven Visiting Nurses Association. Her address is 25 Wall street. She recently spent some time visiting relatives in Bangor, Maine.

Donald Anderson '31E, Marvin Webster '31E, and Fred Brockman '32E, are on the Engineers' Corps for the Iowa Institute of Hydraulics Research in Iowa City. Their work is hydraulic research on rivers, locks, and dams.

1932

Helen Luick '32A, is employed at the Louis Grunow Clinic in Phoenix, Arizona.

News has been received of the marriage of Ruth Louise Potts '32Ex, and Raymond Wellington White of Hono-

To THE EDITOR: Here is a news item for the *Minnesota Alumni Weekly*:

Clip this out and mail to *The Minnesota Alumni Weekly*, 118 Administration Building, University of Minnesota

lulu. The wedding took place Saturday, April 6, at St. Clemen's Episcopal church in Honolulu. Mr. White is the son of Mr. and Mrs. George White of San Bernardino, Calif. He attended the University of California. Mrs. White is a member of Kappa Kappa Gamma sorority.

Clarence E. Johnson '32E, is working on the channel project now under way at Winona, Minnesota. He is a surveyman on U. S. Engrs. Lock 5A.

Dr. Kenneth E. Stein '32Md, formerly at Prior Lake, has moved to Lakeville, Minnesota, where he is continuing his general practice of medicine.

Edgar L. Piret '32C, assistant in chemical engineering, has been notified of his appointment to a year's fellow-

ship in Lyons, France, at the Foundation Scientifique de Lyons et du Sud Quest. Piret, who received his bachelor's degree in chemical engineering, will carry on research in this field at Lyons. He is working for his Ph.D. at the present time.

The foundation from which Piret has received his fellowship, is the same one at which Louis Pasteur carried on his early research. The present head of the foundation is V. Grignard, a Nobel prize winner.

According to Piret, the fellowship gives him an excellent opportunity for carrying on his research, since the main interest in the foundation is in the field of industrial microbiology, in which Piret is minoring for his doctor's degree.

Piret will leave for Europe during the summer and before he reports to the foundation, he will attend the fifteenth International Congress of Industrial Chemistry in Brussels.

The engagement of Gay Ingoldt '32Ed, who was the University women's fencing champion in 1931-32, to Millard V. Barton, the present holder of the State men's fencing title, was announced recently. Mr. Barton is a graduate of the California Institute of Technology and took some of his graduate work at Minnesota. The wedding will take place early in July and after a vacation in California they will make their home in Denver, Colorado, where Mr. Barton is an engineer in the Field Service of the Bureau of Reclamation.

1933

Bernard W. Adams '33A, who had been in Appleton, Minnesota, working on a federal project, left in March for Washington, D. C., where he is with the Edgar Hoover Criminal Identification Bureau.

Walter Hass '33Ed, former Minnesota football star and captain of the 1932 team, was appointed chairman of the local A.A.U. track committee recently by Aime Pouliot, president of the Minnesota chapter. He will replace his brother, Johnny Hass, who was forced to resign because of absence from the city.

At the same time Mr. Pouliot announced that the annual A. A. U. track and field meet will be held in Memorial stadium June 8.

Hass assisted with freshman football and with track last winter at the University and then obtained a position at the University of Manitoba as head football coach last fall.

Another engagement recently announced is that of Charlotte June Whittemore '33A, to Ivan E. Peterson of St. Louis. Mr. Peterson is a graduate of the University of Iowa. The wedding will be an event of the early summer.

James M. Nelson '33E, is an engineer with the United States Geological Survey located in Chattanooga, Tennessee. His address is 225 High street. Recently he visited with Clifford Menz '33A, who as a member of the cast of "As Thousands Cheer," played in Chattanooga.

Grace England of Minneapolis and C. Herbert Starkey '33E, were married Saturday evening, April 27, at Simpson Methodist Episcopal church. Adelaide England '35 was her sister's maid of honor. Following the ceremony a reception was given at the home of the bride's brother-in-law and sister, Dr. and Mrs. L. J. Haas, 3150 West

Coming Events on the Campus

- May 11—Mothers' Day, both campuses
Baseball, Minnesota vs. Iowa, Northrop Field, 3:00 p.m.
Tennis, Minnesota vs. Wisconsin, Northrop Field, 2:30 p.m.
- May 15—News Reel Theater, five showings, beginning at 12:30 p.m., Northrop auditorium
- May 16—Cap and Gown Day, President Coffman, speaker. Northrop auditorium, 11:00 a.m.
- May 17—Engineers' Day
Baseball, Minnesota vs. Iowa, Northrop Field, 3:00 p.m.
- May 18—Baseball, Minnesota vs. Iowa, Northrop Field, 3:00 p.m.
Tennis, Minnesota vs. Northwestern, Northrop Field, 2:30 p.m.
Football, Spring practice game, Memorial stadium, 2:30 p.m.
- May 22—News Reel Theater, five showings, beginning at 12:30 p.m., Northrop auditorium
- May 23—Annual review of R.O.T.C. units, New Parade grounds, 10:30 a.m.
- May 24—Baseball, Minnesota vs. Purdue, Northrop Field, 3:00 p.m.
Twilight concert, University Band, Campus Knoll, 7:30 p.m.
- May 25—Baseball, Minnesota vs. Purdue, Northrop Field, 3:00 p.m.

Calhoun boulevard. Mr. and Mrs. Starkey left for a motor trip. They will be at home at 5712 Wentworth avenue south, Minneapolis, after May 15.

Mr. and Mrs. William Anderson (Rosanna Woods '33N) are the proud and happy parents of an eight and one-quarter pound baby boy, Gary William.

Katherine Hennig '33Ed, See Woman's Page.

Nola Cheeley '33DH, See Woman's Page.

1934

Helen Beim '34Ex, was the guest of honor at a luncheon and linen shower given for her by Mrs. F. E. Moody, 2716 Humboldt avenue south. Miss Beim's marriage to John Edward Paulsen will take place Wednesday, May 22.

Mr. ('34A) and Mrs. Louis Sauter announce the birth of a son, William Louis Sauter, on April 26. He weighed seven pounds eleven ounces.

Frances M. Ford '34, recently visited in Pittsburgh, Pennsylvania, for several weeks. She is living at home, 1419 Hickory street, Waukegan, Illinois, where she is active in the local branch of the American Association of University Women.

Dr. Stanley Tyler '34Md, recently opened offices for the general practice of medicine at Raymond, Minnesota.

Mr. ('34E) and Mrs. Keith E. Rosing are building a new home on Huntington avenue, Wayzata, which will be ready for occupancy July 1.

The engagement of Marlys Hanson '34GC, to Fredrick V. Rogers '35Ex, of New York has been announced. Miss Hanson is a member of Kappa Kappa Gamma sorority. Mr. Rogers is a member of Beta Theta Pi fraternity.

Charles A. Martin '34E, has been employed as watch engineer by R. C. A. Communications, Inc., Rocky Point, Long Island, New York, since July 2 last. His home address is 349 South Ocean avenue, Patchogue, Long Island.

Engaged—Larelda Grace Smith '34Ex, to Kenneth S. Gerard '33Ex, of St. Paul. The wedding will take place early in the summer.

Bert Getsug '34E, works for the Brown Sheet Iron and Steel company designing heating and ventilating equipment.

Lillian Hestad '34N, is doing general duty at the Michigan University Hospital at Ann Arbor.

Edward Kells '34E, is doing graduate work at the California Institute of Technology.

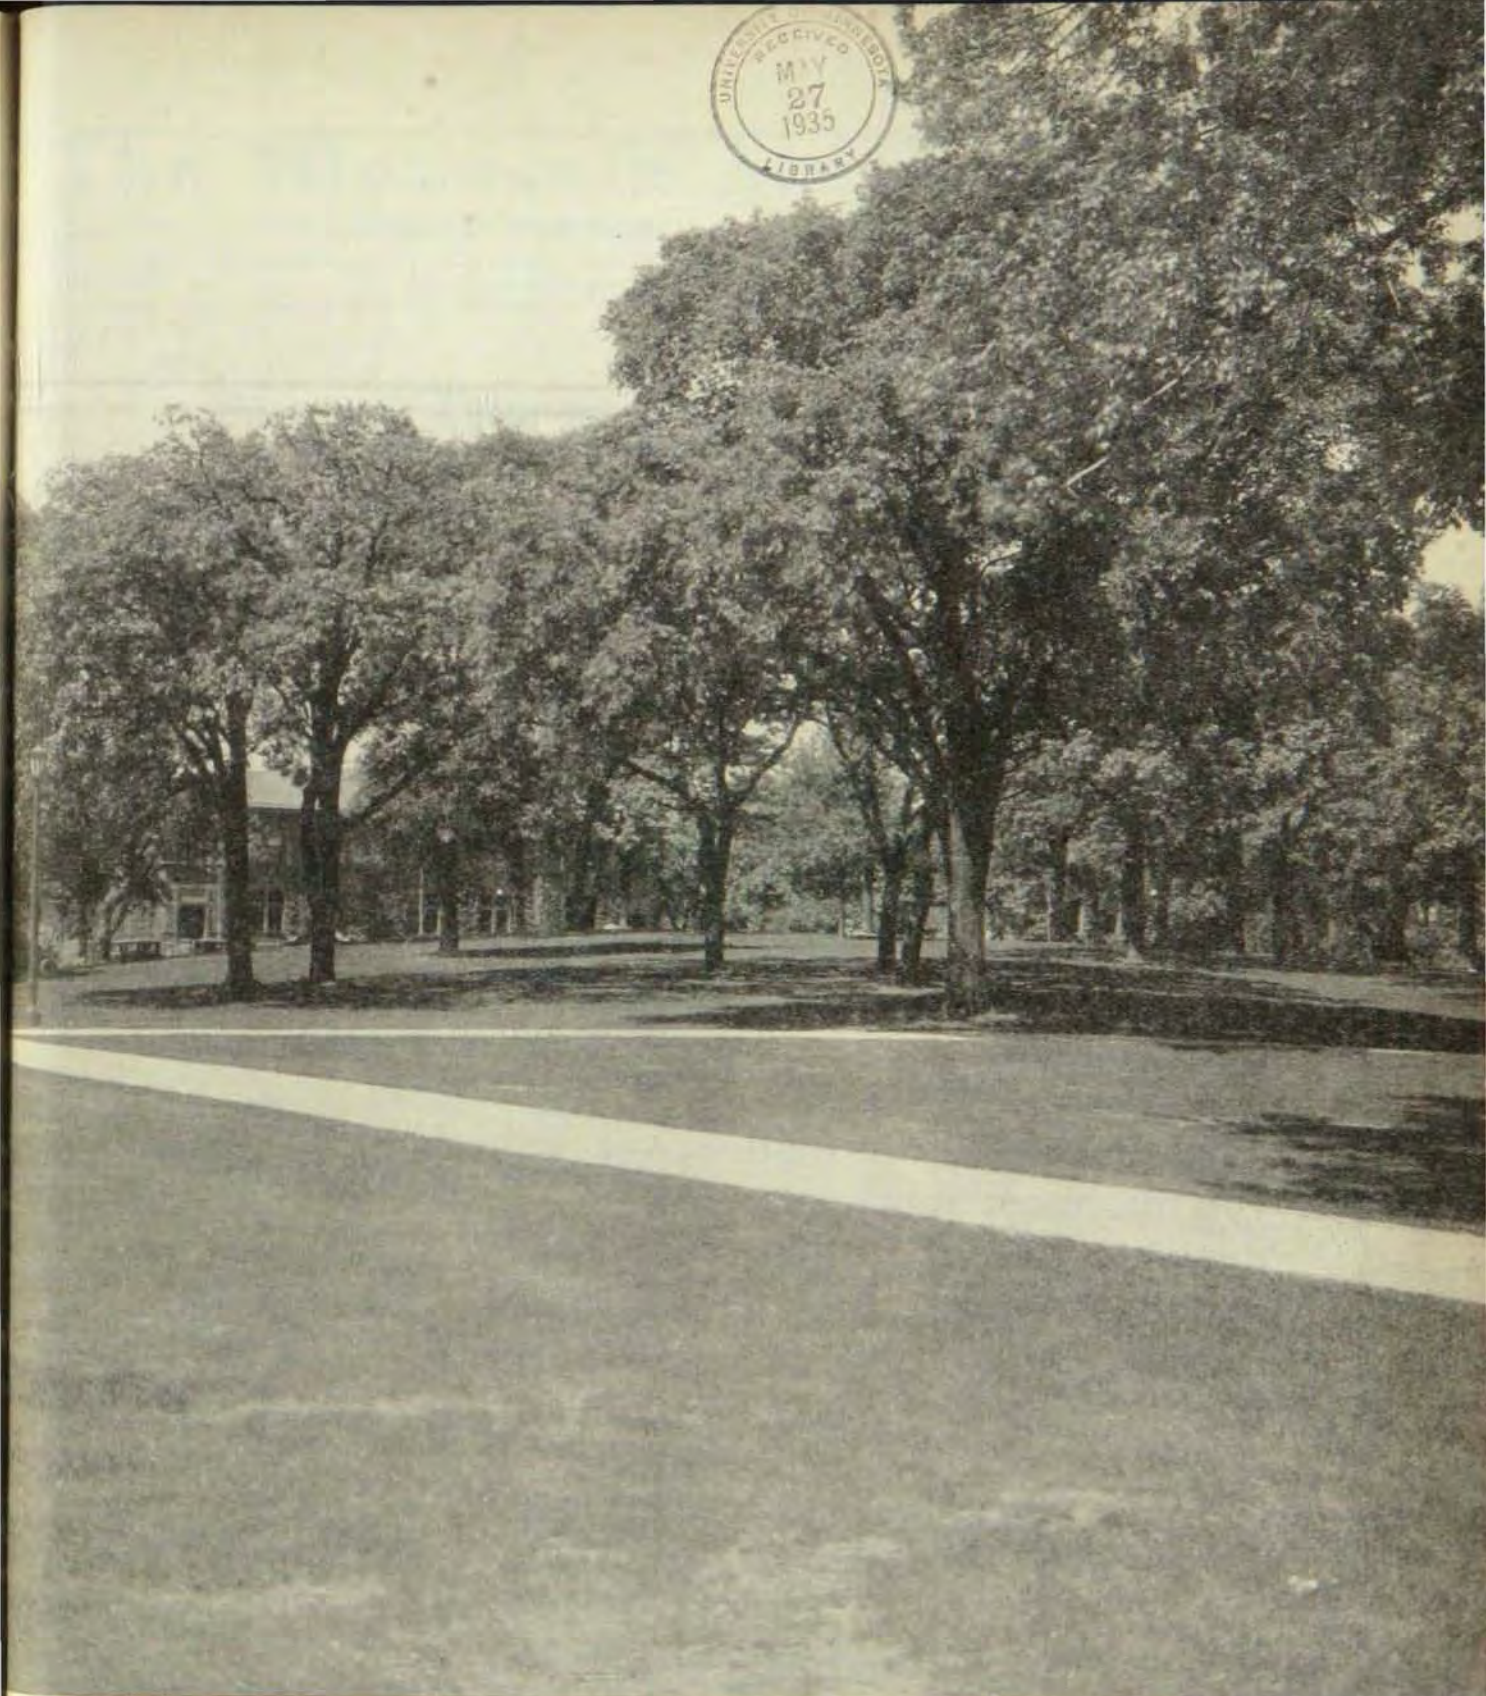

Ivar Glemming '34Ed, is supervisor of music in the public schools of Park Rapids, Minnesota.

Elaine Nortz '34A, See Woman's Page.

Lillian Hensel '35, entertained at a tea and shower in honor of Annette Larson '36, whose marriage to John H. Person of Madison, Wisconsin, took place May 4. There were twelve guests at the shower.

The engagement of Laura Virginia Van Nest of Minneapolis to Morden McCabe '36, has been announced. The wedding will be an event of this summer. Miss Van Nest is a graduate of Northrop Collegiate school and she attended Pine Manor, Wellesley.

Engaged—Patricia Ann Hawley '36, to Dale Holmes Rennebohm '37, of Austin, Minnesota. Miss Hawley is a member of Alpha Gamma Delta sorority and Mr. Rennebohm is a member of Sigma Chi fraternity.

SPECIAL PUBLICATION OF THE UNIVERSITY OF MINNESOTA ALUMNI ASSOCIATION

If

You have not put off the purchase of anything you really wanted--in the past year or before -- because you did not like to part with your cash.

And if you have never wished afterward that you could "turn the clock back" and have the same chance over again after it was too late.

Then it is possible that you might not appreciate this story of our Reconstruction Special.

**BUT--
IF
YOU
HAVE--**

WELL --

Take for instance a man, age 35: through the "Reconstruction Special"—He can get the Protection that he has been putting off buying at a rate about the same as an ordinary life contract would have required when he was age 20, fifteen years ago.

And that rate is good for 20 years—if he never finds himself back on Easy Street—

After which half the original protection may still be continued for life at the rate applicable to age 35—twenty years back.

On the other hand he may at any time during the first fifteen years—and that's long enough—arrange to continue the full amount, or any part of it, for life, at the rate at age thirty-five—with little or no cash outlay to make the change—A remarkable arrangement.

Let's Be Frank Too --

There's no "new discovery" and no "untried principle" involved in this really remarkable contract. It does involve a happy combination of tried old line life insurance principles that we had not thought of before.

And it is peculiarly a helpful combination at the present time—when one needs more than ever to safeguard the future of his family—Yet must be so careful about committing himself to further cash outlay—while his age goes on increasing in spite of himself.

The "Reconstruction Special" not only stops the clock. It turns it back again.

NUMBER 30

Annual Cap and Gown Day Address

Delivered by
PRESIDENT L. D. COFFMAN

THIS is the fifteenth time that I have participated in these exercises. To those who have never been here before, I should say that the exercises are held for two purposes, viz., to read the names of students who have won honors or special distinction in their work, and to recall and restate the purposes of a university. Although I am familiar with the exercises I never fail to experience a thrill as the names of those who have accomplished something especial in their studies, are read. Nor do I fail to experience a certain responsibility in attempting to restate the purposes of a university.

While new interpretations must be made from time to time of the university's meaning and place in civilization, it would be tragic if we forgot that it possesses certain traditions and ideals to which we should cling with all our power. On various occasions I have declared that a university must be a living thing, in close and constant contact with the world it is supposed to serve. Sound as I believe this principle to be, I do not think that it should be advanced as an argument for making a university the creature of the market place. It may appear to some that a university cannot preserve the historic traditions of higher education and at the same time be a living, growing, pulsating institution. Clearly a university may have its face turned so completely to the past that it will be unfamiliar with what is going on in the world. On the other hand, it may be so engrossed in current events that it will contribute little or nothing to essential scholarship.

I know that many persons look upon a university as something more than an instrument to promote learning and research. To them a university is a society composed of thousands of persons, students, faculty, employees, but mostly young persons, constantly changing, and yet retaining amid all of its changes certain permanent characteristics. A university in a true sense has its own concerns and its own loyalties: the university society may have its own concerns, its own loyalties, its own politics. A university may

reflect the concerns and loyalties and politics of society in general or of its society, but it can also stand aside and refuse to be a full participator.

We are in a period now when pressures for specific action are becoming increasingly evident. We are in a period when the world is full of change—every one is trying to find out what these changes mean. New philosophies, doctrines and theories are being advanced. The old walls of custom, designed for protection and security, are being torn down and new ones are being erected in their place.

THIS spirit of unrest and exploitation which flourishes now and which always flourishes in a period of social and economic derangement, seeps into and tends to undermine the substantial parts of the university structure. Universities are urged to do things that they cannot do without obscuring their goals and weakening their work. Being human, both faculty and students alike fall prey to this tendency. Using the shield of academic liberty for protection, faculty representatives occasionally become the advocates of programs, of causes, of movements which bear no relation to the fields of learning that they have mastered. The fact that this brings them into disrepute with competent scholars who hold steadfastly to the pursuit of human learning, and that they often become objects of public ridicule, is bad enough, but far worse is the fact that performances of this character often jeopardize the very existence of the university itself.

Nothing is more precious to a university than academic liberty. Without it a university cannot survive. And yet in common with every other great virtue or possession of the race, its value is only relative. The abuse of it be-

comes a vice. Intolerance masquerades behind its mask. The champions of academic liberty may destroy it by uncritically espousing every new proposal that may be made. Universities cannot chase after every Pied Piper who comes playing down their streets and be at the same time true to their purpose. New ideas must be tested. Time shows that most of them are wrong. A certain lag is desirable for the examination and testing of new ideas if there is to be real growth and continuity of stability. Universities are the best institutions yet devised by men for the testing of human experience. Because knowledge is of common interest to everyone, regardless of the political boundaries that separate people, civilized societies and nations generally have given the scholar and the scientist a certain immunity in the search for and the dissemination of information. However, immunity cannot be had without a price. Dr. A. V. Hill, Fullerton Professor of the Royal Society of England, discussing the small price the scholar and scientist must pay for this immunity, says: "Scholars and scientists possess varying degrees of capacity in practical affairs. One disadvantage of prominence in any calling is the fact that the world, at least its newspaper reporters, is apt to believe that the views of the prominent person are of importance in matters altogether unrelated to his special capacity. The views of Bernard Shaw, the Jester, are quoted on politics and science; Soddy, the Chemist, writes fantastically about economics; famous astronomers get entangled with divinity or metaphysics. No doubt it is to be desired that Shaw should take an interest in science and Soddy in economics; preferably a reasonable and not an emotional interest; my contention simply is that their views need not be taken more seriously than those of more ordinary people."

The importance of the problem to which Dr. Hill refers is attested by the efforts of the American Association of University Professors of this country to define the conditions that will insure intellectual liberty, and still further by the fact that President Angell,

President Conant, President Hopkins, President Hutchins, President Frank have either written or spoken upon it recently. Dean Ford's Phi Beta Kappa address of last year was upon this theme. Every one of these distinguished leaders was pleading for the preservation of academic liberty. They have seen it disappear in Russia, in Germany, in Italy, and they have seen forces at work in this country—some radical, some conservative—that would destroy it here. The universities of this country are in great danger from the extreme liberals who intolerantly seek action without knowledge, and also from the ultra-conservatists who see red when speech is free even though based on knowledge. Should scholarship ever lose its freedom it will be because of unreasoned pressure by outside groups or because of the unbridled license of its reckless advocates. No virtue can be preserved by abuse. If scholarship becomes the handmaiden of Communism or of Fascism, if it ties itself to emotion, to certain social or economic theories, to any form of propaganda, its immunity will soon be lost. Human learning will continue to lead human advancement only to the extent that it refuses to meddle with, or to be dominated by, isms, creeds, or doctrines. Science cannot be coerced and scholarship must not be prostituted to preconceived or ulterior ends.

Liberty is not a birthright, it must be achieved; and from generation to generation, constant watchfulness is necessary, therefore, if it is to be preserved. There are many forces at work today that would suppress, if not destroy, it. A nationalism which teaches violence and preaches hatred, a bigoted and flabby internationalism that scorns one's own country, a political and religious intolerance which, for the moment, seems to be on the increase—all tend to restrict learning and to convert it to their purposes. To these forces one should add another quite modern—that of mass propaganda whose appeal is always primarily to emotion and which usually eventuates in emotional absurdities. Hysterical outbursts of nationalism, such as we have witnessed in Germany, fantastic dreams of some political and economic reformers in this country, and a number of powerful movements designed for special purposes—have been and are now being promoted by an appeal to mass psychology. One can understand how such proposals and movements may appeal to the uninformed, but for them to find advocates in academic circles certainly puts a strain upon what we conceive to be loyalty to the functions of a university.

Intellectual cooperation is now impossible between some countries and

yet hope in every field of international endeavor lies only in intellectual co-operation. Great and fundamental achievements are never accomplished by relying upon the untutored moral judgments of the masses. Nor shall the race move forward with any appreciable speed by relying upon the dictatorship of youth, as some would have us believe. A tottering civilization must sooner or later put its trust, and increasingly so, in the scientifically trained. For centuries it has owed a debt to science and learning which it cannot now pay by discrediting or discarding them. Science and learning exist for their own sake; they can be used to promote the material welfare of mankind. If they are to be used for this purpose, then they must transcend national follies, international absurdities, and mass propaganda. At a time when academic freedom is being challenged everywhere throughout the world, when informed opinion is being stifled by force, when advertisements and propaganda offer prizes or extol those who are willing to stultify their intellectual consciences, it is well that we recall these matters. No one knows where the next blow will be struck. Two years ago German scholarship was free; now it is manacled. No premium is placed upon intellectual honesty in either Russia or Italy. We must not deceive ourselves—popular hysteria or mass insanity may appear in other places. Freedom of action has already been restricted. Freedom of thought and freedom of expression are endangered. As citizens we are interested in political and economic liberty, as members of a university community who have an enormous interest in academic liberty—a privilege which can be preserved only by making certain sacrifices.

WE must reiterate time and again that the primary concern of a university is the advancement of knowledge and that universities must hold steadfastly to this conception even though it involves the apparent loss of some contemporary advantage. In the last chapter of *Candida* there is a story of an old fruit grower to whom Pangloss applied for information about a vizier who had been strangled: "I know nothing about it," said the old fruit grower, "but I presume that in general those who mix in public affairs often perish miserably—and they deserve to. I cultivate my garden." Cultivating one's garden means in university circles that the weight and prestige of the university must always be thrown on the side of intelligence. Mr. Abraham Flexner in his great book on Universities, put this point clearly and forcefully in this language: "In this world

rocking beneath and around us, where is theory to be worked out, where are social and economic problems to be analyzed, where are theory and facts to be brought face to face, where is the truth welcome or unwelcome to be told, where are men to be trained to ascertain and to tell it, where, in whatever measure it is possible, is conscious, deliberate and responsible thought to be given to the task of re-shaping this world of ours to our living, unless first and foremost, in the university? The wit of man has thus far contrived no other comparable agency . . . But even so, it is one thing to incur responsibility for policies, and quite another to set up an experiment primarily in the interest of ascertaining truth or testing theory. The modern university must neither fear the world nor make itself responsible for its conduct."

These ideals can be achieved most effectively and most advantageously when a university is concerned with being itself, that is, by knowing rather than by doing, by ascertaining truth rather than by attempting the business of statesmen.

I do not mean to confine scholars to a cloistered existence. The archaeologists will carry on field work, to understand the civilization of the past; the economists study finances, markets, transportation and the like in order that they may comprehend the civilization of the present; but they will do this for the sake of knowing—that is *their main business*. University men will be then our best critics for they will be constantly engaged in the process of cultivating their own gardens.

In the past certain universities have fallen from grace and have only recovered by strenuous work and by re-establishing the ideal I have been trying to describe. When they stray from the straight path they are brought back with great difficulty, for the pathways of academic sin seem as alluring as the pathways of other sins. They offer promises to the unthinking that terminate eventually in intellectual selfishness.

Thus far in this discussion I have confined myself to academic freedom and academic responsibility as they relate to the teacher, but the obligation of preserving academic liberty rests upon students as well as upon the faculty. Students do not and cannot escape the insidious tendencies and influences to which I have been referring. Indeed they are often more responsive to public movements and to public pressures than are the staffs. Their responses to outside pressures often shows itself in their organizations and in the things they demand. Many a student organization has no relation to the advancement of learning or to

the enrichment of life; many of them are not intended to improve students in scholarship. Many of them exist for the purpose of promoting the interests of some institution, as for example, a church; of some organization, as for example, a political party; or of some activity that has to do with life about the campus, as for example, sports or social affairs. A university could exist without any of these organizations. Indeed there are universities in the world—good ones—that do not have organizations like these. Sometimes the value of these organizations or of some other kind of student activity, is exalted to the point of obscuring the real reason students are at the university.

University campuses are literally being flooded with organizations. College students were never in such danger of being exploited. Some of these organizations today arise out of the diverse political philosophies now current; others are promoted by propagandizing groups; still others are posing as youth movements. I have had invitations in the last few weeks to join or to sanction five of these youth movements. Careful inquiry showed me that each of these movements had an ulterior motive and that I could not honestly join it without prostituting the university's standards and its ideals.

MANY of the agencies that now engage in organizing the youth of this country are trying to use the campuses of our colleges and universities for the promotion of their programs. And they are finding a fairly ready and not always a critical response. The bald and unpleasant truth is that thousands of youth of this country do not know that they are being exploited and there are thousands of others who are ready and willing to join in the programs of the exploiters. The end of these outside groups are promoted usually by bringing to the campuses, and always under the guise of academic liberty, speakers to promote their causes. When these speakers are uninformed or when they devote their discussions to proselyting and propagandizing, they harm the cause of academic liberty.

I believe in free and generous discussion of every question that relates to human welfare. I think such discussions should be presented, so far as possible, by informed persons whose ability and learning are recognized. I think students should study and discuss every question of vital interest and that they should seek the cooperation of informed persons, and especially of the acknowledged scholars on the staff, in carrying on their discussions.

Senior Events

June 14—President's reception at the home of Dr. and Mrs. L. D. Coffman. 8:00 p.m.

June 16—Baccalaureate sermon, Dr. Samuel A. Eliot, Pastor of Arlington Street Church, Boston. Northrop auditorium, 11:00 a.m.

June 17—Commencement. President Coffman, speaker. Memorial stadium, 8:15 p.m.

Responsiveness to forces that lie outside the university, willingness on the part of any group to exalt the slogans and programs of non-academic agencies at the expense of the university, are among the chief things that weaken cooperation between students and staff. Naturally everyone associated with the university is concerned over what his rights and privileges are. What rights do we have? Only those rights which maintain the purposes of the university and promote its welfare. Unless its good name and its essential purposes are kept constantly in mind, we shall undermine, dissipate and destroy it by playing with extraneous things and making the campus the unguarded forum of self-seeking agencies.

Students sometimes forget that universities are not maintained primarily for them. Universities are maintained to discover truth and to assemble and disseminate knowledge. They can live without any given student or without any group or class of students barring one: those students who preserve the traditions of learning.

Few people know what the most difficult job of a university president is. It is that of resisting the pressures of individuals and of groups who wish to use the university's prestige to further their own interests. Put in another way, the most difficult as well as the most important responsibility of a university administration is that of keeping the university free to do its work. In the discharge of this particular responsibility the administration will have the cooperation and assistance of every student and faculty member who understands how important this is.

Individuals and groups who wish to use universities to promote their own ends, are seldom satisfied with that. They seek the indoctrination of the students. They insist that a certain kind of social theory, of political philosophy, of government structure, of industrial organization, of patriotism, of religious doctrine shall be taught. Even those who plead for freedom frequently wish it only to exploit their own theories or doctrines. The uni-

versities of this country are the chief citadels of freedom—once they are taken by any extreme group, then they will no longer be places of learning where subjects, programs, ideals will be scrutinized, examined, studied, evaluated, criticized, without show and without emotion. When any group uses a university to get converts, it is menacing the institutions of liberty. The only academic liberty that should characterize a university, indeed the only kind that can characterize it, is the liberty to learn, not the liberty to profess.

A university will study every question that affects welfare, but it will not carry a banner in a crusade for anything except freedom of learning. A university studies politics, but it will not advocate Fascism nor Communism. A university studies business, but it will not engage in commerce. A university studies social relief, but it will not undertake to administer it. A university studies engineering, but it will not build bridges. A university studies stocks and bonds, but it will not operate an investment house. A university studies military tactics, but it will not promote war. A university studies labor relations, but it will not engage in strikes. A university studies peace, but it will not organize crusades of pacifism.

THE welfare of the university must always take precedence over the desires of individuals, of groups, of classes, of organizations. It should give an unfriendly welcome to every cult that desires to reside within its borders. It should hold no commerce with intolerance, whether it be in the name of patriotism, of religion, or of social theory. Neither the bondage of outworn customs nor the specious pleas of extremists should ever be allowed to interfere with its legitimate functions of instruction or research.

Academic freedom derives its social significance from the fact that it is academic. The desirable academic attitude is objective, dispassionate, unprejudiced, clear-eyed, and informed. Free speech is a great thing, but sensible speech is even greater. In all university speech, reason should rule. Those who speak freely but not sensibly may be tolerated but not respected. Militant propaganda may be justified under certain circumstances but it should not hide behind the cloak of academic freedom. The duty of the scholar is to inquire fairly and justly into all relevant data bearing upon his hypothesis or problem and then to set forth faithfully and fearlessly his findings. To the freedom of learning as thus conceived and described, we of the university world can and should pledge our allegiance.

Senior President Presents Class

By TORVALD D. EBERHARDT '35B
President of the All-University Senior
Class

BY way of introduction, I would like to refer to a story told by an eminent columnist—a story published by one of our Northwest papers a week or so ago. That particular story, I think, coincides with my position upon this stage very nicely. The writer told about a superintendent of schools in Indiana who always came back to a certain high school for commencement. The superintendent started one of his addresses by saying that one could always tell when Spring had arrived, for he, the superintendent always showed up at the same time with the same speech. That last part is the part that applies to my case, but although the occasion repeats itself in many of the details—the same caps and gowns, the presentation of the graduating class to the administration—I hope that there are a few new elements in the speech.

This Spring we are completing four years that for most of us will always be looked upon as one of the most enjoyable periods of our lives. We began as young, egotistical freshmen, filled with ideals and, in many cases, with a definite goal toward which to work. Some of us have attained those goals. Others haven't, but all of us—those who succeeded, those who fell short, and those who had no goal to start with—have profited these four or more years.

In glancing over the speeches made in past years, I found that it is customary to extol the virtues of the graduating class and to tell of their accomplishments during their four year stay. If I digress from the customary practice, it won't be because we, as a class, have not as exemplary a record to point to as has had any preceding class. We have, but you, the graduating class, know what we have done, the administration and faculty know, just as all people who are in close contact with this University. I think that the number of the class receiving honors upon graduation and the eminent position which the name of our school has in the nation is proof enough of our worth. I might mention, however, a very few things which have happened since we started here, such as: England's going off the Gold Standard and waiting for prosperity to get around the corner—this during our Freshman year. The next year, our Sophomore year, Bernie Bierman had his first year here as coach, Roosevelt was elected, and in the Spring, the

bank holiday was declared. During our Junior year came, probably the most important event of our school lives—the repeal of the 18th Amendment and the return of legal beer. Then came our Senior year with its national football champs, and, finally, our graduation.

And so while I am presenting this class of 1935, I would like to say something directly to you as a class. You know there is that old saying, "Once a Michigan man, always a Michigan man." I would like to urge this class to acquire a little of that same spirit, or if you already have it, retain it. This feeling should not show itself only in the fall at football games, but throughout the year, in wholehearted support of our Alma Mater in her attempts to solve the educational problems of tomorrow. The administration can cooperate in promoting this feeling. One of the best ways to do this would be for the University to make a conscientious effort to keep not only us, but all alumni properly informed. If we, as Alums, and you, the administration, could forget that this is a state university, forget the impersonality which is usually a part of such a school, and could remember that we have spent four of the most glorious years of our lives at this University, and as a result, have learned to love it and regret being disassociated with it more than we care to confess. If we, the graduating class, and you, the administration, could remember this, I think we could take a long step toward establishing this new Minnesota slogan, "Once a Minnesota man, always a Minnesota man."

Mr. President, it is with a great deal of pleasure and pride, yet mingled with an equal amount of regret at the thought of having to leave that I present to you this class of 1935.

Work

All foresters graduating this June have already received jobs with salaries ranging as high as \$2,000 a year. The remaining 225 undergraduate students in forestry are assured of summer positions.

The demand for trained men is felt keenly because there are only 1,300 students enrolled in some 12 forestry schools throughout the United States, according to Dr. Henry Schmitz, head of the department of forestry. Recent

governmental interest in conservation and tree planting has increased the demand for more foresters.

Even though prospects may seem unbounded for forestry work, he cautioned against over-crowding of the forestry unit with new students rushing headlong into the field. The true conditions do not warrant such behavior, warns Dr. Schmitz.

"Mushroom" forestry schools which have sprung up because of the recent administration's conservation policy are risky ventures, he said, because a political change might upset the present planning.

Minnesota men are in great demand for federal jobs, although the forestry department has no courses that specifically train men for such work. Forestry experiment stations, forest ranging and emergency conservation projects comprise most openings filled by University men.

Fifty-four Minnesota men have accepted positions as leaders in numerous C.C.C. projects. There are 900 such positions open.

Classical Languages

With the retirement this spring of Dr. C. A. Savage, professor of Greek, the two languages, Latin and Greek, will be combined in a department of classical languages under the chairmanship of Dr. Marbury B. Ogle.

Professor Ogle has been delivering a series of talks on classical archeology this winter as a lecturer for the Archeological Institute of America. He has appeared before sections of the institute at the University of Chicago; Western Reserve University, Cleveland, O.; the Detroit section, University of Iowa section and the University of Wisconsin section. Before coming to Minnesota Dr. Ogle was for several years head of the American Academy at Rome, during which time he became thoroughly familiar with the results of recent excavations conducted by the Italian government.

On April 18 to 20 he and Professor Robert Cram attended in St. Louis the meetings of the Classical Association of the Middle West and South. There Dr. Ogle read a paper on, "The re-making of Rome."

Professor Ogle, of Virginia by birth and a graduate of the Johns Hopkins University in Baltimore, taught for many years at the University of Vermont and subsequently at Ohio State University. On leave from Ohio State, he served as head of the American Academy at Rome for several years before he came to Minnesota last fall to take over the duties left by the retirement of Professor Pike.

Campus Notes

CAMPUS elections were held Wednesday and the Gopher political party won nineteen of the thirty contested positions. The Gophers, who are said to have the backing of the fraternity-sorority political group, captured nine positions on the University Council.

Theodore Christianson, Jr., was elected president of the All-University Council, defeating Fred Lemmer and Frederick Rarig. Christianson is following in the footsteps of his father, the present congressman and former governor who was highly active and influential in student affairs during his days on the campus nearly thirty years ago.

Representatives

Representative Minnesotans of 1935, twelve students who have been active in campus functions during their academic life, were announced this week by an administration-student committee. The twelve selected will be honored at the activities banquet next week. They are: Earl Larson, Lucie Lawson, William Costello, Sherman Pease, Helen Brohaugh, Constance Chrysler, Margaret Bushnell, Howard Kahn, Betsy Emmons, Wright Brooks, Helen Hoff, and Lester Malkerson.

The committee making the selections was composed of President Coffman, Dean Nicholson, Dean Blitz, Jean Gardner, and Theodore Christianson, Jr.

Honor Societies

The names of the members of the two senior men's honor societies on the campus were made known this week. They are as follows:

Iron Wedge, senior society founded in 1911, has as members: William Green, Marshman Wattson, John Buckbee, Waldemar Rasmussen, Marlowe Anderson, Gordon Rosholt, John Coppage, Donald Heng, William Burgum, Harl Douglass, William Costello, John Wangaard, Bradley Laird, and David Buck.

Grey Friar, society of senior men, is composed of: Eugene Eyster, William Gordon, Raymond Hoag, Louis Dietrich, Harry Lathrop, Marshall Taft, William Boutell, Robert Mattison, Jack Densmore, Philip Biesanz, Howard Luther, Lawrence Barette, William Baring-Gould, Harry Carlson, Gordon Brown, Torvald Eberhardt, and Donald Truscott.

The following students have been elected to Plumb Bob, honorary senior

Seniors March in Annual Cap and Gown Ceremonies.

engineering society: Harry F. Baker, William H. Burgum, Clarence D. Ender, Victor C. Gilbertson, William J. Gordon, Raymond W. Hoag, George A. Lenke, Lester A. Malkerson, John J. McGlone, Carl J. Pennig, Gordon Rosholt, Lee S. Whitton.

Phi Beta Kappa

Thirty-six students of the University were elected to Phi Beta Kappa, leading national honorary academic society, this year. Announcement of those elected to membership in this and other honorary societies and recipients of University scholarships and awards were announced at the annual Cap and Gown convocation Thursday.

Cyrus Barnum, Joseph Daoust, Lawrence Dreiman, Frances Gilman, Robert E. Harris, Alberta Haycraft, Gladys H. Johnson, Sheldon Kaplan, Jerome Kaufman, Lois Lambert, John Nordin, Bernard Phillips, Bernard Rice, Virginia Schwartung, Russell C. Smith, Maxine Sorensen, Alice Swedenborg, Jane Van Braak.

Linn Firestone, Lindsey Harmon, Earl Kirmser, Marvin Kneidberg, Margaret Seder.

Helen Cory, Margaret Day, Made-

leine Doerfler, Febe Franklin, Ruth Cruver, Arvo Haapa, Audrey L. Hanson, Lucie Lawson, Carl Moeller, Richard C. Nelson, Milma Petrell, Erling Rice, Margaret Thomas.

Honors

Ruth D. Hathaway, senior in home economics who has shown "long, continuous and sincere interest and activity in directly improving campus life," was awarded the Dean Freeman medal for student leadership at the recognition assembly on the Farm Campus this week.

Eleven women of high scholastic achievement were given etchings provided by the Caleb Dorr fund, and six men received books. The women thus honored are Jeanette E. Bren, Frances Erickson, Gertrude Esteros, Lois Lindgren, June Lundblad, Mildred Malm, Gladys Ripczinski, Mary Shields, Lucille Spellman, Carol C. White and Charlotte Young.

The men who received books are Roger F. Anderson, James Bussey, Scott Pauley, Ernest Stanford, John Timperley and Alfred Trahms.

The MINNESOTA ALUMNI WEEKLY

Vol. 34 MAY 18, 1935 No. 30

Issued on Saturday of each week during the regular session, from September to June, and monthly during July and August. Entered as second class matter at the post office at Minneapolis, Minnesota.

Life subscriptions with life membership in the General Alumni Association are \$50. Yearly subscriptions are \$3. Subscribe with central office or local secretaries. Office on the campus is 118 Administration Building. Telephone: Main 8177.

OFFICERS AND DIRECTORS

ORREN E. SAFFORD, '10L, <i>President</i>	Minneapolis
ERLING S. PLATOU, '20Md, <i>Vice-President</i>	Minneapolis
THOS. F. WALLACE, '93, '95L, <i>Treasurer</i>	Minneapolis
E. B. PIERCE, '04, <i>Executive Secretary</i>	St. Paul

NEWS and COMMENT

ALL executive officers of the Board of Regents were re-elected to continue their positions during the next biennium at an organization meeting this week.

Fred B. Snyder '81, presiding officer of the board for the past nineteen years, was named first vice president to serve as presiding officer again.

John G. Williams was elected second vice president and William T. Middlebrook, comptroller, will continue as secretary. A. J. Olson was re-appointed chairman of the committee on agriculture; Mr. Snyder was also appointed representative to the state board of investment.

Among academic appointments, David M. Robb of Colgate university was appointed assistant professor of fine arts to succeed Everard M. Upjohn, present head of the department who will teach at Columbia next year. Edward F. D'Arms was appointed lecturer in the department of classics for the coming year.

The agricultural committee empowered Regent Frank W. Murphy to negotiate for additional land for the Morris school and experiment station.

Four prospective PWA building projects were given serious consideration by the board. These include an adult education building, storehouse addition, an indoor sports building and an underground garage.

President Coffman pointed out that these four, of a group of thirty-one suggested for consideration, were self-liquidating. The adult education building would cost approximately \$450,000, including \$100,000 for purchase of land. The storehouse addition could be constructed for \$40,000, while an indoor sport building addition would cost \$30,000. The proposed underground garage, to be financed by funds on hand and revenue, would cost \$200,000.

THE annual yearbook, the Gopher of 1935, was distributed on the campus this week and it is a worthy addition to the long line of Gophers published annually since the institution of the idea by the Class of 1888. From 1888 until 1929 the yearbook was published by the junior class, but in 1930 the publication schedule was changed and a staff of seniors now edits the volume.

The editor of the 1935 book is Kenneth Ray and the business manager is Ray Swartout. Blue is the dominant color in the 336-page book.

A special feature of the 1935 Gopher is a 24-page section devoted to a pictorial record of the 1934 season on the gridiron. In addition to the pictures of the players there are action shots from all the games.

The 1935 Gopher is dedicated to Dr. L. J. Cooke in the following words:

"Thirty-eight years ago an angular young doctor with sparkling eyes and tingling wit breezed onto the campus of the University of Minnesota, took lodging at the old Armory and collected about him a pleasing growth of permanent friends.

"Tradition came with friendships, and the old office at the musty Armory became cluttered with souvenirs and knick-knacks that seemed a part of the snappy young doctor at the head of the physical education department. He became interwoven with the life of the campus—coaching, laughing, and teaching his way into student and faculty circles.

"Now the doctor is old, but he is still angular, still lovable, and still the core of campus tradition. He has moved into a sparkling office that befits his sunshine personality; he is the president emeritus of good feeling at the University.

"So to Doctor Louis J. Cooke, to his good feeling and to his perpetual optimism, we dedicate this, our 1935 Gopher."

TWO newspapermen, an author and a scientist will address summer session students at their convocations during the period from June 20 to July 18. T. A. H. Teeter, associate director of the summer session, announced this week.

Heading the list of speakers will be S. Miles Bouton, veteran correspondent for the *Baltimore Sun* and the *Associated Press*, who has returned to the United States after spending 23 years in Germany. He will open the sessions with his address on the German situation June 20.

On the following week, a delegate to the American Association for the Advancement of Science convention meeting here at that time, will speak.

On July 11, Miss Melissa Alexander, prominent New York club woman and author, will speak on European conditions. Miss Alexander is widely known for her woman's club work.

Clark Hallam, a newspaper man who has traveled extensively in the Orient, will close the regular convocation schedule on July 18. He will speak on the Far East.

In addition to the convocation speakers, two series of six lectures will be given by Maud Scheerer, and Marie Bentivoglio. The former will present a program of lectures similar to those given by her to General college students this year.

The Reviewing Stand

W. S. G.

Prize Winner

THE Republican-Herald, Winona daily, edited by H. R. Wiecking, '24B, won national recognition at the recent annual convention of the National Editorial Association in New Orleans when it was adjudged first place winner in the general excellence contest for daily newspapers with a circulation of more than 3,500.

A silver trophy award, offered by James Wright Brown, publisher of "Editor and Publisher," New York, was presented to Mr. Wiecking at a dinner at the Roosevelt hotel, convention headquarters, honoring representatives of contest winning newspapers.

This newspaper also won honorable mention in the outstanding edition contest with the special issue printed Aug. 8, 1934, in connection with the visit to Winona by President Roosevelt during his inspection trip of nine-foot channel projects in this section. The general excellence and outstanding edition contests were the only two entered by The Republican-Herald.

Competing with some of the outstanding newspapers in the country, The Republican-Herald received the highest number of points in the general excellence contest which was graded on the following basis: mechanical excellence 25 points; general and departmental news coverage 25; literary excellence 10; promotion of community interests 10; editorial page 15 and advertising enterprise 15.

Resignations

MINNESOTA is losing four members of its faculties, each of whom has accepted an offer to go elsewhere on terms the university was unable to meet.

After teaching fine arts at Minnesota for six years, Everard M. Upjohn, assistant professor of fine arts, has resigned to become a member of the faculty at Columbia. Centralization of art interest, museums and art publishing ventures in New York City makes the change a desirable one from the professional point of view, Professor Upjohn explained.

At Columbia he will teach the introductory course in fine arts, and will also offer courses in the development of modern painting and the development of American art.

A Harvard graduate who also took his advanced work at Harvard, Pro-

fessor Upjohn came to Minnesota in 1929 to take charge of the newly offered courses in fine arts in the College of Science, Literature and the Arts.

Dr. Leroy Powers, associate professor of plant breeding, has resigned to accept a government position at a research station near Laramie, Wyoming. There he will devote his entire time to agricultural researches. Dr. Powers is a Minnesota trained man who took his work under Dean E. M. Freeman and Dr. H. K. Hays at University Farm.

Professor William H. Stead, who for two years has served as associate director of the United States Employment Service in Washington under an arrangement whereby he was on leave from the University of Minnesota has definitely severed his connection with the institution to devote his time to work in Washington. In the days of the Employment Stabilization Research Institute he devised so effective a plan of state employment bureaus for Minnesota that the national government took him to Washington and modeled many phases of the national employment service on the Minnesota system.

Dr. Alice Leahy, who has been at Minnesota since 1929 as a lecturer in sociology and a research worker in the Institute of Child Welfare, has resigned to go next fall to Catholic University, Washington, D. C., where she will become an associate professor of sociology at a large advance in salary over the Minnesota figure. Miss Leahy is a Minnesota graduate with an M.A. degree from Columbia.

Before coming to the university she was at one time director of psychiatric social work for the Minneapolis Child Guidance Clinic.

New Club

A new group added its name to the list of campus organizations Saturday when 16 journalism and business students formed the Campus Advertising club to promote interest in advertising.

Formal organization action was taken after Kenneth Olson, professor of journalism, and Roland Vaile, professor of marketing, had discussed the desirability of forming such a group. Milton Kihlstrum, William Baring-Gould and Foe Friedheim, all arts college seniors, were elected president, vice president and secretary-treasurer, respectively.

TRACK COACH SHERMAN FINGER will view the preparations for the 1936 Olympic games while on a leave of absence during the coming year.

Members of the newly-formed club are: Milton Kihlstrum, William Baring-Gould, Joe Friedheim, Joan Bowman, Della Cohen, Marion Jung, Maxine Kennedy, Frances McStay, Francis Somers, Stan Bailey, Charles Dean, Norman Porter, Harold E. Hulsing, Norman Van Guilder, Calvin Ault and Vernon L. Orton.

1932

William C. Hill '32E writes: "I am still with the Minnesota Highway Department and am located at Morris. Last June Stan Watkins '31E and I were transferred to the soils division of the department. Stan is at Mankato."

Sam McKee '32B is now working for the Hotel Stately, 6150 Greenwood avenue, Chicago.

Three Generations

Another instance of three generations in the same family attending the University of Minnesota was brought to our attention by Mrs. J. N. Childs (Martha Butler '76A) of Minneapolis. She writes: "I was graduated with the class of '76, my two sons both took the engineering course, the younger one, John Chauncey Childs, graduating in 1906. The elder son, Donald Childs ('04Ex) left college in the spring of his senior year to take an engineering job, but two of his children have graduated here, Betty '29, and Donald H. '34E.

Sports News of the Week

APPENDICITIS rather than scholastic ineligibility has become the bugaboo of the Gopher football squad this spring. First it was Frank Dallera, guard candidate from St. Paul, who was taken to the hospital. Whitman Rork, smashing young fullback, was the next victim and now George Rennix, left halfback, is in the hospital with appendix trouble.

Several of the leading candidates for positions on the 1935 eleven will be missing from the spring game. Sheldon Beise had an examination scheduled for that afternoon and another fullback, Lawrence Bugni, is in the hospital with an injured back. This left only one regular fullback, Vic Spadacini, ready for active duty throughout the game.

The newcomers on the squad have not developed as Bernie Bierman desired and part of this has been due to the fact of course that the training has been slowed up by the cold and rainy weather during April and May. Special sessions will be held until the end of the school term, although the regular spring training season will officially close this weekend with the spring contest in Memorial Stadium. Under a new ruling adopted by the conference, the fall training season will open a week earlier next september.

The absence of several veterans from the spring game will give the freshmen and the reserves a chance to show what they can do under fire.

Baseball

In the first home game of the Minnesota baseball season, Dr. L. J. Cooke, pitched the first ball, Herman Glander, the campus cop, did the catching, while President Coffman took his place at the plate.

Tommy Gullivan, ace of the University of Minnesota pitching staff hurled superb baseball to lead his mates to a 3 to 1 victory over the University of Wisconsin nine on Northrop field.

Gullivan and Tomek, Badger pitcher, tied up in a tight pitching duel, with the Gopher twirler limiting his opponents to but four hits while striking out 10. Tomek was nicked for five bingles, but issued six bases on balls.

It was the second Big Ten conference victory for the Gophers against a single loss. For Wisconsin it was the fourth loss, with but one victory in the win column.

The Badgers scored first in the second inning when Capicek's hard drive

went through both Babe LeVoor at third base and Henry Streich in center-field for a double error. DeMark, Wisconsin right fielder, followed with a single to bring Capicek home from third.

In the Gophers' half of the second inning, Grossman, right fielder, walked, but was thrown out at second on a fielder's choice when Klonowski attempted to sacrifice. Captain Milton Bruhn got on through an error, and when LeVoor punched a single into left field Klonowski scored, but Bruhn was thrown out at home. Gullivan then singled to score LeVoor, who had reached second on the play on Bruhn at the plate.

To start the fourth inning, Grossman again walked, advanced to second on Klonowski's sacrifice, and scored when Bruhn's drive went through Nordstrom, Wisconsin shortstop for an error.

Fencers Win

Three members of the University Swordsman club, Richard E. Eldred, Louis Berman and Jackson L. Boughner won the state team fencing title by defeating the St. Paul Jewish Educational Center squad, 5-4, this week.

GLENN SEIDEL

Track

Minnesota track men won four firsts in the dual meet with Iowa last Saturday at Iowa City. The Hawkeyes won the meet, 75 1-3 to 50 2-3. Wayne Slocum contributed two of the first places with wins in the mile and two-mile races.

The Gophers swept the shotput in which Freimuth, Krezowski and Goodman finished first, second and third.

Conference Medal

Bob Tenner, star end on Gopher eleven for the past three seasons, was named the recipient of the Conference Medal for scholastic as well as athletic ability at the annual Cap and Gown Day exercises in Northrop auditorium. While a Gopher, Tenner contributed three scoring plays that will not soon be forgotten by Minnesota fans. During his sophomore year he caught a pass to score the winning touchdown against Northwestern in the Homecoming game in Memorial Stadium. As a junior he took a lateral pass and did some neat running to cross the goal line for the score which defeated the Pittsburgh Panthers in the stadium. Then last season he was on the receiving end of the pass from Pug Lund which gave the Gophers a victory over the Panthers at Pittsburgh.

Another football player, captain-elect Glenn Seidel, was also honored for scholastic proficiency at the Cap and Gown Day exercises with election to Pi Tau Sigma, honorary engineering society.

Minnesota Women

ANNE ARMSTRONG '33A, has been awarded a summer scholarship at the Institute of Art and Archeology of the University of Paris, given through the Institute of International Education in New York. During the past year Miss Armstrong has been studying at the University of Chicago where she has had a Fellowship in the Fine Arts.

Many prenuptial parties are being given in honor of Ruth Corneille Dickson '31A, whose marriage to Everett A. Drake '33L, will take place Saturday, May 25, at Westminster Presbyterian church. Mrs. John Devaney (Janet Polley), 3707 Grand avenue, was hostess at a shower Tuesday, May 7, for Miss Dickson. On Wednesday Mrs. Josiah Hartzell III, 2615 Park avenue, gave a linen shower for her. Miss Dickson shared honors with Eleanor McMillan '31Ex, of St. Paul on May 10 at a party given by Helen Cole of St. Paul. Hazel Wicklund, 4238 Harriet avenue, was hostess to twelve guests at a buffet supper. Harriet Kimball, 3039 Humboldt avenue south, also gave a shower for Miss Dickson.

In the group of garden lovers who sailed on the S. S. Statendam for Holland to attend the Decennial International Flower Show were Mrs. Edgar F. Zelle (Lillian Nippert '15Ex) of Minneapolis and Mrs. Burt J. Denman (Louise Dayton '27A) of Wilmette, Illinois, formerly of Minneapolis. They planned to meet another group of Minneapolis people, including Mrs. Preston King (Josephine Marrs '86A), who had gone abroad earlier.

The flower show will be given in Heemstede, Holland, under the patronage of Queen Wilhelmina. The show will include a "court of tulips," where 500,000 were planted. After the show the women plan to go to the Chelsea Flower Show in England. They will be away until June.

The Minnesota Alumnae Association of Kappa Delta sorority sponsored an afternoon bridge party early in May at the chapter house. Proceeds are to be used for the benefit of the scholarship fund of Kappa Delta.

Celeste Carney was general chairman. She was assisted by Ellena Ventura and Marian Schroeder. Other committees were Cora Grotta, public-

ity; Gladys Cairncross and Dorothy Peterson, tickets; Mrs. Frank McGraw, Anne Mulrean, and Genevieve Hobart, favors; Loretta Koelgren, Mathilda Wallbloom, and Helen Thorvildson, entertainment; Mrs. W. Bradley, Mrs. Frank Pond, Mrs. Harold Westermann, and Ruth Nethercott, hospitality; Mrs. Carl Pohlson and Mrs. Donald Bacon, talkies; Mrs. Carl Waldron, Mrs. Ewart Nelson, Mrs. Rudolph Anderson, Mrs. Clarence Olson, Esther Doerr, Regina Esterly, Margaret Mull, Phyllis Wilcox, and Fern Fisk, tables; Dorothy McManigal, Laura Frost, Vera Larson, Eleanor Thompson, Helen Griswold, Ruth Goodhue, Mrs. Robert Manke, Mrs. Gordon Bassett, and Mrs. Ralph Brastad, refreshments.

Florence Warnock '27Ed, and Catherine Snell of the department of physical education for women at the University, attended the sectional convention of the Athletic Federation of College Women at the University of Chicago. There were four delegates from the University of Minnesota Women's Athletic Association. In 1936 the national convention of the organization will be held on the Minnesota campus.

Gratia Countryman '89A, Minneapolis librarian, sailed from Baltimore early in May for Spain. She will be a delegate at the International Federation of Library Association meeting in Madrid. Marion Prest '13A, secretary to Miss Countryman, remained here.

Mrs. Frank Wackerman was chairman of arrangements for the last desert bridge which was given at the Sigma Kappa house. Assisting her were Mmes. W. J. Cook, Fred Paul, George Hauenstein, C. A. Bell, James Hartley, Emma C. Peterson, Philip Young, D. S. Robins, Samuel Johnstone, F. W. Peglow, and C. Greenfield of Anoka. The bridge at one o'clock followed a short business meeting.

Clara M. Brown '13Ed and Grace Gordon Hood of the home economics department at University Farm, were on the speaking program for the Central Regional Conference of the Office of Education held in Chicago in April.

A spring supper dance was given in the Flame room of the Radisson hotel recently by the alumnae association of the school of nursing of the University. Alice Osterberg '26 was chairman

of general arrangements and was assisted by Clara Freiheit '31, Florence Anderson '30, Dorothy Petch, Amy Stolpe '32, Hortense Dahl Johnson '30, and Edith J. Nelson '29. Phyllena Frederick '29 had charge of publicity. Chaperones were Miss Katharine J. Densford, director of the school of nursing, Cecelia H. Hauge '29, Julia Miller, and Thelma Dodds '29.

Mr. and Mrs. Hugh Ruddy (Margaret Brooberg), 2615 Park avenue, left early in May by motor for Denver where they are visiting Mrs. Ruddy's sister and niece, Mrs. Ethel Brooberg Petri '07A, and Dr. Aileen Petri, Colorado boulevard. Mrs. Petri and Dr. Petri left Minneapolis in January to make their home in Denver, where Dr. Petri has been awarded a fellowship.

Gertrude Hilleboe '17Ex, dean of women at St. Olaf College, Northfield, spoke at a recent meeting of the Minneapolis Lutheran Daughters of the Reformation. Her picture appeared in the Minneapolis Journal.

Margaret Murphy '34Ag of Oakland avenue, Minneapolis, who is to be a bridesmaid at the marriage of Margaret Jane Cummings '34B of St. Paul and Harold Carlsen of Rock Island, Illinois, entertained at a shower recently when the guests were twenty-four sorority sisters of Miss Cummings and Miss Murphy in Alpha Chi Omega.

Mrs. Ramsay Parker (Barbara Harris) will preside at the founders' day banquet of Gamma Phi Beta sorority Tuesday, May 21, at the Town and Country Club, St. Paul. Mrs. G. A. Feldman and Janet Christofferson are in charge of general arrangements. "The Burning of the Mortgage" will be the theme for the banquet. Betty Christofferson, president of the active chapter, will speak. Mary Baker will tell of the camps for undernourished children which are sponsored by the sorority. Mrs. Paul C. Rutherford will officiate at the burning of the mortgage ceremony. Plans for the 1936 convention in Vancouver, British Columbia, will be told by Mrs. Arthur C. Hoffman (Millicent Lees), national president.

Lucy M. Will '18Ed, instructor in University high school, was chosen chairman of the German section for 1936 at the Chicago meeting of the Central, West, and South Division of the Modern Language Association. She is also vice-president of the Minnesota Modern Language Association.

Alumni to Visit Campus in June

ON June 17, the day the members of the Class of 1935 will be going through their final exercises as undergraduates at the University, several hundred alumni members of former classes will return to the campus to attend the annual Alumni Day program. Each year there are reunions of the members of the five-year classes and this year the quinquennial groups range from 1875 to 1930. The two living members of the Class of 1875 are Julius Miner of Minneapolis and Mrs. Henry Williamson of Portland, Oregon. Class committee chairmen who have already been appointed are as follows: 1885, Howard Abbott; 1890, Charles L. Sommers; 1895, Robert M. Thompson; 1900, Leroy A. Page; 1905, Henry Mitchell; 1910, Theodore W. Thomson; 1925, Oliver Aas.

The plans for the annual alumni dinner which will precede the commencement exercises are being made by the 1910 class committee. The banquet will be held in the Minnesota Union at 5:30 on June 17. The price per plate will be seventy-five cents. Howard Y. Williams, well known speaker, will be the toastmaster. Alumni of all classes are invited to attend the dinner and the other activities. The various five-year groups will hold reunion luncheons at noon in the Union and in Pioneer Hall.

The three survivors of the original class of sixteen, 1877, namely, Mrs. M. J. C. Wilkin, Fred Eustis, and A. M. Welles, plan to hold their annual dinner and reunion at the home of Mr. Eustis on June 7th, thus celebrating the 58th anniversary of their graduation. Diplomas were awarded by President William Watts Folwell. The class of 1877 was the fifth to graduate. The survivors are all residents of Minneapolis.

Frank C. Esterly

Frank C. Esterly '02L, president of the Minnesota Association of Insurance Agents and head of the Esterly-Hoppin Company, Inc., died Saturday, May 11, at his home in Minneapolis. Among the pallbearers at the funeral on Monday were Thomas F. Wallace '93A, 95L, Frank Barney '94A, and George K. Belden '92A, '97L. Mr. Esterly founded the Esterly-Hoppin company in 1923. He was a member of the Athletic, Lafayette, and Automobile clubs, of the Chi Psi fraternity, and Phi Delta Phi, legal fraternity. He is survived by his wife, one daughter, Regina Esterly '30Ex, and one son, Curtis Esterly.

Medical Lecture

Dr. Jennings C. Litzenberg, Professor and Head of the Department of Obstetrics and Gynecology at the University, delivered the William W. Root Alpha Omega Alpha Lecture on medical history on Thursday evening, May 16, in the Medical Science Amphitheatre. His subject was, "Milestones in the History of Obstetrics and Gynecology." Dr. Litzenberg is a nationally known obstetrician and gynecologist. Following his graduation from the University of Minnesota in 1899 he studied at the University of Vienna, in Berlin, London, Glasgow, and Dublin.

He is a member of Alpha Omega Alpha and Sigma Xi Honorary Societies, American Gynecological Society, American College of Surgeons, American Medical Association. He is also a member of the American Association of Obstetricians, Gynecologists and Abdominal Surgeons and was named President in 1932.

This lecture was under the sponsorship of Alpha Omega Alpha, honorary medical society, of which Doctor Litzenberg is a counsellor of the local chapter.

Stones

Two University of Minnesota geologists, George A. Thiel ('23G) and Carl E. Dutton ('28G), are publishing this week through the University of Minnesota Press their book on *The Architectural, Structural, and Monumental Stones of Minnesota*.

Colored plates showing the more important varieties of Minnesota building stones taken from the quarries of the St. Cloud, Arrowhead, and Minnesota River districts are used throughout the book to give the reader an idea of the shades and textures of these stones, which have been used in buildings from New York to Texas. The book describes more than fifty varieties of stones quarried and fabricated in Minnesota, and outlines the methods used in preparing them for use in building.

Brief Notes About Minnesota Alumni

12,000 Minnesotans read this department each week for news of friends of College days.

Gratia Countryman '89A. See Woman's Page.

1899

Stelle S. Smith '99L recently was re-elected first vice-president of the Minneapolis chapter of the International Association of Torch Clubs at their annual meeting.

1901

Harold C. Freeman of St. Paul, brother of Mrs. Maude Freeman Heine '01A, of New York and of Dr. Charles D. Freeman '04Md, of St. Paul, died May 6 at Miller Hospital. He was president and organizer of a St. Paul shoe manufacturing firm.

Dr. L. H. Fligman '01Md is vice-president of the Montana State Board of Health.

1905

L. M. Herbert '05P, of Worthington recently was elected vice-president of the Minnesota State Pharmaceutical Association.

1907

F. E. Flynn '07L, recently was appointed United States District Attorney for Arizona. He was formerly a member of the firm of Norris, Flynn, and Patterson in Prescott. Mr. Flynn is a brother of J. G. Flynn '03M, of Bisbee, Arizona.

Chief Justice John P. Devaney '07L conferred with Attorney General Homer S. Cummings and with J. Edgar Hoover, head of the department of justice agents, in Washington early in May, regarding crime legislation passed by Minnesota. He also attended a meeting of the American Law Institute and of the American Judicature Society.

1908

Dr. A. E. Bostrom '08Md, of De Smet, South Dakota, has resumed his private practice as a physician and surgeon after six years spent with the state board of health and the federal government in Indian work. Dr. Bostrom takes up his practice again on the twenty-fifth anniversary of his

coming as a young surgeon to the De Smet hospital founded at that time.

On the board of directors of the Minneapolis chapter of the International Association of Torch Clubs are Dr. Harry Britzius '09D, Dr. J. F. Hendrickson '05Md, and Dr. F. T. Cavanor '10Md.

1914

C. D. Simpson '14L, of West Concord, Minnesota, recently was named vice-president of the Fifth Judicial District Bar Association. Otto J. Nelson '20L, of Owatonna, was named treasurer.

1915

C. T. Heller, Jr., '15P, of St. Paul, recently was re-elected treasurer of the Minnesota State Pharmaceutical Association. Joseph Vadheim '15P, of Tyler is a member of the executive committee. Among those named as the association's choice for the vacancy on the state board of pharmacy to be filled in January were N. Vere Sanders '15P, of Albert Lea, Joseph Vadheim, mentioned above, and E. M. Marsh '11P, of Pine Island.

1916

Dr. C. H. Bailey '16G, and Dr. R. C. Sherwood '25G, returned recently from New York City, where they attended the annual American Chemical Association meeting.

The late Mrs. Carrie M. Harper, mother of Stanley J. Harper '16A, created in her will a \$5,000 trust fund for the University of Minnesota, the income to be employed to assist deserving students. The fund created in memory of Josephine Louise Harper, Mrs. Harper's daughter.

1918

H. A. Boucher '18Ex American consul at Rome, and two members of his "international family" reached Minneapolis last week for a vacation.

Mr. and Mrs. Boucher and their two sons, Melville, 9 years old, and Frank Lyman, 4, will remain in the city at the home of his brother, Lyman T. Boucher, 2719 Park avenue, until July, when they will return to his post in Rome.

"We're going to headquarter here for a couple of months," said Mr. Boucher, "but in the meantime, I'm going to jump out to my home at Aberdeen, S. D., and take a fishing trip or two into the northern section of the state. I'm going to go where I want to and do what I want and insult anybody I want to. I'm off the diplomatic standard for two months."

Mr. Boucher was born in Aberdeen and attended school there before coming to the University of Minnesota in 1914, 1915 and 1916. He left Minnesota to attend George Washington University before entering the war. He served with an American ambulance corps in Italy, by coincidence his diplomatic home now. After the war he entered the diplomatic service, serving four years in Barcelona, Spain, four years in Dublin, Ireland, and two years in Cobh (Queenstown), Ireland, before going to Rome five years ago.

His family truly deserves the title of "international family." He met Mrs. Boucher, an English girl, in Barcelona and later married her in England. She was born and reared in London. Their oldest child, Melville, was born in Dublin as was the next, Stella 8. The next child, Valerie, 6, was born in Cobh, and Frank Lyman was born in London while Mr. Boucher was stationed at Rome. The two girls are now in London at Mrs. Boucher's home.

"I will steadfastly refuse to discuss international affairs while my vacation lasts," the consul said. "Italy is taking very good care of itself and nothing I could say would change it. It is going into debt at exactly the same rate we are, only in lira instead of dollars. Before I left it had about 1,000,000 totally unemployed and many partially unemployed. Just as I was leaving, however, that was changed by the call to arms of the entire class of 1911.

"They are solving their unemployment situation somewhat by the army, with the Abyssinian campaign and the other preparations. The papers are nothing but war and war talk and international discussions, but it has been so for two years.

"Italy is using extreme precaution to protect its home manufacturers and growers. Before a dealer can possibly get a license to import goods, he must first show an order by which he will export a similar amount of goods."

Lucy M. Will '18Ed, See Woman's Page.

1920

Dr. J. A. Myers, '20Md, Minneapolis, made a ten days' trip last month in several of the southern states where he spoke before over twenty medical organizations. Among the leading ones were the Gaston Greil Memorial at Montgomery, Alabama, the Tulane Medical School, the New Orleans Medical Society, the Florida State Tuberculosis Association and the South Carolina State Tuberculosis Association.

1922

Dr. Halbert Dunn '22Md, director of the University hospital, discussed "Features of Administration" at the annual meeting of the Minnesota Dietetic Association this month.

Dr. Glenn Bennett '22D, of Wisconsin Rapids, is president of the recently organized Wood County Dental Society. He has been instrumental in the development of the Central Wisconsin Dental Credit Rating Bureau.

1924

Dr. ('24Md) and Mrs. Erwin W. Exley, 1600 East Minnehaha parkway, Minneapolis, announce the birth of a son on Thursday, May 2.

1926

Clinton Redlund '26L, of St. Paul, left recently for a motor trip to Los Angeles and San Francisco. He will remain until the last of May.

Mr. ('26A) and Mrs. Gerald Newhouse (Genevieve Flick) of Atlantic City will make their home in Baltimore this fall. Mrs. Newhouse and their daughter, Janet Muriel, are spending the summer in Minneapolis. Mr. Newhouse accompanied his family as far as Detroit.

The engagement of Vera Jane Wattles '26Ed to Clarence Munn '32Ed has been announced. The wedding will take place June 12. Miss Wattles' home is in Park Rapids, Minnesota. She is an instructor in French at North high school, Minneapolis. Mr. Munn, who attained All-American heights as a triple threat guard under Fritz Crisler, has been connected with the University ever since his graduation. He has been assistant football coach and track mentor, as well as an instructor in physical education. Just recently he received his appointment as athletic director and football coach at Albright College in Reading, Pennsylvania. They will go east August 1.

1927

The marriage of Mary Eileen Kyle '27A to John Marshall of Evanston, Illinois, was announced recently by her parents. The wedding took place Friday, April 26. Mr. and Mrs. Marshall are on a trip through the south and will be at home in Evanston after June 1. Mrs. Marshall is a member of Alpha Phi sorority. Mr. Marshall is a graduate of the University of Wisconsin.

Mr. ('27E) and Mrs. Roy C. Irons (Lois George '25Ed), 2501 Arcade street, St. Paul, write: "We have a

brand new house, a dog, Tippy, and three children—Betty June, almost four, Peggy, two and a half, and Celia Ruth born February 27 last."

Florence Warnock '27 Ed, See Woman's Page.

1928

The engagement of Muriel Dolores Furgason '28Ag to Leo Francis Puhr of Brookings, South Dakota, has been announced. The marriage will take place in June. Mr. Puhr is a member of the faculty of South Dakota State College at Brookings.

1929

Glenn Youatt '29E, is doing all the forestry engineering work at E.C.W. Camp, S-53. His mailing address is Side Lake, Minnesota.

Archie N. Jones '29 Ed, '31G, recently was re-elected president of the Minneapolis chapter of the International Association of Torch Clubs at their annual meeting.

The engagement of Martha Nelson of Hills, Minnesota, to Ralph J. Turner '29Ex, has been announced. Miss Nelson is a graduate of the school of nursing at Deaconess hospital.

An article entitled, "Why High School Journalism?" by Russell J. Hammargren '29 Ed, appeared in the May number of the Minnesota Journal of Education. Mr. Hammargren teaches in the senior high school at Mankato and is sponsor of publications.

Mr. ('29L) and Mrs. Richard Carlton Hinze (Mary Caroline Baker) of Helena, Montana, announce the birth of a son, Richard Carlton, Jr., on April 25.

Engaged—Rose Greene of Minneapolis to David C. Turchick '29Ed. Mr. Turchick is also a graduate of the Teachers' Institute of the Jewish Theological Seminary in New York City.

1930

The engagement of Gerd Wahlenberg of Minneapolis to Erling Sandness '30E, has been announced. The wedding will take place in June.

Gustav Swanson '30Ed, '32G, of Minneapolis, formerly in charge of wild life management and forestry work on the United States department of agriculture's soil erosion service area at Spring Valley, took over his duties as biologist of the Minnesota division of game and fish on May 1. Mr. Swanson for four years was teaching assistant in the department of zoology.

WLB Programs

MONDAY, MAY 20

- 1:00 P.M.—Farm Hour.
1:15 P.M.—Weber Waltz.

TUESDAY, MAY 21

- 7:00 P.M.—Cooperatives.
7:15 P.M.—Adult Education—Irving W. Jones.
7:30 P.M.—Patricia Fitzpatrick, pianist.

WEDNESDAY, MAY 22

- 1:00 P.M.—"What's On the Air?"—Burton Paulu.
1:15 P.M.—Elena Gerhardt.

THURSDAY, MAY 23

- 10:45 A.M.—Liadow Program.
11:15 A.M.—Duparc Songs.
11:30 A.M.—Batterton's Neighbors.
11:45 A.M.—Siegfried Fantasy.
12:00 Noon—International Relations Club.
12:15 P.M.—Little Art Gallery.
7:00 P.M.—Martha Quartets.
7:15 P.M.—World Affairs—C. P. Barnum.
7:30 P.M.—Swedish Lesson—A. A. Stomberg.

FRIDAY, MAY 24

- 1:00 P.M.—Farm Hour.
1:15 P.M.—Karelia Suite.
4:00 P.M.—Organ Recital—G. H. Fairclough.
7:00 P.M.—Minnesota Daily Newscast.

SATURDAY, MAY 25

- 7:00 P.M.—Beethoven Quartet.
7:30 P.M.—"Modern Poets"—Dr. John Walker Powell.

Engaged—Ruth Danielson of Minneapolis to John A. Brown '30A, of St. Paul. The marriage will take place early in the summer.

1932

Dr. Roy Nyquist '32Md, who has been with the Huron Clinic for the past year has located at Iroquois, South Dakota, where he has opened offices for general practice.

Scott Linsley '32E has resigned his position with the E.C.W. to accept a similar position with the Twin City Sewage Commission.

Udert Hella '32E, who is in a C.C.C.

camp, has been promoted to a first lieutenant and is now the youngest commanding officer at any outfit.

1933

Raymond Pepinsky '33A, '34G, son of Professor Abe Pepinsky of the music department, has been awarded a fellowship for advanced study at the University of Chicago. Mr. Pepinsky will work for his doctorate.

Homer D. Thomas '33E went to work two days after graduation for the Department of Drainage and Waters, State of Minnesota, as a junior engineer on the soil erosion work in the southeastern part of the state and from there to construction work at Ely. Mr. Thomas built seven camps involving not only the design and construction of buildings but also of roads, the development of water and sewage systems and the installation of lighting facilities. From Ely he went to Rochester, building nine summer camps and one winter camp there. Garnering all kinds of experience, he was next appointed quartermaster over ten camps, involving all construction work and purchasing of materials and supplies. It is his opinion that the C.C.C. is permanent for the next several years at least, and he is working hard for promotion. Mr. Thomas was married last June. His present address is Park Rapids.

The engagement of Ruth M. Lauderdale '33Ag, to Henry Mayo '34Ag, of Alpha, Minnesota was announced recently. The betrothal was revealed at an anniversary party of the Minnesota chapter of the Farm House fraternity of the college of agriculture.

The wedding hymn of Delta Delta Delta, the bride's sorority, was played before the marriage May 4 of Nola E. Cheely '33DH, and Dr. Douglas Ganfield '33D, at Hamline Methodist Episcopal church, St. Paul. Audrey Anderson was maid of honor and Mrs. William E. Mears, sister of the bride, was matron of honor. The four bridesmaids were Florence Coones, Joyce Dahleen, Mrs. Carvel Clapp, and Mildred Joesting. Roger Ganfield, brother of the bridegroom, was best man. Ushers were Robert Brown, William E. Mears, Walter Sime, Gordon Fredine, Wesley Brown, and Charles Brown.

Paul La Liberte '33E, is working for the Cutler Magner company with headquarters in Duluth. This company manufactures lime, refines salt, and is the northwestern distributor for Huron Portland Cement. Mr. La Liberte's duties include office work and general engineering.

Engaged—Georgiana Gloss of Elgin, Illinois, to Oscar A. Nordquist '33L,

YOUR MAGIC CARPET

is your Bell Telephone; ready to transport you over continents and oceans to people with whom you wish to speak.

of Minneapolis. The wedding will take place in June. Miss Gloss attended Bradford Academy, the Martha Washington Seminary, and the MacPhail School of Music. Mr. Nordquist is a member of Alpha Tau Omega fraternity.

Anne Armstrong '33A, See Woman's Page.

1934

Harriet T. Jarvis '34Ex, and David Morse Haynes were married Sunday afternoon, May 5, at the home of the bride's parents in Minneapolis. A reception followed the ceremony. Mr. and Mrs. Haynes are now at home at 2219 Bryant avenue south, Minneapolis.

The engagement of Grace Elizabeth Hatch '34Ex, to Karl Lindsten Ziegler '34E, has been announced. The wedding will take place Saturday, June 1, at 12 o'clock at Hennepin Avenue Methodist Episcopal church. Mr. Ziegler is a member of Kappa Eta Kappa fraternity.

Kenneth G. Brill, Jr. '34A, graduate student in geology, has been awarded the James Dwight Dana fellowship at Yale university. Under the fellowship Mr. Brill will work for his doctorate.

Viola M. Messerschmidt of Sleepy Eye, Minnesota, and Hugh O. Morgan, Jr. '34Md, of White, South Dakota, were married at the home of the bride's parents on May 14. Dr. Morgan is a member of the Phi Chi medical fraternity and will finish his internship at the Charles T. Miller Hospital, St. Paul, on July 1, after which he intends to enter government service.

Alice A. Schoening '34Ed, of Appleton, Minnesota, has chosen attendants for her wedding to Walter Chapman '28Ed, of Minneapolis. The ceremony will take place Saturday evening, June 22, in Gethsemane Episcopal church, Appleton. Helen Schoening '35Ed, will be her sister's maid of honor and Miriam Seeger '35Ag, of St. Paul will serve as bridesmaid. Dr. Harry M. Schoening '33D, will be best man and Milton Grimsrud and Wells Wright '36L, will be ushers.

Marcelli McInnis '34Ex, and Frank V. Nichol森 '32A, were married May 2 at the home of the bride's mother in Minneapolis. Jane McInnis was her sister's only bridal attendant. Richard Nichol森 of Austin attended his brother as best man. Mr. and Mrs. Nichol森 will be at home in Austin after June 1. Mrs. Nichol森 is a member of Chi Omega sorority and Mr. Nichol森 is a member of Delta Tau Delta fraternity.

Margaret Jane Cummings '34B, See Woman's Page.

Alumni News Flash

(Special to Minnesota Alumni Weekly)

To THE EDITOR: Here is a news item for the *Minnesota Alumni Weekly*:

Clip this out and mail to *The Minnesota Alumni Weekly*, 118 Administration Building, University of Minnesota

The engagement of Jean McConnell Murchie '35A, to John Melville Plaxton '36E, of Winnipeg was announced recently. Miss Murchie is a member of Kappa Kappa Gamma sorority. Mr. Plaxton is a member of Delta Upsilon fraternity. The marriage will take place early in the summer. They will go to Toronto to make their home. Miss Murchie is a sister of Mrs. William A. Costello (Helen Murchie '34UC) whose marriage took place late in March.

A beautiful spring wedding took place at Christ Episcopal church in Red Wing Friday evening, May 3, when Doris Boxrud '35Ex, became the bride of Bradbury Norton Robinson, Jr. '35Ex, of St. Louis, Michigan.

Corinne Boxrud was her sister's maid of honor and Elaine Mohn and Helen Lidberg of Red Wing were bridesmaids. Mr. Robinson had chosen Walter Hass for his best man, and the ushers were Wells Wright, Ray Burge, Curtis Sommer, and Frederick Reichert, Jr. After the ceremony a reception was given at the Boxrud home for one hundred fifty guests.

Annette Larson '36Ex, and John Helge Person '33B, of Madison, Wisconsin, were married Saturday evening, May 4, in Bethlehem Lutheran church. A wedding reception for the family and immediate relatives followed the ceremony at the home of Mr. and Mrs. Larson. After a wedding trip Mr. and Mrs. Person are at home in Madison, Wisconsin.

OFFICIAL PUBLICATION OF THE UNIVERSITY OF MINNESOTA ALUMNI ASSOCIATION

If

You have not put off the purchase of anything you really wanted--in the past year or before -- because you did not like to part with your cash.

And if you have never wished afterward that you could "turn the clock back" and have the same chance over again after it was too late.

Then it is possible that you might not appreciate this story of our Reconstruction Special.

**BUT--
IF
YOU
HAVE--**

WELL --

Take for instance a man, age 35 through the "Reconstruction Special"—He can get the Protection that he has been putting off buying at a rate about the same as an ordinary life contract would have required when he was age 20, fifteen years ago.

And that rate is good for 20 years—if he never finds himself back on Easy Street—

After which half the original protection may still be continued for life at the rate applicable to age 35—twenty years back.

On the other hand he may at any time during the first fifteen years—and that's long enough—arrange to continue the full amount, or any part of it, for life, at the rate at age thirty-five—with little or no cash outlay to make the change—A remarkable arrangement.

Let's Be Frank Too --

There's no "new discovery" and no "untried principle" involved in this really remarkable contract. It does involve a happy combination of tried old line life insurance principles that we had not thought of before.

And it is peculiarly a helpful combination at the present time—when one needs more than ever to safeguard the future of his family—Yet must be so careful about committing himself to further cash outlay—while his age goes on increasing in spite of himself.

The "Reconstruction Special" not only stops the clock. It turns it back again.

VOLUME 34

MINNEAPOLIS, MINNESOTA, MAY 25, 1935

NUMBER 31

Alumni Day Program Features Announced

EACH June a few graduates travel great distances to attend the annual Alumni Day program on the campus. This spring inquiries regarding the reunions have been received from alumni in distant parts of the land and it is possible that many states will be represented in the group attending the banquet in the Minnesota Union on June 17. The dinner will be held at 5:30 and the program will be over in time for the guests to attend the commencement exercises in Memorial stadium. A special section of the stadium will be reserved for those attending the dinner.

Members of the older classes will be the guests of the Minnesota Alumnae Club at a luncheon in the Minnesota Union on Alumni Day. The alumnae sponsored the first occasion of this kind last June and it was so successful that they plan to continue it.

Several of the quinquennial classes are already making plans for reunion luncheons to be held either in the Minnesota Union or in Pioneer Hall. Special programs will be arranged for these meetings.

Arrangements for the annual dinner are being completed by the 1910 class committee under the direction of Theodore W. Thomson, general chairman. The members of the five-year classes from 1875 to 1930 will sit in groups at the dinner. All alumni are invited to attend this event although, of course, the emphasis is placed upon the attendance of the members of the five-year classes.

The toastmaster at the dinner will be Howard Y. Williams. There will be no lengthy speeches and the program as a whole will be of real interest to all graduates. Trophies will be awarded to the class boasting the largest attendance, the class with the largest proportional attendance, and there will also be silver cups for the guest coming the greatest distance to attend the dinner and for the alumnus representing the oldest class.

The alumni advisory committee, which includes representative alumni

from all communities in the state, will hold a meeting in the Minnesota Union at noon on June 17. President Coffman will address the group and the regents will be present if the board is in session on that day.

The class of 1910 will plant a Maria Sanford tree, a silver birch, on the Knoll preceding the annual dinner.

MEMBERS of the 1910 class committee are Theodore W. Thomson, Clara Hankey Koenig, Lucile Collins Dooley, Winifred Turner Blanpied, Howard H. Freeman, James E. Dorsey, Howard Y. Williams, Julia Thuet Villeneuve, Glenn Gullickson, Harold B. Ramsey, Margaret Benton Eichhorn, Fred R. Johnson, Helen B. Haines, Mabelle Hudson, Cochran, Grace Ramsey Borchert, Edward B. Cosgrove, Lucy White Taylor, Hazel M. Witchie, William R. Cammack, Leila Witchie Harding, Mattie M. Crogan, Mary Cutler, Polly Fitzsimmons Gosin, Mary Heritage Wright, James H. Vidal, Herbert U. Nelson, Willis R. Salisbury, George A. DuToit, Jr., Alfred C. Godward, Edward W. Leach, Hans J. Asleson, William D. Timperley, Fred R. Comb, Carlos R. Billings, Bess M. Rowe, John F. McGovern, John F. Bonner, Augustus E. Bryngelson, William S. Ervin, Orren E. Safford, Dr. Thomas H. Dickson, Jr., Dr. Wallace H. Cole, Dr. James M. Hayes, Dr. Otto W. Yoerg, Dr. Henry E. Binger, Dr. James W. Maland, Dr. Harry W. Nelson, Dr. Wilton Blair Stone, Dr. LeRoy M. Chapman, Dr. Peter J. Brekhus, Henry E. Farnam, Kenneth J. Duncan, William F. Hoppe, William M. Peters, Ethel Dix Asleson, Grace E. Richards, and Sheldon H. Smith.

On the 1900 class committee are Clara Thomas Aldrich, Gustav Bachman, Joseph W. Beach, Francis A. Bean, William F. Braasch, Lillian Cohen, Mabel Stone Dickerman, Charles G. Ireys, Raymond A. Jackson, Peter Jahn, Frank G. Jewett, Anna Quevli Jorgens, Horace C. Klein, Albert H. Lossow, Samuel A. March, Walter L. Mayo, Edna Ripley Page, Leroy A.

Page, Charles S. Pillsbury, John S. Pillsbury, Henry A. Scandrett, Charles T. Stevenson, Isaac Tate, and Anna Belle Thomas.

Other class committee chairmen who have been appointed are Howard Abbott, 1885; Charles Summers, 1890; Robert M. Thompson, 1895; Henry Mitchell, 1905; Oliver Aas, 1925.

A Minnesota Agricultural semi-centennial will be observed at University Farm, St. Paul, Friday and Saturday, June 14 and 15. The celebration, for which plans are rapidly taking shape, will mark the fiftieth anniversary of the founding of the Minnesota Agricultural Experiment Station in connection with the University of Minnesota.

General plans for the celebration are in the hands of Professor Andrew Boss, vice director of the station, as chairman of the arrangements committee. Subcommittees are working up programs of speakers, exhibits, records of achievements, biographies of persons who have made significant contributions to Minnesota's agriculture, and entertainment features. According to plans thus far developed, representative farmers of the state will have a share in the program, and the expectation is that large numbers of farmers will attend.

The Minnesota Agricultural Experiment Station was organized under provisions of the Morrill Land Grant Act in 1885. At that time, the staff consisted of one man, E. D. Porter, who had been appointed professor of agriculture in the university in 1881. Today the staff numbers 170 or more, and the experiment station has grown into a series of stations in various typical Minnesota areas. In addition to the Central station at University Farm, St. Paul, there are branch stations at Duluth, Cloquet, Grand Rapids, Crookston, Morris, Waseca, and Zumbra Heights. The station at Cloquet is a forestry station, and that at Zumbra Heights, near Minnetonka, is a fruit-breeding farm. Special experimental fields have also been maintained in other parts of the state.

The College and the Alumnus

By DR. DIXON RYAN FOX
President of Union College

From an address delivered at the Annual Convention of the American Alumni Council in Washington.

A COLLEGE, like any other productive enterprise, is known by its fruits. The college graduate at the beginning of the nineteenth century could be easily marked. In the content of his speech were allusions to the classics which he had read in the original tongues; he spoke of fallacies in logic and called each by its proper name; he might discuss the sin of Adam or the laws of Boyd and Newton or the rhetorical style of Edmund Burke. If he talked of these he was understood by every other college graduate and by scarcely anyone else. He represented a highly selected class, a few thousands among millions, who had had a special opportunity. The entire class had had virtually the same preparation for a special type of life, which most of them were to follow.

With the growth and variation of American society, callings were multiplied to correspond to almost every taste. Under the leadership of President Nott of Union College (1834-1866), and then of President Eliot of Harvard (1869-1909), the student was encouraged to assemble his own college out of the stock of courses spread before him. No longer were bachelors of arts made out of the same books and classroom exercises. Moreover, bachelors of science appeared and under that description came nearly everything. Loyal memories of undergraduate life could no longer revive a common intellectual experience.

Add to this the more important and more obvious fact that during the first three decades of this century a larger and larger proportion of young Americans stormed into college and through. Perhaps stormed is not a happy phrase, because they were invited in and lifted through, and colleges took great pride in their increasing lists. Now it is patently absurd to think that the capacity for learning had increased among the American people so suddenly and so much as the swelling attendance might seem to indicate. The most generous interpretation would maintain that a greatly increased number of able youth now had the financial means to enable them to withdraw during all or a large part of their time for four years from economic labor, means furnished, of course, by hopeful parents. Those who taught them, however, or tried to teach them, often ruefully considered that they had little but financial means.

Certainly a larger proportion of college students within recent memory

have come from homes where good literature was not read and discussed, good art and music were not known and sought, good speech and manners were not prized and practiced. Colleges, doing their best, could not grow deep culture upon thin soil; in many, many cases their diplomas have falsely certified their product as educated men and women. It has been difficult to distinguish their alumni from fairly intelligent people who were not.

It must be remarked too that a large part of the college offering concerned itself with implementing men and women to make a prosperous income rather than to cultivate richer personalities.

NOT less deplorable, until recently, was the scheme which allowed the college student, flitting back and forth across a so-called cultural curriculum, to glance at this and that and something else and never take hold of any given human interest with sufficient firmness to make it a continuing part of himself through life. Such a student left college with little more than his diploma.

My point is that the average bachelor of arts did not know enough about any branch of the great human enquiry to follow it, or rather to have it follow him through life. He was thus like anybody else. Today it is hard to sit in a Pullman smoker, listen to the talk of five men, and guess which ones have been through college. College has been through some of them, no doubt, but what did it leave? There are no stigmata, no indelible marks of a man of learning, any learning.

If they went to college because it was "the thing," or to make profitable contacts for later business, or to get a quantitative prerequisite for serious professional training, perhaps they got what they sought. But they did not get learning as men have got religion; they did not get the habit of reflective thinking, of intellectual industry that may bring the highest satisfactions of this life. They did not get these things, or they conceal them. Perhaps, not

daring the penalties of distinction, they put on the protective coloring of the commonplace and take the sheep pose. To be simply a "regular fellow" may be the safest way—and the dullest.

I have a hope that the students of the college of which I am an administrative member will not find such a life necessary or tolerable, to say nothing of being attractive. I hope that as they graduate they will resolve to make their lives a testimony of what the college has stood for in times past and is supposed to stand for. Actually this is the best alumni service—living illustration of the cultural power of a college.

It may be that such alumni will not sell as many goods and that they cannot make as handsome personal contributions to the alumni gift fund as those who took the other plan of life. But they will attract respect for the influence which helped produce them, and respect will attract benefactions from those who have wealth and wish to invest it wisely and productively. In the long run that college will profit whose alumni naturally, sincerely and eloquently show the result of a deep cultural experience.

I do not need to be told that the first responsibility rests upon us who teach, that after bravely turning away the unready and the unfit we must place before our student members the very best we have. I do not need to be told that we grow in wisdom for their benefit, that we must show in speech and writing the vitality of the learning we profess. I do not need to be told that we must see to it that the graduate must have been given sufficient insight in at least one or two branches of high human interest to make it natural for him as an alumnus at the age of fifty to draw up his chair by his fireside and read with understanding and with pleasure the latest good book on the subject of which he formed a real acquaintance in the classroom and the library or the laboratory of his college.

I am talking to alumni and especially to those who stir and lead alumni spirit. And I say that you can serve your college well, perhaps serve it best, by encouraging them in every effective way to cherish in their hearts and illustrate in their speech and bearing the finest and noblest vision that they gained within it.

Campus Events of the Week

NAMES of students who will head the editorial and business departments of the Gopher, Ski-U-Mah and the Minnesota Daily during the coming year were announced this week.

The appointments are: John Foley, editor of the Gopher; Roy Huber, business manager of the Gopher; Frederick Thomas, editor of the Ski-U-Mah; Jack Forbes, business manager of the Ski-U-Mah; Albert Kosek, editor of The Daily; David Buck, business manager of The Daily.

One of this year's incumbents, Albert Kosek, was returned to office, David Buck, appointed business manager of The Daily for the year '35-'36, held the same position on the Techno-Log during the current year. Kosek, a senior in the Arts college, will enter the Law school next year. Buck is a senior in the College of Engineering and Architecture.

John Foley, arts junior, was organizations editor of the Gopher this year. Roy Huber, another junior in the Arts college, was assistant business manager of the same publication.

Frederick Thomas, junior in the Arts college, was on the contributing staff of the Ski-U-Mah this year, while John L. Forbes, junior in the Business school, was advertising manager.

Gwendolyn Shepley, sophomore in the University college, was chosen by the board to be editor of the Literary Review, quarterly literary supplement to The Daily, during the coming year.

Awards

Ten major staff members of the University's three student publications were awarded gold matrices in recognition of their services to The Daily, Ski-U-Mah and the Gopher, at the annual publications banquet last week.

In addition, 35 others received silver matrices and 62 were presented with certificates of award.

Those receiving gold matrices were: Walter Beadell, Albert Kosek, Richard MacMillan and Arnold Severeid of The Daily; Philip Biesanz, William Baring-Gould and Charles Campbell of Ski-U-Mah; Ray Swartout, Kenneth Ray and Laura Bruce of the Gopher.

Walter Beadell and William Baring-Gould received gold matrices last year and were given awards with mention.

Thirty-five silver matrices were given to:

Minnesota Daily: Jean Stark, John Crow, Betty Rohan, Ethel Beadell,

George Matt, Kerwin Hoover, Maurice Johnson, Sherman Dryer, Charles Butler, Stanley Cann, Ralph Mueller, Phil Schulte, Mary Brennan.

Ski-U-Mah: John Forbes, Arthur Lund, Norman Van Guilder, Marion Johnson, Preston Reed, Barbara Brewer, Bettie Ragland, Fred Thomas, William Kennedy, Angelo Cohn.

Gopher: Roy Huber, George Ringham, Lucille Moody, Arnold Brassett, Kay Stevens, Stan Carlson, Alan Struthers, John Foley, Stanley Lagerlof.

Literary Review: Betsy Emmons; *Daily and Ski-U-Mah:* Helen Randolph; *Gopher and Ski-U-Mah:* Phyllis Savage.

Jean Stark, John Crow and Arnold Brassett received silver matrices at the publications dinner last year and were also awarded matrices with mention.

Mortar Board

Thirteen junior women who have been outstanding in campus activities were pledged last week to Mortar Board, senior women's honorary society, at the largest Cap and Gown day luncheon in several years.

Betty Grey, retiring president, pledged each girl after she had been capped by two other members. Next year's Mortar Board, listed in the order pledged, is as follows: Jean Gardner, Carla Meacham, Dorothy Bush, Gwendolyn Shepley, Phyllis Hawlish, Helen Bartel, Marjorie Morrill, Vivian Halverson, Genevieve Goldblum, Mary Kitts, Geraldine Anderson, Helen Dae Hopper, Winona Carlson.

Approximately 600 coeds attended the colorful ceremonies, for which the Union was transformed into a miniature Sherwood forest. Characters from the Robin Hood story decorated the room and speeches were given by persons representing various members of the forest band.

Band

Thirteen bandsmen will receive band keys, highest award given to members of the University bands, at the twenty-first annual band banquet at 6 p. m. next Tuesday. The awards will be made by Gerald R. Prescott, director of the University bands.

In addition to the keys, Prescott also will present a special merit award to

Activities Banquet

SENIORS who have been leaders in activities on the campus during their undergraduate days were honored at the second annual Activities banquet in the Minnesota Union on Thursday night. Dr. Malcolm MacLean, director of the General College, was the principal speaker. Lester Swanberg '26, of the Fairbault Daily News, was toastmaster. The guests were welcomed by Stanley Gillam '12, alumni representative on the board of governors of the Minnesota Union.

the bandsman who has made the most advancement in musical technique during the past year. Names of the winners of the honors will be announced at the banquet.

Nick Berklacich, former vice president of the bands and graduate student, will be toastmaster for the banquet, to be held at the St. Anthony Commercial club. Over 100 bandsmen, attired in formal uniform, will attend the dinner, according to Robert Hose and William Reid, co-chairmen of the general arrangements committee.

Engineers

Six new members were initiated by the Alpha Tau Sigma, honorary engineering journalism fraternity, at its spring banquet last week. They are Condit Bevier, Frederick Meyers, Armon Walters, Lloyd English, Richard Henning and Wayne Stone. Prof. Harlow C. Richardson was toastmaster, and William J. Kostka, editor of Modern Mechanix and Inventions, spoke on opportunities in technical journalism.

Union

Seven members of the Union board of governors were unanimously chosen by fellow members to receive service keys at the board meeting this week. Keys are awarded each year on the basis of one year's service on the board and amount of time devoted to board projects. Keys will be given at the next meeting to the following men: Fred Baker, College of Engineering and Architecture, John Buckbee, Law school; Robert Dixon, School of Chemistry; Edward Leach, School of Mines; John McGarraugh, School of Business administration; Kenneth Severn, Dentistry school; and James Warren, Art's college.

Sport News of the Week

CLARENCE "TUFFY" THOMPSON of Montevideo and Julius Alfonse of Cumberland, Wis., led the Reds and the Whites in a stubbornly contested game which concluded the University of Minnesota's spring football practice in Memorial Stadium Saturday.

The Reds won, 13 to 0, but the give and take was more even than the score.

Three thousand fans who went out to study the material out of which will be built the machine that will attempt to defend the Gophers' Conference and national championships had to content themselves with just a smattering idea of what to expect.

Illness, injuries and participation in other sports prevented 15 players ranging from certain stars to probable letter winners from participating in the game and the action was hardly started when Frank Schultz and Bill Matheny, new guard and halfback in whom the fans were keenly interested, went out with minor bruises.

For the winning Red team Thompson unfurled some brilliant running, including one dash of 70 yards for the first touchdown. Three times in the early stages of his run Thompson appeared to be cornered but his lightning changes of direction carried him out of one trap after another. By the time he had reached midfield he had left the pack behind.

Although he was not so freely used, Andy Uram met all the expectations at halfback for the Whites. He ran off many substantial gains and played a sound defensive game. It was Alfonse, the dependable veteran, however, whose slippery runs took the Whites out of trouble on many occasions.

Observers were cheered to note the generally satisfactory work of a group of new ends who will be asked next year to take over the duties of Larson, Tenner, Roning and Johnson. Although the ends, as a group, were the greenest players on the field they were not the least effective.

Antil, Reed, Warner, King, Guest, Wile drove in hard on defense, covered punts well and in many ways revealed the rough and ready traits of first rate ends.

The teams had not been intensively drilled in protecting the kicker and, in consequence, the kickers were usually rushed. Nevertheless the punting was brilliant at times. Uram, Thompson and Seidel each turned the tide of play at moments by sending well placed punts 50 yards and more down the field. At one time Thompson punted

from behind his goal line to the Whites' 35-yard line and thus put an end to the Whites' only serious threat of the day.

Bud Wilkinson at guard for the Reds and Lewis Midler at tackle for the Whites played brilliantly in the line.

There were moments of splendid blocking where the veterans, Beise, Seidel and Alfonse, were most effective and there was a pleasing amount of hard tackling. Both lines played stubborn defensive games but Wilkinson was the only lineman who met all the requirements on attack. There was little of that devastating blocking down the field that Widseth and Bengtson showed the customers last year.

Vic Spadaccini, the shifty fullback, was brilliant in backing up the line and he showed his speed in returning a kickoff 80 yards. It required all the speed of Harvey Ring, one of the fastest little fellows on the squad, to haul him down from behind. Although the play was recalled for a penalty it gave the fans a sight of a mighty fast fullback.

Among the players who did not compete Saturday but who will be in action next year were Roscoe, LeVoor, Rennix, Hunt, Rork, Bugni, backs; and Widseth, Dick Smith, Oech, Dallera, Friemuth, Krezowski, Dollarhide, line-men.

GOPHER LINEUPS

Whites	Pos.	Reds
Wile	LE	Antil
Safran	LT	Johnson
Hanson	LG	Wilkinson
Rennebohn	C	Schultz
Olson	RG	Weld
W. Smith	RT	Midler
Warner	RE	Reed
Rooney	QB	Seidel
Uram	RH	Thompson
Alfonse	RH	Matheny
Atwell	FB	Spadaccini

Substitutions — Reds — Hanson, Trampe, Kafka, Riley, King, Carlson, Barle, Wilkinson, Wells, Taube, Filbert, Lewis. Whites—Ring, Beise, Hoel, Guest, Larson, Gmitro, Wile, Rork, Hanson, Elmer, Nord, Svendsen.

May Win Title

If the Minnesota baseball team can come through with two victories over Purdue in the series this weekend on the diamond the Gophers will be up near the top in the conference standings. Minnesota won the conference baseball title two years ago but slumped back to the bottom last spring,

They have lost two conference games so far this season, one to Northwestern and another to Iowa. Last weekend on Northrop Field the Minnesotans broke even in a two-game series with the Hawkeyes. In the first game on Friday, the Iowans came from behind in the closing innings to defeat the Gophers, 6 to 5. Minnesota reversed the matter in the second game and tallied two runs in the last of the ninth to win, 6 to 5. Mark Klonowski, Gopher first baseman, got two home runs in the first game. This week Minnesota defeated South Dakota, 15 to 2.

FIRST GAME

The summary:

Iowa	AB	R	H	PO	A	E
Stephens, 2b	6	0	1	2	2	0
Taylor, rf	4	0	0	1	1	0

Hit by pitcher: By Gallivan: Ford, Underwood, Blackman. Stolen bases: Underwood, Hoover, Woleynski. Umpires, Jansen and Thompson.

Notre Dame on Schedule

Minnesota and Notre Dame will meet on the gridiron in 1937 and 1938. The final arrangements for the series between the two schools were completed this week by Athletic Director Frank McCormick and Coach Elmer Layden of Notre Dame.

The first game will be played at Minneapolis, October 30, 1937, with the second scheduled at South Bend, Ind., October 29, 1938.

The Gophers have met the Ramblers on only three previous occasions, the first game being played in 1925 at Memorial Stadium and ending in a 19-7 victory for the Irish. The second was also won by Notre Dame, 20-7, in 1926.

It was the last game in 1927 that will remain the longest in the minds of Minnesota grid followers. In that year, under the tutelage of Dr. Clarence Spears, an undefeated Gopher eleven won a "moral victory" over the Irish in a game at South Bend that ended in a 7-7 tie.

Fans who saw that game will never forget it. Through a drizzling rain the two mighty teams pushed back and forth with the invading Gophers holding a slight advantage. The Irish, with the renowned "Christy" Flanagan doing most of the ball carrying, scored first, and then fought hard to stave off repeated thrusts by a Gopher backfield composed of Captain Herb Joesting, Mally Nydahl, Don Riddell and Harold "Shorty" Almquist.

Late in the second half, Joesting heaved a 15-yard pass to Walsh in the end zone for the lone Minnesota score. Then followed the tense moments while the old wizard Knute Rockne sent in sub after sub in an effort to unnerve Art Pharmer, whom Spears had sent in to kick the extra point. The Minnesota fans staged a near riot when Pharmer made that kick good.

Other Minnesota greats on the field that day included: George MacKinnon, Fred Hovde, Kenneth Haycroft, George Gibson, Bronko Nagurski, Mike Gary and Bob Tanner.

Tennis

Billy Schommer, No. 1 man on the University of Minnesota tennis team, suffered his first defeat of the current season Saturday afternoon as the Gophers lost their Big Ten match with Northwestern on the Washington avenue courts, 5 to 1.

Schommer was defeated by George Ball of the Wildcats in a three-set encounter, 2-6, 6-4, 6-3. The Gophers' only victory came when Captain Roy Huber and Nathan Schapiro combined in the doubles to defeat Rugg and Doherty of Northwestern, 6-3, 5-7, 6-1.

The summary:

SINGLES

George Ball, Northwestern, defeated Schommer, Minnesota, 2-6, 6-4, 6-3.

Russell Ball, Northwestern, defeated Huber, Minnesota, 6-2, 3-6, 6-2.

Rugg, Northwestern, defeated Armstrong, Minnesota, 6-2, 7-5.

Doherty, Northwestern, defeated Schapiro, Minnesota, 6-3, 1-6, 6-1.

DOUBLES

Ball and Ball defeated Armstrong and Schommer, 6-3, 5-7, 6-3.

Huber and Schapiro defeated Rugg and Doherty, 6-3, 5-7, 6-1.

Golfers Place Third

The Minnesota golf team again finished in third position in the Big Ten golf championships at Evanston last weekend. Michigan with four men in the first five places won the team title. Johnny Fischer, the Wolverine star, won the title for the third time. Charley Koscis of Michigan was second. Fischer played the 72 holes in 281. Billy Boutell of Minnesota finished eighth in the individual standings with a 306.

Secure Jobs

Four chemistry department assistants and four students have been hired by industrial concerns and other universities, Dr. Charles A. Mann, head of the department of chemical engineering, announced this week.

The men and the positions they secured are: L. B. Thomas, instructor of mathematical engineering at Missouri university; C. C. Winding, instructor of chemical engineering at

Cornell university; H. E. Graves, Calco Chemical company; C. E. Morrell, Standard Oil company of New Jersey; A. Seward, Carbide and Carbon company; G. Brown, Dow Chemical company; C. E. Bartsch and O. Swenson, DuPont company.

This year eight industrial companies sent representatives to the University to interview students for possible positions. This number exceeds that of any other year, Dr. Mann said.

Candidates

Both candidates for mayor in the coming Minneapolis elections are graduates of the University, Charles F. Keyes '96; '99L, and Thomas Latimer '16. Mr. Keyes is a former president of the General Alumni Association and is an honorary member of the board of directors.

The names of several alumni appear in the list of candidates for other city positions. In the eighth ward, Marvin Kline '29E, is a nominee for the second time for an alderman post. The secretary of his committee is another engineer James L. McHugh '31E.

To Harvard

Two members of the faculty, Dr. J. Douglas Bush, professor of English, and Dr. Edgar B. Wesley, assistant professor of education, will teach at Harvard university's summer school from July 1 to August 11 this year. The former has been on sabbatical leave this year.

Professor Bush will conduct a course in the works of Milton and his lectures will cover the social, political, philosophical and literary background of the seventeenth century. He also will offer a course on English literature from 1603 to the reformation.

Dr. Wesley will give two courses, the technique of teaching the social studies, and a study of the supervision of social studies.

NEWS and COMMENT

IT begins to appear that a concerted raid on Minnesota's faculty is being made by various other institutions throughout the land. Recently, each week brings an announcement that another staff member has resigned to join the faculty of another university. From one standpoint of course this is a tribute to the calibre of Minnesota's teaching and research force and a tribute to the administration for having assembled such a staff. The University and the state however have more need for the men than the compliment.

The resignation of the week is that of Dr. Morris B. Lambie, professor of political science and secretary of the Municipal Reference bureau and League of Minnesota Municipalities.

Professor Lambie will go to Harvard, where he will take up his duties under the college's new tutorial system. He will lecture in municipal government and public administration and in courses training men for public service, both fields of which are his specialties.

Professor Lambie has been a member of the Minnesota faculty for 14 years. Besides his teaching in the department of political science, he has been active in directing the affairs of the two bureaus serving cities of the state, which function through the General Extension division. Under his guidance both the municipal reference bureau and the League of Minnesota Municipalities have greatly expanded their activities.

Professor Lambie is a graduate of Williams college. He obtained his doctor of philosophy degree from Harvard. He came to Minnesota in the fall of 1921 and was promoted to a professorship in 1927. In 1927 and again in 1934 he spent time abroad study-

ing public administration in foreign countries. In the fall and winter of 1932 he was coordinator of relief between the federal and state governments and in the winter of 1933 he represented Governor Floyd B. Olson as CWA administrator.

FOR nearly forty years, Dr. Charles P. Sigerfoos, now professor emeritus of Zoology, has been a familiar figure on the campus of the University. He is fondly remembered by alumni, for his ability to remember the names and faces of his students.

He is retiring from active teaching at the end of the present quarter and last week a group of graduate students and staff members honored him on the occasion of his seventieth birthday.

Coming to the University of Minnesota back in 1898, Dr. Sigerfoos was given an office in Pillsbury hall. In those days the department of zoology shared the second floor of Pillsbury hall with the department of botany. The School of Mines occupied the basement, and the department of geology was established on the first floor.

He can remember when Prexy Northrop used to write letters in longhand because he had no secretary and the entire administrative staff amounted to less than six and was housed in a room to the left of the main entrance to Burton hall. The president's office was to the right.

Although he is recognized by colleagues as an outstanding member of his profession, Dr. Sigerfoos protests that he has been too busy teaching to spend much time on research. He has always made it part of his duty to get to know each student as an individual. However, he says that his reputation for remembering faces and names is a bit overdrawn. He confesses that after his classes began to number into the three and four hundreds, a few of the faces and names were forgotten.

NORMAN WILDE, head of the department of philosophy, who will retire this spring after 37 years of service at the University, was honored by associates last week at a meeting of the Saturday Lunch club at the West hotel, Minneapolis.

Professor David Swenson, assistant to Mr. Wilde, Dr. John G. Rockwell, state commissioner of education, and John Darzell of the political science department were speakers.

President Coffman, Deans Guy Stanton Ford, Russell A. Stevenson and William C. Coffey and members of the Board of Regents also were invited.

MINNESOTA football fans are being favored with colorful home schedules by the Athletic Department. The conference games in Memorial Stadium, especially when Iowa, Michigan or Wisconsin are the opponents, are always worthy spectacles. The third game on the program for the Gophers next fall will be the intersectional clash with Tulane. In 1936, Texas, one of the leading teams of the southwest gridiron sector, will appear in the stadium. And this week it was announced that Notre Dame will come to Minneapolis for a game in October, 1937. Minnesota will play a return game at South Bend in 1938.

The Reviewing Stand

W. S. G.

Traditions

SOME traditions, like bad habits and spring colds, linger on in spite of all efforts to stifle them.

The campus had two examples of this during the past ten days. For years there has been a more or less mythical rivalry between the Engineers and the Miners and this has always been good for little feature stories in the press at the time of the annual Engineers' Day program. The Engineers make use of a Blarney stone during the annual ceremonies and each year according to rumors this piece of rock is captured by the Miners who grind it up in a rock crusher. By the following spring, however, the stone always re-appears in original form. Apparently this stone can "take it."

In the annual Engineers' Day parade there are usually floats which make light of the character and the activities of the Miners as well as other gentry and organizations about the campus.

During the parade last week there was more than the usual excitement when a bombardment of pre-repeal eggs greeted the Engineers at one point in the line of march. It was immediately assumed of course that the Miners were on the tossing end of the barrage but some doubts have been expressed on the exact identity of the culprits. Anyway, some innocent bystanders as usual were in the line of fire and the chairman of the Engineers' Day committee has received bills for the cleaning of garments.

Pajama Parade

The press and the radio commentators pounced gleefully upon another campus incident of the week . . . a nocturnal pajama parade . . . although there were no pajamas in evidence. Each spring it has become the custom for a group of students to march through the sorority section late some night, singing and making other weird noises.

Last year the traditional event developed into a plunder march and considerable damage was done at various houses and in the residence for nurses. The administration placed a ban on such parades and early this spring the Interfraternity Council urged that fraternity men have nothing to do with such excursions.

This past week the police were warned of the impending parade and they were on hand to quell the destructive tendencies of the members of the marching group. The nurses were not annoyed but the crowd did gather in the vicinity of Eleventh Avenue Southeast.

The police picked up 14 of the students and carried them off to the lock-up where they spent the night. Dean Nicholson appeared to effect their release on the following day. The incident was highly publicized of course and the affair was highly detrimental to the best interests of the University.

The cases of the 14 men were taken up this week by the Dean of Student Affairs and there was a possibility that they might face expulsion. Some 280 residents of Pioneer Hall signed a statement asking that leniency be shown the 14 and promising that they would use their influence hereafter to discourage any such parades.

Spring Review

The annual R.O.T.C. Review was held in the stadium this week with some 500 members of Minnesota's optional drill contingent marching in review before a group of visiting officers. This year an honorary cadet colonette added to the color of the occasion.

This of course was the first big review since the abolition of compulsory drill and the officers expressed satisfaction with the performances of the squads. The infantry unit has been discontinued and now the local field will be left to the artillery and the signal corps.

Dentists

The College of Dentistry at the University of Minnesota this year had the third largest entering class of any American dental school, only New York University and Temple University in Philadelphia having more than the 117 new students who entered at Minnesota. The first year class was 53 per cent larger than that of the year before, according to Dean W. F. Lasby, numbering 117 as against 76 in the autumn of 1933.

Students came from thirteen different states, from Alaska, two from Norway and sixteen from Canada to begin the study of dentistry at Minnesota. Dean Lasby said.

Kansas City

On May 11 the Spring Frolic—annual Big Ten dinner dance—was held at the Mission Hills Country Club in Kansas City. Minnesotans in attendance were Mr. ('25A) and Mrs. John C. Brackett (Mary E. Symons '29A), E. L. Espenett '23E, Mrs. Richard Bauer (Alice Gall '19G), H. E. Purdy '23A, O. C. Smith '89Ex, and Harry M. Werbitzky '23M.

During parts of the year Minnesota has also had a number of graduate dental students enrolled from foreign countries. From Australia have come Robert J. Wright, who took his degree of DDS in December and is now a resident interne in the University hospital, Drs. Patrick May and Cecil Adair. This makes in all nine dentists from Australia who have studied at Minnesota in recent years. Dr. Sigrid Vik has come from Norway to spend a year in study at Minnesota. Drs. Otto Folkendahl and Ragnar Ek, both Norwegian dentists, spent part of the year at Minnesota. They were in the United States on traveling scholarships.

Memorial Fund

Subscriptions and donations to the memorial fund of Lucretia Wilder, University graduate student who lost her life two months ago in medical research, exceed \$500. Medical school officials said this week.

At the same time they pointed out that contributions have come almost exclusively from persons outside the University. The committee in charge urges students, faculty and alumni to contribute to the fund, even if in small amounts, so that a permanent memorial may be created in the form of a scholarship or prize to be awarded annually.

Donations may be turned in to Ruth Smith, secretary to Dean Elias P. Lyon.

Publications

Arthur Burck, mid-law student and a former member of The Daily staff, will head the board in control of student publications during the coming year, it was announced this week at the board's annual banquet.

Burck was elected at the organization meeting of the board. He succeeds Lee Loevinger as president.

Menz Sings in "As Thousands Cheer"

By ARLEEN BASS '36

FAST becoming the Northwest's No. 1 vocal hero is Clifford Willis Menz '33, who returned to the Twin Cities last week in one of the principal roles of the New York revuesical "As Thousands Cheer" opening at the Metropolitan Theater in Minneapolis.

Menz, who sang his way into the hearts of thousands last spring as the tragic hero of "The Student Prince" presented at Northrop Auditorium by the University Singers, has since then sung his way to fame and fortune with the road tour of this Broadway revue. He has been with the company since it left New York last fall for a circuit of the entire U. S. and parts of Canada.

Playing opposite talented Dorothy Stone, star of the show, the young Minnesotan is given several opportunities to display the golden voice which is his particular genius. Although not billed as such, he carries the star singing honors of the revue.

Carrying off with him the Helen Dwan prize for musical excellence, which he was awarded at commencement exercises in the spring of 1933, Menz sped to the land of promise for singers—New York, there to spend the next eight or ten months studying under the same teacher as John Charles Thomas. To help finance these lessons, he took a job as soloist at one of New York's largest churches, St. Ignatius.

When spring rolled around again, he put his lucky star to test against three hundred competitors in a contest to discover operatic talent and won for himself the title of "America's Most Promising Young Tenor." With this badge he returned to the campus a month later as guest artist in "The Student Prince." As an undergraduate Menz has played leads in "The Vagabond King," "Babes in Toyland," and "Madame Butterfly" opposite Katherine Hennig. The role of Karl Franz was especially suited to Clifford's talents and type, and as the Student Prince, he sang his greatest role to that date.

Having conquered the Northwest, the young tenor looked again to the East and The Great White Way. Back in New York he secured a private audition with Max Gordon, who is rapidly taking the place of the late Florenz Ziegfeld as Manhattan's greatest showman. Greatly impressed by the young singer's rich voice and stage personality, Gordon placed him immediately under a three-year contract.

"I don't know yet how I did it," Menz confided. "I guess I just fitted the type he was looking for."

Whether this was the case or whether Max Gordon simply had a trained eye and ear for star material, was revealed three weeks later when he said to C. J. Menz, St. Paul attorney and father of the tenor, "God has given your son everything that a great artist should have—except experience, and only time and hard work can give him that."

With the avowed purpose of putting Menz through a training school for professional stardom, Gordon arranged with Sam Harris, producer of "As Thousands Cheer," to place the youthful Minnesotan in parts once held by Clifton Webb, the former star who was wooed and won from the cast by Hollywood.

By nature of the revue, which is a series of unrelated skits satirizing front page celebrities, each member of the cast must play several different roles, and must become rapid-change artists as well as versatile actors. Menz changes from a reporter to a prince, to a traveler, and to an Easter parader all in the space of the first act. It's an ordeal, he says, but great fun and an invaluable experience.

After the show completes its run in June, Menz plans to remain in New York and resume his studies with his vocal teacher, Mrs. J. Blackman. "That is, unless Mr. Gordon has a new show under consideration, in which case I am still under contract!" he added.

Besides affording him a chance to acquire professional finesse, the road tour with "As Thousands Cheer" has given Clifford Menz a globe-trotter's education. The revue has played in every important American city from coast to coast and from Canada to the Gulf of Mexico.

Journalists

Three prominent Minnesota newspaper men and 10 undergraduate journalism students will be initiated into Sigma Delta Chi, men's professional journalistic fraternity, in ceremonies at the Radisson hotel Saturday.

The executive selected from the active newspaper field are Clarence Burgeson, managing editor of the Austin Daily Herald; H. R. Wiecking, editor of the Winona Republican-Herald; and Clifford H. Russell, editor of the Manikato Free Press.

Speech Fraternity

SEVERAL alumni members attended the dinner held by Delta Sigma Rho, honorary speech fraternity, in the Minnesota Union on Wednesday night. Professor F. M. Rarig served as toastmaster. Initiation ceremonies were held for six new members, Alberta Haycraft, Charles Arnold, Charles Lowe, Olga Marie Novak, Kenneth Peterson and Frederick Rarig.

Among those present were Dorothy Paulson, O. B. Anderson, Agnes Thorvilson Sommer, Fred Ossanna, F. M. Rarig, F. H. Knower, Melba Hurd, Stanley B. Houck, Dorothy Paulsen, Isabelle Gilliland Solem, K. Valdimar Bjornson and Lola Jones Shepherd.

Journalism students to be inducted are Bernard Rice, Randall Hobart, Bob DeVany, William W. Kennedy, Donald Braman, Joe F. Friedheim, Harold E. Hulsing, Roland D. Burke, Ralph L. Mueller and Jay J. Richter.

Following the initiation, which will be held at 6 p. m., the active chapter and faculty will join with a score or more Twin City alumni members for a Founders' day banquet at which Ralph D. Casey, chairman of the department of journalism, will address the group on the topic, "Is Newspapering a Science?" Mitchell V. Charnley, national alumni secretary of Sigma Delta Chi, is in charge of invitations to alumni.

To Hawaii

Elizabeth Jackson, assistant professor of English, will leave this fall for Honolulu, where she will teach in the University of Hawaii for one year on professorial exchange.

Laura V. Schwartz, assistant professor of English in the University of Hawaii, will take Miss Jackson's place here, teaching courses in Shakespeare and freshman and sophomore composition.

Dr. Schwartz will spend the summer in England, coming to Minneapolis in September. She is a graduate of the College of the Pacific, received her master's degree and doctorate from Stanford university, and subsequently studied in Oxford university. She has been a member of the University of Hawaii faculty since 1924.

Minnesota Women

MRS. BERNARD W. BIERMAN of 1515 East River Road, Minneapolis, was hostess at a tea Friday afternoon, May 17, in compliment to Mrs. Curtis G. Pratt (Florence Dale '19A) of New York City, formerly of Minneapolis, who is the houseguest of Mrs. Alden C. Buttrick (Frances Mix '17Ex) of 2211 West Forty-ninth street. Assisting Mrs. Bierman were Mrs. Lauren S. Tuttle (Marguerite Strange '23Ex), Mrs. Buttrick, Mrs. William Kelley of Long Lake, and Mrs. James McIntosh. Mrs. Willard Morse (Mary Fraser '13Ag) and Mrs. Norman Mitchell poured.

Mrs. Pratt will be in Minneapolis for ten days and from here will go to Redwood Falls, Minnesota to visit her sister, Mrs. Donald Gold. Mrs. Buttrick entertained twenty guests at a luncheon in her honor and on May 14 Mrs. Edward Purdy gave a luncheon for ten guests at the Oak Grove hotel complimenting Mrs. Pratt.

The Alumnae Club of Pi Beta Phi entertained the seniors of the active chapter at a dinner at the chapter house Tuesday, May 14, at 6:30 p.m. Mrs. Howard Clark (Charlotte Keyes) was in charge, assisted by Mrs. Harrison Barnes, Mrs. L. Lacklore, Mrs. L. M. Larson, Margaret Pearce, and Dorothy Eastman. The seniors are Marian Nelson, Edith Reed, Helen Hoff, and Sybil Sanderson.

There also was installation of new officers: Mrs. Carl O. Rice, president; Grace Thompson, membership chairman; Mrs. E. C. Wilson, ways and means chairman; Jane Mason, social chairman; Ruth Bachman, recording secretary; Dorothy Eastman, corresponding secretary, and Mrs. H. L. MacNamara, treasurer.

The year's activities for the Faculty Women's Club of the University closed last Saturday with a tea at the home of Mrs. Lotus D. Coffman. Mrs. Rose Mertens was in charge of the program of music which was a feature of the afternoon.

Leonard Smith, director of Sanctuary Choir of the St. Paul cathedral, wrote the quintette which was played by Linda Marr Nippolt, piano; Rose Marie Mertens, violin; Paul Law, violin; Edward Nippolt, viola; Mr. Smith, cello. Agnes Griswold Teasdale sang.

Presiding at the tea were Josephine Farrell, Mrs. Winford Larson, Mrs. W. H. Emmons and Mrs. L. B. Hessler. Assisting were Mmes. Harl Douglass,

J. G. Umstatt, Harold Deutsch, Ray Amberg, H. S. Diehl, and Fred Kildow.

Mrs. George Glockler, club president, entertained the newcomers section the preceding Tuesday afternoon and the Mothers section Wednesday afternoon. Clyde H. Bailey of the University spoke to the latter group on "Synthetic Gems."

The Tuesday committee included Mmes. J. R. DuPriest, T. A. Teeter, Clarence Oliver, Harold Wright, Charles Skinner, and J. J. Ryan. Mrs. John J. Reighard read a play. The assisting hostesses Wednesday were Mmes. Sherman Finger, Walter Lauer, T. L. Joseph, N. C. Pervier, and Henry L. McClintock.

The modern literature section met Monday night in Folwell Hall with Mrs. W. H. Bussey reviewing "Personal History" by Vincent Sheen.

Harriet Walker, 2409 West Twenty-second street, was hostess at a bathroom shower recently at her home in compliment to Yvonne Sperry '30Ed. The marriage of Miss Sperry and Raymond A. Rice will take place June 15 and Miss Walker will be one of the bridal attendants.

Mrs. Frank Shaw (Jerry Mulcahy), 437 Cedar Lake road, entertained the Chi Omega Alumnae Bridge club at her home in May at a dessert luncheon. There were four tables for bridge.

Margaret J. Cummings '34B, before her marriage to Harold S. Carlsen of St. Paul, was the guest of honor at many prenuptial parties. Mrs. Frank Adams of 719 Jefferson avenue, St. Paul, was hostess at a party Thursday, May 16. Lucille Rhedin, 1778 Bayard avenue, St. Paul, gave a kitchen shower for Miss Cummings on Friday, Wednesday, Mrs. Harold Carlsen of 1485 Portland avenue gave a shower for her. Margaret Murphy of Oakland avenue, Minneapolis, entertained at a miscellaneous shower May 1. A personal shower was given April 30 by Mrs. Allen Lindgren of 1967 Pinehurst avenue, St. Paul. Millicent Fox was hostess at a kitchen shower at her home, 943 Iglehart avenue, St. Paul, and Dorothy Kelly, 712 Fourth street southeast, Minneapolis, gave a linen shower.

Mrs. Chester W. Johnson, 2436 West Twenty-fourth street, entertained the alumnae chapter of Alpha Gamma

Delta sorority at a dinner meeting at six o'clock Monday, May 13, at her home. Mrs. Carlyle Scott, an honorary member of the sorority, gave a talk on "The Business of Being an Impresario." Mrs. Elspeth Scott Steubing sang. Seniors of the active chapter were initiated into the alumnae chapter at the meeting.

Alice Laskey '28, formerly with the Laboratory, Veterans Hospital, Minneapolis, recently has been promoted to the position of head technician, Veterans Hospital, Dwight, Illinois. Miss Lasky is a member of Sigma Kappa sorority.

Bernice Davison, 2416 Grand avenue south, was the hostess in charge of the dinner meeting of Twin City Alumnae of Alpha Omicron Pi sorority at the chapter house Tuesday, May 14. Gina Wangness, instructor in German at the University, spoke on "Traveling in Germany." She spent last summer abroad.

New officers are Margaret Brix, president; Mrs. Ray Amberg, vice-president; Dorothy Sonnenfeld, treasurer; Edith Goldsworthy, social service chairman; Mrs. Charles Pettit, Panhellenic delegate; Mrs. Arthur Regan, historian, and Mrs. George Foster, chapter editor.

Several sectional meetings were held by the Dames Club of the University on Thursday, May 16, at 2:30 p.m. The arts and crafts group met at the home of Mrs. E. S. Osgood, 312 Seymour avenue southeast; the miscellaneous group at the home of Mrs. N. N. Allen, 1511 Chelmsford avenue, St. Paul, with Mmes. M. W. Griswold, H. C. Douglass, and L. F. Sunderman, assisting; and the reading group met with Mrs. L. F. Miller, 1531 East River Road. Mmes. F. R. Zinter, Walter Meyers, and Claude Eggertsen gave book reviews.

Kappa Alpha Theta alumnae met Tuesday, May 14, at the home of Mrs. H. G. Cant, 3400 Zenith avenue south. Mrs. H. P. McCrimmon was in charge of the arrangements.

Ten seniors were honor guests at the dinner. Harriet Ayre, Constance Sabin, Barbara Johnson, Ellen Hulbert, Maxine Sorenson, Janet Poore, Bertha Gaarde, Mary Louise Palmer, Billy Bott, and Betty Rohan were initiated into the alumnae organization.

Frances M. Ford '34 has been visiting in Pittsburgh, Pennsylvania, for several weeks. She is living at home, 1419 Hickory street, Waukegan, Illinois, where she is active in the local branch of the American Association of University Women.

CHICAGO WEEK BY WEEK

by PAUL NELSON '26

IT'S a girl at the Herman Mueller's. . . . Doc Eyler very natty in his new spring ensemble. . . . Veronica Collins going down to New York for the launching of the Normandie, super-liner of the French Line. . . . Associated Collegiate Press Convention set for Chicago next October . . . this association has headquarters at the Minnesota journalism department . . . local alumni shocked to learn of C. E. Cason's suicide . . . "Chico," as he was affectionately known by many former students, was a favorite professor of many former journalism grads, including yours truly. . . . Art Bohnen still shuttling between his Chicago office and Washington on federal housing business. . . . "33" Club planning an early summer party at the Wheaton estate of Ed Applequist. . . . Bill Deighton has resigned from his job and left with his parents for a motor trip south . . . will sojourn at his old hangout in Miami Beach till June 15. . . . Lee Deighton will become manager of Harcourt Brace's Chicago office on July 1.

★ ★ ★ ★ ★

Brief Notes About Minnesota Alumni

12,000 Minnesotans read this department each week for news of friends of College days.

1892

Eliza Friedlander, mother of Esther Friedlander '92A, '93G, died May 20 at her home in Minneapolis after a lengthy illness. She was the widow of Samuel F. Friedlander.

1893

Charles V. Colgrove, brother of Mrs. Fred Schilplin (Maude Colgrave '93A), died May 11 at Homewood hospital, Minneapolis, after an illness of three months. He was proofreader on the St. Cloud Daily Times.

1894

Alfred F. Pillsbury '94L was selected as president of the Minneapolis Society of Fine Arts to succeed the late John R. VanDerlip. One of the new directors of the society is Thomas F. Wallace '93A, '95L.

1896

Charles F. Keyes '96A, '99L, and Thomas E. Latimer '14L, are the opposing nominees for mayor of Minneapolis. The other candidates were eliminated in the recent primary election.

1901

Martha E. Nessel, sister of Nellie Nessel '01Ex of Minneapolis died May 15 in Northwestern hospital after an illness of five days. She had been a teacher at Clay school for more than twenty years.

1904

Marshall Albee Nye '04A, son of the late Mayor Wallace G. Nye, died Thursday, May 16, at Eitel hospital. Mr. Nye's home was at 315 West Minnehaha parkway.

Since 1904 Mr. Nye was secretary-treasurer of the Union Investment company, now affiliated with the Northwest Bancorporation. Mr. Nye was born in Minneapolis and lived here his entire life. He was a graduate of North high school and the University. Mr. Nye was active in the affairs of Lynnhurst Congregational church and was a member of Plymouth Masonic lodge.

Surviving him are his wife, Sarah; three daughters, Mrs. R. G. Cargill, Jr., Henrietta Nye and Sarah Elizabeth Nye; his mother, Mrs. Wallace G. Nye, and two grandchildren, all of Minneapolis, and a brother, George N. Nye, living in California.

1905

Sig Harris '05E presided at the mammoth C Club gathering held last Thursday in the Calhoun auditorium. Mr. Harris, president of the Central high school organization and a former great of Minnesota football, has been leading the drive for a new and bigger or-

ganization and one of the features planned by the Club is the awarding of a trophy to the Central athlete who maintains the highest combination average in athletics and scholarship.

1906

Charles McMahan '06Md, read a paper before the annual session of the Nebraska State Medical Association at Omaha on May 14. His subject was "Operative Treatment of Patellar Fracture."

1907

Dr. ('07D) and Mrs. Roland R. Jones (Blanche Holt '09A) of Minneapolis recently returned from a trip to Quincy, Illinois, where Dr. Jones attended the Illinois state dental convention. Dr. Jones read a paper on "Partial Denture."

1910

Edmund P. Eichhorn '10L, vice president and treasurer of E. Eichhorn and Sons, realtors in the Security building and one of the city's oldest realty firms, died suddenly at his home at 3233 Irving avenue south Thursday morning, May 23. Surviving him are his wife, Margaret Benton Eichhorn '10A, a son, Edmund P. Eichhorn, Jr., two daughters, Susan and Margaret, his parents, Mr. and Mrs. Arthur E. Eichhorn, and a sister, Mrs. Herman McGuire, all of Minneapolis.

1914

Robert E. Scott '14Ed, is assisting Dr. W. E. Peik of the University in an educational survey of the Groveland school. This survey will consist of eighth grade study, mental and achievement tests, and a comparison of budget expenditures and educational results obtained for the money spent. Mr. Scott is superintendent of schools for Hennepin County.

Albin F. Larson '14E, 40 West Mason avenue, Chicago, has returned to work for the Board of Education, City of Chicago.

1916

An article entitled "Must Their Home Towns Default?" by Milton Conover '16G, associate professor of government at Yale University, appeared in the April 26 number of the Yale Alumni Weekly.

1919

Dr. J. J. Seibel '19Md, and family of Harvey, North Dakota, have re-

turned from a four months' trip in California.

Dr. L. G. Rigler '19Md, Minneapolis, was the guest speaker at the April meeting of the Renville County Medical Society held at Olivia, Minnesota, recently.

Mrs. Curtis G. Pratt (Florence Dale '19A). See Woman's Page.

1920

Helmer N. Anderson '20E, has been promoted to manager of the New Orleans branch of Fairbanks, Morse and Company, covering the states of Louisiana, Mississippi, Alabama, and the northwestern portion of Florida. Mr. and Mrs. Anderson and their three children, Robert, Jean and Joyce, live at 1521 Dufossot street, New Orleans. "A warm welcome is extended to all Minnesota friends in this vicinity," say Mr. and Mrs. Anderson.

1922

Dr. ('22D) and Mrs. Irving E. Seth of Seattle, Washington, announce the arrival of a baby boy on April 30. They also have a daughter who is three and one-half years old.

1924

Mr. and Mrs. J. O. Ylverton (Corinne Jacobson '24N) are now living at Sioux City, Iowa. The new address is 812 Douglas avenue.

Mr. ('24Ag) and Mrs. Arthur W. True (Anna Dinsmore '27Ag) of Washington recently spent a week visiting Mrs. True's parents, Mr. and Mrs. L. A. Dinsmore, 518 West Thirty-second street, Minneapolis.

Born to Mr. and Mrs. John A. Wasgatt (Madge Chilton '24N), a baby girl, Mary Elizabeth.

1926

Esther Lykken of Palm Springs, California, and William A. Seddon '26A, of St. Paul and Palm Springs, were married Saturday evening, May 18, under a full moon in the beautiful garden surrounding the winter home of the bride's uncle and aunt. After a wedding trip Mr. and Mrs. Seddon will come to St. Paul June 1 to make their home for the summer. Mr. Seddon will be the tennis professional at the St. Paul tennis club for the season. He is a member of Sigma Nu fraternity.

1927

Mrs. Paul E. Smith (Agnes E. Erickson '27N) sends greetings from Long Branch, New Jersey. She says, "It's

nice having Miss Melda Korfhage here this year as practical nursing instructor."

1928

Mrs. Lyman A. Thompson (Mary White '28A) is in Washington, D. C., where she is studying at the National Child Research Center.

Grace M. Gleason '28N is at 950 East Fifty-ninth street, Chicago, Ill.

Mr. ('28A) and Mrs. Samuel H. Rogers (Margaret Pinger '30A) of 4952 Emerson avenue south, Minneapolis, announce the birth of a daughter, Margaret Louise, on April 28.

Alice Laskey '28. See Woman's Page.

1929

Helen Elizabeth Cavanaugh '29Ed, has chosen June 5 as the date for her marriage to Paul H. Voss '31B. The ceremony will take place at St. Bridget's church. Miss Cavanaugh has been entertained at several prenuptial parties. Mrs. T. H. Cavanaugh gave a kitchen shower in compliment to the bride-to-be, and others who entertained for her included Mrs. Catherine Cavanaugh, who gave a towel shower, and Mrs. Frank Adams, who was hostess at a miscellaneous shower and luncheon for twenty guests.

Laura L. Clark '29N, is attending the University this quarter. She is taking a six months leave of absence from her work in the United States Indian School Hospital at Phoenix, Arizona.

John R. Elliott, '29Ex, well known in oil sales circles, recently was placed in charge of the newly inaugurated fuel oil division of the Shell Oil company in Minneapolis. He has been engaged in the retail sale of fuel oil and motor oil for the last four years. His home is at 2921 Sunset boulevard. Mr. Elliott's father has long been prominent in the contracting business in Minneapolis. Office space for the fuel oil division has been provided in the local headquarters of Shell at 528 Roanoke building.

1930

Florence Anderson '30N is supervisor of the Men's Medical Floor at the Minneapolis General hospital.

YOUR MAGIC CARPET

is your Bell Telephone; ready to transport you over continents and oceans to people with whom you wish to speak.

Gujjar Singh Sahi '30M, '32G, of Punjab, India, long a campus figure, and Imogen Foster '27Ed, have, in their own words, "taken the depression by the tail by a return to the simple life." They were married at Christmas time and have leased a fruit ranch in California, where they read philosophy under the peach trees and spray the bugs on the pears. It's a great life, they say, if you like to read philosophy and don't mind bugs. Their address is Highland Ranch, Penryn, California.

Jean Lehmann '30A, is a reporter for the East St. Paul Reporter.

1931

The engagement of Mary Margaret McNally '31Ed, to Edwin L. Haislet '31Ed, has been announced. The wedding will take place June 12 in St. Lawrence church. Miss McNally is a member of Alpha Delta Pi sorority. She attended Milwaukee-Downer College before coming to Minnesota. Mr. Haislet is a member of Sigma Nu fraternity.

Grace Hanson '31N is night supervisor at Fairplay Hospital, Fairplay, Montana.

Thelma Troxel '31Ex and Norman Dyste were married Saturday, May 11, at the home of the bride's parents in Minneapolis. After a short wedding trip Mr. and Mrs. Dyste are at home at 3105 Sixteenth avenue south.

1932

Gayle Priester '32E is now working for the Carrier Engineering Corporation. His address is the main office of that company in Newark, New Jersey. His work consists of engineering and design of heating and ventilating equipment for railroad coaches, office buildings, and stores.

Irene J. Klemp's ('32N) address is A-5, Fort Snelling, Minnesota. She is enjoying her army nursing experience very much.

Alice Schwartz '32A, is doing advertising work in Los Angeles.

Kenneth W. Pederson '32E is in the Water Conservation division of the SERA in St. Paul. He is making topographic surveys of proposed dam sites and water diversion projects throughout the state—at Worthington, Luverne, Morris, Hancock, Wanamingo, Lake Chisago, and Lac Qui Parle Lake.

1933

Mary Elizabeth Woodring '33AgEd has chosen Saturday, June 8, as the date for her marriage to Marshall Wells '33Ed. The ceremony at eight

o'clock in the evening will be followed by a reception at the home of the bride's parents.

Irma Chapman, cousin of Miss Woodring, will be maid of honor, and the bridesmaids will be Margaret Skinner, Dorothy Verrell, Marjorie Jensen, and Mardelle Turner. Walter B. Wells will attend Mr. Wells as best man, and the ushers are to be John Wells and Kenneth Wells of Minneapolis and Walter Hargesheimer and Rollin Woods of Sioux Falls, South Dakota. Miss Woodring is a member of Alpha Omicron Pi sorority. Mr. Wells, a former member of the University football team, is now coaching at Sioux Falls. After their marriage Mr. Wells and his bride will be in Minneapolis for the summer. In the fall they will go to Ames, Iowa, where Mr. Wells will be coach at Iowa State College. Mr. Wells is a member of Alpha Rho Chi fraternity.

Nathan S. Ruder '33E, formerly located at Houston, Minnesota, is now at Lewiston. He is office engineer with the Soil Erosion Survey.

G. Irene Johnson '33N, is employed as industrial nurse with the Cudahy Packing company in St. Paul.

Irvin J. Steene '33Ex, is employed in the division of health of the Minneapolis Fire department and was a member of the squad which gave a first aid demonstration in the chemistry auditorium for a freshman orientation class last week.

The engagement of Helen M. Waldron of Minneapolis to Myron R. Nestor '33M, has been announced. The wedding will take place Saturday, June 8. Mr. Nestor is now located in Columbus, Ohio.

Louise Hillen '33Ex, and Forest Van Dyke Gustafson '33Ed, are being married today at the home of the bride's parents in Minneapolis.

Another engagement recently announced is that of Georgiana W. Glos of Elgin, Illinois, to Oscar A. Nordquist '33L. The wedding will take place early in June. Miss Glos attended Bradford Academy in Massachusetts and Martha Washington Seminary, Washington, D. C. Mr. Nordquist is a member of Alpha Tau Omega fraternity.

Grace E. Hatch '33Ex, and Karl L. Ziegler '34E, will be married Saturday, June 1, at noon in Hennepin Avenue Methodist Episcopal church.

1934

Valeda Corley and J. Stenton Tureck '34E, were married April 28 at Trinidad, Colorado. At present Mr. Tureck is assistant director of the Federal Land Rehabilitation Program in Las Animas County, Colorado.

Saturday, June 8, has been chosen by Margaret Elizabeth Davis '34B, as the date for her marriage to Terence Joseph Slattery '26A, '28L, of St. Paul. The ceremony will take place in the evening. Miss Davis has chosen her sister-in-law, Mrs. Robert D. Davis, for her matron of honor and Norma Heath '34B, as her maid of honor.

Dr. ('34Md) and Mrs. C. Meredith Guernsey (Elizabeth Donovan) announce the birth of a son, James Meredith, born May 18 at Biwabik, Minnesota. Dr. Guernsey has been serving as Camp Surgeon in the C. C. C. for the past six months in Camp 704 near Ely, Minnesota. On July first, after visiting their parents in the Twin Cities, Dr. and Mrs. Guernsey will make their home in Rochester, Minnesota, where Dr. Guernsey will begin a surgical fellowship at the Mayo Foundation.

S. P. Quinn '34D, has succeeded Oscar Kowalske '31D, in the practice of dentistry at Henderson, Minnesota. Lieutenant Kowalske, R. O. T. C., was ordered to active service in the Army April 1 and is now stationed at Fort Snelling.

The engagement of Meredith M. Donaldson '34Ed, to Murrell V. Hellikson of Mabel, Minnesota, has been announced. For their wedding date they have chosen June 15, the twenty-fifth wedding anniversary of the parents of Miss Donaldson. The ceremony will take place in St. Anthony Park Congregational church. Miss Donaldson attended Boston University as well as the University of Minnesota. She is a member of Pi Beta Phi sorority. Mr. Hellikson attended Iowa State, Ames.

Ralph V. Nyquist '34E, of Duluth was fatally injured in a traffic accident in Minneapolis the evening of April 27, and passed away Sunday morning, April 28. At the time of his death he was taking a short training course as

What the 1934 M. E. Class Is Doing

This list as compiled by Professor DuPriest, Head of the Mechanical Engineering Department, gives the names, company, and addresses of the complete 1934 M.E. class as of May 1, 1935.

radio telephone operator with Northwest Airways.

Helen M. Tracht '34N, was married March 5 to Leslie N. Cottrell of Congress Junction, Arizona, and asks that the Alumni Weekly be sent to her at that address.

Constance Trygstad '34A, is working in the registrar's office at the University.

Norbert Sternal '34E, has a job in St. Paul with the Minnesota Mining and Manufacturing company, testing sandpaper.

Ruth Strandness '34N, is working at the Memorial Hospital, Wausau, Wisconsin.

Another engagement recently announced is that of Vivienne Willson '34Ex, to Paul E. Quintus '34G. The wedding will take place Saturday, June 1, in St. Anthony Park Congregational church. Dr. Quintus, who received his Ph.D. at Minnesota, is a member of Alpha Zeta and Phi Kappa Tau fraternities.

Martin Byrnes '34M, sampler and geologist at the Flathead Mine of the Anaconda Copper Mining company at Kalispell, Montana, writes: "I have worked here since early December. The mine is located thirty miles southwest of Kalispell in the 'Tall and Uncut.' Floyd Anderson '34M, has the same position at the Mountain Con mine in Butte, Montana. He is with the same company."

Margaret J. Cummings '34B, See Woman's Page.

The engagement of Elizabeth Ayre '35B, to Carol D. Fager '33Ex, has been announced. The date for the marriage is Wednesday, May 29. Miss Ayre is a member of Kappa Alpha Theta sorority, while Mr. Fager is a member of Beta Theta Pi fraternity.

Audrey Mary Weiss '36Ex, became the bride of William Homer McKinney '36Ex, on Friday, May 10, at a beautiful spring wedding which took place in Judson Memorial Baptist church. Virginia Ingalls was the maid of honor and Corinne Nygaard and Betty Lou McKinney were bridesmaids. Howard Julien attended the bridegroom as best man. The ushers were Robert Hoch and Paul Loring. Following the ceremony a reception was given at the home of the bride's parents, after which Mr. and Mrs. McKinney left on a motor trip north.

The marriage of Helen Lidberg of Red Wing to Frederick W. Reichert, Jr. '35Ex, also of Red Wing, took place Saturday evening, May 11, in the First Presbyterian church of that city. A wedding reception for 150 guests was given at the home of the bride's parents after the ceremony. Mr. and Mrs. Reichert went on a brief trip and are now at home at Wacouta resort on Lake Pepin for the summer.

Why Go Elsewhere and Pay More?

Invest wisely in yourself and in your earning power. Your summer session at the University of Minnesota pays abundant dividends in preparation for a better position—in a freshened outlook and broader viewpoints—in health and happiness, too. For Minneapolis lies at the threshold of the famed Ten Thousand Lakes vacation land. It's a city of remarkable beauty, cultural and recreational advantages.

A Course for Adult Education Leaders

The University of Minnesota offers for the first time a formal course of training in Adult Education. Special courses in Sociology, Emergency Education, Child Welfare, Public Health, Physical Education, Play Production, Home Economics, Music and many others of value in the adult education movement.

The University of Minnesota offers you a faculty of 250 selected educators, with 600 courses leading to baccalaureate or advanced degrees.

To round out your summer session, there are special lectures, recitals, plays and excursions. Fees and living expenses are moderate.

First Term: June 17 to July 27.

Second Term: July 27 to August 31.

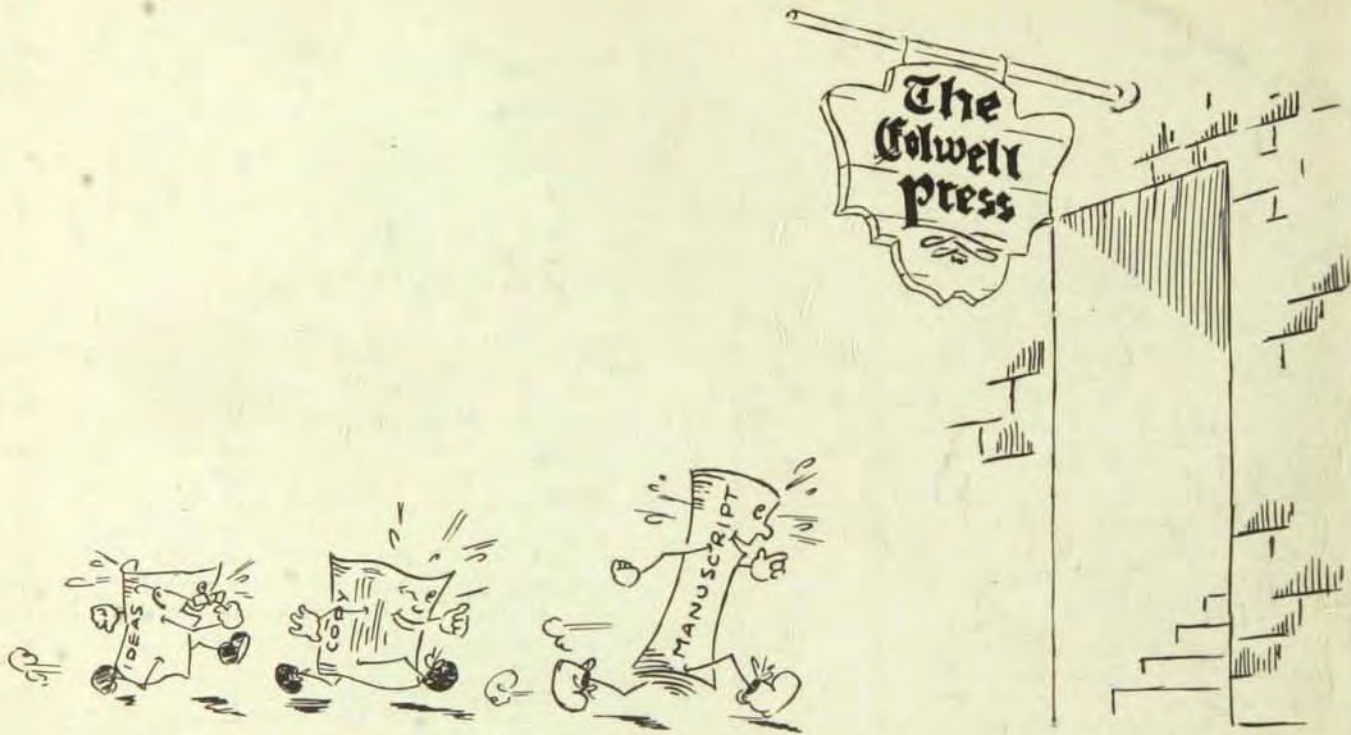

Ask for special bulletin in your field, or write for complete bulletin to: Dept. 13

A FINISHING SCHOOL for BRAIN CHILDREN

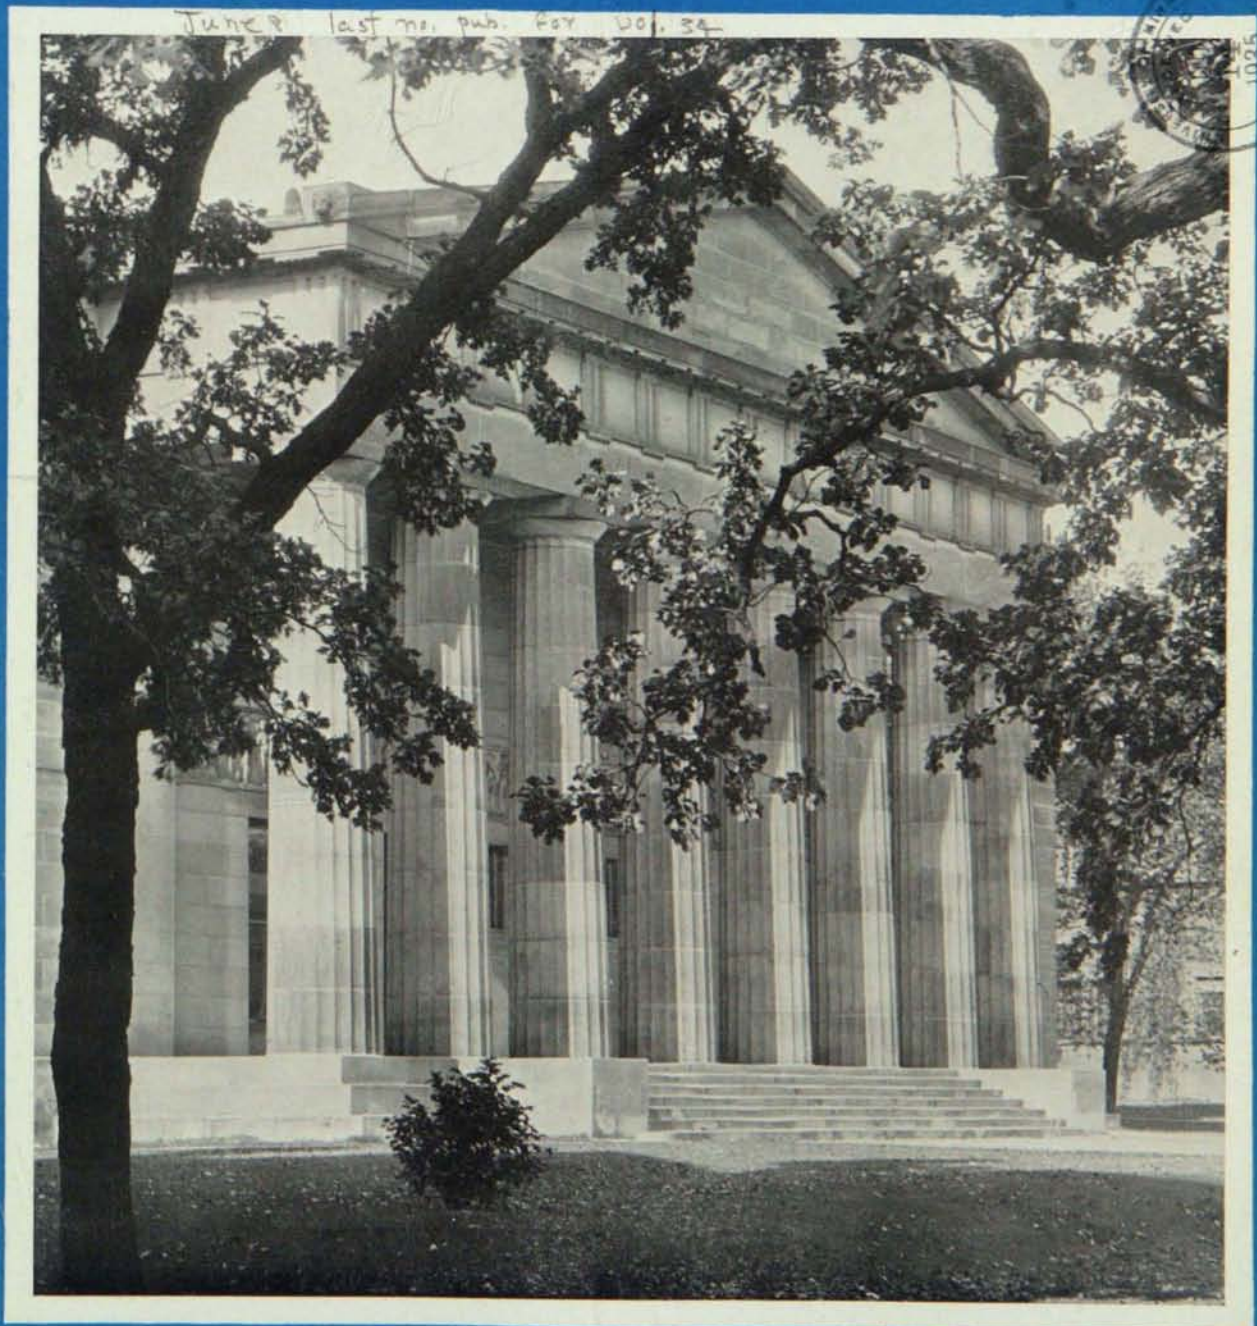

● No matter how smart, sparkling, or scholarly these products of the mind, they must undergo a finishing process before they are ready to step out into the world. Whether they will be well received in the proper circles will depend very largely upon whether they have acquired a pleasing appearance and an inviting personality.

● Type is expressive. Be sure that it builds the right background and atmosphere. And don't underestimate the importance of good press work. Good press work makes the finished piece clean, sharp, inviting. Depend upon The Colwell Press, Inc. for the finishing touches that make printing succeed.

Its Quality shines brightest after 10,000 miles

People who have examined the new Master De Luxe Chevrolet marvel at its quality. Very likely *you* will marvel, too . . . because Chevrolet has made this car so big and sturdy—so *fine* in every part—that it no longer looks or acts like a low-priced car! The most pleasing result of this high quality manufacture is that the Master De Luxe will continue to give real satisfaction long after you are satis-

fied you have received full value for the money paid for it. This new Chevrolet has a habit of staying young. Its quality shines brightest after ten thousand miles. The most surprising thing of all is that its prices are among the lowest and that it gives the greatest operating economy in Chevrolet history. But, as we have said before, quality is remembered all the more pleasantly when price is so low.

Another Year

NEXT week will complete the sixty-sixth term of the University of Minnesota. The year just closed has been an eventful one on the campus. The feature of the year which stands out prominently in the minds of most alumni is the achievement of the Minnesota football team in winning both the Big Ten and the national championships. The activities of Captain Pug Lund and his mates on the grid-iron will not soon be forgotten.

With the beginning of the term last September the new unit of Pioneer Hall was opened with C. C. Plank in charge of the residence for men. During the year the new sports building was opened to the men students of the University. . . . Another feature of the year was the increase in enrollment. The fall quarter registration showed an increase over the same period of the year before and this development continued throughout the winter and spring quarters to the point where the total collegiate enrollment assumed peak proportions.

The twenty-fifth anniversary of the school of nursing was celebrated in November. . . . Professor Henry Rottschaefer of the law school was named this year as Minnesota's western conference faculty representative, succeeding Professor James Paige. . . . Minnesota was listed as the fourth university of the land in point of full time enrollment. . . . The Little Art Gallery in Northrop Memorial auditorium enjoyed its first full year of activity under the direction of Mrs. Ruth Lawrence. . . . The General college, Minnesota's newest educational unit, continued to win the attention and interest of educators throughout the land.

The University has two new members on the board of regents, Ray Quinlivan of St. Cloud and Albert Pfaender '97, of New Ulm. . . . The legislature voted the University a general maintenance appropriation of \$3,100,000 a year for the next biennium. This is \$300,000 a year more than the amount appropriated for the same purpose by the legislature two years ago and is \$175,000 a year less than the amount requested by the board of regents. . . . The legislature also granted \$75,000 for the construction of a new psychopathic ward at University hospital.

Last fall Orren E. Safford '10L, prominent Minneapolis attorney, was elected president of the General Alumni Association, succeeding George R. Martin '02L, who had served in the presidency for four years. Mr. Martin

was elected an honorary member of the board of directors.

This spring the baseball team added to the athletic achievements of the year by winning the western conference championship on the diamond.

Campus Guests

AN organization with more than 18,000 members, the American Association for the Advancement of Science, will hold its summer meeting in Minneapolis this month, June 24 to 29. The University will be host to scientists from all parts of the country. Dr. Dwight E. Minnich of the University faculty is chairman of the local committee in charge of the arrangements for the event.

The meetings of the association serve two purposes. In the first place they provide opportunity for exchange of ideas among research workers in the same or similar lines of science, through the presentation of papers and through social intercourse. In the second place they offer the opportunity of taking science to the people through the medium of popular talks by our outstanding scientific men. These talks are given on a wide range of scientific subjects, which they treat in a broad way and in language intelligible to all.

These popular addresses by nationally and internationally known authorities deal with the exploration of unknown or little known parts of the earth's surface, with the study of unknown or little known parts of, or objects in, the skies, and with the most recent advances in the natural and social sciences. They also deal with the problem of just how science affects the whole people in their daily lives, explaining the progress of research in terms of ultimate benefit to all.

These more or less popular addresses and special features are presented in addition to the regular programs of the sections, and do not in any way interfere with them.

Among the more significant features of the coming meeting will be a two day joint session of the section of medical sciences of the association and the Minnesota Medical society. One of the most important addresses at this joint session will be given by Dr. William P. Murphy, of the Harvard Medical school, a recent recipient of the Nobel Prize in Medicine, who will speak on the subject of anemia. An equally important address will be given by Dr. Richard P. Strong, also of the Harvard Medical school. Dr. Strong, who has recently returned from a year's study in Africa, supplementing long tropical experience, will discuss the distribution and transportation of diseases.

Dr. Strong's address is one of the so-called Maiben lectures. These lectures are made possible through the generosity of Mr. Hector Maiben, a Scotch boy born in England who when young came to the United States and spent most of his life as a farmer on the prairies of Nebraska, at his death bequeathing all his property to the association.

An unusually comprehensive and instructive program of timely and informative addresses on agricultural and allied subjects and problems has been arranged.

For those interested particularly in the natural sciences one of the most attractive features of the meeting will be a number of field trips on which the characteristic faunal, floral, geographical and geological features of this area will be explained.

This region, however, is well known

COMING IN JUNE!

THE "NORMANDIE"

Largest... most luxurious and beautiful of modern ships... the super-liner "Normandie" will set new standards of comfort and safety in ocean travel for many years to come.

ON JUNE 3 there will arrive in New York not merely another big liner, but a *different kind of liner*... a *super-liner*.

Neither size nor speed was the first consideration of the engineers who plotted her lines. Those qualities came later, as the result of a fresh approach to the basic problem of assuring our passengers maximum safety and convenience.

For the decoration of this super-liner... fifty years ahead of her time... the foremost artists of France were called into consultation. The *décor*... executed with the finish of French craftsmanship... is beyond anything you have ever seen in brilliance.

Imagine a ship 1029 feet long... 79,280 tons... a dining-salon 400 feet in length, walled with molded glass, and entirely air-conditioned... a sun-deck, clear of all obstructions, as long as two city blocks... an eighty-foot swimming

pool... virtually every cabin in First Class with bath or shower, many with private decks... a completely equipped theater... radiotelephones constantly in touch with both shores... a staff of 1300 to assure your comfort.

Need we say that the chef and his corps of assistants are even now engaged in an amiable conspiracy to raise your appreciation of French Line food to new and quite entrancing heights?

You must see this ship!... The arrival of the *Normandie* in New York harbor with a distinguished passenger list will be an event in maritime history. Your Travel Agent can tell you more about her... French Line, 610 Fifth Ave. (Rockefeller Center), New York.

S. S. "NORMANDIE"

FIRST ARRIVAL IN NEW YORK, JUNE 3.

ADDITIONAL SAILINGS: JUNE 22, JULY 10 AND 31, AUGUST 21, SEPTEMBER 4.

to many of the members of the association who still cherish most pleasant recollections of a previous meeting in Minneapolis. Indeed, this summer's meeting will be the third that has been held in this city. The first Minneapolis meeting—the thirty-second meeting of the association—was also a summer meeting, held in August, 1883. The president at that meeting was Professor Charles A. Young, of Princeton, and the total membership of the association was only 2,023. The second Minneapolis meeting—the sixty-second of the association—was held in December, 1910. The president was Professor Albert A. Michelson, of Chicago, and the total membership was 8,012.

Eighteen thousand men and women, including all of the country's leading scientific workers, are now members of the association, of which the president is Dr. Karl T. Compton, president of the Massachusetts Institute of Technology, and chairman of President Roosevelt's Science Advisory board.

Of the Association's 18,000 members only about one-third are regularly engaged in scientific work as a profession or career. The other two-thirds are laymen so far as science is concerned. The natural result of this is to make all those who have any interest at all in science feel just as much at home and just as welcome at the meetings as those to whom science is an all-absorbing preoccupation. It also facilitates carrying out one of the most important functions of the association—bringing science to the general public.

Societies that will meet with the association in Minneapolis are the American Phyto-pathological society; American Society of Plant Physiologists; Botanical Society of America; Corn Belt section, American Society of Agronomy; Dairy Science association; Ecological Society of America; Great Plains section, American Society of Horticultural Science; American Meteorological society; Minnesota section, American Chemical society; Minnesota State Medical association; Northwest section, American Meteorological society, and the Society for Research on Meteorites.

Just before the association meets the American Physical society will conduct summer meetings on the campus, June 21 and 22.

Speaker

On June 5, President Coffman was the principal speaker at the seventy-fifth annual commencement exercises at Winona State Teachers college, and on the following day he spoke at Shattuck Military academy at Faribault.

The graduating class of Miami university, Oxford, Ohio, will hear Dr. Coffman on June 10, while on the following day he will speak at Hamline university in St. Paul. He will make the last of these speeches at commencement exercises at Northwestern university on June 15.

VOLUME 34

MINNEAPOLIS, MINNESOTA, JUNE 8, 1935

NUMBER 32

Some Opening Remarks—

THE six members of the University faculty who will retire, either partially or in full, at the end of the present term will be guests of honor at the annual Alumni Day banquet in the Minnesota Union on June 17.

They are Professor William R. Appleby, dean of the school of mines and metallurgy since its founding; Professor Andrew Boss, vice-director of the agricultural experiment station at University Farm; Professor Norman Wilde, chairman of the department of philosophy; Professor Jeremiah S. Young of the department of political science; Professor Charles Albert Savage of the department of Greek, and Professor Peter Christianson of the school of mines and metallurgy.

Excepting Professor Young, the group have spent the major portion of their teaching lives at the university. Professor Christianson was a member of Dean Appleby's first class in 1891. Professor Boss is the only native of the state, although Professors Savage and Christianson have been residents of Minnesota since boyhood.

Youngest in point of service is Professor Young, who joined the faculty in 1909, 18 years after Dean Appleby and Dr. Boss began their work. Professor Christianson became a member of the faculty in 1894, followed by Professors Wilde and Savage, respectively, in 1898 and 1899.

NEARLY all the five-year classes from 1875 to 1930 have completed plans for reunion luncheons at noon on June 17 either in the Minnesota Union or in Pioneer Hall. The latest reports on the class reunions have come from Winston Molander who is in charge of the 1930 arrangements; Robert Gile, who is at the head of the 1920 committee, and Walter Coller, the 1915 class chairman. At the dinner which will begin at 5:30 in the Minnesota Union the classes will sit in groups. The members of all classes are invited to attend the annual banquet although, of course, the emphasis is placed on the reunions of the quinquennial groups.

Members of the older classes who are present for Alumni Day will be the guests of the Minnesota Alumnae Club

at a luncheon in the Minnesota Union. A committee of the Alumnae Club is completing an interesting program for this occasion and a large number of the older graduates will be present.

During the forenoon and in the interval between the luncheons and the dinner visitors will have a chance to tour the campus and to attend the other activities which are being planned.

At 4:00 o'clock motion pictures of the highlights from the Minnesota football games of 1934 will be shown in the auditorium of the music building.

THIS is not a regular reunion year for the class of 1902 but this group will hold a meeting on the campus on Alumni Day this year as it does every year. George R. Martin, past president of the General Alumni Association and an honorary member of the board of directors, is chairman of the 1902 committee.

This class has accumulated the largest fund of any of the classes. Back in 1927 at the twenty-fifth annual reunion of the group it was decided to establish a class fund which would be used for scholarships at the University.

First Woman Professor

THE Minnesota Alumnae Club is sponsoring the planting of a tree in memory of Maria L. Sanford, "first woman professor in the United States," on June 17 at 4:30 in the afternoon. The tree will be planted near Shevlin Hall, where Old Main used to stand. Soil has been received from various foreign countries which have sent students to our University. The soil will be deposited by representatives from these countries in native dress.

Miss Sanford taught at the University from 1880 to 1909. She was spoken of as the best known and best loved woman in the state.

The fund has grown to \$3,500 and at a meeting on the campus this week the committee heard a report from the office of Comptroller William T. Middlebrook on the use of the fund in the interest of Minnesota students.

The members of the 1902 committee present at the meeting this week were George M. Martin, chairman, Miss Caroline Crosby, Dr. Fred Erb, Elmer Dills, Mrs. Lucy Towler Plummer, Miss Helen Harrington, Paul Von Kuster, and Elias Rachie. Alumni Secretary E. B. Pierce met with the group.

Arrangements for the annual dinner which will begin at 5:30 have been completed by the 1910 class committee under the direction of Theodore W. Thomson, general chairman. It is traditional each year that a committee of the twenty-five-year class have charge of the Alumni Day plans. The toastmaster will be a member of the class, Howard Y. Williams. What speeches there are on the program will be brief and there will be various features, including music, of interest to all graduates.

One of the features of the alumni dinner will be the singing of the new Minnesota hymn, "Deep in Our Hearts." The music was written by Mrs. J. A. Dunn, a member of the faculty of Hamline University and organist for the Bethlehem Presbyterian church of Minneapolis. The words were written by Elmer Robinson of Grand Rapids. The song will be sung for the first time by the University Singers under the direction of Professor Earle Killeen.

Trophies will be awarded to the class boasting the largest attendance, the class with the largest proportional attendance, and there will also be silver cups for the guest coming the greatest distance to attend the dinner and for the alumnus representing the oldest class.

THOUSANDS of alumni throughout the middle west and the east have viewed the films showing the highlights of the Minnesota football games of the past season. Now the pictures are being taken westward by two eminent members of the athletic department, Athletic Director Frank McCormick

and Coach Bernie Bierman.

Mr. McCormick, who is driving to California to attend a convention this month, will show the pictures before alumni groups in several cities including Omaha, Denver, Salt Lake City, San Francisco, and Los Angeles. This coming week Bernie Bierman will instruct at a coaching school in Washington and he will show the pictures before alumni in that state. And as has been mentioned above, pictures will be shown on the campus on Alumni Day.

The Minnesota athletic teams have won their share of Big Ten honors during the past year. The football team, of course, was undefeated and won undisputed possession of the western conference title on the gridiron. And everyone was willing to admit that the Gophers deserved this honor without any argument. The all-conference all-star teams were made up largely of Minnesota players.

This week the Minnesota baseball team won the conference title with a record of eight victories and three defeats. The Minnesotans lost games to Iowa, Wisconsin, and Northwestern. Three members of the championship football team were regulars on the baseball nine. They were Milton Bruhn, catcher; Stan Kostka, hard hitting outfielder, and Babe LeVoor, third baseman. George Roscoe and Edwin Widseth were utility members on the baseball squad.

The Gopher gymnastic team finished near the top in Big Ten competition and Gopher players won both the singles and the doubles titles in tennis. Bill Schommer won the singles title at Evanston a week ago and he paired with Roy Huber to win the doubles event. Chicago won the team championship on points.

Honored

DEAN WILLIAM R. APPLEBY, who is retiring at the end of this term after 44 years of service to the University and the state, will be honored by the alumni of the school at a banquet on June 15.

Algot F. Johnson '10, is chairman of the Dean William R. Appleby Appreciation Day committee. James Cowin '07, is chairman of the banquet committee and Walter H. Parker '07, is chairman of the printing and memorial committee. George M. Drake '11, is treasurer.

The members of the committee are as follows: R. W. Allard '18, H. H. Angst '05, R. H. Bassett '07, G. N. Bjorge '12, C. H. Chadbourn '21, W. A. Cole '09, W. A. Collier '15, C. R. Conkey '10, J. J. Craig '16, P. W. Donovan '01Ex, K. J. Duncan '10, J. Edwin '20, H. E. Farnam '10, T. F. Field '05,

PROFESSOR NORMAN WILDE

Dr. Wilde, chairman of the department of philosophy, retires at the end of this term. This picture is from a recent painting by his daughter, Lois Huntington Wilde.

A. W. Fosness '13, L. T. Gavin '09, S. L. Gillan '07, J. A. Grimes '08, W. H. Hale '04, S. Harmon '17, L. S. Heilig '15, A. F. Keene '04, M. S. Kingston '04, J. E. Lawton '11Ex, C. O. Lee '24, R. J. Lilly '23, M. S. Lindholm '11, S. W. Livingston '03, J. R. McKenzie '10, A. Y. Peterson '99, H. J. Rahilly '11, W. A. Rose '06, O. A. Sundness '10, W. L. Taylor '12, S. A. Trengrove '28, H. H. Wade '15, F. M. Warren '99, W. H. Wheeler '06, E. F. Whiteley '03, A. Winther '03, and H. M. Wribitzky '23.

"M" Club Banquet

THE annual spring banquet of the "M" Club was held in the Minnesota Union on Wednesday night. Fred Hovde, assistant director of general college, was renamed president of the "M" club while Sig Harris and Dean Otis McCreery were re-elected to their respective offices of vice president and secretary-treasurer. Art Larkin and Orren Safford were renamed directors for three years. New directors for three years were Larry Doyle and Paul Carroll. George Finlayson was named director for two years to replace Clarence Munn, resigned.

E. B. Pierce, secretary of the senate committee on intercollegiate athletics, presented the conference medal for proficiency in athletics and studies to Robert Tenner.

The oldest letterman present was Dr. Leo M. Crafts of Minneapolis who played football and baseball and also

participated in track during the years 1882, 1883, 1884 and 1885.

The second oldest "M" man was George Budd of Minneapolis who played baseball in 1885. Other old timers included J. F. Hayden, Judge W. C. Leary and George K. Belden, all of Minneapolis.

Belden, who won his first letter in 1888, played five years of football, four of baseball and participated in tennis and track also, while Judge Leary played five years of football and four of baseball. He was captain of the football team in 1891 and 1892 and in 1893 led the baseball team. Hayden was on the baseball and football teams between the years of 1886 and 1889, inclusive.

In the afternoon the varsity baseball team defeated an alumni team, 9 to 4, although the grads put up a great battle for five innings. Earl Loose, Mally Nydahl and Lefty Evans led the attack for the alumni. Other former stars who saw service were Ryman, Dretchko, Burke, Marshall, Johnson, Carlblom and Freidl.

New Book

"Contemporary American Institutions" by Dr. F. Stuart Chapin, chairman of the department of sociology, will be released the latter part of June by Harper and Brothers.

The book deals with such institutions as local government, local politics, local business enterprise, the family, the school, the church and social welfare agencies. It is the first single volume to present a sociological study of these institutions based upon information from factual data and statistical measurements.

One of the five parts of the book is devoted to an analysis of the New Deal, showing it as merely a phase of the age-old process that moves in cycles of repetition, the experimental phase of a social cycle passing from inertia to experiment to integration and back again to inertia. Other parts discuss an analytical approach to the social setting of institutions, the social and political economy of social institutions and a scientific approach to the study of social institutions.

Union Officers

E. B. Pierce '04, alumni secretary, was re-elected president of the Union Board of Governors at the annual meeting of the board this week. Stanley S. Gillam '12 will continue to serve as the alumni representative on the board. James Warren was elected vice president; J. C. Sanderson, treasurer, and Robert Dixon, secretary.

Gophers Win Baseball Title

THE Minnesota baseball team won the western conference championship in that sport by defeating Wisconsin at Madison Monday. . . . In conference play the Gophers have won eight and lost two games. Illinois, Chicago and Ohio State tied for second place in the standings, each with seven victories and three defeats.

Tom Gallivan, the veteran Gopher hurler, was touched for 10 hits by the Badgers Monday but with the aid of a tight defense on the part of his mates the Wisconsin hitters were left stranded on the bases as Minnesota took the game, 7 to 2. Mark Klonowski opened the scoring in the fourth inning with a home run and the Gophers hit freely in the fifth to tally four runs. In this inning Stan Kostka doubled with the bases loaded. Henry Streich, left fielder for the Gophers, got two hits to finish the season with a batting average over the .500 mark.

The box score:

MINNESOTA	AB	R	H	PO	A	E
Streich, lf	3	1	2	0	0	0
Stanton, 2b	5	2	2	3	2	0
Wolczynski, ss	4	1	1	1	5	0

Score by innings:

Minnesota	.000	140	002—7
Wisconsin	.000	000	200—2

In the last home game of the season on Northrop Field the Minnesota nine defeated Purdue in both ends of a two game series. At Iowa City on Memorial Day the Gophers boosted their conference winning streak to five straight games by trimming the Hawkeyes twice. Tom Gallivan, veteran Minnesota pitcher, held the Iowans to five hits in the first encounter and then was called back to the mound in the second game to head off an Iowa rally.

Minnesota won the baseball title of the Big Ten two years ago and then slumped back to the cellar last season. Now for the second time in three years the championship comes to Minnesota.

The Gophers lost the final game of the season to Wisconsin, 5 to 3. The Minnesotans were held to six hits and one of these hits was a home run from the bat of Mark Klonowski. Grossman, on the mound for Minnesota, allowed eight hits. Minnesota finished the season with a record of eight wins and three losses in conference play for a percentage of .727.

Track

The University of Wisconsin had little difficulty in defeating the University of Minnesota, 89 to 37, in a dual track meet in rain-swept Memorial stadium Saturday afternoon.

The Badgers captured 10 first places in the 14 events and also showed strength in piling up seconds and thirds. The track was slow with puddles of water standing about. The high jump, broad jump and pole vault were staged in the field house.

Three men, two of Wisconsin and one from Minnesota, tied for high point honors with 10 each. They were Kellner of Wisconsin, winner of the 120-yard high and 200-yard low hurdles; Rich of Wisconsin, who won the 100 and 220-yard dashes, and Wayne Slocum of Minnesota who won the mile and the two-mile events.

Win Titles

Minnesota tennis men won both the singles and doubles titles in the western conference tournament at Evanston but the team championship which is decided on a point basis for the entire meet went to the University of Chicago. Minnesota was a close second.

Bill Schommer of Minnesota defeated Trevor Weiss of Chicago in the finals to win the singles championship. The Minnesota doubles team of Schommer and Roy Huber annexed the doubles title.

Coaching Schools

Bernie Bierman, who directed the University of Minnesota football team to Big Ten and national intercollegiate gridiron championships last fall, will this summer participate in five coaching schools in various parts of the country.

COACH PHIL BRAIN

His tennis players win singles and doubles title.

The Gopher coach left Minneapolis June 6 for Spokane, Wash., where the first of the schools is to be held at Spokane Junior College, June 10-17.

On his trip to Washington Bierman will take along motion pictures of several of last fall's major contests as an aid to him in his teaching course. The pictures will be shown also to a meeting of University of Minnesota alumni in Spokane the night of June 10.

Bierman will return to Minneapolis in time to open the three weeks summer session course for football coaches

High School Meet

The Duluth Central high school track team splashed its way to first place in the twenty-sixth annual state high school track and field meet in Memorial stadium Saturday afternoon by garnering a total of 25½ points.

Mankato, led by Henry Jabbara, swept into second place in the standings with 20 points while Minneapolis Central was third with 17½.

Other point winners were:

Minneapolis Edison, 15½; St. Paul Washington, 12; Minneapolis Washburn, 11; Austin, 9½; Coleraine, 9; Owatonna, 6; Fairmont, 4 1-7; Madison, 5; Stillwater, 5; Luverne, 1; Pelican Rapids, 4; St. Paul Johnson, 3; Minneapolis Marshall, 2; Rochester, 7 1-7; Mound, 5; Hewitt, 1; Staples, 5; Winona, 1; Chatfield, ½; Lakefield, ½; Minneapolis South, 5; Roosevelt, 3; Gilbert, 3; Thompson, 4½; Redwood Falls, 4 9-14; Forest Lake, 1-7; Canton, 2½; Buhl, 2 1-7; Herman, 1-7.

BUSINESS—Frank J. Tupa, '21B.

MINES—Walter H. Parker, '07.

FIRST DISTRICT—Dr. William F. Braasch, '00, '03Md.

NINTH DISTRICT—Dr. W. L. Burnap, '07.

DIRECTORS AT LARGE—Mrs. Stanley R. Avery, '08; Dr. Moses Barron, '11Md; Dr. George Earl, '06, '09Md; A. C. Godward, '10E; Dr. Olza Hansen Litzenberg, '15Md; Ben W. Palmer, '13L, '14G; William T. Ryan, '05E; Orren E. Safford, '10L; George M. Shepard, '09E, and Dr. Oswald S. Wyatt, '19Md.

NEWS and COMMENT

IT IS a fact well known to everyone of course that the schools of this country have suffered greatly from reduced income during the period of the present depression. Thousands of public schools throughout the land have been closed and the number of days of school per pupil has been reduced, and the high institutions of learning have been forced into nearly suicidal retrenchment as a result of inadequate support.

Recently the National Education Association made a survey of the relations between the cost of education and other governmental costs during recent years.

The survey discloses that total governmental costs in 1934, exclusive of education, were 69 percent above the 1926 level, while educational costs were actually 11 percent below that level, despite the normal increase in the number of pupils plus the greatly increased number of pupils due to the child labor clause

in the National Recovery Act. With this abnormal increase, the facts support the conclusion that the cost of education should have been much more than it was in 1926.

The survey submits these figures: The combined federal, state, and local expenditures, excluding education, in 1926 were \$7,986,000,000. In 1934, they had increased to \$13,533,000,000. The total public educational expenditures, including higher institutions, in 1926 were \$2,210,000,000. In 1934, they were decreased to \$1,967,000,000. With this decrease in the appropriation for school maintenance, the average child gets fewer days of school per term than he has for many years and less individual attention because the teachers in most instances have much larger classes.

THE University of Minnesota ranks eleventh in scholastic eminence among American universities. Dr. Edwin R. Embree, former officer of Yale university, has announced following one of the most searching surveys made of leading universities in this country.

Dr. Embree, whose findings were published in the current issue of the *Atlantic Monthly*, claims only 11 universities are worthy of listing, "because no other universities approach the eminence of the eleven named."

Harvard was ranked first, with Chicago, Columbia, California and Yale following in the order named.

The next six, Dr. Embree pointed out, were difficult to arrange in logical order. Wisconsin ranked tenth and Minnesota closed the list.

Dr. Embree based most of his conclusions upon the report of the American Council on Education, and a study of the 24 fundamental branches of learning used as basis of tabulation.

THOMAS F. WALLACE '93; '95L, treasurer of the General Alumni Association, was toastmaster at the annual Court of Honor dinner sponsored by Minneapolis business and professional leaders Thursday at the Nicollet hotel. Mrs. Carol Michener, president of the Minneapolis College Women's Club was the principal speaker. The honor guests were 150 seniors who have shown superior scholarship.

The 27 groups who sponsor the annual dinner are:

Junior Association of Commerce, aviation committee, American Institute of Architects, American Chemical society, Optimists club, American Institute of Banking, Minneapolis chapter, Engineers club, Torch club, N. W. Farm equipment association, Izaak Walton league, Minnesota Home Economics association, Business Women's club, Hennepin County Bar association, Hennepin County Medical society, Minneapolis District Dental society.

Minneapolis Association of Retail Druggists, Life Insurance managers, Third District Nurses association, University of Minnesota Alumnae club, "M" club of U. of M., Parent-Teachers council, Business forum, Kiwanis club, Cooperative club, Hoo Hoo club, Rotary club, College Women's club, Woman's club of Minneapolis.

The Reviewing Stand

W. S. G.

ARVILLE SCHALEBEN '29, who wrote sports for the Minnesota Daily during his days on the campus, now has his name on articles written from Alaska for the North American Newspaper Alliance. He has been covering the activities of the settlers in the Matanuska valley. For several years he has been with the Milwaukee Journal.

Another Minnesota journalist, Les Etter '30, has both a new job and a new wife this month. On June 5 he was married to Barbara Quammen of Cyrus, Minnesota, and on June 15 he will become a member of the staff of the Associated Press in St. Paul. Since graduation he has been with the News Service at the University and has handled news releases for the athletics department. Mr. and Mrs. Etter will be at home at 325 Sixth Avenue Southeast in Minneapolis.

Probably the most prolific writer among Minnesota alumni is Benjamin C. Gruenberg '96, of New York City. He is a contributor to numerous educational and scientific journals and is the author of a new book, "Science and the Public Mind," which is being published by the McGraw-Hill Book Company, Inc. In *Child Study* for March he had an article, "Work and Leisure — A Changing Outlook," and in the May issue of *The Scientific Monthly*, he has a discussion entitled "Science and the Layman." Dr. Gruenberg is an Associate in Science of the American Association for Adult Education.

The three Bjornson brothers who were mainstays of the editorial department of the Minnesota Daily while in school are all analyzing the problems of the day for Minnesota readers and listeners. Hjalmar Bjornson '27, is editorial writer on the Minneapolis Tribune, Valdimar '30, is editorial commentator for station KSTP in St. Paul, and Bjorn, the most recent graduate of the three, is editor of the *Minneota Mascot*.

Mildred Boie '27 who since 1931 has been in charge of English classes in the General Extension Division of the University of Minnesota, has resigned her position here to accept an appointment as assistant professor at Smith College. Her work will be teaching courses in creative writing.

Always interested in literature and in writing, Miss Boie went to England in 1929 to study at Newnham College, Cambridge. While in England she wrote essays and articles for the *Spectator* and the *Morning Post*. It was upon her return to America in the fall of 1931 that she joined the faculty of the University of Minnesota.

During the following summer Miss Boie was invited to Peterborough, New Hampshire, to live and write at the MacDowell Colony for writers, artists, and composers.

Awarded the Mary P. Sears and Florence Z. Gilbert Fellowship in Creative Writing last spring, Miss Boie has been for the past year on a leave of absence at Radcliffe, where she has been concentrating upon short story writing under Bernard de Voto and on poetry writing under Robert Hillier.

The March and April issues of *The American Review*, formerly *The Bookman*, carried a series of two articles by Lewis M. Morton '29A, '30G, entitled "An Experiment in Classicism" and concerning Andre Obey and a group of French actors. This magazine remains almost the only one of nationwide circulation that features literary criticism.

Mr. Morton has been doing a good amount of writing during the past few years, *Books Abroad* publishing regularly his reviews of French books. Last summer he spent in New York where he did a series of reviews for the *New York Sun*, read several French manuscripts for Simon and Schuster, and read regularly for Fox Film.

His latest and greatest enthusiasm is a new literary magazine, *American Prefaces: A Journal of Critical and Imaginative Writing*, which will make its first appearance next September. Mr. Morton is a member of the editorial board. The magazine is to be published under the auspices of the School of Letters of the State University of Iowa, where Mr. Morton is a member of department of English faculty. It is not to be a typical university literary magazine, but will endeavor to print the best material of young writers all over the country, whether or not they are connected with a university. Professor Norman Foerster will act as advisory editor.

The editors plan to use stories, sketches, one-act plays, verse, critical

Alumni Dinner

ALUMNI who attend the annual Alumni Day banquet in the main ballroom of the Minnesota Union on Monday, June 17, will be given tickets which will admit them to a special reserved section in Memorial Stadium for the commencement exercises. The dinner will begin at 5:30 o'clock and the program will be over in time for the guests to reach the stadium for the opening of the graduation ceremonies. President Coffman will deliver the charge to the class of more than 1200 seniors.

On Sunday, June 16, the Baccalaureate services will be held in Northrop auditorium at 11 o'clock. Dr. Samuel A. Eliot, pastor of Arlington Street church in Boston, will deliver the address.

articles of all sorts—anything, in a word, suggested by the sub-title of the journal. Unlike so many "little" magazines, it will not limit itself to any one point of view in literature. Its aim is to give expression to the significant trends of thought and writing now current among the younger writers of the country.

While at the University of Minnesota, Mr. Morton was the recipient of the \$250 English prize in his senior year. He was graduated *summa cum laude* and was elected to Phi Beta Kappa. The year following he had an assistantship in the department of psychology here and was granted his master's degree in June, 1930. Mr. Morton spent the next year abroad on an American Field Service Fellowship—three months in Grenoble, four months in Paris, one month on the Riviera, a month in the Pyrenees, over to Germany, down the Rhine to Holland, and then two weeks in England. At the Sorbonne he studied under Professor Louis Cazamian. One of the year's experiences which stands out is seeing the plays put on by The Compagnie des Quinze. Both Mr. and Mrs. Morton (Marjorie Lofstrom '30A) were much impressed with them and had begun translating "Le Viol de Lucrece" into English when they heard that Miss Cornell and Mr. Wilder had forestalled them.

Upon their return Mr. Morton took an instructorship in English at the University of Iowa where he has been for four years, teaching and taking work under Norman Foerster. He plans to spend this summer in the woods of northern Wisconsin, writing.

Minnesota Women

FROM Madrid comes the news that Gratia Countryman '89A, Minneapolis librarian, spoke to librarians of the world at the International Federation of Library Association meeting to which she was a delegate. She told them how the United States spreads the gospel of books through its public schools.

The topic was one of interest to men and women gathered from all parts of the world in Spain, where, until recently, only 51 of 5,000 municipalities boasted public libraries. Since the republic took over the government 100 new libraries have been started and circulating libraries have come into vogue.

But few of the countries represented by librarians have made such headway to unite their public libraries and school systems as has the United States. Miss Countryman, pioneer librarian, told the convention about this phase of library work.

No longer is the American school library a box of books placed in one corner of the schoolroom for the haphazard use of pupils, Miss Countryman told her audience.

Miss Countryman spoke of American rural schools without library advantages and the schools which she has reached in Hennepin county through her use of book trucks and library stations. Her plea for more libraries and more trained librarians took into consideration the need of these children as well as of their contemporaries in the junior and senior high schools of the larger towns and the cities.

The Minnesota district of the American Association of Medical Social Workers had its annual dinner and business meeting at the Curtis hotel Monday evening, May 20. Florence McNeill '30A, 1463 Hewitt avenue, St. Paul, was in charge of arrangements.

The Twin City alumnae association of Chi Omega sorority conducted its final meeting of the year Tuesday, May 21. It was a picnic with an initiation ceremony for the outgoing senior class from the active chapter. Those initiated were Marjorie Selbert, Olive Smith, Ann Gilbertson, Margaret Hanson, Phoebe Hallenberg, Mavis Norris, Clara Lohman, Maxine Slingsby, Marcella Kalash, and Alice Van Deuser. Mrs. Edith Cardle had charge of the ceremony. Mrs. Janet Kuntz and her

committee made all the arrangements for the lunch. Mrs. Betty Broman Pike was in charge of the reservations.

Eleanor J. Poucher '26A was honored recently at a miscellaneous shower given by Ruth Cumming and Jeanette Latta '32A at the home of Miss Cumming, 1031 Fourteenth avenue south, Minneapolis. A bridge and shower was given for Miss Poucher by Lillian Feetham '28Ed, 200 West Thirty-fourth street, on Tuesday, May 14. The wedding of Miss Poucher and Clayton A. Gay, of Morris, Minnesota, was to take place June 6.

Alice Rorrison Austin '30A, '30N, writes: "I haven't much news about myself except to say that I am still with the Detroit Department of Health as a Field Supervisor of Public Health Nurses. I will be at the University of Michigan again this summer, as last, working on my master's in public health.

"I see Libbie Polivka '31Ag frequently. She is a member of the Harper Hospital staff of dietitians here in Detroit. I also see Johanna Kuharsky '23Ed, who is physical education instructor at the Ninneus Intermediate School here in Detroit."

New and retiring executive board member of the Minneapolis College Women's Club recently were guests at the home of Mrs. Carroll K. Michener, 1203 Mount Curve avenue. Plans for the summer were outlined.

Among the newly appointed section chairmen are Mrs. Robert H. White (Claire Horner '25Ex), international relations, and Mrs. Lee L. MacLellan (Irma Baker '20Ag), drama. Louise B. Boos '32Ag, is the new chairman of the junior group. Mrs. Kingsley Day (Margaret Wagenhals '23A), junior group leader last year, will serve now as the club's chairman.

Mrs. Frank M. Warren (Alice Rockwell '04A) will be historian, and other new chairmen include Mrs. Carl W. Waldron (Cora B. Fossen), circulating library, and Mrs. A. N. Bessesen, Jr. (Eva Matson '23N), press chairman. Anne Brezler '14A, is third vice president and chairman of the evening division.

Among the leaders of sections and committees who will continue their service for the second consecutive year are Mrs. Guy S. Ford, chairman of the Dorothy Bridgman Atkinson fel-

lowship; Rewey Belle Inglis '08A, literature; Clara Fanning '01A, '08G, finance, and Mrs. Dayne Donovan (Esther Bofferding), editor of the club's monthly bulletin.

Three graduates of the division of home economics, college of agriculture, forestry, and home economics, have just received appointments as dietitians in eastern hospitals, and one has been appointed a teacher of home economics in a Minnesota high school.

The three dietitians are Ruth Buckman '35Ag, Duluth, to go to the Beth Israel hospital, Boston, in October; Lillian Anderson '35Ag, Minneapolis, to go to the Massachusetts General hospital, Boston, for the summer; Marie Antonson '35Ag, Minneapolis, to go to Mount Sinai hospital, Cleveland.

Abigail Kittleson '34AgEd, St. Paul, goes to Elk River, Minnesota, as a teacher in home economics.

Mrs. Donald Bacon (Willette Brandt), 832 Osceola avenue, St. Paul, entertained Kappa Delta alumnae at a one o'clock luncheon in May. She was assisted by Mrs. J. Raymond Young (Ruth Hobart) of 1685 Wellesley avenue, St. Paul. After the luncheon there was a short business meeting conducted by Mrs. R. S. Durrell, president. Mrs. John Wandmaker is secretary.

The evening group met at the chapter house on the same evening. Hostesses were Mrs. W. Bradley, Mrs. Orma Bond, Mrs. Jess Bowers, and Genevieve Hobart. Gladys Cairncross presided at the business meeting. Marion Schroeder of St. Paul is secretary.

Eileen Thornton '31A, of St. Paul was in charge of arrangements for the annual dinner and election of officers of the University of Minnesota division of library instruction alumni association at Atkinson's tearooms at 6:30 Thursday, May 23. Ruth Hall '30A, president, officiated. Miss Barbara Bell of Minneapolis presented American folk songs following the election.

Twin City alumnae of Theta Sigma Phi, national honorary and professional journalistic sorority, were entertained Wednesday evening, May 22, by Mrs. Norton Breiseth, 5413 Third avenue south, new treasurer. Mrs. K. T. Orr arranged a white elephant book sale. Plans for the annual Founders' day breakfast of the organization to be given in June were discussed.

Mrs. Joseph Ball (Elisabeth Robbins '27A) is running an advertising column on the St. Paul Pioneer Press-Dispatch. She lives at 1121 Fairmount avenue, St. Paul.

Reports of Alumni Officers

MINUTES OF THE MEETING of the

Board of Directors of the General
Alumni Association

Tuesday, May 7, 1935
Minnesota Union

Members present: President Orren E. Safford presiding; Miss Inglis; Messrs. Braasch, Burnap, Bull, Dickson, Martin, Mayo, Netz, Otto, Palmer, Peterson, Pierce, Wallace, Woolley, Wyatt, and Zelle. Others present: Mr. Gibson, editor of the Weekly and Mr. Middlebrook, comptroller of the University.

1. *Minutes of the meeting of March 5.*—The minutes of the meeting of March fifth were approved as printed in the Weekly of April 27.

2. *Report of the treasurer.* — Mr. Wallace reported the action of the executive committee at its meeting held prior to this meeting and commented upon the various items involved. It was voted that the action of the executive committee be approved and that Mr. Wallace be commended for the most efficient way in which the accounts of the Association have been handled.

Voted also that Miss Weaver, secretary to Mr. Wallace, be paid \$75.00 for services rendered.

It was further voted that Mr. Wallace, treasurer, be authorized to sign checks without the counter signature of the president and secretary for the accounts of the Minnesota Alumni Association, that all checks heretofore signed by the treasurer without countersignature be validated and that the secretary be asked to study the constitution with a view to securing an amendment to that effect. The provision of the constitution adopted in 1916 covering this matter proved too cumbersome many years ago and the practice was changed by the Board, although not supplemented by constitutional amendment.

3. *Report on the meeting of the American Alumni Council.*—Mr. Gibson, editor of the Weekly, who was chairman of the Committee on Alumni Magazine Awards, reported briefly on the convention held in Washington April 3-6.

4. *Effect of legislative action on the University program.* — Mr. Middlebrook, university comptroller, was present as guest of the Board and reported the action of the Legislature as it affected the University's welfare. He pointed out that while the University's request was for \$3,275,000 a year, the amount appropriated was \$3,100,000. He also pointed out that the univer-

sity appropriation may be classified under three heads: Maintenance, specials, and buildings, the maintenance figure being by all odds the most important. In large measure the requests involved in the special items were approved, but no new buildings. The roof house for the psychiatric hospital was granted. It was the feeling that on the whole the University fared very well at the hands of the Legislature. Mr. Middlebrook's analysis of the situation and his comments were most interesting.

5. *Report of the secretary.*—(a) *Scroll:* The secretary called attention to the fact that the General Alumni Association had presented three scrolls of appreciation for extraordinary service rendered to the University, to Henry F. Nachtrieb, first president of the General Alumni Association, on the

fiftieth anniversary of his graduation; to Fred B. Snyder, chairman of the Board of Regents for many years, on the fiftieth anniversary of his graduation; to John G. Williams, Regent of Duluth alumni held in his honor. It was suggested that a fourth scroll be perfected and presented this year at the general alumni dinner on June seventeenth. Voted unanimously that this be approved.

(b) *Alumni meetings.* — Attention was called to the following meetings held since the last meeting of the Board: March 8, New York City; March 25, Albert Lea; March 29, Virginia; April 3, Washington, D. C.; April 3-6, American Alumni Council, Washington, D. C.; April 15, Olivia; April 23, Redwood Falls; April 23, New York City, Chemistry graduates; April 26, Bemidji; April 27, New York City, Concert by Amphion Chorus sponsored by University of Minnesota alumni in New York City.

(c) *Commencement and alumni reunions.*—Explanation of the class reunion program was made and the details of the annual dinner and meeting June seventeenth were outlined. It was announced also that there would be a meeting of the alumni advisory committee on June seventeenth in the Minnesota Union.

(d) *Life subscription plan.*—In lieu of waiving the life subscription plan a year ago due to low interest rates and in the absence of any program that permanently ties the outgoing seniors to the institution, the secretary proposed the following:

1. That the University apportion \$2.00 a term out of the fee paid by the student throughout his entire course. At \$6.00 a year, this would amount to \$24.00 at graduation time.

2. That the regents continue to pay \$2.50 for the first year's subscription for each senior, and this with the \$24.00 would make a capital sum of \$26.50.

3. That this sum be invested to produce approximately \$1.25 a year.

4. That the Alumni Weekly be sent for life under this plan for that price.

5. That the plan be endorsed by the university as a part of an educational or a continuing education program.

The Board expressed itself as very much interested in the plan and the secretary was appointed a committee of one to see what might be done to work it out.

Meeting adjourned.

E. B. PIERCE, *Secretary*

Books

BOOKS by seven faculty members will be published by the University of Minnesota Press during the summer and early fall of the present year, the Press recently announced.

Following the symposium on "Government Control of the Economic Order," edited by Benjamin E. Lippincott, assistant professor of political science at the University, which is published this week, will come "Guarding the Frontier: A Study of Frontier Defense, 1815-1825," by Edgar B. Wesley of the history department, and "John Lind of Minnesota," a biography of Minnesota's diplomat governor by George M. Stephenson, also of the history department.

Later in the summer will appear "Dictatorship in the Modern World," a symposium by eight historians, edited

The Committee also ratified action taken in foreclosing the mortgages on following farms, paying of taxes, insurance, foreclosure costs and other expenses of upkeep and operation from principal funds and returning to principal funds all amounts received from lands, whether principal or income, until all farms are liquidated:

Mortgage	Tax, ins. Fel. Costs, Etc.	Total Prin. Investment	Recd. from Land Prin. & Income	Net Bal. Prin Invested.	
Basham	\$2,000	\$564.99	\$2,564.99	\$462.45	\$2,102.54
Murphy	1,000	537.81	1,537.81	73.28	1,464.53
Snelling	2,600	389.31	2,989.31	100.85	2,888.46
Renner	1,200	488.06	1,688.06	1,352.13	335.93
	\$6,800	\$1,980.17	\$8,780.17	\$1,988.71	\$6,791.46

Foreclosed and land sold:

Bays	\$ 800	\$324.91	\$1,124.91	\$1,417.70	Prin. Gain	\$292.79
Glasspoole ...	1,500	595.84	2,095.84	1,303.42	Prin. Loss	792.42

Renner—sold '28 for \$2,500, less '28 crop (balance unpaid on contract, \$1,819.03) and also approved taking Federal Farm Mortgage 3% bonds in the refinancing of the Glasspoole land (\$700 bonds and balance in cash). Received total of \$800.08 and paid commission of \$40 and \$1 for stamps, waiving 180 bushels of wheat from previous crop.

The Committee also approved accepting HOLC and Federal Farm Mortgage Corporation bonds in the following mortgages for full principal and interest in the loans and the taking of the bonds into principal funds at market price on day received (when below par) and crediting difference between par and market to Discount on Bonds Bought, this discount to be held in Principal Funds until bonds cashed and if full principal received this to be turned over to Income Account at that time. Committee also approved purchase by Principal Fund of any odd amounts of bonds received in payment of interest on loans from Income Account at market on day bonds received:

Mortgage	Amount Mtg.	Amt. Bonds Taken Incl. Odd Amounts Bought	Into Prin. Acct. At	Discount
Keegan	\$2,000	\$2,000	Federal Farm Mtg. Corp. 3 %	99½% \$ 10.00
Keefe	2,600	2,725	Home Owners Loan Corp. 3 %	97¾% 71.54

Loud	2,000	2,225	Home Owners Loan Corp. 2¾% ^o	96 89.00

The Committee approved exchange of called Federal Land Bank \$1,000 5% bond for \$1,000, Federal Land Bank 3¼%, due 5/1/55-45 under terms offered by Government, at premium of \$8.10.

The Committee approved payment for premium treasurer's bond.....	\$ 7.55
Postage, registration and stationery, 1934.....	7.13
Payment of Basham tax for 1934.....	25.34
Payment of one-half Snelling tax (received as rent from Snelling).....	23.34

Committee approved letting balance of Kassebaum mortgage of \$200 run to March 15, 1936. This was a \$2,500 loan reduced to \$200, 6% rate.

(Continued on Next Page)

by Dean G. S. Ford of the Graduate School; also Dr. Edith Boyd's "The Growth of the Surface Area of the Human Body"; Professor William Anderson's "Local Government and Finance in Minnesota"; William S. Cooper's "The Late Glacial and Post-glacial History of the Upper Mississippi River"; and a book of the collected papers of the late Professor Harris, entitled "J. Arthur Harris, Botanist and Biometrician."

Government Control

That in the United States as elsewhere, "government ought to embark upon some form of control, as distinct from regulation over the economic order," is the consensus of opinion expressed by the eight contributors to a symposium on "Government Control of the Economic Order," which the University of Minnesota Press will publish June 10.

Benjamin E. Lippincott, assistant professor of political science at the University of Minnesota, who edits the book, says, "The question no longer seems to be whether more extensive control is desirable, but how we are to make effective the greater control that is called for."

The type of control that has been exemplified in the NRA is discussed by Gardiner C. Means and Gerhard Colm, two of the contributors. Means declares that any exact distinction between politics and economics has become impossible during recent years, with governments taking over more and more of the duties and responsibilities that formerly belonged exclusively to industry. "Our problem," he says, "is to create a pattern of organization that is neither capitalism nor socialism."

Emil Lederer, another contributor, writes, "It may be that western states will need to follow the example of Russia if they are to be saved from disintegration. Only the future will tell."

The other authors whose papers appear in "Government Control of the Economic Order" are Otto Nathan, Arthur Feiler, Walter Thompson, and John Thurston.

Naval Heroes

"Sea Dogs of the Sixties," by Jim Dan Hill, will appear in the early fall. This book will consist of the biographies of eight Civil War naval commanders. The author, a "sea dog" himself during the World War and on merchant ships afterwards, is now head of the State Teachers College at Superior, Wisconsin.

Committee approved extension of \$100 installment of principal due on Semrud mortgage due November, 1933, to maturity of loan, November 22, 1936, 6%. He has kept interest and taxes up to date.

Committee approved investing \$3,000 in following bonds, out of the some over \$12,500 on hand for investment (Erie \$1,000 equipment having come due since May 1st and which will probably be paid):

\$3,000 Willmar & Sioux Falls 5% First Mtg. due 6/1/38 at 103 $\frac{3}{8}$ plus $\frac{1}{8}$ basis.

Committee approved extension of Todd mortgage for \$1,450 with \$50 payable semi-annually if loan cannot at this time be further reduced.

Committee directed that the Treasurer use his discretion in handling Pust loan and that he pay for some insurance if in his discretion it seemed advisable.

Meeting adjourned.

E. B. PIERCE, Secretary.

**MINNESOTA ALUMNI ASSOCIATION
SUMMARY OF INVESTMENTS AS OF MAY 1, 1935**

Minneapolis mortgages at face. (See list minutes of Ex. Com.)	\$19,540.42	
Pust Mtg., Richland Co., Mont. (very little value probably)	2,500.00	
Bonds as listed for Executive Committee, this date—		
Face of bonds	\$54,525.00	
Less discount when bought	479.96	54,045.04
Real estate at face mortgage. (See attached list for amount actually in these lands.)		
Murphy land	\$ 1,000.00

**Brief Notes About
Minnesota Alumni**

12,000 Minnesotans read this department
each week for news of friends of College
days.

1880

The "Grand Old Man" of Minnesota's bench and bar, Associate Justice Andrew Holt '80A, of Minneapolis, celebrated his eightieth birthday on May 20.

Dean of the Minnesota Supreme Court, Justice Holt's six associates on the bench consider him their youngest member as far as work is concerned. He rises early every morning, is on the street car before 6 a. m. for a 12-mile ride from his home at 324 Prospect avenue to the state capitol, and in his office by 7 a. m. Most of his time on the streetcar is spent reading briefs.

Justice Holt was admitted to the bar in 1881 and in 1894 he was appointed a municipal court judge in Minneapolis. Eleven years later he was elected to the Hennepin district bench and in 1912 he was appointed an associate justice of the Supreme Court. Of the entire body of Minnesota's decision law, that is the law as interpreted by the high court, Justice Holt himself has written about 5 per cent, or 1,000 decisions.

Tall, spare, gray and bearded, Justice Holt is a typical "gentleman of the old school." He is known to two generations of Minnesota lawyers for his kindly wisdom, tolerance and un-failing good humor. Hundreds of persons in the Twin Cities know him by sight because of the white lawn bow-tie which he habitually wears.

1896

Dr. Helen Hughes Hielscher '96Md, of Mankato, originator of Poppy day, observed throughout America, and one of Minnesota's leading women, died Friday, May 31, at St. Joseph's hospital, where she had been ill with bronchial pneumonia. She was seventy-two years old.

"Dr. Helen," as she was known to all World war veterans, had led an active life as one of the state's first woman physicians, a founder of the American Legion Auxiliary and sponsor of the work of several Catholic organizations.

She began her practice at Blue Earth, Minn., but later she and her sister, Dr. Jane Hughes Sullivan, es-

tablished the first maternity hospital at Mankato. In 1910 she was married to Dr. J. A. Hielscher and they practiced together until America entered the World war. He went abroad in the war and she carried on the practice in his absence. She retired from practice upon his return and took up the cause of the "boys" returning from France.

"Dr. Helen" is survived by her husband, her sister, and a brother, Rev. Robert Hughes of St. James, Minn.

1910

Bridget Hayes '10Ed was one of the speakers at the membership drive luncheon of the Twin City circle of the International Federation of Catholic Alumnae last week in the Woman's City Club, St. Paul.

1916

Dr. Dora V. Smith '16A, '19G, of the University of Minnesota went to New York with her mother late in May to meet Mrs. Robert Bell of London, sister of Mrs. Smith. They planned to spend a little time in the east before returning to Minneapolis.

1917

Oliver S. Powell '17A, was chairman of the committee which arranged the thirty-seventh annual banquet of the Minneapolis chapter of the American Institute of Banking held recently at the Nicollet hotel. Mr. Powell is with the Federal Reserve Bank.

1920

Samuel M. Gofen '20A, of the firm of Gofen and Glossberg, investment counsellors, announces the opening of their new offices in Suite 746, Field Building, 135 South LaSalle street, Chicago. Since his graduation Mr. Gofen has been engaged in the investment business in Chicago. He organized his own investment counsel firm in July, 1932, and just last month expanded and opened new offices.

1922

Carl O. Nelson '22Ed, for the last seven years superintendent of Randolph, Minnesota, public schools and formerly a teacher in schools of Cambridge, Brownton, Becker, Backus, and Howard Lake, Minnesota, died Sunday, May 28, in Randolph after a brief illness. A lifetime Minnesota resident, he was born fifty-seven years ago at Big Lake. He was a member of University lodge No. 316, A. F. &

A. M. Surviving him are his wife, two sons, Clarence B. and Wendell H. Nelson, two brothers, two sisters, and two grandchildren, all of Minneapolis.

Mr. ('22B) and Mrs. C. E. Black (Erna Archambo) of Cannon Falls, Minnesota, announce the birth of a son on Tuesday, May 14.

1923

The engagement of Muriel Moore '23Ag, of St. Paul, to Philip Mullenbach, of Chicago, was announced recently.

1924

Mr. ('24E) and Mrs. Charles Russell Hiers (Margaretta Vanstrum '26Ex), 4518 258th street, Great Neck, Long Island, New York, announce the birth of a son, Stuart Russell, on May 7. Mrs. Hiers is a member of Alpha Delta Pi sorority.

The Waukon Republican and Standard, Waukon, Iowa, owned and edited by Albert S. Tousley '24, published on May 29 an issue thought to be unique in journalism. It contained the picture of every graduating senior of the six public and one parochial high school in Allamakee County, and the Waukon Junior College, 195 in all, together with pictures of class advisors, superintendents, athletic teams and other features pertaining to the schools. The week previously the same paper published the seventieth anniversary edition for Hale and Sons, oldest business firm in Waukon. D. C. Hale '22A is the oldest of three brothers now operating the store founded by their grandfather. All cuts appearing in both issues were made by the engraving department of the Waukon Republican and Standard, installed two months ago, the first engraving plant of any country weekly in the eastern half of Iowa, and the only one in the state operated by one newspaper.

Victor Christgau '24Ag, of Austin, former Minnesota congressman, was appointed works progress administrator for Minnesota in connection with the new work relief setup. Mr. Christgau will be in charge of the nine districts into which Minnesota has been divided in carrying out the administration's program.

Minnesota's nine districts under the plan will have headquarters in Minneapolis, St. Paul, Duluth, Brainerd, Rochester, St. Cloud, Thief River Falls, Morris and New Ulm. Similar districts were named in other north-west states.

Mr. Christgau formerly was an assistant administrator of the AAA and

was closely associated with Jerome Frank, chief AAA counsel, who resigned. The former Minnesota congressman resigned his post early in the year.

1927

Mary Constance Kasenow of St. Paul will be married to Robert M. Conlogue '27B, also of St. Paul, on June 15 at St. Mark's Catholic church. Miss Kasenow is a graduate of St. Joseph's Academy and a student at the College of St. Catherine.

Dr. L. H. Fredricks '27Md, Bismarck, North Dakota, has been admitted as a member of the American College of Physicians.

1928

Mr. ('28L) and Mrs. William L. Prosser, 2824 Irving avenue south, and their two sons will spend the late summer in Boulder, Colorado, where Mr. Prosser will lecture during the second half of the Colorado University summer session. Mr. Prosser is a professor in the law school at Minnesota.

Mrs. George R. MacInnes (Cecile Yelland '28Ag) of Cleveland was matron of honor at the marriage of her brother, John Duane Yelland, and Mary E. Monley which took place June 4 in Minneapolis. Mrs. MacInnes and her sons, John and Dick, arrived late in May and are guests of Mrs. MacInnes' parents, Mr. and Mrs. John W. Yelland of Minneapolis. They will be here for a month.

1929

Joseph Knutson '29Ed, and Harold L. Melgaard were married Friday morning, May 17, in Holy Trinity Episcopal church. The occasion also was the wedding anniversary of Mr. and Mrs. Caradoc Rees (Mildred Melgaard) of Los Angeles, brother-in-law and sister of the bridegroom. A wedding breakfast for the members of the two families at the Nicollet hotel followed the ceremony. Mr. and Mrs. Melgaard motored north on their wedding trip and will be at home after June 15 at 3957 Grand avenue.

George B. Smith '29Ed, '30G, is being awarded his Ph.D. degree at the June commencement at Columbia University. He and Mrs. Smith plan to spend part of the summer in Minneapolis.

Mrs. Carl Englehorn (Evelyn E. Dickinson '29A, '30G) and son, Carl Louis, Jr., will visit Mrs. Englehorn's parents, Mr. and Mrs. W. A. Dickinson, during June. She will then join Mr. Englehorn in Huron, South Dakota.

Why Go Elsewhere and Pay More?

Invest wisely in yourself and in your earning power. Your summer session at the University of Minnesota pays abundant dividends in preparation for a better position—in a freshened outlook and broader viewpoints—in health and happiness, too. For Minneapolis lies at the threshold of the famed Ten Thousand Lakes vacation land. It's a city of remarkable beauty, cultural and recreational advantages.

A Course for Adult Education Leaders

The University of Minnesota offers for the first time a formal course of training in Adult Education. Special courses in Sociology, Emergency Education, Child Welfare, Public Health, Physical Education, Play Production, Home Economics, Music and many others of value in the adult education movement.

The University of Minnesota offers you a faculty of 250 selected educators, with 600 courses leading to baccalaureate or advanced degrees.

To round out your summer session, there are special lectures, recitals, plays and excursions. Fees and living expenses are moderate.

First Term: June 17 to July 27.

Second Term: July 27 to August 31.

*Ask for special bulletin in your field, or
write for complete bulletin to: Dept. 13*

DIRECTOR OF SUMMER SESSION
236 Administration Building

UNIVERSITY of MINNESOTA

Minneapolis

Minnesota

1930

Nina Mae Hill '30Ag, will be an early July bride. Her engagement to Lieutenant Theodore William Parker of Minneapolis has been announced. Miss Hill is a member of Pi Beta Phi sorority. Lieutenant Parker is stationed at the United States Field Artillery School at Fort Sill, Oklahoma. He is a graduate of West Point, class of 1931.

The engagement of Harriet Donna Blake '30A to Raymond H. Simpson of Indiana, Pennsylvania, and New York City, has been announced. The wedding is to take place today, June 8, in New York. Miss Blake is a graduate of the school of music and is first vice president of Mu Phi Epsilon honorary music sorority. She is well known in musical circles as a violinist. Mr. Simpson is a graduate of Columbia University and is now on the faculty of Barnard College.

Alice Rorrison Austin '30A, '30N. See Woman's Page.

1931

The engagement of Katherine Anne Evenson '31Ed, of Osakis, to Newman Everett Olson '28Ed, of Virginia, Minnesota, has been announced. They plan to be married this summer. Miss Evenson is a member of Delta Delta Delta and of Phi Lambda Theta sorority. Mr. Olson is a member of Alpha Tau Omega and Phi Delta Kappa fraternities.

David Driscoll '31 has, for the past few months, been connected with WFIL, Philadelphia, an NBC station, in the capacity of announcer and production man. His address is the St. Francis Hotel.

Ruth Corneille Dickson '31A, and Everett A. Drake '31A, '33L, were married Saturday evening, May 25, at Westminster Presbyterian church. Mrs. Carroll J. Dickson of Brooklyn attended her sister-in-law as matron of honor. Lucille Cless of St. Paul was maid of honor, and Leslie Phillis of Milwaukee and Clarice Drake of St. Paul, bridesmaids. Mr. Drake had chosen Roger Hayes of St. Paul as his best man. Ushers were Carroll J. Dickson '27L, of Brooklyn, Stanley H. Dickson, Bernhard Grangaard, Malcolm Manuel, Myron McMillan, and James Erickson. A reception followed the ceremony at the home of the bride's parents. Mr.

Western Electric

Leaders in

Sound Transmission

and Mrs. Drake will be at home at 2219 Bryant avenue south, Minneapolis, after completing their wedding trip through Kentucky and Tennessee.

Another engagement recently announced is that of Mary Elizabeth Whitcomb '31A, to Dr. Harold S. Eberhardt '31D. The wedding will take place late in June. Miss Whitcomb is a member of Alpha Gamma Delta and Theta Sigma Phi sororities. Dr. Eberhardt is a member of Tau Kappa Epsilon and Psi Omega fraternities.

1932

Mr. ('32Ex) and Mrs. John Grant MacKay (Rhoda Pierce '32Ed) of Minneapolis announce the birth of a son, Grant Cameron, on Friday, May 24.

The engagement of Beth T. Meyer '32B, of St. Paul to Wendall B. Pratt '30Ex, of Minneapolis has been announced. The wedding will take place Saturday afternoon, June 15, at Hennepin Avenue Methodist Episcopal church. Miss Meyer is a member of Kappa Delta sorority and Mr. Pratt is a member of Theta Delta Chi fraternity.

Carlyle Anderson '32B is with the advertising department of Marshall Field and Company, Chicago.

Kathleen Kavanagh '32Ex, and Edward A. Kueppers of St. Paul were married May 25 in the church of the Annunciation. Miss Kavanagh wore a wedding gown of ivory white satin and point d'Alencon lace which her sister, Mrs. Luke Clancy (Helen Kavanagh) of St. Paul, had worn when she became a bride last June. Mr. and Mrs. Kueppers, after a wedding trip east, will be at home June 15 at 1311 Fairmount avenue, St. Paul. Their house was a wedding gift from the bridegroom's parents, Mr. and Mrs. Frank C. Kueppers.

Engaged—Elizabeth Kemerer of Duluth to Dr. William J. L. Porcher '32Md. The wedding will take place this summer. Miss Kemerer is a graduate of Carleton College. Dr. Porcher is now a first lieutenant in the medical reserves, doing service at Fitzsimmons General hospital, Denver, Colorado.

1934

Dr. ('34Md) and Mrs. Marvin J. Miller were drowned Wednesday night, May 29, when their car failed to negotiate a turn on a bridge and toppled into the Mississippi river near Grand Rapids, Minnesota.

Dr. Miller, 24-year-old Pine River hospital physician, and his wife were en route to the cabin of the physician's father in the Grand Rapids section when the accident occurred. The bodies

were recovered by A. P. Peterson of Coleraine, deputy Itasca county coroner, after a farmer had noticed a woman's shoe on the running board of the overturned machine.

Four occupants of a car which followed the Miller automobile spent part of Wednesday night searching for victims of the accident. Darkness prevented them from seeing whether the couple were in the car. It was day before the bodies were recovered.

Mrs. Miller was the daughter of Mr. and Mrs. Patrick J. Corcoran, 2624 Sixteenth avenue south. Until a week previous she had been employed at the Minneapolis General hospital. She had resided with her parents before going to Pine River to join her husband.

She is survived by a daughter, Barbara Vranizan; her parents, four sisters, Mrs. Maurice McCarthy and Frances, Patricia and Agnes Corcoran, and two brothers, Edward and Patrick Corcoran, all of Minneapolis.

Dr. Miller, a graduate of the University of Minnesota, served one year as an interne in the Minneapolis General hospital and in St. Luke's hospital, St. Paul. Three weeks ago he went to Pine River. His home was at Fairmont. Dr. Miller is survived by his parents, a brother and a sister.

Helen Beim '34Ex, and John E. Paulsen '34Ex, were married Wednesday, May 22, in St. Paul's Episcopal church. Harriet Lynch, Miriam Pickett, and Nancy Morrison were bridesmaids, Mrs. Raymond N. Beim (Moana Odell) the matron of honor, and Mary Bohan, maid of honor. The ushers were Raymond N. Beim, Andrew Justus, Roy Dilleen, and John Coppage. After a wedding trip to Asheville, North Carolina, Mr. and Mrs. Paulsen will spend the summer at the home of Mr. and Mrs. Beim at their summer home at Carmen's Bay, Lake Minnetonka.

Mr. ('34L) and Mrs. Arthur Lieberman (Bernice Rauch '34Ed), formerly of Cloquet, are now making their home in Carlton, Minnesota, where Mr. Lieberman will practice law. Mr. Lieberman resigned his position as assistant municipal judge to open his offices in Carlton.

Enid Kathleen Pearce '34A, has set August 3 as the date for her marriage to Erik Ivan Nylander '28Ed. Miss Pearce is a member of Phi Beta Kappa, and both Mr. Nylander and Miss Pearce are members of Lambda Alpha Psi, honorary language fraternity. After a trip through the east they will make their home in Duluth, where Mr. Nylander is professor of modern languages at the Duluth State Teachers College.

Dr. ('34Md) and Mrs. C. Meredith Guernsey (Elizabeth Donovan) announce the birth of a son, James Mere-

dith, on May 18 at Biwabik, Minnesota. After visiting their parents in the Twin Cities, Dr. and Mrs. Guernsey will make their home after July 1 in Rochester, Minnesota, where Dr. Guernsey will begin a surgical fellowship at the Mayo Foundation.

Barbara Feltus '34Ex, and Howard Gibbs '33Ex, were married the last week in May in Minneapolis, and are now at home in Billings, Montana. Mrs. Gibbs is a member of Kappa Kappa Gamma sorority and Mr. Gibbs is a member of Psi Upsilon fraternity.

Carl Nelson '34Ex, is studying at the New York Medical School, Flower Hospital, New York.

Engaged—Violette M. Wold '34Ag, to Neil E. Kiester of Moorhead, Minnesota. Miss Wold is a member of Gamma Omicron Beta sorority.

E. Jane Acker '34Ex, and Harlan B. Taylor '31Ex, of Mankato spoke marriage vows Saturday evening, May 18, in Minneapolis. Virginia Blundell of St. Paul was the maid of honor and only bridal attendant. Ward Thomas attended the bridegroom as best man.

Engaged—Helen Louise Huntoon of St. Paul to Dr. Paul Ames Johnson '34Md, of Cloquet, Minnesota. The wedding will take place Saturday, June 22, in St. Clement's Memorial Episcopal church. Miss Huntoon is a graduate of Macalester College and Dr. Johnson of Macalester and Minnesota. He is a member of Phi Chi medical fraternity.

Announcement is made of the birth of a son, Albert Wilson III, to Mr. ('34A) and Mrs. Albert W. Senter '34Ex, of St. Paul on March 22.

Abigail Kittleston '34AgEd. See Woman's Page.

1935

The marriage of Lois Finger '35L, to Arnold E. Severeid '36A, took place Saturday afternoon, May 18, at the home of the bride's parents, Mr. and Mrs. Sherman Finger, 29 Barton avenue southeast. Mrs. Severeid is a member of Zeta Tau Alpha sorority. Mr. Severeid is the author of the recently published book, "Canoeing with the Cree."

The engagement of Betty Reinhard '36Ex, to Frank Brooke of Minneapolis has been announced. Miss Reinhard is a member of Kappa Kappa Gamma sorority.

The engagement of Jewel Price Holmdale '36Ex, to William Edward Blomfield of Minneapolis has been announced. Miss Holmdale is a member of Delta Delta Delta sorority.

Ruth Buckman, Lillian Anderson, and Marie Antonson, all '35Ag. See Woman's Page.

THIRTY-FOUR YEARS

The Minnesota Alumni Weekly is now in its thirty-fourth year of service to graduates and former students of the University of Minnesota. Since its inception in 1901 it has continued from year to year to promote the best interests of the University.

It ranks as one of the leading alumni publications of the country and each week during the school year goes into the homes of more than 9,000 graduates and former students of the University. Each week the news of the institution and of various alumni is carried to graduates in all parts of the world through the pages of this magazine.

The Minnesota Alumni Weekly serves as a vital link between the school and the graduate. Men and women who read the magazine become better acquainted with University activities and with the problems the institution must face.

It is published by the General Alumni Association. The annual dues are three dollars. Every reader is urged to become a regular news contributor.

*I struck a
Match in the Rain —*

*I struck a match amid the rain drops
While there we waited you and I.
A little flame revealed we both liked Chesterfield.
You know—I know—They Satisfy.*

*You smiled and said, "They do taste better"
And I replied, "They're milder, too."
Those words just fit them to the letter.
You know—I know—They're true.*

*And now we're furnishing a cottage
Where we'll be happy by and by.
Because the night we met, you held that cigarette.
You know—I know—THEY SATISFY.*

Chesterfield
