PURPOSE OF THIS BOOKLET

Each discipline within the health sciences schedules continuing education programs. Many of these programs are for a single discipline. Some, however, are deliberately designed to meet the needs of an interdisciplinary audience, and some, although not designed to be interdisciplinary, may appeal to your specific needs. The booklet provides you with advance information on programs so that you may plan your personal continuing education program. Additional information is also provided in the booklet: where to obtain bulletins on non-health sciences programs; how to access the Health Sciences Placement Service; when to contact the University Hospitals Community Services Program. If you have questions or suggestions concerning interdisciplinary continuing education, or if you wish to discuss any aspect of this booklet, please contact:

William J. Hodapp, Coordinator
Health Sciences Continuing Education
7208 Powell Hall
500 Essex St. SE
University of Minnesota
Minneapolis, Minnesota 55455
612-373-8973

YOUR DISCIPLINE

For questions relating to continuing education in your specific discipline, contact the person representing your discipline on the Health Sciences Continuing Education Coordinating Council. Council members' names appear on page 3. Their addresses are in the Program Contact Persons listing on pages 3 and 4.

HOW TO USE THE BOOKLET

Program listings begin on page 6. Programs are listed by month and by discipline. The following example illustrates the format for each listing:

<u>MEDICINE</u>	3- GENETIC SERVICES FOR THE COMMUNITY
1- October 12-13, 1978	4- Earle Brown Center, St. Paul Campus
2- (I)	5- School of Medicine
	6- Douglas A. Fenderson
	7- Fee to be determined
	8- Physicians, Allied Health personnel

Explanation of sample listing:

- 1- The date(s) when the program will be presented.
- 2- When the symbol (I) appears, the program is designed for or will accept interdisciplinary registration.
- 3- Program title.
- 4- Site where the program will be presented.
- 5- Sponsoring organization(s).
- 6- Person responsible for the program-also the contact person.
- 7- Course fee.
- 8- Limitations, if any, on who may attend the course.

HOW TO REGISTER FOR PROGRAMS

These listings are designed to aid you in planning your continuing education participation for a six month period. If you are on a regular mailing list for your discipline, you will receive notice of each program according to a mailing schedule which that discipline has established. If you are *not* on a regular mailing list for the program in question, write to the contact person for that program and ask for a brochure. Specify the title and date(s) for the program. The address of all contact persons appears on pages 3 and 4.

NEW FEATURES

This publication of Continuing Education Programs for the Health Professions contains two new sections:

ACCREDITATION FOR NURSES - A statement on the new mandatory continuing education requirement for nurses appears on page 5.

FUTURE PROGRAMS - The purpose of this booklet is to assist you in planning your future participation in continuing education. A listing of selected programs which will be offered after January 31, 1979 appears on page 25 to assist you in this activity.

DIABETES: CURRENT CONCEPTS, PART II
MOTIVATIONAL DYNAMICS FOR NURSE MANAGERS
RESPIRATORY NURSING ASSESSMENT

Program schedules and sites available on request. Contact Sharon Vegoe, Program Coordinator. (See Program Contact Persons list, page 3.)

ACCREDITATION FOR NURSES

It is the responsibility of each participating nurse to determine to what component of professional nursing each workshop applies, and to determine if each continuing education offering meets Board of Nursing criteria. The University of Minnesota School of Nursing will submit all offerings to the Minnesota Nurses' Association Committee on Continuing Education Approval Programs as well as strive to meet all criteria of the Board of Nursing. Contact hours as well as CEU's will be listed on each brochure. The first participation period for accumulating contact hours is June 1, 1978 to May 31, 1980. For further information on content, registration and fees, contact Sharon Hoffman, Director, Continuing Education in Nursing or Sharon Vegoe, Program Coordinator. (See Program Contact Persons list, page 3).

NOTE: Programs in this booklet are listed two ways:

1. Sequentially, month by month.

2. Alphabetically by discipline.

Those programs within a specific discipline which are prefaced by an ① are either designed for, or will accept interdisciplinary registration. Please check the last line of each listing to determine whether or not there are restrictions on learner registration.

Director, Department of Independent Study
25 Wesbrook Hall
University of Minnesota
77 Pleasant Street SE
Minneapolis, Minnesota 55455
(612) 373-3256

Community Services
University Hospitals

The Community Services Program is designed to bring the University Health Sciences staff and other resources to health care agencies throughout the state. The service is usually provided in the community, and the goal is to establish on-going relationships between health care agencies and the University. Although service is brought to the community, staff from the community may spend time at University Hospitals to gain experience in specialty areas such as rehabilitation, coronary care, intensive care, housekeeping and maintenance, and with various methods of health care delivery.

The most important component of the Community Services Program is flexibility. The program is designed to provide any type of assistance within the capabilities of the Health Sciences Center. Some examples of the types of service available are:

- Inservice programs for health agency staff
- Seminars for medical staff
- Organizational review and staff development
- Specialty area work experience
- Inservice resources pool --

Administration; Central Supply; Housekeeping and Maintenance; Medical Records; Medical Staff; Nursing; Nutrition (dietary); Occupational, Physical and Speech Therapy; Operational Analysis; Pharmacy; Rehabilitation; Social Service; X-ray; and other Health Sciences resources.

The program is funded through the state legislature, and normally there is no charge for the service.

If you are interested in this service or would like to know more about it, please contact:

Cleo E. Issendorf, R.N.
Coordinator
Community Services Program
University of Minnesota
Box 457 Mayo Memorial Bldg.
