Notes:

- (E) Beginning with the first year class entering in Fall 2004, the Medical School has initiated a guaranteed tuition plan. Medical Students will pay the same amount each semester for 11 consecutive semesters (3 semesters in each of years 1,3,4; 2 semesters in year 2). The amount shown represents the total tuition the entering class will pay over four years.
- (F) "Fees" total includes health insurance beginning in FY 2002
- A) Aggregate national data is not available. These amounts represent the average tuition and fees charged by the 13 Public Medical Schools (excluding Minnesota) which rank in the top 30 in the research rankings. Did not include CA schools in fees amount, nor schools which don't charge for health ins.)
- B) Resource: AAMC from the "2002 AAMC Medical School Graduation Questionnaire".
- C) Not readily available
- D) Medical School graduates enter residency programs where the salaries are all fairly similar. Residency programs are for varying lengths depending on the specialty chosen. Starting salaries are very different once the residency program (and subspecialty fellowship, if applicable) is completed.
- N/A) not available

Note: Comparable institutions include schools of pharmacy that satisfy all three of the following criteria: 1) PharmD program; 2) only program in the state; and 3) research university.

Note: Comparable schools included in "national average": Arizona, Florida, Virginia Commonwealth, North Dakota State, Michigan, Kentucky, Kansas, Nebraska, Washington, Maryland, TN, and CO.

Note: National data for FY00 was not available. Amount reported represents an average of FY99 and FY01 data.

Note: average debt load is for students graduating in May of that fiscal year (e.g., FY02 is May 2002).

Note: in-state students and applicants are those who pay in-state tuition rates. This includes MN, WI, SD and ND until FY05, excludes ND in FY06 and beyond.

* Note: FY06 applicant numbers are incomplete, but correct as of 2-19-07

** Note:

Salary data is from 2005 Minnesota Pharmacist Compensation and Labor Survey, which is conducted every two years.

The survey uses calendar year; accordingly, the salary listed for 2005-06 above is what was reported for calendar year 2005 in the survey.

Salaries listed are base earnings (excluding bonuses, overtime, profit sharing or other earnings) for all Minnesota pharmacists actively practicing for at least 30 hours per week.

Starting salaries in the pharmacy profession have been very close to the salaries for all pharmacists.

Also note: U of M began using PharmCAS national online application system in FY04.
