TRANSFORMING THE U: STATE OF THE U ADDRESS, presented by President Bruininks April 5, recognized the hard work, perseverance, and ingenuity of staff and faculty members over the first two years of the strategic positioning effort. The president called for persistence in the face of current challenges, including rising standards and expectations. "We aspire not to ranking but to stature," he said, which "requires a deep and abiding cultural commitment to excellence in everything we do." TRANSFORMING THE U: A tuition reform plan, unveiled before a review of the proposed 2007-08 budget during the Board of Regents meetings June 7-8, would soften the burden of tuition for students systemwide. Four main components are (1) establishing a 13-credit band at UMC, UMD, and UMM, similar to UMTC's; (2) setting tuition at UMD and UMM lower than at UMTC; (3) reducing nonresident and nonreciprocity tuition rates for undergraduates at UMD and UMTC; and (4) seeking a change in the reciprocity agreement with Wisconsin. A public forum on the budget--including the tuition reform recommendations--will be held today, and final action will be taken at a special meeting of the board June 27. Read more about the plan and highlights of the Board of Regents meetings at http://www.umn.edu/umnnews/Feature_Stories/Bruininks_unveils_tuition_reform_plan.html.

FIVE NEW REGENTS PROFESSORS are Frank Bates, chemical engineering and materials science; Richard Leppert, cultural studies and comparative literature; Elaine Tyler May, American studies and history; Matt McGue, psychology; and Peter Reich, forest resources. The contract is for six years with the option to renew; by digitizing up to 1 million U volumes, the value to the U could reach \$60 million. REGENTS PROFESSOR PROFILE: RICHARD LEPPERT, professor of cultural studies and comparative literature, works in a world of ideas as expansive as the North Dakota plains where he grew up. As a teen, he sang for three years to save up to see Europe. Today, he's the author of 10 books translated and used around the world, including a surprise top seller in musicology on the German intellectual Theodor Adorno. Read more about Leppert in "[Expanding horizons](#)," the fourth profile in a series on five new regents professors named this summer.

U RESPONSE TO THE I-35W BRIDGE COLLAPSE Aug. 1 between the east and west banks of the Mississippi River adjacent to UMTC in Minneapolis involved countless employees and students living in the surrounding neighborhoods. To date, none of the fatalities or those missing have been identified as U faculty, staff, or students. The entire U of M Police Department was deployed in response; four UMD police officers came to assist with security. The Department of Emergency Management's mobile command post and U ambulances were deployed, and at least 40 victims were treated at the U of M Medical Center immediately downstream of the site. A joint information center for agencies including FEMA, NTSB, MnDOT, state and city law enforcement, and Metro Transit is located in the Law School's Mondale Hall. I-35W has been the primary access artery for UMTC in Minneapolis. Watch for [updates](#).

[President Bruininks lauded Congress](#) and members of Minnesota's delegation who supported the legislation, considered key to long-term U.S. economic competitiveness.

[DUAL-CAREER SERVICES](#) are available for spouses and partners of prospective and new faculty and staff who have relocated to the U during the past year. The Relocation Assistance Program eases the transition for families by providing information on moving companies, housing, child and elder care, school systems, spouse/partner employment, and diversity and community resources.

PEOPLE: An honorary doctorate for Nobel laureate Paul Nurse, in whose lab former College of Biological Sciences dean Pete Magee worked; a Blaise Pascal Chair for International Research for theoretical physics professor Mikhail Shifman; Clinical Scientist of the Year is UMD professor of pathology Kent Froberg; a new regional extension educator in community economics at UMC; new coaching staff at UMM.
