PURPOSE OF THIS BOOKLET

Many of the health sciences continuing education programs are developed for a single discipline. Some, however, are deliberately designed to meet the needs of an interdisciplinary audience, and some, although not designed to be interdisciplinary, may appeal to your specific needs. This booklet provides you with advance information on all types of programs so that you may plan for your personal continuing education. Additional information is also provided in the booklet: where to obtain bulletins on non-health sciences programs; how to access the Health Sciences Placement Service; when to contact the University Hospitals Community Services Program or its Management Development program. If you have questions or suggestions concerning interdisciplinary continuing education, or if you wish to discuss any aspect of this booklet, please contact:

William J. Hodapp, Coordinator
Health Sciences Continuing Education

HOW TO USE THE BOOKLET

Program listings begin on page 7. Programs are listed by month and by discipline. The following example illustrates the format for each listing:

PHARMACY

- | | |
|----------------------|---|
| 1- March 23-24, 1979 | 3- PRACTICAL ASPECTS OF PARENTERAL AND ENTERAL NUTRITION: THE TEAM APPROACH |
| | 4- Health Sciences Unit A |
| | 5- College of Pharmacy/School of Medicine/School of Nursing |
| 2- (I) | 6- Thomas McKennell |
| | 7- \$50 |
| | 8- Dieticians, Nurses, Pharmacists, Physicians |

Explanation of sample listing:

- 1- The date(s) when the program will be presented.
- 2- When the symbol (I) appears, the program is designed for or will accept interdisciplinary registration.
- 3- Program title.
- 4- Site where the program will be presented.
- 5- Sponsoring organization(s).
- 6- Person responsible for the program--also the contact person.
- 7- Course fee.
- 8- Limitations, if any, on who may attend the course.

HOW TO REGISTER FOR PROGRAMS

Programs in your discipline:

If you are on a regular mailing list for your discipline, you will receive notice of each program according to a mailing schedule which that discipline has established. For questions in your discipline, contact the person representing your discipline on the Health Sciences Continuing Education Coordinating Council (see page 1). For their addresses see pages 5 and 6.

Programs from other disciplines:

If you wish to receive information, or register, for programs not in your discipline, write or call the contact person listed with each program. Addresses and phone numbers for these contact people are listed on pages 5 and 6.

FUTURE PROGRAMS

The purpose of this booklet is to assist you in planning your future participation in continuing education. A listing of selected programs which will be offered after August 1979 appears on page 32 to assist you in this activity.

COURSE LISTINGS

Note: Programs in this booklet are listed two ways:

1. Sequentially, month by month
2. Alphabetically, by discipline

Those programs within a specific discipline which are prefaced by an ① are either designed for, or will accept interdisciplinary registration. Please check the last line of each listing to determine whether or not there are restrictions on learner registration.

COMMUNITY SERVICES
University Hospitals

The Community Services Program is designed to bring the University Health Sciences staff and other resources to health care agencies throughout the state. The service is usually provided in the community, and the goal is to establish ongoing relationships between health care agencies and the University. Although service is brought to the community, staff from the community may spend time at University Hospitals to gain experience in specialty areas such as rehabilitation, coronary care, intensive care, housekeeping and maintenance, and with various methods of health care delivery.

The most important component of the Community Services Program is flexibility. The program is designed to provide any type of assistance within the capabilities of the Health Sciences Center. Some examples of the types of service available are:

- Inservice programs for health agency staff
- Seminars for medical staff
- Organizational review and staff development
- Specialty area work experience
- Inservice resources pool --

Administration; Central Supply; Housekeeping and Maintenance; Medical Records; Medical Staff; Nursing; Nutrition (dietary); Occupational, Physical and Speech Therapy; Operational Analysis; Pharmacy; Rehabilitation; Social Service; X-ray; and other Health Sciences resources.

The program is funded through the state legislature, and normally there is no charge for the service.
